Learn about the future of life on and beyond the planet with some of McGill's top scientists in conservation biology, chemistry, botany, forest ecology and microbiology. There is a perception that many things such as the fauna, flora, bodies of water, vast landscapes, knowledge and traditions, and even humans are at risk of slipping into oblivion. If you want to know more about the future register now for this unique seven-week public lecture series organized by the Redpath Museum. This series will take place over seven consecutive Wednesday evenings, from October 7 to November 18.

Lectures will be presented in English *mais nous vous invitons à poser vos questions en français.*

#### Registration information

Advance registration and payment required.

**Cost of series: Adults = \$114.97 (includes all taxes)**

**Students and seniors = \$ 68.98 (includes all taxes)**

Fill out the form below and mail with a cheque payable to: **Redpath Museum / McGill University**

**No refunds after September 23, 2015**
