**JOB DESCRIPTION & OTHER INFORMATION**

This clinical course focuses on nursing care related to pregnancy, labor and delivery, infant transition to extra-uterine life, post-natal recovery, and the taking on of parenting roles within a young family developmental perspective. It provides a context for students to purposefully practice and reinforce learning in the 6 CASN domains (knowledge, communication/collaboration, research, professionalism, clinical practice, and leadership) in relation to perinatal/family health. Students will integrate theoretical knowledge and skills acquired in previous and concurrent courses.

The Clinical Instructor (CI) will supervise a group of first-year students on hospital maternity units. Details on exact placement areas will be available in early December

**Role Expectations:**

1. Teaches and directly supervises a group of students in fulfilling the course objectives, including patient selection, and facilitating experiences with perinatal patients and their families. Supports student learning by assessing the student's learning style and providing the appropriate teaching strategy.
2. Provides formative and summative clinical performance assessment to students including documenting the students' learning throughout the course.
3. Meets with course coordinators to review course objectives; communicates with the course coordinator about any concerns related to student learning.
4. Works with the clinical unit leadership to promote the best student learning experience possible.
5. Organizes and leads group clinical conference and debriefing
6. Accesses MyCourses regularly and communicates with students by email, as necessary

**Clinical Placement and Hours Details:**

Clinical groups will be on the units for one (1) 8-hour shift per week and may include days, evenings, or weekends. The clinical days are Mondays Tuesdays, Wednesdays and/or weekends. Exact schedule is subject to change depending on clinical placement availability.

**IMPORTANT INFORMATION REGARDING POSTINGS AND APPLICANTS:**

All positions will be posted through the Workday platform.

Current McGill employees must apply via internal postings. These are accessed using the 'Find Jobs' report in Workday.

Applicants who are not current McGill employees must apply via external postings. The website will direct you to create a Workday account. *(This applies for employees who may have had contracts in the past, but do not currently hold an active contract. They cannot apply internally.)*

Please note, applicants must **use a personal email address when creating this account**. Do not use @mail.mcgill.ca or @mcgill.ca email addresses.
