Liquid Biopsy to track Tumor Progression and Metastasis

Julia Valdemarin Burnier, PhD

Assistant Professor, Departments of Oncology and Pathology, McGill University, Montreal, QC
Principal Investigator, Cancer Research Program, MUHC-RI Montreal, QC.

Julia Burnier is a new Assistant Professor of Oncology and Pathology and a PI at the Cancer Research Program of the MUHC-RI. Her laboratory focuses on the genomic alterations involved in tumor progression and metastasis, with a focus on blood-based liquid biopsy to monitor disease.
