

MEMORANDUM

DATE: December 6, 2010

TO: Josie D'Amico – Faculty of Science
Nishat Shabnam – Faculty of Medicine

Cc: Dr. Fiona Bedford & Dr. Louis Hermo

FROM: Vittoria Catania

RE: **Minor Changes to the Major & Honours Programs in Anatomy & Cell Biology**
Effective Date of Implementation: Fall 2011

Hi Josie & Nishat,

The Department of Anatomy & Cell Biology would like to remove the following courses from the Biologically Oriented Course list in the Complementary Course list, for the Major & Honours Program in Anatomy & Cell Biology. The number of credits for the programs remain unchanged (Major 67 credits, Honours 73 credits). The reason is that students are not taking these courses.

- BIOC 454
- BIOL 389, BIOL 468, BIOL 530, BIOL 572
- EXMD 509, EXMD 510, EXMD 512D1/D2
- MIMM 386D1/D2
- NUTR 307

Please do not hesitate to contact me should you require further information.

Thanks!

Vittoria Catania
