Dr. Delphine Collin-Vézina is the Director of the Centre for Research on Children and Families at McGill University. She is a licensed clinical psychologist and an Associate Professor in the McGill School of Social Work and in the Department of Pediatrics. She holds the Canada Research Chair in Child Welfare and the Nicolas Steinmetz and Gilles Julien Chair in Social Pediatrics in Community.

Her program of research focuses on service provision to children and youths living in vulnerable contexts across three themes: (1) child protection responses to sexual abuse of children and youth; (2) trauma-informed care of children and youth in out-of-home placement; (3) social return of investment models regarding community-based, whole-person services. Provincial and federal granting bodies have extensively funded her program of research. She sits on the boards of influential institutions (e.g. Child Protection Center of the Gregorian Pontifical University; Child Welfare League of Canada). She publishes in well-regarded journals and is regularly invited as a keynote speaker in important scientific and community venues.

Dr. Collin-Vézina collaborates with partners from the communities as a means to contribute to building effective and meaningful practices and policies that directly and positively impact vulnerable populations. Her collaborators include: Health and Social Services agencies across the province of Quebec, the Montreal Children's Hospital, Fondation Dr Julien, the Love of Reading Foundation, community non-profit organizations (Boscoville, Ometz Agency, La Traversée), and school boards in Quebec and Ontario.

MEDIA APPEARANCES AND GOVERNMENTAL REPRESENTATIONS

2016

I was invited to participate to a scientific panel on gender-based violence held by Status of Women Canada in Ottawa in September 2016 and thus influenced the ongoing elaboration of the federal government strategy against sexual violence.

2014-2016

The Secrétariat à la condition féminine held a forum on sexual abuse in June 2015. Following this forum, I participated to the preparation of a memorandum in order to develop the third government action plan on sexual abuse.

Cyr, M., Lavoie, F., Hébert, M., **Collin-Vézina, D.**, Daigneault, I., Corneau, M. (2015). *Mémoire déposé au Secrétariat à la condition féminine en vue de l'élaboration du troisième plan d'action gouvernemental en matière d'agression sexuelle*. Montréal: CRIPCAS.

We then submitted a second memorandum to the Quebec Ministry regarding the sexual abuse of Aboriginal girls and women.

Dion, J., **Collin-Vézina, D.**, Lavoie, F., Cyr, M., & Corneau, M. (2016). *État des connaissances en recherche sur la violence sexuelle et les femmes autochtones au Québec*. Mémoire déposé au Secrétariat de la Commission des relations avec les citoyens dans le cadre du mandat d'initiative - Les conditions de vie des femmes autochtones en lien avec les agressions sexuelles et la violence conjugale. Montréal: CRIPCAS.

My program of research was featured in a factsheet produced by *International Innovation*, a CORDIS-listed project dissemination partner for FP7 and H2020 projects.

2014-2016

In 2014, the Fonds de recherche Société et culture (FRQSC) organized a special event in order to disseminate the results of the implementation evaluation of the services provided by the designated centers for sexual abuse in Quebec.

2013-2015

I co-authored an open letter on child sexual abuse disclosure processes that appeared in Le Soleil: <http://www.lapresse.ca/le-soleil/opinions/points-de-vue/201405/09/01-4765265-agression-sexuelle-rectifications-les-faits.php>

I authored and co-authored open letters that were published in La Presse and The Gazette in relation to the proposed reform of health and social services in Québec (Bill 10):

http://www.ledevoir.com/documents/pdf/lettre_centrejeunesse.pdf

<http://www.montrealgazette.com/news/Letter+Bill+will+hurt+youth+protection+services/10276579/story.html> These publications led to major impacts:

- We submitted a memorandum to the Quebec Ministry of Health regarding the proposed reform of the health and social services system in the province (Bill 10), and were invited to appear before the Health and Social Services Commission at the National Assembly in October 2014. <http://www.assnat.qc.ca/fr/video-audio/AudioVideo-54443.html>

- Following my initial presentation, I was invited by the Ministry to participate to roundtables that aimed to elaborate strategies to successfully subsume child protection services within a broader health and social services institution.
- This information was featured in the McGill Tribune: <http://mcgilltribune.com/news/bill-10-muhc-concerned-new-network-structure/>

My work on disclosure processes was featured in a report for the Office of the Children's Commissioner for England (2013).

My work on prevalence rates of child sexual abuse in Canadian Aboriginal communities was featured in the Victims of Crime Research Digest No. 3 from the Department of Justice Canada (2013): <http://www.justice.gc.ca/fra/pr-rp/jp-cj/victim/rr3-rd3/p3.html>

2013-2014

In 2013, the Association of Alberta Sexual Assault Services (AASAS) concluded that it was imperative to develop a province-wide strategic and coordinated action plan to address sexual violence in Alberta. I was consulted as an academic expert in the development of this plan, which is evidence-based and builds on current and emerging research on sexual assault. For more information on the ongoing implementation of the Sexual Violence Action Plan, please consult: <http://www.calgarycasa.com/wp-content/uploads/2014/10/AASAS-Strategic-Plan.pdf>.

This consultation process led to a conference presented at the Alberta Minister's Forum on Child Sexual Abuse in 2014 (See keynote presentation above : Collin-Vézina, D. (2014). Beyond the tip of the iceberg: The multiple barriers to disclosure of childhood sexual abuse. *Alberta Minister's Forum on Child Sexual Abuse*. Calgary, AL.).

Up to 2012

My work on Canadian trends of child sexual abuse was featured by the Canadian Red Cross (2011).
