Hello First Year Students,

Thank you for informing Sophie and writing to me directly to let us know that we had inadvertently made you “part-time” students in the winter term by asking you to register for your spring practicum now rather than in the 2021 Winter Term. This morning we reviewed the COVID19 revised program to sort out the credits and I am sending new information regarding the registrations, as follows:

1. If you have registered for SCSD 646 Spring Practicum (4 credits), PLEASE “WITHDRAW” FROM SCSD 646 NOW. We will ask you to re-register for this practicum in Winter 2021.
2. In summer term you will register for SCSD 616 and SCSD 618, totalling 6 credits
3. In fall term you will register in SCSD 636, 639, 644, 683, 664, and 669, totalling 16 credits
4. In winter term you will register in IPEA 502, SCSD 642, 680, 689, 684, 646 and SCSD666/667/670 (the option course), totalling 15 credits.
5. Next summer you will register in SCSD 679 which equals 12 credits.

When you withdraw from SCSD 646 Spring Practicum you will be given the option to receive a refund of the tuition or to take a credit that you can apply against the summer courses.

I really do apologize for adding a new stress to an already difficult period. However, we remain on-track to ensuring that you finish your program on time. We are fully engaged right now working out the best way to deliver your fall courses, labs and clinical practicum hours in the safest way possible.

If you are needing any extra support at this time, please refer to the resources made available to you through the [Well Office](#). Please also consult with the [Scholarship and Student Aid Office](#) for information about emergency financial aid if you need it.

I wish you good health and the best of luck with your final exams.

Susan
