

From the Chair's Desk

WELCOME

Dear MIMM members,

April is here and with it, the hope that the "neverendum" winter will go away!

Also here is the end of the 2013-14 Academic Winter Term, with Final Exams around the corner and Convocation soon after.

This month, allow me to use these few lines to praise our undergraduate students. We are very fortunate to have such an amazing group of bright and driven students in our department. They project the excellence of our department not only locally but abroad in laboratories in Germany or USA, or in the field in Africa or South East Asia. And with them, our work covers a new dimension. To all of the undergraduate students in Microbiology and Immunology, our sincere thanks.

I also would like to recognize the work that the Microbiology and Immunology Undergraduate Student Association, MISA, is doing to promote and nurture the departmental spirit, through many different activities. Our sincere thanks go to the executive MISA.

Finally, don't forget to buy your tickets for the 3rd Annual MIMM GALA, this coming Friday, April 4/2014 at 6pm in the Faculty Club. More attendees than ever before and more to celebrate than ever before!

Yours in service,

Quim
