Rationale		We do not want to prevent non-Environment students from taking ENVR 301 if space allows as an elective, however, we want to require/strongly encourage Environment students to complete all the 200-level ENVR courses before taking ENVR 301.				
Responsible Instructor						
Course Description	Techniques used in design and completion of environmental research projects. Problem definition, data sources and use of appropriate strategies and methodologies. Principles underlying research design are emphasized, including critical thinking, recognizing causal relationships, ideologies and bias in research, and when and where to seek expertise.
