

- [Graduate Certificate in Chronic Pain Management \(online learning\)](#)
Chronic pain management is a major and growing challenge for patients, healthcare professionals and the global healthcare system. Deadline to apply for Fall 2020 admission: June 1st
- [Terry Coderre and Lucy Gagliese reflect on their experiences as trainees of Ron Melzack's and what made him such a great mentor.](#)
Pain Research Forum, Terence Coderre and Lucy Gagliese, "In Memoriam: Ronald Melzack (1929-2019). 11 March 2020
- [Gabiella Gobbi interviewed on the connection between sleep and pain](#)
Practical Pain Management, Avery Hurt, Melatonin for Pain, 09 March 2020
- [Jeff Mogil interviewed on altrusim and rat behaviour](#)
National Geographic, Liz Langley, "Rats avoid harming other rats. The finding may help us understand sociopaths." 05 March 2020
- [In an important new find, the Sharif-Naeini lab locates an ion channel responsible for our feeling mechanical pain, opening up a new potential target for therapeutic interventions](#)
McGill Newsroom, 24 Feb 2020, McGill researchers end decade-long search for mechanical pain sensor
- [Louise and Alan Edwards Foundation Calls for Grants in Pain Research, PDF and PhD Studentships](#)
The 2020 Calls from LAEF are out! Check the "Funding" tab on this website for details on Grants, Graduate Studentships and Post-Graduate Fellowships. Deadline to submit: March 16, 2020
- [The Minerbi/Shir gut microbiome study in FM patients makes list of top stories for 2019](#)
Pro-Health.Com, Donna Gregory Burch, A Review of 2019's Top Fibromyalgia Headlines and what they mean of 2020, 17 Feb 2020
- [Ron Melzack's passing noted in The Lancet](#)
The Lancet, Geoff Watts, Ronald Hyman Melzack, 08 Feb 2020.
- [Mathieu Roy discusses his research on the psychology of pain in this student forum.](#)
McGill Tribune, 21 Jan 2020, 29th Edition of Soup and Science
- [A team from Dentistry, including Laura Stone, look at circadian clock genes, anti-inflammatory drugs and healing.](#)
McGill Newsroom, 21 Jan 2020, Our biological clock plays crucial role in healing from surgery
- [Ron Melzack's passing noted in the Science Section of the New York Times](#)
New York Times, Benedict Carey, 12 Jan 2020: Ronald Melzack, Cartographer of Pain, Is Dead at 90
- ["Dr. Ron Melzack has done for pain research and pain management what Einstein did for physics." – Canadian Medical Hall of Fame](#)
Montreal Gazette, Aaron Derfel, 07 January 2020: Tributes pour in for pain-research pioneer Ronald Melzack
- [Jeff Mogil: "He's the most famous and the most prominent pain researcher to have ever lived,"](#)
McGill Reporter, Neale McDevitt, 07 January 2020: Ronald Melzack (1929-2019)

- [Amir Minerbi talks about fibromyalgia and the role the microbiome may play in helping to diagnose the disease.](#)
The McGill Tribune, Miguel Principe, Dec 3rd, 2019, “The gut microbiome in disease and health.”
- [Mary-Ann Fitzcharles on the need for more scientific evidence on cannabis and rheumatoid arthritis.](#)
ACR Daily News, 13 Nov 2019, “Despite the availability and growing popularity of medical cannabis, more clinical evidence is needed”
- [Promoting return-to-work in those with co-morbid MSK pain and depression.](#)
Sullivan, Wideman & Thomas, Oct 2019, IRSST Studies and Research Projects report #R-1044
- [We join the Twitterverse! @AECRPain](#)
Follow the AECRP on Twitter for the latest research news and information from one of Canada’s leading pain research centres
- [QUEBEC NETWORK OF JUNIOR PAIN INVESTIGATORS](#)
The QNJPI mission is to create a forum for trainees studying in Quebec to foster research collaborations across different areas of expertise by facilitating communication among trainees...
- [Catherine Bushnell Fellowship in Pain Research](#)
The Louise and Alan Edwards Foundation of Montreal requests applications for the Catherine Bushnell Pain Research Fellowship.
- [Application Call for a Doctoral Scholarship](#)
The Centre de recherche du Centre hospitalier de l’Université de Montréal is inviting applications for a doctoral scholarship under the direction of Drs Choindre and Lalonde. [\[File\]](#)
- [AECRP has been invited to submit a Phase 2 nomination for a prestigious Canada Excellence Research Chair \(CERC\)](#)
- [Call for CERC position](#)
The Faculties of Dentistry and Medicine of McGill University are inviting applications for a tenured or tenure-track position in the field of Personalized Pain Medicine at the AECRP to fill an outstanding Canada Excellence Research Chair opportunity.
- [Pain Research Forum](#)
Work presented at SfN 2012 by the Sogoula Lab.

- [Dr. Laura Stone: Chronic pain alters DNA marking in the brain](#)

The team led by Prof. Laura Stone and Prof. Moshe Szyf, have discovered a mechanism that embeds the memory of an injury in the way the DNA is marked in the brain by a chemical coating called methyl groups or DNA methylation.

- [International Innovation Healthcare - Issue 17, P26](#)

Inside the Pain Lab: Research led by Dr. Ji Zhang into the immune aetiology of chronic pain is leading to the discovery of a new treatment strategy and drug targets for Chronic Pain patients. [\[File\]](#)

- [Entrevue avec le directeur du Centre Alan-Edwards de recherche sur la douleur de l'Université McGill, Fernando Cervero.](#)

Radio Canada

- [Pain Centre Director Dr. Fernando Cervero discusses Chronic Pain on CBC radio](#)
- [Luda Diatchenko talks about her work and about coming to McGill](#)

A YouTube video interview discussing her new appointment at McGill and the advances for Pain Research that she foresees.

- [Geraldine Longo, Maria Osikowicz and Alfredo Ribeiro-da-Silva: Study points to role of nervous system in arthritis](#)

A new study in the Journal of Neuroscience by researchers at McGill University adds to growing evidence that the nervous system and nerve-growth factor (NGF) play a major role in arthritis.

- ["Understanding Pain": a new book by Fernando Cervero](#)

"Understanding Pain," a book by Fernando Cervero for the general public -as well as for the pain specialist- has just been published by MIT Press.

- The Canadian Foundation for Innovation also has an entry on Dr. Cervero's new book:
- [The Toronto Star:](#)

Internationally-renowned expert Dr. Mark Ware speaks of why he got into researching the effects of marijuana on pain.

- [Meditation: Mindfulness over matter](#)

McGill's mindfulness program is part of a new wave in medical education. This is born out by research conducted by doctoral student Joshua Grant and professor Pierre Rainville at the Université de Montréal's department of physiology

- [World leading expert on Pain Genetics joins McGill](#)

Luda Diatchenko has been awarded a Canada Research Excellence Chair in Human Pain Genetics, the first such Chair at McGill and the first on Pain in all of Canada. The members of the AECRP welcome Luda to their ranks, and look forward to working with her.

- [Researchers discourage rheumatology patients from using cannabis](#)

McGill University Health Centre (MUHC) researchers explore the risks associated with using herbal cannabis for medicinal purposes and advise healthcare providers to discourage rheumatology patients from using this drug as therapy.

- [Pain curbs sex drive in female mice, but not in males:](#)

Findings could help scientists study pain-inhibited sexual desire in humans - McGill Newsroom

- [Graduate Certificate in Chronic Pain Management Online:](#)

Application deadline June 1st. Courses start in September 2015.

- [Understanding And Talking About Pain Is Not Easy](#)
Jul. 2014 Huffington Post - Interview with Dr. Fernando Cervero
- [Gary Bennett named IASP Honorary Member:](#)
Aug. 2014 Congratulations to Gary on being named one of six new Honorary Members. Recognized before the IASP General Assembly of the 15th World Congress on Pain in October in Buenos Aires.
- [IASP Distinguished Lectures](#)
Sep. 2014 The Ronald Mezzack Lecture at the 15th. World Congress in Pain in Argentina was presented by Dr. David Yarnitsky. The award was funded by the Louise and Alan Edwards Foundation.
- [Seeking the Facts on Medical Marijuana](#)
March 2015. The New York Times: An Interview with Dr. Mark Ware
- [Appointment in the field of Pain Research](#)
March 2015. The Faculties of Medicine and Dentistry at McGill University seek a cross-faculty appointment in the field of Pain Research.
- [Tenure track positions in Pain Research](#)
March 2015. The McGill University Faculties of Medicine, Dentistry and Science are inviting applications for full-time tenure track positions at the level of Assistant Professor or Associate Professor.
- [New Director for the AECRP](#)
June 2015. Jeff Mogil has been appointed the new director of the AECRP. Our thanks to Fernando for his many years of hard work and our best wishes for his retirement years. [\[File\]](#)
- [10 Discoveries 2015](#)
Nov 2015 - Quebec Science: Jusqu'ici, pour comprendre la douleur chronique, on a surtout utilisé des souris mâles. Mais surprise! les femelles réagissent différemment. De quoi changer notre manière de comprendre le circuit de la douleur.

Oct 2015 - Seguela lab
- [Strong placebo response thwarts painkiller trials](#)
October 2015. Nature: Potential pain treatments are struggling to prove their worth over a rising placebo effect seen in US trials.
- [Many babies exposed to unnecessary pain in research](#)
October 2015. REUTERS: Babies often suffer unnecessary pain in clinical studies, potentially breaching international standards for ethical research, according to a new review of the medical literature.
- [The Gate Control Theory 50 Years On](#)
November 19 marks the 50th anniversary of the publication of the single most important scientific article in the field of pain, [Pain Mechanisms: A New Theory](#) (Science, 1965), co-authored by Ron Melzack and Pat Wall
- [Mark Ware named to cannabis task force](#)

July 2016 World-renowned pain specialist Dr. Mark Ware, director of clinical research at the AEPMU Unit of the McGill University Health Centre (MUHC), has been nominated vice-chair of The Task Force on Marijuana Legalization and Regulation

- [Chronic pain changes our immune systems](#)

Feb 2016 Epigenetics may bring us one step closer to better treatments for chronic pain

- [Jeff Mogil explains why scientists need to fix the gender gap in animals used for research](#)

Apr 2016 Jeff Mogil, from McGill University, was interviewed by Anna Maria Tremonti on CBC's The Current about the consequences of the gender gap in animal research, as most research is conducted only on male animals.

- [Yoram Shir interviewed on opioid prescription policy](#)

Le Devoir, July 26, 2016 (story in French): a discussion of Ontario's decision to restrict opioid access by removing its coverage under provincial drug reimbursement programs

- [Mark Ware on the new Canadian Marijuana Task Force](#)

Globe & Mail, 18 July 2016: Marijuana task force faces fascinating journey in crafting legal framework

- [Luda Diatchenko & Jeff Mogil, amongst others, discuss the potential for pain genetics](#)

Nature, Outlook, 14 July 2016: Although genetics studies have so far failed to revolutionize pain treatments, some researchers think that a host of discoveries are just around the corner.

- [Non-ranked full-time Contract Academic Associate Position](#)

Faculty of Dentistry, McGill University [[File](#)]

- [Brigitte Kieffer discusses a new type of potential drug](#)

Nature, News & Views, 17 Aug 2016: The development of a drug that mimics the pain-relieving activity of opioid compounds, but has fewer side effects, points to an effective strategy for the discovery of many types of drug.

- [Mark Ware discusses the need for clinical trials to study medical cannabis and its potential to reduce opioid use](#)

Scientific American, Sept 1st, 2016: Could Medical Cannabis Break the Painkiller Epidemic? A body of research suggests yes, but scientists are having to fight red tape to study whether medical marijuana could substitute for opioid drugs

- [Jeff Mogil and others discuss the placebo effect](#)

CNN, 27 Oct 2016: The real -- and growing -- effects of fake pills

- [In a special issue of the journal, Science, Mark Ware and others discuss medical uses for cannabis](#)

Science, 03 Nov 2016: Pot and Pain, Hints are emerging that cannabis could be an alternative to opioid painkillers

- [The Arthritis Society Funds More Medical Cannabis Research Amid Legalization Speculation](#)

Market Wire, 19 Dec 2016, Dr. Mark Ware will lead a trial examining the use of oral cannabinoids for fibromyalgia

- [New tool uses behavioral cues to assess pain in ICU patients who can't communicate](#)

EureKAlert! 3Apr2017. A new Behavior Pain Assessment Tool (BPAT) provides a simple way to evaluate pain in critically ill patients--including those who aren't able to communicate their pain verbally, reports a study in PAIN

- [Diabetes drug may help symptoms of autism-associated condition](#)
ScienceDaily 15May2017. Metformin, the most widely used drug to treat type 2 diabetes, could potentially be used to treat symptoms of Fragile X syndrome, an inherited form of intellectual disability and a cause of some forms of autism.
- [Dr. Marc O. Martel receives the Pfizer Early Career Investigator Pain Research Grant from Canadian Pain Society AND IASP Early Career Research Grant Award](#)
CONGRATULATIONS!
- [Getting to the root of pain](#)
Cell Reports 19(9): 1940-1952 : Pain is an essential part of life, but too often it's a destructive and disruptive part. Parisien and colleagues went to the source (sensory neurons) to identify genetic players in pain. Like and share on Facebook!
- [How this men-only support group helps sufferers struggling with chronic pain and stigma](#)
CBCRadio 15Jun2017: Dr. Richard Hovey, a chronic pain researcher at McGill University's faculty of dentistry, belongs to the Chronic Pain Support Group of Montreal, which is running the pilot project.
- [Tenure-Track Faculty Position Available in Clinical Pain Research](#)
The Faculty of Dentistry is advertising to fill a tenure-track position in the field of Clinical Pain Research.
- [Psychologist Dr. Marie-Josée Rivard's book entitled "La douleur: de la souffrance au mieux-être" was recently released](#)
Chronic pain explained to the general public by a Clinical Psychologist specialist in pain management
- [Much is known about Pain, but scientific advances have yet to translate to significant relief](#)
To celebrate its 10th anniversary, McGill University's Alan Edwards Centre for Research on Pain (AECRP) held a one-day symposium on Wednesday, which featured talks by centre experts and alumni on cutting-edge research in pain.
- [Certificate in Chronic Pain Management:](#)
May 1st. Application deadline for online Graduate Certificate in Chronic Pain Management.
- [Joint position in pain research for the Faculties of Dentistry and Medicine \(Department of Anesthesia\)](#)
The Faculties of Dentistry and Medicine (Department of Anesthesia) are advertising to fill a tenure-track position in the field of Pain Research.
- [Louise & Alan Edwards 2018 Awards Competition launched](#)
Application deadline is March 19, 2018. Details can be found under the "funding" tab for Research Grants, Graduate or Post-Graduate Scholarships
