

October 25, 2019

Hi Everyone.

We continue to play catch-up with honors and noteworthy accomplishments received before the summer. This a great situation for a Chair and the Department to be in!

This week's Departmental Acknowledgement goes to **Chantal Poulin** on the occasion of her receiving the Award of Distinction for Outstanding Contribution to McGill Neurology.

This Award given by McGill's Department of Neurology is for a Faculty or staff member "who has dedicated time, energy, and leadership in a spirit of excellence and beyond the call of duty, to make a tangible difference in many facets of training of the neurology residents (adult and pediatric neurology)".

The above provides a fairly accurate description of Chantal's efforts in education. A long time Program Director for the pediatric neurology residency training program, Chantal has received many teaching awards over the years. Her efforts as PD enabled a training program that attracts, graduates and successfully mentors outstanding subspecialists. Chantal is the first individual from pediatrics to receive this Award.

Please join me in congratulating Chantal on this recognition of her superb contributions over the years.

Have a great weekend everyone!

Michael
