

# School of Physical and Occupational Therapy

EXCELLENCE THROUGH GROWTH

## M.Sc. Non Thesis Study Plan Form

The Study Plan form has been designed to help you schedule your coursework requirements during your **M.Sc. Non Thesis Program**. You must submit a copy of this form to the **Graduate Student Affairs Coordinator** for your file by **October 15** of your first year of study and anytime a change is made to your Study Plan.

- Please indicate the year and term you plan to register for your courses.
- Please ensure that you are registered for at least 12 credits per semester if you wish to be considered full-time. **Students who do not register for 12 credits per term are automatically considered part-time.**
- This program includes 30 credits of required and complementary courses plus a 15-credit research project.
- It is recommended that you register in September for a **full year** at a time, i.e. your Fall and Winter term courses all at once.
- Any changes/additions made to your original registration in September must be done on a new Study Plan form, signed by your supervisor and the Graduate Program Director, and a **copy given to the Graduate Student Affairs Coordinator** for your file.
- Please keep your Study Plan form in a safe place, as you will need it to verify that you have completed your program requirements before graduation.
- All program requirements including the **Research Project** must be completed **within three years of initial registration** when pursued on a full-time basis or within five years of initial registration when pursued on a less than full-time basis.

**McGill University – School of Physical and Occupational Therapy  
M.Sc. Non-Thesis Program (45 credits)**

Requirement effective as of **Fall 2022**
