

Wired Network Upgrade: 162A 546 Pine

PLANNED NETWORK SERVICE INTERRUPTIONS

JANUARY 29, 2019

**The Wired Network Upgrade will begin in 162A 546 Pine.
Please refer to the information below for details.**

WHAT IS HAPPENING	<p>We are in the process of upgrading the Wired and Wireless Network across the University. This process, applied building by building, affects occupants at different times during the Upgrade. The result is improved speed, security and coverage of the wired and wireless network service in these buildings and throughout the University.</p> <p>On January 29, 2019, 162A 546 Pine will receive the Wired Upgrade. ITS NCS Technicians will be onsite to perform the work, and service interruptions to the wired and wireless network will occur during this time (see Schedule section below). The work in scope will require access throughout the building (i.e. labs, closets, classrooms).</p>						
ACTIVITIES	<p>Two main activities occur during the Upgrade:</p> <ol style="list-style-type: none"> Wired Network migration: Upgrade of the wired network equipment, including cabling, access switches, and power supply devices –NO wired or wireless network connectivity during activity <p>In addition, the following activities are planned in each building and will not cause any interruption to network service:</p> <ul style="list-style-type: none"> Prior to the Upgrade: Delivery of equipment to building, network room audit, etc - occurs several days to weeks prior to the migration date and during business hours After the Upgrade: Clean up and audit by Project team
