Rationale		<p>MIMM 212 has been substantially changed and the student workload has correspondingly increased. In recent course evaluations, the students have themselves raised this issue and many students consistently say that compared to other McGill courses, the MIMM 212 work load is certainly greater than 2 credits. The following 4 specific changes increases the student work load: 1 New formal lectures on theory and practice to replace informal pre-lab meetings on practice alone 2 Practical lab final exam to replace purely written exam 3 Formal written lab reports to replace fill-in data sheets 4 Weekly quizzes to provide continuously monitor progress</p>
