April 12 | 9h-16h

(the same workshop will be offered on both days)

****Breakfast and Lunch
will be provided****

Location: Carrefour Sherbrooke
475 Sherbrooke St W, Montreal, QC H3A 2L9

The **McGill Nursing Collaborative** is pleased to welcome Canadian Nursing Association CEO **Mike Villeneuve** to our leadership policy initiative. Drawing on his extensive experience in nursing care, research, education, leadership and policy, Mr. Villeneuve will lead participants to develop and advance their own policy initiatives.

Save the date *now*, then join us to:

- Hone your systems thinking to help shape the health care system for the future
- Understand how nurse leaders *like you* can influence change and shape clinical practice, care and research.
- Develop analytical thinking by actively examining a nursing practice issue that resonates locally and across the country.
- Create a convincing change agenda to move *your* issue forward.
- Grow your policy and change network.
- Work actively with nurse leader peers to create a collective change initiative.

You must be available for Parts 1 and 2 to register.

To register, please email Gib Primeau by Dec. 17th at gilbert.primeau@mcgill.ca. Please indicate which days you would like to attend for both parts of the workshop.
