(9) (13.5 hours per week research) (Restricted to Biology students) (Projects must be arranged privately with a professor in the Biology Department and a form from the undergraduate office (W4/8) must be completed)

**20. Rationale**

The Biology Department strongly supports undergraduate research in both Honours and non-Honours programs. Some undergraduates wish to take up to 9 credits of independent studies on a single project. At present they must do this by combining three 3-credit courses or one 3-credit and one 6-credit course. This does not reflect that it is a single project. Furthermore, if students wish to take 12 credits of independent studies, as permitted by the University, they cannot do so without repeating one of the courses, something which is **not** permitted by University regulation. The 9-credit course (BIOL 479) that is currently listed is restricted to students in the Honours Program
