Please note that in the body of this Calendar, awards are listed alphabetically by their complete official names. In the index, awards are listed alphabetically by family name of benefactor if applicable.

All efforts have been made to ensure the accuracy of information in this Calendar. However, it is ultimately the responsibility of fellowship and award seekers themselves to verify program deadlines and requirements with the source agencies. The Office of Fellowships and Awards cannot be held responsible for any errors or omissions, but would appreciate being informed of these, for correction or addition in the next edition. The University reserves the right to make changes without prior notice to the information contained in this Calendar, including alteration of conditions and values of awards.

1.3 A Message from the Associate Vice-Principal (Graduate Studies)

Graduate study and research in all scholarly, scientific and professional disciplines depends upon adequate financial support for students and postdoctoral fellows. At McGill University, the Office of Fellowships and Awards in the Faculty of Graduate Studies and Research provides information and administers several major internal fellowship competitions each year. The Office also coordinates McGill applications and distributes information related to numerous graduate and postdoctoral fellowship and award competitions administered outside the University. The Office works closely with individual applicants, academic departments at McGill, and external granting agencies in order to facilitate applications for all these sources of funding.

This Graduate Fellowships and Awards Calendar is published yearly by the Office of Fellowships and Awards to furnish current and prospective McGill students with information about financing graduate education. It contains descriptions of all McGill's internal graduate fellowships, as well as many external fellowships tenable for graduate and postdoctoral level study. In addition to this Calendar, the Office maintains a computerized data bank of many other, smaller or more specialized external fellowships and awards.

Students seeking admission to a McGill graduate program should note that decisions about admission are made by individual academic departments. The Office of Fellowships and Awards will be pleased to advise about possible sources of funding; however, applications for funding should be directed to the department into which admission is sought. Students already enrolled in graduate studies at McGill may apply for some fellowships on their own and some through the auspices of their academic department. Appropriate procedures for application vary according to the particular fellowship.

The staff of the Office is well-informed and friendly, and encourages all current and prospective McGill students to visit, call, e-mail or write to obtain further information on appropriate sources of funding for graduate education.

*Dr. Martha Crago,
Associate Vice-Principal (Graduate Studies)*

2 Financing Graduate Education

There are five ways to finance graduate studies at McGill University. A graduate student can:

- 1) win a fellowship from an external granting agency;
- 2) win an internal McGill Graduate Faculty Award;
- 3) win a McGill departmental or faculty award;
- 4) earn money by working as a research or teaching assistant for a McGill professor or department or;

- 5) receive funding in the form of loans and bursaries from the federal or provincial government.

1) External Granting Agency Fellowships are listed in the section of this Calendar entitled "External Fellowships", page 43. Currently, the value of awards offered by these agencies (including those supported by the Canadian and Quebec governments) varies from approximately \$11,000 to \$17,000 per year. Many may be renewed. Application deadlines for the majority of external granting agency fellowships fall during October to November, for fellowships tenable in September of the following year. Fellowships offered by external granting agencies for postdoctoral level study and research are described in the "Postdoctoral Fellowships" section of the Calendar, page 71. Opportunities for funding to pursue graduate study and research outside of Canada are listed in the section entitled "Exchanges and Travelling Fellowships", page 76.

2) McGill Graduate Faculty Awards are described in detail in the section entitled "McGill Graduate Faculty Awards", page 50. McGill Graduate Faculty Major Fellowships (valued at \$10,000 - \$15,000 per year, for one or more years) are offered only to students already enrolled in a Master's or doctoral program at McGill, who meet the specific eligibility requirements of the year's competition. Details regarding eligibility and specific deadlines for McGill Major Fellowships are available in early September from departments and the Office of Fellowships and Awards. For McGill students in the social science and humanities disciplines, the McGill Major Fellowship application deadline coincides with that of the Social Sciences and Humanities Research Council (SSHRC) doctoral fellowships competition (generally during the month of October). For McGill students in the natural science and engineering, and medical science disciplines the deadline coincides with that of the Natural Sciences and Engineering Research Council (NSERC) Postgraduate Scholarships competition (generally during the month of October). All students are advised to check deadlines with their departments during the summer.

Students need not be eligible for funding through external agencies in order to apply for a McGill Major Fellowship. However, all applicants for McGill Major funding must, if eligible, have applied to MRC, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds pour la formation de chercheurs et l'aide à la recherche (FCAR) or Fonds de la recherche en santé du Québec (FRSQ).

Application forms for the Graduate Faculty Major Fellowships are available to students currently enrolled at McGill from their department or the Office of Fellowships and Awards. Completed application forms and all supporting documents should be returned directly to the academic department. No documentation should be sent to the Faculty of Graduate Studies and Research or the Office of Fellowships and Awards. Applications for McGill Graduate Faculty Fellowships tenable beginning in September 2000 must be received by McGill departments during the fall semester of 1999 (check with departments for specific deadlines.)

In addition to the Graduate Faculty Major Fellowships for continuing graduate students, McGill University provides a small number of Recruitment Fellowships to selected academic departments for outstanding applicants seeking first admission to graduate studies at McGill during the following academic year. Recruitment fellowships are valued at approximately \$14,000 for one year. All applicants for first-time graduate admission are automatically considered by departments for a recruitment fellowship, if the unit has one to offer. There are no application forms, since awards are based exclusively on departmental nomination. For additional information, students should consult the academic unit from which they request admission.

3) McGill Departmental and Faculty Awards are listed in this Calendar in the section entitled "Fellowships Awarded by Departments and Faculties", page 53. It is the responsibility of the department, academic unit or faculty administering these awards to determine deadlines and values. Consequently, they vary greatly. The student should contact the Graduate Studies Coordinator or

Director of the academic unit in which he/she intends to study for more information regarding departmental and faculty awards.

4) Research and Teaching Assistantships are handled by individual academic departments at McGill. Many departments employ graduate students as research or teaching assistants and may offer up to 12 hours of employment per week without changing the student's full-time status. In all cases, the appointment of assistants is recommended by the Chair of the department concerned. All assistantship inquiries should be directed to departments. It is not general policy to waive tuition or other fees for assistants, demonstrators or fellows, though in some cases provision is made for a basic stipend and fees. International students should note that Canadian Immigration regulations permit them to work part-time on the University campus provided they remain registered full-time.

5) Loans and Bursaries are administered by the province in which the student is deemed to be a resident. Basic qualifications are that the applicant is a full-time student and a Canadian citizen; certain categories of Permanent Residents may also be eligible. The Quebec Student Loan and Canada Student Loan programs operate exclusively on the basis of financial need. Several provinces augment their loan programs with a loan forgiveness program to help students reduce their debt loads. The McGill Student Aid Office provides information regarding application procedures of these government loan programs. The Student Aid Office also administers institutional need-based funding including short term loans to cover emergency situations, limited bursary assistance and a Work/Study program. Further information is provided in the "Loans and Bursaries" section of this Calendar, page 71.

General Fellowships Information

When an external fellowships announcement, received by the Office of Fellowships and Awards, is of particular interest to a specific department or academic unit, the information is forwarded to that unit for posting and/or circulation. In addition, announcements of general interest are posted on the bulletin board outside the Office of Fellowships and Awards, Room 408, Dawson Hall. It is also entered into the computerized data bank of the Office for specialized searches and consultation by students, potential students and faculty members. The Office of Fellowships and Awards maintains a small collection of reference books on funding for graduate study. These may be consulted at the reception desk.

Reference Books

In addition to the resources offered by the Office of Fellowships and Awards, those seeking support for graduate study are encouraged to consult one or more of the many reference books and directories on the subject. Many major libraries, including McGill's McLennan Library, have publications listing fellowships and awards for graduate study, including the following:

- Awards Almanac;
- Annual Register of Grant Support;
- Awards for Postgraduate Study at Commonwealth Universities;
- Directory of Financial Aids for Women;
- Directory of Research Grants;
- Foundation Grant Index;
- Grants Register;
- National Student Aid Information Service;
- Postgraduate Study in Britain;
- Registry of Awards for Advanced Research in the Humanities;
- Study Abroad;
- Scholarships, Fellowships and Loans.

Funding Information on the Web

This publication is accessible on the World Wide Web at <http://www.mcgill.ca/fgsr> under "Fellowships and Awards". The OFA site also contains specific information on competitions and links to the sites of various funding agencies, and forms for several McGill fellowships and awards may be downloaded.

There are searchable databases available on the Web to locate funding opportunities. Notably, the SPIN Canada database can be accessed at <http://www.infoed.org>. At the InfoEd homepage, click

on SPIN. This database contains mostly information on funding sources for researchers, but also provides a variety of fellowships. A Canadian Graduate Awards Database project is underway to provide comprehensive fellowships and awards information for graduate students; information on this new service will be posted on the OFA site when available.

Information for international students and fellows wishing to study in Canada is available on the Canadian Bureau for International Education (CBIE) Web site at <http://www.cbie.ca> under "Study in Canada".

2.1 Information for International Students and Fellows

Funding opportunities for international students are not as plentiful as they are for Canadians since many forms of assistance provided by the federal and provincial governments are offered only to Canadian citizens or Permanent Residents of Canada. Opportunities for supplementing fellowship income by employment are also scarcer since international students and their dependents are not normally permitted by Canadian immigration authorities to work outside the university. Immigration officials also require all international students entering Canada to provide proof that they possess sufficient funds to cover at least one academic year's stay in Canada as well as return fare home. McGill's International Student Advisor suggests that single students have a minimum of \$18,000 for living expenses, in addition to tuition and ancillary fees, for every twelve months of study in Canada.

Non-Canadian students can, nonetheless, draw on a considerable variety of fellowships and other forms of assistance. There are, to begin with, several large, multi-disciplinary programs specifically aimed at funding study in Canada by students from abroad. These include: the Canadian Commonwealth Scholarship and Fellowship Program; the Government of Canada Awards to Foreign Nationals; and the Technical Assistance Scholarships and Fellowships and Canadian Fellowship Program for French-Speaking Countries, funded by the Canadian International Development Agency (CIDA). Applications for all these programs must be made through the government of the applicant's home country, usually via the Ministry of Education. Applications sent by individuals directly to Canada cannot be considered.

A limited number of international students from countries that have signed a tuition fee agreement with Quebec may be exempted from the higher rate of tuition fees normally required of students from foreign countries. The following countries have signed such agreements with Quebec: Algeria, Argentina, Benin, Bolivia, Brazil, Burkina Faso, Burundi, Cameroon, Central African Republic, Chad, China, Colombia, Comoros, Congo, Costa Rica, Djibouti, Ecuador, Gabon, Germany, Greenland, Guinea, Haiti, Honduras, Iran, Ivory Coast, Kenya, Korea, Lebanon, Madagascar, Mali, Mauritania, Mauritius, Morocco, Niger, Panama, Peru, Rwanda, Senegal, Togo, Tunisia, Uruguay, Venezuela and Zaire. Students must apply to the government authorities (usually the Ministry of Education) of their home country at the time they apply for admission to the selected Quebec university. The foreign government authorities make the official recommendation of students to be exempted from higher fees.

In addition, many of McGill's Graduate Faculty Awards, as well as many of the fellowships and prizes offered by various McGill departments and faculties, are offered without any restrictions concerning nationality. Unless otherwise specified in the description, fellowships listed in this brochure are open to students from all countries. Please note that Graduate Faculty Awards are offered to returning graduate students only. International students should also note that the Faculty of Graduate Studies and Research makes it possible for some non-Canadian students to pay reduced foreign fees, by granting differential fee waivers. See the "Differential Fee Waivers" section on page 53 of this Calendar, as well as the "Exchange and Travelling Fellowships" section, page 76.

Additional information on opportunities for financial assistance available to international graduate students and fellows can be

found in the UNESCO publication "Study Abroad", available for consultation at the Office of Fellowships and Awards, McLennan Library, as well as many national libraries around the world. "Study Abroad" can also be purchased directly from UNESCO distributors in member countries. The Canadian Bureau for International Education (CBIE) produces a free brochure entitled "Study in Canada", available on the World Wide Web at <http://www.cbie.ca> or upon request to: CBIE, 220 Laurier Avenue West, Suite 1100, Ottawa, Ontario K1P 5Z9 (613) 237-4820. International students may also find some general information regarding university study in Canada at various Canadian consulates and embassy offices abroad.

3 External Fellowships

External Fellowships are a major component of graduate student funding at McGill, amounting to approximately \$15.3 million during 1996-97. Of this amount, roughly 40% came from fellowship programs funded by four major external agencies: the Fonds pour la formation de chercheurs et l'aide à la recherche (FCAR) of Quebec, the Medical Research Council of Canada (MRC), the Natural Sciences and Engineering Research Council of Canada (NSERC), the Social Sciences and Humanities Research Council of Canada (SSHRC). The balance of external fellowships comes from a variety of award programs sponsored by private companies, agencies, foundations, other provincial and federal government agencies, as well as foreign governments and organizations. For every dollar which McGill graduate students received through the Faculty of Graduate Studies and Research, approximately eight dollars was received from external fellowships.

Students who wish to be considered for graduate level funding from external sources should contact the specific funding agency directly, as well as the McGill department where they intend to undertake graduate study and/or the Office of Fellowships and Awards in order to ascertain their individual eligibility and specific program application or nomination procedures. Competitions often take place one full year ahead of award tenure, therefore it is advisable to make inquiries well in advance of the date when funding is required. The Office of Fellowships and Awards maintains up-to-date information and application forms for many externally funded award programs and will provide this where possible to interested individuals. It is, however, the responsibility of the applicant to verify directly with the agency all application procedures and deadlines, since these are subject to change each year.

Many funding agencies now have Web sites and some of them provide electronic application forms as well. Here are a few:

EXTERNAL FELLOWSHIPS AND MCGILL FELLOWSHIPS

Students need not be eligible for funding through an external agency named above in order to apply for a McGill Major Fellow-

ship. However, all applicants for McGill Major funding must, if eligible, have applied to MRC, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds pour la formation de chercheurs et l'aide à la recherche (FCAR) or Fonds de la recherche en santé du Québec (FRSQ).

TRANSCRIPTS AND DEADLINES

To obtain transcripts for larger external award competitions including FCAR, FRSQ, NSERC and SSHRC, students must apply to their departmental graduate office several weeks prior to the application deadline. Students should check with their department or the Fellowships and Awards Office about all transcript ordering procedures and deadlines.

Deadlines for the Natural Sciences and Engineering Research Council (NSERC) Postgraduate Scholarships, Social Sciences and Humanities Research Council (SSHRC) doctoral fellowships, Medical Research Council (MRC) doctoral research awards, Fonds pour la formation de chercheurs et l'aide à la recherche (FCAR) and the Fonds de la recherche en santé du Québec (FRSQ) Graduate Fellowships competitions generally fall in early October. Thus students should begin planning their external applications as early as August. The applicant is responsible for fulfilling the application requirements, using the forms for the current year. If the application form for the current year is not available in August, the student should nevertheless proceed to draft a proposed plan of study and research, and discuss it with two faculty members, who can later serve as referees.

The following alphabetical listing of external fellowships indicates deadlines, application requirements and values as known to the Office of Fellowships and Awards at the time of publication of this Calendar. It is the responsibility of the applicant to verify directly with the agency all application procedures and deadlines. In cases where the Office of Fellowships and Awards maintains an information file on a particular external fellowship, an "OFA" file number has been given. Please refer to this number when requesting information from the Office.

ASSOCIATION OF UNIVERSITIES AND COLLEGES OF CANADA (AUCC) – NATIONAL FELLOWSHIPS PROGRAM

AUCC administers several fellowships for graduate study at Canadian universities. Those currently available are listed below, along with their respective special conditions and restrictions. In most cases, candidates must be Canadian citizens or Permanent Residents of Canada for at least one year prior to application. Application forms for these fellowships are available from the Canadian Awards program, Awards Division, Association of Universities and Colleges (AUCC), 350 Albert Street, Suite 600, Ottawa, Ontario K1R 1B1 (613) 563-1236, <http://www.aucc.ca>

AUCC - CABLE TELECOMMUNICATIONS RESEARCH FELLOWSHIP

Value: Two \$5,000 renewable fellowship awarded annually for students at the Master's or Ph.D. level.

Eligibility: Fellowship holders must pursue studies directly related to the cable television industry in a degree program in a field of engineering or computer science. The graduate degree must include a thesis on a topic in the engineering of broadband communication systems or computer application for cable television. Applicants must be Canadian citizens or Permanent Residents. Tenable at a Canadian university.

Deadline: February 1.

OFA # 413

AUCC - DEPARTMENT OF NATIONAL DEFENCE FORUM SCHOLARSHIPS

Value: Approximately eight Ph.D. scholarships valued at up to \$16,000 and four M.A. scholarships valued at up to \$12,000 will be offered this year. The duration of the award is at least one academic year; renewal of the award is possible, but not automatic.

Eligibility: Fields of study encompass strategic studies that are relevant to current and future Canadian national security and

defence issues, including their political, international, historical, social, military, industrial and economic dimensions. Applications demonstrating relevance to current or future Canadian security and defence issues are encouraged from a wide range of disciplines. Applicants must be Canadian citizens and hold at least an Honours Bachelor's degree or equivalent before taking up the award. M.A. scholarships are tenable in Canada only. In some cases, permission may be granted to undertake Ph.D. studies in other countries.

Deadline: February 1.

OFA # 534

AUCC - FRANK KNOX MEMORIAL FELLOWSHIPS AT HARVARD UNIVERSITY

Value: The award is fixed at \$14,500 U.S. plus tuition fees and student health insurance.

Eligibility: Up to two fellowships are available to Canadian citizens or Permanent Residents for tenure in any discipline at Harvard University. Candidates must apply for admission.

Deadline: Applications must be received by February 1.

OFA # 416

AUCC - PETRO-CANADA GRADUATE RESEARCH AWARDS

Value: Four fellowships are offered valued at \$10,000 (renewable).

Eligibility: Open to students at the Master's and doctoral levels studying in sciences, engineering, social sciences, or business administration, working towards a degree on a subject related to the oil and gas industry. Candidates must be Canadian citizens or Permanent Residents. The awards are tenable in Canada.

Deadline: February 1.

OFA # 417

BRUNO M. CORMIER RESEARCH FUND

Value: \$5,000, non-renewable.

Eligibility: Awarded to Master's or doctoral level students conducting research in the humanities and social sciences relating to intervention with detained young offenders.

Deadline: February 15.

Application: Forms are available from the Fonds de recherche Bruno M. Cormier, Fondation La Cité des Prairies, 5088 Côte-St-Antoine, Montréal, Québec H4A 1N5 (514) 489-4701 or the Office of Fellowships and Awards.

OFA # 321

CANADA COUNCIL GRANTS

Eligibility: Grants are awarded for graduate level study in music. Other disciplines such as architecture, creative writing, art education, and communications are considered if the work is not primarily concerned with academic research. Various short-term project grants are also available in these disciplines.

Deadlines: Vary with the disciplines.

Application: Forms can be obtained by writing to: Arts Awards Service, Canada Council, PO Box 1047, 350 Albert Street, Ottawa, Ontario K1P 5V8 1-800-263-5588 ext. 4138.

OFA # 170

4 McGill Graduate Faculty Awards

4.1 Max Stern Recruitment Fellowships

In addition to the Graduate Faculty Major Fellowships for continuing graduate students, McGill University provides a small number of recruitment fellowships to selected academic departments for outstanding applicants seeking first admission to graduate studies at McGill during the following academic year. A small number of new non-renewable Recruitment Fellowships will be awarded in 1999-2000. These are valued at approximately \$14,000 for one year. All applicants for first-time graduate admission are automatically considered by departments for a recruitment fellowship, if the unit has one to offer. There are no application forms, since awards are based exclusively on departmental nomination.

4.2 McGill Major Fellowships (for continuing students only)

Each year the Faculty of Graduate Studies and Research of McGill University awards about 150 McGill Major Fellowships valued at \$10,000 to \$15,000 per year. Applications for most such fellowships are reviewed by the Graduate Faculty Fellowships Committee, while a small number are granted on the basis of departmental and/or faculty nominations.

Students who wish to be considered for graduate level funding offered by McGill, should immediately contact the department where they intend to undertake graduate study and/or the Office of Fellowships and Awards in order to ascertain the sources of McGill funding for which they are eligible. Competitions often take place one full year ahead of award tenure, therefore it is advisable to make inquiries well in advance of the date when funding is required. It should be noted that virtually all McGill Graduate Faculty awards tenable in a given year are restricted to students who were enrolled in a McGill graduate program during the preceding year.

Value and Eligibility

Students already enrolled in Master's or doctoral study at McGill, may apply for a McGill Graduate Faculty Major Fellowship (valued at \$10,000 - \$15,000 per year, renewable in some cases), provided they meet the specific eligibility requirements of the year's competition. Details regarding eligibility and specific deadlines and application forms for McGill Major Fellowships are available from departments and the Office of Fellowships and Awards. Tenure of Major fellowships is restricted to students registered full-time in the 2nd year of a Master's program, or through to the Ph.D. 5 year.

Application Deadlines and Forms

All applications for McGill Major fellowships must be ranked by departments; applications should not be sent directly to the Office of Fellowships and Awards.

For students in the social science and humanities disciplines, the McGill Major Fellowship application deadline coincides with that of the Social Sciences and Humanities Research Council (SSHRC) doctoral fellowships competition (generally early during the month of October). For students in natural science, engineering and medical science disciplines, the deadline coincides with that of the Natural Sciences and Engineering Research Council (NSERC) Postgraduate Scholarships competition (generally early during the month of October). For students in medical sciences, the deadline coincides with that of the Medical Research Council (MRC) Doctoral Awards competition (generally early during the month of October). Forms and instructions are based on the corresponding external agencies' application forms and are available on the World Wide Web at <http://www.mcgill.ca/fgsr>.

External Fellowships and McGill Major Fellowships

All applicants for McGill Major funding must, if eligible, have applied to MRC, SSHRC or NSERC and, if eligible to the Quebec funding agency Fonds pour la formation de chercheurs et l'aide à la recherche (FCAR) or Fonds de la recherche en santé du Québec (FRSQ).

Students who are offered both a Graduate Faculty Major Fellowship and any other external or internal fellowship worth \$10,000 or more (including fee subsidies) must accept the latter and decline the Major. However, in some cases, students may be eligible for "topping-up" with a partial McGill Major Fellowship.

Announcement of Results

The final results of the McGill Major Fellowships competitions are announced in May by letter. The Office of Fellowships and Awards will not give results over the telephone.

OFA # 278

8 Exchange and Travelling Fellowships

Information on funding opportunities for graduate study and research outside of Canada is contained in many of the reference books and directories listed on [page 42](#) of this Calendar. One of the most comprehensive publications is UNESCO's "Study Abroad", available for consultation at the Office of Fellowships and Awards, McLennan Library and many national libraries around the world.

Embassies, consulates and commissions of foreign countries located in Canada also are excellent sources of information on funding opportunities for students intending to study abroad. Addresses and telephone numbers of all diplomatic representatives in Canada can be obtained from the Department of External Affairs in Ottawa at (613) 996-4376. For McGill students seeking funding for graduate study outside Canada, the graduate awards offices of foreign universities themselves are often the best source of information. The McLennan Library has a vast collection of foreign university catalogues. The French embassy in Ottawa has a complete web site on France-Canada exchange programs at

<http://ottawa.ambafrance.org/HYPERLAB/> under "l'aide-mémoire des échanges scientifiques franco-canadiens".

McGill University has signed a number of agreements with universities in other countries, many of which include a student exchange component. As a member of the Conference of Rectors and Principals of Quebec Universities (CREPUQ), McGill also participates in a number of student exchange programs with designated universities in the United States and Europe. Further information on such programs may be obtained from the Student Exchange Officer, Admissions and Registrar's Office, James Building Annex, McGill University, tel. (514) 398-8342.

ALMA MATER STUDENT TRAVEL GRANT

OFA # 218**MACDONALD TRAVELLING SCHOLARSHIP**

Value: Approximately \$18,000.

Eligibility: Founded by the will of the late Sir William Macdonald "for the purpose of enabling English speaking Law students to take a course of studies in France", the testator "deeming it of great importance that the English-speaking members of the legal profession should be proficient in the French language". The scholar selected is required to pursue a year's study in the Law faculty of a French University approved, in each case, by the Faculty. The award is made at the discretion of the Faculty to a student of the graduating class proceeding to the Bar, who has obtained First or high Second Class honours in the final examination, and who would be unable without such financial help to spend a year in France. The Faculty interprets the will of the late Sir William Macdonald as intending that the scholarship be awarded only to students preparing for the legal profession in the Province of Québec. Under the present regulations the scholarship must be used in the year in which it is awarded.

Deadline: May 1.

Application: Candidates should apply to the Faculty of Law, Student Affairs Office.

MACKENZIE KING TRAVELLING SCHOLARSHIPS

Value: Approximately four scholarships per year of up to \$11,500.

Eligibility: Offered to a graduate of any Canadian university to engage in postgraduate studies in the U.S. or U.K in international or industrial relations (including international or industrial aspects of law, history, politics, economics). Applicants should be persons of unusual worth and promise. Awards are based on academic achievement, personal qualities and demonstrated aptitudes, as well as proposed program of study. McGill only considers undergraduate applicants with First Class Honours Standing (CGPA of 3.5 or higher) and graduate applicants with cumulative "straight A" records.

Deadline: Normally February 1 to applicant's home university. Verify McGill's deadline with the Office of Fellowships and Awards.

Application: Application is made through the "home" university, i.e, the Canadian university from which the applicant has or will receive the most recent degree. Further information and application forms are available from the Office of Fellowships and Awards and Mackenzie King Scholarships Competition Office, Faculty of Graduate Studies, University of British Columbia, 235-2075 Westbrook Mall, Vancouver, British Columbia V6T 1Z1.

OFA # 353**MINISTÈRE DE L'ÉDUCATION DU QUÉBEC (MEQ) – BOURSES D'ÉTUDES DE 2E ET 3E CYCLES À L'ÉTRANGER**

The MEQ, in collaboration with the Ministère des affaires internationales, has concluded a number of study fellowships and tuition fee waivers with governments of the following countries: Brazil, Colombia, China, Mexico, Tunisia, and Germany.

Value: Normally covers travel and living expenses, for one to two years.

Eligibility: Candidates must be Canadian citizens or Permanent Residents and must have resided in Québec for the past year at least. Candidates must possess an undergraduate degree and be registered in a Master's or doctoral level program at a Québec university at the time that the fellowship is granted. Candidates must also conform to the specific requirements of the particular program through which a fellowship is being sought, and in most cases be fluent in the language of the country where studies will be undertaken.

Deadline: Vary from October through January, according to the program.

Application: Information regarding specific application requirements is contained in the publication "Découvrez de Nouveaux Horizons Universitaires: Bourses d'études de 2^e et 3^e Cycles" available from the Office of Fellowships and Awards and Direction de la coopération, MEQ, Édifice Marie-Guyart, 1035, rue de La Chevrotière, 19^e étage, Québec (Québec) G1R 5A5. (418) 644-3235.
