7.0 Consultation with Related Units

Morton Mendelson, Associate Dean, Academic, Faculty of Science
 Sharon Bezeau, Recorder, Faculty of Science
 Marj Russell, Degree Evaluation Officer, ARR

8.0 Rationale

Banner/Minerva does not recognize “Streams”, so this program and the Water Environments and Ecosystems Domain – Biological Stream, are not distinguished on the student’s transcript, nor in Degree Audit. By retiring these streams and proposing them as separate programs, this issue will be resolved. Note that current students will be allowed to finish and graduate from their original program, or transfer to the new one.
