Dean's Welcome

To Graduate Students and Postdoctoral Fellows:

I am extremely pleased to welcome you to McGill University. Our world-class scholarly community includes over 250 doctoral and master's degree programs, and is recognized for excellence across the full range of academic disciplines and professions. Graduate and Postdoctoral Studies (GPS) collaborates with the Faculties and other administrative and academic units to provide strategic leadership and vision for graduate teaching and research across the University. GPS also oversees the admission and registration of graduate students, disbursing graduate fellowships, supporting postdoctoral fellows, and facilitating the graduation process, including the examination of theses. GPS has partnered with Enrolment Services to offer streamlined services in a one-stop location at [Service Point](#).

McGill is a student-centred research institution that places singular importance upon the quality of graduate education and postdoctoral training. As Associate Provost (Graduate Education), as well as Dean of Graduate and Postdoctoral Studies, I work closely with the Faculties, central administration, graduate students, professors, researchers, and postdoctoral fellows to provide a supportive, stimulating, and enriching academic environment for all graduate students and postdoctoral fellows.

McGill is ranked as one of Canada's most intensive research universities and among the world's top 25. We recognize that these successes come not only from our outstanding faculty members, but also from the quality of our graduate students and postdoctoral fellows – a community into which we are very happy to welcome you.

2 Graduate Student Financial Support

McGill University is committed to helping graduate students finance their education and offers research students the most competitive and generous funding levels in Quebec. We are doing our utmost to provide you with a dependable income for the duration of your graduate studies, through both fellowships and bursaries. Upon admission to McGill, research students are automatically considered for funding and the details of your personalized support package will be confirmed once you have accepted our offer of admission. This funding comes from a number of sources, which may include McGill graduate fellowships, departmental and faculty awards, stipends from research grants or contracts, teaching and research employment, and, in certain cases, exemptions from tuition and ancillary fees. Course-based and professional Master's students are eligible for need-based financial support and some internal fellowships and bursaries.

The following information is intended to help you to understand and provide detailed information on the various forms of graduate student support available at McGill. If you have any questions regarding graduate student support, please contact your Graduate Program Coordinator who will be more than happy to help you find the answers.

External Fellowships

Funding from external sources may form an important complement to the funding package offered to you by McGill. In the 2007 funding year, Federal and Quebec government agencies granted over 20 million dollars in direct awards to students pursuing graduate studies at McGill. External Fellowships are available from various sources, including government departments and agencies, foundations and private companies. The value of

awards offered by these agencies varies from \$15,000 to \$50,000 per year, and up to \$50,000 for health professionals. These awards are often renewable. The deadlines to apply for the majority of external fellowships fall between October and November for fellowships tenable in September of the following year. To view a list of the agencies offering graduate student funding opportunities and individual application deadlines, please see [section 3, "External Fellowships"](#).

For information on funding opportunities to support graduate study and research outside of Canada, please see [section 8, "Exchange and Travelling Fellowships"](#).

Loans and Bursaries

Loans and/or bursaries are administered by the province in which you are legally resident, and are usually restricted to full-time, Canadian students (although certain categories of permanent residents may also be eligible). Most loans are granted exclusively on the basis of financial need. To find out more about the application procedures for government loan programs please see [section 6, "Student Financial Assistance"](#) or contact the McGill Student Aid Office at 514-398-6013 or by email at student.aid@mcgill.ca.

2.1 Information for International Students and Fellows

International students on study permits comprise up to 25 per cent of the graduate student population at McGill University and are integral to maintaining McGill's standing as a world-class, research intensive institution. McGill is committed to supporting its international students and addressing the unique financial concerns of this group. As an international student, you may find yourself ineligible for certain awards and bursaries that are only available to Canadian students. To help offset this imbalance, McGill offers a number of tuition differential awards and international fee waivers to certain groups of students. These are available through several different programs.

1. McGill is allotted a number of Differential Fee Waivers (DFWs) from the Quebec Government that are allocated by individual departments to Master's students in the summer term.
2. If you are in a program where your fees are assessed per credit, you may be exempt from the international tuition supplement for certain French language and literature courses.
3. All students from France and a limited number of students from countries party to bilateral agreements with Quebec may be granted exemptions from differential fees. With the exception of French citizens, students must apply to their home country for an exemption concurrent with their application for admission. Please consult [section 2.1.1, "Exemptions from the International Tuition Supplement"](#) to determine whether you are eligible for this program.

There are a number of funding programs aimed specifically at international students embarking on study in Canada. These include: the Quebec Merit Fellowships for International Doctoral Students (*Programme de bourses d'excellence pour étudiant étranger* - PBEEE); the Canadian Commonwealth Scholarship and Fellowship Program; the Government of Canada Awards to Foreign Nationals; the Organization of American States; the Canada-U.S. Fulbright program; and the German Academic Exchange Program (DAAD). International students can also be nominated by McGill University for the prestigious Vanier Canada Graduate Scholarship program (please refer to [section 3, "External Fellowships"](#) for further information). Applications for some of these programs must be made through the government of your home country, usually via the Ministry of Education.

Opportunities for employment for international students are now more plentiful than in past years, as immigration officials are authorized to issue work permits for off-campus employment

under certain circumstances. For details concerning eligibility and procedure, please consult the International Student Services website at www.mcgill.ca/internationalstudents/workopportunities. You can find additional information on opportunities for financial assistance available to international graduate students and fellows in the UNESCO publication *Study Abroad*, available on the web at www.unesco.org/education/studyingabroad/networking/study.pdf. The Canadian Bureau for International Education (CBIE) also provides information on support programs for international study. Visit their website: www.cbie.ca. As an international student you will also be pleased to learn that the new Post-Graduation Work Permit Program makes it easier than ever to gain employment in Canada following the completion of your degree. Through this program you can obtain a work permit tenable for three years, with no restriction on the type of employment and no requirement for a job offer or company sponsorship.

2.1.1 Exemptions from the International Tuition Supplement

Internal DFWs

McGill University is allocated a number of Differential Fee Waivers (DFWs) that it allocates through the departments. DFWs are allocated by nomination to Ph.D. students and Research Master's degree students. Eligible students should enquire with their department for information regarding how to apply for these waivers.

External DFWs

Differential Fee Waivers are also available from a number of external sources, including the *Ministère de l'Éducation, du Loisir et du Sport du Québec*. Please note that the Quebec government grants Differential Fee Waivers to staff and dependants of consulates, foreign government offices, international governmental organizations, non-governmental organizations, refugees, immigrants with a work permit containing the case type 07, 08, 20, 22, 23 or 26 with the name of an employer and location that is necessarily situated in Quebec, and to those students in MELS-approved inter-university exchanges. For more information on how to qualify for Differential Fee Waivers under these provisions, please see this document: *Politique relative aux droits de scolarité exigés des étudiantes et étudiants étrangers par les universités du Québec*, available at the MELS website: www.mels.gouv.qc.ca/sections/publications/publications/BSM/Aff_internationales_canadiennes/Politique_etudiant_etrangere-2008.pdf.

International degree students in a program where fees are assessed per credit and who register in eligible French language and literature courses are exempt from the international supplement for those courses. Please note that the exemption of differential fees for students registered in French language and literature programs has been abolished.

A certain number of citizens from countries whose governments have entered into agreements on tuition fees with Quebec may be exempted from the supplemental tuition fees normally required of international students.

The exemption is granted in accordance with the applicable agreement on tuition fees and subject to its terms and conditions, which vary depending on each agreement. The exemption is valid for the normal length of the program of studies concerned (for instance, a Master's degree in Environmental Studies) at a post-secondary institution in Quebec, and is granted one semester at a time. From the first semester for which an exemption is granted at a designated institution until the program is completed, the exemption is renewable on a trimester-by-trimester basis as long as a student earns no fewer than 30 credits per year, complies with the applicable regulations, registers on a full time basis at least for the Fall and Winter trimesters and pays the tuition fees on the prescribed registration dates.

All French citizens and a limited number of citizens of a country in the list found at www.mels.gouv.qc.ca/sections/publications/publications/Ens_Sup/Affaires_universitaires_collegiales/Affaires_etudiantes/PaysQuotasExemptionsMontantForfataire2012.pdf are eligible for such exemptions.

To apply for an exemption of this type, a student must meet the following conditions: be a citizen of one of the aforementioned countries or governments; be admitted to a program of studies at a post-secondary institution in Quebec; be registered on a full-time basis according to the applicable rules at that institution; like any international student, be the holder of a valid passport and residence permit as prescribed by the applicable immigration rules; and, except for French citizens, be recommended for an exemption by the relevant authorities in his or her country – usually the department of education – according to the official procedure described in the next paragraph.

Foreign governments or the bodies that represent them must send, usually through their consulate in Quebec or their embassy in Ottawa, to the *Direction des affaires étudiantes et de la coopération* of the *Ministère de l'Éducation du Québec*, before June 15 of each year for the next autumn registrations and before November 15 for the next winter registrations, a list of the candidates that they recommend be exempted from the requirement to pay supplemental tuition fees, along with the proof of admission or registration for each new exemption proposed. The *Ministère de l'Éducation* then establishes, according to the provisions of the agreement, the final list of the persons to benefit from the exemption during the future trimester concerned. At least 80 per cent of the exemptions that are awarded must be for registrations in French-speaking institutions.

For more information and the necessary application materials, see the following MELS websites:

www.mels.gouv.qc.ca/international/index_en.asp?page=progExemp;

www.mels.gouv.qc.ca/sections/publications/publications/BSM/Aff_internationales_canadiennes/Politique_etudiant_etrangere-2008.pdf.

3 External Fellowships

This section contains general information on the major funding agencies providing the majority of external awards to Canadian, Quebec or international students and postdocs. A large number of other sources provide external funding. A section on industrial fellowships offers information for students who wish to fund studies and research in partnership with non-university organizations in the private (and sometimes public) sector.

7.2 External Postdoctoral Fellowships

Please refer to [section 3, "External Fellowships"](#) for more information on postdoctoral opportunities.

8 Exchange and Travelling Fellowships

Information on funding opportunities for graduate study and research outside of Canada is contained in many of the reference books and directories listed in [section 2.2, "Further Information"](#). One of the most comprehensive publications is UNESCO's "Study Abroad", available for consultation at the McLennan Library and many national libraries around the world.

Embassies, consulates and commissions of foreign countries located in Canada also are excellent sources of information on funding opportunities for students intending to study abroad. Addresses and telephone numbers of all diplomatic representatives in Canada can be obtained from the Department of Foreign Affairs and International Trade Canada in Ottawa at 613-996-4376 www.international.gc.ca/education. Another helpful site is www.educationau-incanada.ca. For McGill students seeking funding for graduate study outside Canada, the graduate awards offices of foreign universities themselves are often the best source of information. The McLennan Library has a vast collection of foreign university catalogues. The French embassy in Ottawa has a complete website on France-Canada exchange programs at <http://ambafrance-ca.org>.

McGill University has signed a number of agreements with universities in other countries, many of which include a student exchange component. As a member of the Conference of Rectors and Principals of Quebec Universities (CREPUQ), McGill also participates in a number of student exchange programs with designated universities in the United States and Europe. Further information on such programs may be obtained from the Student Exchange Officer, McGill University, Service Point, 3415 McTavish Street, Montreal, QC, H3A 0C8. Telephone: 514-398-8342.
