

KEYNOTE SPEAKERS

Dr. Susan Bartlett is Associate Professor of Medicine at McGill University (Divisions of Clinical Epidemiology, Rheumatology, and Respiriology), Associate Member in the School of Physical & Occupational Therapy, and Adjunct Associate Professor in the Johns Hopkins (Divisions of Rheumatology). She is an internationally recognized expert in patient engagement and patient-centered research outcome measurement and methods, self-management of chronic diseases, and adherence to treatments. She received her Master's from McGill University, a PhD in Clinical Psychology from Syracuse University and completed post-doctoral training at the Johns Hopkins School of Medicine, where she served on the faculty from 1998-2007 when she relocated to McGill. Dr. Bartlett has served as PI or Co-I on many NIH, CIHR, the Arthritis Society, the Arthritis Foundation and others. She is co-founder of Canada-PRO (with Dr. Sara Ahmed), chair of the Patient Centered Outcomes Working Group for the Behavioral Sciences Assembly of the American Thoracic Society, chair of the Standards and Methods Committee of the International Society of Quality of Life (ISOQOL), and a steering committee member for NIH PROMIS International, the OMERACT RA Flare Group, and SPIN (Scleroderma Patient-centered Intervention Network).

Mathieu Jackson has Hemophilia B moderate. After high school, he trained in professional cuisine at the Institut de Tourisme et d'Hôtellerie du Québec (ITHQ). He then completed a Bachelor's degree in French literature at University of Montreal, where he is presently writing his master's thesis in Comparative education and fundamentals of education. Mathieu is on the boards of directors of both the Canadian Hemophilia Society Quebec Chapter (CHSQ) and the Canadian Hemophilia Society (CHS). He is patient coordinator at the Centre for excellence in partnerships with patients and the public (CEPPP) at the University of Montreal hospital research center (CRCHUM), where he participates in training patients, caregivers, health professionals and researchers to work together in a partnership healthcare model. Mathieu Jackson is a fellow of the 2017-2018 International AFFIRM Program.
