From the Residency Program Office: Weekly Information Capsule

Did You Know that residents are required to complete a QA/QI project (this could be a rounds presentation, a small project within the clinic they are rotating in, or even a small research project which can count towards their scholarly requirements?

Upcoming Events

Mon, Nov 12 @ 11:00 (Douglas Institute, Bowerman Room)
Neuroscience for mental health: Prefrontal-amygdala maturation and ontogeny of emotional learning with Dr Carvalho

Tues, Nov 13 @ 17:00 (PHI Centre, 407 St-Pierre St., Vieux-Montréal)
Can big data help explain how our brains work? (Ludmer Centre public lecture/symposium)

Wed, Nov 14 @ 11:30 (Douglas Institute, Bowerman Room)
Douglas cerebral imaging lecture series: Integrating neuroimaging and genetics: A bioinformatics based approach for the study of Alzheimer’s disease with Sejal Patel, PhD candidate, U of T

Fri, Nov 16 @ 11:00 (Allan Memorial Institute, South Seminar room P1.082)
Grand Rounds: An evidence-based critique of contemporary psychoanalysis with Dr Paris

Mon, Nov 19 @ 11:00 (Douglas Institute, Bowerman Room)
Neuroscience for mental health: Linking synaptic activation to hemodynamic signals for functional imaging with Dr Rungta

Tues, Nov 20 @ 16:00 (MNI, Jeanne Timmins Amphitheatre)
Wilder Penfield 2018 Lecture: Half century after Penfield: Impact of science and technology advances on the future of health and society with Dr Dzau
