

POSTDOCTORAL CLASSIFICATIONS

FELLOWSHIPS	Fellowships are payments made directly to the postdoc via personal awards following a successful application made by the postdoc. Their dossier is evaluated for merit by sponsoring agency.
RESEARCH FUNDS	Any salary derived from supervisor/PI-held sources, whether it be research restricted funds or unrestricted funds (such as start-up funds). The postdoc's dossier is evaluated by the PI.
BENEFITS	For now, only government benefits apply (18% employer's contribution charged to PI-held funds). Once the collective agreement is signed, it is anticipated that they will be eligible for McGill-employee benefits. PIs are encouraged at this time to budget for 25% fringe benefits on their grant/contract applications as for any other McGill employee.
PGSS HEALTH & DENTAL	Current insurance fee = \$419 (1Sept2016-31Aug2017).
