Introduction

This publication report was produced for the Department of Pediatrics of the McGill University Health Centre (MUHC); it only includes publications authored by members who are also affiliated with either the Research Institute of the McGill University Health Centre (RI MUHC) or with the Montreal Neurological Institute (MNI).

The following categories of publications are included. For all categories, one of the main sources of information is investigator CV (see Annex for list in investigators having provided an updated CV). To validate CV information, other sources were consulted, depending on publication type, as per below:

Category	Information Source (other than CV)
Peer-Reviewed Article	PubMed ¹ , ISI ²
Peer-Reviewed Clinical Trial Report	
Peer-Reviewed Case Report	
Review Article	PubMed, ISI
Chapter	Library of Congress ³
Book	MUSE ⁴
Conference Proceeding*	Publisher Web Site (see Northern Lights Internet Solutions Catalog ⁵) Kinokuniya Book Web ⁶
Non-Refereed Article	Journal Web Site, Ulrich's International Periodical Directory ⁷
Institutional Publication	Institution Web Site

Publications are grouped according to first RI MUHC author. Authorship priority rule used to attribute publication to first RI MUHC author is as follow⁸:

- First author in authorship list, then last, then second, third, etc.

Applicability of this priority rules remains to be validated with the authors of each publication.

References are also sub-divided according to publication type group; groups are illustrated in table above with thicker borders.

⁶ bookweb.kinokuniya.co.jp/indexb.html (Web Site in Japanese, but Chapter information in original publication language)

⁷ R.R. Bowker LLC, NJ, United States (<http://www.ulrichsweb.com>).

⁸ As suggested by R. Rozen (December 2003: RI MUHC acting Scientific Director) for RI MUHC 2004-2008 Plan of Development publication report.

Letters/comments to editor, editorials, abstracts, “In Memoriam” articles and book reviews are not included.

2006 publications that were originally published electronically in 2005 are included. However, these publications are not included in the total counts of publication (see summary and Annex).

Validation Status

Validation status is defined for each reference in this report as follow:

Status	Explanation	Example (s)
V	Reference found in two sources	Reference was found in Investigator CV and in other source (PubMed, Publisher web site, etc)
PV	Reference only partially verified	Chapter reference was extracted from Investigator CV; book name and year of publication was verified against other source (Publisher web site), but chapter title and authorship was not available in other source
NV	Reference found in only one source	<ul style="list-style-type: none"> Reference was only found in investigator CV Reference was found in PubMed but Investigator CV was not available

Summary

The summary below does not include articles published electronically in 2005, but printed in 2006 (included in the report).

Category Group	Publication Count	Authorship Count *
Peer-Reviewed Articles, Case Reports, Clinical Trials	186	222
Review Articles	30	31
Chapters, Books, Conference Proceedings	23	23
Non-Refereed Articles, Institutional Publications	1	1
Total	240	277

* Authorship count represents the number of occurrences of an RI MUHC member name in Author field.

See Annex for publication summary by investigator.
