MIMM 509 Inflammatory Processes

Description
This seminar/reading and conference course concentrates on the innate immune response, autoimmunity, and current research into the inflammatory response, areas not adequately covered by the other immunology courses presented at the University. This course promotes interactions between guest researchers (from McGill and other universities) and students. Please note there is a cap of 14 students. Classes are given at the Lyman Duff Building.

3 credits - Winter Term
Recommended Prerequisite: Immunology MIMM 314
Recommended Co-requisites: Cellular Immunology PHGY 513; Advanced Immunology MIMM 414
Lectures/Seminars: T 10:35 - 12:55
Location: Lyman Duff Building, Room 507/509 (unless otherwise indicated)

Details

Course Coordinators
Dr. Joyce Rauch
Research Institute of the McGill University Health Centre
Centre for Translational Biology
1001 Decarie Blvd,
Block E (EM2.3244)
Montreal, Quebec H4A 3J1
Tel: (514) 934-1934, ext. 42149
E-mail: joyce.rauch@mcgill.ca

Dr. Giovanni Di Battista
Research Institute of the McGill University Health Centre
Centre for Translational Biology
1001 Decarie Blvd,
Block E (EM2.3232)
Montreal, Quebec H4A 3J1
Tel: (514) 934-1934, ext. 34401
E-mail: john.dibattista@mcgill.ca

Course Lecturers
See course schedule - MIMM 509_2019_Schedule_111918

Evaluation
• 20% on oral presentation
• 20% term paper
• 25% on presentation of the assigned papers
• 10% on class participation
• 25% on midterm examination

Readings
• 2 assigned papers per session

Topics
• cellular changes/response to injury
• inflammatory mediators
• acute phase response
• spectrum of diseases with an inflammatory component
