# PopDataViz

WHAT IS IT?

A three-day, training workshop on data visualization using R/R Studio.
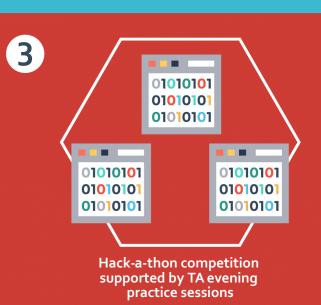

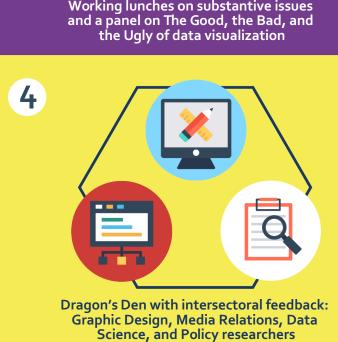

GOAL

Improve the use of population data in research and evidence-based decision-making through sound data visualization.

HOW

1

15 hours of data visualization training

2

Working lunches on substantive issues and a panel on The Good, the Bad, and the Ugly of data visualization

3

Hack-a-thon competition supported by TA evening practice sessions

4

Dragon's Den with intersectoral feedback: Graphic Design, Media Relations, Data Science, and Policy researchers

PopDataViz2017:

Ran by the McGill Centre on Population Dynamics as a proof-of-concept

40 attendees
(fully subscribed in 72 hours; 33 on waitlist)

Interdisciplinary, cross-sector, and professional diversity, with participants from academia and government, from Bioethics, Computer Science, Demography, Economics, Epidemiology, Library Science, Management, Nutrition, Public Health, Political Science, Psychiatry, and Sociology.
