DAVID S. CRAWFORD, B.A., Dip.Lib.Stud, A.L.A.
Director, Health Sciences Library

1.3 History

The Faculty of Medicine was established as the first faculty of McGill University in 1829. It dates its origin to 1823 when four staff members of the recently opened Montreal General Hospital founded the Montreal Medical Institution in order to offer lectures to students of medicine. In 1833, four years after the Institution became the Faculty of Medicine, William Leslie Logie was awarded the degree of Doctor of Medicine and Surgery and became the first McGill, and the first Canadian medical graduate. In 1862 the degree was changed to its present designation, Doctor of Medicine and Master of Surgery (M.D.,C.M.) and in 1872 it was conferred upon the Faculty's most illustrious graduate, William Osler. Osler served on the faculty from 1874 to 1884 before going on to the University of Pennsylvania, Johns Hopkins University, and Oxford University. He was instrumental in developing the Medical Library, which had its origin in the Montreal Medical Institution and which now contains over 216,000 volumes and 2,300 periodicals, and left to it his extensive collection of books devoted to the history of medicine.

The land occupied by the University, deeded to it by James McGill, lies in the heart of Montreal on the southern slope of Mount Royal. The medical faculty offices are located in the McIntyre Medical Sciences Building which lies higher on the

flank of the mountain on Promenade Sir-William-Osler at Pine Avenue. The Medical Library, the Osler Library of the History of Medicine, and a number of the departments of the Faculty are located in this building. The Royal Victoria Hospital, founded in 1887, the Strathcona Anatomy and Dentistry Building, and the Montreal Neurological Institute and Hospital are situated a half mile east of the McIntyre Building while the Montreal General Hospital, relocated in 1955 from its original site south of the University, lies a half mile to the west. There are two other principal teaching hospitals, the Montreal Children's Hospital and the Sir Mortimer B. Davis-Jewish General Hospital, and seven specialty teaching hospitals. In addition, there are nine centres and units specializing in human genetics, artificial cells and organs, cancer research, host resistance, nutrition and food science, aerospace medical research, medical physics, age and aging, and in medicine, ethics and law.

1.4 Mission Statement

The Faculty of Medicine affirms the mission of McGill University as follows:

The advancement of learning through teaching, scholarship, and service to society: by offering to outstanding undergraduate and graduate students the best education available; by carrying out scholarly activities judged to be excellent when measured against the highest international standards; and by providing service to society in those ways for which we are well-suited by virtue of our academic strengths.

Within this context, the mission of the Faculty of Medicine is to pursue internationally significant scholarship and to provide undergraduate, graduate and professional programmes of the highest academic quality so that we may contribute to the well being of mankind.

We affirm the following objectives in order to accomplish our mission:

1. Education

The health-care professionals who are graduates and trainees of the Faculty will be well-prepared to address the present and future health needs of the Canadian population. They will be oriented to preserving health, technically competent, adept at solving problems, capable of functioning as part of a multi-disciplinary team and committed to life-long learning both for themselves and their patients. They will exhibit ethical behaviour and compassion in dealing with patients, restraint in using health resources, and an inquiring attitude towards the mechanisms of health and disease. Finally, our programmes will be rooted in a scholarship of education designed to the development and exploitation of modern pedagogical techniques.

2. Research

The Faculty's research programs will contribute to the understanding of the basic mechanisms of health and disease and develop and evaluate clinical interventions to address health care needs. The research will emphasize collaboration between basic and clinical sciences, and between members of our Faculty and researchers in other disciplines. The faculty will encourage and support outstanding research trainees and research training programs. Our research will encompass the scholarship of discovery and integration.

3. Service

Members and trainees of the Faculty will provide exemplary, scientifically based health services to the McGill target population and will participate actively in national and international professional organizations. Our stance will encompass a scholarship of application whose aim is to ensure that available and new knowledge are used to improve the care and well being of society.

1.5 Medical Societies

McGill Medical Students' Society Inc.

Mail: 655 Promenade Sir-William-Osler, 6th Floor
Montreal, QC, H3G 1Y6

Office: McIntyre Medical Sciences Building, Room 508

Telephone: (514) 398-7167 Fax: (514) 398-1789

Email: msspres@med.mcgill.ca

The Society is an association of all registered medical students. Acting through its elected council and various Faculty committees, the Society performs a number of functions:

1. to represent medical students' ideas, concerns and problems to the Faculty of Medicine, the rest of the McGill community, the government, and the public at large;
2. to promote interaction among medical students through both the Federation of Quebec Medical Student Societies and Canadian federations of medical students;
3. to attempt the advancement of new forms of learning in response to the desires of the students;
4. to collaborate with the Students' Societies of Nursing, Physical and Occupational Therapy, and Dentistry in running the "Annex", the social centre;
5. to regulate all student sporting and social events within the Faculty;
6. to publish a newspaper, *The Placebo*, for all medical students;
7. to recognize and supervise the formation and operations of affiliated student societies;
8. to attempt generally to provide the resources and personnel to meet student needs and wishes as they arise.

The M.S.S. has members on many Faculty committees, including the Curriculum Committee and the Admissions Committee. Details of all activities are easily available from the M.S.S. Office and it is hoped that all students will participate in the Society's activities.

L'Association des Étudiants en Médecine est une association de tous les étudiants inscrits en médecine. Représentée par son conseil élu et par les divers comités de la faculté, l'Association accomplit les fonctions suivantes:

1. représente les idées des étudiants, leurs soucis et leurs problèmes à la faculté de médecine, à la communauté McGill en général, au gouvernement et au public en général;
2. facilite la communication des étudiants en médecine par le biais de la Fédération des Associations des étudiants en médecine du Québec et de la Fédération des étudiants en médecine du Canada;
3. essaie de développer de nouveaux cours qui répondront aux désirs des étudiants;
4. collabore avec les Associations des étudiants en nursing, en ergothérapie et réadaptation, et en médecine dentaire dans la direction de "l'Annexe", notre centre social;
5. s'occupe des activités sportives et sociales des étudiants en médecine;
6. publie un journal, *The Placebo*, pour tous les étudiants en médecine.
7. reconnaît et supervise la formation et le fonctionnement d'organisations ou de sociétés d'étudiants en médecine à des fins diverses.
8. de façon générale, essaie de fournir les ressources et le personnel afin de rencontrer les besoins et les désirs des étudiants qui se font ressentir.

L'Association des étudiants en médecine a des membres sur plusieurs comités de la faculté y compris le "Curriculum Committee" et "Admissions Committee". Des renseignements sur nos activités peuvent facilement être obtenus au bureau de l'Association et nous souhaitons ardemment que tous les étudiants participent à nos activités.

Osler Medical Aid Foundation (OMAF)

Four McGill medical students founded OMAF in 1985. Its aim is to increase awareness of international health issues, and to promote student involvement in international health programs. OMAF does this by providing lectures and information on international health projects and organizations. OMAF also helps medical students organize and obtain funding for medical electives and research projects in rural and developing areas. Currently OMAF is beginning to develop a long-term, sustainable project for McGill Medicine in a developing nation.

OMAF welcomes all who share an interest in providing and improving equal health care for all. For more information, email OMAF@medcor.mcgill.ca

Osler Society

The Osler Society was founded in 1921 to perpetuate the memory and teaching of Sir William Osler, the most illustrious graduate and professor of the Faculty of Medicine at McGill. Through the presentation of lectures and seminars by students and guest lecturers on topics in the medical humanities, the Society strives to uphold Osler's ideals of a liberal medical education.

Meetings are held throughout the academic year approximately once a month. In the fall, the Osler Lecture is given by a distinguished guest. It is followed by the Osler Banquet, an occasion marked by traditional ceremonies. The public is welcome to all Osler Society functions.

Phi Delta Epsilon

The Phi Delta Epsilon International Medical Fraternity is a professional, coeducational organization with a membership of over 25,000 students, interns, residents, and practicing physicians.

The McGill chapter was founded in 1926 to promote the highest ethical, scientific, and educational standards in the field of medicine. The chapter's activities reflect their long-term commitment to non-profit community service as well as addressing the need among medical students for a supportive, relaxed environment.

Phi Delta Epsilon's international network of graduate members also offers their student members many benefits, including: funding for a variety of projects; advice and support in the selection of electives, research and residency positions; awards for academic and research excellence, and for outstanding community service; low-interest student loans; regional and international conventions.

McGill Journal of Medicine

The *McGill Journal of Medicine (MJM)* is a scholarly scientific journal providing an international forum for university students to publish original research, case reports, reviews and expository essays in any field of medicine. Established in May 1994, *MJM* is published and produced entirely by students in the Faculty of Medicine and in Graduate and Postdoctoral Studies at McGill.

Based on the principles of student excellence and education, *MJM* is unique among existing medical journals. It is the only student-run scientific journal devoted to publishing the original research of students exclusively, on an international scale. *MJM* has established a national and international base of authors. Please see reviews of *MJM* in the *New England Journal of Medicine* (336:885;1997) and *JAMA* (278:1461-2;1997) and visit online at <http://www.mjmm.mcgill.ca>.

Medical and Dental Christian Fellowship (MDCF)

In 1988, several students from Med I and II started the Medical Christian Fellowship, which has since become the MDCF. This group created a place for Christians in medical training to meet weekly for Bible study, encouraging each other in continuous spiritual growth. In addition, various speakers (doctors, faculty, medical missionaries, etc.) expose the members to different ways to effectively integrate faith and medical practice by sharing with members their experiences as Christians in the medical profession.

Ranging from Roman Catholic to Lutheran and from Greek Orthodox to Calvinist, the group covers a large spectrum of denominations and enjoys the richness in thought such a diversity brings. Even though the MDCF is an independent group, it is associated with the Christian Medical and Dental Society (CMDs),

the Canada and U.S. wide organization of Christian doctors and dentists.

Medical Education Council (MEC)

"Is the education that we receive at McGill maximally preparing us for careers in medicine?" Many argue that since the implementation of the new medical curriculum by McGill in 1994, the answer to this question is "Yes". However, we also recognize that there is always room for improvement.

In order to identify areas for improvement in the curriculum, the Medical Education Council (MEC) was created. The purpose of MEC is to bring together the ideas of students from all four medical classes in the discussion of both specific changes to the curriculum and general philosophical issues of medical education. As well, this Council acts as a liaison between students and the Faculty in proposing changes to the curriculum.

So far, MEC has identified four main areas that need to be explored: community involvement, curriculum content and format, evaluations and rewards, and admissions.

Committees meet regularly during the year to discuss medical education at McGill and explore ways of implementing positive change. Proposals are then drafted and formally submitted to the Faculty. To be part of this exciting endeavour, look for announcements about the MEC. For more information, please call any of the Committee's curriculum representatives.

Medical Students' Computing Committee (MSCC)

The MSCC is responsible for managing the student tax of \$10/ student/semester for the maintenance of the computer facilities on the second floor of the McIntyre Building. The computer lab is composed of:

- 16 PC stations (Pentium 120Mhz and 233MHz) set on standard Infopoint settings (Microsoft Office, Netscape, Netscape Mail and most other basic utilities) and operating from a Windows NT server;
- 7 PowerMacs, also with basic utilities;
- 2 laser printers.

The MSCC budget is used to pay part of the salary of the computer technician who is indispensable for computer maintenance. The MSCC tests and buys medically-related software, organizes workshops on basic software and internet searching for medical students, and generally facilitates communication between students and MEDCOR. It also actively participates in the maintenance and installation of the computers in the laboratory. The Computer Committee is an fundamental arm of the Medical Students' Society. The Faculty of Medicine at McGill is very inclined towards the integration of computer into medical information, and facilities are expanding each year. Student input is vital to the shaping and expansion of the facilities, and all members are active on the Faculty of Medicine Computing Committee and other decision-making groups. Student representation from all years is encouraged. Come and join MSCC.

Medical Students for Social Responsibility (MSSR)

The MSSR is an organization devoted to raising awareness about issues at the boundary of medical education and the world at large, from global health and development to local ethical issues. Discussions within the group help to sharpen a sense of society as a place where medical, ethical, socioeconomic and political issues are all related. MSSR provides a forum for students to explore social issues and translate their awareness into action.

Activities have included potlucks, films and guest speakers, fund-raising for black South African medical student bursaries, an international health conference, the collecting and dispensing of information about alternative medicine and more. MSSR is for activists who want to remain active, students who want to do more than study, and anyone interested in social justice.

2 Scholarships, Bursaries, Prizes, Medals and Loan Funds

The Faculty of Medicine, undergraduate medical program, has adopted a primarily needs-based approach to its scholarships and bursaries. This acknowledges the very high academic performance already achieved by students entering the Faculty. Many of the funds under the Faculty's jurisdiction are awarded on the basis of good academic standing and financial need, and are administered by the Office of Student Aid. Financial aid forms are available from the Student Aid Office, 3600 McTavish Street, Montreal (<http://www.mcgill.ca/stuser/aid/aid.htm>).

Entrance scholarships are available for students registered in the double programs: M.D./M.B.A. and M.D./Ph.D. Entrance scholarships are also available for students accepted to the Med-P program. In the first year of the Med-P program, students are registered in the Faculty of Science and hence are eligible for university entrance scholarships; these scholarships are not renewed once the student is promoted into the Faculty of Medicine. Continued financial assistance can be provided by the Office of Student Aid.

Bursaries are available to enable students to carry out research projects during their medical studies. These are awarded, on a competitive basis, in the winter term and also during summer vacation. For more information, please inquire with the Associate Dean for Research in the Faculty of Medicine or consult the Undergraduate Medical Education Office home page, under student research (<http://www.med.mcgill.ca/ugme>).

Students who demonstrate outstanding performance are recognized through the awarding of prizes, medals and J.W. McConnell Awards. Receipt of an award is permanently recorded on the transcript of each recipient. This information is also included in the Dean's Letter of evaluation.

2.1 Scholarships and Bursaries

DR. MAUDE E. SEYMOUR ABBOTT SCHOLARSHIPS – established in 1938 in honour of the late Maude E. Abbott, B.A., M.D., F.R.C.P.(Canada), LL.D.(McGill), to commemorate her distinguished work in connection with the history of Canadian medicine, the Sir William Osler Pathological Collection, and her outstanding research in congenital cardiac disease. Awarded by the Student Aid Office to undergraduate medical students on the basis of academic standing and financial need.

JAMES MOSES AND STELLA FROSST ALEXANDER SCHOLARSHIPS – established in 1992 to honour James Moses Alexander, a distinguished graduate of the Faculty of Medicine, McGill University (1934). Two scholarships are available each year for students with outstanding merit entering the four-year undergraduate program in the Faculty of Medicine. Awarded by the Faculty Scholarships Committee and renewable provided the holder maintains an academic standing satisfactory to the Committee. Students who hold this scholarship during third and fourth year will have the opportunity of doing an elective clinical rotation at the University of North Carolina in recognition of Dr. Alexander's major commitment to the institution. Value: \$8,000 each.

J.H.B. ALLAN SCHOLARSHIP – available to undergraduate students in any year.

JEAN ALLOUL SCHOLARSHIP IN MEDICINE – established in 1998 by Mr. Jean Alloul, B.Com. 1973, to support students enrolled in the M.D./Ph.D. Program. To be awarded by the Faculty of Medicine Scholarships Committee. Value: \$7,000.

JACK AUERBACH MEMORIAL BURSARY – established in 2001 through a bequest by Jack Auerback for students in the Faculty of Medicine. Awarded by the Student Aid Office on the basis of financial need.

JONATHAN BALLON SCHOLARSHIP – established in 1995 through generous gifts from friends and family to honour the memory of Jonathan Ballon, B.A. 1947, M.D. 1952, a distinguished graduate of McGill. Awarded to outstanding Canadian students entering the

four-year Medical degree program. While academic excellence is of primary importance, account will also be taken of financial need and demonstrated leadership in athletics or other student activities. Awarded by the Faculty of Medicine Scholarships Committee and renewable provided the holder maintains an academic standing satisfactory to the Committee.

SIR EDWARD W. BEATTY MEMORIAL SCHOLARSHIPS FOR MEDICAL STUDENTS – income from a bequest of \$100,000 from the late Dr. Henry Albert Beatty provides scholarships for undergraduate and graduate students in the Faculty of Medicine. For students who hold or are working towards the McGill M.D.,C.M., the award may be held at any approved institution in Canada or abroad. For other qualified students the award must be held at McGill. The holder is expected to devote the year of tenure either to research or to some form of special training excluding the normal training towards the M.D.,C.M. and excluding any of the years of residency training required in the Diploma courses.

BELLAM MEMORIAL BURSARIES – from a bequest of \$20,000 from the estate of the late C.F. Bellam and awarded on the basis of financial need to students from Stanstead County, Quebec.

DR. BEN BENJAMIN MEMORIAL BURSARY – established by his sisters in memory of the late Ben Benjamin, B.A., M.D.,C.M., Lecturer in the Department of Pediatrics. Awarded on high academic standing and financial need.

ETTIE ISRAEL BENNETT BURSARY – established in 1986 to be awarded for medical research to a deserving student as selected by the Faculty Scholarships Committee.

JOSEPH ISRAEL BENNETT BURSARY – a bequest from the late Joseph Israel Bennett provides an annual bursary for a deserving student.

MAX BINZ SCHOLARSHIP – from the bequest of the late Max Binz. \$1,000 is set aside annually for scholarships in the Faculty of Medicine.

SYDNEY BLIDNER MEMORIAL MEDICAL SCHOLARSHIP – established in 1996 by a bequest of the late Mrs. Pauline Blidner Krupp in memory of her brother. Awarded by the Student Aid Office to worthy undergraduate students in any year in the Faculty of Medicine on the basis of academic standing and financial need.

DR. MAURICE BRODIE MEMORIAL SCHOLARSHIP – established in 1993 by Mrs. Edna Singer Brodie in memory of Dr. Maurice Brodie (M.D.'28). Awarded on the basis of academic standing and financial need by the Student Aid Office to undergraduate students in the Faculty of Medicine, tenable in any year.

ALBERT A. BUTLER AWARD IN ORTHOPAEDICS – established in 2001 by Kaye Takamatsu-Butler in memory of Dr. Albert A. Butler, M.D.,C.M. 1935. The award will be used to support residents doing research in the field of orthopaedics and/or postgraduate orthopaedic training at McGill. This support can include travel funds for residents to attend conferences, the purchase of research equipment and acknowledgement gifts such as book prizes. Awarded by the Program Director of the McGill Orthopaedic Surgery Residency Program. Value: maximum \$6,550.

NAT CHRISTIE SCHOLARSHIPS – established in 1982 by the Nat Christie Foundation, an annual gift of \$50,000 provides scholarships for undergraduate medical students. Awarded on the basis of academic standing and financial need. Value: minimum of \$1,200 each.

CLASS OF MEDICINE 1943B BURSARY – established in 1995 by the Class of Medicine 1943B in honour of their 50th anniversary of graduation. A bursary awarded by the Student Financial Aid Office to a third year medical student in good academic standing who exhibits financial need.

CLASS OF MEDICINE 1954 SCHOLARSHIP – established in 1999 by the Class of Medicine 1954, in appreciation for the education they received at McGill, and in commemoration of the Class' 45th Anniversary of graduation. Awarded on the basis of financial need by the Student Aid Office to medical students in good academic standing.

CLASS OF MEDICINE 1959 SCHOLARSHIP – established in 1999 by the Class of Medicine 1959 in appreciation for the education they received at McGill and in commemoration of the Class' 40th anniversary of graduation. Awarded on the basis of financial need by the Student Aid Office to medical students in good academic standing.

CLASS OF MEDICINE 1963 SCHOLARSHIP – established in 1998 by the Class of Medicine 1963 in appreciation for the education received at McGill and in commemoration of the Class' 35th anniversary of graduation. Awarded on the basis of financial need by the Student Aid Office to medical students in good academic standing.

CLASS OF MEDICINE 1990 SCHOLARSHIP – established in 2002 by the Class of Medicine 1990, in appreciation for the education they received at McGill, and in commemoration of their 10th anniversary of graduation. Awarded, on the basis of financial need, by the Student Aid Office to medical students in good academic standing.

CLOUSTON MEMORIAL SCHOLARSHIP – endowed in 1986 by the family in memory of Dr. H.R. Clouston and his father, Dr. J. Clouston, both of Huntingdon, Quebec. Awarded by the Faculty Scholarships Committee to a medical student who undertakes a research project with preference to the field of genetics. Value: \$1,800.

MR. & MRS. JOHN HENRY COLLINS MEMORIAL BURSARY – endowed in 1986 by a bequest from Mrs. John Henry Collins to assist students in conducting medical research. Awarded by the Faculty Scholarships Committee.

BEVERLEY COONER BURSARY – established by the family and friends of the late Beverley Cooner to assist a deserving student. Awarded with the approval of the National Council of Jewish Women on the basis of financial need and academic standing.

GEORGE CORCORAN SCHOLARSHIP – established by a bequest from Emily Jones Corcoran in memory of her husband. Awarded by the Faculty of Medicine Scholarships Committee to students in the undergraduate medical program with preference to students registered in the M.D./Ph.D. program. Value: minimum \$2,000.

BOWMAN CORNING CROWELL AWARD – established in 1979 by a bequest from Frances B. Crowell. To be awarded to an undergraduate medical student engaged in research in Pathology.

JAMES H. CUMMINGS SCHOLARSHIPS – two or more entrance scholarships bequeathed by the late James H. Cummings. Awarded by the Student Aid Office to undergraduate medical students on the basis of academic standing and financial need.

MADHU BALA DHAWAN BURSARY IN PALLIATIVE CARE OR CANCER RESEARCH – established in 2000 by Dr. K.C. Dhawan in memory of his wife. Awarded annually by the Faculty of Medicine Scholarships Committee to a medical or allied health professional student who participates in a research project in either palliative care or cancer research at McGill University.

ANNIE DIAMOND BURSARIES – established in 1969 for medical students with financial need.

SAMUEL EIDLOW MEMORIAL BURSARY FUND – established for worthy medical undergraduate students with financial need.

CHANCELLOR FERRIER MEMORIAL BURSARY – established by Mrs. Herbert V. Lacey in memory of her great-grandfather, Senator James Ferrier, Chancellor of McGill from 1884 to 1889. Awarded on the basis of academic standing and financial need, with preference to students from the State of Wyoming.

DR. E.M. FISHER MEMORIAL SCHOLARSHIP – available to any medical undergraduate student.

SIMON AND ROSALIE HALPERN MEMORIAL SCHOLARSHIP – established by the late Dr. Fanny G. Halpern in memory of her parents. Available to students of the Roman Catholic or Jewish faith who have distinguished academic standing and financial need. The recipient in any one session may re-apply for the following year. Value: \$400.

DR. DAVID M. AND DONALDA L. HARVEY SCHOLARSHIP – established in 1995 by Dr. David M. Harvey (M.D. 1955) and his wife

Donalda, to support medical students based on academic standing and demonstrated financial need. The scholarship is tenable in any year and may be renewed. Awarded by the Student Aid Office. Value: \$2,000.

ARTHUR S. HAWKES FELLOWSHIP – established in 2000 through a generous bequest by Dr. Arthur S. Hawkes, Ph.D. 1945. Awarded by the Faculty of Medicine to an outstanding student in the Department of Biochemistry. Value: minimum \$5,000.

WALTER J. HOARE MEMORIAL SCHOLARSHIP – endowed by the late Dr. Charles W. Hoare, a graduate of McGill University, in memory of his son, Walter J. Hoare, who was killed in World War I. Preference is given to graduates of the Collegiate Institutes of the counties of Essex, Kent and Lambton entering the Faculty of Medicine.

KEITH HUTCHISON MEMORIAL SCHOLARSHIPS – two or more scholarships, in memory of the late Dr. Keith Hutchison. Awarded on the basis of distinguished academic standing and need; tenable in any year. The recipient in any session may re-apply for the following year.

IVES SCHOLARSHIP – established in 1967 by a bequest of the late David Fraser Murray, M.D., C.M., 1924. Awarded on the basis of financial need with preference given to students from Nova Scotia, New Brunswick or Prince Edward Island.

CAMPBELL KEENAN MEMORIAL SCHOLARSHIP – established by the late Miss Charlotte Mildred Hagar in memory of the late Dr. Campbell B. Keenan. Tenable in the second, third, or fourth year; and awarded on the basis of distinguished academic standing and financial need to an applicant who intends to enter surgical practice. The recipient in any session may re-apply for the following year.

JAMES GRAHAME KER AND FREDERICK K. PETRIE MEMORIAL SCHOLARSHIP – awarded to a student from Eastern Ontario (Counties of Dundas, Stormont, Glengarry, Grenville, Carleton, Russell and Prescott) or from Montreal. Based upon distinguished academic standing and financial need; tenable in second year and may be renewed.

KINCH MEMORIAL BURSARY – established by Miss Dia Joyce in memory of Mr. and Mrs. C.H. Kinch to assist medical undergraduates.

FREDERICK PENTON LOFTUS LANE BURSARY FUND – established in 1979 by a bequest from Esther M.E. Lane. Awarded by the Student Aid Office to undergraduate medical students on the basis of academic standing and financial need.

DR. ABEL LAX BURSARY – established in 2000 by Helen and Herbert Paulive in memory of Dr. Abel Lax. Awarded by the Student Aid Office to a meritorious undergraduate medical student in financial need. Value: \$2,000.

LECLERC MEDICAL STUDENT TRAVEL AWARD – established by an endowment from Dr. J.R. Leclerc who has always valued education at a high level. Income from this fund will be used to permit medical students doing summer research projects to present their work at scientific meetings. If the need arises, income can also be utilized for summer research bursaries. Awarded by the Faculty of Medicine Scholarships Committee.

LEUKEMIA RESEARCH FUND BURSARY – established in 1992 by the Leukemia Research Fund. Awarded annually by the Faculty Scholarships Committee to a medical student who participates in a summer research project in leukemia-related research at McGill University. Value: \$3,500.

DR. GABRIEL LEUNG MEMORIAL AWARD – established in 1987 by Mrs. Jane Leung and friends, through the Education Foundation of the Federation of Chinese Canadian Professionals, in memory of Dr. Gabriel Leung, who graduated from McGill with his M.D., C.M. in 1972. Awarded by the Student Financial Aid Office to a second year medical student for achieving academic excellence or to pursue an independent research project under the direction of the Faculty. Financial need can be part of the consideration.

GUSTAV LEVINSCHI SCHOLARSHIP FUND – endowed in 1986 for needy medical students requiring assistance in the pursuit of their studies.

DR. DAVID T.W. LIN FOUNDATION SCHOLARSHIP – established in 1993 in honour of Dr. David T.W. Lin, B.Sc. (1937), M.D.(1940), O.C., Surgeon Emeritus at the Royal Victoria Hospital, Honorary President of the Montreal Chinese Hospital and a leader in the Chinese community. Awarded by the Student Aid Office to a medical student on the basis of academic achievement and demonstrated need. Preference will be given to students of Chinese origin. Value: \$2,600.

JUDITH ANNE WRIGHT LITVACK BURSARIES – bequeathed in 1999 by Judith Litvack to support the research bursary program for students in the Faculty of Medicine. The research projects supported are to be in the disorder anxiety. One or more bursaries in each of the two research committee. Value: minimum \$2,000.

GEORGE LYMAN MASTEN SCHOLARSHIPS – established in 2000 through a bequest by Charles H. Masten, M.D., C.M. 1893. Awarded by the Student Aid office to students in the Faculty of Medicine, with a preference to candidates born or educated in the counties of St. Johns or Stanstead, Quebec to provide need-based scholarships for meritorious and needy students.

MCGILL HONG KONG GRADUATES BURSARY FUND – established in 1987 through donations from McGill graduates in Hong Kong to be used to provide bursary assistance for deserving students in any faculty who are from Hong Kong. To be awarded by the Student Aid Office in collaboration with the McGill Society of Hong Kong.

HILTON J. MCKEOWN SCHOLARSHIPS – established by a bequest from Hilton J. McKeown (M.D. 1927) to the Friends of McGill to provide financial support to students in the Faculty of Medicine. Awards are granted on the basis of academic achievement and the value of each award will depend upon financial need and other awards held. Preference will be given to students in the M.D., C.M./Ph.D. program. Awarded by the Faculty of Medicine. Value: minimum \$500 each.

DR. CLARKE K. MCLEOD MEMORIAL SCHOLARSHIP FUND – established in 1979 by a bequest from Dr. Clarke K. McLeod, M.D., C.M., 1927 to provide scholarships for undergraduate medical students.

JAMES O. MEADOWS AND MARIA MEADOWS AWARDS – income from a bequest of \$200,000 from the late Dame Maria Cowan Meadows provides awards for undergraduate and graduate students in the Faculty of Medicine who are engaged in research. Preference is given to candidates working in cancer research but worthy candidates in other areas of medical or surgical research are also considered. Application is made to the Dean of the Faculty of Medicine.

SEAN MURPHY AWARD – established in 1997 from a bequest of the late Miss Dorothy Brown. Award is competitive based on merit and excellence. Awarded by a committee of the Department of Ophthalmology to a student in ophthalmic pathology, with a preference for graduate students or postdoctoral fellows.

RONALD DOUGLAS NAYMARK AWARD – established by the Medical Class of 1984 in memory of Ronald Douglas Naymark, B.Sc., M.D., C.M.(McG.), this award is given to that member of the graduating class who most enriches the life of the class in the eyes of his or her peers. The award seeks to recognize an individual who inspires trust and confidence, optimism and enthusiasm in his or her medical colleagues. The individual is a participant in class activities and is in satisfactory academic standing.

DR. H.K. NELSON BURSARY FUND – established in 1986 to be used to further the education of worthy medical students. Awarded on the basis of academic standing and financial need.

PHARMACEUTICAL MANUFACTURERS ASSOCIATION OF CANADA, HEALTH RESEARCH FOUNDATION SUMMER RESEARCH SCHOLARSHIPS – Three to six summer research scholarships will be awarded to undergraduate medical students for pharmacological research in the broadest context. A maximum of two scholarships can be renewed for a second year. Recipients must be Canadian citizens or Permanent Residents who demonstrate a willingness to make a significant commitment to research. Awarded by the Faculty of Medicine Scholarships Committee. The recipients may be requested to attend an awards ceremony or other PMAC events (all costs paid by the PMAC-HRF). Recipients

will also be eligible for consideration for \$1,000 travel grants to enable them to present their work at a PMAC sponsored conference or a national/international research meeting. Value: approximately \$4,000 each.

AUORE PICARD BURSARY – a bequest from the late Aurore Picard provides an annual medical research bursary for a meritorious student. Awarded by the Faculty Scholarships Committee.

MARTHA JANE POULSON MEMORIAL SCHOLARSHIP – established in 2002 by the Class of Medicine 1980 to honour the memory of Martha Jane Poulson, M.D., C.M. 1980. Dr. Poulson exemplified excellence in the practice of both the art and science of Medicine. She also had a remarkable commitment to developing her skills and sensitivities in the arts and humanities. As a concert pianist, singer and leader in her community, she overcame physical adversity with emotional and spiritual strength that awed her friends and colleagues. Awarded on the basis of financial need by the Student Aid Office to medical students in good academic standing. Preference shall be given to students with physical disabilities.

IVAN RACHEFF SCHOLARSHIPS – established in 1986 to be awarded by the Faculty Scholarships Committee to medical students who demonstrate an interest in research in public health and/or the effects of pollution or pollutants on the human body.

SAMUEL ROSENFELD BURSARY – established by Mrs. Ida Rosenfeld Letovsky in memory of her late husband, Mr. Samuel Rosenfeld, to support worthy undergraduate medical students.

ANN AND GEORGE ROSENGARTEN BURSARY FUND – established in 1987 by Ann J. and George J. Rosengarten to aid students in any faculty who require financial assistance to continue their program of studies.

REUBEN ROSS MEMORIAL AWARD – the income from a bequest of the late Reuben Ross provides an annual award to medical students in financial need.

SOLOMON DAVID SACKS BURSARY – established in 1973 by Mr. and Mrs. Issie Sacks in memory of their son, to assist a deserving medical student in financial need.

DAVID E. AND RONNIE SCHOUELA MEMORIAL SCHOLARSHIP – established by the family in 1980 to assist a first-year medical student. Awarded either on the basis of financial need or for participation in the Summer Research Program.

ROSE SCHWARZ - HELEN MARCUS BURSARY – established by the family and friends of the late Rose Schwarz and the late Helen Marcus. To assist a needy, deserving student engaged in summer work in cancer research. Awarded with the approval of the National Council of Jewish Women.

DR. JACOB C. SCHWARTZMAN SCHOLARSHIP – established in 1983 in memory of Jacob C. Schwartzman, M.D., C.M., F.A.C.S., by his family and friends. This tuition scholarship is to be awarded each year by the Faculty Scholarships Committee to a student in the Faculty of Medicine on the basis of academic standing and financial need. Candidates must be Canadian citizens or Permanent Residents. A stipulation of the Scholarship is that each recipient agree to make contact with the family of Helaine Livingstone, B.A., McGill, 1960, who organized the Scholarship in memory of her father.

HARRY SHANKMAN SCHOLARSHIPS – A bequest from the late Annette Shankman Rieder in honour of her brother Harry Shankman, M.D., provides annual scholarships for meritorious medical students in the M.D./Ph.D. program. Awarded by the Faculty of Medicine Scholarships Committee, on the recommendation of the M.D./Ph.D. Program director. Value: minimum \$3,000 each.

ROBERT SHARWOOD MEMORIAL SCHOLARSHIP – tenable in any year of the undergraduate course in Medicine. It is awarded on the basis of distinguished academic standing and financial need. The recipient in any one session may re-apply for the following year.

ROSALINE SHINDER MEMORIAL RESEARCH BURSARY – established in 1987 by her family in memory of Rosaline Shinder. Awarded by the Faculty Scholarships Committee to a medical student for cardiac or related research.

BRUCE SMITH BURSARY FUND – from a bequest by the late Dr. Bruce Stewart Smith to enable worthy students with financial need to complete medical training at McGill University.

ALLAN JAY SOLOMON AWARD – a fund of \$2,000 established in 1977 by family and friends in memory of the late Allan Jay Solomon, M.D., C.M. The income provides an annual award tenable in any year; awarded for distinguished academic standing and financial need.

ROBERT ROLF STRUTHERS BURSARY – the income from a bequest of the late Robert Rolf Struthers (Medicine 1918) provides support for a needy Canadian student entering third year Medicine.

DR. JOSEPH TANZMAN AWARD – a bequest establishing an award in honour of Dr. Joseph Tanzman, M.D., C.M., 1927. Preference is given to a medical student from New Brunswick but if there is no such candidate the award may be given to any deserving student in the Faculty of Science. Awarded by the Scholarships Committee of the Faculty of Medicine or the Faculty of Science.

WILLIAM V. VICTOR AWARD – established in 2000 by Laura Victor, B.A. 1932, in memory of her husband, William V. Victor, B.Com. 1931, F.C.A. Awarded by the Faculty of Medicine Jury of the Annual Student Research Day to a meritorious undergraduate medical student. Value: minimum \$1,000.

DR. ARTHUR M. VINEBERG SCHOLARSHIP – established in November 1997 by Mrs. Elaine Leopold-Sargent, niece of Dr. Arthur M. Vineberg, B.Sc. (Arts) 1924, M.Sc. 1928, Ph.D. 1933, in recognition of Dr. Vineberg's work as pioneer of modern cardiac surgery and long-time lecturer in the Faculty of Medicine. Awarded on the basis of outstanding academic merit by the Faculty Scholarships Committee to students entering or in the four-year undergraduate program in the Faculty of Medicine. Value: \$6,000.

MARY AND STUART WEBSTER BURSARY FUND – established in 2001 through a generous gift from Mary G. Webster, B.A. 1938. The annual income will be used to assist Canadian students entering Medicine or related health sciences programs who have demonstrated financial need. Preference will be given to deserving women students. Value: minimum \$ 5,000; renewable subject to satisfactory standing.

DR. MILTON C. AND NINA E. WILSON AWARD – established in 1970 by a bequest from the late Dr. Milton C. Wilson. The annual income provides support for undergraduate or postgraduate students in the Faculty of Medicine who are in financial need.

GEORGE WIOR FOUNDATION BURSARIES – three bursaries in the amount of \$2,500 each, awarded annually to students in financial need with good academic standing. One bursary to a student in each of second, third and fourth year. The bursary is renewable only if academic standing is maintained.

2.2 Prizes

APPLETON & LANGE MEDICAL PUBLICATIONS BOOK PRIZES – established in 1965 to provide recognition to outstanding medical students. Awards may be presented to one graduating senior and one undergraduate student upon completion of the basic science course requirements. Recipients are chosen by the Associate Dean of Medical Education.

MR. AND MRS. J.A. BESNER PRIZE – awarded to the student obtaining the highest standing in the Introduction to Clinical Medicine component of the medical undergraduate course. Value: approximately \$475.

H.S. BIRKETT MEMORIAL PRIZE IN OTOLARYNGOLOGY – established by Miss Winifred Birkett in memory of her father, the late Dr. H.S. Birkett, formerly Professor of Otolaryngology. Given to the student who has shown outstanding performance in Otolaryngology. Value: \$375.

JAMES Q. BLISS ANNUAL BOOK AWARD – awarded to the student who obtains the highest standing in the Gas, Fluids and Electrolytes unit. Value: \$100.

BOEHRINGER INGELHEIM (CANADA) LTD. AWARD – an annual award, accompanied by a personalized plaque, established in 1991 by the Boehringer Ingelheim (Canada) Ltd./Ltée. The Faculty of Medicine will choose a fourth year medical student who is in excellent academic standing and demonstrates clinical professionalism in the field of either respiratory or cardiology. It is preferable that this student not hold another award concurrently. Value: \$500.

CARLO BOS PRIZE – established in 1991 in memory of Dr. Carlo Bos, a humane and respected psychiatrist who taught a multitude of medical students at the Allan Memorial Institute. Awarded by the Coordinating Committee for the Introduction to the Patient and Introduction to the Practice of Medicine courses to the student who has demonstrated the greatest proficiency in the clinical skills preparatory to the practice of medicine. Value: \$200.

JOSEPH MORLEY DRAKE PRIZE – founded by the late Joseph Morley Drake, M.D., awarded to the student with the highest standing in the Pathobiology, Prevention and Treatment of Disease unit. Value: \$300.

DR. PHILIP EIBEL PRIZE IN ORTHOPEDIC SURGERY – established in 1998 by Miss Debora Eibel, B.A. 1960, in memory of her father, Dr. Philip Eibel, B.A. 1929, M.D., C.M. 1933. The prize shall be awarded to a medical student, resident, or fellow who has exhibited outstanding achievement during training in orthopedic surgery. The selection shall be made by the Faculty of Medicine Scholarships Committee.

SHIRLEY NANCY ENDMAN PRIZE – established in 1982 by Louis Endman in memory of his wife. Awarded to the student who obtains the second highest standing in the Gas, Fluids and Electrolytes unit. Value: \$70.

EPIDEMIOLOGY BOOK PRIZE – awarded to the student who obtains the highest standing in Epidemiology and Health in Year 1 of the medical curriculum.

SHIRLEY RIVA FISHER PRIZE – established in 1985 by Randy Fisher in memory of his mother, Shirley Fisher. Awarded to the medical student showing the most promise and sensitivity in the area of Palliative Care in Medicine. Value: \$100.

ROBERT FORSYTH PRIZE – bequeathed by the late Miss Jeanie Forsyth, awarded annually to the graduating student who has shown particular ability in all branches of Surgery. Value: \$450.

CHARLES E. FROST MEDICAL PRIZE AND BRONZE MEDAL – a bronze medal and prize are awarded annually to a student, in the Basis of Medicine, who has achieved excellence in the Unit on Pathobiology, Treatment and Prevention of Disease and has demonstrated, on the basis of interviews, the most promise in the field of Pharmacology. Value: \$1,000.

CLAUDE GIROUD PRIZE IN PEDIATRICS – established in 1981 in memory of Dr. Claude Giroud, Physician-Endocrinologist of the Montreal Children's Hospital and McGill University. Awarded on the basis of scientific merit to the author of a paper suitable for publication in a pediatric journal. The prize is open to medical students and to residents and fellows in pediatric training. Awarded by the Faculty of Medicine. Value: \$250.

ELIZABETH ANN MUNRO GORDON PRIZE – established in memory of Dr. Elizabeth Ann Gordon. Awarded to the member of the graduating class, who in the opinion of the Faculty and students, embodies the highest qualifications to practise medicine and has demonstrated outstanding leadership abilities.

ROBERT B. GREENBLATT PRIZE – endowed in 1987 by Dr. Robert B. Greenblatt, an eminent endocrinologist and professor emeritus at the Medical College of Georgia, who graduated from McGill with a B.A. in 1928 and an M.D., C.M. in 1932. Awarded by the Faculty Scholarships Committee to the student who obtains the highest standing in the Life Cycle unit.

HARRY S. GROSS MEMORIAL PRIZE – bequeathed by the late Mrs. Esther B. Gross in memory of her late husband, Harry S. Gross, D.D.S., 1913, M.D., C.M., 1921. Awarded to the student in the Introduction to Clinical Medicine component with the highest standing in the Introduction to Surgery course. Value: \$125.

JOSEPH HILS PRIZE – founded by the late Dr. Joseph Hils, of Woonsocket, R.I. Awarded to the student obtaining the highest standing in the Musculoskeletal and Blood unit. Value: \$175.

CAMPBELL HOWARD PRIZE IN CLINICAL MEDICINE – founded by Mrs. Campbell Howard in memory of the late Dr. Campbell P. Howard, Professor of Medicine at McGill. Awarded to the student in the Introduction to Clinical Medicine component with the highest standing in the Introduction to Internal Medicine course. Value: \$200.

F. SLATER JACKSON PRIZE – founded by Mr. and Mrs. H.F. Jackson in memory of their son, the late F. Slater Jackson, M.D. Awarded to the student with the highest standing in the Molecules, Cells and Tissues unit. Value: \$175.

CAMPBELL KEENAN MEMORIAL PRIZE IN CLINICAL SURGERY – established by the late Miss Charlotte Mildred Agar in memory of the late Dr. Campbell B. Keenan. Awarded to the graduating student who has shown the highest proficiency in Clinical Surgery. The winner of the Robert Forsyth Prize in Surgery is ineligible. Value: \$100.

CHESTER MACNAGHTEN PRIZES – an essay prize open to students in all faculties. Information may be obtained from the English Department, Faculty of Arts.

REILLY MADSEN PRIZE – established to honour the memory of Reilly Madsen who was Manager, Records and Research, Development and Alumni Relations Services. Awarded, on recommendations from faculty and students, by the Faculty of Medicine Student Promotion Committee to a student with good academic standing who had demonstrated exceptional warmth and empathy towards patients. Value: \$500.

MCGILL ALUMNAE SOCIETY PRIZE – presented upon graduation to a distinguished student for excellence and high academic standing. Preference given to women students. Value: \$150.

FRANCIS MCNAUGHTON PRIZE – established in 1980, a prize and a book are awarded to the student with the highest standing in the Nervous System and Special Senses unit. Prize value: \$200.

MERCK, SHARP & DOHME OF CANADA LIMITED AWARD – an award plus a Merck Manual of Diagnostics and Therapeutics. Established by Merck, Sharp & Dohme of Canada Limited for undergraduates in the Faculty to support research in the field of therapeutics. Awarded by the Faculty Student Research Committee. Award value: \$1,000.

MONTREAL CHILDREN'S HOSPITAL CUSHING MEMORIAL PRIZE – awarded to the student with the highest standing in Pediatrics. Value: \$300.

MARK NICKERSON PRIZE – established in 1990 by the Department of Pharmacology and Therapeutics in honour of Professor Mark Nickerson, a renowned McGill pharmacologist. Awarded to the student, in the Basis of Medicine, who has achieved excellence in the unit on Pathobiology, Treatment and Prevention of Disease and has demonstrated, on the basis of interviews, an understanding of the role of pharmacology and therapeutics in contemporary society. Recipients will also receive a scroll. Value: \$250.

NEWELL W. PHILPOTT AWARD – established in 1986 by the Department of Obstetrics and Gynecology in honour of Newell W. Philpott, M.D. (1926), Chairman of the Department from 1943 to 1956. This award is to commemorate Dr. Philpott's excellence as a teacher of medical students and residents as well as his many contributions in the field and to the Department of Obstetrics and Gynecology. Awarded to a graduating student for academic achievement and clinical excellence by the Faculty Scholarships Committee on the recommendation of the Department. Value: \$500.

PRIZE IN MEDICAL ETHICS AND JURISPRUDENCE – established in 1953, awarded to the fourth year medical student who writes the best essay in fulfilment of the requirements of the course in Medical Ethics and Jurisprudence. Value: \$500.

PSYCHIATRY PRIZE – awarded on the recommendation of the Department of Psychiatry to the student who has shown the most promise in this field. Value: \$200.

SAMUEL ROSENFELD PRIZE – is awarded to the student with the highest standing in Host Defence and Host/ Parasite Relationships unit. Value: \$125.

MONA BRONFMAN SHECKMAN PRIZE – awarded to the student with the highest academic standing in Psychiatry. Value: \$275.

E. DAVID SHERMAN AWARD IN GERIATRIC MEDICINE – awarded to the most outstanding student in the field of clinical geriatric medicine. Value: \$300.

DR. BENJAMIN SHORE PRIZE IN PLASTIC SURGERY – established in memory of Dr. Benjamin Shore, M.D., C.M. 1965, this prize will be awarded annually to a resident training in one of the McGill teaching hospitals who demonstrates outstanding performance in the Plastic Surgery Program. This prize will be used to fund travel to a national or international meeting in the field of plastic surgery or for special support of a resident doing research in plastic surgery. The Prize will be awarded by the Program Director of the Plastic Surgery Training Program in consultation with the Associate Dean of Postgraduate Medical Education. Value: \$2,500.

DR. JOSEPH SHUGAR - JEWISH GENERAL HOSPITAL PRIZE IN ORTHOPAEDICS – established in 1989 in memory of Dr. Joseph Shugar who was Orthopaedic Surgeon-in-Chief at the Jewish General Hospital. Dr. Shugar established an enviable reputation for clinical teaching at both the undergraduate and postgraduate levels and was active in national and international affairs. This award is granted annually to a graduating medical student who, during his/her undergraduate career, demonstrates the greatest knowledge and proficiency in Orthopaedic Surgery. Selection will be made by the Division of Orthopaedic Surgery. Value: \$350.

DR. ALLEN SPANIER PRIZE – established in 1999 by Beverly Spanier, B.A. (1967) in memory of her brother Dr. Allen Spanier, M.D., C.M. (1972). Dr. Spanier was Chief of the Intensive Care Unit at the Jewish General Hospital for 21 years. Awarded annually by the Faculty of Medicine to a graduating student who has maintained high academic standing and exhibited a high standard of professionalism and compassion towards patients, their families, fellow students, and University and hospital staff during the Practice of Medicine component of the curriculum. Value: \$200.

ALEXANDER D. STEWART PRIZE – founded by the late W. Grant Stewart (Arts, 1885; Medicine, 1888) in memory of his brother, the late Alexander D. Stewart (Medicine, 1888). Awarded to the member of the graduating class who, in the opinion of the Faculty, presents in every aspect the highest qualifications to practise the profession. Value: \$250.

MARY AND LOUIS STREICHER PRIZE – established in 1980, awarded to the student with the highest standing in the Endocrinology, Metabolism and Nutrition unit. Value: \$150.

SUTHERLAND PRIZE – founded in 1878 by the late Mrs. Sutherland in memory of her husband, William Sutherland, M.D., formerly Professor of Chemistry in the Faculty. Awarded to the student who obtains the highest standing in the Basis of Medicine component of the medical undergraduate curriculum. Value: \$250.

J. FRANCIS WILLIAMS PRIZE IN MEDICINE AND CLINICAL MEDICINE – founded by the late J. Francis Williams, M.D. Awarded to the student obtaining the highest standing in the Internal Medicine Clerkship of the medical curriculum. Value: \$500.

2.3 Medals

HOLMES GOLD MEDAL – founded by the Medical Faculty in 1865, in memory of the late Andrew Holmes, M.D., LL.D., sometime Dean of the Faculty. It is awarded to the student graduating with the highest aggregate standing in the entire medical curriculum.

WOOD GOLD MEDAL – endowed by Casey A. Wood, M.D., LL.D. in memory of his grandfather, Thomas Smith Wood. It is awarded for the most outstanding clinical performance achieved by a student in the Clerkship Period. The winner of the Holmes Medal is not eligible.

2.4 Loan Funds

MAUDE ABBOTT MEMORIAL LOAN FUND – established by the Federation of Medical Women of Canada. Any woman medical student, first year intern, or graduate student may apply to the Secretariat, Federation of Medical Women of Canada, Box 8244, Ottawa, Ontario, K1G 3H7.

BORIGHT LOAN FUND – established in 1963 by a bequest from the late George H. Boright to provide loans to deserving medical students.*

BOSWELL JAMES LOAN FUND – established in 1943 by Dr. A. Boswell James to provide loans for undergraduates and graduates.*

DAVID M. CALDWELL STUDENT LOAN FUND – established in 1973 by a bequest from the late David M. Caldwell, M.D.(1919) to assist students in the Faculty of Medicine, with preference to American students.*

CLEMENT C. CLAY MEMORIAL LOAN FUND – established in 1985 by a bequest from Clement C. Clay, M.D.(1932) to provide loan assistance for students born in the United States who are registered in the Faculty of Medicine.*

ALEC AND SYLVIA DOLLIN LOAN FUND – established in 1965 by Mr. Alec Dollin to provide loans for medical students.*

KELLOGG LOAN FUND – established by the Kellogg Foundation. It provides loans up to a maximum of the tuition fees in any one year. Available to students in good standing and with financial need. Application and regulations are as for other loan funds of the University.*

LACEY LOAN FUND – established in 1962 by a donation from Mrs. Herbert Van Devanter Lacey, Cheyenne, Wyoming, primarily to aid medical students from the State of Wyoming. It may however be extended to others in accordance with the following priorities: medical students from the State of Wyoming; dental students from the State of Wyoming; medical students from other states of the U.S.A.; medical students from other countries. Loans are not to exceed \$700 per year.*

GEORGE W. MERCK MEMORIAL LOAN FUND - established in 1960 by the Merck Company Foundation to provide loans for undergraduate medical students, interns and residents.*

GERTRUDE MUDGE MEMORIAL STUDENT AID FUND - established in 1958 by donations from students, graduates, and staff in memory of the late Gertrude Mudge, for many years Assistant Secretary of the Faculty of Medicine. Loans shall not exceed the fees for the year.*

WESTON FAY VOLBERG JR. MEMORIAL LOAN FUND - established in 1956 by classmates of the late Weston Fay Volberg, Jr., M.D.,C.M. (1953). It is available to medical students.*

*Apply to Student Aid Office.

3 Programs of Study, Admission and Curriculum

3.1 Undergraduate Programs of Study

The Faculty of Medicine offers a four-year undergraduate medical curriculum. Students are ordinarily admitted into the first year of this program but admission is also available directly from CEGEP by means of a medical preparatory (Med-P) program. The Faculty does not accept students for part-time medical studies.

An M.D./Ph.D. program is offered for students interested in a research career in academic medicine.

An M.D./M.B.A. program is offered for students wishing to acquire management skills related to health care.

The language of instruction is English.

3.2 Requirements for Admission

3.2.1 M.D., C.M. (Four-year) Program

Applicants must have received an undergraduate degree, or be in the final year of a course of study at a recognized college or university leading to an undergraduate degree consisting of 120 credits over eight semesters following completion of high school.

However, students who have received a diploma of collegial studies (CEGEP) in the province of Quebec must have completed 90 credits (six semesters) in a Quebec university to obtain the required degree. Similarly, Quebec residents who, having received credit for their diploma of collegial studies, elect to complete their undergraduate degree outside the province of Quebec (other Canadian provinces, U.S.A. or elsewhere) will be required to complete an undergraduate degree with a minimum of 90 credits (six semesters) at the non-Quebec university to be eligible to apply. Students who fail to complete a DEC before transferring to a non-Quebec university must complete a four-year degree. Successful candidates must be in receipt of the bachelor's degree by the time of registration for the first year of the medical curriculum.

Although the Faculty attempts to ensure by means of the specific requirements listed below that all students have an adequate preparation in science, it also wishes to encourage students from a variety of backgrounds to select medicine as a career. Prospective applicants are therefore advised to pursue courses of study, whether in the natural or social sciences or the humanities, which appeal to them and which have as their aim a broad education and intellectual training rather than merely anticipating the medical curriculum. In all programs of study, to be admissible prospective applicants should have carried a full load of courses (15 credits per semester. Official transcripts must have numerical or letter grades. Narrative transcripts are not acceptable.

SPECIFIC REQUIREMENTS

These consist of the following courses and the Medical College Admission Test.

One full year (2 semesters) university level course, with laboratory work, in each of:

- General biology
- General chemistry
- Organic chemistry
- Physics.

It is important to note that in all of the above courses Pass/Fail grades are not acceptable.

Prerequisite courses completed more than eight years ago must be repeated. Exception may be made for applicants with advanced degrees in the material concerned.

University-level courses in biochemistry or cell and molecular biology are strongly recommended.

MEDICAL COLLEGE ADMISSION TEST

All applicants who wish to apply to the M.D., C.M. program starting in August 2003 must have taken the MCAT by August 17, 2002.

This test is conducted by the MCAT Program Office (P.O. Box 4056, Iowa City, IA 52243; telephone (319) 337-1357 and is given each year in the spring and fall at various centres in Canada, the U.S. and other countries.

Applicants who wish to apply for the entering class of 2004 may obtain MCAT registration material from the address given above or, as of February 2003, from the office of the Associate Dean for Admissions, Faculty of Medicine.

The MCAT assesses mastery of basic concepts in biology, chemistry, and physics; facility with scientific problem-solving and critical thinking; and writing skills. The skills and concepts tested are those identified by physicians and medical educators as prerequisite for the practice of medicine. The MCAT Student Manual describes the test in detail and is available for U.S.\$20 from: AAMC Publications Department, 2450 N Street, NW, Washington, DC 20037-1127, U.S.A.. Website: <http://www.aamc.org/mcat> Telephone: (202) 828-0416.

The test should be retaken if it was written more than three years before the date of application. For applicants whose first lan-

guage is not English, this fact will be taken into account in assessing the results of the test.

FOREIGN MEDICAL GRADUATES

Applicants who are Canadian citizens or Permanent Residents, who satisfy current Quebec residency requirements and who hold a medical degree awarded by a recognized university outside of Canada or the U.S., may be eligible to apply to the first year of the M.D.,C.M. program if:

- official transcripts sent by that university show numerical grades for all courses completed and,
- the candidate meets the specific requirements of science prerequisites and MCATs described under the M.D.,C.M. program.

The criteria for selection will be identical to those applying to the M.D.,C.M. program with a bachelor's degree. The foreign medical degree and its GPA will be substituted for a bachelor's degree.

3.2.2 M.D./M.B.A. Program

The M.D./M.B.A. program recognizes that physicians will be increasingly involved in the growing partnerships between business and health/sickness care into the next century. The program will graduate a group of doctors with skills uniquely directed towards management in the health care sector. This will provide opportunity to compete for positions in a growing niche of physician-managers who will be found in all facilities from the smallest clinic to the largest tertiary health care facility, from research laboratory to university or hospital medical departments.

This is a five-year program in which the first year from September to the following July is spent in the Faculty of Management. To be promoted and registered into the medical portion of the M.D./M.B.A. program, students must have successfully completed by July 31, 2003 all the courses and projects which are required in the first year of the joint program. Elements of health management and practicums will be integrated into the elective opportunities in the regular four-year medical curriculum. At graduation, graduates will receive an M.B.A. from the Faculty of Management and an M.D.,C.M. from the Faculty of Medicine.

Acceptance into this program has identical requirements as those required for the M.D.,C.M. Program.

Cost of Study: Tuition fees for the first three terms (fall, winter, and summer) of the joint M.D./M.B.A. program are \$30,000 for International students, \$5,562.45 for non-Quebec Canadian students, and \$2,502.45 for Quebec students. Figures are given in Canadian dollars and are subject to change without further notice. Student services, administrative, society fees and M.B.A. computer fees are not included. Tuition for the balance of the M.B.A. portion of the joint program will be prorated on a per credit basis.

Applications must be submitted no later than November 15, 2002. Further information can be obtained from: Program Administrator M.D./M.B.A. Program, McIntyre Medical Sciences Building, 3655 Promenade Sir-William-Osler, Montreal, Quebec, H3G 1Y6. Telephone (514) 398-3517. Fax (514) 398-4631.

3.2.3 M.D./Ph.D. Program

Students interested in a research career in academic medicine may wish to apply for admission to the M.D./Ph.D. program. This is a seven-year program in which the basic and clinical sciences portion of the medical curriculum are completed from September of year one to December 31 of year two, prior to the beginning of full-time graduate studies. The latter are expected to last three, but no more than four, years by which time all course work and the research requirements for the Ph.D. degree must have been completed and a thesis submitted. The defense of the thesis will ordinarily take place at a later date. From January of year five to May of year seven students will complete the requirements for the M.D. degree.

Acceptance into the M.D./Ph.D. program is conditional upon fulfilling the requirements for and being accepted into the four-year medical curriculum and acceptance into a graduate program by one of the departments and the Graduate and Postdoctoral Studies Office. Students currently enrolled in the first year of the medi-

cal curriculum at McGill and who have a bachelor's or master's degree are eligible to apply before October 1 of second year.

Applications must be submitted no later than November 15, 2002. Further information can be obtained from: Program Administrator, M.D./Ph.D. Program, McIntyre Medical Sciences Building, 3655 Promenade Sir-William-Osler, Montreal, QC, H3G 1Y6.

3.2.4 MED-P Program

Prospective applicants who are citizens or Permanent Residents of Canada living in the province of Quebec and who are currently enrolled in the second and final year of the Sciences de la nature profile of the Quebec Colleges of General and Professional Education (CEGEP) are eligible to apply for the Med-P program.

Required courses:

- Biology: OOUK, OOXU;
- Chemistry: OOUL, OOU, OOXV;
- Mathematics: OOUN, OOU, P;
- Physics: OOUR, OOUS, OOUT.

Recommended course: second organic chemistry

All courses must have numerical grades in order to be acceptable. The Medical College Admission Test is NOT required for entry into the Med-P program.

The DEC Intégré may also be acceptable providing the candidates have completed the approved number of science prerequisites - two courses acceptable to both of the McGill Faculties of Medicine and Science in each of: Biology, Chemistry, Physics and Mathematics. Should the course content of any of these fail to satisfy the criteria of the profile 10.11 of the structure d'accueil, the student may be required to replace electives by one or more of these courses as part of the Med-P curriculum.

Please note that:

- a. applicants who are completing a Diploma of Collegial Studies in more than two years (with the exception of students taking a "double DEC" or those enrolled in a Sports-Études program);
- b. CEGEP students who have formerly been enrolled in college or university programs or in post-secondary technical schools, within or outside of the province;
- c. applicants who have already obtained a Diploma of Collegial Studies;
- d. applicants who have already obtained a Diploma of Collegial Studies and who are registered in an undergraduate degree program or have completed an undergraduate degree;

must fulfill the requirements for, and make application to, the M.D.,C.M. program.

In the first year of the Med-P program, students are registered in the Faculty of Science. In addition to completing the specific requirements for entry into the four-year program, they must take a number of humanities, social science, and elective courses selected for the purpose of broadening and enriching their education. Following the successful completion of this year, determined by a promotions committee, students proceed into the first year of the M.D.,C.M. program.

It should be noted that there are more applicants for the Med-P program than can be accepted. Unsuccessful applicants are often well qualified for admission into other undergraduate degree programs (e.g. B.A., B.Sc.). All applicants are advised to apply for an alternate program using the on-line application available at <http://www.mcgill.ca/applying>.

3.2.5 Advanced Standing

There are no places available for students who wish to transfer to McGill.

Students currently in medical school are eligible to apply to the first year of the program if their application provides proof of withdrawal from that medical school and that they meet all the admissions requirements to the M.D.,C.M. program.

3.3 Application for Admission

Application for admission should be made through online admissions at <http://www.med.mcgill.ca/admissions>. Applications for the entering class of August 2003 can be filed as of September 1, 2002.

All documents required for application, including official transcripts, MCAT scores (M.D.,C.M., M.D./Ph.D., M.D./M.B.A. programs only), autobiographical letter and reports of referees must be submitted by the deadlines given below to be acceptable. Transcripts must contain letter grades (GPA) or numerical grades for every course completed. The material submitted becomes the property of the University and cannot be returned.

The application fee is \$60.00 payable by international money order negotiable in Canada without term.

Applicants claiming Quebec residency must fulfill precisely one of the residency criteria as defined by the Quebec Ministry of Education on the "Attestation of residency in Quebec" form. These forms can be found on our web site.

Appropriate consideration is given to qualified applicants with physical disability.

Applicants not admitted on the basis of a first application may submit a second application. Applicants making a third application to the M.D.,C.M. program are rarely successful and are strongly discouraged from applying.

DEADLINES FOR RECEIPT OF APPLICATIONS:

November 15, 2002 –

for applicants whose residence is outside of Quebec.

November 15, 2002 –

for all applicants to the M.D./Ph.D. program.

November 15, 2002 –

for applicants to the M.D./M.B.A. program.

January 15, 2003 –

for residents of Quebec applying for the M.D., C.M. program.

March 1, 2003 –

for residents of Quebec applying to the Med-P program.

Early Decision Program: Early acceptance (excluding Med-P applicants) for exceptionally strong candidates may be considered. Well-rounded students with a strong academic record and high MCAT scores may apply for the early decision program by clearly indicating that they want to be considered for this program. Applicants must ensure that all required documents (including official transcripts, official MCAT scores, autobiographical letter as well as three reference letters) are sent immediately to the admissions office.

Once the file is complete, the Admissions Committee will review it and a decision will be made within ten days as to whether early interviews will be offered. Successful candidates who accept our offer of admission to the Faculty of Medicine at McGill must withdraw their application(s) to, or acceptance(s) from other medical schools in order to maintain their accepted status at McGill.

3.4 Procedures for Selection and Notification

3.4.1 Selection

Selection of students by the Admissions Committee is based upon academic achievement at the time of application and an assessment of personal characteristics and accomplishments.

Academic Achievement

Academic achievement is determined from the academic record in undergraduate studies and the result of the Medical College Admission Test. While completed graduate degrees are taken into consideration, applicants should know that the undergraduate CGPA and MCAT scores are the major consideration in measuring academic performance.

Applicants to the M.D.,C.M. program should have undergraduate CGPAs of 3.5 or better and similar grades in science prerequisites. They should have a total of 30 or more in the MCAT scores.

The CRC (*cote de rendement collegial*) and performance in the math/science prerequisites constitute criteria for admission to the

Med-P Program. For the entering class of 2002, applicants invited for interviews had a CRC of 34 or higher.

A maximum of 160 students are accepted into the first year class. Students recently accepted had the following academic profile (mean scores): GPA 3.73 (4 point scale); CRC 35.76; MCAT: Verbal Reasoning 9.16; Physical Sciences 10.59; Biological Sciences 10.80; overall score 30.55.

Personal Characteristics and Accomplishments

The initial assessment of personal qualities and achievements is made from a study of the autobiographical letter submitted by all candidates. The letter should give the Committee a clear image of the applicant and the personal characteristics and experiences which make him/her particularly suitable for the study and practice of medicine.

On the first page only, applicants should describe briefly the basis for their decision to be a doctor and detail their experience and exposure to health care in general and more specifically to sick persons, doctors, and other health care workers. They should show that they understand all the implications of their choosing to study and practice medicine.

The remaining three pages should be devoted to examples of leadership, initiative, originality, empathy, compassion, service to others, whether in the community of their institution of study or beyond, evidence of communication skills, the ability to work in teams and interact positively with others. The ability to take initiative, excel in one's studies while engaging in depth in such things as team sports, student government, music, theatre, drama, art, creative writing and other endeavours which require dedication, determination and the capacity to handle the stress of coping with different enterprises are of particular importance to the Committee. The effort expended, the importance of the applicant's role, individual responsibility and level of achievement should be explained.

Clearly indicate when the activities cited began and ended.

While past activities may be important to this narrative, more recent activities generally carry more weight with the Committee. Work experiences, travel, cultural interests and achievements or hobbies which the candidate can relate directly to his/her suitability for medicine should be mentioned. Personal qualities cited should be substantiated by examples of life experience to make them credible. Applicants not currently enrolled as students should indicate clearly what they have done since graduation. The date and outcome of the applicant's most recent medical examination should be given and any medical problems or time missed from studies because of illness should be briefly included.

Interview

The assessment of the autobiographical letter, together with the confirmatory statements and amplifications contained in the reports from those referees chosen by the student, form the basis for a decision on whether an applicant possessing the academic performance criteria is to be invited for an interview. The files of candidates who are not invited for interviews are not considered further.

The decisions described above are final and, once made, are not subject to appeal.

3.4.2 Notification

Applicants from outside of the province of Quebec will be notified as soon as possible after March 31, 2003, whether they have been accepted, placed on the waiting list, or not accepted. Residents of Quebec applying for the M.D., C.M. program will be notified as soon as possible after May 1, 2003. Decisions for the Med-P program will be mailed on May 15, 2003. Acceptance is conditional upon receipt of a bachelor's degree (M.D.,C.M., M.D./Ph.D., M.D./M.B.A. programs) or DCS (Med-P program) and upon the successful completion by the time of registration of any studies currently in progress, including the requirements for admission, at a level comparable to past academic performance.

Successful applicants must respond within two weeks to the offer of a place in the entering class.

For students accepted into the M.D.,C.M. program, notification of acceptance must be accompanied by a deposit of \$500, which will be applied against tuition. The deposit is refundable up to

May 15, 2003 for U.S. and International students, and up to June 15, 2003 for Out-of-Province Canadian applicants and Quebec residents applying to the M.D.,C.M. program.

For students accepted into the Med-P program, notification of acceptance of the offer must be accompanied by a deposit of \$300, which will be applied against tuition. The deposit is refundable up to July 15, 2003.

It is strongly recommended that accepted applicants have a personal computer or personal digital assistant (PDA). Students should also have software for word processing, email and web browsing.

3.4.3 Compulsory Immunization Program

The basic Compulsory Immunization information is outlined on [page 9](#). Students who are accepted for the study of medicine will receive details of the immunization requirements with their letter of acceptance. **Two immunization issues must, however, be taken into consideration prior to entry into medical school.**

Varicella (chicken pox): Students who do not have a clear, documented history of having had this childhood infection, must have their serology verified prior to registration. (It should be noted that a University-affiliated hospital may deny the student access to a clinical rotation if he/she is potentially contagious; this may impact on the student's studies.) In the event that the student's titre is negative, it is highly recommended that the student have a Varicella vaccination prior to registration. Failure to do so will compromise clinical rotations and may impact on the student's graduation date.

Hepatitis B and C: These are serious and potentially contagious diseases, and all prospective medical students who are seronegative for Hepatitis B must be vaccinated before they will be permitted contact with patients. Any student who, in pre-vaccination testing, is found to be carrying the Hepatitis B virus will not be permitted to perform medical procedures involving needles, scalpels, or other sharp objects as this poses a potential risk to the patient. This will severely limit the student's ability to participate fully in the medical school program and his/her ultimate career options may be severely restricted. Students who know themselves to be seropositive for Hepatitis B and/or C have an obligation to notify the Dean's Office immediately upon entry into the program. Early discussion is essential and specific measures will be undertaken by the Dean's Office. The student will be referred to the Infected Health Care Worker Committee of the McGill University Teaching Hospital Council. In consultation with this Committee, modifications to clinical rotations will be made. Specific career counseling will be given. Students will be advised not to select residency programs where patient safety would be put at risk. Should core clinical rotations need to be modified notation of this will be made in the Dean's Letter/Medical Student Performance Evaluation form (a document required for residency application process). Should a student apply to a residency program where patient safety would be put at risk, the Dean's Office has the duty to notify the Program Director that the student is seropositive.

Applicants who know that they are carrying either of these viruses should consider carefully their intention to become a doctor and govern themselves accordingly.

3.4.4 Deferred Admissions

Admission into the first year of the M.D.,C.M. program may be deferred for a period of one year for a defined academic purpose to obtain an advanced degree. However, students currently enrolled in graduate programs are expected to apply only when they are in the final year of that program.

A written request which includes the details of the proposed academic program must be submitted no later than August 1st of the year in which deferral is sought.

Deferred admission is not granted for the Med-P program.

3.5 Non-Quebec Students

The government of Quebec provides two quotas under which non-Quebec students may be admitted to study medicine at McGill.

1. A quota for U.S. and International applicants, and
2. a quota for Canadians and Permanent Residents of Canada who do not reside in Quebec.

Should applicants be accepted under either of these quotas, their acceptance and obligations to same will be for the duration of their medical studies, regardless of any change in citizenship or residency status. The candidate, in accepting such an offer of admission, will accept these conditions.

As a measure to control manpower in the province, the Quebec government requires that all students who are not Quebec residents must agree in writing at the time of registration that if, upon completion of the four-year curriculum and residency training, they wish to remain in the province, they will practice for a defined period of time in one of the areas designated as medically underserved. It should be noted that this requirement does not interfere in any way with the right to study medicine in Quebec or, following graduation, to take residency training in Quebec.

3.5.1 American Students

The Faculty encourages applications from United States citizens and offers admission to a considerable number of such applicants each year. Students accepted for admission must have a student authorization by the date of registration. Instructions for making application for this authorization are included with the letter of acceptance.

The Faculty of Medicine is accredited by the Liaison Committee on Medical Education of the AAMC and AMA, and studying at McGill is equivalent to studying medicine in a U.S. medical school. U.S. students studying at McGill write the USMLE exams in the same way and at the same time as U.S. students studying in U.S. medical schools.

While U.S. medical students are eligible to do residency training at McGill, U.S. program directors recognize the high calibre of McGill graduates and those students are very competitive in their U.S. residency applications.

Tuition for non-Canadian students is appreciably higher than for Canadian students. U.S. citizens benefit, however, with respect to all costs from a favourable exchange rate on the Canadian dollar.

3.5.2 International Students

The Faculty also encourages applications from citizens of other foreign countries and offers admission to a number of such students each year. Most applicants have undertaken some or all of their undergraduate studies in Canadian or U.S. colleges. Students accepted for admission must have a student authorization by the date of registration. Instructions for making application for this authorization are included with the letter of acceptance.

It is the personal responsibility of the International students to ensure that they fulfill all the licensing requirements of the country in which they intend to practice medicine. A medical degree does not necessarily confer the right to practice. Therefore, any International student must submit along with his/her application form, a letter issued by the responsible authorities in his/her country indicating that they recognize the medical degree awarded by the Faculty of Medicine at McGill University and that this degree will enable this student to practice medicine in his/her country.

3.5.3 Out-of-Province Canadian Students

A very limited number of places will be made available by the Quebec government.

3.6 Registration

New Students

All students entering the four-year M.D.,C.M. program in 2002-03 must initiate registration on the Web by adding the registration course REGN-RCMD on Minerva.

The Minerva Registration period for newly admitted Medicine students is August 6 - August 13, 2002.

In order for the official registration in the M.D.,C.M. program at McGill to be confirmed, the student must also present him or herself, with proper documentation, at the Faculty Registration and Orientation on Wednesday, August 14, 2002. ATTENDANCE IS COMPULSORY. Failure to attend will result in cancellation of the student's offer of admission to the program and registration.

For further information, consult the Website <http://www.mcgill.ca/minerva-students> and the registration information being mailed to incoming students in June.

Returning Students

All returning students must register for 2002-03 on the Web by adding the registration course REGN-RCMD on Minerva. Return-

ing students must register by the deadline specified or pay the appropriate late registration fees.

For further information, consult the Website <http://www.mcgill.ca/minerva-students> and the registration information mailed to returning students in early April.

3.7 Collège des Médecins du Québec

All students studying medicine in a university of the province of Quebec are required by law to register with the Collège des Médecins du Québec by November 1 of their first year of study. Registration packages are made available to accepted students. A student who fails to comply with this requirement will not be permitted to continue in the program.

3.8 Curriculum Outline

BASIS OF MEDICINE

Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	March	April	May	June	July	Aug.
Molecules, Cells & Tissues (4 weeks)	Gas, Fluids & Electrolytes (9 weeks)		Life Cycle (3 weeks)	Endocrinology, Metabolism & Nutrition (7 weeks)		Musculo-skeletal & Blood (4 weeks)	Nervous System & Special Senses (8 weeks)		Host Defense & Host Parasite (5 weeks)	Vacation/ Research	
ITP											

INTRODUCTION TO CLINICAL MEDICINE (ICM)

Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	March	April	May	June	July	Aug.
Host Defense & Host Parasite (2 weeks)	Pathobiology, Treatment & Prevention of Disease (14 weeks)			Professional Skills: ICS Ethics & Law EBM (4 weeks)	Intro to Internal Medicine (7 weeks)		Intro to Surgery/ Anesthesia/ Radiology/ Ophthalmology (7 weeks)	W C T Family Medicine (7 weeks)	Intro to Emerg. Med/ Neurology/ Oncology	Elective #1 (4 weeks)	Vacation/ Research
ITPM											

PRACTICE OF MEDICINE (POM)/CLERKSHIP

Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	March	April	May	June	July	Aug.
Intro to Psychiatry/ Pediatrics/ Ob & Gyn/ Hosp. Practice (4 weeks)	Pediatrics (8 weeks)	Obstetrics & Gynecology (8 weeks)		Surgery (8 weeks)		Psychiatry (8 weeks)		Internal Medicine (8 weeks)		Elective #2 (4 weeks)	Geriatric Medicine (4 weeks)

BACK TO BASICS (BTB)

Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	March	April
Family Medicine (4 weeks)	Elective #3 (4 weeks)	Vacation (4 weeks)	Elective #4 (4 weeks)	Seminar Option (Humanities) (3 weeks)	Medicine & Society (4 weeks)	Seminar Options (3) (Basic Sciences)	
						Communication Plus	
						(3 wks)	(3 wks) (3 wks)

3.9 Courses for the Degree of M.D.,C.M.

Four years of medical study in the University leads to the degree of M.D.,C.M.; an additional period of postgraduate training is necessary for licensure.

While the Faculty's administration exercises a general supervision of arrangements for postgraduate applications, the Faculty of Medicine does not assume the responsibility for providing residencies for students.

Educational Goals of the Curriculum

The primary focus of the undergraduate program is to teach and help the students apply core knowledge, skills and attitudes required of a medical professional. The program will emphasize

the fundamental sciences and scientific methodology as pillars of medical knowledge. It will promote and provide opportunities for participation in research and other scholarly activities contributing to the development of new knowledge. It will nurture and enhance an understanding of the meaning of, as well as the personal qualities and values essential to, professionalism. It is the goal of this school to train professionals who will apply scientific principles throughout their career and who will be able to meet the most stringent international standards of the medical profession.

The student must understand normal and abnormal biological structure and function; normal and abnormal psychology and behaviour; the biological, social, psychological, cultural, environmental and economic determinants of health and illness; the ethical, professional and legal responsibilities in medical practice; and

the conceptual framework for interdisciplinarity. The student must acquire the basic clinical skills to assess and manage patients of all ages: these include communicating effectively with patients, families and colleagues; obtaining a comprehensive clinical history; performing a physical examination; performing routine procedures appropriate to the setting; and initiating appropriate investigations and treatment plans (preventive, acute, chronic, intensive, rehabilitative and palliative). The student must solve problems, make decisions, and address ethical dilemmas in the clinical context. The student must demonstrate an ability to collaborate in an interdisciplinary approach to patient/family centered care, and assume a leadership role when appropriate.

The student must demonstrate a commitment to life-long learning and scholarship, develop the skills to search, retrieve, manage and appraise biomedical information, and be able to evaluate the design and results of medical research. The student must behave with commitment, integrity, honesty and compassion.

Upon completion of the medical undergraduate program, the graduate will be able to function responsibly in a supervised clinical setting at the level of an undifferentiated physician. A detailed description of the goals and objectives can be found on the Undergraduate Medical Education Office website, <http://www.med.mcgill.ca/ugme>.

3.10 Standards of Behaviour

The teacher/learner relationship is based on mutual trust, respect and responsibility. The Faculty of Medicine therefore has many legitimate expectations related to the behaviour of students and faculty members. A Code of Conduct for the undergraduate medical program is printed in the Students' Handbook (distributed at orientation) and may be reviewed on the Web, (<http://www.med.mcgill.ca/ugme>). The Faculty is committed to providing a learning environment which respects this Code. Student/Faculty harassment, abuse and mistreatment are not tolerated. An evaluation protocol for professional behaviour is in the development phase. Students who demonstrate inappropriate professional conduct or are found of guilty of criminal offence may be dismissed from the program.

3.11 Leaves of Absence

Leaves of absence are generally discouraged and with few exceptions are granted only for reasons of health or family crises. Requests for leaves must be discussed with the Associate Dean. Permission is granted by the Dean. A request must be accompanied by supporting documentation (e.g., a letter from the student's physician/counsellor). In general, a medical leave is granted for up to one year. The Faculty reserves the right to impose a limitation on the number as well as the total duration of leaves. Should a prolongation be requested, the Faculty of Medicine reserves the right to require a second opinion from a Faculty-designated physician.

A student returning from a medical leave must provide supporting documentation from the treating physician/counsellor. These documents must state that the student is capable of resuming his/her studies.

Once the leave has been approved by the Deans, the student's registration and fees must be clarified with the Student Records Officer. Students may be required to forfeit all or part of their tuition fees. All students must have an interview with the Student Aid Office to reassess impact on financial aid.

Leaves of absence will be noted on official transcripts and Dean's Letter/Medical Student Performance Evaluation form.

3.12 Curriculum Review

The Faculty realizes the need for constant review of the medical curriculum that is necessitated by:

- rapid advances in scientific knowledge;
- changes in the role of the medical school in the community and changes in the delivery of health care;
- modifications to the class size (as mandated by the provincial government); and

- application of new principles of educational science to medical education.

A permanent Faculty Curriculum Committee, with student representation, is charged with the task of reviewing the curriculum and recommending any modifications of time allocation or content.

These modifications may be implemented at any time during the M.D., C.M. program.

3.13 Evaluation System

The Evaluation System is multifaceted and under constant review by the Faculty. The Faculty reserves the right to change any of these rules and regulations at any time, although in general such changes will not come into effect in the middle of a session. For complete Faculty regulations, reference should be made to the Faculty of Medicine Student Handbook which is updated annually on the website (<http://www.med.mcgill.ca/ugme>) under "student evaluation".

The Faculty operates on a pass/fail system. This in effect means that students' standings, class rank, and grades in courses and rotations are not available to any external agency such as hospitals, universities or licensing bodies. For purposes of internal use students' numerical grades are used in the calculations required for student feedback, academic advising and promotion, awards, prizes, Dean's Honour List designation, academic bursaries and Faculty medals.

For the purposes of evaluation, the four-year curriculum is broken down into the following promotion periods.

Promotion Period I

Units 1 to 6 and Introduction to the Patient

Promotion Period II

Units 7, 8, 9 and Introduction to the Practice of Medicine (The beginning of Year II to end of Unit 9)

In December of 2003, an exit exam from Promotion Period I and II (i.e., BOM) will be introduced. All students will be required to take this exam.

Promotion Period III

Introduction to Clinical Medicine

Promotion Period IV

Practice of Medicine

Promotion Period V

Back to Basics

STUDENT PROMOTIONS

The Committee on Student Promotion and Curriculum Outcomes (CSPCO) will review the academic record, professional conduct and general performance of any student on a regular basis and will determine whether the student may proceed to the next promotion period.

No evaluation, examination mark, etc. shall be considered final until passed by the Committee on Student Promotion and Curriculum Outcomes.

Where a student has failed one or more units, or has been found to have been engaged in unethical or inappropriate conduct, the Committee on Student Promotion and Curriculum Outcomes will automatically review the student's entire academic record and general performance. The Committee on Student Promotion and Curriculum Outcomes may require the student: a) to undergo remedial rotation(s), b) to repeat an entire Promotion Period or c) to withdraw from the Faculty. Furthermore, a student who obtains a "failure" or two or more "below expectations" in the clinical components (ICM, POM) may be placed on academic probation.

Academic offenses such as plagiarism and cheating on examinations, including examinations administered by the Faculty of Medicine on behalf of external agencies, and unethical or inappropriate conduct are considered serious offenses which could lead to dismissal from the program. A student who engages in criminal activity and/or who is found guilty of having violated the criminal code will have his/her dossier referred to the CSPCO; this may be considered evidence of unsuitability for the practice of medicine and grounds for dismissal from the program.

The Faculty reserves the right to dismiss from the program any student who is considered incompetent and/or unsuitable for the practice of medicine.

Promotion Period I

Evaluation will be reflective of the objectives of an individual unit.

The students' performance in each unit will be assessed by intraunit and final evaluation.

The student must complete all units in Promotion Period I successfully in order to be promoted to Promotion Period II.

The Committee on Student Promotion and Curriculum Outcomes will review the record of any student failing a unit and, under certain conditions, remedial activity and a supplemental evaluation will be permitted.

Promotion Period II

Evaluation will be reflective of the objectives of an individual unit.

The students' performance in each unit will be assessed by intraunit and final evaluation.

The student must complete all units in Basis of Medicine successfully in order to be promoted to Introduction to Clinical Medicine.

Promotion Period III

Evaluation will be reflective of the objectives of an individual unit.

The student must complete all units in Introduction to Clinical Medicine successfully in order to be promoted to the Practice of Medicine.

Promotion Period IV

Evaluation will be reflective of the objectives of an individual Clerkship Rotation.

The students' performance in each Clerkship or Elective will be assessed by clinical supervisors and written/oral/OCSE exams. The student must complete all units in Practice of Medicine successfully in order to be promoted to Back to Basics.

Promotion Period V

The student must complete all courses in Back to Basics successfully in order to graduate.

FAILURE OF SUPPLEMENTAL EXAMINATIONS OR REMEDIAL ROTATIONS

A failure in a supplemental examination or remedial rotation of any unit/course will result in dismissal from the program. A student may not repeat more than one Promotion Period in the curriculum. Failure in any unit/course during a repeat Promotion Period will result in immediate dismissal from the program.

The results of all supplemental examinations and the evaluation result of remedial clinical rotations will be recorded in the official transcripts as supplemental examinations, and will be considered as such for purposes of promotion.

Notification of Failures: It is the student's responsibility to be available for notification of a failing grade. If a student is unable to be located after a reasonable effort by the Dean's office, the consequences will be borne fully by the student.

3.14 Medical Instruments

Students will be required to purchase their own medical instruments (e.g., stethoscope, blood pressure cuff, ophthalmoscope, reflex hammer). These are necessary for the Introduction to Clinical Medicine.

The purchase of a handheld computer is highly recommended for ICM and POM.

3.15 Requirements for the Degree of M.D.,C.M.

1. Every candidate for the degree of Doctor of Medicine and Master of Surgery in this University must be at least twenty years of age.
2. Candidates must have fulfilled all the requirements for entrance to the Faculty of Medicine.
3. No one is permitted to become a candidate for the degree who has not attended at least two full academic years at this University's Faculty of Medicine.

4. Every candidate for the degree must have passed all the required evaluations in the subjects comprising the Medical Curriculum.

RESIDENCY MATCHING SERVICES

A matching service is a clearing house designed to help final year medical students obtain the residencies of their choice and to help hospitals and program directors obtain the students of their choice. It provides an orderly method for students to decide residency choice and for programs to decide which applicants they wish to enrol. For both students and program directors, it attempts to remove the factors that generate unfair pressures and premature decisions.

The matching service acts as the agent of students on the instructions embodied in the confidential list of all the residencies for which they have applied, ranked in order of preference. Similarly, the matching service acts as the hospital's agent on the instructions embodied in its confidential list of all the students who have applied, ranked in order of the hospital's preference.

Students at McGill have access to two different matching services: The Canadian Resident Matching Service matches applicants across Canada. The National Resident Matching Program matches applicants to programs in the U.S.

The Faculty provides comprehensive career guidance. Information sessions and personal counselling are provided throughout the program. Students are given assistance in navigating the residency application process. To this end, the Faculty makes use of its extensive alumni network throughout North America.

3.16 Requirements for Licence

Candidates accepted for admission are reminded that it is their personal responsibility to ensure that they fulfil all the licensing requirements of the country in which they intend to practise medicine. A university degree does not confer the right to practise. In each province of Canada, in each one of the United States, and in all other countries, the authority to license is vested in a licensing body which has its own special laws and requirements. In many cases a special standard of general education is insisted upon before **beginning** the study of medicine. One of the requirements in several provinces is that the entrance qualifications of the student must be registered with the provincial licensing body for five years or more before a licence to practise can be obtained.

Candidates accepted for admission should therefore communicate as soon as possible with the licensing body of the country, province or state in which they intend to practise and obtain from that licensing body the necessary instructions.

Candidates wishing to practise medicine in the province of Quebec must also meet the French language requirement for professionals, which is fully described on [page 8](#).

Full information as to the requirements for registration in the various provinces may be obtained from the Registrars of the Provincial Medical Boards as follows:

Alberta - Registrar, 10180 - 101th Street, Suite 900,
Edmonton, AB 5J 4P8

British Columbia - Registrar, 1807 West 10th Avenue,
Vancouver, BC V6J 2A9

Manitoba - Registrar, 1410 - 155 Carlton Street, Winnipeg,
MB R3C 3H8

New Brunswick - Registrar, 400 Main Street, Suite 1078,
Saint John, NB E2K 4N5

Newfoundland - Registrar, 15 Rowan Street, Churchill Park
Chambers, St. John's, NF A1B 2X2

Nova Scotia - Registrar, 5248 Morris Street, Halifax, NS B3J 1B4

Ontario - Registrar, 80 College Street, Toronto, ON M5G 2E2

Prince Edward Island - Registrar, 199 Grafton Street,
Charlottetown, PE C1A 1L2

Quebec - President-Secretary General, 2170 Rene Levesque
Boulevard W., Montreal, QC H3H 2T8

Saskatchewan - Registrar, 211 - 4th Avenue S., Saskatoon,
SK S7K 1N1

Medical Council of Canada

Full information concerning the examination may be obtained by writing to the Registrar, Box 8234, 1867 Alta Vista Drive, Ottawa, ON, K1G 3H7.

USMLE

Full information concerning these examinations may be obtained by writing to the USMLE Secretariat, 3750 Market Street, Philadelphia, PA 19104-3190. Telephone (215) 590-9600. USMLE Website (www.usmle.org).

3.17 Graduate Training Programs in the Clinical Departments of the Faculty of Medicine

The Faculty of Medicine, in conjunction with the affiliated teaching hospitals, offers a wide variety of programs leading to McGill Certificates of Residency Training and certification by the Collège des Médecins du Québec, the College of Family Physicians of Canada, and the Royal College of Physicians and Surgeons of Canada. For information on the graduate medical programs available and eligibility and funding, please consult the following website: <http://www.med.mcgill.ca/postgrad>.

3.18 Graduate Studies and Research in the Medical Sciences

Opportunities for graduate work in the basic medical and clinical sciences leading to the degrees of M.Sc. and Ph.D. are offered by many of the departments of the Faculty of Medicine. By special arrangement, studies for the degree of M.Sc. can be pursued concurrently with work towards the M.D., C.M. degree. In addition, a combined M.D./Ph.D. program is available (further information can be obtained from Program Administrator, M.D./Ph.D. Program, McIntyre Medical Sciences Building, 3655 Promenade Sir-William-Osler, Montreal, Quebec H3G 1Y6). Details of the programs available are included in *Graduate and Postdoctoral Studies Calendar* available on the McGill website <http://www.mcgill.ca>.

Research in clinical disciplines is carried out at all locations of the McGill University Health Centre – the Montreal Children's Hospital, the Montreal General Hospital, the Royal Victoria Hospital, the Montreal Chest Hospital and the Montreal Neurological Hospital. Research opportunities are also available at the Lady Davis Institute of the Jewish General Hospital, the Douglas Hospital and the Shriners Hospital for Crippled Children. For administrative purposes, graduate work in several clinical departments is grouped under the Division of Experimental Medicine and the Division of Experimental Surgery. Other departments administer individual graduate programs. Consult the *Graduate and Postdoctoral Studies Calendar* for a description of the programs.

Inquiries concerning research training in the medical sciences should be directed to the chair or graduate program director of the department in which the candidates wish to receive their graduate education. Alternatively, letters may be addressed to the Associate Dean (Graduate Studies and Research), Faculty of Medicine.

4 Curriculum Components and Units

Course numbers and term designations have changed effective September 2002; for further information refer to "Course Numbering System" on page 15 in the General Information section.

4.1 Basis of Medicine (BOM)

UNIT 1 –

INDS 101 MOLECULES, CELLS AND TISSUES. This unit will examine the biosynthesis and assembly of macro-molecules with emphasis on cell and tissue organization and function. The structure and organization of the skin, nerves and the embryo will be surveyed in detail and used as model systems to study the major biochemical, physiological, genetic and molecular principles of cells.

UNIT 2 –

INDS 103 GAS, FLUID AND ELECTROLYTES. This unit will discuss the embryological development, gross anatomy, histology and physiology of the cardiovascular, respiratory and renal systems. The biochemistry of lipids and proteins and the anatomy and physiology of the autonomic nervous system will also be covered.

UNIT 3 –

INDS 105 LIFE CYCLE. This unit is designed as an introduction to the basic science that will enable the student to understand human reproduction. The embryology, histology, and anatomy of the reproductive tract will be covered. Human development from genetics, to embryo, to parturition, will be explored and how this knowledge can be applied to clinical medicine in resolving problems of infertility, fetal and maternal morbidity, and menopause.

UNIT 4 –

INDS 104 ENDOCRINOLOGY, METABOLISM AND NUTRITION. This unit provides an overview of the gross and microscopic structure of the gastrointestinal tract and its accessory organs, along with a grounding in the principles of nutrition and digestion. Emphasis is also placed on those aspects of system and molecular endocrinology which regulate and integrate various metabolic activities.

UNIT 5 –

INDS 102 MUSCULOSKELETAL AND BLOOD. The objectives of this unit are to study the structure and function of the components of the musculoskeletal and blood systems. The interaction of the structure and function will be examined. The embryology, macroscopic and microscopic anatomy as well as molecular structure and function relating to the musculoskeletal and blood systems will be discussed. Lectures, laboratory sessions, small group seminars as well as audio-visual presentations, multi-discipline clinically applied sessions, computer assisted instruction and independent self-directed learning will be utilized to achieve these goals.

UNIT 6 –

INDS 106 NERVOUS SYSTEM AND SPECIAL SENSES. The content of this unit includes the anatomy of the head and neck and anatomical, physiological, biochemical and behavioural aspects of the organization of the nervous system and special senses. The material is presented in an integrated series of lectures and laboratory classes combined with small group clinical problem sessions designed to illustrate the clinical relevance of the material.

UNIT 7 –

INDS 207D1 HOST DEFENSE AND HOST/PARASITE. Infectious diseases arise from dynamic interactions between humans and microorganisms. Using lectures, case-oriented small groups, laboratory sessions, and independent learning, an integrated overview of the basic microbiology of organisms, our immune defenses and how they may be subverted, and approaches to the prevention and control of infection will be provided.

INDS 207D2 HOST DEFENSE AND HOST/PARASITE.

UNIT 8 –

INDS 208 PATHOBIOLOGY TREATMENT & PREVENTION OF DISEASE.

This unit covers the scientific basis of the diagnosis, prevention and drug therapy of selected diseases. The organ/system approach examining pathogenesis, pathology and pathophysiology, and pharmacological principles of treatment of diseases in the individual is integrated with the epidemiology and genetics in the population.

UNIT 9 –

INDS 161J1 INTRODUCTION TO THE PATIENT. Addresses the psychological social dimensions of human nature in health and illness. The small group program introduces students to the practice of medicine via exposure to health care teams in clinical settings and provides a forum to discuss psychosocial and ethical aspects of the practice of medicine.

INDS 161J2 INTRODUCTION TO THE PATIENT.

INDS 161J3 INTRODUCTION TO THE PATIENT.

INDS 203 INTRODUCTION TO PRACTICE OF MEDICINE. An introduction to clinical data gathering in Medicine - particularly interviewing and history-taking. This will be introduced in lecture format and

practiced in small groups with tutors. The doctor-patient relationship will also be studied. This course follows the Introduction to the Patient Course and shares its small group program. It may be considered as preparatory to the Introduction to Clinical Sciences Course.

4.2 Introduction to Clinical Medicine (ICM)

INDS 301 INTRODUCTION TO CLINICAL SCIENCES.

INDS 302 MEDICAL ETHICS AND HEALTH LAW - ICM.

INDS 306 INTRODUCTION TO EVIDENCE BASED MEDICINE.

These three courses are taught in a four-week unit called Professional Skills. The unit provides instruction in physical examination skills and an opportunity to consolidate training in history taking. Students are also introduced to the basic ethical and legal issues arising in clinical medicine. Emphasis is placed on the following subjects: informed consent, risk disclosure, patient competence, confidentiality, research ethics and end-of-life issues. The Introduction to Evidence-Based Medicine course introduces students to medical informatics, electronic resources and the skills necessary to critically appraise the medical literature.

INDS 306 MEDICINE - ICM.

This 7-week unit will provide hospital and community-based teaching in internal medicine. Using lectures and small groups format, the students will consolidate clinical skills and database as they relate to internal medicine.

Introduction to Surgery, Surgical Skills (SURG 301), Anesthesia (ANAE 301), Radiology (RADD 301), and Ophthalmology (OPHTH 300)

This 7-week unit will provide an introduction to surgery and related disciplines. The teaching occurs generally in small group settings or one-on-one with a clinical supervisor. It takes place in the in-patient hospital setting.

For course descriptions, refer to the appropriate unit in [section 5](#).

Introduction to Family Medicine (FMED 301), Neurology (NEUR 301), Principles of Oncology (INDS 307), and Emergency Medicine (INDS 304)

This 7-week unit includes 2-week rotations in each of neurology, emergency medicine and oncology. The neurology and emergency medicine experience is in hospital settings. The oncology experience is entirely based in ambulatory settings involving clinics in medical, surgical, pediatric and radiation oncology. All students are assigned to a family medicine practice, on the Island of Montreal, for one half day per week during this block. There is also one week of whole class/cohort teaching, held in the McIntyre Building, where the focus is on health promotion and disease prevention.

Introduction to Pediatrics (PAED 301), Obstetrics and Gynecology (OBGY 301), and Psychiatry (PSYT 302)

This 4-week unit introduces students to clinical aspects of Pediatrics, Obstetrics and Psychiatry. The teaching format is a combination of lectures and small groups. The unit also includes a module entitled Introduction to Hospital Practice; it aims to prepare the students for the clerkship rotations.

For course descriptions, refer to the appropriate unit in [section 5](#).

ICM Elective (ELEC 300)

There is a 4-week elective rotation which can be taken in either July or August.

4.3 Practice of Medicine (POM)

The 52-week period of POM includes instruction in all the following disciplines: Internal Medicine, Surgery, Geriatric Medicine, Family Medicine, Obstetrics and Gynecology, Psychiatry, Paediatrics. There are also three elective months.

A more detailed description of these clerkship rotations is available in the unit entries which follow.

4.4 Back to Basics (BTB)

This final block of teaching occurs following the clerkship (POM) rotations. Its primary goal is to reintroduce the student to fundamental principles in the basic sciences within a context quite different from that of the first year. The student will enter Back to Basics having had a broad clinical experience. The basic sciences will be appreciated not only as a necessary foundation, but also as an essential element of future developments. This goal will be achieved by a seminar series that will focus on topics in basic sciences having particular relevance to current clinical practice. The seminars will present an in-depth review of areas where there has been recent scientific development. These will be presented to the students as options; from which they will select three different topics. One of the options selected must be in the humanities.

In addition to the seminar series, students will have continued clinical exposure. They will refine their clinical skills, in an ambulatory care setting, two half-days per week for 12 weeks.

There is a compulsory two-week course in molecular biology. The course will introduce the student to important basic research topics, fields or approaches; focus on overall objectives of research and underlying principles of methodologies rather than on technical details.

There is also an obligatory four-week course entitled "Medicine and Society". This course will allow students to appreciate the complexity and diversity of medical knowledge as they prepare for post-graduate training. Perspectives in history, epidemiology, ethics, and economics will be provided. Issues such as health indicators, alternative medicine, and community health perspectives will be covered.

4.5 ICM Elective

Major electives are offered during ICM (Introduction to Clinical Medicine) and POM (Practice of Medicine), by the following Departments:

Anatomy, Anesthesia, Biochemistry, Biomedical Engineering, Emergency Medicine, Epidemiology and Biostatistics, Family Medicine, Geriatrics, Humanities and Social Studies of Medicine, Medicine, Microbiology and Immunology, Neurology, Neurosurgery, Nutrition, Obstetrics and Gynecology, Ophthalmology, Otolaryngology, Pathology, Pediatrics, Pharmacology and Therapeutics, Physiology, Psychiatry, Diagnostic Radiology, Radiation Oncology, Sports Medicine, Surgery and Tropical Medicine.

Details are published in the "Elective Calendar" and on the Web (UGME site). Further information may be obtained from the Coordinator (Elective Program), Faculty of Medicine.

5 Departments and Units in the Faculty of Medicine

5.1 Anatomy and Cell Biology

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Back to Basics.

Anatomy for Surgeons

A course of practical anatomy, seminar presentations and clinical anatomical conferences is given during Back to Basics which supplements the knowledge of human anatomy obtained in the core program. It is especially designed to provide the anatomical basis for surgical practice.

Other Courses

The Department offers a range of courses leading to the Faculty Program/Major/Honours B.Sc. in Cell Biology and is well equipped for graduate research leading to the M.Sc. and Ph.D. degrees. See the *Graduate and Postdoctoral Studies Calendar* and the Faculty of Science section of the *Undergraduate Programs Calendar*.

5.2 Anesthesia

Anesthesia is primarily concerned with the relief of pain and the provision of unconsciousness during surgery. In addition, it takes an active role in the care of the critically ill, in providing analgesia in obstetrics and in managing acute and chronic pain. It is a specialty with a heavy emphasis on the clinical application of the basic sciences.

ANAE 301 ANESTHESIA - ICM. A one-week core rotation is required of all students. Students are given supervised experience in the basics or A-B-Cs of resuscitation. They are expected to participate in preoperative, intraoperative and postoperative anesthesia care. Clinical applications of pharmacology and physiology are demonstrated.

Electives

Electives are offered to students during their Clerkship year. The objectives are to involve students in aspects of anesthesia care commonly encountered in the operating room, recovery ward and intensive care unit. These include fluid and transfusion therapy, management of acute pain relief, regional and general anesthesia techniques. The elective permits students to administer general anesthesia under strict supervision and to become involved in pre-operative and postoperative patient care. Specialised electives in pediatric and obstetric anesthesia, clinical research and other specialties can be individually arranged.

5.3 Artificial Cells and Organs Research Centre

Website: <http://www.artcell.mcgill.ca>.

The Research Centre provides opportunity for interdisciplinary research and training in the clinical and laboratory aspects of artificial cells, blood substitutes, artificial liver, artificial blood, immobilized cells and recombinant microorganisms, biomaterials, detoxification, gene therapy, enzyme therapy, drug delivery, biotechnology, and others.

Graduate courses are offered in Experimental Medicine, Physiology, and Biomedical Engineering. See the *Graduate and Postdoctoral Studies Calendar*. Electives, summer research, graduate research, and post-doctoral research are offered.

5.4 Biochemistry

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Back to Basics.

Other Courses

The Department offers a range of courses leading to the Majors/Honours B.Sc. in Biochemistry and is well-equipped for graduate research leading to the M.Sc. and Ph.D. degrees. See the *Graduate and Postdoctoral Studies Calendar* and the Faculty of Science section of the *Undergraduate Programs Calendar*.

5.5 Biomedical Engineering Department

Website: <http://www.bmed.mcgill.ca>.

Graduate Courses

The Department of Biomedical Engineering provides instruction and opportunities for interdisciplinary research in the application of engineering, mathematics and the physical sciences to problems in medicine and the life sciences. Courses are offered for graduate students in the life sciences, and in engineering and the physical sciences leading to the Master's and Ph.D in Biomedical Engineering. See the *Graduate and Postdoctoral Studies Calendar*.

5.6 Diagnostic Radiology

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Introduction to Clinical Medicine.

RADD 301 RADIOLOGY - ICM. This course follows the normal radiological anatomy covered in the Basis of Medicine. It is a one-

week rotation that includes a practical approach to common clinical problems. The students will spend time in all the MUHC hospital radiology departments and will be exposed to common pathologies of the chest, abdomen, musculoskeletal, neurologic and pediatric subspecialties.

5.7 Epidemiology and Biostatistics

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine, Introduction to Medicine, and Back to Basics. In addition, see the Elective Program for elective opportunities in epidemiology and community health.

Introduction to Epidemiology and Biostatistics

(Part of Basis of Medicine - Unit 8)

Lectures and small group tutorials which cover basic principles of epidemiology and biostatistics as applied in clinical and community settings. Included are research design and methods, dealing with bias and confounding, screening and risk appraisal, statistics, and critical appraisal of the literature.

Epidemiology and Community Health

(Part of Back to Basics – Medicine and Society)

This is a course which integrates epidemiology and community health with the social sciences and ethical issues in medicine. This is a series of lectures and small group tutorials which examine concepts of health and disease from the practitioners' and patients' viewpoint. Specific topics covered include community diagnosis, organization of health services, health economics, health promotion and preventive health, diagnostic testing and clinical decision making, and the assessment and utilization of the health research literature.

INDS 306 Introduction to Evidence Based Medicine

INDS 306 is jointly offered by the departments and the Health Sciences Library. It introduces the student to the skills required to appraise the medical literature and to access electronic databases. It is small-group based.

Graduate Courses

The Department of Epidemiology and Biostatistics has four degree programs: Diploma, Master's (without thesis), Master's (with thesis) and the Ph.D. See the *Graduate and Postdoctoral Studies Calendar* for description of courses and programs.

5.8 Family Medicine

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine, Introduction to Clinical Medicine, and Practice of Medicine.

FMED 301 FAMILY MEDICINE - ICM. This course offers an ambulatory experience in Family Medicine. It consists of ten half-days. This time will be divided between a family physician's office and small group tutorials. The content includes an introduction to the principles of family medicine and patient-centered care, to the role of the family physician in our health care system, and to the diagnosis and management of common medical problems seen in an office setting. It will also include an opportunity to learn how to perform a sensitive pelvic examination which will be taught by trained gynecological teaching assistants in a small group session.

FMED 402 FAMILY MEDICINE - CLERKSHIPS. This four-week core rotation provides an opportunity for the student to become acquainted with the discipline of family medicine. During this rotation, the student is expected to learn the principles of family medicine while working in an ambulatory care setting. The student will join a primary care team and will participate in clinical decision-making and management.

The Clerkship may be done in one of three ways:

1. A rotation in a McGill-affiliated urban Family Medicine centre. These may be hospitals or CLSC Family Medicine units.
2. A rotation in a McGill-affiliated rural site. The Ministry of Social Affairs funds travel and lodging costs for students.

- It is possible for a few students to request special four-week Family Medicine clerkship experiences outside of the Montreal and remote area teaching programs. For these, requests have to be submitted to the Course Coordinator a minimum of three months prior to the rotation. The requirements are outlined in the Clerkship booklet available at the Department.

A booklet describing the clerkship is available from the students' office or the Department.

5.9 Geriatric Medicine

PRACTICE OF MEDICINE (CLERKSHIP)

The following course is given by the Division of Geriatric Medicine, Department of Medicine.

IMED 406 GERIATRIC MEDICINE - POM. Orientation of students towards continuity of care for frail elderly patients, including training in geriatric consultations on wards and Emergency Room; patient assessments in a clinical setting; patient follow-ups in the community.

5.10 Human Genetics

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Back to Basics.

Graduate Courses

M.Sc. in Genetic Counselling (non-thesis); M.Sc. and Ph.D. (with thesis). See the *Graduate and Postdoctoral Studies Calendar*.

5.11 Medical Physics Unit

Website: <http://www.medphys.mcgill.ca>

Graduate Program

The Medical Physics Unit is a teaching and research unit concerned with the application of physics and related sciences in medicine, especially (but not exclusively) in radiation medicine, i.e., radiation oncology, medical imaging and nuclear medicine. The Unit offers an M.Sc. in Medical Radiation Physics and facilities are available for students to undertake a Ph.D. in Medical Physics through the Department of Physics.

The research interests of members of the Unit include various aspects of medical imaging, including 3D imaging, the development of new imaging modalities, and applications of imaging in radiation therapy; radiation dosimetry, especially solid state, electret and NMR systems; nuclear cardiology; and applications of radiation biology to therapy.

The M.Sc. and Ph.D. programs in Medical Physics are accredited by the Commission on Accreditation of Medical Physics Education Programs, Inc., sponsored by The American Association of Physicists in Medicine (AAPM), The American College of Medical Physics (ACMP), and The American College of Radiology (ACR). See the *Graduate and Postdoctoral Studies Calendar*.

5.12 Medicine

Core Courses

This Department contributes to all curriculum components of Basis of Medicine, Back to Basics, and Introduction to Clinical Medicine.

ICM - Professional Skills

INDS 302 INTRODUCTION TO CLINICAL SCIENCES

At the end of this course, students will be able to demonstrate the basic skills of physical examination on a peer or on selected real patients. Students will be able to produce a written case report combining information from both a complete history and a complete physical examination of a real patient. Examination of the rectum, breasts, and genitalia is not covered in this course.

The course is taught over 4 weeks in small groups with one or two group leaders, both in a classroom and at the bedside with real patients.

IMED 301 MEDICINE - ICM

By the end of this course, students will be able to demonstrate skills in problem formulation and differential diagnosis. Students will be able to integrate previous skills in history taking and physical examination with those in problem formulation and differential diagnosis to create write-ups of real patient cases. Students will be able to orally present their own patient cases to other members of their group in a clear, efficient manner. Students will use their own patient cases and those of their peers to generate personal learning opportunities. Students will describe and use approaches to the diagnosis of common problems in internal medicine. Students will use information from the history and physical exam to justify and interpret basic laboratory and radiology tests for a given patient.

This course is taught over 7 weeks in small groups with one or two tutors, both in classrooms and at the bedside.

PRACTICE OF MEDICINE (CLERKSHIP)

IMED 401 MEDICINE - CLERKSHIPS

This is an eight-week core clerkship in Internal Medicine. At this level of training, the student performs the initial patient work-up, completes the written record, develops a differential diagnosis (or problem list) and plan of investigation, writes progress notes and performs simple therapeutic and diagnostic procedures for each patient assigned. Clinical skills are further developed by constant reading, by discussions with the residents and attending staff, and by case presentations. Students attend outpatient clinics to follow up their therapeutic efforts on the wards and to see clinical material less common in an inpatient setting. Specialty conferences augment students' learning.

Experimental Medicine

See the *Graduate and Postdoctoral Studies Calendar*.

5.13 Microbiology and Immunology

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Back to Basics.

Other Courses

The Department offers a range of courses leading to the Honours B.Sc. in Microbiology and is well-equipped for graduate research leading to the M.Sc., M.Sc.A. and Ph.D. degrees. See the *Graduate and Postdoctoral Studies Calendar* and the Faculty of Science section of the *Undergraduate Programs Calendar*.

5.14 Neurology and Neurosurgery

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Introduction to Clinical Medicine.

NEUR 301 NEUROLOGY - ICM. The course's objectives will be to have the student develop the skills to acquire and record a detailed neurological history; perform a complete, orderly and accurate neurological examination, develop a clinical problem-solving approach, i.e. to correlate neurological symptoms and deficits with neuroanatomy and disease processes. The student will also accumulate factual knowledge about neurological diseases, develop awareness of special procedures in neurology and foster positive attitudes towards independent learning.

Graduate Courses

See the *Graduate and Postdoctoral Studies Calendar*.

5.15 Obstetrics and Gynecology

Core Courses

This Department contributes to all curriculum components.

OBGY 301 OBSTETRICS/GYNECOLOGY - ICM.

PRACTICE OF MEDICINE (CLERKSHIP)

OBGY 401 OBSTETRICS/GYNECOLOGY - CLERKSHIPS. As part of the core curriculum in Med III, students will spend an eight-week clerkship on a clinical teaching unit in one of the five centres within the McGill teaching hospital system. This clerkship is designed to enlarge and enrich the basic experience of Med I and Med II. Under supervision, students play an integral role in the management of patients and become a recognized part of the resident-intern-medical student team.

5.16 Occupational Health

The Department of Occupational Health offers a multidisciplinary approach to problems of occupational health and safety. It offers two graduate degree programs: a Ph.D. in occupational health sciences, with the objective of training independent researchers in the field of work environment and health; and a Master of Science (Applied) in occupational health sciences. The objective of this program is to train occupational health and hygiene professionals in the evaluation of the work environment and work hazards, and in the application of appropriate methods of prevention and control. The M.Sc. is offered in a regular sessional format which consists of three full-time terms and usually an additional session, and in a distance education format, normally over a three-year period. See the *Graduate and Postdoctoral Studies Calendar*.

5.17 Oncology

Core course - Introduction to Clinical Medicine

INDS 307 PRINCIPLES OF ONCOLOGY.

The ICM oncology course consists of eight hours of whole class teaching and a two-week clinical rotation in medical, surgical, pediatric, radiation oncology and palliative care units across the McGill-affiliated hospitals.

During the whole class teaching, the students are exposed to evidence-based guidelines in cancer epidemiology, cancer prevention and screening for major cancer sites, namely: breast, genito-urinary, colorectal and lung.

During their clinical rotations, the students are introduced to the basis principles of surgical, medical, pediatrics and radiation oncology. Objectives are to know cancer risks, clinical presentations, principles of cancer therapy; cancer prevention, cancer screening, genetic counseling and to interpret imaging and pathological data.

Students are also exposed to the principles of pain management and have one session on communication skills.

5.18 Ophthalmology

Core Courses

OPHTH 300 OPHTHALMOLOGY - ICM. This course will teach the basics of the eye exam (ophthalmoscope, visual acuity and slit lamp). It will focus on the following topics: acute and chronic visual loss, trauma to the eye, the red eye and eye manifestations of systemic diseases (e.g. hypertension, diabetes).

The Department of Ophthalmology gives sessions with particular emphasis on history-taking, diagnosis and treatment of common eye problems, as well as instruction on how to use the ophthalmoscope and slit lamp microscope.

Four-week electives are offered to ICM or Clerkship students at the Montreal General, Royal Victoria, Jewish General and Montreal Children's Hospitals. Each student functions as a clinical clerk in the respective Eye Department.

Please note electives are not offered in July and August.

5.19 Otolaryngology

Core Courses

INDS 301 INTRODUCTIN TO CLINICAL SCIENCES.

The Department of Otolaryngology is a contributor to this course, providing instruction in otolaryngological history-taking and methods of physical examination.

Electives are available for students at the four affiliated teaching hospitals.

The Department's clinics are also used extensively in the fourth year ambulatory care experience.

Graduate Courses

See the *Graduate and Postdoctoral Studies Calendar*.

5.20 Pathology

Core Courses

The teaching in Pathology is designed to provide a systematic coverage of the principal diseases or groups of diseases, including their etiology, pathogenesis, pathology and pathophysiology. This is done with a combination of lectures and small group sessions, in conjunction and integrated with the other units of the curriculum. Thus, the Department of Pathology contributes to multidisciplinary Units 7 and 8, as outlined in BOM as well as to the section, Introduction to Hospital Practice.

COURSE IN APPLIED PATHOLOGY

Weekly clinico-pathological conferences are offered in conjunction with the Medicine rotation.

Electives

The Department provides four-week electives for medical students after completion of Unit 8 of the Basis of Medicine. These are available at the Royal Victoria Hospital, Montreal General Hospital, Jewish General Hospital, St. Mary's Hospital and the Montreal Children's Hospital. Please contact Mrs. Hoffmann, Teaching Office, Duff Medical Building, (514) 398-7192 x7195.

Other Courses

The Department is well-equipped for graduate research leading to the M.Sc. and Ph.D. degrees and offers several graduate level courses. See the *Graduate and Postdoctoral Studies Calendar* and the Faculty of Science section of the *Undergraduate Programs Calendar*.

5.21 Pediatrics

Core Courses

PAED 301 PEDIATRICS - ICM. Provides the students with a data base in pediatrics in order for them to approach the clerkship with some basic understanding of pediatric problems. The course will cover aspects of growth, perinatology, morbidity-mortality in Pediatrics, nutrition, fluid balance, infections of many systems, and neurologic and psychologic development. The course will consist of didactic teaching and small group tutorials where problems related to lecture content are discussed.

PRACTICE OF MEDICINE (CLERKSHIP)

PAED 401 PEDIATRICS - CLERKSHIPS. Clerkship in Pediatrics as a member of a clinical service provides the opportunity for experience in the management of pediatric problems under supervision. The clerkship includes ward and ambulatory rotations at the Montreal Children's Hospital and newborn experience at either the Jewish General Hospital or the Royal Victoria Hospital. The clerks participate in a series of core-material conferences in addition to the regularly scheduled educational program of the hospital.

5.22 Pharmacology and Therapeutics

The program of instruction in Pharmacology and Therapeutics is designed to provide a systematic coverage of the principles of drug action for the more important groups of drugs, the factors that control and modify their effects and the basis for selection and use of drugs in the treatment of disease.

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine, Introduction to Clinical Medicine and Back to Basics.

Other Courses

The Department offers a range of different level courses on the principles of pharmacology and therapeutics with emphasis on the sites and mechanisms of action of drugs from whole body to molecular interactions. The compounds covered are representative of classes of drugs used in the treatment of human disease. These courses are available to students registered in the B.Sc. programs. The Department also offers a graduate program leading to the M.Sc., M.Sc. Applied, and Ph.D. degrees. See the *Graduate and Postdoctoral Studies Calendar* and the Faculty of Science section of the *Undergraduate Programs Calendar*.

5.23 Physiology

Core Courses

This Department contributes to the multidisciplinary curriculum components of Basis of Medicine and Back to Basics.

Other Courses

The Department offers a range of courses at introductory, intermediate and advanced levels. These are part of undergraduate Faculty, Majors and Honours programs, leading to a B.Sc. in Physiology, as well as the Major Programs in Physiology and Physics, and Physiology and Mathematics, and the Interdepartmental Honours Immunology Program. A number of graduate level courses are also offered. The Department is well equipped for graduate research leading to the M.Sc. and Ph.D. degrees, and is a participant in McGill's M.D./Ph.D. Program. See the *Graduate and Postdoctoral Studies Calendar* and the Faculty of Science section of the *Undergraduate Programs Calendar*.

5.24 Psychiatry

Core Courses

This Department contributes to all curriculum components.

UNIT 9 ITP/ITPM

The Department participates in this interdisciplinary course (INDS 161, INDS 203)

PSYT 302 PSYCHIATRY - ICM. This course will elaborate and reinforce introductory material in the field of psychiatry presented in early sections of the curriculum. In addition, it will provide students with the basic components of clinical psychiatry, preparatory to the Clerkships.

PRACTICE OF MEDICINE (CLERKSHIP)

PSYT 401 PSYCHIATRY - CLERKSHIPS. Eight-week block training to acquaint all students (Core program) with the examination of patients and understanding of some of the major factors involved in abnormal behaviour. Diagnostic procedures, psychotherapeutic and physical methods of treatment will be among the aspects covered. Students will be provided with tutors on an individual and group basis and will also have an opportunity to become conversant with certain more specialized areas of the field of psychiatry. An attempt will be made to provide a comprehensive exposure to current theoretical models and treatment approaches in psychiatry, to indicate the relevance of certain concepts and attitudes to non-psychiatric medical practice, and to supply well-supervised clinical experience which is patient-oriented and responsibility-centered.

Graduate Courses

For information regarding courses leading to the M.Sc. degree in Psychiatry, see the *Graduate and Postdoctoral Studies Calendar*.

5.25 Social Studies of Medicine

Core Courses

This Department contributes to the following courses: Basis of Medicine, Back to Basics, and Medicine and Society.

Electives

The Department offers a wide range of electives in aspects of the social sciences and humanities as they relate to medicine. For details see the Electives Catalogue.

Graduate Program

Through the Department, graduate students can obtain an M.A. in the History of Medicine, an M.A. in Medical Anthropology and an M.A. in Medical Sociology. The above degrees are acquired in programs administered jointly with the Departments of History, Anthropology, and Sociology in the Faculty of Arts. Consult the Department for further information.

5.26 Surgery

Core Courses

This Department contributes to all curriculum components.

SURG 301 SURGERY - ICM. The main objectives for this five-week rotation are to develop the history taking and physical examination skills necessary to collect information and make the diagnosis of the patient. The student also learns the pathophysiology of surgical conditions. These objectives help prepare the student for clerkship in the senior years where the issues of patient workup and management are covered. The ICM-C Surgery rotation involves being assigned to a surgical service and tutor, seeing patients in the preoperative and peroperative period and following the patient postoperatively. The student will workup two patients per week on the ward and in the ambulatory care setting and follow each patient through the entire peroperative period. Apart from doing histories and physical examinations, the student will learn how to write progress notes and prepare for case presentations. The objectives of knowledge are primarily covered in small group teaching sessions held in the hospitals. These cover a broad range of topics in the fields of surgical principles and all the subspecialties of surgery. Students are encouraged to attend services rounds, ward rounds, and participate in the operative management of their patients. Students do their rotations at the MGH, RVH, JGH and SMH.

SURG 401 SURGERY - CLERKSHIPS. In their senior years, students spend eight weeks as clinical clerks in surgery. The objectives of the surgical clerkship are the workup and management of surgical conditions. Four weeks are spent in General Surgery and, during the other half of the rotation, clerks may choose one of the following surgical disciplines: Cardiothoracic Surgery, Orthopedic, Plastic Surgery, Trauma, Urology or Vascular Surgery. As clinical clerks, the students become apart of the surgical team, attending rounds, managing patients and wards, taking calls and becoming involved in the entire management period of their patients. During the eight-week rotations, students are given small group teaching on various topics in surgery.

Participating hospitals include the MGH, MNH, RVH, SMH and JGH.

6 Staff by Department

Anatomy and Cell Biology

Strathcona Anatomy and Dentistry Building
3640 University Street, Montreal, QC, H3A 2B2
Telephone: (514) 398-6335

Chair — John J.M. Bergeron (*Robert Reford Professor of Anatomy*)

Emeritus Professors — Y. Clermont, D.G. Osmond, H. Warshawsky

Professors — A. Beaudet, G.C. Bennett, J.J.M. Bergeron, J.R. Brawer, M. Burnier, L. Hermo, C. Leblond, S. Miller, C. Morales, B. Posner

Associate Professors — P. Barker, A. Bell, O.W. Blaschuk, C. Chalk, C. Cuello, E. Daniels, S. David, J. Henderson, A. Koromilas, M.F. Lalli, P. Lasko, M.D. McKee, P. McPherson, A. Ribeiro-da-Silva, P. Seguela, S. Stifani, B. Suter, H. Vali, D. Walker, G. Wild

Assistant Professors — C. Autexier, M.T. Greenwood, T. Kennedy, N. Lamarche, W. Sossin

Adjunct Professors — D. Cyr, M. Desjardins, J. Drouin, S. Inoue, A. Nantel, M. O'Connor-McCourt, J. Ostermann, J. Schrag, P. Thibault, D.Y. Thomas

Anesthesia

Royal Victoria Hospital
687 Pine Avenue West, Montreal, QC, H3A 1A1

Professor and Chair — F. Carli (*Wesley Bourne Professor of Anesthesia*)

Professors — M. Abou-Madi, C. Bushnell (*Harold Griffith Professor of Anaesthesia*)

Associate Professors — S. Backman, F. Beique, R. Bondy, K. Brown, R.F.H. Catchlove, D. Chartrand, R. Covert, J. Desparmet, M. English, P. Fiset, M. Glavinovic, A. Gordon, D. Hickey, K. Kardash, S. Kleiman, S. Lenis, I.R. Metcalf, A. Moore, D. Payen de la Garanderie, G. Plourde, R. Robinson, A. Scott, M. Tessier, A. Vainio, W.M. Wahba, S.K. Weeks, D. Withington

Assistant Professors — C. Abdallah, I. Amir, M. Angle, A.L. Armanious, F. Asenjo, F. Barry, J. Cogan-Collet, J.F. Courval, T. Daloze, A. Deschamps, M. Diserens, E. Dupont, R. Finlayson, M. Gauthier, M. Germain, E. Goujard, C. Goyer, B. Grillas, N. Hamawy, R. Hasel, G.T. Hemmings, T. Hunter, R.C. Khairy, K. Klubien, I. Kocur, V. Kudish, J. Lavoie, M-R Losser, A. Martel, D. Mayrand, P. McMillan, B. Mistry, D. Payer de la Garanderie, B. Popovec, L. Pugsley, B. Qizilbash, D. Quance, S.H. Rafla, T. Reyes, R. Robbins, F. Salevsky, T. Schricker, T. Siddiqui, S. Sidhu, J.E. Sioufi, J. Sloan, W. Triolet, A. Truong, M. Ware

Lecturers — S. Bekhor, G. Brock, R. Carranza, M. Diserens, M. Kimia, P. McMillan, R. Roman, S. Vilderman

Associate Members — M. Boulanger, F. Donati, K. Krnjevic, B. Ligier, R. Melzack, N. Searle, P. Solomon, F. Varin

Post-Retirement — P. Bromage, G.S. Fox, J. Rosaes

Anaesthesia Research

3655 Promenade Sir-William-Osler, Room 1203
Montreal, QC, H3G 1Y6

Professor and Director — M.C. Bushnell (*Harold Griffith Professor of Anaesthesia*)

Associate Professors — G. Bennett, T. Coderre

Artificial Cells and Organs Research Centre

3655 Promenade Sir-William-Osler, Room 1005
Montreal, QC, H3G 1Y6

Professor and Director — T.M.S. Chang

Professors — C.J. Chiu, H.L. Goldsmith, T. Hutchinson, S. Lal, M. Levy, N.P.V. Nair, A.D. Sniderman

Associate Professors — P.E. Barre, R.F. Gagnon

Assistant Professors — P.A. Bourgoquin, G.R. Brown, R. Cacere, S. Prakash, D. Shum-Tim

Biochemistry

3655 Promenade Sir-William-Osler, Room 802
Montreal, QC, H3G 1Y6

Professor and Chair — D.Y. Thomas

Emeritus Professors — A.F. Graham, R.M. Johnstone, S. Solomon, T.L. Sourkes

Professors — N. Beauchemin, R. Blostein, P.E. Branton (*Gilman Cheney Professor of Biochemistry*), P.E. Braun, V. Giguère, P. Gros, A.A. Herscovics, R.E. MacKenzie, E.A. Meighen, W.E. Mushynski, M. Park, G.C. Shore, J. Shuster, J.R. Silvius, N. Sonenberg, C.P. Stanners, M.L. Tremblay, M. Zannis-Hadjopoulos

Associate Professors — A. Berghuis, K. Gehring, A. Nepveu, J. Pelletier

Assistant Professor — I. Gallouzi

Associate Members — J.J. Bergeron, K. Cianflone, L.F. Congote, R. Dunn, M. Featherstone, W.C. Galley, M. Hallett, M.A. Parniak, P.J. Roughley, E. Schurr, C. Scriver, B. Turcotte, S. Wing, X-J. Yang

Adjunct Professors — P. Arya, M. Cordingley, M. Cygler, J. Drouin, F. Ni, D. Nicholson, M. O'Connor-McCourt, A. Pause, E. Purisima, S. Roy, A. C. Storer, M. Therrien, A. Veillette, A. Vrieling, L.A. Wall

Biomedical Engineering

3775 University Street, Room 316
Montreal, QC, H3A 2B4

Professor and Chair — R.E. Kearney

Professors — T.M.S. Chang, A.C. Evans, H.L. Galiana
Associate Professors — J.D. Boby, W.R.J. Funnell, G.B. Pike

Assistant Professor — L. Collins, S. Prakash, M. Tabrizian

Adjunct Professors — J.H.T. Bates, W. Decraemer, I.W. Hunter, T.M. Peters, P.L. Weiss

Associate Members — S. De Serres, J. Gotman, B.N. Segal, T. Steffen, C. Thompson

Research Associates — C. Baker, D. Guitton, A. Katsarkas

Communication Sciences and Disorders, School of

1266 Pine Avenue West, Beatty Hall
Montreal, QC, H3A 1A8

Associate Professor and Director — R. Mayberry

Emeritus Professor — D. Doehring

Professors — S. Baum, A. Karsarkas

Associate Professors — M. Crago, V. Gracco, L. Polka

Assistant Professors — M. Pell (*Research Director*), E. Thordardottir

Assistant Professors (Part-time) — G. Leonard, S. Schwartz, R. Shenker

Faculty Lecturer — J. Claessen

Lecturers — J. Deziel, D. Ducharme, C. Erods, R. Gesser,

J. Harrison, E. Kehayaia, H. Kisilevshy, A. Le Turdu, J. Robillard-Schultz, M. Sundara, C. Timm, P. Tsagarulis, P. Viens

Adjunct/Associate Members — H. Chertkow, E. Kehayaia, D. McFarland, Y. Oshima-Takane

Diagnostic Radiology

Montreal General Hospital
1650 Cedar Avenue, Room D5-137
Montreal, QC, H3G 1A4

Professor and Chair — R. Lisbona

Professors — A. Azouz, R. Lisbona, M.J. Palayew, L. Rosenthal

Associate Professors — G. Dean, R. del Carpio-O'Donovan, V. Derbekyan, S. Fontaine, J.H. Gagnon, M.J. Herba, P. Lander, A. Lisbona, D. Melançon, A. O'Gorman, C. Reinhold, R. Satin, V. Sayegh, L.A. Stein, D. Tampieri, R. Williams

Assistant Professors — A. Aldis, G. Artho, A. Assaf, G. Belley, C. Bloom, F.M. Boston, J. Cassoff, J. Casullo, J. Chankowsky, M-L. Doyon, M. Desaulniers, H. Guilbeault, R.E. Hanson, R. Hidgevgi, J. Hodge, B.B. Hyams, E. Kao, C. Karamitsos, G. Kintzen, J. Kosiuk, M. Levental, B. Mesuroille,

J. Nauwelaers, J. Novales-Diaz, R. Paspulati, C. Pham, M. Pinsky, M. Reid, H. Remy, M.B. Rosenbloom, A. Roy, C. Rush, J. Stern, C. Torres, D. Valenti, A. Veksler
Adjunct Professors — M. Atri, P. Bourgooin, P. Bret, G. Breton, M. Fraser-Hill, N. Just, J.L. Vezina, G. Whiteman
Lecturers — V. Adrenyi, J. Gray, R. Kimoff, M. Mindel, M.S. Nathens, E. Yeghiayan
Associate Members — A. Evans, M. Cohen, B. Pike, E. Podgorsak

Epidemiology and Biostatistics

1020 Pine Avenue West
 Montreal, QC, H3A 1A2

Professor and Chair — T.B.A.

Emeritus Professors — M.R. Becklake, F.D.K. Liddell, J.C. McDonald, W.O. Spitzer

Professors — L. Abenheim, R. Battista, J.F. Boivin, E. Franco, J.A. Hanley, T. Hutchinson, M.S. Kramer, A. Lippman, J. McCusker, A.D. McDonald, O.S. Miettinen, I.B. Pless, S.H. Shapiro, S. Suissa, G. Theriault, S. Wood-Dauphinee

Associate Professors — M. Abrahamowicz, E. Beck, Y. Bergevin, A. Ciampi, J.P. Collet, G. Dougherty, P. Ernst, T. Gyorkos, C. Hankins, L. Joseph, C.P. Larson, J.D. MacLean, R. Menzies, J. O'Loughlin, G. Paradis, G.S. Pekeles, J. Pickering, M. Rossignol, N. Steinmetz, R. Tamblyn, P. Tousignant, C. Wolfson

Assistant Professors — A. Adrien, P. Barss, J. Bourbeau, F. Brassard, J. Carsley, N. Dendukuri, C. Greenwood, T. Kosatsky, R. Platt, E. Rahme, Y. Robitaille, K. Schwartzman, G. Tan, T. Tannenbaum

Adjunct Professors — R. Allard, M. Baltzan, C. Hankins, M. Hodge, M. Jenicek, N. Kishuck, J. Le Lorier, R. Lessard, R. Masse, Y. Moride, R. Remis, E. Robinson, E. Roy, J. Siemiatycki

Associate Members — A. Barkun, M. Behr, P. Dobkin, F. Ducharme, M. Eisenberg, J. Feine, K. Flegel, P. Fortin, N. Frasure-Smith, G. Galbaud du Fort, M. Goldberg, K. Gray-Donald, S. Grover, R. Guibert, S. Kahn, E. Latimer, N. Mayo, L. Pilote, J. Sampalis

Family Medicine

517 Pine Avenue West
 Montreal, QC, H2W 1S4

Chair — T.B.A.

Professors — R. Battista, H. Bergman, L. Nasmith

Associate Professors — M. Affilalo, R. Becker, E. Bereza, Y. Bergevin, L. Berkson, M. Boillat, J. Carsley, M. Dworkind, P. Forbes, S. Glaser, V. Jimenez, J. Levitan, A. Macaulay, M. Malus, J. McClaran, V. K. Nguyen, A. Pavilanis, R. Pincott, I. Rohen, E. Rosenberg, Y. Steinert, T. Tannenbaum, P. Tellier, A. Towers, M. Yaffe

Assistant Professors — A. Adrien, D. Amdursky, W. Barakett, E. Belanger, I. Benjamin, E. Bereza, C. Berger, M. Berner, S. Bisailon, D. Blouin, A. Blanchette, S. Bouchard, P. Boucher, S. Boulet, P. Bourassa, A. Bourkas, G. Brock, G. Brousseau, B. Brown, H. Bureau, I. Burstein, I. Campbell, S. Cape, M. Chateauvert, L. Charette, J. Chirgwin, M. Comeau, H. Coopersmith, B. Cote, J. Cox, P. Cruvellier, C. Czuboka, D. Dalton, R. Dancose, J. Dankoff, J. de Serres, M. Doyle, M. Dowdall, E. Duarte-Franco, P. Duffy, V. Einagel Jr., J. Farley-Deschamps, P. Feldman, C. Ferrier, D. Finestone, R. Friedman, B. Fuchsman, A. Fuoco, J. Gaiptman, G.P. Gagne, H. Goldstein, B. Gordon, W. Grad, L. Graves, G. Gupta, J. Gutman, A. Guttman, L. Haiek, M. Hammond, B. Hayton, J. Hughes, M. Hughes, M. Isler, F. Jasserand, S. Jones, G. Julien, R. Khullar, J. Kirk, D. Kohn, E. Kravittz, I. Kupferszmidt, V. Lacroix, L. Lam, E. Lang, M. Lefson, B. Lemieux, S. Levitz, E. Lorber, R. Lubarsky, R. Ludman, G. Luskey, P. Lysy, A. Macek, K. MacLellan, R. Mahood, S. Martin, C. Mavriplis, B. Mayman, D. McAuley, L. McLaughlin, D. McPherson, S. Menard, G. Michaels, T. Minde, B. Monahan, M. Moss, V. Myles, R. Nappert, N. Nazerali, S. Nitkin, C. Ogilvy, C. Paraskevopoulos,

M. Perrone, R. Perrotta, L. Poulin de Courval, R. Primavesi, M. Rappaport, I. Rohan, M. Roper, O. Rosengren, S. Rosenthal, A. Rothman, J. Rowe, J. Rowen, H. Rubenstein, B. Russillo, N. Sabin, B. Schiff, G. Schlosser, J. Schwartz, I. Shrier, B. Slapcoff, J. Snodgrass, R. Sorge, D. Sproule, J. Stasiak, D. Steg, E. Stern, S. Still, H. Stuart, J. Szabo, M. Tetreault, E. Tremblay, B. Unger, L. Vanasse, T. Vantor, H. Vasilikaki-Baker, P. Wasser, R. Weinman, A. Whiteman, I. Wilchesky, S. Windholz, J. Wootton

Lecturers — A. Aalamian, H. Abrahams, F.K. Aiken, L. Alladin, D. Alper, R. Ayallon-Galvan, L. Babin, N. Baird, S. Ballou, J. Blackler, V. Blonde, K.E. Boisvert, S. Bouchard, J. Boucher, M. Harris, C. Haskins, S. Heisler, O. Hermon, E. Hew, R. Hunt, M. Isler, C. Jarvis, B. Johnson, M. Katz, J. Klvana, I. Kovitch, A. Krull, S. Kushner, L. Lacroix, L.P. Lacroix, J.D. Lalla, M. Lamarche, P. Lam Po Tang, H. Laperriere, C.E. Lavoie, K. Lawlor, C. Leclerc, S. Leclerc, B. Leduc, G. Lee, L. Lessard, A. Levi, N. Liesegang, P. Lipes, M. Lisanu, R. Mah, T. Mele, B. Mortezeai, J. Nayar, M. Odell, T. O'Neill, A. Oommen, M. Persson, E. Potvin, D. Pouteau, G. Prévost, I. Rodier, M. Rona, M. Roper, L. Rooke, S. Rousson, G. Roy, P. Saba, G. Satenstein, J. Smith, M. Solomon, G. Steel, P. Steinmetz, M. K. Tafler, G. Tessier, W. Thai, L. Thyer, E. Tremblay, N. Trister, J. M. Trocquet, Y. Trottier, C. Vaillancourt, G. Van Gorp, P. Varvarikos, A. Verneec, P. Vetere, T.H.Y. Vo, I. Wyszogrodski, J. Yaremko
Adjunct Professors — M. Clarfield, M.W.L. Davis, W. Davis, N. Haley, M. Klein

Human Genetics

1205 Dr. Penfield Avenue, Room N5/13
 Montreal, QC, H3A 1B1

Chair — D.S. Rosenblatt

Emeritus Professors — F.C. Fraser, L. Pinsky, C.R. Scriver
Professors — E. Andermann, V. Der Kaloustian, A. Duncan, K. Morgan, R. Palmour, D.S. Rosenblatt, G. Rouleau, R. Rozen, E. Shoubridge, H.S. Tenenhouse

Associate Professors — W. Foulkes, K. Glass, F. Kaplan, D. Malo, D. Radzioch, R. St-Arnaud, P. Tonin, J. Trasler
Assistant Professors — M. Fujiwara, G. Turecki

Lecturers — K. Australia, N. Bolduc, L. Cartier, J. Fitzpatrick, D. Lambert, N. Wong

Associate Members — A. Ao, D. Cournoyer, M. DuBow, E. Elstein, J. Genest, B. Gilfix, F. Glorieux, P. Goodyer, I. Gupta, G. Hendy, A. Karaplis, R. Koenekoop, A. Lippman, A. Naumova, A. Peterson, C. Polychronakas, P. Roughley, A. Ryan, M. Shevell, E. Shields, E. Skamene, M. Trifiro, G. Turecki

McGill Cancer Centre

3655 Promenade Sir-William-Osler, Room 701
 Montreal, QC, H3G 1Y6

Full Members:

Professor and Director — C.P. Stanners
Professors — A. Fuks, P. Gros, A. Herscovics, G.B. Price, N. Sonenberg, M. Zannis-Hadjopoulos
Associate Professors — N. Beauchemin, M. Featherstone, J. Pelletier, A. Veillette

Associate Members:

Professors — G. Batist, L. Panasci, M. Pollak, G. Shore, I. Wainer

Associate Professors — P. Brodt, D. Cournoyer, V. Giguere, P. Laneuville, G. Matlashewski, A. Nepveu, M. Park, A. Peterson, U. Saragovi, M. Tremblay
Adjunct Professor — E. Bradley

McGill Nutrition and Food Science Centre

Royal Victoria Hospital
 687 Pine Avenue West, Montreal, QC, H3A 1A1

Professor and Director — E.B. Marliiss (*Garfield Weston Professor of Nutrition*)
Professor — J.F. Yale

Associate Professor and Associate Director — L. Phillip

Assistant Professors — R. Gougeon, J. Morais

Associate Members — R. Barr, G. Batist, L. Beaumier, D. Blank, F. Carli, L. Chan, E.R. Chavez-Garcia, K. Cianflone, M. Cosio, G. Egeland, W. Engels, J. Falutz, R. Gagnon, K. Gray-Donald, W. Gregory, A. Huang, H.V. Kuhnlein, L. Lands, R. Mackenzie, O. Mamer, H. Ng Kwai Hang, M. Scott, T. Schricker, H. Shizgal, J. Smith, A. Sniderman, L. Thibault, S.P. Touchburn, F.R. van de Voort, S. Wing, L. Wyke, S. Young, X. Zhao, H. Zingg

Medical Physics Unit

Montreal General Hospital
 Room L5-107, Livingston Hall
 1650 Cedar Avenue
 Montreal, QC, H3G 1A4

Director and Professor — E.B. Podgorsak

Professors — S.M. Lehnert, C.J. Thompson

Associate Professors — G.W. Dean, G.B. Pike, J.P.F. Seuntjens

Assistant Professors — M.D.C. Evans, M. Olivares

Associate Members — R.B. Richardson

Lecturers — R.A. Corns, G. Durante, T. Falco, G. Hegyi, C. Janicki, P. Léger, W.A. Parker, H.J. Patrocinio, N. Sharoubim, W. Wierzbicki

Medicine

Office of the Chair:
 Royal Victoria Hospital
 687 Pine Avenue, Room A3.09, Montreal, QC, H3A 1A1

Professor and Chair — D. Goltzman (*Antoine G. Massabki Professor of Medicine*)

Emeritus Professors — M. Becklake, S. Freedman, R.D. Guttman, M. McGregor, B. Murphy, B.E. Murphy, L. Pinsky, C.K. Osterland, J.A.P. Paré, S. Solomon

Professors — A.J. Aguayo, E. Alpert, G. Batist, R. Battista, N. Beauchemin, H. Bennett, H. Bergman, R. Blostein, C.W. Bourque, G.M. Bray, J.H. Burgess, S. Carbonetto, T.M.S. Chang, M. Cosio, A. Cybulsky, W.D. Dauphinee, R. Dunn, P. Ernst, K. Flegel, A. Fuks, J. Genest, V. Giguere, N. Gilmore, P. Gold (*Douglas G. Cameron Professor of Medicine*), H. Goldsmith, D. Goltzman, A. Grassino, S. Grover, M. Hadjopoulos, G. Hamid, J. Hanley, G. Hendy, A. Herscovics, J. Hiscott, J. Hoffer, T. Hutchinson, J.P. Julien, N. Kalant, J. Kessler, L. Kleiman, S. Lehnert, M. Levy, M. Ludwig, N. Macdonald, P.T. Macklem, J.D. MacLean, S. Magder, O.A. Mamer, E. Marliiss (*Garfield Weston Professor of Nutrition*), J. Martin, P.J. McLeod, H. Ménard, J. Mendelson, J. Milic-Emili, W. Miller, K. Morgan, L.A. Moroz, B. Mount, S. Mulay, W. Muller, T. Owens, L. Panasci, V. Patel, Y. Patel, J. Poirier, M. Pollak, P. Ponka, B. Posner, W.S. Powell, G.B. Price, S. Prichard, M. Rasminsky, H.G. Robson, L. Rosenberg, D. Rosenblatt, G. Rouleau, M. Sami, A. Schiffrin, H. Scott, J. Shuster, E. Silva, E. Skamene, A. Sniderman, C. Srikant, M.M. Stevenson, S. Suissa, A. Tenenhouse, M. Thirwell, D.M.P. Thomson, C. Tsoukas, M. Wainberg, E. Wang, V.M. Whitehead, R.D. Wilkinson, S. Wood-Dauphinee, J-F. Yale, H. Zingg

Associate Professors — L. Abenheim, M.A. Alaoui-Jamali, H. Aleyassine, D. Baran, A. Barkun, M. Baron, P. Barre, C.H. Bastomsky, J.A. Bateman, R. Becker, S. Benaroya, D. Bercovitch, L. Berkson, R. Billick, D. Blank, W. Bloom, D. Boudreau, Y.L. Boulanger, D.J. Briedis, J. Brophy, M. Cantarovich, S. Caplan, P. Cernacek, H. Chertkow,

Adjunct Professors — A.-F. Aubry, M. Baltzan, J. Bates, M. Baumgarten, F. Beland, K. Brown, A. Brox, R. Butterworth, N. Buu, J. Caro, P. Cernacek, M. Chretien, A. Clarfield, S. Clarke, M. Cohen, C. Constance, J.C. Crawhall, S. Daly, D. Danoff, J. Davignon, C. Deal, J. Drouin, J.M. Esdaile, P. Fortin, R. Garcia, D. Gayton, A. Gelston, M. Gertler, F. Gervais, B. Gibbs, H. Gourdeau, J. Gutkowska, P. Hainet, V. Hamilton, T. Hoang, P. Hugo, T.-H. Huynh, P. Jolicoeur, P. Kelly, S. Kelly, M. Klein, O. Kuchel, C. Lazure, S. Lemieux, D. Lohnes, S. Mader, K. Maghni, L. Mallett, J.P. Michel, S. Murtha, M. Nemer, F. Paccaud, R. Patel, H. Pavel, M. Raymond, T. Reudelhuber, C. Roussos, M. Sairam, M. Salvi, V. Sandor, G. Sauvageau, N. Seidah, R.-P. Sekaly, S.H. Shen, Y. Skrobik, D. Skup, M. Talajic, M. Trudel, J. Vacher, R. Waddell, G. Waters, T. Woolf, L. Zamir

Microbiology and Immunology

3775 University Street, Room 511
Montreal, QC, H3A 2B4

Chair — G.J. Matlashewski

Emeritus Professor — E.C.S. Chan

Professors — N.H. Acheson, Z. Ali-Khan, M.G. Baines, J.W. Coulton, M.S. DuBow, J. Hiscott, J. Mendelson, R.A. Murgita, T. Owens, M.A. Wainberg

Associate Professors — A. Berghuis, D.J. Briedis, G.J. Matlashewski

Assistant Professors — B. Cousineau, S. Fournier, A. Gatignol, H. Le Moual, G.T. Marczynski, A. Moulard

Associate Members — J. Antel, A. Bar-Or, M. Behr, N.V. Christou, C. Couture, A. Dascal, G. Faubert, M. Gotte, S. Hussain, A. Jardim, L. Kleiman, A.E. Koromilas, V. Loo, J.D. MacLean, J. Mendelson, M.A. Miller, M. Newkirk, R.G.E. Palfree, K. Pantopoulos, A.R. Poole, G. Prud'homme, J.E. Rauch, P. Ribeiro, S. Richard, B. Turcotte, B.J. Ward

Adjunct Professors — V. Dave, A. Descoteaux, P. Hugo, G. Kukolj, P. Lau, C. Rioux, R.-P. Sekaly

Neurology and Neurosurgery

3801 University Street
Montreal, QC, H3A 2B4

Professor and Chair — R.J. Riopelle

Emeritus Professors — D.W. Baxter, G. Bertrand, P. Gloor, J.P. Robb

Professors — A. Aguayo, E. Andermann, F. Andermann, J. Antel, D. Arnold, M. Avoli, A. Beaudet, C. Bourque, G. Bray, S. Carbonetto, D. Coleman, R. Del Maestro, M. Diksic, P. Drapeau, R.J. Dunn, H. Durham, A. Evans, W. Feindel, S. Gauthier (*Carex Professor of Studies in Aging*), J. Gotman, D. Guittou, E. Hamel, I. Heller, P.C. Holland, B. Jones, M. Jones-Gotman, J.P. Julien, D. Kaplan, G. Karpati (*Killam Professor of Neurology and Neurosurgery*), D. Lawrence, R. Leblanc, F. Miller, B. Milner, G. Mohr, A. Olivier (*William Cone Professor of Neurosurgery*), T. Owens, B. Pappius, Y. Patel, M. Petrides, M. Rasminsky, J. Richardson, G. Rouleau, A. Sherwin, E. Shoubridge, J. Stewart, J.G. Stratford, G. Tannenbaum, C. Thompson, G. Watters, R. Zatorre

Associate Professors — A. Alonso, M. Aubé, P. Barker, S. Bekhor, J. Blundell, J. Carlton, C. Chalk, H. Chertkow, R. Côté, S. David, R. Del Carpio, F. Dubeau, J.P. Farmer, K. Hastings, Y. Lapierre, A. Leblanc, I. Libman, P. McPherson, D. Melançon, C. Melmed, J. Montes, J. Nalbantoglu, A. O'Gorman, A. Peterson, B. Pike, A. Ptito, L.F. Quesney, B. Rosenblatt, A. Sadikot, G. Savard, H. Schipper, R. Schondorf, P. Seguela, M. Shevell, W. Sossin, S. Stifani, D. Tampieri, J. Teitelbaum, J. Woods

Assistant Professors — M. Angle, A. Bar-Or, A. Bernasconi, M. Castro-Alamancos, L. Collins, A. Dagher, M.E. Dilenge, L. Durcan, M. Ferns, E. Fon, D. Gendron, A. Genge, W. Gorczyca, B. Goulet, G. Grodzinski, R. Gunn, L. Jacques, K. Johnston, T. Kennedy, D. Klein, A.L. Lafontaine, M. Lechter, T.G. Leonard, M. Maleki, E. Meyer, J. Minuk, M.S. Mzengeza, M. Panisset, H. Paudel, T. Paus, C. Poulin, D. Ragsdale, Y. Rao, J.-P. Roy, J. Rubin, F. Salevsky, D. Sinclair, C. Sirard, D. Sirhan, V. Sziklas, D. Trojan, M. Veilleux, L. Vieira, F. Wien, T. Wein, Y. Young

Lecturers — S. Chouinard, D. Diorio, S. Kalra, T. Stroh, W. Vanast

Associate Members — C. Baker, S. Beaulieu, C. Benkelfat, P. Blier, D. Boivin, P. Boksa, P. Braun, C. Bushnell, D. Chartrand, B. Collier, G. Debonnel, B. Debruille, C. deMontigny, R. Dykes, J.P.A. Gratton, Y. Grodzinsky, R. Hess, R. Joober, S. Kar, F. Kingdom, P. Lachapelle, G. Luheshi, S. Lupien, A. Majnemer, M. Meaney, K. Mullen, B. Petrof, J. Poirier, R. Quirion, J. Rochford, L. Srivastana, G. Turecki, C.D. Walker, S. Williams, C. Wolfson, K. Worsley, S. Young

Adjunct Professors — Z. Argov, S. Berkovic, F. Cendes, N. De Stefano, J. Doyon, G. Duncan, A. Gjedde, J. Hardy, C. Holmes, P. Matthews, L. McKerracher, M. Molnar, M. Pandolfo, T. Peters, M. Ptito, Y. Robitaille

Montreal Neurological Institute

3801 University Street
Montreal, QC, H3A 2B4

Professor and Acting Director — D. Coleman

Neurologist-in-Chief — J. Stewart

Neurosurgeon-in-Chief — A. Olivier

Montreal General Hospital

1650 Cedar Avenue
Montreal, QC, H3G 1A4

Neurologist-in-Chief — G.M. Bray

Neurotrauma-in-Chief — K. Johnston

Centre for Research in Neuroscience

1650 Cedar Avenue
Montreal, QC, H3G 1A4

Professor and Director — P. Drapeau

Montreal Children's Hospital

2300 Tupper Street
Montreal, QC, H3H 1P3

Neurologist-in-Chief — B. Rosenblatt
Neurosurgeon-in-Chief — J. Montes

Jewish General Hospital

3755 Côte St-Catherine
Montreal, QC, H3T 1E2

Neurologist-in-Chief — C. Melmed
Neurosurgeon-in-Chief — G. Mohr

Obstetrics and Gynecology

Royal Victoria Hospital
687 Pine Avenue West, Montreal, QC, H3A 1A1

Professor and Chair — S.L. Tan (*James Edmund Dodds Professor of Obstetrics and Gynecology*)

Emeritus Professor — G.B. Maughan

Professors — J. Brawer, A. Ferenczy, C. Gagnon, M.M. Gelfand, R. Kinch, B.P. Murphy, A. Papageorgiou, B. Robaire, B. Sherwin, T. Tulandi, R. Usher, H. Zingg

Associate Professors — J. Arseneau, K. Barrington, A. Benjamin, M.E. Boyd, M.F. Chen, H. Clarke, E.B. de Koos, P. Desjardins, R. Farag, R. Farookhi, D. Faucher, P. Fournier, L. Gilbert, P. Gillett, E. Hamilton, R. Hemmings, A.K. Joshi, S. Khalife, S. Krishnamurthy, M. Martin, D. Morris, V.M. Senikas, R. Shatz, G. Spurl, G. Stanimir, S. Weeks, D.M. Willis

Assistant Professors — A. Ao, A. Asswad, M. Biljan, J. Bray, N. Brassard, W. Buckett, N.L. Cassar, R.C. Chian, D. Cohen, J.R. de St-Victor, V. Desilets, D. Dufort, G.P. Gagné, S. Gold, W. Goldsmith, D. Gregory, H.S. Hum, D.A. Johansson, R.D. Koby, M.F. Lachapelle, J. Lefebvre, B. Lemieux, G. Luskey, L. Marcon, H. McNamara, S. Meltzer, L. Miner, A. Mok, L. Morin, M. Nagano, A. Naumova, R. Pilorgé, E. Quiros, M. Sabin, S. Shams, J. Shine, J. Solomon, C. Sylvestre, M. Welt, D. Wiener, C. Ziegler

Lecturers — B. Bodmer, S. Bodnar, A. Climan, S. Drouin, C. Fortin, R. Frydman, I. Girard, M. Guralnick, G. Mallough, N. Mansour, K. Maraghi, L. Monton, A. Philip, L. Seropian, J. Shinder

Adjunct Professors — R. Gosden, A.B. Lalonde

Associate Members — F. Baltzer, B. Presser

Research Associate — R. Funnell

Occupational Health

Charles Meredith House
1130 Pine Avenue West, Montreal, QC H3A 1A3

Chair — R. Ruhner

Emeritus Professor — J.C. McDonald

Professors — J.P. Farant, C. Infante-Rivard, G. Theriault

Associate Professors — A. Dufresne, P. Héroux, T. Kosatsky, M. Rossignol

Assistant Professors — S. Martin, L. Patry

Lecturers — G. Desbiens, P. Dubé, J.P. Gauvin, M. Joncas

Associate Members — M.R. Becklake, J.F. Boivin, P. Ernst, F. Liddell, A.D. McDonald (*Epidemiology and Biostatistics*); B. Case (*R.V.H.-Pathology*)

Adjunct Professors — D. Amre (*Hôpital Ste-Justine*), I. Arnold (*Alcan*); S. Arnold (*McGill*); P. Auger, M. Baillargeon (*Montreal Chest Hospital*); L. DeGuire, L. Drouin, M. Goldberg, P. Robillard, S. Stock (*Direction de la Santé Publique*); A. Dembe (*U. of Massachusetts*); D. Gauthrin (*Hôpital Sacré-Coeur*); C. Martin (*U. of West Virginia*); B. Pant (*Concordia*); G. Perrault (*IRSST*); J. Siemiatycki (*Institut Armand Frappier*); C. Tremblay (*Santé Publique-Montérégie*); M. Vézina (*Centre de santé publique de Québec*); W. Wood (*Environmental Safety*)

Oncology

546 Pine Avenue
Montreal, QC, H2W 1S6

Professor and Chair — G. Batist

Professors — G. Batist, N. Beauchemin, P. Branton, C. Compton, R. Del Maestro, M. Elhilali, E. Franco, C. Freeman (*Michael Rosenbloom Professor of Radiation Oncology*), V. Giguère, P. Gold, P.H. Gordon, M. Hadjopoulos, A. Herscovics, S. Lehnert, B. Leyland-Jones (*Minda de Gunzburg Professor*), N. MacDonald, R. Margolese (*Herbert Black Professor of Surgical Oncology*), W. Miller, B. Mount (*Eric M. Flanders Professor of Palliative Medicine*), L. Panasci, M. Park, E. Podgorsak, M. Pollak (*Alexander Goldfrab Professor*), G. Price, H. Shibata, L. Souhami, C. Stanners, M. Thirlwell, M. Tremblay, M. Wexler

Associate Professors — M. Black, S. Caplan, D. Cournoyer, M. Featherstone, L. Gilbert, I. Hings, V. Hirsh, J. Hiscott, L. Hutchinson, M. Katz, P. Kavan (*Jack Cole Professor of Pediatric Oncology/Hematology*), H. Kreisman, P. Laneville, B. Lapointe, S. Legault, S. Liben, A. Loutfi, M. Martin, C. Milne, A. Nepveu, J. Pelletier, A. Peterson, J. Prchal, R. Rajan, S. Richard, A. Rosenberg, J.P. Seuntjens, G. Shenouda, C. Shustik, G. Spurl, G. Stanimir, S. Tanguay, A. Towers, T. Vuong, N. Wilson

Assistant Professors — S. Abish, P. Ahlgren, D. Anderson, J.-P. Ayoub, B. Bahoric, G. Blake, P. Boston, L. Chevalier, R. Dalfen, A. Derossis, M. Duclos, L. Edgar, M. Evans, J. Farley, W. Foulkes, B. Gagnon, J. Galipeau, W. Hammouda, M. Hier, A. Koromilas, C. Lambert, H. Laryea, C. Legler, S. Meterissian, F. Patenaude, Z. Rosberger, S. Sadekova, S. Solymoss, B. Stein, D. Stern, K. Sultanem, R. Tabah, C.-A. Vasilevsky

Associate Members — M. Aebi, M. Alaoui-Jamali, L. Alpert, M. Andijar, A. Aprikian, J. Arseneau, G. Catzavelos, S. Chevalier, J. Feine, M. Goldberg, D. Goltzman, P. Gross, B. Jean-Claude, C. Loiselle, G.J. Matlashewski, R. Michel, J.L. Montes, J.E. Morin, D. Mulder, S. Rabbani, U. Saragovi, D. Thomson, P. Tonin, M. Trudel, A.K. Watters

Adjunct Professors — F. Ashbury, J. Ayoub, E. Bradley, A. Brox, M. Chelfi, T. Chow, F. Coutless, P. Ghardiraina, R. Lalonde, M. Liuzzi, L. Portelance, T. Rohan, P. Rousseau, V. Sandor, J. Viallet, I. Wainer, P. Wong

Ophthalmology

Royal Victoria Hospital
687 Pine Avenue West, Room H7.53, Montreal, QC, H3A 1A1

Professor and Chair — Miguel N. Burnier Jr.

Professors — J. Deschenes, R.F. Hess, P. Lachapelle, Sean B. Murphy

Associate Professors — B. Arthurs, M. Baines, C. Baker, D. Boyaner, J. Chen, F. Codère, W.E.S. Connolly, M. Flanders, M. Gans, J.E.S. Gomolin, C. Kavalec, O. Kasner, F. Kingdom, S. Lindley, J.M. Little, K. Mullen, O. Overbury, R. Polomeno, J. Rosen, N.E. Saheb, L. Solomon

Assistant Professors — D. Albert, P. Archambault, R. Beneish, J.-P. Chartrand, D. Cheema, D. Chow, S. Cohen, M. Diecepola, C. Edelstein, S. Fichman, M. Gordon, M. Kapusta, C. Kavelec, M. Quigley K.E. Schirmer, B. Silver, R. Superstein, J.B. Waldron, F. Wein, J. Wise

Lecturers — A. Coffey, E. Edelstein, S. Friedman, M. Gosselin, B. Kattleman, D. Kraus, H. Mihalovits, K. Nasr, L. Robidas, D. Silver, C.R. Staudenmaier, E.D. Svarc, N. Tucker

Otolaryngology

Montreal Children's Hospital
2300 Tupper Street, Montreal, QC, H3H 1P3

Professor and Chair — M.D. Schloss

Emeritus Professor — J.D. Baxter

Professors — S. Frenkiel, A. Katsarkas, T.L. Tewfik

Associate Professors — M.J. Black, N. Fanous, H. Galiana, J. Manoukian, M. Mendelsohn, W.H. Novick, B. Segal, R.S. Shapiro, G. Shenouda

Assistant Professors — F. Chagnon, I. Fried, M. Hier, K. Kost, R. Lafleur, L. Lessard, J. Rappaport, H. Remy, N. Sadeghi, L. Rochon, G. Sejean, R. Sweet, L. Tarantino, A. Zeitouni

Lecturers — A. Finesilver, J. Rothstein

Adjunct Professors — M. Desrosiers, J.J. Dufour

Pathology

3775 University Street
Montreal, QC, H3A 2B4

Professor and Chair — C. Compton (*Strathcona Professor of Pathology*)

Professors — M.N. Burnier, A.M.V. Duncan, A. Ferenczy, R. Fraser, A. Fuks, D. Haegert, Q. Hamid, J.R. Jass, R.P. Michel, G. Prud'homme, J.B. Richardson (*Miranda Fraser Professor of Comparative Pathology*)

Associate Professors — L. Alpert, J. Arseneau, M. Auger, M.L. Brisson, B. Case, C. Catzavelos, M.F. Chen, J. Deschênes, L.B. Eidus, A. Giaid, R.H. Latt, L. Oliva, R. Onerheim, L. Rochon, S. Tange, M. Trudel, J. Vilorio, K. Watters, E. Zorychta

Assistant Professors — S. Albrecht, C. Bernard, C. Catzavelos, P. Chauvin, J. Emond, M.C. Guiot, F. Halwani, E. Lamoureux, E. MacNamara, A.T. Marcus, V.A. Marcus, J. Massé, A. Mehio, A. Nahal, V-H. Nguyen, A. Péloquin, D. Pilavdzic, I. Roy, H. Srolowitz, J. St. Cyr

Lecturers — B. Issa-Chergui, K. Sircar, N. Zaklama

Post-retirement — J.O. Lough, G. Tremblay

Adjunct Professors — T. Seemayer, P.D. Winocour

Pediatrics

Montreal Children's Hospital
2300 Tupper Street, Montreal, QC, H3H 1P3

Professor and Chair — H.J. Guyda (*James Edmund Dodds Professor of Pediatrics*)

Emeritus Professors — E. Colle, F.C. Fraser, J.R. Hamilton, C. Scriver

Professors — F. Anderman, R. Barr, R. Brouillette, V. Derkaloustian, K.N. Drummond, C. Freeman, F. Glorieux, P. Goodyer, L. Hechtman, M. Kramer, K. Minde, I. Moss, A. Papageorgiou, I.B. Pless, C. Polychronakos, D. Rosenblatt, R. Rozen, A. Schiffrin, J. Shuster, G. Tannenbaum, H. Tenenhouse, R. Usher, M. Wainberg, G. Watters, M. Whitehead (*Jack Cole Professor of Pediatric Oncology/Haematology*)

Associate Professors — C. Bardin, K. Barrington, M.-J. Béland, M. Bruck, A. Chan-Yip, A. Côté, G.M. Davis, R. Debelle, G. Dougherty, F. Ducharme, C. Duffy, D. Faucher, P. Forbes, Z. Fox, E. Francoeur, K. Glass, H. Goldman, C. Goodyer, R. Gottesman, R. Haber, R.A. Hutcheon, F. Kaplan, G. Karpati, P. Kavan, L. Lands, C. Larson, S. Liben, W. MacDonald, A.M. MacLellan, B. Mazer, J. McDonald, D. McGillivray, D. Moore, B. Moroz, A. O'Gorman, E.W. Outerbridge, S. Peadar, G. Pেকেles, J. Perrault, T. Perreault, C. Rohlicek, C. Rodd, B. Rosenblatt, M.I. Shevell, N. Steinmetz, S. Tange, J. Trasler, R. Williams, D. Willis, M.B. Wise, D. Withington, P. Zelazo

Assistant Professors — S. Abish, L. Auger, F. Baltzer, R. Barnes, L. Beaumier, L. Bell, J. Belley, M. Berry, S. Blaichman, R. Bouffard, M. Boutin, B. Burko, F. Carnevale, A.S. Carret, D. Chalut, J.S. Charters, L. Chevalier, J. Chiu, B. Costom, A. Dancea, A. Daoud, M. Decell, D. Diksic K. Duffy, H. Eisman, J.M. Elder, J. Erdstein, N. Gagné, M. Gillin, C. Girardin, A.-M. Gosselin, R. Gosselin, C. Grandbois, B. Greenfield, J. Gulyas, I. Gupta, F. Halal, L. Jutras, R. Kagan, H. Karounis, M. Khairy E. Khalil, F. Key, L. Kimoff, L. Koclas, L. Kovacs, R. Lalonde, D. Leduc, L. Legault, C. Lejtényi, D. Levesque, B. Love, S. MacDonald, G. Mandich, E. Melcuk, C. Millar, D. Mitchell, J. Morel, D. Munz, F. Noya, J. Ortenberg, N. Ouellette, H. Patel, M. Pepin, R. Pincott, R. Platt, L. Plotnick, C. Poulin, R. Primavesi, D. Rabin, M. Ramsay, S. Razack, S. Reiter, H. Rich, P. Riley, P. Roumeliotis, J. Royer, M. Rozenfeld, E. Rubin, L. Russell, R. Russell, M. Samy, C. Saunders, K. Saylor, R. Scuccimarrì, P. Senecal, A. Sharma, M. Shiller, W. Sissons, M.A. Smith, N. Stein, S. Treherne, P. Urbanski, M. Westwood, F. Wiener, W. Woebler, S. Woods, J. Yaremko, A. Zeligler, M. Zoccolillo

Lecturers — M. Allard, J. Baribeau, L. Cartier-Borys, C. Cummings, D. Dikranian, P. Douyon, V. Goldbloom,

P. Hardy, J. Hortop, Y. Israili, R. Jeanneau, V. Khediguian, D. Kimia J. Kiteala, P. Lawandi, D. Loyer, M. Pamukoff, S. Quansah, P. Rossy, C. Roy-Fleising, L. Samotis, E. Shahin, C. Wang, B. Zybergold-Schonfeld

Associate Members — J.P. Collet, E. Gisel, E. Rosenberg
Adjunct Professors — A.H. Ahronheim, S. Chemtob, E. Drouin, J. Lacroix, M. Paquet, A. Weber

Pharmacology and Therapeutics

3655 Promenade Sir-William-Osler, Room 1325,
Montreal, QC, H3G 1Y6

Acting Chair — R. Capek

Emeritus Professor — T. Sourkes

Professors — R. Capek, P.B.S. Clarke, B. Collier, A.C. Cuello, B. Hales, P.J. McLeod, J.B. Richardson, B. Robaire, T. Sourkes, M. Szyf, D.R. Varma

Associate Professors — G. Almazan, B. Esplin, D. Maysinger, S. Nattel, A.L. Padjen, A. Ribeiro-da-Silva, H. Saragovi, B.I. Sasyniuk, J. Trasler, E. Zorychta

Associate Members — M. Alaoui-Jamali, G. Batist, C. de Montigny, P. Fiset, S. Gauthier, Y. Patel, R. Prichard, R. Quirion, A. Tenenhouse

Adjunct Professors — S. Chemtob, Y. De Koninck, L. Garofalo, J. Mancini, K. Metters, G.S. Robertson

Physiology

3655 Promenade Sir-William-Osler, Room 1021
Montreal, QC, H3G 1Y6

Professor and Chair — A. Shrier (*Hosmer Professor of Applied Physiology*)

Emeritus Professors — G. Melvill Jones, K. Krmjevic
Professors — C. Bushnell (*Harold Griffith Professor of Anaesthesia*), T.M.S. Chang, M.W. Cohen, E. Cooper, M.M. Frojmovic, L. Glass, P. Gold, D. Goltzman (*Antoine G. Massabki Professor of Medicine*), J. Hanrahan, J. Henry, R. Kearney, W.S. Lapp, M. Levy, M. Mackey, J.P. Mortola, J. Orłowski, P. Ponka, D. Watt

Associate Professors — K. Cullen, R. Farookhi, M. Glavinovic, M. Guevara, S. Magder, U. Stochaj, T. Trippenbach, A. Wechsler, P. Weldon, J. White

Associate Members — A. Aguayo, A. Alonso, M. Avoli, S. Backman, C. Bourque, S.T. Carbonetto, A. Cybulsky, P. Drapeau, B. Dubrovsky, S.O. Freedman, A. Fuks, C. Gagnon, R. Gagnon, C. Gianoulakis, H.L. Goldsmith, A. Grassino, D. Guittion, G. Hendy, M. Katz, J. Lund, P.T. Macklem, J. Martin, E. Moss, S. Mulay, M. Newkirk, B. Posner, S. Rabbani, M. Rasminsky, B. Segal, I. Shrier, E. Silva, A. Sniderman, M.M. Stevenson, S. Wing, H. Zingg
Adjunct Professors — J. Milton, E. Quillen, S. Rossignol, M. Sairam

Psychiatry

1033 Pine Avenue West
Montreal, QC, H3A 1A1

Chair — J. Paris

Emeritus Professors — B. Murphy, T.L. Sourkes

Professors — F. Abbott, D.L. Annable, R.G. Barr, C. Benkelfat, G. Chouinard, M. Cole, C. de Montigny, M. Dongier, F.R. Ervin, E. Fombonne, S. Gauthier (*Carex Professor of Studies in Aging*), A.
