

Pathology Scientific Lecture Series

Monday, April 29, 2019 8:15 am
Glen EM1.3509

New and Emerging Renal Tumor Entities

Kiril Trpkov, MD

Professor, Department of Pathology and Laboratory Medicine, University of Calgary, Calgary, Alberta.

Surgical Pathologist, Rockyview General Hospital, Calgary, Alberta.

Genitourinary Pathology Group Leader, Department of Pathology and Laboratory, University of Calgary, Calgary, Alberta.

Dr. Trpkov is a Full Professor of Pathology at the University of Calgary, Alberta. He is one of the leading Canadian uropathologists and he is a consultant for the Calgary Laboratory Services, Southern Alberta Institute of Urology and the Tom Baker Cancer Center in Calgary, Canada. He obtained his MD degree and completed his training in Anatomic Pathology at the University Kiril and Metodi, School of Medicine, in Skopje, Macedonia. Dr. Trpkov has established the Anatomical Pathology Laboratory at the Rockyview General Hospital in Calgary, Alberta as of the largest centralized uropathology centres in Canada and North America. He has published over 120 peer-reviewed articles, numerous book chapters and other scholarly contributions. He is currently involved as a uropathology expert with several national and international expert panels which establish guidelines in uropathology and prostate cancer. Dr. Trpkov has received several awards for his work. In 2013, he has been awarded the Grawitz Medal for his outstanding contributions to the International Society of Urologic Pathology.
