Hi Everyone.

This week's Departmental Acknowledgement goes to **Moshe Ben-Shoshan** on the occasion of his promotion to Associate Professor.

Moshe is a clinician-investigator who is a member of our Division of Allergy, Immunology and Dermatology. Moshe has made his mark in furthering our understanding of diverse food allergies, a common 'challenge' in child health (that's a pun folks). Moshe has secured substantial external funding and is a publishing machine despite also being an extra-ordinarily busy clinician. Comparisons to the Energizer-Bunny has been made in his case. He has also secured external salary support funding from the FRQ-S.

Please join me in congratulating Moshe on his promotion.

Have a great weekend everyone!
