- As of October 2012, McGill's formerly paper-based graduate application process was replaced with a more convenient electronic version. **You must submit and pay the application fee first before you can upload the supporting documents.** For detailed instructions on how to apply and upload required supporting documents into the application system, please see: [Submit your application](#)
- You **must** upload your documents with your online application. Do not mail paper copies to the department. Your referees will be prompted by email to upload their reference letters.
- You can keep track of your application documents by logging into your online SLATE application.
- **ONLY SUBMIT THE REQUIRED DOCUMENTS** listed on page 3 of this document.
- The following criteria must be met for electronic reference letters to be acceptable:
 - 1) The email communicating the electronic letters must be sent from a valid **institutional** or **corporate** email address. Electronic letters sent from public domain addresses such as Hotmail, Gmail, Yahoo Mail or Videotron cannot be accepted.
 - 2) The electronic letters must be specific as to which program the student has applied.
 - 3) The electronic letters must be dated and must not be more than 12 months old.
 - 4) The referee must indicate their position and full contact information.

- Master of Arts applicants - Please note that we only offer a Non-Thesis option for Gender and Women's Studies. Everyone else will apply to the Thesis program. You may choose to apply to an Option program as well, but this is not necessary, nor required.
- Decisions will be posted on your account in SLATE as the decisions are made. This will typically be in mid-March for Ph.D. decisions and in April for M.A. decisions. If you do not see the decision in SLATE, this means a decision has not yet been made - check SLATE every few days from mid-March onwards.
- If you are admitted into the program, you **MUST** officially **accept** or **decline** the offer in SLATE.
