

Research Seminar

Tuesday, April 11, 2017
12:30 to 2:00 PM

The Child Psychiatry Research Committee is sponsoring a Child Psychiatry Research Seminar. This seminar is open to all staff and students. The seminar will be informal and encourage active audience participation and discussion.

“Radicalization Leading to Violence in Youth”

Presenter: Cécile Rousseau, MD,

McGill Professor, Child and adolescent psychiatrist, and scientific director of SHERPA, CIUSS du Centre-Ouest de L’Ile de Montréal, CLSC Parc Extension. She works with refugee and immigrant children, developing a model of culturally sensitive shared care for primary health care institutions. The school-based prevention programs for immigrant and refugee children developed by her team use a variety of creative expression modalities.

Date: Tuesday, April 11, 2017
Time: 12:30 to 2:00 PM
Place: The Montreal Children’s Hospital, Glen Site
1001 Decarie Blvd.
Block B
Conference room – B 07 1273
