Course Coordinators/Instructors:

Caroline Storr, BSc (OT), MBA, erg.
Associate Professor (Professional)/
Academic Coordinator of Clinical Education (ACCE)
Office: Davis House, room 2
Office hours: By appointment only
Phone: (514) 398-6561
Email: Caroline.Storr@mcgill.ca

Karen Falcicchio, MSc (OT), erg.
Faculty Lecturer/
Associate Academic Coordinator of Clinical Education (AACCE)
Office: Davis House, room 34B
Office hours: By appointment only
Phone: (514) 398-2553
Email: Karen.falcicchio@mcgill.ca

Anne-Marie Brassard, (OT), erg.
Faculty Lecturer/
Associate Academic Coordinator of Clinical Education (AACCE)
Office: Davis House, room 2
Office hours: By appointment only
Email: anne-marie.brassard@mcgill.ca

McGill University is situated on the traditional territory of the Kanien'kehà:ka, a place which has long served as a site of meeting and exchange amongst nations. We recognize and respect the Kanien'kehà:ka as the traditional custodian of the lands and waters on which we meet today

Prerequisites: Successfully pass all Premasters occupational therapy courses. Successfully pass OCC1 500 course. Successful completion of previous clinical practicum course OCC1-501/OCC1-502.

Course Description: In the second and third clinical practica, students will continue to develop competence in clinical reasoning, assessment and treatment of physical and mental health conditions in various health care environments. Students will be exposed to different OT interventions in traditional, community service development and role emerging areas of practice and develop understanding of interdisciplinary client-centered care.

Course Structure: This is the second or third of four clinical practicum courses. Clinical Practicum 2 is scheduled for 7 weeks full-time and Clinical Practicum 3 is scheduled for 8 weeks full-time. In this practicum, learning objectives and expectations will be considered level 2a or level 2b according to the Competency Based Fieldwork Evaluation (CBFE).

Instructional Methods: Clinical education will be provided by occupational therapists that work in various settings, depending on the rotation type of practicum offered. The type of teaching will correspond with the student's level of training and previous fieldwork experience. In conjunction with the onsite practicum learning, students will be expected to engage in peer-learning by using web-based technology tools (ex: Yammer) and maintain a student professional portfolio.

Course Content: The exact nature of the interventions and the type of clientele seen during the clinical course will depend on the clinical setting where each student will be placed. Prior to the beginning of the course, students will be informed of where they will be doing their course and with which type of clientele. Details will be specified by the clinical educators at the beginning of the course. Many sites have completed the Fieldwork site approval document (FS-PRO) and

students should review this material in preparation for their clinical course on *e-Fieldwork (MyCourses)*.

Please note: Students are expected to abide by policies established at each institution and failure to do so can result in immediate failure and termination of the course. Students are expected to work the hours as stated by the individual setting and additional preparation is expected off hours. Some sites may require a special project to be done during clinical course hours. It is recommended that a maximum of 10hrs is dedicated to the project to maximize direct client experience.

Level 2 (a and b) Learning Objectives by essential competencies and roles:

The student will be able to:

Expert in Enabling Occupation:

1. Participate in the whole OT intervention process (as per fieldwork setting) from assessment to treatment and client discharge and understand the specific OT role in each of these stages of client care.
2. Critically assess patient change and modify care plan as appropriate.

Collaborator:

3. Interact professionally.
 - Understand the role of the interdisciplinary team.
 - Initiate contact with other professionals and share client issues.
 - Report his/her observations to peers, and other team members.

Practice Manager:

4. Demonstrate competence in time management, setting priorities and arranging daily schedule with minimal supervision.

Professional:

5. Be accountable for his/her patients.
6. Demonstrate initiative, problem-solving and clinical reasoning in all aspects of clinical practice.
7. Demonstrate flexibility and adaptability with regards to client care.

8. The student will demonstrate respect for confidentiality such as when sharing a cases or descriptions on the *Yammer* social network.

Communicator:

9. Be able to give and receive feedback to peers, supervisor and other team members.
10. Continue to foster an online community of OT students through participation on *Yammer*.

Scholarly Practitioner:

11. Demonstrate student-directed learning in daily practice (using web-based learning resources, including *Yammer* social network and online modules, accessing classroom resources, etc.).
12. Identify and utilize all available learning resources (peers, other team members, *MyCourses*, *Yammer*, in-services, reflective journal) to achieve competence in placement and enhance learning.
13. Refine clinical reasoning processes by asking questions, finding answers and demonstrating competence in client care.
14. Develop personal learning objectives and include these in the CBEF.

Change Agent:

15. Represent the client's needs in team meetings and advocate for the client as deemed necessary and appropriate.

Required Texts: The following 4 texts are required for all four clinical practicum courses throughout the remainder of the program:

1. Bossers, A., Miller, L., Polatajko, H., & Hartley, M. (2007). *Competency Based Fieldwork Evaluation for Occupational Therapy CBEF*. Toronto, ON: Nelson Education.

Online version now available: <https://www.cengage.ca/c/custom-ebook-competency-based-fieldwork-evaluation-for-occupational-therapists-44-1st-edition-1e-bossers-miller-polatajko-hartley/9781774740972/>

All students must submit a proof of purchase in accordance with copyright law by March 1st 2024.

2. Principles for Moving Patients Safely. Montréal: ASSTSAS, 2011.
This text is required for workshop participation in POTH-563 and is a reference for all future clinical practica.
3. Clinical Tips to Thrive document (provided on *e-Fieldwork*).
4. Clinical Course Policies document (provided on *e-Fieldwork*).
5. Additional readings that sites may assign.

Recommended Readings:

1. Course materials from the previous semesters.
2. Fieldwork site approval documents (FS-PRO) on *e-Fieldwork (MyCourses)*
3. All documents located on *e-Fieldwork (MyCourses)*

Evaluation: Students will receive a grade of Pass/Fail. The clinical educator(s) will provide a recommendation of the final grade to the McGill OT Clinical Education team (e.g. Academic Coordinator of Clinical Education or their designates) who will determine the final submitted grade. Failure will occur if the student does not meet the learning objectives/expectations for the clinical course.

Special Requirements for Course Completion and Program Continuation: This course falls under the regulations concerning individual and group evaluation. Please refer to the section on marks in the Rules and Regulations for Student Evaluation and Promotion of the Occupational Therapy Course Guides.

Copyright of Course Materials: Instructor generated course materials (e.g., handouts, notes, PowerPoint presentations, student assignments, etc.) are protected by law and may not be copied or distributed in any form or in any medium without explicit permission of the instructors. Note that infringements of copyright can be subject to follow up by the University under the [Code of Student Conduct and Disciplinary Procedures](#).

Right to Submit in English or French: In accord with McGill University's Charter of Students' Rights, students in this course have the right to submit in English or in French any written work that is to be graded. This does not apply to courses in which acquiring proficiency in a language is one of the objectives.

Conformément à la Charte des droits de l'étudiant de l'Université McGill, chaque étudiant a le droit de soumettre en français ou en anglais tout travail écrit devant être noté (sauf dans le cas des cours dont l'un des objets est la maîtrise d'une langue).

Accommodation: If you require accommodation for this practicum, please follow the Recommended Procedure Flowchart for Fieldwork Accommodations Promoting an Inclusive Campus below-See p. 7.

Flowchart highlights:

At no point will the student be pressured into following the recommended procedures. The options will be presented in an unbiased manner. The student can also say yes to some, but not all the recommended steps

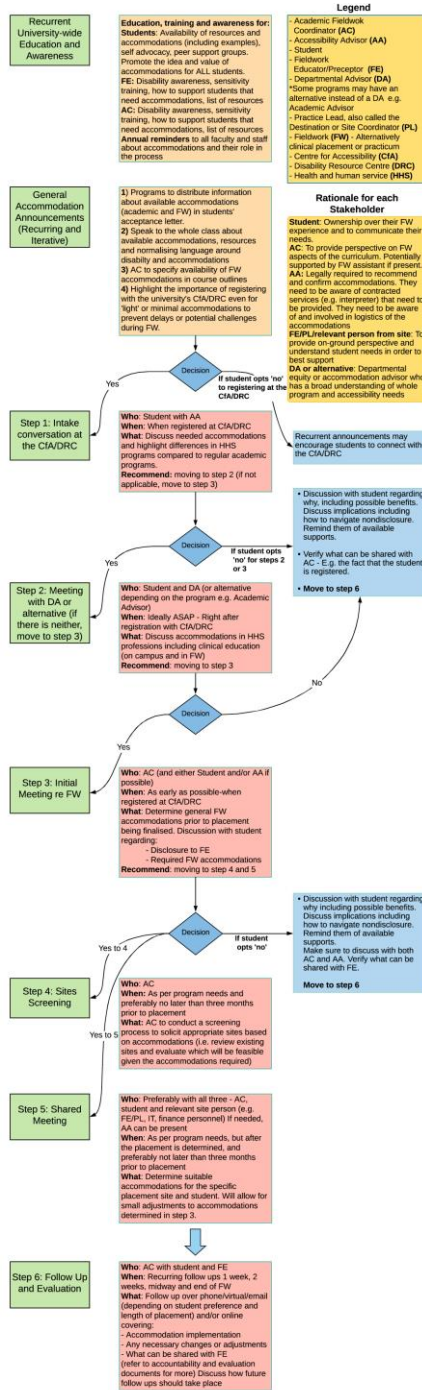

1. Students must contact the Student Accessibility & Achievement Office (SAA) at (514) 398-6009, and register with the office, before scheduling a meeting with the designated ACCE member or receiving any accommodations.
2. Initial intake meeting with SAA adviser.
3. Meeting with department adviser (Susanne Mak, Susanne.mak@mcgill.ca)
4. Meeting with designated ACCE (Karen Falcicchio, karen.falcicchio@mcgill.ca)
5. Shared meeting with ACCE, student and site contact and/or educator. SAA adviser can be present if needed.
6. Follow up throughout the clinical course from ACCE with student and clinical educator.

Recommended Procedure Flowchart for Fieldwork Accommodations Promoting an Inclusive Campus

Please note:

- While this proposal is an ideal and is depicted as a linear process, we acknowledge that ongoing realities might dictate different trajectories. Thus, flexibility and an individualized approach is required while using this as a general framework.
- At no point will the student be pressured into following the recommended procedures. The options will be presented in an unbiased manner. The student can also say yes to some, but not all the recommended steps.

Plagiarism/Academic Integrity: McGill University and the Faculty of Medicine value academic integrity. Therefore, all students must understand the meaning and consequences of cheating, plagiarism and other academic offences under the [McGill University Code of Student Conduct and Disciplinary Procedures](#).

Course Evaluations: End-of-term course evaluations are one of the ways that McGill works towards maintaining and improving the quality of courses and the learning experience of students. You will be notified by e-mail when the evaluations are available on *Minerva/Mercury*, the online course evaluation system. Students will be asked to complete course evaluations on the clinical seminars and university clinical course preparation and debriefing sessions at 2 points in the program only. Students are strongly encouraged to complete the end-of-term course evaluation based on the preparatory seminars, and ongoing support provided by the ACCEs through mentoring, guidance and counseling; individually or in small groups at 2 points in the program only. Please note that a minimum number of responses must be received for results to be available to students.

In the event of extraordinary circumstances beyond the University's control, such as was the case with the COVID-19 pandemic in the Spring of 2020, the content and/or evaluation scheme in this course is subject to change.
