8. Course Number(s)
Indicate course number & the number of terms spanned:
(tick all that apply)

Subject/course number: COGS 396

Course(s) Span:

1 term (Fall, Winter, Summer)
 2 consecutive terms (D1, D2)
 2 non-consecutive terms (N1, N2)
 3 consecutive terms (J1, J2, J3)

11. Rationale for new course

COGS 396 is part of the Faculty of Science initiative to increase undergraduate research opportunities. This course is designed to broaden the scope of research courses, to make them available to more students, and to make the undergraduate research component more interdisciplinary. The course would be open to students in any program offered by the Faculty of Science or Arts, would be an elective course, could be undertaken after one term of undergraduate studies, and could be taken by students whose major is outside the offering unit. The course will contain a significant research component that requires substantial independent work by students and a final report worth at least 50% of the final grade. Students will not be permitted to take this course under the S/U option. Because many Cognitive Science students are in the Faculty of Arts and psychological research is of interest to students from Linguistics, Philosophy, Psychology, etc., we want to make this course available to Arts, as well as Science, students.

12. Course Description
(as it will appear in the Calendar [maximum 50 words]):
(N.B. Faculty of Medicine must append complete course outline)

Independent research project with a final written report.

13. Supplementary information to appear in the Calendar in addition to the course description.
Such as: equivalent course(s), contact hours, enrolment limitations, language of instruction etc.
Please enter the information as it should appear in the calendar notes.

Note that enrolment may be limited. Students are advised to start the application process well before the start of term and to plan for an alternative course in the case that no suitable project is available. Individual projects will be suggested each term which may have project specific prerequisites. Some projects may be accessible to students in other disciplines. See <http://www.mcgill.ca/science/ours> for more information about available projects and application forms and procedures.

15. Projected Enrolment:

16. Required text and/or preliminary reading list sent to library?

Yes No

17. Prerequisite(s) (Courses or Tests)
 Specify course number(s) or name(s) of test(s):

If the student does not have a prerequisite should web registration be blocked?
 Yes No

If "Yes" complete A and B:

A. Indicate minimum grade or test score(s) the student must attain in prerequisite course(s) or test(s):

B. Can the prerequisite course(s) or test(s) be taken in the same term as this course?
 Yes No

18. Corequisite(s) Course Number(s):
 Specify course number(s) and title(s):

If the student does not register for the corequisite in the same term should web registration be blocked?
 Yes No

19. Restriction(s):

This course cannot be taken under the S/U option. Program permission required. Student cannot be supervised by the same instructor for two 396 Science courses. Open to students in programs offered by the Faculties of Science and Arts only.

Prerequisites for COGS 396:

At least one term of undergraduate studies, a CGPA of at least 3.0, or permission of the instructor to waive these requirements.

A project proposal form must be completed by the student and instructor and approved by the unit head or his/her delegate before the start of the term.

Instructors will list project-specific prerequisites with the project description available through the Office for Undergraduate Research in Science (OURS) website.
