

**McGill Psychology**  
**Undergraduate Courses**

**Introductory Level/Core Courses:**

PSYC 100 Introduction to Psychology  
 PSYC 204 Intro to Psychological Statistics  
 PSYC 305 Statistics for Experimental Design  
 PSYC 211 Intro to Behavioural Neuroscience  
 PSYC 212 Perception  
 PSYC 213 Cognition  
 PSYC 215 Social Psychology

The study of psychology covers many fields. To develop a breadth of understanding in psychology, students majoring in Psychology are expected to obtain knowledge beyond the introductory level in two or more areas of psychology. To ensure this requirement is met, Psychology courses are divided into two lists. List A covers the areas of behavioural neuroscience, cognition and quantitative methods. List B covers social, health and developmental psychology.

**List A (*Behavioural Neuroscience, Cognition, and Quantitative Methods*)**

NSCI 201 Introduction to Neuroscience 2  
 PSYC  
 301 Animal Learning & Theory  
 302 Psychology of Pain (*used to be PSYC 505*)  
 310 Human Intelligence  
 311 Human Cognition and the Brain  
 315 Computational Psychology  
 317 Genes and Behaviour  
 318 Behavioural Neuroscience 2  
 319 Computational Models-Cognition  
 340 The Psychology of Language  
 341 The Psychology of Bilingualism  
 342 Hormones and Behaviour  
 352 Cognitive Psychology Laboratory  
 353 Laboratory in Human Perception  
 403 Modern Psychology in Historical Perspective  
 406 Psychological Tests  
 410 Special Topics in Neuropsychology  
 413 Cognitive Development  
 427 Sensorimotor Behaviour  
 433 Cognitive Science  
 443 Affective Neuroscience  
 444 Sleep Mechanisms and Behaviour  
 470 Memory and Brain  
 501 Auditory Perception  
 502 Psychoneuroendocrinology  
 506 Cognitive Neuroscience of Attention  
 513 Human Decision-Making  
 514 Neurobiology of Learning and Memory  
 522 Neurochemistry and Behaviour  
 526 Advances in Visual Perception  
 529 Music Cognition  
 531 Structural Equation Models  
 536 Correlational Techniques  
 537 Advanced Seminar in Psychology of Language  
 538 Categorization, Communication & Consciousness  
 541 Multilevel Modeling  
 545 Topics in Language Acquisition  
 561 Methods: Developmental Psycholinguistics  
 562 Measurement of Psychological Processes

**List B (*Social, Health, and Developmental Psychology*)**

PSYC  
 304 Child Development  
 316 Psychology of Deafness  
 328 Health Psychology (*used to be PSYC 429*)  
 331 Inter-Group Relations  
 332 Introduction to Personality  
 333 Personality and Social Psychology  
 337 Introduction to Psychopathology  
 351 Research Methods in Social Psychology  
 408 Principles of Cognitive Behaviour Therapy  
 412 Developmental Psychopathology  
 414 Social Development  
 416 Topics in Child Development  
 436 Human Sexuality and its Problems  
 471 Human Motivation  
 473 Social Cognition and the Self  
 474 Interpersonal Relationships  
 483 Seminar in Experimental Psychopathology  
 491 Advanced Study: Behavioural Disorders  
 507 Emotions, Stress, and Illness  
 509 Diverse Clinical Populations  
 512 Advanced Personality Seminar  
 528 Vulnerability to Depression  
 530 Applied Topics in Deafness  
 533 International Health Psychology  
 535 Advanced Topics in Social Psychology

**Unclassified Courses (neither List A nor B)**

PSYC  
 395 Psychology Research Project 1 (6 credits)  
 450 Research Project and Seminar (9 credits)  
 488 Special Topics Seminar  
 492 Special Topics Seminar 1  
 493 Special Topics Seminar 2  
 494 Psychology Research Project (9 credits)  
 495 Psychology Research Project 2 (6 credits)  
 499 Reading Project (1 credit)

*Note: Not all courses may be offered during an academic year.*
