

Judith Kornbluth Gelfand Pediatric Fellowship

Application

Eligibility:

- -Full-time Ph.D. student in Rehabilitation Science
- -Conducting pediatric research on neurological and neuromuscular disorders
- -Preference will be given to students who have presented their Research Proposal
- Value: \$3,000.

Deadline: February 28, 4pm -- NO EXCEPTIONS

Please email application to graduate.rehabilitation@mcgill.ca or drop off with Graduate Coordinator.

Name: _____ Supervisor: _____

Year in Program: _____ Date of Proposal Presentation: _____

Thesis Title: _____

Overview of Your Research Project:

Please provide a 500-word summary of your proposal including rationale for the study, key hypotheses to be tested, main procedures and statistical approaches. Please describe clearly the current stage of your project (e.g., ethics approval, data collection, analysis, write-up, etc.).

Overlap With a Sponsored Project:

If your research project is part of a larger funded research study, please provide information including the funding agency, title of project, PI and co-investigators, duration of study, goals of sponsored study, and information about the unique aspects of your research project within the larger study. Please include a copy of the study abstract from the grant application.

Relevance Of Your Research To Promoting Best Practice In Pediatric Rehabilitation:

Please provide a 200-word summary of the significance of your project, focusing specifically on how the findings can be used to enhance the lives of children through improvements in pediatric rehabilitation.

Your Research Productivity To Date:

Please provide complete references (and a copy of abstract if available)

1. Presentations to date
2. Publications, abstracts

Studentship/Fellowship Support:

Please provide details of any studentship/fellowship support you have received

1. Obtained – agency, title, duration, amount
2. Applied for – agency, title, duration, amount
