Course Title on Transcript	O-O Software Development					
Course Title on Calendar	Object-Oriented Software Development.					
Rationale		The reason for this pre-requisite change is that, with our new proposed Honours in Software Engineering, students are required to take COMP-303 and COMP-361, but are no longer required to take ECSE 321. COMP-533 targets senior undergraduate Software Engineering students in particular, and with the pre-requisite change the course becomes more accessible to them.				
Responsible Instructor						
Course Description	Object-oriented, UML-based software development; requirements engineering based on use cases; using OCL and a coherent subset of UML to establish complete and precise analysis and design documents for a software system; Java-specific mapping strategies for implementation.
