Rationale		The Department of Biochemistry has heretofore offered two of the four 'Seminars in Chemical Biology' courses (BIOC 610 and 611) offered as part of the Interdepartmental Graduate Option in Chemical Biology, and the Department of Chemistry has offered the other two (CHEM 690 and CHEM 691). In reality all four courses are now (and will continue to be) coordinated by Dr. Silvius and the Department of Biochemistry, and the proposed change of offering department will simplify the administration of these courses.
