Your Teaching Journey

Your Teaching Journey at McGill is a two day McGill program that will provide useful educational tools for clinicians and research scientists. Whether you are a new recruit who would benefit from an introduction to these educational methods, or an experienced teacher who would benefit from a refresher, we strongly encourage you to register http://www.mcgill.ca/medicinefacdev/

McGill 24 Results

On March 15, the faculty and staff of McGill came together in an unprecedented show of support for McGill24, the University’s day of giving. The McGill24 Faculty & Staff Challenge offered an additional $5,000 to the area of the University that received the most support from faculty and staff during McGill24. Congratulations to the Faculty of Medicine, which received 39 per cent of all donations from faculty and staff on McGill24 – and earned a $5k boost! Thank you for your support and generous contributions! Check out the McGill24 website for more information.

Call for Abstracts: 2017 Research Day

This year’s Douglas Hospital Research Centre and McGill Department of Psychiatry Research Day will take place on Friday, June 2, 2017 from 8:30AM to 6:00PM. Once again, in addition to short talks there will be a keynote lecture, poster presentations, and a datablitz. Abstracts for talks and posters are due Friday, April 21, 2016, 5:00PM.
