[Glen Site - Block E - RI AUDITORIUM - E S1.1129](#)

1. Acquire insight into the MCH POCUS program, its history, team, teaching opportunities, and notable accomplishments and innovations.
2. Present the international and national training recommendations and requirement of Pediatric Point-of-Care Ultrasound (POCUS) across pediatric subspecialties.
3. Delve into the future directions of innovative research and QI initiative related to pediatric POCUS within the MCH and McGill community.
