

REPORT 4 FROM ENROLMENT SERVICES (ES) TO SCTP [2014-2015]

SCTP meeting date: December 4, 2014

The following course and program proposals have been approved by Fiona Lees, Enrolment Services, on behalf of SCTP. Highlighted text in pink are queries to/information for units.

SECTION A: APPROVED PROGRAMS

Minor and Moderate Revisions

Faculty of Agricultural and Environmental Sciences
Department of Food Science and Agricultural Chemistry

Certificate in Food Science (30 cr.) – description, complementary courses deleted, complementary courses added.

Rationale: To ensure the structure is more streamlined as courses in the other food science programs. **ES**

Comments/Corrections: Revise the proposed description so that it reads "... and then choose complementary ..." It is recommended to remove the term listing of courses within the Complementary Course, to avoid extra work in the future [in case courses are not listed in the indicated term].

Faculty of Dentistry

M.Sc. in Dental Sciences; Non-Thesis (45 cr.) – required course deleted, required courses credits decreased, complementary courses added, how complementary courses chosen revised, complementary courses credits increased, note removed from beginning of complementary courses, and note at the end of the program layout revised. *Rationale:* Update to courses.

Faculty of Engineering
Dean's Office

B.Eng.; Minor in Technological Entrepreneurship (18 cr.) – description. *Rationale:* To indicate the limit of double-counting credits.

Department of Electrical and Computer Engineering

B.Eng. in Electrical Engineering (138-139 cr.) – note added to list of required courses, asterisk added, existing "*" revised to "***". *Rationale:* To allow more flexibility for students to take a more suitable course.

B.Eng.; Honours in Electrical Engineering (138-139 cr.) – note added to list of required courses, asterisk added, existing "*" revised to "***". *Rationale:* To allow more flexibility for students to take a more suitable course.

B.Eng. in Computer Engineering (139-143 cr.) - note added to list of required courses, asterisk added, existing "*" revised to "***". *Rationale:* To allow more flexibility for students to take a more suitable course.

B.S.E. (137-144 cr.) - note added to list of required courses, asterisk added, existing "*" revised to "***". *Rationale:* To allow more flexibility for students to take a more suitable course. **ES Comments/Corrections:** Effective date indicated as "201501".

Department of Mining and Materials Engineering

B.Eng. in Mining Engineering Co-Op (150-152 cr.) – a complementary course deleted. *Rationale:* Complementary course removed is the graduate version at the 500 level of a required course. **ES Comments/Corrections:** Effective date indicated as "201501". Why isn't the 500-level version of the course listed as required and retire MIME 325? Why the need for these two undergraduate courses?

Retirements

School of Continuing Studies
Department of Career and Professional Development

Diploma in Management; Operations Management (30 cr.). *Rationale:* This program has been replaced with another program.

Graduate Certificate in Operations Management (15 cr.). *Rationale:* This program has been replaced with another program.
