	Course Title on Transcript	General Pharmacology 1								
Course Title on Calendar	General Pharmacology 1.									
Course Title on Transcript	Neuropharmacology									
Course Title on Calendar	Neuropharmacology									
Rationale		<p>The change in this course is part of a multi-year plan to modify the curriculum for B.Sc. Majors and Honors students in Pharmacology. The overall goal is to create a larger number of 500 level courses to provide students with more elective and fewer required courses in pharmacology. By increasing the number of course offerings, we will also achieve our second goal of decreasing enrolment in each individual course. The latter will facilitate our efforts to incorporate more student-directed learning at the 500 level. Historically, about 2/3 of the course content concerned neuropharmacology. With this revision, this course will be dedicated entirely to this topic.</p>								
Responsible Instructor		Dr. Derek Bowie								

Course Description	Topics in pharmacology with an emphasis on molecular aspects and the nervous system; topics include molecular mechanisms of drug-action, cellular targets and rationale for therapeutics.	Topics in pharmacology with an emphasis on molecular mechanisms of drug-action and cellular targets in the nervous system.
Teaching Dept.	0253 : Pharmacology and Therapeutics	
Administering Faculty/Unit	SC : Faculty of Science	
Prerequisites	Prerequisite: PHAR 301.	Prerequisite: PHAR 301 or with permission of instructor. Web Registration Blocked? : N
Corequisites		
Restrictions	<ul style="list-style-type: none"> Restriction: Open to U3 students in the minor, major or honours program in Pharmacology, or with permission of instructor.
