COMP 535 Computer Networks (4 cr.) [PRN 11178] – credit weight, title, description, prerequisites, restriction.

Affected programs indicated; *ES Comments/Corrections:* Unfortunately, there are 26 students registered for this course

School needs to coordinate with T.T. office and ES to do this;

COMP 540 Matrix Computations (4 cr.) [PRN 11180] – credit weight. Affected programs indicated; *ES*

Comments/Corrections: This course is offered in 201609 with nine students registered. Is it the School’s intention to

increase the credit weight after this course is offered or is the term supposed to be 201609? If 201609, then the same

issue applies as for COMP 535 – students need to be deregistered for credit weight to come into effect for students

registered;

EXMD 502 Advanced Endocrinology 1 (3 cr.) [PRN 11000] – title. Affected program indicated.
