

Making Open Neuroscience Infrastructures Interoperable 3.0

March 18, 2020

Virtual Program

- 2:00pm **Welcome – Opening Remarks**
Jean-Baptiste Poline, PhD, Program Chair, The Neuro, McGill University, Montreal, Canada
- 2:15pm **Designing neuroinformatics infrastructures for optimal neuroimaging research**
Erin Dickie, CAMH, Department of Psychiatry, University of Toronto, Canada
- 3:00pm **Connecting major open data projects with computational resources using Brainlife.io**
Franco Pestilli, Department of Psychology, University of Indiana, USA
- 3:50pm **The Repronim NIH centre solutions to reproducibility challenges in life science studies: from data acquisition to study publication**
David Kennedy, University of Massachusetts Medical School, USA
- 4:40pm **NeuroHub and the Canadian Open Neuroscience Platform: Act locally, think globally**
Jean-Baptiste Poline, McGill University Neuro-Data-Science Laboratory, The Neuro, Canada
- 5:10pm **Q & A – Discussion (To be done through the chat function on Zoom)**
- 5:30pm **Closing Remarks** (Jean-Baptiste Poline)
