To: Senate

From: Heather Munroe-Blum

Date: January 18th, 2012

Subject: *Report of the Internal Investigation into the Events of November 10, 2011*

I would like to thank Dean Jutras for producing the *Report of the Internal Investigation into the Events of November 10, 2011*. He dealt with these difficult issues independently, promptly and thoroughly, and I thank him for this distinguished service to the University.

Dean Jutras' *Report* includes six recommendations. I and the members of the Senior Administration accept all of the recommendations, and will implement them going forward. However, before confirming the plans for implementation, and as I committed to do in December, I will await the benefit of hearing the discussion at Senate, and that at the Board of Governors at a special meeting to be held for this purpose on January 31st, as well as receiving any feedback in response to my invitation of December 15th, 2011.

Once we have had the opportunity to consider the *Report* together, I will finalize and make public my written response including the plans and timetable for implementation of the recommendations following the Board meeting later this month.

I look forward to a full and dynamic discussion of the *Report*.
