LATEST NEWS - DERNIÈRES NOUVELLES

VPN change ahead: Cisco AnyConnect will be replaced by Cisco Secure Client

On **October 10**, McGill's current VPN (via Cisco AnyConnect) will be replaced by Cisco Secure Client. As such, starting October 10, you must use the Cisco Secure Client app to connect to McGill's VPN. For instructions on how to find the new app and connect to McGill's VPN, see [the full announcement](#).

Call for Applications for Assistant/Associate Professor (Research)

The Department of Psychiatry at McGill University and the Douglas Research Centre are currently inviting applications for a full-time Contract Academic Staff position in the field of **computational genomics, epigenomics, proteomics ("omics")**. Applicants with expertise in any relevant areas in bioinformatics, computer science, computational genomics, programming, mathematics will be considered, with priority to those with a strong track record in single-cell data analysis. Scientists focusing on

computational integration of large-scale functional and comparative multiomic datasets are especially encouraged to apply. [Apply here](#)
