August 28, 2007

Introduction

This publication report was produced for the Department of Pediatrics of the McGill University Health Centre; it only includes publications authored by RI MUHC researchers¹.

The following categories of publications are included. For all categories, one of the main sources of information is investigator CV (see Annex for list in investigators having provided an updated CV). To validate CV information, other sources were consulted, depending on publication type, as per below:

Category	Information Source (other than CV)
Peer-Reviewed Article	PubMed ² , ISI ³
Peer-Reviewed Clinical Trial Report	
Peer-Reviewed Case Report	
Review Article	PubMed, ISI
Chapter	Library of Congress ⁴ MUSE ⁵ Publisher Web Site (see Northern Lights Internet Solutions Catalog ⁶) Kinokuniya Book Web ⁷
Book (as editor) or Monograph	
Conference Proceeding*	
Non-Refereed Article	Journal Web Site, Ulrich's International Periodical Directory ⁸
Institutional Publication	Institution Web Site

Publications are grouped according to first Department of Pediatrics author. Authorship priority rule used to attribute publication to first Department of Pediatrics author is as follow⁹:

- First author in authorship list, then last, then second, third, etc.

Applicability of this priority rules remains to be validated with the authors of each publication.

References are also sub-divided according to publication type group; groups are illustrated in table above with thicker borders.

¹ Members having received research funding or having supervised graduate students since July 1, 2002.

² National Library of Medicine, National Institute of Health, United States (www.ncbi.nlm.nih.gov/entrez).

³ ISI Web of Knowledge, Thomson Scientific, United States (<http://www.isiknowledge.com/>)

⁴ catalog.loc.gov

⁵ muse.mcgill.ca

⁶ www.lights.com/publisher/index.html

⁷ bookweb.kinokuniya.co.jp/indexb.html (Commercial Japanese Web Site; Web page content is in Japanese, but Chapter information is in original publication language; This site is used to validate Chapter information when it can not be found in other sources)

⁸ R.R. Bowker LLC, NJ, United States (<http://www.ulrichsweb.com>).

⁹ As suggested by R. Rozen (December 2003: RI MUHC acting Scientific Director) for RI MUHC 2004-2008 Plan of Development publication report.

Letters/comments to the editor, editorials, “In Memoriam” articles, book reviews are not included in this report. Conference presentation abstracts are also not included (though full proceedings are – see table above).

2007 printed publications that were originally published electronically in 2006 are listed in the core of this report (and are identified as such). However, to avoid eventual double counting when combining counts from different years, these publications are not included in the total counts by category (see below) nor in the counts by researcher (see Annex)¹⁰.

Validation Status

Validation status is defined for each reference in this report as follow:

Status	Explanation	Example (s)
V	Reference found in two sources	Reference found in Investigator CV AND in other source (PubMed, Publisher web site, etc)
PV	Reference only partially verified	Chapter reference extracted from Investigator CV; book name and year of publication verified against other source (Publisher web site), BUT chapter title and authorship not available in other source
NV	Reference found in only one source	<ul style="list-style-type: none"> Reference only found in investigator CV Reference found in PubMed but Investigator CV not available

Summary

The summary below does not include articles printed in 2007 that were published electronically in 2006 (though these are included in the core report).

Category Group	Publication Count	Authorship Count *
Peer-Reviewed Articles, Case Reports, Clinical Trials	200	231
Review Articles	32	32
Chapters, Books, Conference Proceedings	27	27
Non-Refereed Articles, Institutional Publications	8	10
Total	267	300

* Authorship count represents the number of occurrences of Department of Pediatrics member names in Author field.

See Annex for publication summary by researcher.

¹⁰ These publications will naturally be included in the counts within next year’s report.
