

McGill

Faculty of Arts

DEPARTMENT OF POLITICAL SCIENCE

Information Handbook
Master of Arts Programs

2021-2022

Department website address: <http://www.mcgill.ca/politicalscience>

Last Update August 2021

Students in the M.A. program are normally enrolled in the Thesis Program, generally recognized as among the most demanding and rewarding in Canada. In addition to its traditional M.A. programs, the department also offers M.A. options Development Studies, Gender and Women's Studies and European Studies. Interested students must apply and be accepted to both the political science M.A. program and to the option program. Options require additional specialized coursework. Upon completion, students receive an M.A. degree in Political Science with a specialization in the chosen option noted on their transcripts.

This Handbook includes:

Consultation	P. 2
MA Program Information	P. 4
Fast-Tracking	P. 6
Other General Program Information	P. 9
Financial Assistance	P. 12
Appendices:	
1) Library Services for Graduate Students	P. 14
2) Completion Timetables	P. 15
3) MA Thesis Requirements	P. 17
4) MA Research Essay Requirements	P. 22
5) Research Ethics Board Information	P. 25

This Handbook is intended to *supplement* the extensive information provided by the Office of Graduate and Postdoctoral Studies (GPS) about University policies, procedures, and services. Please spend some time perusing the information on their website at <http://www.mcgill.ca/gps/>.

Key pages include:

Resources for New Students (ID Card, Registration, Orientation, Policies, etc.):
<http://www.mcgill.ca/gps/students/new/>

General information, Regulations and Research Guidelines (the Red Book):
<https://www.mcgill.ca/study/2021-2022/>

https://www.mcgill.ca/study/2021-2022/university_regulations_and_resources/graduate/gps_gi_regulations

Student Services (Academic, Health, International, Housing, Resources, Rights & Responsibilities):
<http://www.mcgill.ca/gps/students/resources/>

Calendar of Dates:
<http://www.mcgill.ca/students/courses/calendars/>

<http://www.mcgill.ca/importantdates/key-dates>

Student Aid Office:
<http://www.mcgill.ca/studentaid/>

CONSULTATION

Supervisor

The Graduate Program Director assigns an academic supervisor to each M.A. student upon entry into the program. Students should make an appointment with their supervisor early in each term to discuss their academic progress and plans. The supervisor's primary role is to guide the student in preparing the M.A. thesis.

Upon mutual agreement of the student and prospective new supervisor, the student may change supervisors at any time. To do this, BOTH the student and the new supervisor must inform the Graduate Program Director and the Graduate Coordinator of the switch in writing (email is acceptable).

Graduate Program Director

Professor Catherine Lu

Email: catherine.lu@mcgill.ca

Office #: Ferrier 466

The GPD will discuss any aspect of graduate studies with you. In particular, students should inform the Graduate Program Director of any special circumstances that may be delaying normal progress.

Associate Graduate Program Director

Professor Juan Wang

Email: juan.wang2@mcgill.ca

Office #: Leacock 524

The AGPD can advise you on questions concerning fellowships, teaching assistantships, and career opportunities.

Area Manager: Student Affairs

Andrew Stoten

Email: andrew.stoten@mcgill.ca

Office#: Leacock 416

The Student Affairs Manager can advise you on program requirements, teaching assistantships, applications for financial aid, and other such matters.

Graduate Program Coordinator

Tara Alward

Email: graduate.polisci@mcgill.ca

Office #: Leacock 441

The Graduate Coordinator provides information regarding admission, student records, thesis proposals, submission of theses, graduation procedures, and various other program requirements.

Administrative Coordinator/Accounting

Kyrstin Felts

Email: kyrstin.felts@mcgill.ca

Office #: Leacock 431

The Administrative Coordinator/Accounting processes RAship payments and casual payments. In addition, submit to her any financial documents (e.g., expense reports) to be signed by the Chair.

Field Coordinators (2020-2021)

Canadian Politics
Comparative Politics
International Relations
Political Theory
Methods Stream

Professor Elisabeth Gidengil
Professor Erik Kuhonta
Professor Jennifer Welsh
Professor Will Roberts
Professor Aaron Erlich

The Field Coordinators can advise you on course selection and career opportunities in their subfields.

Political Science Liaison Librarian

Sandy Hervieux
Humanities and Social Sciences Library
514-398-1087
sandy.hervieux@mcgill.ca

The Liaison Librarian can advise you on any aspect of library research or acquisitions at McGill. She holds regular office hours in the department, announced at the beginning of each semester. Please see Appendix 1 for more information.

McGill Graduate Association of Political Science Students (MGAPPS)

MGAPPS promotes the academic welfare and enhances the cultural, environmental, and social conditions of graduate students in the Department. See <http://www.mcgill.ca/politicalscience/grad/mgapps/>

IMPORTANT NOTE ON DEPARTMENTAL COMMUNICATIONS AND E-MAIL

University policy requires that all students use their assigned McGill uniform email address for correspondence. Students are responsible for any official communication sent by the Department or University officials to that address. For more on the student email policy, see: <http://www.mcgill.ca/it/policies>

You will automatically be subscribed with your McGill email address to the Departmental listserv POLIGRAD. The Department regularly distributes important notices on deadlines, policies, grants, meetings, and such via this listserv.

GRADUATE LOUNGE

The department's graduate lounge is in Leacock 515. The lounge has computers with Microsoft Office, SPSS, Adobe Professional, and other programs for graduate student use. In addition, graduate student mail folders are located in the lounge. Please see the Graduate Coordinator for card access to the lounge.

MA PROGRAM INFORMATION

REQUIREMENTS FOR THE MASTER OF ARTS DEGREE

Students normally complete the M.A. degree requirements through the Thesis Program (described below). In exceptional cases, students may pursue the Non-Thesis Program (described below).

Please note that choosing the Non-Thesis M.A. results in significantly higher tuition costs, due to Quebec government categorizations of fees for Thesis (research) and Non-Thesis (professional) MA degrees.

Students must inform the Graduate Program Director and the Graduate Coordinator if they choose the Non-Thesis program, and ensure that all requirements for the program are followed. Until completion of their course work, students may switch from one program (Thesis to Non-Thesis or vice versa) to the other. **THIS SWITCH CAN ONLY BE DONE ONCE AND AFTER THE GRADUATE PROGRAM DIRECTOR APPROVES AND A WRITTEN REQUEST HAS BEEN SUBMITTED TO THE GRADUATE COORDINATOR.** Switching programs must be completed prior to the final semester in the program; you cannot make a change in your last semester.

Students should select a field of concentration within the discipline (i.e., Canadian Politics, Comparative Politics, International Relations, or Political Theory). Students are strongly encouraged to plan their courses as an integrated program building towards their research thesis. In addition, for interested students the Department offers several Options to complement our existing programs:

M.A. Thesis and Non-Thesis Options in Development Studies

The Development Studies Option is a cross-disciplinary option offered within existing M.A. programs in the departments of Geography, History, Political Science, Anthropology, Economics, and Sociology. It is open to Masters students specializing in development studies. Students enter through one of the participating departments and must meet the M.A. requirements of that unit. Students take an interdisciplinary seminar that will be co-taught by professors from two different disciplines (INTD 657 Development Studies Seminar) and a variety of graduate level courses on international development issues.

*** Poli 670 Advanced topics in International Relations can count as international development, so long as the topic is related to development.**

For more information, please contact the Institute for the Study of International Development..

See <https://www.mcgill.ca/isid/teaching-programs/graduate>

M.A. Non-Thesis Option in Gender and Women's Studies

The Graduate Option in Gender and Women's Studies (GWS) provides graduate students with a cross-disciplinary specialization in feminist, women's, and gender studies. This Option is open to graduate students at McGill University enrolled in the Department of Political Science. During the application process, prospective students can specify their interest in the Graduate Option through [uApply](#). There are no prerequisites to enter into the Option. However, previous coursework in gender and women's studies provides an ideal foundation for more in-depth study of and research in feminist scholarship. Student supervision in the Option is undertaken by one's departmental supervisor who oversees student work, including choice of thesis, dissertation, or project topic. A student's PhD dissertation or MA non-thesis project must be on a topic that significantly engages with issues of gender and/or women and/or feminism. For more information about GWS, visit the IGSF [website](#).

M.A. Thesis and Non-Thesis Options in European Studies

The European Studies Option (ESO) is an option offered within existing M.A. programs in the Departments

of Political Science, History, and Sociology, as well as in the Faculty of Law. This option is open to students whose work is focused on Europe and European integration, broadly understood. Students enter through one of the participating departments and must meet the requirements of that unit. Students will take an interdisciplinary capstone seminar and two other courses on European themes and issues as part of their M.A. program. Knowledge of French, while not a pre-requisite, is an important asset for admission and will be encouraged as part of the program, as well as knowledge of a third European language.

PROGRAM AND COURSE REGISTRATION

All graduate students must register for courses using MINERVA at www.mcgill.ca/minerva-students. Students must register for the Registration Confirmation Course in **both** the Fall 2020 (202009) and Winter 2021 (202101) terms by the deadline dates to avoid a **Late Registration Fee**.

<http://www.mcgill.ca/gps/students/registration/dates>

Returning Students: June 1, 2021 to August 14, 2021

New Students: July 6, 2021 to August 14, 2021

Fall 2021 (202109)	>	REGN RCGR	>	CRN # 196
Winter 2022 (202201)	>	REGN RCGR	>	CRN # 210

Registration is not valid until the Registration Confirmation courses “REGN RCGR” are on your record. Courses may then be added until the end of the course change period without penalty. An up-to-date class schedule can be viewed through your MINERVA portal.

All incoming graduate students must meet with the Graduate Program Director or the Associate Program Director before classes begin to discuss course selection and other aspects of their program. Students will be contacted by the Graduate Coordinator to arrange an appointment. Advising with the GPD and AGPD for students starting in the fall term will take place during the first week of September. Classes begin on Wednesday, September 2.

A complete listing of our courses may be found in the Faculty of Graduate and Postdoctoral Studies calendar as well as on our website at: <https://www.mcgill.ca/politicalscience/grad/courses-and-syllabi>

Courses at the 500 and 600 level count as graduate courses. In the Department, M.A. students typically take only 600-level courses. Although 500-level courses may be taken for graduate credit, they are primarily designed as undergraduate honours seminars. If you are interested in a particular 500-level course, please contact the instructor to discuss enrollment. The POLI 700 course is for PhD students only.

Students should take no more than three (3) three-credit substantive courses per semester. The department recommends that students with a full TAsip consider taking just two such courses per semester, especially during their first semester in the program.

Students typically complete the M.A. program in either three or four semesters, not including summers. Please see Appendix 2 for sample three- and four-semester completion schedules.

MYPROGRESS

Students can track their progress toward completing their program requirements in MyProgress, here: <https://www.mcgill.ca/gps/myprogress>. When students in the M.A. Thesis program submit their thesis, they are required to attach a copy of their MyProgress worksheet as a required document.

ADD/DROP

Students who wish to change a course after registration must consult with the GPD. Changes must be made by **Tuesday, September 14, 2021** for Fall term courses and **Tuesday, January 18, 2022** for Winter term courses. Any courses dropped during the Course Change (Drop/Add) Period will be deleted from your record. After the Course Change (Drop/Add) Period there is a period of time during each semester when you may still withdraw; however, a “W” will appear on your record to indicate that you have withdrawn from the course. Ceasing to attend class does not constitute an official withdrawal. Informing the professor that you will no longer be attending the class, although a matter of courtesy, does not constitute a withdrawal. Important deadlines and dates are provided here:

<https://www.mcgill.ca/importantdates/key-dates>

The following documents must be submitted to the Graduate Program Coordinator to withdraw from a course after the add/drop deadline:

- * Email/Letter of support from the Professor teaching the course
- * Email/Letter of support from the Graduate Program Director
- * An email/letter from the student justifying his/her late withdrawal
- * Supporting documents if withdrawal request is related to medical reasons
- * The student must complete the registration/course change form to request a late withdrawal. The form can be found at the following link: <http://www.mcgill.ca/students/records/cc>
- * A late course change fee will be assessed to the student’s account

FAST-TRACKING

Rationale

The idea of fast-tracking MA students into the PhD program is to identify exceptional MA students who are PhD material and bring them into our PhD program. This enables our department to make effective use of the MA program as a resource for research-oriented PhD students. Fast-tracking should also enable a good match between the applicant and the department, since the applicant will already have found a supervisor and be interested in continuing their research in our department. In general, the expectation is that 1 or 2 students are fast-tracked each year. Only first-year MA students are eligible for fast-tracking.

Procedure

Deadline: For 1st year MA students: March 15, 2022.

1. Professor nominates student by the deadline with a letter.
2. Student provides 1-page research statement by the deadline.
3. Graduate committee evaluates file.
4. Student is informed of the status of the application by the end of March.
5. If accepted, student must then fill in a full application, which is pro forma.
6. Student is then accepted formally by the Office of Graduate and Post-Doctoral Studies.

All courses taken by MA students who are fast-tracked are credited to the PhD program; please note that the grades remain within the degree they were completed in, only the course credits completed during the MA program will be credited towards the PhD program. Fast-tracked students are automatically moved to PhD2.

M.A. THESIS PROGRAM (45 CREDITS)

Thesis Program students must successfully complete six substantive, approved three-credit graduate courses (18 credits) plus a Thesis. In addition, they must register for three research preparation courses during the program (27 credits, listed below). These research preparation courses *are not formal courses*: there are no meetings or assignments beyond writing your thesis proposal and thesis.

The Thesis is the culmination of the M.A. Thesis Program and prepares students for further research in political science. All students must complete a Thesis Proposal and Thesis under the guidance of their departmental supervisor in order to graduate. *Please see Appendix 4 for Thesis Proposal and Thesis submission procedures, guidelines, and deadlines.*

The six substantive courses must all be at the 500 or 600 level. In selecting courses, please keep the following in mind:

- 1) At least four of the six must be regularly scheduled courses (i.e., not reading or internship courses) at the 500 or 600 level in Political Science. Please note that the department does not offer regularly scheduled courses in the summer.
- 2) Students must complete at least two courses in their field of concentration.
- 3) Students must take a graduate-level Empirical Methods course (normally POLI 612) OR a political theory course (e.g., POLI 561, 613, or 617), and preferably both.
- 4) Students must complete at least one course outside their field of concentration (not including the course taken to fulfill requirement #3 above).

With the approval of the Graduate Program Director, students may take one reading course (POLI 690), as long as they find a faculty member willing to direct it.

Under special circumstances, students may be permitted to take one course from another department or another university, subject to the permission of the Graduate Program Director.

The following required Research Preparation Courses must be added to your record during the program:

POLI 694 Research Preparation 1	(3 credits)
POLI 697 M.A. Thesis Proposal	(12 credits)
POLI 698 Master's Thesis	(12 credits)

These courses do not meet and are not graded. Please register for POLI 694 in your first semester and register for POLI 697 and 698 in the semesters you intend to complete your thesis proposal and thesis, respectively. Each of these courses must be reflected once *and only once* on your transcript by the time you graduate.

Note: These program requirements apply to students entering the M.A. Thesis program from September 2019 onwards. Students who entered the M.A. Thesis program prior to Fall 2019 have different program requirements. Students who started in September 2018 should consult the 2018-2019 program requirements.

M.A. NON-THESIS PROGRAM (45 CREDITS)

Non-thesis students must successfully complete seven substantive, approved three-credit graduate courses (21 credits) plus a Research Essay. In addition, they must register for six research preparation courses during their first three semesters in the program (24 credits, listed below). These research preparation courses *are not formal courses*: there are no meetings or assignments beyond writing your research essay proposal and research essay. *The non-thesis program is a professional, rather than a research program: there is less emphasis on training students for a research career in political science and students in this program are not eligible for some sources of provincial research funding. The tuition rates for the non-thesis program are also higher than for the thesis program.*

The Research Essay is the culmination of the M.A. Non-Thesis Program. All students must complete a Research Essay Proposal and Research Essay under the guidance of their departmental supervisor in order to graduate. *Please see Appendix 3 for Research Proposal and Research Essay submission procedures, guidelines, and deadlines.*

The seven substantive courses must all be at the 500 or 600 level. In selecting courses, please keep the following in mind:

- 1) At least four of the seven must be regularly scheduled courses (i.e., not reading or internship courses) at the 500 or 600 level in Political Science. Please note that the department does not offer regularly scheduled courses in the summer.
- 2) Students must complete at least three courses in their field of concentration.
- 3) Students must take a graduate-level Empirical Methods course (normally POLI 612) OR a political theory course (e.g., POLI 561, 613, or 617), and preferably both.
- 4) Students must complete at least two courses outside their field of concentration (not including the course taken to fulfill requirement #3 above).

With the approval of the Graduate Program Director, students may take one reading course (POLI 690), as long as they find a faculty member willing to direct it. Under special circumstances, students may be permitted to take up to two courses from another department or another university, subject to the permission of the Graduate Program Director.

Students must also register for the following required Research Preparation Courses during the first three terms of residence:

POLI 691 Bibliographic Methods	(6 credits)
POLI 693 M.A. Research Proposal	(3 credits)
POLI 694 Research Preparation I	(3 credits)
POLI 695 Research Preparation II	(3 credits)
POLI 696 Research Preparation III	(3 credits)
POLI 699 M.A. Research Essay	(6 credits)

These courses do not meet and (with the exception of POLI 699) are not graded. Please, register for POLI 691 in your first semester and for POLI 694, 695, 696, 693, and 699 in subsequent semesters such that you will always be registered for a minimum of twelve total credits during your first three terms (to maintain full-time status) and will have all of the courses reflected once *and only once* on your transcript by the time you graduate.

OTHER GENERAL PROGRAM INFORMATION

READING COURSE IN POLITICAL SCIENCE (POLI 690)

Graduate students are normally allowed to take only one reading course. Only under exceptional circumstances, and with the approval of the Graduate Committee, can two reading courses be permitted; such permission is rarely given.

A minimum two-page outline and bibliography must be submitted to the faculty member supervising the reading course. This outline should describe the reading, written work, and meeting schedule for the course. There should be regular and frequent interaction between supervisor and student.

The outline must be approved by the supervisor in writing before the student can formally register for the course. The **completed** approval form should be returned to the Graduate Coordinator no later than the add/drop deadline for the semester in which the student plans to take the reading course. The Graduate Director and supervisor both need to sign the form. It is available on our website under Graduate Forms at https://www.mcgill.ca/politicalscience/files/politicalscience/poli690form_2.pdf

INTERNSHIP IN POLITICAL SCIENCE (POLI 599)

An internship must consist of at least 150 hours of work over a period of 12 weeks, plus a major research project based on the internship. The major project will ordinarily consist of a research paper plus a substantial written record of the work conducted during the internship. This latter element may variously consist of a work diary; copies of memoranda, correspondence, and/or papers produced; and/or a shorter paper describing and evaluating the work experience gained during the internship.

Students must submit an Application for Internship to the department well in advance of the proposed term of internship. The request must be endorsed by the faculty member who has agreed to supervise the internship and approved by the GPD. The Application for Internship is available on our website at: https://www.mcgill.ca/politicalscience/files/politicalscience/poli_599_internship_form.pdf

The application must include:

- a) An outline of the proposed internship, including a discussion of "learning goals", "specific activities", and "means of evaluation".
- b) A description of the organization with which the student will be working, including the name of the supervisor within the organization to whom the student will be accountable and a letter indicating the willingness of the responsible person and sponsoring agency to assume the task of supervision (including assessing the work completed). Sponsoring organizations might include international organizations, government agencies, private sector businesses, NGOs, etc. as appropriate.
- c) A proposal for an associated research project to be supervised by an appropriate faculty member in the department. The associated research project would involve a lengthy research paper, equivalent to that produced in an independent reading course, and researched during the internship.

A grade for the internship will be assigned based on the quality of the research paper (approximately 50%, and graded by a member of the department), the quality of the written work materials (approximately 25%, also graded by a member of the department); and a performance assessment (approximately 25%, provided by the supervisor at the organization hosting the internship).

COURSES AT ANOTHER UNIVERSITY

With the permission of the Graduate Program Director, students may take courses at other universities for credit toward their McGill degree. Students taking courses at another university must obtain a minimum grade of B- (65%) if the course is to be credited towards their McGill degree. Students wishing to take courses at other universities in Quebec must do so through Inter-University Transfer. For additional information, please visit <https://www.mcgill.ca/transferecredit/iut>

Permission to take a course at a university outside of Quebec must be obtained before the beginning of the session in which the student intends to take the course. To gain approval from the Department, the student must provide the GPD with course descriptions and if available, course outlines for the courses the student wishes to take. As with courses taken via the IUT route, marks earned at the host university will not appear on McGill transcripts or be included in McGill grade point averages. However, the McGill transcript will indicate the number of transfer credits being counted toward the student's degree.

For further information and regulations, see the General Information, Regulations, and Research Guidelines booklet.

ENGLISH AND FRENCH LANGUAGE COURSES

According to the GPS policy, language courses will be flagged as extra to the program and students will be assessed fees accordingly. Please contact the appropriate Centre/Department for further information about course offerings and placement tests.

Although the grades and credits received in these language courses will not count towards the program CGPA, they will be recorded on the student's transcript and cannot be removed. Before committing to a language course not required by their program, graduate students are strongly advised to consult their supervisor in order to determine whether adding in this way to their workload is appropriate.

Documents needed to register for a language course:

- * A Letter (or email) of approval from the Graduate Program Director
- * A letter from the Graduate Program Coordinator to give to the respective department offering the language course. E.g. The French department will need this letter to grant a permit override for registration
- * Student needs to complete the "Request for Registration/Course Changes" form found at the following website: <https://www.mcgill.ca/student-records/forms>

DEPARTMENTAL STANDARDS

The Department expects students to maintain both a satisfactory level and a satisfactory rate of performance while they are enrolled in the program. Students are expected to pass all their courses with a B- (65-69%) grade or better. Grades below 65% are failures.

In case of failure in one or more courses, see the Failure Policy in the Graduate and Postdoctoral Studies regulations on their website: https://www.mcgill.ca/study/2021-2022/university_regulations_and_resources/graduate/gps_gi_failure_policy#topic_37D01CFAAA504506A5B4A6D4D425BB7A

The Department also expects students to complete their requirements within a reasonable period of time. GPS enforces a maximum limit of three years for completing M.A. programs. Students not making satisfactory progress toward the completion of their degree may be asked to withdraw.

ILLNESS AND LEAVES OF ABSENCE

If, due to illness, you have missed assignments or mid-term examinations, see your professor and try to make alternative arrangements. You must be prepared to provide confirmation of illness. If you have fallen too far behind, see the Graduate Program Director, bringing with you your medical documentation. We may be able to withdraw you from the course (even after the withdrawal deadline).

Students must register each semester until they have received their degree. If students need to interrupt their studies for a semester or more, they may be eligible to request a leave of absence - see the Graduate and Postdoctoral Studies website for detailed information:

<http://www.mcgill.ca/gps/students/progress/leave-vacation>

EXTENSIONS (K GRADES)

In special circumstances, a student may be permitted an extension beyond the normal deadline for submission of work in a course. A grade of K is submitted and a new deadline for completion of course work is assigned. Both student and professor must sign the appropriate form and deposit it with the Graduate Program Coordinator. The deadline is normally no more than one month and cannot be later than four months after the end of the course.

Deadlines will be commensurate with genuine need in each case and will not simply allow the maximum time established. For first term courses the deadline should not be beyond February 1st and for second term courses not beyond June 1st. The grade of K becomes a KF (failure) if the work is not submitted on time. Only in exceptional circumstances will students be permitted to take more than one K in a given term. Students who find themselves in such circumstances must petition the GPD by December 1 for fall-term courses and April 15 for winter-term courses for permission to take more than one K in a given term. Exceptions will only be made in the case of documented illness or serious family difficulties. Only in truly extraordinary circumstances is it possible to obtain a further extension (KE). After that there are no further extensions.

Students are strongly urged to avoid requesting Ks in their course work unless there are compelling reasons to do so. The need to clear Ks will interfere with subsequent course work and a record of Ks will handicap students in applying for financial assistance from the University and from outside agencies. The K form can be obtained from the Graduate Program Coordinator.

FINANCIAL ASSISTANCE

All qualified graduate students, if eligible, are expected to apply for financial aid from funding agencies external to the Department. However, as the funds available are severely limited, many academically strong students are unable to receive financial aid. There are three major sources of funds:

Fellowships, Scholarships and Loans

- ✓ The Social Sciences and Humanities Research Council (SSHRC) is an excellent source of fellowships for Canadian citizens and permanent residents. The deadline for applications is November/early December. Application forms and descriptive booklets are available on the web at <http://www.sshrc-crsh.gc.ca/>
- ✓ The Government of Quebec also awards many fellowships and bursaries through the Fonds pour la formation de chercheurs et l'aide à la recherche (FQRSC). To be eligible, students must be either Canadian citizens who have been permanent residents of Quebec for at least one year, or other persons who, at the time for application, have been permanent residents for 18 months. Completed application forms must be received in Quebec by early October. Application forms and descriptive booklets are available on the web. See <http://www.frqnt.gouv.qc.ca/en/accueil>
- ✓ Students should also consult the Faculty of Graduate and Postdoctoral Studies website. In addition, the Fellowships Office of Graduate and Postdoctoral Studies lists various awards. <http://www.mcgill.ca/gradapplicants/funding>

If a student is not eligible either for the SSHRC or the Government of Quebec fellowships, the student should apply for some other fellowship external to McGill. Information on additional awards is available from the Associate Director of Graduate Studies.

- ✓ Students should consult with their faculty advisor in formulating research proposals for fellowship applications
- ✓ NOTE : First-year M.A. students awarded an FQRSC or SSHRC fellowship should be registered in the thesis option to be considered full-time during the summer term. Non-thesis option students are not considered full-time in the summer unless they register and pay summer term fees.

Teaching Assistantships

The Department annually hires a number of graduate students as teaching assistants. The Student Affairs Manager will post lists of available positions in the Fall and Winter. Deadlines for department posting for T.A. positions are typically April 30 for Fall term positions and October 15 for Winter term positions. Applications should be submitted to the Student Affairs Manager. As of June 1998 a Collective Agreement was formally signed between McGill University and A.G.S.E.M. (Association of Graduate Students Employed by McGill). The purpose of this agreement is to establish and maintain an orderly collective bargaining relationship between the University and its employees represented by the Union, to ensure the effective, prompt and equitable settlement of disputes, and to set forth an Agreement covering rates of pay and other working conditions. For detailed information contained in the Collective Agreement, contact the Association of Graduate Students Employed at McGill (A.G.S.E.M.), TEL: (514) 398-2582; email: mail@agsem-aedem.ca. For details of the Collective Agreement between McGill University and A.G.S.E.M., consult the A.G.S.E.M. website: <http://agsem-aedem.ca/>

Research Assistantships

Professors often hire assistants from their own research budgets. This is done on an individual basis. If you are interested in a research assistantship with a professor, please contact him/her directly.

Travel Funding

If the Department has funds available, you could apply for a departmental award of up to \$350 for travel to the USA or within Canada, or \$500 for travel outside North America. Note students are only eligible for one award per academic year. **Keep all original receipts.** Upon return, you will need to demonstrate proof of travel. If travelling to a conference, it is expected that you will be presenting a paper. Funding for archival research or data collection is also eligible. The application form is available here:

https://www.mcgill.ca/politicalscience/files/politicalscience/application_for_conference_funding_0.doc
[X](#)

Funding from the Conference Organization

If travelling to a conference, students should also try to obtain travel funds provided by the organization sponsoring the conference. For example, members of the Canadian Political Science Association are eligible for travel grants. The American Political Science Association should also be approached when presenting a paper at the annual meeting.

Financial Aid for International Students

A limited number of international students from other countries that have signed a tuition fee agreement with Quebec may be exempted from the higher rate of tuition fees normally required of students from foreign countries. The following countries have signed such agreements with Quebec: Algeria, Belgium, Benin, Burkina Faso, Cameroon, China, Columbia, Congo, Costa Rica, Djibouti, Ecuador, France, Gabon, Germany, Greenland, Guinea, Haiti, Honduras, India, Israel, Italy, Ivory Coast, Korea, Lebanon, Luxembourg, Madagascar, Mali, Mauritania, Mauritius, Mexico, Morocco, Niger, Peru, Rwanda, Senegal, Spain (Catalogne), Togo, Tunisia, and Vietnam. Students must apply to the government authorities (usually the Ministry of Education) of their home country at the time they apply for admission to the selected Quebec University. The foreign government authorities make the official recommendation of students to be exempted from higher fees. Signatory countries change from time to time, and students are advised to check the Ministère de l'Éducation, du Loisir et du Sport (MELS) website. There are also certain other exempt categories and further information is available here: <http://www.mcgill.ca/legaldocuments/exemption/>

For further information on sources of funding, please consult the Graduate Fellowships and Awards brochure published by the Faculty of Graduate and Postdoctoral Studies. See also the Scholarships and Student Aid Office, Brown Student Services Building, 3600 McTavish. Telephone (514) 398-6013/6014. Website: <http://www.mcgill.ca/studentaid/>

APPENDIX 1

Library Services for Graduate Students

Your liaison librarian

Sandy Hervieux, liaison librarian for the Political Science department, is your communication link to the library. She offers individual consultations with graduate students to:

- Recommend online databases and current awareness tools such as journal alert services, citation analysis utilities, and citation management software
- Discuss research strategies
- Locate hard-to-find materials
- Answer questions about McGill's library services

Ask a question or set up an appointment by email (sandy.hervieux@mcgill.ca), phone (514.398.1087), or in person at her office hours (times to be announced in the fall).

Library collections

The library provides an extensive collection of over 6 million items: e-journals, online databases, government documents, print and online books, newspapers, data, DVDs, and more. Materials can be searched through the library catalogue <http://catalogue.mcgill.ca/F/> and article databases <http://www.mcgill.ca/library/find/articles>

When McGill doesn't have what you're looking for

- We can buy it for you. Fill out an online form to suggest a purchase: <http://www.mcgill.ca/library/contact/askus/suggest>
- The library's Interlibrary Loans service will locate and borrow the materials you need: <http://www.mcgill.ca/library/services/otherloans/interlibrary>
- Graduate students are also entitled to borrow materials from other universities in Canada by obtaining a CREPUQ card: <http://www.mcgill.ca/library/services/otherloans/crepuq/>

Sharing knowledge

The library stores, preserves, and promotes the scholarship of McGill faculty and students through a digital repository called **eScholarship@McGill**: <http://www.mcgill.ca/library/find/escholarship>
Deposit your research publications or thesis in this open access repository to ensure the scholarly output is made available to researchers and peers all over the world.

Facilities

McGill's thirteen branch libraries provide computer labs and printing facilities, quiet study areas, and group meeting rooms. In addition, graduate students who are writing theses and do not have office space may apply for small offices or desks the library.

Software

McGill's software licensing website (<http://www.mcgill.ca/software/>) provides you with free access to software such as Trend Micro antivirus software, the citation management tool EndNote, and SPSS.

Support for your teaching

As a TA or course lecturer, you can refer your students to Sandy for research help. She can also create online resource guides, bibliographies, and links to subscription-based articles and books from your syllabi or myCourses pages. Assistance is also provided with placing items on reserve in the library. Finally, she can provide tailored workshops and presentations for your courses to assist students in conducting research, evaluating information, and avoiding plagiarism.

APPENDIX 3: MASTER OF ARTS THESIS REQUIREMENTS (POLI 697 and 698)

The Thesis Proposal must be approved in writing, first by the Thesis Supervisor *before submission* and then by the Thesis Committee. The Thesis Supervisor must be a full-time faculty member of the Department.

All M.A. thesis research involving human subjects must receive ethics certification from McGill's REB-1. While certification is not required for submission of the proposal, *certification must be received before any research may be conducted.* For application details please see <http://www.mcgill.ca/research/researchers/compliance/human>.

The Thesis itself must be passed by both an Internal Examiner (typically the supervisor) and an External Examiner. The External Examiner is appointed by the Office of Graduate and Postdoctoral Studies.

1. DEADLINES FOR M.A. THESIS PROPOSAL AND THESIS SUBMISSION, 2021-2022

It is suggested that the thesis proposal is submitted for review 5 months prior to the initial thesis submission.

Thesis Proposal Submission	Initial Thesis Submission	Final Thesis Submission	Additional Session	Thesis Evaluation	Graduation
5 months prior to initial thesis submission	Apr 16 – Aug 15	Aug 16 – Dec 15	Summer	Fall	February
5 months prior to initial thesis submission	Aug 16 – Dec 15	Dec 16 – Apr 15	Fall	Winter	June
5 months prior to initial thesis submission	Dec 16 – Apr 15	Apr 16 – Aug 15	Winter	Summer	October

For example: October Graduation: Student submits thesis proposal on January 15 and later submits initial thesis on May 15. Final electronic thesis must be submitted and approved by supervisor before August 15. February Graduation: Student submits thesis proposal on June 15 and later submits initial thesis on October 15. Final electronic thesis submission must be submitted and approved by supervisor before December 15.

Initial and Final Thesis Submission in the same term					
Thesis Proposal Submission	Initial Thesis Submission	Final Thesis Submission	Additional Session	Thesis Evaluation	Graduation
5 months prior to initial thesis submission	Apr 16 – Aug 15	Apr 16 – Aug 15	Summer	None	October
5 months prior to initial thesis submission	Aug 16 – Dec 15	Aug 16 – Dec 15	Fall	None	February
5 months prior to initial thesis submission	Dec 16 – Apr 15	Dec 16 – Apr 15	Winter	None	June

NOTE: Should the deadline date fall on a weekend or a holiday, the effective deadline date will be the previous working day.

If you plan to submit your initial and final thesis during the same term, you must submit your initial thesis at the beginning of the suggested time period to guarantee you graduate during the following session.

*Please submit the initial thesis well in advance to the final electronic thesis deadlines (December 15, April 15 and August 15). The external examiner of the initial thesis will be given 4 weeks to grade the initial thesis and there are no guarantees that comments will be returned on time to submit the final thesis before the deadlines. Additionally, students should always register for the following term in case of a failure or missed final thesis deadline.

2. M.A. THESIS PROPOSAL GUIDELINES (POLI 697)

Proposal Submission and Evaluation Procedures:

1) Before submission, the research supervisor must approve the proposal in writing. The student should give the supervisor a complete draft of the proposal far enough in advance of the proposal submission deadline for the supervisor to provide comments and for the student to revise the proposal based on those comments. Once the supervisor finds the proposal acceptable, s/he signs the Thesis Proposal Submission Form. The form is attached below and is also available under Graduate Forms at: <http://www.mcgill.ca/politicalscience/grad/gradformsdocs/>.

2) The student submits both the signed Thesis Proposal Submission Form and **an electronic copy** of the proposal to the Department's Graduate Coordinator on or before the appropriate proposal submission deadline above.

3) The Graduate Program Director appoints a three-member Thesis Committee to read the proposal. This Thesis Committee normally consists of the supervisor, plus one person from the subfield and one person from outside the subfield. With the agreement of the GPD, one member may be from outside the Department.

4) The Graduate Coordinator distributes the proposal to the Committee for comments and the GPD relays to the student and supervisor any suggestions the Committee may have concerning the proposed research. On the Committee's recommendation, the GPD may ask the student to revise the proposal before approval.

Proposal Format:

The thesis proposal must outline the problem to be studied and the mode of investigation. The proposal should not be more than 15 double-spaced typed pages, excluding the bibliography. To facilitate evaluation of thesis proposals, students are normally expected to follow the format given below:

I. Introduction

- a. The problem or topic to be investigated;
The precise focus of the study;
The relationships or generalizations to be tested or explored.
- b. The status of earlier and current scholarship on the subject;
The proposed contribution of the thesis to knowledge.

II. Methodology

- a. Concepts, approaches, and conceptual frameworks
- b. Methods – e.g., case selection, surveys, interviewing, statistical methods, etc.

- III. **Plan of work; accessibility of resources; probable time; travel.**
- IV. **Tentative outline of the proposed thesis**
- V. **Brief bibliography**

Students are permitted to expand and adapt a seminar paper into a thesis. Students who plan to revise a seminar paper as a thesis should explicitly outline this in the thesis proposal.

3. M.A. THESIS GUIDELINES (POLI 698)

The purpose of an M.A. thesis is to demonstrate that the student can design and execute with competence a major piece of research with some originality to it. The scope of an M.A. thesis should be comparable to a full-length article in a scholarly journal. It should deal with a well-defined problem with sufficient review of previous work. It should attempt to build on existing literature either theoretically or empirically, either by original analysis of existing data sources or by introducing some primary source material.

Students are permitted to expand and adapt a seminar paper into a thesis. Students who plan to revise a seminar paper as a thesis should explicitly outline this in the thesis proposal.

The length might vary with the nature of the topic. A thesis that contains quantitative data analysis might be well developed in 8,000-12,000 words (~30-50 pages), while an institutional or historical study might be longer, up to 15,000 words. Requests to exceed 60 double-spaced pages (excluding bibliography) must be approved by the Graduate Program Director.

The Graduate and Postdoctoral Studies Office maintains Thesis Guidelines on their website. All students in the M.A. thesis program should familiarize themselves with the procedures for preparing and submitting the thesis. The latest Thesis Guidelines are here: <https://www.mcgill.ca/gps/thesis/thesis-guidelines>.

MYTHESIS (Initial Thesis submission)

It is recommended to submit the Initial Thesis at least 8 to 10 weeks prior to the final e-thesis deadline, because GPS gives approximately a 6-week deadline to the examiner to return the Thesis report. Also the student will need time to make revisions to the thesis before submitting the final e-thesis to graduate.

- Please note that the initial thesis is the final version which will be graded by the final examiner.
- The Final e-thesis is the version that will be displayed in the library.
- It is imperative to submit drafts of your thesis to your supervisor well in advance to submitting the intent to submit the initial thesis in MyThesis.

Students must flag their intent to submit into the MyThesis portal along with two suggested examiner names. The best practice is for the supervisor to secure at least two examiners prior to the student flagging themselves with the intent to submit the Initial Thesis in MyThesis.

The GPD will then select one of the examiners named in MyThesis and the examiner must agree to participate. Once the approval process is complete, the student will then upload a copy of their initial thesis to be examined by the selected examiner.

Please ensure that the initial thesis is submitted well in advance to the final e-thesis deadlines for graduation. The Final e-thesis deadlines are April 15 for May graduation, August 15th for October graduation, and December 15th for February graduation.

Here is an example:

The “final e-thesis submission” deadline is August 15th, to graduate in October.

The Initial Thesis should be submitted by April 15 to be registered in Thesis evaluation session for the Summer semester, but students need to flag themselves in MyThesis 6 to 8 weeks before April 15th. If they miss the April 15th Initial Thesis deadline, they remain registered as Thesis additional session for the Summer term and the fees are about \$750 more. In this situation, students should submit the Initial Thesis by mid- to late-May at the latest, because comments take about 6 weeks to get back for the Initial Thesis, and students often need the time to clean up the thesis to submit the final e-thesis by August 15. If you miss the Final e-thesis deadline on August 15, you will remain registered in Thesis evaluation session for Fall and the next final e-thesis deadline will be December 15 to graduate in February.

APPENDIX 4: MASTER OF ARTS RESEARCH ESSAY REQUIREMENTS FOR NON-THESIS MA PROGRAM (POLI 693 and 699)

Please note that choosing the Non-Thesis M.A. results in significantly higher tuition costs, due to Quebec government categorizations of fees for Thesis (research) and Non-Thesis (professional) MA degrees.

To choose the Non-Thesis option, you must consult with the GPD.

The MRE will normally be based on a paper written for a graduate seminar or an independent reading course. The Essay should focus on a clearly defined research problem, in the process demonstrating familiarity with relevant scholarly work and the ability to carry out research and organize the results. The Essay should be about 8,000-12,000 words (~30-50 double-spaced pages) in length. Under no circumstances will an Essay be accepted that is longer than 60 double-spaced pages, excluding bibliography.

The Research Essay Supervisor must be a full-time faculty member of the Department. The supervisor is usually the faculty member for whom the student wrote the seminar paper upon which the Research Essay is to be based. Once a student and supervisor have agreed to work with each other, both must confirm this agreement with the Graduate Coordinator and Graduate Program Director in writing (e-mail is acceptable).

All M.A. research involving human subjects must receive ethics certification from McGill's REB-1. While certification is not required for submission of the proposal, *certification must be received before any research may be conducted.* For application details please see <http://www.mcgill.ca/research/researchers/compliance/human>.

1. DEADLINES FOR M.A. RESEARCH ESSAY PROPOSAL AND FINAL SUBMISSION, 2020-2021

Expected Term of Graduation	Submission of Research Essay Proposal to Department	Submission of Final Research Essay to the Department
Fall 2021 (February 2022 Granting of degrees)	October 15, 2021	January 7, 2022
Winter 2021 (Spring 2021 Convocation)	January 28, 2022	April 4, 2022
Summer 2021 (Fall 2021 Convocation)	May 30, 2021	August 26, 2022

The student is responsible for submitting the Non-Thesis Application for Graduation form (available on Minerva) well in advance of the deadline. Deadlines vary, depending on graduation dates, and can be found in here: <http://www.mcgill.ca/students/graduation/applying>

2. M.A. RESEARCH ESSAY PROPOSAL GUIDELINES (POLI 693)

If the Research Essay is to be based on a paper written for a graduate seminar or for an independent reading course, the proposal will comprise the original paper plus a one-page

statement of intent outlining the proposed revisions to the paper. A more elaborate research proposal (approximately five pages) is required when a seminar paper does not serve as the basis for the M.A. Research Essay.

Before submission to the department, the research supervisor must approve the proposal in writing. The student should give the supervisor a complete draft of the proposal far enough in advance of the proposal submission deadline for the supervisor to provide comments and for the student to revise the proposal based on those comments. Once the supervisor finds the proposal acceptable, s/he signs the Research Essay Proposal Submission Form. The form is attached below and is also available under Graduate Forms at <http://www.mcgill.ca/politicalscience/grad/gradformsdocs/>

The student must then an electronic copy of the proposal along with a signed Research Essay Submission Form to the Graduate Coordinator by the appropriate deadline (above). Electronic signatures are acceptable.

The Graduate Program Director will appoint a second faculty member to evaluate the proposal. Although the second reader is typically a member of the Political Science Department, under special circumstances the second reader may be a faculty member in another department. The second reader will provide written comments on the proposal and the GPD will relay these comments to the student and supervisor. The GPD may ask the student to revise the proposal before final approval.

3. M.A. RESEARCH ESSAY GUIDELINES (POLI 699)

Please have your supervisor send their approval along with 2 suggested examiner names to Graduate Program Coordinator on the day of your submission.

The student send **an electronic copy** to the Graduate Coordinator by the appropriate deadline (see page 29).

The Essay will then be evaluated by the supervisor and by a second faculty member to be nominated by the GPD from among two names recommended by the supervisor.

Both faculty members will submit a written evaluation and a grade to the Graduate Coordinator. The grades received from each faculty member will be recorded individually; however, as the University requires a single grade to be reported, the grades will be averaged and this grade will then be submitted to the Faculty as the final grade for the M.A. Research Essay (POLI 699).

If it is felt that a passing grade is not warranted (minimum passing grade is B-), the evaluator must specify in writing those revisions necessary for a passing grade. In this case, the student may either:

- a) Resubmit the revised essay to the original evaluators within two months of the initial evaluation (the revised essay must receive a passing grade from both evaluators); or
- b) Request that the original, unrevised research essay be submitted to two new evaluators chosen by the GPD. The research essay must receive a passing grade from both. If it does not, the student must then revise and resubmit to the original evaluators in accordance with option A above.

APPENDIX 5

MCGILL UNIVERSITY RESEARCH ETHICS BOARD-I

ETHICAL APPROVAL OF RESEARCH INVOLVING HUMANS

The University Research Ethics Board-I (REB-I) serves the following areas: Anthropology, Biology, CDAS, Economics, Geography, Political Science, School of the Environment, Sociology and the Faculty of Management. For information contact Ethics Officer Lynda McNeil at 398-6831.

What Needs to be Reviewed? All research conducted by University-affiliated professors, students or staff that involves human subjects requires review and approval by the REB. This includes all funded (by granting agencies or contracts) and non-funded research, and graduate and undergraduate research and course projects. All approvals must be renewed on an annual basis.

Procedures: All applications should consist of the research proposal, the Research Ethics Protocol form and all other required documentation (e.g., consent forms, information sheets, questionnaires, approvals from other organizations). For all REB reviews, seven (7) copies plus the original of the required documents must be submitted to the REB office to the attention of Lynda McNeil, Research Grants Office, James Administration Bldg., Rm 429.

Refer to web site <http://www.mcgill.ca/research/researchers/compliance> for further information and for submission deadlines.

Graduate research proposals, undergraduate honours/independent studies proposals - Forward to the REB office with a copy of a letter from the department acknowledging successful academic review within the department.

Course projects - Research projects conducted by undergraduate or graduate students as part of a course requirement may have these projects reviewed and approved by the chair at the departmental level. A copy of the signed Certificate of Ethical Acceptability by the departmental chair must be forwarded to the REB office. Projects involving minors or other vulnerable populations, or that involve more than minimal risk to the research subject, must be reviewed by the REB. Departmental review should not be used for students who are conducting research that is part of a faculty member's own research program. This research must be reviewed by the REB.

Renewal of Approval - To renew an on-going, previously approved project you must submit a brief report of progress to date and indicate if there have been any changes made. Attach details of the proposed changes along with any new documents (e.g., revised consent forms). The title of the project must still be the same.
