2009-2010

Errata Sheet

For the document titled: Undergraduate Programs 2009-2010 University Calendar

Errata posted March 20, 2009

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
1	Important Dates 2009-10	24	The following date was omitted: Apr. 15, 2009, Wed. **REG** → Registration via Minerva in Summer term Continuing Education courses begins for all faculties except Dentistry, Law, Management (day programs), Medicine, Nursing and Physical and Occupational Therapy.
1	Important Dates 2009-10	37	The following date is incorrect: Jan. 4, 2010, Mon. LEC CE Lectures begin in non-credit General Studies courses at Continuing Education. It should read: Jan. 11, 2010, Mon. LEC CE Lectures begin in non-credit General Studies courses at Continuing Education.
1	Important Dates 2009-10	37	The following date is incorrect: Jan. 11, 2010, Mon. LEC CE Lectures begin in Special Intensive English and French at Continuing Education. It should read: Jan. 18, 2010, Mon. LEC CE Lectures begin in Special Intensive English and French at Continuing Education.
1	Important Dates 2009-10	42	The following date was omitted: Apr. 15, 2010, Thurs. **REG** → Registration via Minerva in Summer term Continuing Education courses begins for all faculties except Dentistry, Law, Management (day programs), Medicine, Nursing and Physical and Occupational Therapy.
1	Important Dates 2009-10	46	The following date was omitted: Aug. 15, 2010, Sun. **REG** → Registration via Minerva in Fall term Continuing Education courses begins for all faculties except Dentistry, Law, Management (day programs), Medicine, Nursing and Physical and Occupational Therapy.
9.5.5	Department of Mechanical Engineering	292	For the "AERONAUTICAL ENGINEERING CONCENTRATION", there is an error under the list of complementary courses. The following course is incorrect: MECH 435 (3) Turbomachinery and Propulsion It should read: MECH 535 (3) Turbomachinery and Propulsion
14.13.25	Neuroscience	446	For the "MAJOR IN NEUROSCIENCE (67 - 68 credits)", an alternative course was omitted under the list "B. Neurophysiology/Neural Computation Stream (15 credits)". Instead of: BIOL 306 (3) Neural Basis of Behaviour It should read: BIOL 306 (3) Neural Basis of Behaviour or PHGY 314 (3) Integrative Neuroscience

Errata posted March 25, 2009

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
9.6.10	Minor Programs in Finance, Management, Marketing, and Operations Management	300	The first paragraph under "Prerequisite:" is incorrect. It should read: **Prerequisite: None**

Errata posted March 27, 2009

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
8.7.1.1	Bachelor of Education Physical and Health Education	268	Under the list "Required Courses (94 credits)", the following courses were omitted: EDKP 342 (3) Physical Education Methods EDKP 442 (3) Physical Education Pedagogy EDKP 494 (3) Physical Education Curriculum Development

Errata posted April 6, 2009

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
8.7.2	B.SC. (KINESIOLOGY) – HONOURS IN KINESIOLOGY	270	Under the list "Required Courses (49 credits)", the following course should be deleted: EDKP 393 (3) Skill Learning and Expertise and the following course should be added: EDKP 447 (3) Motor Control

Errata posted April 14, 2009

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
3.10.1	Language Requirements for Professions	71	The paragraph immediately preceding the "Note" must be modified. Instead of: If you are already strong in French and want to maintain or improve your proficiency, you may consider taking courses in the Department of French Language and Literature, Faculty of Arts. It should read: If you are already strong in French and want to maintain or improve your proficiency, you may consider taking courses in the Department of French Language and Literature, Faculty of Arts or the Centre for Continuing Education.
	COURSE INFORMATION, REGULATIONS AND DESCRIPTIONS	C-183	The bullet symbol should NOT appear next to the following course: BIOC 396 Undergraduate Research Project.

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
1	Important Dates 2009-10	41	The following date is incorrect: Apr. 9, 2010, Fri. STAGE BSW/MSW Last day of Field Practice for B.S.W. students and for M.S.W. students. It should read: Apr. 16, 2010, Fri. STAGE BSW/MSW Last day of Field Practice for B.S.W. students and for M.S.W. students.
3.5.5	Incomplete Courses	65	The last sentence in Note 6 in incorrect. Instead of: For more information, see the note regarding J grade above. It should read: For more information regarding the J grade, see section 3.5.4, " Unexcused Absences" above.

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
7.11.6.2	Complementary Integrative Course	239	The following courses must be removed from the list: ENGC 200, ENGC 210 MATH 330 The following courses must be added AND a credit weight of "3" must be assigned to each course in the complete list: ANTH 208, ANTH 302, ANTH 311, ANTH 411, ANTH 418, ANTH 423, ANTH 443, ANTH 511 BIOL 210, BIOL 307 ECON 225, ECON 310, ECON 326, ECON 405, ECON 440, ECON 546 GEOG 221, GEOG 303 HIST 249, HIST 292, HIST 319, HIST 330, HIST 348, HIST 350, HIST 356, HIST 424 SOCI 390, SOCI 508
1112.1	Honours in Economics for Management Students	343	Under "**Notes:**", Note 1 contains an error whereby the last sentence must be removed. Instead of: 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program. It should read: 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core.
1112.1	Honours in Economics for Management Students	343	Text was omitted under "Complementary Courses (15 credits)". The following should be added: 3 credits from the following:
Course Information, Regulations and Descriptions	Desautels Faculty of Management	C-153	The note "(Summer)" must be removed from the following courses: ACCT 351, ACCT 354, ACCT 361 BUSA 364, BUSA 391, BUSA 434 FINE 342, FINE 441, FINE 448, FINE 482 MGCR 271, MGCR 341 MGSC 402, MGSC 415, MGSC 431 ORGB 380

Errata posted May 1, 2009

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
5.5.15	Degree Requirements	92	The CGPA stated at the end of the last sentence is incorrect and the section should be modified. Instead of: To be eligible for a B.Eng.(Bioresource), B.Sc.(Ag.Env.Sc.), B.Sc.(F.Sc.), B.Sc.(Nutr.Sc.) or Concurrent B.Sc.(F.Sc.) and B.Sc.(Nutr.Sc.) degree, students must have passed, or achieved exemption, with a minimum C grade in all required and complementary courses of the program. They must have a CGPA of at least 2.00. Students must have completed all Faculty and program requirements; see section 5.5.1 "Minimum Credit Requirement". A student must complete a minimum residency requirement of 60 credits at McGill in order to qualify for a McGill degree. Students in the B.Sc.(Ag.Env.Sc.) must take a minimum of 2/3 of their course credits within the Faculty of Agricultural and Environmental Sciences. In addition, students in the Dietetics program must have completed the Stages of professional formation requiring a CGPA of 2.5. It should read: To be eligible for a B.Eng.(Bioresource), B.Sc.(Ag.Env.Sc.), B.Sc.(F.Sc.), or Concurrent B.Sc.(F.Sc.) and B.Sc.(Nutr.Sc.) degree, students must have passed, or achieved exemption, with a minimum C grade in all required and complementary courses of the program. They must have a CGPA of at least 2.00. To be eligible for a B.Sc.(Nutr.Sc.), students must have passed, or achieved exemption, with a minimum C grade in all required and complementary courses of the program. They must have a CGPA of at least 2.00. In addition, students in the Dietetics program must have completed the Stages of professional formation requiring a CGPA of 3.00. Students must have completed all Faculty and program requirements; see section 5.5.1 "Minimum Credit Requirement". A student must complete a minimum residency requirement of 60 credits at McGill in order to qualify for a McGill degree. Students in the B.Sc.(Ag.Env.Sc.) must take a minimum of 2/3 of their course credits within the Faculty of Agricultural and Environmental Sciences.
5.6.1.1	Specializations	98	For the "SPECIALIZATION: APPLIED ECOSYSTEM SCIENCES", the paragraph containing the description of the specialization is incorrect. Instead of: This specialization will be of interest to students who wish to study the improved efficiency of livestock production at the national and international levels. Students are exposed to animal nutrition, physiology and breeding in a context that respects environmental concerns and animal-welfare issues. When taken in conjunction with the Major in Agro-Environmental Sciences and the Specialization in Professional Agriculture, it conforms with the eligibility requirements of the Ordre des agronomes du Québec. It should read: The goal of this specialization is to provide students with an opportunity to further develop their understanding of the ecosystem processes, ecology, and systems thinking necessary to understand, design and manage our interaction with the environment.

SECTION NO.	SECTION TITLE	PAGE	ERRATUM
6.3.6.2	Course Overlap	120	MGCR 273 was omitted from the first and third bullets. For the **first bullet**, instead of: • Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, PSYC 204, SOCI 350. It should read: • Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, MGCR 273, PSYC 204, SOCI 350. For the **third bullet**, instead of: • Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, PSYC 204, PSYC 305, SOCI 350. It should read: • Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, MGCR 273, PSYC 204, PSYC 305, SOCI 350.
14.3.6.1	Course Overlap	395	MGCR 273 was omitted from the first and third bullets. For the **first bullet**, instead of: • Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, PSYC 204, SOCI 350. It should read: • Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, MGCR 273, PSYC 204, SOCI 350. For the **third bullet**, instead of: • Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, PSYC 204, PSYC 305, SOCI 350. It should read: • Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, MGCR 273, PSYC 204, PSYC 305, SOCI 350.

How to Read This Calendar

The McGill Undergraduate Calendar is the official guide for program and degree information, and contains University-wide and faculty-specific rules and regulations for an academic career at McGill for newly-admitted or current students. Throughout the text, "you" refers to students newly admitted, readmitted or returning to McGill.

For prospective students, counsellors, and academic advisers, this Calendar highlights the myriad of programs and courses offered at McGill.

This Calendar applies to undergraduate programs in the following faculties: Agricultural and Environmental Sciences, Arts, Education, Engineering, Desautels Faculty of Management, Religious Studies, Schulich School of Music, and Science.

For Medicine (including Nursing, and Physical and Occupational Therapy) as well as for Dentistry, please consult the Health Sciences Calendar.

This Calendar contains the following sections:

- **Important Dates:** Official University key dates, such as registration, start of lectures, exam periods and various other deadlines.
- **General University Information and Regulations:** University regulations and policies applicable to all students.
- **Advising and Support:** Information about advising, student services, residential facilities, athletics, information technology resources, and resources for study and research.
- **Program Information:** Generally organized by faculty, and by departments within each faculty, these sections contain faculty-specific regulations, as well as program and degree requirements.
- **Field Studies and Study Abroad:** Information about various opportunities for studying outside of McGill, while registered at McGill.
- **Course Information:** Organized alphabetically within each faculty and containing course numbers, titles, credit weights, descriptions, prerequisites and additional course information. This information will only be in the PDF version of this Calendar. If you are using the online version, you can search courses at www.mcgill.ca/courses.

YOUR ACADEMIC CAREER AT MCGILL

University-wide Regulations

This Calendar contains the regulations about your undergraduate academic career at McGill. For regulations concerning when to register, when to add, drop or withdraw from courses, the consequences of missing deadlines, how grading appears on your transcript, and other important information, see section 3 “General University Information and Regulations”.

Faculty-specific Regulations

McGill has 11 faculties, and every student belongs to one of them. When you are admitted to McGill, your offer letter indicates the faculty, degree and program to which you have been accepted, and the number of credits you need to complete for your degree.

You should consult the appropriate faculty section in this Calendar for information pertinent to your degree and program, and for faculty-specific regulations. For some degrees, such as the *Bachelor of Arts and Science* (B.A. & Sc.), you belong to two faculties and will need to consult the section on the Bachelor of Arts and Science as well as the sections on each faculty.

Your Academic Program

You are registered in a **degree**, but for many degrees there are associated programs (a major, minor, major concentration, etc.). For some degrees, such as *Bachelor of Engineering*, you will typically follow one program (such as Computer Engineering). For others, such as *Bachelor of Arts*, you will typically follow more than one program (such as a major concentration in English, with a minor concentration in History).

A typical undergraduate degree at McGill is 120-140 credits (four years of full-time study).

- Quebec CEGEP students typically receive 30 credits of advanced standing, so they will usually only have a further 90-110 credits (three years of full-time study) to complete. This varies by faculty, so consult your faculty section. In your first year, you will be placed in **U1** (undergraduate year 1).
- Most other students typically have 120-140 credits to complete. This varies by faculty, so consult your faculty section. In your first year, you will be placed in **U0** (undergraduate year 0), which is often referred to in this Calendar and elsewhere, as your **freshman** year.
- Many students at McGill come with other forms of advanced standing (International Baccalaureate, French Baccalaureate, advanced placement exams, or students admitted from other universities as transfer students). If this is your case, you will receive information during the admissions process.

You will find **program requirements** in your faculty section or in departmental sections within a faculty. In some cases, you may pursue one of your programs in a department outside your faculty. For example, if you are enrolled in a *Bachelor of Commerce*, but are pursuing a minor concentration in Italian Civilization, you would consult the Desautels Faculty of Management section for the BCom requirements and the Italian Studies department section, under the Faculty of Arts, for the Italian Civilization program requirements.

Important things to know about your academic program:

- The number of credits needed to complete your degree. Typically, three credits correspond to a one-term course, but there are many variations.
- **Required courses:** Courses that you must complete to fulfil the requirements of a major, minor, etc., unless you receive exemptions. You have no choices among required courses.
- **Complementary courses:** Alternative courses that you can take to fulfil the requirements of a major, minor, etc. You choose a specified number of these courses.
- **Elective courses:** Courses that do not count toward the fulfilment of the requirements of your major, minor, etc. Students often select these courses from outside their program of study. Some restrictions may apply, but you have the most choice in selecting elective courses. Some faculties also permit you to take elective courses using the Satisfactory/Unsatisfactory option (see section 3.3.6). You should consult your faculty section concerning elective courses.
- Often, your department will also provide you with a **recommended list** of courses (or streams), so that you know the typical term-by-term course pattern.

For more assistance in understanding program requirements, and for a list of advisers on both downtown and Macdonald campuses, please see Undergraduate Advising, section 4.1.5 “Contact Information for Advising”.

10.8.6 Renewable Resource Management Domain, page 318
10.8.7 Water Environments and Ecosystems Domain, page 319
10.9 Major in Environment – B.Sc., page 321
10.9.1 Atmospheric Environment and Air Quality Domain, page 321
10.9.2 Earth Sciences and Economics Domain, page 322
10.10 Honours Program in Environment, page 323
10.11 Diploma in Environment, page 323
10.12 Field Studies, page 324

11 Desautels Faculty of Management, page 325

11.1 Desautels Faculty of Management, page 325
11.1.1 Location, page 325
11.1.2 Administrative Officers, page 325
11.1.3 The Bachelor of Commerce Program, page 326
11.1.4 BCom Student Affairs Office, page 326
11.1.5 Summer Studies, page 326
11.1.6 International Student Exchange Program, page 326
11.1.7 Transfer Credit and Advanced Standing, page 326
11.2 BCom Degree Admission Requirements, page 327
11.3 BCom Degree Requirements, page 327
11.3.1 Academic Requirements for Graduation, page 327
11.3.2 Cumulative Grade Point Average (CGPA), page 327
11.3.3 Course Requirements, page 327
11.3.4 Academic Advising, page 327
11.3.5 Registration, page 327
11.3.6 Course Overlap, page 328
11.3.7 Electives, page 328
11.3.8 Course Taken Under the Satisfactory/Unsatisfactory Option, page 329
11.3.9 Academic Standing, page 329
11.3.10 Time and Credit Limit for Completion of the BCom Degree, page 330
11.4 Grading and Credit, page 330
11.4.1 Examinations, page 330
11.4.2 Verification of Grades and Rereads, page 330
11.4.3 Awards and Honorary Designations, page 331
11.5 BCom Program Credit Structure, page 331
11.5.1 General Management Program (Concentrations), page 331
11.5.2 Major or Honours Programs, page 332
11.6 120-credit Program, Freshman Course Distribution, page 333
11.7 Management Core, page 333
11.7.1 Core Course Distribution, page 333
11.8 Concentrations (General Management Major), page 334
11.8.1 Accounting Concentration, page 334
11.8.2 Entrepreneurship Concentration, page 334
11.8.3 Finance Concentration, page 334
11.8.4 Information Systems Concentration, page 335
11.8.5 International Business Concentration, page 335
11.8.6 Labour-Management Relations Concentration, page 335
11.8.7 Management Science Concentration, page 335
11.8.8 Marketing Concentration, page 335
11.8.9 Operations Management Concentration, page 335
11.8.10 Organizational Behaviour Concentration, page 336
11.8.11 Strategic Management Concentration, page 336
11.9 Minors for Management Students, page 336
11.9.1 Minor in Mathematics, page 337
11.9.2 Minor in Statistics, page 337
11.10 Minors for Non-Management Students, page 337
11.10.1 Minor in Finance, page 337
11.10.2 Minor in Management, page 337
11.10.3 Minor in Management for Economics Students, page 338
11.10.4 Minor in Management for Engineering Students, page 338
11.10.5 Minor in Management for Science Students, page 338
11.10.6 Minor in Marketing, page 338
11.10.7 Minor in Operations Management, page 338
11.10.8 Minor in Technological Entrepreneurship for Engineering Students, page 339
11.10.9 Minor in Technological Entrepreneurship for Science Students, page 339
11.11 Majors, page 339
11.11.1 Major in Accounting, page 339
11.11.2 Major in Economics for Management Students, page 339
11.11.3 Major in Finance, page 339
11.11.4 Major in Information Systems, page 339
11.11.5 Major in International Management, page 340
11.11.6 Major in Labour-Management Relations, page 341
11.11.7 Major in Marketing, page 341
11.11.8 Major in Mathematics for Management Students, page 342
11.11.9 Major Concentration in Mathematics for Management Students, page 342
11.11.10 Major in Psychology for Management Students, page 342
11.11.11 Major Concentration in Statistics for Management Students, page 342
11.12 Honours, page 343
11.12.1 Honours in Economics for Management Students, page 343
11.12.2 Honours in Investment Management, page 343
11.12.3 Joint Honours in Economics and Accounting, page 344
11.12.4 Joint Honours in Economics and Finance, page 344
11.13 Academic Staff, page 345

- 13.5.7 Admissions Review Procedures, page 387
- 13.5.8 Registration Procedures, page 387
- 13.5.9 Withdrawal Procedures, page 387
- 13.5.10 Graduation Requirements, page 387
- 13.5.11 Course Selection, page 387
- 13.5.12 Academic Standing and Course Loads, page 388
- 13.5.13 Academic Achievement, page 388
- 13.5.14 Evaluation, page 388
- 13.5.15 Bachelor of Theology Program Requirements, page 388
- 13.5.16 B.Th. Honours, page 389

13.6 Academic Staff, page 389

14 Faculty of Science, including School of Computer Science, page 391

14.1 The Faculty, page 392
- 14.1.1 Location, page 392
- 14.1.2 Faculty Administrative Officers, page 392
- 14.1.3 Programs and Teaching in Science, page 392
- 14.1.4 Science Office for Undergraduate Student Advising (SOUSA), page 392

14.2 Faculty Admission Requirements, page 392

14.3 Faculty Degree Requirements, page 393
- 14.3.1 Minimum Credit Requirement, page 393
- 14.3.2 Residency, page 393
- 14.3.3 Cumulative Grade Point Average (CGPA), page 393
- 14.3.4 Time and Credit Limit for the Completion of the Degree, page 393
- 14.3.5 Program Requirements, page 393
- 14.3.6 Course Requirements, page 394

14.4 Advising, page 396

14.5 Registration, page 396
- 14.5.1 Program Registration, page 396
- 14.5.2 Course Registration, page 396
- 14.5.3 Apply to Graduate, page 397

14.6 Grading and Credit, page 397
- 14.6.1 Incomplete Grades, page 397

14.7 Examinations, page 397

14.8 Supplemental Assessments, page 397
- 14.8.1 Supplemental Examinations, page 397
- 14.8.2 Additional Work, page 398
- 14.8.3 Reassessments and Rereads, page 398

14.9 Academic Standing, page 398

14.10 Awards and Honorary Designations, page 399
- 14.10.1 Honours and First-Class Honours, page 399
- 14.10.2 Distinction, page 399
- 14.10.3 Dean's Honour List, page 399
- 14.10.4 Dean's Multidisciplinary Undergraduate Research List, page 399
- 14.10.5 Medals and Prizes, page 399

14.11 Lists of Programs Offered, page 400
- 14.11.1 Science program groups, page 400

14.11.2 Liberal Program - Core Science Components, page 400
14.11.3 Major Programs, page 400
14.11.4 Joint Major Programs, page 400
14.11.5 Honours Programs, page 400
14.11.6 Joint Honours Programs, page 401
14.11.7 Minor Programs, page 401
14.11.8 Concurrent B.Sc. and B.Ed. Program (Science or Mathematics for Teachers), page 401
14.11.9 Bachelor of Arts and Science, page 401
14.11.10 Internship Programs – Industrial Practicum (IP) and Internship Year in Science (IYS), page 401
14.11.11 Faculty of Arts Major and Minor Concentration Programs Available to Science Students, page 401
14.12 Undergraduate Research Opportunities, page 402
14.12.1 Department Research Projects, page 402
14.12.2 NSERC Undergraduate Student Research Awards, page 403
14.12.3 Undergraduate Research Conference, page 403
14.12.4 Industrial Practicum (IP) and Internship Year in Science (IYS), page 403
14.12.5 Field study and study abroad, page 403
14.12.6 Other opportunities, page 403
14.13 Academic Programs, page 403
14.13.1 Science Freshman Program, page 403
14.13.2 Anatomy and Cell Biology (ANAT), page 404
14.13.3 Atmospheric and Oceanic Sciences (ATOC), page 406
14.13.4 Biochemistry (BIOC), page 409
14.13.5 Biology (BIOL), page 411
14.13.6 Biotechnology (BIOT), page 416
14.13.7 Chemistry (CHEM), page 417
14.13.8 Cognitive Science, page 421
14.13.9 Computer Science (COMP), page 422
14.13.10 Earth and Planetary Sciences (EPSC), page 427
14.13.11 Earth System Science Interdepartmental Major (ESYS), page 429
14.13.12 Environment, page 430
14.13.13 Experimental Medicine (EXMD), page 430
14.13.14 Field Study, page 430
14.13.15 General Science, page 431
14.13.16 Geography (GEOG), page 431
14.13.17 Immunology Interdepartmental Honours, page 434
14.13.18 Interdisciplinary Life Sciences, page 435
14.13.19 Kinesiology for Science Students, page 436
14.13.20 Management Minor Programs, page 436
14.13.21 Mathematics and Statistics (MATH), page 436
14.13.22 Microbiology and Immunology (MIMM), page 442
14.13.23 Music, page 445
14.13.24 Neurology and Neurosurgery (NEUR), page 445
14.13.25 Neuroscience, page 445
14.13.26 Nutrition (NUTR), page 447
14.13.27 Pathology (PATH), page 447
14.13.28 Pharmacology and Therapeutics (PHAR), page 447
14.13.29 Physics (PHYS), page 449
14.13.30 Physiology (PHGY), page 454
14.13.31 Psychiatry (PSYT), page 456
14.13.32 Psychology (PSYC), page 457
14.13.33 Redpath Museum (REDM), page 460
14.13.34 Science or Mathematics for Teachers, page 460
14.13.35 Technological Entrepreneurship for Science Students, page 463

15 Field Studies and Study Abroad, page 465

15.1 Opportunities for Field Study and Study Abroad, page 465
15.2 Study Abroad Options, page 465
15.2.1 Bilateral Student Exchanges, page 465
15.2.2 CRÉPUQ Exchanges, page 465
15.2.3 Field Study Semesters and Off-Campus Courses, page 465
15.2.4 Study Away On Your Own, page 465
15.3 Field Studies, page 466
15.3.1 African Field Study Semester, page 466
15.3.2 Barbados Field Study Semester, page 466
15.3.3 Barbados Interdisciplinary Tropical Studies Field Semester, page 467
15.3.4 Panama Field Study Semester, page 467
15.3.5 Field Study Minor, page 467
15.4 Exchange Programs, page 468
15.4.1 Eligibility, page 468
15.4.2 Applying for an Exchange, page 468
15.4.3 Awards and Financial Assistance, page 468
15.5 Financial Assistance, page 468
15.5.1 Transfer of Credits from Host Institution, page 468
15.5.2 Universitas 21, page 468
15.5.3 The Killam Fellowships Program, page 468
15.5.4 Further Information and the Student Exchanges and Study Abroad (SESA) Service Desk, page 468
15.6 Internships and Co-op Programs, page 469
15.7 Off-Campus Summer Programs, page 469
15.7.1 Peking University Summer Chinese Program, page 469
15.7.2 McGill Summer Courses in Italy, page 469
15.7.3 Desautels Faculty of Management, page 469
15.8 Off-Campus Courses, page 469
15.8.1 Architecture, page 469
15.8.2 Art History & Communication Studies, page 469
15.8.3 Biology, page 469
15.8.4 Classics, page 469
15.8.5 Earth & Planetary Sciences, page 470
15.8.6 East Asian Studies, page 470
15.8.7 Geography, page 470
15.8.8 Italian Studies, page 470
15.8.9 Music, page 470
15.8.10 Political Science, page 470

INDEX OF UNDERGRADUATE PROGRAMS

A

Aboriginal Education for Certified Teachers (Certificate in Education) 266
Aboriginal Literacy Education (Certificate in Education) 265
Accounting - Major (B.Com.) 339
African Studies
Major Concentration in African Studies (B.A.) 127
Minor Concentration in African Studies (B.A.) 127
Agricultural Economics - Major (B.Sc.(Ag.Env.Sc.)) 93
Agricultural Economics - Specialization (B.Sc.(Ag.Env.Sc.)) . . 96
Agricultural Production - Minor 108
Agriculture and Food Systems (Multidisciplinary) - Specialization (B.Sc.(Ag.Env.Sc.)) 97
Agro-Environmental Sciences - Major (B.Sc.(Ag.Env.Sc.)) . . . 94
Anatomy and Cell Biology
Honours in Anatomy and Cell Biology (B.Sc.) 406
Liberal Program - Core Science Component in Anatomy and Cell Biology (B.Sc.) 405
Major in Anatomy and Cell Biology (B.Sc.) 405
Animal Biology - Specialization (B.Sc.(Ag.Env.Sc.)) 97
Animal Health and Disease - Specialization (B.Sc.(Ag.Env.Sc.)) 97
Animal Production - Specialization (B.Sc.(Ag.Env.Sc.)) 98
Anthropology
Honours in Anthropology (B.A.) 129
Joint Honours - Anthropology Component (B.A.) 130
Major Concentration in Anthropology (B.A.) 129
Minor Concentration in Anthropology 129
Applied Ecosystem Sciences - Specialization (B.Sc.(Ag.Env.Sc.)) 98
Architecture
Architecture (B.Sc.(Arch.)) 280
Art History
Honours in Art History (B.A.) 132
Joint Honours - Art History Component (B.A.) 132
Major Concentration in Art History (B.A.) 132
Minor Concentration in Art History 132
Atmospheric and Oceanic Sciences
Diploma in Meteorology 409
Honours in Atmospheric Science (B.Sc.) 408
Honours Program in Atmospheric Science - Atmospheric Chemistry Option (B.Sc.) 408
Joint Major in Atmospheric Science and Physics (B.Sc.) 408
Liberal Program - Core Science Component in Atmospheric and Oceanic Sciences (B.Sc.) . . 407
Major in Atmospheric and Oceanic Science (B.Sc.) 407
Major in Atmospheric Science - Atmospheric Chemistry Option (B.Sc.) 407
Minor in Atmospheric Science (B.Sc.) 407

B

Biochemistry
Honours in Biochemistry (B.Sc.) 411
Liberal Program - Core Science Component in Biochemistry (B.Sc.) 410
Major in Biochemistry (B.Sc.) 410
Biology
Honours in Biology (B.Sc.) 416
Liberal Program - Core Science Component in Biology (B.Sc.) 413
Major Concentration in Biology - Cell/Molecular Option (B.A. & Sc.) 239
Major Concentration in Biology - Organismal Option (B.A. & Sc.) 240
Major in Biology (B.Sc.) 413
Minor Concentration in Biology - Cell/Molecular Option (B.A. & Sc.) 240
Minor Concentration in Biology - Organismal Option (B.A. & Sc.) 240
Minor in Biology (B.Sc.) 413
Biomedical Sciences
Major Concentration in Biomedical Sciences (B.A. & Sc.) 241
Bioresource Engineering - Major (B.Eng.(Bioresource)) 103
Biotechnology Minor (B.Sc.) 417

C

Canadian Ethnic and Racial Studies Minor Concentration . . 134
Canadian Studies
Honours in Canadian Studies (B.A.) 135
Joint Honours - Canadian Studies Component (B.A.) . . 135
Major Concentration in Canadian Studies (B.A.) 135
Minor Concentration in Canadian Studies 135
Catholic Studies Minor Concentration 137
Chemical Engineering
Chemical Engineering (B.Eng.) 282
Chemistry
Honours in Chemistry - Atmosphere and Environment Option (B.Sc.) 419
Honours in Chemistry - Materials Option (B.Sc.) 420
Honours in Chemistry (B.Sc.) 419
Honours with Bio-Organic Option (B.Sc.) 419
Liberal Program - Core Science Component in Chemistry - Biological Option (B.Sc.) 420
Liberal Program - Core Science Component in Chemistry - General Option (B.Sc.) 421
Liberal Program - Core Science Component in Chemistry - Physical Option (B.Sc.) 421
Major Concentration in Chemistry (B.A. & Sc.) 241
Major in Chemistry - Atmosphere and Environment Option (B.Sc.) 420
Major in Chemistry - Bio-Organic Option (B.Sc.) 420
Major in Chemistry - Materials Option (B.Sc.) 420
Major in Chemistry (B.Sc.) 420
Minor in Chemical Engineering (B.Sc.) 421
Minor in Chemistry (B.Sc.) 421
Civil Engineering and Applied Mechanics
Civil Engineering (B.Eng.) 284
Classics
Honours in Classics (B.A.) 139
Joint Honours - Classics Component (B.A.) 139
Major Concentration in Classics (B.A.) 138
Minor Concentration in Classics 138
Cognitive Science
Honours Program in Cognitive Science (B.A. & Sc.) . . . 242
Interfaculty Program in Cognitive Science (B.A. & Sc.) . 241
Cognitive Science Minor (B.Sc.) 421
Communication Studies Minor Concentration 133
Computer Science
Honours in Computer Science (B.Sc.) 426
Joint Major in Computer Science and Biology (B.Sc.) . . 426
Liberal Program - Core Science Component in Computer Science (B.Sc.) 425
Liberal Program - Core Science Component in Software Engineering (B.Sc.) 425

Major Concentration in Computer Science (B.A.) 140
Major Concentration in Software Engineering (B.A. & Sc.) 242
Major Concentration in Software Engineering (B.A.). . . . 140
Major in Computer Science - Computer Games Option (B.Sc.) 424
Major in Computer Science (B.Sc.) 424
Major in Software Engineering (B.Sc.) 424
Minor Concentration in Computer Science (B.A.) 140
Minor in Computational Molecular Biology (B.Sc.) 424
Minor in Computer Science (B.Sc.) 423
Supplementary Minor Concentration in Computer Science (B.A.) 140

D

Dietetics - Major (B.Sc.(Nutr.Sc.)) 105

E

Earth and Planetary Sciences
Honours in Earth Sciences (B.Sc.) 428
Honours in Planetary Sciences (B.Sc.) 429
Liberal Program - Core Science Component in Earth and Planetary Sciences (B.Sc.) 428
Major in Earth and Planetary Sciences (B.Sc.) 428
Minor in Geochemistry (B.Sc.). 427
Earth System Science Major (B.Sc.) 430
Earth, Atmosphere and Ocean Sciences
Major Concentration in Earth, Atmosphere and Ocean Sciences (B.A. & Sc.) 243
East Asian Studies
Honours in East Asian Studies (B.A.) 144
Joint Honours - East Asian Studies Component (B.A.) . . 145
Major Concentration in East Asian Studies (B.A.). 143
Minor Concentration in Advanced East Asian Studies . . 143
Minor Concentration in East Asian Cultural Studies 142
Minor Concentration in East Asian Language and Literature 141
Ecological Agriculture - Certificate. 110
Ecological Agriculture - Minor 109
Ecological Agriculture - Specialization (B.Sc.(Ag.Env.Sc.)) . . . 98
Economics
Honours in Economics (B.A.) 147
Honours in Economics (B.Com.) 343
Joint Honours - Economics Component (B.A.) 148
Major Concentration in Economics (B.A.) 147
Major in Economics (B.Com.) 339
Minor Concentration in Economics - Stream I (B.A.). . . . 146
Minor Concentration in Economics - Stream II 147
Minor Concentration in Economics - Stream III (B.Com.) 147
Minor Concentration in Economics - Stream IV (B.A., Economics - Major) 147
Economics and Accounting - Joint Honours (B.Com.) 344
Economics and Finance - Joint Honours (B.Com.) 344
Education
Concurrent (B.Ed./B.Mus.) 259
Concurrent (B.Sc./B.Ed.). 259
Concurrent B.Sc. and B.Ed. 461
Kindergarten and Elementary (B.Ed.) 261
Kindergarten and Elementary (B.Ed.) - Jewish Studies Option 262
Minor in Education for Science Students (B.Sc.). 461
Physical and Health (B.Ed.) 268
Secondary (B.Ed.) 258
Teaching English as a Second Language (B.Ed.). 263
Teaching French as a Second Language (B.Ed.) 262
Education for Arts Students Minor Concentration (B.A.) 149
Educational Psychology Minor Concentration (B.A.) 149
Electrical and Computer Engineering
Electrical Engineering - Honours (B.Eng.) 286
Electrical Engineering - Regular (B.Eng.). 286
Software Engineering (B.S.E.) 288
Engineering (Minors)
Arts 296
Biomedical Engineering 296
Biotechnology 297

1 Important Dates 2009-10

The following Important Dates (formerly known as the *Calendar of Dates*) are accurate as of February 1, 2009. The information is subject to change and you are advised to verify the Important Dates website at www.mcgill.ca/importantdates (available mid-April). Key dates for the faculties and schools included in this Calendar are given below. The dates for schools are the same as the dates for faculties unless otherwise indicated.

- Agricultural and Environmental Sciences, including School of Dietetics and Human Nutrition and McGill School of Environment students registered in A&ES
- Arts, including School of Social Work, and McGill School of Environment students registered in Arts
- Centre for Continuing Education
- Dentistry
- Education
- Engineering, including School of Architecture
- Desautels Faculty of Management
- Graduate and Postdoctoral Studies
- Medicine, including the School of Nursing and the School of Physical and Occupational Therapy
- Religious Studies
- Schulich School of Music
- Science, including School of Computer Science and McGill School of Environment students registered in Science

FACULTY / SCHOOL LEGENDS			
A&ES	Agricultural and Environmental Sciences	MSW	Master in Social Work
ARCH	Architecture	MUS	Schulich School of Music
ART	Arts	NURS	Nursing
BSW	Bachelor of Social Work	P&OT	Physical and Occupational Therapy
CE	Continuing Education	PHD	Doctor of Philosophy
DENT	Dentistry	POSTDOC	Postdoctoral Scholars
D & HN	Dietetics and Human Nutrition	REL	Religious Studies
EDUC	Education	SCI	Science
ENG	Engineering	ALL	All students
FMT	Farm Management Technology	NEW	New students
GRAD	Graduate Studies	RET	Returning students
LAW	Law	SPECIAL	Special Students (Summer Term only)
MED	Medicine	VISITING	Visiting Students (Summer Term only)
MGMT	Desautels Faculty of Management	⟶	Read Activity column for details

ACTIVITY CODE LEGENDS			
ADV	Academic Advising	INFO	Information
APP	Application	LEC	Lecture
APPGRAD	Apply to graduate on Minerva	MTG	Meeting
AUD	Audition	NOTE	Note to students
AWRD	Awards (including scholarships)	ORIENT	Orientation
CONV	Convocation	PLEXAM	Placement exam—application and examination
DEF	Deferred—application and examination	PREXAM	Practical exam—application and examination
DEFADM	Deferral of Admission	READ	Readmission
EXAMS	Examinations	REG	Registration
EXCH	Exchange and Study Abroad Deadlines	STAGE	Field practice, etc.
EVENT	Event—reunion, carnival, presentation, etc.	SUPP	Supplemental—application and examination
FORM	Forms	THES	Thesis
HOLIDAY	Holiday	VERIF	Verification Period
IDCARD	ID Card	W	Course withdrawal
IFT	Inter-faculty transfer	W--	University withdrawal

DATE	ACTIVITY CODE	FACULTY/ SCHOOL	ACTIVITY
March 2009			
Mar. 1, 2009, Sun.	APP	ALL	Application deadline for all applicants studying, or who last studied, in a CEGEP in Quebec (except applicants to Music).
Mar. 1, 2009, Sun.	APP	GRAD	Application deadline for September admission to most departments for Graduate Studies. (Many departments have earlier deadlines. Please verify this date with the individual department or on the web at www.mcgill.ca/gradapplicants/apply.)
Mar. 1, 2009, Sun.	APP	LAW	Application deadline for admission to Law for students applying from a Quebec CEGEP, from a French Baccalaureate Diploma completed in the province of Quebec and for Law Visiting Applicants.
Mar. 1, 2009, Sun.	APP	MED	Application deadline for admission to the Med-P program for Quebec residents.
Mar. 1, 2009, Sun.	APP	DENT	Application deadline for admission to the Dent-P program for all CEGEP applicants.
Mar. 1, 2009, Sun.	APP	REL	Application deadline for Summer admission to Faculty of Religious Studies, BTh Program.
Mar. 1, 2009, Sun.	EXCH	GRAD	Deadline for incoming exchange applications at the graduate level Fall term (September) start and Winter term (January) start. (Many departments have earlier deadlines. Please verify with individual department or at www.mcgill.ca/gradapplicants/apply.)
Mar. 1, 2009, Sun.	SUPP	→	Application deadline for supplemental examinations in Fall term courses and N1/N2 courses from the Fall 2008 term for Arts (including School of Social Work), Education, Law, Nursing, Physical and Occupational Therapy, Religious Studies, and Science (not available for Agricultural and Environmental Sciences, Engineering (see section 9.3.5.10 "Deferred Examinations") or Management courses).
Mar. 4, 2009, Wed.	APPGRAD	→	Deadline to apply to graduate on Minerva for all Undergraduate students and Graduate students in all non-thesis programs (certificates, diplomas, Master's non-thesis) who expect to complete their program requirements at the end of the **Winter 2009 term (Spring 2009 convocation)**.
	NOTE	→	Last day for those students able to change program information via curriculum change on Minerva for **Winter term**.
Mar. 5, 2009, Thurs.	**REG**	→	Summer Term registration opens for Undergraduate students in their U3/U4 year and Continuing Education returning students.
	NOTE	MGMT	Access to Management courses is restricted to McGill U3 and U4 students in B.Com.; Minors in Management, Technical Entrepreneurship, Construction Engineering and Management; B.A. Joint Honours Economics and Finance, B.A. Faculty Program or Major in Industrial Relations; B.A. Major Concentration in Contemporary German Studies and Major in Agricultural Economics. Certain courses are restricted to B.Com. students only.
Mar. 5, 2009, Thurs.	**REG**	LAW	Summer Term registration opens for Law Undergraduate students.
Mar. 10, 2009, Tues.	**REG**	→	Summer Term registration opens for all Undergraduate students and Continuing Education newly-admitted and Special Students.
	NOTE	MGMT	Access to Management courses is restricted to McGill students in B.Com.; Minors in Management, Technical Entrepreneurship, Construction Engineering and Management; B.A. Joint Honours Economics and Finance, B.A. Faculty Program or Major in Industrial Relations; B.A. Major Concentration in Contemporary German Studies and Major in Agricultural Economics. Certain courses are restricted to B.Com. students only.
Mar. 12, 2009, Thurs.	**REG**	→	Summer Undergraduate Management courses open to all McGill students and Special and Visiting Students.
Mar. 13, 2009, Fri.	EXAMS	A&ES	Deadline to report all exam conflicts to the Student Affairs Office (Laird Hall, Room 106) for Winter term exams.
Mar. 15, 2009, Sun.	**REG**	NURS	Registration deadline for Summer NUR1 clinical courses to guarantee placement.
Mar. 17, 2009, Tues.	**REG**	→	Summer registration opens for Graduate students. Students should confirm dates with individual departments.
Mar. 17, 2009, Tues.	NOTE	→	Class schedule on Minerva is available for Fall 2009 and Winter 2010 registration.
Mar. 19, 2009, Thurs. to Apr. 14, 2009, Tues.	INFO	→	Online course evaluation period for Winter term: Evaluations available for completion on Mercury through Minerva.
Mar. 23, 2009, Mon.	ADV	ART/SCI	Departmental academic advising begins for returning students in B.A., B.A. & Sc., B.Sc. and B.S.W.
Mar. 23, 2009, Mon.	ADV	A&ES/FMT	Academic advising begins for all returning undergraduate and Farm Management and Technology students in the Faculty of Agricultural and Environmental Sciences.
Mar. 23, 2009, Mon. to Mar. 27, 2009, Fri.	ADV	MGMT	Distribution of all registration information for returning Management students.

DATE	ACTIVITY CODE	FACULTY/ SCHOOL	ACTIVITY
Mar. 23, 2009, Mon. to Apr. 2, 2009, Thurs.	ADV	EDUC	Academic advising and distribution of material for returning students in Education. Please consult the Student Affairs website at www.mcgill.ca/edu-sao for details.
Mar. 24, 2009, Tues. to Mar. 26, 2009, Thurs.	ADV	MUS	Distribution of registration information for returning students in the lobby of the Strathcona Music Building.
TBA	ADV	P&OT	Registration counselling in Physical and Occupational Therapy for returning students.
TBA	ADV	NURS	Academic advising for U2 Bachelor of Science (Nursing) students entering U3. Academic advising for BNUR-INT students entering U3.
Mar. 27, 2009, Fri.	LEC	DENT	Last day of lectures for Winter term for 4th year Dentistry students.
Mar. 30, 2009, Mon. to Apr. 16, 2009, Thurs.	ADV	MUS	Academic advising for returning students in Music. Appointments to be arranged by individual departments.
Mar. 30, 2009, Mon.	APPGRAD	→	Deadline for all Undergraduate students and Graduate students in all non-thesis programs (certificates, diplomas, Master's non-thesis) who expect to complete their program requirements at the end of the **Summer 2009 term (Fall 2009 convocation)** to apply to graduate on Minerva.
Mar. 31, 2009, Tues.	**REG**	→	Registration for Fall 2009 and Winter 2010 using Minerva begins for all students entering the graduating (U3/U4) year of their program (excluding Law and courses offered by the Desautels Faculty of Management, except as noted below), and all students in Graduate degree programs, except for Continuing Education.
	NOTE	EDUC	B.Ed. students doing 3rd Field Experience in the Fall 2009 term must be registered for their EDFE course no later than April 19. Students must refer to the www.mcgill.ca/ost website for detailed information.
Mar. 31, 2009, Tues.	**REG**	MGMT	Registration for Fall 2009 and Winter 2010 in Management courses begins for undergraduate students entering their graduating (U3) year: B.Com.; Minor in Management, Technological Entrepreneurship, Minor in Finance, Minor in Marketing, Minor in Operations Management, Construction Engineering and Management; B.A. Joint Honours Economics and Accounting; B.A. Joint Honours Economics and Finance; B.A. Faculty Program or Major in Industrial Relations; B.A. Major Concentration in Contemporary German Studies; and Major in Agricultural Economics.
Mar. 31, 2009, Tues.	**REG**	CE	Registration for Fall 2009 and Winter 2010 using Minerva begins for all returning Continuing Education-***Faculty of Education*** students only.
Mar. 31, 2009, Tues.	**DEF**	→	Deferred examination application opens on Minerva for Winter term and multi-term courses ending in the Winter 2009 term in Agricultural and Environmental Sciences, Arts (including School of Social Work), Continuing Education, Education, Engineering (see section 9.3.5.10 "Deferred Examinations"), Law, Management, Physical and Occupational Therapy, and Science. (Closes May 15, 2009)
Mar. 31, 2009, Tues. to May 22, 2009, Fri.	EXAMS	DENT	Examination period for 4th year Dentistry students.
April 2009			
Apr. 2, 2009, Thurs.	**REG**	→	Registration for Fall 2009 and Winter 2010 using Minerva begins for students in all programs entering their penultimate (U2) year of study (excluding Law and courses offered by the Desautels Faculty of Management except as noted below), except for Continuing Education.
Apr. 2, 2009, Thurs.	**REG**	MGMT	Registration for Fall 2009 and Winter 2010 in Management courses begins for undergraduate students entering their penultimate (U2) year of study:B.Com.; Minor in Management, Technological Entrepreneurship, Minor in Finance, Minor in Marketing, Minor in Operations Management, Construction Engineering and Management; B.A. Joint Honours Economics and Accounting; B.A. Joint Honours Economics and Finance; B.A. Faculty Program or Major in Industrial Relations; B.A. Major Concentration in Contemporary German Studies; and Major in Agricultural Economics.
Apr. 7, 2009, Tues.	**REG**	→	Registration for Fall 2009 and Winter 2010 using Minerva begins for all returning students (excluding Law and courses offered by the Desautels Faculty of Management except as noted below), except for Continuing Education.

2.1 History

The Hon. James McGill, a leading merchant and prominent citizen of Montreal, who died in 1813, bequeathed an estate of 46 acres called Burnside Place together with £10,000 to the "Royal Institution for the Advancement of Learning" upon condition that the latter erect "upon the said tract or parcel of land, an University or College, for the purpose of education and the advancement of learning in this Province"; and further upon condition that "one of the Colleges to be comprised in the said University shall be named and perpetually be known and distinguished by the appellation of 'McGill College'."

At the time of James McGill's death, the Royal Institution, although authorized by law in 1801, had not been created, but was duly instituted in 1819. In 1821 it obtained a Royal Charter for a university to be called McGill College. Further delay was occasioned by litigation, and the Burnside estate was not acquired until March 1829. The Montreal Medical Institution, which had begun medical lectures at the Montreal General Hospital in 1822, was accepted by the College as its Faculty of Medicine in June 1829. After further litigation, the College received the financial endowment in 1835 and the Arts Building and Dawson Hall were erected. The Faculty of Arts opened its doors in 1843.

Progress, however, was slow until the 1821 Charter was amended in 1852 to constitute the members of the Royal Institution as the Governors of McGill College. Since that time the two bodies have been one. It was first called "The University of McGill College" but in 1885 the Governors adopted the name "McGill University." Even after the amended charter was granted, little advance was made until 1855 when William Dawson was appointed Principal. When he retired 38 years later, McGill had over 1,000 students and Molson Hall (at the west end of the Arts Building), the Redpath Museum, the Redpath Library, the Macdonald Buildings for Engineering and Physics, and a fine suite of medical buildings had been erected.

Since then the University has continued to grow vigorously. In 1884 the first women students were admitted and in 1899 the Royal Victoria College was opened, a gift of Lord Strathcona, to provide separate teaching and residential facilities for women students. Gradually, however, classes for men and women were merged.

In 1905 Sir William Macdonald established Macdonald College at Sainte-Anne-de-Bellevue, as a residential college for Agriculture, Household Science, and the School for Teachers. Those components have since become the Faculty of Agricultural and Environmental Sciences, which includes the School of Dietetics and Human Nutrition, on the Macdonald Campus, and the Faculty of Education, located on the downtown campus. The University's general development has been greatly facilitated by the generosity of many benefactors, and particularly by the support of its graduates, as regular public funding for general and capital expenditures did not become available until the early 1950s. Since that time government grants have become a major factor in the University's financial operations, but it still relies on private support and private donors in its pursuit of excellence in teaching and research.

The University now comprises 11 faculties and 10 schools. At present over 32,000 students are taking credit courses; one in four is registered in Graduate Studies.

The University is also active in providing courses and programs to the community through the Centre for Continuing Education.

2.2 Incorporated and Affiliated Colleges

INCORPORATED COLLEGE

Royal Victoria College
3425 University Street, Montreal, QC H3A 2A8

The Royal Victoria College, a non-teaching college of McGill University, provides residential accommodation for women students.

AFFILIATED THEOLOGICAL COLLEGES

Montreal Diocesan Theological College
3473 University Street, Montreal, QC H3A 2A8
Principal: J. M. Simons; B.A.(Bishop's), S.T.B. (Trinity, Toronto), Ph.D.(Georgetown)

Presbyterian College of Montreal
3495 University Street, Montreal, QC H3A 2A8
Principal: J. Vissers; B.A.(Tor.), M.Div.(Knox, Toronto), Th.M.(Princeton), Th.D.(Knox, Toronto)

United Theological College of Montreal
3521 University Street, Montreal, QC H3A 2A9
Principal: P. Joudrey; B.A., M.Div.(Acadia), D.Min.(Andover Newton)

The above three colleges train students for the ministry and grant certificates for ordination but they have remitted their degree-granting powers, except with respect to the M.Div. and honorary doctorates, to the University.

2.3 University Government

McGill University is a corporation created by a Royal Charter granted by the Crown of the United Kingdom, a general supervisory power being retained by the Crown and exercised through the Governor General as Visitor.

The Governors of the University constitute the Royal Institution for the Advancement of Learning, a corporation existing under the laws of the Province of Quebec. In them is vested the management of finances, the appointment of professors, and other duties. Twelve of the governors are elected by the Board from amongst those nominated by its membership committee; three are elected by the Alumni Association; two are elected by Senate from amongst its members; two elected by the full-time administrative and support staff from amongst its members; two elected by the full-time academic staff; and two elected by students from amongst the student body. The Board elects the Chancellor of the University and also, from amongst its members, a chair to preside at its meetings, who may also be the Chancellor. The Chancellor and the Principal are ex officio members.

The Chancellor is presiding officer of Convocation and of joint sessions of the Board of Governors and the Senate.

The Chair of the Board of Governors is President of the Royal Institution for the Advancement of Learning.

The Principal and Vice-Chancellor is the chief executive officer of the University, appointed by the Board of Governors after consultation with a Statutory Committee to Nominate a Principal. The Principal is, ex officio, Chair of Senate.

The Senate is the highest academic authority of the University and has control over admission, courses of study, discipline, and degrees. The regulations of Senate are executed

by the various faculties and schools, which also carry primary responsibility for the educational work of the University.

2.4 Recognition of Degrees

The Royal Institution for the Advancement of Learning (McGill University) is a publicly funded institution and holds a Royal Charter dated 1821 (amended in 1852) as well as being incorporated under the laws of the Province of Quebec.

McGill University was a founding member of the organization which evolved into the current Association of Universities and Colleges of Canada (A.U.C.C.) in which it remains very active. In addition, McGill University is a member of the American Association of Universities (A.A.U.). It is also a member of the Association of Commonwealth Universities and the International Association of Universities. Its undergraduate, professional and graduate degrees, including doctorates in a full range of disciplines, have been recognized by educational, government and private organizations worldwide for decades.

All of McGill's degree programs are approved by the Quebec Ministère de l'Éducation, du Loisir et du Sport (MELS) and the Conférence des recteurs et des principaux des universités du Québec (CREPUQ).

2.5 Governance

(As of January 2009)

2.5.1 Visitor

The Governor General of Canada
Her Excellency The Right Honourable Michaëlle Jean

2.5.2 Board of Governors

BOARD OF GOVERNORS

Robert Rabinovitch; B.Com.(McG.), M.A., Ph.D.(Penn.) **Chair**

Richard W. Pound; O.C., O.Q., Q.C., C.A., B.Com.(McG.), B.A.(Sir G.Wms.), B.C.L.(McG.) **Chancellor**

Heather Munroe-Blum; O.C., B.A., B.S.W.(McM.), M.S.W.(W. Laur.), Ph.D.(N. Carolina)
Principal and Vice-Chancellor

Members
Roshi Chadha
Stuart (Kip) Cobbett; B.A., B.C.L.(McG.)
Lili de Grandpré; B.A.(Western), M.B.A.(McG.)
Darren Entwistle; B.Econ.(C'dia), M.B.A.(McG.)
Kathy Fazel; B.Com. (McG.)
Morna Flood Consedine; B.A.(C'dia), M.Ed., D.Ed.(McG.)
Trevor Garland; B.Sc.(McG.)
Kohur GowriSankaran; B.A., M.A.(Madr.), Ph.D.(Bombay)
Daniel Guitton; Dipl. IVK(U. Libre de Brux.), B.Eng., M.Eng., Ph.D.Eng., Ph.D.Physiol.(McG.)
David N. Harpp; A.B.(Middlebury), M.A.(Wesl.), Ph.D.(N. Carolina)
Eric Maldoff; B.A., B.C.L., LL.B.(McG.)
Michael Meighen; B.A.(McG.)
Jan Peeters; B.Eng.(McG.)
Gary Pekeles; B.Sc.(McG.), M.Sc.(McG.), MDCM(Baylor)
Michael Richards; B.A., B.C.L.(McG.)
Gerald Sheff; B.Arch.(McG.), M.B.A.(Harv.)
Ann Vroom; B.A.(McG.)
Thierry Vandal; B.Eng., M.B.A.(Montr.)
Allan Youster

Student Representatives
Students' Society of McGill (1)
Post-Graduate Students' Society of McGill (1)
Observers
McGill Association of Continuing Education Students (1)
Macdonald Campus Students' Society (1)

2.5.3 Members of Senate

Ex-officio
The Chancellor
The Chair of the Board of Governors
The Principal and Vice-Chancellor
The Provost, Deputy Provost, and the vice-principals
The deans of faculties
The Dean of Continuing Education
The Dean of Graduate and Postdoctoral Studies
The Dean of Students
The Director of Libraries

Elected Members
63 members elected by the faculties, the University Libraries, the Board of Governors, and administrative and support staff.
Medical Residents or Postdoctoral Scholars Group (1)
Student Members (19)

2.6 Administration

Heather Munroe-Blum; O.C., B.A., B.S.W.(McM.), M.S.W.(W. Laur.), Ph.D.(N. Carolina)
Principal and Vice-Chancellor

Anthony C. Masi; A.B.(Colgate), Ph.D.(Brown) **Provost**

Morton J. Mendelson; B.Sc.(McG.), Ph.D.(Harv.)
Deputy Provost (Student Life and Learning)

Kathleen Massey; B.A.(York)
University Registrar and Executive Director of Enrolment Services

Jana Luker; B.A.(Guelph), B.Ed., M.Ed.(Tor.)
Executive Director of Services for Students

William F. Foster; LL.B.(Auck.), LL.M.(Br.Col.)
Associate Provost (Policies and Procedures)

Jan Jorgensen; B.A., M.A.(N. Carolina), Ph.D.(McG.)
Associate Provost (Academic Staff and Faculty Affairs)

Martin Kreiswirth; B.A.(Hamilton), M.A.(Chic.), Ph.D.(Tor.)
Associate Provost (Graduate Education) and Dean (Graduate and Postdoctoral Studies)

Chandra Madramootoo; B.Sc., M.Sc., Ph.D.(McG.)
Associate Vice-Principal (Macdonald Campus) and Dean (Faculty of Agricultural and Environmental Sciences)

Sylvia Franke; LL.B., B.Sc.(Tor.) **Chief Information Officer**

Johanne Pelletier; B.A., M.A.(McG.) **Secretary-General**

François R. Roy; B.A., M.B.A.(Tor.)
Vice-Principal (Administration and Finance)

Lynne B. Gervais; B.A.(C'dia)
Associate Vice-Principal (Human Resources)

Jim Nicell; B.A.Sc., M.A.Sc., Ph.D.(Windsor), P.Eng.
Associate Vice-Principal (University Services)

Marc Weinstein; B.A., B.C.L., LL.B.(McG.)
Assistant Vice-Principal (Development and Alumni Relations) and Director (University Campaigns)

Richard I. Levin; B.S.(Yale), M.D.(NYU)
Vice-Principal (Health Affairs) and Dean(Faculty of Medicine)

Sam Benaroya; B.Sc., M.D., C.M.(McG.)
Associate Vice-Principal (Inter-Hospital Affairs)

Denis Thérien; B.Sc.(Montr.), M.Sc., Ph.D.(Wat.)
Vice-Principal (Research and International Relations)

Rima Rozen; B.Sc., Ph.D.(McG.)
Associate Vice-Principal (Research and International Relations)

Alain Dudoit; B.A.(Académie de Caen), B.A., B.Sc., LL.L., M.Sc.(Montr.)
Associate Vice-Principal (Strategic Innovation Partnerships)

Vaughan Dowie **Executive Head of Public Affairs**

2.6.1 Deans, Directors of Schools and Libraries

Deans

Chandra Madramootoo; B.Sc., M.Sc., Ph.D.(McG.)
Agricultural and Environmental Sciences

Christopher Manfredi; B.A., M.A.(Calg.), M.A., Ph.D.(Claremont)
Arts

Judith Potter; B.Sc.(Tor.), M.Ad.Ed.(St. FX), Ed.D.(Tor.)
Continuing Education

Paul J. Allison; B.D.S., F.D.S.R.C.S., M.Sc.(Lond.), Ph.D.(McG.)
Dentistry

Hélène Perrault; B.Sc.(C'dia), M.Sc., Ph.D.(Montr.) **Education**

Christophe Pierre; M.Sc.(Prin.), Ph.D.(Duke) **Engineering**

Martin Kreiswirth; B.A.(Hamilton), M.A.(Chic.), Ph.D.(Tor.)
Graduate and Postdoctoral Studies

Nicholas Kasirer; B.A.(Tor.), B.C.L., LL.B.(McG.), D.E.A.(Paris)
Law

Peter Todd; B.Com.(McG.), Ph.D.(Br.Col.) **Management**

Richard I. Levin; B.Sc.(Yale), M.D.(NYU) **Medicine**

Donald McLean; Mus.Bac., M.A., Ph.D.(Tor.) **Music**

Ellen Aitken; A.B.(Harv.), M.Div.(U. of the South), Th.D.(Harv.)
Religious Studies

Martin Grant; B.Sc.(PEI), M.Sc., Ph.D.(Tor.) **Science**

Jane Everett; M.A.(Car.), Ph.D.(McG.) **Dean of Students**

Directors of Schools and Libraries

Michael Jemtrud; B.Sc., B.Arch., B.A.(Penn. St.), M.Arch.(McG.)
Architecture

Shari R. Baum; B.A.(C'nell), M.S.(Vt.), M.A., Ph.D.(Brown)
Communication Sciences and Disorders

Gregory Dudek; B.Sc.(Qu.), M.Sc., Ph.D.(Tor.)
Computer Science

Kristine G. Koski; B.Sc., M.Sc.(Wash.), Ph.D.(Calif.)
Dietetics and Human Nutrition

Marilyn Scott; B.Sc.(New Br.), Ph.D.(McG.) **Environment**

France Bouthillier; B.Ed.(Que.), M.S.Bl.(Montr.), Ph.D.(Tor.)
Information Studies

Hélène Ezer; B.Sc., M.Sc.(McG.), Ph.D.(Montr.) **Nursing**

Maureen J. Simmonds; B.Sc., M.Sc.(P.T.), Ph.D.(Alta.)
Physical and Occupational Therapy

Wendy Thomson; B.S.W., M.S.W.(McG.), Ph.D.(Brist.)
Social Work

David Brown; B.A.(Bishop's), M.U.P.(McG.), Ph.D.(Sheffield)
Urban Planning

Janine Schmidt; B.A.(Qld.), M.Lib.(N.S.W.) **Libraries**

2.7 Student Governance

All students registered in an undergraduate program on the downtown (McGill) campus are registered members of the accredited Students' Society of McGill University, affectionately known as SSMU (Sm OOO). SSMU acts as your representation on key issues inside and outside of the campus. There are six elected executives of the SSMU who represent all 18,000 plus students on the downtown campus. There is a legislative council which meets twice a month that is comprised of a councillor from all faculty associations. This council of thirty-five members meets to discuss SSMU business.

The SSMU runs over 150 clubs and fourteen services and provides a great deal of extra curricular opportunities for students to balance a life of study with a life of play and also an opportunity to meet other students. The organization also provides event programming like freshman orientation (Frosh) and a winter open air pub (SnowAP). Each faculty and each department also have organizations dedicated to providing extra curricular involvement for their students.

Situated on the downtown campus, the SSMU operates a five-floor building including an international lounge, cafeteria, reading room, club office space and a campus multipurpose venue.

The SSMU offices are located at 3600 McTavish Street, suite 1200 and operate between the hours of 9:00 a.m. to 5:00 p.m. during the year and 10:00 a.m. to 4:00 p.m. in the summer.

For more information regarding student government at McGill you can contact:

President: **pres@ssmu.mcgill.ca**

Vice President Clubs and Services: **cs@ssmu.mcgill.ca**

Vice President Internal Affairs: **internal@ssmu.mcgill.ca**

Vice President External Affairs: **external@ssmu.mcgill.ca**

Vice President Finance and Operations: **operations@ssmu.mcgill.ca**

Vice President University Affairs: **ua@ssmu.mcgill.ca**

Or visit the website at www.ssmu.ca.

Welcome to McGill and we look forward to representing your interests.

3.1 General Policies and Information

3.1.1 Authorization, Acknowledgement and Consent

When applying for admission to the University, you are bound by and agree to observe all statutes, rules, regulations, and policies at McGill University and the faculty or faculties to which you may be accepted and registered in, including policies contained in the University Calendars and related fee documents. Your obligation as a student begins with your registration and ends in accordance with the University's statutes, rules, regulations, and policies.

You should verify all information or statements provided with your application. Incorrect or false information may jeopardize your admission. The University reserves the right to revoke an admission that is granted based on incorrect or false information in an application or supporting documents.

3.1.2 Student Rights and Responsibilities

The *Handbook on Student Rights and Responsibilities* is published jointly by the Office of the Dean of Students and the University Secretariat. It contains regulations and policies governing your rights and responsibilities as a student at McGill. You will receive it when you get your student ID card at the ID Centre (Downtown and Macdonald Campuses).

The Handbook is also available at www.mcgill.ca/deanofstudents/rights.

3.1.3 Language Policy

The main language of instruction at McGill is English. You have the right to write essays, examinations, and theses in English or in French except in courses where knowledge of a language is one of the objectives of the course.

If you need to improve your English skills, you should take an intensive course in *English as a second language* before or at the start of your studies. Information concerning second-language course offerings can be found in the Faculty of Arts section of this Calendar and in the Summer Studies and Continuing Education Calendars. There are special language requirements for Faculty of Education students; please see Faculty of Education section 8.2.1, "Undergraduate Education Programs".

3.1.4 Policy Concerning Access to Records

The University sends statements of account and all other correspondence directly to students. You retain full control over who has access to your records or accounts; however, officers and members of the University staff also have access to relevant parts of your records for recognized and legitimate use. The University does not send progress reports or any other information to your parents and/or sponsors unless you specifically request it in writing.

In accordance with Quebec's Act Respecting Access to Documents held by Public Bodies and the Protection of Personal Information (the "Access Act"), personal information, including transcripts of academic records, may be released only with the student's authorization. When you apply to McGill, you authorize the University to release certain personal information (name, address, telephone number, email address, date of birth, program and student status) to specific persons and bodies.

The following persons and bodies are included in your information release authorization:

a. Libraries of other Quebec universities with which McGill has reciprocal borrowing agreements (ID number and bar code may also be disclosed to those libraries).
b. *Ministère de l'Immigration et des Communautés culturelles* and/or the *Régie de l'assurance-maladie du Québec* and the *Ministère de l'Éducation, du Loisir et du Sport* (MELS).
c. The appropriate authorities involved with the external or internal funding of your student fees (financial records may also be disclosed to those authorities).
d. The Association of Universities and Colleges of Canada.
e. The Association of Registrars of Universities and Colleges of Canada and the *Conférence des recteurs et des principaux des universités du Québec*, or the member institutions of these organizations, for the purpose of admissions operations and the production of statistics.
f. The school(s) or college(s) that you attended.
g. Students and alumni who have volunteered to speak with admitted students.
h. Student Associations recognized by McGill University for the student category(ies) to which you belong.
i. The McGill Alumni Association.
j. Professional bodies or corporations (e.g., engineers, dentists).
k. McGill Network and Communications Services for the purposes of listing your McGill email address in an online email directory.

If you do not want to authorize the University to disclose personal information to the organizations mentioned above in h, i, j and k, you must complete and submit an Opposition Form, available at Enrolment Services.

3.1.5 Email Communication

All students are assigned a McGill Email Address (usually in the form of firstname.lastname@mail.mcgill.ca) and are given a McGill email mailbox. You can view your McGill Email Address and set your McGill Password on Minerva, under the *Personal Menu*.

Email sent to your McGill Email Address is an official means of communication between McGill University and its students. As with all official University communications, it is your responsibility to ensure you read and act upon University emails in a timely fashion. If you choose to forward University email to another email mailbox, it is your responsibility to ensure that the alternate email mailbox is valid.

You should read the *Code of Conduct for Users of McGill Computing Facilities* and the *Email Communications with Students* policy found under Information Technology on the University Secretariat website at www.mcgill.ca/secretariat/policies/informationtechnology. For more information on email for students, refer to www.mcgill.ca/it and see section 4.6 "For your Information Technology (IT) needs".

3.1.6 Academic Integrity

When submitting work in your courses, you must understand the meaning and consequences of plagiarism and cheating, which are extremely serious academic offences. If you have any doubt as to what might be considered plagiarism when you are preparing an essay or term paper, you should consult the course instructor to obtain appropriate guidelines. You should also consult the student guide to the meaning of plagiarism on the Academic Integrity website at www.mcgill.ca/integrity, where you will find links to instructional tutorials and strategies to prevent cheating. The *Code of Student Conduct and Disciplinary Procedures* includes sections on plagiarism and cheating. You can find the Code in the *Handbook on Student Rights and Responsibilities*, available through the Academic Integrity website or at www.mcgill.ca/deanofstudents/rights.

The possession or use of unauthorized materials in any test or examination constitutes cheating. Responses on multiple-choice exams are normally checked by the Exam Security Computer Monitoring program. The program detects pairs of students with unusually similar answer patterns on multiple-choice exams. Data generated by this program can be used as admissible evidence in an investigation of a possible violation under Section 16 of the *Code of Student Conduct and Disciplinary Procedures*.

The Office of the Dean of Students administers the academic integrity process as described in the *Handbook on Student Rights and Responsibilities*.

3.1.7 Proper Use of Computing Facilities

You must comply with the *Code of Conduct for Users of McGill Computing Facilities* as approved by the University Senate. You can find the Code in the *Handbook on Student Rights and Responsibilities*.

This Code (or policy) is also posted in the University Secretariat listing of *University Policies, Procedures and Guidelines* under Information Technology, at www.mcgill.ca/secretariat/policies/informationtechnology.

3.1.8 Non-smoking Policy

Quebec law prohibits smoking in public buildings.

3.1.9 Health Professions – Immunization Requirement

A compulsory immunization program exists at McGill for students in the health professions, including Dietetics. If you are a new student in those programs, you must complete the immunization program well before classes begin. You can find further information on our website at www.mcgill.ca/studenthealth/forms or by calling the Student Health Service at 514-398-6017.

3.1.10 Health Insurance – International Students

By Senate regulation, all international students (full-time, part-time, half-time, additional session, special, exchange and visiting) and their accompanying dependants who do not have Canadian citizenship or Permanent Resident status must participate in the University's compulsory sickness and accident plan. For enrolment procedures and details on the health insurance plan, consult the International Student Services website. For information concerning rates, see www.mcgill.ca/internationalstudents/health/faq/#3.

All inquiries related to this University policy must be directed to International Student Services.

International Health Insurance
Telephone: 514-398-6012
Email: international.health@mcgill.ca
Website: www.mcgill.ca/internationalstudents/health

3.1.11 Health Insurance – Canadian Residents

If you are a Canadian student from outside Quebec, you should check with your provincial medicare office to ensure that you have valid health coverage while studying at McGill.

If you are a Canadian student who has been living abroad, you may not be eligible for provincial health insurance coverage. To ensure adequate health insurance coverage, you may enrol in the group plan offered through International Student Services. Please note that this option is available only during the first month of your first semester at McGill.

All undergraduate students who pay tuition fees at either the Canadian or Quebec rates and who are members of the Students' Society of McGill University (SSMU) or the Macdonald Campus Students' Society (MCSS) are automatically covered by the Students' Society's Health and Dental Plans. For details on fees, change of coverage dates and on what is covered by the plans, please refer to www.aseq.com. If you're not sure of your eligibility, please contact the *Alliance pour la santé étudiante au Québec (ASEQ)* at 514-789-8775.

3.1.12 Special Medical Needs

If you have special medical needs, have your physician submit appropriate information, on a confidential basis, directly to the Student Health Service; see section 4.3.2 "Student Services – Downtown Campus" for contact information on the Downtown Campus and see section 4.3.3 "Student Services – Macdonald Campus" for Macdonald Campus contact information.

3.1.13 Minerva

Minerva is McGill's web-based information system serving students, staff and faculty. To access Minerva, go to www.mcgill.ca/minerva and click the Login icon. Once logged in to Minerva, you can:

- View class schedules, including course descriptions and spaces available in course sections.
- Register and make course changes.
- View your unofficial transcript and degree evaluation reports.
- View your Permanent Code, citizenship and Quebec residency status and fee information.
- Update personal information such as address, telephone number and emergency contacts.
- Apply to graduate.
- View graduation status and convocation details.
- View your McGill login information to access the Internet and email.
- Order official transcripts.
- Retrieve tax receipts.
- Submit an online course evaluation.
- Apply to McGill and view your application status.

In addition, students in some faculties can use Minerva to change their major or minor programs, and to apply for an Exchange program.

3.1.14 *my*McGill

McGill's web portal, *my*McGill, gives students and staff a personalized interface to the University's information systems.

*my*McGill offers an integrated web experience with a single sign-on (SSO) to several McGill web systems. This allows you to access multiple McGill systems without being prompted for additional logins. To log into *my*McGill, click the *my*McGill tab at the top-right corner of the McGill homepage (www.mcgill.ca) or go to http://my.mcgill.ca.

3.2 Personal Information

3.2.1 Updating Personal Information

It is important to keep your official records up to date, especially your mailing or billing address, because these are used by the University year round. If your address information on file is invalid, incomplete or missing, the University will hold your mail. Once you have provided a valid address, the University will resume sending your mail.

You must update your address(es) and/or telephone number(s) and emergency contact information on Minerva under the *Personal Menu*.

If you are away from campus and do not have access to the Internet, you can request changes by writing to your student affairs office or to Enrolment Services. Your written request must include your signature.

If you need to change important personal information that requires the University to verify official documents, such as a change to your name or citizenship, or correction of your birth date, you must go in person (as soon as possible) to Enrolment Services, James Administration Building, Room 205. Macdonald Campus students can request changes in person at the Student Affairs Office, Laird Hall, Room 106.

3.2.2 Legal Documents

3.2.2.1 Why Does McGill Collect Legal Documents from You?

Tuition fees at McGill vary depending on whether you have provided us with proof that you are a Quebec student, a Canadian out-of-province student, or an international student, as per section 3.2.2.2, "What Documents Does McGill Need from You?".

Some of the documents McGill requests from you help us obtain your **Permanent Code** from the Government of Quebec. This unique 12-character code, is issued by the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS), and is obligatory for all students registered in a Quebec institution.

If you have previously attended school in Quebec, you already possess a Permanent Code - you can find it on your school report card or your CEGEP or university transcript. After you have accepted the University's offer of admission, you can check on Minerva (under the *Personal Menu*) to see if McGill has received your Permanent Code.

You can consult your tuition and legal status (including your Permanent Code) on Minerva. Select *Student Menu* > *Student Accounts Menu* > *View your Tuition and Legal Status*.

3.2.2.2 What Documents Does McGill Need from You?

Follow the instructions in the **first** row of this table that apply to you. **Send clear, legible copies of documents (not originals).**

Quebec and Canadian-Out-Of-Province Students

You have applied to McGill directly from CEGEP or you already have a student record at McGill	• Usually **no documents** are required for your Canadian and/or Quebec status, based on McGill's records or as confirmed by the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS)
You have applied to McGill from another Quebec university	• Canadian birth certificate; or Canadian citizenship card (both sides); or Certificate of Indian status card; or Makivik Society card; or Record of Permanent Resident status (note 3) • For your Quebec residency status, usually no documents are required, unless McGill cannot confirm this from the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS)
You were born in Quebec	• Quebec **birth certificate** (note 1 and 5) • Permanent Code Data Form (note 2 and 6)
You were born (or became a Landed Immigrant) in a Canadian province other than Quebec	• Canadian birth certificate; or Canadian citizenship card (both sides); or Certificate of Indian status card; or Makivik Society card; or Record of Permanent Resident status (note 3) • Permanent Code Data Form (note 2 and 6)
You are a Quebec resident through one of the other situations outlined by the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS)	• Canadian birth certificate; or Canadian citizenship card (both sides); or Certificate of Indian status card; or Makivik Society card; or Record of Permanent Resident status (note 3) • Permanent Code Data Form (note 2 and 6) • Attestation of Residency in Quebec Form (note 6) • **Other supporting documents**, depending on which situation you checked on the above Attestation of Residency Form

International Students

You will be in Canada for less than 6 months (i.e. for only one academic semester)	• Visitors Permit issued by Citizenship and Immigration Canada at your port of entry into Canada • Photo page of your passport and the page stamped by Citizenship and Immigration Canada at your port of entry • Permanent Code Data Form (note 2 and 6)
You will be in Canada for more than 6 months (i.e. for two or more consecutive academic semesters)	• Certificate of Acceptance of Quebec (CAQ) • Permanent Code Data Form (note 2 and 6) • Study Permit issued by Immigration Canada (note 4)

Note 1: You may alternatively provide your Quebec baptismal certificate if it was issued **prior to January 1, 1994,** and clearly shows where you were born and that your baptism in Quebec occurred no more than four months after your date of birth.

Note 2: Your signed Permanent Code Data Form is usually required. If the names of your parents appear on your birth certificate, or if you have already provided McGill with your Permanent Code, you do not need to supply this form.

Note 3: Your Canadian Permanent Resident status can be proved by a copy of your Immigration Canada IMM 5292 document together with your Canadian Permanent Resident card (copy of both sides required). Alternatively, you may provide your IMM 1000 document along with your Permanent Resident card (copy of both sides required).

Note 4: If you are a refugee, you should instead provide your Convention Refugee status document.

Note 5: Usually McGill needs your birth certificate to prove your place of birth in Quebec. If you already have a valid Quebec Permanent Code, but McGill is still charging you Canadian fees, McGill will accept as proof that you qualify for Quebec residency a copy of your Canadian passport that indicates your birth place as being within the province of Quebec.

Note 6: You can find links to download and print the Permanent Code Data and Attestation of Quebec Residency forms at www.mcgill.ca/legaldocuments/forms.

Fee Exemptions

Students in certain categories may be eligible to claim an exemption from the international rate of tuition fees according to the regulations set by the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS).

If you are eligible for one of the exemption categories you are assessed at the Quebec rate of tuition. You can find a list of categories and the required application form at www.mcgill.ca/student-records/fees/exemption and also at Enrolment Services. An exemption will not be granted unless you submit the application form along with your supporting documents to Enrolment Services.

3.2.2.3 Has McGill Received Your Documents?

Quebec/Canadian/International Fees

Once McGill has received your documents, it usually takes McGill one week to process them and update your file accordingly.

- Check your tuition status on the Minerva student accounts menu: *Student Menu* > *Student Accounts Menu* > *View your Tuition and Legal Status*.
- Check the phrase: *Fees currently calculated according to rules for...* This will tell you if you are assessed as: an international student, a Canadian student, or a Quebec student.
- Electronic billing is the official means of delivering fee statements to all students; you may view your e-bill on Minerva. For more information, see the following website: www.mcgill.ca/student-accounts/e-bill.

If you do not agree with your assessment, notify McGill right away. If you provide additional documentation in support of your file after the last day of classes for the given term, McGill cannot accept changes or offer you a lower tuition rate for that term.

Permanent Code

The Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS) usually takes one to four weeks to verify or issue your Permanent Code.

- Check your Permanent Code on Minerva: *Personal Menu* > *Name Change* or alternately via *Student Menu* > *Student Accounts Menu* > *View Tuition Fee and Legal Status*. If your 12-character Permanent Code appears there, your documents are in order. If not, you have not yet provided McGill with your documents listed above or the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS) has not yet confirmed that your documents are sufficient to create a Permanent Code.

3.2.2.4 What Are the Consequences of Not Providing Your Documents?

McGill must receive all proofs of citizenship, requests for Quebec residency, international fee exemptions, and immigration status changes by the end of the last day of classes of a current term for them to take effect for that term. **All requests received after the last day of classes will be processed but your fees will only be lowered for the following term.**

McGill cannot issue you an ID card until all of your documents have been received. Your ID card is essential to use many services on campus, and to take your final exams.

If your Permanent Code is not issued by October 15 (Fall term) or February 15 (Winter term), a hold will be added to your record until McGill has received the necessary documents. This hold will

prevent you from registering or dropping any courses and from obtaining your official transcript. If you are registered in one term or in a one-year program, the University may put a hold on your record earlier in the term.

If your tuition fees are reduced because of the document review process, McGill will waive the difference on any accumulated late payment or interest charges.

3.2.2.5 Where Do I Send my Documents?

You must send in all your documents after you have been accepted to McGill but before your classes begin. **Do not send originals.** Email, fax or mail clear and legible copies of your documents. Write your student ID on the documents so that McGill can match them to your record. The sooner you submit your documents, the sooner the University can update your status and ensure that your record is in order.

By Email:
Follow these steps to submit your legal documents electronically:

1. **Save the attached file in an accepted format:**
   - Standard PDF (.pdf) - encrypted PDFs will not be accepted.
   - Tagged image format (.tif, .tiff; for scans).

Ensure that you save your documents properly in one of the above formats - do not just rename the file extension. Due to the possibility of computer viruses, McGill does not accept Microsoft Word documents (.doc), hypertext files (.htm, .html), JPG, GIF, or any other format.

2. **Ensure that the resolution used is at least 300 dpi** (dots per inch) for an electronic replica (scan) of documentation (e.g., a scan of your birth certificate). The preferred file size is 100KB per image.
3. **Address your email to** legaldocumentation@mcgill.ca **and attach your relevant scanned document(s).** Attach the file(s) to your email; do not include the documents in the body of your email.
4. **Put your First Name, Last Name, and McGill ID number in the subject line of your email.**
   Note: Individual email size (including your attachments) should not exceed 5 MB (5120 KB).

3.2.3 Identification (ID) Cards

As a student registered at McGill you are required to present an ID card to write examinations, when using libraries and student services and certain laboratories, and to access many residences.

To receive your ID card, you must be a registered student, and you must present your Permanent Code information and proof of legal status in Canada (for a list of acceptable documents, see section 3.2.2 “Legal Documents”).

ID cards will not be issued if any of your legal documents are missing.

Note: you must allow at least three hours after you have registered before applying for your ID card.

Apply for your ID card at these times and locations:

Quebec CEGEP students: Tuesday, June 9 to Tuesday, Sept. 1, 2009. Open 9:00 a.m. to 5:00 p.m. (Note that we are closed on: Wednesday, June 24 and Wednesday, July 1st and weekends). You are encouraged to come during this period to avoid lineups later in August. No international students can be issued an ID card before August 19.	Enrolment Services James Administration Building, Room 205
Canadian and Quebec students: Tuesday, July 28 to Tuesday, Sept. 1, 2009. Open 9:00 a.m. to 5:00 p.m. (except weekends). You are encouraged to come during this period to avoid lineups later in August. No international students can be issued an ID card before August 19.	Enrolment Services James Administration Building Room 205
All students, including international students: Wednesday, August 19 to Friday, August 28, 2009. Open 9:00 a.m. to 5:00 p.m. including Saturday and Sunday, August 22-23.	Lorne M. Trottier Building 3630 University Street
Starting Tuesday, September 1, 2009: Normal office hours.	Enrolment Services James Administration Building Room 205

ID Card Schedule for the Macdonald Campus:

Quebec CEGEP students (newly registered) may obtain an ID card from the Student Affairs Office, Room 106, Laird Hall. Office hours are from 9:00 a.m. to 4:00 p.m., Monday through Thursday and 9:00 a.m. to 3:00 p.m. on Friday throughout the Summer. Please note that the Student Affairs Office will be closed for the statutory holidays of Wednesday, June 24, and Wednesday, July 1.

Canadian and Quebec Students may obtain an ID card August 3 to 22, from 9:00a.m. to 4:00p.m. Monday through Thursday and 10:00a.m. to 3:00p.m. on Friday from the Student Affairs Office, Room 106, Laird Hall. If you are unable to obtain your ID card on one of the above dates, you will be able to obtain it during orientation activities the week of August 24.

International Students may obtain an ID card as of August 19, 2009 from the Student Affairs Office, Room 106, Laird Hall.

As of Tuesday, September 1, 2009, you may obtain an ID card from the Macdonald Campus Student Affairs Office during normal office hours.

Notes:

- If you do not register for consecutive terms you should retain your ID card to avoid having to replace it when you re-register.
- If your card has expired there is no charge for a replacement as long as you hand in the ID card.
- If you change programs or faculties there is no charge as long as you hand in the ID card.
- If your card has been lost, stolen or damaged, there is a $20 replacement fee.
- If you need security access to labs or other facilities, see www.mcgill.ca/security/services/access.

The Student Identification Card is the property of the University, for use by the cardholder only and is not transferable. If you withdraw from all of your courses, you must attach your ID card to the withdrawal form or return it to Enrolment Services (or the Faculty of

Agricultural and Environmental Sciences, Student Affairs Office, Macdonald Campus).

3.2.4 Name

3.2.4.1 Legal Name

This is the name that will appear on your degree, diploma or certificate on graduation, and on your transcript. It is also used by the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS) to create a Permanent Code.

All students are registered under their legal name as it appears in one of the following documents:

1. Canadian birth certificate.
2. Canadian Immigration Record of Landing (IMM1000 or IMM5292 and Permanent Residence card, both sides).
3. Canadian Immigration Study or Work Permit document.
4. Certificate of Acceptance of Quebec (CAQ).
5. International passport (for Canadians, a Canadian citizenship card is required. Note that a Canadian passport is not acceptable).
6. Letter from international student's consulate or embassy in Canada.
7. Marriage certificate issued outside of Quebec (translated into English or French by a sworn officer if in another language). Note that Quebec marriage certificates are only acceptable if issued prior to 1984.

In the case of a variation in the spelling of the name among these documents, the University will use the name on the document that appears first on the above list.

3.2.4.2 Preferred First Name

You can provide a preferred first name on your application for admission or, once admitted, you may send a signed request to Enrolment Services, James Administration Building, Room 205, for the name to be updated on your file.

Your preferred first name appears on class lists (in parentheses beside your legal name) for use by instructors.

3.2.5 Verification of Name

Verify the accuracy of your name on McGill's student records via Minerva. To do this, go to the *Personal Menu* > *Name Change Form*, where you can make minor corrections such as changing case (upper/lower), adding accents and spacing. However, you **cannot** change the name on your record via Minerva. Requests for such changes must be made by presenting official documents (see section 3.2.4 “Name”) in person at Enrolment Services, James Administration Building, Room 205.

3.3 Registration

Once you have confirmed your intention to attend McGill on Minerva at www.mcgill.ca/minerva, you must register by adding courses to your record during the registration periods listed below. You must register on Minerva and can continue to do so throughout the registration period by adding and dropping courses until you have finalized your schedule.

Refer also to Registration information in your faculty section.

All course descriptions are available at www.mcgill.ca/courses. If you are a new student you should refer to the section “Course Information, Regulations and Descriptions” to familiarize yourself with McGill's course numbering system, multi-term course rules, and course terminology.

For fee policies related to registration and withdrawal from courses or withdrawal from the University, please refer to all parts of section 3.4, “Fees”.

3.3.1 Registration Periods

The dates given below were accurate when this Calendar was published. Although changes are not anticipated, you should confirm the dates at www.mcgill.ca/student-records.

Returning Students

Registration will take place between Tuesday, March 31 and Monday, July 27, 2009.

Registration will open in the following order:

Year 3 and Year 4 students:	Tuesday, March 31
Year 2 students:	Thursday, April 2
All other returning students:	Tuesday, April 7

Some faculties and departments set their own schedules for advising and registration as of these dates. Further information is available at the faculty student affairs offices and websites.

To successfully complete registration, you must have an acceptable academic standing from the previous session and have paid any outstanding fees and/or fines.

Newly Admitted Students Entering in September 2009

Registration will take place between Tuesday, June 9 and Tuesday, September 1.

Registration will open in the following order:

Tuesday, June 9, registration opens for students admitted from Quebec CEGEPs.

Tuesday, July 28, registration opens for students whose highest level of education prior to registering at McGill is a French Baccalaureate, International Baccalaureate or at least one year of university.

Wednesday, July 29, registration opens for students whose highest level of education prior to registering at McGill is high school, and who have been admitted to the following faculties/schools/degrees: Arts, B.A. & Sc. degree, Education, Management, Music, Religious Studies, and Social Work.

Thursday, July 30, registration opens for students whose highest level of education prior to registering at McGill is high school, and who have been admitted to the following faculties/schools: Agricultural and Environmental Sciences, Engineering including Architecture, Nursing, Physical and Occupational Therapy, and Science.

If you are a newly admitted student entering in September 2009 and you want to register for courses in the Summer of 2009, you can do so on Minerva. Please check the *Summer Studies Calendar* for further information or see www.mcgill.ca/summer.

Newly Admitted Students Entering in January 2010

Registration will take place between Thursday, December 3, 2009, and Monday, January 4, 2010.

Some faculties and departments require that you meet with an adviser before registration and set specific dates for advising and registration within these dates. Please refer to the faculty sections of this Calendar, as well as to the *Welcome to McGill* booklet or the *Essential Guide for New Students, Macdonald Campus*, which are included with your acceptance package.

3.3.1.1 Late Registration

If you fail to register during the normal registration period, you can register within the period designated by the University for late registration. You will be assessed a late registration fee as listed below:

Returning Students: You may register late from Tuesday, July 28 until and including Tuesday, September 1 with the payment of a late registration fee of $50 ($20 for Special Students).

New, Readmitted, and Returning Students (Fall): You may register late via Minerva from Wednesday, September 2 until

Tuesday, September 15 with the payment of a late registration fee of $100 ($40 for Special Students).

New and Readmitted Students (Winter): You may register late via Minerva from Tuesday, January 5 until Tuesday, January 19 with the payment of a late registration fee of $100 ($40 for Special Students).

Special Late Registration: If you cannot register online during the late registration period, usually due to late admission, you may receive special permission to register in person. This information is included with your letter of acceptance.

3.3.2 Class Schedule

Class Schedule for the upcoming Fall and Winter terms normally becomes available in mid-March at www.mcgill.ca/courses. The Summer term schedule is normally published in January. Class Schedule includes the days and times when courses are offered, class locations, names of instructors, and related information. You can also access the Calendar entries of scheduled courses by clicking the CRN (course reference number) that appears with each course section shown in Class Schedule.

You should make a note of any preregistration requirements for a course, such as placement tests or departmental approval/permission required.

Class Schedule information is subject to change and is updated as courses are added, cancelled, rescheduled or relocated. It is your responsibility to consult Class Schedule at the time of registration, and again before classes begin, to ensure that changes have not caused conflicts in your schedule.

3.3.3 Course Load

It is your responsibility to follow the faculty regulations listed below. When registering on Minerva, you *must not* exceed the maximum credits permitted by your faculty.

For information on course load requirements for entrance scholarships' renewal and in-course awards, see section 3.8.1 "Entrance Awards for McGill Students".

The normal course load in most undergraduate faculties is 15 credits per term. If you carry fewer than 12 credits per term, you are considered a part-time student in that term.

For students in the Faculty of Engineering, Faculty of Education, and Schulich School of Music, the normal course load is 15 to 18 credits per term.

Newly admitted students in Arts, Management, Religious Studies and Science may take up to 17 credits per term.

Students in satisfactory standing may take up to 17 credits per term (18 credits in Music and Engineering).

Students in probationary standing take up to 12 credits per term, with the following exceptions:

- Agricultural and Environmental Sciences: 14 credits.
- Arts: up to 14 credits, with special approval of the Associate Dean.
- Engineering: 13 credits, including repeated courses.
- Music: 14 credits.
- Management: 12 credits maximum of new material.
- Science: up to 14 credits, with special permission of Director, Advising Services.

In some cases a student in probationary standing may add a repeated course in which a grade of D or F was obtained.

Students in Arts, Management, Religious Studies, or Science whose CGPA is above 3.00 may take 18 credits per term; however, you are strongly urged to consult an adviser before doing so.

3.3.3.1 Course Information and Regulations

For course information and regulations, see "Course Information, Regulations and Descriptions".

3.3.4 Changing Programs within Selected Faculties

If you are registered in one of the following, you may add or change programs within your faculty using Minerva:

- Arts
- Science (see Note 2 below)
- Bachelor of Arts and Science degree
- Management (certain programs only)
- Education (certain programs only)
- Engineering (certain programs only)

Certain restrictions apply. In all cases, you should consult the appropriate adviser for approval before making any changes and for faculty-specific regulations concerning program changes.

You are not permitted to use Minerva to change degree (with the exception of Engineering, as below) or to select a program in another faculty or school.

Notes:

1. **Arts, Science, or Bachelor of Arts and Science freshman programs (97 or more credits):** You cannot change programs, but may change options within your freshman program where options are available. Once you have been promoted from the freshman year you will be able to change programs using Minerva as outlined in point 2 of this section.
2. **Arts, Science*, or Bachelor of Arts and Science degree (96 or fewer credits):** You may change major/major concentrations, minor/minor concentrations or faculty programs using Minerva. You may also change into, or out of, an honours program. Some restrictions apply.

   * Science students admitted after September, 2009 are limited to choosing majors or honours programs within the Science group to which they were admitted, but may continue to choose freely from all available minor programs. To change to a major or honours program in another Science group students must make an Intra-Faculty Transfer application, see: www.mcgill.ca/student-records/inter-faculty-transfers.
3. **Desautels Faculty of Management:** You may add or change certain programs using Minerva. Please verify restrictions with the BCom Office.
4. **Faculty of Education students who have registered in the B.Ed. Secondary program:** You may change subjects or options using Minerva. If you are in the B.Sc. Kinesiology program you may add, drop or change minors.
5. **Faculty of Engineering students who have confirmed their offer of admission to the B.Eng. Electrical/Computer/BSE program:** You may select your specific program option using Minerva. You cannot use Minerva to change programs once you have made your initial selection. To make a further change, you must consult an adviser in the Department of Electrical and Computer Engineering. If you are in another program in the Faculty of Engineering you cannot make any program changes using Minerva.

3.3.5 Quebec Inter-University Transfer Agreement (IUT)

The Quebec Inter-University Transfer (IUT) agreement permits concurrent registration at McGill and another Quebec institution.

3.3.5.1 McGill Students

Regular undergraduate and graduate degree, diploma or certificate students registered at McGill may register, with their faculty's permission, at any university in the province of Quebec for three, or in some cases six, **credits** per term in addition to their registration at McGill. These courses, subject to faculty regulations, will be recognized by McGill for the degree that you are registered for, up to the limit imposed by the residency requirements of the program. Normally, you must complete a minimum residency requirement of 60 credits at McGill in order to qualify for a McGill degree (you

should check with your faculty). This privilege will be granted if there are valid academic reasons.

If you want to take advantage of this agreement, consult your student affairs office for details. Note that this agreement is subject to the following conditions:

- The other universities concerned may, at their discretion, refuse the registration of a student for any of their courses.
- You must complete your faculty and program requirements.
- You are responsible for ensuring that the McGill Class Schedule permits you to take these courses without conflict.
- The universities concerned are not responsible for special arrangements in cases of examination or class schedule conflicts.
- Marks earned at the host university will not appear on McGill transcripts or be included in McGill grade point averages.
- If you are attending McGill as an exchange student from outside Quebec, you are not eligible to take courses at another Quebec institution through the IUT agreement.
- You should be aware that late results received from host universities may delay your graduation.

If you are a scholarship holder, you should consult with your student affairs office and the scholarships coordinator concerning eligibility for continuation or renewal of your award(s).

You must initiate an online Quebec Inter-University Transfer (IUT) application to request the required authorizations at www.mcgill.ca/student-records/iut. You may find additional information posted at your faculty website.

Note: Once the Quebec Inter-University Transfer (IUT) application is approved by both the home and host universities, you must register in the same course for which you obtained electronic approval. The method of registration of the host university will vary (e.g., web, in-person, phone, etc.). **You must allow sufficient time to complete and submit your electronic application, because you are responsible for adhering to all the host university's registration deadlines**. If you decide later to drop or withdraw from the course(s) for which approval was granted, you will need to drop or withdraw from the course using the host university's registration method AND submit this change on the online Quebec Inter-University Transfer (IUT) application.

The host institution automatically submits grades for completed courses to McGill.

3.3.5.2 Visiting IUT Students

If you are a student at another Quebec university and you want to take courses at McGill using the Quebec Inter-University Transfer (IUT) agreement, you must initiate an online application to request the required authorizations at www.mcgill.ca/student-records/iut. You should also refer to your home university website for regulations on the number of credits allowed, as well as the policies for transferring the credits.

Note: Once the Quebec Inter-University Transfer (IUT) application is approved by both the home and host universities, you remain responsible for registering in the same course for which you have obtained electronic approval. At McGill, you have to register on Minerva (www.mcgill.ca/minerva). You will be informed via email of the necessary registration steps once your application has been approved. **You must allow sufficient time to complete and submit your electronic application, because you are responsible for adhering to all McGill's registration deadlines**. If you decide later to drop or withdraw from the course(s) for which approval was granted, you will need to drop or withdraw from the course on Minerva AND submit this change on the online Quebec Inter-University Transfer (IUT) application.

McGill automatically submits grades for completed courses to your home university.

3.3.6 Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option

The principle of the Satisfactory/Unsatisfactory (S/U) option is to encourage you to take courses outside the area of your specialization with the view of enabling you to acquire knowledge and skills in a variety of fields.

Where permitted by faculty and program regulations, you may take one elective course per term to be graded under the Satisfactory/Unsatisfactory (S/U) option, to a maximum of 10% of your credits taken at McGill to fulfil the degree requirements.

If you decide to have an elective course graded as Satisfactory/ Unsatisfactory (S/U), you must do so before the Course Change deadline on Minerva as part of the *Student Menu > Registration Menu > Quick Add or Drop Course Sections Menu*. **You cannot make any changes after the Course Change deadline even if you selected the option by mistake**. If the course is a multi-term course, you must select the S/U option by the Course Change deadline of the first part of the course.

The instructor will report grades in the normal fashion. Grades of A through C are converted to "Satisfactory" (S), and grades of D and F are converted to "Unsatisfactory" (U). The courses taken under the S/U option will be excluded from the grade point average calculations, but they will be included in the attempted credits total. Credits for courses with a final grade of S will also be included in the number of credits earned.

Notes:

1. **Desautels Faculty of Management:** The S/U option is not available on Minerva for Management students. Requests for the S/U option can only be made during the official add/drop period. Please contact the BCom Office for details on the conditions that apply.
2. **Faculty of Engineering:** If you select the S/U option for a core course and it is not removed by the Course Change deadline, the student affairs office will remove the option and notify you of the change.
3. **Schulich School of Music:** The S/U option is only applicable to non-music electives.
4. To be considered for in-course awards, including Dean's Honour List designations, and/or the renewal of entrance scholarships, you must complete at least 27 graded credits in the regular academic session, not including courses completed under the S/U option.
5. The S/U option is not available via Minerva to Visiting, Exchange or Quebec Inter-University Transfer Agreement (IUT) students. These students must first contact their home university to ensure that a course taken under the S/U option is acceptable to their home university and that the credits are transferable. After receiving approval from their home university and before McGill's Course Change deadline, they must then consult their McGill faculty student affairs office for approval.
6. Special Students are not eligible to select the S/U option.

For further information, contact your departmental adviser or student affairs office, as appropriate.

3.3.7 Course Change Period

During the initial "Registration Periods" (see section 3.3.1), you may make changes to your course registrations (add or drop courses), subject to the requirements and restrictions of your program and individual courses.

The Course Change deadline coincides with the deadline for late registration. Please see section 1, "Important Dates 2009-10".

If you drop your last Fall course **after** the end of August or drop your last Winter course **after** the end of December, you are considered to be withdrawn from the University. You must follow the procedures for readmission.

If you are registered in the Fall term, you may add and drop Winter term courses throughout the Fall term until the Winter term deadline for course change/late registration.

After the Course Change deadline, you may add courses only with written permission of the instructor, and the Associate Dean or Director of your faculty. A fee will be charged for each course you add.

3.3.8 Regulations Concerning Course Withdrawal

After the Course Change deadline in the Fall and Winter terms, there is a period of a few days during which you may withdraw, with a grade of W and full refund of course fees.

After the Withdrawal (with refund) deadline, there is a period during which withdrawal from a course will also result in a grade of W but no course fees will be refunded.

Courses that begin in the Fall Term
Deadline for withdrawal (grade of W) with refund:
Sunday, September 20, 2009

Deadlines for withdrawal (grade of W) without refund:
- Single-term courses: Sunday, October 18, 2009
- Multi-term courses that begin in Fall term: Tuesday, January 19, 2010

Courses that begin in the Winter Term
Deadline for withdrawal (grade of W) with refund: Sunday, January 24, 2010
Deadline for withdrawal (grade of W) without refund:
- Single-term courses: Sunday, February 14, 2010
- Multi-term courses that begin in Winter term: Saturday, May 15, 2010*

* Note that if you are in multi-term courses with course numbers ending in N1 and N2 (course begins in the Winter term, skips the Summer term, and is completed in the subsequent Fall term) you may withdraw after May 15 and until the end of the Fall term Course Change period by contacting your faculty student affairs office.

After the withdrawal (without refund) deadline but before the end of term, and only under exceptional circumstances, you may be granted permission to withdraw from a course. Permission will not be granted merely because you are doing unsatisfactory work. A grade of W or WF, as appropriate, will appear on your transcript but will not be calculated in your GPA. For further information, consult your faculty student affairs office.

Note:

1. To withdraw from required or complementary courses after the withdrawal (without refund) deadline, you may need to obtain permission from your adviser, and you must fill out and submit a course withdrawal form, available from your faculty student affairs office. Additional restrictions for Music courses are indicated in section 12, "Schulich School of Music".
2. It is solely your responsibility to initiate a course withdrawal by submitting a form to your student affairs office. Neither notification of the course instructor nor discontinuing class attendance is sufficient. The date on which you withdrew is entered on Minerva and is the official date of withdrawal, even if you had stopped attending lectures earlier.
3. Fee refunds, if any, will be in accordance with section 3.4.8, "Fees and Withdrawal from the University".

3.3.9 Regulations Concerning University Withdrawal

If you are considering University withdrawal, you are strongly urged to consult with your adviser and your student affairs office before making a final decision.

Student's Responsibility

It is solely your responsibility to initiate University withdrawal by submitting a form to your student affairs office. Neither notification of the course instructor nor discontinuing class attendance is sufficient. The date on which you dropped or withdrew from all courses is entered on Minerva and is the official date of withdrawal, even if you had stopped attending lectures earlier.

3.3.9.1 Deadlines for University Withdrawal

If you decide not to attend the term(s) in which you are registered, you must officially withdraw from the University within the deadlines indicated. See Withdrawal (W) deadline dates in section 1, "Important Dates 2009-10". If you drop your last Fall or Winter course by the end of the add/drop period of that term you are withdrawn from the University. To return to your studies you must follow the procedures for readmission.

To withdraw from the University by the deadlines indicated below, you must drop or withdraw from all courses on Minerva.

Fall Term:
Deadline for University withdrawal with refund (minus $100 for returning and $200 for new students):
Sunday, September 20, 2009
Deadline for University withdrawal without refund:
Sunday, October 18, 2009

Winter Term:
Deadline for University withdrawal with refund (minus $100 for returning and $200 for new students):
Sunday, January 24, 2010
Deadline for University withdrawal without refund:
Sunday, February 14, 2010

If you are blocked from dropping or withdrawing from your last course on Minerva, you are required to contact your student affairs office, which will supply any forms necessary to complete the University withdrawal as long as you have not missed **the deadline for University withdrawal**.

Note for Faculties of Arts, Engineering, Management, Music, and Science: If you want to withdraw after the deadlines indicated above, under exceptional circumstances you may be granted permission for University withdrawal. You should contact your student affairs office for further information.

Note for Faculty of Agricultural and Environmental Sciences: In addition to the above procedures, if you are a student in the Faculty of Agricultural and Environmental Sciences you must contact your student affairs office for further information on University withdrawal procedures.

3.3.9.2 Consequences of University Withdrawal

Fee refunds, if any, for the term in which you withdraw will be according to section 3.4.8, "Fees and Withdrawal from the University".

Upon withdrawal, you must return your ID card to the University as stated in section 3.2.3, "Identification (ID) Cards".

If you withdraw from the University and want to re-register in a subsequent term, you must follow the procedures for readmission. See section 3.3.13, "Readmission" for more details.

If you withdraw from the University during the Fall term you are considered withdrawn from the entire academic year, regardless of whether you dropped Winter term courses. To return for the Winter term, follow the procedures for readmission.

Note for Faculties of Education, Music and of Agricultural and Environmental Sciences: You do not need to follow the procedures for readmission but must contact your student affairs office.

3.3.10 Deferred Admission

To defer admission to McGill you must make an official request no later than **August 31** for the Fall term and **December 31** for the Winter term to:

Deferral Coordinator
Enrolment Services
James Administration Bldg
Fax: 514-398-4193
Email: deferral@mcgill.ca

Please note that several conditions apply for deferral. These conditions and deadlines will be communicated to you once the University receives your official request.

If you have accepted your offer of admission and registered for courses and now want to defer your admission, you must withdraw from McGill by dropping those courses via Minerva **by the above deadlines** and before submitting a deferral request. If the University grants your request for deferral, your deposit of $200 will be transferred to the deferred term.

If you do not request a deferral by the deadline, you will have to reapply for the next available admission cycle. If you are a registered student and you withdraw after the deadline, you must request readmission through your faculty. See section 3.3.13, "Readmission" for more details.

Note: Applicants to the Schulich School of Music are not eligible to apply for deferred admission.

3.3.11 Summer Term/Summer Studies

The Summer term at McGill covers the months of May to August. During that period a wide array of credit courses from McGill degree programs is offered. Most are month-long courses with lectures every day. These courses are usually accepted for transfer credit by other universities. For more details, consult the Summer Studies Calendar at www.mcgill.ca/summer or the Summer Studies Office at 514-398-5212.

If you take a Summer Studies course to complete your graduation requirements at McGill, you will receive your degree at the Fall Convocation (normally held in November).

It is your responsibility to follow the University and faculty regulations. When registering, you must not exceed the maximum credits permitted by your faculty.

You cannot register for more than 12 credits (Management or Music students, 18 credits) during the summer, at McGill or at other universities, except by special permission of your Associate Dean or Director.

Quebec Inter-University Transfer (IUT) students may take in one summer term a maximum of 1 (one) course regardless of credit weight. Permission to register for more than one course per term must be obtained from the McGill faculty in which the student is registering by using the CREPUQ electronic IUT site at www.crepuq.qc.ca (see section 3.3.5).

3.3.12 Inter-Faculty Transfer

If you are a McGill student and have not graduated and want to transfer into another undergraduate faculty, you may apply using the Minerva *Faculty Transfer/Readmission Menu*, unless otherwise indicated in the table below.

You must also refer to your faculty website for faculty-specific rules and to determine what supporting documents must be submitted for your application. To access the faculty websites, and for more information on faculty transfers, please see www.mcgill.ca/student-records/inter-faculty-transfers.

Faculty/School	Notes	Fall Term Application Deadline	Winter Term Application Deadline
Agricultural and Environmental Sciences, Dietetics and Human Nutrition		June 1	December 1
Architecture	You should contact the Student Affairs Adviser at 514-398-6702 or email mary.lanni@mcgill.ca	May 1	
Arts, B.A. & Sc.	There are no Winter term transfers into Arts.	June 1 (May 1 Social Work)	November 1 B.A. & Sc.
Education	There are no Winter term transfers into Education.	June 1	
Engineering (except Architecture)		June 1	November 1
Management	There is no admission to Management for the Winter term.	June 1	
Music	There is no admission to Music for the Winter term.	January 15	
Nursing		August 15	December 15
Physical and Occupational Therapy	There is no admission to Physical and Occupational Therapy for the Winter term.	June 1	
Religious Studies	Students must apply through the B.Th. Program Coordinator.	June 1	November 1
Science		June 1	November 1

3.3.13 Readmission

To return to McGill after an absence from a Fall and/or Winter term of an academic year, you must submit an application for readmission using Minerva's *Faculty Transfer/Readmission Menu*. In your application state the reasons for your absence from the University and give a summary of your activities during that period.

If you withdrew because of illness, please provide your faculty student affairs office with a medical note to support your application for readmission, stating that you are ready to resume studies.

You must be aware of McGill's time limits for the completion of degrees.

To return to a different faculty after an absence, apply for readmission using Minerva's *Faculty Transfer/Readmission Menu*.

For more details on the readmission process, see www.mcgill.ca/student-records/inter-faculty-transfers. Note that students in the Faculty of Religious Studies must apply through their student affairs office.

Faculty/School	Fall Term Application Deadline	Winter Term Application Deadline
Agricultural and Environmental Sciences, Dietetics and Human Nutrition	August 15	November 15
Architecture	June 1	November 1
Arts, Science, and B.A. & Sc.	July 15	November 15
Education	July 1	Not open for Winter term
Engineering	June 1	November 1
Management	August 15	November 15
Music	June 1	November 15
Nursing	June 15	December 1
Religious Studies	June 1	November 1

3.3.14 Auditing of Courses

McGill does not permit auditing of courses.

3.4 Fees

The information in this section was prepared in early February 2009. Fees for the 2009-10 year will be finalized in late spring. **The University reserves the right to make changes without notice in the published scale of fees**.

Further information regarding fees can be found on the Student Accounts website: www.mcgill.ca/student-accounts.

For information on financial support, see section 3.8, "Scholarships and Student Aid".

3.4.1 Fee Information Booklet (electronic)

The *Fee Information Booklet* will be available on the Student Accounts website www.mcgill.ca/student-accounts/documents in early June. This link will also be sent via your McGill email address shortly after you accept the offer of admission. It contains additional information as well as any fee adjustments that may have been made after the publication of this Calendar. Note that you are bound by the policies and procedures it contains. In the event of any discrepancy, the *Fee Information Booklet* supersedes the Calendar.

3.4.2 Access to Fee Information

You can view your *Account Summary by Term* on Minerva. The Fall 2009 term fees will be accessible as of August 1.

3.4.3 Tuition Fees

Tuition rates are subject to change each academic year. Please access the "Schedule of Fees" on www.mcgill.ca/student-accounts/fees, which will be updated as soon as the fees are announced.

3.4.3.1 Quebec Students and Non-Quebec Students (Canadian or Permanent Resident)

In accordance with provincial government requirements, students must provide proof that they qualify for assessment of fees at the Quebec or non-Quebec Canadian rates; see www.mcgill.ca/student-records/documents for details.

Note: Students who do not submit appropriate documentation by the stipulated deadlines (December 1st - Fall; April 1st - Winter) are billed at the non-Quebec Canadian or the international rate, depending on the documentation submitted. Should your tuition status be changed during the evaluation period, any late payment and/or interest charges accumulated on the difference between the Quebec and Canadian tuition rates will also be waived.

3.4.3.2 International Students

Exemption from International Tuition Fees may be claimed by students in certain categories. Such students, if eligible, are then assessed at the Quebec student rate. A list of these categories and the required application forms can be obtained from Enrolment Services. Information is also available at www.mcgill.ca/student-records/fees/exemption.

For more information concerning Fee Exemptions, please email the Fee Administrator at feecoordinator.es@mcgill.ca.

3.4.4 Compulsory Fees

Rates will be updated and available on the Student Accounts website, www.mcgill.ca/student-accounts, as soon as they become available.

3.4.4.1 Student Services Fees

Student Service fees are governed by the Senate Committee on the Coordination of Student Services, a parity committee composed equally of students and University staff.

These fees are complemented by revenue from the Quebec government, the University, and numerous generous donors, to support the following programs and services: Student Health (including Dental), Mental Health, Counselling and Tutorial, Chaplaincy, Career and Placement, Student Aid and International Student Services, the Office for Students with Disabilities, First-Year Office (including the Francophone Assistant), Off-Campus Housing, and the First Peoples' House.

3.4.4.2 Athletics Fee

The Athletics fee covers athletics facilities, campus recreation such as intramurals, fitness and recreation courses, drop-in recreation, and intercollegiate sports at both the Downtown and Macdonald Campuses.

3.4.4.3 Student Society Fees

Student Society fees are collected on behalf of student organizations and are compulsory. These fees must be approved by the student body through fee referenda according to the constitutional rules of the association or society.

Students vote on changes to Student Society fees during the Spring referendum period.

For Canadian students, the Student Society fees include health and dental insurance. For international students, the Student Society fees include a dental insurance plan. International students are required to participate in the University's compulsory International Health Insurance (IHI) plan. For more information, please contact International Student Services: 514-398-6012.

Rates for the current year may be found at www.mcgill.ca/student-accounts/canadian_insurance.

3.4.5 Administrative Charges

The University charges a number of administrative fees to students that include:

Registration Charge - All students in courses and programs are assessed a registration fee.

Information Technology Charge - The purpose of the information technology fee is to enhance certain technology services provided to students as well as to provide training and support to students in the use of new technology.

Transcripts and Diploma Charge - The University charges a transcripts and diploma fee to all students, which entitles you to order transcripts free of charge and covers the costs of your graduation.

Copyright Fee - All students in courses and programs are charged the copyright fee, which covers the cost of the annual fee that all Quebec universities are required to pay to Copibec (a consortium that protects the interests of authors and editors) for the right to photocopy materials protected by copyright.

You may access the schedule of fees on www.mcgill.ca/student-accounts/fees/compfees/it, which will be updated as soon as the fees for the 2009-2010 academic year are announced.

3.4.6 Other Fees

International Student Health and Accident Plan (compulsory) (based on 2008-09 rates)	
Single	$639
Dependant (one student with one dependant)	$1,794
Family (one student with two or more dependants)	$3,408
Application for Admission	
All Undergraduate programs	$85
All Graduate programs	$100
Admission appeals charge	$100
Late Registration	
After regular registration deadline:	
• All eligible returning students, except Special students and Graduate part-time and additional session students.	$50
• Special students and Graduate part-time and additional session students.	$20
As of the second day of classes:	
• All students except Special students and Graduate part-time and additional session students.	$100
• Special students and Graduate part-time and additional session students.	$40
Late Course Change Fee	$25
Minimum charge upon withdrawal	$100
Rereading Examination Paper (refundable if the letter grade is increased)	$35
Supplemental Examinations, each written paper	$35
Duplicate ID Card	$20
Late Payment charged on balances >$100 as of the end of October (end of February for the Winter term)	$25
Interest on outstanding balances (rate determined in February, to be applicable on June 1, was 14.9% annually in 2008-09))	
Returned cheque charge	$20
Schulich School of Music Fees:	
Audition Fee	$60
Late Music Placement Examination Fee	$50
Late application fee for Music Performance examination (requires permission from Chair, Performance Dept.)	$25
Supplemental Practical Examination in Music	$150
Music Private Lessons Fee (MUIN, MUPG subject code courses)	$500

3.4.7 Billings and Due Dates

3.4.7.1 Confirmation of Acceptance Deposit

When you are admitted to the University, you are required to confirm your acceptance of the offer of admission on Minerva under the *Applicant Menu* at www.mcgill.ca/minerva and you must pay the required $200 deposit by credit card (Visa or MasterCard) at that time.

3.4.7.2 Invoicing of Fees

Fees are assessed on a term-by-term basis.

Electronic billing is the official means of delivering fee statements to all McGill students. Your e-bill includes all charges to your account, including tuition, fees, health insurance and other charges. The University generally produces e-bills at the beginning of the month and sends an email notification to your official McGill email address stating that your e-bill is available for viewing on Minerva. Charges or payments that occur after the statement date appear on the next month's statement, but you can view them immediately on the *Account Summary by Term* under the *Student Accounts Menu* on Minerva (this is the online dynamic account balance view).

Failure to check email on a regular basis *in no way warrants* the cancellation of interest charges and/or late payment fees. Refer to the Student Accounts website at www.mcgill.ca/student-accounts for information on payment due dates.

Term	Payment Due Date
Fall term	
Returning students	August 28, 2009
Students new to the University in Fall	September 29, 2009
Winter Term	
Returning students	January 6, 2010
Students new to the University in Winter	January 29, 2010

Late Payment Fees: If you have an outstanding balance greater than $100 on your account on October 30 (February 26 for the Winter term), you are charged a late payment fee of $25 over and above interest.

3.4.7.3 Guest Access on Minerva

You may choose to give access privileges to a guest on Minerva. These privileges include viewing e-bills/account summaries, tax receipts and e-payment.

The www.mcgill.ca/student-accounts/guest web page describes how to set up this access. You need to provide certain information about the individual you want to access your fee-related information. The guest will be contacted by email and provided with a link to use within a designated time period.

You can cancel guest access privileges at any time.

Note that Student Accounts staff may respond to questions from your authorized guest regarding the information to which they have been given access.

If you do not want to give a guest access privileges to Minerva, you can enter an alternative student billing email address on Minerva to which Student Accounts will send a copy of the monthly e-bill notification. However, if someone has been granted access as a guest and their guest email is the same as a student billing email address, the University will de-activate the student billing email address in order to only notify your guest about the billings once.

You should NOT share your PIN (personal identification number) with anyone, including a guest on Minerva. *Guest Access* allows your guest to view your account information without knowing your PIN.

3.4.8 Fees and Withdrawal from the University

If you decide not to attend the term(s) in which you are registered, you must officially withdraw from the University in accordance with section 3.3.9, "Regulations Concerning University Withdrawal". **Otherwise, you are liable for all applicable tuition and other fees**.

If you use Minerva to drop your last course between September 1 and the end of the withdrawal period with full refund, you will be deemed withdrawn from the University. You are automatically charged a minimum charge of $100 (or your registration deposit fee, whichever is higher) to cover administrative costs of registration.

If you stop attending classes without dropping your courses, you are liable for all applicable tuition and other fees. See section 3.3.9, "Regulations Concerning University Withdrawal".

3.4.8.1 Fee Refund Deadlines

The deadline dates for course refunds are independent of the deadline dates given for withdrawal from courses.

Fall Term - up to and including September 20:
Returning students - 100%* refund (less minimum charge of $100 in the case of complete withdrawal).
New students - 100%* refund (less registration deposit or $100, whichever is higher).

Fall Term - after September 20:
No refund.

Winter Term - up to and including January 24:
Returning students - 100%* refund (less minimum charge of $100 in the case of complete withdrawal).
New students - 100%* refund (less registration deposit or $100, whichever is higher).

Winter Term - after January 24:
No refund.
* Includes tuition fees, society and other fees, student services, registration and transcripts charges, and an information technology charge.

If you want to discuss the refund policy applicable to a special case, contact your faculty student affairs office (Associate Dean or Director).

Music students who, in special circumstances such as illness or injury, receive permission to withdraw from practical instruction after the end of the Course Change period are charged $65 per week for one-hour lessons ($97.50 for one-and-a-half hours) up to a maximum equivalent to the total fees charged for the course.

Full refunds for practical instruction are given up to the last Friday of the Course Change period.

3.4.8.2 Refund Procedures

You are not usually automatically refunded your credit balance as many students choose to keep the balance on account for use for a future term. You may, however, request your credit balance to be refunded at any time, after the course withdrawal with full refund period has passed. For directions on requesting your refund please see www.mcgill.ca/student-accounts/refund.

3.4.9 Other Policies Related to Fees

3.4.9.1 Overdue Accounts

All tuition and fees assessed by the University must be paid in full or arrangements must be made to settle the debt.

Students' accounts are considered **delinquent** if they are not paid in full within 60 days after the bill is issued. McGill places a financial hold on these accounts, preventing students from obtaining official academic transcripts and from accessing Minerva for any registration functions.

Interest: Interest is charged on overdue balances at the monthly rate of 1.24%, multiplied by the balance outstanding at the end of the month (14.9% annually). The rate is evaluated each Spring, and then is set for the following academic year.

Note: You should regularly verify your account balance on Minerva.

The University has no obligation to issue any transcript of record, award any diploma, or re-register a student if you do not pay your tuition fees, library fees, residence fees or loans by their due date.

Information for Registered Students
If you register for a term but still owe amounts from previous terms, you must either pay your account or make payment arrangements with the Student Accounts Office before the end of the course add/drop period. If you have financial difficulty, first contact the Student Aid Office (Brown Student Services Building, Room 3200; 514-398-6013) to discuss the possibility of obtaining financial aid.

If you fail to pay the previous term's fees or to make arrangements to settle your debt prior to the add/drop deadline, the University will cancel your registration in the current and subsequent terms.

Information for Students Who Are No Longer Registered
When students fail to settle their debt or reach a suitable payment arrangement, or fail to provide the Student Accounts Office with up-to-date contact information, the University refers these delinquent accounts to a collection agency. **If neither the University nor the collection agency is able to collect on the account, the University reserves the right to have the student reported to a credit bureau**. You should be aware that the University is entitled to use all legal means to obtain payment and that students are responsible for all costs associated with such actions.

Cancelling Registration for Non-Payment
In accordance with the fee policy stated in section 3.4.9.1, "Overdue Accounts":

The Student Accounts Office will make all reasonable efforts to notify you if your account is delinquent, or if you owe more than $100 from the previous term, before the University cancels your registration for non-payment. The cancellation is effective the last day of the add/drop period unless you settle the account or make payment arrangements with the University by then. If you pay or make payment arrangements with the Student Accounts Office after the add/drop deadline and you want the University to reinstate your registration for the current or subsequent term(s), you must complete the *Request for Reinstatement* form (www.mcgill.ca/files/student-accounts/RequestforReinstatementForm.pdf) and submit it to the Student Accounts Office, which will forward it to Enrolment Services for approval and processing.

3.4.9.2 Acceptance of Fees vs. Academic Standing

Acceptance of fees by the University in no way guarantees that students will receive academic permission to pursue their studies. If it is subsequently determined that your academic standing does not permit you to continue, all fees paid in advance will be refunded by applying to the Student Accounts Office.

3.4.9.3 Fees for Students in Two Programs

Students in two programs normally are billed additional fees for their second program. Depending on the level of the two programs (e.g., one at the undergraduate versus one at the graduate level), you may incur both society and faculty fees and/or additional tuition fees. Consult the Student Accounts website for further details.

You should consult the Fee Coordinator in Enrolment Services for information on tuition fees if you are a student in two programs. Adjustments to bills are made throughout the term in cases where fees cannot be automatically calculated.

3.4.9.4 Quebec Inter-University Transfer Agreements

If you are taking courses as part of the Quebec Inter-University Transfer (IUT) agreement, you are required to pay the fees at your home university. The agreement covers only the transfer of academic credits. International students in undergraduate programs are not usually permitted to take IUT courses. IUT students taking courses at McGill are required to pay additional course charges that are compulsory upon registration, such as special activity charges or course material costs. The University reserves the right to refuse course registrations in non-government-funded activities.

3.4.9.5 Senior Citizens

Financial aid is available for students in need who are aged 65 or over and who are enrolled in full-time degree programs. Contact the Scholarships and Student Aid Office for more information at 514-398-6013.

3.4.10 Deferred Fee Payment

Students with Sponsors

If your fees will be paid by an outside agency such as the Department of Veterans Affairs, CIDA, a foreign government, or your University department (i.e., teaching assistants or demonstrators), you must have written proof of this sponsorship. Your sponsor

must confirm the conditions of their sponsorship in writing on company letterhead to the University. This allows the University to initiate a contract with your sponsor and effect the payment to your fee account. You need to notify the University at least one month before the beginning of the term in which the contract takes effect. For more information and the required forms, see www.mcgill.ca/student-accounts/third.

When a third party agrees to pay fees on behalf of a student, payment is recorded on the fee account, which reduces the balance the student must pay. The University reserves the right to insist upon payment. **If the third party does not pay the promised fees within 90 days of invoicing, the student is responsible for paying the fees plus the late payment fee and accrued interest**.

Students Receiving McGill Scholarships/Awards

Fall Term: The University normally credits McGill scholarships or awards to the recipient's fee account by mid-August. These awards reduce the student's outstanding balance.

Winter Term: Upcoming Winter term scholarships or awards can be viewed by recipients on Minerva once they are processed by the Student Aid Office. These awards are future-dated and are released to the student's fee account by January 4.

Students Receiving Government Aid

The University encourages you to pay your tuition promptly when you receive your government assistance. Interest on outstanding tuition is charged monthly beginning in August for returning students and in September for new students. If you apply for government assistance by June 30 (June 1 for U.S. students), you are entitled to an exemption of interest and/or late payment charges when you receive your government aid award at either the Student Aid Office or the Macdonald Campus Student Services.

Any financial aid you receive must first go toward paying your tuition and student housing fees.

3.4.11 Other information

3.4.11.1 Payment Procedures

Please see the Student Accounts website at www.mcgill.ca/student-accounts/procedure for the various methods of payment available to students and their guests.

3.4.11.2 Tax Receipts

T4A (RL-1), T2202A and Relève 8 slips are issued on Minerva under the Student Accounts Menu by the end of February each year. More information on these slips is available on www.mcgill.ca/student-accounts/tax.

3.4.12 Yearly Fees and Charges by Faculty

Tuition fees at the undergraduate level are based on the number of credits you take.

Please consult the Student Accounts website at www.mcgill.ca/student-accounts/fees for tables of fees by faculty. The University will publish this schedule as soon as the fees for the 2009-2010 academic year are announced.

3.5 Student Records

3.5.1 Academic Standing

You enter the University in satisfactory standing and your academic standing is determined soon after the end of a term based on your faculty's regulations. Standing codes are generated in January for the Fall term, in May for the Winter term, and in September for the Summer term and display on your McGill unofficial and official transcripts. If you receive unsatisfactory standing, you must apply to your faculty for readmission. Consult the appropriate section of this Calendar for the Regulations on Academic Standing for your faculty.

3.5.2 Credit System

The faculties listed in this Calendar use the credit system, where each course is assigned a credit rating reflecting the number of weekly contact hours. In general, a three-credit course indicates three hours of lectures per week for one term but this does not apply to all faculties. Laboratory contact hours usually count for fewer credits. Credits also reflect the amount of effort required and generally assume two hours of personal study for each contact hour.

The credit weight of each course is indicated in parentheses beside the course title.

Note: Credit for multi-term courses (courses with the suffixes: D1, D2; N1, N2; J1, J2, J3) is granted only after successful completion of all components in the specified time frame. For example, a student would have to take D1 and D2 components in consecutive terms and successfully complete them both in order to obtain credit.

Some faculties have specific policies on course credit, so consult your faculty section of the Calendar for more information (e.g., Agricultural and Environmental Sciences: see section 5.5.7 "Credit System"; Engineering: see section 9.3.5.3 "Course Credits"; Science: see section 14.3.6.6 "Course Credit Weight").

3.5.3 Grading and Grade Point Averages (GPA)

Courses can be graded either by letter grades or in percentages, but the official grade in each course is the letter grade. Where appropriate, a class average appears on transcripts expressed as the letter grade most representative of the class performance.

Since Fall 2002, the University has only used letter grades on transcripts and verification forms.

Grades A through C represent satisfactory passes, D a conditional (non-continuation) pass, and F a failure. Certain courses have been approved for Pass/Fail (P/F) grading. Students may also designate elective courses to be graded under the S/U option. See section 3.3.6, "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option".

You must obtain a grade of C or better in courses that you take to fulfil program requirements. You may not register in a course unless you have passed all the prerequisite courses with a grade of C or better, except by written permission of the appropriate department chair.

Grades	Grade Points	Numerical Scale of Marks
A	4.0	85 - 100%
A-	3.7	80 - 84%
B+	3.3	75 - 79%
B	3.0	70 - 74%
B-	2.7	65 - 69%
C+	2.3	60 - 64%
C	2.0	55 - 59%
D	1.0	50 - 54%
F (Fail)	0	0 - 49%

The University assigns grade points to letter grades according to the table above. Your academic standing is determined by a grade point average (GPA), which is calculated by dividing the sum of the course credit, times the grade points by the total course GPA credits. The result is not rounded up to the nearest decimal point.

GPA credits are the credits of courses with grades that are assigned grade points.

$$\text{GPA} = \frac{\Sigma\ (\text{course credit} \times \text{grade points})}{\Sigma\ (\text{GPA course credits})}$$

The *term grade point average* (TGPA) is the GPA for a given term calculated using all the applicable courses at the same level in that term. The *cumulative grade point average* (CGPA) is the GPA calculated using your entire record of applicable courses at McGill at the same level; if you change levels, e.g., from undergraduate to graduate, the CGPA starts again.

This policy took effect in January 2003. Prior to January 2003, if your degree program had changed, e.g., from B.Sc. to B.A., the CGPA started again. For students with academic information prior to Fall 2002, who are registered in a different program or in a different level post-Fall 2002, the transcript displays a special message regarding the CGPA restarting.

If you repeat courses, all results are included in the GPA calculation. Therefore, grades of D or F continue to be used in the CGPA calculation even after you repeat the course or if you take a supplemental examination. Note that credits are only granted once for a repeated course regardless of the passing grade.

3.5.3.1 Other Grades

J — unexcused absence (failed); the student is registered for a course but does not write the final examination or do other required work; calculated as a failure in the TGPA and CGPA.

K — incomplete; deadline extended for submission of work in a course.

KE or K* — further extension granted.

KF — failed to meet the extended deadline for submission of work in a course; calculated as a failure in TGPA and CGPA.

KK — completion requirement waived. Not calculated in TGPA or CGPA.

L — deferred examination.

LE or L* — permitted to defer examination for more than the normal period.

NR — no grade reported by the instructor (recorded by the Registrar).

P — pass; not calculated in TGPA or CGPA.

Q — course continued in next term (applicable only to courses taken pre-Fall 2002).

S — satisfactory; equivalent to C or better in an elective course; not calculated in TGPA or CGPA. (See section 3.3.6, "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option")

U — unsatisfactory; equivalent to D or F in an elective course; not calculated in TGPA or CGPA. (See section 3.3.6, "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option")

W — withdrew; a course dropped, with permission, after the Course Change deadline; not calculated in TGPA or CGPA.

WF — withdrew failing; a course dropped, with special permission in an exceptional case, after faculty deadline for withdrawal from course, the student's performance in the course at that stage being on the level of an F; not calculated in TGPA or CGPA. (Not used by Music.)

WL — faculty permission to withdraw from a deferred examination; not calculated in TGPA or CGPA.

NA or && — grade not yet available.

W-- or -- — no grade; student withdrew from the University, not calculated in TGPA or CGPA.

3.5.4 Unexcused Absences

All students who miss a final exam are given a J grade. The student then has the following options:

a) Ask to be assigned a grade based only on the grades earned for the work submitted up to, but not including, the final exam.

   The grade earned is calculated by adding the grades obtained on the individual pieces of work and a grade of 0 for the portion of the final grade allocated to the final exam. This option is not available if the professor stipulated in the course outline that the final exam is a required part of the evaluation.

b) Request a deferred exam, if the student has the appropriate reasons and documentation.

The student must request option a) no later than four months after the end of the examination period of the original course.

The student must request option b) by the faculty deadlines as indicated in the faculty sections of this Calendar.

Students wishing to appeal a J grade should write to their Associate Dean or Director.

3.5.5 Incomplete Courses

If the instructor decides there is sufficient reason to permit a delay in the submission of required term work, an extension of the deadline after the end of the course may be granted to the student. In this case, the instructor will submit a grade of K (incomplete).

Notes:

1. If the instructor submits a grade of K, he or she will also indicate the date by which the student must complete the work. Consult the faculty sections for maximum extensions.
2. If the instructor submits a new grade within the deadline, both the new grade and the grade of K will appear on your verification forms and unofficial and advising transcript. However, the new grade will replace the K on your official transcript.
3. If you do not complete the required work before the deadline, a grade of KF will be updated on your record. A KF denotes a failed course and is calculated in the TGPA and CGPA as an F.
4. In exceptional circumstances, and with the approval of the Associate Dean or Director, the deadline may be extended further, in which case the grade of KE (further extension granted) appears. If you do not meet the extended deadline, a grade of KF will replace the KE.
5. **Note for Music students**: A Music student who has a mark of K not cleared in mid-May is ineligible for scholarships.
6. If, without a valid excuse, you do not participate in or write a final examination or submit required term work for any courses you were registered in, you will receive a final grade of J (unexcused absence). For more information, see the note regarding J grade above.

3.5.6 Transfer Credits

You may be granted credit for courses passed with a grade of C or better at other universities, as long as you are within the number of credits imposed by McGill's residency requirements and program requirements in some faculties.

In general a maximum of 60 transfer credits from other institutions may be granted. You need a minimum of 60 credits completed at McGill to qualify for a McGill degree. You must be in satisfactory standing in order to be granted the transfer credits. Courses with grades of C-, P, and S are not considered for transfer credits. The letter grades applied by the host institution take precedence over the numerical grades if both are provided.

You need to obtain approval from your student affairs office for courses taken at other universities. In some faculties you need to obtain approval from the student affairs office as well as from your academic adviser before you take the courses, especially if the courses are part of your program requirements.

Grades earned at the host university for transfer courses are not entered on your McGill transcript and are not part of the TGPA or CGPA calculation.

For universities outside Quebec, it is your responsibility to ensure that the host institution sends an official transcript to the student affairs office. You must submit all documents required for approval of your transfer of credits with your faculty at McGill **within four months of completing your exchange program or study away**. If you are studying at another Quebec university on an Inter-University Transfer (IUT) agreement, the host university sends your grade(s) to McGill automatically. For additional information, see section 3.3.5 "Quebec Inter-University Transfer Agreement (IUT)".

Transcripts for transfer courses must meet the following deadlines:

- April 30, if your term of graduation is Winter (Convocation in Spring).
- September 15, if your term of graduation is Summer (Convocation in Fall).
- January 15, if your term of graduation is Fall (degree granted February, Convocation in Spring).

Transcripts not received by the appropriate date are considered for the next graduation period only.

3.5.7 Verification of Student Record

3.5.7.1 Unofficial Transcripts

Subject to section 3.5.8, "Changes to Student Records after Normal Deadlines", you are responsible for verifying your academic record on Minerva using the unofficial transcript to ensure that you are registered in the proper courses, and that the correct program information and expected term of graduation appear on your record.

If you are graduating, verify your record on Minerva before the end of your final term to ensure that the correct expected graduation term appears on your unofficial transcript; if not, you may be overlooked for graduation. You should direct any questions or problems with your record to your student affairs office.

3.5.7.2 Degree Evaluation

Degree Evaluation is a Minerva tool to help students and advisers compare the student's academic record with the requirements of a specific program. If you have access to Degree Evaluation on Minerva you can review your progress within your current program. Also, if you are considering a program change, you can generate a "what-if" comparison of your academic record with the requirements of another program.

The presentation in the Degree Evaluation Report may have a different appearance than the requirements listed in the Calendar. For example, a long listing of courses in the Calendar may be grouped into one course "attribute" on the report.

Degree Evaluation also provides a central record of adviser/faculty-approved adjustments to your program of study, e.g., the replacement of one specified course with another or acceptance of a non-McGill course for credit.

Please note that Degree Evaluation is an advising tool only. A Degree Evaluation Report that indicates program requirements have been satisfied does NOT constitute approval to graduate.

For details regarding Degree Evaluation, including "reading a Degree Evaluation Report," please see www.mcgill.ca/student-records/degree-evaluation.

3.5.8 Changes to Student Records after Normal Deadlines

3.5.8.1 Student Record Changes

Student record changes include the following: course add or course drop, course withdrawal, university withdrawal, program change (including changing minors or concentrations).

3.5.8.2 Registrar Deadlines

Fall term - January 31
Winter term - June 1
Summer term - October 1

3.5.8.3 Before Registrar Deadlines

For record changes after the normal deadlines published in the Calendar, but before the Registrar deadlines above, you must make a request in writing to your Associate Dean or Director, clearly explaining why you could not request the change before these dates. The Associate Dean or Director will review your request and make a decision. If your request is approved, the change is processed according to existing faculty and Enrolment Services student record procedures.

3.5.8.4 After Registrar Deadlines

The University does not normally consider a change requested after the Registrar deadlines listed above. In situations where there are "extraordinary personal" or "extraordinary academic" circumstances that could not have been foreseen prior to these deadlines, you may formally request a student record change from your Associate Dean or Director. If your Associate Dean or Director approves the request, the change will be processed according to faculty and Enrolment Services student-record procedures. For all changes other than grade changes, the faculty will file full documentation that supports the extraordinary circumstances with Enrolment Services.

3.5.8.5 Fee Assessment Consequences

When a change to your student record is made, the revised fee assessment appears on your next fee statement.

If you want to contest the fee assessment, you must make a written request to Enrolment Services. Enrolment Services reviews the extraordinary circumstances described in the supporting documentation provided by your faculty, and consults with the Student Accounts Office if necessary, to decide whether or not to consider the request. Enrolment Services then sends you a letter explaining the decision.

3.5.8.6 Student's Citizenship and/or Immigration or Fee Exemption Status

Note that your faculty does not handle changes related to your citizenship and/or immigration or fee exemption status; please see section 3.2.2, "Legal Documents".

3.5.9 Transcript of Academic Record

3.5.9.1 Unofficial Transcripts

If you require a copy of your student record, access Minerva to view and print an unofficial transcript. This applies to records from 1976 to the present. For pre-1976 records, you must order an official transcript.

3.5.9.2 Official Transcripts

Use Minerva to order an official transcript at *Student Menu* > *Student Records Menu* > *Request Printed/Official Transcript*. If you cannot access Minerva, fill out the *Request for Release of Official Document* form available online at www.mcgill.ca/student-records/transcripts or in person at Enrolment Services (address below), and submit it by mail, by fax, or in person. Note that the form must be signed by the student. To protect privacy, we do not accept telephone or email requests.

Enrolment Services
James Administration Building
845 Sherbrooke Street West, Room 205
Montreal, Quebec H3A 2T5
Fax: 514-398-8939

3.5.9.3 General Information

Transcripts are free of charge.

The University sends official transcripts directly to the addresses provided by the student. If you intend to deliver the transcript to another institution yourself, you can request to receive it in a sealed envelope.

Requests are normally processed in 3 to 5 working days; transcripts requested at peak times and for pre-1976 records take longer.

Enrolment Services is not responsible for transcripts that are lost or delayed in the mail.

The University issues only complete transcripts that record all attempted work and final results obtained in any and all programs. Under no circumstances does the University issue partial transcripts.

Official transcripts are NOT issued for students registered on or after September 2001 who have failed to provide the information and/or documents necessary to obtain or verify their Permanent Code.

Transcripts are not issued if you owe fees or fines over $30.

The University prints official transcripts on secure paper that cannot be copied.

3.5.9.4 Course Numbering on the Transcript

Prior to September 2002, course numbers had a seven-character designation beginning with the three-number code for the teaching unit/department. The next three digits specified the course, with the first of these indicating its level. The final character was a letter indicating the term, or terms, during which the course was offered. For example:
107-200A = Philosophy (107) course (200) in Fall term (A);
301-202B = Architecture (301) course (202) in Winter term (B);
154-230D = Economics (154) course (230) extending for two terms, Fall and Winter (D).

A list of the former Teaching Unit Codes and their Subject Code equivalents is available at www.mcgill.ca/student-records/transcripts.

3.6 Examinations

3.6.1 Examinations – General Information

In addition to the general examination policies listed here, you should consult the faculty sections of this Calendar for particular regulations. You will be informed by the end of the Course Change period of the evaluation method used in each course.

Every student has a right to write term papers, examinations and theses in English or in French except in courses where knowledge of a language is one of the objectives of the course.

You are not permitted to write an examination in any course unless you have fulfilled the requirements of the course to the satisfaction of the instructor and your Associate Dean or Director. Once you have presented yourself for an examination or test, you must submit all written work to the invigilator before leaving.

You must have your valid McGill student ID card with you to write an examination. Forgetfulness is not an acceptable excuse.

You are reminded that cheating in any examination is considered a serious offence that could lead to expulsion from the University. Students are not permitted to have in their possession, or to use, any unauthorized materials during an examination. This includes electronic devices such as cellphones, iPods, MP3 players, PDAs and other web-access devices. Unauthorized items found on the student or desk area during an exam will be confiscated and turned over to the Disciplinary Officer.

Responses on multiple-choice examinations are normally checked by the Exam Security Computer Monitoring Program. The program detects pairs of students with unusually similar answer patterns on multiple-choice examinations. Data generated by the program can be used as admissible evidence either to initiate or corroborate an investigation or a charge of cheating under Section 16 of the *Code of Student Conduct and Disciplinary Procedures*.

All students are responsible for knowing the University Examination Regulations and the *Code of Student Conduct and Disciplinary Procedures*. The regulations are normally posted during the examination period and are available at the following website: www.mcgill.ca/student-records/exam/regulations. Both may be obtained from your student affairs office.

You can find information about issues related to academic integrity at www.mcgill.ca/integrity.

Class Tests
Members of the teaching staff may give interim class tests from time to time.

Special Examination Facilities for the Disabled
If you have a visual or other disability, consult the Coordinator, Office for Students with Disabilities, about the possibility of arranging special examination facilities.

Credit by Examination
In certain exceptional cases and in certain faculties, you can apply to the Associate Dean or Director to write a final examination in order to obtain credit in a course that you were not registered in. This is possible only in those courses where there is no other assessment except the final examination.

3.6.2 Final Examinations

Formal final examinations are held during an examination period at the end of the course term. The dates of the examination periods are listed in section 1, "Important Dates 2009-10".

IMPORTANT NOTE: You are advised not to make travel plans prior to the release of the Final Exam Schedule. Vacation plans *do not* constitute grounds for the deferral or re-scheduling of final exams.

In some courses there is no final examination; your standing in these courses is determined by term work and class tests.

3.6.2.1 University Regulations Concerning Final Examinations

Preamble
The objectives of these regulations are as follows:
1) to protect students from excessive workloads;
2) to use the full 15-week term to maximum advantage.

Regulations

1. These regulations shall apply to undergraduate courses up to and including the 500 level that are evaluated by the use of written examinations. They shall not apply to clinical, field, laboratory, performance, and seminar courses, or to other courses that are evaluated solely by means of a design, paper, program, or project.
2. Written examinations (including take-home examinations) shall not be held during the last two weeks of scheduled classes during the Fall and Winter terms, except where a pattern of continuous evaluation has been established, in which case the total value of examinations given in this period shall comprise no more than 10% of the final mark.
3. If the written examinations in a course constitute 50% or more of the final mark, one of these shall be given as a final written examination; and it shall take place during the examination period after the last day of scheduled lectures in December or April.
4. A final examination given during the examination period shall be worth at least 25% of the final mark.
5. Students shall be informed of all course requirements by the end of the course change period. All term work shall be assigned early enough in the term for students to complete the assignment(s) by the last day of class.

6. The due date for term work in courses to which these regulations apply shall be no later than the last day of classes.
7. In courses that span the Fall and Winter terms (course pairs with numbers ending D1 and D2), instructors who wish to give a mid-year examination in December must schedule it in the formal examination period.
8. The principles enunciated in these regulations shall be applied, appropriately modified, to courses given during the summer, to other courses of less than a 13-week duration, and to courses in the Faculties of Law, Medicine, Dentistry, and Education that do not follow the normal University Timetable.
9. Individual faculties may propose variations in these regulations to the Academic Policy and Planning Committee in order to meet their special needs.
10. These regulations, and any variations to them, shall be made known to students by each faculty.

Instructors are not permitted to grant any special treatment regarding examinations to any student. Students who believe there are circumstances which might justify making special examination arrangements for them or which might legitimately be taken into account in evaluating their performance should apply to the Associate Dean of their faculty (or Director, BCom Program, Desautels Faculty of Management).

It is the responsibility of the student to confirm the date, time and place of the examination by checking examination schedules posted on notice boards on campus and at www.mcgill.ca/students. This information is not available by telephone. No student will be allowed to enter an examination later than one hour after it has started.

3.6.2.2 Deferred Examinations

If, for serious reasons such as illness or family affliction, you have not written one or more examinations, you may receive the permission of your faculty student affairs office to defer the examination to the next supplemental examination period, except in the Faculty of Engineering (where students write the examination the next time the course is given). You should be aware that the University will only defer examinations for compelling reasons, verified and accepted by the student affairs office. You must provide supporting evidence such as an appropriate medical report, and you must inform the student affairs office as soon as possible to explain why you missed the examination.

If you are in one of the following faculties, you must apply for deferred examinations on Minerva: Agricultural and Environmental Sciences, Arts, Education, Engineering, Religious Studies, Science, School of Physical and Occupational Therapy, School of Social Work, and the Centre for Continuing Education. If you do not belong to one of the above faculties, consult your faculty for application procedures.

The final application deadline in Agricultural and Environmental Sciences, Arts, Science, Education, Engineering, Management and the Centre for Continuing Education for deferred examinations is January 15 (for Fall term courses), and May 15 (for Winter term courses and courses that span the Fall and Winter terms).

If your request is approved, an L will appear in place of a grade in those courses. The grade you obtain on the deferred examination will replace the grade of L on your official transcript.

If you receive a grade of D, F, J, or U in a course after a deferred examination, no supplemental examinations will be available. You must either re-register in the same course the following term or in an approved course substitute.

Note for Music students: A Music student who has a mark of L not cleared by mid-May is ineligible for scholarships.

If you are not granted deferred status, you will receive a grade of J in the course, which will count as a failure in the TGPA and CGPA. You may, however, be allowed to write a supplemental examination. **Please note there are no supplemental exams in Agricultural and Environmental Sciences or Management courses. For the Faculty of Engineering, supplemental exams are exceptionally offered for some Science, Humanities and Social Sciences courses. For a list of these courses, see the Faculty of Engineering website (www.mcgill.ca/engineering)**.

For Summer term courses, check with your student affairs office on the availability and restrictions on deferred and supplemental examinations.

In the case of illness, you are urged to consult the McGill Student Health Service. You will need a medical note in support of a request to your Associate Dean or Director for deferred examinations.

If you have already written an examination, you cannot later request for the exam to be deferred. You should consult your student affairs office regarding the availability of supplemental examinations.

3.6.2.3 Reassessments and Rereads

In accordance with the *Charter of Student Rights*, and subject to its stated conditions, you have the right to consult any written submission for which you have received a mark. You also have the right to discuss this submission with the examiner. If you want to have a formal final examination reread, you must apply in writing to your student affairs office (the Associate Dean, Student Affairs, in the Faculty of Agricultural and Environmental Sciences and in the Schulich School of Music). You should check with that office regarding application deadlines for formal rereads.

For more detailed regulations concerning reassessments and rereads, consult your faculty section in this Calendar.

3.6.3 Invigilation (Exams from Other Universities)

Upon request, McGill will act as proctor for exams from other universities or professional accreditation associations. Exams are scheduled on week days at 9:30 a.m., and cannot be scheduled on evenings, weekends, statutory holidays or McGill holidays. This service is limited to written exams.

The Cost

The cost for invigilation and administration is $60.00 per student per exam to be returned in Canada; and $70.00 per student per exam returned in the U.S. and $80.00 for each International exam. Unless otherwise specified by the home institution, you are expected to pay in cash on the day of the exam.

Setting Up

Please confirm the exam date at least 2 weeks in advance of the scheduled exam and provide a telephone number and email address. The meeting point with the invigilator is at Enrolment Services - see address below.

Mailing address for exams

Exams and examination booklets, along with full instructions, should be sent to the address below well in advance of the scheduled exam. Once we receive them, we will confirm this via email with the student.

Enrolment Services
James Administration Building
McGill University
845 Sherbrooke Street West, Room 205
Montreal, Quebec H3A 2T5

3.7 Internships, Exchanges and Co-op Programs

3.7.1 Internships and Co-op Programs

Several faculties at McGill offer undergraduate students the opportunity to participate in an internship or co-op program.

Faculty of Agricultural and Environmental Sciences students, see section 5.1.3.1 “Internship Opportunities and Co-op Experience”.

Desautels Faculty of Management students, see section 11.3.6, "Course Overlap".

Faculty of Engineering students, see section 9.2.9, "EIP: Engineering Internship Program and IP: Industrial Practicum". The Department of Mining and Materials Engineering also offers co-op programs in Metallurgical and Mining Engineering.

Faculty of Science students, see section 14.11.10, "Internship Programs – Industrial Practicum (IP) and Internship Year in Science (IYS)".

Faculty of Arts students, see the Arts Internships website: www.mcgill.ca/arts-internships.

3.7.2 Exchange Programs

For information on Exchange Programs, see section 15.4, "Exchange Programs".

For Desautels Faculty of Management students, see also section 11.1.6, "International Student Exchange Program".

3.7.3 Field Studies

For information on Field Studies, see section 15.3 "Field Studies".

3.7.4 Quebec Government Ministère de l'Éducation, du Loisir et du Sport (MELS) Travel Awards for Quebec Residents

For information on the Quebec *Government Ministère de l'Éducation, du Loisir et du Sport* (MELS) Travel Awards for Quebec Residents, see section 15.4.3.2 "Quebec Ministère de l'Éducation, du Loisir et du Sport (MELS) Travel Awards for Quebec Residents".

3.7.5 Study Abroad Opportunities

For information on Study Abroad, please refer to section 15.1, "Opportunities for Field Study and Study Abroad" of the Calendar.

3.8 Scholarships and Student Aid

The Scholarships and Student Aid Office offers a complete range of merit and need-based awards for entering and in-course undergraduate students. As well, the office administers all federal, provincial and U.S. government student aid programs. For information and links to government websites, see www.mcgill.ca/studentaid. Comprehensive information concerning all undergraduate awards also appears in the *Undergraduate Scholarships and Awards Calendar* available at www.mcgill.ca/courses or from the Scholarships and Student Aid Office.

3.8.1 Entrance Awards for McGill Students

Undergraduate Entrance Scholarships are available to students entering McGill University in the first year of their first undergraduate degree program. You should consult www.mcgill.ca/studentaid/scholarships/entrancescholarship for details. Highlights include:

- Entrance Scholarships are entirely merit-based; financial need is not considered.
- Value ranges from $3,000 to $10,000.
- There are two types: the One-Year **Basic**, where eligibility is based solely on academic achievement; and the renewable **Major**, based on academic achievement as well as leadership qualities in school and/or community activities.

Application Procedures:

- **Basic:** by applying to McGill, all eligible applicants are automatically considered. No separate application is required.
- **Major:** candidates can apply for a Major Scholarship on the web after their application for admission has been submitted and they have received an email acknowledgment.
- You must ensure that you send in all required supporting documentation.
- Dentistry, Law, Medicine and Music applicants should inquire at their faculty's admissions office regarding availability of awards.
- If you hold a renewable scholarship from the University Committee on Scholarships and Student Aid, it is eligible for renewal only if you meet the McGill standards for renewal. See www.mcgill.ca/studentaid/scholarships/recipients.

Need-Based Entrance Financial Aid: This program offers financial aid to students from families of modest means who require assistance to attend McGill. Upon acceptance to the University, first-year, first-degree students can apply for an entrance bursary on Minerva. The value of the entrance bursary depends on the student's degree of need. Since financial need is the primary factor in the selection of aid recipients, applicants for this program are expected to apply for government student aid programs where eligible.

3.8.2 In-Course Awards for McGill Students

Faculty scholarships and awards are decided by the faculty scholarships committees. You should consult the appropriate section of this Calendar for regulations and information concerning these awards, or the *Undergraduate Scholarships and Awards Calendar*, or the following website: www.mcgill.ca/studentaid/scholarships/in-course.

- Most undergraduate scholarships and awards are granted on the basis of the combined GPA for the Fall and Winter terms, or a ranking in the top 5% of the faculty. Applications are not required unless specifically indicated in the terms of an award.
- To be considered for in-course awards and/or the renewal of entrance scholarships, you must complete at least 27 graded credits in the regular academic year. Courses completed under the Satisfactory/Unsatisfactory option, and Summer courses, are not considered.
- Up to a maximum of 6 credits from courses taken at other Quebec universities through the Inter-University Transfer (IUT) agreement can be counted towards the requirements for scholarship renewal or for consideration for other academic awards. Eligibility is based on all courses taken during the regular academic year, and on both the McGill GPA and the global GPA, which includes the IUT credits.
- You should review all regulations regarding in-course awards by consulting www.mcgill.ca/studentaid/scholarships/in-course/regulations.
- A maximum of the top 10% of students in each faculty are named to the Dean's Honour List. This designation is based on the combined GPA for the Fall and Winter terms and the minimum required CGPA is determined by each faculty. It is an official University recognition of the student's achievements and appears on the transcript. There is no monetary reward.
- Outstanding students, who rank in a maximum of the top 5% of their faculties, may also be considered for the J.W. McConnell and James McGill Awards, which the University Committee on Scholarships and Student Aid awards to top students as ranked and recommended by each faculty.
- All awards, with the exception of prizes, are credited to the tuition fee accounts of students for the following academic year.
- If you hold a renewable scholarship from the University Committee on Scholarships and Student Aid, it is eligible for renewal only if you meet the McGill standards for renewal. See www.mcgill.ca/studentaid/scholarships/recipients.

Need-Based Student Aid: The University offers an In-Course Financial Aid program to full-time undergraduate degree students on

the basis of demonstrated financial need. This aid includes bursaries, short- and long-term loans, a Work Study Program, and a Travel Award Program for exchanges/study abroad. To be considered for McGill financial aid, the University recommends that applicants apply for the maximum government student assistance for which they are eligible. The Scholarships and Student Aid Office oversees all provincial, federal and U.S. student aid programs and disburses government funds.

Student Aid Counsellors are available for consultation on an individual basis to provide advice on budgeting and debt management, and to award financial assistance to needy and deserving students.

3.8.3 Work Study Program

The Work Study Program provides students with financial assistance through part-time employment on campus. Students are accepted into the program based primarily on financial need, though academic standing is also considered. There are a variety of Work Study positions available, ranging from clerical work in an administrative office to research with a professor. In addition to helping you cope with your financial obligations, Work Study also provides practical work experience that may enhance future employment opportunities.

Further information is available on McGill's Work Study website at www.is.mcgill.ca/studentaid/workstudy and at the Scholarships and Student Aid Office:
William & Mary Brown Student Services Building
3600 McTavish Street, Suite 3200
Montreal, QC H3A 1Y2 Canada
514-398-7297
Email: work.study@mcgill.ca
www.mcgill.ca/studentaid/workstudy

Student Aid
Telephone: 514-398-6013
Email: student.aid@mcgill.ca
www.mcgill.ca/studentaid

Scholarships
Telephone: 514-398-4807
Email: scholarships@mcgill.ca
www.mcgill.ca/scholarships

3.9 Graduation

In order to graduate, you must complete faculty and program requirements. **It is your responsibility to meet all faculty and program requirements before graduation**.

You should contact your adviser (Music students should contact the Senior Student Adviser; Graduate students should contact the Graduate Program Director) early in the graduating year to make sure you will meet your program requirements by graduation time.

3.9.1 Graduation Honours

3.9.1.1 Dean's Honour List

If you are graduating with an undergraduate degree, you may be awarded the designation Dean's Honour List under the following conditions:

1) you have completed a minimum of 60 McGill credits towards your degree; and
2) you are in the top 10% of the faculty's graduating class of students; this calculation is based on the CGPA.

Note for transfer students: this designation may be withdrawn if your CGPA at another university or in another faculty at McGill is not comparable to the CGPA earned in your graduating faculty.

3.9.1.2 Distinction

If you are graduating with an undergraduate degree, you may be awarded the designation Distinction under the following conditions:

1) you have completed a minimum of 60 McGill credits towards your degree; and
2) you are in the top 25%, but below the top 10%, of your faculty's graduating class of students; this calculation is based on the CGPA.

Note for transfer students: this designation may be withdrawn if your CGPA at another university or in another faculty at McGill is not comparable to the CGPA earned in your graduating faculty.

Note: the Faculties of Education, Dentistry, Law, Medicine, and the Schools of Architecture, Nursing, as well as the Centre for Continuing Education do not assign the designation of Distinction to graduating students.

Note: the designation of Great Distinction is no longer awarded at graduation. Prior to September 2009, Distinction and Great Distinction were awarded at graduation according to faculty-specific regulations. You can find these rules in the faculty chapters of the 2008-2009 Undergraduate Programs Calendar or any earlier version at www.mcgill.ca/courses.

3.9.2 Apply to Graduate

Most undergraduate students and non-thesis graduate students (master's, certificates, diplomas) must use Minerva to apply to graduate. It is your responsibility to inform McGill of your intention to graduate. You need a minimum residency requirement of 60 credits at McGill to qualify for a McGill degree. The minimum CGPA required to graduate is 2.00.

Deadlines:

- Fall term graduation (courses completed in December for June convocation): You must apply on Minerva by the end of November.
- Winter term graduation (courses completed in April for June convocation): You must apply on Minerva by the end of February.
- Summer term graduation (courses completed by August for October convocation): You must apply on Minerva by the end of March.

If you miss one of these deadlines, contact your faculty student affairs office immediately.

The Application for Graduation is available on Minerva when you register for your final year, **except** if you are in the Faculty of Medicine or Faculty of Dentistry, where you are automatically flagged for graduation in your final year. For more information on how to apply on Minerva, go to www.mcgill.ca/minerva-students/records/graduation.

3.9.3 Graduation Approval Query

As a graduating student you can view the status of your graduation record on Minerva during the Faculty review and approval process (go to *Student Records* > *Graduation Approval Query*). The *Graduation Approval Query* form becomes available to graduating students approximately three to four weeks before the *Degree Granted* notation is updated on their records.

If you have met all requirements for graduation, your student record on Minerva will display the Degree Granted notation at the appropriate time:

- "Late February, for Fall term graduation (Convocation in Spring).
- "Late May, for Winter term graduation (Convocation in Spring).
- "Late October, for Summer term graduation (Convocation in Fall).

See www.mcgill.ca/convocations for information regarding convocation ceremonies.

3.9.4 Replacement Diploma

If your diploma was lost, damaged, or the name on the diploma should be changed, you can request a replacement diploma. You must send a written request plus a certified cheque or money order for CDN $60, payable to McGill University. You should refer to the sections below to determine which situation applies to you. Send your request to:

Enrolment Services
Duplicate Diploma Request
McGill University
James Administration Building, Room 205
Montreal QC H3A 2T5
Email: registration@mcgill.ca

Please note that requests made on behalf of a student must be accompanied by a signed letter of authorization from the student.

To replace a lost diploma: You must provide a sworn affidavit from a notary, a lawyer or a commissioner of oaths certifying that the diploma is lost. The affidavit must include:
your full name; student number; address; phone number; date of birth; degree granted/year granted; and reason for a replacement diploma.

To replace a damaged diploma or change the name on the diploma: You must send or deliver the original diploma, and your letter must include the following information: full name; student number; address; phone number; date of birth; reason for a replacement diploma; and any corrections, additions or deletions.

For name changes: you must include clear and complete photocopies of legal documents supporting your name change request. Please see section 3.2.4 "Name" for the list of acceptable documents. Note that the name change must be processed in the University system before a duplicate diploma can be issued.

To request certified copies of a diploma: McGill provides only one original diploma per student. However, you may obtain certified copies of your diploma. A cover letter bearing your signature and including your full name, student number, address and phone number is required for mail or fax requests. Note that certified copies of your diploma are not sent by fax or email.

To request a translation of a diploma: McGill can provide you certified English or French translations of your diploma as required, free of charge. Please send us a written request specifying the degree to be translated and how many copies you need. You should ensure to include your complete name, address, date of birth and signature. You must allow at least a week for processing and mailing. Note that translated diplomas are not sent by fax or email.

3.10 Admission to Professional and Graduate Studies

If you intend to proceed into Dentistry, Law or Medicine, consult the faculties concerned about their prerequisites for admission.

3.10.1 Language Requirements for Professions

Quebec law requires that candidates seeking admission to provincially recognized professional corporations* must be able to communicate verbally and in writing in French. To demonstrate a working knowledge of French, the professional corporation requires one of the following:

- Evidence that you have completed three years of full-time instruction in a French post-primary school.
- A certificate that shows you completed your secondary education in Quebec in 1986 or later.
- Successful completion of a written examination set by Quebec's *Office de la langue française* (OLF). See below for more information.

If you are a registered student and are within two years of graduating with a degree that will give you access to a professional corporation, you can write the OLF examination. You should contact Enrolment Services for an application form. Examinations take place every three months and may be attempted an unlimited number of times. Priority is given to students closest to graduation.

More information may be obtained from the Office de la langue française, 125 Sherbrooke Street West, Montreal, Quebec, H2X 1X4. Telephone: 514-873-6565. Website: www.olf.gouv.qc.ca.

If you need to acquire a functional level of proficiency in French, you can take courses from either the English and French Language Centre (Faculty of Arts) or the Centre for Continuing Education, 688 Sherbrooke Street West. Telephone: 514-398-6200.

If you are already strong in French and want to maintain or improve your proficiency, you may consider taking courses in the Department of French Language and Literature, Faculty of Arts.

Note: You cannot apply non-credit language courses, and certain credit language courses, completed at the Centre for Continuing Education to program/degree requirements. Consult your faculty for clarification.

* McGill degrees and diplomas currently give access to corporations regulating the activities of the following professional groups:

Agrologists	Lawyers
Architects	Licensed General Accountants
Chartered Accountants	Nurses
Chartered Appraisers	Occupational Therapists
Chemists	Physicians
Dentists	Physiotherapists
Dietitians	Psychologists
Engineers	Social Workers
Geologists	Speech Therapists and Audiologists
Industrial Administration Accountants	Urbanists
Industrial Relations Counsellors	Vocational Guidance Counsellors

3.10.2 Graduate Studies

McGill University offers 250 Doctoral and Master's programs in more than 85 fields of study, and many graduate diploma and certificate programs. We award degrees in a full range of academic disciplines, and are committed to providing you with an excellent graduate education and a rewarding student experience.

Please see www.mcgill.ca/gradapplicants to learn about graduate programs, research, admission requirements and funding opportunities. You can also view the *Graduate and Postdoctoral Studies Calendar* online at www.mcgill.ca/courses.

4.1 Undergraduate Advising

4.1.1 Advising and the University Mission

The Mission Statement of the University expresses the commitment to offer students "the best education available." An essential component of this is the advising process. Because advising takes place in many ways and locations at McGill, it is important that you learn about the different types of advisers (see below) and how they can help you reach your goals.

4.1.2 The Role of the Student in Advising

Your active participation in the advising process is essential for accessing the full range of academic opportunities during your studies. You must be proactive in seeking meetings with various advisers, professors, and counsellors to ensure that you receive the advice you need to formulate a personal plan of study and to meet your academic goals. While advisers are there to provide you with guidance, you are ultimately responsible for meeting your degree or diploma requirements. It is your responsibility to learn the rules and regulations of the University, your faculty, and your program. With your cooperation, advisers and counsellors will assist you throughout your undergraduate studies.

4.1.3 Types of Advising and Advisers

While at McGill, you have access to a variety of advisers, mentors, and counsellors who have different skills, expertise, and levels of authority. You can talk about your situation freely with your advisers; they will respect your wish for confidentiality. Typical types of advisers are described below. You should refer to your faculty's section of the University Undergraduate Programs Calendar for additional advising information specific to your degree program. Note that some academic matters require approval of more than one adviser, e.g., the faculty adviser and the department/school academic adviser.

Faculty Advisers are normally located in the student affairs office of each faculty and are available throughout the calendar year.
Faculty Advisers:

- Are experts in the rules, regulations, and requirements pertaining to specific degree programs.
- Provide ongoing advice and guidance on program selection, course registration, credit load, deadlines, and majors and minors.
- Offer help managing academic situations during periods of personal, financial, or medical difficulties, by working with you to identify various possibilities and strategies for making informed decisions.
- Communicate with other advisers within the University and, with your permission, serve as a direct link to other University resources.

Department/School Academic Advisers are normally located closer to the offices of professors in your area of study and may only be available during specific times of year (e.g., prior to registration for the next session or during the add/drop period) or during regularly scheduled office hours. If you are completing a major or minor in more than one unit, you will likely have an adviser in each unit. The academic adviser may be either a professor or a member of the administrative staff. You should contact your department's administrative office to determine the identity and availability of your academic adviser. You should check your progress with your academic adviser from time to time - and certainly before your final year.

Academic advisers:

- Guide you through course selection to meet the subject matter requirements of the major or minor.
- Consider requests for course equivalencies, recommend prior approval for inter-university transfer credits, or explain the rationale for the design of a department/school program.
- May assist you in planning for, and applying to, university exchange programs, and may also provide, or direct you to, information about scholarships, awards, research fellowships, and opportunities within a given field.
- Are a valuable source of information about the various resources available at McGill.
- Can provide support, guidance, and appropriate referrals if you experience academic or personal difficulties while studying at McGill.
- Are often responsible for confirming that you have met major or minor program requirements for graduation.

Professors/Lecturers may act in a voluntary capacity to mentor you as you progress through your program. The faculty adviser or department/school academic adviser may be able to help you identify a good resource person in your area of study.
Professors/lecturers:

- May provide advice on the latest trends in a specific field of study and make recommendations on related advanced readings.
- May discuss opportunities for a student research experience and help you connect with a professor or lecturer who best suits your interests or learning style.
- Refer you back to the faculty adviser or academic adviser for signatures and permission related to program requirements.

Peer Advisers are student volunteers who have been trained by faculty advisers or department/school academic advisers. They normally offer drop-in hours for advice on University life and will help you find the information you need in the Undergraduate Programs Calendar or through other University resources. Peer advisers are only available in some faculties or departments.

Related Services

The First-Year Office (FYO) (Brown Student Services Building; www.mcgill.ca/firstyear) can help new students navigate their way through the Undergraduate Programs Calendar and the information contained in the *Welcome to McGill* book. They help newly admitted students prepare for the course registration period on Minerva. To maximize this help, you are strongly urged to read the sections in the *Welcome to McGill* book that apply to your faculty. The FYO staff are always available to provide advice and referrals to the many support mechanisms at McGill.

Counselling Service (Brown Student Services Building; www.mcgill.ca/counselling) has professional counsellors and psychologists who are available to discuss personal, academic and career goals or problems. They provide individual counselling, therapy, psychoeducational workshops, and crisis intervention. A walk-in service is available.

Career Planning Service (CaPS) (Brown Student Services Building; www.mcgill.ca/caps) provides career education, guidance, and individual advising to help you in your search for permanent, part-time, or summer jobs and internships.

Enrolment Services (Service Centre, James Administration Building; 514-398-3910; www.mcgill.ca/student-records) is the place to start if you have questions related to credits on entrance or advanced standing based on previous studies.

On the Macdonald Campus, information is provided by the Student Affairs Office, Laird Hall, Room 106.

4.1.4 Student-For-A-Day Program

If you visit our **downtown campus** in October/November (Fall term) or February/March (Winter term), you can choose to sit in on a class that is open to visitors and see McGill from a student's perspective.

You do not need to pre-register: consult the list of courses available at www.mcgill.ca/visiting/studentforaday and select 1 or 2 (maximum) courses you wish to attend. Pick up your Student-For-A-Day pass at the Welcome Centre on the day of your visit. Please note that only 100-level and 200-level lectures are available. For further information, contact the Welcome Centre (514-398-6555).

Note that there are generally few lectures available on Fridays.

If you visit our **Macdonald Campus**, you can participate in the Student-For-A-Day program that provides a total immersion in the Macdonald experience. Prospective students tour the campus, sit in on classes, meet professors and students, and visit labs, facilities and residences. For further information, email the Macdonald Campus Student Affairs Office at studentinfo.macdonald@mcgill.ca to register.

4.1.5 Contact Information for Advising

In general, contact your faculty student affairs office if you have any questions on programs.

4.1.5.1 Faculty Student Affairs Offices

Faculty of Agricultural and Environmental Sciences
Telephone: 514-398-7925
Email: studentinfo.macdonald@mcgill.ca
www.mcgill.ca/macdonald

Faculty of Arts
Office of Advising and Student Information Services (OASIS)
Telephone: 514-398-1029
(from June 1 to August 31)
Telephone: 514-398-4210
(before June 1 and after August 31)
Newly admitted students email:
newstudentadvising.arts@mcgill.ca
Returning students email: adviser.arts@mcgill.ca
www.mcgill.ca/oasis

Students in U1 or above should also see the contact information for advisers in section 4.1.5.2, "Contact Information for Departments, Schools and Programs for Students in the Faculty of Arts (or the B.A. & Sc. Degree)".

Faculty of Education

4.2 Support for Students

4.2.1 Office of the Dean of Students

William and Mary Brown Student Services Building
3600 McTavish Street, Suite 4100
Montreal, QC H3A 1Y2

For information, contact (Dean/Associate Dean):
Telephone: 514-398-4990
Email: deanofstudents@mcgill.ca
Website: www.mcgill.ca/deanofstudents

The Dean and the Associate Dean of Students coordinate and promote initiatives concerned with important aspects of the student experience, such as advising, academic integrity, student discipline, student recognition programs, and outreach to families, the McGill community and the broader local community.

4.3 Student Services

4.3.1 Office of the Executive Director, Services for Students

William and Mary Brown Student Services Building
3600 McTavish Street, Suite 4100
Montreal, QC H3A 1Y2

For information, contact:
Telephone: 514-398-3825
Website: www.mcgill.ca/studentservices

The Executive Director, Services for Students (EDSS), coordinates all student services at McGill to help promote student success and well-being. The EDSS is available to provide assistance and/or information on almost all aspects of non-academic student life. Concerns of an academic nature are directed to the proper individual, office or department.

4.3.2 Student Services – Downtown Campus

Unless otherwise indicated, all Student Services on the Downtown Campus are located in the William and Mary Brown Student Services Building, 3600 McTavish Street, Montreal, Quebec, H3A 1Y2.

A list of services available is given below. For further information, see the Student Services website: www.mcgill.ca/studentservices or the address indicated above.

Student Services
General Information: 514-398-8238
Website: www.mcgill.ca/studentservices

Career Planning Service (CaPS): Provides career education, guidance, and individual advising to help you in your search for permanent, part-time, or summer jobs and internships.
Brown Student Services Building, Suite 2200 514-398-3304
Email: careers.caps@mcgill.ca
Website: www.mcgill.ca/caps

Chaplaincy Service: Concerned with the spiritual and mental well-being of all students.
Brown Student Services Building, Suite 4400 514-398-4104
Email: chaplaincy@mcgill.ca
Website: www.mcgill.ca/chaplaincy

Counselling Service: Assists with psychological, emotional, and interpersonal issues as well as vocational and academic concerns.
Brown Student Services Building, Suite 4200 514-398-3601
Email: counselling.service@mcgill.ca
Website: www.mcgill.ca/counselling

First Peoples' House: Fosters a sense of community for Aboriginal students studying at McGill.
3505 Peel Street 514-398-3217
Email: firstpeopleshouse@mcgill.ca
Website: www.mcgill.ca/fph

First-Year Office: Helps ease the transition of all students new to McGill. Coordinates "Discover McGill," a one-day, campus-wide University and faculty orientation.
Brown Student Services Building, Suite 2100 514-398-6913
Email: firstyear@mcgill.ca
Website: www.mcgill.ca/firstyear

Health Services and Dental Clinic: Provides access to experienced physicians, nurses and health educators who offer health services and information in a confidential atmosphere. Also operates a laboratory offering a wide array of testing, and a dental clinic.
Brown Student Services Building, Suite 3300 514-398-6017
Website: www.mcgill.ca/studenthealth

International Student Services: Offers support to international students on non-academic matters (immigration, health insurance, etc.), runs a Buddy Program and an orientation program.
Brown Student Services Building, Suite 3215 514-398-4349
Email: international.students@mcgill.ca
Website: www.mcgill.ca/internationalstudents

Mental Health Service: A psychiatric clinic that offers easily accessible treatment for mental health problems.
Brown Student Services Building, Suite 5500 514-398-6019
Website: www.mcgill.ca/mentalhealth

Scholarships and Student (Financial) Aid Office: Provides assistance in the form of loans, bursaries, and Work Study programs to students requiring financial aid.
Brown Student Services Building, Suite 3200 514-398-6013/6014
514-398-4807 (Scholarships)
Email: student.aid@mcgill.ca
Website: www.mcgill.ca/studentaid

Student Housing (Off-Campus): Maintains computerized lists of available off-campus student housing.
Student Housing Office, 3641 University Street 514-398-6010
Email: offcampus.housing@mcgill.ca
Website: www.mcgill.ca/offcampus

Residences: Offers accommodation for approximately 2,400 students. See section 4.4, "Residential Facilities" for more information.
Student Housing Office 514-398-6368
Email: housing.residences@mcgill.ca
Website: www.mcgill.ca/residences

Office for Students with Disabilities: Coordinates services to meet the needs of students with disabilities.
Brown Student Services Building, Suite 3100 514-398-6009
Email: disabilities.students@mcgill.ca TDD: 514-398-8198
Website: www.mcgill.ca/osd

Tutorial Service: Sponsors an extensive tutorial program for students.
Brown Student Services Building, Suite 4200 514-398-6011
Email: tutoring.service@mcgill.ca
Website: www.mcgill.ca/tutoring

4.3.3 Student Services – Macdonald Campus

While students who study on the Macdonald Campus may make full use of all Student Services available at McGill, the Office of the Executive Director of Services for Students gives you direct access to the services listed below.

Further information can be found on the web at www.mcgill.ca/macdonald-studentservices and the Student Services website: www.mcgill.ca/studentservices.

Unless otherwise indicated, Macdonald Campus services are located in the:
Centennial Centre, Room CC1-124
21,111 Lakeshore Road
Telephone: 514-398-7992
Fax: 514-398-7610
Email: stuserv.macdonald@mcgill.ca

Career Planning Service (CaPS): provides career education, guidance, and individual advising to help you in your search for permanent, part-time, or summer jobs and internships.
Telephone: 514-398-7582
Website: www.mcgill.ca/caps

Counselling Service: A professional counsellor is available three times a week offering counselling for personal, social and emotional issues, as well as for academic and vocational concerns. Appointments are required.
Telephone: 514-398-7992

Health Service: A referral service is available Monday through Friday. A nurse/health educator is on campus Mondays, Tuesdays and Wednesdays, and a physician is available by appointment on specified dates.
Telephone: 514-398-7565

Off-Campus Housing: Maintains computerized lists of available off-campus student housing.
Website: www.mcgill.ca/offcampus
Telephone: 514-398-7992

Student (Financial) Aid Office: Information about government aid, McGill loans and bursaries, and Work Study programs can be obtained at the Centennial Centre. During the academic year (September to April), an Administrator visits the campus every Wednesday to help students with financial problems.
Telephone: 514-398-7992

4.3.4 Ombudsperson for Students

The position of Ombudsperson for Students is filled on a half-time basis by an academic staff member. The Ombudsperson receives complaints from students and assists in the resolution of those complaints through informal means including information, advice, intervention, and referrals with a view to avoiding the more formal grievance procedures that already exist in the University.

The Office of the Ombudsperson is a confidential, independent, and neutral dispute-resolution service for all members of the student community. Please call 514-398-7059 for an appointment.

Office of the Ombudsperson, 3610 McTavish, above Dr. Penfield, Suite 14, Main Floor.
Website: www.mcgill.ca/ombudsperson.

4.3.5 Extra-Curricular Activities

There are over 250 activities and clubs that students may join. These include international clubs; religious groups; political clubs; fraternities; communications groups such as Radio McGill, the *McGill Tribune*, and the *McGill Daily*; and some 50 miscellaneous groups (e.g., science clubs; literary, theatrical and musical societies; a chess club; and the McGill Outing Club).

The University Centre, 3480 McTavish Street, provides club rooms for these activities in a four-storey building with cafeterias, a ballroom, lounges and an experimental theatre. Activities for graduate students are centred in David Thomson House at 3650 McTavish Street. On the Macdonald Campus, facilities are located in the Centennial Centre (refer to section 5, "Faculty of Agricultural and Environmental Sciences, including School of Dietetics and Human Nutrition").

4.3.6 Bookstore

The McGill University Bookstore stocks new and used textbooks, a full range of books for the academic and professional community, stationery supplies, and McGill insignia clothing and gift items. Visit the Bookstore website or in person to sign up for email reminders so you are the first to know about services such as used textbook buy back and other events.

3420 McTavish Street
Telephone: 514-398-7444
Website: www.mcgill.ca/bookstore

Macdonald Bookstore
Centennial Centre
Telephone: 514-398-8300:
Website: www.mcss.mcgill.ca/bookstore.html

4.3.7 Computer Store

The McGill Computer Store, located on the second floor of the University Bookstore, sells a full range of computer hardware, software, peripherals and consumer electronics at educational prices.

3420 McTavish Street
Telephone: 514-398-5025
Website: www.mcgill.ca/mcs
Email: sales.mcs@mcgill.ca

4.3.8 Day Care

The McGill Childcare Centre is an independently run centre that can accommodate 106 children, ranging in age from four months to five years. Early application is required as placement is limited, especially for certain age groups.

The Centre is located at:
3491 Peel Street, Montreal, QC H3A 1W7
Telephone: 514-398-6943

A Campus Day Care Centre, located adjacent to the Macdonald Campus, is an independently run centre that can accommodate approximately 60 children, ranging in age from four months to five years. In addition, 50 children can be accommodated in Home Day Care within the neighbourhood. Preference is given to the Macdonald Campus community. Early application is recommended.

The Centre is located at:
1 Maple Avenue, Ste.-Anne-de-Bellevue H9X 2E3
Telephone: 514-398-7951
For Home Day Care information, contact:
Telephone: 514-457-7953

4.4 Residential Facilities

4.4.1 University Residences – Downtown

Residence Admissions Office
3641 University Street
Montreal, QC H3A 2B3
Telephone: 514-398-6368
Fax: 514-398-2305
Email: housing.residences@mcgill.ca
Website: www.mcgill.ca/residences

McGill Residences house approximately 2,500 undergraduate students in dormitories, apartments, and shared-facilities houses. McGill's dormitories are primarily for first-year students and feature full meal service. McGill's apartment-style residences and shared-facilities houses are mainly for first-year students who desire a more independent residence lifestyle.

Trained upper-year student leaders (Floor Fellows) and Academic Staff (Directors) live in all McGill Residences and provide support for the residents. An elected Residence Council serves as the voice of students.

All residence rooms have telephone and high-speed network-access services, which are available at extra cost. All McGill Residences are connected to the McGill Wireless Network.

4.4.1.1 Dormitory-style Residences

McGill has eight dormitory residences:

- The four co-ed Bishop Mountain Residences (Gardner, McConnell, Molson and Douglas Halls) are located on the slope of Mount Royal and overlook the campus.
- Royal Victoria College (RVC) is an all-women's residence located one block from the McGill gates.
- The co-ed New Residence Hall is located five short blocks from the campus.
- Dio and Prez Rez are co-ed dorms located directly across from the Milton Gates to campus.

Each residence has access to multiple cafeterias and provides compulsory full meal service for all dormitory residents.

Rooms at the Bishop Mountain Residences, Dio and Prez Rez and RVC are mostly single occupancy. New Residence Hall has mostly double rooms. Each student gets a bed, desk, chair, dresser, closet and small fridge (one fridge per double room).

In all halls, residents are responsible for the cleanliness of their rooms. Common bathrooms and showers are located on each floor, except in the New Residence Hall, where there is a private bathroom within each room. Each hall has a laundry room, including card-operated washers and dryers, and ironing facilities. All halls have a TV and recreation room, pay telephones, and a small storage area for suitcases, ski equipment, etc.

4.4.1.2 Apartment-style Residences

Solin Hall is a modern, award-winning apartment-style residence that has two-, three- and four-bedroom apartments. Located four Metro stops west of the main campus, Solin features large common areas (TV and games rooms) and a computer lab, and houses mostly first-year students. Each apartment has a living room, dining room, kitchen and bathroom(s), with basic furniture such as stove, fridge, table, chairs, sofa, lamps and drapes. Bedrooms have a bed, desk, chair and dresser. All apartments and public

area floors are carpeted. Shopping areas are within walking distance. Limited indoor parking is available.

The Greenbriar Apartments residence is located one block from the campus. It houses mostly first-year undergraduate students in self-contained studio and double-occupancy, one-bedroom apartments. Apartment kitchens have a stove, fridge and sink, and bedrooms have a bed, desk, table, chairs, dresser and blinds.

Although these residences do not offer meal plans, residents may purchase one at the residence cafeterias.

4.4.1.3 Shared-facilities Houses

McGill Residences maintains a number of beautifully renovated older buildings, each housing between 13 and 30 first-year students. These shared-facilities houses are located a few blocks from the campus and have single- and double-occupancy bedrooms with large shared kitchens, bathrooms and common areas. Each bedroom has a desk, chair, bed (many are loft beds), dresser, closet and blinds. Common areas are also fully furnished.

Although these residences do not offer meal plans, residents may purchase one at the residence cafeterias.

4.4.1.4 Residence Fees

Residence fees for the 2009-2010 session had not been set at the time this Calendar was published. Fees for the 2008-2009 session were as follows:

Rates for Gardner, McConnell, Molson and Douglas Halls ranged from $9,840 to $10,736 for a single room and $9,236 to $10,148 for a double room. Rates include the mandatory five-day per week meal plan. The rates at Royal Victoria College include a mandatory seven-day per week meal plan and range from $11,404 to $12,006 for single rooms and $10,594 to $10,764 for a double room. These rates are for the regular session: September 1 to April 30.

At the New Residence Hall, room rates (including mandatory meal plan) were $11,838 per person for double rooms and $12,948 for a single room. These rates are for the regular session: September 1 to April 30.

The rooms in Solin Hall and the Greenbriar Apartments are leased on an 11-month basis: September 1 to July 31. The room rates were $7,161 to $8,195 for a single room and $5,522 to $6,105 for a double room in a multi-bedroom apartment at Solin Hall. Single-occupancy studio apartments at Greenbriar were $9,141 and double-occupancy one-bedroom apartments were $6,281 per person. Rates do not include a meal plan.

Shared facilities houses are also leased on an 11-month basis: September 1 to July 31. Room rates ranged from $7,403 to $8,712 for a single room, and from $5,599 to $6,193 for a double room, depending on the dimensions of the room. Rates do not include a meal plan.

4.4.1.5 Meal Plans

Residents at Molson, McConnell and Gardner Halls dine in a large, centrally-located hall. Douglas Hall and RVC have their own dining areas. Residents of Dio and Prez Rez are welcome to use their 5-day meal plan at the RVC and BMH cafeterias. RVC offers 19 meals per week (7 days per week), while the Bishop Mountain Residences offer 15 meals per week (Monday to Friday), including takeout lunches and dinners. All the Halls have kitchenettes, where residents can keep food and prepare snacks or meals at any time.

Residents of the New Residence Hall have access to the on-site cafeteria with extended hours, seven days per week. The meal plan allows residents to eat at certain on-campus cafeterias as well. There are kitchenettes on each floor where residents can prepare snacks at any time.

Solin Hall, the Greenbriar Apartments and the shared-facilities houses do not offer meal plans. The apartments and houses have fully equipped kitchens where students prepare their own meals. However, residents are welcome to purchase a meal plan at the residence cafeterias.

4.4.1.6 Student Government

Each hall has a Residence Council, elected at the start of the academic year. It is the job of the council to gather hall opinions, supervise financial affairs, and organize sports, recreational, and social activities within the residences. McGill's residences are run for the convenience and advantage of the students living in them. The students decide on and administer the rules and regulations themselves.
Note: Residence fees include an activity fee of $20 collected by the University on behalf of the Residence Council of each hall, which comprises each Council's budget with which to plan activities for the hall.

4.4.2 University Residences – Macdonald Campus

Campus Housing Office
P.O. Box 188
Macdonald Campus of McGill University
Sainte-Anne-de-Bellevue, QC H9X 3V9
Telephone: 514-398-7716
Fax: 514-398-7953
Email: residences.macdonald@mcgill.ca
Website: www.mcgill.ca/macdonald-residences

Residence life is an integral part of Macdonald Campus activities. Laird Hall, with a capacity of 250 students, is a co-ed residence that provides accommodation for undergraduate, graduate, and Farm Management Technology students. Residents enjoy comfortable rooms, modern kitchens, cozy lounge facilities, and other amenities that help make their residence life a complete and meaningful part of their university experience. All dorm rooms have telephone and high-speed network access services, which are available at extra cost.

The EcoResidence, Canada's first ecologically friendly student residence and winner of the Prix d'excellence from the Ordre des architectes du Québec, accommodates 100 students. The EcoResidence is a unique initiative that recycled two buildings and incorporated ecological construction technology. This residence will appeal to students who enjoy independent living in self-contained apartments of two or six single-bedroom units. Units are split-level with large, airy common living areas and fully equipped kitchens.

4.4.2.1 Residence Fees – Macdonald Campus

Residence fees are paid separately from tuition, in accordance with regulations of the Fee Payment Option selected at the time of signing a Residence Lease.

The residence fees for the 2009-10 session had not been set at the time this Calendar was published. The 2008-09 session rates for Laird Hall are: $2,560 (double occupancy) and $2,840 (single occupancy). Rates for the EcoResidence vary from $410 to $420 per month. An updated fee sheet will be available with the residence application forms when an offer of accommodation is made.

There is no meal plan offered on the Macdonald Campus. Students may purchase a Commuter meal plan. Refer to www.mcgill.ca/foodservices/plans for additional information. At the moment, meals are also available on a cash basis from the Centennial Centre cafeteria. The cafeteria is open for breakfast and lunch only, five days per week (it is not open Saturdays, Sundays, or on holidays designated by the University). For budgeting purposes, the cost of meals per session is approximately $3,000.

4.4.2.2 Residence Occupancy – Macdonald Campus

The residence fees cover the period August 23, 2009 to May 1, 2010. You must vacate your room at the end of the lease term. Only under exceptional circumstances will you be granted permission to arrive prior to the beginning date of the lease or remain in residence during the summer months. In these cases, you must apply to the Campus Housing Office; an additional fee will be charged if permission is granted.

You can request permission to extend your stay in residence (at the normal weekly charge) if you are taking extended courses after

the regular session, employed on the Campus, or registered for summer courses.

In exceptional circumstances, international students or students coming from a distance may be admitted early. Permission from the Campus Housing Office must be obtained before you leave home. Student Officers may be admitted before the opening date of courses, if permission is granted by the Campus Housing Office.

4.4.2.3 Facilities for Non-Resident Students – Macdonald Campus

The Centennial Centre features common rooms for studying. Lockers are available in the Macdonald-Stewart Building. You can rent them at the Students' Society Office in Centennial Centre. You can purchase meals from the Snack Bar facility of the Centennial Centre and the Link Café located on the ground floor between the Macdonald-Stewart Building and Barton Library. The Snack Bar is open for breakfast and lunch only, Monday through Friday. The Link Café is open Monday through Thursday 8:00 a.m. to 8:00 p.m. and Friday 8:00 a.m. to 3:30 p.m. The Snack Bar and the Link Café are not open Saturdays, Sundays, or holidays designated by the University.

Note: Non-resident students cannot stay overnight in any residence without permission of the Campus Housing Office.

4.4.2.4 Student Parking – Macdonald Campus

You need a permit to park a vehicle on Macdonald Campus, provided you observe the parking regulations and other applicable rules. You can obtain a permit from the Campus Security Office, Laird Hall, Room 101, during regular office hours.

4.5 Athletics & Recreation

Downtown Campus

Dept. of Athletics & Recreation:
Offers a wide range of facilities, activities, and equipment. Facilities include a gymnasium, fitness centre, weight room (with athletics staff on hand seven evenings per week), pool, arena, Fieldhouse, stadium, indoor & outdoor running tracks, tennis courts, squash & racquetball courts, spinning, dance & martial arts studios, and various playing fields.

McGill students can participate in instructional, recreational, intramural and intercollegiate activities, as well as sports clubs. There are nominal fees for instructional courses.

McGill Athletics Centre, 475 Pine Avenue West
Telephone: 514-398-7000
Email: jill.barker@mcgill.ca (recreational sports) or earl.zukerman@mcgill.ca (intercollegiate sports)
Website: www.athletics.mcgill.ca

Macdonald Campus

Athletics:
Offers a wide range of facilities, activities, and equipment free of charge. Facilities include a gymnasium, weight room (with fitness trainers on hand four evenings per week), arena, tennis courts, playing fields and large expanses of green space.
Students can participate in instructional, recreational, intramural and intercollegiate activities. There are nominal fees for instructional courses.

Athletics offices are located in the Stewart Athletic Complex, just west of the Centennial Centre.

Stewart Athletic Complex
Telephone: 514-398-7789
Website: www.macdonaldcampusathletics.mcgill.ca

4.6 For your Information Technology (IT) needs

McGill's IT Services website is your one-stop shop for all central IT services at McGill. Visit www.mcgill.ca/it to:

- Get IT service descriptions and read FAQs.
- Find detailed information such as service cost and service availability as well as instructions on how to access the service and get IT help and support.
- Find system availability, down times and new service announcements posted under Announcements, Features and Events.
- Search the McGill IT Knowledge Base.

The following are some of the basic IT services, to get you started.

4.6.1 Logging In

You need to use your McGill Username (usually in the form of firstname.lastname@mail.mcgill.ca) and McGill Password to access many central IT services including: *my*McGill, *my*Courses, email, wireless, Virtual Private Network (VPN), and McGill's dialup access service (DAS).

To find out your McGill Username and set your McGill Password:

1) Log in to Minerva (using your 9-digit McGill ID number and your PIN).
2) Go to *Personal Menu* > *Password for McGill Username*.
3) Follow the onscreen instructions.

4.6.2 *my*McGill (the University portal)

*my*McGill is the central access point where you:

- Read your email.
- Check *my*Courses.
- Get direct links to Minerva to view and update your student records and account information.
- Search the McGill Library Catalogue.
- Keep abreast of the latest McGill news.
- And more.

Click ***my*McGill** at the top-right corner of any McGill website (www.mcgill.ca) and sign in using your McGill Username and McGill Password.

4.6.2.1 Browser compatibility

*my*McGill currently supports the latest versions of the following browsers:

- Internet Explorer (IE) (Windows).
- Firefox (Mozilla) (Windows/Macintosh).
- Netscape (Windows).

4.6.3 *my*Courses

Many of your courses will have online materials or activities such as assignments and readings, the syllabus, project guidelines, discussion forums, calendars, etc.

Access your online course content via *my*Courses at www.mcgill.ca/mycourses or through *my*McGill.

- Sign in using your McGill Username and McGill Password.
- Click *my*Courses (WebCT Vista) to enter the site.
- Verify your browser settings using the Check Browser utility at the top-right corner of the page.

Find more information on *my*Courses for students at: www.mcgill.ca/it.

4.6.4 Email

Your McGill Email Address (usually in the form of firstname.lastname@mail.mcgill.ca) is the official way the University communicates with you by email. For information on the policy see section

3.1.5, "Email Communication". Access your email at http://exchange.mcgill.ca or through the *my*McGill portal using your McGill Username and McGill Password. View your McGill Username, McGill Email Address and set up your McGill Password on the Minerva *Personal Menu*.

4.6.5 Online Student Directory

Opt in to the student directory and make it easier for your fellow classmates to contact you. Find more on this service at www.mcgill.ca/directory/students.

4.6.6 Getting Connected

Access to the following services is through your McGill Username and McGill Password. You can find more details on the following services at www.mcgill.ca/it:

Wireless
Access the Internet using your laptop or other mobile device from virtually anywhere on campus, through the McGill Wireless network. Log in to the Wireless network using your McGill Username and McGill Password.

Virtual Private Network (VPN)
If you connect to the Internet with an Internet Service Provider (ISP) other than McGill's DAS, you need to establish a VPN connection to access McGill restricted sites and resources (e.g., Library databases). Log in to VPN using your McGill Username and McGill Password.

Dialup Access (DAS)
If you do not have a high speed ISP, use McGill's dialup service and connect to the Internet using your telephone line and a modem. Log in to DAS using your McGill Username and McGill Password.

McGill Residences Telecommunications
For students living in McGill Residences and McGill Off-Campus Residences, there is a Voice and Data (wired and wireless) service.

Computer Labs
Many faculties and departments provide computer labs for students in their programs. For lab locations, computer availability, software/peripheral availability and more, see http://webforms.mcgill.ca/labs.

Connectivity@McGill iCare Clinic
Attend this free, hands-on clinic and learn how to configure your computer to connect to the Internet via wireless or modem, and how to set up a VPN connection. Find out how to register for IT Training at www.mcgill.ca/it.

4.6.7 Safe Computing

Computing Safety iCare Clinic: Attend this free clinic and learn how to prevent viruses, spyware, adware and other malicious programs from infecting your computer. Find out how to register for IT Training at www.mcgill.ca/it.

Free software: Download free antivirus and other software from McGill's Software Licensing site at www.mcgill.ca/software. Find out more about software licensing and protecting your computer at www.mcgill.ca/it.

Note: Be sure to uninstall any previous antivirus software from your computer before installing new antivirus software.

Ten tips for keeping information secure: Read the University's information security tip sheet found at www.mcgill.ca/infosec/tips.

4.6.8 Set up your security questions in *my*McGill

Setting up your security questions and answers for your McGill Password allows you to use the **Forgot Password?** link found on several McGill applications, should you forget it.

Once you have set up your McGill Password in Minerva, log into *my*McGill (http://my.mcgill.ca) and click the McGill Password Security portlet. Follow the onscreen instructions to set up your own security questions and responses.

4.6.9 Need Help?

Welcome New Students
Take an interactive guided tour of IT services: at www.mcgill.ca/it, go to *Welcome New Students*.

McGill IT Knowledge Base
Search the Knowledge Base at http://knowledgebase.mcgill.ca/it for answers to commonly asked questions about IT.

4.6.9.1 Getting Help

Contact the ICS Service Desk by submitting your request via a web form at http://webforms.mcgill.ca, or find ICS Service Desk information at www.mcgill.ca/it.

4.7 Resources for Study and Research

4.7.1 Libraries

The McGill Library consists of 13 branch libraries and special collections located across both campuses. Numbering over six million items, the Library's vast holdings include 2.5 million books, textbooks and course-readers, thousands of journal titles, vast manuscript and pictorial collections and thousands of sound and video recordings. The Library's e-resources are extensive, and include almost 50,000 e-journals, multimedia, and over one-million e-books on subjects ranging from early English literature to nutrition.

A comprehensive website (www.mcgill.ca/library), an online catalogue, and a wide range of library services link the Library's resources to those who need them for learning, research and scholarship. Hundreds of databases on topics from art history to zoology guide users to relevant journal articles and research materials, while subject guides on topics like chemistry and social work provide comprehensive and clear direction for users undertaking research. The Library's website also provides access to items such as past examination papers, McGill theses, and foreign newspapers. All electronic resources are available for use from home using the VPN (Virtual Private Network) or laboratories anywhere on the campus - access any time, any place.

The staff in each branch library can help you locate information for course work, assignments or research topics. Training is provided at all student levels to ensure you know how to find and use information. Information skills programs are undertaken as part of course curricula. Liaison Librarians specialize in specific disciplines, and are available to assist students and staff in person, on the phone, online, by email and via online chat.

Although opening hours vary, most libraries are open up to 84 hours per week, and several branch libraries extend opening hours during examination periods, including 24-hour-access to the Humanities and Social Sciences Library. Hundreds of computers are available for email, word-processing, accessing online courses, reading library materials, preparing assignments and searching the Internet. Designed to enhance the learning experiences of diverse users, the Library's facilities offer a variety of comfortable and attractive spaces, including quiet individual study areas, dynamic e-zones, and group study rooms that can be booked for use. Wireless access is available throughout the library, and all libraries have card-operated printing and copying facilities. Special facilities are available for vision- and hearing-impaired users. Laptops are also available for loan.

You can use special library services such as the Electronic Data Resources Service, which supports empirical and statistical research. Unique scholarly materials from the Rare Books and Special Collections are being digitized and theses are being submitted electronically. The Course Reserve collection in each branch library includes copies of textbooks and high-demand items on course reading lists. You can borrow materials from any library and return them anywhere across the system.

If you need material not owned by McGill University Library our Interlibrary Loan & Document Delivery Service will source it for you and pickup is available at any branch.

4.7.2 University Archives

The McGill University Archives (MUA) acquires, preserves and makes available to researchers (including students) more than 5,000 metres of records dating from 1797 to the present. These records document McGill University faculty, research, alumni and student organizations, and certain Montreal-based organizations. Archived media include textual records, photographs, slides, audio-tapes, film, video, plans, University publications, and artifacts.

The MUA acquires private records to support University research goals and manages the University's corporate memory and information assets through its Records Management Program. This program regulates the flow of administrative records and protects vital evidence of University functions and activities according to Quebec archives and records legislation.

The MUA Reading Room is open Monday to Friday, from 9:00 a.m. to 12:30 p.m. and from 1:45 p.m. to 4:45 p.m.; however, appointments are recommended. The MUA website features virtual exhibitions, tools to search the MUA holdings, and digital collections including the largest campus database of digitized images.

McGill University Archives
McLennan Library - Ground Floor

4.7.3 Museums

4.7.3.1 Redpath Museum

The Redpath Museum's mandate is to foster the study of the history and diversity of the natural world, including geological, biological and cultural diversity. Its collections have been growing for over a century, and provide resources for research and for graduate and undergraduate education in biology, geology, anthropology and other fields. Its largest collections include fossils from the ancient sea floor of eastern Quebec, the oldest land plants, a vast range of minerals, molluscs from around the world, Egyptian and classical antiquities, and artifacts from Central Africa. The Museum also houses research laboratories and classrooms.

The Museum welcomes McGill students and staff to visit its permanent exhibit, which presents the history of life through the ages illustrated by material from Quebec and neighbouring regions, as well as displays that feature the mineral and mollusc collections. The Museum also features an ethnology gallery devoted to cultures throughout the world, including ancient Egypt, classical Greece and Rome, Asia, and Africa.

859 Sherbrooke Street West
Telephone: 514-398-4086
Email: redpath.museum@mcgill.ca
Website: www.mcgill.ca/redpath

4.7.3.2 McCord Museum of Canadian History

The McCord Museum houses one of the finest historical collections in North America. It possesses some of Canada's most significant cultural treasures, including the most comprehensive collection of clothing - comprising over 16,000 garments or accessories - made or worn in Canada; an extensive collection of First Nations artifacts - the most important of its kind in Quebec with a corpus of over 13,000 objects from across Canada; and the renowned Notman Photographic Archives, which contain over one-million historical photographs and offer a unique pictorial record of Canada from pre-Confederation to the present. The McCord also houses paintings by renowned artists such as Théophile Hamel, Cornelius Krieghoff, James Pattison Cockburn and George Heriot. The Museum's Textual Archives include some 185 linear metres of documents relating to Canadian history. Finally, the McCord's website (www.mccord-museum.qc.ca) features award-winning virtual exhibitions, innovative learning resources and a vast, searchable database of information on the Museum's collections.

Exhibitions at the McCord provide innovative interpretations of the social and cultural history of Montreal, Quebec and Canada. In addition to guided tours, school programs, cultural activities and lectures, the McCord offers a range of services including the Museum Café and the boutique.

Researchers welcome by appointment.

690 Sherbrooke Street West
Telephone: 514-398-7100
Email: info@mccord.mcgill.ca
Website: www.mccord-museum.qc.ca

4.7.3.3 Lyman Entomological Museum and Research Laboratory

Located on the Macdonald Campus, this institution has the largest insect collection of any Canadian university, and is second in both numbers of species and specimens only to the Canadian National Collection of Insects in Ottawa. It is not generally open to the public since its main functions are research and teaching, not exhibitions. However, tours are available by appointment to interested parties. Telephone: 514-398-7914.

4.7.3.4 Other Historical Collections

In addition to the above, there are other collections and exhibits of a specialized nature, ordinarily open only to students. For access, contact the appropriate department. These include the Anatomical and Pathological Museums.

The Physics Department has two specialized collections that may be viewed by appointment. The Rutherford Museum contains original apparatus and other items used by Professor Ernest Rutherford in his Nobel Prize-winning research at McGill University on radioactivity (1898-1907). The McPherson Collection comprises a wide range of historical apparatus and instruments used for measurements and investigations, with special emphasis on 19th-century physics.

5.1 The Faculty

Mission statement: The Faculty of Agricultural and Environmental Sciences is committed to excellence in teaching, research and service to ensure that humanity's present and future food, health and natural resource needs are met while protecting the environment.

5.1.1 Location

McGill University, Macdonald Campus
21,111 Lakeshore Road
Sainte-Anne-de-Bellevue, QC H9X 3V9
Canada

Telephone: 514-398-7928
Website: www.mcgill.ca/macdonald

The Faculty of Agricultural and Environmental Sciences and the School of Dietetics and Human Nutrition are located on the Macdonald Campus of McGill University in Sainte-Anne-de-Bellevue at the western end of the Island of Montreal.

Served by public transport (STM [www.stm.info], bus and train), it is easily reached from the McGill downtown campus and from the Pierre Elliott Trudeau International Airport. Arrangements can also be made to use the McGill intercampus shuttle bus service. The shuttle service is available to all registered students.

5.1.2 Administrative Officers

Chandra Madramootoo; B.Sc.(Agr.Eng.), M.Sc., Ph.D.(McG.), P.Eng.(*James McGill Professor*)
Dean, Faculty of Agricultural and Environmental Sciences, and Associate Vice-Principal (Macdonald Campus)

William H. Hendershot; B.Sc.(Tor.), M.Sc.(McG.), Ph.D.(Br. Col.)
Associate Dean (Academic)

Suha Jabaji; B.Sc.(AUB), M.Sc.(Guelph), Ph.D.(Wat.)
Associate Dean (Research and Graduate Education)

David J. Lewis; B.Sc., M.Sc., Ph.D.(Mem.)
Associate Dean (Student Affairs)

Silvana Pellecchia — **Manager, Student Affairs**

Gary O'Connell; B.Comm.(C'dia) — **Director, Academic and Administrative Services**

William R. Ellyett; B.A.(Sir G. Wms.), B.Ed.(Phys.Ed.)(McG.)
Director of Athletics

Paul Meldrum; B.J.(Hons.)(Car.) — **Acting Manager, Macdonald Campus Farm**

Ginette Legault — **Manager, Campus Housing**

Peter D.L. Knox; B.Sc.(Agr.)(McG.) — **Supervisor, Property Maintenance**

5.1.3 Programs

The Faculty of Agricultural and Environmental Sciences and the School of Dietetics and Human Nutrition offer degrees in Bachelor of Science in Agricultural and Environmental Sciences, Bachelor of Engineering in Bioresource Engineering, Bachelor of Science in Food Science, Bachelor of Science in Nutritional Sciences, Concurrent degree program in Food Science and Nutritional Science, Certificate in Ecological Agriculture, Diploma in Environment, and Diploma of Collegial Studies in Farm Management and Technology.

The Faculty of Agricultural and Environmental Sciences is one of the four faculties in partnership with the McGill School of Environment.

Several programs offered by the Faculty and School lead toward professional accreditation. These include Dietetics (membership in the Dietitians of Canada and the l'Ordre professionnel des diététistes du Québec); Agricultural Economics, Animal Production, Ecological Agriculture, Soil and Water Resources and Plant Production, (specializations in the Agro-Environmental Sciences Major) (membership in the Ordre des agronomes du Québec and other provincial Institutes of Agriculture); Bioresource Engineering (membership as a professional Engineer in any province of Canada plus the Ordre des agronomes du Québec); Food Science (Accreditation by the Institute of Food Technologists and professional accreditation by the Ordre des chimistes du Québec). Professional Practice experiences to complete the dietetics practicum are provided in the McGill teaching hospitals and in a wide variety of health, education, business, government and community agencies.

The Faculty also offers M.Sc. and Ph.D. programs in the areas of Agricultural Sciences, Biological Sciences, Bioresource Engineering, Biotechnology, Environmental Sciences, Food Science, and Nutritional Sciences. M.Sc.(A) programs are offered in some disciplines. In addition, a Graduate Certificate in Biotechnology, a Graduate Diploma in Dietitian Credentialing, and a Graduate Option in Environment are offered.

5.1.3.1 Internship Opportunities and Co-op Experience

Qualified students in the B.Sc.(Ag.Env.Sc.) have the opportunity to participate in a summer-long internship related to their field of study. Students aspiring to become professional agrologists are required to do an internship under the supervision of a professional agrologist.

Most undergraduate programs offered in the Faculty include the opportunity for a Co-op work experience. Internships and Co-op experience both involve a work placement of 12 to 16 weeks' duration where the student is exposed to the main areas of operation of the employer. Each work placement is unique, and the student benefits from a program developed by both the employer and the instructor exclusively for that student.

Students who register for an internship or Co-op experience benefit from practical learning arising from work-term employment in a meaningful job situation. Students also benefit from the non-tangible learning experience arising from the increased responsibilities required to obtain and successfully complete the work term. Students have the opportunity to pursue a 6 credit internship within the Barbados and Panama Field Studies semesters. For details, see section 15.3 "Field Studies".

5.1.3.2 Exchange Programs

The Faculty of Agricultural and Environmental Sciences participates in all university-wide student exchange programs available at McGill and also has faculty-specific exchange programs. For more information, please see section 15.4 "Exchange Programs".

5.1.4 Macdonald Campus Facilities

Morgan Arboretum
The Morgan Arboretum has 245 hectares of managed and natural woodlands, fields and tree plantations used for environmental research and teaching in a wide range of courses. Groups of most Canadian native trees and many useful and important exotics are

also present. The Arboretum features self-guided interpretation trails, 20 kilometres of wooded trails, a variety of forest ecosystems, conservation projects, and forest operations such as plantation management, timber harvesting and maple syrup production. A nature interpretation program is also offered.

Macdonald Campus Library
Located in the Barton Building, the Macdonald Campus Library's collection encompasses a wide variety of resources in agriculture, food and animal science, nutrition, entrepreneurship, the environment, ecology, plant science, and biotechnology. The library is a depository for many print and electronic government publications. All computers provide access to the library catalogue, databases, e-journals and other online resources. In the E-zone students can do research, complete assignments and use specialized software such as ArcGIS, SAS or EndNote. The library is a wireless zone allowing students to connect to the internet using laptops equipped with wireless network interface cards. In addition, throughout the library students can access the internet by connecting their laptops to the Virtual Private Network jacks. Students can request articles or books through the interlibrary loan service using online forms. Liaison librarians are available to assist users in obtaining necessary print or electronic resources, and library workshops are provided throughout the year. For further information about Macdonald Campus Library visit the website at www.mcgill.ca/macdonald-library or feel free to drop by.

Macdonald Campus Computing Centre
The Macdonald Campus Computing Centre, located in the Macdonald-Stewart Building, is staffed and managed by McGill's IST Customer Services (ICS) unit. The complex is comprised of a helpdesk with walk-in/phone support, offices, and a technical repair unit, open 9:00 a.m. to 5:00 p.m., Monday to Friday. Also available are three undergraduate labs offering the following resources (open 24/7 x 365): 48 computers running MS Office, 2 black and white printers, 1 colour printer, 3 scanners and 1 multimedia card reader. A wheelchair-friendly workstation is available in lab MS2-028. ICS is also responsible for supporting the Faculty's computers and public email stations, conveniently located across the Campus. More information is available at www.mcgill.ca/ics/labs.

Lyman Entomological Museum and Research Laboratory
Originally established in 1914 and formerly housed in the Redpath Museum, the Lyman Entomological Museum was moved to the Macdonald Campus in 1961. It houses the largest university collection of insects in Canada, second in size only to the National Collection. The Museum also has an active graduate research program in association with the Department of Natural Resource Sciences. Study facilities are available, on request from the Curator, to all bona fide students of entomology. Visits by other interested parties can be arranged by calling 514-398-7914. More information is available at http://lyman.mcgill.ca.

Brace Centre for Water Resources Management
The Brace Centre for Water Resources Management is located on the Macdonald Campus. It is a multidisciplinary and advanced research and training centre of McGill University, dedicated to solving problems of water management for all human and environmental uses. It brings together staff from several McGill faculties to undertake research, teaching, specialized training, and policy and strategic studies, both in Canada and internationally. The Centre draws on the wide range of facilities available within the University. More information is available at www.mcgill.ca/brace.

5.1.5 The Student Affairs Office

The Student Affairs Office, located in Laird Hall Room 106, provides a wide variety of academic services. These include information about admission (prerequisites and program requirements), academic standing, examinations (deferrals, conflicts, rereads), exchange programs, inter-faculty and intra-faculty transfers, registration (course change, withdrawals), scholarships (entrance and in-course), second degrees, second majors, minors, session away, and graduation (convocation).

Website: www.mcgill.ca/macdonald/studentinfo/sao

5.2 Summary of Academic Programs

5.2.1 Outline of Academic Programs

Programs leading to five degrees are offered on the Macdonald Campus, with Majors associated with each degree. In addition, Minors, Certificates and Diploma programs are offered.

5.2.2 Bachelor of Science in Agricultural and Environmental Sciences - B.Sc.(Ag.Env.Sc.)

Major Programs

Graduates of programs marked with an asterisk * are eligible for membership in the Ordre des agronomes du Québec and other provincial institutes of agriculture.

Agricultural Economics*:
- Agribusiness Option, page 93
- Environmental Economics Option, page 93

Agro-Environmental Sciences*, page 94
Environmental Biology, page 94
Environment, under McGill School of Environment:
- Biodiversity and Conservation Domain, page 312
- Ecological Determinants of Health Domain, page 313
- Environmetrics Domain, page 315
- Food Production and Environment Domain, page 316
- Land Surface Processes and Environmental Change Domain, page 317
- Renewable Resource Management Domain, page 318
- Water Environments and Ecosystems Domain, page 319

International Agriculture and Food Systems, page 95
Life Sciences (Biological and Agricultural), page 96

Specializations for Major Programs listed above in Agro-Environmental Sciences, Environmental Biology, International Agriculture and Food Systems, and Life Sciences (Biological and Agricultural)

Environmental Engineering, page 105
Human Nutrition, page 107

5.2.9 Certificate Programs

Ecological Agriculture, page 110
Food Science, page 108

5.2.10 Diploma Program

Diploma in Environment, under McGill School of Environment, page 323

5.2.11 Diploma in Collegial Studies

Farm Management and Technology, page 111

5.2.12 Environmental Sciences Programs

McGill School of Environment (MSE)

The MSE is a joint initiative of the Faculty of Agricultural and Environmental Sciences, the Faculty of Arts, the Faculty of Science, and the Faculty of Law. It offers a B.Sc.(Ag.Env.Sc.) Major in Environment, a B.Sc. Major in Environment, a B.A. & Sc. Inter-Faculty Program in Environment, a B.A. Faculty Program in Environment, a Minor in Environment and a Diploma in Environment. Many of the MSE programs allow students to choose to study exclusively on the Macdonald or downtown campuses, or to take advantage of both.

A list of the B.Sc.(Ag.Env.Sc.) Domains is given under section 5.2.2 "Bachelor of Science in Agricultural and Environmental Sciences - B.Sc.(Ag.Env.Sc.)". Further information on all programs is given under the "McGill School of Environment".

Environmental Programs on the Macdonald Campus

A number of integrated environmental science programs are also offered on the Macdonald Campus, particularly within the B.Sc.(Ag.Env.Sc.) and B.Eng.(Bioresource) degrees. The objective of these interdepartmental programs is to provide the student with a well-rounded training in a specific interdisciplinary subject as well as the basis for managing natural resources. For a complete list of the programs, see section 5.2.1 "Outline of Academic Programs".

5.3 Faculty Admission Requirements

For information about the admission requirements for this faculty please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

For information about inter-faculty transfers, see section 3.3.12 "Inter-Faculty Transfer".

Applications are submitted directly online at www.mcgill.ca/applying. Please note that the same application is used for all undergraduate programs at McGill and two program choices can be entered. For further information contact:

Student Affairs Office
Macdonald Campus of McGill University
21,111 Lakeshore Road
Sainte-Anne-de-Bellevue, Quebec H9X 3V9

Telephone: 514-398-7928
Email: studentinfo.macdonald@mcgill.ca
Website: www.mcgill.ca/macdonald/prospective

More specific information on application deadlines and admission requirements can be found at www.mcgill.ca/applying/undergrad.

5.4 Student Information

5.4.1 Student Services

Students who study on the Macdonald Campus may make full use of all McGill Student Services, see section 4.2. The Office of the Executive Director of Services for Students offers direct access to several services, see "Student Services – Macdonald Campus", section 4.3.3.

For further information refer to the Macdonald Campus Student Services website, www.mcgill.ca/macdonald-studentservices, and the Student Services website, www.mcgill.ca/studentservices.

5.4.2 Athletic Services

All students who have paid Student Services fees are also eligible to use any Athletic facility without additional expense. For further information please visit the website, www.macdonaldcampusathletics.mcgill.ca, or telephone the Stewart Athletic Complex at 514-398-7789.

5.4.3 Macdonald Campus Residences

Students may apply for residence in either of two distinctive facilities:

Laird Hall, with a capacity of 250 students, is arranged on a co-educational basis and provides single and double room accommodation for both undergraduate and graduate students.

The EcoResidence, Canada's first ecologically friendly student residence and winner of the Prix d'excellence from the Ordre des architectes du Québec, accommodates 100 students in apartment-style living.

For further information, please refer to "University Residences – Macdonald Campus", section 4.4.2, or the Faculty website, www.mcgill.ca/macdonald-residences, or email residences.macdonald@mcgill.ca.

5.4.4 Extracurricular Activities

All undergraduate, postgraduate, and Farm Management and Technology students are members of the Macdonald Campus Students' Society. The MCSS, through the 19-member Students' Council, is involved in numerous campus activities such as social events, academic affairs, and the coordination of clubs and organizations. Student life is informal and friendly and student groups range from the Outdoor Adventure Club to the Photography Society. Major social events include Orientation activities, Halloween Party and Winter Carnival. The Ceilidh, a student-run bar located in the Centennial Centre, is open every Thursday night.

The Centennial Centre is the centre of student life, offering facilities for student activities, such as meeting rooms, a Yearbook room, pool tables, great places to relax, listen to music and meet friends. Also located in the Centre are the Students' Council offices, an information desk, the Robber's Roost Campus Bookstore and cafeteria.

5.4.5 Student Rights and Responsibilities

The *Handbook on Student Rights and Responsibilities* is published jointly by the Office of the Dean of Students and the University Secretariat. A copy of the Handbook can be found at www.mcgill.ca/secretariat/policies/students or obtained from the Student Affairs Office or the Macdonald Campus Student Services Centre.

5.4.6 Fees

The University reserves the right to make changes without notice in its published scale of tuition, residence and other fees.

Payment of student fees can be made directly on Minerva through internet banking or preauthorized debit charges. The first fee statement is sent by regular mail followed by e-billing viewable on Minerva which students are notified of at their McGill email address.

The University shall have no obligation to issue any transcript of record, award any diploma or re-register a student in case of non-payment of tuition fees, library fines, residence fees, or loans on their due date.

Tuition Fees
General information on Tuition and other fees is found under "Fees", section 3.4.

Other Expenses
In addition to tuition fees and the cost of accommodation and meals, students should be prepared to spend a minimum of $1,000 (dependent on program) on prescribed textbooks and classroom supplies. These may be purchased at the Campus Bookstore in the Centennial Centre.

Uniforms are required for food laboratories. Students in the B.Sc.(Nutr.Sc.) program will be advised of the uniform requirements on acceptance or promotion.

5.4.7 Scholarships and Bursaries

Various entrance and in-course scholarships and bursaries are available. For full details see www.mcgill.ca/studentaid/scholarships.

5.4.8 Immunization for Dietetics Majors

Students in the Dietetics Major are required to complete the Compulsory Immunization Program for Health Care Students prior to registration. Participation in Professional Practice (Stage) in Dietetics will only be permitted for those students who have completed all immunization requirements. For full details see www.mcgill.ca/studenthealth/forms.

5.4.9 Language Requirement for Professions

Quebec law requires that candidates seeking admission to provincially recognized Quebec professional corporations or ordres possess a working knowledge of the French language, i.e., be able to communicate verbally and in writing in that language. Agrologists, chemists, dietitians, and engineers are among those within this group.

For additional information, see section 3.10.1 "Language Requirements for Professions".

5.5 Faculty Information and Regulations

Each student in the Faculty of Agricultural and Environmental Sciences must be aware of the Faculty Regulations as stated in this Calendar. While departmental and faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of program and degree requirements, and for the observance of regulations and deadlines *rests with the student*. It is the student's responsibility to seek guidance if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

5.5.1 Minimum Credit Requirement

Students must complete the minimum credit requirement for the degree as specified in the letter of admission.

Students are normally admitted to a four-year program requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

Normally, Quebec students who have completed the Diplôme d'études collégiales (DEC) or equivalent diploma are admitted to the first year of a program requiring the completion of a minimum of 90 credits, 113 credits for Bioresource Engineering, 115 credits for Dietetics plus any missing basic science prerequisites, and 122 credits for the Concurrent Degrees in Food Science and Nutritional Sciences.

Students from outside Quebec who are admitted on the basis of a high school diploma enter the Freshman Major, which comprises 30 credits (see "Freshman Major", section 5.5.3).

Students will not receive credit toward their degree for any course that overlaps in content with a course successfully completed at McGill, at another university, at CEGEP, or Advanced Placement exams, Advanced Level results, International Baccalaureate Diploma, or French Baccalaureate.

Students in the B.Sc.(Ag.Env.Sc.) must take a minimum of two-thirds of their course credits within the Faculty of Agricultural and Environmental Sciences.

5.5.2 Minimum Grade Requirement

Students must obtain grades of C or better in any required, complementary and freshman courses used to fulfil program requirements. Students may not register in a course for which they have not passed all the prerequisite courses with a grade of C or better, except by written permission of the Departmental Chair concerned.

5.5.3 Freshman Major

Program Director: Dr. Marcia Knutt
Department of Bioresource Engineering
Telephone: 514-398-7976

Students entering university for the first time from a high school system (outside of Quebec CEGEP system) will be required to complete a freshman year of at least 30 credits in one of the four programs listed below.

Normally, students registered in the Faculty of Agricultural and Environmental Sciences Freshman program may take a maximum of 8 credits outside the Faculty offerings to meet the requirements of the program. Permission to exceed this limit must be received from the Associate Dean (Student Affairs) prior to registration.

Note: Students who are not certain they have adequate math and/or physics skills to commence the freshman year may wish to take preparatory courses prior to the normal Fall semester. Students are encouraged to discuss their potential need with their academic adviser.

B.Sc. Agricultural & Environmental Sciences

Freshman Advisor: Dr. Alice Cherestes
Department of Bioresource Engineering
Telephone: 514-398-7980

		CREDITS
Required Courses - Fall		**14.5**
AEBI 120	General Biology	3.0
AECH 110	General Chemistry 1	4.0

Concurrent Bachelor of Science in Food Science – B.Sc. (F.Sc.) and Bachelor of Science in Nutritional Sciences – B.Sc. (Nutr.Sc.)

Freshman Advisor: Judy Campbell-Gordon
School of Dietetics and Human Nutrition
Telephone: 514-398-7556

Students admitted to the Concurrent Bachelor of Science in Food Science – B.Sc.(F.Sc.) and Bachelor of Science in Nutritional Sciences – B.Sc.(Nutr.Sc.) program follow the Freshman Major provided in the section above for the B.Sc. Nutritional Sciences program.

5.5.4 Academic Advisers

Before registration, all students entering the Faculty must consult with the Academic Adviser of their program for selection and scheduling of required, complementary, and elective courses. The Academic Adviser will normally continue to act in this capacity for the duration of the student's studies in the Faculty.

A Faculty Adviser is also available in the Student Affairs Office to assist students with student record related matters.

5.5.5 Categories of Students

Full-Time Students
Full-time students in satisfactory standing take a minimum of 12 credits per term.

Where students in probationary standing are not normally permitted to take more than 14 credits per term. In exceptional circumstances the Committee on Academic Standing may give permission to attempt more.

Part-time Students
Part-time students carry fewer than 12 credits per term.

5.5.6 Academic Standing

All students are required to give satisfactory evidence of mastery of the material of lectures and laboratories. Examinations are normally held at the end of each course but other methods of evaluation may also be used. The grade assigned for a course represents the standing of the student in all the work of the course.

The following rules apply to the academic standing of a student:

1. When a student's CGPA (or TGPA in the first term of the program) falls below 2.00, the student's academic standing becomes Probationary.
2. Students in Probationary standing may register for no more than 14 credits per term.
3. While in Probationary standing, students must achieve a TGPA of 2.50 to continue in Probationary standing or a CGPA of 2.00 in order to return to Satisfactory standing. Failure to meet at least one of these conditions will result in Unsatisfactory standing. (In the case of Fall term, this will be Interim Unsatisfactory standing and the rules for Probationary standing will apply.)
4. When a student's CGPA (or TGPA in the first term of the program) falls below 1.50, the student's academic standing becomes Unsatisfactory and withdrawal is required. (In the case of Fall term, the standing will be Interim Unsatisfactory standing and the rules for Probationary standing will apply.)
5. Students in Unsatisfactory standing may not continue in their program. Application for readmission may be made only after registration has been interrupted for at least one term (not including Summer term).
6. Readmission will be in the standing Unsatisfactory/Readmit and a CGPA of 2.00 must be achieved to return to Satisfactory standing or a TGPA of 2.50 must be achieved for Probationary standing. Failure to meet at least one of these conditions will result in requirement for permanent withdrawal.

Committee on Academic Standing
The Faculty's Committee on Academic Standing, consisting of academic staff, administrative staff and a student representative, reviews special requests made by students regarding their academic life.

5.5.7 Credit System

The credit assigned to a particular course reflects the amount of effort it demands of the student. As a guideline, a one-credit course would represent approximately 45 hours total work per course. This is, in general, a combination of lecture hours and other contact hours such as laboratory periods, tutorials and problem periods as well as personal study hours.

Please refer to "Credit System", section 3.5.2.

5.5.7.1 Continuing Education Courses

Not all Continuing Education credit courses are recognized for credit within faculty degree programs. Please communicate with the Student Affairs Office before registering for such courses.

5.5.8 Academic Credit Transfer

Transfer credits based on courses taken at other institutions (completed with a grade of C or better) before entrance to this Faculty are calculated and assigned after an accepted applicant has confirmed that s/he is accepting the offer of admission.

Transfer credits may also be granted for courses taken at other institutions (completed with a grade of C or better) during a student's attendance at McGill University. Permission to apply such credits to a program in this Faculty must be secured by the student before the work is undertaken. Prior Approval Forms are available in the Student Affairs Office in the Faculty. Grades obtained in such courses do not enter into calculations of grade point averages (GPA).

Exemption from a required or complementary course on the basis of work completed at another institution must be approved by both the Instructor of the appropriate McGill course and the Academic Adviser.

Full-time degree students may register, with approval of the Student Affairs Office, for course(s) at any university in the province of Quebec. Those courses successfully completed with a minimum grade of C (according to the standards of the university giving the course), will be recognized for the purpose of the degree but the grades obtained will not enter into calculations of GPA. For further details, see section 3.3.5 “Quebec Inter-University Transfer Agreement (IUT)”, or go to www.crepuq.qc.ca to access the online application.

5.5.9 Regulations Regarding Second Academic Majors

While registered in a Major in the Faculty of Agricultural and Environmental Sciences, a student may pursue a second set of courses of greater scope than a Minor (e.g., Faculty Program, Major, Honours Program, Major Concentration) in either this Faculty or another faculty. Application for a Second Academic Major shall be made to the Associate Dean (Student Affairs) in the Student Affairs Office, Laird Hall, Room 106. Following are the regulations and procedures for Second Academic Majors:

1. The applicant for a Second Academic Major must be in Satisfactory academic standing with a minimum CGPA of 3.00.
2. The applicant, in consultation with the appropriate authority associated with each Major (Academic Adviser, Associate

Dean) must construct a proposal showing all the courses that are to be taken to satisfy the entrance and program requirements of both the First and Second Academic Majors.

3. A minimum of 36 credits must be unique to the Second Major (i.e., not part of the Required or Complementary courses taken for the First Major).
4. Students in the Faculty of Agricultural and Environmental Sciences must obtain prior approval for all proposed Second Academic Majors from their Academic Adviser and the Student Affairs Office and from the Associate Dean, adviser or appropriate committee of the other faculty concerned.
5. Normally, proposals for Second Academic Majors will be initiated before completion of U1 year of the First Academic Major.
6. The academic standards applicable to each Major will be respected.

5.5.9.1 Procedures for Minor Programs

Students wishing to register for a Minor program must complete a Minor Approval form (usually at the beginning of their U2 year), and return it duly completed to the Student Affairs Office. The Minor program will then be added to their record and will automatically continue each year unless officially cancelled by the student in writing. Students wishing to cancel the Minor must notify both the Minor adviser and the Student Affairs Office. The Minor Approval form is available on the Faculty website and in the Student Affairs Office, Laird Hall Room 106.

5.5.10 Course Change Information

1. Courses: please refer to "Course Change Period", section 3.3.7 and "Important Dates 2009-10", section 1.
2. Course withdrawal (Transcript notation of “W”): please refer to "Regulations Concerning Course Withdrawal", section 3.3.8 and "Important Dates 2009-10", section 1.
3. Other changes: Information about changes may be obtained from the Student Affairs Office of the Faculty.

5.5.11 Graduate Courses Available to Undergraduates

Undergraduates wishing to take such courses must have a cumulative grade point average (CGPA) of at least 3.20. Final approval must be obtained from the Graduate and Postdoctoral Studies Office.

5.5.12 Attendance and Conduct in Class

Matters of discipline connected with, or arising from, the general arrangement for teaching are under the jurisdiction of the Dean of the Faculty.

Students may be admonished by a professor or instructor for dishonest or improper conduct or may be reported to the Associate Dean (Student Affairs) for disciplinary action.

Punctual attendance at all classes, laboratory periods, tests, etc., is expected of all students.

5.5.13 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of K (incomplete), indicating the date by which the work is to be completed. The maximum extensions for the submission of grades to the Student Affairs Office are as follows:

- Students graduating in June:
  Fall courses — January 15
  Winter courses, and courses spanning Fall/Winter — April 30
- Non-graduating students:
  Fall courses — January 15
  Winter courses, and courses spanning Fall/Winter — May 15

Students' deadlines for submitting their work must be sufficiently in advance of these dates to ensure that the work can be graded and the mark submitted on time. It is important to note that instructors may impose earlier deadlines than those listed above.

If marks to clear Ks have not been submitted to the Student Affairs Office by the above dates, the K is automatically changed to a KF and counts as an F in the GPA.

Students with a grade of K who have serious extenuating circumstances may request an extension of the K deadline (KE) from the Associate Dean (Student Affairs). Please refer to "Grading and Grade Point Averages (GPA)", section 3.5.3 for more information about grading and credit.

5.5.14 Examinations

Students should refer to "Examinations", section 3.6 for information about final examinations and deferred examinations. Examination schedules are posted on the McGill website, www.mcgill.ca, normally one month after the start of classes for the Tentative Exam Schedule, and two months after the start of classes for the Final Exam Schedule.

Every student has a right to write essays, examinations and theses in English or in French except in courses where knowledge of a language is one of the objectives of the course.

Oral presentations made as part of course requirements shall be in English.

5.5.14.1 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark as well as the right to discuss this submission with the examiner.

If, after discussion with the instructor, students request a formal final examination reread, they must apply in writing to the Associate Dean (Student Affairs). The following conditions apply:

- grades may be either raised or lowered as the result of a reread;
- rereads in courses outside the Faculty of Agricultural and Environmental Sciences are subject to the deadlines, rules and regulations of the relevant faculty.

Application for rereads must be made by March 31 for Fall term courses and by September 30 for Winter term and Summer term courses. Students are assessed a fee for formal rereads. Any request to have term work re-evaluated must be made directly to the instructor concerned. Students should consult the Student Affairs Office for further information and for deadlines for reassessment of in-course work.

5.5.14.2 Deferred Examinations

The Faculty offers deferred exams for medical reasons and exceptional circumstances (to be approved by the Associate Dean (Student Affairs)) for the Fall and Winter period. Verify date in "Important Dates 2009-10", section 1, apply on Minerva and provide medical documentation to the Student Affairs Office.

5.5.15 Degree Requirements

To be eligible for a B.Eng.(Bioresource), B.Sc.(Ag.Env.Sc.), B.Sc.(F.Sc.), B.Sc.(Nutr.Sc.) or Concurrent B.Sc.(F.Sc.) and B.Sc.(Nutr.Sc.) degree, students must have passed, or achieved exemption, with a minimum C grade in all required and complementary courses of the program. They must have a CGPA of at least 2.00.

Students must have completed all Faculty and program requirements; see section 5.5.1 “Minimum Credit Requirement”.

A student must complete a minimum residency requirement of 60 credits at McGill in order to qualify for a McGill degree. Students in the B.Sc.(Ag.Env.Sc.) must take a minimum of 2/3 of their course credits within the Faculty of Agricultural and Environmental Sciences.

In addition, students in the Dietetics program must have completed the Stages of professional formation requiring a CGPA of 2.5.

5.5.16 Dean's Honour List

For information on the designation of Dean's Honour List awarded at graduation, see section 3.9.1.1 "Dean's Honour List".

5.5.17 Distinction

For information on the designation of Distinction awarded at graduation, see section 3.9.1.2 "Distinction".

5.5.18 Honours and First Class Honours

Departments may recommend to the Faculty that graduating students registered in an Honours program be awarded Honours or First-Class Honours under the following conditions:

- students must complete all Honours program requirements; for Honours, the CGPA at graduation must be at least 3.00;
- for First-Class Honours, the CGPA at graduation must be at least 3.50;
- some programs may impose additional requirements, which must be met before students are recommended for Honours or First-Class Honours.

Students in an Honours program whose CGPA is below 3.00 or who did not satisfy certain program requirements must consult their academic adviser to determine their eligibility to graduate in a program other than Honours.

5.5.19 Medals and Prizes

Various medals, scholarships and prizes are open to graduating students. No application is required. Full details of these are set out in the *Undergraduate Scholarships and Awards Calendar,* available on the web at www.mcgill.ca/courses.

5.6 Academic Programs

5.6.1 Bachelor of Science (Agricultural and Environmental Sciences) – B.Sc.(Ag.Env.Sc.)

B.SC.(AG.ENV.SC.) – AGRICULTURAL ECONOMICS MAJOR

Program Director: Professor John Henning
Department of Natural Resource Sciences
Telephone: 514-398-7826

Increasingly complex economic problems facing the agriculture and food system and our natural environment have intensified the need for specialized knowledge and training in the field of agricultural economics. The curriculum is designed to provide students with the knowledge, analytical and decision-making skills required in a career in agribusiness, resource management, international development, and research. The selection of courses from the agribusiness or environmental economics options permits a degree of specialization along those lines, in conjunction with the core courses listed below.

Graduates are eligible to apply for membership in the Ordre des agronomes du Québec (OAQ) if they fulfil the agronomic course requirements (consult the academic adviser).

See section 5.5.1 for prerequisites and minimum credit requirements.

		CREDITS
Core Required Courses:		**36**
One course in accounting (approved by adviser)		3
One course in introductory statistics (approved by adviser)		3
AGEC 200	Principles of Microeconomics	3
AGEC 201	Principles of Macroeconomics	3
AGEC 231	Economic Systems of Agriculture	3
AGEC 320	Intermediate Microeconomic Theory	3
AGEC 330	Agriculture and Food Markets	3
AGEC 333	Resource Economics	3
AGEC 425	Applied Econometrics	3
AGEC 430	Agriculture, Food and Resource Policy	3
AGEC 442	Economics of International Agricultural Development	3
AGEC 491	Research & Methodology	3

Options:

- Agribusiness
- Environmental Economics

AGRIBUSINESS OPTION

Whether one has interests in agricultural supply, production, marketing, finance, food processing or retailing, professional management skills are the key to success. The agribusiness option prepares students for managerial responsibility by drawing on the resources of both the Desautels Faculty of Management and the Faculty of Agricultural and Environmental Sciences. This special partnership provides students with not only a first-class business training but also a specialization in the field of agriculture.

Core Required and Complementary Courses: 36 credits
Option Required and Complementary Courses: 27 credits
Electives: To meet the minimum credit requirement for the degree.

		CREDITS
Option Required Courses:		**9**
AGEC 242	(3) Management Theories and Practices	
AGEC 332	(3) Farm Management and Finance	
AGEC 450	(3) Agriculture Business Management	
Option Complementary Science Courses:		**9**
ANSC 250	(3) Principles of Animal Science	
ENVB 210	(3) The Biophysical Environment	
FDSC 200	(3) Introduction to Food Science	
PLNT 201	(3) Comparative Plant Biology	
Option Complementary Business Courses:		**9**
9 credits chosen from the following list:		
ACCT 361	(3) Intermediate Management Accounting 1	
AGRI 310	(3) Internship in Agriculture/Environment	
BUSA 364	(3) Business Law 1	
MGCR 341	(3) Finance 1	
MGCR 352	(3) Marketing Management 1	
MGCR 382	(3) International Business	
MGSC 373	(3) Operations Research 1	
ORGB 321	(3) Leadership	

ENVIRONMENTAL ECONOMICS OPTION

This option integrates biological sciences and environmental decision making with the economics of natural resource use and development. The environmental economics option is intended to prepare students for careers in the management of natural resources and the analysis of natural resource problems and policies.

Core Required and Complementary Courses: 36 credits
Option Required and Complementary Courses: 27 credits

Electives: To meet the minimum credit requirement for the degree.

		CREDITS
Option Required Science Courses:		**12**
AEMA 306	(3) Mathematical Methods in Ecology	
ENVB 210	(3) The Biophysical Environment	
ENVB 305	(3) Population & Community Ecology	
NRSC 437	(3) Assessing Environmental Impact	
Option Complementary Courses:		**15**
15 credits chosen from the following list:		
AGRI 310	(3) Internship in Agriculture/Environment	
BREE 217	(3) Hydrology and Water Resources	
ECON 225	(3) Economics of the Environment	
ECON 326	(3) Ecological Economics	

ECON 405	(3)	Natural Resource Economics
ENVB 301	(3)	Meteorology
ENVR 203	(3)	Knowledge, Ethics and Environment
MICR 331	(3)	Microbial Ecology
NRSC 333	(3)	Physical and Biological Aspects of Pollution
NUTR 420	(3)	Toxicology and Health Risks
WILD 415	(2)	Conservation Law
WILD 421	(3)	Wildlife Conservation

GENERAL RULES FOR THE FOLLOWING B.SC.(AG.ENV.SC.) PROGRAMS:

Students register in one ***major*** and at least one ***specialization***. They may design their own program by choosing one of the four majors and at least one of the 20 specializations. By choosing two different specializations, students have the option of developing their own interdisciplinary interests. The multidisciplinary specializations are designed for those interested in broad training.

All the required and complementary courses for the major must be completed in full. Within each specialization, at least 18 credits must be unique: that is, they only count for that specialization and do not overlap with either the major or a second specialization. At least 54 credits of the 90 credits required for the degree (120 for students admitted to the Freshman year) must be from 300-level courses or higher; of this at least 12 credits must be from 400-level courses or higher.

Note: Below the program description for each major is a suggested list of specializations that complement the major.

Majors:

- Agro-Environmental Sciences
- Environmental Biology
- International Agriculture and Food systems
- Life Sciences (Biological and Agricultural)

Specializations:

- Agricultural Economics, page 96
- Agriculture and Food Systems (Multidisciplinary), page 97
- Animal Biology, page 97
- Animal Health and Disease, page 97
- Animal Production, page 98
- Applied Ecosystem Sciences, page 98
- Ecological Agriculture, page 98
- Entomology, page 99
- Environmental Biology (Multidisciplinary), page 99
- Health and Nutrition, page 99
- International Agriculture, page 99
- Life Sciences (Multidisciplinary), page 100
- Microbiology, page 100
- Molecular Biotechnology, page 101
- Plant Biology, page 101
- Plant Production, page 101
- Plant Protection, page 102
- Professional Agrology, page 102
- Soil and Water Resources, page 102
- Wildlife Biology, page 103

B.SC.(AG.ENV.SC.) – AGRO-ENVIRONMENTAL SCIENCES MAJOR (42 credits)

Program Director: Katherine McClintock
Department of Plant Science
Telephone: 514-398-7851

This major is focused on the idea that agricultural landscapes are managed ecosystems, and that humans engaged in agriculture must maintain the highest possible environmental standards while providing food and other bioproducts to the marketplace. The major core focuses on the basic and applied biology of cultivated plants, domestic animals, arable soils, and the economics of agriculture. Students then choose one or two specializations in these or connected disciplines that reflect their interests and career goals.

The program has a strong field component that includes hands-on laboratories, visits to agricultural enterprises, and opportunities for internships. Classes and laboratories exploit the unique setting and facilities of the Macdonald Campus and Farm, which is a fully functioning farm in an urban setting that exemplifies many of the issues at the forefront of modern agricultural production. Graduates of this program are eligible to become members of the Ordre des agronomes du Québec.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 36 credits
Complementary Courses: 6 credits
Specialization: at least one specialization of 18 - 24 credits
Electives: To meet the minimum credit requirement for the degree.

		CREDITS
Required Courses:		**36**
AEBI 210	Organisms 1	3
AEHM 205	Science Literacy	3
AEMA 310	Statistical Methods 1	3
AGEC 200	Principles of Microeconomics	3
AGEC 231	Economic Systems of Agriculture	3
AGRI 215	Agro-Ecosystems Field Course	3
ANSC 250	Principles of Animal Science	3
ENVB 210	The Biophysical Environment	3
LSCI 204	Genetics	3
LSCI 211	Biochemistry 1	3
LSCI 230	Introductory Microbiology	3
SOIL 315	Soil Fertility and Fertilizer Use	3

Complementary Courses: **6**

One of:

PLNT 300	(3)	Cropping Systems
PLNT 302	(3)	Forage Crops and Pastures

One of:

ANSC 451	(3)	Dairy and Beef Production Management
ANSC 458	(3)	Swine and Poultry Production

Specializations designed to be taken with the Agro-Environmental Sciences Major:

- Agricultural Economics, page 96
- Animal Health and Disease, page 97
- Animal Production, page 98
- Ecological Agriculture, page 98
- Entomology, page 99
- International Agriculture, page 99
- Plant Production, page 101
- Plant Protection, page 102
- Professional Agrology, page 102
- Soil and Water Resources, page 102

Note: For a complete list of specializations offered for students in the Bachelor of Science in Agricultural and Environmental Sciences, please refer to section 5.2.2 “Bachelor of Science in Agricultural and Environmental Sciences - B.Sc.(Ag.Env.Sc.)” and section 5.6.1.1 “Specializations”.

B.SC.(AG.ENV.SC.) – ENVIRONMENTAL BIOLOGY MAJOR (42 credits)

Program Director: Professor Chris Buddle
Department of Natural Resource Sciences
Telephone: 514-398-8026

The Environmental Biology Major is about the biology, diversity and ecology of a broad range of organisms, from plant and vertebrate animals, to insects, fungi and microbes. This Major places a strong emphasis on the ecosystems that species inhabit and the constraints imposed by the physical environment and by environmental change. Environmental Biology has significant field components worked into the course sets, and through this experiential learning, biological diversity, and the ways that species interact with their physical environment in a variety of ecosystems will be studied. The Major makes full use of the unique physical setting and faculty expertise of McGill's Macdonald Campus to train students to become ecologists, taxonomists, field biologists, and ecosystem scientists.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 30 credits
Complementary Courses: 12 credits
Specialization: at least one specialization of 18 - 24 credits
Electives: To meet the minimum credit requirement for the degree.

Specializations designed to be taken with the Environmental Biology Major:

- Applied Ecosystem Sciences, page 98
- Entomology, page 99
- Environmental Biology (Multidisciplinary), page 99
- Plant Biology, page 101
- Plant Protection, page 102
- Soil and Water Resources, page 102
- Wildlife Biology, page 103

Note: For a complete list of specializations offered for students in the Bachelor of Science in Agricultural and Environmental Sciences, please refer to section 5.2.2 "Bachelor of Science in Agricultural and Environmental Sciences - B.Sc.(Ag.Env.Sc.)" and section 5.6.1.1 "Specializations".

B.SC.(AG.ENV.SC.) – INTERNATIONAL AGRICULTURE AND FOOD SYSTEMS MAJOR (42 credits)

Program Director: Professor Anwar Naseem
Department of Natural Resource Sciences
Telephone: 514-398-7825

This program is directed at students who seek conceptual understanding of the scope of and inter-relationships among the environmental, economic and socio-cultural factors that shape the nature of developing country food systems as well as scientific competence in the ways in which agriculture can help define sustainable solutions to critical problems defined by food insecurity, malnutrition, poverty and ecological health. Students will be given general preparation sufficient for participation in project management and policy development together with a foundation adequate both for working alongside a range of development specialists and for subsequent acquisition of specific expertise in components of agricultural and food science. The program includes a common core of scientific and development-related courses.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 30 credits
Complementary Courses: 12 credits
Specialization: at least one specialization of 18 - 24 credits
Electives: To meet the minimum credit requirement for the degree.

		CREDITS

B.SC.(AG.ENV.SC.) – LIFE SCIENCES (BIOLOGICAL AND AGRICULTURAL) MAJOR (42 credits)

Program Director: Professor Brian Driscoll
Department of Natural Resource Sciences
Telephone: 514-398-7887

The Life Sciences (Biological and Agricultural) Major provides a strong foundation in the basic biological sciences. It will prepare graduates for careers in the agricultural, environmental, health and biotechnological fields. Graduates with high academic achievement may go on to post-graduate studies in research, or professional programs in the biological, veterinary, medical and health sciences fields.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 27 credits
Complementary Courses: 15 credits
Specialization: at least one specialization of 18 - 24 credits
Electives: To meet the minimum credit requirement for the degree.

5.6.1.1 Specializations

B.SC.(AG.ENV.SC.) – SPECIALIZATIONS TO BE TAKEN WITH ONE OF THE MAJORS FOR THE B.SC.(AG.ENV.SC.) DEGREE

Each specialization consists of 24 credits of courses (required and complementary) that provide a coherent package designed to prepare students for a future in a given discipline. Students will select at least one specialization. However, students wishing to broaden their training have the option of choosing to do two. Although the list of suggested specializations appears under each major in the programs section, students interested in other specializations should consult with their academic adviser/specialization coordinator.

SPECIALIZATION: AGRICULTURAL ECONOMICS (24 credits)

Specialization Coordinator:
Professor John Henning
Department of Natural Resource Sciences
Telephone: 514-398-7826

A specialization in Agricultural Economics will complement a student's education in four ways. First, as a social science, Economics will provide an alternative perspective for students in the Faculty. Second, the specialization will provide an excellent foundation of the workings of the economy at large. Third, it will aid students to understand the business environment surrounding the agri-food industry. Finally, it will challenge students to analyze the interaction between the agricultural economy and the natural resource base.

Required Courses: 12 credits
Complementary Courses: 12 credits

		CREDITS
Required Courses		**12**
AGEC 200	Principles of Microeconomics	3
AGEC 201	Principles of Macroeconomics	3

SPECIALIZATION: AGRICULTURE AND FOOD SYSTEMS (MULTIDISCIPLINARY) (24 credits)

Specialization Coordinator:
Professor Vijaya Raghavan
Department of Bioresource Engineering
Telephone: 514-398-8731

This flexible specialization offers a balance between food systems and consumption and agricultural production. It provides students with an opportunity to select courses in the economics, nutrition and ethical and environmental implications of food systems and in the fundamentals of animal and plant production. The specialization is designed for students in the International Agriculture and Food Systems major who have broad interests in international agriculture and development.

To complete the specialization, students select 12 credits from the block of complementary courses related to Food Systems and Consumption and 12 credits from the block of complementary courses related to Agriculture Production from the lists in the table below.

Complementary Courses: 24 credits

			CREDITS

SPECIALIZATION: ANIMAL BIOLOGY (24 credits)

Specialization Coordinator:
Professor Roger Cue
Department of Animal Science
Telephone: 514-398-7805

The specialization in Animal Biology is intended for students who wish to further their studies in the basic biology of large mammals and birds. Successful completion of the program should enable students to qualify for application to most veterinary colleges in North America, to post-graduate studies in a variety of biology programs, and to work in many laboratory settings.

Required Courses: 15 credits

ANSC 565	(3)	Applied Information Systems	

SPECIALIZATION: ANIMAL HEALTH AND DISEASE (24 credits)

Specialization Coordinator:
Professor Sarah Kimmins
Department of Animal Science
Telephone: 514-398-7658

This specialization is offered for students wishing to understand general animal physiology and function, the susceptibility of animals to various diseases, methods for limiting and controlling potential outbreaks, and the resulting implications for the animal, the consumer and the environment. It is an ideal choice for students interested in the care of animals, or in working in laboratories where diseases are being researched.

SPECIALIZATION: ANIMAL PRODUCTION (24 credits)

Specialization Coordinator:
Professor Arif Mustafa
Department of Animal Science
Telephone: 514-398-7506

This specialization will be of interest to students who wish to study the improved efficiency of livestock production at the national and international levels. Students are exposed to animal nutrition, physiology and breeding in a context that respects environmental concerns and animal-welfare issues. When taken in conjunction with the Major in Agro-Environmental Sciences and the Specialization in Professional Agriculture, it conforms with the eligibility requirements of the Ordre des agronomes du Québec.

Required Courses: 21 credits
Complementary Courses: 3 credits

SPECIALIZATION: ECOLOGICAL AGRICULTURE (24 credits)

Specialization Coordinator:
Dr. Caroline Begg
Department of Natural Resource Sciences
Telephone: 514-398-8749

This specialization focuses on the principles underlying the practice of ecological agriculture. When coupled with the Major in Environmental Biology, agriculture as a managed ecosystem which responds to the laws of community ecology is examined; when combined with the Major in Agro-Environmental Sciences and the Specialization in Professional Agrology, this specialization focuses more directly on the practice of ecological agriculture and conforms with the eligibility requirements of the Ordre des agronomes du Québec. It is suitable for students wishing to farm, do extension and government work, and those intending to pursue postgraduate work in this field.

SPECIALIZATION: ENTOMOLOGY (24 credits)

Specialization Coordinator:
Professor Terry Wheeler
Department of Natural Resource Sciences
Telephone: 514-398-7937

This specialization offers students expertise in insect biology, ecology, evolution and behaviour. Applied entomology is included, as insects are key pests in various ecosystems, and insect pest management is and will continue to be a global priority. Insect taxonomy and systematics will be studied both in the field and in the classroom. Through careful selection of complementary courses, students can learn about the role of insects in various ecosystems, their functional importance, and their role in vectoring human disease.

SPECIALIZATION: ENVIRONMENTAL BIOLOGY (MULTIDISCIPLINARY) (24 credits)

Specialization Coordinator:
Professor Chris Buddle
Department of Natural Resource Sciences
Telephone: 514-398-8026

This is a flexible specialization offering a balance between organisms, their ecology, and ecosystem processes and applications. Biology and ecology of a variety of taxonomic groups and the ways the organisms interact with and affect ecosystem processes will be examined. Students are exposed to ecosystem management and issues related to environmental change. The proposed specialization is designed for students with broad and general interests in environmental biology, but who wish for a strong grounding in Organismal biology and ecology and environmental sciences.

SPECIALIZATION: HEALTH AND NUTRITION (24 credits)

Specialization Coordinator:
Professor Linda Wykes
School of Dietetics and Human Nutrition
Telephone: 514-398-7843

This specialization offers students a foundation in nutrition with respect to health and disease. A focus on nutrition and health through the lifespan examines nutrient requirements and its relationship with health and disease prevention. Through careful selection of complementary courses, students can study about health and disease in various contexts ranging from human to animal health.

SPECIALIZATION: INTERNATIONAL AGRICULTURE (24 credits)

Specialization Coordinator:
Professor Humberto Mondardes
Department of Animal Science
Telephone: 514-398-7809

This specialization will provide the student with coursework and hands-on experience of techniques and issues related to agriculture in a tropical setting. Theoretical courses on the policies and practice of agriculture in an international context are complemented by participation in one of the international field semesters. Note that there is a selection process for participation in a field semester and that participation entails extra cost. In addition, students should consult the academic adviser for the specialization and carefully review the prerequisites for courses in the field

semester and the general requirements for participation, which may be over and above what is required by the student's major.

Professor Brian Driscoll
Department of Natural Resource Sciences
Telephone: 514-398-7887

Students taking this specialization have a wide variety of life sciences course offerings to choose from to allow them to target their program to their own interests in the field. Course choices are balanced between "fundamentals" and "applications." Depending upon the courses chosen, the resulting program may be relatively specialized or very broad, spanning several disciplines. Such a broad background in life sciences will open up employment opportunities in a variety of diverse bioscience industries; students with an appropriate CGPA may proceed to a wide variety of post-graduate programs or professional schools.

Complementary Courses: 24 credits

CREDITS

Complementary Courses: Fundamentals **12**

12 credits selected from the following:
ANSC 312 (3) Animal Health and Disease
ANSC 323 (3) Mammalian Physiology
ANSC 324 (3) Developmental Biology and Reproduction
ANSC 330 (3) Fundamentals of Nutrition
ANSC 400 (3) Eukaryotic Cells and Viruses
ANSC 433 (3) Animal Nutrition
ENTO 330 (3) Insect Biology
ENTO 440 (3) Insect Diversity
ENVB 305 (3) Population & Community Ecology
ENVB 313 (3) Phylogeny and Biogeography
ENVB 315 (3) Science of Inland Waters
MICR 331 (3) Microbial Ecology
MICR 338 (3) Bacterial Molecular Genetics
MICR 450 (3) Environmental Microbiology
NUTR 337 (3) Nutrition Through Life
PARA 438 (3) Immunology
PLNT 304 (3) Biology of Fungi
PLNT 353 (3) Plant Structure and Function
PLNT 358 (3) Flowering Plant Diversity
PLNT 424 (3) Cellular Regulation
PLNT 426 (3) Plant Ecophysiology
PLNT 460 (3) Plant Ecology
WILD 375 (3) Issues: Environmental Sciences
WILD 424 (3) Parasitology

Complementary Courses: Applications **12**

12 credits selected from the following:
AEBI 451 (3) Research Project 1
AEMA 406 (3) Quantitative Methods: Ecology
ANSC 420 (3) Animal Biotechnology
ANSC 424 (3) Metabolic Endocrinology
ANSC 506 (3) Advanced Animal Biotechnology
ANSC 560 (3) Biology of Lactation
ANSC 565 (3) Applied Information Systems
BINF 301 (3) Introduction to Bioinformatics
BINF 511 (3) Bioinformatics for Genomics
BTEC 306 (3) Experiments in Biotechnology
BTEC 535 (3) Functional Genomics in Model Organisms
BTEC 555 (3) Structural Bioinformatics
ENTO 352 (3) Control of Insect Pests
ENTO 535 (3) Aquatic Entomology
ENTO 550 (3) Veterinary and Medical Entomology
ENVB 301 (3) Meteorology
FDSC 442 (3) Food Microbiology
MICR 341 (3) Mechanisms of Pathogenicity
NRSC 430 (3) GIS for Natural Resource Management
NUTR 420 (3) Toxicology and Health Risks
NUTR 512 (3) Herbs, Foods and Phytochemicals
PARA 410 (3) Environment and Infection
PARA 515 (3) Water, Health and Sanitation
PLNT 305 (3) Plant Pathology
PLNT 310 (3) Plant Propagation
PLNT 315 (3) Herbs and Medicinal Plants
PLNT 434 (3) Weed Biology and Control
PLNT 435 (3) Plant Breeding
SOIL 335 (3) Soil Ecology and Management

SPECIALIZATION: MICROBIOLOGY (24 credits)

Specialization Coordinator:
Professor Lyle Whyte
Department of Natural Resource Sciences
Telephone: 514-398-7889

Students following this specialization receive education and training in fundamental principles and applied aspects of microbiology. Complementary courses allow students to focus on basic microbial sciences or applied areas such as biotechnology. Successful graduates may work in university, government and industrial research laboratories, in the pharmaceutical, fermentation and

food industries, and with an appropriate CGPA proceed to post-graduate studies or professional biomedical schools.

Required Courses: 15 credits

SPECIALIZATION: MOLECULAR BIOTECHNOLOGY (24 credits)

Specialization Coordinator:
Professor Timothy Geary
Institute of Parasitology
Telephone: 514-398-7612

Students following this specialization receive education and training in fundamental principles and applied aspects of molecular biology and biotechnology. Complementary courses allow students to focus on basic molecular biology or aspects of biotechnology such as bioinformatics. Successful graduates may work in university, government and industrial research laboratories, bioscience industries (i.e. pharmaceutical), and with an appropriate CGPA proceed to post-graduate studies or professional biomedical schools.

SPECIALIZATION: PLANT BIOLOGY (24 credits)

Specialization Coordinator:
Professor Marcia Waterway
Department of Plant Science
Telephone: 514-398-7864

This specialization emphasizes the study of plants from the cellular to the organismal level. The structure and function, development, classification, and ecology of plants will be studied. Most courses offer laboratory classes that expand on the lecture material and introduce students to the latest techniques in plant biology. Many laboratory exercises use the excellent research and field facilities at the Morgan Arboretum, McGill Herbarium, Emile A. Lods Agronomy Research Centre, the Horticultural Centre and the Plant Science greenhouses as well as McGill field stations. Students may undertake a research project under the guidance of a member of the Plant Science Department as part of their studies. Graduates with the specialization may continue in post-graduate study or work in the fields of botany, mycology, ecology, or environmental science and plant molecular biology.

SPECIALIZATION: PLANT PRODUCTION (24 credits)

Specialization Coordinator:
Professor Katrine Stewart
Department of Plant Science
Telephone: 514-398-7872

The goal of this specialization is to give students an excellent background in the knowledge and skills relating to the biology and physiology, breeding, propagation, and management of domesticated plants. The plant industry, in both rural and urban settings, is a sector of growing importance to Canadian and global economies. Graduates may find employment directly with plants in horticulture or in field crop development, production and management; or in government services, extension, teaching, consulting or post-graduate studies. When taken in conjunction with the Major in Agro-Environmental Sciences and the Specialization in Professional Agriculture, this specialization conforms with the eligibility requirements for the Ordre des agronomes du Québec.

SPECIALIZATION: PLANT PROTECTION (24 credits)

Specialization Coordinator:
Professor Ajjamada Kushalappa
Department of Plant Science
Telephone: 514-398-7867

This specialization is recommended for students with a strong interest in the complex field of plant protection in both urban and agricultural settings. The biology of herbivores, of pathogenic organisms, and of plant competitive interactions and defense mechanisms as well as the interactions of plants with their environment will be studied. Students interested in the theory and application of techniques of integrated plant protection should choose this specialization in conjunction with the Major in Agro-Environmental Sciences or the Major in Environmental Biology. Those interested in the biotechnology and molecular aspects of plant-pathogen or plant-insect interactions should choose it in conjunction with the Major in Life Sciences (Biological and Agricultural). Complementary specializations could include Plant Biology, Plant Production, Entomology or Microbiology.

SPECIALIZATION: PROFESSIONAL AGROLOGY (21 credits)

Specialization Coordinator:
Ms. Katherine McClintock
Department of Plant Science
Telephone: 514-398-7940

This specialization is required for students who wish to qualify for membership in the Ordre des agronomes du Québec. It cannot be taken alone; it must be taken with a second specialization in Agricultural Economics, Animal Production, Ecological Agriculture, Plant Production, or Soil and Water Resources.

Note: None of the credits within this specialization may also count for the student's major or other specialization. All of the 21 credits count only for this specialization.

3 credits from:
AGEC 332 (3) Farm Management and Finance
ANSC 433 (3) Animal Nutrition
SOIL 445 (3) Agroenvironmental Fertilizer Use

6 additional credits, approved by the academic adviser, in agricultural sciences or applied agriculture from the specializations in Agricultural Economics, Animal Production, Ecological Agriculture, Plant Production, or Soil and Water Resources.

SPECIALIZATION: SOIL AND WATER RESOURCES (24 credits)

Specialization Coordinator:
Professor Guy Mehuys
Department of Natural Resource Sciences
Telephone: 514-398-7944

This specialization will interest students who want to understand how soils and water interact within managed ecosystems such as urban or agricultural landscapes. The conservation and management of agricultural soils, issues affecting watershed management and decision making, and the remediation of contaminated soils will be examined. When taken with the Major in Agro-Environmental Sciences and the Specialization in Professional Agriculture, this specialization conforms with the eligibility requirements for the Ordre des agronomes du Québec.

NRSC 333 (3) Pollution and Bioremediation
NRSC 430 (3) GIS for Natural Resource Management
SOIL 510 (3) Environmental Soil Chemistry

SPECIALIZATION: WILDLIFE BIOLOGY (24 credits)

Specialization Coordinator:
Professor Murray Humphries
Department of Natural Resource Sciences
Telephone: 514-398-7885

This specialization focuses on the ecology of vertebrate animals, their biological and physical environment and the interactions that are important in the management of ecological communities and wildlife species. Students have access to local wildlife resources including the Avian Science and Conservation Centre, the McGill Arboretum, the Stonycroft Wildlife Area, the Molson Reserve and the Ecomuseum.

Chair — Donald L. Smith

Emeritus Professors — Ralph H. Estey, William F. Grant

Professors — Pierre Dutilleul, Donald L. Smith, Alan K. Watson

Associate Professors — Sylvie de Blois, Danielle J. Donnelly, Marc Fortin, Suha Jabaji, Ajjamada C. Kushalappa, Philippe Seguin, Katrine A. Stewart, Marcia J. Waterway

Assistant Professors — Jacqueline C. Bede, Jaswinder Singh, Martina V. Stromvik

Faculty Lecturers — Caroline Begg, Serge Lussier, David Wees

Associate Members — Gregory Brown *(Department of Biology)*, Timothy A. Johns *(School of Dietetics and Human Nutrition)*

Adjunct Professors — Todd Capson, Marc Fortin, Sylvie Jenni, Shahrokh Khanizadeh, Jean-François Laliberté

The Department of Plant Science offers Majors in Botanical Science and Plant Science, and participates in administering Majors in Agricultural Sciences and the Environmetrics and Food Production and Environment Domains of the McGill School of Environment.

5.6.2 Bachelor of Engineering (Bioresource) - B.Eng.(Bioresource)

BIORESOURCE ENGINEERING MAJOR

The Department of Bioresource Engineering collaborates with other departments and the Faculty of Engineering in providing courses of instruction for a curriculum in Bioresource Engineering. Graduates qualify to apply for registration as professional engineers in any province of Canada.

There are five streams offered within the Bioresource Engineering Major. Via the appropriate choice of elective course sets, a particular area of study may be emphasized. More information about these streams and the suggested course sets for each can be found on the Department website at www.mcgill.ca/bioeng.

In the **Bio-Environmental Engineering** stream, students learn about soil and water quality management and conservation, geomatics, hydrology and water resources, organic waste treatment,

use of GIS for biosystem operation, engineering for land development, climate control in buildings, ecosystem remediation, and many other related topics.

Students who follow the **Soil and Water** stream learn about hydrology, irrigation and drainage, soil and water management, environmental quality control and remediation, structural design, machinery design, artificial intelligence, GIS, and remote sensing.

In the **Ecological Engineering** stream, students learn how to apply principals of engineering and ecology to the design and implementation of complex ecological systems. They learn how to create systems that preserve and enhance natural ecological processes as a means of fulfilling design requirements.

In the **Food and Bioprocessing** stream, students are taught about the engineering of foods and food processes, physical properties of biological materials, post-harvest technology, fermentation and bio-processing, the management of organic wastes, biotechnology, the design of machinery for bioprocessing, etc.

Students who specialize in the **Agricultural Engineering** stream will learn about machine design, machinery, robotics, structural design, environmental quality control, waste management, artificial intelligence, GIS, remote sensing, complex system simulation, and much more.

All required and complementary courses must be passed with a minimum grade of C. One term is spent taking courses from the Faculty of Engineering on the McGill downtown campus.

Students also have the opportunity to pursue a Minor. Several possibilities are: Agricultural Production, Environment, Ecological Agriculture, Biotechnology, Computer Science, Construction Engineering and Management, Entrepreneurship, and Environmental Engineering**.** Details of some of these Minors can be found in the Faculty of Engineering "Minor Programs", section 9.6. To complete a Minor, it is necessary to spend at least one extra term beyond the normal requirements of the B.Eng.(Bioresource) program.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 53 credits
Complementary Courses: 60 credits

5.6.3 Bachelor of Science (Nutritional Sciences) - B.Sc.(Nutr.Sc.)

DIETETICS MAJOR

Academic Advising Coordinator:
Sandy Phillips, M.Sc., R.D.
School of Dietetics and Human Nutrition

The Dietetics major, which includes a 40 week internship (Stage) as part of its degree requirements, is a professional program that leads to membership in a regulatory body and professional licensure as a Dietitian/Nutritionist.

Graduates are qualified for challenging professional and leadership positions related to food and health, as dietitians, nutritionists and food administrators. The designations "Dietitian" and "Nutritionist" are reserved titles associated with reserved acts in the province of Quebec. As clinical nutritionists, dietitians may work in health-care settings, nutrition counselling centres, clinics and private practice. As community nutritionists, dietitians are involved in nutrition education programs through school boards, sports centres and local and international health agencies. The dietitian in the food service sector participates in all aspects of management to assure quality food products. Postgraduate programs are available to qualified graduates. The duration of the program is three and one-half years.

Successful graduates are qualified for membership in Dietitians of Canada and the Ordre professionnel des diététistes du Québec. Forty weeks of supervised professional experience in clinical and community nutrition and food service systems management are included.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 100 credits
(99 credits plus one additional credit to be determined)
Note: The School firmly applies prerequisite requirements for registration in all required courses in the Dietetics Major.

All required and complementary courses must be passed with a minimum grade of C.
Complementary Courses: 6 credits
Electives: 9 credits to meet the minimum credit requirements for the degree.

Term to be determined: Additional Required Credit		**1**
Advising Note: Students looking for a 1 credit course are advised to take AGRI 480.		
AGRI 480	Special Topics 1	1

Complementary Courses: two courses are to be selected from the following, as specified:
3 credits of Human Behavioural Science courses chosen from:
NUTR 301 (3) Psychology
or equivalent course from another faculty.

3 credits from the social sciences that may include:
AGEC 200 (3) Principles of Microeconomics
AGEC 230 (3) Agricultural and Food Marketing
ENVR 201 (3) Society and Environment
ENVR 203 (3) Knowledge, Ethics and Environment
RELG 270 (3) Religious Ethics and the Environment
or equivalent courses from another faculty.

Elective Courses:
Students who need to improve their proficiency in either English or French are strongly encouraged to choose their electives for that purpose. Students wishing to take language courses should check with the English and French Language Centre, Faculty of Arts, as placement testing may be required. Students are encouraged to develop a working knowledge of French in order to optimize their participation and learning in Stage placement sites.

Alternate elective choices can include, but are not limited to the following:
AEHM 300 (3) ESL: High Intermediate 1
AEHM 301 (3) ESL: High Intermediate 2
AEHM 330 (3) Academic and Scientific Writing
FDSC 200 (3) Introduction to Food Science
NUTR 501 (3) Nutrition in Developing Countries
NUTR 503 (3) Bioenergetics and the Lifespan
NUTR 512 (3) Herbs, Foods and Phytochemicals

* Successful completion of each component of each level of Stage (Professional Practice) in Dietetics is a prerequisite for the next level and must be passed with a minimum grade of C. Undergraduate registration is restricted to students in the Dietetics Major, CGPA greater than or equal to 3.0. Students in the Dietetics Major who have a CGPA below a 3.0 for two consecutive years will not be permitted to continue in the program. Visiting and Special students must contact the Academic Advising Coordinator (dietetics) regarding course registration approval.

Students are reminded that ethical conduct on Professional Practice (Stage) rotations is required. The Faculty reserves the right to require the withdrawal of any student if at any time the Faculty feels the student has displayed unprofessional conduct or demonstrates incompetence.

A compulsory immunization program exists at McGill which is required for Dietetics students to practice. Students should complete their immunization before arriving at Macdonald Campus; medical/health documentation must be received prior to commencement of Stage.

NUTRITION MAJOR

Academic Advising Coordinator:
Kristine G. Koski, Ph.D., R.D. (U.S.)
School of Dietetics and Human Nutrition

This Major covers the many aspects of human nutrition and food and gives first, an education in the scientific fundamentals of these disciplines and second, an opportunity to focus in (a) nutritional biochemistry and metabolism, (b) global nutrition issues, (c) food function, product development and safety and/or (d) sports nutrition. Graduates are qualified for careers in pharmaceutical and/or food industries or government laboratories, the health science communications field, sports clinics and national or international food support programs. Graduates often continue on to further studies preparing for careers in research, medicine, and dentistry or as specialists in nutrition. Aside from working as university teachers and researchers, postgraduates may be employed by government and health protection agencies, in world development programs or in the food sector.

(Currently under revision)

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 54 credits
All required courses must be passed with a minimum grade of C.
Complementary Courses: 15/16 credits
Electives: 21/20 credits to meet the minimum credit requirement for the degree. Reciprocal agreement allows all students to take a limited number of electives at any Quebec university. With prior approval students can take electives at any Canadian or international university.

		CREDITS
Required Courses:		**54**
Term 1		
FDSC 212	Bioseparation Techniques	3
LSCI 211	Biochemistry 1	3
NUTR 207	Nutrition and Health	3
NUTR 214	Food Fundamentals	3
Please note: The course FDSC 212 has been retired and the program requirements are under review.		
Term 2

Director — Kristine G. Koski

Emeritus Professor — Harriet V. Kuhnlein

Professors — Luis B. Agellon, Timothy A. Johns

Associate Professors — Grace Egeland *(Canada Research Chair),* Katherine Gray-Donald, Kristine G. Koski, Stan Kubow, Louise Thibault, Hope Weiler *(Canada Research Chair)*, Linda Wykes *(William Dawson Scholar),* Grace S. Marquis *(Canada Research Chair)*

Lecturers — Peter Bender (PT), Lynda Fraser (PT), Mary Hendrickson, Linda Jacobs Starkey, Maureen Rose, Joane Routhier, Sandy Phillips, Hugues Plourde, Heidi Ritter

Adjunct Professors — Mary l'Abbé, Kevin A. Cockell

Cross-Appointed Staff
Food Science and Agricultural Chemistry: Selim Kermasha
Medicine: Louis Beaumier, Franco Carli, Stephanie Chevalier, Réjeanne Gougeon, L. John Hoffer, Larry Lands, Errol Marliss, José Morais, Thomas Schricker, Jean-François Yale, Ralph Lattermann,
Parasitology: Marilyn E. Scott
MUHC: Sonya Page

Health and well-being of individuals in relation to food choices and physiological status prevails as the unifying theme of the programs in the School of Dietetics and Human Nutrition. The availability of food, normal metabolism and clinical nutrition, community nutrition at the local and international level, the evaluation of nutritional products and their use in nutrition, and the communication of information about food and health form the core of academic programs.

5.6.4 Bachelor of Science (Food Science) - B.Sc.(F.Sc.)

FOOD SCIENCE MAJOR

This program is intended for those students interested in the multidisciplinary field of food science. The courses are integrated to acquaint the student with food processing, food chemistry, quality assurance, analytical procedures, food products, standards and regulations. The program prepares graduates for employment as scientists in industry or government, in regulatory, research, quality assurance, or product development capacities.

Graduates have the academic qualifications for membership in the Canadian Institute of Food Science and Technology. Graduates can also qualify for recognition by the Institute of Food Technologists (IFT) and the Ordre des chimistes du Québec (OCQ) by selection of an appropriate option.

All options are completed to 90 credits with free elective courses.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 69 or 81 credits
Electives: selected in consultation with Academic Adviser, to meet the minimum 90-credit requirement for the degree. A portion of these credits should be in the humanities/social sciences.

		CREDITS
Required Courses Common to all 3 Options:		**51**
AEMA 310	Statistical Methods 1	3
AGRI 510	Professional Practice	3
BREE 324	Elements of Food Engineering	3
FDSC 200	Introduction to Food Science	3
FDSC 213	Analytical Chemistry 1	3
FDSC 251	Food Chemistry 1	3
FDSC 300	Principles of Food Analysis 1	3
FDSC 310	Post Harvest Fruit and Vegetable Technology	3
FDSC 319	Food Commodities	3
FDSC 330	Food Processing	3
FDSC 400	Food Packaging	3
FDSC 425	Principles of Quality Assurance	3
FDSC 442	Food Microbiology	3
FDSC 495	Food Science Seminar	3
LSCI 211	Biochemistry 1	3
LSCI 230	Introductory Microbiology	3
NUTR 207	Nutrition and Health	3

Note: If an introductory CEGEP level Organic Chemistry course has not been completed, then FDSC 230 (Organic Chemistry) must be completed as a replacement.

Food Chemistry Option (OCQ & IFT) Additional Required Credits		**30**
FDSC 233	Physical Chemistry	3
FDSC 305	Food Chemistry 2	3
FDSC 315	Separation Techniques in Food Analysis 1	3
FDSC 334	Analysis of Food Toxins and Toxicants	3
FDSC 405	Product Development	3
FDSC 410	Flavour Chemistry	3
FDSC 490	Research Project 1	3
FDSC 491	Research Project 2	3
FDSC 515	Enzyme Thermodynamics/Kinetics	3
FDSC 520	Biophysical Chemistry of Food	3

Food Science Option (IFT) Additional Required Credits		**18**
FDSC 233	Physical Chemistry	3
FDSC 305	Food Chemistry 2	3
FDSC 315	Separation Techniques in Food Analysis 1	3
FDSC 334	Analysis of Food Toxins and Toxicants	3
FDSC 405	Product Development	(3)
FDSC 410	Flavour Chemistry	3

Food Industry Option

Note: This option is no longer being offered.

5.6.4.1 Concurrent Bachelor of Science in Food Science – B.Sc.(F.Sc.) and Bachelor of Science in Nutritional Sciences – B.Sc.(Nutr.Sc.) – Food Science/Nutritional Science Major

The concurrent program B.Sc.(F.Sc.) and B.Sc.(Nutr.Sc.) is designed to give motivated students the opportunity to combine the two fields. The two disciplines complement each other with food science providing the scientific foundation in the fundamentals of food science and its application in the food system, while nutritional sciences brings the fundamental knowledge in the nutritional aspects of food and metabolism. The program aims to train students with the fundamental knowledge in both disciplines to promote the development of healthy food products for human consumption. The overall program is structured and closely integrated

so as to satisfy the academic requirements of both degrees as well as the professional training or exposure to industry.

See section 5.5.1 for prerequisites and minimum credit requirements.

Required Courses: 79 credits
Complementary Courses: 30 credits
Electives: 13 credits

Chair — Selim Kermasha

Professors — Inteaz Alli, William D. Marshall, Hosahalli S. Ramaswamy, Frederik R. van de Voort

Associate Professors — Ashraf A. Ismail, Selim Kermasha, Benjamin K. Simpson, Varoujan Yaylayan

Assistant Professors — Martin Chénier, Salwa Karboune

5.6.5 Minor Programs

5.6.5.1 Minor in Agricultural Production (24 credits)

Academic Adviser: Professor Katrine Stewart
Department of Plant Science
Telephone: 514-398-7872

This Minor program is designed to allow students in non-agricultural production Majors to receive credit for courses in agricultural production and to stimulate "cross-over" studies. The Minor can be associated with existing Major programs in the Faculty, but in some instances it may require more than 90 credits to meet the requirements of both the Major and the Minor.

Students are advised to consult their Major Program adviser and the Academic Adviser of the Minor in their first year. At the time of registration for their penultimate year, students must declare their intent to obtain a Minor in Agricultural Production. With the agreement of their Major Program adviser they must submit their program of courses already taken, and to be taken in their final year, to the Academic Adviser of the Agricultural Production Minor. The Academic Adviser of the Agricultural Production Minor will then certify which courses the student will apply toward the Minor and that the student's program conforms with the requirements of the Minor.

General Regulations

To obtain a Minor in Agricultural Production, students must:

a) ensure that their academic record at the University includes a C grade or higher in the courses as specified in the course requirements given below.

b) offer a minimum total of 24 credits from the courses as given below, of which not more than 6 credits may be counted for both the Major and the Minor programs. This restriction does not apply to elective courses in the Major program.

Required Courses: 12 credits
Complementary Courses: 12 credits

		CREDITS
Required Courses:		**12**
AEBI 210	Organisms 1	3
ANSC 250	Principles of Animal Science	3
ENVB 210	The Biophysical Environment	3
PLNT 300	Cropping Systems	3
Complementary Courses:		**12**
12 credits chosen from the following list in consultation with the Academic Adviser for the Minor:		
ANSC 451	(3) Dairy and Beef Production Management	
ANSC 458	(3) Swine and Poultry Production	
PLNT 302	(3) Forage Crops and Pastures	
PLNT 307	(3) Vegetable Production	
PLNT 321	(3) Fruit Production	
PLNT 331	(3) Grains and Biofuel Crops	

Notes:

1. Most courses listed at the 300 level and higher have prerequisites. Although instructors may waive prerequisite(s) in some

cases, students are urged to prepare their program of study well before their final year.

2. Not all courses are offered every year. For information on available courses, consult Class Schedule at www.mcgill.ca/minerva; complete listings can be found in the Courses section of this Calendar.

5.6.5.2 Minor in Ecological Agriculture (24 credits)

Academic Adviser: Dr. Caroline Begg
Department of Natural Resource Sciences
Telephone: 514-398-8749

This Minor program is designed to focus on the principles underlying the practice of ecological agriculture and is suitable for students wishing to farm, do extension and government work, and those intending to pursue postgraduate studies in this field.

The Minor can be associated with existing Major programs in the Faculty, but in some instances it may require more than 90 credits to meet the requirements of both the Major and the Minor.

Students are advised, during the U1 year, to consult their Major Program adviser and the academic adviser of the Minor. At the time of registration for the U2 year, students must declare their intent to obtain the Minor. With the agreement of their Major Program adviser they must submit their program of courses already taken, and to be taken, to the academic adviser of the Minor. The academic adviser of the Minor will then certify which courses the student will apply toward the Minor and confirm that the student's program conforms with the requirements of the Minor.

General Regulations
To obtain a Minor in Ecological Agriculture, students must:

a) Ensure that their academic record at the University includes a C grade or higher in the courses as specified in the course requirements given below.

b) Offer a minimum total of 24 credits from the courses as given below, of which not more than 6 credits may be counted for both the Major and the Minor programs. This restriction does not apply to elective courses in the Major program.

Required Courses: 9 credits
Complementary Courses: 15 credits

		CREDITS
Required Courses:		**9**
AGRI 210	Agro-Ecological History	3
AGRI 215	Agro-Ecosystems Field Course	3
AGRI 340	Principles of Ecological Agriculture	3
Complementary Courses:		**15**
AGEC 333 (3)	Resource Economics	
AGRI 310 (3)	Internship in Agriculture/ Environment	
AGRI 435 (3)	Soil and Water Quality Management	
ENTO 352 (3)	Control of Insect Pests	
ENTO 446 (3)	Apiculture	
MICR 331 (3)	Microbial Ecology	
NUTR 512 (3)	Herbs, Foods and Phytochemicals	
PLNT 302 (3)	Forage Crops and Pastures	
PLNT 312 (3)	Urban Horticulture	
PLNT 315 (3)	Herbs and Medicinal Plants	
PLNT 434 (3)	Weed Biology and Control	
PLNT 460 (3)	Plant Ecology	
SOIL 326 (3)	Soils in a Changing Environment	
SOIL 335* (3)	Soil Ecology and Management	
SOIL 445* (3)	Agroenvironmental Fertilizer Use	

* Note: offered in alternate years

5.6.5.3 Minor in Entrepreneurship

Note: Students will no longer be admitted into the Minor in Entrepreneurship as it is being suspended. For additional information on the Minor in Entrepreneurship, consult the *2007-2008 Undergraduate Programs Calendar* available at www.mcgill.ca/courses.

5.6.5.4 Minor in Environmental Engineering (27 credits)

The Minor program consists of 27 credits in courses that are environment related. By means of a judicious choice of complementary and elective courses, Bioresource Engineering students may obtain this Minor with a minimum of 12 additional credits.

The "Environmental Engineering Minor", section 9.6.8, is administered by the Faculty of Engineering, Department of Civil Engineering and Applied Mechanics.

Courses available in the Faculty of Agricultural and Environmental Sciences (partial listing):

BREE 322 Organic Waste Management
BREE 416 Engineering for Land Development
BREE 518 Bio-Treatment of Wastes
MICR 331 Microbial Ecology

5.6.5.5 Minor in Human Nutrition (24 credits)

Academic Adviser: Linda Wykes, Ph.D.
School of Dietetics and Human Nutrition

The Minor in Human Nutrition is intended to complement a student's primary field of study by providing a focused introduction to the metabolic aspects of human nutrition. It is particularly accessible to students in Biochemistry, Biology, Physiology, Anatomy and Cell Biology, Microbiology and Immunology, Animal Science or Food Science programs. The completion of 24 credits is required, of which at least 18 must not overlap with the primary program. All courses must be taken in the appropriate sequence and passed with a minimum grade of C. Students may declare their intent to follow the Minor program at the beginning of their U2 year. They must then consult with the Academic Adviser for the Human Nutrition Minor in the School of Dietetics and Human Nutrition to obtain approval for their course selection. Since some courses may not be offered every year and many have prerequisites, students are cautioned to plan their program in advance.

The Minor program does not carry professional recognition; therefore, it is not suitable for students wishing to become nutritionists or dietitians. However, successful completion may enable students to qualify for many postgraduate nutrition programs.

Required Courses: 6 credits
Complementary Courses: 18 credits

		CREDITS
Required Courses:		**6**
NUTR 337	Nutrition Through Life	3
NUTR 450	Research Methods: Human Nutrition	3
Complementary Courses:		**18**

3 credits in biochemistry, one of:
ANSC 234 (3) Biochemistry 2
BIOC 311 (3) Metabolic Biochemistry

3 credits in physiology, one of:
ANSC 323 (3) Mammalian Physiology
PHGY 210 (3) Mammalian Physiology 2
PHGY 202 (3) Human Physiology: Body Functions

3 credits in nutrition, one of:
ANSC 330 (3) Fundamentals of Nutrition
NUTR 307 (3) Human Nutrition

9 credits from the following list:
ANSC 551 (3) Carbohydrate and Lipid Metabolism
ANSC 552 (3) Protein Metabolism and Nutrition
MIMM 314 (3) Immunology
or PARA 438 (3) Immunology
NUTR 403 (3) Nutrition in Society

or NUTR 431 (3) Directed Studies: Dietetics and Nutrition 2
NUTR 551 (3) Analysis of Nutrition Data

PATH 300 (3) Human Disease

Notes:
1. Most courses listed at the 300 level and higher have prerequisites. Although instructors may waive prerequisite(s) in some cases, students are urged to prepare their program of study well before their final year.
2. Some courses may not be offered every year. For information on available courses, consult Class Schedule at www.mcgill.ca/minerva; complete listings can be found in the Courses section of this Calendar.

5.6.6 Certificate Programs

5.6.6.1 Certificate in Ecological Agriculture (30 credits)

Academic Adviser: Dr. Caroline Begg
Department of Natural Resource Sciences
Telephone: 514-398-8749

This 30-credit Certificate Program is very similar to the Minor Program and is designed to focus on the principles underlying the practice of ecological agriculture. The Certificate may be of special interest to professional agrologists who wish further training, as well as formal recognition that they have completed a coherent program of courses beyond their B.Sc. studies.

Students holding a B.Sc. in agriculture or a related area are eligible to register for this program provided that they are otherwise acceptable for admission to the University. Students who have completed the Minor or Specialization in Ecological Agriculture are not permitted to register for this program.

General Regulations
To obtain a Certificate in Ecological Agriculture, students must offer a minimum total of 30 credits from the courses as given below.

Required Courses: 9 credits
Complementary Courses: 21 credits

		CREDITS
Required Courses:		**9**
AGRI 210	Agro-Ecological History	3
AGRI 340	Principles of Ecological Agriculture	3
WILD 205	Principles of Ecology	3
Complementary Courses:		**21**
21 credits chosen from the following, in consultation with the Academic Adviser for Ecological Agriculture		
with at least 3 credits chosen from:		3-6
SOIL 335 (3)	Soil Ecology and Management	
SOIL 445 (3)	Agroenvironmental Fertilizer Use	
and the remaining credits to be chosen from:		15-18
AGEC 333 (3)	Resource Economics	
AGRI 215 (3)	Agro-Ecosystems Field Course	
AGRI 310 (3)	Internship in Agriculture/Environment	
AGRI 435 (3)	Soil and Water Quality Management	
ENTO 352 (3)	Control of Insect Pests	
ENVB 410 (3)	Ecosystem Ecology	
MICR 331 (3)	Microbial Ecology	
NUTR 512 (3)	Herbs, Foods and Phytochemicals	
PLNT 302 (3)	Forage Crops and Pastures	
PLNT 312 (3)	Urban Horticulture	
PLNT 434 (3)	Weed Biology and Control	
PLNT 460 (3)	Plant Ecology	
WILD 311 (3)	Ethology	

Notes:
1. Most courses listed at the 300 level and higher have prerequisites. Although instructors may waive prerequisite(s) in some cases, students are urged to prepare their program of study to ensure that they have met all conditions.
2. Not all courses are offered every year. For information on available courses, consult Class Schedule at www.mcgill.ca/minerva; complete listings can be found in the Courses section of this Calendar.
3. Students using AGRI 310 towards the requirements of the Specialization/Minor/Certificate are limited to an experience on farms or other enterprises that are either organic, biodynamic, or practising permaculture. The placement must be approved by the academic adviser for the Specialization/Minor/Certificate.

5.6.6.2 Certificate in Entrepreneurship

The Certificate in Entrepreneurship is no longer being offered. For Information on this program, refer to the *2006-2007 Undergraduate Programs Calendar*.

5.6.6.3 Certificate in Food Science (30 credits)

Academic Adviser: Hosahalli S. Ramaswamy
Department of Food Science and Agricultural Chemistry
Telephone: 514-398-7919

This 30-credit program will appeal to mature students who have a first degree in a science-related discipline. Students must complete the Introduction to Food Science, Food Microbiology and Quality Assurance courses, at least three food chemistry/analysis courses, two processing/engineering courses, and at least one course in communication skills, ethics or business skills. Entry to this program is permitted only in September.

Required Courses: 3 credits
Complementary Courses: 27 credits

		CREDITS
Required Course:		**3**
FDSC 200	Introduction to Food Science	3
Complementary Courses:		**27**
9 credits from the following:		
FDSC 251	Food Chemistry 1	3
FDSC 300	Principles of Food Analysis 1	3
FDSC 305	Food Chemistry 2	3
FDSC 315	Separation Techniques in Food Analysis 1	3
FDSC 319	Food Commodities	3
FDSC 334	Analysis of Food Toxins and Toxicants	3
FDSC 410	Flavour Chemistry	3
FDSC 495	Food Science Seminar	3
6 credits from the following:		
BREE 324	Elements of Food Engineering	3
FDSC 310	Post Harvest Fruit and Vegetable Technology	3
FDSC 330	Food Processing	3
FDSC 400	Food Packaging	3
FDSC 405	Product Development	3
FDSC 425	Principles of Quality Assurance	3
3 credits from the following:		
FDSC 442	Food Microbiology	3
LSCI 230	Introductory Microbiology	3
NUTR 207	Nutrition and Health	3
9 credits from the following:		
AGRI 510	Professional Practice	3
FDSC 515	Enzyme Thermodynamics/Kinetics	3
FDSC 519	Advanced Food Processing	3
FDSC 520	Biophysical Chemistry of Food	3
FDSC 530	Advanced Analytical Chemistry	3
FDSC 535	Food Biotechnology	3
FDSC 536	Food Traceability	3
FDSC 537	Nutraceutical Chemistry	3

5.6.7 Field Studies

African Field Study Semester
The Department of Geography, Faculty of Science, coordinates the 15-credit interdisciplinary African Field Study Semester, see section 15.3.1 "African Field Study Semester".

Barbados Field Study Semester
This program takes place at Bellairs Research Institute in Barbados, it is a full 15-credit program offered each Fall semester. For more information, see section 15.3.2 "Barbados Field Study Semester".

Barbados Interdisciplinary Tropical Studies Field Semester
This 15-credit program is offered at the Bellairs Research Institute in Barbados. For more information, see section 15.3.3 "Barbados Interdisciplinary Tropical Studies Field Semester".

Panama Field Study Semester
The program is a joint venture between McGill University and the Smithsonian Tropical Research Institute (STRI) in Panama. For more information, see section 15.3.4 "Panama Field Study Semester".

5.7 Graduate Programs

Graduate work may be undertaken on the Macdonald Campus, through the Departments of Agricultural Economics, Animal Science, Bioresource Engineering, Food Science and Agricultural Chemistry, Natural Resource Sciences, and Plant Science, the Institute of Parasitology, and the School of Dietetics and Human Nutrition.

The advanced courses of study offered lead to the degrees of Master of Science, Graduate Certificate in Biotechnology, Graduate Certificate in Integrated Water Resources Management (IWRM), and Doctor of Philosophy.

Information on these programs and related fellowships is available from the Student Affairs Office, Macdonald Campus of McGill University, 21,111 Lakeshore Road, Laird Hall, Sainte-Anne-de-Bellevue, Quebec, H9X 3V9.

The *Graduate and Postdoctoral Studies Calendar* and full information regarding graduate courses, theses, registration, fellowships, etc., can be accessed on the McGill website, www.mcgill.ca.

5.8 Farm Management and Technology Program

Farm Management and Technology Program
Faculty of Agricultural and Environmental Sciences
P.O. Box 204, Macdonald Campus of McGill
21,111 Lakeshore Road
Sainte-Anne-de-Bellevue, QC H9X 3V9

Fax: 514-398-7955
Email: fmt.macdonald@mcgill.ca
Website: www.mcgill.ca/fmt

Director — Peter Enright

5.8.1 Program – FMT

This 3-year academic and practical program is offered on the Macdonald Campus and taught by the staff of the Faculty of Agricultural and Environmental Sciences of McGill University. The program is funded by the *Ministère de l'Agriculture, des Pêcheries et de l'Alimentation du Québec* and authorized by the *Ministère de l'Éducation, du Loisir et du Sport du Québec*.

The educational goals of the program are:

1. to make our graduates competent in the exercise of their profession;
2. to help the student's integration into professional life;
3. to foster professional mobility;
4. to foster a need for continual development of professional knowledge.

Six academic terms are spent on the Macdonald Campus studying a sequence of courses in soil, plant science, animal science, engineering, economics and management. The first summer of the program includes a 13-week internship on an agricultural enterprise other than the home farm, or an agricultural business where the student learns the many skills and encounters the many problems related to modern commercial agriculture. Students prepare for their Enterprise internship during both academic semesters of Year 1 through two Farm Practice courses.

During the second summer, students are registered in Entrepreneurship 1, which involves agricultural enterprises. The students will be responsible for data collection to be used in their Farm Project and the Nutrient Management Plan 2 when they return to campus for the Fall semester. The internships and practicums will enable the students to relate their academic work to the reality of farming and the agri-food sector.

Finally, courses in English, Français, Humanities, Physical Education and two complementary courses taken during the program will entitle the student to receive a Diplôme d'études collégiales (DEC) from the *Ministère de l'Éducation, du Loisir et du Sport du Québec*. Students will also receive a certification from Macdonald Campus stating that they have successfully completed the requirements of the Farm Management and Technology Program.

5.8.2 Entrance Requirements – FMT

1. Students should have a good practical knowledge of farming under eastern Canadian conditions. One year of experience is recommended but under special conditions a four-month summer season is acceptable.
2. The minimum academic entrance requirements are a Quebec High School Leaving Certificate (Secondary V), or its equivalent and any other academic requirement set by the M.E.L.S.
3. All candidates for admission must make arrangements to come to the Macdonald Campus for an interview prior to admission to the program.
4. Admission to this program is only in the Fall semester.
5. We strongly encourage incoming students to acquire their driver's permit (both for cars **and** farm equipment) before coming to Macdonald Campus. This is first for safety reasons, given that students work with farm equipment (Soil Preparation) very early on as they arrive at Macdonald. As well, most farmers require that their employees and stagiaires know how to drive and possess the appropriate driver's license.

5.8.3 Registration – FMT

Students in the Farm Management and Technology Program must register online using Minerva at www.mcgill.ca/minerva-students for each semester at McGill.
Note: The University reserves the right to make changes without prior notice to the information contained in this publication, including the alteration of various fees, schedules, conditions of admission and credit requirements and the revision or cancellation of particular courses. In normal circumstances, individual courses will not be offered with less than five registrants.

5.8.4 Program Outline

Administrative Unit

FMTP 001	Farm Practice 1
FMTP 007	Health and Farm Safety
FMTP 011	Farm Practice 2
FMTP 036	Enterprise Internship
FMTP 037	Entrepreneurship 1

Bioresource Engineering

FMTP 003	Soil Preparation
FMTP 004	Microcomputing
FMTP 014	Machinery Management
FMTP 018	Building Maintenance
FMTP 019	Tools and Machinery Maintenance
FMTP 021	Soil and Water Conservation
FMTP 024	Farm Building Planning
FMTP 027	Precision Farming

Agricultural Economics

FMTP 002	Introduction to Economics
FMTP 025	Farm Project
FMTP 038	Financial and Managerial Accounting
FMTP 039	Agri-Marketing
FMTP 042	Budgeting, Finance and Policies
FMTP 043	Entrepreneurship 2
FMTP 044	Management of Human Resources

Animal Science

FMTP 005	Animal Anatomy and Physiology
FMTP 008	Introduction to Animal Science

English

FMTP 080	English Upgrading
FMTP 081	Components of Discourse
FMTP 082	Literary Genres
FMTP 083	Literary Themes
FMTP 084	English for FMT

Français

FMTP 075	Langue française et communication
FMTP 098	Français agricole

Humanities

FMTP 085	Humanities 1: Knowledge
FMTP 086	Humanities 2: World Views
FMTP 087	Environmental and Organizational Issues

Natural Resource Sciences

FMTP 009	Soil Fertilization
FMTP 040	Nutrient Management Plan 1
FMTP 041	Nutrient Management Plan 2

Physical Education

FMTP 093	Health and Physical Education
FMTP 094	Physical Activity
FMTP 095	Active Living

Plant Science

FMTP 006	Agricultural Botany
FMTP 017	Pesticide Use

ELECTIVE PRODUCTION COURSES

We offer four production courses in the area of Animal Science and four production courses in the area of Plant Science. Students must take a minimum of two courses in each category for a total of four courses. Students could elect to take more than four courses if they wish, after a discussion with their academic adviser. They must take a minimum of two courses per semester.

Animal Science category

FMTP 028	Dairy Heifer Management
FMTP 029	Dairy Herd Management
FMTP 030	Swine and Poultry
FMTP 031	Beef and Sheep

Plant Science category

FMTP 032	Fruit and Vegetable Crops
FMTP 033	Greenhouse Crops
FMTP 045	Field Crop Production
FMTP 046	Field Crop Management

COMPLEMENTARY COURSES*

Students must take the following complementary courses to meet the program requirements:

FMTP 096	Forests, Forestry and Society
FMTP 097	Landscape Design

* After consultation with their academic adviser, students can substitute complementary courses taken at another collegial institution. This includes science courses which are required for further studies in a degree program. The cost associated with courses taken elsewhere must be assumed by the students.

COMPREHENSIVE ASSESSMENT

The objective of this examination is to ensure that students have attained the objectives and standards for each competency in the program. Successful completion of the Comprehensive Assessment is mandatory to obtain the D.E.C.

The passing grade is 60%. The mark indicating that the student has successfully completed the Comprehensive Assessment will appear on the student's transcript.

ENGLISH EXIT EXAMINATION

All students who wish to graduate and obtain the D.E.C. must pass the English Exit Examination that is offered by the M.E.L.S. Students must take this examination on the date selected by the M.E.L.S.

5.8.5 Academic Rules and Regulations – FMT

5.8.5.1 Sessional Dates

The number of teaching and examination days is set by the *Ministère de l'Éducation, du Loisir et du Sport du Québec*. The sessional dates vary from year to year. At the present time, each semester has 75 teaching days and 7 days of exams.

5.8.5.2 Last Day for Withdrawal or Course Additions

The last day to make course registration changes for Fall term courses is September 20.

The last day to make course registration changes for Winter term courses is February 15.

5.8.5.3 Academic Standing

Attendance in class is compulsory. Students with attendance of less than 80% may not be permitted to write examinations.

Examinations and other work in courses will be marked according to the percentage system. The minimum passing mark in a course is 60%.

When a student's cumulative percent average (CPA) or semestrial percent average (SPA) first drops below 60%, or they fail four or more courses in a semester, withdrawal is advised. Students who choose to remain in the program are on probation.

Students on probation are normally permitted to register for not more than 10 credits per semester. They are not permitted to be on probation for more than one semester unless they obtain a SPA of 70% or higher.

Students who do not raise their CPA to 60% (or obtain a SPA of 70%) while on probation are not permitted to continue. They are required to withdraw from the Program for one year. If, after this period, students wish to be readmitted, they must apply in writing to the Director of the Program.

5.8.5.4 Handbook on Student Rights and Responsibilities

This Handbook is a compendium of regulations and policies governing student rights and responsibilities at McGill University. It is published jointly by the Dean of Students' Office and the Secretariat. A copy of the Handbook can be found at www.mcgill.ca/secretariat/policies/students or obtained from the Student Affairs Office or the Macdonald Campus Student Services Centre.

5.8.5.5 Institutional Policy on the Evaluation of Student Achievement

The policy has the following objectives:

- to establish and explain the principles followed in evaluating student learning;

- to describe the means of translating these principles into practice and to establish the required procedures;
- to articulate the appropriate responsibilities of students, instructors, departments, and academic administrators;
- to account to students, parents, universities and employers for the standards of learning at the campus;
- to create an environment of awareness and free discussion of pedagogical concerns within all segments of the campus community;
- to provide information which will allow students to more fully understand and participate in the educational process;
- to provide the framework within which instructors and academic administrators can exercise their professional judgment in a competent, just, and coherent fashion.

Copies are available in the Library and students are informed of it at registration.

5.8.6 Fees and Expenses – FMT

5.8.6.1 Fees

Tuition fees for all full-time students who are eligible for the Farm Management and Technology Program are paid by the *Ministère de l'Agriculture, des Pêcheries et de l'Alimentation du Québec*. Student Services and Student Societies' fees, as well as course material fees, will be charged according to the schedule in effect for all Macdonald Campus students. At the time of publishing, the fees* were $758.45 for the Fall semester and $598.85 for the Winter semester.

* 2009-10 fees, subject to change without notice.

5.8.6.2 Textbooks and Supplies

The cost of textbooks and supplies is estimated at $200.00 per semester.

5.8.6.3 Financial Assistance

In-Course Financial Aid (including loans and bursaries) is available to full-time students on the basis of demonstrated financial need, however, it is recommended that all applicants apply for the maximum government student assistance program for which they are eligible. Students may apply for In-Course Financial Aid through the Financial Aid Menu on Minerva and will then be asked to make an appointment with the Loan Administrator who visits the Student Service Centre, Macdonald campus, every Wednesday to meet with students with financial difficulties. For more information see "Scholarships and Student Aid", section 3.8, or contact the Student Service Centre at 514-398-7992.

5.8.7 Residence Accommodation – FMT

The Laird Hall Residence has a capacity of 250 students. It accommodates undergraduate, graduate, and Farm Management and Technology Program students on the Macdonald Campus. For more information, please refer to section 4.4.2 “University Residences – Macdonald Campus”, or the Faculty website, www.mcgill.ca/macdonald-residences, or email residences.macdonald@mcgill.ca.

5.9 Instructional Staff

Agellon, Luis B.; B.Sc., Ph.D.(McM.); Professor of Human Nutrition and Canada Research Chair

Alli, Inteaz; B.Sc.(Guyana), M.Sc., Ph.D.(McG.); Professor of Food Science and Agricultural Chemistry

Barrington, Suzelle; B.Sc.(Agr.Eng.), Ph.D.(McG.); Professor of Bioresource Engineering

Bede, Jacqueline; B.Sc.(Calg.), M.Sc., Ph.D.(Tor.); Assistant Professor of Plant Science

Beech, Robin N.; B.Sc.(Nott.), Ph.D.(Edin.); Associate Professor of Parasitology

Begg, Caroline; B.Sc.(Agr.)(McG.), M.Sc.(Sask.), Ph.D.(McG.); Faculty Lecturer, Department of Plant Science

Bennett, Elena; B.A.(Oberlin), M.Sc., Ph.D.(Wis.); Assistant Professor of Ecosystem Ecology and McGill School of Environment

Bird, David M.; B.Sc.(Guelph), M.Sc., Ph.D.(McG.); Fellow A.O.U.; Professor of Wildlife Biology and Director, Avian Science and Conservation Centre

Bordignon, Vilceu; Ag.Tec.(EAPC), D.V.M., M.Sc., Ph.D.; Associate Professor of Animal Science

Broughton, Robert S.; B.S.A., B.A.Sc.(Tor.), S.M.(MIT), Ph.D.(McG.), L.L.D.(Dal.); F.A.S.A.E., F.C.S.A.E.; Emeritus Professor of Bioresource Engineering

Brown, Peter G.; B.A.(Haver.), M.A., Ph.D.(Col.); Professor of Natural Resource Sciences (*joint appoint. with Geography and McGill School of Environment*)

Buckland, Roger B.; B.Sc.(Agr.), M.Sc.(McG.), Ph.D.(Md.); Emeritus Professor of Animal Science

Buddle, Christopher; B.Sc.(Guelph), Ph.D.(Alta.); Associate Professor of Forest Insect Ecology

Chenier, Martin R.; B.Sc., M.Sc.(Laval), Ph.D.(McG.); Assistant Professor of Food Safety

Cherestes, Alice; B.A., M.A., Ph.D.(CUNY); Faculty Lecturer, Faculty of Agricultural and Environmental Sciences

Clark, Grant; B.Sc. Agric. Eng.(Alta.), Ph.D.(McG.); Assistant Professor of Bioresource Engineering

Côté, Benoît; B.Sc., Ph.D.(Laval); Associate Professor of Woodland Resources, Chair of Department of Natural Resource Sciences

Cue, Roger I.; B.Sc.(Newcastle, UK), Ph.D.(Edin.); Associate Professor of Animal Science

Curtis, Mark; B.Sc., M.Sc., Ph.D.(McG.); Associate Professor of Wildlife Biology

de Blois, Sylvie; B.Sc.(Agr.)(McG.), M.Sc., Ph.D.(Montr.), Associate Professor of Plant Science and McGill School of Environment

Donnelly, Danielle J.; B.Sc.(Agr.)(McG.), M.Sc.(Br. Col.), Ph.D.(S. Fraser); Associate Professor of Plant Science

Driscoll, Brian T.; B.Sc., Ph.D.(McM.); Associate Professor of Microbiology

Duggavathi, Rajesha; B.V.Sc., M.V.Sc.(Univ. of Agricultural Sciences, Bangalore), Ph.D.(Sask.); Assistant Professor of Animal Science

Dunphy, Gary B.; B.Sc.(New Br.), M.Sc., Ph.D.(Nfld.); Associate Professor of Entomology

Dutilleul, Pierre R.; B.Sc., Ph.D.(Belgium); Professor of Statistics

Dzierszinski, Florence; Bacc.(Université de Lille I), M.Sc.(Université de Compiègne/Université de Lille I), Ph.D.(Université de Lille I); Assistant Professor of Parasitology and Canada Research Chair

Egeland-Hovda, Grace M.; B.A.(Luther), Ph.D.(Pitt.); Associate Professor of Human Nutrition and Canada Research Chair

Ellyett, William R.; B.A.(Sir G. Wms.), B.Ed.(P.E.)(McG.); Faculty Lecturer (PT), Farm Management and Technology Program and Director of Athletics

Enright, Peter; B.Sc.(Agr.Eng.), M.Sc.(McG.); Faculty Lecturer, Director, Farm Management and Technology Program

Estey, Ralph H.; B.Ed.(New Br.), M.S.(Maine), D.I.C.(Imp. Coll.), B.Sc.(Agr.), Ph.D.(McG.), F.L.S.; Emeritus Professor of Plant Pathology

Fyles, James W.; B.Sc., M.Sc.(Vic. (BC)), Ph.D.(Alta.); Professor of Woodland Resources (*Tomlinson Professor of Forest Ecology*)

Geary, Timothy G.; B.Sc.(Notre Dame), Ph.D.(Mich.); Professor of Parasitology, Director, Institute of Parasitology, Canada Research Chair in Parasite Biotechnology

Georges, Elias; B.Sc., Ph.D.(McG.); Associate Professor of Parasitology

Grant, William F.; B.A., M.A.(McM.), Ph.D.(Virg.), F.L.S.; Emeritus Professor of Genetics

Gray-Donald, Katherine; B.Sc., Ph.D.(McG.); Associate Professor of Human Nutrition

Hayes, J. Flannan; B.Agr.Sc., M.Agr.Sc.(Dublin), Ph.D.(N. Carolina St.); Professor of Animal Science
Hendershot, William H.; B.Sc.(Tor.), M.Sc.(McG.), Ph.D.(Br. Col.); Associate Dean (Academic), Professor of Soil Science
Hendrickson-Nelson, Mary; B.A.(College of St. Benedict), B.Sc.(Minn.), M.Sc.(Colo. St.); Faculty Lecturer (Stage), School of Dietetics and Human Nutrition
Henning, John C.; B.Sc., Ph.D.(Guelph); Associate Professor of Agricultural Economics
Hickey, Gordon M.; B.F.Sc.(Melb.), Ph.D.(Br. Col.); Assistant Professor of Natural Resource Sciences
Humphries, Murray; B.Sc.(Manit.), Ph.D.(Alta.); Assistant Professor of Wildlife Biology (NSERC Northern Chair)
Ismail, Ashraf A.; B.Sc., Ph.D.(McG.); Associate Professor of Food Science and Agricultural Chemistry
Jabaji, Suha; B.Sc.(AUB), M.Sc.(Guelph), Ph.D.(Wat.); Associate Professor of Plant Science and Associate Dean (Research and Graduate Education)
Jacobs Starkey, Linda; B.Sc.(H.Ec.)(Mt. St. Vin.), M.Sc., Ph.D.(McG.), RD, FDC; Faculty Lecturer, School of Dietetics and Human Nutrition
Jardim, Armando; B.Sc., Ph.D.(Vic. (BC)); Associate Professor of Parasitology
Johns, Timothy A.; B.Sc.(McM.), M.Sc.(Br. Col.), Ph.D.(Mich.); Professor of Human Nutrition
Karboune, Salwa; B.Sc., M.Sc.(Institut Agronomique et Vétérinaire Hassan II), Ph.D.(Univ. de la Mediterranée); Assistant Professor of Food Science
Kermasha, Selim; B.Sc.(Baghdad), D.Sc.(Nancy); Associate Professor of Food Science and Agricultural Chemistry and Chair of Department
Kimmins, Sarah; B.Sc.(Dal.), M.Sc.(Nova Scotia Ag.), Ph.D.(Dal.); Assistant Professor of Animal Science
Knowles, Roger; B.Sc.(Birm.), Ph.D., D.Sc.(Lond.), F.R.S.C.; Emeritus Professor of Microbiology
Knutt, Marcia E.; H.B.Sc.(W. Ont.), M.A., Ph.D.(Brandeis); Faculty Lecturer, Department of Bioresource Engineering
Kok, Robert; B.E.Sc., Ph.D.(W. Ont.); Professor of Bioresource Engineering
Koski, Kristine G.; B.S., M.S.(Wash.) Ph.D.(Calif., Davis); Associate Professor of Human Nutrition and Director, School of Dietetics and Human Nutrition
Kubow, Stan; B.Sc.(McG.), M.Sc.(Tor.), Ph.D.(Guelph); Associate Professor of Dietetics and Human Nutrition
Kuhnlein, Harriet V.; B.S.(Penn. St.), M.S.(Ore.), Ph.D.(Calif. Berk.); Emeritus Professor of Human Nutrition
Kuhnlein, Urs; B.Sc.(Fed. Inst. of Tech., Zurich), Ph.D.(Geneva Coll.); Emeritus Professor of Animal Science
Kushalappa, Ajjamada C.; B.Sc., M.Sc.(B'lore), Ph.D.(Flor.); Associate Professor of Plant Science
Lefsrud, Mark G.; B.S.(Sask.), M.S.(Rutg.), Ph.D.(Tenn.); Assistant Professor of Bioresource Engineering
Lewis, David J.; B.Sc., M.Sc., Ph.D.(Mem.); Associate Dean (Student Affairs) and Associate Professor of Entomology
Lussier, Serge; B.Sc.(Agr.)(McG.); Assistant Director and Faculty Lecturer, Farm Management and Technology Program
MacKenzie, Angus F.; B.S.A., M.Sc.(Sask.), Ph.D.(C'nell); Emeritus Professor of Soil Science
MacLeod, Robert A.; B.A., M.A.(Br. Col.), Ph.D.(Wis.), F.R.S.C.; Emeritus Professor of Microbiology
Madramootoo, Chandra; B.Sc.(Agr.Eng.), M.Sc., Ph.D.(McG.); P.Eng. Dean (*James McGill Professor*)
Marquis, Grace S.; B.A.(Ind.), M.Sc.(Mich. St.), Ph.D.(C'nell); Associate Professor of Human Nutrition and Canada Research Chair
Marshall, William D.; B.Sc.(New Br.), Ph.D.(McM.); Professor of Food Science and Agricultural Chemistry
McClintock, Katherine; B.A.(Welles.), B.Sc.(Agr.), M.Sc.(McG.); Faculty Lecturer, Department of Plant Science
McKyes, Edward; B.Eng., M.Eng., Ph.D.(McG.), F.C.S.A.E.; Professor of Bioresource Engineering
Mehuys, Guy R.; B.Sc., Ing.Agron.(Gembloux), Ph.D.(Calif.); Associate Professor of Soil Science
Moffat, Donald; B.Ed.(P.E.)(McG.), Grad. Dip. in Sports Admin.(C'dia); Faculty Lecturer (PT), Farm Management and Technology Program and Coordinator Campus Recreation, Athletics and Recreation
Molgat, Christian; B.Sc.(Guelph), B.Sc.(Ott.); Faculty Lecturer, Farm Management and Technology Program
Monardes, Humberto G.; B.Sc.(Concepcion, Chile), M.Sc., Ph.D.(McG.); Associate Professor of Animal Science
Moxley, John E.; B.Sc.(Agr.), M.Sc.(McG.), Ph.D.(C'nell), F.A.I.C.; Emeritus Professor of Animal Science
Mustafa, Arif F.; B.Sc., M.Sc.(Khartoum), Ph.D.(Sask.); Associate Professor of Animal Science (*William Dawson Scholar*)
Naseem, Anwar; B.Sc.(McG.), M.A., M.Sc.(Penn.), Ph.D.(Mich. St.); Assistant Professor of Agricultural Economics
Ngadi, Michael O.; B.Eng.(Nigeria), M.A.Sc., Ph.D.(Nova Scotia TC.); Associate Professor of Bioresource Engineering (*William Dawson Scholar*)
Ng Kwai Hang, Kwet Fane; B.Sc.(Agr.), M.Sc., Ph.D.(McG.); Professor of Animal Science
Niven, Donald F.; B.Sc., Ph.D.(Aber.); Associate Professor of Microbiology
Orsat, Valerie; B.Sc., M.Sc., Ph.D.(McG.); Assistant Professor of Bioresource Engineering
Phillip, Leroy E.; B.Sc.(Agr.), M.Sc.(McG.), Ph.D.(Guelph); Associate Professor of Animal Science
Phillips, Sandra; B.A.(Qu.), B.Sc.(F.Sc.), M.Sc.(McG.); Faculty Lecturer (Stage), School of Dietetics and Human Nutrition
Plourde, Hugues; B.Sc.(Nutr.Sci.)(McG.), M.Sc.(Nutr.)(Montr.); Faculty Lecturer (Stage), School of Dietetics and Human Nutrition
Prasher, Shiv O.; B.Tech, M.Tech.(Punjab), Ph.D.(Br. Col.); Professor of Bioresource Engineering and Chair of Department (*James McGill Professor*)
Prichard, Roger K.; B.Sc., Ph.D.(N.S.W.); Professor, Institute of Parasitology (*James McGill Professor*)
Raghavan, G.S. Vijaya; B.Eng.(B'lore), M.Sc.(Guelph), Ph.D.(Colo. St.); F.A.S.A.E, F.C.S.A.E., F.A.S.M.E.; Professor of Bioresource Engineering (*James McGill Professor*)
Ramaswamy, Hosahalli; B.Sc.(Bangalore), M.Sc.(Mysore), M.Sc., Ph.D.(Br. Col.); Professor of Food Science and Agricultural Chemistry
Rau, Manfred E.; B.Sc., Ph.D.(W. Ont.); Associate Professor of Parasitology in Department of Natural Resource Sciences
Ribeiro, Paula A.; B.Sc., Ph.D.(York (Can.)); Associate Professor of Parasitology
Ritter, Heidi; B.Sc., M.Sc.(Nutr.Sci.)(McG.); Faculty Lecturer (Stage), School of Dietetics and Human Nutrition
Rohrbach, Petra; B.Sc.(McG.), Diplom Biology(Heidel.), Dr. rer. Nat.(Deutsches Krebsforschungszentrum); Assistant Professor of Parasitology
Rose, Maureen; B.Sc.(F.Sc.), M.Ed., Ph.D.(McG.); Faculty Lecturer (Stage), School of Dietetics and Human Nutrition
Routhier, Joane; B.Sc.(F.Sc.)(McG.); Faculty Lecturer (Stage), School of Dietetics and Human Nutrition
Salavati, Reza; B.A, M.A.(Calif. St.), Ph.D. (Wesl.); Assistant Professor of Parasitology
Schuepp, Peter H.; Dipl.Sc.Nat.(Zurich), Ph.D.(Tor.); Emeritus Professor of Agricultural Physics
Scott, Marilyn E.; B.Sc.(New Br.), Ph.D.(McG.); Associate Professor of Parasitology
Seguin, Philippe; B.Sc.(Agr.), M.Sc.(McG.), Ph.D.(Minn.); Associate Professor of Plant Science
Simpson, Benjamin K.; B.Sc.(Univ. Sc. & Tech., Kumasi), Ph.D.(Nfld.); Associate Professor of Food Science and Agricultural Chemistry
Singh, Jaswinder; B.Sc., M.Sc.(Punjab Agricultural University), Ph.D.(Syd.); Assistant Professor of Plant Science
Smith, Donald L.; B.Sc., M.Sc.(Acad.), Ph.D.(Guelph); Professor of Plant Science and Chair of Department *(James McGill Professor)*
Stewart, Katrine A.; B.Sc.(Agr.)(Br. Col.), Ph.D.(Reading); Associate Professor of Horticulture

Stewart, Robin K.; B.Sc.(Agr.), Ph.D.(Glas.); Emeritus Professor of Entomology
Strachan, Ian; B.Sc.(Tor.), M.Sc., Ph.D.(Qu.); Associate Professor of Agrometeorology
Stromvik, Martina V.; B.A., M.S.(Stockholm), Ph.D.(Ill-Chic.); Assistant Professor of Plant Science
Thériault, Pascal; B.Sc.(Agr.), M.Sc.(KSU); Faculty Lecturer, Farm Management and Technology Program
Thibault, Louise; B.Sc., M.Sc., Ph.D.(Laval); Associate Professor of Dietetics and Human Nutrition
Thomassin, Paul; B.Sc.(Agr.)(McG.), M.S., Ph.D.(Hawaii Pac.); Associate Professor of Agricultural Economics
Titman, Rodger D.; B.Sc.(McG.), M.Sc.(Bishop's), Ph.D.(New Br.), Fellow A.O.U.; Associate Professor of Wildlife Biology and Associate Director, Avian Science and Conservation Centre
van de Voort, Frederik R.; B.Sc., M.Sc., Ph.D.(Br. Col.); Professor of Food Science and Agricultural Chemistry
Vickery, Vernon R.; B.Sc.(Agr.), M.Sc., Ph.D.(McG.); Emeritus Curator of the Lyman Entomological Museum and Research Laboratory
Wade, Kevin; B.Agr.Sc., M.Agr.Sc.(Dublin), Ph.D.(C'nell); Associate Professor of Animal Science and Chair, Department of Animal Science
Waterway, Marcia J.; B.A.(Calvin), M.S.(Wis.), Ph.D.(C'nell); Associate Professor of Plant Science and Curator, McGill University Herbarium
Watson, Alan K.; B.Sc.(Agr.), M.Sc.(Br. Col.), Ph.D.(Sask.); Professor of Agronomy and Director, Phytorium/Biopesticide Quarantine Facility
Wees, David D.; B.Sc.(Agr.), M.Sc.(McG.); Faculty Lecturer, Department of Plant Science
Weiler, Hope; B.A.Sc.(Guelph), Ph.D.(McM.); Associate Professor of Human Nutrition and Canada Research Chair
Whalen, Joann; B.Sc.(Agr.)(Dal.), M.Sc.(McG.), Ph.D.(Ohio St.); Associate Professor of Soil Science
Wheeler, Terry; B.Sc.(Nfld.), M.Sc., Ph.D.(Guelph); Associate Professor of Entomology and Director, Lyman Entomological Museum and Research Laboratory
Whyte, Lyle G; B.Sc.(Regina), Ph.D.(Wat.); Associate Professor of Microbiology and Canada Research Chair
Wykes, Linda; B.Sc., M.Sc., Ph.D.(Tor.); Associate Professor of Dietetics and Human Nutrition (*William Dawson Scholar*)
Yaylayan, Varoujan A.; B.Sc., M.Sc.(Beirut), Ph.D.(Alta.); Associate Professor of Food Science and Agricultural Chemistry
Zadworny, David; B.Sc., Ph.D.(Guelph); Associate Professor of Animal Science
Zhao, Xin; B.Sc., M.Sc.(Nanjing IT), Ph.D.(C'nell); Professor of Animal Science (*William Dawson Scholar*)

6.1 The Faculty

6.1.1 Location

Dawson Hall
853 Sherbrooke Street West
Montreal, QC H3A 2T6
Canada

Telephone: 514-398-4210
Faculty website: www.mcgill.ca/arts
Arts Office of Advising and Student Information Services (OASIS) website: www.mcgill.ca/oasis

Arts OASIS, and the Office of the Associate Dean (Student Affairs) of the Faculty of Arts, are located in Dawson Hall, Rooms 110 and 115. Arts OASIS serves students in the Faculty of Arts.

6.1.2 Administrative Officers

Christopher Manfredi; B.A., M.A.(Calg.), M.A., Ph.D.(Claremont) **Dean**

M.N. Cooke; B.A.(Qu.), M.A.(C'nell), M.A., Ph.D.(Tor.) **Associate Dean (Research and Graduate Studies)**

TBA **Associate Dean (Academic and Oversight)**

Enrica Quaroni; B.A., Ph.D.(McG.) (*on leave 2009-2010*) **Associate Dean (Student Affairs)**

André Costopoulos; B.A.(McG.), M.A.(Montr.), Ph.D.(Oulu) **Acting Associate Dean (Student Affairs)**

Susan Sharpe **Course and Program Officer**

Sharon Bezeau; B.A.(Tor.), M.A.(C'dia) **Associate Director (Student Affairs)**

Donald Sedgwick; B.Sc., M.Sc.(McG.) **Senior Faculty Adviser**

6.1.3 Programs and Teaching in Arts

Established in 1843, the Faculty of Arts is one of the oldest in Canada and remains the largest at McGill. With over 6,000 full-time students and over 250 full-time professors, the Faculty offers several hundred courses in many disciplines.

The Faculty of Arts permits students great program flexibility. Students may concentrate on one Arts discipline while obtaining Minor Concentrations in different Arts disciplines as well as in other faculties, such as, for example, Science. McGill's historic Arts building is the centrepiece of the University's downtown campus. It houses classrooms, offices and Moyse Hall – an elegant and well-equipped performance theatre. The Faculty maintains bilateral exchange programs with many universities around the world and encourages students to spend a term or two studying abroad, either through an exchange program or independently.

McGill Arts graduates are valued for their ability to think critically and communicate effectively, often in more than one language. Their skills in research and analysis are applicable in a wide spectrum of professional fields, such as law, education, business, government, and public service.

The Faculty of Arts offers programs leading to the degrees of B.A. and B.S.W. Admission is selective; fulfilment of the minimum requirements does not guarantee acceptance. Admission criteria are described in the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

The Faculty of Arts also offers a Diploma in Environment under the McGill School of Environment, a 30-credit program available to holders of a B.Sc. or B.A. or equivalent. All credits for the Diploma must be completed at McGill. For more information on the "Diploma in Environment", see section 10.11.

Finally, the Faculties of Arts and of Science jointly offer the Bachelor of Arts and Science (B.A. & Sc.), which is described in the Arts and Science section of the Calendar.

6.1.4 Arts Office of Advising and Student Information Services (OASIS)

Arts OASIS provides ongoing advice and guidance on programs, degree requirements, registration, course change, course and university withdrawal, deferred exams, supplemental exams, rereads, academic standing, inter-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation.

Faculty advisers in Arts OASIS (Arts Office of Advising and Student Information Services) offer help managing academic situations during periods of personal, financial or medical problems, by working with students to identify various possibilities and strategies for making informed decisions. OASIS advisers can be contacted via email at adviser.arts@mcgill.ca.

Special requests can be made, in writing, to the Associate Dean (Student Affairs). For more information, please refer to our website at www.mcgill.ca/oasis.

6.2 Faculty Admission Requirements

For information about admission requirements to the B.A. or B.S.W., please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

For information about inter-faculty transfers, please refer to section 3.3.12, "Inter-Faculty Transfer", as well as to the relevant information posted on the Arts OASIS website at www.mcgill.ca/oasis.

6.3 Faculty Degree Requirements

Each student in the Faculty of Arts must be aware of the Faculty regulations as stated in this Calendar and on the McGill, Arts, and Arts Office of Advising and Student Information Services (OASIS) websites. While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines *rests with the student*. It is the student's responsibility to seek guidance from Arts OASIS if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

To be eligible for a B.A. degree, students must fulfil all Faculty and program requirements as indicated below:

"Minimum Credit Requirement", see section 6.3.1
"Residency", see section 6.3.2
"Cumulative Grade Point Average (CGPA)", see section 6.3.3
"Time and Credit Limit for Completion of the Degree", see section 6.3.4
"Program Requirements", see section 6.3.5
"Course Requirements", see section 6.3.6

6.3.1 Minimum Credit Requirement

Students must complete the minimum credit requirement for the degree as specified in the letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results

in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

Students who are readmitted after interrupting their studies for a period of five consecutive years or more may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Associate Dean (Student Affairs), in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

Students who are readmitted after a period of absence are normally subject to the program and degree requirements in effect at the time of readmission.

6.3.2 Residency

To obtain a B.A. or B.S.W. degree, students must complete satisfactorily a minimum of 60 credits at McGill University towards the fulfilment of the degree requirements. At least two-thirds of all program requirements (Multi-track, Honours, Faculty) must normally be completed at McGill. In addition, some departments may require that their students complete specific components of their program at McGill.

Exceptionally, and subject to departmental approval, students in a Minor Concentration who pursue an approved exchange or study away program may complete up to half of the Minor Concentration requirements elsewhere.

The residency requirement for the Diploma in Environment is 30 credits completed at McGill.

6.3.3 Cumulative Grade Point Average (CGPA)

Each candidate for a degree must achieve a minimum cumulative grade point average (CGPA) of 2.00.

6.3.4 Time and Credit Limit for Completion of the Degree

Students who need 96 or fewer credits to complete their degree requirements are expected to complete their degree in no more than eight terms after their initial registration for the degree. Students in the Freshman Program become subject to these regulations one year after their initial registration. Students who need or wish to exceed this time limit must apply to the Associate Dean (Student Affairs) for permission to continue their studies.

Students who wish to exceed the minimum credit requirement for their degree must also seek permission of the Associate Dean (Student Affairs) to continue their studies.

Permission for exceeding the time and/or credit limit will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. Elective credits over the credit limit will be flagged for no credit and the grades will not count in the CGPA.

6.3.5 Program Requirements

6.3.5.1 Freshman Program

Students who need to complete 97-120 credits to complete their degree requirements must complete the Freshman program, which is designed to provide a basic foundation prior to selecting a departmental program. Students may select one of the following Freshman program options on Minerva:

General Option

- 6 credits in each of three of the following areas: social sciences, languages, humanities, or mathematics and science, with a maximum of 18 credits per area and 12 credits per department.

Arts Legacy (Freshman) Option: Making Modernities

- 24 credits of prescribed courses that will be taught in four consecutive units of six and a half weeks. Courses will be thematically linked and deal in an interdisciplinary way with the Ancient Worlds of China and Greece/Rome, Medieval Mediterranean Worlds, Early Modern Atlantic Worlds, and Global Modern Worlds. Each course features lectures, seminars, tutorials and performances. Enrolment is on a first-come first-served basis. Students should register for six additional credits, preferably from the areas of language or of mathematics and science.

French Option

- 18 credits of courses conducted in French. Depending on degree of language proficiency attained, this could include a maximum of 12 credits of intensive French language courses.

For further details, refer to the Arts Freshman information on the web at www.mcgill.ca/oasis.

6.3.5.2 Departmental Programs

Arts students, other than those registered in the Freshman Program, are required to have an approved program (Multi-track, Honours, Faculty), and to select their courses in each term with a view to timely completion of their degree and program requirements. No course may fulfil the requirements for more than one program or Concentration requirement. Students must complete one of the following program streams:

MULTI-TRACK SYSTEM

To recognize the diversity of student backgrounds and interests and the multiple routes to understanding provided by a modern university, the Faculty of Arts offers a 90-credit multi-track system that includes a Major Concentration complemented by at least a Minor Concentration and that may be completed in one of the following ways:

Options

A: Major Concentration (36) + Minor Concentration (18) + 36 credits of electives

B: Major Concentration (36) + Major Concentration (36) + 18 credits of electives

C: Major Concentration (36) + Minor Concentration (18) + Minor Concentration (18) + 18 credits of electives

Regulations:

- Within option A and option B, all Concentrations must be in different academic units. (For students completing a second degree in the Faculty of Arts, this regulation is waived.)
- Within option C, one of the Minor Concentrations may be in the same unit as the Major Concentration. Students who pursue a same-unit Minor Concentration will substitute additional complementary (non-required) courses to a total of 18 credits for any courses completed as a part of their Major Concentration within that unit.
- Students will include within the 36 or 18 credits of their Major or Minor Concentration any university-level (200 or above) prerequisites to required courses within their Concentrations.

Definitions:

Units: academic departments or administrative equivalents.

Programs: lists of required and complementary courses (including prerequisites for required courses) prepared and maintained by units.

Major Concentration: a program of 36 credits taken from a unit's course offerings.

Minor Concentration: a program of 18 credits taken from a unit's course offerings. Expandable Minor Concentrations are those which can, on the completion of 18 additional approved credits, be expanded into a Major Concentration within the appropriate unit.

HONOURS PROGRAM

Honours programs demand a high degree of specialisation, and require students to satisfy specific departmental and Faculty Honours requirements while maintaining a good academic standing. They are designed to prepare students for graduate study.

Regulations:

- To be registered in an Honours program after the first year, students must have attained a GPA and CGPA of at least 3.00 in the previous year, unless they have special permission from the department and the Associate Dean (Student Affairs).
- To complete an Honours degree, a student must achieve a minimum CGPA of 3.00. The program GPA (the GPA of all required and complementary courses taken at McGill which constitute the Honours program) must be a minimum of 3.00, although academic units may set higher requirements for their program GPA.
- In addition to the completion of the Honours requirements, students must complete at least a Minor Concentration in an academic unit other than the one in which the Honours requirements are satisfied. (Students completing a second degree in the Faculty of Arts do not need to complete a minor.)

JOINT HONOURS PROGRAM

Students who wish to study at the Honours level in two disciplines can combine Joint Honours program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs. Each Joint Honours component consists of a maximum of 36 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to Honours students, the total of required and complementary credits may be as few as 30.

To complete a Joint Honours degree, a student must achieve a minimum CGPA of 3.00. The program GPA (the GPA of all required and complementary courses taken at McGill which constitute the Joint Honours program) must be a minimum of 3.00, although academic units may set higher requirements for their component of the program GPA.

FACULTY PROGRAM

A Faculty program is an approved selection of courses constituting a concentration in an intellectually coherent and inter-faculty field of studies. These courses must include approved selections from one of the following:

- The Faculties of Arts and of Science, and at least one other faculty
- The Faculty of Arts, and at least one faculty other than the Faculty of Science
- The Faculty of Arts currently recognizes the following Faculty Programs:
  - Industrial Relations
  - McGill School of Environment

SCIENCE MINOR PROGRAMS

Students wishing to register for a Minor program offered by the Faculty of Science must fulfil the Arts program requirements as indicated above, as well as complete any prerequisites for the additional program. Students so interested must write to the Associate Dean (Student Affairs), including with their request written approval from the Science Minor adviser.

6.3.6 Course Requirements

All required and complementary courses used to fulfil program requirements must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a required course must either pass the supplemental examination in the course or do additional work for a supplemental grade if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser.

Normally, students are permitted to repeat a failed course only once. (Failure is considered to be a grade of less than C or the administrative failures of J and KF.) If a required course is failed a second time, a student must appeal to the Associate Dean (Student Affairs) for permission to take the course a third time. If permission is denied by the Associate Dean and/or by the Committee on Student Standing, on appeal, the student must withdraw from the program. If the failed course is a complementary course required by the program, a student may choose to replace it with another appropriate complementary course. If a student chooses to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If a student repeats a required course in which a D was received, credit will be given only once.

Full details of the course requirements for all programs offered are given in each unit's section together with the locations of departmental advisory offices, program directors and telephone numbers should further information be required.

6.3.6.1 Course Prerequisites

The Faculty of Arts does not prevent students from registering for courses if they do not have the required prerequisites. However, students who lack the prerequisite course must consult with the instructor of their course to ensure that they have the necessary background. Please note that other faculties may not allow registration without the required prerequisite courses.

6.3.6.2 Course Overlap

Students will not receive additional credit towards their degree for any course that overlaps in content with a course for which the student has already received credit at McGill, CEGEP, at another university, or Advanced Placement exams, Advanced Level results, International Baccalaureate Diploma, or French Baccalaureate. It is the student's responsibility to consult Arts OASIS or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in the Calendar. Please refer to the following website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transfercredits.

Credit for statistics courses will be given with the following stipulations:

- Credit will be given for ONLY ONE of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, MATH 203, MGCR 271, PSYC 204, SOCI 350.
- Credit will be given for ONLY ONE of the following intermediate statistics courses: AEMA 411, ECON 227D1/D2, ECON 257D1/D2, GEOG 351, MATH 204, MGCR 272, PSYC 305, SOCI 461. Only when ECON 227D1/D2 is combined with PSYC 305, will credit be given for both courses.
- Students who have already received credit for MATH 324 or MATH 357 will NOT receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EPSC 215, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 272, PSYC 204, PSYC 305, SOCI 350.
- For 500-level statistics courses not listed above, students must consult a program adviser to ensure that no significant overlap exists. Where such overlap exists with a course for which the student has already received credit, credit for the 500-level course will not be allowed.
- PSYC 204 may not be taken if a grade of 75% was received in an equivalent course completed at CEGEP.

Credit for computer courses will be subject to the following restrictions:

- Credit for courses offered by the School of Computer Science is governed by rules specified in each individual course description.

6.3.6.3 Courses Outside the Faculties of Arts and of Science

The following regulations apply to students in the Faculty of Arts who wish to take courses outside the Faculties of Arts and of Science:

- Regardless of their minimum credit requirement towards their B.A. degree, students are allowed a maximum of 12 credits in

elective and/or complementary courses taken in faculties other than the Faculties of Arts and of Science.

- Students in certain designated programs that include a number of required and complementary courses in other faculties are permitted a maximum of 30 credits outside the Faculty of Arts and Science. These programs are as follows:

  Faculty programs:
  - Environment
  - Industrial Relations

  Minors:
  - Education for Arts students
  - Finance for non-Management students
  - Management for non-Management students
  - Marketing for non-Management students
  - Musical Applications of Technology
  - Musical Science and Technology
  - Operations Management for non-Management students

  Minor Concentrations:
  - Educational Psychology
  - Environment
  - Geography Urban Systems
  - Music

  Major Concentrations:
  - Geography Urban Systems
  - Music

  Honours:
  - Environment
  - Urban Systems

  Joint Honours:
  - Economics and Accounting
  - Economics and Finance
- Students who combine any two or more of the programs listed above may not exceed 40 credits outside the Faculty of Arts and of Science.
- Any courses taught at McGill University may be used towards the maximum allowed with the following exceptions:
  - Continuing Education: Continuing Education courses with a teaching unit that starts with C are not for credit (except for CHEM).
  - Distance Education: Refer to the "Policy on Distance Education Courses", see section 6.3.6.6.
- For the purpose of this policy, courses taught in other faculties and specifically listed in the Arts or Science section of the Calendar are considered as courses taught in the Faculties of Arts and of Science.
- For the purpose of this policy, all courses taken to fulfil the requirements for an approved field semester will be considered as courses in Arts or Science.
- The maximum number of credits allowed will be strictly enforced.

6.3.6.4 Inter-University Transfer Credit Policy for Courses Taken Outside the Faculties of Arts and of Science

Students who transfer from faculties outside the Faculties of Arts and of Science at another institution may transfer up to a maximum of 30 credits under the following conditions:

- Only courses passed with a grade of C or better will be transferred. Grades of C-, P or S are not acceptable. The letter grades applied by the former home institution take precedence over the numerical grades if provided.
- Decisions on whether a course is outside the Faculties of Arts and of Science will be based on the original faculty in which the course was taken.
- Refer to the "Policy on Distance Education Courses" in section 6.3.6.6.
- Transfer credits for Continuing Education courses will be granted only if the courses can be used towards a degree program in a faculty other than Continuing Education at the original university.
- Transfer students will be allowed to take courses outside the Faculties of Arts and of Science at McGill only if they have transferred fewer than 12 credits, and then only up to a maximum of 12 credits.
- Transfer students who register for a Faculty of Arts program that requires additional credits outside the Faculties of Arts and of Science will be allowed to take only the number of credits outside the Faculties of Arts and of Science required to complete the program. These programs are listed under section 6.3.6.3, "Courses Outside the Faculties of Arts and of Science".

6.3.6.5 Inter-Faculty Transfer Credit Policy for Courses Taken Outside the Faculties of Arts and of Science

Students will normally have counted for credit (for grades of D or better) and/or GPA (regardless of the grade) all courses in Arts and Science, and up to a maximum of 30 credits of courses outside of Arts and of Science.

- Transfer students will be allowed to take courses outside the Faculties of Arts and of Science at McGill only if they have transferred fewer than 12 credits, and then only up to a maximum of 12 credits.
- Transfer students who register for a Faculty of Arts program that requires additional credits outside the Faculties of Arts and of Science will be allowed to take only the number of credits outside the Faculties of Arts and of Science required to complete the program. These programs are listed under section 6.3.6.3, "Courses Outside the Faculties of Arts and of Science".

6.3.6.6 Policy on Distance Education Courses

A maximum of 6 credits of elective courses taught through distance education may be used towards the B.A. degree at McGill. Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:

- the course is given by a government-accredited, degree-granting institution acceptable to McGill;
- the course counts for credit towards degrees granted at the institution giving the course;
- prior approval for the course is obtained from Arts OASIS.

The combined total of regular course credits and distance education course credits may not exceed the permitted maximum number of credits per term according to Faculty regulations. Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious, documented circumstances warrant it. In such cases, prior approval must be obtained from the student's program adviser and the Associate Dean (Student Affairs).

6.3.6.7 Internship Courses

The Faculty of Arts offers internship courses for credit. For more information, refer to section 6.12.2, "Faculty of Arts Internship Program".

6.3.6.8 Courses Taken Under the Satisfactory/ Unsatisfactory Option

For more information and restrictions, please consult "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option" in section 3.3.6.

6.3.6.9 Courses in English as a Second Language (ESL)

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. Students in the Faculty of Arts may take a maximum of 12 credits, including academic writing courses for non-anglophones.

6.3.6.10 Course Credit Weight

The credit assigned to a particular course should reflect the amount of effort it demands of the student. Normally, one credit will represent three hours total work per week for one term - including a combination of lecture hours, other contact hours, such as laboratory periods, tutorials, and problem periods, as well as personal study time.

6.4 Advising

Students who need 96 or fewer credits to complete their degree requirements must consult an academic adviser in their proposed department of study to obtain advice and approval of their course selection. To facilitate program planning, they must present their transcript and letter of admission. For a detailed description of advising and registration procedures, students should refer to *Welcome to McGill*, which they receive from Enrolment Services upon their acceptance, as well as the Arts OASIS website, www.mcgill.ca/oasis and departmental websites.

Students who need 97-120 credits to complete their degree requirements will normally be registered in a Freshman Program until they complete their first year. They must consult an adviser in Arts OASIS to obtain advice and approval of their course selection. For a detailed description of advising and registration procedures, Freshman students should refer to "Registration", in section 3.3 and "Advising and Support", in section 4, *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as the Arts OASIS website, www.mcgill.ca/oasis.

Academic advising for all returning students takes place in March for the upcoming academic year. For more information, students should refer to the Arts OASIS website, www.mcgill.ca/oasis.

6.5 Registration

All students register by Minerva, McGill's web-based registration system.

For detailed information about registration, please refer to "Registration" in section 3.3, W*elcome to McGill*, the Arts OASIS website, www.mcgill.ca/oasis, and to the Student Records website, www.mcgill.ca/student-records.

Students who fall into unsatisfactory standing at the end of the academic year will have their registration cancelled. They may not re-register in the Faculty. However, students who can provide proof of extenuating circumstances that affected their academic performance may appeal to the Associate Dean (Student Affairs) for readmission. For more information, students should see section 3.3.13 "Readmission".

Students who have an outstanding fee balance from a previous term or outstanding fines will not be permitted to register. In addition, students who have registered for the upcoming academic year, but who subsequently take summer courses without paying the fees, will have their registration cancelled. Registration will be denied until these debts are paid in full. Students must pay all debts before the end of the registration period to be permitted to register. Students with financial problems should consult the Student Aid Office, Brown Student Services Building.

Students who decide not to return to McGill after initiating registration must withdraw from all of their courses on Minerva or inform Arts OASIS in writing. The deadline for withdrawal from the University is the same deadline as for a course withdrawal; see section 3.3.8 "Regulations Concerning Course Withdrawal" and section 3.3.9, "Regulations Concerning University Withdrawal". After the deadline, students may, under exceptional circumstances, be granted permission to withdraw from the University. Such students should contact Arts OASIS for further information.

6.5.1 Program Registration

Students should refer to *Welcome to McGill* or to the Arts Registration information on how to register for programs on the Arts OASIS website, www.mcgill.ca/oasis, and to the Student Records website, www.mcgill.ca/student-records. See section 6.11, "Programs in the Faculty" for a list of programs that can be taken by Arts students.

6.5.2 Course Registration

All courses have limited enrolment. Students in the Faculty of Arts may register for and take for credit any course, unless otherwise indicated, in the sections of the Calendar applicable to the Faculties of Arts and of Science, subject to the course restrictions listed in this section.

Since the registration system is unable to verify whether or not Faculty regulations are respected, it is technically possible to register for courses that may not be credited towards the B.A. When students' records are manually verified, however, any courses taken that violate the Faculty regulations will be flagged after the end of course change period as "not for credit towards the B.A." As a result, the students' expected date of graduation may be delayed.

Some courses may require special permission. Students should consult this Calendar and/or the Class Schedule at www.mcgill.ca/courses well in advance of the Course Change period to determine if permission is required of the instructor, the department, or the Faculty for any course they wish to take.

Students who believe they have valid reasons to take a course that may not be credited towards the B.A. must obtain the permission of the Associate Dean (Student Affairs).

6.5.2.1 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

Students may take only one First-Year Seminar. Students who register for more than one will be obliged to withdraw from all but one of them. For a complete listing, please see "First-Year Seminars" in section 6.12.1.

The First-Year Seminars offered by the Faculty of Science are also open to Arts students. For a complete listing, please see "Registration for First-Year Seminars" in section 14.5.2.1.

6.5.2.2 Registration in Multi-Term Courses

Students who select a multi-term course are making a commitment to that course for its entirety. Students MUST register in the same section in all terms of a multi-term course. Credit will be jeopardized if students deliberately register in different sections of a multi-term course. A drop of the Winter term portion of a multi-term course in order to change sections is considered a withdrawal from the course. In exceptional cases, when circumstances are beyond the student's control, Arts OASIS may grant permission to change sections mid-way through a multi-term course. Students must make their request in writing to the Associate Dean (Student Affairs), citing their reason for the request. The request must also have the written support of the instructors of the sections involved and of the coordinator of the course (if applicable).

6.5.3 Apply to Graduate

For information, see section 3.9.2, "Apply to Graduate".

6.6 Grading and Credit

During the first week of lectures, each instructor will provide students with a written course outline. This information should include, where appropriate:

- whether there will be a final examination in the course;
- how term work will affect the final mark in the course;
- how term work will be distributed through the term;
- whether there will be a supplemental examination in the course, and if so, whether the supplemental exam will be worth 100% of the supplemental grade, or whether term work will be included in the supplemental grade (courses with formal final examinations *must* have supplementals).

6.6.1 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of "K" (incomplete), indicating the date by which the work is to be completed. The maximum extensions for the submission of grades to Arts OASIS are as follows:

- students graduating in June:

Fall, Winter, and multi-term courses	April 30

- non-graduating students:

Fall courses	April 30
Winter and multi-term courses	July 30
Summer courses	November 30

Students' deadlines for submitting their work must be sufficiently in advance of these dates to ensure that the work can be graded and the mark submitted on time.

It is important to note that instructors may impose earlier deadlines than those listed above.

If marks to clear K's have not been submitted to Arts OASIS by the following deadlines, the K is automatically changed to a KF and counts as an F in the GPA:

- Fall: April 30
- Winter: July 30
- Summer: November 30

Students with a grade of K who have serious extenuating circumstances may request an extension of the K deadline (KE) from the Associate Dean (Student Affairs).

Please see "Grading and Grade Point Averages (GPA)" in section 3.5.3 for more information.

6.7 Examinations

Students should refer to "Examinations" in section 3.6 for information about final examinations and deferred examinations.

The exam schedules are posted on the McGill website, www.mcgill.ca, normally one month after the start of classes for the Tentative Exam Schedule, and two months after the start of classes for the Final Examination Schedule. Students should also refer to Arts OASIS website at www.mcgill.ca/oasis for more information.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

6.8 Supplemental Assessments

6.8.1 Supplemental Examinations

Students who wish to write supplemental examinations for certain courses must apply to Arts OASIS for permission via the Minerva Supplemental Exam Application module. The following conditions apply:

- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- special permission is required if students wish to write supplemental exams totalling more than 8 credits in any supplemental exam period;
- only one supplemental examination is allowed in a course;
- the supplemental result may count for 100% of the final grade or may include the same proportion of class work as did the original grade; the instructor will announce the arrangements to be used for the course by the end of the course change period;
- the format and content of the supplemental examination will not necessarily be the same as for the final examination, so students should consult the instructor;
- the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental result will be calculated in the CGPA;
- additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course;
- students must apply to write a supplemental exam; the deadline for submission of applications is March 1 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter; a non-refundable fee for each supplemental paper is payable at the time of application; supplemental examination applications are available on Minerva; the module is available as of January 29, 2008;
- students must write supplemental exams at the time of the next supplemental examination period (for Fall courses in May, and for Winter courses and courses spanning Fall/Winter in August for the Faculties of Arts and of Science);
- supplemental examinations in courses outside the Faculty of Arts are subject to the deadlines, rules, and regulations of the relevant faculty;
- no supplemental examinations are available for students who fail to achieve satisfactory grades in deferred examinations.

Students who register for a supplemental examination and subsequently find themselves unprepared for it should not write it; except for the loss of the registration fee, there is no penalty for not writing a supplemental examination. Students should consult Arts OASIS for further information.

6.8.2 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

The Faculty of Arts recognizes two types of reassessments or rereads:

- reassessment of coursework (term papers, mid-terms, assignments, quizzes, etc.);
- reread of a final exam.

In both cases, rather than recorrect the work and then grade it as they would have done themselves, reviewers assess the appropriateness of the original grade based, for example, on the application of the grading key to the student's work. If a grade is deemed unfair, it is changed, whether the new grade is higher or lower than the original - i.e., the reviewer's grade takes precedence over the original grade.

Reassessment of Coursework

These reassessments are administered and conducted solely by the units involved according to procedures specified by the units and made available to staff and students. Requests for such

reassessments must be made within 10 working days of the date of return of the graded materials. Reassessments should normally be completed within 20 working days of the request.

Rereads of Final Exams

These rereads are administered by Arts OASIS, but conducted by the units involved. Students must apply in writing to Arts OASIS by March 31 for courses in the Fall term and by September 30 for courses in the Winter or Summer terms (these deadlines are strictly enforced and no requests will be accepted past them). Students are assessed a fee of $35.00 for such rereads. It is strongly recommended, but not required, that students consult with the instructor of the course before requesting a reread of a final exam.

Reassessments and rereads in courses not in the Faculty of Arts are subject to the deadlines, rules, and regulations of the relevant faculty.

6.9 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term that are designated as "interim" should be interpreted as advisory. Note that interim standings will not appear on external transcripts. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

Interim Satisfactory/Satisfactory Standing

Students in interim satisfactory or satisfactory standing:

- may continue in their program;
- have a CGPA of 2.00 or greater.

Interim Probationary/Probationary Standing

Students in interim probationary standing (at the end of the Fall term):

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult a departmental adviser about their course selection, and their Faculty adviser to discuss degree planning.

Students in probationary standing:

- may continue in their program;
- must carry a reduced load (maximum 14 credits per term);
- must raise their CGPA to return to satisfactory standing (see above);
- should see their departmental adviser about their course selection, and their Faculty adviser to discuss degree planning.

Students will be placed in probationary standing:

- if their CGPA falls between 1.50 and 1.99 and if they were previously in satisfactory standing;
- if their CGPA falls between 1.50 and 1.99 and their TGPA in Fall or Winter is 2.50 or higher, and if they were previously in probationary or interim unsatisfactory standing;
- if they were previously in unsatisfactory readmitted standing and have satisfied the relevant conditions specified in their letter of readmission, but their CGPA is still less than 2.00.

Unsatisfactory Readmitted Standing

Students in unsatisfactory readmitted standing:

- were previously in unsatisfactory standing and were readmitted by the Associate Dean (Student Affairs) or the Committee on Student Standing;
- must meet the conditions specified in their letter of readmission to be allowed to continue in their program;
- should see their departmental adviser to discuss their course selection, and their Faculty adviser to discuss degree planning.

Interim Unsatisfactory/Unsatisfactory Standing

Students in interim unsatisfactory standing (at the end of the Fall term):

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult an academic adviser about their course selection and their Faculty adviser to discuss degree planning.

Students in unsatisfactory standing:

- have failed to meet the minimum standards set by the faculties;
- may not continue in their program, and their registration will be cancelled.

Students will be placed in unsatisfactory standing:

- if their CGPA falls or remains below 1.50;
- if their TGPA in the Fall or Winter falls below 2.50 and their CGPA is below 2.00 and if they were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing;
- if they were previously in unsatisfactory standing and were readmitted to the Faculty by the Associate Dean (Student Affairs) or the Committee on Student Standing but have not satisfied the conditions specified in the letter of readmission.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean (Student Affairs) no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Associate Dean (Student Affairs) for permission to write a supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

Incomplete Standings

- Standing awaits deferred exam.
- Must clear K's, L's or Supplementals.
- Standing Incomplete.

Students with incomplete standings (in the Winter or Summer term):

- may register for the Fall term, but their standing must be resolved by the end of the course change period for that term;
- may continue in the program if incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing;
- may not continue in their program and their registration will be cancelled if standing changes to unsatisfactory standing.

Students whose standing changes to unsatisfactory:

- may ask for permission to continue in their program;

- must make a request for readmission to the Associate Dean (Student Affairs) as soon as they are placed in unsatisfactory standing;
- must provide proof of extenuating circumstances that affected academic performance (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with Arts OASIS.

At the end of the Winter term, students with a mark of K or L will be placed in the appropriate standing in June, if the outstanding mark in the course will not affect their standing. Otherwise, standing decisions will be made only once incomplete marks have been cleared. For more information about incomplete grades, please refer to "Incomplete Grades" in section 6.6.1.

6.10 Awards and Honorary Designations

6.10.1 Honours and First-Class Honours

Departments may recommend to the Faculty that graduating students registered in an Honours program be awarded *Honours* or *First-Class Honours* under the following conditions only:

- students must complete all requirements imposed by the department;
- for *Honours*, the CGPA at graduation must be at least 3.00;
- for *First-Class Honours,* the CGPA at graduation must be 3.50 or better*;*
- some departments have additional requirements which must be met before students are recommended for *Honours* or *First-Class Honours* (see the departmental entries).

Students in an Honours program whose program GPA or CGPA is below 3.00, or who did not satisfy certain additional program requirements, must consult their adviser to determine if they are eligible to graduate in a program other than Honours.

6.10.2 Dean's Honour List

For information on the designation of Dean's Honour List awarded at graduation, see section 3.9.1.1 "Dean's Honour List".

The designation *Dean's Honour List* may be awarded at the end of each academic year to continuing students under the following conditions:

- students must have completed at least 27 graded credits during the academic year to be considered;
- students must be among the top 10% of the Faculty. This calculation is based on the sessional GPA (i.e. the combined GPA for the Fall and Winter terms).

6.10.3 Distinction

For information on the designation of Distinction awarded at graduation, see section 3.9.1.2 "Distinction".

6.10.4 Medals and Prizes

Various medals, scholarships, and prizes are open to continuing and graduating students. Full details of these are set out in the *Undergraduate Scholarships and Awards Calendar,* available at www.mcgill.ca/courses. Application may be required for some scholarships.

6.11.4 Joint Honours Programs

There are two types of Joint Honours Programs available in the Faculty of Arts:

- fully integrated programs such as Mathematics and Computer Science.
- programs that are created by combining the Joint Honours program components from two Arts disciplines. Students must register for both Joint Honours program components. Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Students can choose Joint Honours program components from **any two** of the following disciplines:

Accounting (can only be combined with Economics), page 148
Anthropology, page 130
Art History, page 132
Canadian Studies, page 135

6.12 Academic Programs

6.12.1 First-Year Seminars

See Course section for descriptions.

FREN 199 FYS: Littérature française
GERM 197 FYS: Images of Otherness
HIST 195 FYS: Sources of World History
HIST 197 FYS: Race in Latin America
HIST 198 FYS: Nation Building and Nationalism
SSMD 199 FYS: Mind-Body Medicine

6.12.2 Faculty of Arts Internship Program

Several departments in the Faculty of Arts offer undergraduate students the opportunity to earn university credit while gaining experience in areas relevant to their fields of study. Open to U2 and U3 students, normally after completing 30 credits of a 90 credit program or 45 credits of a 96 to 120 credit program, normally with a minimum CGPA of 2.7, and permission of the departmental Internship Advisor. Arts internships involve a minimum of 150 hours of work with an approved host institution or organization. Students are required to submit a major topical paper that discusses an aspect of the internship from an academic perspective.

For more information about the Faculty of Arts Internship Program, please refer to www.mcgill.ca/arts-internships.

6.12.3 Field Studies and Study Abroad Programs

The Faculty of Arts offers students many field studies and study abroad opportunities. For more information, please refer to section 15, "Field Studies and Study Abroad" of this Calendar.

6.12.4 African Studies Program (AFRI)

General Inquiries:

MINOR CONCENTRATION IN AFRICAN STUDIES
(Expandable) (18 credits)

A Minor Concentration in African Studies is available for those students majoring in a discipline of the Faculty of Arts who wish to acquire interdisciplinary knowledge of Africa.

Required Course (3 credits)
AFRI 598 Research Seminar in African Studies

Complementary Courses (15 credits)
To be selected from the courses listed below. Priority should be given to key African courses, designated with an asterisk (*), whenever they are offered.

MAJOR CONCENTRATION IN AFRICAN STUDIES (36 credits)

The Major Concentration in African Studies provides students with an interdisciplinary approach to the study of the African continent.

Students wishing to major in African Studies should consult the Program Adviser at the beginning of their first academic year. In the African Studies Major Concentration, students will be encouraged to identify an area within a discipline of the Faculty, taking as many relevant courses as possible in that field.

Required Course (3 credits)
AFRI 598 Research Seminar in African Studies

Complementary Courses (33 credits)
To be selected from the courses listed below. Priority should be given to key African courses, designated with an asterisk (*), whenever they are offered.

COMPLEMENTARY COURSE LIST

These courses are either on African subjects or have significant African content.
If courses listed below are not available in any particular year, modifications to the Programs may be made with the approval of the Program Adviser.

Students who wish to obtain program credit for other courses with African content, should seek approval from the Program Adviser. African content may be found in certain courses offered in Islamic Studies and Religious Studies.

Adjunct Member
Vinh-Kim Nguyen; B.Sc.(McG.), M.D.(Montr.), M.A., Ph.D.(McG.)
Nadia Ferrara; B.A.(C'dia), M.A.(Vermont College), M.Sc.(McG.), Ph.D.(Montr.)

The Honours Program and Major Concentration in Anthropology emphasize the similarity and diversity of human behaviour, understanding of social and cultural systems, and the processes of socio-cultural change from human origins to the present day. Within Anthropology, the Department concentrates on the fields of Archaeology and Socio-Cultural Anthropology.

Our programs serve as a useful background for those who are planning a career in law, medicine, foreign service, community organization, public administration, journalism, and teaching and research in social sciences and humanities. The Multi-track Major and Minor Concentrations provide students with a solid grounding in anthropology as a whole, or in selected topical or sub-disciplinary areas, while allowing students to follow programs in other departments that suit their needs and interests. The Honours program provides a greater focus on Anthropology with substantial breadth and depth. The completion of an Honours program is an asset when applying to graduate or professional schools.

Students should have a CGPA of at least 3.30 to register in an Honours or Joint Honours Program after their first year, and maintain it to graduate with an Honours Degree. Graduation with a First Class Honours or Joint Honours Degree requires a CGPA of 3.50 or better.

CORE COURSES

Core courses in Anthropology (350-level) provide students with essential knowledge of method and theory. They are more intensive than other 300-level courses, and are **restricted to Anthropology program students in U2 standing or above**.

ANTHROPOLOGY MINOR CONCENTRATIONS

The Minor Concentration in Anthropology consists of 18 credits (six 3-credit courses) in the discipline and is designed to complement students' study in related disciplines or in interdisciplinary programs. The degree may enhance the employment profile of graduating students wishing to work in social services, in multicultural or multiethnic settings, in international development, aboriginal history, museum work, or in educational or media related professions.

Students should register in the Minor Concentration prior to their second year of study at McGill. No credits taken in a Minor may overlap with another degree program. The Minor Concentration may be expanded into the single Anthropology Major Concentration.

The **Minor Concentration in Anthropological Archaeology** and the **Minor Concentration in Socio-Cultural Anthropology**

were retired at the end of 2004. Students enrolled in either one at that time should consult with a Departmental adviser.

MINOR CONCENTRATION IN ANTHROPOLOGY (Expandable) (18 credits)

The Minor Concentration in Anthropology permits students to explore the development and diversity of human beings and human society and culture through courses in human evolution, prehistoric archaeology and socio-cultural anthropology. Students may include courses in all of these fields, or may focus on one or two.

Complementary Courses (18 credits)

6 to 9 credits from the following list:

ANTH 201 (3) Prehistoric Archaeology
ANTH 202 (3) Comparative Cultures
ANTH 203 (3) Human Evolution
ANTH 204 (3) Anthropology of Meaning
ANTH 205 (3) Cultures of the World
ANTH 206 (3) Environment and Culture
ANTH 207 (3) Ethnography through Film
ANTH 208 (3) Evolutionary Anthropology
ANTH 209 (3) Anthropology of Religion
ANTH 212 (3) Anthropology of Development
ANTH 214 (3) Violence, Warfare, Culture
ANTH 221 (3) Introduction to Urban Anthropology
ANTH 222 (3) Legal Anthropology
ANTH 227 (3) Medical Anthropology

3 credits from either one of the following area groups:

Ethnography
ANTH 306 (3) Native Peoples' History in Canada
ANTH 315 (3) Society/Culture: East Africa
ANTH 321 (3) Peoples and Cultures of Africa
ANTH 322 (3) Social Change in Modern Africa
ANTH 326 (3) Peoples of Central and South America
ANTH 327 (3) Peoples of South Asia
ANTH 329 (3) Modern Chinese Society and Change
ANTH 337 (3) Mediterranean Society and Culture
ANTH 338 (3) Native Peoples of North America
ANTH 340 (3) Middle Eastern Society and Culture
ANTH 415 (3) Problems in African Anthropology
ANTH 416 (3) Environment/Development: Africa
ANTH 422 (3) Contemporary Latin American Culture & Society
ANTH 427 (3) Social Change in South Asia
ANTH 436 (3) North American Native Peoples
ANTH 500 (3) Chinese Diversity & Diaspora

Archaeology
ANTH 305 (3) Arctic Prehistory
ANTH 309 (3) Prehistory of Northern Europe
ANTH 317 (3) Prehistory of North America
ANTH 319 (3) Inka Arch. & Ethnohistory
ANTH 331 (3) Prehistory of East Asia
ANTH 335 (3) Ancient Egyptian Civilization
ANTH 345 (3) Prehistory of Africa
ANTH 347 (3) Paleolithic Cultures
ANTH 348 (3) Early Prehistory: New World

6 to 9 credits from any 300-, 400-, or 500-level Anthropology courses.

MAJOR CONCENTRATION

The Major Concentration is especially appropriate for students who aim to take courses across several sub-disciplinary or topical concentrations, and for whom specialization is premature. There are no prerequisites for admission to the Major Concentration in Anthropology. Students are encouraged to take a course in quantitative methods (listed under the Honours program below), but this course cannot count as part of this Concentration.

MAJOR CONCENTRATION IN ANTHROPOLOGY (36 credits)

Complementary Courses (36 credits)

6 credits selected from the 200-level courses in Anthropology.

6 credits, two Core courses (350-level) selected from:

ANTH 352 (3) History of Anthropological Theory
ANTH 355 (3) Theories of Culture and Society
ANTH 357 (3) Archaeological Methods
ANTH 358 (3) The Process of Anthropological Research
ANTH 359 (3) History of Archaeological Theory

6 credits, two Area courses selected from:

Ethnography
ANTH 306 (3) Native Peoples' History in Canada
ANTH 315 (3) Society/Culture: East Africa
ANTH 321 (3) Peoples and Cultures of Africa
ANTH 322 (3) Social Change in Modern Africa
ANTH 326 (3) Peoples of Central and South America
ANTH 327 (3) Peoples of South Asia
ANTH 329 (3) Modern Chinese Society and Change
ANTH 337 (3) Mediterranean Society and Culture
ANTH 338 (3) Native Peoples of North America
ANTH 340 (3) Middle Eastern Society and Culture
ANTH 415 (3) Problems in African Anthropology
ANTH 416 (3) Environment/Development: Africa
ANTH 422 (3) Contemporary Latin American Culture & Society
ANTH 427 (3) Social Change in South Asia
ANTH 436 (3) North American Native Peoples
ANTH 500 (3) Chinese Diversity & Diaspora

Archaeology
ANTH 305 (3) Arctic Prehistory
ANTH 309 (3) Prehistory of Northern Europe
ANTH 317 (3) Prehistory of North America
ANTH 319 (3) Inka Arch. & Ethnohistory
ANTH 331 (3) Prehistory of East Asia
ANTH 335 (3) Ancient Egyptian Civilization
ANTH 345 (3) Prehistory of Africa
ANTH 347 (3) Paleolithic Cultures
ANTH 348 (3) Early Prehistory: New World
ANTH 552 (3) Problems: Prehistory North Eastern America

6 credits, two 400-level Anthropology courses.

12 credits of additional Anthropology courses of which no more than 6 credits may be at the 200-level.

HONOURS IN ANTHROPOLOGY (60 credits)

The course selection for the program must satisfy the following requirements:	
300- and 400-level courses in other departments (subject to departmental approval)	max. 9 credits
Complementary courses (max. 21 credits at the 200-level)	max. 36 credits
Core courses (350-level)	min. 9 credits
400-level courses in Anthropology	min. 9 credits
Honours thesis	6 credits

Students can take a maximum of 9 credits at the 300-level or above given by other departments, if they are directly related to their focus of study within Anthropology and are approved by their adviser in the Anthropology Department.

Honours students must maintain a GPA of 3.30 in their program courses and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Complementary Courses (60 credits)

a. 300 and 400 LEVEL in up to 2 other departments - maximum 9 credits with departmental approval

b. 200-/300-LEVEL - maximum of 36 credits (of which a maximum of 21 credits can be at the 200-level) from the following:

ANTH 201 (3) Prehistoric Archaeology
ANTH 202 (3) Comparative Cultures
ANTH 203 (3) Human Evolution
ANTH 204 (3) Anthropology of Meaning
ANTH 205 (3) Cultures of the World
ANTH 206 (3) Environment and Culture
ANTH 207 (3) Ethnography through Film
ANTH 208 (3) Evolutionary Anthropology
ANTH 209 (3) Anthropology of Religion
ANTH 212 (3) Anthropology of Development
ANTH 214 (3) Violence, Warfare, Culture
ANTH 221 (3) Introduction to Urban Anthropology
ANTH 222 (3) Legal Anthropology
ANTH 227 (3) Medical Anthropology
ANTH 301 (3) Nomadic Pastoralists
ANTH 302 (3) New Horizons in Medical Anthropology
ANTH 303 (3) Ethnographies of Post-socialism
ANTH 305 (3) Arctic Prehistory
ANTH 306 (3) Native Peoples' History in Canada
ANTH 308 (3) Political Anthropology 01
ANTH 309 (3) Prehistory of Northern Europe
ANTH 310 (3) Anthropology of the Arts
ANTH 311 (3) Primate Behaviour and Ecology
ANTH 312 (3) Zooarchaeology
ANTH 313 (3) Early Civilizations
ANTH 314 (3) Psychological Anthropology 01
ANTH 315 (3) Society/Culture: East Africa
ANTH 316 (3) Anthropology of Complex Societies
ANTH 317 (3) Prehistory of North America
ANTH 319 (3) Inka Archaeology & Ethnohistory
ANTH 320 (3) Social Evolution
ANTH 321 (3) Peoples and Cultures of Africa
ANTH 322 (3) Social Change in Modern Africa
ANTH 324 (3) Economic Anthropology 01
ANTH 326 (3) Peoples of Central and South America
ANTH 327 (3) Peoples of South Asia
ANTH 329 (3) Modern Chinese Society and Change
ANTH 331 (3) Prehistory of East Asia
ANTH 333 (3) Class and Ethnicity
ANTH 334 (3) Kinship and Social Structure
ANTH 335 (3) Ancient Egyptian Civilization
ANTH 336 (3) Ethnohistory: North Eastern North America
ANTH 337 (3) Mediterranean Society and Culture
ANTH 338 (3) Native Peoples of North America
ANTH 339 (3) Ecological Anthropology
ANTH 340 (3) Middle Eastern Society and Culture
ANTH 341 (3) Women in Cross-cultural Perspective
ANTH 342 (3) Gender, Inequality and the State
ANTH 344 (3) Quantitative Approaches to Anthropology
ANTH 345 (3) Prehistory of Africa
ANTH 346 (3) Development in Agrarian Societies
ANTH 347 (3) Paleolithic Cultures
ANTH 348 (3) Early Prehistory: New World
ANTH 380 (3) Special Topic 1
ANTH 381 (3) Special Topic 2
ANTH 382 (3) Special Topic 3
ANTH 383 (3) Special Topic 4

c. CORE COURSES - minimum 9 credits from the following:
ANTH 352 (3) History of Anthropological Theory
ANTH 355 (3) Theories of Culture and Society
ANTH 357 (3) Archaeological Methods
ANTH 358 (3) The Process of Anthropological Research
ANTH 359 (3) History of Archaeological Theory

d. 400-/500-LEVEL - minimum 9 credits from the following:
ANTH 401 (3) Comparative Anthropology
ANTH 402 (3) Topics in Ethnography 1
ANTH 403 (3) Current Issues in Archaeology
ANTH 404 (3) Topics in Psychological Anthropology
ANTH 405 (3) Topics in Ethnography 2
ANTH 407 (3) Anthropology of the Body
ANTH 412 (3) Topics: Anthropological Theory
ANTH 413 (3) Gender in Archaeology
ANTH 416 (3) Environment/Development: Africa
ANTH 418 (3) Environment and Development
ANTH 419 (3) Archaeology of Hunter-Gatherers
ANTH 420 (3) Lithic Technology and Analysis
ANTH 422 (3) Contemporary Latin American Culture & Society
ANTH 430 (3) Symbolic Anthropology 01
ANTH 431 (3) Problems in East Asian Archaeology
ANTH 436 (3) North American Native Peoples
ANTH 438 (3) Topics in Medical Anthropology
ANTH 439 (3) Theories of Development
ANTH 440 (3) Cognitive Anthropology
ANTH 443 (3) Medical Anthropological Theory
ANTH 445 (3) Property and Land Tenure
ANTH 461 (3) Research Techniques
ANTH 480 (3) Special Topic 5
ANTH 481 (3) Special Topic 6
ANTH 482 (3) Special Topic 7
ANTH 483 (3) Special Topic 8
ANTH 484 (3) Special Topic 9
ANTH 485 (3) Special Topic 10
ANTH 500 (3) Chinese Diversity & Diaspora
ANTH 511 (3) Computational Approaches to Prehistory
ANTH 540 (3) Topics in Anthropological Theory
ANTH 551 (3) Advanced Topics: Archaeological Research
ANTH 555 (3) Advanced Topics in Ethnology
ANTH 575 (3) Concepts of Race

e. HONOURS THESIS - 6 credits from the following:
ANTH 490 (6) Honours Thesis 1
ANTH 491 (6) Honours Thesis 2
ANTH 492 (6) Honours Thesis
ANTH 492D1(3) Honours Thesis
ANTH 492D2(3) Honours Thesis
ANTH 492N1(3) Honours Thesis
ANTH 492N2(3) Honours Thesis

JOINT HONOURS – ANTHROPOLOGY COMPONENT (36 credits)

Joint Honours program (Anthropology portion)	36 credits
200-level courses in Anthropology	max. 12 credits
300-level courses in Anthropology	min. 6 credits
Core courses in Anthropology (350-level)	min. 9 credits
400- and 500-level courses in Anthropology	min. 6 credits
Honours project * of which 3 credits are normally in the other Joint Honours program	6* credits

Students interested in Joint Honours should consult an adviser in the other department for specific course requirements. A form will be supplied by the Anthropology Department to keep track of courses required by both departments for the program selected.

Students who wish to study at the Honours level in two disciplines can combine the Joint Honours Program component in Anthropology with one in any other Arts discipline; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

The Joint Honours thesis topic should be arranged by consultation with an adviser in Anthropology and the other discipline and supervisors be appointed in each department who will work together to guide the student.

Joint Honours students must maintain a GPA of 3.30 in their program courses and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Complementary Courses (36 credits)

a. 200-LEVEL - maximum 12 credits from the following:
ANTH 201 (3) Prehistoric Archaeology
ANTH 202 (3) Comparative Cultures
ANTH 203 (3) Human Evolution
ANTH 204 (3) Anthropology of Meaning
ANTH 205 (3) Cultures of the World
ANTH 206 (3) Environment and Culture
ANTH 207 (3) Ethnography through Film
ANTH 208 (3) Evolutionary Anthropology
ANTH 209 (3) Anthropology of Religion
ANTH 212 (3) Anthropology of Development
ANTH 222 (3) Legal Anthropology
ANTH 227 (3) Medical Anthropology

b. 300-LEVEL - minimum 6 credits from the following:
ANTH 301 (3) Nomadic Pastoralists
ANTH 302 (3) New Horizons in Medical Anthropology
ANTH 303 (3) Ethnographies of Post-socialism
ANTH 305 (3) Arctic Prehistory
ANTH 306 (3) Native Peoples' History in Canada
ANTH 308 (3) Political Anthropology 01
ANTH 309 (3) Prehistory of Northern Europe
ANTH 310 (3) Anthropology of the Arts
ANTH 311 (3) Primate Behaviour and Ecology
ANTH 312 (3) Zooarchaeology
ANTH 313 (3) Early Civilizations
ANTH 314 (3) Psychological Anthropology 01
ANTH 315 (3) Society/Culture: East Africa
ANTH 316 (3) Anthropology of Complex Societies
ANTH 317 (3) Prehistory of North America
ANTH 319 (3) Inka Archaeology & Ethnohistory
ANTH 320 (3) Social Evolution
ANTH 321 (3) Peoples and Cultures of Africa
ANTH 322 (3) Social Change in Modern Africa
ANTH 324 (3) Economic Anthropology 01
ANTH 326 (3) Peoples of Central and South America
ANTH 327 (3) Peoples of South Asia
ANTH 329 (3) Modern Chinese Society and Change
ANTH 331 (3) Prehistory of East Asia
ANTH 333 (3) Class and Ethnicity
ANTH 334 (3) Kinship and Social Structure
ANTH 335 (3) Ancient Egyptian Civilization
ANTH 336 (3) Ethnohistory: North Eastern North America
ANTH 337 (3) Mediterranean Society and Culture
ANTH 338 (3) Native Peoples of North America
ANTH 339 (3) Ecological Anthropology
ANTH 340 (3) Middle Eastern Society and Culture
ANTH 341 (3) Women in Cross-cultural Perspective
ANTH 342 (3) Gender, Inequality and the State
ANTH 344 (3) Quantitative Approaches to Anthropology
ANTH 345 (3) Prehistory of Africa
ANTH 346 (3) Development in Agrarian Societies
ANTH 347 (3) Paleolithic Cultures
ANTH 348 (3) Early Prehistory: New World
ANTH 380 (3) Special Topic 1
ANTH 381 (3) Special Topic 2
ANTH 382 (3) Special Topic 3
ANTH 383 (3) Special Topic 4

c. CORE COURSES - minimum 9 credits from the following:
ANTH 352 (3) History of Anthropological Theory
ANTH 355 (3) Theories of Culture and Society
ANTH 357 (3) Archaeological Methods
ANTH 358 (3) The Process of Anthropological Research
ANTH 359 (3) History of Archaeological Theory

d. 400-/500-LEVEL - minimum 6 credits from the following:
ANTH 401 (3) Comparative Anthropology
ANTH 402 (3) Topics in Ethnography 1
ANTH 403 (3) Current Issues in Archaeology
ANTH 404 (3) Topics in Psychological Anthropology
ANTH 405 (3) Topics in Ethnography 2
ANTH 407 (3) Anthropology of the Body
ANTH 412 (3) Topics: Anthropological Theory
ANTH 413 (3) Gender in Archaeology
ANTH 416 (3) Environment/Development: Africa
ANTH 418 (3) Environment and Development
ANTH 419 (3) Archaeology of Hunter-Gatherers
ANTH 420 (3) Lithic Technology and Analysis
ANTH 422 (3) Contemporary Latin American Culture & Society
ANTH 430 (3) Symbolic Anthropology 01
ANTH 431 (3) Problems in East Asian Archaeology
ANTH 436 (3) North American Native Peoples
ANTH 438 (3) Topics in Medical Anthropology
ANTH 439 (3) Theories of Development
ANTH 440 (3) Cognitive Anthropology

Becky Lentz; B.A.(Univ. of Arkansas), M.A.(Southern Illinois Univ.), M.A.(NYU Tisch School)
Hajime Nakatani; B.L.A.(Tokyo), M.A.(Lond.), Ph.D.(Chic.)
Carrie Rentschler; B.A.(Minn.), M.A., Ph.D.(Ill., Urbana-Champaign)
Richard, Taws; B.A., M.A., Ph.D.(Lond.)

Adjunct Professors
Cornelius Borck; M.A., M.D.(Free Univ., Berlin), Ph.D.(Lond.)
Johanne Lamoureux; B.A., M.A.(Montr.), Ph.D.(E.H.E.S.S., Paris)
Charles Levin; B.A., M.A.(McG.), Ph.D.(C'dia)
Bronwen Wilson; B.A., M.A.(Br. Col.), Ph.D.(N'western)

In the field of Art History, the Department offers comprehensive programs of courses and seminars on the history of the visual arts, material culture, and architecture from antiquity to the present, focusing primarily on Europe and North America. The works of art and architecture are discussed within their cultural, political, historical, religious, philosophical and social context.

Major and Minor Concentrations, and Honours, Joint Honours and graduate programs are available in Art History. For the most up-to-date information on Department requirements and detailed course descriptions, please visit our Department's website or consult an appropriate Undergraduate adviser through the Departmental Office, Arts Building, Room W-225, 514-398-1828.

The Department offers a new Minor Concentration in Communication Studies, as well as programs at the graduate level as described in the *Graduate and Postdoctoral Studies Calendar.*

Orientation Session for New Students

All new students entering the Art History and Communication Studies undergraduate programs are required to attend an information session prior to registration. In 2009, Orientation will be held on August 26, 1:00 to 3:00 p.m. in Arts W-220.

At the meeting, the Academic Adviser will explain the requirements of the Department's programs. Incoming students will have an opportunity to ask questions and receive advice on how to plan their courses. Afterwards, students will meet individually with an adviser in order to fill out their Minerva Course Selection Form for registration. Students should sign up for advising appointments after the orientation session.

MINOR CONCENTRATION IN ART HISTORY
(Expandable) (18 credits)

Required Course (3 credits)
ARTH 305 (3) Methods in Art History 01

Complementary Courses (15 credits)
3 credits in Art History at the 200 level

12 credits in Art History at the 300 level or above, selected in consultation with the departmental adviser.

Note: courses in studio practice cannot be counted towards the Minor Concentration.

MAJOR CONCENTRATION IN ART HISTORY (36 credits)

Required Course (3 credits)
ARTH 305 (3) Methods in Art History 01

Complementary Courses (33 credits)

a maximum of 12 credits can be at the 200 level

a minimum of 3 credits must be at the 400 level or above (except ARTH 490)

The complementary credits must be selected from at least six of the eight Art History course fields:
Theories and Methods (I)
Ancient to Medieval (II)
1400 - 1700 (Early Modern) (III)
1700 - 1945 (IV)
Contemporary Art (1945 to present) (V)
Sites of Visual Culture (VI)
Medium and Media (VII)
Selected Topics (VIII)

Note: courses in studio practice cannot be counted towards the Major Concentration.

HONOURS IN ART HISTORY (60 credits)

Students are encouraged to apply for this program after their first year of study at the University and after completion of no less than 12 credits in Art History. Admission is on a competitive basis. While the Faculty of Arts regulations require a minimum CGPA of 3.0 for Honours programs, the department requires in addition a program GPA of 3.30 for admission into the program and the awarding of Honours.

Required Courses (9 credits)
ARTH 305 (3) Methods in Art History 01
ARTH 400 (3) Selected Methods in Art History
ARTH 401 (3) Honours Research Paper

Complementary Courses (51 credits)

a maximum of 15 credits can be at the 200 level

a minimum of 6 credits must be at the 400 level or above

45 credits selected from at least six of the eight Art History course fields listed below:
Theories and Methods (I)
Ancient to Medieval (II)
1400 - 1700 (Early Modern) (III)
1700 - 1945 (IV)
Contemporary Art (1945 to present) (V)
Sites of Visual Culture (VI)
Medium and Media (VII)
Selected Topics (VIII)

6 credits in a language other than English or in courses in one or two related disciplines and selected with written approval of the academic adviser.

In addition to the completion of the Honours requirements, students must complete at least a Minor Concentration in an academic unit other than the one in which the Honours requirements are satisfied. (For students completing a second degree in the Faculty of Arts, this regulation is waived.)

JOINT HONOURS – ART HISTORY COMPONENT (36 credits)

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 “Joint Honours Programs”.

Prior to registering for each Joint Honours component, students should consult an adviser in each department for approval of their course selection.

Students are encouraged to apply for admission to the Joint Honours program after their first year of study at the University and after completion of no less than 12 credits in Art History. Admission is on a competitive basis. While the Faculty of Arts regulations require a minimum CGPA of 3.0 for Honours programs, the department requires in addition a program GPA of 3.30 for admission into the program and the awarding of Honours.

Required Courses (9 credits)
ARTH 305 (3) Methods in Art History 01
ARTH 400 (3) Selected Methods in Art History
ARTH 401 (3) Honours Research Paper

Complementary Courses (27 credits)

a maximum of 9 credits can be at the 200 level

a minimum of 3 credits must be at the 400 level or above

27 credits selected from at least six of the eight Art History course fields listed below:
Theories and Methods (I)
Ancient to Medieval (II)
1400 - 1700 (Early Modern) (III)
1700 - 1945 (IV)
Contemporary Art (1945 to present) (V)
Sites of Visual Culture (VI)
Medium and Media (VII)
Selected Topics (VIII)

ART HISTORY COURSE FIELDS
Art History courses are divided into eight fields:
I Theories and Methods
II Ancient to Medieval
III 1400 - 1700 (Early Modern)
IV 1700 - 1945
V Contemporary Art (1945 to present)
VI Sites of Visual Culture
VII Medium and Media
VIII Selected Topics

I. Theories and Methods
ARTH 305 (3) Methods in Art History 01
ARTH 310 (3) Postcolonialism
ARTH 351 (3) Vision and Visuality in Art History
ARTH 352 (3) Feminism in Art and Art History
ARTH 400 (3) Selected Methods in Art History
ARTH 401 (3) Honours Research Paper

II. Ancient to Medieval
ARTH 204 (3) Introduction to Medieval Art and Architecture
ARTH 209 (3) Introduction to Ancient Art and Architecture
ARTH 215 (3) Introduction to East Asian Art
ARTH 312 (3) Medieval Art
ARTH 314 (3) The Medieval City
ARTH 340 (3) The Gothic Cathedral
ARTH 341 (3) Romanesque Architecture
ARTH 415 (3) Late Medieval & Renaissance Architecture in Northern Europe
ARTH 416 (3) English Architecture

III. 1400 - 1700 (Early Modern)
ARTH 207 (3) Early Modern Art (1400-1700)
ARTH 223 (3) Introduction to Italian Renaissance Art
ARTH 320 (3) Seventeenth Century Art of Court and Church
ARTH 324 (3) Sixteenth-Century Art in Italy
ARTH 332 (3) Italian Renaissance Architecture
ARTH 333 (3) Italian Baroque Architecture
ARTH 343 (3) Northern Renaissance Art 01
ARTH 435 (3) Early Modern Visual Culture
ARTH 473 (3) Studies in 17th and Early 18th Century Art 04

IV. 1700 - 1945
ARTH 205 (3) Introduction to Modern Art
ARTH 323 (3) Realism and Impressionism
ARTH 334 (3) Eighteenth Century European Art
ARTH 335 (3) Art in the Age of Revolution
ARTH 337 (3) Modern Painting and Sculpture, Post-Impress to WWI
ARTH 338 (3) Modern Art and Theory: WWI - WWII
ARTH 347 (3) 19th Century Architecture
ARTH 348 (3) 20th Century Architecture
ARTH 374 (3) Studies in Later 18th and 19th Century Art 01
ARTH 379 (3) Studies: Modern Art and Theoretical Problems 02
ARTH 474 (3) Studies in Later 18th and 19th Century Art 03
ARTH 479 (3) Studies: Modern Art and Theoretical Problems 04

V. Contemporary Art (1945 to Present)
ARTH 336 (3) Art Now
ARTH 339 (3) Critical Issues - Contemporary Art
ARTH 356 (3) Modern & Contemporary Chinese Art
ARTH 510 (3) The Body and Visual Culture

VI. Sites of Visual Culture
ARTH 300 (3) Canadian Art to 1914
ARTH 301 (3) Canadian Art 1914 - Present
ARTH 302 (3) Aspects of Canadian Art
ARTH 321 (3) Visual Culture of the Dutch Republic
ARTH 325 (3) Visual Culture Renaissance Venice
ARTH 406 (3) German Architecture

VII. Medium and Media
ARTH 326 (3) Print Culture and the City
ARTH 360 (3) Photography and Art
ARTH 457 (3) Brushwork in Chinese Painting

VIII. Selected Topics
ARTH 353 (3) Selected Topics in Art History 1
ARTH 354 (3) Selected Topics in Art History 2
ARTH 420 (3) Selected Topics in Art and Architecture 1
ARTH 421 (3) Selected Topics in Art and Architecture 2
ARTH 422 (3) Selected Topics in Art and Architecture 3
ARTH 447 (3) Independent Research Course
ARTH 460 (3) Studies in Architectural History 1
ARTH 461 (3) Studies in Architectural History 2
ARTH 490 (3) Museum Internship

Note: In addition to architectural courses given by the Department, program students are encouraged to consider courses given in the School of Architecture and the Departments of East Asian Studies and Philosophy which may, upon consultation with the Department, be regarded as fulfilling part of the requirements.

ARCH 250 Architectural History 1
ARCH 251 Architectural History 2
EAST 303 Current Topics: Chinese Studies 1
PHIL 336 Aesthetics
PHIL 436 Aesthetics 2

MINOR CONCENTRATION IN COMMUNICATION STUDIES
(18 credits)
The Minor Concentration in Communication Studies will provide undergraduate students with a critical understanding of the role that communications media and communication technologies plays in a society. Specifically, the Minor Concentration will provide students with intellectually challenging and innovative instruction in key traditions of Communications and Media Studies and new theoretical and methodological practices being developed in the field. The courses offered in the Concentration will pay special attention to issues of the relationship between communication, democracy and urban life, the social life of communication technologies, the historical development and transformation of media and communication forms, institutions, practices and technologies, and the mass media representation and mobilization of social difference. The Minor Concentration draws from a small, revised core of undergraduate courses taught in Communication Studies ("History of Communication" and "Introduction to Communication Studies") in addition to eleven new undergraduate course offerings.

Required Course (3 credits)
COMS 210 (3) Introduction to Communication Studies

Complementary Courses (15 credits)
5 courses in Communication Studies from the list below:
COMS 200 (3) History of Communication
COMS 230 (3) Communication and Democracy
COMS 300 (3) Media and Modernity in the 20th Century
COMS 310 (3) Media and Feminist Studies

COMS 320 (3) Media and Empire
COMS 330 (3) Media in Cultural Life
COMS 340 (3) New Media
COMS 350 (3) Sound Culture
COMS 361 (3) Selected Topics Communication Studies 1
COMS 362 (3) Selected Topics Communication Studies 2
COMS 400 (3) Critical Theory Seminar
COMS 410 (3) Cultures of Visualization
COMS 425 (3) Urban Culture & Everyday Life
COMS 490 (3) History and Theory of Media
COMS 491 (3) Media, Communication & Culture
COMS 492 (3) Power, Difference and Justice
COMS 495 (3) Directed Reading
COMS 497 (3) Independent Study
COMS 510 (3) Canadian Broadcasting Policy

6.12.7 Canadian Ethnic and Racial Studies Minor Concentration

Department of Sociology
Leacock 714

Telephone: 514-398-6853
Email: morton.weinfeld@mcgill.ca

Chair — Morton Weinfeld

Advisory Committee
G. Burgos (*Sociology*), Ian H. Henderson (*Religious Studies*), A. Hsia (*German Studies*), *S.* T. Saideman (*Political Science*), J. Torczyner (*Social Work*), U. Turgay (*Islamic Studies*)

The Minor Concentration in Canadian Ethnic and Racial Studies is an interdisciplinary program administered by the Faculty of Arts. It is affiliated with the McGill Institute for the Study of Canada. The Concentration can be taken in conjunction with any primary program in Arts or Science. It offers to undergraduate students a structured framework in which to appreciate the range of social scientific approaches to the study of ethnic diversity in Canada.

The terms “ethnic” and “racial” are used in a very broad sense, to include the full spectrum of ethnic, cultural, aboriginal, linguistic, and racial groups in Canada.

The disciplines featured in the program are Sociology, Anthropology, Geography, History, and Political Science. In special cases, courses taken from other Arts departments, and other units at McGill, may be considered (e.g., Social Work, Education), with the consent of the Chair. The same is true of new relevant courses not yet listed below.

Apart from the intrinsic interest and importance of the subject, the Concentration may be of practical use. Students pursuing further graduate and professional training or employment in a variety of areas will find familiarity with issues relating to cultural diversity to be an asset. These include the fields of health, social services, education, law, law enforcement, human resources and personnel; occupations in government agencies, in ethnocultural and other non-governmental organizations; and graduate work in all the social sciences.

The Canadian Ethnic and Racial Studies Concentration will also sponsor programs of interest for the McGill Community during the course of the year. Students interested in registering in this program should contact the Chair.

MINOR CONCENTRATION IN CANADIAN ETHNIC AND RACIAL STUDIES (18 credits)

Required Courses (9 credits)
SOCI 210 (3) Sociological Perspectives
SOCI 230 (3) Sociology of Ethnic Relations
SOCI 475 (3) Canadian Ethnic Studies Seminar

Of the 18 credits, selected with due regard to Faculty guidelines and course prerequisites, at least 9 must be above the 200-level.

Complementary Courses (9 credits)
9 credits, at least 6 of which must be 300-level or higher, selected from *two* of the following departmental lists:

Anthropology
ANTH 202 (3) Comparative Cultures
ANTH 205 (3) Cultures of the World
ANTH 306 (3) Native Peoples’ History in Canada
ANTH 320 (3) Social Evolution
ANTH 333 (3) Class and Ethnicity
ANTH 338 (3) Native Peoples of North America
ANTH 436 (3) North American Native Peoples

Geography
GEOG 301 (3) Geography of Nunavut
GEOG 331 (3) Urban Social Geography
GEOG 424 (3) Europe: Places and Peoples

History
HIST 203 (3) Survey: Canada since 1867
HIST 371 (3) American Civil Rights 1877-1940
HIST 408 (3) Colonialism and Native Peoples
HIST 423 (3) Topics: Migration and Ethnicity
HIST 424 (3) Asian Diaspora: Chinese Overseas
HIST 471D1 (3) Canadian Immigration History
HIST 471D2 (3) Canadian Immigration History

Political Science
POLI 226 (3) La vie politique québécoise
POLI 321 (3) Issues: Canadian Public Policy
POLI 336 (3) Le Québec et le Canada
POLI 411 (3) Immigration and Multiculturalism in Canada
POLI 412 (3) Canadian Voting/Public Opinion
POLI 431 (3) Nations and States/Developed World
POLI 478 (3) The Canadian Constitution

Sociology
SOCI 234 (3) Population and Society
SOCI 327 (3) Jews in North America
SOCI 333 (3) Social Stratification
SOCI 353 (3) Inequality and Social Conflict
SOCI 519 (3) Sociology of Ethnic Conflict
SOCI 520 (3) Migration and Immigrant Groups
SOCI 529 (3) Political Sociology 1

Social Work
SWRK 400 (3) Policy and Practice for Refugees

6.12.8 Canadian Studies Program (CANS)

Director — Antonia Maioni

Program Director — Elsbeth Heaman (*History*)

Canadian Studies will be of value to any student considering a career in education, law, business, government, social service, human resources, journalism and the media, and graduate work in the social sciences and humanities.

The Canadian Studies Major and Minor Concentrations seek to provide students with a comprehensive multidisciplinary view of the nature and growth of Canada. Students completing a Major Concentration in Canadian Studies are encouraged to complete a second Major Concentration in a discipline such as Anthropology, Economics, English Literature, History, Political Science or Sociology as a complement to their Canadian Studies requirements. The Minor Concentration may be taken in conjunction with any primary program in Arts or Science.

Students interested in pursuing Canadian Studies at the graduate level should consider the Joint Honours Concentration, which includes the Canadian Studies Component or the Honours Concentration.

MINOR CONCENTRATION IN CANADIAN STUDIES (Expandable) (18 credits)

The minor program enables students to take courses about Canada outside the areas of their other major or minor concentrations.

Required Course (3 credits)

CANS 200 (3) Introduction to the Study of Canada

Complementary Courses (15 credits)

6 credits to be chosen from:

ANTH 222 (3) Legal Anthropology
ECON 219 (3) Current Economic Problems: Topics
ENGL 228 (3) Canadian Literature 1
ENGL 229 (3) Canadian Literature 2
FREN 252 (3) Littérature québécoise
HIST 202 (3) Survey: Canada to 1867
HIST 203 (3) Survey: Canada since 1867
POLI 221 (3) Government of Canada
POLI 222 (3) Political Process and Behaviour in Canada
SOCI 230 (3) Sociology of Ethnic Relations

6 credits interdisciplinary Canadian Studies (CANS) courses.

3 credits chosen from the complementary course list at the 300-level or higher. The courses chosen must have relevance to the program.

NOTE: Students may not choose more than 3 credits in disciplines of their other major or minor concentrations.

MAJOR CONCENTRATION IN CANADIAN STUDIES (36 credits)

Normally students will complete CANS 200 and at least 6 credits of core courses in their U1 year, will complete all core courses and at least 3 credits of CANS courses by the end of their U2 year, and will complete CANS 501 in their U3 year.

Required Course (6 credits)

CANS 200 (3) Introduction to the Study of Canada
CANS 501 (3) Interdisciplinarity & Canadian Studies

Complementary Courses (30 credits)

12 credits to be chosen from:

ANTH 222 (3) Legal Anthropology
ECON 219 (3) Current Economic Problems: Topics
ENGL 228 (3) Canadian Literature 1
ENGL 229 (3) Canadian Literature 2
FREN 252 (3) Littérature québécoise
HIST 202 (3) Survey: Canada to 1867
HIST 203 (3) Survey: Canada since 1867
POLI 221 (3) Government of Canada
POLI 222 (3) Political Process and Behaviour in Canada
SOCI 230 (3) Sociology of Ethnic Relations

6 - 12 credits in interdisciplinary Canadian Studies (CANS) courses.

6 - 12 credits chosen from the complementary course list, at least 6 of which must be at the 300-level or higher. The courses chosen must all have relevance to the program.

3 credits must be taken in the French language (including language courses). A maximum of 3 credits may be chosen from French as a Second Language.

NOTE: Students may not choose more than 9 credits in disciplines of their other major or minor concentrations.

HONOURS IN CANADIAN STUDIES (57 credits)

Students planning to pursue an Honours Program option are reminded that they must complete a Minor Concentration (18 credits) in another Arts discipline to graduate.

Students with a GPA of 3.30 in their program courses and, in keeping with Faculty regulations, a minimum CGPA of 3.00 in general, are eligible to apply to the Honours Program in Canadian Studies. Application deadlines are December 15 and May 15. Forms are available from the McGill Institute for the Study of Canada (MISC) Office.

Required Courses (12 credits)

CANS 200 (3) Introduction to the Study of Canada
CANS 480 (3) Honours Thesis 1
CANS 481 (3) Honours Thesis 2
CANS 501 (3) Interdisciplinarity & Canadian Studies

Complementary Courses (45 credits)

12 credits to be chosen from:

ANTH 222 (3) Legal Anthropology
ECON 219 (3) Current Economic Problems: Topics
ENGL 228 (3) Canadian Literature 1
ENGL 229 (3) Canadian Literature 2
FREN 252 (3) Littérature québécoise
HIST 202 (3) Survey: Canada to 1867
HIST 203 (3) Survey: Canada since 1867
POLI 221 (3) Government of Canada
POLI 222 (3) Political Process and Behaviour in Canada
SOCI 230 (3) Sociology of Ethnic Relations

12 - 15 credits in interdisciplinary Canadian Studies (CANS) courses.

18 - 21 credits chosen from the complementary course list with a minimum of 6 credits at the 400-level or higher.

3 credits must be taken in the French language (including language courses). A maximum of 3 credits may be chosen from French as a Second Language.

NOTE: Students may not choose more than 9 credits in disciplines of their other major or minor concentrations.

JOINT HONOURS – CANADIAN STUDIES COMPONENT (36 credits)

Students with a minimum program GPA of 3.30 in their program courses and, in keeping with Faculty regulations, a minimum CGPA of 3.00 in general, are eligible to apply to the Joint Honours Program in Canadian Studies. Application deadlines are December 15 and May 15. Forms are available from the McGill Institute for the Study of Canada (MISC) Office.

Required Courses (9 credits)

CANS 200 (3) Introduction to the Study of Canada
CANS 492 (3) Joint Honours Thesis
CANS 501 (3) Interdisciplinarity & Canadian Studies

Complementary Courses (27 credits)

12 credits to be chosen from:

ANTH 222 (3) Legal Anthropology
ECON 219 (3) Current Economic Problems: Topics
ENGL 228 (3) Canadian Literature 1
ENGL 229 (3) Canadian Literature 2
FREN 252 (3) Littérature québécoise
HIST 202 (3) Survey: Canada to 1867
HIST 203 (3) Survey: Canada since 1867
POLI 221 (3) Government of Canada
POLI 222 (3) Political Process and Behaviour in Canada
SOCI 230 (3) Sociology of Ethnic Relations

6 - 9 credits in interdisciplinary Canadian Studies (CANS) courses.

6 - 9 credits chosen from the complementary course list with a minimum of 6 credits at the 400-level or higher.

3 credits must be taken in the French language (including language courses). A maximum of 3 credits may be chosen from French as a Second Language.

NOTE: Students may not choose more than 9 credits in disciplines of their other major or minor concentrations.

Joint Honours students must maintain a GPA of 3.30 in their program courses and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Program Committee Chair — John Zucchi (*History*)

Program Committee
D. Farrow (*Faculty of Religious Studies*), J. Fumo (*English*), J. Hellman (*History*), T. Kirby (*Faculty of Religious Studies*), P. Kirkpatrick (*Religious Studies*), F. Sabetti (*Political Science*)

The Minor Concentration in Catholic Studies seeks to enrich the intellectual experience and academic options available to students, to broaden the course offerings across the disciplines, and to complement the visibility given to other programs such as Jewish Studies, Islamic Studies, and North American Studies.

The Minor Concentration consists of 18 credits. Core and complementary courses provide students an opportunity to deepen their understanding of Catholicism in an increasingly pluralistic world. The program offers a systematic and critical exploration of the diverse ways in which the Catholic tradition informs culture, institutions, and identity.

MINOR CONCENTRATION IN CATHOLIC STUDIES (18 credits)

Required Course (3 credits)
CATH 200 (3) Introduction to Catholicism

Complementary Courses (15 credits)
9 credits chosen from:
CATH 310 (3) Catholic Intellectual Traditions
CATH 315 (3) Catholicism and Moral Culture
CATH 320 (3) Scripture and Catholicism
CATH 325 (3) The Religious Sense
CATH 340 (3) Catholic Social Thought
CATH 370 (3) Topics in Catholic Studies
CATH 460 (3) Catholic Studies Seminar

6 credits chosen from the Complementary Course Lists below:
3 credits from Group I: Catholicism and the Arts
3 credits from Group II: Catholic Social and Intellectual Traditions

COMPLEMENTARY COURSE LISTS

Group I: Catholicism and the Arts

Art History and Communication Studies
ARTH 320 (3) Seventeenth Century Art of Court and Church
ARTH 340 (3) The Gothic Cathedral
ARTH 415 (3) Late Medieval & Renaissance Architecture in Northern Europe

Professors
Hans Beck, Director of Classical Studies; Ph.D.(Erlangen) (*John MacNaughton Professor of Classics*)

Assistant Professors
Michael Fronda; B.A.(C'nell), M.A., Ph.D.(Ohio St.)
Renaud Gagné; B.A., M.A.(Montr.), Ph.D.(Harv.)
Charles W. Gladhill; B.A.(Mich.), M.A.(Georgia South.), Ph.D.(Stan.)

Visiting Assistant Professor
Nikolaos Poulopoulos; Ph.D.(Harv.) (*Papachristidis Assistant Professor in Modern Greek Studies*)

Faculty Lecturer
Donald W. Baronowski; B.A.(McG.), M.A.(Br. Col.), Ph.D.(Tor.)
Margaret Palczynski; B.Sc.(McG.), M.A.(C'dia)

The Classics Program offers courses and the full range of degree concentrations and programs (Minor Concentration, Major Concentration, Joint Honours Component and Honours) in the study of the language, literature, history and culture of Ancient Greece and Rome. In general the Minor and Major concentrations provide an intellectual background in humanist perspectives for the enrichment of the undergraduate degree, while the Joint Honours and Honours programs in addition offer students in highest standing the prospect of favourable consideration for graduate and professional schools (such as Law), and other relevant career training. All the Classics concentrations and programs require regular advising for course selection and degree audit. Modern Greek Language and Literature courses bear the CLAS designation and are included in the listings for Classics (Group C).

Complementary courses in Classics are divided into four groups and are listed in the CLAS Complementary Course List.
Group A: Ancient Greek Language
Group B: Latin Language
Group C: Classical Civilization, Modern Greek, Ancient History
Group D: Related Courses in Other Departments

The following outlines represent Classics Program requirements only. Each student's program must also satisfy the regulations imposed by the Faculty of Arts. Please consult the Faculty General Information section.

MINOR CONCENTRATION IN CLASSICS (Expandable)
(18 credits)

Complementary Courses (18 credits)
6 - 18 credits from Ancient Greek Language (Group A) and/or Latin Language (Group B)
0 - 12 credits from Classical Civilization, Modern Greek, Ancient History (Group C)
0 - 6 credits from Related Courses in Other Departments (Group D)
Maximum of 12 credits at the 200-level.

MAJOR CONCENTRATION IN CLASSICS (36 credits)

Complementary Courses (36 credits)
15 credits from Ancient Greek Language (Group A) and/or Latin Language (Group B)

21 credits chosen from the four groups (A, B, C, & D)
Maximum of 21 credits in any one group.
Maximum of 12 credits at the 200-level.
Minimum of 3 credits at the 400-level.

HONOURS IN CLASSICS (60 credits)

Complementary Courses (60 credits)

Either: 21 credits in Ancient Greek Language (Group A) and 12 - 21 credits in Latin Language (Group B)
Or: 21 credits in Latin Language (Group B) and 12 - 21 credits in Ancient Greek Language (Group A)

12 - 21 credits in Classical Civilization, Modern Greek, Ancient History (Group C)
0 - 9 credits in Related Courses in Other Departments (Group D)
Maximum of 18 credits at the 200-level
Minimum of 3 credits at the 400-level
One of the following 6-credit courses:
CLAS 515D1/D2 (6) Latin Authors and Texts
CLAS 525D1/D2 (6) Ancient Greek Authors & Texts

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JOINT HONOURS – CLASSICS COMPONENT (36 credits)

Complementary Courses (36 credits)
18 credits in either Ancient Greek Language (Group A) or Latin Language (Group B)
12 credits chosen from the four groups (A, B, C, or D)
Maximum of 18 credits in any one group (A, B, C, or D)
Maximum of 18 credits at the 200-level
One of the following 6-credit courses:
CLAS 515D1/D2 (6) Latin Authors and Texts
CLAS 525D1/D2 (6) Ancient Greek Authors & Texts
Minimum of 3 credits at the 400-level

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable). For Classics, see the Undergraduate Adviser, L821, 514-398-6206.

Notes:

1. Students who intend to pursue graduate studies in Classics are advised to follow an Honours or Joint Honours program.
2. Honours students must maintain a CGPA of 3.00 or higher.
3. Courses considered to be related to Classics are those given by the Departments of Art History, English, French, Philosophy, and Political Science.

Complementary Course Lists:

Group A: Ancient Greek Language

CLAS 220	(6)	Introductory Ancient Greek
CLAS 321	(3)	Intermediate Greek: Plato/Xenophon
CLAS 322	(3)	Intermediate Greek: Orators
CLAS 323	(3)	Intermediate Greek: Homer
CLAS 324	(3)	Intermediate Greek: Poetry
CLAS 325	(3)	Intermediate Greek: Later Prose
CLAS 326	(3)	Intermediate Greek: Selections
CLAS 421	(3)	Advanced Ancient Greek: Epic
CLAS 422	(3)	Advanced Ancient Greek: Lyric
CLAS 423	(3)	Advanced Ancient Greek: Drama
CLAS 424	(3)	Advanced Greek: History
CLAS 425	(3)	Advanced Greek: Oratory
CLAS 426	(3)	Advanced Greek: Philosophy
RELG 280	(6)	Elementary New Testament Greek
RELG 381	(3)	Advanced New Testament Greek

Group B: Latin Language

CLAS 210	(6)	Introductory Latin 1
CLAS 212	(3)	Introductory Latin 2
CLAS 311	(3)	Catullus/Ovid
CLAS 312	(3)	Intermediate Latin: Poetry
CLAS 313	(3)	Intermediate Latin: Cicero
CLAS 314	(3)	Intermediate Latin: Historians
CLAS 315	(3)	Intermediate Latin: Selections
CLAS 316	(3)	Intermediate Latin: Medieval
CLAS 411	(3)	Advanced Latin: Epic
CLAS 412	(3)	Advanced Latin: Lyric
CLAS 413	(3)	Advanced Latin: Satire
CLAS 414	(3)	Advanced Latin: History
CLAS 415	(3)	Advanced Latin: Oratory
CLAS 416	(3)	Advanced Latin: Philosophy

Group C: Classical Civilization, Modern Greek, Ancient History

CLAS 200	(3)	Introduction to Ancient Greek Literature
CLAS 202	(3)	Greek Civilization: Classical
CLAS 203	(3)	Greek Mythology
CLAS 208	(3)	Roman Literature and Society
CLAS 300	(3)	Greek Drama and the Theatre
CLAS 309	(3)	The Greek and Roman Novel
CLAS 370	(3)	Women in Greek Drama
CLAS 404	(3)	Classical Tradition
CLAS 449	(3)	Seminar: Natural Law
CLAS 490	(3)	Greek and Roman Historiography
CLAS 230	(6)	Introductory Modern Greek
CLAS 331	(3)	Intermediate Modern Greek Language
CLAS 332	(3)	The Modern Greek Novel
CLAS 333	(3)	Modern Greek Poetry
CLAS 335	(3)	Language and Civilization/Modern Greece 2
HIST 205	(3)	Ancient Mediterranean History
HIST 231	(3)	Archaeology of the Ancient World
HIST 305	(3)	Ancient Warfare and Imperialism
HIST 323	(3)	History and Sexuality 1
HIST 368	(3)	Greek History: Classical Period
HIST 369	(3)	Greek History: Early Greece
HIST 375	(3)	Roman History: Early Empire
HIST 376	(3)	Roman History: Later Empire
HIST 378	(3)	Roman & Greek Social History
HIST 379	(3)	Greek History: Hellenistic Period
HIST 391	(3)	Roman History: Republic
HIST 407	(3)	Topics in Ancient History
HIST 449	(3)	Medicine in the Ancient World
HIST 450	(3)	Ancient History Methods
HIST 451	(3)	The Ancient Mediterranean City

Group D: Related Courses in Other Departments

6.12.11 Minor in Cognitive Science

Students with an interest in cognition may want to consider the Minor in "Cognitive Science" in section 14.13.8, under Science.

6.12.12 Computer Science (COMP)

McConnell Engineering Building, Room 318

Telephone: 514-398-7071
Fax: 514-398-3883
Email: liette.chin@mcgill.ca
Website: www.cs.mcgill.ca

For a list of teaching staff, an outline of the nature of computer science and the opportunities for study in this discipline, see the Science entry "Computer Science (COMP)" in section 14.13.9. The School also offers a program in the Faculty of Engineering and a Major Concentration for the Bachelor of Arts and Science.

Students must have completed MATH 133, MATH 140, MATH 141 or equivalents in order to begin taking courses in this program.

MINOR CONCENTRATION IN COMPUTER SCIENCE
(18 credits)

The Minor Concentration in Computer Science is designed for students who want to gain a basic understanding of computer science principles. Basic computer science skills are important in many domains. Thus, the Minor Concentration in Computer Science is useful for students majoring in any discipline.

This Minor Concentration may be taken in conjunction with any program in the Faculty of Arts with the approval of the adviser of the student's main program and the School of Computer Science. At the time of registration in the penultimate year, students must declare their intent to receive the Minor. Students are strongly encouraged to talk to an adviser of the School before choosing the complementary courses. Approval must be given by the School for the particular sequence of courses the student wishes to use for the Minor Concentration.

Required Courses (9 credits)

COMP 202* (3) Introduction to Computing 1
COMP 203 (3) Introduction to Computing 2
or COMP 250 (3) Introduction to Computer Science
COMP 206 (3) Introduction to Software Systems

* Students who have sufficient knowledge in a programming language do not need to take COMP 202 but can replace it with an additional computer science complementary course.

Complementary Courses (9 credits)

Selected from:
COMP 230 (3) Logic and Computability
COMP 251 (3) Data Structures and Algorithms
COMP 273 (3) Introduction to Computer Systems
COMP 280 (3) History and Philosophy of Computing
MATH 222 (3) Calculus 3
MATH 240 (3) Discrete Structures 1

and computer science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431).

SUPPLEMENTARY MINOR CONCENTRATION IN COMPUTER SCIENCE (18 credits)

This Supplementary Minor Concentration may be taken only by students registered in the Major Concentration in Computer Science. There may be no overlap in credits taken for this Supplementary Minor Concentration and the Major Concentration in Computer Science. Taken together, these constitute a program very close to the Major in Computer Science offered by the Faculty of Science.

Students with two programs in the same department must have a third in a different discipline to be eligible to graduate. Please refer to the Faculty of Arts Degree Requirements, see section 6.3.5.2 "Departmental Programs".

Complementary Courses (18 credits)

Selected from Computer Science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431) and ECSE 508.

At most 3 credits can be selected from:
MATH 223 (3) Linear Algebra
MATH 318 (3) Mathematical Logic
MATH 323 (3) Probability
MATH 324 (3) Statistics
MATH 340 (3) Discrete Structures 2

MAJOR CONCENTRATION IN COMPUTER SCIENCE
(36 credits)

This major concentration represents an in-depth introduction to computer science and its sub-areas.

Students that are interested in further study in Computer Science can combine the Major Concentration in Computer Science with the Supplementary Minor in Computer Science to constitute a program very close to the Major in Computer Science offered by the Faculty of Science. For further information, please consult the program adviser.

Students with two programs in the same department must have a third in a different discipline to be eligible to graduate. Please refer to the Faculty of Arts Degree Requirements, see section 6.3.5.2 "Departmental Programs".

Required Courses (21 credits)

COMP 202* (3) Introduction to Computing 1
COMP 203 (3) Introduction to Computing 2
or COMP 250 (3) Introduction to Computer Science
COMP 206 (3) Introduction to Software Systems
COMP 251 (3) Data Structures and Algorithms
COMP 273 (3) Introduction to Computer Systems
MATH 222 (3) Calculus 3
MATH 240 (3) Discrete Structures 1

* Students who have sufficient knowledge in a programming language do not need to take COMP 202 but can replace it with an additional computer science complementary course.

Complementary Courses (15 credits)

3 - 6 credits from:
MATH 223 (3) Linear Algebra
MATH 318 (3) Mathematical Logic
MATH 323 (3) Probability
MATH 324 (3) Statistics
MATH 340 (3) Discrete Structures 2

At least 3 credits from:
COMP 330 (3) Theoretical Aspects: Computer Science
COMP 350 (3) Numerical Computing
COMP 360 (3) Algorithm Design Techniques

At least 3 credits from:
COMP 302 (3) Programming Languages and Paradigms
COMP 303 (3) Software Development

The remaining credits selected from:
COMP 230 (3) Logic and Computability

and computer science courses at the 300-level or above (except COMP 364, COMP 396, COMP 400, COMP 431) and ECSE 508.

MAJOR CONCENTRATION IN SOFTWARE ENGINEERING
(36 - 37 credits)

The Major Concentration in Software Engineering focuses on the techniques and methodology required to design and develop complex software systems.

This major concentration provides a program of study that covers the subject commonly known as "Software Engineering". This may be used to satisfy part of the requirements for a B.A. degree. This program does **not** lead to certification as a Professional Engineer.

Required Courses (30 credits)

COMP 202*	(3)	Introduction to Computing 1
COMP 206	(3)	Introduction to Software Systems
COMP 250	(3)	Introduction to Computer Science
COMP 251	(3)	Data Structures and Algorithms
COMP 302	(3)	Programming Languages and Paradigms
COMP 303	(3)	Software Development
COMP 304	(3)	Object-Oriented Design
COMP 421	(3)	Database Systems
MATH 223	(3)	Linear Algebra
MATH 240	(3)	Discrete Structures 1

* Students who have sufficient knowledge in a programming language do not need to take COMP 202 and can replace it with additional Computer Science complementary course credits.

Complementary Courses (6 - 7 credits)

COMP 335	(3)	Software Engineering Methods
or ECSE 321	(3)	Introduction to Software Engineering
COMP 322	(1)	Introduction to C++
COMP 361	(3)	Systems Development Project
COMP 529	(4)	Software Architecture
COMP 533	(3)	Object-Oriented Software Development

or any Computer Science course at the 300-level or above, excluding COMP 364, COMP 396, and COMP 431.

JOINT HONOURS IN MATHEMATICS AND COMPUTER SCIENCE, see "Mathematics and Statistics (MATH)" in section 14.13.21, Faculty of Science. Admission to the program is based on a strong performance in CEGEP-level mathematics courses. Students must consult an Honours adviser in both departments.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

6.12.13 East Asian Studies (EAST)

Laurel Bossen (*Anthropology*)
Lara Braitstein (*Religious Studies*)
Christopher Green (*Economics*)
Sandra Hyde (*Anthropology*)
Victor Hori (*Religious Studies*)
Erik Kuhonta (*Political Science*)
John Kurien (*Economics*)
Catherine Lu (*Political Science*)
Lorenz Lüthi (*History*)
Mark Manger (*Political Science*)
Junko Shimoyama (*Linguistics*)
Yuzo Ota (*History*)
Sarah Turner (*Geography*)

Heirs to ancient cultures and traditions that are rich and complex, East Asian societies are among the most dynamic and rapidly developing in the world today and are having an increasing impact on the global scene, economically, politically and culturally. The study of the languages and cultures of East Asia, whether at the Major or Minor Concentration or Honours level, offers the student an intellectually challenging and personally stimulating educational experience. While offering a different perspective on the human condition, East Asian Studies provides excellent preparation for a future career in the professions, international business management, education, law, journalism and communications, in addition to the necessary training for advanced study at the graduate level.

For complementary courses in the East Asian field, please refer to the Departmental listing and the list of courses offered by other departments and in other faculties.

MINOR CONCENTRATION IN EAST ASIAN LANGUAGE AND LITERATURE (Expandable) (18 credits)

Complementary Courses (18 credits)

3 credits, one of the following introductory culture courses:

EAST 211	(3)	Introduction: East Asian Culture: China
EAST 212	(3)	Introduction: East Asian Culture: Japan
EAST 213	(3)	Introduction: East Asian Culture: Korea

9 credit Language Component:

Students may meet this requirement by passing with a grade of "C" the First level language (EAST 220D1/EAST 220D2, EAST 230D1/EAST 230D2, EAST 240D1/EAST 240D2); students with prior knowledge of an Asian language may substitute a Second level language (EAST 320D1/EAST 320D2, EAST 330D1/EAST 330D2, EAST 340D1/EAST 340D2);

or with 6 credits of either Classical Chinese (EAST 533; EAST 534), or Classical Japanese (EAST 543; EAST 544); or with Third or Fourth level language (EAST 420, EAST 421; EAST 430D1/EAST 430D2; EAST 440D1/EAST 440D2; EAST 520, EAST 521; EAST 530D1/EAST 530D2; EAST 540D1/EAST 540D2); or with 6 credits of Chinese for Business (EAST 535; EAST 536) or China Today through Translation (EAST 537D1/EAST 537D2) and an additional 3-credit course in East Asian Area Studies. (Admission to language courses is subject to placement tests.)

6 credits at the 300-level or above in the Department of East Asian Studies course offerings:

EAST 303	(3)	Current Topics: Chinese Studies 1
EAST 304	(3)	Current Topics: Chinese Studies 2

EAST 559	(3)	Advanced Topics: Chinese Literature
EAST 562	(3)	Japanese Literary Theory and Practice
EAST 563	(3)	Images, Ideograms, Aesthetics
EAST 564	(3)	Structures of Modernity: Japan
EAST 569	(3)	Advanced Topics: Japanese Literature
EAST 582	(3)	Japanese Culture and Society

Students who wish to study at the Honours level in two disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

GENERAL

For more up-to-date, detailed information about the Department and its programs, please visit our websites as follows: www.mcgill.ca/economics/undergraduates/majorminor for information on the Major and Minor programs and www.mcgill.ca/economics/undergraduates/honours for information on the Honours programs.

U0 students interested in economics should take ECON 208 and ECON 209. These courses provide good preparation for the Honours and Major programs, although neither course is a prerequisite for either program. The first year of microeconomics courses for the Honours Program (ECON 250D1/ECON 250D2) and for the Majors Program (ECON 230D1/ECON 230D2) should not be taken in the U0 year.

Please see the following website to access the document on credit for economics courses taken elsewhere: www.mcgill.ca/economics/undergraduates/courses. For information on Economics Internships, please see this website: www.mcgill.ca/arts-internships/departments/economics.

PROGRAMS IN ECONOMICS

MINOR CONCENTRATION IN ECONOMICS

The Minor Concentration in Economics is offered in four streams:

- Stream I – Expandable
- Stream II – Non-expandable
- Stream III – for Management students
- Stream IV – Combinable, for students already registered in a Major Concentration in Economics

In general, 200-level courses have no prerequisites, ECON 208 and ECON 209 (substitutable by the combination of MGCR 293 and ECON 295 or the more advanced course ECON 230D1/ ECON 230D2 or ECON 250D1/ ECON 250D2) are prerequisites for 300-level courses, ECON 230D1/ECON 230D2 or ECON 250D1/ ECON 250D2 are prerequisite for 400-level courses.

MINOR CONCENTRATION IN ECONOMICS – STREAM I

(Expandable) (18 credits)

For students whose primary interest is in a field other than Economics but who wish to keep the option of upgrading to a Major Concentration in future.

Required Course (6 credits)

ECON 230D1	(3)	Microeconomic Theory
ECON 230D2	(3)	Microeconomic Theory

Complementary Courses (12 credits)
12 credits in Economics (with numbers above 209). At least 6 of these credits must be in 300- or 400-level courses.

MINOR CONCENTRATION IN ECONOMICS – STREAM II
(Non-expandable) (18 credits)

Required Courses (6 credits)
ECON 208 (3) Microeconomic Analysis and Applications
ECON 209 (3) Macroeconomic Analysis and Applications

Complementary Courses (12 credits)
12 credits in Economics (with numbers above 209). At least 6 of these credits must be in 300- or 400-level courses.

MINOR CONCENTRATION IN ECONOMICS – STREAM III
For Management Students (18 credits)

Complementary Courses (18 credits)
18 credits in Economics (with numbers above 209). At least 6 of these credits must be in 300- or 400-level courses.
Note: ECON 295 **will not** count as part of this Minor Concentration.

Please refer to the departmental rules on credit for statistics courses, including ECON 227 and ECON 257 found at www.mcgill.ca/files/economics/Rules_on_Stats_Courses_for_Economics_Students_20_Aug_2008.pdf.

MINOR CONCENTRATION IN ECONOMICS – STREAM IV
(Combinable – for students already registered in a Major Concentration in Economics) (18 credits)

Prerequisites: None

Students who are registered in a Major Concentration in Economics and a Minor Concentration in another unit may complete a second Minor Concentration in Economics with the following structure.

Complementary Courses (18 credits)
18 credits of approved courses in Economics above 209 of which at least 6 credits are of 400- or 500-level and of which not more than 3 credits are at 200-level.

Students should also consult the section on the Minor Concentration at the beginning of the Faculty of Arts section for detailed rules on Minor Concentrations.

MINORS IN MANAGEMENT
Economics students can also do one of the four minors offered by the Desautels Faculty of Management for non-Management students. Please refer to the Desautels Faculty of Management section of the Calendar for detailed information about program requirements and applying.

Finance for Non-Management Students, page 337

Management for Non-Management Students, page 337

Marketing for Non-Management Students, page 338

Operations Management for Non-Management Students, page 338

MAJOR CONCENTRATION IN ECONOMICS (36 credits)

The Major Concentration in Economics is a planned sequence of courses designed to permit the student a degree of specialization in economics. It consists of 36 credits in courses approved by the Economics Department.

All students who wish to begin (or continue) a Major Concentration in Economics should see a Majors adviser in the Department of Economics in **each** of their university years. Further information may be obtained from the Department's website, or from any Major adviser; consult the Departmental office for a list of advisers.

Students who are registering for the first time with the Department should attend the orientation meeting (check the website for details) before seeing an adviser.

A student choosing a Major Concentration in Economics must take 36 credits in Economics. The Economics courses will normally be taken at McGill and will be selected from the courses shown below. Economics Major Concentration students entering University at the U1 year in September should directly proceed to ECON 230D1/ECON 230D2 without taking ECON 208 and ECON 209.

Required Courses (18 credits)
ECON 227D1 (3) Economic Statistics
ECON 227D2 (3) Economic Statistics
ECON 230D1 (3) Microeconomic Theory
ECON 230D2 (3) Microeconomic Theory
ECON 330D1 (3) Macroeconomic Theory
ECON 330D2 (3) Macroeconomic Theory

Complementary Courses (18 credits)
18 credits in Economics selected from other 200- (with numbers above 209), 300-, 400- and 500-level courses. At least 6 of these credits must be in 400- or 500-level courses. No more than 6 credits may be at the 200 level.

Prerequisites: in general 200-level courses have no prerequisites; 300-level courses have ECON 230D1/ECON 230D2 (or the lower level courses ECON 208 and ECON 209, or the combination of MGCR 293 and ECON 295) as prerequisites; and 400-level courses have ECON 230D1/ECON 230D2 as a prerequisite.

Please note that all students taking the Major Concentration in Economics (whether in the B.A. or B.Com.) must take 6 credits of approved statistics courses. Please refer to the departmental rules on credit for statistics courses, including ECON 227 and ECON 257 found at www.mcgill.ca/files/economics/Rules_on_Stats_Courses_for_Economics_Students_20_Aug_2008.pdf.

Mathematics: Mastery of high school mathematics is required for all economics courses. For Majors and Minors in Economics, it is recommended, but not required, that students acquire mastery of elementary calculus and matrix algebra in their undergraduate years. (See courses listed under the Honours section.)

Students who wish to switch from Majors to Honours in Economics must complete all the requirements of the Honours program.

HONOURS PROGRAM

The Economics Honours program is offered to both B.A. and B.Com. students. All Honours students should consult the handout describing the Honours programs in Economics, available in the Economics Department Office, 443 Leacock Building, and on the website at: www.mcgill.ca/economics/undergraduates/honours. All Honours students must meet with a Department Honours adviser in **each** year of their Honours program.

HONOURS IN ECONOMICS (42 credits)

The Honours program in Economics (B.A. and B.Com.) consists of 30 specified credits of Honours courses and a further 12 credits of approved Economics courses. Honours students are also required to complete courses in basic calculus and linear algebra.

Required Courses (27 credits)
ECON 250D1 (3) Introduction to Economic Theory: Honours
ECON 250D2 (3) Introduction to Economic Theory: Honours
ECON 257D1 (3) Economic Statistics - Honours
ECON 257D2 (3) Economic Statistics - Honours
ECON 352D1 (3) Macroeconomics - Honours
ECON 352D2 (3) Macroeconomics - Honours
ECON 450D1 (3) Advanced Economic Theory - Honours
ECON 450D2 (3) Advanced Economic Theory - Honours
ECON 468 (3) Econometrics 1 - Honours

Complementary Courses (15 credits)
3 credits selected from:
ECON 460 (3) History of Thought 1 - Honours
ECON 461 (3) History of Thought 2 - Honours
ECON 469 (3) Econometrics 2 - Honours

12 credits of Economics courses at the 300-, 400- or 500-level, approved by an Honours adviser. Normally at least 9 of the 12 will be at the 400- or 500-level. (Note: Honours students are not permitted to register for general Economics courses where an Honours course in the same field is offered.)

Normally, ECON 250D1/ECON 250D2 is taken in the U1 year, ECON 352D1/ECON 352D2 in U2, and ECON 450D1/ ECON 450D2 in U3. ECON 257D1/ECON 257D2 can be taken in U1 or U2; ECON 460, ECON 461, ECON 468, ECON 469 can be taken in U2 or U3. Students who have taken an equivalent statistics course prior to entering the program may be waived from the ECON 257D1/ECON 257D2 requirement. These students will normally be required to take ECON 468,ECON 469. The remaining 12 credits of Economics courses are usually taken in U2 or U3.

Please refer to the departmental rules on credit for statistics courses, including ECON 227 and ECON 257 found at www.mcgill.ca/files/economics/Rules_on_Stats_Courses_for_Economics_Students_20_Aug_2008.pdf.

Mathematics Prerequisite Courses for Honours

All Honours students must complete the following two courses with a grade of C or higher prior to entering the Honours Program:

MATH 139 Calculus (students without high school calculus) or MATH 140 Calculus 1 (students with high school calculus)

MATH 141 Calculus 2

The following course is required and should be taken prior to U2:

MATH 133 Vectors, Matrices and Geometry

These requirements can be met by having passed equivalent courses at CEGEP or elsewhere. Honours students are encouraged, but not required, to take MATH 222 Calculus 3.

JOINT HONOURS – ECONOMICS COMPONENT (30 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable) in **each** year of their program.

All Joint Honours students should consult the handout describing the Honours and Joint Honours Programs available in the Economics Department Office, 443 Leacock Building, and on the website at: www.mcgill.ca/economics/undergraduates/honours.

According to Faculty of Arts regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Required Courses (27 credits)

ECON 250D1	(3)	Introduction to Economic Theory: Honours
ECON 250D2	(3)	Introduction to Economic Theory: Honours
ECON 257D1	(3)	Economic Statistics - Honours
ECON 257D2	(3)	Economic Statistics - Honours
ECON 352D1	(3)	Macroeconomics - Honours
ECON 352D2	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours
ECON 468	(3)	Econometrics 1 - Honours

Complementary Courses (3 credits)

3 credits selected from:

ECON 460	(3)	History of Thought 1 - Honours
ECON 461	(3)	History of Thought 2 - Honours
ECON 469	(3)	Econometrics 2 - Honours

Please refer to the departmental rules on credit for statistics courses, including ECON 227 and ECON 257 found at www.mcgill.ca/files/economics/Rules_on_Stats_Courses_for_Economics_Students_20_Aug_2008.pdf.

Mathematics Prerequisite Courses for Joint Honours

All Joint Honours students must complete the following two courses with a grade of C or higher prior to entering the Joint Honours Program:

MATH 139 Calculus (students without high school calculus) or MATH 140 Calculus 1 (students with high school calculus)

MATH 141 Calculus 2

The following course is required and should be taken prior to U2:

MATH 133 Vectors, Matrices and Geometry

These requirements can be met by having passed equivalent courses at CEGEP or elsewhere.

JOINT HONOURS PROGRAMS OFFERED WITH THE DESAUTELS FACULTY OF MANAGEMENT

Two Joint Honours programs are offered with the Desautels Faculty of Management, the B.Com. and B.A. Joint Honours in Economics and Accounting, and Joint Honours in Economics and Finance.

Mathematics Prerequisite Courses required for the Joint Honours in Economics (listed above) are also required for the Joint Honours in Economics and Accounting and the Joint Honours in Economics and Finance.

JOINT HONOURS IN ECONOMICS AND ACCOUNTING
(60 credits)

Please note that the following information on program requirements is for B.A. students. Students in the B.Com. program should check with the Desautels Faculty of Management.

Required Courses (45 credits)

27 credits of Economics courses:

ECON 250D1	(3)	Introduction to Economic Theory: Honours
ECON 250D2	(3)	Introduction to Economic Theory: Honours
ECON 257D1	(3)	Economic Statistics - Honours
ECON 257D2	(3)	Economic Statistics - Honours
ECON 352D1	(3)	Macroeconomics - Honours
ECON 352D2	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours
ECON 468	(3)	Econometrics 1 - Honours

18 credits of Management courses:

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 361	(3)	Intermediate Management Accounting 1
ACCT 455	(3)	Development of Accounting Thought
MGCR 211	(3)	Introduction to Financial Accounting
MGCR 341	(3)	Finance 1

Complementary Courses (15 credits)

3 credits of Economics courses selected from:

ECON 460	(3)	History of Thought 1 - Honours
ECON 461	(3)	History of Thought 2 - Honours
ECON 469	(3)	Econometrics 2 - Honours

12 credits of Accounting courses selected from:

ACCT 354	(3)	Financial Statement Analysis
ACCT 362	(3)	Intermediate Management Accounting 2
ACCT 385	(3)	Principles of Taxation
ACCT 452	(3)	Financial Reporting Valuation
ACCT 453	(3)	Advanced Financial Accounting
ACCT 463	(3)	Advanced Management Accounting
ACCT 475	(3)	Principles of Auditing
ACCT 486	(3)	Business Taxation 2

Please refer to the departmental rules on credit for statistics courses, including ECON 227 and ECON 257 found at www.mcgill.ca/files/economics/Rules_on_Stats_Courses_for_Economics_Students_20_Aug_2008.pdf.

Students in this Joint Honours program should see an Economics adviser and a Management adviser.

JOINT HONOURS IN ECONOMICS AND FINANCE
(60 credits)

Please note that the following information on program requirements is for B.A. students. Students in the B.Com. program should check with the Desautels Faculty of Management.

Required Courses (45 credits)

27 credits of Economics courses:
ECON 250D1 (3) Introduction to Economic Theory: Honours
ECON 250D2 (3) Introduction to Economic Theory: Honours
ECON 257D1 (3) Economic Statistics - Honours
ECON 257D2 (3) Economic Statistics - Honours
ECON 352D1 (3) Macroeconomics - Honours
ECON 352D2 (3) Macroeconomics - Honours
ECON 450D1 (3) Advanced Economic Theory - Honours
ECON 450D2 (3) Advanced Economic Theory - Honours
ECON 468 (3) Econometrics 1 - Honours

18 credits of Management courses:
FINE 342 (3) Finance 2
FINE 441 (3) Investment Management
FINE 443 (3) Applied Corporate Finance
FINE 547 (3) Advanced Finance Seminar
MGCR 211 (3) Introduction to Financial Accounting
MGCR 341 (3) Finance 1

Complementary Courses (15 credits)

3 credits of Economics courses selected from:
ECON 460 (3) History of Thought 1 - Honours
ECON 461 (3) History of Thought 2 - Honours
ECON 469 (3) Econometrics 2 - Honours

12 credits of Finance courses selected from:
FINE 434 (3) Topics in Finance
FINE 448 (3) Financial Derivatives
FINE 449 (3) Market Risk Models
FINE 451 (3) Fixed Income Analysis
FINE 482 (3) International Finance 1
FINE 492 (3) International Finance 2
FINE 541D1 (1.5) Applied Investments
FINE 541D2 (1.5) Applied Investments

Please refer to the departmental rules on credit for statistics courses, including ECON 227 and ECON 257 found at www.mcgill.ca/files/economics/Rules_on_Stats_Courses_for_Economics_Students_20_Aug_2008.pdf.

Students in this Joint Honours program should see an Economics adviser and a Management adviser.

STANDING IN HONOURS AND JOINT HONOURS PROGRAMS

Normally, to be awarded an Honours Degree a student must obtain a 3.00 program GPA in the required and complementary credits in Economics, and a CGPA of 3.00. For a First Class Honours degree, the minimum requirements are normally a 3.50 program GPA in the required and complementary credits in Economics, and a CGPA of 3.50. For additional requirements for the B.Com. Honours in Economics, Joint Honours in Economics and Finance, and Joint Honours in Economics and Accounting, please consult the Desautels Faculty of Management's section of the undergraduate calendar for their program grade and GPA requirements. In particular, these programs also require a minimum grade of B- in all Management courses.

6.12.15 Education for Arts Students Minor Concentration

Student Affairs Office —
Faculty of Education, 3700 McTavish Street
Email: sao.education@mcgill.ca
Website: www.mcgill.ca/edu-sao/minors

This Minor Concentration allows Arts students to develop and explore an interest in education. It will give students a solid footing in the basics of pedagogy and may provide a starting point towards a B.Ed. degree.

Completion of the Minor Concentration **does not** qualify a student for certification to teach in the province of Quebec. Students interested in a teaching career should consult the Faculty of Education, "Faculty Programs" in section 8.2.

MINOR CONCENTRATION IN EDUCATION FOR ARTS STUDENTS (18 credits)

Required Courses (12 credits)
EDEC 262 (3) Media, Technology and Education
EDEM 220 (3) Contemporary Issues in Education
EDPE 300 (3) Educational Psychology
EDPI 309 (3) Exceptional Students

Complementary Courses (6 credits)
3 credits, one of:
EDEC 260 (3) Philosophical Foundations
EDEC 261 (3) Philosophy of Catholic Education

3 credits, one of:
EDEC 233 (3) First Nations and Inuit Education
EDEC 248 (3) Multicultural Education

6.12.16 Educational Psychology Minor Concentration

Program Director — Professor Alenoush Saroyan, Department of Educational and Counselling Psychology, Faculty of Education
514-398-4248

Program Coordinator — Mr. Dean Thomson
Faculty of Education, 3700 McTavish Street, Room 614
514-398-4248

Fax: 514-398-6968
Website: www.mcgill.ca/edu-ecp

Educational Psychology encompasses: (a) the theoretical and applied study of learning, cognition, and instruction in a variety of educational settings across ages and domains; (b) instructional technology and computers as cognitive tools in learning; (c) cognitive and social processes in learning; (d) evaluation and enhancement of learning and teaching; (e) education of learners with special needs or difficulties; (f) relationships of these or related phenomena to issues in human development, especially for children and adolescents; and (g) the impact of family and community on children's learning and development.

Completion of this Minor Concentration **does not** qualify a student to enter the teaching profession. Students interested in a teaching career should consult the Faculty of Education, "Faculty Programs", see section 8.2.

In respect of Faculty of Arts multi-track regulations, students registering for the Major Concentration in Psychology and the Minor Concentration in Educational Psychology *must* complete an additional Minor Concentration in Arts in a unit other than Psychology.

Students should consult section 6.3.5, "Program Requirements" for additional information on course restrictions, credit counting, etc.

For further information on the Department of Educational and Counselling Psychology, see section 8.5.

MINOR CONCENTRATION IN EDUCATIONAL PSYCHOLOGY
(18 credits - Non-expandable)

Required Course (3 credits)
EDPE 335 (3) Instructional Psychology
This required course has a prerequisite of an introductory course in psychology taken at either CEGEP or university level (e.g., PSYC 100 or EDPE 300). Students who do not have this prerequisite prior to entry into this Minor Concentration may take either PSYC 100 or EDPE 300 and count EDPE 300 as one of the complementary courses for this Minor Concentration.

Complementary Courses (15 credits)
3 credits (to be taken near the end of the sequence), one of:
EDPE 355* (3) Cognition and Education
or EDPE 555 (3) Applied Cognitive Science

12 credits selected from:
EDPI 309 (3) Exceptional Students
EDPI 526 (3) Talented and Gifted Students
EDPI 527 (3) Creativity and its Cultivation
EDPI 543 (3) Family, School and Community
EDPE 208** (3) Personality and Social Development
EDPE 304 (3) Measurement and Evaluation
EDPE 355 (3) Cognition and Education
EDPE 377 (3) Adolescence and Education
EDPE 510 (3) Learning and Technology
EDPE 515*** (3) Gender Identity Development
EDPE 535 (3) Instructional Design
EDPE 555 (3) Applied Cognitive Science

* Students with a background in psychology should normally select EDPE 355.

Note: EDPE 355 has a prerequisite, either PSYC 213 or permission of the instructor.

** Students may not receive credit for both EDPE 208 and PSYC 304. EDPE 208 is not open to students registered in a Major or Minor Concentration in Psychology.

*** EDPE 515 is also a complementary course in the B.A. Minor Concentration in Women's Studies (Social Sciences Option).

The Department of English offers a wide variety of courses covering three linked and overlapping areas: literature written in English; drama, including both courses in dramatic literature and courses that introduce the student to the basic elements of theatrical performance; and cultural studies, including analysis of a variety of visual and verbal media. These three areas are integrally related, and all students in English Department programs are invited to do work in all three, while concentrating in one of them.

The Literature option provides a grounding in the basic texts and methods of the discipline as well as wide acquaintance with substantial areas of the field.

The Drama and Theatre option tries to place its subject in as broad a social and philosophical context as possible. *The Drama and Theatre program is not designed to provide professional theatre training. The aim is rather to encourage students to explore the subject as a liberal arts discipline.*

The Cultural Studies option concentrates on analysis of forms of cultural expression and symbolic interaction, and of the various media through which these may be disseminated and transformed. Such study concerns symbolic form, aesthetically based forms of analysis, and the various modes of criticism and theory relevant to media which contain both verbal and non-verbal elements. The aim is above all to hone students' analytical and interpretive skills while introducing them to specific critical approaches to cultural studies. This is not a major in journalism or communications; and while many of our graduates go on to do creative work in a variety of media, instruction in film and video production is not part of the curriculum.

Department Handbook on the Web
For the most up-to-date information on Department requirements and detailed course descriptions, please see the English Department Handbook at www.mcgill.ca/english.

MINOR CONCENTRATIONS
For the current lists of complementary courses in the categories referred to in the Minor Concentrations:

- Major Authors/Major Figures
- Pre-1800 courses/Courses with a historical dimension

see the Department's website or consult the Departmental office.

MINOR CONCENTRATION IN ENGLISH – LITERATURE
(18 credits) (Expandable to the Major Concentration in English - Literature)

Required Courses (6 credits)
ENGL 202 (3) Departmental Survey of English Literature 1
ENGL 203 (3) Departmental Survey of English Literature 2

Complementary Courses (12 credits)
3 credits from a list of courses on Major Authors
3 credits from a list of pre-1800 courses
6 additional credits from the option's offerings

MINOR CONCENTRATION IN ENGLISH – DRAMA AND THEATRE (18 credits) (Expandable to the Major Concentration in English - Drama and Theatre)

Required Courses (6 credits)
ENGL 230 (3) Introduction to Theatre Studies
ENGL 269 (3) Introduction to Performance

Complementary Courses (12 credits)
3 credits from a list of courses on Major Figures in Drama/Theatre
3 credits from a list of courses in Drama and/or Theatre with an historical dimension
6 additional credits from the option's offerings

MINOR CONCENTRATION IN ENGLISH – CULTURAL STUDIES (18 credits) (Expandable to the Major Concentration in English - Cultural Studies)

Required Courses (6 credits)
ENGL 275 (3) Introduction to Cultural Studies
ENGL 276 (3) Methods of Cultural Analysis

Complementary Courses (12 credits)
3 credits from a list of courses on Major Figures in Cultural Studies
3 credits from a list of courses in Cultural Studies with an historical dimension
6 additional credits from the option's offerings

MAJOR CONCENTRATIONS

Major Concentration students are required to take a 36-credit program, the specific content of which differs in the three options available. Each student must choose one of these options.

Faculty policy states that, after or while taking a 36-credit Major Concentration in the English Department and an 18-credit Minor Concentration in another department, students may take an additional 18-credit Minor Concentration in English.

For the current lists of complementary courses referred to in the Major Concentrations:

- Major Authors/Major Figures,
- Courses with Canadian content,
- Period courses/Courses with a historical dimension

see the Department's website or consult the Departmental Office.

MAJOR CONCENTRATION IN ENGLISH – LITERATURE (36 credits)

Required Courses (9 credits)
ENGL 202* (3) Departmental Survey of English Literature 1
ENGL 203* (3) Departmental Survey of English Literature 2
ENGL 311* (3) Poetics
* to be taken in the first two terms of the program

Complementary Courses (27 credits)
3 credits from a list of Canadian Literature courses
3 credits in Theory or Criticism:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits each from two of the following areas: Backgrounds of English Literature, Old English, Medieval, Renaissance
3 credits each from two of the following areas: Restoration, 18th Century, Romantic, Victorian, 19th-Century American
3 credits from one of the following areas: Early 20th Century, Modernist, Post-modern, Contemporary
6 additional credits from the option's offerings
Note: At least 3 of the 27 complementary credits must be from a list of courses on a "Major Author."

MAJOR CONCENTRATION IN ENGLISH – DRAMA AND THEATRE (36 credits)

Required Courses (9 credits)
ENGL 230* (3) Introduction to Theatre Studies
ENGL 269* (3) Introduction to Performance
ENGL 355* (3) The Poetics of Performance
* to be taken in the first two terms of the program

Complementary Courses (27 credits)
3 credits from a list of courses on Major Figures in Drama and/or Theatre
3 credits from a list of courses in Drama and/or Theatre with a Canadian component
3 credits in Theory or Criticism:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
6 credits from a list of courses in Drama and/or Theatre with an historical dimension
12 additional credits from the option's offerings

Students are normally permitted to count 6 credits from other departments toward their English programs. In exceptional circumstances an adviser, approached by a student with strong academic grounds for including a third such course, may grant permission, to a maximum of 9 extra-departmental credits, and must so indicate in advance by signing the departmental program Audit Sheet.

MAJOR CONCENTRATION IN ENGLISH – CULTURAL STUDIES (36 credits)

Required Courses (12 credits)
ENGL 275* (3) Introduction to Cultural Studies
ENGL 276* (3) Methods of Cultural Analysis
ENGL 277* (3) Introduction to Film Studies
ENGL 359* (3) The Poetics of the Image
* to be taken in the first two terms of the program

Complementary Courses (24 credits)
3 credits from a list of courses on Major Figures in Cultural Studies
3 credits from a list of courses in Cultural Studies with a Canadian component
3 credits in Theory or Criticism:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
6 credits from a list of courses in Cultural Studies with an historical dimension
9 additional credits from the option's offerings

Students are normally permitted to count 6 credits from other departments towards their English programs. In exceptional circumstances an adviser, approached by a student with strong academic grounds for including a third such course, may grant permission, to a maximum of 9 extra-departmental credits, and must so indicate in advance by signing the departmental program Audit Sheet.

HONOURS PROGRAMS IN ENGLISH (each 60 credits)

Entry to Honours is by application, normally after two terms in a Departmental program, including at least 18 credits of English. Students intending to apply for Honours or already accepted should consult an Honours adviser regarding their course selections throughout their program. The Faculty of Arts requires that all students admitted to Honours programs complete a second-program Minor in addition to their Honours program.

Admission to the Honours program is limited to a small number of students with excellent records. The minimum CGPA for application to the Honours program is 3.50; students meeting the 3.50 minimum in English Department courses alone (although not in CGPA) may also apply and make a case for their acceptance. In

neither instance is admission guaranteed. After admission into the Honours program, the student is required to maintain a CGPA at a level set by the Faculty for graduation with Honours and a program GPA at the level set by the Department. (See requirements for graduation with Honours listed below.)

The Honours program in English requires 60 credits. Students intending to apply for Honours should plan to complete as many of the specific requirements of their option as possible within the first two years. With the written approval of an adviser, up to nine credits may be taken outside the department. All Honours students must complete at least 6 of their complementary credits at the 500 level. Ideally, 500-level seminars chosen will be relevant to the area of the student's independent study in the Honours Essay course (ENGL 491D1/ENGL 491D2), taken without exception in the final year of the program. The Honours Essay is first planned in consultation with a supervisor at the time of application to the Honours program; it is then guided and evaluated by that supervisor during the completion of ENGL 491. Graduation with Honours requires 60 credits of English, a minimum mark of B+ on the Honours Essay, a minimum CGPA of 3.00, and a minimum program GPA of 3.50. Graduation with First Class Honours requires a mark of A on the Honours Essay, a minimum CGPA of 3.50, and a minimum program GPA of 3.70.

HONOURS IN ENGLISH (LITERATURE) (60 credits)

Required Courses (18 credits)

ENGL 202* (3) Departmental Survey of English Literature 1
ENGL 203* (3) Departmental Survey of English Literature 2
ENGL 311* (3) Poetics
ENGL 360** (3) Literary Criticism
ENGL 491D1 (3) Honours Essay
ENGL 491D2 (3) Honours Essay

* to be taken in the first two terms in the program
** normally taken in the second year of the program

Complementary Courses (42 credits)

15 credits, 3 credits each, of Shakespeare, Canadian Literature, American Literature, Cultural Studies, Drama/Theatre.
3 credits of theory:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits each from two of the following areas: Backgrounds of English Literature, Old English, Medieval, Renaissance
3 credits each from two of the following areas: Restoration, 18th Century, Romantic, Victorian, 19th-Century American
3 credits from one of the following areas: Early 20th Century, Modernist, Post-modern, Contemporary
9 credits chosen from among other Department offerings

At least 6 complementary credits must be at the 500 level.
A maximum of 9 credits may be from another department with the signed permission of the adviser.

HONOURS IN ENGLISH (DRAMA AND THEATRE) (60 credits)

Required Courses (15 credits)

ENGL 230* (3) Introduction to Theatre Studies
ENGL 269* (3) Introduction to Performance
ENGL 355* (3) The Poetics of Performance
ENGL 491D1 (3) Honours Essay
ENGL 491D2 (3) Honours Essay

* must have been taken by the end of the first two terms of the program

Complementary Courses (45 credits)

3 credits from a list of courses on Major Figures in Drama and/or Theatre
3 credits from a list of courses in Drama and/or Theatre with a Canadian component
6 credits from a list of courses in Drama and/or Theatre with an historical dimension
3 credits of theory:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits from a list of courses with a theoretical component, from the option's offerings at the 400 level or above
9 credits from a list of performance-oriented courses
6 credits chosen from Departmental offerings in English Literature and/or Cultural Studies
12 credits in English selected in consultation with an academic adviser

At least 6 complementary credits must be at the 500 level.
A maximum of 9 credits may be from other departments with the signed permission of the adviser.

HONOURS IN ENGLISH (CULTURAL STUDIES) (60 credits)

Required Courses (18 credits)

ENGL 275* (3) Introduction to Cultural Studies
ENGL 276* (3) Methods of Cultural Analysis
ENGL 277* (3) Introduction to Film Studies
ENGL 359* (3) The Poetics of the Image
ENGL 491D1 (3) Honours Essay
ENGL 491D2 (3) Honours Essay

* must have been taken by the end of the first two terms of the program

Complementary Courses (42 credits)

3 credits from a list of courses on Major Figures in Cultural Studies
3 credits from a list of courses in Cultural Studies with a Canadian component
6 credits from a list of courses in Cultural Studies with an historical dimension
3 credits of theory:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits from a list of courses in theory, from the option's offerings at the 400 level or above
12 credits in English Literature and/or Drama and Theatre, of which 6 credits are at the 300 level or higher
12 credits in additional courses in Cultural Studies

At least 6 complementary credits must be at the 500 level.
A maximum of 9 credits may be from other departments with the signed permission of the adviser.

JOINT HONOURS PROGRAM – ENGLISH COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours Program components from two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Applications to do a Joint Honours Program in English and another subject in the Faculty of Arts should be submitted once a minimum of 9 credits, and no more than 18 credits, have been completed in English. There are normally two possible application dates for Joint Honours in English: either by the end of January (by which time first-term courses are completed and the grades are available), or at the same time as the Honours application date, typically in mid-April. (Only students who will have completed more than 18 credits in English by the end of January may apply in the Fall.)

Applications will be considered by the Department's Honours Committee on the basis of the student's program GPA, at a minimum of 3.50. The application form is available in the Department's General Office (Arts 155), and the specific submission requirements are described by that form. The application will take some time to prepare, and allowance for such preparation (at least several weeks) must be made in order to meet the application deadline. **Incomplete applications will not be considered.**

Acceptance into Joint Honours English may be conditional on particular revisions to the Program Course Proposal to be submitted with the application form. This proposal goes on file in the General Office with the other submissions. Only course choices that are appropriate, given the nature of the Joint Honours program proposed, including the Honours Essay if applicable, will be approved. In order to graduate with Joint Honours, all subsequent course substitutions in the initially approved Joint Honours English program must be endorsed by the Joint Honours adviser when they are made (i.e., at the start of each term) and entered on the Program Course Proposal with the adviser's initialled approval.

The maintenance of a 3.50 program GPA is required for continuation in Joint Honours. Graduation with Joint Honours requires a minimum CGPA of 3.00, a minimum program GPA of 3.50, and a minimum mark of B+ on the Honours Essay. Graduation with First Class Joint Honours in English requires a minimum CGPA of 3.50, a minimum program GPA of 3.70, and a minimum mark of A on the Honours Essay.

Each academic year there is a special adviser for Joint Honours students, and the receptionist in the General Office can provide his or her name and contact information. The Department's website provides additional information on the Joint Honours program and applications, and this website should also be consulted prior to contacting the adviser.

Joint Honours Program Descriptions

400 Level
All Joint Honours students' programs of study shall include 6 credits of study at the 400 level or above.

Advanced Study
In addition, Joint Honours students shall undertake at least 6 further credits of advanced study, in one of the following two forms, in order of preference:

a. ENGL 491D1/ENGL 491D2, an Honours Essay, or
b. Two 500-level courses

(In very rare cases, a third alternative may be approved at the discretion of the Joint Honours adviser, but only when it is formally recommended for the joint subject according to the description of that Joint Honours program in the University Calendar. For example, Joint Honours with Anthropology allows the option of combining 3 credits of essay work with 3 credits in the joint subject to create a joint essay.)

JOINT HONOURS IN ENGLISH (LITERATURE) (36 credits)

Required Courses (6 credits)
ENGL 311 (3) Poetics
ENGL 360 (3) Literary Criticism

Complementary Courses (30 credits)
9 credits of pre-1800 English literature
3 credits of theory:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits of English courses at the 500 level
6 credits of advanced study as specified above
9 credits chosen from among Department offerings

JOINT HONOURS IN ENGLISH (DRAMA AND THEATRE) (36 credits)

Required Courses (9 credits)
ENGL 230 (3) Introduction to Theatre Studies
ENGL 269 (3) Introduction to Performance
ENGL 355 (3) The Poetics of Performance

Complementary Courses (27 credits)
3 credits of theory:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits in dramatic literature
3 credits in history of the theatre
6 credits of advanced study as specified above
12 credits chosen from among Department offerings

JOINT HONOURS IN ENGLISH (CULTURAL STUDIES) (36 credits)

Required Courses (9 credits)
ENGL 275 (3) Introduction to Cultural Studies
ENGL 276 (3) Methods of Cultural Analysis
ENGL 359 (3) The Poetics of the Image

Complementary Courses (27 credits)
3 credits of theory:
ENGL 317 (3) Theory of English Studies 1
or ENGL 318 (3) Theory of English Studies 2
or ENGL 319 (3) Theory of English Studies 3
or ENGL 322 (3) Theories of the Text
or ENGL 346 (3) Materiality and Sociology of Text
or ENGL 352 (3) Theories of Difference
3 credits from a list of courses in Cultural Studies with an historical dimension
3 credits from a list of courses on Major Figures in Cultural Studies
6 credits of advanced study as specified above
12 credits chosen from among Department offerings

Department of English Student Association (DESA)
DESA is the representative body for the students of the English Department at McGill. Any student taking one or more courses in the Department is automatically a member. For more information, please read the description on the Department's website.

6.12.18 English as a Second Language (ESLN)

English and French Language Centre
688 Sherbrooke Street West, 2nd Floor
Montreal, QC H3A 3R1

Telephone: 514-398-4172
Fax: 514-398-5449
Website: www.mcgill.ca/eflc

Director — Geneviève Leidelinger

Lecturers
Robert Myles; B.A., M.A.(Car.), Ph.D.(McG.)
Carolyn Samuel; B.A., Dip.Ed.(McG.), M.Ed.(OISE, Tor.)

Full-time, non-anglophone students whose secondary education (high school and CEGEP) has been in institutions where the primary language of instruction was not English, or who have attended English language secondary institutions (high school and CEGEP) for four years or less, are eligible to take up to 12 credits in English as a Second Language (ESL).

With certain exceptions courses require placement tests, followed by advising and an electronic permit given at the English and French Language Centre. (Exceptions: foreign graduate students registering in ESLN 590 who have met McGill University

English language entry requirements, register directly on Minerva. Graduate students registering for ESLN 650, placement confirmation on first day of class, register directly on Minerva.)

Placement tests will be held on Monday, August 24, Wednesday, August 26, Thursday, August 27, Friday, August 28, Monday, August 31 at 10:00 a.m., 12:00 p.m. and 2:00 p.m., and on a drop-in basis from Tuesday, September 2 until Friday, September 11 or until places are filled. Placement tests are held in the Arts Multimedia Language Facility (AMLF) in the basement of the McLennan-Redpath Library, 3459 McTavish Street.

All students are required to attend class without fail during the first two weeks in order to retain their places.

6.12.19 English for Academic Purposes (EAPR)

English and French Language Centre
688 Sherbrooke Street West, 2nd Floor
Montreal, QC H3A 3R1

Telephone: 514-398-4172
Fax: 514-398-5449
Website: www.mcgill.ca/eflc

Director — Geneviève Leidelinger

Lecturers
Sue Laver; B.A.(S. Fraser), M.A.(East Anglia, Norwich, Eng.), Ph.D.(McG.)

The English for Academic Purposes (EAP) course, EAPR 250 Research Essay & Rhetoric, develops *academic* writing and critical thinking skills.

The course is for native speakers of English. Near-native English speakers may also take the course, but students with less than advanced English Second Language (ESL) skills are advised to take the academic writing courses listed under ESLN (English as a Second Language) in this Calendar.

Entrance Test: Short composition first day of class. Students with less than advanced ESL skills and students with serious writing problems will be advised on other courses they might take.

6.12.20 Environment

Arts students who are interested in studying the environment should refer to the McGill School of Environment section where they will find information concerning the "Minor Concentration in Environment" in section 10.5.1 and the "B.A. Faculty Program in Environment" in section 10.6.

6.12.21 French as a Second Language (FRSL)

English and French Language Centre
688 Sherbrooke Street West, 2nd Floor
Montreal, QC H3A 3R1

Telephone: 514-398-4172
Fax: 514-398-5449
Website: www.mcgill.ca/eflc

Director — Geneviève Leidelinger

Lecturers
Loretta Hyrat; B.A., M.A.(McG.)
Denyse Laniel; B.A.(Montr.), M.A.(McG.), Cert. Ed.(C'dia)
Geneviève Leidelinger; L. ès L.(Nice), B.Ed.(Qu.), M.A.(Vermont)
Natallia Liakina; B.A.(Minsk Linguistic University), M.A.(W. Ont.)
Suzanne Pellerin; B.A., M.A.(Laval), D.E.A.(Metz)
Hélène Riel-Salvatore; B.A.(McG.), M.A.(Harv.)
Jean-Yves Richard; B.A., M.A.(Laval)
Marion Vergues; B.A., M.A., D.E.A.(Montpellier University)

Courses in French as a Second Language are open to students in any program who need to develop their oral and written skills in the French language either for use in their future professional career or as preparation for more advanced studies in French linguistics, literature, civilization, translation or in Canadian studies.

Arts Freshman students enrolled in the Option 3: En français may select up to a maximum of 18 credits from FRSL courses.

ADMISSION AND REGISTRATION

A Placement Test is required before admission to any FRSL course, including Beginners' French. *All students should bring a photocopy of their transcript from high school or CEGEP. Departmental permission will be given after the student's level has been determined by a placement test.* Where students' levels in French make admission to this Department inappropriate, they will be directed to the Département de langue et littérature françaises.

No auditors are accepted.

Placement tests and registration take place at the Arts Multimedia Language Facility (AMLF), in the basement of the McLennan Library, 3459 McTavish on August 26 from 9:00 to 11:00 a.m. and from 2:00 to 3:30 p.m., on August 27 from 9:00 to 11:00 a.m. and from 2:00 to 3:30 p.m., on August 28 from 10:00 to 11:15 a.m., and on August 31 from 9:00 to 11:00 a.m. and from 2:00 to 3:30 p.m.

Students must bring a headset or earbuds, the kind used with iPods, MP3 players, etc. Only a limited number of students can be tested and they will be served on a first come basis.

Registration is limited and Departmental permission is absolutely required. *As numbers are limited in all courses, students who meet the required standard for any given course are admitted on a first-come, first-served basis, until the day before classes start. As of the first day of class, if places open, the department will accept students who have not yet registered based upon the date their permit was issued with priority being given to the earliest date.*

The Department reserves the right to transfer a student to another course if the level is inappropriate. Any absence from class during the Course Change period may lead to losing one's place to another student.

Catherine Leclerc; M.A.(UQAM), Ph.D.(C'dia)

GÉNÉRALITÉS

Le Département de langue et littérature françaises offre un programme de cours qui couvre l'ensemble des littératures française et québécoise ainsi que d'autres aspects des études françaises : civilisation et langue (linguistique, stylistique, traduction).

Le français est la seule langue de travail au Département. Tous les cours sont donnés en français. Les francophones constituent une proportion importante de notre clientèle, ce qui représente un avantage appréciable pour les étudiants qui ne sont pas de langue française, leur permettant de faire leurs études dans un milieu essentiellement français.

Pour ce qui est de la traduction, le programme offert à McGill a comme principale caractéristique de comporter un grand nombre de cours de culture générale.

La plupart des cours peuvent être suivis par tout étudiant ayant les connaissances et les capacités voulues: le professeur jugera en dernier ressort. Il existe toutefois quelques restrictions.

1. L'admission aux cours pratiques de langue (Composition 1 et 2, Grammaire avancée, Traduction) est subordonnée à la réussite d'un test qui a pour but de déterminer le niveau de connaissance de l'étudiant et d'assurer que celui-ci sera dirigé vers un cours correspondant à ses besoins. Si la préparation de l'étudiant s'avère insuffisante pour lui permettre de suivre un cours au Département, un cours au Centre d'enseignement du français et de l'anglais (French as a Second Language) lui sera conseillé.
2. L'admission aux programmes de Traduction (pour les étudiants en Spécialisation) est subordonnée à la réussite d'un test.
3. Les étudiants extérieurs au Département peuvent s'inscrire à tous les cours offerts au Département sauf exceptions indiquées dans le libellé des cours.

ASSOCIATION GÉNÉRALE DES ÉTUDIANTS DE LANGUE ET LITTÉRATURE FRANÇAISES (AGELF)
Association regroupant les étudiants de 1er cycle (inscrits à au moins 6 crédits en français) qui a pour but de promouvoir les intérêts de tous ses membres.

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – LANGUE FRANÇAISE (18 crédits)
(Concentration mineure qui ne peut pas être convertie en Concentration majeure)
Conditions d'admission : Aucune.

Cours complémentaires (18 crédits)
6 à 12 crédits au Centre d'enseignement du français et de l'anglais parmi :
FRSL 321D1 (3) Oral and Written French 2
FRSL 321D2 (3) Oral and Written French 2
FRSL 325 (6) Oral and Written French 2 - Intensive
FRSL 326 (3) Découvrons le Québec en français
FRSL 431D1 (3) Français fonctionnel avancé
FRSL 431D2 (3) Français fonctionnel avancé

FRSL 446 (3) Français fonctionnel, écrit 2
FRSL 449 (3) Le Français des médias
FRSL 455 (3) Grammaire et création

6 à 12 crédits au Département de langue et littérature françaises parmi :
3 à 9 crédits choisis parmi les cours suivants :
FREN 201 (3) Composition 1
FREN 203 (3) Composition 2
FREN 239 (3) Stylistique comparée
FREN 245 (3) Grammaire avancée
3 crédits choisis parmi les cours suivants :
FREN 250 (3) Littérature française avant 1800
FREN 251 (3) Littérature française depuis 1800
FREN 252 (3) Littérature québécoise

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – LANGUE FRANÇAISE ET TRADUCTION
(18 crédits)
(Concentration mineure qui ne peut pas être convertie en Concentration majeure)
Conditions d'admission : Aucune.

Cours complémentaires (18 crédits)
9 crédits choisis parmi les cours suivants :
FREN 201 (3) Composition 1
FREN 203 (3) Composition 2
FREN 231 (3) Linguistique française
FREN 245 (3) Grammaire avancée

9 crédits choisis parmi les cours suivants :
FREN 239 (3) Stylistique comparée
FREN 244 (3) Traduction 1
FREN 346 (3) Traduction 2
FREN 349 (3) Traduction 3
FREN 431 (3) Traduction 4
FREN 441 (3) Traduction français-anglais

CONCENTRATION MINEURE LANGUE ET LITTÉRATURE FRANÇAISES – ÉTUDES ET PRATIQUES LITTÉRAIRES
(18 crédits)
(Concentration mineure convertible en Concentration majeure option Études et pratiques littéraires)
Conditions d'admission : Bonne connaissance du français lu, écrit et parlé; pour les étudiants n'ayant pas reçu une éducation secondaire ou collégiale en français, cette connaissance pourra être vérifiée à l'aide d'un test.

Cours obligatoire (3 crédits)
FREN 222 (3) Littérature française : Introduction

Cours complémentaires (15 crédits)

L'étudiant(e) doit choisir entre deux orientations (streams) soit : « Études littéraires », ou « Pratiques littéraires ». Suivant l'orientation choisie, les 15 crédits de cours complémentaires se répartiront comme suit :

Études littéraires
12 crédits choisis parmi les cours du bloc « Études littéraires » (au moins
3 de ces 12 crédits doivent porter sur la littérature avant 1800 et 3 autres sur la littérature depuis 1800)
3 crédits choisis parmi les cours du bloc « Pratiques littéraires »

Pratiques littéraires
12 crédits choisis dans au moins deux séries différentes du bloc « Pratiques littéraires »
3 crédits choisis parmi les cours du bloc « Études littéraires »

Liste des cours complémentaires

I. Bloc : « Études littéraires »

(a) Série *Théorie littéraire*
FREN 337 (3) Analyse et interprétation littéraires
FREN 391 (3) Doctrines et idées littéraires 1

CONCENTRATION MAJEURE LANGUE ET LITTÉRATURE FRANÇAISES – LINGUISTIQUE DU FRANÇAIS (36 crédits)
(Automne 2009 : Suppression du programme)

Ce programme est aboli à partir de septembre 2009. Les étudiants inscrits à ce programme avant cette date doivent consulter la directrice des Études de 1er cycle qui les guidera sur la manière de compléter leur programme.

PROGRAMMES DE SPÉCIALISATION ("HONOURS") ET DE DOUBLE SPÉCIALISATION ("JOINT HONOURS")
L'obtention d'un baccalauréat avec Spécialisation ou Double Spécialisation est obligatoire pour l'admission dans les programmes de 2e et 3e cycles (maîtrise et doctorat).

En Spécialisation, les étudiants doivent conserver au minimum une moyenne de 3.00 pour l'ensemble des cours du programme et maintenir un CGPA de 3.00.

En plus des cours du programme de Spécialisation, les étudiants doivent faire une Concentration mineure (18 crédits) dans un département autre que celui de leur programme de Spécialisation.

Les étudiants qui souhaitent poursuivre leurs études en spécialisation dans deux domaines distincts peuvent s'inscrire dans deux départements de la Faculté des Arts (consulter l'Annuaire de la Faculté section 6.11.4, "Joint Honours Programs"). Ces étudiants devraient rencontrer un conseiller dans chacun des deux départements concernés, pour établir leur choix de cours et formuler leur projet de recherche interdisciplinaire, le cas échéant.

PROGRAMME DE SPÉCIALISATION, OPTION ÉTUDES ET PRATIQUES LITTÉRAIRES (54 crédits)
Conditions d'admission : Bonne connaissance du français lu, écrit et parlé; pour les étudiants n'ayant pas reçu une éducation secondaire ou collégiale en français, cette connaissance pourra être vérifiée à l'aide d'un test.

Cours obligatoire (21 crédits)
FREN 222 (3) Littérature française : Introduction
FREN 333 (3) Thème de littérature d'Ancien Régime
FREN 444 (3) Thème de littérature moderne
FREN 450 (3) Thème de littérature québécoise
FREN 464D1 (3) Projet de recherche individuel
FREN 464D2 (3) Projet de recherche individuel
FREN 595 (3) Séminaire avancé lettres française

Cours complémentaires (33 crédits)

18 crédits choisis parmi les cours du bloc « Études littéraires », comme suit :
6 crédits de la série Théorie littéraire
12 crédits de la série Œuvres et courants
(au moins 3 de ces 18 crédits doivent porter sur la littérature avant 1800
et 3 autres sur la littérature depuis 1800.)
15 crédits choisis parmi les cours du bloc « Pratiques littéraires », comme suit :
au moins 3 crédits de la série Traduction
au moins 3 crédits de la série Création
au moins 3 crédits de la série Édition

Liste des cours complémentaires

DOUBLE SPÉCIALISATION, OPTION TRADUCTION
(36 crédits)

Bonne connaissance du français et de l'anglais lus et écrits; cette connaissance est vérifiée à l'aide d'un test; en cas de note insuffisante lors de ce test, l'étudiant(e) s'inscrira plutôt au programme de Concentration majeure (option Traduction) et suivra le cours FREN 239 Stylistique comparée au trimestre d'automne de U1. L'étudiant(e) pourra demander de nouveau l'autorisation de s'inscrire au programme de Spécialisation (option Traduction) à la fin de U1; cette autorisation lui sera accordée si ses notes dans chacun de ses cours de programme suivis en U1 sont égales ou supérieures à 75 % (B+).

Cours obligatoire (21 crédits)
FREN 222 (3) Littérature française : lntroduction
FREN 244 (3) Traduction 1
FREN 346 (3) Traduction 2
FREN 349 (3) Traduction 3

6.12.23 Geography (GEOG)

Burnside Hall, Room 705
805 Sherbrooke Street West
Montreal, QC H3A 2K6

Telephone: 514-398-4951 (or leave message 514-398-4111)
Fax: 514-398-7437
Website: www.geog.mcgill.ca

The Geography Department offers programs in both Arts and Science. Consult the Science entry "Geography (GEOG)" in section 14.13.16 for B.Sc. Geography programs, a list of teaching staff, an outline of the nature of Geography and the opportunities for study in this discipline.

Geography is a broad, holistic discipline - both a natural and a social science because it examines people and their environment and serves as a bridge between physical and cultural processes. Human Geography (a social science, thus B.A. programs) is concerned especially with the political, economic, social, and cultural processes and resource practices that create spatial patterns and that define particular places. Physical Geography (B.Sc. programs) integrates disciplines such as climatology, geomorphology, geology, biology, hydrology, ecology, soil science and even marine science. Whether considering greenhouse gas emissions, the spread of disease, or threats to biodiversity, in all cases, geographers are interested in where things happen, why, and with what consequences.

Our graduates go on to careers in environmental consulting, social agencies or non-governmental organizations. Skills in Geographic Information Science (GIS) are very marketable. Students are well prepared for graduate work in social sciences, urban planning and environmental studies at leading schools.

Prerequisites
There are no departmental prerequisites for entrance to the B.A. Major Concentrations or Honours programs in Geography. It is helpful for Arts students to include 6 credits of Mathematics in their CEGEP or preuniversity programs. A student who has completed college or preuniversity geography courses fully equivalent to those of first year university may, with the adviser's approval, substitute other courses as part of the Major Concentrations or Honours programs. B.A. students in U0 are invited to take GEOG 205 for science credit and GEOG 200 for social science credit.

MINOR CONCENTRATION IN GEOGRAPHY (18 credits)
(Expandable into the Major Concentration in Geography, but not into the Major Concentration in Geography (Urban Systems).)

The Minor Concentration in Geography is designed to provide students in the Faculty of Arts with an overview of basic elements of human geography at the introductory and advanced level.

Complementary Courses (18 credits)
9 credits (3 courses) from:

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 203	(3)	Environmental Systems
GEOG 210	(3)	Global Places and Peoples
GEOG 216	(3)	Geography of the World Economy
GEOG 217	(3)	The Canadian City
GEOG 272	(3)	Earth's Changing Surface

9 credits (3 courses) from any Geography courses at the 300- or 400-level.

MINOR CONCENTRATION IN GEOGRAPHIC INFORMATION SYSTEMS (18 credits)
(Expandable into the Major Concentration in Geography, but not into the Major Concentration in Geography (Urban Systems).)

This Minor is designed to provide students in the Faculty of Arts who have an interest in GIS with a basic, but comprehensive knowledge of concepts and methods relating to the analysis of geospatial data.

Required Courses (15 credits)

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 306	(3)	Raster Geo-Information Science
GEOG 307	(3)	Socioeconomic Applications of GIS
GEOG 308	(3)	Principles of Remote Sensing
GEOG 506	(3)	Advanced Geographic Information Science

Complementary Courses (3 credits)
One course to be chosen from:

ATOC 309	(3)	Weather Radars and Satellites
COMP 420	(3)	Secondary Storage Algorithms and Data Structures
COMP 557	(3)	Fundamentals of Computer Graphics (Note prerequisites)
GEOG 535	(3)	Remote Sensing and Interpretation
GEOG 551	(3)	Environmental Decisions
URBP 505	(3)	Geographic Information Systems

MINOR CONCENTRATION IN GEOGRAPHY (URBAN SYSTEMS) (18 credits)
(Expandable into the Major Concentration in Geography (Urban Systems).)

Complementary Courses (18 credits)
Group A (9 or 12 credits)
GEOG 210 (3) Global Places and Peoples
GEOG 217 (3) The Canadian City
GEOG 303 (3) Health Geography
GEOG 311 (3) Economic Geography
GEOG 315 (3) Urban Transportation Geography
GEOG 331 (3) Urban Social Geography
GEOG 494 (3) Urban Field Studies

Group B (6 or 9 credits)
Architecture (Faculty of Engineering)*
ARCH 378 (3) Site Usage (U2)
ARCH 515 (3) Sustainable Design (U3)
ARCH 527 (3) Civic Design (U3)
ARCH 528 (3) History of Housing (U3)
ARCH 529 (3) Housing Theory (U3)
ARCH 550 (4) Urban Planning and Development (U3)
(permission of Geography Adviser required)
* Although Architecture courses have prerequisites, they are waived for Urban Systems students, but the course may not be taken before the year indicated.
Civil Engineering
CIVE 433 (3) Urban Planning
- limited enrolment, departmental permission required, call 514-398-6345
CIVE 540 (3) Urban Transportation Planning
Economics
ECON 348 (3) Urban Economics
Geography
GEOG 307 (3) Socioeconomic Applications of GIS
History
HIST 353 (3) History of Montreal
Law
PUB1 004 (3) Land Use Planning
Political Science
POLI 318 (3) Comparative Local Government
POLI 337 (3) Canadian Public Administration
Urban Planning
URBP 201 (3) Planning the 21st Century City
URBP 501 (2) Principles and Practice 1
URBP 506 (3) Environmental Policy and Planning

B.A. MAJOR CONCENTRATION IN GEOGRAPHY (36 credits)
This program is designed to cover the main elements of human geography.

Required Courses (6 credits)
GEOG 201 (3) Introductory Geo-Information Science
GEOG 210 (3) Global Places and Peoples

Complementary Courses (30 credits)
3 credits of introductory physical geography, one of:
GEOG 203 (3) Environmental Systems
GEOG 272 (3) Earth's Changing Surface

3 credits of statistics*, one of:
BIOL 373 (3) Biometry
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
PSYC 204 (3) Introduction to Psychological Statistics
SOCI 350 (3) Statistics in Social Research
* Credit given for statistics courses is subject to certain restrictions; see Faculty Degree Requirements, section 6.3.6.2, "Course Overlap".

3 credits from field courses (field course availability is determined each year in February):
GEOG 290 (1) Local Geographical Excursion (In 2009, reserve Oct. 2 - 4)
GEOG 398 (3) Field Studies in Human Geography
GEOG 494 (3) Urban Field Studies
GEOG 495 (3) Field Studies - Physical Geography
GEOG 496 (3) Geographical Excursion
GEOG 497 (3) Ecology of Coastal Waters
GEOG 499 (3) Subarctic Field Studies

3 credits of analysis and methodology:
GEOG 306 (3) Raster Geo-Information Science
GEOG 307 (3) Socioeconomic Applications of GIS
GEOG 308 (3) Principles of Remote Sensing
GEOG 351 (3) Quantitative Methods
GEOG 506 (3) Advanced Geographic Information Science

18 credits in Geography (excluding GEOG 200, GEOG 205), at least 3 of these 18 to be at the 400 level or above.

MAJOR CONCENTRATION IN GEOGRAPHY (URBAN SYSTEMS) (36 credits)

This interdisciplinary Concentration exposes students to the various approaches to urban studies in many disciplines. Students who wish to retain the option of entering a Geography honours program should include GEOG 201, GEOG 203, GEOG 216 and GEOG 272 as well as the 9 credits of Required Courses listed below.

Students should observe the levels indicated by course numbers: 200-level are first year; 300-level, second year; 400- or 500-level, third year.

For further information on the Urban Systems Concentration telephone 514-398-4951 or leave a message at 514-398-4111.

For Urban Systems Majors, the total number of credits permitted outside Arts and Science is 30; see section 6.3.6.3 "Courses Outside the Faculties of Arts and of Science".

Required Courses (12 credits)
GEOG 201 (3) Introductory Geo-Information Science
GEOG 217 (3) The Canadian City
GEOG 331 (3) Urban Social Geography
GEOG 351 (3) Quantitative Methods

Complementary Courses (24 credits)

3 credits of statistics*, one of:
BIOL 373 (3) Biometry
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
PSYC 204 (3) Introduction to Psychological Statistics
SOCI 350 (3) Statistics in Social Research
* Credit given for statistics courses is subject to certain restrictions, see Faculty Degree Requirements, section 6.3.6.2, "Course Overlap".

15 - 21 credits selected from the following courses:

Geography
GEOG 210 (3) Global Places and Peoples
GEOG 303 (3) Health Geography
GEOG 311 (3) Economic Geography
GEOG 315 (3) Urban Transportation Geography
GEOG 380 (3) Adaptive Environmental Management
GEOG 494 (3) Urban Field Studies

Architecture (Faculty of Engineering)*
ARCH 378 (3) Site Usage (U2)
ARCH 515 (3) Sustainable Design (U3)
ARCH 520 (3) Montreal: Urban Morphology (U3)
ARCH 527 (3) Civic Design (U3)
ARCH 528 (3) History of Housing (U3)
ARCH 529 (3) Housing Theory (U3)

ARCH 550 (4) Urban Planning and Development (U3) (same as CIVE 433 but extra project) (permission of Geography Adviser required)

* Although Architecture courses have prerequisites, they are waived for Urban Systems Majors, but the course may not be taken before the year indicated. Limited enrolment, early registration recommended.

Art History
ARTH 314 (3) The Medieval City

Civil Engineering
CIVE 433 (3) Urban Planning (same course as ARCH 550) - limited enrolment, departmental permission required, call 514-398-6345
CIVE 540 (3) Urban Transportation Planning

Economics
ECON 348 (3) Urban Economics

History
HIST 353 (3) History of Montreal

Jewish Studies
JWST 371D1/D2 (6) Jews and the Modern City

Law
PUB1 004 (3) Land Use Planning

Management (Desautels Faculty of Management)
FINE 445 (3) Real Estate Finance (prereq.)

Political Science
POLI 318 (3) Comparative Local Government

Urban Planning (Faculty of Engineering)
URBP 201 (3) Planning the 21st Century City
URBP 501 (2) Principles and Practice 1 (6-week intensive)
URBP 506 (3) Environmental Policy and Planning

Balance (up to 6 credits) selected from the following courses:

Geography
GEOG 290 (1) Local Geographical Excursion (In 2009, reserve Oct. 2 - 4)
GEOG 306 (3) Raster Geo-Information Science
GEOG 307 (3) Socioeconomic Applications of GIS
GEOG 316 (3) Political Geography
GEOG 504 (3) Industrial Restructuring - Geographic Implications

Political Science
POLI 337 (3) Canadian Public Administration
POLI 411 (3) Immigration and Multiculturalism in Canada

Sociology
SOCI 230 (3) Sociology of Ethnic Relations
SOCI 333 (3) Social Stratification
SOCI 388 (3) Crime

B.A. HONOURS IN GEOGRAPHY (60 credits)

The B.A. Honours program is more concentrated and focused than the Major Concentration. Students must maintain a minimum program GPA of 3.30 as well as a CGPA of 3.00 and complete a 6-credit Honours thesis. Honours students are encouraged to participate in 500-level seminars with graduate students.

Required Courses (15 credits)
GEOG 201 (3) Introductory Geo-Information Science
GEOG 351 (3) Quantitative Methods
GEOG 381 (3) Geographic Thought and Practice
GEOG 491D1 (3) Honours Research
GEOG 491D2 (3) Honours Research

Complementary Courses (45 credits)
12 credits of introductory courses, four of:
GEOG 203 (3) Environmental Systems
GEOG 210 (3) Global Places and Peoples
GEOG 216 (3) Geography of the World Economy
GEOG 217 (3) The Canadian City
GEOG 272 (3) Earth's Changing Surface

3 credits of statistics*, one of:
BIOL 373 (3) Biometry
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
PSYC 204 (3) Introduction to Psychological Statistics
SOCI 350 (3) Statistics in Social Research

* Credit given for statistics courses is subject to certain restrictions, see Faculty Degree Requirements, section 6.3.6.2, "Course Overlap".

3 credits from field courses:
GEOG 290 (1) Local Geographical Excursion (In 2009, reserve Oct. 2 - 4)
GEOG 398 (3) Field Studies in Human Geography
GEOG 494 (3) Urban Field Studies
GEOG 495 (3) Field Studies - Physical Geography
GEOG 496 (3) Geographical Excursion
GEOG 497 (3) Ecology of Coastal Waters
GEOG 499 (3) Subarctic Field Studies

18 additional credits in Geography in consultation with the adviser.

9 credits at the 300 or 400-level or above outside Geography. Courses outside Geography, at the 300-level or higher, are selected from the humanities, social and physical sciences, or engineering and approved by the adviser as related to the focus within Geography.

In addition to the Faculty requirement that Honours students maintain a minimum CGPA of 3.00, students in a Geography Honours Program must maintain a program GPA of at least 3.30.

B.A. HONOURS IN URBAN SYSTEMS (60 credits)

The B.A. Honours in Urban Systems program is more concentrated and focused than the Major Concentration. Students must maintain a minimum program GPA of 3.30 as well as a CGPA of 3.00 and complete a 6-credit Honours thesis. Honours students are encouraged to participate in 500-level seminars with graduate students.

Students should observe the levels indicated by course numbers: 200-level are first year; 300-level, second year; 400- or 500-level, third year.

For further information on programs in Urban Systems, telephone 514-398-4951 or leave a message at 514-398-4111.

For students in the Honours in Urban Systems, the total number of credits permitted outside Arts and Science is 30; see section 6.3.6.3 "Courses Outside the Faculties of Arts and of Science".

Required Courses (21 credits)
GEOG 201 (3) Introductory Geo-Information Science
GEOG 217 (3) The Canadian City
GEOG 351 (3) Quantitative Methods
GEOG 381 (3) Geographic Thought and Practice
GEOG 491D1 (3) Honours Research
GEOG 491D2 (3) Honours Research
GEOG 494 (3) Urban Field Studies

Complementary Courses (39 credits)

3 credits of statistics*, one of or equivalent of:
BIOL 373 (3) Biometry
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
PSYC 204 (3) Introduction to Psychological Statistics

* Credit given for statistics courses is subject to certain restrictions, see Faculty Degree Requirements, section 6.3.6.2, "Course Overlap".

12 credits selected from the following Geography courses:
GEOG 203 (3) Environmental Systems
GEOG 210 (3) Global Places and Peoples

GEOG 221 (3) Environment and Health
GEOG 303 (3) Health Geography
GEOG 307 (3) Socioeconomic Applications of GIS
GEOG 311 (3) Economic Geography
GEOG 331 (3) Urban Social Geography

12 credits of courses in one of three categories: Urban History and Theory, Urban Design, or Urban Policy and Governance.

Urban History and Theory:*
ARCH 528 (3) History of Housing
ARCH 529 (3) Housing Theory
ARTH 314 (3) The Medieval City
GEOG 503 (3) Location & Spatial Development
GEOG 504 (3) Industrial Restructuring - Geographic Implications
HIST 353 (3) History of Montreal
JWST 371D1 (3) Jews and the Modern City
JWST 371D2 (3) Jews and the Modern City
SOCI 222 (3) Urban Sociology
URBP 501 (2) Principles and Practice 1 (6-week intensive)

Urban Design:*
ARCH 378 (3) Site Usage
ARCH 515 (3) Sustainable Design
ARCH 520 (3) Montreal: Urban Morphology
ARCH 521 (3) Structure of Cities
ARCH 527 (3) Civic Design
ARCH 550 (4) Urban Planning and Development (permission of Geography Adviser required)
CIVE 433 (3) Urban Planning (same course as ARCH 550) - limited enrolment, departmental permission required, call 514-398-6345
CIVE 540 (3) Urban Transportation Planning
GEOG 315 (3) Urban Transportation Geography
URBP 201 (3) Planning the 21st Century City
URBP 505 (3) Geographic Information Systems

* Note: Although Architecture courses have prerequisites, they are waived for Urban Systems students, but the course may not be taken before the year indicated. Limited enrolment, early registration recommended.

Urban Policy and Governance:
ECON 348 (3) Urban Economics
FINE 445 (3) Real Estate Finance (prereq.)
POLI 318 (3) Comparative Local Government
POLI 337 (3) Canadian Public Administration
PUB1 004 (3) Land Use Planning
SOCI 230 (3) Sociology of Ethnic Relations
SOCI 333 (3) Social Stratification
SOCI 388 (3) Crime
URBP 506 (3) Environmental Policy and Planning

12 additional credits chosen as follows:
6 credits must be chosen from the above lists;
6 credits may be courses at or above the 300-level selected from outside of the program in conjunction with the student's program adviser.

In addition to the Faculty requirement that Honours students maintain a minimum CGPA of 3.00, students in the Honours in Urban Systems program must maintain a program GPA of at least 3.30.

B.A. JOINT HONOURS – GEOGRAPHY COMPONENT
(36 credits)

Required Courses (9 credits)
GEOG 201 (3) Introductory Geo-Information Science
GEOG 351 (3) Quantitative Methods
GEOG 381 (3) Geographic Thought and Practice

Complementary Courses (27 credits)
12 credits of introductory courses, four of:
GEOG 203 (3) Environmental Systems
GEOG 210 (3) Global Places and Peoples
GEOG 216 (3) Geography of the World Economy
GEOG 217 (3) The Canadian City
GEOG 272 (3) Earth's Changing Surface

3 credits of statistics*, one of:
BIOL 373 (3) Biometry
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
PSYC 204 (3) Introduction to Psychological Statistics
SOCI 350 (3) Statistics in Social Research
* Credit given for statistics courses is subject to certain restrictions; see Faculty Degree Requirements, section 6.3.6.2, "Course Overlap".

6 to 9 credits from a coherent set of Geography courses approved by the student's adviser. A field course is desirable.

3 or 6 credits from:
GEOG 491D1*(3) Honours Research
GEOG 491D2*(3) Honours Research
or, for those who submit the thesis in the other department,
GEOG 492D1 (1.5) Joint Honours Research
GEOG 492D2 (1.5) Joint Honours Research
* Where both departments require an Honours Thesis, the student has the option of submitting the thesis to either department. If the thesis is submitted to the other department, then the student must register for GEOG 492D1/GEOG 492D2. In some cases, it is required that the thesis be jointly supervised by faculty of both departments.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

In addition to the Faculty requirement that Joint Honours students maintain a minimum CGPA of at least 3.00, students in a Geography Joint Honours Program must maintain a program GPA of at least 3.30.

AFRICAN FIELD STUDY SEMESTER
The Department of Geography (Prof. Thom Meredith), Faculty of Science, coordinates the 15-credit interdisciplinary African Field Study Semester. For further information please contact Martine Dolmière, Internship & Field Studies Officer, 514-398-1063; see section 15.3.1 "African Field Study Semester".

PANAMA FIELD STUDY SEMESTER
The program is a joint venture between McGill University and the Smithsonian Tropical Research Institute (STRI) in Panama. For more information; see section 15.3.4 "Panama Field Study Semester".

GEOGRAPHY COURSES OF MOST INTEREST TO ARTS STUDENTS:
GEOG 199 (3) FYS: Geo-Environments
GEOG 200 (3) Geographical Perspectives: World Environmental Problems
GEOG 201 (3) Introductory Geo-Information Science
GEOG 205 (3) Global Change: Past, Present and Future
GEOG 210 (3) Global Places and Peoples
GEOG 216 (3) Geography of the World Economy
GEOG 217 (3) The Canadian City
GEOG 221 (3) Environment and Health
GEOG 290 (1) Local Geographical Excursion
GEOG 300 (3) Human Ecology in Geography
GEOG 301 (3) Geography of Nunavut
GEOG 302 (3) Environmental Management 1
GEOG 303 (3) Health Geography
GEOG 306 (3) Raster Geo-Information Science
GEOG 307 (3) Socioeconomic Applications of GIS
GEOG 308 (3) Principles of Remote Sensing

GEOG 309 (3) Geography of Canada
GEOG 311 (3) Economic Geography
GEOG 315 (3) Urban Transportation Geography
GEOG 316 (3) Political Geography
GEOG 331 (3) Urban Social Geography
GEOG 351 (3) Quantitative Methods
GEOG 370 (3) Protected Areas
GEOG 381 (3) Geographic Thought and Practice
GEOG 398 (3) Field Studies in Human Geography
GEOG 404 (3) Environmental Management 2
GEOG 408 (3) Geography of Development
GEOG 410 (3) Geography of Underdevelopment: Current Problems
GEOG 416 (3) Africa South of the Sahara
GEOG 424 (3) Europe: Places and Peoples
GEOG 490 (3) Geography: Independent Studies
GEOG 494 (3) Urban Field Studies
GEOG 496 (3) Geographical Excursion
GEOG 498 (3) Humans in Tropical Environments
GEOG 500 (3) Geography of Regional Identity
GEOG 501 (3) Modelling Environmental Systems
GEOG 502 (3) Geography of Northern Development
GEOG 504 (3) Industrial Restructuring - Geographic Implications
GEOG 506 (3) Advanced Geographic Information Science
GEOG 508 (3) Resources, People, and Power

Chair — Karin Bauer

Emeritus Professor
Peter M. Daly; B.A.(Brist.), Ph.D.(Zur.)

Professor
Paul Peters; B.A.(Man.), Ph.D.(Free Univ., Berlin)

Associate Professor
Karin Bauer; M.A., Ph.D.(Wash.)

Assistant Professors
Andrew Piper; B.A.(Prin.), Ph.D.(Col.)
Michael Cowan; B.A., Ph.D.(Calif., Berk.)

Faculty Lecturer
Sylvia Rieger; M.A.(Regensburg), M.A.(Vanderbilt), Ph.D.(Wash., Seattle)

Undergraduate Program Director
Professor Michael Cowan

Advisers

Minor, Major, Honours, Joint Honours Programs:
Professor Paul Peters, 514-398-5050

Major in Contemporary German Studies:
Professor Michael Cowan, 514-398-3648

Non-program students:
Professor Michael Cowan, 514-398-3648

Note: Students may begin at the intermediate or advanced level in their first year if they have taken German courses in high school or in CEGEP or through McGill Summer Studies. The courses GERM 202 or GERM 307 may be offered through Summer Studies.

MINOR CONCENTRATION IN GERMAN LANGUAGE
(Expandable to the Major Concentration in German Language and Literature) (18 credits)

Complementary Courses (18 credits)
chosen from:
GERM 200 (6) German Language, Intensive Beginners'
or GERM 202D1 (3) German Language, Beginners'
and GERM 202D2 (3) German Language, Beginners'
GERM 300 (6) German Language Intensive Intermediate
or GERM 307D1 (3) German Language - Intermediate
and GERM 307D2 (3) German Language - Intermediate
GERM 325 (6) German Language - Intensive Advanced
GERM 336 (3) German Grammar Review
GERM 341 (3) Essay Writing
GERM 342 (3) Translation
GERM 345 (3) Business German 1
GERM 346 (3) Business German 2

MINOR CONCENTRATION IN GERMAN LITERATURE
(Expandable to the Major Concentration in German Language and Literature) (18 credits)

This is offered as a special program for students who already possess the necessary language skills before coming to McGill, or have acquired the competence by completing the intensive sequence (GERM 200 and GERM 300) as elective courses in their first year.

Required Course (6 credits)
GERM 325 (6) German Language - Intensive Advanced

Complementary Courses (12 credits)
12 credits of courses in German literature or culture, given in German, such as:
GERM 330 (3) Landeskunde
GERM 331 (3) Germany after Reunification
GERM 352 (3) German Literature - 19th Century 3
GERM 353 (3) 19th Century Literary Topics
GERM 360 (3) German Literature 1890 to 1918
GERM 361 (3) German Literature 1918 to 1945
GERM 362 (3) 20th Century Literature Topics
GERM 363 (3) German Postwar Literature
GERM 380 (3) 18th Century German Literature
GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies
GERM 412 (3) Heroes, Lovers and Crusaders
GERM 450 (3) Classical Period in German Literature
GERM 451 (3) German Romanticism
GERM 455 (3) Women of the Romantic Era
GERM 511 (3) Middle High German Literature
GERM 561 (3) German Literature: Baroque
GERM 580 (3) Topics in 18th Century Literature

MINOR CONCENTRATION IN GERMAN LITERATURE AND CULTURE IN TRANSLATION (18 credits) (Non-expandable)

Complementary Courses (18 credits)
18 credits chosen from courses in German literature or culture in translation, such as:
GERM 259 (3) Introduction to German Literature 1
GERM 260 (3) Introduction to German Literature 2
GERM 354 (3) Literary Approach to Song
GERM 355 (3) Nietzsche and Wagner
GERM 357 (3) German Culture in European Context
GERM 358 (3) Franz Kafka
GERM 359 (3) Bertolt Brecht
GERM 364 (3) German Culture: Gender and Society
GERM 365 (3) Language of Media from Manuscript to Hypertext
GERM 366 (3) Postwar German Literature/Film
GERM 367 (3) Topics in German Thought
GERM 368 (3) Fin-de-Siècle Vienna
GERM 371 (3) Cultural Change and Evolution of German

GERM 382 (3) Faust: Chapbook to Horror Film
GERM 580 (3) Topics in 18th Century Literature

MAJOR CONCENTRATION IN CONTEMPORARY GERMAN STUDIES (36 credits)

The Major Concentration in Contemporary German Studies is open to students with a sound knowledge of German as acquired in GERM 325 or equivalent. Those students who do not have the required competence in German may take the Major Concentration in Contemporary German Studies **only** if they also take a Minor Concentration in German Language. Proficiency, equivalency and placement will be determined by the program adviser.

Required Courses (9 credits)
HIST 234 (3) German History to 1648
HIST 235 (3) German History since 1648
GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

Complementary Courses (27 credits)
a) 6 credits in German Literature and Culture, chosen from:
GERM 330 (3) Landeskunde
GERM 331 (3) Germany after Reunification
GERM 357 (3) German Culture in European Context
GERM 362 (3) 20th Century Literature Topics
GERM 363 (3) German Postwar Literature
GERM 365 (3) Media Studies
GERM 366 (3) Postwar German Literature/Film
GERM 367 (3) Topics in German Thought
GERM 368 (3) Fin-de-Siècle Vienna

b) 12 credits in German Society chosen from three disciplines including History, or from two disciplines excluding History.
Please contact the department(s) in question for pre/corequisites and availability of the following courses:

Economics:
ECON 340 (3) Ex-Socialist Economies
ECON 345 (3) The International Economy since 1914
ECON 423D1 (3) International Trade and Finance
ECON 423D2 (3) International Trade and Finance

History:
HIST 355D1 (3) Germany 1806-1918
HIST 355D2 (3) Germany 1806-1918
HIST 435D1 (3) Germany in the 20th Century
HIST 435D2 (3) Germany in the 20th Century

Management:
BUSA 391 (3) International Business Law
MGCR 382 (3) International Business
MGPO 383 (3) International Business Policy
MRKT 483 (3) International Marketing Management
ORGB 380 (3) Cross Cultural Management

Political Science:
POLI 212 (3) Government and Politics - Developed World
POLI 328 (3) Modern Politics in Western Europe
POLI 331 (3) Politics in East Central Europe
POLI 344 (3) Foreign Policy: Europe
POLI 357 (3) Politics: Contemporary Europe
POLI 358 (3) Comparative State-Society Relations
POLI 431 (3) Nations and States/Developed World
POLI 463 (3) Politics of Germany
POLI 466 (3) Public Policy Analysis

Sociology:
SOCI 330 (3) Sociological Theory
SOCI 354 (3) Dynamics of Industrial Societies

c) 9 credits taken from the following categories:

German Studies:
GERM 345 (3) Business German 1
GERM 346 (3) Business German 2

Any advanced course in German language, German literature, German literature in translation.

Any of the courses listed above in b) not already chosen.
Other courses offered in Art History, Geography, Jewish Studies, Music, Philosophy, etc., can be substituted for some of the above courses with the permission of the program adviser.

Please contact the department(s) in question for pre/corequisites and availability of the following courses:

Jewish Studies:
JWST 371D1 (3) Jews and the Modern City
JWST 371D2 (3) Jews and the Modern City
JWST 383 (3) Holocaust Literature
JWST 384 (3) Images of Jewish Identities

Philosophy:
PHIL 367 (3) 19th Century Philosophy
PHIL 474 (3) Phenomenology

MAJOR CONCENTRATION IN GERMAN LANGUAGE AND LITERATURE (36 credits)

Required Courses (18 credits*)
GERM 200 (6) German Language, Intensive Beginners'
or GERM 202D1 (3) German Language, Beginners'
and GERM 202D2 (3) German Language, Beginners'
GERM 300 (6) German Language Intensive Intermediate
or GERM 307D1 (3) German Language - Intermediate
and GERM 307D2 (3) German Language - Intermediate
GERM 325 (6) German Language - Intensive Advanced

* Students with advanced standing in the language will substitute language courses with more advanced courses in language, culture or literature.

Complementary Courses (18 credits)
18 credits of courses in literature distributed across different periods chosen from the courses listed below*:

at least one 3-credit course in 20th Century:
GERM 354 (3) Literary Approach to Song
GERM 357 (3) German Culture in European Context
GERM 360 (3) German Literature 1890 to1918
GERM 361 (3) German Literature 1918 to 1945
GERM 362 (3) 20th Century Literature Topics
GERM 363 (3) German Postwar Literature
GERM 364 (3) German Culture: Gender and Society
GERM 365 (3) Language of Media from Manuscript to Hypertext
GERM 366 (3) Postwar German Literature/Film
GERM 367 (3) Topics in German Thought
GERM 368 (3) Fin-de-Siècle Vienna

at least one 3-credit course in Classicism or Romanticism:
GERM 450 (3) Classical Period in German Literature
GERM 451 (3) German Romanticism
GERM 455 (3) Women of the Romantic Era
GERM 580 (3) Topics in 18th Century Literature

at least one 3-credit course from any other period:
GERM 352 (3) German Literature - 19th Century 3
GERM 353 (3) 19th Century Literary Topics
GERM 380 (3) 18th Century German Literature
GERM 382 (3) Faust: Chapbook to Horror Film
GERM 412 (3) Heroes, Lovers and Crusaders
GERM 511 (3) Middle High German Literature
GERM 561 (3) German Literature: Baroque

9 credits selected from any of the literature courses above not already taken or from:
GERM 330 (3) Landeskunde
GERM 331 (3) Germany after Reunification
GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

* Courses on German literature or culture given in English may be substituted for any courses in the above lists, to a maximum of 6 credits.

MAJOR CONCENTRATION IN GERMAN LITERATURE AND CULTURE (36 credits)

Note: All German literature courses given in German have as prerequisite a linguistic competence as acquired in GERM 325 *or equivalent*. Such equivalence will be established by the program adviser.

Complementary Courses (36 credits)
9 credits chosen from:
GERM 330 (3) Landeskunde
GERM 331 (3) Germany after Reunification
GERM 360 (3) German Literature 1890 to 1918
GERM 361 (3) German Literature 1918 to 1945
GERM 362 (3) 20th Century Literature Topics
GERM 363 (3) German Postwar Literature

15 credits chosen from:
GERM 352 (3) German Literature - 19th Century 3
GERM 353 (3) 19th Century Literary Topics
GERM 380 (3) 18th Century German Literature
GERM 412 (3) Heroes, Lovers and Crusaders
GERM 450 (3) Classical Period in German Literature
GERM 451 (3) German Romanticism
GERM 455 (3) Women of the Romantic Era
GERM 511 (3) Middle High German Literature
GERM 561 (3) German Literature: Baroque

12 credits chosen from:
GERM 259 (3) Introduction to German Literature 1
GERM 260 (3) Introduction to German Literature 2
GERM 354 (3) Literary Approach to Song
GERM 355 (3) Nietzsche and Wagner
GERM 358 (3) Franz Kafka
GERM 359 (3) Bertolt Brecht
GERM 364 (3) German Culture: Gender and Society
GERM 365 (3) Language of Media from Manuscript to Hypertext
GERM 366 (3) Postwar German Literature/Film
GERM 367 (3) Topics in German Thought
GERM 371 (3) Cultural Change and Evolution of German
GERM 382 (3) Faust: Chapbook to Horror Film
GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies

HONOURS IN GERMAN STUDIES (60 credits)

The Honours Program in German Studies consists of 60 credits in German. Literature courses provide an introduction to the major periods from the Middle Ages to the present.

Admission to the Honours Program in German Studies requires departmental approval. Students may begin Honours in German Studies in their first year. Honours students must maintain a GPA of 3.30 in their program courses, and, according to Faculty regulations, a minimum CGPA of 3.00 in general. In addition to the above requirements, Honours students, according to Faculty regulations, also must complete at least a Minor Concentration (18 credits) in another academic unit.

Required Courses (42 credits)
GERM 200 (6) German Language, Intensive Beginners'
GERM 300 (6) German Language Intensive Intermediate
GERM 325 (6) German Language - Intensive Advanced
GERM 352 (3) German Literature - 19th Century 3
GERM 360 (3) German Literature 1890 to 1918
GERM 363 (3) German Postwar Literature
GERM 450 (3) Classical Period in German Literature
GERM 451 (3) German Romanticism
GERM 511 (3) Middle High German Literature
GERM 575 (6) Honours Thesis

With permission of the adviser, students with advanced standing in German language will replace language courses for more advanced courses in language, culture or literature.

Complementary Courses (18 credits)
12 credits selected from:
GERM 330 (3) Landeskunde
GERM 331 (3) Germany after Reunification
GERM 353 (3) 19th Century Literary Topics
GERM 361 (3) German Literature 1918 to 1945
GERM 362 (3) 20th Century Literature Topics
GERM 365 (3) Language of Media from Manuscript to Hypertext
GERM 380 (3) 18th Century German Literature
GERM 400 (3) Interdisciplinary Seminar: Contemporary German Studies
GERM 580 (3) Topics in 18th Century Literature
Note: In the event that there are not enough courses offered in German, substitution with courses from the list below is allowed only with permission of the adviser.

6 credits selected from:
GERM 259 (3) Introduction to German Literature 1
GERM 260 (3) Introduction to German Literature 2
GERM 336 (3) German Grammar Review
GERM 354 (3) Literary Approach to Song
GERM 355 (3) Nietzsche and Wagner
GERM 357 (3) German Culture in European Context
GERM 358 (3) Franz Kafka
GERM 359 (3) Bertolt Brecht
GERM 364 (3) German Culture: Gender and Society
GERM 367 (3) Topics in German Thought
GERM 368 (3) Fin-de-Siècle Vienna
GERM 371 (3) Cultural Change and Evolution of German
GERM 382 (3) Faust: Chapbook to Horror Film
GERM 397 (3) Individual Reading Course 01
GERM 398 (3) Individual Reading Course 02
GERM 561 (3) German Literature: Baroque
or other suitable courses in the Department or in other related disciplines and departments with the approval of the adviser.

JOINT HONOURS – GERMAN STUDIES COMPONENT (36 credits)

Admission to the Joint Honours Program in German Studies requires Departmental approval.

Required Courses (21 credits)
GERM 200 (6) German Language, Intensive Beginners'
GERM 300 (6) German Language Intensive Intermediate
GERM 325 (6) German Language - Intensive Advanced
GERM 570 (3) Joint Honours Thesis
With permission of the adviser, students with advanced standing in German language will replace language courses for more advanced courses in language, culture or literature.

Complementary Courses (15 credits)
Selected from 400- to 500-level German literature and culture courses, from at least three centuries, with the approval of the adviser.

Joint Honours students must maintain a GPA of 3.30 in their program courses, and, according to Faculty regulations, a minimum CGPA of 3.00 in general.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Prerequisites for Literature Courses – The prerequisite for all literature courses taught in German is GERM 325, or equivalent, or permission of the Department.

TOPICAL LISTINGS

Language

a) General courses

GERM 200 (6) German Language, Intensive Beginners'

Chair — Amanda Holmes

Professors

K.M. Sibbald; M.A.(Cant.), M.A.(Liv.), Ph.D.(McG.)
Jesús Pérez-Magallón; Lic.Fil.(Barcelona), Ph.D.(Penn.)

Associate Professors

David A. Boruchoff; A.B., A.M., Ph.D.(Harv.)
Amanda Holmes; B.A.(McG.), M.A., Ph.D.(Ore.)

Assistant Professors

José Jouve-Martin; Lic.Phil.(Madrid), Ph.D.(G'town) (*on leave, Fall 2009*)
Fernanda Macchi; Lic.Lit.(Buenos Aires), M.A.(Ore.), Ph.D.(Yale)

Faculty Lecturer

Lucia Chamanadjian; M.A.(Car.)

The Department of Hispanic Studies offers courses on literature, intellectual history and the civilization of Spain and Hispanic America, as well as in the Spanish and Portuguese languages. The Department and its programs are committed to expanding the liberal arts background of students by helping to develop the skills of communication and critical reasoning, and by providing insight into the culture of other regional, linguistic and national groups.

McGill University has bilateral exchange agreements with the Universidad de Salamanca (Spain), the Universidad Nacional Autónoma de México, and the Universidad de las Américas, Puebla (Mexico), as well as with other leading universities in the Spanish and Portuguese-speaking world which allow student and faculty exchanges, and other collaborative ventures. Further information about these exchanges may be obtained from the Department. Application forms are available from the Student Exchange Officer in Enrolment Services, James Administration Building.

The Department collaborates closely with the Program in Latin-American and Caribbean Studies, and students are encouraged to consult that program listing.

UNDERGRADUATE PROGRAMS

Adviser: José Jouve-Martin, 688 Sherbrooke, Room 379, 514-398-6657 / 6683

The Department of Hispanic Studies offers the following undergraduate programs and concentrations, which permit students to pursue a variety of intellectual and preprofessional options:

Minor Concentration in Hispanic Languages (Expandable)

Minor Concentration in Hispanic Literature and Culture (Expandable)

Major Concentration in Hispanic Languages

Major Concentration in Hispanic Literature and Culture

Honours Program in Hispanic Studies

Joint Honours Program in Hispanic Studies

Students who envision graduate studies upon completion of the B.A. are strongly advised to pursue a program of Honours or Joint Honours. (Honours students must submit their thesis by March 15). Although the Major and Minor Concentrations form an important part of the multi-track B.A. in Arts, this general degree does not provide the specialized training called for by most graduate programs in the Humanities and Social Sciences.

Note: Advanced Placement (AP) credits and courses taken at other universities in Quebec will not be accredited towards the Minor.

MINOR CONCENTRATION IN HISPANIC LANGUAGES
(18 credits) (Expandable to the Major Concentration in Hispanic Languages)

Note: Advanced Placement (AP) credits and courses taken at other universities in Quebec will **not** be accredited towards the Minor.

Complementary Courses (18 credits)
selected from:

HISP 202D1 (3) Portuguese Language: Beginners
HISP 202D2 (3) Portuguese Language: Beginners
HISP 204D1 (3) Portuguese Language: Intermediate
HISP 204D2 (3) Portuguese Language: Intermediate
HISP 210D1 (3) Spanish Language: Beginners
HISP 210D2 (3) Spanish Language: Beginners
HISP 218 (6) Spanish Language Intensive - Elementary
HISP 219 (6) Spanish Language Intensive - Intermediate
HISP 220D1 (3) Spanish Language: Intermediate

HISP 220D2 (3) Spanish Language: Intermediate
HISP 225 (3) Hispanic Civilization 1
HISP 226 (3) Hispanic Civilization 2
Students with advanced standing in the language will replace language courses with more advanced courses in language, culture or literature at the 200 level or above, selected from Departmental offerings.

MINOR CONCENTRATION IN HISPANIC LITERATURE AND CULTURE (18 credits) (Expandable to the Major Concentration in Hispanic Literature and Culture)

Note: Advanced Placement (AP) credits and courses taken at other universities in Quebec will **not** be accredited towards the Minor.

Required Courses (6 credits)
HISP 225 (3) Hispanic Civilization 1
HISP 226 (3) Hispanic Civilization 2

Complementary Courses (12 credits)
6 credits selected from:
HISP 241 (3) Survey of Spanish Literature 1
HISP 242 (3) Survey of Spanish Literature 2
HISP 243 (3) Survey of Spanish-American Literature 1
HISP 244 (3) Survey of Spanish-American Literature 2

6 credits in literature and/or culture at the 300 level or above, selected from the following:
HISP 321 (3) Spanish Literature - 18th Century
HISP 324 (3) 20th Century Drama
HISP 325 (3) Spanish Novel of the 19th Century
HISP 326 (3) Spanish Romanticism
HISP 327 (3) Literature of Ideas: Spain
HISP 328 (3) Literature of Ideas: Spanish America
HISP 332 (3) Spanish-American Literature of 19th Century
HISP 333 (3) Spanish-American Theatre
HISP 350 (3) The Generation of 1898
HISP 351 (3) Spanish-American Novel 1
HISP 352 (3) Spanish-American Novel 2
HISP 356 (3) Spanish-American Short Story
HISP 358 (3) Women Writers Fiction Spanish-America
HISP 423 (3) Modern Lyric Poetry
HISP 424 (3) Spanish Novel since Civil War
HISP 432 (3) Literature - Discovery and Exploration Spain New World
HISP 437 (3) Viceregal Spanish America
HISP 438 (3) Topics: Spanish Literature
HISP 439 (3) Topics: Spanish-American Literature
HISP 442 (3) Modernismo
HISP 451D1 (3) Cervantes
HISP 451D2 (3) Cervantes
HISP 453 (3) 20th Century Spanish-American Poetry
HISP 454 (3) Major Figures: Spanish Literature
HISP 455 (3) Major Figures: Spanish-American Literature
HISP 457 (3) Medieval Literature
HISP 458 (3) Golden Age Literature: Renaissance
HISP 460 (3) Golden Age Literature: Baroque
HISP 501 (3) History of the Spanish Language
HISP 505 (3) Seminar in Hispanic Studies 01
HISP 506 (3) Seminar in Hispanic Studies 02
HISP 507 (3) Seminar in Hispanic Studies 03

The **Minor Concentration in Spanish Literature and Culture** and the **Minor Concentration in Spanish-American Literature and Culture** were retired at the end of the 2003-04 academic year. Students enrolled in either program at that time should consult with a Departmental adviser.

MAJOR CONCENTRATION IN HISPANIC LANGUAGES
(36 credits)
Complementary Courses
(36 credits)
0 - 18 credits in language and civilization
6 credits in Survey of Literature
12 - 30 credits in Hispanic literature at the 300 level or above, at least 6 credits of which must be in literature of the pre-1700 period (courses marked with an asterisk *), selected from the Complementary course list given under the Major Concentration in Hispanic Literature and Culture.

MAJOR CONCENTRATION IN HISPANIC LITERATURE AND CULTURE (36 credits)

Required Courses (18 credits)
HISP 241 (3) Survey of Spanish Literature 1

HISP 437* (3) Viceregal Spanish America
HISP 438 (3) Topics: Spanish Literature
HISP 439 (3) Topics: Spanish-American Literature
HISP 442 (3) Modernismo
HISP 453 (3) 20th Century Spanish-American Poetry
HISP 454 (3) Major Figures: Spanish Literature
HISP 455 (3) Major Figures: Spanish-American Literature
HISP 457* (3) Medieval Literature
HISP 458* (3) Golden Age Literature: Renaissance
HISP 460* (3) Golden Age Literature: Baroque
HISP 501* (3) History of the Spanish Language
HISP 505 (3) Seminar in Hispanic Studies 01
HISP 506 (3) Seminar in Hispanic Studies 02
HISP 507 (3) Seminar in Hispanic Studies 03

HONOURS IN HISPANIC STUDIES (60 credits)

Prerequisite for admission into Honours: A first-year Spanish course with a final grade of B+. Honours students are expected to maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Students must take an 18-credit Minor Concentration in another area.

Required Courses (24 credits)
HISP 241 (3) Survey of Spanish Literature 1
HISP 242 (3) Survey of Spanish Literature 2
HISP 243 (3) Survey of Spanish-American Literature 1
HISP 244 (3) Survey of Spanish-American Literature 2
HISP 451D1 (3) Cervantes
HISP 451D2 (3) Cervantes
HISP 490D1 (3) Honours Thesis
HISP 490D2 (3) Honours Thesis

Complementary Courses (36 credits)
at least 6 credits selected from:
HISP 432 (3) Literature - Discovery and Exploration Spain New World
HISP 437 (3) Viceregal Spanish America
HISP 458 (3) Golden Age Literature: Renaissance
HISP 460 (3) Golden Age Literature: Baroque

All remaining credits may be selected from courses given in Spanish in the Department at or above the Intermediate Spanish language level (HISP 219 OR HISP 220D1/HISP 220D2).

JOINT HONOURS – HISPANIC STUDIES COMPONENT
(36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines. See section 6.11.4, "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Joint Honours students are expected to maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Required Courses (12 credits)
HISP 451D1 (3) Cervantes
HISP 451D2 (3) Cervantes
HISP 490D1 (3) Honours Thesis
HISP 490D2 (3) Honours Thesis

Complementary Courses (24 credits)
6 credits selected from:
HISP 241 (3) Survey of Spanish Literature 1
HISP 242 (3) Survey of Spanish Literature 2
HISP 243 (3) Survey of Spanish-American Literature 1
HISP 244 (3) Survey of Spanish-American Literature 2
at least 6 credits selected from:
HISP 432 (3) Literature - Discovery and Exploration Spain New World
HISP 437 (3) Viceregal Spanish America
HISP 458 (3) Golden Age Literature: Renaissance
HISP 460 (3) Golden Age Literature: Baroque
All remaining credits may be selected from courses given in Spanish in the Department above the Intermediate Spanish language level (HISP 219 OR HISP 220D1/HISP 220D2).

Chair — TBD

Emeritus Professors
Michael P. Maxwell; B.A.(Sir G. Wms.), M.A., Ph.D.(McG.)
Desmond Morton; B.A.(RMC), B.A., M.A.(Oxf.), Ph.D.(Lond.) (*Hiram Mills Emeritus Professor of History*)
Albert Schachter; B.A.(McG.), D.Phil.(Oxf.) (*Hiram Mills Emeritus Professor of Classics*)

Professors
Hans Beck; Ph.D.(Erlangen) (*John MacNaughton Professor of Classics*)
Valentin J. Boss; B.A.(Cant.), Ph.D.(Harv.)
Gwyn Campbell; B.Soc.Sc., M.Soc.Sc.(Birm.), Ph.D.(Wales)
John W. Hellman; B.A.(Marquette), M.A., Ph.D.(Harv.)
Peter Hoffmann; Ph.D.(Munich), F.R.S.C. (*William Kingsford Professor of History*)
Gershon D. Hundert; B.A., M.A.(Ohio St.), Ph.D.(Col.) (*Leanor Segal Professor of Jewish Studies*) (*joint appoint. with Jewish Studies*)
Carman I. Miller; B.A., B.Ed.(Acad.), M.A.(Dal.), Ph.D.(Lond.)
Suzanne Morton; B.A.(Trent), M.A., Ph.D.(Dal.)
Yuzo Ota; B.A., M.A., Ph.D.(Tokyo)
Nancy F. Partner; B.A., M.A., Ph.D.(Calif.)
Andrea Tone: B.A.(Qu.), M.A., Ph.D.(Emory) (*joint appoint. with Social Studies of Medicine*)
Gil E. Troy; A.B., A.M., Ph.D.(Harv.)
Robin D.S. Yates; B.A., M.A.(Oxf.), M.A.(Calif.), Ph.D.(Harv.) (*James McGill Professor) (joint appoint. with East Asian Studies*)
John Zucchi; B.A., M.A., Ph.D.(Tor.)

Associate Professors
Paula Clarke; B.A.(Oxf. and Nfld.), M.A.(Tor.), Ph.D.(Lond.)
Brian Cowan; B.A.(Reed), M.A., Ph.D.(Prin.)
Catherine Desbarats; B.A.(Qu.), D.Phil.(Oxf.), Ph.D.(McG.)
Elizabeth Elbourne; B.A, M.A.(Tor.), D.Phil.(Oxf.)
Elsbeth Heaman; B.A., M.A.(McG.), Ph.D.(Tor.)
Catherine C. LeGrand; B.A.(Reed), M.A., Ph.D.(Stan.)
Brian Lewis; B.A., M.A.(Oxf.), A.M., Ph.D.(Harv.)
Leonard Moore; A.B., M.A., Ph.D.(Calif.)
Laila Parsons; B.A.(Exe.), D.Phil.(Oxf.) (*joint appoint. with Islamic Studies*)
Daviken Studnicki-Gizbert; BAC Spécialisé(Montr.), Ph.D.(Yale)
Griet Vankeerberghen; B.A., M.A.(Louvain), Ph.D.(Prin.) (*joint appoint. with East Asian Studies*)
Faith Wallis; B.A., M.A.(McG.), Ph.D.(Tor.) (*joint appoint. with Social Studies of Medicine)*

Assistant Professors
Malek Abisaab; B.A.(Beirut), M.A.(CUNY), Ph.D.(SUNY) (*joint appoint. with Islamic Studies*)
Nicholas Dew: B.A., M.A., Ph.D.(Oxf.)
Michael Fronda; B.A.(C'nell), M.A., Ph.D.(Ohio St.)
Renaud Gagné; B.A., M.A.(Montr.), Ph.D.(Harv.)
Charles W. Gladhill; B.A.(Mich.), M.A.(Georgia South.), Ph.D.(Stan.)
James Krapfl; A.B.(Stan.), M.A.(Central European Univ. Budapest), Ph.D.(Calif.)
Lorenz Lüthi; lic. phil. I(Zürich), Ph.D.(Yale)
Jarrett Rudy; B.A., M.A.(Ott), Ph.D.(McG.)

Assistant Professor, Special Category
Johanna Ransmeier; B.A.(Amh.), M.A.(Yale)

Faculty Lecturer
Judith Szapor; B.A., M.A., Ph.D.(York (Can.))

In today's world, people who can research thoroughly, write effectively, speak eloquently, and think clearly are in great demand. Recent graduates of our programs are currently pursuing careers in a variety of professions, including law, business, journalism, academia, finance, government, the arts, science, education, and medicine. All have benefited as professionals, individuals, and citizens from their study of history. The study of history develops skills in research, writing, and critical thinking and provides a context for understanding the present world. History requires and develops flexible thinking as it normally employs inductive reasoning. Historians usually begin with a specific, temporally and spatially defined issue and try to determine a pattern or cause for change over time. They move from the particular to the general and since historians usually begin with an open-ended question, they often find themselves drawing on other disciplines to understand the problem.

PROGRAMS IN HISTORY

The Department offers three kinds of undergraduate programs: Honours, Major Concentration and Minor Concentration. Courses in History fall into one of the following FOUR areas: The Americas; Europe; Asia/Africa/Middle East; Global/thematic. In each program, a specified number of credits may be selected from any single area. Each student's program is worked out with an adviser to suit the student's specific needs within the general framework of the program.

Courses within each area are listed in the History Department's website. Please refer to our website for a listing of courses being offered in 2009-10 in each area.

Candidates entering University as U0 or U1 students may, during their first year, take all courses at the 200 level as well as courses at the 300 level for which they have prerequisites. First-Year Seminars are also available in History; see section 6.5.2.1 "Registration for First-Year Seminars".

MINOR CONCENTRATION IN HISTORY (18 credits)
(Expandable)

Director: TBD

Complementary Courses (18 credits)

A minimum of 15 credits to be taken in one of the following areas:
The Americas
Europe
Asia/Africa/Middle East
Global/thematic

12 credits minimum at the 300-level or higher.
Students should see an adviser to plan a program that suits their needs

MAJOR CONCENTRATION IN HISTORY (36 credits)

Director: TBD

Complementary Courses (36 credits)
Within the 36 credits, a maximum of 24 credits from any one of the following areas:
The Americas
Europe
Asia/Africa/Middle East
Global/thematic

A maximum of 12 credits at the 200-level.

3 credits in history of the pre-1800 period.

3 credits in history of the post-1800 period.

HONOURS IN HISTORY (60 credits)

Director: TBD

Required Course (3 credits)
HIST 399 (3) History and Historical Methods

Complementary Courses (57 credits)

A minimum of 12 credits of Honours seminars.

A maximum of 15 credits at the 200-level or lower.

A maximum of 42 credits in any one of the following areas:
The Americas
Europe
Asia/Africa/Middle East
Global/thematic

Students must maintain a 3.30 grade point average in their program courses and must have no less than a "B" in any program course. In addition, and in accordance with Faculty of Arts rules, students must maintain an overall CGPA of 3.00.

12 credits of Honours seminars:
Students must complete 12 credits worth of work in seminars designated by the Department of History as Honours Seminars. Each Honours seminar comprises a 6-credit course with a D1/D2 course number or two 3-credit courses to be taken consecutively. The second term component includes the completion of a major research paper based substantially on primary-source research. Both parts of a D1/D2 seminar must be completed to receive credit. The first course of a two-part seminar may be taken alone in exceptional circumstances, but in that case will be counted towards the complementary course component of the program only and will not be counted as an honours seminar.

The Honours seminars are listed following the description of the Joint Honours - History Component. Please consult the internet version of the undergraduate Calendar for updates and the departmental web page for the topics of honours seminars, which vary from year to year. Not all seminars are offered each year.

JOINT HONOURS – HISTORY COMPONENT (36 credits)

Required Course (3 credits)
HIST 399 (3) History and Historical Methods

Complementary Courses (33 credits)

A minimum of 6 credits of Honours seminars.

A maximum of 12 credits at the 200-level or lower.

A maximum of 27 credits in any one of the following areas:
The Americas
Europe
Asia/Africa/Middle East
Global/thematic

Students must maintain a 3.30 grade point average in their program courses and must have no less than a "B" in any program course. In addition, and in accordance with Faculty of Arts rules, students must maintain an overall CGPA of 3.00.

6 credits of Honours seminars:
Students must complete 6 credits worth of work in seminars designated by the Department of History as Honours seminars. Each Honours seminar comprises a 6-credit course with a D1/D2 course number or two 3-credit courses to be taken consecutively. The second term component includes the completion of a major research paper based substantially on primary-source research. Both parts of a D1/D2 seminar must be completed to receive credit. The first course of a two-part seminar may be taken alone in exceptional circumstances, but in that case will be counted towards the complementary course component of the program only and will not be counted as an honours seminar.

The Honours seminars are listed below. Please consult the internet version of the undergraduate Calendar for updates and the departmental web page for the topics of honours seminars, which vary from year to year. Not all seminars are offered each year.

List of Honours seminars open to Honours and Joint Honours students:

HIST 458 (3) Modern Medicine: Seminar
and HIST 459 (3) Modern Medicine: Research
(To be taken consecutively)
HIST 461D1/D2 (6) Topics in Modern U.S. History
HIST 462D1/D2 (6) Topics: Canadian Conservatism
HIST 463D1/D2 (6) Topics: History of Women in Canada
HIST 464D1/D2 (6) Topics: Latin American History
HIST 465D1/D2 (6) Seminar: Italian Renaissance
HIST 466 (3) Seminar: Medieval Medicine
and HIST 496 (3) Research: Medieval Medicine
(To be taken consecutively)
HIST 468D1/D2 (6) Topics: 19th Century U.S. History
HIST 469D1/D2 (6) Topics in Canadian Religious History

HIST 470D1/D2 (6) Topics: Historical Interpretation
HIST 476D1/D2 (6) Seminar: Topics in Russian History
HIST 477D1/D2 (6) Seminar in Jewish History
HIST 480D1/D2 (6) Capitalism and Empire: European Domination
HIST 483D1/D2 (6) History of Montreal
HIST 485D1/D2 (6) Seminar in Japanese History
HIST 486D1/D2 (6) Topics: African Social History
HIST 489D1/D2 (6) Topics: Germany
HIST 490D1/D2 (6) Honours Tutorial 1
HIST 491D1/D2 (6) Honours Tutorial 2
HIST 493D1/D2 (6) Topics: Canadian Social History
HIST 497D1/D2 (6) Topics in Chinese History
HIST 498D1/D2 (6) Seminar in Eastern Europe
HIST 550 (3) Ancient History: Seminar
and HIST 551 (3) Ancient History: Research
(To be taken consecutively)
HIST 552 (3) International Relations: Seminar
and HIST 553 (3) International Relations: Research
(To be taken consecutively)
HIST 556 (3) Colonial America: Seminar 1
and HIST 557 (3) Colonial America: Seminar 2
(To be taken consecutively)
HIST 560 (3) World History: Seminar
and HIST 561 (3) World History: Research
(To be taken consecutively)
HIST 565 (3) Modern Britain: Seminar 1
and HIST 566 (3) Modern Britain: Seminar 2
(To be taken consecutively)
HIST 580D1/D2 (6) European and Native-American Encounters
HIST 594D1/D2 (6) Seminar in Early Modern Britain
HIST 595D1/D2 (6) Seminar: Early Modern Western Europe

The following course(s) may be chosen by History Major Concentration and Honours students as part of their programs.

Anthropology
ANTH 306 (3) Native Peoples' History in Canada

Canadian Studies
Please consult with advisers.

Islamic Studies
Please consult with advisers.

Jewish Studies
JWST 305 (3) American Jewish History/Colonial Era to WWI
JWST 306 (3) The American Jewish Community
JWST 356 (3) Jewish Labour Movement/Eastern Europe
JWST 357 (3) Jewish Labour Movement/North America

6.12.27 History and Philosophy of Science (HPSC)

Peterson Hall, Room 126
3460 McTavish Street
Montreal, QC H3A 1X9

Telephone: 514-398-4804
Fax: 514-398-2786

Adviser — Monica Hotter

Program Chair — Nicholas Dew (*History*)

Acting Program Committee Chair — T.Schlick (*Social Studies of Medicine*)

Program Committee
Darin Barney (*Art History and Communication Studies*), Emily Carson (*Philosophy*), Stephen Menn (*Philosophy*), Jonathan Sterne (*Art History and Communication Studies*), Greg Mikkelson (*Philosophy*)

History and Philosophy of Science at McGill is an interdisciplinary program that aims to provide students with an understanding of science through the study of both its historical development and of some of the fundamental philosophical principles upon which it rests. In addition, there is an ongoing seminar series of talks by visiting speakers: Please visit www.mcgill.ca/hpsc/seminars and www.mcgill.ca/hpsc/lectures.

MINOR CONCENTRATION IN HISTORY AND PHILOSOPHY OF SCIENCE (18 credits)

Complementary Courses (18 credits)
18 credits, with a maximum of 9 credits at the 200-level, distributed as follows:

GROUP A: PHILOSOPHY OF SCIENCE
6 - 12 credits, no more than 6 credits of which may be at the 200-level, chosen from the following:

Communication Studies
COMS 210 (3) Introduction to Communication Studies
COMS 410 (3) Cultures in Visualization
History and Philosophy of Science
HPSC 300 (3) Independent Studies: History and Philosophy of Science
HPSC 500 (3) Interdisciplinary Seminar: History & Philosophy of Science
Philosophy
PHIL 210 (3) Introduction to Deductive Logic 1
or PHIL 310 (3) Intermediate Logic
PHIL 220 (3) Introduction to History and Philosophy of Science 1
PHIL 221 (3) Introduction to History and Philosophy of Science 2
PHIL 306 (3) Philosophy of Mind
PHIL 340 (3) Philosophy of the Social Sciences 1
PHIL 341 (3) Philosophy of Science 1
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
PHIL 440 (3) Philosophy of Social Sciences 2
PHIL 441 (3) Philosophy of Science 2
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 511 (3) Seminar: Philosophy of Logic and Mathematics
PHIL 541 (3) Seminar: Philosophy of Science
PHIL 580 (3) Seminar: Problems of Philosophy 1
Psychology
PSYC 401 (3) Theories of Cognition
PSYC 472 (3) Scientific Thinking and Reasoning
Religious Studies
RELG 340 (3) Religion and the Sciences
Sociology
SOCI 338 (3) Introduction to Biomedical Knowledge

GROUP B: HISTORY OF SCIENCE
6 - 12 credits, no more than 6 credits of which may be at the 200-level, chosen from the following:
Anthropology
ANTH 359 (3) History of Archaeological Theory
Biology
BIOL 210 (3) Perspectives of Science
Geography
GEOG 381 (3) Geographic Thought and Practice
History
HIST 212 (3) Science and Medicine in Canada
HIST 249 (3) Health and the Healer in Western History
HIST 319 (3) The Scientific Revolution
HIST 335 (3) Science from Greeks to Newton
HIST 348 (3) China: Science-Medicine-Technology
HIST 350 (3) Science and the Enlightenment
HIST 356 (3) Medicine in the Medieval West
HIST 381 (3) Colonial Africa: Health/Disease
HIST 410 (3) Topics in History of Science
HIST 447 (3) The Natural History of America
HIST 452 (3) Medicine in Europe 1500-1700
HIST 457 (3) Topics in Medical History

HIST 458 (3) Modern Medicine: Seminar
HIST 459 (3) Modern Medicine: Research
HIST 466 (3) Seminar: Medieval Medicine
HIST 496 (3) Research: Medieval Medicine
History and Philosophy of Science
HPSC 300 (3) Independent Studies: History and Philosophy of Science
HPSC 500 (3) Interdisciplinary Seminar: History & Philosophy of Science
Islamic Studies
ISLA 345 (3) Science and Civilization in Islam
Mathematics
MATH 338 (3) History and Philosophy of Mathematics
MATH 339 (3) Foundations of Mathematics
Psychology
PSYC 403 (3) Modern Psychology in Historical Perspective

6.12.28 Humanistic Studies (HMST)

Peterson Hall, Room 126
3460 McTavish Street
Montreal, QC H3A 1X9

Telephone: 514-398-4804
Fax: 514-398-2786
Email: humanisticstudies.arts@mcgill.ca
Website: www.mcgill.ca/humanistic

Director — Robert Myles *(English and French Language Centre)*

Humanistic Studies Committee
Chair: Myrna Wyatt Selkirk (*English*), Committee: Malek Abisaab (*Islamic Studies*), Hans Beck (*Classics*), Laura Beraha (*Russian and Slavic Studies*), Charles Boberg (*Linguistics*), Storrs McCall (*Philosophy*), Carman Miller (*History*), Robert Myles (*English and French Language Centre*)

Humanistic Studies provides a broad liberal arts education that is personally enriching. It is also practical in its goal of developing the analytical, critical, and contextual thinking skills that are vital for the creation, expression, and transmission of ideas. Humanistic Studies is not a department, but a program wherein students are advised and guided by professors from each of the disciplines involved. It has been designed so that students can devise individual interdisciplinary concentrations or explore one of the core humanistic subjects in more depth. The fundamental assumption of Humanistic Studies is that human knowledge as acquired and developed in the university is cumulative and interconnected. A historical sense is crucial for an understanding of the continuity and changes in human thinking and other human activity. Students are encouraged to seek links between and among subjects in the arts – for example, literature, history, philosophy, religion, music, history of fine arts – the social sciences, and natural sciences.

Advising
Students are strongly encouraged to seek advising. Courses should be "clustered" so that different fields complement each other or are interconnected. Students are strongly advised to take this program in tandem with concentrations in language and literature. Telephone 514-398-4804 to set up an appointment.

MINOR CONCENTRATION IN HUMANISTIC STUDIES
(Expandable) (18 credits)

Required Courses (6 credits)
HMST 296 (3) Western Humanistic Tradition 1
HMST 297 (3) Western Humanistic Tradition 2

Complementary Courses (12 credits)
Courses from the list published on the Humanistic Studies website will be taken in the following manner:
3 credits History of Fine Arts
3 credits Social Science
and 6 credits, all of which must be at the 300 level or above as follows:
(a) to acquire a more extensive knowledge of any ONE of the areas listed above;
(b) to be used to construct individual interdisciplinary concentrations **with the permission of the Humanistic Studies Office**.

It is strongly recommended that this Minor Concentration be accompanied by Major and/or Minor Concentrations in literature and/or languages.

MAJOR CONCENTRATION IN HUMANISTIC STUDIES
(36 credits)

Required Courses (6 credits)
HMST 296 (3) Western Humanistic Tradition 1
HMST 297 (3) Western Humanistic Tradition 2

Complementary Courses (30 credits)
Courses from the list published on the Humanistic Studies website will be taken in the following manner:
6 credits from the Humanities
6 credits History of Fine Arts
6 credits Social Science
3 credits Natural Science
and 9 credits, all of which must be at the 300 level or above as follows:
(a) to be used to acquire a more extensive knowledge of any ONE of the areas listed above;
(b) to be used to construct individual interdisciplinary concentrations **with the permission of the Humanistic Studies Office**.

It is strongly recommended that this Major Concentration be accompanied by Major and/or Minor Concentrations in literature and/or languages.

6.12.29 Industrial Relations Faculty Program

Peterson Hall, Room 126
3460 McTavish Street
Montreal, QC H3A 1X9

Telephone: 514-398-4804
Fax: 514-398-2786
Email: interdisciplinary.arts@mcgill.ca
Website: www.mcgill.ca/indr

The Faculty of Arts Faculty Program in Industrial Relations provides students with a basic knowledge of industrial relations institutions and practices as well as the principal social and economic forces that underlie them. The program is composed of 54 credits of courses drawn from the Departments of Economics and Sociology within the Faculty of Arts and from labour-management relations within the Desautels Faculty of Management.

Further Information
Changes may be made in the program after this Calendar was prepared. For the most up-to-date information on the program, new and returning students should refer to the website.

Advisers
For a list of advisers, new and returning students should refer to the website.

Continuance in the Program
To remain in the program beyond the first year, students must take the six "U1 Required Courses" listed below during their first year and earn a 2.50 GPA in ECON 208, ECON 209, SOCI 235, SOCI 312 and INDR 294.

Continuing Education Courses
Courses in Continuing Education may **not** be used to fulfil IR program requirements. Similarly, courses in Continuing Education taken before entering the program may **not** be used to fulfil program requirements.

B.A. FACULTY PROGRAM IN INDUSTRIAL RELATIONS
(54 credits)

U1 Required Courses (18 credits)

ECON 208	(3)	Microeconomic Analysis and Applications (or equivalent)
ECON 209	(3)	Macroeconomic Analysis and Applications (or equivalent)
SOCI 235	(3)	Technology and Society
SOCI 312	(3)	Sociology of Work and Industry
INDR 294	(3)	Introduction to Labour-Management Relations
MGCR 222	(3)	Introduction to Organizational Behaviour

U2 Required Courses (18 credits)

ECON 306D1	(3)	Labour Economics and Institutions
ECON 306D2	(3)	Labour Economics and Institutions
SOCI 304	(3)	Sociology of the Welfare State
SOCI 420	(3)	Organizations
INDR 494	(3)	Labour Law
ORGB 423	(3)	Human Resources Management

U2 Complementary Courses (6 credits)
either Economics

ECON 227D1	(3)	Economic Statistics
ECON 227D2	(3)	Economic Statistics

or Sociology

SOCI 350	(3)	Statistics in Social Research
SOCI 461	(3)	Quantitative Data Analysis

U3 Required Courses (6 credits)

INDR 492	(3)	Public Policy in Industrial Relations
INDR 496	(3)	Collective Bargaining

U3 Complementary Courses (6 credits)

ECON 426	(3)	Labour Economics
INDR 449	(3)	Occupational Health and Safety
INDR 459	(3)	International Labour Relations
INDR 495	(3)	Labour Relations: Public Sector
INDR 497	(3)	Contract Administration
INDR 499	(3)	Internship in Industrial Relations

Credits outside Arts and Science
Students in the Faculty Program in Industrial Relations may take no more than 30 credits in courses outside of the Faculties of Arts and of Science. This total includes required and complementary courses taken for the IR Program and elective courses. Moreover, in the U1 year a student should take at most only one 3-credit elective course in the Desautels Faculty of Management in addition to the required courses, INDR 294 and MGCR 222.

6.12.30 International Development Studies (INTD)

Interdisciplinary Studies Office
Peterson Hall
3460 McTavish Street, Room 126
Montreal, QC H3A 1X9

Telephone: 514-398-4804
Fax: 514-398-2786

Website: www.mcgill.ca/ids

Program Chair — P. Oxhorn, Political Science (*Director, Centre for Developing Area Studies*)

Program Advisers:
Andrew Staples and Monica Hotter

Program Committee
Oliver Coomes (*Geography*), Kathleen Fallon (*Sociology*), Myron Frankman (*Economics*), Franque Grimard (*Economics*), John Kurien (*Economics*), Sonia Laszlo (*Economics*), Matthew Lange *(Sociology)*, Daviken Studnicki-Gizbert (*History*), Jon Unruh (*Geography*)

Faculty Lecturer
P. Pushkar; B.A.(Delhi), M.A., M.Phil.(JNU), Ph.D.(McG.)

The International Development Studies (IDS) programs are designed for those students who wish to take advantage of the resources available at McGill to pursue an interdisciplinary program of study focusing on the problems of the developing countries.

Most courses above the 200 level have prerequisites. Although these may be waived by instructors in some cases, students are urged to confirm their eligibility for courses when they prepare their programs of study. Note that certain courses (especially those in Management) may not be available owing to space limitations. Students should check the Class Schedule for confirmation as to which term courses are offered.

Please note that changes are planned for the IDS program in 2009-10. Consult the IDS program website for up-to-date details of the program structure.

MINOR CONCENTRATION IN INTERNATIONAL DEVELOPMENT STUDIES (18 credits) (Expandable)

Required Courses (9 credits)

ECON 208	(3)	Microeconomic Analysis and Applications
ECON 313	(3)	Economic Development 1
INTD 200	(3)	Introduction to International Development

Complementary Courses (9 credits)
3 credits selected from the IDS Complementary Course List Group A.

The remaining credits to be selected from the IDS Complementary Course List Group B.

At least 9 of the 18 credits must be at the 300 level or above.

MAJOR CONCENTRATION IN INTERNATIONAL DEVELOPMENT STUDIES (36 credits)

Required Courses (15 credits)

ECON 208	(3)	Microeconomic Analysis and Applications
ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
INTD 200	(3)	Introduction to International Development
INTD 497	(3)	Research Seminar on International Development

Complementary Courses (21 credits)
A minimum of 6 credits selected from the IDS Complementary Course List Group A. Only one course from each discipline can be counted.

The remaining credits to be selected from the IDS Complementary Course List Group B; at least 12 credits must be taken from one of the three categories. Students must take courses from at least three disciplines in Group B.

At least 18 of the 36 credits must be at the 300 level or above.

HONOURS IN INTERNATIONAL DEVELOPMENT STUDIES
(57 credits)

Honours students must maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Required Courses (15 credits)

ECON 208	(3)	Microeconomic Analysis and Applications
ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
INTD 200	(3)	Introduction to International Development
INTD 497	(3)	Research Seminar on International Development

Complementary Courses (42 credits)
No more than 21 credits can be taken in any one discipline.

Thesis or research project, 3 to 6 credits, one of:

INTD 491	(3)	Research Project
INTD 492	(6)	Honours Thesis

A minimum of 6 credits selected from the IDS Complementary Course List Group A. Only one course from each discipline can be counted.

21 to 33 credits to be selected from the IDS Complementary Course List Group B; at least 12 credits must be taken from one of the three categories. Students must take courses from at least three disciplines.
Group C – 0 to 9 credits of Introductory and/or Intermediate Language Training.

Students are strongly encouraged to master a language appropriate to an area of the developing world in which they have a particular interest.

Among the languages that are included in this option are Arabic, Chinese, French, Korean, Portuguese, Spanish, and Urdu. Other language options can be approved by the Honours Adviser.

Students who already have appropriate language capability, or who have distinct interests not likely to necessitate such training, may substitute an additional 9 credits from the Group B Complementary Courses.

At least 30 of the 57 credits must be at the 300 level or above; 9 credits of these must be at the 400 level or above.

JOINT HONOURS – INTERNATIONAL DEVELOPMENT STUDIES COMPONENT (36 credits)

Joint Honours students must maintain a program GPA of 3.30 and an overall CGPA of 3.00.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Required Courses (15 credits)

ECON 208 (3) Microeconomic Analysis and Applications
ECON 313 (3) Economic Development 1
ECON 314 (3) Economic Development 2
INTD 200 (3) Introduction to International Development
INTD 497 (3) Research Seminar on International Development

Complementary Courses (21 credits)

No more than 15 credits can be taken in any one discipline.

Thesis or research project, 3 to 6 credits; one of:

INTD 491 (3) Research Project
INTD 492 (6) Honours Thesis

6 credits selected from the IDS Complementary Course List Group A. Only one course from each discipline can be counted.

9 to 12 credits to be selected from the IDS Complementary Course List Group B.

At least 24 of the 36 credits must be at the 300 level or above; 6 of these must be at the 400 level or above.

IDS Complementary Course Lists for Minor Concentration, Major Concentration, Honours, Joint Honours

GROUP A

ANTH 202 (3) Comparative Cultures
or ANTH 212 (3) Anthropology of Development

Pouneh Shabani-Jadidi; B.A., M.S., Ph.D.(Azad)

The Institute of Islamic Studies offers graduate programs and courses in history, civilization and languages (Arabic, Turkish, Persian and Urdu) at the 200-, 300-, 400- and 500-level.

MINOR CONCENTRATION IN ISLAMIC STUDIES (18 credits)

This Minor Concentration permits students to explore the development and diversity of Islam through courses that focus on Islamic history, religion and civilization in the premodern period (pre-19th century) as well as through courses that focus on the dynamics of modern and contemporary (19th and 20th centuries) Muslim societies and cultures.

Required Courses (6 credits)

ISLA 200	(3)	Islamic Civilization
ISLA 210	(3)	Muslim Societies

Complementary Courses (12 credits)

Chosen from:

ISLA 345	(3)	Science and Civilization in Islam
ISLA 350	(3)	From Tribe to Dynasty
ISLA 355	(3)	Modern History of the Middle East
ISLA 360	(3)	Islam and Politics
ISLA 365	(3)	Middle East Since the 1970's
ISLA 380	(3)	Islamic Philosophy and Theology
ISLA 383	(3)	Central Questions in Islamic Law
ISLA 385	(3)	Poetics & Politics in Arabic Literature
ISLA 388	(3)	Persian Literature
ISLA 392	(3)	Arabic Literature as World Literature
ISLA 415	(3)	Modern Iran: Anthropological Approach
ISLA 420	(3)	Indo-Islamic Civilization: Medieval
ISLA 421	(3)	Islam in South Asia: 1757 to Present
ISLA 511D1/D2	(6)	History: Islamic Civilization - Mediaeval Era
ISLA 585	(3)	Arab Women's Literature

Chair — Lucienne Kroha

Emeritus Professor
Pamela D. Stewart; B.A.(Montr.), M.A.(McG.), F.R.S.C.

Associate Professor
Lucienne Kroha; B.A., M.A.(McG.), Ph.D.(Harv.)

Assistant Professors
Eugenio Bolongaro; B.A., L.LB.(Br. Col.), Ph.D.(McG.) (*on leave, Winter 2010*)
Matteo Soranzo; M.A., Ph.D.(Wisc.)

Lecturers
Enrica Quaroni; B.A., Ph.D.(McG.) (*on leave 2009-2010*)
Jen Wienstein; B.A., M.A., Ph.D.(McG.)

Associate Members
Paula Clarke *(History)*
Anthony Masi *(Sociology)*
Filippo Sabetti (*Political Science)*

Adjunct Professors
Dario Brancato (*C'dia*)
Tobias F. Gittes (*Liberal Arts College, C'dia*)
Silvestra Mariniello (*Histoire de l'art et d'études cinématographiques, Montr.*)
Rosanna Maule (*C'dia*)

Advisers:

Minor – Dr. Jen Wienstein, 514-398-3955

Majors, Honours and Joint Honours –
Prof. Eugenio Bolongaro, 514-398-4400 (ext. 09454)

MINOR CONCENTRATION IN ITALIAN LANGUAGE AND LITERATURE (18 credits) (Expandable)
Students with advanced standing in the language must replace language courses with courses from groups B and C.

Complementary Courses (18 credits)
chosen from the following three groups:
0 - 12 credits Group A – Basic Language Courses.
6 - 18 credits Group B – Courses taught in Italian.
0 - 6 credits Group C – Courses taught in English.

MINOR CONCENTRATION IN ITALIAN CIVILIZATION
(18 credits) (Expandable)

Students with advanced standing in the language must replace language courses with courses from groups B, C and D.

Complementary Courses (18 credits)
0 - 12 credits chosen from Group A – Basic Language Courses.
0 - 12 credits chosen from Group B – Courses taught in Italian.
3 - 18 credits chosen from Group C – Courses taught in English.
0 - 6 credits chosen from Group D – Courses offered in other departments.

MAJOR CONCENTRATION IN ITALIAN LANGUAGE AND LITERATURE (36 credits)

All students wishing to register for the Major Concentration in Italian Language and Literature are strongly urged to meet with a departmental adviser.

Complementary Courses (36 credits)
0 - 12 credits chosen from Group A – Basic Language Courses.
18 - 36 credits (at least 6 of which must be at the 350-level or above) chosen from courses at the 300-level or above as listed in Group B – Courses taught in Italian.
Note: ITAL 300 may not be taken by students who have taken 132-306, and vice-versa.
0 - 18 credits chosen from courses at the 300-level or above as listed in Group C – Courses taught in English.
0 - 6 credits chosen from Group D – Courses offered in other departments.

MAJOR CONCENTRATION IN ITALIAN CIVILIZATION
(36 credits)

This program is designed to enable students with no previous knowledge of Italian to pursue a Major Concentration by allowing them to take some literature and culture courses in English translation while acquiring language competency in other courses (including some literature courses taught in the original). All students wishing to register for the Major Concentration in Italian Civilization are strongly urged to meet with a Departmental adviser.

Complementary Courses (36 credits)
6 - 12 credits chosen from Group A – Basic Language Courses.
Students with no knowledge of the Italian language must take 12 credits.
Students arriving with some knowledge of the language may take 6 credits (ITAL 210D1/ITAL 210D2 or ITAL 215D1/ ITAL 215D2 or ITAL 216).
Students arriving with competency in the language may substitute courses from Groups B, C, and D for Basic Language Courses.
All students with some background must consult with the Department for proper placement.
18 - 30 credits chosen from courses at the 300-level or above as listed in Group B – Courses taught in Italian and Group C – Courses taught in English.
0 - 6 credits chosen from Group D – Courses offered in other departments.

HONOURS IN ITALIAN STUDIES (54 credits)

Students with advanced standing in the language must replace language courses with courses from groups B, C, and D.

Required Courses (6 credits)

One of the two honours thesis courses below:

ITAL 471D1	(3)	Honours Thesis
ITAL 471D2	(3)	Honours Thesis
ITAL 472	(6)	Honours Thesis (Intensive)

Complementary Courses (48 credits)
48 credits, 9 of which must be at the 400 level or above.
0 - 12 credits from Group A – Basic Language Courses.
30 - 48 credits Group B – Courses taught in Italian.
0 - 9 credits combined from Group C – Courses taught in English and Group D – Courses offered in other departments.

Students must maintain a minimum CGPA of 3.00 and a GPA of 3.30 in the program courses.

Admission to the Honours program in Italian requires Departmental approval. Students wishing to register should consult with the Department as early as possible.

Students may begin Honours in Italian Studies in the first year, instead of the second, if in the opinion of the Department they are found to be qualified.

JOINT HONOURS – ITALIAN STUDIES COMPONENT
(36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Admission to Joint Honours requires departmental approval. Students wishing to register in the program should consult with the Department as early as possible.

Students may register for Joint Honours in the first year, instead of the second year, if in the opinion of the departments they are found to be qualified.

Students with advanced standing in the language must replace language courses with courses from groups B, C, and D.

Required Courses (6 credits)

ITAL 355 (3) Dante and the Middle Ages
ITAL 470 (3) Joint Honours Thesis

Complementary Courses (30 credits)

30 credits, 6 of which must be at the 400 level or above:
0 - 12 credits from Group A – Basic Language Courses.
12 - 30 credits from Group B – Courses taught in Italian.
0 - 18 credits combined from Group C – Courses taught in English and Group D – Courses offered in other departments.

Students must maintain a minimum CGPA of 3.00 and a GPA of 3.30 in the program courses.

ITALIAN STUDIES COURSE GROUPS

Group A – Basic Language Courses:

ITAL 205D1 (3) Italian for Beginners'
ITAL 205D2 (3) Italian for Beginners'
ITAL 206 (6) Beginners' Italian Intensive
ITAL 210D1 (3) Elementary Italian (may not be taken by students who have taken ITAL 205D1/ITAL 205D2 or ITAL 206)
ITAL 210D2 (3) Elementary Italian (may not be taken by students who have taken ITAL 205D1/ITAL 205D2 or ITAL 206)
ITAL 215D1 (3) Intermediate Italian (may not be taken by students who have taken ITAL 210D1/ITAL 210D2)
ITAL 215D2 (3) Intermediate Italian (may not be taken by students who have taken ITAL 210D1/ITAL 210D2)
ITAL 216 (6) Intermediate Italian Intensive (may not be taken by students who have taken ITAL 210D1/ITAL 210D2)

Group B – Courses taught in Italian:

ITAL 300* (3) Italian Literary Composition
ITAL 306* (6) Advanced Reading and Composition
* only one of ITAL 300 or ITAL 306 can count towards all programs
ITAL 307 (3) Topics in Italian Culture
ITAL 308 (3) Business Italian 1
ITAL 311 (3) Twentieth Century Texts
ITAL 320 (3) Manzoni: Novel and Nationhood

Adjunct Professors
Ruth Wisse; M.A.(Col.), Ph.D.(McG.)
Magdalena Opalski; M.A.(Warsaw), Ph.D.(Ott.)

The Department of Jewish Studies, established in 1968, offers an interdisciplinary approach to the study of Judaica. It includes:

- a selection of courses that will enable students not taking a Concentration in Jewish Studies to broaden their knowledge of Jewish history and culture;
- elementary, intermediate and advanced courses in Jewish languages – Hebrew, Yiddish, and Aramaic. In the case of the first two, this includes attention to both spoken idiom and written texts;
- specialized courses in the various disciplines that comprise Jewish Studies for students who have specific academic interests;
- a Minor Concentration for students who wish to add competence in Jewish Studies to their major field of study;
- a comprehensive Major Concentration, and an Honours program culminating in advanced seminars and tutorials for students contemplating careers in the various fields of Judaica. The Honours Program in Jewish Studies will give students the necessary linguistic, textual and bibliographical knowledge to enable them to pursue graduate work in Jewish Studies.

MINOR CONCENTRATION IN JEWISH LAW (18 credits)
(Expandable)

Adviser: Professor Lawrence Kaplan, 514-398-5008

This Minor Concentration in Jewish Law is designed to provide students with a special interest in Law, and particularly students from the Faculty of Law who are now permitted a Minor in the Faculty of Arts, a basic but comprehensive knowledge of the concepts and methods related to Jewish Law.

Complementary Courses (18 credits)
0-3 credits from:
JWST 216 (3) Jewish Studies 2: 400 B.C.E. - 1000
HIST 207 (3) Jewish History: 400 B.C.E. - 1000

15-18 credits from:
JWST 201 (3) Jewish Law
JWST 316 (3) Social and Ethical Issues Jewish Law 1
JWST 374 (3) Talmud and Law 1: Bava Kamma
JWST 375 (3) Talmud and Law 2: Bava Metzia
JWST 474 (3) Maimonides' Mishneh Torah
JWST 475 (3) The Responsa Literature
JWST 576 (3) Jewish Family Law

MINOR CONCENTRATION IN JEWISH STUDIES (18 credits)
(Expandable)

Advisers: Eric Caplan, 514-398-6544
Eugene Orenstein, 514-398-6545
Lawrence Kaplan, 514-398-5008

In order to permit students flexibility within their chosen area, all courses in the Jewish Studies Concentrations are placed into the category "Complementary Courses." There is no language requirement for a minor in Jewish Studies.

Complementary Courses (18 credits)
18 credits in Jewish Studies:
9 credits are normally taken at the 300 level and up.
At least 9 credits will normally be taken at the 300 level and above in a single area. (See the list of courses, divided by areas of study, at the end of the Department section.) Consultation with the Adviser is strongly recommended.

Note: Major and Honours students are encouraged to acquire a general background in Jewish Studies, fluency in at least one Jewish language, and expertise in one aspect of the field. While many areas of specialization exist, the groupings which follow the course descriptions represent Departmental strengths and are usually chosen by students.

MAJOR CONCENTRATION IN JEWISH STUDIES (36 credits)

Advisers: Eric Caplan, 514-398-6544
Eugene Orenstein, 514-398-6545

In order to permit students flexibility within their chosen area, all courses in the Jewish Studies Concentrations are placed into the category "Complementary Courses."

Complementary Courses (36 credits)
36 credits in Jewish Studies, 24 of which are normally taken at the 300 level or above.

6 credits (minimum) in the history of Jewish Civilization to be chosen from:
JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 216 (3) Jewish Studies 2: 400 B.C.E. - 1000
JWST 217 (3) Jewish Studies 3: 1000 - 2000
HIST 207 (3) Jewish History: 400 B.C.E. - 1000
HIST 219 (3) Jewish History: 1000 - 2000

24 credits in Jewish Studies of which at least 12 are devoted to a single area of study. (See the list of courses, divided by areas of study, at the end of the Department section.) Students without the background necessary to complete the advanced language requirement may substitute up to 12 credits in language.

6 credits reflecting an advanced level of competence in either Hebrew or Yiddish chosen from the following: JWST 327, JWST 328, JWST 329, JWST 330, JWST 331, JWST 332, JWST 333, JWST 340D1/JWST 340D2, JWST 367, JWST 368, JWST 369, JWST 370 or any course at the 400 level (except JWST 404 and JWST 405).

Consultation with the Adviser is strongly recommended.

HONOURS IN JEWISH STUDIES (60 credits)

Honours Advisers: Eric Caplan, 514-398-6544
Lawrence Kaplan, 514-398-5008

Required Courses (9 credits)
JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 491 (3) Honours Thesis 1
JWST 492 (3) Honours Thesis 2

Complementary Courses (51 credits)
3 credits, one of:
JWST 216 (3) Jewish Studies 2: 400 B.C.E. - 1000
HIST 207 (3) Jewish History: 400 B.C.E. - 1000
3 credits, one of:
JWST 217 (3) Jewish Studies 3: 1000 - 2000
HIST 219 (3) Jewish History: 1000 - 2000
0 - 18 credits: Language
Each Honours student will complete at least one Jewish language at the advanced level of instruction. A student who can demonstrate competence in a Jewish language may be permitted to substitute other courses for all or part of the language requirement.
JWST 220D1 (3) Introductory Hebrew
JWST 220D2 (3) Introductory Hebrew
JWST 320D1 (3) Intermediate Hebrew
JWST 320D2 (3) Intermediate Hebrew
JWST 340D1 (3) Advanced Hebrew
JWST 340D2 (3) Advanced Hebrew

JWST 280D1 (3) Introductory Yiddish
JWST 280D2 (3) Introductory Yiddish
JWST 380D1 (3) Intermediate Yiddish
JWST 380D2 (3) Intermediate Yiddish
JWST 480 (3) Advanced Yiddish 1
JWST 481 (3) Advanced Yiddish 2

27 - 45 credits, planned with an adviser and normally chosen to reflect progress to the advanced level in two of the areas of study: Biblical Studies, Rabbinic Studies, Literature, Jewish Thought, Jewish History, Modern Jewish Studies, and East European Studies.

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and a Program GPA of 3.00 or higher.

JOINT HONOURS – JEWISH STUDIES COMPONENT
(36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Required Courses (9 credits)
JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 491 (3) Honours Thesis 1
JWST 492 (3) Honours Thesis 2

Complementary Courses (27 credits)
3 credits, one of:
JWST 216 (3) Jewish Studies 2: 400 B.C.E. - 1000
HIST 207 (3) Jewish History: 400 B.C.E. - 1000

3 credits, one of:
JWST 217 (3) Jewish Studies 3: 1000 - 2000
HIST 219 (3) Jewish History: 1000 - 2000

0 - 6 credits: Language
Each Joint Honours student will complete at least one Jewish language at the advanced level of instruction. A student who can demonstrate competence in a Jewish language may be permitted to substitute other courses for all or part of the language requirement.
JWST 340D1 (3) Advanced Hebrew
JWST 340D2 (3) Advanced Hebrew
JWST 480 (3) Advanced Yiddish 1
JWST 481 (3) Advanced Yiddish 2

15 - 21 credits, planned with an adviser and normally chosen to reflect progress to the advanced level in one of the areas of study: Biblical Studies, Rabbinic Studies, Literature, Jewish Thought, Jewish History, Modern Jewish Studies, and East European Studies.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JEWISH TEACHER TRAINING PROGRAM

Established in 1973 in the Faculty of Education in conjunction with the Department of Jewish Studies, this program prepares students to teach at the elementary and secondary school levels.

Students are encouraged to acquire a strong general background in Bible, Jewish liturgy, traditions and history prior to registering in the program. Students lacking the ability to teach in Hebrew should consider spending a term at an Israeli university.

Further information can be obtained by contacting the Director, Dr. Eric Caplan, at 514-398-6544; by consulting the Faculty of Education "Bachelor of Education Kindergarten and Elementary Program (Jewish Studies Option)" in section 8.6.1.7; and from the web: www.mcgill.ca/edu-jttp.

Interdepartmental Programming

Many of the courses in Jewish Studies are related to other departments, e.g., History, Religious Studies. There are also related courses in other departments which students specializing in certain areas of Jewish Studies might be encouraged to include in their programs, e.g., Classical Greek, Arabic, theories of literature, etc.

The following History department courses may be used as Jewish Studies courses in the Department of Jewish Studies programs:
HIST 207 (3) Jewish History: 400 B.C.E. - 1000
HIST 219 (3) Jewish History: 1000 - 2000
HIST 307 (3) Jews in Poland
HIST 327 (3) Jews in the Orbit of Islam
HIST 427 (3) The Hasidic Movement
HIST 477D1 (3) Seminar In Jewish History
HIST 477D2 (3) Seminar In Jewish History

AREAS OF STUDY
It is possible to group the course offerings in Jewish Studies into a number of areas of study. The following is a representative but not exhaustive list.

Biblical Studies

JWST 211 (3) Jewish Studies 1: Biblical Period
JWST 310 (3) Believers, Heretics and Critics
JWST 324 (3) Biblical Interpretation - Antiquity
JWST 327 (3) A Book of the Bible
JWST 328 (3) A Book of the Bible
JWST 329 (3) A Book of the Bible
JWST 330 (3) A Book of the Bible
JWST 331 (3) Bible Interpretation/Medieval Ashkenaz
JWST 332 (3) Bible Interpretation/Sefardic Tradition
JWST 333 (3) The Hebrew Liturgy
JWST 428 (3) Jewish Interpretation of Bible
JWST 429 (3) Biblical Poetry
JWST 456 (3) Studies in the Hebrew Bible
JWST 457 (3) Studies in the Hebrew Bible
JWST 458 (3) Studies in the Hebrew Bible
JWST 459 (3) Studies in the Hebrew Bible
JWST 510 (3) Jewish Bible Interpretation 1
JWST 511 (3) Jewish Bible Interpretation 2
JWST 520 (3) Bible Interpretation in Antiquity
JWST 521 (3) Bible in Dead Sea Scrolls
JWST 523 (3) Ancient Bible Interpretation
JWST 532 (3) Narrative Midrash
JWST 533 (3) Halakhic Midrash
JWST 534 (3) Homiletical Midrash
JWST 535 (3) Exegetical Midrash
JWST 536 (3) Readings: Aramaic Bible Translation
JWST 537 (3) The Bible in the Talmud Bavli
JWST 538 (3) Early Rabbinic Parshanut 1
JWST 541 (3) Medieval Ashkenazi Parshanut
JWST 542 (3) Abraham ibn Ezra as Parshan
JWST 543 (3) Maimonides as Parshan
JWST 544 (3) Nachmanides as Parshan
JWST 545 (3) Parshanut in Renaissance Italy
JWST 546 (3) Innovative Medieval Parshanut
JWST 547 (3) Mystical Biblical Interpretation
JWST 548 (3) Medieval Parshanut
JWST 550 (3) The Bible in Hebrew Literature
JWST 551 (3) 20th Century Parshanut
JWST 554 (3) Modern Jewish Biblical Scholarship
JWST 555 (3) The Bible in Jewish Philosophy
JWST 556 (3) Modern Parshanut 1
JWST 571 (3) Biblical Literature
JWST 572 (3) Aggadah in Modern Scholarship
JWST 573 (3) History of Hebrew Bible Text
JWST 574 (3) Bible in Responsa Literature
JWST 575 (3) Topics in Parshanut
JWST 581 (3) Aramaic Language
JWST 582 (3) Hebrew and Aramaic Philology
RELG 307 (3) Bible, Quran & Interpretations

Rabbinic Studies

JWST 201 (3) Jewish Law
JWST 216 (3) Jewish Studies 2: 400 B.C.E. - 1000
JWST 217 (3) Jewish Studies 3: 1000 - 2000
JWST 316 (3) Social and Ethical Issues in Jewish Law 1
JWST 319 (3) Judaism and the Occult
JWST 333 (3) The Hebrew Liturgy
JWST 345 (3) Introduction to Rabbinic Literature
JWST 358 (3) Topics in Jewish Philosophy 1
JWST 359 (3) Topics in Jewish Philosophy 2
JWST 374 (3) Talmud and Law 1: Bava Kamma
JWST 375 (3) Talmud and Law 2: Bava Metzia
JWST 402 (3) Readings in Rabbinic Literature
JWST 474 (3) Maimonides' Mishneh Torah
JWST 532 (3) Narrative Midrash
JWST 533 (3) Halakhic Midrash
JWST 534 (3) Homiletical Midrash
JWST 535 (3) Exegetical Midrash
JWST 537 (3) The Bible in the Talmud Bavli
JWST 538 (3) Early Rabbinic Parshanut 1
JWST 541 (3) Medieval Ashkenazi Parshanut
JWST 542 (3) Abraham ibn Ezra as Parshan
JWST 543 (3) Maimonides as Parshan
JWST 544 (3) Nachmanides as Parshan
JWST 572 (3) Aggadah in Modern Scholarship
JWST 574 (3) Bible in Responsa Literature
JWST 576 (3) Jewish Family Law
HIST 207 (3) Jewish History: 400 B.C.E. - 1000
HIST 219 (3) Jewish History: 1000 - 2000

Language and Literature

1. Hebrew Language and Literature

JWST 199 (3) Images - Jewish Identities
JWST 200 (12) Hebrew Language (Intensive)
JWST 220D1 (3) Introductory Hebrew
JWST 220D2 (3) Introductory Hebrew
JWST 225 (3) Literature and Society
JWST 300 (3) Charisma and Social Change
JWST 301 (3) Hebrew Empire and Crisis
JWST 320D1 (3) Intermediate Hebrew
JWST 320D2 (3) Intermediate Hebrew
JWST 323 (3) The Israeli Novel
JWST 325 (3) Israeli Literature in Translation
JWST 340D1 (3) Advanced Hebrew
JWST 340D2 (3) Advanced Hebrew

Adviser: Andrew Staples

Program Committee Chair — D. Studnicki-Gizbert (*History*)

Program Committee — O. Coomes *(Geography),* J. Jouve-Martin *(Hispanic Studies),* C. LeGrand *(History),* T. Meredith *(Geography),* P. Oxhorn *(Political Science),* K. Sibbald (*Hispanic Studies*), I. Vaccaro *(Anthropology)*

Established in 1971, the interdisciplinary Program in Latin-American and Caribbean Studies offers a comprehensive array of courses on the peoples, cultures, history, literature, politics, economy and geography of Latin America and the Caribbean, providing students with a broad-based understanding of this geographic region, and with the language and research skills required for advanced scholarship. The program in Latin-American and Caribbean Studies encourages the free exchange of ideas and perspectives in order to foster an environment suitable for serious reflection and critical analysis.

Students in the Program in Latin-American and Caribbean Studies are encouraged to consider the opportunities for foreign study and research made available by bilateral exchange agreements with leading universities in the Spanish and Portuguese-speaking world. These exchanges are open to all members of the McGill University community. Further information may be obtained from the Student Exchange and Study Abroad Office, James Administration Building.

An agreement of cooperation with the Center for Latin American Studies at Georgetown University (Washington, D.C.) permits Honours students in Latin-American and Caribbean Studies at McGill to count a portion of their undergraduate coursework toward the degree requirements for Georgetown's M.A. in Latin American Studies, thus permitting completion of the M.A. in one calendar year. See the Program Adviser for additional information.

Undergraduate Degree Programs

The program in Latin-American and Caribbean Studies offers an interdisciplinary Honours degree and an interdisciplinary Major Concentration as part of the Multi-track B.A. in Arts. Given the constraints of the Multi-track B.A. and our belief that an interdisciplinary program of area studies must include within it the language(s) used by the peoples and cultures under examination, there is at present no interdisciplinary Minor Concentration in Latin-American and Caribbean Studies.

MAJOR CONCENTRATION IN LATIN-AMERICAN STUDIES
(36 credits)

Required Courses (18 credits)

HISP 243*	(3)	Survey of Spanish-American Literature 1
HISP 244*	(3)	Survey of Spanish-American Literature 2
HIST 309	(3)	History of Latin America to 1825
HIST 360	(3)	Latin America since 1825
LACS 497	(3)	Research Seminar: Latin America and the Caribbean
POLI 319	(3)	Politics of Latin America

* Please note that successful completion of Intermediate Spanish Language (HISP 220D1/HISP 220D2, HISP 219 or the equivalent) is required for admission to HISP 243 and HISP 244.

Complementary Courses (18 credits)

18 credits selected from the Complementary Course List in consultation with the Program Adviser.

Courses from at least two disciplines or departments must be included; at least 6 of the 18 credits must be at the 300 level or above.

No more than 6 credits in Spanish or Portuguese language (HISP 202D1/HISP 202D2, HISP 204D1/HISP 204D2, HISP 210D1/HISP 210D2, HISP 218, HISP 219, HISP 220D1/HISP 220D2, HISP 222) shall count for the Major Concentration.

HONOURS IN LATIN-AMERICAN AND CARIBBEAN STUDIES
The Honours Program in Latin-American and Caribbean Studies is designed to meet the needs of students who plan to attend graduate or professional school upon completion of the B.A. Both options provide a comprehensive interdisciplinary understanding of Latin America and the Caribbean, upon which more specialized coursework and research may be based.

Students pursuing Honours in Latin-American and Caribbean Studies must normally maintain a B+ (3.30) average in all Program courses, and must meet all additional Faculty of Arts requirements for graduation with Honours.

Please note that successful completion of Intermediate Spanish Language (HISP 220D1/HISP 220D2 or HISP 219 or equivalent) is required for admission to HISP 243 and HISP 244, courses required in both options.

HONOURS IN LATIN-AMERICAN AND CARIBBEAN STUDIES – AREA OPTION (60 credits)

The Area Option, with its disciplinary clusters, is recommended for students who envision graduate study in a specific discipline, such as History or Political Science.

Required Courses (21 credits)

HISP 243	(3)	Survey of Spanish-American Literature 1
HISP 244	(3)	Survey of Spanish-American Literature 2
HIST 309	(3)	History of Latin America to 1825
HIST 360	(3)	Latin America since 1825
LACS 497	(3)	Research Seminar: Latin America and the Caribbean
LACS 498	(3)	Independent Research Project
POLI 319	(3)	Politics of Latin America

Complementary Courses (39 credits)
12 credits in Spanish or Portuguese.

27 additional credits on Latin America and the Caribbean, exclusive of language courses, selected from the Complementary Course List in consultation with the Program Adviser.

At least 15 of these 27 credits must be taken in one of the following disciplinary clusters, which may also include up to 6 credits of theoretical and/or methodological courses of particular relevance to the student's research interests:
Literature and Culture;
History, Economics and Political Science;
Anthropology and Geography.

HONOURS IN LATIN-AMERICAN AND CARIBBEAN STUDIES – THEMATIC OPTION (60 credits)

This option permits highly motivated students to combine the study of Latin America and the Caribbean with a theme or intellectual focus whose roots extend beyond the geographic confines of this area, and for which a high level of methodological and/or theoretical expertise is required.

Themes of study may include, but are not limited to: ethnography and ethnohistory; the age of European expansion; transnationalism; the concepts and practice of law and justice; nationalism and nation-building; ecology and the management of human and natural resources.

Required Courses (21 credits)

HISP 243	(3)	Survey of Spanish-American Literature 1
HISP 244	(3)	Survey of Spanish-American Literature 2
HIST 309	(3)	History of Latin America to 1825
HIST 360	(3)	Latin America since 1825
LACS 497	(3)	Research Seminar: Latin America and the Caribbean
LACS 498	(3)	Independent Research Project
POLI 319	(3)	Politics of Latin America

Complementary Courses (39 credits)
12 credits in Spanish or Portuguese.

12 credits on Latin America and the Caribbean, exclusive of language courses, selected from the Complementary Course List in consultation with the Program Adviser.

15 credits from outside the Complementary Course List, within a coherent theme of specialization, selected in consultation with the Program Adviser.

LACS Complementary Course List
Consult the Courses section for course descriptions and information on prerequisites. Not all courses listed are offered in any given year. Note: no credit will be given for multi-term courses unless all components are successfully completed as specified; for example, D1 and D2 components must both be successfully completed in consecutive terms.

Anthropology

ANTH 212	(3)	Anthropology of Development
ANTH 326	(3)	Peoples of Central and South America
ANTH 439	(3)	Theories of Development

Economics

ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
ECON 410	(3)	Economic Development: Selected World Area

English

ENGL 321	(3)	Caribbean Fiction

Geography

GEOG 408	(3)	Geography of Development
GEOG 410	(3)	Geography of Underdevelopment: Current Problems
GEOG 510	(3)	Humid Tropical Environments

Hispanic Studies

HISP 202D1	(3)	Portuguese Language: Beginners
HISP 202D2	(3)	Portuguese Language: Beginners
HISP 204D1	(3)	Portuguese Language: Intermediate
HISP 204D2	(3)	Portuguese Language: Intermediate
HISP 210D1	(3)	Spanish Language: Beginners
HISP 210D2	(3)	Spanish Language: Beginners
HISP 218	(6)	Spanish Language Intensive - Elementary
HISP 219	(6)	Spanish Language Intensive - Intermediate
HISP 220D1	(3)	Spanish Language: Intermediate
HISP 220D2	(3)	Spanish Language: Intermediate
HISP 225	(3)	Hispanic Civilization 1
HISP 226	(3)	Hispanic Civilization 2
HISP 243	(3)	Survey of Spanish-American Literature 1
HISP 244	(3)	Survey of Spanish-American Literature 2
HISP 302	(3)	Hispanic Literature - English Translation 2
HISP 328	(3)	Literature of Ideas: Spanish America
HISP 332	(3)	Spanish-American Literature of 19th Century
HISP 333	(3)	Spanish-American Drama
HISP 351	(3)	Spanish-American Novel 1
HISP 352	(3)	Spanish-American Novel 2
HISP 356	(3)	Spanish-American Short Story
HISP 358	(3)	Women Writers Fiction Spanish-America
HISP 432	(3)	Literature - Discovery and Exploration Spain New World
HISP 437	(3)	Viceregal Spanish America
HISP 442	(3)	Modernismo
HISP 453	(3)	20th Century Spanish-American Poetry
HISP 505	(3)	Seminar in Hispanic Studies 01
HISP 506	(3)	Seminar in Hispanic Studies 02
HISP 507	(3)	Seminar in Hispanic Studies 03

History

HIST 197	(3)	FYS: Race in Latin America
HIST 217	(3)	A Survey of Spanish History
HIST 309	(3)	History of Latin America to 1825
HIST 360	(3)	Latin America since 1825
HIST 419	(3)	Central America
HIST 464D1	(3)	Topics: Latin American History
HIST 464D2	(3)	Topics: Latin American History
HIST 480D1	(3)	Capitalism and Empire: European Domination
HIST 480D2	(3)	Capitalism and Empire: European Domination
HIST 580D1	(3)	European and Native-American Encounters
HIST 580D2	(3)	European and Native-American Encounters

Political Science

POLI 227	(3)	Developing Areas/Introduction
POLI 300D1	(3)	Developing Areas/Revolution
POLI 300D2	(3)	Developing Areas/Revolution
POLI 319	(3)	Politics of Latin America
POLI 471	(3)	Democracy in the Modern World
POLI 472	(3)	Developing Areas/Social Movements
POLI 473	(3)	Democracy and the Market

6.12.35 Linguistics (LING)

1085 Dr. Penfield Avenue
Montreal, QC H3A 1A7

Telephone: 514-398-4222
Website: www.mcgill.ca/linguistics

Chair — Glyne L. Piggott

Emeritus Professors
C. Douglas Ellis; B.A.(Camb.), B.A.(McG.), M.A.(Tor.), M.A.(Yale), Ph.D.(McG.)
Myrna Gopnik; M.A., Ph.D.(Penn.)
Michel Paradis; B.A.(Montr.), M.A., Ph.D.(McG.), Ph.D.(Montr.), F.R.S.C.

Professors
Yosef Grodzinsky; B.Sc.(Hebrew), Ph.D.(Brandeis) (*Canada Research Chair*)
Glyne L. Piggott; B.A.(W.I.), M.A., Ph.D.(Tor.)
Lydia White; M.A.(Cant.), Ph.D.(McG.) (*James McGill Professor*)

Associate Professors
Charles Boberg; B.A.(Alta.), Ph.D.(Penn.)
Brendan Gillon; B.A., M.A.(Mich.), M.A.(Tor.), Ph.D.(MIT)
Heather Goad; B.A.(Br. Col.), M.A., Ph.D.(S. Calif.)
Bernhard Schwarz; M.A.(Tübingen), Ph.D.(Mass.)
Lisa de M. Travis; B.A.(Yale), Ph.D.(MIT)

Assistant Professors
Jonathan Nissenbaum; B.A.(Oberlin), Ph.D.(MIT)
Junko Shimoyama; B.A., M.A.(Ochanomizu), Ph.D.(Mass.)
Michael Wagner; M.A.(Humboldt), Ph.D.(MIT)

Linguistics is the scientific study of human language. Topics include: the structure of the world's languages at the level of sounds (phonetics and phonology), words (morphology), sentences (syntax), and meaning (semantics); how people learn languages (acquisition); how people use two languages (bilingualism); how language is processed and represented in the brain (psycho- and neurolinguistics); how languages change over time (historical linguistics); and how languages vary in relation to region and social identity (dialectology and sociolinguistics). In addition to preparing students for advanced academic work in linguistics and related disciplines (e.g., anthropology, cognitive neuroscience, computer science, philosophy, or psychology), courses in linguistics provide a useful background for many careers, for example, language teaching, translation, child psychology, speech-language pathology, communication, and speech technology.

The Linguistics Department offers a Minor Concentration, a Major Concentration, an Honours program, and a Joint Honours program with other departments in the Faculty of Arts.

New Students
Students who are registering with the Department for the first time must attend the Department orientation meeting before seeing an adviser. (www.mcgill.ca/linguistics/undergraduate)

Requirements
Linguistics students must do at least two-thirds of their Linguistics courses at McGill. Honours students must also do their Honours thesis at McGill.

Inquiries may be addressed to the departmental office or the advisers for undergraduate studies.

MINOR CONCENTRATION IN LINGUISTICS
(Expandable) (18 credits)

Required Courses (9 credits)

LING 201	(3)	Introduction to Linguistics
LING 330	(3)	Phonetics
LING 371	(3)	Syntax 1

Complementary Courses (9 credits)

9 credits in Linguistics: 3 credits must be at the 400/500 level, 3 credits must be selected from the following list, and 3 credits can be chosen according to the student's interests. (If a 400/500 level course is chosen from the following list, the remaining 6 credits can be chosen according to the student's interests.)

LING 320	(3)	Sociolinguistics 1
LING 350	(3)	Linguistic Aspects of Bilingualism
LING 355	(3)	Language Acquisition 1
LING 390	(3)	Neuroscience of Language
LING 425	(3)	Historical Linguistics
LING 440	(3)	Morphology
LING 451	(3)	Acquisition of Phonology
LING 455	(3)	Second Language Syntax
LING 520	(3)	Sociolinguistics 2
LING 521	(3)	Dialectology
LING 555	(3)	Language Acquisition 2
LING 590	(3)	Language Acquisition and Breakdown

Students who take LING 360 as one of the complementary courses may also count PHIL 210 as a complementary course, but must take a 400/500 level course from the above list.

MAJOR CONCENTRATION IN LINGUISTICS (36 credits)

Required Courses (18 credits)

LING 201	(3)	Introduction to Linguistics
LING 330	(3)	Phonetics
LING 331	(3)	Phonology 1
LING 360	(3)	Introduction to Semantics
LING 371	(3)	Syntax 1
PHIL 210	(3)	Introduction to Deductive Logic 1

Complementary Courses (18 credits)

9 credits in Linguistics at the 400/500-level,
3 credits from the list below, and
6 credits in Linguistics chosen according to the student's interests.

Note: If a 400/500 level course is chosen from the list below, it may be included as part of the 9 credits in Linguistics at the 400/500 level, and the remaining 9 credits can be chosen according to the student's interests.

LING 320	(3)	Sociolinguistics 1
LING 350	(3)	Linguistic Aspects of Bilingualism
LING 355	(3)	Language Acquisition 1
LING 390	(3)	Neuroscience of Language
LING 425	(3)	Historical Linguistics
LING 440	(3)	Morphology
LING 451	(3)	Acquisition of Phonology
LING 455	(3)	Second Language Syntax
LING 520	(3)	Sociolinguistics 2
LING 521	(3)	Dialectology
LING 555	(3)	Language Acquisition 2
LING 590	(3)	Language Acquisition and Breakdown

HONOURS IN LINGUISTICS (60 credits)

Required Courses (24 credits)

LING 201	(3)	Introduction to Linguistics
LING 330	(3)	Phonetics
LING 331	(3)	Phonology 1
LING 360	(3)	Introduction to Semantics
LING 371	(3)	Syntax 1
LING 480D1	(3)	Honours Thesis
LING 480D2	(3)	Honours Thesis
PHIL 210	(3)	Introduction to Deductive Logic 1

Complementary Courses (36 credits)

24 credits in Linguistics and 12 credits in related fields.

24 Linguistics credits are selected as follows:

15 credits at the 400/500 level, 3 of which must be selected from the following list:

LING 425	(3)	Historical Linguistics
LING 440	(3)	Morphology
LING 451	(3)	Acquisition of Phonology
LING 455	(3)	Second Language Syntax
LING 520	(3)	Sociolinguistics 2
LING 521	(3)	Dialectology
LING 555	(3)	Language Acquisition 2
LING 590	(3)	Language Acquisition and Breakdown

9 other credits in Linguistics, usually at the 200/300 level.

12 credits in related fields to be selected from the following list:

Computer Science

COMP 202	(3)	Introduction to Computing 1
COMP 203	(3)	Introduction to Computing 2

French Language and Literature

FREN 231	(3)	Linguistique française
FREN 336	(3)	La langue française
FREN 434	(3)	Sociolinguistique du français

Language

Any course in language (other than the student's native language) - literature courses are not acceptable.

Mathematics

MATH 240	(3)	Discrete Structures 1
MATH 328	(3)	Computability and Mathematical Linguistics

Philosophy

Any course in logic or philosophy of science.

PHIL 304	(3)	Chomsky
PHIL 306	(3)	Philosophy of Mind
PHIL 415	(3)	Philosophy of Language
PHIL 515	(3)	Seminar: Philosophy of Language

Psychology

PSYC 311	(3)	Human Cognition and the Brain
PSYC 316	(3)	Psychology of Deafness
PSYC 340	(3)	Psychology of Language
PSYC 341	(3)	The Psychology of Bilingualism
PSYC 343	(3)	Language Learning in Children
PSYC 530	(3)	Applied Topics in Deafness
PSYC 532	(3)	Cognitive Science
PSYC 561	(3)	Methods: Developmental Psycholinguistics

Statistics

Any course in statistics (from any department).

A B+ average (program GPA 3.30) is required to maintain Honours standing in Linguistics and a minimum grade of B+ must be obtained in three out of four of the following courses: LING 330, LING 331, LING 360, LING 371, as well as in the Honours Thesis, LING 480D1/LING 480D2.

As per Faculty of Arts rules, a minimum CGPA of 3.00 must be maintained. The requirement for First Class Honours is a CGPA of 3.50 and a minimum grade of A- in the Honours Thesis. Inquiries may be addressed to the departmental office or to the adviser for undergraduate studies.

Minor in Cognitive Science

Students following Major or Honours programs in Linguistics with an interest in cognition may want to consider the Minor in Cognitive Science, described in the Faculty of Science section.

JOINT HONOURS – LINGUISTICS COMPONENT (36 credits)

Required Courses (21 credits)

LING 201	(3)	Introduction to Linguistics
LING 330	(3)	Phonetics
LING 331	(3)	Phonology 1
LING 360	(3)	Introduction to Semantics
LING 371	(3)	Syntax 1
LING 481D1	(1.5)	Joint Honours Thesis
LING 481D2	(1.5)	Joint Honours Thesis
PHIL 210	(3)	Introduction to Deductive Logic 1

Complementary Courses (15 credits)

9 credits at the 400/500 level, 3 of which must be selected from the following list:

LING 425	(3)	Historical Linguistics
LING 440	(3)	Morphology
LING 451	(3)	Acquisition of Phonology
LING 455	(3)	Second Language Syntax
LING 520	(3)	Sociolinguistics 2
LING 521	(3)	Dialectology
LING 555	(3)	Language Acquisition 2
LING 590	(3)	Language Acquisition and Breakdown

6 other credits in Linguistics, usually at the 200/300 level.

A B+ average (program GPA 3.30) is required to maintain Joint Honours standing in Linguistics and a minimum grade of B+ must be obtained in three out of four of the following courses LING 330, LING 331, LING 360, LING 371, as well as in the Joint Honours Thesis, LING 481D1/LING 481D2.

As per Faculty of Arts rules, a minimum CGPA of 3.00 must be maintained. The requirement for First Class Honours is a CGPA of 3.50 and a minimum grade of A- in the Joint Honours Thesis. Inquiries may be addressed to the departmental office or to the adviser for undergraduate studies.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

6.12.36 Mathematics and Statistics (MATH)

Burnside Hall, Room 1005

Telephone: 514-398-3800
Website: www.math.mcgill.ca

The Department of Mathematics and Statistics offers programs in both Arts and Science. For a list of teaching staff and an outline of the nature of the discipline refer to the Science entry "Mathematics and Statistics (MATH)" in section 14.13.21. A Desautels Faculty of Management B.Com. degree with a Major in Mathematics and a Schulich School of Music B.Mus. degree with Honours in Theory with Mathematics option are also available.

Students entering a Mathematics program are normally expected to have completed MATH 133, MATH 139 or MATH 140, MATH 141, or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the program credits.

The programs specifically for Arts students are described in this section. The following programs, which are fully described in the

Faculty of Science section, may be taken by students in either Arts or Science:

Honours in Mathematics
Honours in Applied Mathematics
Honours in Probability and Statistics
Joint Honours in Mathematics and Computer Science

Students entering one of the Minor or Major Concentrations listed below who have successfully completed a course equivalent to MATH 222 (Calculus 3) prior to coming to McGill are given exemption from taking MATH 222, but must replace it with a Complementary Mathematics course in the program of at least 3 credits.

MINOR CONCENTRATION IN MATHEMATICS (18 credits)
(Expandable **and** Non-expandable Versions)

Students entering the Minor Concentration in Mathematics are normally expected to have completed MATH 133, MATH 140 and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 18 credits required by the program.

The Minor Concentration in Mathematics may be taken in conjunction with a Major Concentration in some other discipline under option A of the Multi-track Program, or together with a Major Concentration and a Minor Concentration in other disciplines under option C.

The Minor Concentration in Mathematics is offered in two versions: an expandable version, for students who wish to leave open the option of expanding the program into a Major Concentration in Mathematics, and a non-expandable version for students who know on entry into the Minor that they do not wish to expand it into a Major.

All courses counted towards the Minor Concentration must be passed with a grade of C or better.

No overlap is permitted with other programs.

MINOR CONCENTRATION IN MATHEMATICS (Expandable) (18 credits)

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (12 credits)
MATH 222 (3) Calculus 3
MATH 235 (3) Algebra 1
MATH 236* (3) Algebra 2
MATH 315 (3) Ordinary Differential Equations
* credit cannot be received for both MATH 223 and MATH 236

Complementary courses (6 credits)
6 credits to be selected from the Complementary Course list below (MATH 323 strongly recommended).

MINOR CONCENTRATION IN MATHEMATICS
(Non-Expandable) (18 credits)

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (9 credits)
MATH 222 (3) Calculus 3
MATH 223* (3) Linear Algebra
MATH 315 (3) Ordinary Differential Equations
* credit cannot be received for both MATH 223 and MATH 236

Complementary courses (9 credits)
9 credits to be selected from the Complementary Course list below (MATH 323 strongly recommended).

Complementary Course List –
Mathematics Minor Concentrations
MATH 314 (3) Advanced Calculus
MATH 316 (3) Complex Variables
or MATH 249 (3) Honours Complex Variables
MATH 317 (3) Numerical Analysis
MATH 318 (3) Mathematical Logic
MATH 319 (3) Introduction to Partial Differential Equations
MATH 320 (3) Differential Geometry
MATH 323* (3) Probability
MATH 324 (3) Statistics
MATH 326 (3) Nonlinear Dynamics and Chaos
MATH 327 (3) Matrix Numerical Analysis
MATH 328 (3) Computability and Mathematical Linguistics
MATH 339 (3) Foundations of Mathematics
MATH 340 (3) Discrete Structures 2
MATH 346 (3) Number Theory
MATH 348 (3) Topics in Geometry
MATH 407 (3) Dynamic Programming
MATH 417 (3) Mathematical Programming
* It is strongly recommended that students in this program take MATH 323.

SUPPLEMENTARY MINOR CONCENTRATION IN MATHEMATICS (18 credits)

This Minor Concentration is open only to students registered in the Major Concentration in Mathematics. Taken together, these two concentrations constitute a program equivalent to the Major in Mathematics offered by the Faculty of Science.

No course overlap between the Major Concentration in Mathematics and the Supplementary Minor Concentration in Mathematics is permitted.

Note that according to the Faculty of Arts Multi-Track System degree requirements, option C, students registered in the Supplementary Minor Concentration in Mathematics must also complete another Minor concentration in a discipline other than Mathematics.

Required Courses (3 credits)
MATH 315 (3) Ordinary Differential Equations

Complementary Courses (15 credits)

3 credits from the following:
MATH 316 (3) Complex Variables
or MATH 249 (3) Honours Complex Variables

12 credits from the following list:
MATH 204 (3) Principles of Statistics 2
MATH 317 (3) Numerical Analysis
MATH 318 (3) Mathematical Logic
MATH 319 (3) Introduction to Partial Differential Equations
MATH 320 (3) Differential Geometry
MATH 324 (3) Statistics
MATH 326 (3) Nonlinear Dynamics and Chaos
MATH 327 (3) Matrix Numerical Analysis
MATH 329 (3) Theory of Interest
MATH 335 (3) Computational Algebra
MATH 338 (3) History and Philosophy of Mathematics
MATH 339 (3) Foundations of Mathematics
MATH 340 (3) Discrete Structures 2
MATH 346 (3) Number Theory
MATH 348 (3) Topics in Geometry
MATH 352 (1) Problem Seminar
MATH 407 (3) Dynamic Programming
MATH 410 (3) Majors Project
MATH 417 (3) Mathematical Programming
MATH 423 (3) Regression and Analysis of Variance
MATH 430 (3) Mathematical Finance
MATH 447 (3) Stochastic Processes
MATH 523 (4) Generalized Linear Models
MATH 524 (4) Nonparametric Statistics
MATH 525 (4) Sampling Theory and Applications

* If MATH 315, MATH 316, or MATH 249 have already been taken as part of the Major Concentration in Mathematics, they must be replaced by a 3-credit course from the list of complementary courses above.

MINOR CONCENTRATION IN STATISTICS
(Non-expandable) (18 credits)

Students entering the Minor Concentration in Statistics are expected to have completed MATH 133, MATH 140 and MATH 141 or their equivalents.

The Minor Concentration in Statistics may be taken in conjunction with a Major Concentration in some other discipline under option A of the Multi-track Program, or together with a Major Concentration (which may be in Mathematics or some other discipline) and a Minor Concentration (which must be in some other discipline) under option C.

It is not possible to combine this program with the Minor Concentration in Mathematics under option C. Students wishing to do this should instead take the Major Concentration in Mathematics under option B and select a large number of Statistics complementaries.

The Minor Concentration in Statistics is offered only in a non-expandable version, that is, one that cannot be expanded into the Major Concentration in Mathematics. While it is not possible to expand the Minor Concentration, it is possible for students taking the Major Concentration in Mathematics to adopt this program as one of their Minor Concentrations under option C.

Credit cannot be received for both MATH 223 and MATH 236.

All courses counted towards the Minor Concentration must be passed with a grade of C or better.

No overlap is permitted with other programs.

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (15 credits)
MATH 222 (3) Calculus 3
MATH 223* (3) Linear Algebra
MATH 323 (3) Probability
MATH 324 (3) Statistics
MATH 423 (3) Regression and Analysis of Variance
* credit cannot be received for both MATH 223 and MATH 236
Note: If this Minor Concentration is combined with the Major Concentration in Mathematics, the required courses MATH 222, MATH 223, and MATH 323 must be replaced by courses on the list of Complementary Statistics courses.

Complementary Course (3 credits)
one of the following:
COMP 202 (3) Introduction to Computing 1
MATH 204 (3) Principles of Statistics 2
MATH 317 (3) Numerical Analysis
MATH 447 (3) Stochastic Processes
MATH 523 (4) Generalized Linear Models
MATH 524 (4) Nonparametric Statistics
MATH 525 (4) Sampling Theory and Applications

MAJOR CONCENTRATION IN MATHEMATICS (36 credits)

Students entering the Major Concentration are normally expected to have completed MATH 133, MATH 140 and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 36 credits required by the program. Students who have done well in MATH 242 and MATH 235 at the end of their first term should consider, in consultation with their adviser and the instructors of the courses involved, the possibility of entering into an Honours program in Mathematics, in Applied Mathematics, in Probability and Statistics, or a Joint Honours program in Mathematics and another discipline.

Guidelines for the selection of courses in the Major Concentration

Where appropriate, Honours-level courses may be substituted for their Majors-level counterparts. Students planning to undertake graduate studies in mathematics are urged to make such substitutions.

Students interested in computer science should consider the courses MATH 317, MATH 318, MATH 327, MATH 328, MATH 340, MATH 407, MATH 417 and take a Minor Concentration in computer science.

Students interested in probability and statistics should consider either taking the Minor Concentration in statistics under option C, or else including some or all of the courses MATH 423, MATH 447, MATH 523, MATH 524, and MATH 525.

Students interested in applied mathematics should consider the courses MATH 317, MATH 319, MATH 324, MATH 326, MATH 327, MATH 407 and MATH 417.

Students interested in careers in business, industry or government should consider the courses MATH 317, MATH 319, MATH 327, MATH 407, MATH 417, MATH 423, MATH 447, MATH 523, and MATH 525.

Program prerequisites: MATH 133, MATH 140, and MATH 141 or their equivalents.

Required Courses (21 credits)
MATH 222 (3) Calculus 3
MATH 235 (3) Algebra 1
MATH 236 (3) Algebra 2
MATH 242 (3) Analysis 1
MATH 243 (3) Analysis 2
MATH 314 (3) Advanced Calculus
MATH 323 (3) Probability

Complementary Courses (15 credits)
at least 9 credits selected from:
MATH 315 (3) Ordinary Differential Equations
MATH 316 (3) Complex Variables
or MATH 249 (3) Honours Complex Variables
MATH 317 (3) Numerical Analysis
MATH 324 (3) Statistics
MATH 340 (3) Discrete Structures 2
MATH 423 (3) Regression and Analysis of Variance

the remaining credits to be selected from the following list:
MATH 204 (3) Principles of Statistics 2
MATH 318 (3) Mathematical Logic
MATH 319 (3) Introduction to Partial Differential Equations
MATH 320 (3) Differential Geometry
MATH 326 (3) Nonlinear Dynamics and Chaos
MATH 327 (3) Matrix Numerical Analysis
MATH 328 (3) Computability and Mathematical Linguistics
MATH 339 (3) Foundations of Mathematics
MATH 346 (3) Number Theory
MATH 348 (3) Topics in Geometry
MATH 352 (1) Problem Seminar
MATH 407 (3) Dynamic Programming
MATH 410 (3) Majors Project
MATH 417 (3) Mathematical Programming
MATH 447 (3) Stochastic Processes
MATH 523 (4) Generalized Linear Models
MATH 524 (4) Nonparametric Statistics
MATH 525 (4) Sampling Theory and Applications
Where appropriate, Honours courses may be substituted for their Majors equivalents.

JOINT HONOURS – MATHEMATICS COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 6.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

A student who has not completed the equivalent of MATH 222 will need to take that course in addition to the 36-credit program outlined below.

To remain in the Joint Honours program and receive the Joint Honours degree, a student must maintain the standards set by each discipline, as well as by the Faculty. In the Mathematics courses of the program a GPA of 3.00 and a CGPA of 3.00 must

be maintained. Students who have difficulty in maintaining the required level should change to another program before entering their final year.

Required Courses (15 credits)
MATH 235 (3) Algebra 1
MATH 242 (3) Analysis 1
MATH 248 (3) Honours Advanced Calculus
MATH 251 (3) Honours Algebra 2
MATH 255 (3) Honours Analysis 2

Complementary Courses (21 credits)
at least 15 credits selected from the following:
MATH 325 (3) Honours Ordinary Differential Equations
MATH 354 (3) Honours Analysis 3
MATH 355 (3) Honours Analysis 4
MATH 356 (3) Honours Probability
MATH 357 (3) Honours Statistics
MATH 366 (3) Honours Complex Analysis
MATH 370 (3) Honours Algebra 3
MATH 371 (3) Honours Algebra 4
MATH 380 (3) Honours Differential Geometry

The remaining credits to be chosen from the full list of available Honours courses in Mathematics and Statistics.

6.12.37 Middle East Studies Program (MEST)

Website: www.mcgill.ca/mes

Program Adviser — Professor Laila Parsons, Department of History and Institute of Islamic Studies, 514-398-7108

Program Committee Chair — L. Parsons

Program Committee:
S. Alvi (*Islamic Studies*), R. Brynen (*Political Science*),M. Hartman (*Islamic Studies*), S. Manoukian (*Anthropology*), K. Medani (*Political Science*), L. Parsons (*History*)

The Middle East Studies Program is designed for students who wish to pursue an interdisciplinary program of study focusing on the Middle East since the rise of Islam. Courses offered include language, history, religion and philosophy, political science and anthropology. From these are drawn combinations which make up the Major and Minor Concentrations, Honours and Joint Honours in Middle East Studies.

Students wishing to pursue a program in Middle East Studies must consult a Program Adviser each year to devise a suitable program. Before doing so, students should consult the Middle East Studies' website at www.mcgill.ca/mes for a full description of each program. Failure to consult an adviser could lead to a delay in completing program requirements. Students wishing to have courses taken at other universities counted as satisfying program requirements must bring copies of their transcripts and course syllabi to the Program Adviser.

MINOR CONCENTRATION IN MIDDLE EAST STUDIES (Expandable) (18 credits)

Complementary Courses (18 credits)

A total of 18 credits, consisting of:

6 credits in History core courses

6 credits in Religion and Philosophy (including at least 3 credits in core courses)

6 credits in Social Sciences

Note: see the Middle East Studies Course List for courses in each of the above categories.

MINOR CONCENTRATION IN MIDDLE EAST LANGUAGES (Expandable) (18 credits)

Complementary Courses (18 credits)

18 credits of Middle Eastern language (Arabic, Hebrew, Persian, Turkish), either:

all 18 credits (3 levels) in one language

or 12 credits (2 levels) in one language and 6 credits (1 level) in another language

Note: see the Middle East Studies Course List for courses in each language.

MAJOR CONCENTRATION IN MIDDLE EAST STUDIES (36 credits)

Required Course (3 credits)
MEST 495 (3) Middle East Studies: Research Seminar

Complementary Courses (33 credits)

12 credits (2 levels) in one Middle East language – Arabic, Hebrew, Persian, Turkish.
(In the case of Arabic, the first two levels involve 15 credits. The extra 3 credits will be counted towards the remainder of the program requirements.)

21 credits in Middle East Studies distributed as follows (18 credits if Arabic has been chosen):

6 - 9 credits listed under the heading of History (including at least 6 credits in core courses);

6 - 9 credits listed under the heading of Religion and Philosophy (including at least 6 credits in core courses);

3 - 6 credits listed under the heading of Social Sciences.

Note: see the Middle East Studies Course List for courses in each of the above categories.

HONOURS IN MIDDLE EAST STUDIES (60 credits)

The Honours program involves 60 credits in Middle East Studies.

Required Courses (6 credits)
MEST 495 (3) Middle East Studies: Research Seminar
MEST 496 (3) Independent Reading and Research
Complementary Courses (54 credits)

18 - 21 credits (3 levels) in one Middle Eastern language

9 - 15 credits listed under the heading of History (including at least 9 credits in core courses)

9 - 15 credits listed under the heading of Religion and Philosophy (including at least 6 credits in core courses)

6 - 12 credits listed under the heading of Social Sciences

Note: see the Middle East Studies Course List for courses in each of the above categories.

Honours students must maintain a program GPA of 3.30 in their Middle East Studies courses.

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00.

JOINT HONOURS – MIDDLE EAST STUDIES COMPONENT (36 credits)

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Required Course (3 credits)
MEST 495 (3) Middle East Studies: Research Seminar

Complementary Courses (33 credits)

Language:
12 credits (2 levels) in one Middle East language (in the case of Arabic, the first two levels involve 15 credits. The extra 3 credits will be counted toward the remainder of the program).

Middle East Studies:
21 credits (18 if Arabic has been chosen), distributed as follows:

6 - 9 credits listed under the heading of History (including at least 6 credits in core courses)

6 - 9 credits listed under the heading of Religion and Philosophy (including at least 6 credits in core courses)

3 - 6 credits listed under the heading of Social Sciences

Note: see the Middle East Studies Course List for courses in each of the above categories.

At least 6 credits must be at the 400 level or above.

Joint Honours students must maintain a program GPA of 3.30 in their Middle East Studies courses.

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00.

MIDDLE EAST STUDIES COURSE LIST

For the most up-to-date list of eligible courses, see www.mcgill.ca/mes.

Students wishing to take upper-level courses in Anthropology and Political Science are expected to take the necessary prerequisites.

Languages

Arabic (Islamic Studies)
ISLA 521D1 (4.5) Introductory Arabic
ISLA 521D2 (4.5) Introductory Arabic

Department of Performance Chair — André Roy

Adviser (B.A./B.Sc. Music programs) — B. Minorgan
514-398-4535, ext. 6333

Music Programs in Arts

Available within the Faculty of Arts are a Major and a Minor Concentration in Music. Arts students may also apply to the Minor in Musical Applications of Technology and the Minor in Musical Science and Technology.

Admission to the B.A. program is granted according to criteria established by the Faculty of Arts.

Students in the B.A. Freshman Program who are considering a Music Concentration should see the Freshman Adviser in Arts OASIS in Dawson Hall. They should also see the Music Adviser in order to ensure that they include any necessary prerequisite Music courses (based on the results of placement examinations) in their first-year selection.

Students interested in a more intensive music program, including practical instruction on an instrument or in voice and additional ensemble participation, should consider the B.Mus. degree or the diplomas offered by the Schulich School of Music; "Degrees and Diplomas Offered" in section 12.3.1.

MINOR CONCENTRATION IN MUSIC (18 credits) (Expandable)

Required Courses (6 credits)

MUTH 210 (3) Tonal Theory and Analysis 1*
MUTH 211 (3) Tonal Theory and Analysis 2*

* Students must take a diagnostic placement examination before registering for this course. If the appropriate level is not achieved on the examination, students will be required to register for Melody and Counterpoint MUTH 110 (3 credits) and/or Elementary Harmony and Analysis MUTH 111 (3 credits). These courses may *not* be counted toward the 18-credit Music Minor Concentration.

Complementary Courses (12 credits)

9 credits in Music History, Literature or Performance Practice, from any courses with an MUHL prefix at the 300 level – see list of courses in the Schulich School of Music section; an historical performance practice course with an MUPP prefix may be taken with Departmental permission.

3 credits in Music Theory, any course with an MUTH prefix at the 300-level.

MINOR CONCENTRATION IN MUSIC TECHNOLOGY

(18 credits) (Non-Expandable)
The Minor Concentration in Music Technology retired effective Fall 2008. Students currently registered in the program should consult their program adviser for guidance.

MINOR IN MUSICAL APPLICATIONS OF TECHNOLOGY

(18 credits) (Non-Expandable)
[Program registration cannot be done via Minerva.]

Detailed information about this program is found in section 12.6.2.11, "Minor in Musical Applications of Technology".

MINOR IN MUSICAL SCIENCE AND TECHNOLOGY

(18 credits) (Non-Expandable)
[Program registration cannot be done via Minerva.]

Detailed information about this program is found in section 12.6.2.12, "Minor in Musical Science and Technology".

MAJOR CONCENTRATION IN MUSIC (36 credits)

This Concentration studies music as a vital art form in contemporary society and in the history of Western civilization. Its central purpose emphasizes music within broader intellectual and cultural contexts; the Concentration's premise is that, as a product of culture, music must be considered in relation to the other humanistic disciplines. This degree could be an excellent preparation for graduate work in music (musicology, music theory, music librarianship, music journalism, arts administration) or for professional studies in other fields.

Students in the Major Concentration MUST consult the Adviser PRIOR to registration each year. Questions regarding the requirements of the B.A. Major Concentration and especially elective courses should be addressed to Arts OASIS in Dawson Hall.

Required Courses (13 credits)

MUTH 210 (3) Tonal Theory and Analysis 1*
MUTH 211 (3) Tonal Theory and Analysis 2*
MUSP 229 (2) Musicianship 3**
MUSP 231 (2) Musicianship 4**
MUHL 570 (3) Research Methods in Music

* Students must take a diagnostic placement examination before registering for this course. If the appropriate level is not achieved on the examination, students will be required to register for Melody and Counterpoint MUTH 110 (3 credits) and/or Elementary Harmony and Analysis MUTH 111 (3 credits). These courses may *not* be counted toward the 36-credit Music Major Concentration.

** Students must take a diagnostic placement examination in both Musicianship and Keyboard Proficiency before registering for this course. If the appropriate level is not achieved on these examinations, students will be required to register for Musicianship 1 MUSP 129 (2 credits) and/or Musicianship 2 MUSP 131 (2 credits) and/or Keyboard Proficiency MUSP 170 (1 credit) and/or Keyboard Lab 1 MUSP 171(1 credit) and/or Keyboard Lab 2 MUSP 172 (1 credit). These courses may *not* be counted toward the 36-credit Music Major Concentration.

Complementary Courses (23 credits)

9 credits in Music History, Literature or Performance Practice, from any courses with an MUHL prefix at the 300 level; an historical performance practice course with an MUPP prefix may be taken with Departmental permission.

6 credits in Music Theory from any course with an MUTH prefix at the 300 level; see list of courses in the Schulich School of Music section.

8 credits selected from:

MUTH 301 (3) Modal Counterpoint 1
MUTH 302 (3) Modal Counterpoint 2
MUTH 303 (3) Tonal Counterpoint 1
MUTH 304 (3) Tonal Counterpoint 2
MUTH 310 (3) Mid and Late 19th-Century Theory and Analysis
or MUTH 327 (4) 19th-Century Analysis
MUTH 311 (3) 20th-Century Theory and Analysis
or MUTH 427D1 (3) 20th-Century Analysis
and MUTH 427D2 (3) 20th-Century Analysis
MUTH 522D1 (3) Advanced Counterpoint
MUTH 522D2 (3) Advanced Counterpoint
MUTH 523D1 (3) Advanced Harmony
MUTH 523D2 (3) Advanced Harmony
MUTH 528 (3) Schenkerian Techniques
MUCO 230D1 (2) The Art of Composition
MUCO 230D2 (2) The Art of Composition
MUCO 260 (2) Instruments of the Orchestra
MUCO 261 (2) Elementary Orchestration
MUHL 220 (3) Women in Music
MUHL 3xx Music History complementary (maximum of 3 credits)

MUSIC ENSEMBLES

Arts students may, with the permission of the instructor and the Associate Dean (Student Affairs) of the Faculty of Arts, participate in one of the following ensembles in a given year. Auditions are held starting the week prior to the beginning of classes in September and continuing during that first week. The schedule and requirements for these auditions are available at the end of June from the Department of Performance office, 514-398-4542. Normally both the Fall and Winter sections of an ensemble are taken in the same academic year.

MUEN 496 (4) Opera Studio
MUEN 560 (1) Chamber Music Ensemble
MUEN 589 (1) Woodwind Ensembles
MUEN 590 (2) McGill Winds
MUEN 591 (1) Brass Ensembles
MUEN 593 (2) Choral Ensembles
MUEN 594 (2) Contemporary Music Ensemble
MUEN 595 (2) Jazz Ensembles
MUEN 597 (2) Orchestral Ensembles
MUEN 598 (1) Percussion Ensembles

COURSES OFFERED BY THE SCHULICH SCHOOL OF MUSIC AS ELECTIVES for students in the Faculties of Arts, Science, and Education

The courses referred to below are also open to students from other faculties. Other Music courses may be taken by qualified students from other faculties providing they obtain permission from the relevant department in the Schulich School of Music and from the Associate Dean of their own faculty.

All courses with the prefix MUAR. These are considered to be courses taught in the Faculty of Arts, but they cannot be credited toward the B.A. or B.Sc. Music programs.

The Music History and Literature (MUHL), Music Theory and Analysis (MUTH), and Music Technology (MUMT) courses listed below are considered by the Faculty of Arts as courses taught in the Faculty; **however,** the Faculty of Science considers them to be courses taught outside of the Faculty.

These courses are intended for students who have at least high school matriculation music or the equivalent. Students who do not have the formal music prerequisites require the permission of the Chair of the Department of Music Research to register for any of these courses.

MUHL (Music History and Literature)

MUHL 184 (3) History Survey Before 1750
MUHL 185 (3) History Survey After 1750
MUHL 220 (3) Women in Music

MUTH (Music Theory and Analysis)

Students not in the B.A. or B.Sc. Music programs are not required to take the corequisites for the following MUTH courses. However, students intending later to enter either the B.A. Major Concentration or the B.Mus. program would then be required to sit placement tests in Musicianship and Keyboard Proficiency and may be required to take the corequisite courses.

MUTH 110 (3) Melody and Counterpoint
MUTH 111 (3) Elementary Harmony and Analysis
MUTH 210 (3) Tonal Theory and Analysis 1
MUTH 211 (3) Tonal Theory and Analysis 2

MUMT (Music Technology)

MUMT 202 (3) Fundamentals of New Media
MUMT 203 (3) Introduction to Digital Audio
MUMT 301 (3) Music and the Internet
MUMT 302 (3) New Media Production 1
MUMT 303 (3) New Media Production 2

North American Studies provides a comprehensive view of civilization on this continent, with a special emphasis on the United States. The peoples of the continent are examined in the first instance from the perspective of economics, political science, literature, and history. Subsequent courses are available from several other disciplines as well. Foundation and capstone seminars constitute a vital part of the program. The goal is to attain mastery over diverse material and to develop an integrated knowledge of society on this continent.

Independent study, internships, and university exchange arrangements are available within the context of the program.

Graduates of the program are well prepared for several types of professional options, including those that require advanced degrees

MINOR CONCENTRATION IN NORTH AMERICAN STUDIES (18 credits) (Expandable)

Required Course (9 credits)

ECON 205 (3) An Introduction to Political Economy
HIST 211 (3) American History to 1865
NAST 401 (3) Interdisciplinary Seminar - North American Studies

Complementary Courses (9 credits)

9 credits to be chosen from at least two departments:

ECON 219 (3) Current Economic Problems: Topics
ECON 223 (3) Political Economy of Trade Policy
ECON 302D1 (3) Money and Banking
ECON 302D2 (3) Money and Banking

Charles Taylor; M.A., D.Phil.(Oxf.), F.R.S.C.

Professors
Mario A. Bunge; Ph.D.(LaPlata), F.R.S.C. (*John Frothingham Professor of Logic and Metaphysics*)
George Di Giovanni; B.A., M.A., S.T.B., Ph.D.(Tor.)
Storrs McCall; B.A.(McG.), B.Phil., D.Phil.(Oxf.)
Calvin Normore; B.A.(McG.), M.A., Ph.D.(Tor.)

Associate Professors
Alia Al-Saji; M.A.(Louvain), Ph.D.(Emory)
R. Philip Buckley; Ph.D.(Louvain)
Emily Carson; M.A.(McG.), Ph.D.(Harv.)
David Davies; B.A.(Oxf.), M.A.(Manit.), Ph.D.(W. Ont.)
Marguerite Deslauriers; B.A.(McG.), M.A., Ph.D.(Tor.)
Carlos Fraenkel; B.A., M.A., Ph.D.(Free Univ., Berlin) (*joint appoint. with Jewish Studies*)
Ian Gold; B.A., M.A.(McG.), Ph.D.(Prin.) (*joint appoint. with Psychiatry*)
Michael Hallett; B.Sc., Ph.D.(Lond.)
Alison Laywine; B.A.(Ott.), M.A.(Montr.), Ph.D.(Chic.)
Eric Lewis; B.A.(C'nell), Ph.D.(Ill.-Chic.)
James McGilvray; B.A.(Carleton College), Ph.D.(Yale)
Stephen Menn; M.A., Ph.D.(Chic.), M.A., Ph.D.(Johns H.)
Gregory Mikkelson; M.S., Ph.D.(Chic.) (*joint appoint. with McGill School of Environment*)
Natalie Stoljar; B.A, LL.B.(Syd.), Ph.D.(Prin.) (*joint appoint. with Social Studies of Medicine*)
Sarah Stroud; A.B.(Harv.), Ph.D.(Prin.)

Assistant Professors
Michael Blome-Tillmann; B.Phil., D.Phil.(Oxf.)
Gaëlle Fiasse; B.A., M.A., Ph.D.(Louvain) (*joint appoint. with Faculty of Religious Studies*)
Iwao Hirose; B.A., M.A.(Waseda), Ph.D.(St. And.) (*joint appoint. with McGill School of Environment*)
Andrew Reisner; B.A.(Middlebury), M.A.(Brist.), D.Phil.(Oxf.)
Hasana Sharp; A.B.(Occidental), M.A.(Binghampton), Ph.D.(Penn.)

Faculty Lecturers
William Roberts; Ph.D.(Penn. St.) (*joint appoint. with Political Science*)
Dirk Schlimm; Ph.D.(Carn. Mell) (*joint appoint. with Computer Science*)

Adjunct Professor
Steven Davis; (Car.)
Susan-Judith Hoffmann; (Dawson)
Iain Macdonald; (Montr.)

Auxiliary Professor
Konstantinos Arvanitakis; B.Sc., M.A., M.D., C.M.(McG.), D.Psy., C.I.P.C., C.C.M.Q., F.R.C.P., R.S.M.A.(U.K.) (*Can. Institute of Psychoanalysis*)

Associate Members
Brendan Gillon (*Linguistics*)
Lawrence Kaplan (*Jewish Studies*)
Robert Wisnovsky (*Islamic Studies*)

Broadly speaking, the principal aim of philosophy is to increase our understanding of ourselves, the world, and our place in it. Philosophy differs from the empirical and social sciences in important respects. One way to characterise philosophy is by the sorts of questions it seeks to answer, and the ways in which it seeks to answer them. Different areas of philosophy are characterised by the questions they address. For example, Epistemology inquires into the nature of knowledge, Metaphysics is concerned with the fundamental nature of the world and of the types of things that it contains, Ethics investigates the nature of moral judgment and moral reasoning, while Political Philosophy examines such matters as justice, freedom, rights, democracy, and power, and Logic is broadly the analysis of the structure of correct reasoning. In addition, there are the various "Philosophies of...", e.g., Philosophy of Science, Philosophy of Language, Philosophy of Mind, Philosophy of Religion.

Some of the courses in the Department are explicitly devoted to these specific areas of philosophy, each exploring one or several ways of construing and answering the questions it poses. Other courses explore some period or individual figure in the history of philosophy, approaching philosophical questions through the work of past thinkers, and often exploring connections between the different areas of philosophy.

The discipline of Philosophy, as a particular way of thinking, emphasizes clarity in expression, both written and oral, and rigour in argument. Philosophical questions are intriguing and hard, and so philosophical method stresses thoroughness and intellectual generosity – the willingness and ability to grasp another's arguments and respond to them. The Department requires of all (and only) Honours and Joint Honours students that they take a special 3-credit course (PHIL 301), the principal aim of which is to equip students with the distinctively philosophical skills required for advanced work in the field.

The B.A. in Philosophy is not a professional qualification. It prepares students for graduate work in philosophy and for study in other disciplines, e.g., Law. As the interdisciplinary discipline par excellence, philosophy also maintains and encourages ties with other fields, so many students will find that certain classes in philosophy are directly relevant to their major area of study. The department has a strong commitment to providing an intensive yet broad-based philosophical education. The research interests of members of the Department are wide-ranging.

See also the separate listing for History and Philosophy of Science (HPSC), section 6.12.27.

Note: Philosophy students may use either PHIL 200 or PHIL 201 towards their program requirements, but not both. Students may, however, take both for credit (using the second as an elective), as the content in PHIL 201 does not overlap with PHIL 200.

MINOR CONCENTRATION IN PHILOSOPHY (18 credits)

Complementary Courses (18 credits)
15 credits from Groups A - E, with one course from at least four of the five groups.

Group A

PHIL 230	(3)	Introduction to Moral Philosophy 1
PHIL 237	(3)	Contemporary Moral Issues
PHIL 242	(3)	Introduction to Feminist Theory
PHIL 334	(3)	Ethics 1
PHIL 343	(3)	Biomedical Ethics
PHIL 348	(3)	Philosophy of Law 1
PHIL 434	(3)	Ethics 2
PHIL 442	(3)	Topics in Feminist Theory

Group B

PHIL 210	(3)	Introduction to Deductive Logic 1
PHIL 220	(3)	Introduction to History and Philosophy of Science 1
PHIL 221	(3)	Introduction to History and Philosophy of Science 2
PHIL 304	(3)	Chomsky
PHIL 306	(3)	Philosophy of Mind
PHIL 310	(3)	Intermediate Logic

PHIL 341 (3) Philosophy of Science 1
PHIL 370 (3) Problems in Analytic Philosophy
PHIL 410 (3) Advanced Topics in Logic 1
PHIL 411 (3) Topics in the Philosophy of Logic and Mathematics
PHIL 415 (3) Philosophy of Language
PHIL 419 (3) Epistemology
PHIL 421 (3) Metaphysics
PHIL 441 (3) Philosophy of Science 2
PHIL 470 (3) Topics in Contemporary Analytic Philosophy

Group C
PHIL 375 (3) Existentialism
PHIL 474 (3) Phenomenology
PHIL 475 (3) Topics in Contemporary European Philosophy

Group D
PHIL 344 (3) Medieval and Renaissance Political Theory
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory

Group E
PHIL 360 (3) 17th Century Philosophy
PHIL 361 (3) 18th Century Philosophy
PHIL 366 (3) 18th and Early 19th Century German Philosophy
PHIL 367 (3) 19th Century Philosophy
PHIL 444 (3) Early Modern Political Theory
PHIL 445 (3) 19th Century Political Theory

3 additional credits from the lists above or from other Philosophy courses.

In total, no more than 9 credits may be at the 200 level, and at least 3 credits must be at the 400 or 500 level.

MAJOR CONCENTRATION IN PHILOSOPHY (36 credits)

Required Course (3 credits)
PHIL 210 (3) Introduction to Deductive Logic 1

Complementary Courses (33 credits)
33 credits, of which no more than 9 may be at the 200 level, and at least 9 must be at the 400 or 500 level, distributed as follows:

6 credits, one course from *each* of Groups A and B:
Group A
PHIL 304 (3) Chomsky
PHIL 306 (3) Philosophy of Mind
PHIL 310 (3) Intermediate Logic
PHIL 341 (3) Philosophy of Science 1
PHIL 370 (3) Problems in Analytic Philosophy
PHIL 410 (3) Advanced Topics in Logic 1
PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
PHIL 415 (3) Philosophy of Language
PHIL 419 (3) Epistemology
PHIL 421 (3) Metaphysics
PHIL 441 (3) Philosophy of Science 2
PHIL 470 (3) Topics in Contemporary Analytic Philosophy

Group B
PHIL 375 (3) Existentialism
PHIL 474 (3) Phenomenology
PHIL 475 (3) Topics in Contemporary European Philosophy

6 credits, two courses from Group C *OR* two from Group D:
Group C
PHIL 344 (3) Medieval and Renaissance Political Theory
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory

Group D
PHIL 360 (3) 17th Century Philosophy
PHIL 361 (3) 18th Century Philosophy
PHIL 366 (3) 18th and Early 19th Century German Philosophy
PHIL 367 (3) 19th Century Philosophy
PHIL 444 (3) Early Modern Political Theory
PHIL 445 (3) 19th Century Political Theory

6 credits, one course from *each* of Groups E and F:
Group E
PHIL 230 (3) Introduction to Moral Philosophy 1
PHIL 237 (3) Contemporary Moral Issues
PHIL 242 (3) Introduction to Feminist Theory

Group F
PHIL 334 (3) Ethics 1
PHIL 343 (3) Biomedical Ethics
PHIL 348 (3) Philosophy of Law 1
PHIL 434 (3) Ethics 2
PHIL 442 (3) Topics in Feminist Theory

15 additional credits from the lists above or from other Philosophy courses. Only one of PHIL 200 and PHIL 201 can be included in the program.

HONOURS IN PHILOSOPHY (60 credits)

Required Course (15 credits)
PHIL 210 (3) Introduction to Deductive Logic 1
PHIL 301 (3) Philosophical Fundamentals
PHIL 334 (3) Ethics 1
PHIL 499 (6) Tutorial 06
(Honours tutorial with thesis)

Complementary Courses (45 credits)

45 credits distributed as follows:

3 credits from the following:
PHIL 306 (3) Philosophy of Mind
PHIL 310 (3) Intermediate Logic
PHIL 370 (3) Problems in Analytic Philosophy
PHIL 410 (3) Advanced Topics in Logic 1
PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
PHIL 415 (3) Philosophy of Language
PHIL 419 (3) Epistemology
PHIL 421 (3) Metaphysics
PHIL 470 (3) Topics in Contemporary Analytic Philosophy

3 credits from the following:
PHIL 230 (3) Introduction to Moral Philosophy 1
PHIL 237 (3) Contemporary Moral Issues
PHIL 240 (3) Political Philosophy 1
PHIL 241 (3) Political Philosophy 2
PHIL 242 (3) Introduction to Feminist Theory

6 credits from the following:
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory

6 credits from the following:
PHIL 360 (3) 17th Century Philosophy
PHIL 361 (3) 18th Century Philosophy
PHIL 366 (3) 18th and Early 19th Century German Philosophy

PHIL 367 (3) 19th Century Philosophy
PHIL 444 (3) Early Modern Political Theory
PHIL 445 (3) 19th Century Political Theory

3 credits from the following:
PHIL 375 (3) Existentialism
PHIL 474 (3) Phenomenology
PHIL 475 (3) Topics in Contemporary European Philosophy

24 additional credits in Philosophy with 12 credits at the 400-500 level (not including the Honours tutorial PHIL 499), at least 3 credits of which must be at the 500-level.

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JOINT HONOURS – PHILOSOPHY COMPONENT (36 credits)

Required Course (9 credits)
PHIL 210 (3) Introduction to Deductive Logic 1
PHIL 301 (3) Philosophical Fundamentals
PHIL 334 (3) Ethics 1

Complementary Courses (27 credits)

27 credits distributed as follows:

3 credits from the following:
PHIL 306 (3) Philosophy of Mind
PHIL 310 (3) Intermediate Logic
PHIL 370 (3) Problems in Analytic Philosophy
PHIL 410 (3) Advanced Topics in Logic 1
PHIL 411 (3) Topics in Philosophy of Logic and Mathematics
PHIL 415 (3) Philosophy of Language
PHIL 419 (3) Epistemology
PHIL 421 (3) Metaphysics
PHIL 470 (3) Topics in Contemporary Analytic Philosophy

3 credits from the following:
PHIL 230 (3) Introduction to Moral Philosophy 1
PHIL 237 (3) Contemporary Moral Issues
PHIL 240 (3) Political Philosophy 1
PHIL 241 (3) Political Philosophy 2
PHIL 242 (3) Introduction to Feminist Theory

6 credits from Group A or 6 credits from Group B:

Group A
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory

Group B
PHIL 360 (3) 17th Century Philosophy
PHIL 361 (3) 18th Century Philosophy
PHIL 366 (3) 18th and Early 19th Century German Philosophy
PHIL 367 (3) 19th Century Philosophy
PHIL 444 (3) Early Modern Political Theory
PHIL 445 (3) 19th Century Political Theory

3 credits from the following:
PHIL 375 (3) Existentialism
PHIL 474 (3) Phenomenology
PHIL 475 (3) Topics in Contemporary European Philosophy

9 credits at the 400-500 level (not including the Honours tutorial), at least 3 credits of which must be at the 500 level.

3 credits of Honours tutorial with thesis, which can take either of two forms: a 6-credit interdisciplinary thesis, or a 3-credit thesis in philosophy i.e. PHIL 498 below.
PHIL 498 (3) Tutorial 05

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

ADMISSION TO HONOURS AND JOINT HONOURS
Students must attain a 3.00 CGPA and have a 3.00 GPA in Philosophy courses.

All Honours and Joint Honours students are bound by the following constraints:

- students may use a maximum of 15 credits from 200 level courses towards satisfaction of their program requirements in Philosophy;
- students cannot count both PHIL 200 and PHIL 201 towards satisfaction of their program requirements in Philosophy.

Minor in Cognitive Science
Students following Major or Honours programs in Philosophy with an interest in cognition may consider the Minor in Cognitive Science, described in the Faculty of Science section.

6.12.41 Philosophy and Western Religions (PHWR)

Program Chair — Carlos Fraenkel (*Philosophy and Jewish Studies*)

Program Committee
E. Caplan (*Jewish Studies*), M. Deslauriers (*Philosophy*), D. Farrow (*Religious Studies*), I. Henderson (*Religious Studies*), T. Kirby (*Religious Studies*), B. Levy (*Religious Studies*), S. Menn (*Philosophy*), R. Myles (*English and French Language Centre*), G. Oegema (*Religious Studies*), R. Wisnovsky (*Islamic Studies*)

This interdisciplinary program, in which the Department of Philosophy, the Institute of Islamic Studies, the Department of Jewish Studies and the Faculty of Religious Studies collaborate, was designed for students who wish to study the encounter between philosophy and the three Abrahamic religions (Judaism, Christianity, and Islam), an encounter which shaped the basic patterns of Western and Muslim intellectual history. The program covers the period from Antiquity to the Enlightenment during which philosophy and religious thought were inseparably interwoven, making visible the wide range of links between the intellectual worlds of these three religious traditions. Although the interaction between philosophy and religious thought continued in a variety of forms also after the Enlightenment's critique of religion, this critique transformed their relationship in a fundamental way, and for this reason will be used to delimit the chronological scope of the program. During the period in question, the impact of Greek philosophy on theologians, philosophers, and mystics within Judaism, Christianity, and Islam determined often in a decisive way – both positively and negatively – the interpretation of their Holy Scriptures, and their understanding of crucial religious concepts such as God, creation, revelation, providence, divine Law, and the origin of evil. The interdisciplinary approach takes into account that the history of the encounter in question crossed the linguistic, cultural and religious boundaries which define the areas of the traditional academic disciplines. This

approach permits the student to pursue the development of a philosophical or religious concept from its origin through the different historical and geographical contexts in which it was received by Jewish, Christian and Muslim thinkers.

In order to achieve its goal the program focuses on (i) the acquisition of relevant languages (Greek, Latin, Arabic, Hebrew), (ii) the history of Ancient, Medieval and Early Modern Philosophy, (iii) the Holy Scriptures and the history of Judaism, Christianity, and Islam, (iv) the reception and transformation of philosophical ideas in Jewish, Christian, and Islamic thought, and (v) the multiple points of contact among the different traditions of religious thought.

The program provides excellent preparation for graduate studies in Philosophy (with the appropriate choice of electives, or in combination with a Minor in Philosophy), in Religious Studies and, with the relevant language component, in Islamic Studies and Jewish Studies as well. Students wishing to pursue graduate studies in a particular discipline should consult about specific requirements with a faculty member of the corresponding department at McGill.

MINOR CONCENTRATION IN PHILOSOPHY AND WESTERN RELIGIONS (18 credits)

Students will benefit most from the Minor if they combine it with programs in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a Minor Concentration in one of the languages relevant to the academic field.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)

RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (15 credits)

Students must complete 6 credits in two of the following three categories: Philosophy and Western Religions; History of Philosophy; and Jewish, Christian and Islamic Thought.

3 - 6 credits*, Philosophy and Western Religions,
PHWR 300 (3) Philosophy & Western Religions 1
PHWR 301 (3) Philosophy & Western Religions 2
* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

3 - 6 credits, History of Philosophy,
at least one of:
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
The remaining credits, if any, to be chosen from:
CLAS 415 (3) Advanced Latin: Oratory
CLAS 426 (3) Advanced Greek: Philosophy
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 360 (3) 17th Century Philosophy
PHIL 452 (3) Later Greek Philosophy

3 - 6 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought.

MAJOR CONCENTRATION IN PHILOSOPHY AND WESTERN RELIGIONS (36 credits)

The Major Concentration in Philosophy and Western Religions has an option without language requirement (Option A), and an option with language requirement (Option B). The latter was designed for students who wish to acquire the linguistic skills allowing them to read and research source texts in the original languages. Students will benefit most from the Major Concentration if they combine it with a program in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a Minor Concentration in one of the languages relevant to the academic field.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)

RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (33 credits)
3 - 9 credits*, Philosophy and Western Religions,
PHWR 300 (3) Philosophy & Western Religions 1
PHWR 301 (3) Philosophy & Western Religions 2
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

24 - 30 credits taken in either Option A or Option B as follows:

Option A - Without Language Component
9 - 12 credits, History of Philosophy,
at least one of:
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
at least one of:
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 360 (3) 17th Century Philosophy
The remaining credits, if any, to be chosen from:
CLAS 415 (3) Advanced Latin: Oratory
CLAS 426 (3) Advanced Greek: Philosophy
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory
PHIL 551 (3) Seminar: Ancient Philosophy 2
PHIL 556 (3) Seminar: Medieval Philosophy
PHIL 560 (3) Seminar: 17th Century Philosophy

3 - 6 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

9 - 12 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought, with a maximum of 6 credits from any one of the three groups.

Option B - With Language Component

12 - 15 credits (two years: 12 credits, or in the case of Arabic, 15 credits) in one language (Greek, Latin, Arabic, or Hebrew), chosen from the PHWR Complementary Course List - Languages.
6 - 9 credits, History of Philosophy,
at least one of:
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
at least one of:
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 360 (3) 17th Century Philosophy
The remaining credits, if any, to be chosen from:
CLAS 415 (3) Advanced Latin: Oratory
CLAS 426 (3) Advanced Greek: Philosophy
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory
PHIL 551 (3) Seminar: Ancient Philosophy 2
PHIL 556 (3) Seminar: Medieval Philosophy
PHIL 560 (3) Seminar: 17th Century Philosophy

0 - 3 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

6 - 9 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought, with a maximum of 6 credits from any one of the three groups.

HONOURS IN PHILOSOPHY AND WESTERN RELIGIONS (60 credits)

The Honours Program in Philosophy and Western Religions was designed for students who wish (i) to explore in depth the intertwined intellectual worlds of Judaism, Christianity and Islam, and the interaction between philosophy and religion from Antiquity to the Enlightenment and (ii) to acquire the linguistic and conceptual tools allowing them to read source texts in the original languages, and to conduct research in the areas investigated by the interdisciplinary program. Students are encouraged to complete, in addition, a Minor Concentration in one of the languages relevant to the academic field.

Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

Students who combine the Honours Program with a Minor Concentration in one of the languages relevant to the academic field, or who have acquired proficiency in one language elsewhere may replace 6 credits of the language requirements through additional credits in other segments of the program.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)
RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (57 credits)
6 - 9 credits*, Philosophy and Western Religions,
PHWR 300 (3) Philosophy & Western Religions 1
PHWR 301 (3) Philosophy & Western Religions 2
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

9 - 12 credits, History of Philosophy,
at least one of:
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
at least one of:
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 360 (3) 17th Century Philosophy
The remaining credits, if any, to be chosen from:
CLAS 415 (3) Advanced Latin: Oratory
CLAS 426 (3) Advanced Greek: Philosophy
PHIL 345 (3) Greek Political Theory
PHIL 350 (3) History and Philosophy of Ancient Science
PHIL 353 (3) The Presocratic Philosophers
PHIL 452 (3) Later Greek Philosophy
PHIL 453 (3) Ancient Metaphysics and Natural Philosophy
PHIL 454 (3) Ancient Moral Theory
PHIL 551 (3) Seminar: Ancient Philosophy 2
PHIL 556 (3) Seminar: Medieval Philosophy
PHIL 560 (3) Seminar: 17th Century Philosophy

3 - 6 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

9 - 12 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought, with a maximum of 6 credits from any one of the three groups.

18 - 21 credits chosen from the PHWR Complementary Course List - Languages (Greek, Latin, Arabic, or Hebrew):
12 - 15 credits (two years: 12 credits, or in the case of Arabic 15 credits) in one language and 6 - 9 credits (one year: 6 credits or in the case of Arabic, 9 credits) in a second language relevant to the program.

6 credits, specialized skills for conducting research, chosen from:
PHWR 400 (3) Joint Honours/Honours Tutorial
PHWR 401 (3) Honours Thesis Tutorial 1
PHWR 402 (3) Honours Thesis Tutorial 2
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

JOINT HONOURS – PHILOSOPHY AND WESTERN RELIGIONS COMPONENT (36 credits)

The Joint Honours Philosophy and Western Religions Component was designed for students who wish (i) to explore the intertwined intellectual worlds of Judaism, Christianity and Islam, and the interaction between philosophy and religion from Antiquity to the Enlightenment and (ii) to acquire the linguistic and conceptual tools allowing them to read source texts in the original languages, and to conduct research in the areas investigated by the interdisciplinary program. Students will benefit most from the Joint Honours if they combine it with a program in Philosophy, Islamic Studies, Jewish Studies, Religious Studies, or Classics. Students are also encouraged to complete a Minor Concentration in one of the languages relevant to the academic field.

Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

Students are strongly encouraged to consult an adviser each year to devise a suitable course combination.

Note: Not all courses listed below are offered every year, and some of the courses have limited enrolment.

Required Course (3 credits)
RELG 307 (3) Bible, Quran & Interpretations

Complementary Courses (33 credits)
3 - 9 credits*, Philosophy and Western Religions,
PHWR 300 (3) Philosophy & Western Religions 1
PHWR 301 (3) Philosophy & Western Religions 2
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

* Students are strongly encouraged to take both PHWR 300 and PHWR 301.

3 - 6 credits, History of Philosophy,
at least one of:
PHIL 354 (3) Plato
PHIL 355 (3) Aristotle
The remaining credits, if any, to be chosen from:
CLAS 415 (3) Advanced Latin: Oratory
CLAS 426 (3) Advanced Greek: Philosophy
PHIL 356 (3) Early Medieval Philosophy
PHIL 357 (3) Late Medieval and Renaissance Philosophy
PHIL 360 (3) 17th Century Philosophy
PHIL 452 (3) Later Greek Philosophy

0 - 3 credits to be chosen from the PHWR Complementary Course List - Scriptures and History of the Western Religious Traditions.

6 credits to be chosen from the PHWR Complementary Course List - Jewish, Christian, and Islamic Thought.

12 - 15 credits (two years: 12 credits, or in the case of Arabic 15 credits) in one language (Greek, Latin, Arabic, or Hebrew), chosen from the PHWR Complementary Course List - Languages.

3 credits, specialized skills for conducting research, chosen from:
PHWR 400 (3) Joint Honours/Honours Tutorial
PHWR 500D1 (1.5) Interdisciplinary Seminar
PHWR 500D2 (1.5) Interdisciplinary Seminar

Chair — Richard Schultz

Emeritus Professors
Baldev Raj Nayar; B.A., M.A.(Punjab), M.A., Ph.D.(Chic.)
Blema Steinberg; B.A.(McG.), M.A.(C'nell), Ph.D.(McG.)

Professors
Michael Brecher; B.A.(McG.), M.A., Ph.D.(Yale), F.R.S.C. (*R.B. Angus Professor of Economics and Political Science*) (*on leave Winter 2010*)
Mark R. Brawley; B.A.(Calif.), M.A., Ph.D.(Calif.-LA) (*on leave 2009-2010*)
Rex Brynen; B.A.(Vic. (BC)), M.A., Ph.D.(Calg.)
Elisabeth Gidengil; B.A.(LSE), M.A.(NYU), Ph.D.(McG.)
Jody Heymann; B.A.(Yale), M.D., Ph.D.(Harv.) *(Canada Research Chair)*
Christopher Manfredi; B.A., M.A.(Calg.), M.A., Ph.D.(Claremont)
T.V. Paul; B.A.(Kerala), M.Phil.(JNU), M.A., Ph.D.(Calif.-LA) (*James McGill Professor*)
Filippo Sabetti; B.A.(McM.), M.A., Ph.D.(Ind.)
Richard Schultz; B.A.(York (Can.)), M.A.(Manc.), Ph.D.(York) (*James McGill Professor*)
Harold M. Waller; M.S.(N'western), Ph.D.(G'town)

Associate Professors
Arash Abizadeh; B.A.(Winn.), M.Phil.(Oxf.), Ph.D.(Harv.)
Juliet Johnson; A.B.(Stan.), M.A., Ph.D.(Prin.)
Jacob Levy; A.B.(Brown), M.A., Ph.D.(Prin.)
Catherine Lu; B.A., M.A.(Br. Col.), Ph.D.(Tor.)
Antonia Maioni; M.A.(Car.), Ph.D.(N'western) (*William Dawson Scholar*)
Hudson Meadwell; B.A.(Man.), M.A., Ph.D.(Duke) (*on leave 2009-2010*)
Philip D. Oxhorn; B.A.(Redlands), M.A.(Cant.), Ph.D.(Harv.) (*on leave 2009-2010*)
Stephen Saideman; B.A.(Oberlin), M.A., Ph.D.(Calif.-San Diego) (*Canada Research Chair*)
Stuart Soroka; B.A.(Qu.), M.A.(Car.), Ph.D.(Br. Col.) (*William Dawson Scholar*)
Dietlind Stolle; M.A.(Claremont), Ph.D.(Prin.)
Narendra Subramanian; B.A.(Prin.), M.A., Ph.D.(MIT) (*on leave 2009-2010*)

Assistant Professors
Éric Bélanger; B.A., M.A.(Laval), Ph.D.(Montr.)
Erik Kuhonta; B.A.(Penn.), Ph.D.(Prin.) (*on leave Fall 2009*)
Khalid Medani; B.A.(Brown), M.A.(G'town), M.A., Ph.D.(Calif., Berk.)
Victor Muniz Fraticelli; B.A.(C'nell), J.D.(Puerto Rico), M.A., Ph.D.(Chic.)
Maria Popova; B.A.(Dart.), Ph.D.(Harv.) (*on leave Fall 2009*)
Vincent Pouliot; B.Sc.(Montr.), D.E.A.(Bordeaux), Ph.D.(Tor.)
Christa Scholtz; B.A.(Alta.), M.A.(Ott.), Ph.D.(Prin.)
Christina Tarnopolsky; B.A.(Tor.), M.A., Ph.D.(Chic.)

Faculty Lecturers
Jason Ferrell; M.A.(Tulane), Ph.D.(McG)
William Clare Roberts; B.A.(Carl. Coll.), Ph.D.(Penn. St.)

Students wishing to do an Honours degree or a Major or Minor Concentration in Political Science should consult with a Political Science Departmental Adviser each year in order to devise a suitable program. Proper selection of courses is required if a student wishes to graduate on time.

1. Procedure for NEW Students

All new students entering the Political Science Program (including Minor Concentrations) are strongly urged to attend an Information Meeting scheduled at the end of August. The date and location of the meeting will be posted on the web. Attendance will help students prepare for their session with an adviser. It is the student's responsibility to be in Montreal for the meeting. The following brochures are available on the web: "Programs in Political Science," and "Minor Concentrations in Political Science". It is essential to read through these prior to attending the Information Meeting.

2. For all Political Science Students

"Programs in Political Science," and "Minor Concentrations in Political Science," are all available in the Department as well as on the web. Students wishing to have courses taken at other universities counted as satisfying program requirements must bring copies of their transcripts and course syllabi to the Director of the Major or Honours Program or the Director of Undergraduate Studies. Students are not accepted into the Honours Program in Political Science until their second year in Political Science; an exception is made for those in Joint Honours Programs.

As course and personnel changes may occur after this Calendar has gone to press, students should not use it to plan their program of studies without first consulting the Department Office for updated information.

MINOR CONCENTRATION IN POLITICAL SCIENCE
(18 credits) (Expandable)

Complementary Courses (18 credits)
6 - 9 credits at the 200 level, from at least two fields:

Canadian Politics Field
POLI 221 (3) Government of Canada
POLI 222 (3) Political Process and Behaviour in Canada
POLI 226 (3) La vie politique Québécoise

Comparative Politics Field
POLI 211 (3) Comparative Government and Politics
POLI 212 (3) Government and Politics - Developed World
POLI 227 (3) Developing Areas/Introduction

International Relations Field

POLI 346 (3) American Foreign Policy
POLI 349 (3) Foreign Policy-Asia Pacific

MINOR CONCENTRATION IN POLITICAL THEORY
(18 credits)

This program offers a specialization in the subfield of political theory and allows students the opportunity to draw on closely-related courses in moral and political philosophy offered by the Department of Philosophy. Students who have completed the appropriate introductory work in the disciplines of classics, economics, history, or sociology may take specified courses in these disciplines toward the program requirements.

Complementary Courses (18 credits)

Category A (9 credits)

3 credits at the introductory level selected from:
POLI 231 (3) Introduction to Political Theory
POLI 232 (3) Modern Political Thought
PHIL 240 (3) Political Philosophy 1

At least 6 credits selected from:
POLI 333 (3) Western Political Theory 1
POLI 334 (3) Western Political Theory 2
POLI 433 (3) History of Political/Social Theory 3
POLI 434 (3) History of Political/Social Theory 4

Category B (9 credits)

9 additional credits from the following list.
Note that a course used toward Category A may not also be used toward Category B.
POLI 333 (3) Western Political Theory 1
POLI 334 (3) Western Political Theory 2
POLI 362 (3) Political Theory and International Relations
POLI 363 (3) Contemporary Political Theory
POLI 364 (3) Radical Political Thought
POLI 365 (3) Democratic Theory
POLI 366 (3) Topics in Political Theory 1
POLI 367 (3) Liberal Political Theory
POLI 433 (3) History of Political/Social Theory 3
POLI 434 (3) History of Political/Social Theory 4
POLI 455 (3) American Political Thought
POLI 459 (3) Topics in Political Theory 2
POLI 470 (3) Philosophy, Economy and Society
PHIL 334 (3) Ethics 1
PHIL 344 (3) Medieval and Renaissance Political Theory

PHIL 348 (3) Philosophy of Law 1
PHIL 442 (3) Topics in Feminist Theory
PHIL 444 (3) Early Modern Political Theory
PHIL 445 (3) 19th Century Political Theory
PHIL 454 (3) Ancient Moral Theory
CLAS 416 (3) Advanced Latin: Philosophy
CLAS 426 (3) Advanced Greek: Philosophy
ECON 334 (3) History of Economic Doctrines
HIST 320 (3) European Thought and Culture 1
HIST 321 (3) European Thought and Culture 2

SOCI 330 (3) Sociological Theory

MINOR CONCENTRATION IN POLITICAL ECONOMY
(Non-expandable) (18 credits)

Complementary Courses (18 credits)

3 credits selected from:
POLI 211 (3) Comparative Government and Politics
POLI 227 (3) Developing Areas/Introduction
POLI 243 (3) International Politics of Economic Relations

3 credits selected from:
ECON 208 (3) Microeconomic Analysis and Applications
ECON 209 (3) Macroeconomic Analysis and Applications

Students who take ECON 230D1/ECON 230D2 (Microeconomic Theory) or ECON 250D1/ ECON 250D2D (Introduction to Economic Theory: Honours) are deemed to have fulfilled the economics requirement.
But, please note that the 3 complementary economic credits must be replaced with a political science course from the list below.

12 credits selected from:
POLI 243 (3) International Politics of Economic Relations
POLI 315 (3) Approaches to Political Economy
POLI 321 (3) Issues: Canadian Public Policy
POLI 354 (3) Approaches to International Political Economy
POLI 416 (3) Political Economy of Canada
POLI 441 (3) IPE: Trade
POLI 445 (3) International Political Economy: Monetary Relations
POLI 451 (3) The European Union
POLI 469 (3) Politics of Regulation
POLI 473 (3) Democracy and the Market

MINOR CONCENTRATION IN POLITICS, LAW AND SOCIETY
(Non-expandable) (18 credits)

Required Courses (6 credits)
POLI 211 (3) Comparative Government and Politics
POLI 378 (3) The Canadian Judicial Process

Complementary Courses (12 credits)
3 credits selected from:
POLI 221 (3) Government of Canada
POLI 222 (3) Political Process and Behaviour in Canada

9 credits selected from the following, at least 6 credits must be non-political science credits and no more than 3 credits at the 200 level:
ANTH 222 (3) Legal Anthropology
HIST 344 (3) Police Institutions
ISLA 383 (3) Central Questions in Islamic Law
JWST 201 (3) Jewish Law
JWST 316 (3) Social and Ethical Issues in Jewish Law 1
LEEL 482* (3) Law and Poverty
PHIL 348 (3) Philosophy of Law 1
POLI 318 (3) Comparative Local Government
POLI 321 (3) Issues: Canadian Public Policy
POLI 330 (3) Law and Courts in Europe
POLI 337 (3) Canadian Public Administration
POLI 417 (3) Health Care in Canada
POLI 447 (3) Canadian Constitutional Politics
POLI 466 (3) Public Policy Analysis
POLI 469 (3) Politics of Regulation
POLI 478 (3) The Canadian Constitution
PRV2 500* (3) Children and Law
SOCI 388 (3) Crime
SOCI 418 (3) Human Rights and Humanitarianism
SOCI 488 (3) Punishment and Prisons
* Procedure for taking Law courses: to take these courses, the student must apply as a Special Student through the Faculty of Law and provide the following: curriculum vitae, copy of academic record and reason for wanting to take the course.

MINOR CONCENTRATION IN SOUTH ASIA (Non-expandable)
(18 credits)

Required Courses (6 credits)
POLI 227 (3) Developing Areas/Introduction
POLI 322 (3) Political Change in South Asia

Complementary Courses (12 credits)
3 - 6 credits selected from:
ANTH 327 (3) Peoples of South Asia
ISLA 500D1 (3) History of Islamic India
ISLA 500D2 (3) History of Islamic India
RELG 252 (3) Hinduism and Buddhism
RELG 344 (3) Maháyána Buddhism
RELG 348 (3) Classical Hinduism
RELG 350 (3) Bhakti Hinduism
RELG 454 (3) Modern Hindu Thought

6 - 9 credits selected from:
ANTH 212 (3) Anthropology of Development
ANTH 327 (3) Peoples of South Asia
ANTH 427 (3) Social Change in South Asia
ISLA 505 (3) Major Themes of Islamic Religious Expression
ISLA 506 (3) Islam: Later Development
RELG 339 (3) Gender & Sexuality in Buddhism
RELG 342 (3) Theravada Buddhist Literature
RELG 371 (3) Ethics of Violence/Non-Violence
SOCI 254 (3) Development and Underdevelopment

MAJOR CONCENTRATION IN POLITICAL SCIENCE
(36 credits)

Complementary Courses (36 credits)
36 credits of Political Science courses, as follows:

No more than one-half (18 credits) of the credits in a single field. (If the field in question is Comparative Politics, the maximum is 21 credits, provided courses are taken in both Developed Areas and Developing Areas.)

In the first year of the program, students are advised to select 12 - 15 credits from at least *three* of the four main fields (Comparative Government and Politics, Canadian and Quebec Government and Politics, International Politics, Political Theory).

No more than 15 of the 36 credits may be at the 200 level.

In the final year, no program courses may be taken below the 300 level.

Students may take only one 500-level Political Science Honours Seminar and it is to be taken in the final year.

The normal course load for a first-year student is 30 credits; a typical course distribution is given in the Departmental guidelines. First-year students normally may take courses at the 200 level only. First-year students in the second term of a 90-credit program may, with the approval of their adviser at Course Change period, transfer into one 300-level course provided that they have obtained an average of B+ in their first-term courses and that they have taken the prerequisite 200-level course. Second-year students in the third term of a 120-credit program may take one 300-level course provided they have taken the prerequisite course at the 200 level.

HONOURS IN POLITICAL SCIENCE (54 credits)

Note: The following provides only a summary view of the program. Detailed information is provided in the handout "Programs in Political Science," available from the Department or on the web; all Honours and potential Honours students must read it before seeing an adviser.

The Honours program in Political Science consists of 54 credits, of which 48 must be in Political Science. The remaining 6 credits must be in related social studies disciplines and must be taken at the 300- or 400-level.

Students wishing to take Honours Political Science will be admitted to the program in their second year in Political Science. In their first year in political science, they should register as Major

students and take 12-15 credits in Political Science spread over at least three of the four main fields offered by the Department (Comparative Politics, Canadian and Québec Politics, International Politics, Political Theory). Potential Honours students are also strongly encouraged to take one of the basic courses in economic analysis (ECON 208 and ECON 209 or ECON 230D1/ ECON 230D2). The introductory course requirements in the various fields of Political Science are the same as those presented in the description of the Major program above.

Students in the Honours Political Science program are encouraged to concentrate in one or two of the major fields offered by the Department. While concentration is considered beneficial, excessive specialization is discouraged. Students will normally not be permitted to take more than half their Political Science credits in any one field. Honours students are required to take a 3-credit course in Methods (POLI 311) and a 3-credit course in Political Theory (at any level). They are also required to take one-quarter of their Political Science credits (12 credits) at the 400 level or higher, including at least one 500- or 600-level Seminar. Students can satisfy this one-quarter rule by taking one 400-, one 500-, and one 600-level course. **Students who do not have the prerequisite(s) for a course may be asked to withdraw from the course.** Further information may be obtained from one of the Honours advisers.

Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.30.

JOINT HONOURS – POLITICAL SCIENCE COMPONENT
(36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines; see section 6.11.4 “Joint Honours Programs” for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Note: The following provides only a summary view of the program. Detailed information is provided in the handout “Programs in Political Science,” available from the Department; all Joint Honours and potential Joint Honours students must read it before seeing an adviser.

To meet the requirements for Joint Honours degrees, students must complete 36 credits in Political Science and meet the requirements set forth by the other Department. Students wishing to follow a Joint Honours program will be admitted in their first year in political science. Joint Honours students normally take 12 credits in Political Science, 12 credits in the other Honours subject and 6 credits of other courses in each year of their program.

In the first year in political science, the 12 credits in Political Science should cover at least two (preferably three) of the four main fields offered by the Department. While some concentration is encouraged, students will normally not be permitted to take more than half their Political Science credits in any one field. Joint Honours students are required to take a Political Science course in Methods (POLI 311) unless they are authorized to take an equivalent social science methods course in another department (Sociology, Economics). In that case they are required to take a course (at any level) in Political Theory. They are also required to take one-quarter of their Political Science credits (i.e., 9 credits) at the 400 level or higher, including at least one 500- or 600-level Seminar. Students can satisfy the one-quarter rule by taking one 500- and one 600-level course. **Students who do not have the prerequisite(s) for a course may be asked to withdraw from the course.**

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.30.

HONOURS STANDARDS

To enter, remain and graduate in Honours, students must achieve/maintain a 3.3 average in their political science courses and more than half of the political science grades must be at the B+ level or higher. To be awarded First Class Honours at graduation, in addition to a 3.50 CGPA, students must achieve a 3.6 average in their political science courses and more than half of political science grades must be at the A- level or higher. All political science courses taken at McGill are counted in determining a student's standing. (The specific criteria are given in the brochure “Programs in Political Science,” which may also be found on the Department website.) To be awarded Honours at graduation, students must be registered in the Honours program in their final year. At graduation, students' Honours standing will be determined by their overall record in the Honours program.

Further information may be obtained from the Head of the Honours program.

6.12.43 Psychology (PSYC)

Stewart Biological Sciences Building, Room W8/1
1205 Docteur Penfield Avenue
Montreal, QC H3A 1B1

Telephone: 514-398-6100
Fax: 514-398-4896
Email: info@psych.mcgill.ca
Website: www.psych.mcgill.ca

The Psychology department offers programs in both Arts and Science. For a list of teaching staff and an outline of the nature of Psychology refer to the Science entry “Psychology (PSYC)” in section 14.13.32. Programs which may be taken by Arts students are described in this section, those listed under the Faculty of Science may be taken by Science students only.

Note: The B.A. (or B.Sc.) with a Major Concentration or Honours degree in psychology is not a professional qualification. It does not qualify the individual to carry on professional work in psychology.

INFORMATION MEETINGS FOR NEW STUDENTS

All new students entering the Psychology undergraduate program are required to attend an Information Meeting prior to registration. Students planning to pursue a Bachelor of Arts, or a Bachelor of Arts and Science, with a Major Concentration in Psychology **must** attend one of these meetings. Newly admitted students from CEGEPs should attend the information session on Wednesday, June 17th at 10:00 am in room N2/2 of the Stewart Biological Sciences building. There will be an identical information session on Monday, August 24th at 1:00 pm in room N2/2 of the Stewart Biological Sciences building for all other students, and for any CEGEP students who could not attend the earlier meeting. Students accepted into the Bachelor of Science program must attend a different information meeting. (For details, see section 14.13.32 “Psychology (PSYC)”.) At this meeting, Jessey Bernstein, the Academic Adviser, will explain the requirements of the Department's programs. Incoming students will have an opportunity to ask questions and receive advice on how to plan their courses. After this meeting students will make appointments for individual advising sessions and fill out their Study Plan form for registration.

Entering students must bring their letter of acceptance and a copy of their collegial transcript(s). They will also need this Calendar and a preliminary Class Schedule before their individual advising session. Students will also find the Psychology Department Handbook helpful. It contains more detailed descriptions of Psychology courses and provides guidelines for how students might pursue particular areas of interest. The Handbook is available on the Department website: www.psych.mcgill.ca/ugrad/ugradm.htm.

Students entering the Psychology program in January are strongly encouraged to visit the Academic Adviser, Jessey Bernstein, in early December to clarify their course selections.

COURSE GROUPS: LIST A AND LIST B

The study of psychology covers many fields. To develop a breadth of understanding in psychology, students are expected to obtain knowledge beyond the introductory level in two or more areas of psychology. To ensure this requirement is met, Psychology

courses are divided into two lists. List A covers the areas of behavioural neuroscience, cognition and quantitative methods. List B covers social, health and developmental psychology.

List A (Behavioural Neuroscience, Cognition and Quantitative Methods)

NSCI 201 (3) Introduction to Neuroscience 2
PSYC 301 (3) Animal Learning & Theory
PSYC 310 (3) Human Intelligence
PSYC 311 (3) Human Cognition and the Brain
PSYC 315 (3) Computational Psychology
PSYC 317 (3) Genes and Behaviour
PSYC 318 (3) Behavioural Neuroscience 2
PSYC 329 (3) Introduction to Auditory Cognition
PSYC 340 (3) Psychology of Language
PSYC 341 (3) The Psychology of Bilingualism
PSYC 342 (3) Hormones and Behaviour
PSYC 352 (3) Cognitive Psychology Laboratory
PSYC 353 (3) Laboratory in Human Perception
PSYC 403 (3) Modern Psychology in Historical Perspective
PSYC 406 (3) Psychological Tests
PSYC 410 (3) Special Topics in Neuropsychology
PSYC 413 (3) Cognitive Development
PSYC 427 (3) Sensorimotor Behaviour
PSYC 451 (3) Human Factors Research and Techniques
PSYC 470 (3) Memory and Brain
PSYC 502 (3) Psychoneuroendocrinology
PSYC 505 (3) The Psychology of Pain
PSYC 510 (3) Statistical Analysis of Tests
PSYC 522 (3) Neurochemistry and Behaviour
PSYC 526 (3) Advances in Visual Perception
PSYC 529 (3) Music Cognition
PSYC 531 (3) Structural Equation Models
PSYC 532 (3) Cognitive Science
PSYC 536 (3) Correlational Techniques
PSYC 537 (3) Advanced Seminar in Psychology of Language
PSYC 541 (3) Multilevel Modelling
PSYC 545 (3) Topics in Language Acquisition
PSYC 561 (3) Methods: Developmental Psycholinguistics
PSYC 562 (3) Measurement of Psychological Processes

List B (Social, Health and Developmental Psychology)

PSYC 304 (3) Child Development
PSYC 316 (3) Psychology of Deafness
PSYC 331 (3) Inter-Group Relations
PSYC 332 (3) Introduction to Personality
PSYC 333 (3) Personality and Social Psychology
PSYC 337 (3) Introduction: Abnormal Psychology 1
PSYC 338 (3) Introduction: Abnormal Psychology 2
PSYC 343 (3) Language Acquisition in Children
PSYC 351 (3) Research Methods in Social Psychology
PSYC 408 (3) Principles of Cognitive Behaviour Therapy
PSYC 409 (3) Positive Psychology
PSYC 412 (3) Developmental Psychopathology
PSYC 414 (3) Social Development
PSYC 416 (3) Topics in Child Development
PSYC 429 (3) Health Psychology
PSYC 436 (3) Human Sexuality and its Problems
PSYC 471 (3) Human Motivation
PSYC 473 (3) Social Cognition and the Self
PSYC 474 (3) Interpersonal Relationships
PSYC 491D1 (3) Advanced Study: Behavioural Disorders
PSYC 491D2 (3) Advanced Study: Behavioural Disorders
PSYC 507 (3) Emotions, Stress, and Illness
PSYC 511 (3) Infant Competence
PSYC 512 (3) Advanced Personality Seminar
PSYC 528 (3) Vulnerability to Depression
PSYC 530 (3) Applied Topics in Deafness
PSYC 533 (3) International Health Psychology
PSYC 535 (3) Advanced Topics in Social Psychology

Unclassified Courses

PSYC 395 (6) Psychology Research Project 1
PSYC 450D1 (4.5) Research Project and Seminar
PSYC 450D2 (4.5) Research Project and Seminar
PSYC 488D1 (1.5) Special Topics Seminar
PSYC 488D2 (1.5) Special Topics Seminar
PSYC 492 (3) Special Topics Seminar 1
PSYC 493 (3) Special Topics Seminar 2
PSYC 494D1 (4.5) Psychology Research Project
PSYC 494D2 (4.5) Psychology Research Project
PSYC 495 (6) Psychology Research Project 2
PSYC 499 (1) Reading Project

MINOR CONCENTRATION IN PSYCHOLOGY (18 credits) (Expandable)

Students registered in a Bachelor of Arts program in another department may pursue a Minor Concentration in Psychology. This Minor Concentration is expandable for students who may wish to transfer into a Major Concentration in Psychology at a later date.

Recommended background: Students are advised to complete a course in Introductory Psychology at the collegial or freshman level. Students who have not previously completed CEGEP Psychology 350-101 or 350-102 or equivalent are required to complete PSYC 100 during the first year of study at McGill.

Complementary Courses (18 credits)

6 credits selected from:

PSYC 204 (3) Introduction to Psychological Statistics
PSYC 211 (3) Intro Behavioral Neuroscience
PSYC 212 (3) Perception
PSYC 213 (3) Cognition
PSYC 215 (3) Social Psychology

12 credits in Psychology at the 300 level or above.

MINOR CONCENTRATION IN BEHAVIOURAL SCIENCE (18 credits) (Non-expandable) (Open only to students registered in the Major Concentration In Psychology)

Students who wish to go on to graduate training in Psychology, and those who may wish to apply for membership in the Ordre des Psychologues du Québec (once the additional graduate requirements of the Ordre have been completed), are advised to take the following supplementary Minor Concentration in Behavioural Science. Note that this counts as a *second* Minor Concentration, and is open only to students registered in the Major Concentration In Psychology. A first Minor Concentration must also be completed in a discipline other than Psychology.

Complementary Courses (18 credits)

3 credits in Psychology from List A
3 credits in Psychology from List B
3 credits in Psychology at the 400 or 500 level
9 credits at the 300 level or above from one or more of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING), or Sociology (SOCI)

MAJOR CONCENTRATION IN PSYCHOLOGY (36 credits)

Students with a Major Concentration in Psychology must obtain a minimum grade of C in all 36 credits of the program. A grade lower than C may be made up by taking another equivalent course (if there is one), by successfully repeating the course, or by successfully writing a supplemental examination (if there is one).

The Major Concentration in Psychology does not provide sufficient undergraduate background to enable students to apply for membership in the Ordre des Psychologues du Québec, even once the additional graduate requirements of the Ordre have been completed. Students who are interested in practising psychology in Quebec are advised to also complete the Minor Concentration in Behavioral Science.

Recommended Background:
Students registered in a Bachelor of Arts degree with a Major Concentration or Honours program in Psychology, and those registered in a Bachelor of Arts and Science degree with a Major Concentration or Joint Honours Component in Psychology, are advised to complete courses in Introductory Psychology and Human Biology at the collegial level.

Students who have not previously completed Psychology 350-101 or 350-102 in CEGEP will be required to register for PSYC 100 during their U1 year. Bachelor of Arts students who have not completed one of Biology 101-301, 101-401, 101-911 or 101-921 in CEGEP will be required to complete BIOL 115 (or, if they prefer, BIOL 111 or BIOL 112) during their U1 year. Bachelor of Arts and Science students who have not completed one course in General Biology (CEGEP objective OOUK, OOXU or equivalent) will be required to complete one of BIOL 111 or BIOL 112 during their U1 year.

All students who have completed either Mathematics 201-307 or 201-337 or equivalent, or the combination of Quantitative Methods 360-300 with Mathematics 201-300, and who obtained a minimum grade of 75%, will be exempt from PSYC 204. Bachelor of Arts students will replace this requirement with 3 credits at the 300 level in one of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING) or Sociology (SOCI). Bachelor of Arts and Science students will replace this requirement with 3 credits in Psychology at the 300 level or above.

Required Courses (18 credits)
PSYC 204 (3) Introduction to Psychological Statistics
PSYC 211 (3) Intro Behavioral Neuroscience
PSYC 212 (3) Perception
PSYC 213 (3) Cognition
PSYC 215 (3) Social Psychology
PSYC 305 (3) Statistics for Experimental Design

Complementary Courses (18 credits)
3 credits in Psychology from List A
3 credits in Psychology from List B
12 credits in Psychology, at least 6 at the 400 or 500 level

Note: Students who wish to apply to the Honours Program in Psychology must complete the following courses in their U1 year to be eligible for admission: PSYC 204, PSYC 211, PSYC 212, PSYC 213, PSYC 215. Students who have been exempted from PSYC 204 are advised to complete PSYC 305 in U1. All students must complete a minimum of 27 graded credits in U1 to be eligible for admission to the Honours Program.

B.A. HONOURS IN PSYCHOLOGY (60 credits)

Honours in Psychology prepares students for graduate study, and so emphasises practice in the research techniques which are used in graduate school and professionally later on. Students are accepted into Honours at the beginning of their U2 year, and the two-year sequence of Honours courses continues through U3.

Admission to Honours is selective. Students with a cumulative grade point average of 3.00 or better are eligible to apply; since enrolment is limited the usual GPA for admission to this program is 3.50 (based on a 27-30 graded credit program over two terms). Students must complete the following courses in their U1 year to be eligible to apply to the Honours Program: PSYC 204, PSYC 211, PSYC 212, PSYC 213 and PSYC 215. Students who have been exempted from PSYC 204 due to previous courses completed in CEGEP are advised to complete PSYC 305 in their U1 year. Once in the Honours Program, the student must obtain a GPA of 3.00 in the U2 year in order to continue in the program for U3. Students in the Honours Program are encouraged to complete a minimum of 27 graded credits per academic year. This is usually the minimum number of credits required to be eligible for fellowships and awards.

Applications can be obtained from the Undergraduate Office of the Department of Psychology, Room N7/9A, Stewart Biological Sciences Building. The applications must be completed and returned to the Undergraduate Office by August 1 for September admission and by December 1 for January admission. Candidates will be advised of the Department's decision via email and through a notice posted in front of the Undergraduate Adviser's Office, N7/9, before classes begin in September or in January.

Students should note that awarding of the Honours degree will depend on both cumulative grade point average and a minimum grade of B on PSYC 380D1/PSYC 380D2, PSYC 482. “First Class Honours” is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in the required honours courses, namely PSYC 380D1/D2, PSYC 482. “Honours” is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in the required honours courses, namely PSYC 380D1/D2, PSYC 482. Moreover, the awarding of the Honours degree normally requires completion of two full years of study, U2 and U3, in the Psychology Department. Students with particularly strong academic records may be admitted for the U3 year only on the basis of their marks and research experience. These students must complete all Honours Program requirements.

U1 Required Courses (15 credits)
PSYC 204 (3) Introduction to Psychological Statistics
PSYC 211 (3) Intro Behavioral Neuroscience
PSYC 212 (3) Perception
PSYC 213 (3) Cognition
PSYC 215 (3) Social Psychology

Note: PSYC 100 may be taken as a corequisite with these basic courses.

U1 or U2 Required Course (3 credits)
PSYC 305 (3) Statistics for Experimental Design

U2 Required Courses (9 credits)
PSYC 380D1 (4.5) Honours Research Project Seminar
PSYC 380D2 (4.5) Honours Research Project Seminar

U3 Required Courses (3 credits)
PSYC 482 (3) Advanced Honours Seminar

Complementary Courses (30 credits)

12 credits to be selected from:
PSYC 403 (3) Modern Psychology in Historical Perspective
PSYC 483 (3) Seminar in Experimental Psychopathology
PSYC 495 (6) Psychology Research Project 2
PSYC 496 (6) Seniors Honours Research 1
PSYC 497 (6) Seniors Honours Research 2
PSYC 498D1 (4.5) Senior Honours Research
PSYC 498D2 (4.5) Senior Honours Research
Any Psychology course at the 500 level.

6 credits in Psychology from List A

6 credits in Psychology from List B

6 credits at the 300 level or above in the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING), or Sociology (SOCI)

JOINT HONOURS – PSYCHOLOGY COMPONENT (36 credits)

Students planning to pursue the Joint Honours Component in Psychology are advised to complete courses in Introductory Psychology and Human Biology at the collegiate level.

Students who have not previously completed Psychology 350-101 or 350-102 in CEGEP will be required to register for PSYC 100 during their U1 year.

Bachelor of Arts students who have not completed one Biology 101-301, 101-401, 101-911 or 101-921 in CEGEP will be required to complete BIOL 115 (or, if they prefer, BIOL 111 or BIOL 112) during their U1 year.

Bachelor of Arts and Science students who have not completed one course in General Biology (CEGEP objective OOUK, OOXU or equivalent) will be required to complete one of BIOL 111 or BIOL 112 during their U1 year. Students who have not completed Biology CEGEP objective OOUK or OOXU or equivalent will be required to complete BIOL 111 or BIOL 112 during their U1 year.

All students who have completed either Mathematics 201-307 or 201-337 or equivalent, or the combination of Quantitative Methods 360-300 with Mathematics 201-300, and who obtained a

minimum grade of 75%, will be exempt from PSYC 204. Bachelor of Arts students will replace this requirement with 3 credits at the 300 level in one of the following disciplines: Psychology (PSYC), Anthropology (ANTH), Linguistics (LING) or Sociology (SOCI). Bachelor of Arts and Science students will replace this requirement with 3 credits in Psychology at the 300 level or above.

Students may apply to the Joint Honours Component upon completion of the U1 year. Eligible students must have completed the following Psychology courses: PSYC 204, PSYC 211, PSYC 212, PSYC 213 and PSYC 215. Students who have been exempted from PSYC 204 due to previous studies must complete PSYC 305. Admission to the Joint Honours Component is selective. Students with a cumulative grade point average of 3.00 or higher are eligible to apply; however, normally only students with a U1 GPA above 3.50 based on a 27-30 graded credit program are admitted. Once in the Joint Honours Component, students must obtain a GPA of 3.00 in the U2 year in order to continue in the program for U3. Students in the Joint Honours Component are encouraged to complete 27 graded credits per academic year (Fall and Winter terms), as this is usually the minimum number of credits required to be eligible for fellowships and awards. Students who intend to apply for admission to the Joint Honours Component should do so as well.

"First Class Honours" is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in the required honours courses, namely PSYC 380D1/D2, PSYC 482. "Honours" is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in the required honours courses, namely PSYC 380D1/D2, PSYC 482.

U1 Required Courses (15 credits)

PSYC 204	(3)	Introduction to Psychological Statistics
PSYC 211	(3)	Intro Behavioral Neuroscience
PSYC 212	(3)	Perception
PSYC 213	(3)	Cognition
PSYC 215	(3)	Social Psychology

Note: PSYC 100 may be taken as a corequisite with these basic courses.

U1 or U2 Required Course (3 credits)

PSYC 305	(3)	Statistics for Experimental Design

U2 Required Courses (9 credits)

PSYC 380D1	(4.5)	Honours Research Project Seminar
PSYC 380D2	(4.5)	Honours Research Project Seminar

U3 Required Course (3 credits)

PSYC 482	(3)	Advanced Honours Seminar

Complementary Courses (6 credits)

3 credits in Psychology at the 300 level or above

Le Programme d'études sur le Québec veut favoriser la recherche et la formation multidisciplinaires en études québécoises.

Avec l'appui des départements, la concentration Mineur et la concentration Majeur en Études sur le Québec sont constituées l'une et l'autre d'une suite agencée de cours ayant pour but de fournir un enseignement interdisciplinaire aussi complet que possible sur la société québécoise à l'intérieur d'un cadre canadien et international.

Sauf les cours Quebec Culture and Society (QCST 300), Travaux dirigés (QCST 472D1/QCST 472D2) et le séminaire Contemporary Issues in Quebec (QCST 440), les cours compris dans la concentration Majeur ou la concentration Mineur sont sous la responsabilité des divers départements. Pour connaître la description de ces cours et, le cas échéant, les conditions d'admission, l'étudiant(e) est donc invité(e) à se reporter aux autres sections de l'Annuaire et, au besoin, à consulter les départements concernés, d'autant plus que tous les cours ne se donnent pas nécessairement à chaque année. Veuillez noter que les conseillers pédagogiques ou les directeurs de programmes peuvent suggérer l'inscription à un cours sans toutefois imposer ce choix. La décision finale revient à l'étudiant(e) en ce qui concerne l'inscription à un cours en autant que l'étudiant(e) répond aux conditions d'admission pour ce cours.

Le titre de chaque cours indique s'il est donné en français ou en anglais, mais les travaux et examens peuvent toujours être rédigés dans l'une ou l'autre de ces deux langues (sauf au Département de langue et littérature françaises, où le français est de rigueur).

The Quebec Studies Program is intended to stimulate interdisciplinary studies and exchanges centering on Quebec society.

With departmental support, a Major Concentration and a Minor Concentration are offered, both of which consist of a coherent series of courses providing an interdisciplinary perspective on Quebec society in a Canadian and an international context.

Except for the general course Quebec Culture and Society (QCST 300), the Tutorial (QCST 472D1/QCST 472D2) and the seminar Contemporary Issues in Quebec (QCST 440), courses included in the Major Concentration or Minor Concentration are the responsibility of the departments. To obtain a complete description of these courses and the admission requirements (where applicable), students should read the relevant sections of the McGill Calendar and, if necessary, consult with the departments concerned, bearing in mind that not all courses are available in any given year. Please take note that an adviser or a director of a program can recommend registration in a course without imposing this choice. The final decision belongs to the student if the student has successfully completed the course prerequisites.

The title of each course indicates whether it is given in French or English, but term papers and exams can be written in either of these two languages (except in the French Language and Literature Department, where French is the rule).

LA CONCENTRATION MINEUR EN ÉTUDES SUR LE QUÉBEC
MINOR CONCENTRATION IN QUEBEC STUDIES
(18 crédits/credits)
(Expandable/Convertible en concentration majeure)

La concentration mineure en études québécoises a pour but de donner à l'étudiant(e) une connaissance multidisciplinaire des réalités du Québec en complémentarité à sa propre discipline de spécialisation. Les étudiants poursuivant notamment une spécialisation en histoire, science politique, langue et littérature françaises ou en études canadiennes peuvent trouver dans cette formation plusieurs avantages.

De façon usuelle, les cours obligatoires (6 crédits) sont complétés selon la séquence suivante : QCST 300 (3 crédits) en U1 et QCST 440 (3 crédits) en U2 ou en U3. Les cours complémentaires (12 crédits) peuvent être complétés en U1, U2 ou en U3.

The goal of the Minor Concentration in Quebec Studies is to give students a multidisciplinary overview of Quebec realities. Students are encouraged to complete this program alongside their studies in History, Political Science, French Language and Literature, or Canadian Studies.

Normally, the required courses (6 credits) are completed in the following order: QCST 300 (3 credits) in U1 and QCST 440 (3 credits) in U2 or in U3. The complementary courses (12 credits) can be completed in U1, U2, or U3.

Cours Obligatoires/Required Courses (6 crédits/credits)
QCST 300 (3) Quebec Culture and Society
QCST 440 (3) Contemporary Issues in Quebec

Complémentaires/Complementary (12 crédits/credits)

De ces 12 crédits, 6 doivent être des cours provenant du tronc commun ou des cours approuvés par la direction du programme. (Voir la liste des cours du tronc commun à la suite de la concentration majeure.)

3 crédits doivent provenir d'un cours dont la langue d'enseignement est le français et peuvent provenir d'un cours de français langue seconde.

Au moins 12 des 18 crédits doivent être du niveau 300 ou supérieur.

Le choix de ces cours se fera en consultation avec le Directeur du programme et variera selon le domaine de spécialisation de chaque étudiant(e)

Of these 12 credits, 6 credits must be core courses, or courses approved by the Program Director.
(See the Complementary Course List following the Major Concentration.)

3 credits must be taught in the French language and can be chosen from French as a Second Language course offerings.

At least 12 of the 18 credits must be at the 300 level or above.

The selection of courses will be made in consultation with the Program Director and will vary depending on the Major Concentration or Honours program of each student.

LA CONCENTRATION MAJEUR EN ÉTUDES SUR LE QUÉBEC
MAJOR CONCENTRATION IN QUEBEC STUDIES
(36 crédits/credits)

La concentration majeure en études québécoises a pour but de donner à l'étudiant(e) une connaissance approfondie et multidisciplinaire des réalités du Québec. Les étudiants peuvent intégrer cette spécialisation en complémentarité avec plusieurs disciplines dont l'histoire, la science politique, la langue et littérature françaises ou les études canadiennes.

De façon usuelle, les cours obligatoires (12 crédits) sont complétés selon la séquence suivante : QCST 300 (3 crédits) en U1 et QCST 440 (3 crédits) en U2 et QCST 472D1/D2 (6 crédits) en U3. Les cours complémentaires (24 crédits) peuvent être complétés en U1, U2 ou en U3.

The goal of the Major Concentration in Quebec Studies is to give students a comprehensive, multidisciplinary and in depth portrait of Quebec realities. Students are encouraged to complete this program by integrating it with disciplines such as History, Political Science, French Language and Literature, or Canadian Studies.

Normally, the required courses (12 credits) are completed in the following order: QCST 300 (3 credits) in U1, QCST 440 (3 credits) in U2, and QCST 472D1/D2 (6 credits) in U3. The complementary courses (24 credits) can be completed in U1, U2, or U3.

Cours Obligatoires/Required Courses (12 crédits/credits)
QCST 300 (3) Quebec Culture and Society
QCST 440 (3) Contemporary Issues in Quebec
QCST 472D1 (3) Tutorial/Travaux dirigés
QCST 472D2 (3) Tutorial/Travaux dirigés

Complémentaires/Complementary (24 crédits/credits)

De ces 24 crédits, 12 doivent être des cours provenant du tronc commun ou des cours approuvés par la direction du programme. (Voir la liste des cours du tronc commun à la suite de la concentration majeure.)

3 crédits doivent provenir d'un cours dont la langue d'enseignement est le français et peuvent provenir d'un cours de français langue seconde.

Au moins 24 des 36 crédits doivent être du niveau 300 ou supérieur.

Le choix de ces cours se fera en consultation avec le Directeur du programme et variera selon le domaine de spécialisation de chaque étudiant(e).

Of these 24 credits, 12 credits must be core courses, or courses approved by the Program Director.
(See the Complementary Course List following the Major Concentration.)

3 credits must be taught in the French language and can be chosen from French as a Second Language course offerings.

At least 24 of the 36 credits must be at the 300 level or above.

The selection of courses will be made in consultation with the Program Director and will vary depending on the Major Concentration or Honours program of each student.

Cours complémentaires/Complementary Course Lists

Cours inscrits au tronc commun, c'est-à-dire les cours portant plus spécifiquement sur le Québec sont marqués par un astérisque (*).

Core courses, courses with a specific focus on Quebec, are indicated by an asterisk (*)

Anglais/English
Un ajout d'un cours ENGL à la liste est sous réserve d'approbation universitaire.
An ENGL addition to the list is pending University approval.

Anthropologie/Anthropology
ANTH 317 (3) Prehistory of North America
ANTH 338 (3) Native Peoples of North America
ANTH 436 (3) North American Native Peoples

Centre d'enseignement du français et de l'anglais/ English and French Language Centre
(* Cours inscrit au tronc commun/Core Course)
FRSL 216* (3) Découvrons Montréal en français
FRSL 326 (3) Découvrons le Québec en français

Études sur le Canada/Canadian Studies
CANS 200 (3) Introduction to the Study of Canada

Glenn Smith; B.A.(Mich.), M.A.(Ott.), D.Min.(Northern Baptist Seminary, Ill.), D.Hon.(Union des universités privées d'Haïti)
Michael Storch; B.A.(Alta.), Ph.D.(McG.)
Philippe Turenne; B.A., Ph.D. Candidate(McG.)
Meredith Warren; B.A., M.A., Ph.D. Candidate(McG.)
Jason Zuidema; B.A.(Redeemer), M.T.S.(Calvin), Ph.D.(McG.)

Religious Studies Programs in Arts

Available within the Faculty of Arts are a Major Concentration and a Minor Concentration in World Religions, a Major Concentration in Scriptures and Interpretations, and a Minor Concentration in Scriptural Languages as well as an Honours and a Joint Honours Program with two options: Western Religions and Asian Religions. These programs are administered by the Faculty of Arts and the general rules, regulations and requirements of that Faculty apply to them.

Students interested in these programs can obtain information from the Faculty of Arts website at www.mcgill.ca/arts and the Religious Studies website, or from a Religious Studies B.A. Adviser. For general information on Religious Studies programs, make an appointment to see an adviser by telephoning 514-398-4121 or visiting the Reception office in the Birks Building.

Admission to the B.A. program is granted according to criteria established by the Faculty of Arts.

Students interested in theology programs will find information about the "Bachelor of Theology (B.Th.)" in section 13.5 and the "Master of Divinity (M.Div.)" in section 13.4.

MINOR CONCENTRATION IN WORLD RELIGIONS (18 credits)
(Expandable to Major Concentration in World Religions)

The Minor Concentration in World Religions introduces students to the major world religions and to the academic study of religion.

Complementary Courses (18 credits*)
12 credits in Religious Traditions, chosen from the following:

Judaism and Christianity
RELG 201 (3) Religions of the Ancient Near East
RELG 202 (3) Religion of Ancient Israel
RELG 203 (3) Bible and Western Culture
RELG 204 (3) Judaism, Christianity and Islam
RELG 210 (3) Jesus of Nazareth
RELG 300 (3) Second Temple Judaism
RELG 302 (3) Old Testament Studies 1
RELG 303 (3) Literature of Ancient Israel 2
RELG 306 (3) Rabbinic Judaism
RELG 307 (3) Bible, Quran & Interpretations
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
RELG 313 (3) Topics in Biblical Studies 1
RELG 314 (3) Topics in Biblical Studies 2
RELG 320 (3) History of Christian Thought 1
RELG 322 (3) The Church in History 1
RELG 323 (3) The Church in History 2
RELG 324 (3) Armenian Apostolic Tradition
RELG 325 (3) Varieties Religious Experience in Christianity
RELG 326 (3) Ancient Christian Church AD54 - AD604
RELG 327 (3) History of Christian Thought 2
RELG 330 (3) Reformed Theology
RELG 336 (3) Contemporary Theological Issues
RELG 338 (3) Women and the Christian Tradition
RELG 399 (3) Christian Spirituality
RELG 420 (3) Canadian Church History
RELG 423 (3) Reformation Thought
RELG 470 (3) Theological Ethics
RELG 502 (3) Greco-Roman Judaism

Hinduism and Buddhism
RELG 252 (3) Hinduism and Buddhism
RELG 253 (3) Religions of East Asia
RELG 337 (3) Themes in Buddhist Studies
RELG 339 (3) Gender & Sexuality in Buddhism
RELG 342 (3) Theravada Buddhist Literature
RELG 344 (3) Mahâyâna Buddhism
RELG 348 (3) Classical Hinduism
RELG 350 (3) Bhakti Hinduism
RELG 352 (3) Japanese Religions
RELG 354 (3) Chinese Religions
RELG 356 (3) Gender & Sexuality in Hinduism
RELG 369 (3) Tibetan Buddhism
RELG 442 (3) Pure Land Buddhism
RELG 451 (3) Zen: Maxims and Methods
RELG 452 (3) East Asian Buddhism
RELG 453 (3) Vajrayana Buddhism
RELG 454 (3) Modern Hindu Thought
RELG 545 (3) Ramayana: Multiple Lives
RELG 546 (3) Indian Philosophy
RELG 547 (3) Special Topics in Hinduism
RELG 548 (3) Indian Buddhist Metaphysics
RELG 549 (3) Japanese Buddhist Philosophy
RELG 551 (3) Special Topics in Buddhism
RELG 552 (3) Advaita Vedanta
RELG 553 (3) Religions of South India 1
RELG 554 (3) Religions of South India 2
RELG 556 (3) Issues in Buddhist Studies
RELG 557 (3) Asian Ethical Systems
RELG 560 (3) Buddhist Poetry

6 credits in Comparative Studies, chosen from the following:
RELG 207 (3) The Study of World Religions 1
RELG 256 (3) Women in Judaism and Islam
RELG 270 (3) Religious Ethics and the Environment
RELG 271 (3) Sexual Ethics
RELG 315 (3) Special Topics in Religion 1
RELG 316 (3) New Religious Movements
RELG 317 (3) Special Topics in Religion 2
RELG 318 (3) Special Topics in Religion 3
RELG 319 (3) Special Topics in Religion 4
RELG 341 (3) Introduction: Philosophy of Religion
RELG 345 (3) Religion and the Arts 1
RELG 347 (3) Topics in Religion and the Arts
RELG 355 (3) Religion and the Arts 2
RELG 361 (3) Religious Behaviour
RELG 370 (3) Religion and Human Rights
RELG 371 (3) Ethics of Violence/Non-Violence
RELG 376 (3) Religious Ethics
RELG 555 (3) Honours Seminar
RELG 571 (3) Religion and Medicine
* No more than 12 credits of the Minor may be taken at the 200 level.

MINOR CONCENTRATION IN SCRIPTURAL LANGUAGES (18 credits) (Non-expandable)

The Minor Concentration in Scriptural Languages is designed to provide students with the skills necessary to read Scriptural sources in their original languages. The Minor is recommended to be followed in conjunction with the Major Concentration in Scriptures and Interpretations.

Students will choose from one of two streams:
Stream I: Biblical Languages
Stream II: Indo-Tibetan Languages

MINOR CONCENTRATION IN SCRIPTURAL LANGUAGES STREAM I: BIBLICAL LANGUAGES COMPLEMENTARY COURSES (18 credits)
chosen from among the following:
Biblical Hebrew
RELG 390D1* (3) Elementary Biblical Hebrew
RELG 390D2* (3) Elementary Biblical Hebrew
RELG 491 (3) Hebrew Texts
RELG 492 (3) Hebrew Texts
JWST 327 (3) A Book of the Bible
JWST 328 (3) A Book of the Bible
JWST 329 (3) A Book of the Bible
JWST 330 (3) A Book of the Bible
Biblical Greek
RELG 280 (6) Elementary New Testament Greek
RELG 381 (3) Advanced New Testament Greek
RELG 482 (3) Exegesis of Greek New Testament
RELG 583 (3) Hellenistic Religious Texts
* Students with advanced standing in Hebrew may take Aramaic as part of their program.

MINOR CONCENTRATION IN SCRIPTURAL LANGUAGES STREAM II: INDO-TIBETAN LANGUAGES

Sanskrit is the language of classical Indian civilization and is recommended for students interested in gaining access to religious texts, philosophical works, academic treatises on all subjects and poetry written in classical and medieval India.

Classical Tibetan is one of the main scriptural languages of Buddhism. Many texts originally composed in Sanskrit are only extant in their Tibetan translations, and a vast body of philosophical, devotional, poetic and academic works composed in Classical Tibetan is only accessible to one who has a firm grasp of the language.

Tamil is a language spoken by over 75,000,000 people around the world. It is an ancient South Indian language that, unlike Sanskrit, has a vital, living tradition. It has a classical literary canon and yet is also part of the everyday lives of millions of people.

Complementary Courses (18 credits)
chosen from among the following:

Sanskrit
RELG 257D1 (3) Introductory Sanskrit
RELG 257D2 (3) Introductory Sanskrit
RELG 357D1 (3) Sanskrit 2
RELG 357D2 (3) Sanskrit 2
RELG 457D1 (3) Advanced Sanskrit
RELG 457D2 (3) Advanced Sanskrit

Tibetan:
RELG 264 (3) Introductory Tibetan 1
RELG 265 (3) Introductory Tibetan 2
RELG 364 (3) Intermediate Tibetan 1
RELG 365 (3) Intermediate Tibetan 2
RELG 464 (3) Advanced Tibetan 1
RELG 465 (3) Advanced Tibetan 2

Tamil:
RELG 266 (3) Introductory Tamil 1
RELG 267 (3) Introductory Tamil 2

MAJOR CONCENTRATION IN WORLD RELIGIONS
(36 credits)

The Major Concentration in World Religions offers students a broad introduction to the study of the world's major religions, with the possibility for concentration in a student's specific areas of interest. Developing an understanding of methods and problems in comparative approaches to the academic study of religion will be encouraged.

Required Course (3 credits)
RELG 456 (3) Theories of Religion

Complementary Courses (33 credits)
33 credits, no more than 12 of which may be taken at the 200 level.

24 credits in World Religions chosen from the following, according to the student's area of interest:

Judaism and Christianity
RELG 201 (3) Religions of the Ancient Near East
RELG 202 (3) Religion of Ancient Israel
RELG 203 (3) Bible and Western Culture
RELG 204 (3) Judaism, Christianity and Islam
RELG 210 (3) Jesus of Nazareth
RELG 300 (3) Second Temple Judaism
RELG 302 (3) Old Testament Studies 1
RELG 303 (3) Literature of Ancient Israel 2
RELG 306 (3) Rabbinic Judaism
RELG 307 (3) Bible, Quran & Interpretations
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
RELG 313 (3) Topics in Biblical Studies 1
RELG 314 (3) Topics in Biblical Studies 2
RELG 320 (3) History of Christian Thought 1
RELG 322 (3) The Church in History 1
RELG 323 (3) The Church in History 2
RELG 324 (3) Armenian Apostolic Tradition
RELG 325 (3) Varieties Religious Experience in Christianity
RELG 326 (3) Ancient Christian Church AD54 - AD604
RELG 327 (3) History of Christian Thought 2
RELG 336 (3) Contemporary Theological Issues
RELG 338 (3) Women and the Christian Tradition
RELG 399 (3) Christian Spirituality
RELG 420 (3) Canadian Church History
RELG 423 (3) Reformation Thought
RELG 470 (3) Theological Ethics
RELG 502 (3) Greco-Roman Judaism

Hinduism and Buddhism
RELG 252 (3) Hinduism and Buddhism
RELG 253 (3) Religions of East Asia
RELG 337 (3) Themes in Buddhist Studies
RELG 339 (3) Gender & Sexuality in Buddhism
RELG 342 (3) Theravada Buddhist Literature
RELG 344 (3) Mahâyâna Buddhism
RELG 348 (3) Classical Hinduism
RELG 350 (3) Bhakti Hinduism
RELG 352 (3) Japanese Religions
RELG 354 (3) Chinese Religions
RELG 356 (3) Gender & Sexuality in Hinduism
RELG 369 (3) Tibetan Buddhism
RELG 442 (3) Pure Land Buddhism
RELG 451 (3) Zen: Maxims and Methods
RELG 452 (3) East Asian Buddhism
RELG 453 (3) Vajrayana Buddhism
RELG 454 (3) Modern Hindu Thought
RELG 545 (3) Ramayana: Multiple Lives
RELG 546 (3) Indian Philosophy
RELG 547 (3) Special Topics in Hinduism
RELG 548 (3) Indian Buddhist Philosophy
RELG 549 (3) Japanese Buddhist Philosophy
RELG 551 (3) Special Topics in Buddhism
RELG 552 (3) Advaita Vedanta
RELG 553 (3) Religions of South India 1
RELG 554 (3) Religions of South India 2
RELG 556 (3) Issues in Buddhist Studies
RELG 557 (3) Asian Ethical Systems
RELG 560 (3) Buddhist Poetry

9 credits in Comparative Studies, chosen from the following according to the student's area of interest:
RELG 207 (3) The Study of World Religions 1
RELG 256 (3) Women in Judaism and Islam
RELG 270 (3) Religious Ethics and the Environment
RELG 271 (3) Sexual Ethics
RELG 315 (3) Special Topics in Religion 1
RELG 316 (3) New Religious Movements
RELG 317 (3) Special Topics in Religion 2
RELG 318 (3) Special Topics in Religion 3
RELG 319 (3) Special Topics in Religion 4
RELG 341 (3) Introduction: Philosophy of Religion
RELG 345 (3) Religion and the Arts 1
RELG 347 (3) Topics in Religion and the Arts
RELG 355 (3) Religion and the Arts 2
RELG 361 (3) Religious Behaviour
RELG 370 (3) Religion and Human Rights
RELG 371 (3) Ethics of Violence/Non-Violence
RELG 376 (3) Religious Ethics
RELG 555 (3) Honours Seminar
RELG 571 (3) Religion and Medicine

MAJOR CONCENTRATION IN SCRIPTURES AND INTERPRETATIONS (36 credits)

The Major Concentration in Scriptures and Interpretations is designed for students interested in understanding scriptural literatures and their place in developing religious traditions. While students will be able to concentrate in the area of their choice (Jewish, Christian, or Hindu and Buddhist Scriptures and Interpretations), they will study scriptures of at least two religious traditions, either in English translation or, if their skills permit, in the original languages.

Required Courses (6 credits)
RELG 307 (3) Bible, Quran & Interpretations
RELG 456 (3) Theories of Religion

Complementary Courses (30 credits)
30 credits, a minimum of 18 credits from one area of specialization and a minimum of 6 credits from a second area. No more than 12 credits of complementary courses may be taken at the 200 level.

(a) Jewish Scriptures and the History of Their Interpretation
JWST 310 (3) Believers, Heretics and Critics
JWST 324 (3) Biblical Interpretation - Antiquity
JWST 327 (3) A Book of the Bible
JWST 328 (3) A Book of the Bible
JWST 329 (3) A Book of the Bible
JWST 330 (3) A Book of the Bible
JWST 331 (3) Bible Interpretation/Medieval Ashkenaz
JWST 332 (3) Bible Interpretation/Sefardic Tradition
JWST 510 (3) Jewish Biblical Interpretation 1
JWST 511 (3) Jewish Biblical Interpretation 2
RELG 202 (3) Religion of Ancient Israel
RELG 203 (3) Bible and Western Culture
RELG 300 (3) Second Temple Judaism
RELG 302 (3) Old Testament Studies 1
RELG 303 (3) Literature of Ancient Israel 2
RELG 306 (3) Rabbinic Judaism
RELG 308 (3) Ancient Bible Translations
RELG 390D1 (3) Elementary Biblical Hebrew
RELG 390D2 (3) Elementary Biblical Hebrew
RELG 407 (3) The Writings
RELG 408 (3) The Prophets
RELG 491 (3) Hebrew Texts
RELG 492 (3) Hebrew Texts
RELG 502 (3) Greco-Roman Judaism

(b) Christian Scriptures and the History of Their Interpretation
RELG 203 (3) Bible and Western Culture
RELG 210 (3) Jesus of Nazareth
RELG 280 (6) Elementary New Testament Greek
RELG 302 (3) Old Testament Studies 1
RELG 303 (3) Literature of Ancient Israel 2
RELG 308 (3) Ancient Bible Translations
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
RELG 313 (3) Topics in Biblical Studies 1
RELG 314 (3) Topics in Biblical Studies 2
RELG 381 (3) Advanced New Testament Greek
RELG 411 (3) New Testament Exegesis
RELG 482 (3) Exegesis of Greek New Testament
RELG 583 (3) Hellenistic Religious Texts

(c) Hindu and Buddhist Scriptures and the Histories of Their Interpretations
RELG 252 (3) Hinduism and Buddhism
RELG 253 (3) Religions of East Asia
RELG 254 (3) Introduction to Sikhism
RELG 257D1 (3) Introductory Sanskrit
RELG 257D2 (3) Introductory Sanskrit
RELG 264 (3) Introductory Tibetan 1
RELG 265 (3) Introductory Tibetan 2
RELG 266 (3) Introductory Tamil 1
RELG 267 (3) Introductory Tamil 2
RELG 337 (3) Themes in Buddhist Studies
RELG 342 (3) Theravada Buddhist Literature
RELG 344 (3) Maháyána Buddhism
RELG 348 (3) Classical Hinduism
RELG 350 (3) Bhakti Hinduism
RELG 352 (3) Japanese Religions
RELG 354 (3) Chinese Religions
RELG 357D1 (3) Sanskrit 2
RELG 357D2 (3) Sanskrit 2
RELG 364 (3) Intermediate Tibetan 1
RELG 365 (3) Intermediate Tibetan 2
RELG 369 (3) Tibetan Buddhism
RELG 442 (3) Pure Land Buddhism
RELG 443 (3) Japanese Esoteric Buddhism
RELG 451 (3) Zen: Maxims and Methods
RELG 452 (3) East Asian Buddhism
RELG 453 (3) Vajrayana Buddhism
RELG 454 (3) Modern Hindu Thought
RELG 457D1 (3) Advanced Sanskrit
RELG 457D2 (3) Advanced Sanskrit
RELG 464 (3) Advanced Tibetan 1
RELG 465 (3) Advanced Tibetan 2
RELG 545 (3) Ramayana: Multiple Lives
RELG 546 (3) Indian Philosophy
RELG 548 (3) Indian Buddhist Philosophy
RELG 552 (3) Advaita Vedanta
RELG 553 (3) Religions of South India 1
RELG 554 (3) Religions of South India 2
RELG 560 (3) Buddhist Poetry

HONOURS IN RELIGIOUS STUDIES (60 credits)

The Honours program in Religious Studies offers a degree of analysis and concentration beyond that of the Major program through coursework, intensive research and discussion with peer groups.

There are no prerequisites for entry to the program. Students must, however, maintain a program GPA and a CGPA of 3.00 (or 3.50 for First Class Honours).

While gaining general knowledge of the study of religion, students also develop more concentrated expertise in either Western religious traditions (Option 1) or Asian religious traditions (Option 2).

Required Courses (9 credits)
RELG 204 (3) Judaism, Christianity and Islam
RELG 456 (3) Theories of Religion
RELG 555 (3) Honours Seminar

Complementary Courses (51 credits)
3 credits, one of:
RELG 252 (3) Hinduism and Buddhism
RELG 253 (3) Religions of East Asia

6 credits of scriptural languages (Biblical Greek, Biblical Hebrew, Sanskrit, Tamil or Tibetan), related to the specialization option and chosen in consultation with the adviser.

9 credits, religion and culture, chosen from:
RELG 256 (3) Women in Judaism and Islam
RELG 270 (3) Religious Ethics and the Environment
RELG 271 (3) Sexual Ethics
RELG 338 (3) Women and the Christian Tradition
RELG 339 (3) Gender & Sexuality in Buddhism
RELG 340 (3) Religion and the Sciences
RELG 341 (3) Introduction: Philosophy of Religion
RELG 345 (3) Religion and the Arts 1
RELG 347 (3) Topics in Religion and the Arts
RELG 355 (3) Religion and the Arts 2
RELG 356 (3) Gender & Sexuality in Hinduism
RELG 361 (3) Religious Behaviour
RELG 370 (3) Religion and Human Rights
RELG 371 (3) Ethics of Violence/Non-Violence
RELG 375 (3) Religion and Society
RELG 376 (3) Religious Ethics
RELG 377 (3) Religious Controversies

12 credits chosen from a list of approved courses in other departments in consultation with the adviser. At least 6 credits must be from the specialization option which was *not* selected.

21 credits chosen from either specialization, Option 1 or Option 2, at least 3 of these credits must be a 500-level research seminar.

Option 1: Western Religions
JWST 510 (3) Jewish Bible Interpretation 1
RELG 201 (3) Religions of the Ancient Near East
RELG 202 (3) Religion of Ancient Israel
RELG 203 (3) Bible and Western Culture
RELG 204 (3) Judaism, Christianity and Islam
RELG 210 (3) Jesus of Nazareth
RELG 300 (3) Second Temple Judaism
RELG 301 (3) Jewish Thought 200 B.C.E. - 200 C.E.

RELG 306 (3) Rabbinic Judaism
RELG 307 (3) Bible, Quran & Interpretations
RELG 308 (3) Ancient Bible Translations
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
RELG 313 (3) Topics in Biblical Studies 1
RELG 314 (3) Topics in Biblical Studies 2
RELG 322 (3) The Church in History 1
RELG 323 (3) The Church in History 2
RELG 326 (3) Ancient Christian Church AD54- AD604
RELG 334 (3) The Christian Faith
RELG 336 (3) Contemporary Theological Issues
RELG 381 (3) Advanced New Testament Greek
RELG 399 (3) Christian Spirituality
RELG 423 (3) Reformation Thought
RELG 438 (3) Topics in Jewish Theology
RELG 482 (3) Exegesis of Greek New Testament
RELG 491 (3) Hebrew Texts
RELG 492 (3) Hebrew Texts
RELG 502 (3) Greco-Roman Judaism
RELG 532 (3) History of Christian Thought 1
RELG 533 (3) History of Christian Thought 2
RELG 583 (3) Hellenistic Religious Texts

Option 2: Asian Religions
RELG 337 (3) Themes in Buddhist Studies
RELG 339 (3) Gender & Sexuality in Buddhism
RELG 342 (3) Theravada Buddhist Literature
RELG 344 (3) Maháyána Buddhism
RELG 348 (3) Classical Hinduism
RELG 350 (3) Bhakti Hinduism
RELG 352 (3) Japanese Religions
RELG 354 (3) Chinese Religions
RELG 369 (3) Tibetan Buddhism
RELG 442 (3) Pure Land Buddhism
RELG 451 (3) Zen: Maxims and Methods
RELG 452 (3) East Asian Buddhism
RELG 453 (3) Vajrayana Buddhism
RELG 454 (3) Modern Hindu Thought
RELG 545 (3) Ramayana: Multiple Lives
RELG 546 (3) Indian Philosophy
RELG 547 (3) Special Topics in Hinduism
RELG 548 (3) Indian Buddhist Philosophy
RELG 549 (3) Japanese Buddhist Philosophy
RELG 551 (3) Special Topics in Buddhism
RELG 552 (3) Advaita Vedanta
RELG 553 (3) Religions of South India 1
RELG 554 (3) Religions of South India 2
RELG 556 (3) Issues in Buddhist Studies
RELG 560 (3) Buddhist Poetry
EAST 354 (3) Taoist and Buddhist Apocalypses

JOINT HONOURS – RELIGIOUS STUDIES COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours Program components from any two Arts disciplines, see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Students in Joint Honours must maintain a program GPA and a CGPA of 3.00 (3.50 for First Class Honours) and attain a B- or higher in each program course. No overlap is allowed between the courses forming each segment of the Joint Honours program.

Complementary Courses (36 credits)
3 credits from the following:
RELG 252 (3) Hinduism and Buddhism
or RELG 253 (3) Religions of East Asia

3 credits from the following:
RELG 456 (3) Theories of Religion
or RELG 555 (3) Honours Seminar

9 credits selected from the following, with at least 3 credits from each group
Sources of Western Religious Traditions
RELG 201 (3) Religions of the Ancient Near East
RELG 202 (3) Religion of Ancient Israel
RELG 204 (3) Judaism, Christianity and Islam
RELG 311 (3) New Testament Studies 1
RELG 312 (3) New Testament Studies 2
History and Theology of the Christian Tradition
RELG 320 (3) History of Christian Thought 1
RELG 325 (3) Varieties Religious Experience in Christianity
RELG 326 (3) Ancient Christian Church AD54 - AD604
RELG 327 (3) History of Christian Thought 2
RELG 338 (3) Women and the Christian Tradition

6 credits in Religion and Culture, selected from the following:
RELG 256 (3) Women in Judaism and Islam
RELG 271 (3) Sexual Ethics
RELG 340 (3) Religion and the Sciences
RELG 341 (3) Introduction: Philosophy of Religion
RELG 345 (3) Religion and the Arts 1
RELG 347 (3) Topics in Religion and the Arts
RELG 355 (3) Religion and the Arts 2
RELG 361 (3) Religious Behaviour
RELG 370 (3) Religion and Human Rights
RELG 371 (3) Ethics of Violence/Non-Violence
RELG 375 (3) Religion and Society
RELG 376 (3) Religious Ethics
RELG 377 (3) Religious Controversies

15 credits, selected in consultation with an adviser, from Religious Studies courses (or approved related courses in other departments) at the 300 level or above.

APPROVED COURSES IN OTHER DEPARTMENTS

In consultation with the Adviser, students may select courses in other departments to count towards Religious Studies programs. Generally no more than four such courses will be counted towards an Honours program; no more than two such courses towards a Joint Honours program; no more than two such courses towards a Minor program. Listed below are some of the courses that have been approved in the past for inclusion in Religious Studies programs.

This list is NOT comprehensive: Students may take approved related courses in other departments of the Faculty of Arts, such as Anthropology, Art History, Classics, English, History, Italian Studies, Philosophy, and Sociology. Contact the Religious Studies Office at 514-398-4121 to speak with an adviser.

Please note that some of these courses have prerequisites that are not approved for Religious Studies programs.

Institute of Islamic Studies
ISLA 410 (3) History: Middle-East 1798-1918
ISLA 411 (3) History of the Middle East 1918-1945
ISLA 505 (3) Major Themes of Islamic Religious Expression
ISLA 510D1 (3) History: Islamic Civilization - Classical
ISLA 510D2 (3) History: Islamic Civilization - Classical
ISLA 511D1 (3) History: Islamic Civilization - Medieval Era
ISLA 511D2 (3) History: Islamic Civilization - Medieval Era
ISLA 531 (3) Survey of the Development of Islamic Thought

Jewish Studies
JWST 211 (3) Jewish Studies 1: Biblical Period (students may not take both JWST 211 and RELG 202 for core credit)
JWST 252 (3) Interdisciplinary Lectures (this course will be allowed only when the topic is appropriate)
JWST 316 (3) Social and Ethical Issues in Jewish Law 1
JWST 359 (3) Topics in Jewish Philosophy 2
Courses requiring reading knowledge of Hebrew:
JWST 330 (3) A Book of the Bible

JWST 345 (3) Introduction to Rabbinic Literature
JWST 510 (3) Jewish Biblical Interpretation 1
JWST 511 (3) Jewish Biblical Interpretation 2
JWST 535 (3) Exegetic Midrash
JWST 543 (3) Maimonides as Parshan
JWST 550 (3) The Bible in Hebrew Literature
JWST 556 (3) Modern Parshanut 1
JWST 573 (3) History of Hebrew Bible Text

East Asian Studies
EAST 354 (3) Taoist and Buddhist Apocalypses
EAST 551 (3) Technologies of Self in Early China

RELIGIOUS STUDIES COURSES AVAILABLE TO ARTS AND SCIENCE STUDENTS

All courses listed in the Religious Studies section (RELG) are considered as courses in Arts and Science except for courses restricted to B.Th. or S.T.M. students and courses that require permission of the Chair of the B.Th. Committee.

6.12.46 Russian and Slavic Studies (RUSS)

688 Sherbrooke Street West, Suite 425
Montreal, QC H3A 3R1

Telephone: 514-398-3639
Fax: 514-398-1748
Email: russian.slavicstudies@mcgill.ca
Website: www.mcgill.ca/russian

Chair — Laura Beraha

Associate Professors
Paul M. Austin; M.A.(C'nell), B.A., Ph.D.(Tor.)
Laura Beraha; B.A., M.A., Ph.D.(McG.)
Lyudmila Parts; M.A., Ph.D.(Col.) (*on leave 2009-2010*)

Many opportunities are open to students with qualifications in Russian and other Slavic studies. Students may be interested in the organization of human society, comparative literature, linguistics – Russian studies are highly relevant to all of these. In addition, because of similar problems in geography, climate, industrial and economic growth, Russian studies may have a particular fascination for the Canadian student. Besides being the language of the Russian Federation, Russian is still widely used in the countries of the former Soviet Union. Since most Eastern European countries have academic exchange programs with Canada, well-qualified students should encounter little difficulty in continuing their university studies in Russia or in Eastern Europe.

Advisers: Professor Paul M. Austin, Room 341, 514-398-4984
Professor Laura Beraha, Room 335, 514-398-2802
Professor Lyudmila Parts, Room 332, 514-398-1719

Students must obtain Departmental approval to register for language courses and are strongly urged to consult with the Department for advice/approval of their program plans. A placement test is available and may be booked before the start of term by calling 514-398-3639.

MINOR CONCENTRATION IN RUSSIAN (18 credits)
(Expandable)

The Minor Concentration in Russian includes complementary courses chosen from ONE of the following streams:

- Russian Language & Literature
- Russian Language & Culture
- Advanced Russian Literature
- Advanced Russian Language

Students who wish to follow the Advanced Russian Literature or Advanced Russian Language stream must receive Departmental approval; they are designed primarily for students also intending to complete a Major Concentration in Russian.

Enrolment in courses above the 200 level is by permission of the Department only.

Required Courses (12 credits*)
RUSS 210 (3) Elementary Russian Language 1
RUSS 211 (3) Elementary Russian Language 2
RUSS 310 (3) Intermediate Russian Language 1
RUSS 311 (3) Intermediate Russian Language 2

* The required courses are designed to give students a basic working knowledge of Russian. Students who can demonstrate to the Department that they have acquired the equivalent competence elsewhere will replace these credits with courses from the Complementary Course list.

Students must obtain Departmental approval to register for language courses and are strongly urged to consult with the Department for advice/approval of their program plans.

Complementary Courses (6 credits)
Stream 1: Russian Language & Literature
RUSS 217 (3) Russia's Eternal Questions
RUSS 300 (3) Russian for Heritage Speakers 1
RUSS 301 (3) Russian for Heritage Speakers 2
RUSS 330 (3) Introduction to Soviet Russian Literature before WWII
RUSS 331 (3) Introduction to Soviet Russian Literature after WWII
RUSS 400 (3) Advanced Russian Language 1
RUSS 401 (3) Advanced Russian Language 2

Stream 2: Russian Language & Culture
RUSS 218 (3) Russian Literature in Revolution
RUSS 219 (3) Russian Literature in Recovery
RUSS 223 (3) Russian Writers - 19th Century
RUSS 224 (3) From War to Revolution

*Stream 3: Advanced Russian Literature**
RUSS 327 (3) Outlines 19th Century Russian Literature: Romantic Period
RUSS 328 (3) Outlines 19th Century Russian Literature: Russian Realism
RUSS 330 (3) Introduction to Soviet Russian Literature before WWII
RUSS 331 (3) Introduction to Soviet Russian Literature after WWII
RUSS 385 (3) Russian Drama
RUSS 390 (3) Special Topics in Russian
RUSS 411 (3) Drama in Russian Literature after 1850
RUSS 450 (3) Reading the 20th Century
RUSS 458 (3) Development Russian Novel before Turgenev
RUSS 459 (3) Russian Novel Pushkin - Gogol
RUSS 460 (3) Russian Novel 1860-1900 1
RUSS 461 (3) Russian Novel 1860-1900 2
RUSS 465 (3) Russian Modernism 1
RUSS 466 (3) Russian Modernism 2
RUSS 468 (3) The Age of Pushkin
RUSS 470 (3) Individual Reading Course

RUSS 475 (3) Special Topics in Russian Culture
RUSS 500 (3) Special Topics
RUSS 510 (3) High Stalinist Culture

* By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs.

*Stream 4: Advanced Russian Language**
RUSS 415 (6) Advanced Russian Lang Intensive 1
RUSS 416 (6) Advanced Russian Lang Intensive 2
RUSS 450 (3) Reading the 20th Century
RUSS 452 (3) Advanced Russian Language and Syntax 1
RUSS 453 (3) Advanced Russian Language and Syntax 2
RUSS 455 (3) History of Modern Russian Language
RUSS 470 (3) Individual Reading Course
RUSS 471 (3) Independent Research

* By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs.

MINOR CONCENTRATION IN RUSSIAN CULTURE
(Non-expandable) (18 credits)

The Minor Concentration in Russian Culture is designed primarily as an adjunct to area studies and/or programs in the humanities or social sciences. As there are no Russian language requirements, this is a non-expandable program.

There are no prerequisites for Departmental courses. For pre/corequisites and availability of Economics, History, Jewish Studies and Political Science courses, students should refer to the departmental Calendar entry.

Complementary Courses (18 credits)
Group A: 12 credits to be chosen from:

RUSS 217	(3)	Russia's Eternal Questions
RUSS 218	(3)	Russian Literature in Revolution
RUSS 219	(3)	Russian Literature in Recovery
RUSS 223	(3)	Russian Writers - 19th Century
RUSS 224	(3)	From War to Revolution
RUSS 510	(3)	High Stalinist Culture
RUSS 585	(3)	Woman in Russian Culture

Group B: 6 credits to be chosen from:

ANTH 303	(3)	Ethnographies of Post-socialism
ECON 331	(3)	Economic Development: Russia and USSR
ECON 340	(3)	Ex-Socialist Economies
HIST 216	(3)	History of Russia to 1801
HIST 226	(3)	Eastern Europe in 20th Century
HIST 236	(3)	Russia from 1801 to 1991
HIST 306	(3)	East Central Europe since 1944
HIST 312	(3)	East-Central Europe: 1453-1740
HIST 313	(3)	Eastern Europe: 1740-1914
HIST 316	(3)	Russia: Revolutions 1905 and 1917
HIST 326	(3)	Russia from 1905 to Present

POLI 419	(3)	Transitions from Communism
SOCI 455	(3)	Post-Socialist Societies

MAJOR CONCENTRATION IN RUSSIAN (36 credits)

Enrolment in courses above the 200 level is by permission of the Department only.

Required Courses (18 credits*)

RUSS 210	(3)	Elementary Russian Language 1
RUSS 211	(3)	Elementary Russian Language 2
RUSS 310	(3)	Intermediate Russian Language 1
RUSS 311	(3)	Intermediate Russian Language 2
RUSS 400	(3)	Advanced Russian Language 1
RUSS 401	(3)	Advanced Russian Language 2

* The required courses are designed to give students a basic working knowledge of Russian. Students who can demonstrate to the Department that they have acquired the equivalent competence elsewhere will replace these credits with courses from the Complementary Course list.

Complementary Courses (18 credits)
12 credits to be selected from the following:

RUSS 217	(3)	Russia's Eternal Questions
RUSS 218	(3)	Russian Literature in Revolution
RUSS 219	(3)	Russian Literature in Recovery
RUSS 223	(3)	Russian Writers - 19th Century
RUSS 224	(3)	From War to Revolution
RUSS 300	(3)	Russian for Heritage Speakers 1
RUSS 301	(3)	Russian for Heritage Speakers 2
RUSS 327	(3)	Outlines 19th Century Russian Literature: Romantic Period
RUSS 328	(3)	Outlines 19th Century Russian Literature: Russian Realism
RUSS 330	(3)	Introduction to Soviet Russian Literature before WWII
RUSS 331	(3)	Introduction to Soviet Russian Literature after WWII

6 credits to be selected from the following:

RUSS 385	(3)	Russian Drama
RUSS 390	(3)	Special Topics in Russian
RUSS 450	(3)	Reading the 20th Century
RUSS 455	(3)	History of Modern Russian Language
RUSS 458	(3)	Development Russian Novel before Turgenev
RUSS 459	(3)	Russian Novel Pushkin - Gogol
RUSS 460	(3)	Russian Novel 1860-1900 1
RUSS 461	(3)	Russian Novel 1860-1900 2
RUSS 465	(3)	Russian Modernism 1
RUSS 466	(3)	Russian Modernism 2
RUSS 468	(3)	The Age of Pushkin
RUSS 470	(3)	Individual Reading Course*
RUSS 471	(3)	Independent Research*
RUSS 475	(3)	Special Topics in Russian Culture
RUSS 500	(3)	Special Topics
RUSS 510	(3)	High Stalinist Culture
RUSS 585	(3)	Woman in Russian Culture

* Students must submit project proposals to their Departmental Adviser by March 15th or November 15th of the preceding term.

By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs.

HONOURS IN RUSSIAN (60 credits)

The Honours Program in Russian is for students intending to pursue graduate studies or advanced careers in the field. Students must complete 60 credits in the Program, as well as maintain a CGPA in accordance with Faculty and Program requirements. By arrangement with the Department and subject to University approval, transfer credits will be accepted from Department-approved exchange/immersion programs. Students who have acquired language competency elsewhere will replace lower-level courses with upper-level courses. A total of 9 credits may be taken in courses offered by other departments in the Faculty; these are listed at the end of this section. For admission into the Honours Program and approval of all course selections, students must regularly consult with an academic adviser in the Department.

Students must also complete at least one Minor Concentration (18 credits) in an academic unit outside the Department of Russian and Slavic Studies.

U1 Required Courses (12 credits)

RUSS 215	(6)	Elementary Russian Language Intensive 1
RUSS 316	(6)	Intermediate Russian Language Intensive 2

U1 Complementary Courses (6 credits)
selected from:

RUSS 217	(3)	Russia's Eternal Questions
RUSS 218	(3)	Russian Literature in Revolution
RUSS 219	(3)	Russian Literature in Recovery
RUSS 223	(3)	Russian Writers - 19th Century
RUSS 224	(3)	From War to Revolution
RUSS 300	(3)	Russian for Heritage Speakers 1
RUSS 301	(3)	Russian for Heritage Speakers 2

U2 Required Courses (24 credits)

RUSS 327	(3)	Outlines 19th Century Russian Literature: Romantic Period
RUSS 328	(3)	Outlines 19th Century Russian Literature: Russian Realism
RUSS 330	(3)	Introduction to Soviet Russian Literature before WWII
RUSS 331	(3)	Introduction to Soviet Russian Literature after WWII
RUSS 415	(6)	Advanced Russian Language Intensive 1
RUSS 416	(6)	Advanced Russian Language Intensive 2

U3 Required Courses (12 credits)

RUSS 452	(3)	Advanced Russian Language and Syntax 1
RUSS 453	(3)	Advanced Russian Language and Syntax 2
RUSS 490	(3)	Honours Seminar 01*
RUSS 491	(3)	Honours Seminar 02*

* Students must submit project proposals to their Departmental adviser by March 15th or November 15th of the preceding term.

Additional Complementary Courses (6 credits)
selected from:

RUSS 385	(3)	Russian Drama
RUSS 390	(3)	Special Topics in Russian
RUSS 450	(3)	Reading the 20th Century
RUSS 455	(3)	History of Modern Russian Language
RUSS 458	(3)	Development Russian Novel before Turgenev
RUSS 459	(3)	Russian Novel Pushkin - Gogol
RUSS 460	(3)	Russian Novel 1860-1900 1
RUSS 461	(3)	Russian Novel 1860-1900 2
RUSS 465	(3)	Russian Modernism 1
RUSS 466	(3)	Russian Modernism 2
RUSS 468	(3)	The Age of Pushkin
RUSS 470	(3)	Individual Reading Course*
RUSS 471	(3)	Independent Research*
RUSS 475	(3)	Special Topics in Russ Culture
RUSS 500	(3)	Special Topics
RUSS 510	(3)	High Stalinist Culture
RUSS 585	(3)	Woman in Russian Culture

* Students must submit project proposals to their Departmental adviser by March 15th or November 15th of the preceding term.

Please contact the department(s) in question for pre/ corequisites and availability of the following courses:

ANTH 303	(3)	Ethnographies of Post-socialism
ECON 331	(3)	Economic Development: Russia and USSR
ECON 340	(3)	Ex-Socialist Economies
HIST 216	(3)	History of Russia to 1801
HIST 226	(3)	Eastern Europe in 20th Century
HIST 236	(3)	Russia from 1801 to 1991
HIST 306	(3)	East Central Europe since 1944
HIST 312	(3)	East-Central Europe: 1453-1740
HIST 313	(3)	Eastern Europe: 1740-1914
HIST 316	(3)	Russia: Revolutions 1905 and 1917
HIST 326	(3)	Russia from 1905 to Present
HIST 406	(3)	Petrine and Catherinian Russia
HIST 446	(3)	Russian Thought to 1825
HIST 456	(3)	Russian Intellectual History 1825-1917
HIST 476D1/D2	(6)	Seminar: Topics in Russian History
JWST 303	(3)	The Soviet Jewish Experience
POLI 329	(3)	Russian and Soviet Politics
POLI 331	(3)	Politics in East Central Europe
POLI 332	(3)	Politics of Former Soviet Republics
POLI 419	(3)	Transitions from Communism
SOCI 455	(3)	Post-Socialist Societies

According to Faculty regulations, Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

JOINT HONOURS – RUSSIAN COMPONENT (36 credits)

Students must maintain a CGPA in accordance with Faculty requirements. 12 credits in Russian and 12 credits in the cooperating department are normally taken each year. For information telephone 514-398-3639.

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00.

6.12.47 Science for Arts Students

Director — Professor Louis Lefebvre (*Biology*), 514-398-6457

The following courses offered by the Faculty of Science may be of interest to Arts students. Not all courses are available in any given year.

Atmospheric and Oceanic Sciences

ATOC 210	(3)	Introduction to Atmospheric Science
ATOC 220	(3)	Introduction to Oceanic Sciences

Biology

BIOL 115	(3)	Essential Biology
BIOL 210	(3)	Perspectives of Science
BIOL 373	(3)	Biometry

Chemistry

CHEM 150	(3)	World of Chemistry: Food
CHEM 160	(3)	World of Chemistry: Technology
CHEM 170	(3)	World of Chemistry: Drugs
CHEM 180	(3)	World of Chemistry: Environment

Computer Science

COMP 102	(3)	Computers and Computing

Earth and Planetary Sciences

EPSC 200	(3)	The Terrestrial Planets
EPSC 201	(3)	Understanding Planet Earth
EPSC 210	(3)	Introductory Mineralogy
EPSC 233	(3)	Earth and Life History
EPSC 243	(3)	Environmental Geology
EPSC 334	(3)	Invertebrate Paleontology

Geography

GEOG 203	(3)	Environmental Systems
GEOG 205	(3)	Global Change: Past, Present and Future

Physics

PHYS 224	(3)	Physics and Psychophysics of Music
PHYS 225	(3)	Musical Acoustics

MINOR CONCENTRATION IN SCIENCE FOR ARTS STUDENTS (18 credits)

Freshman students interested in this Minor Concentration should seek advice at the earliest opportunity, either through the Freshman Advisers or by contacting the Program Director. In general, students should declare their intention to obtain this Minor Concentration during their U1 year and consult the Program Director regarding approval of courses to meet the requirements.

This Minor Concentration is administered by the Department of Biology. For more information contact Ms. Anne Comeau in the Biology Department, Room W4/13, Stewart Biological Sciences Building, 514-398-4109; or the Program Director, Professor Louis Lefebvre, Room W6/10, Stewart Biological Sciences Building, 514-398-6457.

Required Courses (3 credits)
BIOL 210 (3) Perspectives of Science (in U1)

Complementary Courses (15 credits)
15 credits taken in *one* of the disciplinary areas given below. Where suggested courses have prerequisites at the 200 or 300 level associated with them, credit for the associated prerequisites may also be counted as part of the 15 credits.

Prerequisites at the 100 level cannot be counted towards the Minor Concentration.

With the prior written approval of the Program Director, an appropriate alternative set of courses may be substituted.

DISCIPLINARY AREAS

Atmospheric and Oceanic Sciences
Students should note that MATH 133 (or its CEGEP equivalent) is not essential as a prerequisite for these courses.

ATOC 210 (3) Introduction to Atmospheric Science
ATOC 214 (3) Intro to the Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 220 (3) Introduction to Oceanic Sciences

Biochemistry
Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112 plus CHEM 120 (or CHEM 121) or their CEGEP equivalents.

15 credits taken from the following courses and their associated 200- or 300-level prerequisites:

ANAT 262 (3) Introductory Molecular and Cell Biology
BIOC 212 (3) Molecular Mechanisms of Cell Function (Prerequisite: BIOL 200)
BIOL 200 (3) Molecular Biology
CHEM 212 (4) Introductory Organic Chemistry 1

Students who have completed CHEM 212 and CHEM 222 or their CEGEP equivalents may take one or both of the following:
BIOC 311 (3) Metabolic Biochemistry (Prerequisite: BIOL 200, BIOL 201 or BIOC 212, CHEM 222)
BIOC 312 (3) Biochemistry of Macromolecules (Prerequisite: BIOC 311, BIOL 200, BIOL 201 or BIOC 212)

Biology
Students interested in Biology can choose between two streams. One is oriented toward cell and molecular biology and leads to upper level courses in developmental biology, human genetics, molecular biology, or allied fields. The other is oriented more toward organismal biology and leads to upper level courses in biodiversity, ecology, sociobiology, neurobiology, behaviour, or conservation biology. See Ms. Anne Comeau in the Biology Department, Room W4/13, Stewart Biology Building, to arrange a session for counsel on choice of courses above the 200 level.

Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112 plus CHEM 120 (or CHEM 121) or their CEGEP equivalents.

Cell and Molecular Stream:

Note: CHEM 212 or its CEGEP equivalent is prerequisite to this stream.
BIOL 200 (3) Molecular Biology
BIOL 201 (3) Cell Biology and Metabolism (Prerequisite: BIOL 200)
BIOL 202 (3) Basic Genetics (Prerequisite: BIOL 200)

plus a selected subset of these or related upper level courses:
BIOL 300 (3) Molecular Biology of the Gene (Prerequisite: BIOL 200, BIOL 201)
BIOL 303 (3) Developmental Biology (Prerequisite: BIOL 200, BIOL 201)
BIOL 313 (3) Eukaryotic Cell Biology (Prerequisite: BIOL 200, BIOL 201, and BIOL 202)
BIOL 314 (3) Molecular Biology of Oncogenes (Prerequisite: BIOL 200, BIOL 201)

Organismal Stream:

Note: CHEM 212 or its CEGEP equivalent is prerequisite to this stream.
BIOL 205 (3) Biology of Organisms (Prerequisite: BIOL 200 and PHYS 101. Corequisite: BIOL 201)
BIOL 215 (3) Intro. to Ecology and Evolution
BIOL 304 (3) Evolution (Prerequisite: BIOL 205 or BIOL 215 or ENVR 202)

plus a selected subset of these or related upper level courses:
BIOL 305 (3) Animal Diversity (Prerequisite: BIOL 215 or ENVR 200 and ENVR 202)
BIOL 306 (3) Neural Basis of Behaviour (Prerequisite: BIOL 201 and PHYS 102)
BIOL 307 (3) Behavioural Ecology/Sociobiology (Prerequisite: BIOL 205, BIOL 215 or permission)
BIOL 308 (3) Ecological Dynamics (Prerequisite: BIOL 215 or ENVR 200 and ENVR 202)
BIOL 310 (3) Large-scale Ecology (Prerequisite: BIOL 215 or ENVR 200 and ENVR 202, and MATH 112)
BIOL 465 (3) Conservation Biology (Prerequisite: BIOL 215)

Chemistry
Prerequisites which cannot be counted towards the Minor Concentration: CHEM 120 (or CHEM 121) or their equivalents.

The Department also strongly encourages students to take one or more courses involving a laboratory because the science of chemistry is rooted in laboratory experience.

Note: CHEM 212 or its CEGEP equivalent is prerequisite to all 200-level or higher courses.
CHEM 150 (3) World of Chemistry: Food
or CHEM 160 (3) World of Chemistry: Technology
or CHEM 170 (3) World of Chemistry: Drugs
or CHEM 180 (3) World of Chemistry: Environment
CHEM 201 (3) Modern Inorganic Chemistry 1
or CHEM 281 (3) Inorganic Chemistry 1
CHEM 203 (3) Survey of Physical Chemistry
or CHEM 204 (3) Physical Chemistry/Biological Sciences 1
CHEM 212 (4) Introductory Organic Chemistry 1
CHEM 222 (4) Introductory Organic Chemistry 2 (Prerequisite: CHEM 212)
CHEM 257D1 (2) Introductory Analytical Chemistry
CHEM 257D2 (2) Introductory Analytical Chemistry
CHEM 301 (3) Modern Inorganic Chemistry 2
or CHEM 381 (3) Inorganic Chemistry 2 (Prerequisite: CHEM 201 or CHEM 281)
CHEM 302 (3) Introductory Organic Chemistry 3 (Prerequisite: CHEM 212, CHEM 222)
CHEM 334 (3) Advanced Materials (Prerequisites: CHEM 110/CHEM 120 or CHEM 111/ CHEM 121 and PHYS 101/PHYS 102 or PHYS 131/PHYS 142 or CEGEP Physics and Chemistry
or CHEM 307 (3) Analytical Chemistry of Pollutants (Prerequisite: one course in analytical chemistry)

Computer Science
(Students in any Minor or Major Concentration or Honours Program in Computer Science cannot choose this disciplinary area.)

Prerequisites which cannot be counted towards the Minor Concentration: MATH 139 or MATH 140, MATH 141, and MATH 133 and COMP 102 or their CEGEP equivalents.

A selection of courses should be taken from:
COMP 202 (3) Introduction to Computing 1
COMP 203 (3) Introduction to Computing 2 (Prerequisite: COMP 202)
COMP 250 (3) Introduction to Computer Science (Major and Honours)

COMP 251 (3) Data Structures and Algorithms (Prerequisite: COMP 250 or COMP 203)
plus some of the following courses:
COMP 273 (3) Introduction to Computer Systems (Prerequisite: COMP 202)
COMP 302 (3) Programming Languages and Paradigms (Prerequisite: COMP 203 or COMP 250)

Earth and Planetary Sciences
A combination of EPSC 210, EPSC 212, and one or more of EPSC 200, EPSC 201, and EPSC 243 provides a grounding in these inter-related disciplines in preparation for more specialized courses which follow:
EPSC 200 (3) The Terrestrial Planets
EPSC 201 (3) Understanding Planet Earth
EPSC 203 (3) Structural Geology
EPSC 205 or ANAT 205 (3) Astrobiology
EPSC 210 (3) Introductory Mineralogy
EPSC 212 (4) Introductory Petrology (Prerequisite: EPSC 210)
EPSC 220 (3) Principles of Geochemistry (Prerequisite: EPSC 201, EPSC 210)
EPSC 231 (2) Field School 1 (Prerequisite: EPSC 222)
EPSC 233 (3) Earth and Life History
EPSC 243 (3) Environmental Geology
EPSC 320 (3) Elementary Earth Physics (Prerequisite: EPSC 222)
EPSC 334 (3) Invertebrate Paleontology
EPSC 425 (3) Sediments to Sequences (Prerequisite: EPSC 210, EPSC 212)

Geography
(Students in any Minor or Major Concentration or Honours Program in Geography cannot choose this disciplinary area.)

Geography advisers recommend including some preparation in chemistry, statistics and calculus for study in this area even if formal prerequisites are not in place. A selection of courses should be taken from:
GEOG 203 (3) Environmental Systems
GEOG 205 (3) Global Change: Past, Present and Future
GEOG 272 (3) Earth's Changing Surface
GEOG 305 (3) Soils and Environment (Prerequisite: GEOG 203)
GEOG 321 (3) Climatic Environments (Prerequisite: GEOG 203 or ATOC 210 or permission)
GEOG 322 (3) Environmental Hydrology (Prerequisite: GEOG 203 or equivalent)
GEOG 350 (3) Ecological Biogeography (Prerequisite: GEOG 302 or BIOL 205)
GEOG 372 (3) Running Water Environments (Prerequisite: GEOG 203 and GEOG 272 or ENVR 200 and ENVR 202)

Mathematics and Statistics
(Students in any Minor or Major Concentration or Honours Program in Mathematics and Statistics cannot choose this disciplinary area.)

Suggested courses:
MATH 133 (3) Vectors, Matrices and Geometry
MATH 203 (3) Principles of Statistics 1
MATH 204 (3) Principles of Statistics 2 (Prerequisite: MATH 203 or equivalent)
MATH 222 (3) Calculus 3
MATH 338 (3) History and Philosophy of Mathematics

Microbiology and Immunology
Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112, CHEM 120 (CHEM 121) or their CEGEP equivalents.

Students can complete the 15 credits from the following courses and their associated prerequisites:
Note: CHEM 212 or its CEGEP equivalent is prerequisite, or co-requisite, to these courses.
MIMM 211 (3) Introductory Microbiology
MIMM 314 (3) Immunology (Prerequisite: BIOL 200 and BIOL 201 or BIOC 212)
MIMM 323 (3) Microbial Physiology (Prerequisite: MIMM 211)
MIMM 324 (3) Fundamental Virology (Prerequisite: MIMM 211, BIOL 200, BIOL 201 or BIOC 212)

Pathology
Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112 plus CHEM 120 (or CHEM 121) or their CEGEP equivalents.

This course, together with its associate prerequisites, is well suited to students with an interest in medicine.
Note: CHEM 212 or its CEGEP equivalent is also prerequisite, or corequisite, to this course.
PATH 300 (3) Human Disease (Prerequisites: BIOL 200, BIOL 201 or BIOC 212, PHGY 209. Pre- or corequisite PHGY 210)

Physics
Prerequisites which cannot be counted towards the Minor Concentration: Most of the courses listed require at least CEGEP-level prerequisites or their equivalent in both Mathematics and Physics.

Exceptions are PHYS 200, PHYS 208, PHYS 209, MATH 223. A possible 12-credit combination without such prerequisites is PHYS 200, PHYS 224 and PHYS 225.

Honours courses may be substituted for their Major equivalents only with the permission of the Department.

PHYS 200 (3) Space, Time and Matter
PHYS 208 (1) Introduction to Selected Topics in Physics
PHYS 224 (3) Physics and Psychophysics of Music
PHYS 225 (3) Musical Acoustics (Prerequisite: PHYS 224)
PHYS 230 (3) Dynamics of Simple Systems
PHYS 232 (2) Heat and Waves (Prerequisite: PHYS 230)
PHYS 241 (2) Signal Processing
PHYS 242 (3) Electricity and Magnetism (Prerequisite: MATH 222)
PHYS 257 (3) Experimental Methods 1 (Prerequisite: PHYS 230 or PHYS 250)
PHYS 258 (3) Experimental Methods 2 (Prerequisite: PHYS 257)

Physiology
Prerequisites which cannot be counted towards the Minor Concentration: BIOL 111 and BIOL 112, CHEM 110 (or CHEM 111), PHYS 101 (or PHYS 131) and PHYS 102 (or PHYS 142), CHEM 120 (or CHEM 121) or their CEGEP equivalents.

Students should take either:
PHGY 201 (3) Human Physiology: Control Systems (Prerequisite: CHEM 212)
and PHGY 202 (3) Human Physiology: Body Functions (Prerequisite: CHEM 212)

or PHGY 209 (3) Mammalian Physiology 1 (Prerequisite: CHEM 212, BIOL 200, BIOL 201 or BIOC 212)
and PHGY 210 (3) Mammalian Physiology 2 (Prerequisite: CHEM 212, BIOL 200, BIOL 201 or BIOC 212)

and one or more of these higher level courses:
PHGY 311 (3) Channels, Synapses & Hormones (Prerequisite: PHGY 209, PHGY 210 or equivalent or permission.)

PHGY 312	(3)	Respiratory, Renal, & Cardiovascular Physiology (Prerequisite: PHGY 209, PHGY 210 or equivalent, PHGY 311 or permission.)
PHGY 313	(3)	Blood, Gastrointestinal, & Immune Systems Physiology (Prerequisite: PHGY 209, PHGY 210 or equivalent, PHGY 311 or permission.)

Psychology
(Students in any Minor or Major Concentration or Honours Program in Psychology cannot choose this disciplinary area.)

Prerequisites which cannot be counted towards the Minor Concentration: PSYC 100 plus BIOL 111 or BIOL 112 or BIOL 115 (or their CEGEP equivalents).

Students in the Minor Concentration take two of the following courses:
Note: PSYC 204 is prerequisite to this area:

PSYC 211	(3)	Intro Behavioral Neuroscience
PSYC 212	(3)	Perception
PSYC 213	(3)	Cognition
PSYC 215	(3)	Social Psychology

plus one or more Psychology courses at the 300 level or higher (excluding PSYC 305). Students are recommended to satisfy the upper level course requirement by taking 6 credits from one of the areas of specialization specified in the Psychology section.

6.12.48 Sexual Diversity Studies Program

Office of Interdisciplinary Programs
Peterson Hall
3460 McTavish Street, Room 126
Montreal, QC H3A 1X9

Telephone: 514-398-4804
Fax: 514-398-2786

Website: www.mcgill.ca/sdst

Adviser: Monica Hotter

Acting Program Committee Chair — K. Borris (*English*)

Program Committee
K. Borris (*English*), S. Brotman (*Social Work*), E. Elbourne (*History*), A. Hepburn (*English*), M. Deslauriers (*Philosophy*), M. Hartman (*Islamic Studies*)

The Minor Concentration in Sexual Diversity Studies is informed by a tradition of critical inquiry developed within various frameworks including Women's Studies and Gay, Lesbian and Queer Studies. It is designed to introduce students to the latest scholarship on the study of sexuality and sexual and gender diversity across a wide range of disciplines and cultures.

MINOR CONCENTRATION IN SEXUAL DIVERSITY STUDIES
(18 credits)

Required Course (3 credits)

SDST 250	(3)	Introduction: Sexual Diversity Studies

Note: * indicates courses that are acceptable only when the topic is appropriate for Sexual Diversity Studies.

Complementary Courses (15 credits)

CANS 308	(3)	Sex and Gender in Canada
COMS 310	(3)	Media and Feminist Studies
EAST 350	(3)	Gender and Sexuality in Chinese Literature
EAST 370	(3)	History of Sexuality in Japan
ENGL 354	(3)	Sexuality and Representation
ENGL 493	(3)	Narrative Media
HIST 323	(3)	History and Sexuality 1
HIST 347	(3)	History and Sexuality 2
HIST 420	(3)	Gender and Sexuality in Modern China
HIST 424	(3)	Gender, Sexuality & Medicine
HIST 433	(3)	British Queer History
HIST 448	(3)	Women, Gender and Sexuality in the Middle East
MUAR 399	(3)	Music and Queer Identity
PHIL 242	(3)	Introduction to Feminist Theory
PHIL 442	(3)	Topics in Feminist Theory
PSYC 436	(3)	Human Sexuality and its Problems
RELG 271	(3)	Sexual Ethics
RELG 339	(3)	Gender & Sexuality in Buddhism
RELG 356	(3)	Gender & Sexuality in Hinduism
SDST 450	(3)	Independent Reading & Research
SOCI 489	(3)	Gender, Deviance and Social Control
SOCI 530	(3)	Sex and Gender
SWRK 342	(3)	Practice with Gay, Lesbian, Bisexual & Two-Spirit People
WMST 402*	(3)	Women's Studies Special Topics 2
WMST 513	(3)	Gender, Race and Science

Chair — Alberto Cambrosio

Emeritus Professor
Margaret Lock; B.Sc.(Leeds), M.A., Ph.D.(Calif.) (*Marjorie Bronfman Professor in Social Studies in Medicine*)

Professors
Alberto Cambrosio; M.Env.(Sher.), Ph.D.(Montr.)
Andrea Tone; B.A.(Qu.), M.A., Ph.D.(Emory) (*Canada Research Chair in the Social History of Medicine*)
George Weisz; M.A., Ph.D.(SUNY), Dr. 3rd Cy.(Paris) (*Cotton-Hannah Professor of the History of Medicine*)
Allan Young; M.A.(Wash.), B.A., Ph.D.(Penn.) (*Marjorie Bronfman Professor in Social Studies in Medicine*)

Associate Professors
Faith Wallis; M.A., M.L.S.(McG.), Ph.D.(Tor.)
Thomas Schlich; M.D.(Marburg), Ph.D.(Freiburg) (*Canada Research Chair in History of Medicine*)

Assistant Professors
Tobias Rees; M.A.(Tübingen), Ph.D.(Calif., Berk.)

Assistant Professors (*Primary Appointment: Biomedical Ethics Unit*)
Jonathan Kimmelman; M.A., Ph.D.(Yale)
Jennifer Fishman; M.A.(Calif., Irvine), Ph.D.(Calif.)
Nicholas King; M.A., Ph.D.(Harv.)

Adjunct Professors
Cornelius Borck; M.A., M.D.(Free Univ., Berlin), Ph.D.(Lond.)

The Minor Concentration in Social Studies of Medicine is an interdisciplinary concentration of courses designed to address the needs of (1) undergraduates preparing for one of the health professions, and (2) social sciences and humanities undergraduates who wish to gain a broader interdisciplinary understanding of medicine and health issues.

The Minor Concentration in Social Studies of Medicine presents medicine as a complex network of institutions, cultures and political relations embedded in the institutions, cultures and political relations of the larger society. Courses are divided into three groups: History of Medicine, Anthropology of Medicine, and Sociology of Medicine.

The Minor consists of 18 credits. Students are required to take six credits from each of the three groups. **Note:** No overlap is permitted with courses counting towards the student's Major Concentration.

MINOR CONCENTRATION IN SOCIAL STUDIES OF MEDICINE (18 credits)

Complementary Courses (18 credits)
6 credits from each of the following groups:

History of Medicine
HIST 249 (3) Health and the Healer in Western History
HIST 319 (3) The Scientific Revolution
HIST 330 (3) Science in the Medieval West
HIST 335 (3) Science from Greeks to Newton
HIST 348 (3) China: Science-Medicine-Technology
HIST 356 (3) Medicine in the Medieval West
HIST 381 (3) Colonial Africa: Health/Disease
HIST 424 (3) Gender, Sexuality & Medicine
HIST 449 (3) Medicine in the Ancient World
HIST 452 (3) Medicine in Europe 1500-1700
HIST 457 (3) Topics in Medical History
HIST 458 (3) Modern Medicine: Seminar
HIST 459 (3) Modern Medicine: Research
HIST 466 (3) Seminar: Medieval Medicine
HIST 496 (3) Research: Medieval Medicine
WMST 513 (3) Gender, Race and Science

Anthropology of Medicine
ANTH 227 (3) Medical Anthropology
ANTH 302 (3) New Horizons in Medical Anthropology
ANTH 314 (3) Psychological Anthropology 01
ANTH 407 (3) Anthropology of the Body
ANTH 438 (3) Topics in Medical Anthropology
ANTH 439 (3) Theories of Development
ANTH 443 (3) Medical Anthropological Theory
ANTH 480 (3) Special Topic 5
ANTH 481 (3) Special Topic 6
ANTH 482 (3) Special Topic 7
ANTH 483 (3) Special Topic 8
ANTH 484 (3) Special Topic 9
ANTH 485 (3) Special Topic 10

Sociology of Medicine
SOCI 225 (3) Medicine and Health in Modern Society
SOCI 309 (3) Health and Illness
SOCI 310 (3) Sociology of Mental Disorder
SOCI 338 (3) Introduction to Biomedical Knowledge
SOCI 390 (3) Gender and Health
SOCI 425 (3) Sociology of the Body
SOCI 508 (3) Medical Sociology and Social Psychiatry
SOCI 515 (3) Medicine and Society
SOCI 525 (3) Health Care Systems in Comparative Perspective
SOCI 538 (3) Selected Topics in Sociology of Biomedical Knowledge

6.12.50 Social Work (SWRK)

School of Social Work
Wilson Hall
3506 University Street
Montreal, QC H3A 2A7

Telephone: 514-398-7070
Fax: 514-398-4760

Website: www.mcgill.ca/socialwork

Director — Wendy Thomson

Emeritus Professor
David E. Woodsworth; B.A., Dipl.S.W.(Tor.), M.A.(Mich.), Ph.D.(Brandeis)

Professors
Linda Davies; B.S.W., M.S.W.(McG.), Ph.D.(N. Lond. Poly.)
Peter Leonard; B.Sc., M.Sc., Dip. Mental Health(Lond.)
Wendy Thomson; B.S.W., M.S.W.(McG.), Ph.D.(Brist.)
James Torczyner; B.H.L.(Yeshiva), M.S.W., D.S.W.(Calif.)
Nico Trocmé; B.A., M.S.W., Ph.D.(Tor.) (*The Philip Fisher Chair in Social Work*)

Associate Professors
Shari Brotman; B.S.W., M.S.W.(McG.), Ph.D.(Tor.)
Myriam Denov; B.A.(Tor.), B.S.W.(McG.), M.A.(Ott.), Ph.D.(Camb.)
Sydney Duder; B.Sc., M.S.W., Dip.Adv.Soc.Wk.Pr., Ph.D.(McG.)
Estelle Hopmeyer; B.A., M.S.W.(McG.)
Julia Krane; B.A.(Ott.), B.S.W.(McG.), M.S.W., Ph.D.(Tor.)

Assistant Professors
Delphine Collin-Vézina; B.Sc., Ph.D.(Montr.)
Amanda Grenier; B.S.W.(Windsor), M.S.W., Ph.D.(McG.)
Jill Hanley; B.A., B.S.W.(McG.), M.A.(Tufts), Ph.D.(Montr.)
Nicole Ives; B.A.(Col.), M.S.W., Ph.D.(Penn.)

Field Education Program
Francine Granner; B.S.W., M.S.W.(McG.)
Karen Hetherington; B.A.(C'dia), M.A.(Montr.)

The School of Social Work offers an undergraduate program leading to a Bachelor of Social Work (B.S.W.) degree. The B.S.W. program:

1) prepares students for generalist social work practice in a range of health and social service positions (the B.S.W. represents the point of admission into the 'Ordre Professionnel des Travailleurs Sociaux du Québec' and the 'Canadian Association of Social Workers);
2) prepares students for entry into specialized professional studies at the graduate level.

A 90-credit program is offered to students entering from CEGEP or equivalent, students who transfer from within McGill or other universities, and mature students. A 60-credit program is offered to students who already have an undergraduate degree. *Students are eligible to apply to the M.S.W. program after completing 30 credits of the 60-credit program.*

Note: Quebec law requires that candidates seeking admission to the provincially recognized regulatory bodies possess a working knowledge of the French language, i.e., be able to communicate verbally and in writing in that language. For further information, refer to Language Requirements for Professions, section 3.10.1.

Applications are encouraged from persons of diverse backgrounds, including members of minority groups and persons of low income.

The objectives of the B.S.W. program are to provide an academic environment within which students will develop:

- integrated social work knowledge pertaining to its history, theoretical foundations, research base, practice modalities and policies that influence the delivery of health and social services;
- professional skills in the well-established methods of practice with individuals, families, and groups in communities and organizations;
- an understanding of social policy in Canada, the factors, processes and forces that shape it and the skills to intervene;
- an awareness of the various dimensions of diversity and how they intersect in an increasingly heterogeneous society;
- a sense of identity with the profession of social work, which implies awareness of self as the intervening agent in practice, a sense of responsibility that accompanies the act of intervention, and sensitivity to the ethical issues that arise in practice; and,
- a commitment to advancing knowledge and improving skills in social work practice that are the prerequisites for entering into more specialized professional studies at the graduate level.

The B.S.W. degree is offered in two ways:

1. as a three-year undergraduate B.S.W. program, and
2. as a two-year program for applicants who already have an undergraduate degree in another discipline.

BACHELOR OF SOCIAL WORK (B.S.W.) – THREE-YEAR PROGRAM – ADMISSION

Three categories of applicants are eligible to apply for September admission to the three-year Bachelor of Social Work:

1. Applicants who have completed a DEC from CEGEP or have completed equivalent studies with better than average grades and have related social work experience will be considered for admission to a minimum 90-credit program.
2. Transfer Students
   Students who have begun undergraduate degree programs either at McGill or at other universities may apply to transfer to the School of Social Work. In order to qualify as a transfer student, applicants are expected to have a B average in their course work (minimum 3.00 CGPA). While previously taken credits may be accepted towards the B.S.W. program requirements, accepted applicants will be required to complete a minimum of 60 approved McGill credits over three academic years. Accepted transfer credits are assessed individually at the point of admission.
   Students wishing to transfer after their Freshman year must have completed the minimum 24 credits required for the Arts Freshman Program. Completion of these credits does not exempt students from any of the course requirements for the B.S.W. degree, nor decrease their credit requirement.
3. Mature Students
   Residents of Canada who are 23 years of age or older, and who lack the academic background normally required for admission, may apply for entrance as mature students. To be considered for the B.S.W. program, applicants must have had significant paid or volunteer community work experience in related fields, and must also have completed a minimum of two appropriate courses at the college or university level, achieving a grade of B or better in each.

Enrolment in the B.S.W. program is limited. Candidates whether entering or transferring are expected to have better than average grades. Within the group of applicants who meet the academic requirements, preference is given to those who have had social work-related experience, paid or volunteer, and also to those who demonstrate personal suitability for the social work profession.

More details on entrance requirements can be found on the web at www.mcgill.ca/applying.

BACHELOR OF SOCIAL WORK (B.S.W.) THREE-YEAR PROGRAM (90 credits)

The B.S.W. degree is awarded upon successful completion of 90 credits of study.

Required Courses (57 credits)

SWRK 220	(3)	History & Philosophy of Social Work
SWRK 221	(3)	Public Social Services in Canada
SWRK 222	(3)	Introduction to Practicum
SWRK 223	(3)	Poverty and Inequality
SWRK 224	(3)	Human Development Across the Lifespan
SWRK 320	(3)	Practice with Individuals and Families 1
SWRK 321	(3)	Introduction to Practice with Groups
SWRK 322	(3)	Field Practice 1
SWRK 323	(3)	Field Practice 2
SWRK 325	(3)	Anti-Oppression Social Work Practice
SWRK 326	(3)	Practice with Individuals and Families 2
SWRK 327	(3)	Approaches to Community Practice
SWRK 420	(3)	Advanced Field Practice 1
SWRK 421	(3)	Advanced Field Practice 2
SWRK 422D1/D2	(3)	Integrative Seminar
SWRK 423	(3)	Social Work Research
SWRK 424	(3)	Mental Health and Illness
SWRK 428	(3)	Social Policy and Administration
SWRK 525	(3)	Critical Thought and Ethics in Social Work

Complementary Courses (24-27 credits)

6-9 credits of Social Work courses (SWRK).

18 credits of Social Sciences to be completed in Anthropology (ANTH), Economics (ECON), Political Science (POLI), Psychology (PSYC), or Sociology (SOCI).

At least 6 of the 18 social science credits must be taken at the 300-level or higher; or

At least 9 of the 18 social science credits must be taken in one department.

Courses given in other departments may be considered on an individual basis and require special permission of the Undergraduate Coordinator.

Electives (6-9 credits)

To be taken in a discipline other than Social Work.

Please note that, although not a requirement for the three-year B.S.W. program, a course in statistics is a prerequisite for admission into the M.S.W. program at McGill. Students in the three-year B.S.W. program who have not previously completed a course in statistics and are planning on completing a graduate degree are, therefore, strongly encouraged to take a statistics course during their undergraduate studies.

Field Practicum

Students in the three-year B.S.W. program complete a field placement during their second and third years, 2 days per week, in different settings each year. Students must have completed a minimum of 24 credits of the 90 credits of study before commencing their second year placement, and 54 credits before commencing their third year placement.

Grading Policy

Students are required to obtain a grade of C or better in all of their Social Work courses (66 credits) and also in their 18 social science credits. If students receive a D in any of these courses, they must take additional courses to satisfy the program requirement. Only in an elective course will the grade of D be counted for credit.

Satisfactory/Unsatisfactory (S/U) Option Policy

Please note that the S/U option can only be selected for an elective course; please see "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option", in section 3.3.6.

BACHELOR OF SOCIAL WORK (B.S.W.) – ADMISSION TWO-YEAR PROGRAM (60 credits)

Admission Requirements

The minimum requirements for admission to the two-year Bachelor of Social Work program are as follows:

1. Bachelor's degree (DCS/DEC from CEGEP plus a minimum of a 90-credit, or three-year university degree; or, a high school diploma plus a minimum of a 120-credit or four-year university degree).
2. Completion of at least 9 credits (3 courses) in social sciences (including Anthropology, Economics, Political Science, Psychology, or Sociology).
3. 3 credits (one course) in Human Development and 3 credits (one course) in Research Methods at university level.
4. 3 credits (one course) in Statistics at university or CEGEP level.
5. Minimum CGPA of 3.0 out of 4.0 (or equivalent).
6. Paid and/or voluntary work experience.

While not a prerequisite for admission, working knowledge of the French language is important not only for candidates who intend to seek admission to the Quebec professional corporation, but also for those who will be completing a field placement in the province of Quebec.

More details on entrance requirements are available on the web, at www.mcgill.ca/applying.

BACHELOR OF SOCIAL WORK(B.S.W.) – TWO-YEAR PROGRAM (60 credits)

The B.S.W. degree is awarded upon successful completion of 60 credits of study.

Required Courses (45 credits)

SWRK 220	(3)	History & Philosophy of Social Work
SWRK 221	(3)	Public Social Services in Canada
SWRK 320	(3)	Practice with Individuals and Families 1
SWRK 321	(3)	Introduction to Practice with Groups
SWRK 322	(3)	Field Practice 1
SWRK 323	(3)	Field Practice 2
SWRK 325	(3)	Anti-Oppression Social Work Practice
SWRK 326	(3)	Practice with Individuals and Families 2
SWRK 327	(3)	Approaches to Community Practice
SWRK 420	(3)	Advanced Field Practice 1
SWRK 421	(3)	Advanced Field Practice 2
SWRK 422D1/D2	(3)	Integrative Seminar
SWRK 424	(3)	Mental Health and Illness
SWRK 428	(3)	Social Policy and Administration
SWRK 525	(3)	Critical Thought and Ethics in Social Work

Complementary Courses (12 credits)

Social Work (SWRK) courses only.

Electives (3 credits)

To be taken in a discipline other than Social Work.

Note: Students in the 60-credit B.S.W. program are eligible to apply to the Master of Social Work (M.S.W.) program after successfully completing the first 30 credits of this two-year program.

Field Practicum
Field Practice takes place in one field setting 2½ days per week during the academic year.

Grading Policy
Students are required to obtain a grade of C or better in all of their courses. If students receive a D in any of these courses, they must take additional courses to satisfy the program requirement. Only in an elective course will the grade of D be counted for credit.

Satisfactory/Unsatisfactory (S/U) Option Policy
Please note that the S/U option can only be selected for an elective course; please see "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option", in section 3.3.6.

Chair — Morton Weinfeld

Director, Undergraduate Studies — Matthew Lange
Director, Graduate Studies — John Hall

Emeritus Professor
Maurice Pinard, B.A., LL.L., M.A.(Montr.), Ph.D.(Johns H.), F.R.S.C.

Professors
Alberto Cambrosio; Dip.(Basel), M.A.(Sher.), Ph.D.(Montr.) (*Social Studies of Medicine*)
John A. Hall; B.A.(Oxf.), M.A.(Penn.), Ph.D.(LSE)
Céline Le Bourdais; B.Sc.(Montr.), B.Sc.(Laval), M.Sc.(Montr.), Ph.D.(Brown) (*Canada Research Chair in Social Statistics and Family Change*)
Anthony Masi; A.B.(Colgate), M.A., Ph.D.(Brown) (*Deputy Provost and Chief Information Officer*)
Michael Smith; B.A.(Leic.), M.A., Ph.D.(Brown)
Axel P.M. van den Berg; Kand. Doc.(Amst.), Ph.D.(McG.)
Morton Weinfeld; B.A.(McG.), Ed.M., Ph.D.(Harv.) (*Chair, Canadian Ethnic Studies*)

Associate Professors
Lucia Benaquisto; B.A.(SUNY, Albany.), A.M., Ph.D.(Harv.)
Shelley Clark; B.A.(Virg.), M.A., Ph.D.(Prin.)
Steven L. Rytina; B.G.S., Ph.D.(Mich.)
Donald Von Eschen; A.B.(Beloit), M.A.(Chic.), Ph.D.(Johns H.)

Assistant Professors
Marc (Marcos) Ancelovici; B.Sc., M.Sc.(Montr.), Ph.D.(MIT)
Giovani Burgos; B.A.(SUNY Albany), M.A., Ph.D.(Ind.)
Jason Carmichael; B.A.(Arizona St.), M.A, Ph.D.(Ohio St.)
Kathleen Fallon; B.A.(Calif.), M.A., Ph.D.(Ind.)
Matthew Lange; B.A.(Car.), M.A., Ph.D.(Brown)
Amélie Quesnel-Vallée; B.Sc., M.Sc.(Montr.), M.A., Ph.D.(Duke)
John (Jack) Sandberg; B.A.(Hunter), Ph.D.(Mich.)
Elaine Weiner; B.A.(Grinnel), M.A.(Flor.), Ph.D.(Mich.)

Adjunct Professors
Donald Hinrichs
Catherine Montgomery

Associate Member
Gregory Baum (*Religious Studies*)
Jennifer Fishman (*Social Studies of Medicine - Biomedical Ethnics Unit*)

Sociology is commonly defined as the scientific study of society. It offers the student an educational experience which is both intellectually rewarding and practically useful as a preparation for future career opportunities. It provides the student with the theoretical and analytical tools to better understand the complex social forces which affect our lives, contributing in this way to personal enrichment and more effective citizenship. It is also valuable preparation for advanced study in the social sciences, as well as for careers in the professions, management, education, law, medicine and health-related areas, social work, and communications in both the public sector and private industry.

The Department offers a Minor Concentration, a Major Concentration, and an Honours Program in Sociology. Although students from outside the Department may take courses in the Department without having had SOCI 210 Sociological Perspectives (except where noted otherwise), the course is recommended. The purpose of the Minor Concentration is to give the student a basic understanding of the field of Sociology, while the Major Concentration will provide a more comprehensive coverage of the field. The purpose of the Honours Program is to permit a student to study the field in depth, and to do an Honours Project – a research paper under the supervision of a faculty member, the topic and supervisor chosen by mutual agreement between the student and the professor.

Orientation Session for New Students
The Sociology Department Orientation Session will be held in Leacock 738 (7th floor of the Stephen Leacock Building, directly opposite the elevators).

SUBSTANTIVE AREAS OF STUDY
The Department offers four substantive areas of study:
- Institutions, Deviance, and Culture
- Politics and Social Change
- Social Stratification: Class, Ethnicity, and Gender
- Work, Organizations, and the Economy

The following lists indicate the courses which are included within each Substantive Area:

Institutions, Deviance, and Culture
SOCI 216 (3) Social Psychology
SOCI 219 (3) Sociology of Culture
SOCI 225 (3) Medicine and Health in Modern Society
SOCI 247 (3) Family and Modern Society
SOCI 250 (3) Social Problems
SOCI 305 (3) Socialization
SOCI 309 (3) Health and Illness
SOCI 310 (3) Sociology of Mental Disorder
SOCI 315 (3) Sociology of Religion
SOCI 318 (3) Television in Society
SOCI 322 (3) Sociology of Literature
SOCI 338 (3) Introduction to Biomedical Knowledge
SOCI 377 (3) Deviance
SOCI 388 (3) Crime
SOCI 425 (3) Sociology of the Body
SOCI 435 (3) Popular Culture
SOCI 460 (3) Responses to Social Problems
SOCI 488 (3) Punishment and Prisons
SOCI 489 (3) Gender, Deviance and Social Control
SOCI 495 (3) Social Problems and Conflicts
SOCI 508 (3) Medical Sociology and Social Psychiatry
SOCI 515 (3) Medicine and Society
SOCI 525 (3) Health Care Systems in Comparative Perspective
SOCI 535 (3) Sociology of the Family
SOCI 538 (3) Selected Topics in Sociology of Biomedical Knowledge
SOCI 571 (3) Deviance and Social Control
SOCI 588 (3) Sociology of Knowledge

Politics and Social Change
SOCI 222 (3) Urban Sociology
SOCI 234 (3) Population and Society
SOCI 254 (3) Development and Underdevelopment
SOCI 265 (3) War, States and Social Change
SOCI 307 (3) Sociology of Globalization
SOCI 326 (3) Political Sociology 01
SOCI 345 (3) Selected Topics
SOCI 354 (3) Dynamics of Industrial Societies
SOCI 365 (3) Health and Development
SOCI 370 (3) Sociology: Gender and Development
SOCI 386 (3) Contemporary Social Movements
SOCI 390 (3) Gender and Health
SOCI 424 (3) Networks and Social Structures
SOCI 446 (3) Colonialism and Society
SOCI 455 (3) Post-Socialist Societies
SOCI 484 (3) Emerging Democratic States
SOCI 495 (3) Social Problems and Conflicts
SOCI 507 (3) Social Change
SOCI 511 (3) Movements/Collective Action
SOCI 513 (3) Social Aspects HIV/AIDS in Africa
SOCI 519 (3) Gender and Globalization
SOCI 545 (3) Sociology of Population
SOCI 550 (3) Developing Societies
SOCI 565 (3) Social Change in Panama

Social Stratification: Class, Ethnicity, and Gender
SOCI 230 (3) Sociology of Ethnic Relations
SOCI 270 (3) Sociology of Gender
SOCI 301 (3) Comparative Ethnic Relations
SOCI 327 (3) Jews in North America
SOCI 333 (3) Social Stratification
SOCI 353 (3) Inequality and Social Conflict
SOCI 475 (3) Canadian Ethnic Studies Seminar
SOCI 510 (3) Seminar in Social Stratification
SOCI 512 (3) Ethnicity & Public Policy
SOCI 520 (3) Migration and Immigrant Groups
SOCI 530 (3) Sex and Gender
SOCI 555 (3) Comparative Historical Sociology

Work, Organizations, and the Economy
SOCI 235 (3) Technology and Society
SOCI 304 (3) Sociology of the Welfare State
SOCI 312 (3) Sociology of Work and Industry
SOCI 321 (3) Gender and Work
SOCI 420 (3) Organizations
SOCI 422 (3) Health Care Providers
SOCI 470 (3) Topics in Economic Sociology

Advising note: Students exempted from the SOCI 350 course requirement must replace it with another 300-level or above sociology course.

MINOR CONCENTRATION IN SOCIOLOGY (18 credits) (Expandable)

The purpose of the Minor Concentration is to give the student a basic understanding of the field of sociology.

U1 Required Courses (6 credits)
SOCI 210 (3) Sociological Perspectives
SOCI 211 (3) Sociological Inquiry

Complementary Courses (12 credits)
SOCI 330 (3) Sociological Theory
or SOCI 350 (3) Statistics in Social Research

9 credits of complementary courses, at least 3 credits must be taken at the 300 level or higher.

500-level seminars are open to Honours students and social science Major Concentration students in their final year, and Minor Concentration students only with permission of the instructor.

MAJOR CONCENTRATION IN SOCIOLOGY (36 credits)

The purpose of the Major Concentration is to give the student a comprehensive understanding of the field of sociology.

U1 Required Courses (6 credits)
SOCI 210 (3) Sociological Perspectives
SOCI 211 (3) Sociological Inquiry

U2 Required Courses (6 credits)
SOCI 330 (3) Sociological Theory
SOCI 350 (3) Statistics in Social Research

Complementary Courses (24 credits*)

At least 3 of these credits must be at the 400 level or higher, and no more than 9 of these credits may be at the 200 level.

* A student taking the Major Concentration may take no more than 6 credits throughout the three-year program from the following: SOCI 340/SOCI 341, SOCI 342/SOCI 343, SOCI 440/SOCI 441, SOCI 442/SOCI 443.

Seminars at the 500 level are open to Honours students and social science Major Concentration students in their final year, and Minor Concentration students only with permission of the instructor.

Graduate Seminars listed below are open to final-year Honours students with adequate preparation:
SOCI 627 Political Sociology 1
SOCI 652 Current Sociological Theory

HONOURS IN SOCIOLOGY (51 credits)

Students may register for the Honours Program at the beginning of their second year (U2).

To remain in the Honours Program and receive an Honours degree, students must maintain a cumulative grade point average (CGPA) of 3.00, as well as a program GPA of 3.30. For more information see section 6.3.5 “Program Requirements”.

A Minor Concentration outside Sociology must be taken.

Required Courses (21 credits)
SOCI 210 (3) Sociological Perspectives
SOCI 211 (3) Sociological Inquiry
SOCI 330 (3) Sociological Theory
SOCI 350 (3) Statistics in Social Research
SOCI 461 (3) Quantitative Data Analysis
SOCI 477 (3) Qualitative Methods in Sociology
SOCI 480 (3) Honours Project

Complementary Courses (30 credits*)

30 credits of Sociology courses (SOCI). At least 9 of these credits must be taken at the 400 level or higher, and no more than 9 of these credits may be taken at the 200 level.

JOINT HONOURS – SOCIOLOGY COMPONENT (36 credits)

Students who wish to study at the Honours level in two Arts disciplines can combine Joint Honours program components from any two Arts disciplines; see section 6.11.4 "Joint Honours Programs" for a list of available programs.

Students may register for the Joint Honours program at the beginning of their second year (U2).

Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

Joint Honours students must maintain a minimum CGPA of 3.00 as well as a minimum GPA of 3.30 in this component.

Required Courses (18 credits)
SOCI 210 (3) Sociological Perspectives
SOCI 211 (3) Sociological Inquiry
SOCI 330 (3) Sociological Theory
SOCI 350 (3) Statistics in Social Research
SOCI 461 (3) Quantitative Data Analysis
SOCI 480 (3) Honours Project

Complementary Courses (18 credits)
18 credits of Sociology courses approved by the Departmental Honours Adviser.

Professor Marguerite Deslauriers, Director, MCRTW

Women's Studies is an interdisciplinary program that brings to light contemporary and historical critical issues centred on women, gender and/or feminism. The program provides students with opportunities to explore the meanings and intersections of such categories as gender, 'race', class, sexual orientation, age, ability, citizenship, and national identity for example, and to examine how such categories might inform and reproduce power relationships.

Students must see an advisor in Women's Studies at a minimum upon registering in WMST and prior to selecting courses for the final year of study.

For further information concerning courses please consult the Women's Studies Handbook available from the MCRTW or online at www.mcgill.ca/mcrtw. The most up-to-date information concerning courses will be on the website.

MINOR CONCENTRATION IN WOMEN'S STUDIES (18 credits) (Expandable)

Required Courses (6 credits)
WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research

Complementary Courses (12 credits)

12 credits selected from Complementary Course Group B.
At least 6 credits must be at the 300 level or higher.

Complementary Course Group B includes topics courses marked by an asterisk "*". Courses with an asterisk "*" are acceptable ONLY when the topic is appropriate for Women's Studies, that is, it is relevant to women and/or gender and/or feminism in a given year and with documentation on file for the given year. Additions may be made during a particular calendar year depending on the topic of special courses. For final updates, go to www.mcgill.ca/mcrtw. Please note that not all courses are offered every year. Courses currently awaiting University approval to be cross-listed as Women's Studies courses will be added to the online Calendar (www.mcgill.ca/courses) and the MCRTW website.

By arrangement with the Chair of the Women's Studies Advisory Committee and subject to University approval, transfer credits will be accepted from approved exchange programs for a total of no more than 6 credits.

Complementary Course Group B:

Anthropology
ANTH 341 (3) Women in Cross-cultural Perspective
ANTH 342 (3) Gender, Inequality and the State
ANTH 413 (3) Gender in Archaeology

Art History and Communication Studies

MAJOR CONCENTRATION IN WOMEN'S STUDIES (36 credits)

Required Courses (6 credits)
WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research

Complementary Courses (30 credits)

30 credits of complementary courses selected as described below.

3 credits chosen from the WMST courses below:
WMST 301 (3) Women's Studies Current Topics 1
WMST 302 (3) Women's Studies Current Topics 2
WMST 401 (3) Women's Studies Special Topics 1
WMST 402 (3) Women's Studies Special Topics 2
WMST 501 (3) Advanced Topics 1
WMST 502 (3) Advanced Topics 2
WMST 513 (3) Gender, Race and Science
Not offered in 2009-2010

The remaining 27 credits of complementary courses are to be selected from Group A and Group B as specified below.
At least 6 of these 27 credits must be at the 400 or 500 level.

12 credits from Complementary Course Group A:
Students must select 12 credits from the following eight groupings of complementary courses. Students may take only one course from any particular grouping. Any additional credits taken above the 12 credits from Complementary Course Group A may count as credits towards Complementary Course Group B.

Group A-1
SOCI 270 (3) Sociology of Gender

Group A-2
PHIL 242 (3) Introduction to Feminist Theory

Group A-3
COMS 310 (3) Media and Feminist Studies

Group A-4, Gender Relations in Major Societal Institutions, 1 of:
SOCI 247 (3) Family and Modern Society
SOCI 321 (3) Gender and Work
SOCI 390 (3) Gender and Health

Group A-5, Transnational or National Histories of Women/Gender and Sexuality, 1 of:
EAST 370 (3) History of Sexuality in Japan
HIST 323 (3) History and Sexuality 1
HIST 347 (3) History and Sexuality 2

Group A-6, Women/Gender and Literature, 1 of:
EAST 350 (3) Gender and Sexuality in Chinese Literature
EAST 351 (3) Women Writers of China
ENGL 323 (3) Contemporary Women's Fiction
ENGL 444 (3) Studies: Women's Writing and Feminist Theory

Group A-7, Women/Gender in a Religious Tradition, 1 of:
RELG 256 (3) Women in Judaism and Islam
RELG 338 (3) Women and the Christian Tradition
RELG 356 (3) Gender & Sexuality in Hinduism

Group A-8, Women and Health, 1 of:
HSEL 308 (3) Issues in Women's Health
HSEL 309 (3) Women's Reproductive Health

15 credits from Complementary Course Group B.

Students select courses from the list in consultation with an advisor and identify an individual focus of study comprised of 9 credits.

By arrangement with the Chair of the Women's Studies Advisory Committee and subject to University approval, transfer credits will be accepted from approved exchange programs for a total of no more than 12 credits.

Note: Complementary Course Group B includes topics courses marked by an asterisk "*". Courses with an asterisk "*" are acceptable ONLY when the topic is appropriate for Women's Studies, that is, it is relevant to women and/or gender and/or feminism in a given year and with documentation on file for the given year. Additions may be made during a particular calendar year depending on the topic of special courses. For final updates, go to www.mcgill.ca/mcrtw. Please note that not all courses are offered every year. Courses currently awaiting University approval to be cross-listed as Women's Studies courses will be added to the online Calendar (www.mcgill.ca/courses) and the MCRTW website.

HONOURS IN WOMEN'S STUDIES (57 credits)

The Honours program offers a degree of analysis and depth of contemporary and historical critical issues centered on women, gender, and/or feminism beyond that of the Major. The Honours culminates in the completion of an Honours thesis, supervised by a faculty member. Students secure the approval of a potential thesis advisor during the year before undertaking the thesis. Three credits are accorded to the thesis (graded by the thesis advisor), and 3 credits are accorded to work undertaken in the Colloquium which requires supplemental reading and writing assignments, training in research and thesis writing methods, presentation to the group of theses in progress, and response to the work of others.

Honours students must maintain a program GPA of 3.30 and a CGPA of 3.00.

Required Courses (12 credits)
WMST 200 (3) Introduction to Women's Studies
WMST 303 (3) Feminist Theory and Research
WMST 495D1 (1.5) Honours/Joint Honours Colloquium
WMST 495D2 (1.5) Honours/Joint Honours Colloquium
WMST 497D1 (1.5) Honours/Joint Honours Thesis
WMST 497D2 (1.5) Honours/Joint Honours Thesis

Complementary Courses (45 credits)

45 credits of complementary courses selected as described below.

At least 9 of the 45 credits must be at the 400 or 500 level; no more than 18 credits can be at the 200 level.

6 credits chosen from the WMST courses below:
WMST 301 (3) Women's Studies Current Topics 1
WMST 302 (3) Women's Studies Current Topics 2
WMST 401 (3) Women's Studies Special Topics 1
WMST 402 (3) Women's Studies Special Topics 2
WMST 501 (3) Advanced Topics 1
WMST 502 (3) Advanced Topics 2
WMST 513 (3) Gender, Race and Science
Not offered in 2009-2010

12 credits from Complementary Course Group A:
Students must select a minimum of 12 credits from the following eight groupings of complementary courses. Students may take only one course from any particular grouping. Any additional credits taken above the 12 credits from Complementary Course Group A may count as credits towards Group B.

Group A-1
SOCI 270 (3) Sociology of Gender

Group A-2
PHIL 242 (3) Introduction to Feminist Theory

7.1 The Faculties

7.1.1 Location

853 Sherbrooke Street West
Montreal, QC H3A 2T6
Canada

Telephone: 514-398-4210
Faculty websites:
www.mcgill.ca/arts and www.mcgill.ca/science

Degree website: www.mcgill.ca/science/sousa/basc

Science Office for Undergraduate Student Advising (SOUSA)
Website: www.mcgill.ca/science/sousa

The Science Office for Undergraduate Student Advising (SOUSA) Office of the Faculty of Science and the Office of the Director of Advising Services of the Faculty of Science are located in Dawson Hall, Rooms 110 and 115. The SOUSA Office serves students in the B.A. & Sc. and B.Sc. degrees.

7.1.2 Administrative Officers

For a listing of administrative officers in the Faculty of Arts, refer to section 6.1.2 "Administrative Officers", and for those in the Faculty of Science, refer to section 14.1.2 "Faculty Administrative Officers". Note that the Director of Advising Services, Science, is responsible for students pursuing a B.A. & Sc.

The B.A. & Sc. Program Administration Committee (PAC), which oversees the curriculum and regulations for the degree, consists of the following members:

Bruce A. Arndtsen; B.A.(Car. College), Ph.D.(Stan.)
Chemistry

André Costopoulos; B.A.(McG.), M.A.(Montr.), Ph.D.(Oulu)
Anthropology

Laurie Hendren; B.Sc., M.Sc.(Qu.), Ph.D.(C'nell)
Associate Dean (Academic), Faculty of Science

Louis Lefebvre; B.Sc., M.A., Ph.D.(Montr.) **Biology**

TBA
Associate Dean (Academic), Faculty of Arts

Gregory Mikkelson; B.A.(Trinity University), M.S., Ph.D.(Chic.)
Philosophy and School of Environment

7.1.3 Programs and Teaching in Arts and in Science

Programs and teaching in Arts are described in section 6.1.3 "Programs and Teaching in Arts". Those in Science are described in section 14.1.3 "Programs and Teaching in Science". The two faculties jointly offer the B.A. & Sc., so students pursuing that degree are at home in both Arts and Science.

7.1.4 Science Office for Undergraduate Student Advising (SOUSA)

The Science Office for Undergraduate Student Advising (SOUSA) provides ongoing advice and guidance on programs, degree requirements, registration, course change, procedures for withdrawal, deferred exams, supplemental exams, rereads, academic standing, inter-faculty transfer, year or term away, transfer credits, second programs, second degrees, and graduation.

SOUSA advisers offer help managing academic situations during periods of personal, financial or medical problems, by working with students to identify various possibilities and strategies for making informed decisions. SOUSA advisers can be contacted via email at adviser.science@mcgill.ca.

Special requests can be made, in writing, to the Director of Advising Services, Science, who is responsible for students pursuing a B.A. & Sc.

The Committee on Student Standing (CSS) of the Faculty of Science will consider appeals of the Director of Advising Services' decisions. For information about CSS, see the Director of Advising Services' assistant.

For more information, please refer to our website at www.mcgill.ca/science/sousa.

7.2 Degree Admission Requirements

For information about admission requirements to the B.A. & Sc., please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

For information about inter-faculty or inter-degree transfers, please refer to "Inter-Faculty Transfer", section 3.3.12, as well as to the relevant information posted on the Science Office for Undergraduate Student Advising (SOUSA) website at www.mcgill.ca/science/sousa.

7.3 Degree Requirements

Each student pursuing a B.A. & Sc. must be aware of the regulations as stated in this section of the Calendar and on the McGill and Science Office for Undergraduate Student Advising (SOUSA) websites.

While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines rests with the student. It is the student's responsibility to seek guidance from the SOUSA Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

To be eligible for a B.A. & Sc., students must fulfil all Faculty degree and program requirements as indicated below:
"Degree Requirements", section 7.3
"Minimum Credit Requirement", section 7.3.1
"Residency", section 7.3.2
"Cumulative Grade Point Average (CGPA)", section 7.3.3
"Time and Credit Limit for Completion of the Degree", section 7.3.4
"Program Requirements", section 7.3.5
"Course Requirements", section 7.3.6

7.3.1 Minimum Credit Requirement

Students must complete the minimum credit requirement for the degree as specified in the letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

Students who are readmitted after interrupting their studies for a period of five consecutive years or more may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Director of Advising Services, Science, in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

Students who are readmitted after a period of absence are normally subject to the program and degree requirements in effect at the time of readmission.

7.3.2 Residency

To obtain a B.A. & Sc., students must satisfy the following residency requirements: a minimum of 60 credits of courses used to satisfy the B.A. & Sc. requirements must be taken and passed at McGill, exclusive of any courses completed as part of the math and science requirements of the B.A. & Sc. Freshman Program. At least two-thirds of all departmental program requirements (Multitrack, Honours, Interfaculty) must normally be completed at McGill. Exceptionally, students in Major Concentrations or Interfaculty or Honours programs who pursue an approved Study Away or Exchange program may, with prior approval from both their department and the Director of Advising Services, Faculty of Science, be exempted from the two-thirds rule. In addition, some departments may require that their students complete specific components of their program at McGill.

7.3.3 Cumulative Grade Point Average (CGPA)

Each candidate for a B.A. & Sc. must achieve a minimum cumulative grade point average (CGPA) of 2.00.

7.3.4 Time and Credit Limit for Completion of the Degree

Students who need 96 or fewer credits to complete their degree requirements are expected to complete their degree in no more than eight terms after their initial registration. Students in the Freshman Program become subject to these regulations one year after their initial registration. Students who need or wish to exceed this time limit must receive permission from the Director of Advising Services, Science, to continue their studies.

Students registered in the B.A. & Sc. are expected to complete the requirements of their programs and their degree within 120 credits. Students will receive credit for all courses (subject to degree regulations) taken up to and including the semester in which they obtain 120 credits. Students who wish to remain at McGill beyond that semester must also seek permission of the Director of Advising Services, Science. Permission for exceeding the time and/or credit limits will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. If permission is granted, students will receive credit only for required and complementary courses necessary to complete program requirements.

7.3.5 Program Requirements

Students with specific career goals should consult an academic adviser about their choice of program within the B.A. & Sc. However, students intending to pursue further studies following the B.A. & Sc. should refer to the admissions requirements of particular programs for the appropriate prerequisite courses.

In particular, students should note the following:

- The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools.
- The Major Concentration in Psychology may not provide a sufficiently focused background for admission to many graduate programs in Psychology.
- The Major Concentration in Chemistry is not certified by the Ordre des Chimistes du Québec. Students interested in pursuing a career in Chemistry in Quebec are advised to take an appropriate B.Sc. program in Chemistry.

7.3.5.1 Freshman Program

Students who need to complete 97-120 credits to fulfil their degree requirements are admitted to the Freshman Program. The Freshman Program requirements include foundational courses in both Science and Arts which must be selected as follows:

B.A. & Sc. FRESHMAN PROGRAM (30 credits)
At least two mathematics courses selected from:

MATH 139	(4)	Calculus
or MATH 140	(3)	Calculus 1
or MATH 150	(4)	Calculus A
MATH 141	(4)	Calculus 2
or MATH 151	(4)	Calculus B
MATH 133	(3)	Vectors, Matrices and Geometry

At least three foundational science courses selected from:

BIOL 111	(3)	Principles: Organismal Biology
BIOL 112	(3)	Cell and Molecular Biology
CHEM 110	(4)	General Chemistry 1
or CHEM 115	(4)	Accelerated General Chemistry: Giants in Science
CHEM 120	(4)	General Chemistry 2 Note: not open to students who have taken CHEM 115
PHYS 101	(4)	Introductory Physics - Mechanics
or PHYS 131	(4)	Mechanics and Waves
PHYS 102	(4)	Introductory Physics - Electromagnetism
or PHYS 142	(4)	Electromagnetism and Optics

At least three Arts courses (or 9 credits) to be chosen in two of the following three categories:

Social Sciences: Anthropology, Economics, History, Linguistics, Political Science, Sociology

Humanities (Literature and Civilization): Art History and Communications Studies, Classics, East Asian Studies, English, French Language and Literature, German Studies, Hispanic Studies, Islamic Studies, Italian studies, Jewish Studies, Philosophy, Religious Studies, Russian Studies

Languages (courses may be taken in this category to improve language skills): Classics (Latin, Ancient Greek or Modern Greek), East Asian Studies (Chinese, Japanese, Korean), English or French as a Second Language, French Language and Literature, German Studies, Hispanic Studies (Spanish), Islamic Studies (Arabic, Persian, Turkish, Urdu), Italian, Jewish Studies (Hebrew, Yiddish), Russian and Slavic Studies (Polish, Russian, Armenian)

A maximum of two courses (or 6 credits) may be chosen from one category, and no more than two courses (or 6 credits) can be taken in any one department.

No course may fulfil the requirements for more than one program, including the B.A. & Sc. Freshman Program.

Students who have completed the Diploma of Collegial Studies, Advanced Placement exams, Advanced Levels, the International Baccalaureate, the French Baccalaureate, or McGill placement examinations may receive exemption and/or credit for all or part of the Mathematics and foundational science courses as well as exemption from all or part of the Arts courses requirement of the Freshman Program. Similarly, students who have completed courses at other universities or colleges may receive exemptions and/or credits.

Advanced Placement Examination results with a score of 4 or 5 must be declared by the student at the time of initial registration at the University. For more information about advanced standing, please consult: www.mcgill.ca/student-records/transfercredits.

Students must carefully select their mathematics and science Freshman courses so that they have all the required prerequisites for their intended Departmental Programs.

For further details, refer to information about the B.A. & Sc. Freshman Program on the web at www.mcgill.ca/science/sousa/basc.

7.3.5.2 Departmental Programs

Students pursuing a B.A. & Sc., other than those registered in the Freshman Program, are required to have an approved program (Multi-track, Honours, Joint Honours, Interfaculty), and to select their courses in each term with a view to timely completion of their degree and program requirements. Students must complete one of the program streams described below.

In all cases, the degree also includes a **required integrative course (BASC 201; 3 credits)**, a **complementary integrative course (3 credits)** within or outside a student's programs selected from the complementary list in "Integrative Courses", section 7.11.6, plus electives (10-15 credits).

MULTI-TRACK SYSTEM

To recognize the diversity of student backgrounds and interests and the multiple routes to understanding provided by a modern university, the Faculties of Arts and of Science offer a 90-credit multi-track system that includes a Major Concentration in one faculty complemented by either a Major Concentration or two Minors/Minor Concentrations in the other faculty and that may be completed in one of the following ways:

Options

- Arts Major Concentration (36 credits) + Science Major Concentration (36-38 credits) (see "Programs in the B.A. & Sc.", section 7.11, for a list of programs open to students in the B.A. & Sc.)
- Major Concentration in Arts or Science (36-38 credits) + two Minors/Minor Concentrations in the other faculty (2 x 18 credits = 36 credits)

Regulations

- Programs offered by Computer Science, Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc.
- Within both options, all Concentrations must be in different academic units. Thus, students may take a Geography program either in Arts or in Science, but not in both.
- Students will include within the 36 or 18 credits of their Major Concentrations or Minors or Minor Concentrations any university-level (200- or above) prerequisites to required courses within their programs.
- No course may fulfil the requirements for more than one program.

Definitions

Units: academic departments or administrative equivalents.

Programs: lists of required and complementary courses (including university level prerequisites for required courses) prepared and maintained by units.

Major Concentration: a program of 36-38 credits taken from a unit's course offerings.

Minor Concentration: a program of 18 credits taken from a unit's course offerings. Expandable Minor Concentrations are those that can, on the completion of 18 additional approved credits, be expanded into a Major Concentration within the appropriate unit.

HONOURS PROGRAM
Honours programs demand a high degree of specialisation, and require students to satisfy specific departmental and Faculty Honours requirements while maintaining good academic standing. They are designed to prepare students for graduate study. Students in the B.A. & Sc. who complete an approved Honours program must also complete an approved Minor Concentration or a Minor in the Faculties of Arts or of Science. Students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their Honours program and their Minor Concentration or Minor program. See "Honours Programs" in section 7.11.3 for a list of available programs.

To choose the Honours option, students must meet the GPA/CGPA requirements set out in "Honours and First-Class Honours" in section 7.10.1.

JOINT HONOURS PROGRAM
Students who wish to study at the Honours level in two disciplines can combine a Joint Honours program component from an Arts discipline with one from a Science discipline; see section 7.11.4 "Joint Honours Programs" for a list of available programs. Each Joint Honours component consists of a maximum of 36-38 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to Honours students, the total of required and complementary credits may be as few as 30.

To choose the Joint Honours option, students must meet the GPA/CGPA requirements set out in "Honours and First-Class Honours", section 7.10.1.

INTERFACULTY PROGRAM
An Interfaculty program is an approved selection of courses constituting a concentration in an intellectually coherent and inter-faculty field of studies. These courses must include approved selections from the Faculties of Arts and of Science and possibly other faculties. See section 7.11.2 "Interfaculty Programs" for a list of approved programs. Students in the B.A. & Sc. who complete an approved Interfaculty program must also complete an approved Minor Concentration or a Minor in the Faculties of Arts or of Science. Students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their Interfaculty program and their Minor Concentration or Minor program.

7.3.6 Course Requirements

All required and complementary courses used to fulfil program requirements, including the Freshman Program, must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a required course must either pass the supplemental examination in the course or do additional work for a supplemental grade, if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser.

Normally, students are permitted to repeat a failed course only once. (Failure is considered to be a grade of less than C or the administrative failures of J and KF.) If a required course is failed a second time, a student must appeal to the Director of Advising Services, Science, for permission to take the course a third time. If permission is denied by the Director of Advising Services and/or by the Committee on Student Standing of the Faculty of Science, on appeal, the student must withdraw from the program. If the failed course is a complementary course required by the program, a student may choose to replace it with another appropriate complementary course. If a student chooses to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If a student repeats a required course in which a D was received, credit will be given only once.

Full details of the course requirements for all programs as well as the locations of departmental advisory offices, program directors, and telephone numbers for further information are available as follows:

For a list of all programs available to B.A. & Sc. students, with links to program descriptions, see section 7.11 "Programs in the B.A. & Sc.".

For a list of the required and complementary integrative courses, see section 7.11.6 "Integrative Courses".

7.3.6.1 Course Overlap

Students will not receive additional credit towards their degree for any course for which the student has already received credit at McGill, CEGEP, at another university, or as a result of Advanced Placement, Advanced Level, International Baccalaureate, or French Baccalaureate exams. It is the student's responsibility to consult the Science Office for Undergraduate Student Advising (SOUSA) or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in the Calendar.

Please refer to the following website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transfercredits.

Sometimes two different departments offer the same course. Such courses are called "double-prefix" courses. When such courses are offered simultaneously, students should take the course offered by the department in which they are obtaining their degree. For example, in the case of double-prefix courses CHEM XYZ and PHYS XYZ, Chemistry students take CHEM XYZ and Physics students take PHYS XYZ. If different departments offer a double-prefix course in alternate years, students may take whichever course best fits their schedule.

Credit for computer science and statistics courses will be given with the stipulations specified in "Course Overlap", section 14.3.6.1 in the Science section of the Calendar.

7.3.6.2 Courses outside the Faculties of Arts and of Science

The following regulations apply to students in the B.A. & Sc. who wish to take courses outside the Faculties of Arts and of Science:

- Regardless of their minimum credit requirement towards their B.A. & Sc., students are allowed a maximum of 12 credits in ELECTIVE and/or COMPLEMENTARY courses taken in faculties other than the Faculties of Arts and of Science.
- Students in certain designated programs that include a number of REQUIRED and COMPLEMENTARY courses in other faculties are permitted a maximum of 30 credits outside the Faculties of Arts and of Science. These programs are the Interfaculty and Honours Programs in Environment, the Minor Concentration in Environment, and the Major Concentration in Geography (Urban Systems).
- Any courses taught at McGill University may be used towards the maximum allowed except for courses in Continuing Education, for which students receive credit only in Continuing Education.
- For the purpose of this policy, courses taught in other faculties and specifically listed in the Arts or Science section of the Calendar are considered as courses taught in the Faculties of Arts and of Science.
- **The maximum number of credits allowed will be strictly enforced.**

7.3.6.3 Distance Education Courses

- A maximum of 6 credits of courses taught through distance education may be used as electives towards the B.A. & Sc. degree at McGill.
- Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:
  - the course is given by a government-accredited, degree-granting institution acceptable to McGill;
  - the course counts for credit towards degrees granted at the institution giving the course;

- prior approval for the course is obtained from the Science Office for Undergraduate Student Advising (SOUSA).

- The combined total of regular course credits and distance education course credits may not exceed the permitted maximum number of credits per term according to the regulations for the B.A. & Sc.
- Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious, documented circumstances warrant it. In such cases, prior approval must be obtained from the student's program adviser and the Director of Advising Services, Science.

7.3.6.4 Courses Taken Under the Satisfactory/ Unsatisfactory Option

For more information and restrictions, please see section 3.3.6 "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option".

7.3.6.5 Courses in English as a Second Language

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. Students in the B.A. & Sc. may take a maximum of 12 credits, including academic writing courses for non-anglophones.

7.4 Advising

Students who need 96 or fewer credits to complete their degree requirements must consult academic advisers in their proposed departments of study to obtain advice and approval of their course selection (please see "Departmental Programs" in section 7.3.5.2). To facilitate program planning, they must present their transcripts and letters of admission. Such students who have not fulfilled the B.A. & Sc. Freshman Program requirements should also seek advice from an adviser in the Science Office for Undergraduate Student Advising (SOUSA). For a detailed description of advising and registration procedures, students should refer to: "Registration", section 3.3; "Advising and Support", section 4; *Welcome to McGill,* which they receive upon acceptance from Enrolment Services; as well as information posted on the SOUSA website, www.mcgill.ca/science/sousa and the departmental websites.

Students who need 97-120 credits to complete their degree requirements will normally be registered in a Freshman Program until they complete their first year. They must consult an adviser in the Science Office for Undergraduate Student Advising (SOUSA) to obtain advice and approval of their course selection. For a detailed description of advising and registration procedures, Freshman students should refer to *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as the SOUSA website, www.mcgill.ca/science/sousa.

Advising for all returning students takes place in March for the upcoming academic year. For more information, students should refer to the SOUSA website, www.mcgill.ca/science/sousa.

7.4.1 Choosing a B.A. & Sc. Program

The B.A. & Sc. is intended for students with well-defined interdisciplinary interests. There are several options for the main program, all of which specify 75-80 of the 90 credits, leaving only 10-15 credits for electives. Since there are relatively few electives, students entering a program in the B.A. & Sc. degree should have a clear idea of their objectives, goals, and intended areas of study, so that they can plan their curriculum carefully.

It should be noted that there also exists considerable flexibility within the B.A. (Faculty of Arts) and B.Sc. (Faculty of Science) programs. Students who are more interested in Arts, but would like to study some Science can do so within the B.A. degree. Similarly, students who are more interested in Science, but would like to study some Arts can do so within the B.Sc. degree. For example, B.Sc. students may complete minor concentrations in Arts and vice versa.

There are four ways to complete programs in the B.A. & Sc. degree:

1) Multi-track System

The multi-track system is intended for students who want a program that includes significant components from both Arts and from Science.

Students complete 36 credits of Arts, 36-38 credits of Science, and 6 credits of integrative courses. Students can either combine an Arts major concentration with a Science major concentration (36-38 credits) or they can select a major concentration from one faculty and two 18 credit minor concentrations from the other. Additional guidelines for the multi-track system can be found in "Departmental Programs", in section 7.3.5.2. Students will find the program descriptions for the major and minor concentrations in Science which are unique to the B.A. & Sc. within this section of the Calendar.

Descriptions of programs offered in Arts are located in the Arts section of the Calendar.

2) Interfaculty Programs

Interfaculty programs are interdisciplinary in nature. There are currently two such programs: Environment and Cognitive Science. Students in these programs complete 54 credits of the interfaculty program, a minor of 18 credits, and 6 credits of integrative courses. Students must complete at least 30 credits in the Faculty of Arts and at least 30 credits in the Faculty of Science as part of their interfaculty program and their minor concentration or program.

ENVIRONMENT

In contrast to other Environment programs offered through the McGill School of Environment, the B.A. & Sc. Interfaculty Environment Program does not have predefined themes and is intended for students who have a specific goal and want to define their own theme by choosing courses that help them progress towards that goal. Further information about Environment programs and academic advising can be found at www.mcgill.ca/mse.

COGNITIVE SCIENCE

The Interfaculty Program in Cognitive Science offered within the B.A. & Sc. degree is the only major program currently offered at McGill for students interested in this discipline. The requirements encourage students to choose courses in two of the five subject areas in Cognitive Science (Computer Science, Linguistics, Neuroscience, Philosophy, Psychology) as the focus of their program. In addition, students interested in research in this field may include up to 12 credits of research courses within their program.

3) Joint Honours

The Joint Honours option is similar to the multi-track system except that students complete two Joint Honours components, one in Arts and one in Science. At present, the choice of Science component is restricted to either Math or Psychology. However, there is a great range of choices for the Arts component.

To choose the Joint Honours option, students must meet the GPA/CGPA requirements set out in section 7.10.1 "Honours and First-Class Honours".

4) Honours

There are two B.A. & Sc. Honours programs. The Honours Program in Environment is similar to the Interfaculty Program in Environment but has additional GPA requirements and an additional 6-credit required research course. Likewise, the Honours Program in Cognitive Science is similar to the Interfaculty Program in Cognitive Science with additional GPA requirements and an additional 6-credit research course requirement. Students completing an honours program must also complete a minor concentration or program, and 6 credits of integrative courses. Students must complete at least 30 credits in the Faculty of Arts and at least 30 credits

in the Faculty of Science as part of their honours program and their minor concentration or program.

To choose the Honours option, students must meet the GPA/CGPA requirements set out in section 7.10.1 "Honours and First-Class Honours".

7.4.2 Preparation for Graduate School

Any choice of undergraduate degree and program constrains options for graduate school. The B.A. & Sc. provides good preparation for graduate degrees in integrated disciplines such as Cognitive or Environmental Science. Depending on the Arts or Science specific program you wish to enter in graduate school the B.A. & Sc. may or may not be adequate preparation. If you intend to pursue an Arts or Science specific program at the graduate level, you should consult academic advisers in that discipline at McGill and at universities where you intend to apply in order to find out whether the B.A. & Sc. will prepare you adequately. If you are considering continuing on in a specific Science graduate program, you should examine the difference between the preparation provided by the 36-credit major concentrations in the B.A. & Sc. Program versus the significantly more specialized major and honours programs offered in the B.Sc. programs.

7.5 Registration

All students register by Minerva, McGill's web-based registration system.

For detailed information about registration, please refer to "Registration" in section 3.3, *Welcome to McGill*, the Science Office for Undergraduate Student Advising website, www.mcgill.ca/science/sousa, and the Student Records website, www.mcgill.ca/student-records.

Students who fall into unsatisfactory standing at the end of the academic year will have their registration cancelled. They may not re-register. However, students who can provide proof of extenuating circumstances that affected their academic performance may appeal to the Director of Advising Services, Science, for readmission. For more information, students should see section 3.3.13 "Readmission".

Students who have an outstanding fee balance from a previous term or outstanding fines will not be permitted to register. In addition, students who have registered for the upcoming academic year, but who subsequently take Summer courses without paying the fees, will have their registration cancelled. Registration will be denied until these debts are paid in full. Students must pay all debts before the end of the registration period to be permitted to register. Students with financial problems should consult the Student Aid Office, Brown Student Services Building.

Students who decide not to return to McGill after initiating registration must withdraw from all of their courses on Minerva or inform the Science Office for Undergraduate Student Advising (SOUSA) in writing. The deadline for withdrawal from the University is the same deadline as for a course withdrawal; see section 3.3.8 "Regulations Concerning Course Withdrawal" and section 3.3.9 "Regulations Concerning University Withdrawal". After the deadline, students may, under exceptional circumstances, be granted permission to withdraw from the University. Such students should contact the SOUSA Office for further information.

7.5.1 Program Registration

Students should refer to *Welcome to McGill* or to the Arts and Science Registration information on how to register for programs on the SOUSA website, www.mcgill.ca/science/sousa, or the Student Records website, www.mcgill.ca/student-records. For a list of programs that can be taken by students pursuing a B.A. & Sc., see section 7.11 "Programs in the B.A. & Sc."

7.5.2 Course Registration

All courses have limited enrolment. Students pursuing a B.A. & Sc. may register for, and take for credit, any course, unless otherwise indicated, in the sections of the Calendar applicable to the Faculties of Arts and of Science, subject to the course restrictions listed in this section.

Since the registration system is unable to verify whether or not degree regulations are respected, it is technically possible to register for courses that may not be credited towards the B.A. & Sc. When students' records are manually verified, however, any courses taken that violate the degree regulations will be flagged after the end of course change period as "not for credit towards the B.A. & Sc." As a result, the students' expected date of graduation may be delayed.

Some courses may require special permission. Students should consult this Calendar and/or the Class Schedule at www.mcgill.ca/courses well in advance of the course change (drop/add) period to determine if permission is required of the instructor, the department, or the Faculty for any course they wish to take.

Students who believe they have valid reasons to take a course that may not be credited towards the B.A. & Sc. must obtain the permission of the Director of Advising Services, Science.

7.5.2.1 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

Students may take only one First-Year Seminar during their first year at McGill. Students who register for more than one will be obliged to withdraw from all but one of them.

A list of First-Year Seminars is available in the Arts General section (see section 6.5.2.1 "Registration for First-Year Seminars") and the Science General section (see section 14.5.2.1 "Registration for First-Year Seminars") of the Calendar.

7.5.2.2 Freshman Interest Groups

Freshman Interest Groups (FIGs) are groups of approximately 15 U0 students in the B.Sc. or B.A. & Sc., led by a professor in the Faculty of Science or Faculty of Medicine and an upper-year undergraduate student. They meet once every two weeks in the fall semester to discuss a wide range of topics, such as science in the news, program choices, undergraduate research opportunities, or just aspects of life in Montreal. The purpose of a FIG is to ease the transition to McGill and Montreal and to provide students an opportunity to interact with a professor and with other U0 students in a small group. FIGs carry no credit and there is no charge. For more information and to see how to register refer to www.mcgill.ca/science/student/fig.

7.5.2.3 Registration in Multi-Term Courses

Students who select a multi-term course are making a commitment to that course for its entirety. Students MUST register in the same section in all terms of a multi-term course. Credit will be jeopardized if students deliberately register in different sections of a multi-term course. A drop of the second term portion of a multi-term course in order to change sections is considered a withdrawal from the course. In exceptional cases, when circumstances are beyond the student's control, the SOUSA Office may grant permission to change sections mid-way through a multi-term course. Students must make their request in writing to the Director of Advising Services, Science, citing their reason for the request. The request must also have the written support of the instructors of the sections involved and of the coordinator of the course (if applicable).

7.5.3 Apply to Graduate

For more information, see section 3.9.2 "Apply to Graduate".

7.6 Grading and Credit

During the first week of lectures, each instructor will provide students with a written course outline. This information should include, where appropriate:

- whether there will be a final examination in the course;
- how term work will affect the final mark in the course;
- how term work will be distributed through the term;
- whether there will be a supplemental examination in the course, and if so, whether the supplemental exam will be worth 100% of the supplemental grade or whether term work will be included in the supplemental grade (courses with formal final examinations must have supplemental examinations);
- whether students with marks of D, F, J, or U will have the option of submitting additional work, and, if so, how the supplemental mark will be calculated with the extra work.

7.6.1 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of K (incomplete), indicating the date by which the work is to be completed. The maximum extensions for the submission of grades to the Science Office for Undergraduate Student Advising (SOUSA) are as follows:

• students graduating in June:	
Fall, Winter, and multi-term courses	April 30
• non-graduating students:	
Fall courses	April 30
Winter and multi-term courses	July 30
Summer courses	Nov. 30

Students' deadlines for submitting their work must be sufficiently in advance of these dates to ensure that the work can be graded and the mark submitted on time.

It is important to note that instructors may impose earlier deadlines than those listed.

If marks to clear K's have not been submitted to the SOUSA Office by the deadline specified above for non-graduating students, the K is automatically changed to a KF and counts as an F in the GPA.

Students with a grade of K who have serious extenuating circumstances may request an extension of the K deadline (KE) from the Director of Advising Services, Science. Please see section 3.3 "Registration" for more information.

7.7 Examinations

Students should see "Examinations" in section 3.6 for information about final examinations and deferred examinations.

The exam schedules are posted on the McGill website, www.mcgill.ca, normally one month after the start of classes for the tentative Examination Schedule, and two months after the start of classes for the final Examination Schedule. Students should also refer to the SOUSA website at www.mcgill.ca/science/sousa for more information.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

7.8 Supplemental Assessments

7.8.1 Supplemental Examinations

Students who wish to write supplemental examinations for certain courses must apply to the Science Office for Undergraduate Student Advising (SOUSA) for permission. The following conditions apply:

- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- special permission from the Director of Advising Services, Science, is required if students wish to write supplemental exams totalling more than 8 credits in any supplemental exam period;
- only one supplemental examination is allowed in a course;
- the supplemental result may count for 100% of the final grade or may include the same proportion of class work as did the original grade; the instructor will announce the arrangements to be used for the course by the end of the drop/add period;
- the format and content of the supplemental examination will not necessarily be the same as for the final examination, so students should consult the instructor;
- the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental result will be calculated in the CGPA;
- in courses in which both a supplemental examination and additional work are available, students may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course;
- students must apply to write a supplemental exam; the deadline for submission of applications is March 1 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter; a non-refundable fee for each supplemental exam is payable at the time of application; supplemental examination applications are available on Minerva as of January 30, 2009;
- students must write the supplemental exams at the time of the next supplemental examination period (for Fall courses during the month of May, and for Winter courses and courses spanning Fall/Winter during the last week of August for the Faculties of Arts and of Science);
- supplemental examinations in courses outside the Faculties of Arts or Science are subject to the deadlines, rules, and regulations of the relevant faculty;
- no supplemental examinations are available for students who fail to achieve satisfactory grades in deferred examinations.

Students who register for a supplemental examination and subsequently find themselves unprepared for it should not write it; except for the loss of the registration fee, there is no penalty for not writing a supplemental examination. Students should consult the SOUSA Office for further information.

7.8.2 Additional Work

Instructors of courses that include graded written term work may choose to provide the option of additional work to eligible students. The following conditions apply:

- if there is an option for additional work, it must be announced in the course outline at the beginning of the course;
- additional work involves revising one or more previously submitted papers or submitting new written work to replace the original work;
- students must be in satisfactory or probationary standing;
- students must have received a final grade of D, J, F, or U in the course;
- students must apply for additional work: the deadline for submission of applications is March 7 for Fall courses and July 30 for Winter courses and courses spanning Fall/Winter; a

non-refundable fee is payable for each course at the time of application; additional work applications and further information are available in the SOUSA Office;
- the weight of the additional work, in calculating the supplemental mark, will be equal to the weight given the work revised or replaced when the original mark was submitted;
- the mark resulting from the revised or additional work will be recorded as a supplemental mark;
- the supplemental result will not erase the grade originally obtained; both the original mark and the supplemental mark will count in calculating the CGPA;
- in courses in which both a supplemental examination and additional work are available, students may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work;
- additional work in courses outside the Faculties of Arts and of Science is subject to the deadlines, rules, and regulations of the relevant faculty.

7.8.3 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

The Faculties of Arts and of Science recognize two types of reassessments or rereads:
- reassessment of coursework (term papers, mid-terms, assignments, quizzes, etc.);
- reread of a final exam.

Reassessments and rereads for Arts courses are subject to the deadlines, rules, and regulations outlined in "Reassessments and Rereads" in section 6.8.2. Reassessments and rereads for Science courses are subject to the deadlines, rules, and regulations outlined in "Reassessments and Rereads" in section 14.8.3. Reassessments and rereads in courses not in the Faculties of Arts and of Science are subject to the deadlines, rules, and regulations of the relevant faculty.

7.9 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term that are designated as interim should be interpreted as advisory. Note that interim standings will not appear on external transcripts. Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.

7.9.1 Interim Satisfactory/Satisfactory Standing

Students in interim satisfactory or satisfactory standing:
- may continue in their program;
- have a CGPA of 2.00 or greater.

7.9.2 Interim Probationary/Probationary Standing

Students in interim probationary standing (at the end of the Fall term):
- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult a departmental adviser, before withdrawal deadlines, about their course selection;
- should see their faculty student adviser to discuss their overall academic plan.

Students in probationary standing:
- may continue in their program;
- must carry a reduced load (maximum 14 credits per term);
- must raise their CGPA to return to satisfactory standing (see above);
- should see their departmental adviser to discuss their course selection;
- should see their faculty student adviser to discuss their overall academic plan.

Students will be placed in probationary standing:
- if their CGPA falls between 1.50 and 1.99 and if they were previously in satisfactory standing;
- if their CGPA falls between 1.50 and 1.99 and their TGPA in Fall or Winter is 2.50 or higher, and if they were previously in probationary, or interim unsatisfactory standing;
- if their CGPA is less than 2.00, and if they were previously in unsatisfactory readmitted standing and have satisfied the relevant conditions specified in their letter of readmission.

7.9.3 Unsatisfactory Readmitted Standing

Students in unsatisfactory readmitted standing:
- were previously in unsatisfactory standing and were readmitted to the B.A. & Sc. by the Director of Advising Services, Science, or the Committee on Student Standing of the Faculty of Science;
- must meet the conditions specified in their letter of readmission to be allowed to continue in their program;
- should see their departmental adviser to discuss their course selection;
- should see their faculty student adviser to discuss their overall academic plan.

7.9.4 Interim Unsatisfactory/Unsatisfactory Standing

Students in interim unsatisfactory standing (at the end of the Fall term):
- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- are strongly advised to consult their faculty student adviser before the withdrawal deadlines, about their course selection for the Winter term.

Students in unsatisfactory standing:
- have failed to meet the minimum standards set by the faculties;
- may not continue in their program, and their registration will be cancelled.

Students will be placed in unsatisfactory standing:
- if their CGPA falls or remains below 1.50;
- if their TGPA in the Fall or Winter falls below 2.50 and their CGPA is below 2.00 and if they were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing;
- if they were previously in unsatisfactory standing and were readmitted to the B.A. & Sc. by the Director of Advising Services, Science, or the Committee on Student Standing of the Faculty of Science but have not at least satisfied the conditions specified in the letter of readmission.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Director of Advising Services, Science, no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Director of Advising Services, Science, for permission to write a

supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

7.9.5 Incomplete Standings

Standing awaits deferred exam.
Must clear Ks, Ls or Supplementals.
Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course change period for that term. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program, and their registration will be cancelled.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Director of Advising Services, Science, as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Science Office for Undergraduate Student Advising (SOUSA).

At the end of the Winter term, students with a mark of K or L will be placed in the appropriate standing in June, if the outstanding mark in the course will not affect their standing. Otherwise the standing decision will only be made once their incomplete marks have been cleared. For more information about incomplete grades please refer to "Incomplete Grades" in section 7.6.1.

7.10 Awards and Honorary Designations

7.10.1 Honours and First-Class Honours

Departments may recommend to the Faculties of Arts and of Science that graduating students registered in Honours and Joint Honours programs be awarded Honours or First-Class Honours under the following conditions:

- students must complete all requirements imposed by the department;
- for Honours, the CGPA at graduation must be at least 3.00;
- students in a Joint Honours program must satisfy the above criteria for both Joint Honours components;
- for First-Class Honours, the CGPA at graduation must be 3.50 or better;
- students in a Joint Honours program must satisfy the above criteria for both Joint Honours components;
- some departments have additional requirements that must be met before students are recommended for Honours or First-Class Honours (see the departmental entries);
- Students in Honours or Joint Honours programs whose program GPA or CGPA is below 3.00 or who did not satisfy certain additional program requirements must consult their academic adviser to determine if they are eligible to graduate in a program other than Honours or Joint Honours.

7.10.2 Distinction

For information on the designation of Distinction awarded at graduation, see section 3.9.1.2 "Distinction".

7.10.3 Dean's Honour List

For information on the designation of Dean's Honour List awarded at graduation, see section 3.9.1.1 "Dean's Honour List".

7.10.4 Medals and Prizes

Various medals, scholarships, and prizes are open to continuing and graduating students. Full details of these are set out in the *Undergraduate Scholarships and Awards Calendar*, available on the web at www.mcgill.ca/courses. Application may be required for some scholarships.

7.11 Programs in the B.A. & Sc.

7.11.1 Major Concentrations

7.11.1.1 Arts

The Arts Major Concentrations available to B.A. & Sc. students are listed here and are described in detail in the Faculty of Arts section of the Calendar. Since the B.A. & Sc. degree requires a certain number of credits in the Arts and in the Sciences, there are special requirements for B.A. & Sc. students. To be counted as an Arts Major Concentration, the program must include at least 30 credits of Arts courses. Similarly, to be counted as a Science Major Concentration, the program must include at least 30 credits of Science courses.

For example, a student completing the 36-credit Humanistic Studies Major Concentration in Arts must complete at least 30 of those credits in Arts courses and at most 6 credits in Science courses.

7.11.2 Interfaculty Programs

The Interfaculty Programs available to B.A. & Sc. students are listed here and are described in detail either below in the Arts & Science (AS) section or in the McGill School of Environment (E) section of the Calendar as indicated.

Cognitive Science (AS), page 241
Environment (E), page 310

7.11.3 Honours Programs

There are two Honours programs available to B.A. & Sc. students. The Honours Program in Environment is described in detail in "Honours Program in Environment", section 10.10 of the Calendar. The Honours Program in Cognitive Science is described in detail under Cognitive Science, page 242.

Students interested in an Honours degree should also consider the Joint Honours Programs in the next section.

7.11.4 Joint Honours Programs

Joint Honours programs in the B.A. & Sc. are created by combining a Joint Honours Program component from an Arts discipline with one from a Science discipline. Students must register for both Joint Honours Program components. Joint Honours students should consult an adviser in each department to discuss their course selection and their interdisciplinary research project (if applicable).

7.11.4.1 Arts

The Arts Joint Honours components available to B.A. & Sc. students are listed here and are described in detail in the Faculty of Arts section of the Calendar.

7.11.4.2 Science

There are currently only two Science Joint Honours components available to B.A. & Sc. students, which are listed here and are described in detail in the Faculty of Arts section of the Calendar.

Mathematics, page 186
Psychology, page 204

7.11.5 Minor Concentrations or Minors

7.11.5.1 Arts

The Arts Minor Concentrations available to B.A. & Sc. students are listed here and are described in detail in the Faculty of Arts section of the Calendar. Since the B.A. & Sc. degree requires a certain number of credits in the Arts and in the Sciences, there are special requirements for B.A. & Sc. students. To be counted as an Arts Minor or Minor Concentration, the program must include at least 15 credits of Arts courses. Similarly, to be counted as a Science Minor or Minor Concentration, the program must include at least 15 credits of Science courses.

For example, a student completing the 18-credit Humanistic Studies Minor Concentration in Arts must complete at least 15 of those credits in Arts courses and at most 3 credits in Science courses. As another example, a student completing a 24-credit Science Minor in Interdisciplinary Life Sciences must complete at least 15 credits in Science courses and at most 9 credits in Arts courses.

7.11.6 Integrative Courses

7.11.6.1 Required Integrative Course

BASC 201 Arts & Science Integrative Topics

7.11.6.2 Complementary Integrative Course

Students in the B.A. & Sc. are required to complete at least one other integrative course (at least 3 credits), possibly within one of their programs, chosen from the following:

ANTH 201 Prehistoric Archaeology
ANTH 203 Human Evolution
ANTH 227 Medical Anthropology
ANTH 312 Zooarchaeology
ATOC / EPSC 250 Natural Disasters
COMP 280 History and Philosophy of Computing
ECON 347 Economics of Climate Change
ENGC 200 Communications - Pre-Electronic Age
ENGC 210 History of Communication - Electronic Age
ENVR 200 The Global Environment
ENVR 201 Society and Environment
ENVR 202 The Evolving Earth
ENVR 203 Knowledge, Ethics and Environment
GEOG 200 Geographical Perspectives: World Environmental Problems
GEOG 203 Environmental Systems
GEOG 302 Environmental Management 1
GEOG 350 Ecological Biogeography
LING 390 Neuroscience of Language
LING 555 Language Acquisition 2
MATH 328 Computability and Mathematical Linguistics
MATH 330 Mathematical Finance
MATH 338 History and Philosophy of Mathematics
PHIL 220 Introduction to History and Philosophy of Science 1
PHIL 221 Introduction to History and Philosophy of Science 2
PHIL 341 Philosophy of Science 1
PHIL 350 History and Philosophy of Ancient Science
PHIL 361 18th Century Philosophy
PHIL 411 Topics in Philosophy of Logic and Mathematics
PHIL 441 Philosophy of Science 2
SOCI 225 Medicine & Health in Modern Society
SOCI 234 Population and Society
SOCI 235 Technology and Society
SOCI 338 Intro. to Biomedical Knowledge
SOCI 525 Health Care Systems in Comparative Perspective

As a substitute, students can fulfil the requirement for a complementary integrative course by conducting library or empirical research that integrates the components of their program as a 3- or 6-credit independent study course, thesis course, or research course, with approval of the Director of Advising Services, Science.

7.12 Academic Programs

7.12.1 Required Integrative Course for B.A. & Sc.

BASC 201 (Arts & Science Integrative Topics) is a required course in the B.A. & Sc., normally taken in U1. It introduces students to a variety of interdisciplinary topics that exemplify the benefits of applying scholarship from Arts and Science to a problem. It also provides students in the degree with a common experience and a reference group. For details, see the Course section of the Faculty of Science.

7.12.2 Programs in Arts or in Science

All B.A. & Sc. Arts programs are described in detail in the Faculty of Arts section of the Calendar. B.A. & Sc. Science programs that are open to B.A. students (i.e., programs in Computer Science, Mathematics and Statistics, and Psychology as well as some in Geography) are described in the Faculty of Arts section. Science Minors that are open to B.A. & Sc. students are described in the Faculty of Science section. B.A. & Sc. Science programs that are open only to B.A. & Sc. students are described below.

For information about where each B.A. & Sc. program is listed, see "Programs in the B.A. & Sc.", section 7.11.

7.12.3 Biology (BIOL)

The Department of Biology, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools (see section 7.3.5 "Program Requirements").

Advising Note: Freshman students should be aware that PHYS 101 and/or PHYS 102 are required for some of the courses in the major and minor concentrations in Biology.

MAJOR CONCENTRATION IN BIOLOGY - CELL/MOLECULAR OPTION (36 credits)

The Major Concentration in Biology, Cell/Molecular Option, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed. (see section 14.13.34 "Science or Mathematics for Teachers"), is a planned sequence of courses designed to permit a degree of specialization in cell/molecular biology.

Required Courses* (29 credits)

BIOL 200	(3)	Molecular Biology
BIOL 201	(3)	Cell Biology and Metabolism
BIOL 202	(3)	Basic Genetics
BIOL 205	(3)	Biology of Organisms
BIOL 215	(3)	Introduction to Ecology and Evolution

BIOL 300 (3) Molecular Biology of the Gene
BIOL 301 (4) Cell and Molecular Laboratory
BIOL 303 (3) Developmental Biology
CHEM 212** (4) Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. (see section 14.13.34 "Science or Mathematics for Teachers") must be replaced by 3-credit courses from the Complementary Course List. Regardless of the substitution, students must take at least 36 credits in this program.

** Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (7 credits minimum)
at least 7 credits selected from:
BIOL 306 (3) Neural Basis of Behaviour
BIOL 313 (3) Eukaryotic Cell Biology
BIOL 314 (3) Molecular Biology of Oncogenes
BIOL 370 (3) Human Genetics Applied
BIOL 373 (3) Biometry
BIOL 413 (1) Directed Reading
BIOL 568 (3) Topics on the Human Genome
BIOL 575 (3) Human Biochemical Genetics
or other appropriate course at the 300 level or higher with permission of an adviser.

MAJOR CONCENTRATION IN BIOLOGY - ORGANISMAL OPTION (37 credits)

The Major Concentration in Biology, Organismal Option, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed. (see section 14.13.34 "Science or Mathematics for Teachers") is a planned sequence of courses designed to permit a degree of specialization in organismal biology.

Required Courses* (28 credits)
BIOL 200 (3) Molecular Biology
BIOL 201 (3) Cell Biology and Metabolism
BIOL 202 (3) Basic Genetics
BIOL 205 (3) Biology of Organisms
BIOL 206 (3) Methods in Biology of Organisms
BIOL 215 (3) Introduction to Ecology and Evolution
BIOL 304 (3) Evolution
BIOL 308 (3) Ecological Dynamics
CHEM 212** (4) Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. (see section 14.13.34 "Science or Mathematics for Teachers") must be replaced by 3-credit courses from the Complementary Course List. Regardless of the substitution, students must take at least 36 credits in this program.

** Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (9 credits)
9 credits selected from:
BIOL 303 (3) Developmental Biology
BIOL 305 (3) Animal Diversity
BIOL 306 (3) Neural Basis of Behaviour
BIOL 307 (3) Behavioural Ecology/Sociobiology
BIOL 310 (3) Large-scale Ecology
BIOL 331 (3) Ecology/Behaviour Field Course
BIOL 342 (3) Marine Biology
BIOL 350 (3) Insect Biology and Control
BIOL 352 (3) Vertebrate Evolution
BIOL 373 (3) Biometry
BIOL 427 (3) Herpetology
BIOL 435 (3) Natural Selection
BIOL 441 (3) Biological Oceanography
BIOL 465 (3) Conservation Biology
or other appropriate course at the 300 level or higher with permission of an adviser.

MINOR CONCENTRATIONS IN BIOLOGY

Advising Note: Students interested in a Minor Concentration in Biology must choose either the Cell/Molecular Option or the Organismal Option, but may not take both. Students interested in a more in-depth program in Biology should consider the Major Concentration.

MINOR CONCENTRATION IN BIOLOGY - CELL/MOLECULAR OPTION (18 or 19 credits)
The Minor Concentration in Biology, Cell/Molecular Option, is restricted to students in the B.A. & Sc. It is a sequence of courses designed to yield a broad introduction to cell/molecular biology.

Required Courses* (13 credits)
BIOL 200 (3) Molecular Biology
BIOL 201 (3) Cell Biology and Metabolism
BIOL 202 (3) Basic Genetics
CHEM 212** (4) Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. must be replaced by approved complementary courses. Regardless of the substitution, students must take at least 18 credits in this program.

** Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (6 credits)
Any biology course at the 300 level or higher approved by an adviser.

MINOR CONCENTRATION IN BIOLOGY - ORGANISMAL OPTION (18 or 19 credits)
The Minor Concentration in Biology, Organismal Option, is restricted to students in the B.A. & Sc. It is a sequence of courses designed to yield a broad introduction to organismal biology.

Required Courses* (16 credits)
BIOL 200 (3) Molecular Biology
BIOL 201 (3) Cell Biology and Metabolism
BIOL 205 (3) Biology of Organisms
BIOL 215 (3) Introduction to Ecology and Evolution
CHEM 212** (4) Organic Chemistry 1

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. must be replaced by approved complementary courses. Regardless of the substitution, students must take at least 18 credits in this program.

** Students who have already taken CHEM 212 or its equivalent will choose another appropriate complementary course, to be approved by the adviser.

Complementary Courses (3 credits)
Any biology course at the 300 level or higher approved by an adviser.

7.12.4 Biomedical Sciences

The Major Concentration in Biomedical Sciences has been retired. Students completing the program should refer to the Calendar at their time of entrance to the program for the program requirements and consult with their academic adviser.

Major Concentration in Biomedical Sciences - Program Advisers:

All U1 students pursuing a B.A. & Sc. Biomedical Science must meet with a Student Affairs Officer.

Professor Teresa Trippenbach, Department of Physiology
McIntyre Medical Sciences Building, Room 1116
Email: teresa.trippenbach@mcgill.ca
Telephone: 514-398-4331

Professor Ann Wechsler, Department of Physiology
McIntyre Medical Sciences Building, Room 1135

Email: ann.wechsler@mcgill.ca
Telephone: 514-398-4341

Student Affairs Officer, Department of Physiology
McIntyre Medical Sciences Building, Room 1022
Telephone: 514-398-3689

7.12.5 Chemistry (CHEM)

The Department of Chemistry, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

The Major Concentration in Chemistry is not certified by the Ordre des Chimistes du Québec. Students interested in pursuing a career in Chemistry in Quebec are advised to take an appropriate B.Sc. program in Chemistry. The minimum freshman science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools (see section 7.3.5 "Program Requirements").

MAJOR CONCENTRATION IN CHEMISTRY (36 credits)
The Major Concentration in Chemistry, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed. (see section 14.13.34 "Science or Mathematics for Teachers"), is a planned sequence of courses designed to permit a degree of specialization in this discipline.

Required Courses* (18 credits)
CHEM 203 (3) Survey of Physical Chemistry
CHEM 212 (4) Introductory Organic Chemistry 1
CHEM 222 (4) Introductory Organic Chemistry 2
CHEM 253 (1) Introductory Physical Chemistry 1 Laboratory
CHEM 281 (3) Inorganic Chemistry 1
CHEM 287 (2) Introductory Analytical Chemistry
CHEM 297 (1) Introductory Analytical Chemistry Laboratory
* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. must be replaced by courses from the Complementary Course List equal to or exceeding their credit value. Regardless of the substitution, students must take at least 36 credits in this program.

Complementary Courses (18 credits)
18 credits selected from:
CHEM 219 (3) Introduction to Atmospheric Chemistry
CHEM 263 (1) Introductory Physical Chemistry 2 Laboratory
CHEM 302 (3) Introductory Organic Chemistry 3
CHEM 307 (3) Analytical Chemistry of Pollutants
CHEM 334 (3) Advanced Materials
CHEM 367 (3) Instrumental Analysis 1
CHEM 381 (3) Inorganic Chemistry 2
CHEM 382 (3) Organic Chemistry: Natural Products
CHEM 531 (3) Chemistry of Inorganic Materials
CHEM 571 (3) Polymer Synthesis
CHEM 582 (3) Supramolecular Chemistry
CHEM 591 (3) Bioinorganic Chemistry

7.12.6 Cognitive Science

Cognitive Science is the multidisciplinary study of cognition in humans and machines. The goal is to understand the principles of intelligence with the hope that this will lead to better comprehension of the mind and of learning and to the development of intelligent devices that constructively extend human abilities.

Ian Gold
Director, Program in Cognitive Science
3465 Peel Street, Room 401

Interdisciplinary Programs Adviser:
Wendy Brett
Email: wendy.brett@mcgill.ca
Telephone: 514-398-7330

Cognitive Science Committee Members:
Brendan Gillon (Linguistics)
Marco Leyton (Neuroscience)
Stephen McAdams (Music)
Joelle Pineau (Computer Science)
Debra Titone (Psychology)

Website: www.mcgill.ca/cogsci

An Interfaculty Program in Cognitive Science (54 credits) is offered by the following departments, which are described fully in the Faculty of Arts or Faculty of Science section of the Calendar:
Computer Science (COMP) (Science)
Linguistics (LING) (Arts)
Physiology (PHGY) (Science)
Philosophy (PHIL) (Arts)
Psychology (PSYC) (Science)

INTERFACULTY PROGRAM IN COGNITIVE SCIENCE
(54 credits)

The Interfaculty Program in Cognitive Science, which is restricted to students in the B.A. & Sc., is a planned sequence of courses designed to permit students to focus on at least two relevant areas of study.

Required Course (3 credits)
PSYC 532 (3) Cognitive Science

Complementary Courses (51 credits)
3 credits, one of:
COMP 230 (3) Logic and Computability
MATH 318 (3) Mathematical Logic
PHIL 210 (3) Introduction to Deductive Logic 1
18 credits from List A in one of Computer Science, Linguistics, Neuroscience, Philosophy, or Psychology.
12 credits from List A in one of the four remaining units.
18 credits chosen from Lists A and/or B in Computer Science, Linguistics, Neuroscience, Philosophy, Psychology and/or Research Courses of which at least 12 credits must be at the 400 level or higher.

Note 1: Students are responsible for ensuring that they meet all pre- and corequisites for all their courses.

Note 2: With the permission of the Director of the Cognitive Science program, students may be able to substitute courses in cognate departments, such as Anatomy and Cell Biology, Biology, Neurology, or Physiology. For further information, consult the Cognitive Science website: www.mcgill.ca/cogsci.

Note 3: B.A. & Sc. students who take Interfaculty programs must take at least 30 credits in Arts and 30 in Science across their interfaculty program and their minor or minor concentration.

COMPUTER SCIENCE
List A:
MATH 240 (3) Discrete Structures 1
COMP 206 (3) Introduction to Software Systems
COMP 250 (3) Introduction to Computer Science
COMP 251 (3) Data Structures and Algorithms
COMP 302 (3) Programming Languages and Paradigms
COMP 424 (3) Artificial Intelligence
COMP 527 (3) Logic and Computation
List B:
MATH 222 (3) Calculus 3
MATH 223 (3) Linear Algebra
COMP 280 (3) History and Philosophy of Computing
COMP 330 (3) Theoretical Aspects: Computer Science
COMP 360 (3) Algorithm Design Techniques
COMP 400 (3) Technical Project and Report
COMP 409 (3) Concurrent Programming
COMP 417 (3) Introduction Robotics and Intelligent Systems
COMP 421 (3) Database Systems
COMP 490 (3) Introduction to Probabilistic Analysis of Algorithms
COMP 526 (3) Probabilistic Reasoning and AI
COMP 531 (3) Theory of Computation
COMP 558 (3) Fundamentals of Computer Vision

LINGUISTICS

List A:

LING 201	(3)	Introduction to Linguistics
LING 330	(3)	Phonetics
LING 331	(3)	Phonology 1
LING 355	(3)	Language Acquisition 1
LING 360	(3)	Introduction to Semantics
LING 371	(3)	Syntax 1
LING 390	(3)	Neuroscience of Language
LING 419	(3)	Linguistic Theory and its Foundations
LING 451	(3)	Acquisition of Phonology
LING 455	(3)	Second Language Syntax

List B:

LING 440	(3)	Morphology
LING 531	(3)	Phonology 2
LING 555	(3)	Language Acquisition 2
LING 560	(3)	Formal Methods in Linguistics
LING 565	(3)	Pragmatics
LING 571	(3)	Syntax 2
LING 590	(3)	Language Acquisition and Breakdown

PHILOSOPHY

List A:

PHIL 304	(3)	Chomsky
PHIL 306	(3)	Philosophy of Mind
PHIL 310	(3)	Intermediate Logic
PHIL 341	(3)	Philosophy of Science 1
PHIL 360	(3)	17th Century Philosophy
PHIL 370	(3)	Problems in Analytic Philosophy
PHIL 415	(3)	Philosophy of Language
PHIL 419	(3)	Epistemology
PHIL 441	(3)	Philosophy of Science 2
PHIL 506	(3)	Seminar: Philosophy of Mind
PHIL 507	(3)	Seminar: Cognitive Science

List B:

PHIL 410	(3)	Advanced Topics in Logic 1
PHIL 411	(3)	Topics in Philosophy of Logic and Mathematics
PHIL 421	(3)	Metaphysics
PHIL 470	(3)	Topics in Contemporary Analytic Philosophy
PHIL 474	(3)	Phenomenology
PHIL 510	(3)	Seminar: Advanced Logic 2
PHIL 511	(3)	Seminar: Philosophy of Logic and Mathematics
PHIL 519	(3)	Seminar: Epistemology
PHIL 521	(3)	Seminar: Metaphysics
PHIL 560	(3)	Seminar: 17th Century Philosophy

PSYCHOLOGY

List A/B:

ANTH 440	(3)	Cognitive Anthropology
MUMT 250	(3)	Music Perception and Cognition
PSYC 212	(3)	Perception
PSYC 213	(3)	Cognition
PSYC 301	(3)	Animal Learning & Theory
PSYC 304	(3)	Child Development
PSYC 305	(3)	Statistics for Experimental Design
PSYC 311	(3)	Human Cognition and the Brain
PSYC 315	(3)	Computational Psychology
PSYC 316	(3)	Psychology of Deafness
PSYC 317	(3)	Genes and Behaviour
PSYC 318	(3)	Behavioural Neuroscience 2
PSYC 340	(3)	Psychology of Language
PSYC 341	(3)	The Psychology of Bilingualism
PSYC 352	(3)	Cognitive Psychology Laboratory
PSYC 353	(3)	Laboratory in Human Perception
PSYC 410	(3)	Special Topics in Neuropsychology
PSYC 413	(3)	Cognitive Development
PSYC 470	(3)	Memory and Brain
PSYC 473	(3)	Social Cognition and the Self
PSYC 522	(3)	Neurochemistry and Behaviour
PSYC 529	(3)	Music Cognition
PSYC 537	(3)	Advanced Seminar in Psychology of Language
PSYC 545	(3)	Topics in Language Acquisition
PSYC 561	(3)	Methods: Developmental Psycholinguistics

NEUROSCIENCE

List A/B:

ANAT 321	(3)	Circuitry of the Human Brain
BIOL 514	(3)	Neurobiology of Learning and Memory
BIOL 530	(3)	Neural Basis of Behaviour
BIOL 588	(3)	Advances in Molecular/Cellular Neurobiology
NEUR 310	(3)	Cellular Neurobiology
NSCI 200	(3)	Introduction to Neuroscience 1
NSCI 201	(3)	Introduction to Neuroscience 2
PHGY 311	(3)	Channels, Synapses & Hormones
or BIOL 306	(3)	Neural Basis of Behaviour
PHGY 314	(3)	Integrative Neuroscience
PHGY 520	(3)	Ion Channels
PHGY 556	(3)	Topics in Systems Neuroscience
PSYC 311	(3)	Human Cognition and the Brain
PSYC 317	(3)	Genes and Behaviour
PSYC 318	(3)	Behavioural Neuroscience 2
PSYC 410	(3)	Special Topics in Neuropsychology
PSYC 502	(3)	Psychoneuroendocrinology
PSYC 522	(3)	Neurochemistry and Behaviour

RESEARCH COURSES

COGS 401	(6)	Research Cognitive Science 1
COGS 402	(6)	Research Cognitive Science 2

HONOURS PROGRAM IN COGNITIVE SCIENCE (60 credits)

The Honours Program in Cognitive Science, which is restricted to students in the B.A. & Sc., is an extension of the Interfaculty Program that offers students an opportunity to undertake a year-long research project in close association with professors in their main Arts and Science focus areas. Prior to selecting the Honours Program, students should meet with the program Director and review the B.A. & Sc. academic requirements for Honours and First Class Honours described in "Honours and First-Class Honours", section 7.10.1.

To receive an honours degree, students are required to achieve a minimum overall program GPA of 3.3 at graduation, and attain a grade of B+ (3.3) or better in COGS 444. Students must complete both the 60 credit Honours Program, plus an approved Minor Concentration or a Minor in the Faculties of Arts or of Science.

In addition to completing the requirements for the Interfaculty Program in Cognitive Science, students in the Honours Program complete COGS 444, a 6-credit honours research project.

Additional Required Course (6 credits)

COGS 444	(6)	Honours Research

7.12.7 Computer Science

The School of Computer Science and the discipline are described in the Faculty of Science section of the Calendar. Please see section 14.13.9 “Computer Science (COMP)”.

The following are considered Science programs in the B.A. & Sc.

Minor Concentration in Computer Science
Major Concentration in Computer Science
Major Concentration in Software Engineering

The requirements of the Software Engineering Program are described below while the requirements of the Computer Science programs are described in section 6.12.12 “Computer Science (COMP)” of the Faculty of Arts section of the Calendar.

MAJOR CONCENTRATION IN SOFTWARE ENGINEERING (36 - 37 credits)

This major concentration provides a program of study that covers the subject commonly known as “Software Engineering”. This program may be used to satisfy part of the requirements for a B.A. & Sc. degree. This program does not lead to certification as a Professional Engineer.

Required Courses (30 credits)

COMP 202*	(3)	Introduction to Computing 1
COMP 206	(3)	Introduction to Software Systems
COMP 250	(3)	Introduction to Computer Science
COMP 251	(3)	Data Structures and Algorithms
COMP 302	(3)	Programming Languages and Paradigms
COMP 303	(3)	Software Development
COMP 304	(3)	Object-Oriented Design
COMP 421	(3)	Database Systems
MATH 223	(3)	Linear Algebra
MATH 240	(3)	Discrete Structures 1

* Students who have sufficient knowledge in a programming language do not need to take COMP 202 and can replace it with additional Computer Science complementary course credits.

Complementary Courses (6 - 7 credits)

3 credits selected from:

COMP 335	(3)	Software Engineering Methods
ECSE 321	(3)	Introduction to Software Engineering

3 - 4 credits from:

COMP 322	(1)	Introduction to C++
COMP 361	(3)	Systems Development Project
COMP 529	(4)	Software Architecture
COMP 533	(3)	Object-Oriented Software Development

or any Computer Science course at the 300 level or above, excluding COMP 364, COMP 396, and COMP 431.

7.12.8 Earth, Atmosphere and Ocean Sciences

The following departments jointly offer a B.A. & Sc. program:
- Atmospheric and Oceanic Sciences (ATOC)
- Earth and Planetary Sciences (EPSC)

The departments, the disciplines, and specific courses are described in their respective entries in the Faculty of Science section of the Calendar.

MAJOR CONCENTRATION IN EARTH, ATMOSPHERE AND OCEAN SCIENCES (36 credits)

The Major Concentration in Earth, Atmosphere and Ocean Sciences, which is restricted to students in the B.A. & Sc., is a sequence of courses designed to permit a degree of specialization in these disciplines.

Required Courses (24 credits)

ATOC 214	(3)	Introduction: Physics of the Atmosphere
ATOC 215	(3)	Oceans, Weather and Climate
ATOC 220	(3)	Introduction to Oceanic Sciences
ATOC 315	(3)	Water in the Atmosphere
EPSC 210	(3)	Introductory Mineralogy
EPSC 212	(3)	Introductory Petrology
EPSC 233	(3)	Earth and Life History
EPSC 243	(3)	Environmental Geology

Complementary Courses (12 credits minimum)

a minimum of 12 credits, at least 6 of which must be at the 300 level or higher, distributed as follows:

at least 6 credits selected from:

EPSC 203	(3)	Structural Geology
EPSC 220	(3)	Principles of Geochemistry
EPSC 231	(3)	Field School 1
EPSC 250 or ATOC 250	(3)	Natural Disasters
EPSC 320	(3)	Elementary Earth Physics
EPSC 331	(3)	Field School 2
EPSC 341	(3)	Field School 3
EPSC 425	(3)	Sediments to Sequences
EPSC 455	(3)	Sedimentary Geology
EPSC 542	(3)	Chemical Oceanography

6 credits selected from:

ATOC 219	(3)	Introduction to Atmospheric Chemistry
ATOC 250 or EPSC 250	(3)	Natural Disasters
ATOC 308 or GEOG 308	(3)	Principles of Remote Sensing
ATOC 412	(3)	Atmospheric Dynamics

7.12.9 Environment

The requirements for the B.A. & Sc. Interfaculty Program and the Honours Program in Environment are described in detail in the section on McGill School of Environment. Please see section 10.7 "B.A.&Sc. Interfaculty Program in Environment" or see section 10.10 "Honours Program in Environment".

7.12.10 Geography (GEOG)

The Department of Geography, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

Note that students may take a Geography program either in Arts or in Science, but not in both.

The following are considered Arts programs in the B.A. & Sc. and are described in the Faculty of Arts section of the Calendar:
- Major Concentration in Geography
- Major Concentration in Geography (Urban Systems)
- Minor Concentration in Geography
- Minor Concentration in Geography (Urban Systems)

The following are considered Science programs in the B.A. & Sc. and are described either below (Major Concentration) or in the Faculty of Science section (Minors) of the Calendar:
- Major Concentration in Geography (Physical Geography)
- Minor in Geographical Information Systems
- Minor in Geography

MAJOR CONCENTRATION PHYSICAL GEOGRAPHY OPTION (36 credits)

The Major Concentration in Geography, which is restricted to students in the B.A. & Sc., is a planned sequence of courses designed to permit a degree of specialization in this discipline.

Required Courses (12 credits)

GEOG 201	(3)	Introductory Geo-Information Science
GEOG 202	(3)	Statistics and Spatial Analysis
GEOG 203	(3)	Environmental Systems
GEOG 272	(3)	Earth's Changing Surface

Complementary Courses (24 credits)

6 credits of analytical techniques selected from:

GEOG 306	(3)	Raster Geo-Information Science
GEOG 307	(3)	Socioeconomic Applications of GIS
GEOG 308	(3)	Principles of Remote Sensing
GEOG 351	(3)	Quantitative Methods

3 credits of field courses selected from:

GEOG 495	(3)	Field Studies - Physical Geography
GEOG 496	(3)	Geographical Excursion
GEOG 497	(3)	Ecology of Coastal Waters
GEOG 499	(3)	Subarctic Field Studies

9 - 15 credits in systematic physical geography selected from:

GEOG 305	(3)	Soils and Environment
GEOG 321	(3)	Climatic Environments
GEOG 322	(3)	Environmental Hydrology
GEOG 372	(3)	Running Water Environments
GEOG 470	(3)	Wetlands

0 - 6 credits in integrative and advanced topics selected from:

GEOG 302	(3)	Environmental Management 1
GEOG 501	(3)	Modelling Environmental Systems

7.12.11 Mathematics

The requirements for the B.A. & Sc. Major Concentration in Mathematics are described in detail in section 6.12.36 "Mathematics and Statistics (MATH)" of the Faculty of Arts section of the Calendar.

7.12.12 Physics (PHYS)

The Department of Physics, the discipline, and specific courses are described in the Faculty of Science section of the Calendar.

MAJOR CONCENTRATION IN PHYSICS (36 credits)

The Major Concentration in Physics, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed., (see section 14.13.34 "Science or Mathematics for Teachers"), is a planned sequence of courses designed to permit a degree of specialization in this discipline.

Required Courses* (30 credits)

MATH 222 (3) Calculus 3
MATH 223 (3) Linear Algebra
MATH 314 (3) Advanced Calculus
MATH 315 (3) Ordinary Differential Equations
PHYS 230 (3) Dynamics of Simple Systems
PHYS 232 (3) Heat and Waves
PHYS 257 (3) Experimental Methods 1
PHYS 333 (3) Thermal and Statistical Physics
PHYS 340 (3) Majors Electricity and Magnetism
PHYS 446 (3) Majors Quantum Physics

* Required courses taken at CEGEP or elsewhere that are not credited toward the B.A. & Sc. or B.Sc./B.Ed. (see section 14.13.34 "Science or Mathematics for Teachers") must be replaced by courses from the Complementary Course List.

Complementary Courses (6 credits)

6 credits selected from:

PHYS 214 (3) Introductory Astrophysics
PHYS 225 (3) Musical Acoustics
PHYS 241 (3) Signal Processing
PHYS 258 (3) Experimental Methods 2
PHYS 334 (3) Advanced Materials
PHYS 534 (3) Nanoscience and Nanotechnology

or any 300 or 400 level course approved by an adviser.

7.12.13 Psychology

The requirements for the B.A. & Sc. Major Concentration in Psychology, Joint Honours Component in Psychology and Minor Concentration in Psychology are described in detail in section 6.12.43 "Psychology (PSYC)" of the Faculty of Arts section of the Calendar.

Susanne P. Lajoie; B.A., M.A.(McG.), Ph.D.(Stan.)	**Chair, Department of Educational and Counselling Psychology**
Anne Farray	**Assistant to the Dean/APR**
Christine Zilberman	**Senior Student Affairs Officer**
Susan Mao Cheia	**Financial Officer**

8.1.3 The Faculty Then and Now

The Faculty of Education traces its beginnings back to 1857, when the McGill Normal School was established at McGill by agreement between the University and the Government of Quebec. In 1907, it was renamed the School for Teachers and was moved to Sainte-Anne-de-Bellevue, where it became part of Macdonald College. At this time also, the Macdonald Chair of Education was endowed at McGill University and a Department of Education was created in the Faculty of Arts and Science for the purpose of preparing candidates for the High School Diploma. The first graduate program was inaugurated in 1930, and in 1953, the University established the B.Ed. degree.

In 1955, the School for Teachers and the Department of Education were combined to become the Institute of Education within the Faculty of Arts and Science. To these was joined, in 1957, the McGill School of Physical Education (founded in 1912).

The Institute was reconstituted as the Faculty of Education in 1965 and the work continued on both the McGill and Macdonald Campuses. The St. Joseph Teachers College and the Faculty of Education were amalgamated in 1970 and relocated in a new building on the McGill Campus. In 1996, the School of Information Studies became affiliated with the Faculty.

The Faculty serves approximately 2,000 students enrolled in undergraduate, graduate and professional development programs. The Faculty is organized into three departments and the School of Information Studies. In addition, the Faculty has a number of research and service centres, several of an interdisciplinary nature.

Like other faculties of education in Quebec and Canada, the Faculty has had a traditional role in the initial training of teachers and leaders in education-allied occupations. It is also concerned with constructing knowledge through research and scholarship and with providing professional development services to the wider educational community.

In recent years a number of links have been established with counterparts in other countries for teaching, research and development purposes. Current active projects, some of which involve students as well as staff, include those in Japan, Indonesia, South Africa and Mexico.

8.1.4 Faculty Facilities

Education Library and Curriculum Resources Centre

The Education Library and Curriculum Resources Centre, located on the first floor of the Education Building provides materials and services to support the teaching and research programs of the Faculty. The library collection includes over 122,000 monograph volumes, 500 periodical titles, microforms, government publications and access to a vast range of full-text electronic journals.

The Curriculum Resources Centre collection includes elementary and secondary school textbooks, teachers' resource guides, videos, DVDs, CDs, games, kits, puppets, big books, and equipment for viewing and listening. A Children's Literature Collection of fiction, non-fiction, poetry, folklore, and picture books is located on the left as you enter the Library.

Tours and instructional workshops are offered at the beginning of each term to individual students and to classes. These provide an introduction to library resources and information skills that will help you in preparing course assignments and writing research papers. They cover topics such as searching the Library Catalogue (MUSE), finding course materials on reserve, and locating articles and other materials via databases such as ERIC; PsychINFO; Education Full Text and others. EndNote workshops will show you how to easily create footnotes and reference lists when writing your term papers.

The Education Library provides computers for student use, tables and carrels to connect laptops, wireless access, as well as photocopiers, printers and scanners. You may select to work in the quiet study area of the E-Zone, prefer group study in the Curriculum Resources Centre or in one of the two group study rooms, or just relax on a lounge chair in an informal seating area.

Visit the Education Library website to learn more about library loans, hours, reserve readings, and links to important education sites. We look forward to seeing you in the Library.

Head Librarian: Marilyn Cohen
Telephone: 514-398-4689
Website: www.mcgill.ca/education-library

Education Undergraduate Society (EDUS)

The Society is the students' voice of undergraduates within the Faculty and its primary purpose is to serve and to inform the students. It also attempts to unify students through sponsorship of activities such as career placement, student orientation, participation in teachers' conventions, library donations and the organization of an Education Career Fair. Other activities include the assignment of lockers for students, selling merchandise in the Spirit Store, the coordination of the Graduation Ball, as well as fundraising and events throughout the academic year. Students are encouraged to participate and to make their opinions known. The Society Office is located in Room B179 of the Education Building.

Telephone: 514-398-7048
Fax: 514-398-2476
Email: president.edus@mail.mcgill.ca
Website: www.mcgilledus.ca

Media Services

Media Services specializes in helping all Education students and teaching staff use a broad selection of educational media technologies. We feature experienced technical support staff and provide free access to a wide range of multimedia, computer and audiovisual equipment and facilities for course and research work.

Highlighted in our educational equipment inventory is a 30-seat mobile laptop computer lab. This lab provides wireless access to the Internet in most of our classrooms. We also boast an eight-seat video editing lab featuring workstations with large 20" screens and DVD burners. This lab can support up to 50 concurrent video projects. While the lab is configured and used extensively for video editing, many other popular multimedia applications are also available. These include PowerPoint production, photo editing, audio editing, creation of PDF files and website development.

For course and research work students and staff can select from the following equipment loan inventory:

- Windows laptop computers
- Macintosh laptop computers
- Mobile 30 seat wireless laptop lab
- Mobile computer presentation carts with data projectors
- Portable data projectors for computer and video
- Document cameras
- Digital video cameras
- Digital still cameras
- Digital audio recorders
- Portable stereos (CD, MP3 and cassette playback)

In-class technical support services are provided as needed, both by appointment and in urgent situations, as well as through ongoing maintenance of classroom technology facilities. All classrooms in the Faculty have Internet access, most being equipped with wireless (wi-fi) connectivity. Most classrooms have permanently installed data projectors for computer and video display. Students and teaching staff can connect to these using their own laptop

computers or one borrowed from our equipment loan inventory. MP3 and audio CDs can also be played in these classrooms.

We provide free technical production services to all teaching staff for creating teaching materials and the recording of teaching events. This service requires advance reservation and carries charges for consumables. All free technical work is restricted to Faculty of Education courses. Production services include video, photography, websites, PowerPoint, booklets, pamphlets, posters, banners, and media duplication when not prohibited by copyright. Production services are also available to research and administration clientele at competitive pricing.

Conferences sponsored by the Faculty and held in the Education building have access to a full range of technical support services including preconference planning, promotional and conference day materials preparation, and extensive conference-day technical support staff.

Instructional functions comprise small group workshops and Media Services facilities tours (both by appointment only), individual equipment and software operation assistance and trouble-shooting, and technical support to courses.

Media Services manages and maintains the Faculty web server and participates in maintaining the Faculty website.

Sessional Hours (September to June):

Monday to Thursday	08:15 - 20:45
Friday	08:15 - 16:45

Summer Hours (July):

Monday to Thursday	08:15 - 16:45

Annual Closing (August):

Media Services reopens one week before Fall classes begin.

Please note that the above schedule varies slightly from year to year. Exact schedules will be posted at the Media Services entrance and on the website.

Media Services is closed on Saturdays, Sundays and holidays.

Media Services is located in Room 219 of the Faculty of Education.

Manager: Mr. Jim Harris
Telephone: 514-398-6950
Website: www.mcgill.ca/education/resources/media

Computer Facilities

The Faculty has a large computer complex located in Room 328 of the Education Building. It houses a lab with Windows computers, a second lab with Apple Macintosh computers, and a smaller work area with additional computers. Colour and black-and-white laser printing and scanning facilities are available. Consultants are available for help. This facility is available for courses, workshops and individual use by Education students and staff.

Closed Sundays, holidays and during August.
Hours for the Fall and Winter terms are:

Monday to Thursday	09:00 - 21:00
Friday	09:00 - 17:00
Saturday	11:00 - 16:00

Website: www.mcgill.ca/education/resources/ist

McGill Career Planning Service (CaPS)

Refer to the General University Information section for further information on this service.

For Information, contact:
Career Adviser: Antonella Nizzola
Telephone: 514-398-2484
Email: antonella.nizzola@mcgill.ca
Website: www.mcgill.ca/edu-sao/careerplanningservice

McGill Journal of Education

The *McGill Journal of Education* is an open-access, online journal that is posted at least three times a year: Winter, Spring, and Fall. It includes work in English and French from local, national, and international sources. The *Journal* publishes peer-reviewed research articles, essays, reports from the field, and book reviews. It is concerned with major issues in education from a variety of perspectives, practical and theoretical, personal and collective. Its policy is to bring new ideas and research into a context open to teacher educators and scholars, as well as to parents, teachers, and administrators.

A.S. Lamb Learning Centre

The A.S. Lamb Learning Centre, consisting of the Computer Laboratory, the multimedia unit and the reading room, is located on the second floor of the Sir Arthur Currie Memorial Gymnasium. The computer lab houses 25 computers connected to the McGill network and is available for courses, workshops and individual use by students and staff. Laser printing is also available at a cost. Access to the McGill wireless network is available for laptops equipped with a wireless card.

The multimedia unit features two IMAC computers with "Final Cut" DV and HDV video editing software, one VHS & DVD Recorder and a Flatbed Duplex high-speed Scanner. This facility is used for video editing, transfer of VHS, DV to DVD and high speed scanning.

LAN Tech.: Mr. Sanjeev Panigrahy

Hours: Monday to Friday 09:00 - 16:00

Evolution Education Research Centre (EERC)

Mission: “To advance the teaching and learning of biological evolution through research.” It opened its doors at McGill in 2001 with four McGill professors and four Harvard professors who have expertise in anthropology, biological evolution, educational psychology, geology, molecular biology, palaeontology, philosophy of science/education and science education.

Director: Dr. Brian Alters
Manager: Jason Wiles
Office: Education Building, Room 355
Telephone: 514-398-5469

Centre for the Study and Teaching of Writing

For information about writing courses please refer to http://www.mcgill.ca/conted-edu/programs/writing-centre.

Office of Student Teaching (OST)

The Office of Student Teaching is responsible for the planning and implementation of field experiences and arranging with school boards and schools for the placement of student teachers in the Bachelor of Education programs. The Office coordinates student teaching among Departments within the Faculty, and develops partnerships with the education community. The Office offers training to colleagues in schools.

Office Hours: Monday to Friday 08:30 - 17:00

Director: Professor Fiona J. Benson
Office: Education Building, Room 431A
Telephone: 514-398-7046
Fax: 514-398-3179
Website: www.mcgill.ca/ost

Student Affairs Office (SAO)

The Student Affairs Office is responsible for student records and registration as well as general academic information and advice on

undergraduate program and degree requirements, course change, withdrawal, supplemental and deferred exams, rereads, academic standing, inter-faculty transfer, readmission, study away, scholarships and awards, graduation and teacher certification.

Special requests can be made, in writing, to the Associate Dean (Teaching, Learning and Students).

Office: Education Building, Room 243
Telephone: 514-398-7042
Fax: 514-398-4679
Email: sao.education@mcgill.ca
Website: www.mcgill.ca/edu-sao

8.2 Faculty Programs

The Faculty of Education offers three different kinds of programs.

Undergraduate Programs
The Faculty offers programs leading to the Bachelor of Education (B.Ed.) degree for those wishing to become teachers, and a B.Sc.(Kinesiology). Advanced standing may be given to those already holding a university degree.

Programs of Professional Development
For qualified teachers wishing to enhance their knowledge and skills, the Faculty offers programs of professional development leading to specialized Certificates and Diplomas. Most courses that are required to complete these programs are offered in the evenings and in the summer.

Graduate Programs
The Faculty offers graduate programs for those already holding a university degree who wish to pursue advanced study and research leading to master's and doctoral degrees in various fields of education and psychology, and library and information studies.

Undergraduate programs of initial teacher education are described in this Calendar, programs of professional development are described in the most current *Centre for Continuing Education Calendar*, and graduate programs are described in the most current *Graduate and Postdoctoral Studies Calendar.*

8.2.1 Undergraduate Education Programs

The Faculty of Education offers the following Undergraduate programs. Details of each program may be found in this Calendar under the headings of the appropriate department. The credit weights given are for students who have completed a Quebec CEGEP degree, or have been granted 30 credits of advanced standing.

All Bachelor of Education programs have been accredited by the Comité d'agrément des programmes de formation à l'enseignement (CAPFE).

For "Bachelor of Education Secondary Program (120 credits)", see section 8.6.1.1, page 258. A 120-credit program offered by the Department of Integrated Studies in Education.

For "Bachelor of Education Kindergarten and Elementary Program (120 credits)", see section 8.6.1.4, page 261.

For "Bachelor of Education Kindergarten and Elementary Program (First Nations and Inuit Studies Option)", see section 8.6.1.5, page 261. A 120-credit program, offered by the Department of Integrated Studies in Education.

For "Bachelor of Education Kindergarten and Elementary Program (Jewish Studies Option)", see section 8.6.1.7, page 262. Students taking this option take 126 credits, offered by the Department of Integrated Studies in Education.

For "Baccalauréat en enseignement du français langue seconde (120 credits)", see section 8.6.1.8, page 262. A 120-credit program, offered by the Department of Integrated Studies in Education jointly with the Université de Montréal.

For "Bachelor of Education in Teaching English as a Second Language (121 credits)", see section 8.6.1.9, page 263. A 120/121-credit program offered by the Department of Integrated Studies in Education.

For "Bachelor of Education Physical and Health Education", see section 8.7.1.1, page 268. A 120-credit program offered by the Department of Kinesiology and Physical Education.

For "Concurrent Bachelor of Education in Music and Bachelor of Music (Music Education) Program (144 credits)", see section 8.6.1.3, page 260. A 143/144-credit program offered jointly by the Department of Integrated Studies in Education and the Schulich School of Music. See also section 12.6.5 "B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program".

For "Concurrent Bachelor of Science (Major or Major Concentration with a Minor for Teachers) and Bachelor of Education Secondary Program", see section 8.6.1.2, page 259. This program is offered jointly by the Department of Integrated Studies in Education and the Faculty of Science.

A student who successfully completes any of the above programs, (and meets other requirements set out by the MELS (*Ministère de l'Éducation, du Loisir and du Sport*)) is recommended for certification as a teacher in the province of Quebec, see section 8.2.1.3 "Quebec Teacher Certification", on page 249.

For "Bachelor of Science (Kinesiology)", see section 8.7.2, page 268. A 90-credit program offered by the Department of Kinesiology and Physical Education.

The program entails a comprehensive understanding of human movement. Kinesiology is a multidisciplinary field viewing human movement from social, historical, psychological, or biological perspectives. The program provides students with a breadth of theoretical knowledge as well as an opportunity to explore related areas in greater depth, including minor programs available elsewhere within the University. Students may opt for either General or Applied emphasis, with an Honours program available for particularly strong students.

8.2.1.1 General Admission Requirements

For information about admission requirements to the B.Ed., B.Sc.(Kinesiology) or the Concurrent B.Sc. and B.Ed. or B.Mus. and B.Ed. programs please refer to the Undergraduate Admissions Guide, found at www.mcgill.ca/applying/undergrad. Applicants to the Concurrent B.Sc. and B.Ed. apply through the Faculty of Science, and to the Concurrent B.Mus. and B.Ed. apply through the Faculty of Music.

For information about Inter-Faculty Transfer or Readmission, please see section 3.3.12 "Inter-Faculty Transfer", or section 3.3.13 "Readmission", as well as information posted on the Student Affairs Office website, www.mcgill.ca/edu-sao/admissions.

Although no additional prerequisite courses are required, the Faculty recommends that applicants to the B.Ed. Secondary, Science & Technology, and B.Ed. Physical & Health Education programs have appropriate background science and mathematics courses, i.e., biology, chemistry, physics and mathematics. Students having other backgrounds will be considered for admission but will be required to complete prerequisite courses in mathematics and science that may increase the number of credits required for the degree.

Language Requirement for Applicants to B.Ed. TESL Program
Applicants to the B.Ed. TESL program are required to pass written and oral language tests in order to fulfil the admission requirements of this program. Upon admission to the program, students will be granted exemption from EDEC 215 (English Language Requirement).

8.2.1.2 Credit Requirements

Students are normally admitted to a five-year B.Ed. degree requiring the completion of 150 credits, or a four-year B.Sc.(Kinesiology) degree requiring the completion of 120 credits. Students who have

completed Quebec CEGEP, French Baccalaureate, International Baccalaureate or at least one year of university studies are normally enrolled in a four-year B.Ed. program, or three-year B.Sc.(Kinesiology) program.

Students entering the five-year B.Ed., or four-year B.Sc.(Kinesiology) degree are in Year 0 and are required to complete the freshman requirements applicable to their program.

Students who have completed previous university studies may be awarded transfer credits for their course work. This can only be determined after the formal application and all necessary supporting documents have been received by Enrolment Services. A minimum of 60 credits must be completed while in residence at McGill University in order to be eligible for a degree. Courses taken more than five (5) years before the time of admission are not permitted in subjects where there have been substantial content changes, nor in any pedagogy courses specific to the Quebec K-11 curriculum. Courses more than five (5) years old in other subject areas may be considered on an individual subject basis by the program director. For more details, see the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

8.2.1.3 Quebec Teacher Certification

Please note that graduates of teacher education programs are recommended by the University for Quebec Certification to the Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS).

Teacher Certification in Quebec is the responsibility of the MELS. Students who complete requirements for the Bachelor of Education degree and who meet the MELS requirements (specified below) are recommended for certification.

All graduates of the Bachelor of Education Teacher Education programs who are Canadian citizens or Permanent Residents may apply for a permanent Teaching Diploma (Brevet) immediately upon graduation.

In order to be eligible for a "Permit to Teach" or a permanent Quebec Diploma, candidates must be either Canadian citizens or Permanent Residents.

In June 2005, the National Assembly of Quebec adopted an Act amending the Education Act and the Act respective of Private Education. The amendments concern the verification of judicial antecedents of persons holding or applying for a permit to teach in the youth, adult and vocational sectors.

Anyone seeking Teacher certification in the Province of Quebec is required to submit a confidential declaration concerning their judicial record to the Minister of Education. This document is available on the MELS website at www.mels.gouv.qc.ca/dftps/interieur/PDF/Antecedents_judiciaires_a.pdf.

In addition to meeting these requirements, candidates for Teacher certification must be recommended by McGill University in a series of core professional competencies specified in "Teacher Training Orientations – Professional Competencies" (MEQ 69-2099A).

Holders of a temporary Permit or of a permanent Diploma wishing to teach in another province or in another country must apply directly to the Teacher Certification Agency in the relevant province or country. Similarly, teachers from other provinces or countries who wish to teach in Quebec must apply to:

Ministère de l'Éducation du Loisir et du Sport
600 Fullum, 10e étage
Montréal, QC H2K 4L1
Telephone: 514-873-4630

Please refer to the following website for further information on obtaining a Quebec Teaching Licence: www.mels.gouv.qc.ca.

It is recommended that applicants intending to teach outside of Quebec obtain information beforehand concerning the requirements for certification.

Fluency (oral and written) in the language of instruction is a requirement for all those seeking certification.

8.2.2 Programs of Professional Development

The Faculty of Education offers programs of professional development in several fields. All such programs are 30 credits, unless otherwise indicated, and may be completed through part-time study. They are intended to provide an opportunity for teachers and other educators to enhance their existing knowledge and skills or to develop new ones, and thus are normally available only to those who are already certified as teachers.

Detailed information regarding general regulations, admission requirements and program profiles for the following certificates and diplomas may be found in the section for offering departments.

Department of Educational and Counselling Psychology
Certificate in Inclusive Education
Diploma in Human Relations and Family Life Education
Graduate Certificate in Counselling Applied to Teaching
Further information is available from the program coordinator:

Dean Thomson
Office: Education Building, Room 614
Telephone: 514-398-4248
Fax: 514-398-6968
Email: dean.thomson@mcgill.ca

Department of Integrated Studies in Education

First Nations and Inuit Education (FNIE)
The Office of First Nations and Inuit Education coordinates the work which the Faculty of Education carries out cooperatively with various Indigenous communities and institutions. All courses are normally given off campus. In collaboration with the Kativik School Board, the Cree School Board, the Kahnawake Education Centre, and various other Indigenous communities in Quebec, FNIE delivers field-based teacher education programs leading to initial teacher certification and to the B.Ed.Cert.Teach. degree. FNIE also works with departments to meet other educational needs of Indigenous peoples.

Director: Professor Donna-Lee Smith
Office: Education Building, Room 244

Centre for Educational Leadership (CEL)
CEL, a unit of the Department of Integrated Studies in Education, is committed to the development of leadership for all educational stakeholders through teacher preparation, graduate studies, research and varied approaches to professional development. The Centre seeks to promote dialogue, partnerships and projects among teachers, policy makers and other educational leaders in the local community and beyond through credit and non-credit work, research and development activities.

Director: Dr. Lynn Butler-Kisber
Office: Education Building, Room 442
Telephone: 514-398-1591
Fax: 514-398-7436
Website: www.mcgill.ca/edu-integrated

Courses offered through Continuing Education and Summer Studies

A wide range of courses, enabling students either to acquire prerequisite credits or to earn credit towards their degree, is offered through Continuing Education and Summer Studies. For courses offered, please check Minerva.

8.2.3 Programs for First Nations and Inuit

The following programs are offered for First Nations and Inuit teachers by the Faculty of Education. Information can be obtained by contacting:

Office of First Nations and Inuit Education (OFNIE)
3700 McTavish Street, Room 244
Montreal, QC H3A 1Y2
Telephone: 514-398-4533
Fax: 514-398-2553
Website: www.mcgill.ca/edu-integrated/fnie

Bachelor of Education Kindergarten and Elementary Program (First Nations and Inuit Studies Option)
Detailed information about this program may be found in section 8.6.1.5 "Bachelor of Education Kindergarten and Elementary Program (First Nations and Inuit Studies Option)".

Detailed information about the following programs may be found in section 8.6.2 "Programs for First Nations and Inuit":

B.Ed. for Certified Teachers (Elementary Education)

Certificate in Education for First Nations and Inuit

Certificate in First Nations and Inuit Student Personnel Services (This program is offered by the Department of Educational Psychology and Counselling through the Office of First Nations and Inuit Education. Restrictions apply to enrolment.)

Certificate in Middle School Education in Aboriginal Communities

Certificate in First Nations and Inuit Educational Leadership

Certificate in Aboriginal Education for Certified Teachers

Certificate in Aboriginal Literacy Education

8.3 Faculty Regulations for Undergraduate Programs

Please consult the General University Information section for regulations and procedures regarding registration, fees, course load, course change (drop/add), withdrawal, verification, examinations, inter-university transfer, and graduation. In addition, the following section provides regulations specific to Faculty of Education students.

Note: Each student in the Faculty of Education must be aware of and comply with the Faculty regulations as stated in this Calendar. While departmental and Faculty advisers and staff are always available to give advice and guidance, the ultimate responsibility for complete and correct course selection and registration, for compliance with, and completion of, program and degree requirements, for the observance of regulations and deadlines, and for academic records, rests with the student. It is the student's responsibility to seek guidance. Misunderstanding will not be accepted as cause for dispensation from any regulation, deadline, program or degree requirement.

Advising
Refer to section 4.1 "Undergraduate Advising", and the Student Affairs website, www.mcgill.ca/edu-sao/advising, for further information. Assistance is also available by emailing: sao.education@mcgill.ca.

All **newly admitted** students are required to attend the academic advising sessions scheduled during August prior to the beginning of the Fall term. For a detailed description of advising and registration procedures, students should refer to *Welcome to McGill*, which is sent to all newly admitted students by Enrolment Services upon their acceptance, as well as the Student Affairs website, www.mcgill.ca/edu-sao/advising.

Academic advising for all **returning students** takes place in March for the upcoming academic year. Detailed advising and registration information is posted on the Student Affairs website: www.mcgill.ca/edu-sao/advising. Students entering their graduating year are encouraged to meet with their adviser during this advising period.

All students admitted into the Freshman Year (Year 0) are required to meet with an adviser during the Advising period in August. Please see section 8.3 "Faculty Regulations for Undergraduate Programs" for further information.

A list of recommended courses for Freshman (Year 0) students is available on the website www.mcgill.ca/edu-sao/advising info/freshman.

8.3.1 Code of Professional Conduct

Faculty of Education programs have professional components and field placements. In all aspects of any program, on campus and off, students are expected to demonstrate ethical, responsible, and professional behaviour in the performance of their duties, to conduct themselves in accordance with the law (e.g., Youth Protection), and to meet the expectations of schools, boards and other host institutions receiving them for field placements. This applies to all aspects of professional conduct, including but not limited to respect for persons, property and confidentiality, appropriate dress and punctuality. Failure to meet these expectations, regardless of performance in courses or other formal program requirements will be taken into account in the assessment of the students' overall academic standing in the program and, in the most serious instance, may result in a requirement to withdraw from the program.

8.3.2 English Language Requirement

The Quebec *Ministère de l'Éducation, du Loisir et du Sport* (MELS), and the Faculty of Education require that all students in teacher education programs demonstrate their proficiency in the language of instruction. To fulfil this obligation, all students are required to write an English Language Proficiency Test (EDEC 215) before the end of their first semester in the program. Students will be notified of the time and place after acceptance. Students who do not pass the test the first time and who wish to remain in the program will be required to take EDEC 208 in the winter term of their first year. They must receive a passing grade and, in their second year, they will be required to register and take the test again. Students who do not pass the test on their second attempt will be placed in unsatisfactory standing and must withdraw from the program. Permission may be granted to allow students to continue taking courses during the Winter semester only. Please see section 8.3.11.3 "Unsatisfactory/Interim Unsatisfactory Standing" for readmission procedures.

Note: This requirement does not apply to students in the B.Ed. TESL, B.Ed. TFSL or the Certificate in Education for First Nations and Inuit programs.

8.3.3 Additional Requirements for Students admitted to B.Ed. TFSL program

Students admitted to the B.Ed. TFSL program are required to write diagnostic tests in French Language and mathematics. Based on test results students may be required to successfully complete remedial courses above and beyond degree requirements. In addition there will be a compulsory French language test for TFSL students prior to their third Field Experience. Students will be required to pass this test in order to continue in the program.

8.3.4 Judicial Record Verification for Students in the Bachelor of Education Programs

Quebec's Education Act, section 261.0.2, grants school boards the right to verify the judicial record of any person regularly in contact with minors, and this includes student teachers. Each school board or private school may have its own administrative procedures for verification. Students are responsible for complying with their request. Anyone unable to obtain the required security

clearance will not be permitted to undertake their Field Experiences and consequently would have to withdraw from the program as this is a mandatory requirement of the program. More information can be found on the Student Affairs Office website.

8.3.5 Course and Program Regulations

Course Load

Undergraduate Education programs can normally only be followed on a full-time basis. Students must take a minimum of twelve (12) credits per term unless the Associate Dean (Teaching, Learning and Students) gives them special permission. Special permission must be requested prior to the end of Course Add/Drop period.

Any absence or reduction in course load that may impact the regular progression of a student's program must have written approval by the Associate Dean (Teaching, Learning and Students).

The normal course load per term is 15 credits. Students whose GPA is above 3.00 may take up to 17 credits per term. Overloads are not allowed in major field experience terms for students in the B.Ed. programs. Students in Probationary Standing take a maximum of 12 credits.

Time Limit and Credits for Completion of Degrees

Students are expected to complete their program in no more than five (5) years after their initial registration for the B.Ed. degree and after four (4) years for the B.Sc.(Kinesiology) degree. Students who enter into a freshman year become subject to these regulations one year after their initial registration. Students who exceed these limits must apply to the Faculty for permission to continue.

Students registered in the B.Ed. or B.Sc. are expected to complete the requirements of their programs and their degree within 150 or 120 credits respectively. Students will receive credits for all courses (subject to degree regulations) taken up to and including the semester in which they obtain the full degree credit requirements. Students who wish to remain at McGill beyond that semester must seek permission of the Associate Dean. Students who wish to exceed the specified minimum number of credits required for their degree must also seek permission of the Associate Dean. Credits over the credit limit will be flagged for no credit and the grades will not count in the CGPA.

Permission for exceeding the time and or credit limits will normally be granted only for valid academic reasons, such as change of program or approved part time status. If permission is granted, students will receive credit only for required and complementary courses necessary to complete their program requirements.

Course Requirements

All Required and Complementary courses used to fulfil program requirements must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a Required course must either pass the supplemental examination if available, or repeat the course. If the failed course is a Complementary course required by the program, a student may choose to replace it with another complementary course. If a student repeats a Required course in which a D was received, credit will only be given once. A failure (F, J, KF, WF) in any level of field experience or the English Language Proficiency Test (EDEC 215), second attempt, places a student in unsatisfactory standing requiring withdrawal from the program. Further details on requirements for Field Experience are listed in section 8.4 "Student Teaching/Field Experience".

Courses Taken as Transfer Credit

Students wishing to study away at a university outside of Quebec must obtain approval from their academic adviser and Student Affairs Office prior to taking a transfer course. Students will only be permitted to take courses required to complete their program. Students are not permitted to take transfer courses during their graduating term. Please refer to section 3.5.6 "Transfer Credits" for further information.

Inter-University Transfer Credit

Students may, with the permission of their academic adviser, register at any university in the province of Quebec for three (3), or exceptionally six (6) credits per term in addition to their registration at McGill. Students will only be permitted to take courses required to complete their program. Students are not permitted to take transfer courses during their graduating term. Please refer to section 3.3.5 "Quebec Inter-University Transfer Agreement (IUT)" for further information.

Note: This restriction does not apply to students in the Joint B.Ed. TFSL program.

Distance Education Courses

A maximum of 6 credits of elective courses taught through distance education may be used towards the B.Ed. or B.Sc.(Kinesiology) degree at McGill. Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious documented circumstances warrant it. In such cases, prior approval must be obtained from the student's program adviser and the Associate Dean.

Courses Taken under Satisfactory/Unsatisfactory Option

Required or Complementary courses cannot be taken under this option. Please consult section 3.3.6 "Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option".

Course Equivalencies and Overlap

Students will not receive additional credit towards their degree for any course that is considered equivalent or that overlaps in content with a course for which they have already received credit at McGill, or any other institution. It is the student's responsibility to be aware of exclusion clauses specified in the course description in the Calendar and Minerva. Students should also refer to the following website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transfercredits; as well as the following website for Faculty specific information: www.mcgill.ca/edu-sao/advancedstanding.

Dress Regulations

All students enrolled in teacher certification programs are advised that school boards and individual schools may have regulations concerning acceptable attire. Students must adhere to any such regulations.

Students in Kinesiology and Physical Education programs are required to wear appropriate clothing for activity courses as approved by the instructor(s). Students may also be responsible for providing some items of personal equipment.

8.3.6 Registration

All students register by Minerva, McGill's web-based registration system. For detailed information about registration please refer to section 3.3 "Registration", *Welcome to McGill*, the Student Affairs website, www.mcgill.ca/edu-sao, and to the Student Records website, www.mcgill.ca/student-records.

Students who fall into unsatisfactory standing at the end of the academic year will have their registration cancelled. They may not re-register in the Faculty. Students who can provide proof of extenuating circumstances may appeal to the Associate Dean. Please refer to section 3.3.13 "Readmission", and to www.mcgill.ca/edu-sao/admissions/readmission for Faculty specific information.

Students who have an outstanding fee balance from a previous term or outstanding fines will not be permitted to register. Students with financial problems should consult the Student Aid Office, Brown Student Services Building.

Students who decide not to return to McGill must withdraw from all of their courses on Minerva or inform the Student Affairs Office in writing. Please refer to sections section 3.3.8 "Regulations Concerning Course Withdrawal" and section 3.3.9 "Regulations Concerning University Withdrawal" for further information.

Course Registration

Students in Faculty of Education programs should register for the courses as outlined in the individual program overviews and advising material posted on the Student Affairs Office website, www.mcgill.ca/edu-sao. For more information on registration, see section 3.3 "Registration".

Students in the B.Ed. programs who are required to be registered for Field Experience should consult section 8.4 "Student Teaching/Field Experience" for more information.

Some courses may require special permission. Students should consult the Calendar and/or the Class Schedule on Minerva well in advance of the Course Change period to determine if permission is required of the instructor, the department or the Faculty for any course they wish to take.

A number of courses have prerequisites which must be completed prior to course registration. Permission to waive a prerequisite requirement must be given in writing by an academic adviser.

Withdrawals: There are three course withdrawal periods published in the Calendar and on the University website, www.mcgill.ca/students, or section 3.3.8 "Regulations Concerning Course Withdrawal". Students may, under exceptional circumstances, be granted permission to withdraw after the published deadlines. Such students should contact the Student Affairs Office for further information.

Students withdrawing from a Field Experience should refer to section 8.4 "Student Teaching/Field Experience".

8.3.7 Attendance

The pattern of attendance necessary to satisfy the requirements of coursework will vary according to the nature of different subjects and the professors' approaches to them. A course constitutes a contractual, professional, academic and social obligation between the professor and the student. It is, therefore, the responsibility of the professor to make students aware of the unique requirements of a course and the manner in which they may be fulfilled, and the responsibility of the student to meet these requirements.

Field Experience Courses - Punctual attendance is required for the entire Field Experience. Absences are only excused in exceptional circumstances. Please refer to section 8.4 "Student Teaching/Field Experience".

Students in the B.Ed. programs should be aware that some Field Experiences may begin in August, and some are held in the spring.

Intensive Courses - While students are responsible for informing themselves of the attendance requirements for all courses, special attention should be made to the requirements for intensive courses scheduled around the Field Experiences. Missing classes in intensive courses may result in exclusion from the course. Students should refer to the individual course outlines.

8.3.8 Grading

During the first week of lectures, each instructor will provide students with a written course outline which should include a description of the means of evaluation to be used in the course.
For further information on Grading, please see section 3.5.3 "Grading and Grade Point Averages (GPA)".

8.3.9 Incomplete Grades

An instructor who believes that there is justification for a student to delay submitting term work may extend the deadline until after the end of the course. In this case, the instructor will submit a grade of "K" (incomplete), indicating the date by which the work is to be completed. The maximum extensions for the submission of grades to the Student Affairs Office are as follows: April 30 for Fall term courses; July 30 for Winter term courses and November 30 for Summer courses. It is important to note that instructors may impose earlier deadlines than those listed. Please refer to section 3.5.5 "Incomplete Courses" for more information.

8.3.10 Examinations

Students should see section 3.6 "Examinations" for information about final examinations and deferred examinations. The exam schedules are posted on the McGill website, www.mcgill.ca/student-records/exam, normally one month after the start of classes for the Tentative Exam Schedule, and two months after the start of classes for the Final Examination schedule.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

Supplemental Examinations

Students who wish to write a supplemental examination for a course in which a supplemental examination is available must apply on Minerva within the published deadline. Please refer to the Student Record website, www.mcgill.ca/student-records/exam, for important information.

Students must be in satisfactory or probationary standing and have received a final grade of D, J, F, or U in the course.

Reassessment and rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner (see section 3.6.2.3 "Reassessments and Rereads").

The Faculty recognizes two types of reassessments or rereads:
1. Reassessment of course work (term papers, mid-terms, assignments, quizzes, etc.);
2. Reread of a final exam.

Reassessment of Course Work

Reassessment of course work is administered by the course instructor or the offering department. Requests, made by students, must be made within 10 working days of the date of return of the graded materials. The reviewer will assess the fairness of the original grade rather than remark the assignment as he or she would have graded it. Reassessments should normally be completed within 20 working days of the request. Grades may be lowered or raised, or they may remain the same, as a result of the reassessment. The grade obtained on the reassessment takes precedence over the original grade.

Rereads of Final Exams or Final Term Papers or Projects

These rereads are administered by the Student Affairs Office, but conducted by the units involved. Students must apply in writing to the Student Affairs Office by March 31 for courses in the Fall term, June 30 for courses in the Winter, and by September 30 for Summer term courses (these deadlines are strictly enforced and no requests will be accepted past them). Students are assessed a fee of $35.00 for such rereads. It is strongly recommended, but not required, that students consult with the instructor of the course before requesting an official reread. The reviewer will assess the fairness of the original grade rather than remark the assignment as he or she would have graded it. Grades may be lowered or raised, or they may remain the same, as a result of the reread. The grade obtained on the reread takes precedence over the original grade.

Reassessments and rereads in courses not in the Faculty of Education are subject to the deadlines, rules, and regulations of the particular faculty.

8.3.11 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). For students in the B.Ed. programs it is also based on their performance in the Field Experience courses, and the English Proficiency examination (EDEC 215). Academic standing, which is assessed after the end of term, determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration. Information about academic standing appears on records that are

internal to McGill for the information of students and others, such as academic advisers.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standing for the Fall term is designated as "interim" and should be interpreted as advisory. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.** Students who do not receive a Pass grade for a Fall term EDFE (Field Experience course), or their second attempt at EDEC 215 (English Language Proficiency) are placed in Unsatisfactory Standing. Permission may be granted to allow them to continue taking courses during the Winter semester only. Students may apply for readmission as per the regulations posted on the Student Affairs Office website: www.mcgill.ca/edu-sao/admissions/readmission.

8.3.11.1 Satisfactory/Interim Satisfactory Standing

Students in interim satisfactory or satisfactory standing:

- may continue in their program;
- have a CGPA of 2.00 or greater.

8.3.11.2 Probationary/Interim Probationary Standing

Interim Probationary Standing at the end of the Fall term

- may continue in their program;
- should evaluate their course load and reduce it;
- should consult with their program adviser before the withdrawal deadlines;
- are permitted to proceed with the next scheduled Field Experience course, i.e., Winter or Spring, for First- or Second-Year Field Experiences only.

Probationary Standing at the end of the Winter Term

- may continue in their program;
- must carry a reduced load (maximum of 12 credits per term);
- are not permitted to take any level student teaching/Field Experience course during the next academic year;
- must raise their TGPA and CGPA to return to satisfactory;
- should see their departmental adviser to discuss their course selection.

Students will be placed in Probationary Standing:

- if their CGPA falls between 1.50 and 1.99, and if they were previously in satisfactory standing;
- if they receive a grade of D for any level Field Experience course and were previously in satisfactory standing;
- if their CGPA falls between 1.50 and 1.99 and their TGPA in Fall or Winter is 2.50 or higher, and if they were previously in probationary or interim unsatisfactory standing;
- if their CGPA is between 1.50 and 1.99, and they were previously in unsatisfactory readmitted standing, and have satisfied the relevant conditions specified in their letter of readmission.

8.3.11.3 Unsatisfactory/Interim Unsatisfactory Standing

Interim Unsatisfactory standing at the end of the Fall term

- may continue in their program;
- should evaluate their course load and reduce it as appropriate;
- should consult a departmental adviser, before the withdrawal deadlines, about their course selection for the Winter term;
- will not be permitted to proceed with the next normally scheduled Field Experience.

Unsatisfactory Standing at the end of the Winter term

- have failed to meet the minimum standards set by the Faculty;
- may not continue in their program.

Readmitted Unsatisfactory Standing

Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean or the Committee on Student Standing will have their standing changed to readmitted unsatisfactory standing. Their course load is specified in their letter of readmission, as are the conditions they must meet to be allowed to continue in their program. They should see their departmental adviser to discuss their course selection.

Students will be placed in Unsatisfactory Standing (Winter or Summer term) or Interim Unsatisfactory Standing (Fall term):

- if their CGPA falls or remains below 1.50;
- if their TGPA falls below 2.50 and their CGPA is below 2.00 and they were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing;
- if they receive a failure (F, J, KF, WF) in any level of student teaching/Field Experience course;
- if they receive a failure in the English Language Requirement Test for the second time;
- if they were previously in unsatisfactory standing and were readmitted to the Faculty by the Associate Dean or the Committee on Student Standing and have not at least satisfied the conditions to attain probationary standing that were specified in the letter of readmission.

Note: Students in either the Concurrent B.Sc. and B.Ed. or B.Mus. and B.Ed. program who receive an F or J in any Education Field Experience course, or fail the English Language Proficiency Test for the second time, are placed in unsatisfactory standing. Although they may complete their term, they are required to withdraw from the Concurrent program. They may, however, contact the Faculties of Science or Music regarding application to their general degrees.

Readmission

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean no later than June 1 for readmission to the Fall term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students who have failed EDEC 215 twice must pass the examination as part of the readmission criteria.

Students in unsatisfactory standing for the second time must withdraw permanently. Students who were placed in unsatisfactory standing due to a failure in student teaching/Field Experience cannot apply for readmission for at least one full year. Please refer to the Student Affairs Office website for further information: www.mcgill.ca/edu-sao/admissions/readmission.

Incomplete Standings

- Standing awaits deferred or supplemental exams;
- Must clear K's, L's or Supplementals;
- Standing incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the course change period for that term; students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to "unsatisfactory" may not continue in their program.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Associate Dean of Student Affairs as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of course change period should immediately consult with the Student Affairs Office.

8.3.12 Graduation Requirements

To be eligible for a B.Ed. or the B.Sc.(Kinesiology) degree, students must fulfil all Faculty and program requirements. This includes completing the minimum credit requirements for the degree as stipulated in the letter of acceptance; obtaining a grade of C or better in all required and complementary courses; and achieving a minimum cumulative grade point average (CGPA) of 2.00. Students must satisfactorily complete a minimum of 60 credits at McGill University towards the fulfilment of the degree requirements. In addition, students must complete specific components of their program at McGill.

Students enrolled in Kinesiology and Physical Education programs are required, before the end of their final year of study, to show proof of certification in Standard Level Safety Oriented First Aid, and Level C in Cardiopulmonary Resuscitation, or equivalencies.

Students must complete their degree requirements within five (5) years after their initial registration for the B.Ed. degree and within four (4) years after their initial registration for the B.Sc.(Kinesiology) degree. Students in the part-time B.Ed. for Certified Teachers and B.Ed.(Vocational) programs are allowed a maximum of 12 years to complete the requirements for the degree.

It is the student's responsibility to ensure that all Faculty requirements are met before graduation.

Early in their graduating year all students should check with their adviser to make sure that they will meet all program requirements in time for graduation. It is essential that students in their final year indicate the expected date of graduation on Minerva and verify this date on Minerva; see section 3.9 “Graduation”. When a final-year student changes the expected date of graduation, the student must notify the Student Affairs Office immediately. It is also the student's responsibility to complete the required forms for teacher certification, and to check that his/her name appears on the graduation list. Further information is available on the Student Affairs Office website: www.mcgill.ca/edu-sao.

Students are not permitted to take courses outside McGill University during the last term prior to graduation. Students who fail to graduate as expected and who do not re-register must apply to the Associate Dean (Teaching, Learning and Students) to graduate. Application to graduate must be made sufficiently in advance of the expected graduation date to allow the Faculty to verify the student's record.

Information pertaining to the convocation ceremonies can be obtained on the McGill website: www.mcgill.ca/convocations.

8.3.13 Undergraduate Program Awards

Dean's Honour List Designation for Graduating Students

The designation Dean's Honour List may be awarded to graduating students under the following conditions:

- students must be among the top 10% of the Faculty's graduating students;
- students must have completed a minimum of 60 McGill credits to be considered;
- the designation is based on the cumulative academic record (CGPA).

Dean's Honour List Designation for In-course Students

The designation Dean's Honour List may be awarded to in-course students under the following conditions:

- students must be among the top 10% of the Faculty's students;
- students must have completed at least 27 graded credits during the academic year;
- the designation is based on the sessional GPA.

Scholarships and Awards

Various scholarships and awards are open to both graduating and in-course students. Full details may be found in the *Undergraduate Scholarships and Awards Calendar* available on the web at www.mcgill.ca/courses.

8.4 Student Teaching/Field Experience

The **Office of Student Teaching (OST)**, www.mcgill.ca/ost, is responsible for arranging the placement and evaluation of all student teachers in supervised Field Experiences.

Field Experiences:

- Are required courses (with the subject code EDFE) for all students in the B.Ed. Program from 1st through 4th year.
- Are the sole responsibility of the OST, and under no circumstances should students make their own placement arrangements.
- Should be taken in the required sequence.
- Require that 'Newly Admitted' and 'Returning Students' follow registration procedures (see below) or risk not being placed in a host school.
- Are completed in English schools in the province of Quebec in the majority of cases, with the exception of the B.Ed. TESL Program Field Experiences which take place in French schools in the province of Quebec.
- Can be specialized in some circumstances. Refer to the OST website for information regarding such opportunities (distance, special needs, resource room, adult education, etc.).
- Could require that students travel some distance to their host school and students should therefore budget a sum of money to offset such travel costs.
- Require that students be placed at host schools for specific periods of time ranging from 10 to 40 days.
- May begin before the first day of lectures or end after the last day of lectures.
- May continue during the University-scheduled Study Break in the Winter term.
- May continue through May in the Summer term (refer to the OST website or Minerva for exact dates).

Newly Admitted Students:

- In B.Ed. K/Elementary, B.Ed. TESL, B.Ed. Secondary programs must be registered for the first Field Experience by September 1.
- In B.Ed. Secondary Science and Math program should consult an advisor during the August advising sessions prior to registering for Field Experience courses.
- In B.Ed. Music, and B.Ed. Physical and Health Education programs must register in February for the first Field Experience (Summer session).
- Who are registered for a Field Experience will receive instructions for accessing the online Student Teaching Placement Form at their official @mail.mcgill.ca email address. Forms must be submitted by the date indicated in the email.
- Who have acquired **formal** teaching experience prior to admission to the Bachelor of Education program may be granted exemption for the first Field Experience. Written requests must be made to the Director of the OST by August 31 of the year of admission. Requirements for supporting documentation can be found on the OST website.

Returning Students:

- Must register for Field Experience 3 on Minerva by mid-April in the preceding academic year (see section 1 “Important Dates 2009-10” for deadline). Field Experience 3 begins in late August before the start of lectures. (See Minerva or OST website for details.)
- Must register for Field Experience 4 on Minerva by the beginning of November (see section 1 “Important Dates 2009-10” for deadline).
- Who are registered for a Field Experience will receive instructions for accessing the online Student Teaching Placement

Form at their official @mail.mcgill.ca email address. Forms must be submitted by the date indicated in the email.

- Must be in satisfactory standing and have satisfied all prerequisite and co-requisite course requirements (refer to www.mcgill.ca/edu-sao/returning).
- In the B.Ed. K/Elem, B.Ed. Secondary or B.Ed. TESL who wish to transfer from one program to the other will not be required to repeat 1st year Field Experience.

Field Experience Protocols
Students are responsible for familiarizing themselves with the guidelines governing their pedagogical and professional behaviour while on Field Experience (refer to the OST website).

Students should not engage in any type of employment, nor register for any course that might interfere with the successful outcome of a Field Experience.

Field Experience Courses
Punctual attendance is required at the assigned school for the entire Field Experience. Absences are only excused in exceptional circumstances and must be reported immediately to both the Office of Student Teaching and the cooperating teacher in the school to which they are assigned. Students will be required to make up for any absences.

Field Experience Evaluation
Students are responsible for familiarizing themselves with the objectives, evaluation criteria and forms for each level of Field Experience. Detailed information is included on the OST website, www.mcgill.ca/ost. Students must submit all completed evaluation forms immediately following their Field Experience in order to receive a grade.

Where a student is experiencing serious difficulties in a Field Experience but has demonstrated some potential to successfully reach the required standard, the student will be granted a "D" grade. In this case, the Director of the OST has the authority to grant special permission for a student to repeat a Field Experience during the next regularly scheduled session of the Field Experience. This special permission will be granted once only in a student's program.

Students must receive a Pass grade in order to proceed in the B.Ed. program. Failure (F, J, KF, WF) in any Field Experience places a student in "Unsatisfactory Standing", requiring withdrawal from the Teacher Education Program. Students who fail in a Fall term Field Experience may be allowed to continue taking courses in the program to enable transfer to another faculty.

A student may appeal a failing grade or termination of a Field Experience by making a formal application to the Associate Dean (Teaching, Learning, and Students).

Withdrawal from Field Experience

- Withdrawal (with refund) for any reason must be done at least two (2) weeks before the start date of the Field Experience. The student is responsible for notifying the OST in writing by this deadline.
- Students having to withdraw for any reason from a field experience that begins in less than two (2) weeks or that is underway must immediately inform the OST. Based on the circumstances of the withdrawal, the Director of the OST will determine the final outcome of the Field Experience and the SAO will determine eligibility for refund.

8.4.1 Code of Professional Conduct

CODE OF ETHICS FOR STUDENT TEACHERS

A. Preamble - A Student-centred Perspective

Mandate
A joint subcommittee consisting of members from two standing committees of the Faculty of Education (Faculty of Education Ethical Review Board and Student Standing) was created to develop a Code of Ethics for Student Teachers and to examine the ways in which this Code will be communicated to students, faculty members and educational partners.

Goals and Rationale
The interests of the two Standing Committees of the Faculty of Education in promoting appropriate ethical and professional conduct have led us to develop the following Code of Ethics for Student Teachers. This code seeks to respond to and address the following needs:

- The Code addresses the interdependent duties, rights and responsibilities of student teachers, faculty members and educational partners.
- By addressing common issues and needs, the Code seeks to articulate and make explicit ethical principles that transcend disciplinary boundaries. These principles reflect the fundamental values that are expressed in the duties, rights and responsibilities of all involved in Teacher Education.
- The Code requires a reasonable flexibility in the implementation of common principles. It is designed to help those involved in Teacher Education, as a matter of sound ethical reasoning, to understand and respect the contexts in which they work and accommodate the needs of others.
- The Code seeks to encourage continued reflection and thoughtful response to ethical issues. It does not seek definitive answers to all ethical questions or situations. Rather, it seeks to outline the guiding principles to ethical conduct and to identify major issues which are essential to the development and implementation of this Code.

Context of an Ethics Framework for Student Teachers
The principles and norms guiding ethical conduct are developed within an ever-evolving complex societal context, elements of which include the need for reflective action and ethical principles.

Education is premised on a fundamental moral commitment to advance and construct knowledge and to ensure human understanding and respect for individual and collective well-being and integrity.

The moral imperative of respect translates into the following ethical principles that assume a student-centred perspective as articulated in the Quebec Curriculum Reform and Competencies outlined for Teacher Education.

B. Academic Freedom and Responsibilities
Teachers enjoy, and should continue to enjoy, important freedoms and privileges. However, with freedoms come responsibilities and ethical challenges. This Code of Ethics is in keeping with the philosophy and spirit of the New Directions that are embedded in the document "Teacher Training: Orientations, Professional Competencies" (MEQ 2001) and the reflective practice literature.

The role of the teacher and the contexts of teaching have changed. Thus, new resources (knowledge, skills, attitudes) are required to practice the profession and meet the challenges of teaching and learning in whatever contexts student teachers may find themselves and to engage in professional development individually and with others.

C. Ethics and Law
"Teaching is governed by a legal and regulatory framework" (MEQ 2001, p. 120). The law affects and regulates the standards and norms of teaching behaviours in a variety of ways such as respecting privacy, confidentiality, intellectual property, competence. Human rights legislation prohibits discrimination and recognizes equal treatment as fundamental to human dignity and well being. Teachers should respect the spirit of the Canadian Charter of Rights and Freedoms, particularly the sections dealing with life, liberty and the security of the person, as well as those involving equality and discrimination and the Education Act that sets out the obligations and rights of teachers.

D. Guiding Ethical Principles
Ethical student teachers should respect the following guiding ethical principles:

1. Respect for Human Dignity

- Speaks and acts towards all students with respect and dignity; and deals judiciously with them at all times, always mindful of their individual rights and personal sensibilities.
- Respects the dignity and responsibilities of cooperating teachers, peers, principals, parents and other professionals or paraprofessionals within the school, school board and community.

2. Respect for Vulnerable Persons

- Respects and recognizes ethical obligations towards vulnerable persons. This principle recognizes that students are in a vulnerable position and that student teachers are in a privileged relationship with students and their families and will always refrain from exploiting that relationship in any form or manner.

3. Respect for Confidentiality and Privacy

- Respects the confidential nature of all information related to students and their families and will share such information in an appropriate manner only with those directly concerned with their welfare.
- Respects the confidential nature of all information related to all school personnel and will share such information in an appropriate manner.

4. Respect for Justice

- Respects and recognizes the right of individuals to be treated with fairness and equity and the importance of avoiding conflicts of interest.

5. Respect for Safety of Students

- Respects the right of individuals to expect that student teachers will engage in practices that aim to ensure the physical, psychological and emotional safety of students.

6. Respect for Existing Ethical Codes and Professional Standards

- Respects the authority, roles and responsibilities of the cooperating teacher and agrees to adhere to the responsibilities and obligations for teachers as outlined in the Education Act, Faculty and University handbooks as well as all local agreements by host school boards and schools.

7. Balancing Harm and Benefits

- Acknowledges that any potentially harmful practices (e.g., science labs and physical education activities) must be balanced with anticipated benefits and conducted in a prudent, informed manner.

E. Putting Principles into Practice: Venues for Communication

More than one principle may apply to a given case or situation. For meaningful and effective implementation of these principles, they must be widely communicated and applied in appropriate contexts.

8.5 Department of Educational and Counselling Psychology

Faculty of Education
3700 McTavish Street, Room 614
Montreal, QC H3A 1Y2

Chair — Susanne P. Lajoie; B.A., M.A.(McG.), Ph.D.(Stan.) (*James McGill Professor*)

Emeritus Professors
Janet G. Donald; B.A., M.A.(W. Ont.), Ph.D.(Tor.)
Eigil Pedersen; B.A.(Sir G. Wms.), M.A.(McG.), Ed.D.(Harv.)
Howard A. Stutt; B.A.(Qu.), B.Ed., M.Ed.(Montr.), F.C.C.T.

Professors
Mark W. Aulls; B.S.(Ball St.), M.Ed.(Ind.), Ed.D.(Georgia)
Robert J. Bracewell; B.Sc., M.A.(McM.), Ph.D.(Tor.)
Jacob A. Burack; B.A.(Col.), M.S., M.Phil., Ph.D.(Yale)
Glenn F. Cartwright; B.A.(Sir G. Wms.), M.A.(McG.), Ph.D.(Alta.), F.A.A.S.P., F.C.C.T.
Kim Cornish; B.Sc.(Lanc.), Ph.D.(Lond.) (*Canada Research Chair, Tier 1*)
Jeffrey L. Derevensky; B.A.(C. W. Post), M.A., Ph.D.(McG.)
Nancy L. Heath; B.A.(McG.), M.Ed.(Ott.), Ph.D.(Tor.) (*William Dawson Scholar*)
Carl H. Frederiksen; B.A.(Harv.), M.A., Ph.D.(Ill.)
Susanne P. Lajoie; B.A., M.A.(McG.), Ph.D.(Stan.) (*James McGill Professor*)
Alenoush Saroyan; B.A.(Pahlavi), M.Ed.(Loyola-Ill.), Ph.D.(McG.)
Bruce M. Shore; B.Sc., M.A.(McG.), Ph.D.(Calg.)
Cynthia B. Weston; B.A.(G'town), M.L.S.(SUNY), D.Ed.(Wash.) (*joint appt. with Teaching and Learning Services*)

Associate Professors
Alain Breuleux; B.Sc., M.Sc., Ph.D.(Montr.)
Martin Drapeau; B.A.(Montr.), B.A.Ps.(UQTR), M.Ps.(Laval), Ph.D.(Montr.)
Marilyn Fitzpatrick; B.A.(Tor.), M.Ed., Ph.D.(McG.)
Michael L. Hoover; B.S.(Tulane), M.A., M.Phil., Ph.D.(Col.)
Evelyn Lusthaus; B.S., M.S., Ph.D.(SUNY Buffalo) (*on leave*)
Robert Savage; B.A.(Oxf.), M.Sc.(Camb.), M.Sc., Ph.D.(Lond.)
Ada L. Sinacore; B.A.(Montclair St.), M.A., M.Ed., Ph.D.(Col.)
Ingrid E. Sladeczek; B.A., M.S., Ph.D.(Ariz.), A.A.(Md.)
Ronald Stringer; B.Sc., M.A., Ph.D.(Tor.)

Assistant Professors
Tara Flanagan; B.A., M.A., Ph.D.(McG.)
Panayiota Kendeou; B.A., M.A., Ph.D.(U. Minn.)
Annett Körner; M.A., Ph.D.(Leipzig)
Krista Muis; B.A., M.A., Ph.D.(S. Fraser)
Jeeseon Park; B.A., M.A.(Yonsei), Ph.D.(Penn.)
Steven R. Shaw; B.S., M.Ed., Ed.S., Ph.D.(Flor.)
Nathan Smith; M.Sc., Ph.D.(VCU)
Victoria Talwar; M.A. Hons(St. Andr.), M.A., Ph.D.(Qu.)

Faculty Lecturer
Jack de Stefano; B.A.(Loy.Coll.Montr.), M.Ed., Ed.D.(McG.)

Associate Professor (Non-Tenure Track)
Renée Stevens; B.A.(Calif.-LA), M.A., Ph.D.(McG.) (*part-time*)

Adjunct Professors
Dermot Bowler, Bertha Dawang, Marcia Delcourt, Judith Gradinger, Anne Jordan, Calvin Kalman, Katherine Moxness, Judith Norton, Shana Ross, David Shore, Anastassios Stalikas, Harold Wynne

Associate Members
Reut Gruber, Daniel Levitin, Mary H. Maguire

Part-time Instructors
Gus Appignanesi, Maureen Baron, Antonio Bernardelli, Elana Bloom, Sam Bruzzese, Scott Conrod, Dominic D'Abate, Tamara Dawkins, Casey Finn-Lefsrud, Lisa French, Karen Gazith-Cohen, David Hoida, Marian Jazvac, Nancy Miodrag, Judith Norton, Monica Oala, Lisa Reisinger, Caroline Zanni-Dansereau

Educational Psychology encompasses a) the theoretical and applied study of learning, cognition, and instruction in a variety of educational settings across ages and domains; b) instructional technology and computers as cognitive tools in learning; c) cognitive and social processes in learning; d) evaluation and enhancement of learning and teaching; e) methods for fostering inclusive education; f) relationships of these or related phenomena to issues in human development, especially for children and adolescents; and g) the impact of family and community on children's learning and development.

At the undergraduate level, the Department of Educational and Counselling Psychology is responsible for the B.A., see section 6.12.16 "Educational Psychology Minor Concentration", under the Faculty of Arts, and for a variety of undergraduate courses in the areas of learning, cognition and development, inclusive education, gifted education, educational media and computers, and educational measurement and evaluation.

In professional development, the Department offers diploma or certificate programs in Human Relations and Family Life

Education, Inclusive Education, and First Nations and Inuit Student Personnel Services. For more information please consult our website, www.mcgill.ca/edu-ecp/undergraduate, or contact the Undergraduate Program Coordinator in Educational and Counselling Psychology:

Dean Thomson
Undergraduate Program Coordinator
Telephone: 514-398-4248
Email: dean.thomson@mcgill.ca

At the graduate level, the Department offers a Graduate Certificate in Counselling Applied to Teaching. In addition, there are graduate programs leading to Ph.D., M.A. in instructional psychology, applied cognitive psychology, special populations of learners, counselling psychology (thesis and non-thesis), school/applied child psychology, and health professions as well as M.Ed. without thesis in inclusive education, general educational psychology, and learning sciences. For further information, consult the most current *Graduate and Postdoctoral Studies Calendar*.

Special services offered by the Department include the McGill-EMSB Gifted Summer School (Explorations), and the Psychoeducational and Counselling Clinic, Neuroscience Lab for Research and Education in Developmental Disorders and the International Centre for Youth Gambling and High Risk Behaviour.

8.6 Department of Integrated Studies in Education

Faculty of Education

The Department of Integrated Studies in Education, created in September 2001, incorporates the programs and staff previously associated with the Departments of Culture and Values in Education, Educational Studies, Second Language Education and First Nations and Inuit Education.

The Department offers four-year programs for CEGEP graduates and five-year programs for out-of-province students leading to a B.Ed. degree. For B.Ed. program overviews, see www.mcgill.ca/edu-integrated/undergraduate/new.

The following programs are offered:

Bachelor of Education: Secondary Program (120 credits)
The aim of the B.Ed. Secondary is to prepare strong beginning teachers for the secondary school level. This integrated 120-credit program (150 credits for out-of-province students) consists of academic studies to provide background depth in subjects taught in the secondary school, professional studies centred on school-based practicum, supported by studies in pedagogy, curriculum and educational foundations. Students choose their teaching profiles from: English, Mathematics, Science and Technology, Social Sciences (History and Citizenship, and one of Geography or Ethics and Religious Culture).

Concurrent Bachelor of Education in Music/Bachelor of Music (Music Education) program (143/144 credits)
This program provides students with the opportunity to obtain a Bachelor of Music degree and a Bachelor of Education degree concurrently. The two degrees are awarded during the same convocation period.

Concurrent Bachelor of Science/Bachelor of Education (Secondary) (135 credits)
This program provides students with the opportunity to attain a Bachelor of Science degree and a Bachelor of Education degree concurrently. The two degrees are awarded during the same convocation period.

Bachelor of Education (Kindergarten and Elementary) (120 credits)
This program leads to certification to teach children between the ages of 5 and 11 years. It consists of four years of full-time study requiring the completion of 120 credits (150 credits or five years for out-of-province students) of academic and professional courses.

Options within the B.Ed. (Kindergarten and Elementary) program are:

- First Nations and Inuit Studies
- Jewish Studies (126 credits)
- Programme intensif de français **(under revision for 2009-10)**

Baccalauréat en enseignement du français langue seconde (120 credits) (B.Ed. TFSL)
This four-year program prepares specialist teachers to teach French as a second language, in Core French programs, immersion programs, intensive programs and *classes d'accueil*, at both the elementary and the secondary levels. Offered by the Department of Integrated Studies in Education jointly with the Université de Montréal (www.mcgill.ca/edu-integrated/undergraduate/new/tfsl).

Bachelor of Education in Teaching English as a Second Language (120 credits)
This program prepares specialist teachers to teach English as a second language at both the elementary level (including regular and intensive ESL) and the secondary level (including regular ESL and ESLA – English Second Language Arts). This integrated 120-credit program (150 credits for out-of province students) consists of academic and professional components. The academic components provide students with opportunities to develop a broad liberal education and to study language and language learning from linguistic, social, cultural and psychological perspectives. The professional components revolve around school-based Field Experiences which are supported by studies in pedagogy and educational foundations.

GRADUATE PROGRAMS

At the Graduate level, the Department offers M.A. programs with thesis and non-thesis options in the following areas: Culture and Values in Education, Educational Studies (Curriculum), Educational Studies (Leadership), and Second Language Education.

IN-SERVICE PROGRAMS

The Department of Integrated Studies in Education offers a number of in-service programs, such as a 90-credit Bachelor of Education (Vocational) program offered through the Centre for Continuing Education for practising vocational teachers possessing a provisional teaching authorization in a vocational area. (This program will not accept students in 2009-10.)

The Department also offers certificates in Leadership and Teaching English as a Second Language, see www.mcgill.ca/edu-integrated/graduate.

First Nations and Inuit Education offers a Certificate in Education for First Nations and Inuit, a Certificate in Aboriginal Literacy Education, a Certificate in Middle School Education in Aboriginal Communities, a Certificate in First Nations and Inuit Educational Leadership, a Certificate in Aboriginal Education for Certified Teachers, and a Bachelor of Education for Certified Teachers.

The Department is also involved in a variety of in-service activities with administrators, teachers, consultants and other educational leaders through the Centre for Educational Leadership (CEL).

8.6.1 Bachelor of Education Programs

8.6.1.1 Bachelor of Education Secondary Program (120 credits)

Students who have not completed Quebec CEGEP or other university level courses are admitted in Year 0 (U0), the Freshman Year. Please see www.mcgill.ca/edu-integrated/undergraduate/new/secondary. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

Required Courses (45 credits)

EDEC 201	(1)	First Year Professional Seminar
EDEC 215	(0)	English Language Requirement
EDEC 247	(3)	Policy Issues in Quebec Education
EDEC 254	(1)	Second Professional Seminar (Secondary)
EDEC 351	(2)	Third Professional Seminar (Secondary)
EDEC 404	(3)	Fourth Year Professional Seminar (Sec)
EDES 350	(3)	Classroom Practices (Secondary)
EDPE 300	(3)	Educational Psychology
EDPE 304	(3)	Measurement and Evaluation
EDPI 309	(3)	Exceptional Students
EDPI 341	(3)	Instruction in Inclusive Schools
EDFE 200	(2)	First Field Experience (K/Elem & Secondary)
EDFE 254	(3)	Second Field Experience (Secondary)
EDFE 351	(8)	Third Field Experience (Secondary)

EDFE 451 (7) Fourth Field Experience (Secondary)

Complementary Course (15 credits)

One 3-credit course in Multicultural Education from the following:

EDEC 233 (3) First Nations and Inuit Education
EDEC 248 (3) Multicultural Education

one of:

EDEC 260 (3) Philosophical Foundations
EDEC 261 (3) Philosophy of Catholic Education

One 3-credit course in Media, Technology, Computers and Education from the following:

EDEC 262 (3) Media, Technology and Education
EDPE 310 (3) Educational Computer Applications
EDPT 200 (3) Integrating Educational Technology in Classrooms
EDPT 204 (3) Educational Media 1

For students with a background in computers or other media applications in education, the following courses may be substituted for the above:

EDPT 341 (3) Instructional Programming 1
EDPT 420 (3) Media Literacy for Education

Two 3-credit methods courses, associated with the respective MELS subject profile, from the following list:

EDER 372 (3) Ethics and Religious Culture (Secondary)
EDES 334 (3) Teaching Secondary Social Studies 1
EDES 335 (3) Teaching Secondary Science 1
EDES 353 (3) Teaching Secondary Mathematics 1
EDES 361 (3) Teaching Secondary English 1
EDES 434 (3) Teaching Secondary Social Studies 2
EDES 435 (3) Teaching Secondary Science 2
EDES 453 (3) Teaching Secondary Mathematics 2
EDES 461 (3) Teaching Secondary English 2

54 credits chosen according to MELS subject area profiles. Courses must be selected in consultation with academic advisors and/or posted academic advising materials.

For students in B.Ed. Secondary, English Profile:

Two 3-credit courses from the following list:

EDEC 203 (3) Communication in Education
EDSL 305 (3) L2 Learning: Classroom Settings
EDSL 350 (3) Essentials of English Grammar
ENGL 340 (3) History of the English Language
LING 200 (3) Introduction to the Study of Language
LING 201 (3) Introduction to Linguistics
LING 355 (3) Language Acquisition 1

48 credits in designated English profile courses
or 30 credits in designated English profile courses
and 18 credits in another designated "teachable" subject area (MELS profile) chosen in consultation with academic advisors and/or posted academic advising materials. In this case, students must also take an additional associated 3-credit methods course selected from the complementary list. This will count as 3 credits of elective.

For students in B.Ed. Secondary, Mathematics Profile:

54 credits in designated Mathematics profile courses
or 36 credits in designated Mathematics profile courses
and 18 credits in another designated "teachable" subject area (MELS profile).

For students in B.Ed. Secondary, Social Sciences (History & Citizenship, and Geography or Ethics & Religious Studies) Profile:

6 credits chosen from:

HIST 202 (3) Survey: Canada to 1867
HIST 203 (3) Survey: Canada since 1867

3 credits chosen from:

HIST 303 (3) History of Quebec
HIST 353 (3) History of Montreal

27 credits in designated History courses
18 credits in designated Geography courses
OR
18 credits in designated Ethics and Religious courses

For students in B.Ed. Secondary, Science and Technology Profile

36 credits in designated Physics, Biology or Chemistry courses
18 credits chosen from one of the other science areas not selected above

Elective Courses (6 credits)

8.6.1.2 Concurrent Bachelor of Science (Major or Major Concentration with a Minor for Teachers) and Bachelor of Education Secondary Program

Coordinator, Faculty of Education — Professor Gale Seiler

Coordinator, Faculty of Science — Professor Richard Harris

This program has been designed to provide students with the opportunity to attain a Bachelor of Science degree and a Bachelor of Education degree after **135 credits of study (165 credits for students who have not completed the basic sciences, see Note below)**.

To be admitted to the Concurrent program, students must satisfy the regular admission requirements of the Faculties of Science and Education. Normally, students will be admitted to both components of the Concurrent program simultaneously, however, it is possible for students in a B.Sc. or B.Ed. program to transfer into the Concurrent program at any time. Students in the Concurrent program may change to either a B.Sc. or a B.Ed., but may not subsequently switch back to the Concurrent program.

The two degrees are awarded during the same convocation period.

Note: Science students are normally admitted to a four-year program requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, Advanced Placement tests, or the Diploma of Collegial Studies (DCS). Quebec students with a DCS in Science are granted 30 credits advanced standing and will have normally completed the equivalent of, and are therefore exempt from, the basic science courses in biology, chemistry, mathematics and statistics, and physics. Students with satisfactory results in International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests may be exempt from some or all of the basic science courses.

Students in the Concurrent B.Sc. and B.Ed. who receive an F or J in any Field Experience course are placed in unsatisfactory standing. Although they may complete their term, they are required to withdraw from the Concurrent program. However, they may apply to transfer to the conventional B.Sc. program as outlined in Faculty of Science, "Science or Mathematics for Teachers", see section 14.13.34.

The two components of the Concurrent program are the B.Ed. Secondary program and one of the B.Sc. programs described in the Faculty of Science, "Science or Mathematics for Teachers", see section 14.13.34:

- biology, with chemistry
- biology, with physics
- chemistry, with biology
- chemistry, with physics
- physics, with biology
- physics, with chemistry
- mathematics

The requirements for the B.Ed. component are as described in the "Bachelor of Education Secondary Program (120 credits)", see section 8.6.1.1 with the following exceptions:

A. Students in the Concurrent B.Sc. and B.Ed. program must choose their 54 academic credits from the lists of required and complementary courses in their respective B.Sc. Major or Major Concentration with a Minor.

B. Students in the Concurrent B.Sc. and B.Ed. program must take EDEC 262 Media, Technology and Education.

8.6.1.3 Concurrent Bachelor of Education in Music and Bachelor of Music (Music Education) Program (144 credits)

The Bachelor of Education in Music is an integrated four-year 121-credit program of initial teacher training that leads to certification as a teacher in the Province of Quebec. When offered concurrently with the Bachelor of Music (Major in Music Education), the program offers students the opportunity to obtain a Bachelor of Education degree and a Bachelor of Music degree after the completion of 144 credits, normally five years (174 credits or six years for out-of-province students). The concurrent program combines academic studies in music, professional studies and field experience. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program. The two degrees are awarded during the same convocation period.

Applicants to the music specialist teacher education program should apply to the Concurrent Bachelor of Education in Music/ Bachelor of Music (Music Education) program. Students who have partially completed a Bachelor of Music program are eligible to apply for advanced standing in the Concurrent program.

Application to the Concurrent B.Ed. and B.Mus. program may be made online at www.mcgill.ca/applying. Information is available on that site or may be obtained from:

Admissions Office
McGill University
Schulich School of Music
555 Sherbrooke Street West
Montreal, QC H3A 1E3
Telephone: 514-398-4546

Those who have completed a Bachelor of Music degree may apply for advanced standing in the Bachelor of Education in Music program. Application to the Bachelor of Education in Music may be made online at www.mcgill.ca/applying. Information is available on that site or may be obtained from:

Enrolment Services
McGill University
845 Sherbrooke Street West
Montreal, QC H3A 2T5
Telephone: 514-398-3910
Fax: 514-398-4193

Program details are available from:

Professor Caroline Riches, Program Director
Telephone: 514-398-5793

Department of Integrated Studies in Education
Telephone: 514-398-4527

The components of the 144-credit Concurrent Bachelor of Education in Music and Bachelor of Music (Music Education) are as follows:

54 professional credits,
78 music credits,
12 elective credits.

Students who wish to complete only the Bachelor of Education in Music have the option of doing so after the successful completion of the first two years of the concurrent program and MUIN 321 concentration exam or equivalent. Students who decide to complete only a Bachelor of Music may transfer at any time into the Bachelor of Music, Faculty Program.

Students who opt for the Bachelor of Education in Music would be required to complete 61 music credits, 6 elective credits, and 53/54 professional credits from the program given below, with the following notes:

1. These credits are required for the Bachelor of Music only.
2. These credits are required for the Bachelor of Music, complementary for the Bachelor of Education in Music.

For prerequisite requirements for the Concurrent Bachelor of Education in Music and Bachelor of Music (Music Education) Program, see section 12.6.5 "B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program" of the Schulich School of Music chapter in this Calendar.

Required Courses (114 credits)

EDEA 206	(1)	1st Year Professional Seminar
EDEA 407	(3)	Final Year Professional Seminar Music
EDEA 442	(3)	Elementary Music Curriculum and Instruction
EDEA 472	(3)	Secondary Music Curriculum and Instruction
EDEC 215	(0)	English Language Requirement
EDEC 233	(3)	First Nations and Inuit Education
or EDEC 248	(3)	Multicultural Education
EDEC 247	(3)	Policy Issues in Quebec Education
EDEE 355	(3)	Classroom-based Evaluation
or EDPE 304	(3)	Measurement and Evaluation
EDES 350	(3)	Classroom Practices (Secondary)
EDFE 205	(2)	First Field Experience (Music)
EDFE 208	(3)	Second Field Experience (Music)
EDFE 308	(8)	Third Field Experience (Music)
EDFE 407	(7)	Fourth Field Experience (Music)
EDPE 300	(3)	Educational Psychology
EDPI 309	(3)	Exceptional Students
MUCT 235	(3)	Vocal Techniques
MUGT 215	(1)	Basic Conducting Techniques
MUGT 354	(3)	Music for Children
MUGT 358	(3)	General Music for Adults and Teenagers (see Note 1 above)
MUGT 401	(3)	Issues in Music Education (see Note 2 above)
MUIT 202	(3)	Woodwind Techniques
MUIT 203	(3)	Brass Techniques
MUIT 204	(3)	Percussion Techniques
MUIT 356	(3)	Jazz Instruction: Philosophy and Techniques (see Note 2 above)
MUSP 229	(2)	Musicianship 3
MUSP 231	(2)	Musicianship 4
MUSP 329	(2)	Musicianship 5
MUSP 331	(2)	Musicianship 6
MUTH 210	(3)	Tonal Theory and Analysis 1
MUTH 211	(3)	Tonal Theory and Analysis 2
MUTH 310	(3)	Mid and Late 19th-Century Theory and Analysis
MUTH 311	(3)	20th-Century Theory and Analysis
MUTH 461	(2)	Choral and Keyboard Arranging 1 (see Note 1 above)

3 credits from:

EDEC 262	(3)	Media, Technology and Education
EDPT 200	(3)	Integrating Educational Technology in Classrooms
EDPT 204	(3)	Educational Media 1
EDPT 341	(3)	Instructional Programming 1
MUGT 301	(3)	Technology and Media for Music Education

Students are also required to take the following two 8-credit courses: Basic Ensemble Training, Practical Concentration.

Complementary Course (18 credits)

EDEA 362	(3)	Movement, Music and Communication

or any course with a prefix of MUIT or MUGT

EDEC 260	(3)	Philosophical Foundations
or EDEC 261	(3)	Philosophy of Catholic Education
MUCT 315	(3)	Choral Conducting 1
or MUIT 315	(3)	Instrumental Conducting
MUIT 201	(3)	String Techniques
or MUIT 250	(3)	Guitar Techniques

3 credits chosen from Music History (MUHL) offerings at the 300 level (see Note 1 above)

3 credits of Music History/Literature chosen from (see Note 1 above):

MUHL 389	(3)	Orchestral Literature
MUHL 397	(3)	Choral Literature after 1750

MUHL 398 (3) Wind Ensemble Literature after 1750

Elective Courses (12 credits)

8.6.1.4 Bachelor of Education Kindergarten and Elementary Program (120 credits)

Students who have not completed Quebec CEGEP or other university level courses are admitted into Year 0 (U0), the Freshman Year. Please see www.mcgill.ca/edu-integrated/undergraduate/new/k-elem for course selections.

The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

Required Courses (72 credits)

EDEC 201 (1) First Year Professional Seminar
EDEC 203 (3) Communication in Education
EDEC 215 (0) English Language Requirement
EDEC 247 (3) Policy Issues in Quebec Education
EDEC 253 (1) Second Professional Seminar (Kindergarten/Elementary)
EDEC 405 (3) Fourth Year Professional Seminar (K/Elem)
EDEE 223 (3) Language Arts
EDEE 230 (3) Elementary School Mathematics
EDEE 250 (2) The Kindergarten Classroom
EDEE 270 (3) Elementary School Science
EDEE 275 (2) Science Teaching
EDEE 280 (3) Geography, History and Citizenship Education
EDEE 282 (2) Teaching Social Sciences
EDEE 325 (3) Children's Literature
EDEE 332 (3) Teaching Mathematics 1
EDEE 353 (3) Teaching and Learning in the Elementary Classroom
EDEE 355 (3) Classroom-based Evaluation
EDFE 200 (2) First Field Experience (K/Elem & Secondary)
EDFE 256 (3) Second Field Experience (Kindergarten/Elementary)
EDFE 306 (8) Third Field Experience (Kindergarten/Elementary)
EDFE 406 (7) Fourth Field Experience (K/Elem)
EDER 360 (2) Ethics and Religious Culture (K/Elementary)
EDPE 300 (3) Educational Psychology
EDPI 309 (3) Exceptional Students
EDPI 341 (3) Instruction in Inclusive Schools

Complementary Course (42 credits)

One of:
EDEC 233 (3) First Nations and Inuit Education
EDEC 248 (3) Multicultural Education

One of:
EDEC 260 (3) Philosophical Foundations
EDEC 261 (3) Philosophy of Catholic Education

One of:
EDEC 262 (3) Media, Technology and Education
EDPT 341* (3) Instructional Programming 1
EDPT 420* (3) Media Literacy for Education

* courses for students with a background in computers or other media applications in education

One of:
EDER 309 (3) The Religious Quest
EDER 395 (3) Moral Values and Human Action
EDER 473 (3) Living with Insight
EDER 494 (3) Ethics in Practice
RELG 207 (3) The Study of World Religions 1

15 credits in "teachable" subject areas of the elementary school curriculum: English, Mathematics, Natural Sciences, Social Sciences, Art, Music, Physical Education, Ethics and Religious Culture, French. Courses are to be selected in consultation with an academic adviser.

9 credits, 3 credits from each of any three subject areas not chosen above.

One 3-credit methods course from:
EDEA 332 (3) Art Curriculum and Instruction - Elementary
EDEA 342 (3) Curriculum and Instruction in Drama Education
EDEA 345 (3) Music Curriculum and Instruction for Generalists

One 3-credit methods course from the list above or below:
EDKP 332 (3) Physical Education Curriculum and Instruction
EDSL 330* (3) L2 Literacy Development
EDSL 447* (3) Third-Year Methods in TESL

* EDSL 330 and EDSL 447 have as a prerequisite EDSL 350 Essentials of English Grammar

Elective Courses (6 credits)

8.6.1.5 Bachelor of Education Kindergarten and Elementary Program (First Nations and Inuit Studies Option)

(Not offered in the 2009-10 academic year.)

Required Courses (108 credits)

EDEA 242 (3) Cultural Skills 1
EDEA 243 (3) Cultural Skills 2
EDEC 201 (1) First Year Professional Seminar
EDEC 203 (3) Communication in Education
EDEC 215 (0) English Language Requirement
EDEC 216 (0) Aboriginal Language Requirement
EDEC 247 (3) Policy Issues in Quebec Education
EDEC 253 (1) Second Professional Seminar (Kindergarten/Elementary)
EDEC 260 (3) Philosophical Foundations
EDEC 405 (3) Fourth Year Professional Seminar (K/Elem)
EDEE 223 (3) Language Arts
EDEE 230 (3) Elementary School Mathematics
EDEE 250 (2) The Kindergarten Classroom
EDEE 270 (3) Elementary School Science
EDEE 275 (2) Science Teaching
EDEE 280 (3) Geography, History and Citizenship Education
EDEE 282 (2) Teaching Social Sciences
EDEE 291 (3) Cultural Values and Socialization
EDEE 325 (3) Children's Literature
EDEE 332 (3) Teaching Mathematics 1
EDEE 342 (3) Intermediate Inuktitut/Amerindian Language
EDEE 344 (3) Advanced Inuktitut/Amerindian Language
EDEE 353 (3) Teaching and Learning in the Elementary Classroom
EDEE 355 (3) Classroom-based Evaluation
EDER 360 (2) Ethics and Religious Culture (K/Elementary)
EDFE 200 (2) First Field Experience (K/Elem & Secondary)
EDFE 256 (3) Second Field Experience (Kindergarten/Elementary)
EDFE 306 (8) Third Field Experience (Kindergarten/Elementary)
EDFE 406 (7) Fourth Field Experience (K/Elem)
EDKP 241 (3) Aboriginal Physical Activities
EDKP 292 (3) Nutrition and Wellness
EDPE 300 (3) Educational Psychology
EDPI 309 (3) Exceptional Students
EDPI 341 (3) Instruction in Inclusive Schools
EDSL 247 (3) Second Language Education in Aboriginal Communities
EDSL 305 (3) L2 Learning: Classroom Settings
EDSL 447 (3) Third-Year Methods in TESL
RELG 207 (3) The Study of World Religions 1

Complementary Course (12 credits)
6 credits from the following, according to language group and fluency (each course is 3 credits):

EDEC 241	(3)	Cree Language 1
EDEC 242	(3)	Cree Language 2
EDEE 296	(3)	Mohawk Second Language 1
EDEC 236	(3)	Mohawk Second Language 2
EDEE 297	(3)	Mohawk Language 1
EDEE 298	(3)	Mohawk Language 2
EDEE 293	(3)	Algonquin Second Language 1
EDEC 234	(3)	Algonquin Second Language 2
EDEE 294	(3)	Algonquin Language 1
EDEE 295	(3)	Algonquin Language 2
EDEE 249	(3)	Inuktitut Orthography and Grammar
EDEC 403	(3)	The Dialects of Inuktitut
EDEC 237	(3)	Mi'kmaq Second Language 1
EDEC 238	(3)	Mi'kmaq Second Language 2
EDEC 239	(3)	Mi'kmaq Language 1
EDEC 240	(3)	Mi'kmaq Language 2

One of the following 3-credit courses:

EDEC 262	(3)	Media, Technology and Education
EDPT 341	(3)	Instructional Programming 1
EDPT 420	(3)	Media Literacy for Education

One of the following 3-credit courses:

EDEC 233	(3)	First Nations and Inuit Education
EDEC 248	(3)	Multicultural Education
EDPC 208	(3)	Native Families' Dynamics

8.6.1.6 Programme intensif de français Elementary Option

This option is currently under revision. Admission is suspended for 2009-10.

8.6.1.7 Bachelor of Education Kindergarten and Elementary Program (Jewish Studies Option)

The Bachelor of Education in Kindergarten and Elementary Education (Jewish Studies Option) leads to certification to teach Jewish and general studies to students between the ages of 5 and 11 years. The program consists of four years of full-time study requiring the completion of 126 credits (156 credits or 5 years for out-of-province students), academic and professional courses and practica. Students may apply directly into the B.Ed.Kindergarten/Elementary (Jewish Studies Option). This Option allows qualified candidates an opportunity to select specific academic and pedagogical Jewish Studies courses in place of selected education electives and academic courses. Additionally, students will have an opportunity to have one of their major field placements in a Jewish school environment.

Students are encouraged to acquire a strong general background in Bible, Jewish prayer, Jewish holidays and Jewish history prior to registering in the program. Students lacking the ability to teach in Hebrew should consider spending a semester at an Israeli university.

Students who wish to follow this option must contact:

Professor Eric Caplan
Department of Integrated Studies in Education
Faculty of Education
Telephone: 514-398-6544
Email: eric.caplan@mcgill.ca

8.6.1.8 Baccalauréat en enseignement du français langue seconde (120 credits)

This program is offered jointly by the Université de Montréal and McGill University. Students will be admitted into, and registered at, one of the two as their “home” university. Courses will be offered at the Université de Montréal during the Fall term and at McGill during the Winter term. Students should refer to section 8.3.3 “Additional Requirements for Students admitted to B.Ed. TFSL program”.

The Baccalauréat en enseignement du français langue seconde (B.Ed. in Teaching French as a Second Language) is a four-year integrated 120-credit program (150 credits for out-of-province students). It prepares specialist teachers to teach French as a second language in Core French programs, immersion programs, intensive programs and *classes d’accueil*, at both the elementary and the secondary levels.

The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

Required Courses (80 credits)

EDFE 261	(3)	Stage d'assistanat - 2e année (Field Exp.)
EDFM 260	(1)	Stage de familiarisation (Field Exp.)
EDPI 309	(3)	Exceptional Students
EDSL 260	(1)	Séminaire professionnel - 2e (Prof. Sem.)
EDSL 301	(3)	Étude de la langue
EDSL 444	(3)	Laboratoire d'enseignement en français langue seconde
EDUM 245	(3)	Français écrit pour futurs enseignants
EDUM 262	(3)	Système éducatif - profession enseignante
EDUM 263	(3)	Apprentissage et développement
EDUM 264	(3)	Phonétique et phonologie
EDUM 265	(3)	Acquisition-apprentissage-langues secondes
EDUM 266	(3)	Mathématiques au primaire
EDUM 267	(3)	Didactique des arts plastiques 1
EDUM 268	(3)	Intégration des TIC
EDUM 269	(3)	École et environnement social
EDUM 270	(3)	Morphologie et syntaxe
EDUM 271	(3)	Lexique et sémantique
EDUM 341	(3)	Littératie et Littérature Jeunesse en FLS
EDUM 392	(3)	Gestion de classe en langues secondes
EDUM 393	(3)	Adolescent et expérience scolaire
EDUM 402	(3)	Évaluation en français langue seconde
EDUM 491	(3)	Didactique des mathématiques en langues secondes
EDUM 492	(3)	Didactique des sciences-technologies
FREN 251	(3)	Littérature française depuis 1800
FREN 252	(3)	Littérature québécoise

9 credits to increase the student’s proficiency level in the teaching of French, the following courses (or equivalent courses if not available):

FREN 239	(3)	Stylistique comparée
FREN 245	(3)	Grammaire avancée
FREN 334	(3)	Méthodes d'analyse des textes littéraires 1

Complementary Course (40 credits)
One of:

EDEC 260	(3)	Philosophical Foundations
EDEC 261	(3)	Philosophy of Catholic Education

One of the following sets:

EDFE 362	(7)	Stage d'enseignement en français langue seconde
EDSL 320	(1)	Séminaire 3 professionnel

or:

EDFM 361	(7)	Stage d'enseignement 1
EDUM 394	(1)	Séminaire de stage-3e

and
One of the following sets:

EDFE 461	(9)	Stage d'enseignement - immersion
EDSL 420	(2)	Séminaire 4 professionnel

or

EDFM 460	(9)	Stage d'enseignement 2
EDUM 499	(2)	Séminaire de stage-4e

One of:

EDSL 345	(3)	Enseignement du FLS-immersion
EDUM 498	(3)	Didactique du français en accueil 2

One of:

EDSL 472	(3)	Enseignement du français langue seconde-secondaire

EDUM 391 (3) Didactique du français en accueil 1
One of:
EDUM 493 (3) Sciences humaines au primaire (Academic Component)
EDUM 494 (3) Didactique de l'univers social et TIC (Academic Component)
EDUM 495 (3) Recherche-résolution de problèmes (Professional Component: Pedagogical Support)
EDUM 496 (3) Laboratoire de formation professionnelle (Professional Component: Pedagogical Support)
EDUM 497 (3) Problématique en éducation préscolaire (Professional Component: Foundation)

3 credits, one of:
EDEC 248 (3) Multicultural Education
LING 350 (3) Linguistic Aspects of Bilingualism

6 credits of study of a second or third language, to be chosen from University offerings, so that students experience the learning processes that take place in the learning of a language.

8.6.1.9 Bachelor of Education in Teaching English as a Second Language (121 credits)

The B.Ed. in Teaching English as a Second Language (TESL) program prepares specialists to teach English as a second language (ESL) at both the elementary school and secondary school levels.

Students who have not completed Quebec CEGEP or other university level courses are admitted into Year 0 (U0), the Freshman Year. Please see www.mcgill.ca/edu-integrated/undergraduate/new/tesl.

This integrated 121-credit program (151 credits for out-of-province students) includes studies in language and language learning from linguistic, literary, social, cultural, and psychological perspectives, accompanied by field experiences. It prepares students to teach ESL at both the elementary school level (including regular and intensive ESL) and the secondary school level (including regular ESL and ESLA - English Second Language Arts), and provide a base for adult and other ESL teaching. The department is committed to supporting students in the development and creation of their individual professional portfolios throughout their program.

Required Courses (73 credits)
EDEC 203 (3) Communication in Education
EDEC 215 (0) English Language Requirement
EDEC 247 (3) Policy Issues in Quebec Education
EDFE 209 (2) First Field Experience (TESL)
EDFE 255 (3) Second Field Experience (TESL)
EDFE 359 (8) Third Field Experience (TESL)
EDFE 459 (7) Fourth Field Experience (TESL)
EDPE 300 (3) Educational Psychology
EDPI 309 (3) Exceptional Students
EDSL 210 (1) First Professional Seminar
EDSL 215 (3) Effective Communication in French
EDSL 255D1 (1) Second Professional Seminar
EDSL 255D2 (1) Second Professional Seminar
EDSL 300 (3) Foundations of L2 Education
EDSL 304 (3) Sociolinguistics and L2 Education
EDSL 305 (3) L2 Learning: Classroom Settings
EDSL 311 (3) Pedagogical Grammar
EDSL 315 (2) Third Year Professional Seminar
EDSL 330 (3) L2 Literacy Development
EDSL 334 (3) Teaching Oral Skills in ESL
EDSL 350 (3) Essentials of English Grammar
EDSL 412 (3) Assessment in TESL
EDSL 415 (3) Fourth Professional Seminar
EDSL 447 (3) Third-Year Methods in TESL
EDSL 458 (3) Fourth-Year Methods in TESL

Complementary Course (42 credits)
3 credits, one of the following courses:
EDEC 233 (3) First Nations and Inuit Education
EDEC 248 (3) Multicultural Education
3 credits, one of the following courses:
EDEC 260 (3) Philosophical Foundations
EDEC 261 (3) Philosophy of Catholic Education
3 credits, one of the following courses:
EDEC 262 (3) Media, Technology and Education
EDPT 200 (3) Integrating Educational Technology in Classrooms
EDPT 204 (3) Educational Media 1
EDPT 341 (3) Instructional Programming 1
EDPT 420 (3) Media Literacy for Education
3 credits, one of the following courses:
EDEE 325 (3) Children's Literature
EDES 366 (3) Literature for Young Adults
3 credits, one of the following courses:
EDPE 208 (3) Personality and Social Development
EDPE 377 (3) Adolescence and Education
EDPI 526 (3) Talented and Gifted Students
EDPI 527 (3) Creativity and its Cultivation
EDPI 543 (3) Family, School and Community
EDSL 390 (3) Teaching English as a Second Language in the Community
3 credits, one of the following courses:
EDPI 341 (3) Instruction in Inclusive Schools
EDPI 440 (3) Managing the Inclusive Classroom
3 credits, one of the following courses
LING 200 (3) Introduction to the Study of Language
LING 201 (3) Introduction to Linguistics
3 credits, one of the following courses:
LING 350 (3) Linguistic Aspects of Bilingualism
PSYC 341 (3) The Psychology of Bilingualism
6 - 9 credits from courses with the prefix ENGL (Department of English)
9 - 12 credits must be taken from the following areas:
Foreign Languages (0-9 credits)
Academic courses (3-12 credits)

Elective Courses (6 credits)

8.6.2 Programs for First Nations and Inuit

The following programs are offered in First Nations and Inuit communities for First Nations and Inuit students through the:

Faculty of Education
First Nations and Inuit Education (FNIE)
3700 McTavish Street, Room 244
Montreal, QC H3A 1Y2
Telephone: 514-398-4533
Fax: 514-398-2553
Website: www.mcgill.ca/edu-integrated

For details about the First Nations and Inuit Studies option within the Bachelor of Education Kindergarten and Elementary program, see section 8.6.1.5 "Bachelor of Education Kindergarten and Elementary Program (First Nations and Inuit Studies Option)".

8.6.2.1 Certificate in Education for First Nations and Inuit

This 60-credit program provides an opportunity for Algonquin, Cree, Inuit, Mi'kmaq and Mohawk people to become qualified as teachers. It is offered on a part-time basis in Indigenous communities throughout Quebec in collaboration with, for example, the Cree School Board, the Kativik School Board, and various Mi'kmaq, Mohawk and Algonquin education authorities.

Quebec graduates of this program are eligible to teach at the elementary level in First Nations and Inuit schools.

Admission to the Certificate in Education for First Nations and Inuit

An applicant will normally be employed as a teacher or as a classroom assistant, have a valid teaching authorization from the appropriate teaching authority or a community education committee, be recommended by the school principal and an officer of the education authority, be recommended by a local community

education committee, and be at least 21 years of age. Younger applicants will be considered for admission if they hold a Grade 12 High School Diploma or a Diploma of Collegial Studies. The right of final decision for acceptance of candidates rests with McGill.

Those intending to complete the programs offered in cooperation with the Kativik School Board must be fluent and literate in Inuktitut/Inuinnaqtun. Fluency in Algonquin, Cree, Mi'kmaq or Mohawk is not a condition for acceptance for applicants from these communities, but is considered an asset. Courses are available in all four of these languages for those teaching in immersion classes and other teaching situations where a knowledge of the first language is essential.

Time Limit

The time limit for completion of the 60-credit Certificate in Education for First Nations and Inuit is 12 years. The University reserves the right to request that a student retake a course or courses after a 5-year period if it is felt that too long a break has occurred in the ongoing nature of the training.

PROGRAM PROFILE – CERTIFICATE IN EDUCATION FOR FIRST NATIONS AND INUIT (60 credits)

On completion of the Certificate requirements, trainees may apply for admission to the B.Ed. for Certified Teachers program with up to 30 credits advanced standing. Certain non-credit academic upgrading courses may be required of B.Ed. applicants.

Required Courses (30 credits)

EDEC 203 (3) Communication in Education
EDEC 260 (3) Philosophical Foundations
EDEE 353 (3) Teaching and Learning in the Elementary Classroom
EDEM 202 (3) Native Family Dynamics & Supporting Institutions
EDPE 300 (3) Educational Psychology
EDPI 341 (3) Instruction in Inclusive Schools

Practicum

Students specializing in Physical Education will do a minimum of 6 credits in Physical Education settings

EDFE 214 (3) Aboriginal Education Practicum 1
EDFE 325 (3) Aboriginal Education Practicum 2
EDFE 326 (3) Aboriginal Education Practicum 3
EDFE 425 (3) Aboriginal Education Practicum 4

Complementary Courses for All Students Except Those Specializing in Physical Education (30 credits)

6 credits from the following according to language group and fluency:

EDEE 294 (3) Algonquin Language 1
EDEE 295 (3) Algonquin Language 2
EDEE 293 (3) Algonquin Second Language 1
EDEC 234 (3) Algonquin Second Language 2
EDEC 241 (3) Cree Language 1
EDEC 242 (3) Cree Language 2
EDEE 342 (3) Intermediate Inuktitut/Amerindian Language
EDEE 249 (3) Inuktitut Orthography and Grammar
EDEC 239 (3) Mi'kmaq Language 1
EDEC 240 (3) Mi'kmaq Language 2
EDEC 237 (3) Mi'kmaq Second Language 1
EDEC 238 (3) Mi'kmaq Second Language 2
EDEE 297 (3) Mohawk Language 1
EDEE 298 (3) Mohawk Language 2
EDEE 296 (3) Mohawk Second Language 1
EDEC 236 (3) Mohawk Second Language 2

6 credits from the following:

EDEA 242 (3) Cultural Skills 1
EDEE 223 (3) Language Arts

18 credits from the following (at least 12 credits should be in different subject areas with priority given to List A):

List A

EDEE 230 (3) Elementary School Mathematics
EDEE 241 (3) Teaching Language Arts
EDEE 250 (2) The Kindergarten Classroom
EDEE 270 (3) Elementary School Science
EDEE 275 (2) Science Teaching
EDEE 282 (2) Teaching Social Sciences
EDEE 291 (3) Cultural Values and Socialization
EDEE 332 (3) Teaching Mathematics 1
EDEE 355 (3) Classroom-based Evaluation
EDEC 262 (3) Media, Technology and Education

List B

EDEA 241 (3) Basic Art Media for Classroom
EDEC 200 (3) Introduction to Inuit Studies
EDEC 220 (3) Curriculum Development
EDEC 243 (3) Teaching: Multigrade Classrooms
EDEC 244 (3) Issues in Aboriginal Education
EDEC 403 (3) The Dialects of Inuktitut
EDEE 240 (3) Use and Adaptation of Curricula
EDEE 243 (3) Reading Methods in Inuktitut/Cree
EDEE 247 (6) Individualized Instruction
EDEE 248 (3) Reading and Writing Inuktitut/Cree
EDEE 261 (3) Reading Clinic - Early Childhood
EDEE 292 (3) Using Instructional Resources
EDEE 340 (3) Special Topics: Cultural Issues
EDEE 342 (3) Intermediate Inuktitut/Amerindian Language
EDEE 344 (3) Advanced Inuktitut/Amerindian Language
EDEE 345 (3) Literature and Creative Writing 1
EDEE 346 (3) Literature and Creative Writing 2
EDEE 444 (3) First Nations and Inuit Curriculum
EDKP 204 (3) Health Education
EDKP 224 (3) Foundations of Movement Education
EDKP 342 (3) Physical Education Methods
EDKP 494 (3) Physical Education Curriculum Development
EDPE 377 (3) Adolescence and Education
EDSL 247 (3) Second Language Education in Aboriginal Communities

Complementary Courses For Students Specializing in Physical Education (30 credits)

6 credits from the following, according to language group and fluency:

EDEE 294 (3) Algonquin Language 1
EDEE 295 (3) Algonquin Language 2
EDEE 293 (3) Algonquin Second Language 1
EDEC 234 (3) Algonquin Second Language 2
EDEC 241 (3) Cree Language 1
EDEC 242 (3) Cree Language 2
EDEE 342 (3) Intermediate Inuktitut/Amerindian Language
EDEE 249 (3) Inuktitut Orthography and Grammar
EDEC 239 (3) Mi'kmaq Language 1
EDEC 240 (3) Mi'kmaq Language 2
EDEC 237 (3) Mi'kmaq Second Language 1
EDEC 238 (3) Mi'kmaq Second Language 2
EDEE 297 (3) Mohawk Language 1
EDEE 298 (3) Mohawk Language 2
EDEE 296 (3) Mohawk Second Language 1
EDEC 236 (3) Mohawk Second Language 2

9 credits from the following:

EDKP 241 (3) Aboriginal Physical Activities
EDKP 342 (3) Physical Education Methods
EDKP 493 (3) Administration

6 credits from the following:

EDKP 214 (1) Basketball 1
EDKP 216 (1) Gymnastics 1
EDKP 217 (2) Track & Field / Cross Country
EDKP 218 (1) Volleyball 1
EDKP 223 (2) Games: Principles and Practice
EDKP 226 (1) Badminton
EDKP 229 (1) Ice Hockey 1
EDKP 240 (1) Winter Activities

9 credits from the following (should be in different subject areas with priority given to List A):

List A

EDEE 230	(3)	Elementary School Mathematics
EDEE 241	(3)	Teaching Language Arts
EDEE 250	(2)	The Kindergarten Classroom
EDEE 270	(3)	Elementary School Science
EDEE 275	(2)	Science Teaching
EDEE 282	(2)	Teaching Social Sciences
EDEE 291	(3)	Cultural Values and Socialization
EDEE 332	(3)	Teaching Mathematics 1
EDEE 355	(3)	Classroom-based Evaluation
EDEC 262	(3)	Media, Technology and Education

List B

EDEA 241	(3)	Basic Art Media for Classroom
EDEC 200	(3)	Introduction to Inuit Studies
EDEC 220	(3)	Curriculum Development
EDEC 243	(3)	Teaching: Multigrade Classrooms
EDEC 244	(3)	Issues in Aboriginal Education
EDEC 403	(3)	The Dialects of Inuktitut
EDEE 240	(3)	Use and Adaptation of Curricula
EDEE 243	(3)	Reading Methods in Inuktitut/Cree
EDEE 247	(6)	Individualized Instruction
EDEE 248	(3)	Reading and Writing Inuktitut/Cree
EDEE 261	(3)	Reading Clinic - Early Childhood
EDEE 292	(3)	Using Instructional Resources
EDEE 340	(3)	Special Topics: Cultural Issues
EDEE 342	(3)	Intermediate Inuktitut/Amerindian Language
EDEE 344	(3)	Advanced Inuktitut/Amerindian Language
EDEE 345	(3)	Literature and Creative Writing 1
EDEE 346	(3)	Literature and Creative Writing 2
EDEE 444	(3)	First Nations and Inuit Curriculum
EDKP 204	(3)	Health Education
EDKP 224	(3)	Foundations of Movement Education
EDKP 342	(3)	Physical Education Methods
EDKP 494	(3)	Physical Education Curriculum Development
EDPE 377	(3)	Adolescence and Education
EDSL 247	(3)	Second Language Education in Aboriginal Communities

8.6.2.2 Certificate in Aboriginal Literacy Education

This 30-credit program is designed for Algonquin, Cree, Inuit, Mi'kmaq and Kanienkehaka (Mohawk) students who wish to gain a deeper understanding of their Indigenous language, especially in its written form. It is aimed mainly at those who will be teaching their Indigenous language.

Admission to the Program in Aboriginal Literacy Education

Students admitted to this program will be recommended by their communities (as is presently the case with the Certificate in Education for First Nations and Inuit). If the program is used for professional development, students will be Indigenous teachers employed in local schools. As with the Certificate in Education for First Nations and Inuit, they must be mature students, or hold a Secondary V diploma or equivalent. The right of final decision for acceptance of candidates rests with McGill.

This certificate may be taken concurrently and completed within the B.Ed. for Certified Teachers if the required B.Ed. profile is fulfilled. See section 8.6.2.5 "Bachelor of Education for Certified Teachers (Elementary Education)".

PROGRAM PROFILE – CERTIFICATE IN ABORIGINAL LITERACY EDUCATION (30 credits)

Required Courses (6 credits)

EDEE 342	(3)	Intermediate Inuktitut/Amerindian Language
EDEE 344	(3)	Advanced Inuktitut/Amerindian Language

Complementary Courses (18 credits)

A beginning course (3 credits) in the Indigenous language as a first language (e.g., EDEC 241 Cree Language 1).

A second-level course (3 credits) in the same language (e.g. EDEC 242 Cree Language 2).

Four courses (12 credits) to be chosen from the following list:

EDEA 242	(3)	Cultural Skills 1
EDEC 220	(3)	Curriculum Development
EDEC 403	(3)	The Dialects of Inuktitut
EDEE 223	(3)	Language Arts
EDEE 224	(3)	Language Arts Part 2
EDEE 240	(3)	Use and Adaptation of Curricula
EDEE 243	(3)	Reading Methods in Inuktitut/Cree
EDEE 247	(6)	Individualized Instruction
EDEE 248	(3)	Reading and Writing Inuktitut/Cree
EDEE 345	(3)	Literature and Creative Writing 1
EDEE 346	(3)	Literature and Creative Writing 2
EDES 365	(3)	Experiences in Communications
EDPE 304	(3)	Measurement and Evaluation

Elective Courses (6 credits)

Two suitable 3-credit courses approved by the Director of First Nations and Inuit Education.

8.6.2.3 Certificate in Middle School Education in Aboriginal Communities

This 30-credit program focuses on developing the particular skills and abilities required of the Indigenous teacher in the middle school of his/her community. It does not lead to provincial certification. Rather, it prepares Indigenous teachers who are bilingual or have some knowledge of their Indigenous language and who have already established themselves as teachers to teach students at this level in ways that are developmentally and culturally appropriate. The program focuses on the particular psychological, emotional and social needs of Aboriginal adolescents and the teacher's role in facilitating the transition between elementary and high school.

Admission to the Certificate in Middle School Education in Aboriginal Communities

Applicants will normally have completed or be completing their B.Ed. for Certified Teachers. It is strongly recommended that they have some competence in their Indigenous language as indicated by the successful completion of at least two language courses. For those applying with degrees from other universities, additional courses may be required to match the McGill B.Ed. for Certified Teachers profile. As the program and courses will be delivered in the partnership communities, applicants must be recommended by their school boards or teaching authorities. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – CERTIFICATE IN MIDDLE SCHOOL EDUCATION IN ABORIGINAL COMMUNITIES (30 credits)

Required Courses (27 credits)

EDEC 245	(3)	Middle School Teaching
EDEC 246	(3)	Middle School Curriculum
EDEC 302	(3)	Language and Learning - Curriculum (for teachers of first language students)
or EDSL 305	(3)	L2 Learning: Classroom Settings (for teachers of second language students)
EDFE 210	(3)	Middle School Practicum
EDPE 377	(3)	Adolescence and Education

Two 3-credit courses in the major subject area of the B.Ed. for Certified Teachers.

Two 3-credit courses in the minor subject area of the B.Ed. for Certified Teachers.

Elective Course (3 credits)

One chosen from:

EDEA 241	(3)	Basic Art Media for Classroom
EDEC 220	(3)	Curriculum Development
EDEC 243	(3)	Teaching: Multigrade Classrooms

EDEE 291 (3) Cultural Values and Socialization
EDEE 444 (3) First Nations and Inuit Curriculum
EDKP 241 (3) Aboriginal Physical Activities
EDPT 200 (3) Integrating Educational Technology in Classrooms
EDSL 247 (3) Second Language Education in Aboriginal Communities
EDSL 305 (3) L2 Learning: Classroom Settings
or other courses which may be approved by the Director of First Nations and Inuit Education.

This certificate may be taken concurrently and completed within the "Bachelor of Education for Certified Teachers (Elementary Education)", see section 8.6.2.5, if the required B.Ed. profile is fulfilled.

8.6.2.4 Certificate in First Nations and Inuit Educational Leadership

This 30-credit program is designed for First Nations and Inuit organizations to develop their role as leaders within the educational community. The program will focus on developing the core competencies of educational leaders, e.g., decision making and problem solving; fostering a self-reflective leader able to partner with parents to create community outreach; cultivating awareness of the holistic learning and developmental cycles of a child and the role of the educational leader in enhancing that development; maintaining the continuity of community and cultural values and aspirations within the structure of the administration of the school and other educational milieu; and understanding and supporting the pedagogical objectives and the administrative framework of the educational system.

Admission to the Certificate in First Nations and Inuit Educational Leadership

Students admitted to this program will be recommended by their communities. They must be mature students (21 years of age), or hold a Secondary V diploma or equivalent. Students must speak, read, and write fluently the language of instruction as agreed upon between the unit and the client School Board or Education Centre. For Nunavik applicants, students must have experience in a Nunavik educational or community organization. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – CERTIFICATE IN FIRST NATIONS AND INUIT EDUCATIONAL LEADERSHIP (30 credits)

Required Courses (15 credits)
EDEC 221 (3) Leadership and Group Skills
EDEC 222 (3) Personnel Management and Support
EDEC 233 (3) First Nations and Inuit Education
EDEC 311 (3) Resource Management
EDEC 312 (3) Practicum in Educational Leadership

Complementary Courses (15 credits)

Five of the following:
EDEC 220 (3) Curriculum Development
EDEC 244 (3) Issues in Aboriginal Education
EDEE 240 (3) Use and Adaptation of Curricula
EDEE 245 (3) Orientation to Education
EDEE 340 (3) Special Topics: Cultural Issues
EDEM 202 (3) Native Family Dynamics & Supporting Institutions
EDES 365 (3) Experiences in Communications
EDPI 341 (6) Instruction in Inclusive Schools
or any other course approved by the Director of First Nations and Inuit Education.

This certificate may be taken concurrently and completed within the "Bachelor of Education for Certified Teachers (Elementary Education)", see section 8.6.2.5, if the required B.Ed. profile is fulfilled.

It may also be followed concurrently with the "Certificate in Education for First Nations and Inuit", see section 8.6.2.1.

8.6.2.5 Bachelor of Education for Certified Teachers (Elementary Education)

The 90-credit program is designed for teachers who are already certified to teach in elementary schools and who wish to earn a B.Ed. degree. Normally, a minimum of 60 credits must be taken in the program, and no more than 30 credits may be transferred from other institutions. Credits may be transferred from programs leading to the Certificates in Educational Technology, Second Language Teaching, Inclusive Education, or Aboriginal Literacy Education taken concurrently. Credit may also be transferred from the Certificate in Education for First Nations and Inuit, which is normally completed before the B.Ed.

Students completing the Bachelor of Education for Certified Teachers following the Certificate in Education for First Nations and Inuit will have accumulated a total of 120 credits, 60 for the Certificate and a further 60 for the B.Ed.

This program does not lead to further certification.

Admission Requirements for the B.Ed. for Certified Teachers

Applicants apply on the basis of having completed the Certificate in Education for First Nations and Inuit or equivalent and must have the continued support of their education authority to attend the field-based program. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – B.ED. FOR CERTIFIED TEACHERS (90 credits)

Candidates enrolled in the program complete coursework within the following general pattern:

CREDITS

COMPLEMENTARY COURSES

Academic Concentration **30**
In five (5) subject areas relevant to elementary education in a 12-9-3-3-3 pattern (i.e., 12 credits in one subject, 9 credits in a second subject, and 3 credits in each of three other subject areas), or 30 academic credits in three subject areas in a 15-9-6 pattern.

Note: Subject areas relevant to elementary education, in broad terms, are the Arts (Art, Music and Drama), English, French, Science, Mathematics, Physical Education, Moral and Religious Education, Social Studies, Educational Technology, or an Aboriginal language.

Cultural Development **15**
Chosen from courses which will enhance the candidate's cultural development, these are to be chosen in consultation with the Director of First Nations and Inuit Education.

ELECTIVE COURSES **15**
Courses selected by the candidate after consultation with the Director of the First Nations and Inuit Education.

EDUCATION CONCENTRATION **30**
Normally the Education concentration is completed within the Certificate in Education for First Nations and Inuit.

TOTAL CREDITS **90**

The Certificate in Aboriginal Literacy Education, the Certificate in Middle School Education in Aboriginal Communities, or the Certificate in First Nations and Inuit Educational Leadership may be taken concurrently and completed within the B.Ed. for Certified Teachers if the required B.Ed. profile is fulfilled.

8.6.2.6 Certificate in Aboriginal Education for Certified Teachers

This 30-credit program provides training to assist mainstream teachers in becoming more effective teachers in First Nations and Inuit communities. It is designed to address subjects of particular interest and need in First Nations and Inuit schools, such as cultural socialization, cooperative learning, second language teaching, and curriculum development.

Admission to the Certificate in Aboriginal Education for Certified Teachers

Applicants must provide the following:

- a Diploma of Collegial Studies (DEC) or its equivalent;
- evidence of having completed teacher training at an approved institution;
- a letter of recommendation from a competent authority.

All courses (except EDEC 233) are normally given off-campus and are normally limited to students enrolled in off-campus programs delivered through First Nations and Inuit Education. The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – CERTIFICATE IN ABORIGINAL EDUCATION FOR CERTIFIED TEACHERS (30 credits)

Required Courses (18 credits)

EDEC 220	(3)	Curriculum Development
EDEC 233	(3)	First Nations and Inuit Education
EDEE 240	(3)	Use and Adaptation of Curricula
EDEE 291	(3)	Cultural Values and Socialization
EDEE 444	(3)	First Nations and Inuit Curriculum
EDSL 247	(3)	Second Language Education in Aboriginal Communities

Complementary Courses (12 credits)

One introductory language course (3 credits) in the language of the community, e.g., EDEE 341 Inuktitut for Beginners.
9 credits selected from:

EDEA 242	(3)	Cultural Skills 1
EDEC 200	(3)	Introduction to Inuit Studies
EDEE 247	(6)	Individualized Instruction
EDEE 290	(3)	Cooperative Learning
EDEM 202	(3)	Native Family Dynamics & Supporting Institutions

or any other suitable course approved by the Director of First Nations and Inuit Education.

8.6.2.7 Certificate in First Nations and Inuit Student Personnel Services

This program is offered by the Department of Educational and Counselling Psychology through First Nations and Inuit Education.

This program is designed to provide Aboriginal school personnel advisers with a training program which will enable them to learn about the principles and practice of personnel services as generally applied in educational settings, to help Aboriginal student personnel advisers develop their personal skills, and to modify or adapt their services and the content to best suit the cultural and educational needs of Aboriginal students; to encourage Aboriginal student personnel advisers to take leadership in developing educational programs which address the social needs of their communities, to upgrade their academic qualifications and professional development; and to develop and make available, in English and the languages of instruction, collections of professional and scholarly knowledge about students' needs, and services in First Nations and Inuit communities.

Bearers of this Certificate will be qualified to work as Educational and School Personnel Advisers within the employ of an Aboriginal educational authority.

Admission Requirements

1. Speak, read, and write fluently the language of instruction as agreed upon between the Department and the contracting school board.
2. Hold a student adviser position in an Aboriginal community. This may be a new appointment concurrent with registration in the program. The position must be sufficient to meet the practicum requirements of the program.
3. Be recommended by the local education authority.
4. Be at least 21 years of age (except for special permission). By this means students will qualify for admission as Mature Students under McGill regulations, and thereby not be required to have a Diploma of Collegial Studies (DEC).
5. Be recommended and selected by the school administration in collaboration with McGill personnel.

The right of final decision for acceptance of candidates rests with McGill.

PROGRAM PROFILE – CERTIFICATE IN FIRST NATIONS AND INUIT STUDENT PERSONNEL SERVICES (30 credits)

Required Courses (21 credits)

EDPC 201	(3)	Introduction to Student Advising
EDPC 202	(3)	Helping Skills Practicum 1
EDPC 203	(3)	Helping Skills Practicum 2
EDPC 205	(3)	Career/Occupational Development
EDPC 208	(3)	Native Families' Dynamics
EDPC 209	(3)	Basic Crisis Intervention Skills
EDPC 210	(3)	Field Experience

Complementary Courses (9 credits)

9 credits from the following:

EDEM 202	(3)	Native Family Dynamics & Supporting Institutions
EDKP 204	(3)	Health Education
EDPC 206	(3)	Group Leadership Skills
EDPC 207	(3)	Aboriginal Adolescent Development
EDPC 211	(3)	Special Topics in Student Personnel Services
EDPI 211	(3)	Social and Emotional Development

or any other suitable course approved by the Program Coordinator.

Registration in EDEM 202, EDKP 204 or any other courses offered by departments other than Educational and Counselling Psychology, or in other programs of this Department is dependent on availability (e.g., through a concurrently offered program) or through an arrangement made with that department or program. The Program Coordinator will attempt to make these contacts whenever required.

Enrique Garcia; BPE, INEF(Madrid), M.Sc.(Laval), Ph.D.(Alta.)
William Harvey; B.Ed., M.A., Ph.D.(McG.)
Dilson Rassier; BPE, M.Sc.(Brazil), Ph.D.(Calg.)

Catherine M. Sabiston; B.Sc.K.(Dal.), M.H.K.(Windsor), Ph.D.(Br. Col.)
Paul James Stapley; B.A.(Leeds Poly.), M.Sc.(Northumbria), Ph.D.(Université de Bourgogne)
Tanja Taivassalo; B.Sc., Ph.D.(McG.)

Adjunct Professors
Bernard Aguilaniu; M.D., Ph.D.(Grenoble)
Robert Boushel; B.A.(P.E.)(Acadia), M.A.(S. Florida), D.Sc.(Boston)

Associate Members
Isabelle Cossette; D.Mus.(Montr.), M.Mus.(McG.)
Christian Duval; B.Sc.(UQTR), M.Sc.(UQAM), Ph.D.(McG.)
Robert Thomas Jagoe; B.A.(Camb.), M.B. B.Chir., MRCP(UK), CCST(Resp. and General (Internal) Med.), Ph.D.(Newcastle (UK)), FRCP

The Department of Kinesiology and Physical Education offers one program leading to a B.Ed. degree, one program leading to a B.Sc. degree and a Minor in "Kinesiology for Science Students", see section 14.13.19.

The Department also offers programs at the graduate level leading to an M.A. and M.Sc., and possibilities for doctoral studies. For further information, see the most current *Graduate and Post-doctoral Studies Calendar.*

8.7.1 Bachelor of Education Programs

8.7.1.1 Bachelor of Education Physical and Health Education

This four-year, 120-credit (150 credits for out-of-province students) specialist program prepares students to teach physical and health education at the elementary and secondary levels. This program interweaves academic studies, professional coursework, and teaching practices in mutually beneficial ways throughout the four years.

Graduation Requirement
All students in Physical Education programs are required, before graduation, to show proof of certification in Standard Level Safety Oriented First Aid, and Level C in Cardiopulmonary Resuscitation, or equivalencies.

PROGRAM PROFILE – B.ED. PHYSICAL AND HEALTH EDUCATION (120 credits)

Required Courses (94 credits)

EDEC 215	(0)	English Language Requirement
EDEC 247	(3)	Policy Issues in Quebec Education
EDEC 260	(3)	Philosophical Foundations
EDFE 246	(3)	First Field Experience (Physical Education)
EDFE 373	(3)	Second Field Experience (Physical Education)
EDFE 380	(7)	Third Field Experience (Physical Education)
EDFE 480	(7)	Fourth Field Experience (Physical Education)
EDKP 204	(3)	Health Education
EDKP 208	(3)	Applied Biomechanics
EDKP 213	(1)	Aquatics 1
EDKP 214	(1)	Basketball 1
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 217	(2)	Track and Field/Cross Country
EDKP 218	(1)	Volleyball 1
EDKP 223	(2)	Basic Games
EDKP 233	(1)	Soccer
EDKP 252	(2)	Racquet Sports
EDKP 253	(2)	Gymnastics
EDKP 254	(2)	Principles of Dance
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 293	(3)	Anatomy and Physiology
EDKP 307	(3)	Evaluation in Physical Education
EDKP 330	(3)	Physical Activity and Health
EDKP 391	(3)	Physiology in Sport and Exercise
EDKP 394	(3)	Historical Perspectives
EDKP 396	(3)	Adapted Physical Activity
EDKP 443	(3)	Research Methods
EDKP 448	(3)	Exercise and Health Psychology
EDKP 498	(3)	Sport Psychology
EDPE 208	(3)	Personality and Social Development
EDPE 300	(3)	Educational Psychology

Complementary Course (11 credits)

5 physical activity credits offered by the Department of Kinesiology and Physical Education

3 credits in Multicultural Education from the following:

EDEC 233	(3)	First Nations and Inuit Education
EDEC 248	(3)	Multicultural Education

3 credits in Media, Technology, Computers and Education from the following:

EDEC 262	(3)	Media, Technology and Education
EDPT 200	(3)	Media, Technology and Education
EDPT 204	(3)	Integrating Educational Technology in Classrooms

For students with a background in computers or other media applications in education, the following courses may be substituted for the above:

EDPT 341	(3)	Instructional Programming 1
EDPT 420	(3)	Media Literacy for Education

Elective Courses (15 credits)

15 credits chosen from any of the University's offerings to contribute to the student's academic proficiency and professional preparation.

8.7.2 Bachelor of Science (Kinesiology)

Received accreditation from CCUPEKA (Canadian Council of University Physical Education and Kinesiology Administrators) in April 2007.

The focus of the 90-credit (120 credits for out-of-province students) Bachelor of Science (Kinesiology) is a comprehensive understanding of human movement. Kinesiology is a multidisciplinary field viewing human movement from social, historical, psychological, or biological perspectives. The program provides students with a breadth of theoretical knowledge as well as an opportunity to explore related areas in greater depth, including Minor programs available elsewhere within the University.

Students may opt for either General or Applied emphasis, with an Honours program available for particularly strong students. Students must obtain a CGPA of 3.3 after two years in Kinesiology to qualify for the Honours Program, and must retain this CGPA until graduation.

Students admitted into the 120-credit B.Sc.(Kinesiology) must register in and successfully complete the Freshman Profile, which is designed to provide the basic science foundation for the subsequent three-year Major programs.

Students in the B.Sc.(Kinesiology) Major are encouraged to select a Minor program in a given discipline or interdisciplinary area. A maximum of 6 credits of overlap is allowed between the Minor and the primary program. Science Minors consist of up to 24 credits. Arts Minor Concentrations consist of 18 credits. A minimum of 18 new credits must be completed in the Minor or Minor Concentration. For a list of approved Minors and Minor Concentrations, please refer to the Faculty of Science, "Minor Programs", see section 14.11.7, and "Faculty of Arts Major and Minor Concentration Programs Available to Science Students", see section 14.11.11.

Graduation Requirement

Students are required, before graduation, to show proof of certification in Standard Level Safety Oriented First Aid, and Level C in Cardiopulmonary Resuscitation, or equivalencies.

B.SC.(KINESIOLOGY) – FRESHMAN PROFILE (29 - 30 credits)

Students admitted to the 120-credit B.Sc.(Kinesiology) complete the courses below in their first year of studies (U0).

Required Courses (29 - 30 credits)

BIOL 111	(3)	Principles: Organismal Biology
CHEM 110	(4)	General Chemistry 1
MATH 139	(4)	Calculus
or MATH 140	(3)	Calculus 1
or MATH 150	(4)	Calculus A
PHYS 101	(4)	Introductory Physics - Mechanics
or PHYS 131	(4)	Mechanics and Waves
BIOL 112	(3)	Cell and Molecular Biology
CHEM 120	(4)	General Chemistry 2
MATH 141	(4)	Calculus 2
or MATH 151	(4)	Calculus B
PHYS 102	(4)	Introductory Physics - Electromagnetism
or PHYS 142	(4)	Electromagnetism and Optics

B.SC.(KINESIOLOGY) – MAJOR IN APPLIED KINESIOLOGY (90 credits)
(not offered in 2009-2010 academic year.)

Required Courses (43 credits)

CHEM 212	(4)	Introductory Organic Chemistry 1
EDKP 206	(3)	Biomechanics of Human Movement
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 330	(3)	Physical Activity and Health
EDKP 394	(3)	Historical Perspectives
EDKP 395	(3)	Exercise Physiology
EDKP 396	(3)	Adapted Physical Activity
EDKP 443	(3)	Research Methods
EDKP 447	(3)	Motor Control
EDKP 485	(3)	Exercise Pathophysiology 1
EDKP 495	(3)	Scientific Principles of Training
EDKP 498	(3)	Sport Psychology
EDKP 405	(3)	Sport in Society

Complementary Courses (33 credits)

3 credits from the following:

ANAT 214	(3)	Systemic Human Anatomy
or ANAT 316	(2)	Human Visceral Anatomy
and EDKP 239	(1)	Medical Imaging of Anatomy

3 credits, one of the following courses:

ANAT 315	(4)	Anatomy/Limbs and Back
EDKP 205	(3)	Structural Anatomy

6 credits, one of the following course sets:

PHGY 201	(3)	Human Physiology: Control Systems
and PHGY 202	(3)	Human Physiology: Body Functions
or PHGY 209	(3)	Mammalian Physiology 1
and PHGY 210	(3)	Mammalian Physiology 2

3 credits, one of the following courses:

BIOL 373	(3)	Biometry
MATH 203	(3)	Principles of Statistics 1
MGCR 271	(3)	Business Statistics
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

18 credits chosen from the following courses:

EDKP 200	(1)	Weight Training
EDKP 201	(3)	Physical Activity Leadership
EDKP 249	(1)	Physical Activity Appraisal
EDKP 250	(3)	Practicum 1
EDKP 252	(2)	Racquet Sports
EDKP 254	(2)	Principles of Dance
EDKP 311	(3)	Athletic Injuries
EDKP 350	(3)	Physical Fitness Evaluation Methods
EDKP 450	(3)	Practicum 3
EDKP 451	(3)	Personal Trainer Practicum
EDKP 452	(3)	Fitness & Lifestyle Consulting
EDKP 553	(3)	Physical Activity Assessments

Elective Courses (14 credits)

Students are encouraged to obtain all, or part, of their remaining program credits by completing one of the Minor/Minor Concentrations (18 - 24 credits) available in the Faculties of Arts, Science, and Management.

B.SC.(KINESIOLOGY) – MAJOR IN GENERAL KINESIOLOGY (90 credits)

Required Courses (46 credits)

BIOL 200	(3)	Molecular Biology
CHEM 212	(4)	Introductory Organic Chemistry 1
EDKP 206	(3)	Biomechanics of Human Movement
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 330	(3)	Physical Activity and Health
EDKP 394	(3)	Historical Perspectives
EDKP 395	(3)	Exercise Physiology
EDKP 396	(3)	Adapted Physical Activity
EDKP 443	(3)	Research Methods
EDKP 447	(3)	Motor Control
EDKP 485	(3)	Exercise Pathophysiology 1
EDKP 495	(3)	Scientific Principles of Training
EDKP 498	(3)	Sport Psychology
EDKP 405	(3)	Sport in Society

Complementary Courses (24 credits)

3 credits from the following:

ANAT 214	(3)	Systemic Human Anatomy
or ANAT 316	(2)	Human Visceral Anatomy
and EDKP 239	(1)	Medical Imaging of Anatomy

3 credits, one of the following courses:

ANAT 315	(4)	Anatomy/Limbs and Back
EDKP 205	(3)	Structural Anatomy

6 credits, one of the following course sets:

PHGY 201	(3)	Human Physiology: Control Systems
and PHGY 202	(3)	Human Physiology: Body Functions
or PHGY 209	(3)	Mammalian Physiology 1
and PHGY 210	(3)	Mammalian Physiology 2

3 credits, one of the following courses:

BIOL 373	(3)	Biometry
MATH 203	(3)	Principles of Statistics 1
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

9 credits chosen from the following courses:

EDKP 200	(1)	Weight Training
EDKP 201	(3)	Physical Activity Leadership
EDKP 244	(1)	Dance and Fitness
EDKP 249	(1)	Physical Activity Appraisal
EDKP 250	(3)	Practicum 1
EDKP 311	(3)	Athletic Injuries
EDKP 350	(3)	Physical Fitness Evaluation Methods
EDKP 444	(3)	Ergonomics
EDKP 445	(3)	Exercise Metabolism
EDKP 446	(3)	Physical Activity and Ageing
EDKP 448	(3)	Exercise and Health Psychology
EDKP 449	(3)	Exercise Pathophysiology 2
EDKP 450	(3)	Practicum 3
EDKP 451	(3)	Personal Trainer Practicum
EDKP 452	(3)	Fitness & Lifestyle Consulting
EDKP 453	(3)	Research Practicum in Kinesiology
EDKP 542	(3)	Environmental Exercise Physiology
EDKP 553	(3)	Physical Activity Assessments
EDKP 566	(3)	Advanced Biomechanics Theory

NUTR 503 (3) Bioenergetics and the Lifespan

Elective Courses (20 credits)
Students are encouraged to obtain some of their remaining program credits by completing one of the Minor/Minor Concentrations (18 credits) available in the Faculties of Arts, Science, and Management.

B.SC.(KINESIOLOGY) – HONOURS IN KINESIOLOGY
(90 credits)
Students must obtain a CGPA of 3.3 after two years in Kinesiology to qualify for the Honours Program, and must retain this CGPA until graduation.

Required Courses (49 credits)

BIOL 200	(3)	Molecular Biology
CHEM 212	(4)	Introductory Organic Chemistry 1
EDKP 206	(3)	Biomechanics of Human Movement
EDKP 215	(0)	Standard First Aid/Cardio-Pulmonary Resuscitation Level C
EDKP 261	(3)	Motor Development
EDKP 292	(3)	Nutrition and Wellness
EDKP 330	(3)	Physical Activity and Health
EDKP 393	(3)	Skill Learning and Expertise
EDKP 394	(3)	Historical Perspectives
EDKP 395	(3)	Exercise Physiology
EDKP 396	(3)	Adapted Physical Activity
EDKP 443	(3)	Research Methods
EDKP 453	(3)	Research Practicum in Kinesiology
EDKP 485	(3)	Exercise Pathophysiology 1
EDKP 495	(3)	Scientific Principles of Training
EDKP 498	(3)	Sport Psychology
EDKP 405	(3)	Sport in Society

Complementary Courses (27 credits)

3 credits from the following:

ANAT 214	(3)	Systemic Human Anatomy
or ANAT 316	(2)	Human Visceral Anatomy
and EDKP 239	(1)	Medical Imaging of Anatomy

3 credits, one of the following courses:

ANAT 315	(4)	Anatomy/Limbs and Back
EDKP 205	(3)	Structural Anatomy

6 credits, one of the following course sets:

PHGY 201	(3)	Human Physiology: Control Systems
and PHGY 202	(3)	Human Physiology: Body Functions
or PHGY 209	(3)	Mammalian Physiology 1
and PHGY 210	(3)	Mammalian Physiology 2

3 credits, one of the following courses:

BIOL 373	(3)	Biometry
MATH 203	(3)	Principles of Statistics 1
PSYC 204	(3)	Introduction to Psychological Statistics
SOCI 350	(3)	Statistics in Social Research

12 credits chosen from the following courses:

EDKP 444	(3)	Ergonomics
EDKP 445	(3)	Exercise Metabolism
EDKP 446	(3)	Physical Activity and Ageing
EDKP 447	(3)	Motor Development 2
EDKP 448	(3)	Exercise and Health Psychology
EDKP 449	(3)	Exercise Pathophysiology 2
EDKP 542	(3)	Environmental Exercise Physiology
EDKP 566	(3)	Advanced Biomechanics Theory
NUTR 503	(3)	Bioenergetics and the Lifespan

Elective Courses (14 credits)
To be chosen from the 200-, 300-, 400- or 500-level in consultation with the Undergraduate Program Director or Student Adviser.

8.8 School of Information Studies

McLennan Library Building, Room MS 57F
3459 McTavish Street
Montreal, QC H3A 1Y1

Telephone: 514-398-4204
Fax: 514-398-7193
Email: sis@mcgill.ca
Website: www.mcgill.ca/sis

Director — France Bouthillier

Professors
J. Andrew Large; B.Sc.(Lond.), Ph.D.(Glas.), Dip.Lib.(Lond.) (*CN-Pratt-Grinstad Professor of Information Studies*)
Peter F. McNally; B.A.(W. Ont.), B.L.S., M.L.S., M.A.(McG.)

Associate Professors
Jamshid Beheshti; B.A.(S. Fraser), M.L.S., Ph.D.(W. Ont.)
France Bouthillier; B.Ed.(UQAM), M.B.S.I.(Montr.), Ph.D.(Tor.)
Kim Dalkir; B.Sc., M.B.A.(McG.), Ph.D.(C'dia)
Eun Park; B.A.(Pusan), M.L.I.S.(Ill.), M.B.A.(Pitt.), Ph.D.(Calif.-LA)

Assistant Professors
Joan Bartlett; B.Sc., M.L.S., Ph.D.(Tor.)
Catherine Guastavino; B.Sc.(McG.), M.Sc.(Aix-Marseille), Ph.D.(Paris)
Elaine Ménard; B.A., M.A., M.S.I.(Montr.)

Adjunct Professors
Joy Bennett; B.A., M.A.(C'dia), M.L.I.S.(McG.), Ph.D.(C'dia)
Frances Groen; B.A., B.L.S.(Tor.), M.A.(Pitt.)

Associate Members
Gordon Burr; B.A., M.L.I.S.(McG.)
Pierre Pluye; M.D.(Toulouse), M.Sc., Ph.D.(Montr.)
Richard Virr; B.A.(Tulane), M.A.(Qu.), Ph.D.(McG.)

Professional Associate
Edward Bilodeau; B.Sc., M.L.I.S.(McG.)

Faculty Lecturers
Clement Arsenault; B.A.(Montr.), M.L.I.S.(McG.), Ph.D.(Tor.)
Tanya Abramovitch; B.A., M.L.I.S., M.A.(McG.)
Leanne Bowler; B.A., M.L.I.S., M.Ed., Ph.D.(McG.)
Louise Carpentier; B.L.S.(Tor.), M.Bibl.(Montr.), M.P.P.PA.(C'dia)
April Colosimo; B.Sc.(McG.), M.Sc.(Sher.), M.L.I.S.(McG.)
Danielle Dennie; B.Sc.(Laur.), M.Sc.(Inst. Armand-Frappier), M.L.I.S.(McG.)
Jocelyn Godolphin; B.A.(Man.), M.A.(Ore.), M.L.S.(Br. Col.)
Andrea Harland; B.A.(McG.), M.A.C.(Qu.), M.L.I.S.(McG.)
Michele Jenkins; B.A.(Calif.), M.L.I.S.(McG.)
Charles-Antoine Julien; B.Eng., M.Sc.(École Poly., Montr.)
Vivek Venkatesh; B.Sc.(Sing.), M.A., Ph.D.(C'dia)

The School of Information Studies focuses upon the knowledge and skills necessary to identify, acquire, organize, retrieve and disseminate information so as to meet people's varied information needs.

The School of Information Studies offers four programs at the graduate level. Its 48-credit Master of Library and Information Studies (MLIS) has three areas of specialization: Archival Studies, Knowledge Management, and Librarianship. Accredited by the American Library Association, the MLIS program prepares professionals to manage information resources and services in libraries and the wider information industries. Its 30-credit Graduate Diploma in Library and Information Studies and 15-credit Graduate Certificate in Library and Information Studies are designed to provide a formal environment in which information professionals can update, specialize, and redirect their careers for advanced responsibilities. Its Ph.D. (ad hoc) program provides an opportunity to undertake research at the doctoral level in library and information studies within an interdisciplinary context.

For further information concerning programs, requirements, and courses, consult the School of Information Studies section of the most current *Graduate and Postdoctoral Studies Calendar* or the School website.

9.1 The Faculty

9.1.1 Location

Macdonald Engineering Building
817 Sherbrooke Street West
Montreal, QC H3A 2K6
Canada

Telephone: 514-398-7257
Faculty website: www.mcgill.ca/engineering

The Student Affairs Office and the Offices of the Associate Dean, Student Affairs and Associate Dean, Academic are located within the Engineering Student Centre, at:

3450 University Street
Montreal, QC H3A 2A7
Frank Dawson Adams Building, Suite 22

9.1.2 Administrative Officers

Christophe Pierre; Ph.D.(Duke), M.Sc.(Prin.), B.Eng.(École Centrale, Paris) (*Canada Research Chair*) **Dean**

James Clark; B.A.Sc., Ph.D.(Br. Col.) **Associate Dean, Academic**

Subhasis Ghoshal; B.C.E.(Jadavpur), M.S.(Missouri), Ph.D.(Carn. Mell) (*William Dawson Scholar*) **Associate Dean, Student Affairs**

Andrew Kirk; B.Sc.(Brist.), Ph.D.(Lond.) (*William Dawson Scholar*) **Associate Dean, Research and Graduate Education**

Luc Mongeau; B.Sc., M.Sc.(École Poly., Montr.), Ph.D.(Penn. St.) (*Canada Research Chair*) **Associate Dean, Academic Affairs**

Michael Jemtrud; B.A., B.Sc., B.Arch.(Penn. St.), M.Arch.(McG.), M.R.A.I.C. **Director, School of Architecture**

Dimitrios Berk; B.Sc.(Bosphorus), M.E.Sc.(W. Ont.), Ph.D.(Calg.), P.Eng. **Chair, Department of Chemical Engineering**

Denis Mitchell; B.A.Sc., M.A.Sc., Ph.D.(Tor.), F.A.C.I., F.C.A.E., F.C.S.C.E., F.E.I.C., F.R.S.C., Eng. (*James McGill Professor*) **Chair, Department of Civil Engineering and Applied Mechanics**

David V. Plant; M.S., Ph.D.(Brown), F.O.S.A. (*James McGill Professor*) **Chair, Department of Electrical and Computer Engineering**

Arun K. Misra; B.Tech.(IIT, Kharagpur), Ph.D.(Br. Col.), P.Eng., F.A.A.S., A.F.A.I.A.A. (*Thomas Workman Professor of Mechanical Engineering*) **Chair, Department of Mechanical Engineering**

Steve Yue; B.Sc., Ph.D.(Leeds) **Chair, Department of Mining and Materials Engineering**

David F. Brown; B.A.(Bishop's), M.U.P.(McG.), Ph.D.(Sheff.) **Director, School of Urban Planning**

Colin Rogers; B.A.Sc., M.A.Sc.(Wat.), Ph.D.(Syd.), P.Eng. **Secretary of Faculty**

Christine Tutt **Director of Administration**

Debbie Morzajew **Manager, EMF**

Jonathan Rousham **Facilities Manager**

Tania Chomyk **Area Personnel Officer**

Enza De Martinis **Financial Officer**

Judy Pharo **Associate Director, Engineering Student Centre**

9.1.3 Historical Note

The Faculty of Engineering began in 1871 as the Department of Practical and Applied Science in the Faculty of Arts with degree programs in Civil Engineering and Surveying, Mining Engineering and Assaying, and Practical Chemistry. Diploma courses had been offered from 1859, and by 1871 the staff and enrolments had increased sufficiently to justify the creation of the Department. Continued growth led to the formation of the Faculty of Applied Science in 1878. By 1910 there were ten degree programs offered, including Architecture and Railroad Engineering. Subsequent changes in the overall pattern of the University led to the creation of the Faculty of Engineering in 1931 with a departmental structure very similar to that which exists at present.

9.1.4 The Faculty Today

The Faculty currently includes five engineering departments and two schools:

The Departments
- Chemical Engineering
- Civil Engineering and Applied Mechanics
- Electrical and Computer Engineering
- Mechanical Engineering
- Mining and Materials Engineering

The Schools
- Architecture
- Urban Planning

The Faculty serves approximately 2,630 undergraduate students and 900 graduate students in a wide variety of academic programs.

Undergraduate programs leading to professional bachelor degrees are offered in all Engineering Departments. These programs are designed to qualify the graduates for immediate employment in a wide range of industries and for membership in the appropriate professional bodies. Additionally, a non-professional undergraduate degree is offered in the School of Architecture for those who plan to work in related fields not requiring professional qualification. The curricula are structured to provide suitable preparation for those who plan to continue their education in postgraduate studies either at McGill or elsewhere. The professional degrees in Architecture and Urban Planning are offered at the Master's level and are described in the *Graduate and Postdoctoral Studies Calendar* found at www.mcgill.ca/courses.

The academic programs are divided into required and complementary sections. The required courses emphasize those basic principles which permit graduates to keep abreast of progress in technology throughout their careers. Exposure to current technology is provided by the wide variety of complementary courses which allow students to pursue in depth a particular interest. For program details refer to section 9.5 "Academic Programs".

An internship program involving a paid 8, 12 or 16 month work experience is available to Engineering students. Generally, students will enter the internship program before starting their final year of undergraduate studies. Details can be found in section 9.2.9 "EIP: Engineering Internship Program and IP: Industrial Practicum". In addition, CO-OP programs are offered in Mining Engineering and in Materials Engineering.

Postgraduate programs leading to Master's and doctoral degrees are offered in all sectors of the Faculty. Numerous areas of specialization are available in each of the departments and schools. All postgraduate programs, including the professional degree programs in Architecture and in Urban Planning are described in the *Graduate and Postdoctoral Studies Calendar* found at www.mcgill.ca/courses.

9.1.5 Special Facilities and Related Programs

9.1.5.1 Engineering Microcomputing Facility

In addition to the services provided by Central Information Technology Resources, the Faculty, in conjunction with its departments and schools, maintains specialized computing and information resources in support of teaching and research. These vary from desktop PCs distributed throughout the Engineering complex to very high performance scientific workstations found in the research laboratories. Each unit organizes and maintains facilities that are designed around specific roles, e.g., CAD/CAM,

microelectronic design, software engineering, circuit simulation, process control, polymers, structural mechanics, metal processing, etc., in addition to systems dedicated to administrative support.

The role of the Faculty is to provide access to computing resources on a 24-hour basis and to provide services that are not covered by individual units. Further information is available at www.mcgill.ca/emf.

9.1.5.2 Bioresource Engineering

The Faculty of Engineering cooperates with the Faculty of Agricultural and Environmental Sciences in providing courses of instruction for a curriculum in agricultural and biosystems engineering to meet requirements for a professional degree awarded in the Faculty of Agricultural and Environmental Sciences. For details of the curriculum, see section 5.6.2 "Bachelor of Engineering (Bioresource) - B.Eng.(Bioresource)".

Some of the courses offered by the Department of Bioresource Engineering (Subject Code BREE) may be of interest to students in the Faculty of Engineering.

9.1.5.3 Department of Biomedical Engineering

Lyman Duff Medical Sciences Building
3775 University Street
Montreal, QC H3A 2B4
Telephone: 514-398-8278

Some of the courses offered by the Department of Biomedical Engineering (subject code BMDE) may be of interest to Engineering students, and may be approved as complementary courses. The Faculty of Engineering also offers a minor in Biomedical Engineering; for more information, students should refer to section 9.6.2 "Biomedical Engineering Minor".

9.1.6 Library Facilities

Second largest of the 13 branches of the McGill Library, the Schulich Library of Science and Engineering provides resources and services to support the research and teaching programs in Engineering, Architecture, Urban Planning and the Physical Sciences. The Library holds more than 260,000 books, journals and other materials covering the spectrum of engineering and the physical sciences. There is also an extensive collection of online resources, with thousands of electronic journals, e-books and databases. Other branch libraries of interest to students in the Faculty of Engineering are: Blackader-Lauterman Library of Architecture and Art, Life Sciences Library, Macdonald Campus Library, Walter Hitschfeld Geographic Information Centre, Edward Rosenthall Mathematics and Statistics Library, and the Howard Ross Management Library.

The Schulich Library of Science and Engineering has over 100 networked computer workstations and the entire building is a McGill wireless zone. You may choose to work in the quiet or group study areas, with copy and print facilities on site. The Library provides support for users with disabilities, including wheelchair access and an adaptive workstation. The Library also offers a range of tours and workshops designed to help users effectively find, assess and use information.

Visit the website, phone or email us to learn more about the Library's services, collections and facilities. We look forward to seeing you in the Library.

schulich.library@mcgill.ca

9.2 General Information

9.2.1 Admission Requirements

The Faculty of Engineering offers programs leading to the degrees of B.Eng., B.S.E. and B.Sc.(Arch.). Enrolment in Engineering programs is limited.

Specific information on admissions requirements can be found in the *Undergraduate Admissions Guide 2009-10*, found at www.mcgill.ca/applying/undergrad.

9.2.2 Exchange Programs

The Faculty of Engineering participates in a number of bilateral exchange programs that provide undergraduates with an opportunity to study in various countries including Australia, Austria, Canada, Denmark, France, Germany, Hong Kong, Mexico, New Zealand, Singapore, Sweden, United Kingdom, and the U.S. Applicants must have completed at least one year of study and have maintained an average of 3.00 or better. Further information may be obtained from the Faculty of Engineering Student Affairs Office in the Engineering Student Centre (www.mcgill.ca/engineering/student/sao/current/exchange) and the Office of Student Exchanges and Study Abroad (www.mcgill.ca/studyabroad).

9.2.3 Transfer Credits for University-level Courses

In certain cases, credits may be granted for university-level courses passed with a grade of C or better that were taken at other institutions prior to admission. The number of transfer credits granted will be limited to ensure that the student must complete a minimum of 60 credits of program related courses at McGill University, excluding those taken to satisfy the basic science requirements listed under section 9.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec".

9.2.4 Registration

Students who are currently registered and intend to return to the same degree program in the following academic session are required to register following procedures outlined in this Calendar; see section 3.3 "Registration". **It is mandatory for all returning students to see a departmental academic adviser for course confirmation during the first two weeks of the Fall term and, if changes are being made, during the first two weeks of the Winter term.**

Information regarding course registration is sent to new students at the time of admission. **All new students must see a departmental academic adviser during the advising period.**

9.2.4.1 Course Load

For students in the Faculty of Engineering the normal course load is 15 to 18 credits per term. Students who register for fewer than 12 credits per term are considered to be part-time in that term. A student who wishes to register for more than 18 credits in a term may do so only with special permission from their departmental adviser. Students on probationary standing may register for a maximum of 13 credits per term, including repeated courses. Students with deferred exams may register for no more than 18 credits or write no more than 6 examinations per term, whichever is greater. Where appropriate, students must ensure that they register for sufficient credits to satisfy visa, financial aid and/or scholarship requirements.

9.2.4.2 Registration for Continuing Education Courses

Students may register for Continuing Education courses through Minerva. Students must refer to the Centre for Continuing Education Calendar and Schedule for course information and deadlines. For further information, contact the Faculty of Engineering Student Affairs Office in the Engineering Student Centre.

9.2.4.3 Course Withdrawal after the Course Change (Drop/Add) Deadline

Students may still withdraw from a course after the Course Change deadline without academic penalty provided they do so within the appropriate withdrawal deadlines for the term. After this time their names will appear on the mark reports and, in the event that they do not take the examination, they will be given a J grade. For more information on course withdrawal, see section 3.3.8 "Regulations Concerning Course Withdrawal".

9.2.5 Advising

All students are required to meet with an Academic Adviser prior to the start of classes. Students admitted to Year 0 who are seeking transfer credits are initially advised by the Faculty Student Affairs Office followed by advising in their respective departments. Students admitted to Year 0 who are not seeking transfer credits and students admitted to Year 1 should contact the department/school directly. Additional information may be obtained by calling:

Student Affairs Office	514-398-7257
Architecture	514-398-6702
Chemical Engineering	514-398-4494
Civil Engineering and Applied Mechanics	514-398-6860
Electrical and Computer Engineering	514-398-3943
Mechanical Engineering	514-398-8070
Mining and Materials Engineering	514-398-4755
Urban Planning	514-398-4075

For more information on advising, see section 4 "Advising and Support".

9.2.6 Student Activities

The campus offers a wide variety of extracurricular activities for students. All are encouraged to participate. Many of these are organized within the Faculty under the auspices of the Engineering Undergraduate Society (EUS) or the Architectural Student Association (ASA). Both of these organizations publish handbooks describing their operations and the activities of various Faculty clubs and societies. All undergraduate students automatically become members of the EUS or the ASA, as appropriate.

9.2.7 Scholarships and Bursaries

Scholarships, bursaries and loans are open to students in the Faculty of Engineering. Students should consult the *Undergraduate Scholarships and Awards Calendar* available at www.mcgill.ca/courses. Specific information concerning these awards may be obtained from the Faculty of Engineering Student Affairs Office in the Engineering Student Centre (www.mcgill.ca.engineering/student/sao/scholarships).

9.2.8 Graduation Honours

9.2.8.1 Dean's Honour List

For information on the designation of Dean's Honour List awarded at graduation, see section 3.9.1.1 "Dean's Honour List".

9.2.8.2 Distinction

For information on the designation of Distinction awarded at graduation, see section 3.9.1.2 "Distinction".

9.2.9 EIP: Engineering Internship Program and IP: Industrial Practicum

Employers value experience. The EIP (8, 12 or 16 months) and the Industrial Practicum (4 months) allow undergraduate students in Engineering to gain professional work experience during the course of their undergraduate studies while earning a salary within the average range for entry-level professional positions. Other benefits include:

- improved employment prospects upon graduation at a higher starting salary;
- the opportunity to explore career options prior to graduation;
- the opportunity to develop communication skills and to acquire a business perspective that cannot be learned in school.

Employment begins in January, May or September. EIP Internships are 8, 12 or 16 months, while the IP is 4 months. Employers choose the most suitable students for their organization through the application and interview process. While employed by the participating companies, students work on assignments related to their field of study. Completion of an IP or EIP will be noted on the students' transcript. Successful completion of an 8-, 12- or 16-month Internship or two Industrial Practicums qualifies students to graduate with the Internship Program designation.

STUDENT ELIGIBILITY

All students participating in the EIP or IP must:

- have a CGPA of 2.00 or higher;
- be in good financial standing with the university;
- be registered full-time in their program before and after the EIP or IP;
- remain a degree candidate while on internship;
- return to complete their studies at McGill (Internship students will receive an automatic extension for the completion of their studies). Students are not allowed to complete their undergraduate degree during the Internship period. Students must have a minimum of 15 credits to complete their program.
- International students are eligible to apply for an EIP and Summer IPs (a few restrictions may apply).

Further information can be obtained at www.mecc.mcgill.ca or by sending an email to careers4engineers@mcgill.ca

Important Information

- While on internship, students are expected to complete any deferrals they may have been granted, regardless of the location of the internship. Students who do not write a deferred exam as scheduled will receive a final grade of J. The J grade will calculate as a failure in both the TGPA and CGPA.
- International students must ensure that their health coverage remains in force during their internship.
- During their time as EIP interns, students are not considered to be in full-time status. Students' government loans will become due and payable within the prescribed grace period (usually 6 months).
- Students who officially accept an internship position but subsequently decline the position will no longer be eligible for the Engineering Internship Program.

9.2.10 Calculators in Faculty Tests and Examinations

The use of calculators during tests and examinations is at the discretion of the course instructor. If a calculator is permitted in the examination, the Faculty requires that the students use a Faculty Standard Calculator, i.e., the CASIO fx-115, CASIO fx-991, CASIO fx-570ms, SHARP EL-520, or SHARP EL-546. Under these circumstances, *no other calculators will be permitted*, regardless of their level of sophistication. **Non-regulation calculators will be removed and no replacement calculator will be provided.** All Engineering students are expected to own one of the above listed Faculty Standard Calculators.

9.3 Academic Requirements

9.3.1 Degree Requirements

In order to obtain a Bachelor's degree, students must complete one of the departmental programs described in section 9.5 "Academic Programs".

9.3.1.1 Entrance Requirements

The degree programs in the Faculty of Engineering are designed for students who have completed a general and basic science program. This basic science requirement consists of two terms of calculus, chemistry, physics, one term of vectors, matrices and geometry and one term of humanities or social sciences.

Students entering the Faculty of Engineering from Quebec complete these courses at CEGEP and enter a seven-term program.

Students entering from outside Quebec with a high school diploma generally enter an eight-term program and complete the basic science requirements at McGill.

Students who have completed Advanced Placement Exams, Advanced Levels, the International Baccalaureate, the French Baccalaureate, or McGill placement and/or advanced credit examinations may receive exemptions and/or credits for all or part of the basic science requirements. Similarly, students who have completed courses at other universities or colleges may receive exemptions and/or credits. Please see www.mcgill.ca/engineering/student/sao/newstudents/credit for specific information on transfer credits.

9.3.1.2 Basic Science Requirements for Students Entering from Outside Quebec

Generally, students admitted to Engineering from outside Quebec are required to complete the basic science requirements outlined below, in addition to the departmental programs described in section 9.5 "Academic Programs".

CHEM 110	(4 credits)	General Chemistry 1
CHEM 120	(4 credits)	General Chemistry 2
MATH 140	(3 credits)	Calculus 1
or MATH 139	(4 credits)	Calculus
MATH 141	(4 credits)	Calculus 2
MATH 133	(3 credits)	Vectors, Matrices and Geometry
PHYS 131	(4 credits)	Mechanics and Waves
PHYS 142	(4 credits)	Electromagnetism and Optics
FACC 100	(1 credit)	Introduction to the Engineering Profession
XXX XXX	(3 credits)	Humanities/Social Sciences course*

* 3 credits selected from the approved list of courses in humanities and social sciences or administrative studies and law. See section 9.3.4 "Complementary Studies".

Students who successfully complete one or more McGill Placement Exams will obtain credit(s) for the equivalent(s), i.e., CHEM 110, CHEM 120, MATH 140, MATH 141, MATH 133, PHYS 131, PHYS 142. Please see www.mcgill.ca/student-records/exam/placement for specific information on McGill Placement Exams.

Students entering with advanced standing credits (Advanced Placements, Advanced Levels, International Baccalaureate examinations, McGill Placement Exams) are required to meet with an adviser in the Student Affairs Office in the Engineering Student Centre to finalize their program of study. (This must be done prior to meeting with their departmental adviser.) An information session will be held prior to the advising sessions to process these advanced credits. All of the above information is available at www.mcgill.ca/engineering/student/sao/newstudents/credit.

9.3.1.3 Architecture – Basic Science Requirements for Students Entering from Outside Quebec

Generally, students admitted to Architecture from outside Quebec are required to complete the following courses:

CHEM 110	(4 credits)	General Chemistry 1
CHEM 120	(4 credits)	General Chemistry 2
MATH 139	(4 credits)	Calculus
or MATH 140	(3 credits)	Calculus 1
MATH 141	(4 credits)	Calculus 2
MATH 133	(3 credits)	Vectors, Matrices and Geometry
PHYS 131	(4 credits)	Mechanics and Waves
PHYS 142	(4 credits)	Electromagnetism and Optics

Students may write McGill Placement Tests to obtain credit for CHEM 110, CHEM 120, MATH 140, MATH 141, MATH 133, PHYS 131 and PHYS 142, in the event that they have studied similar material previously. Details on the advanced placement examinations are provided in the *Welcome to McGill* guide for new students. All of the above information is available at www.mcgill.ca/engineering/student/sao/newstudents/credit.

9.3.1.4 General Engineering – Basic Science Requirements for Students Entering from Outside Quebec Admitted to the General Engineering Program (B.Eng. (Undeclared))

This is a 30-31 credit course of study for the first year of a Bachelor of Engineering degree for students who have not completed a Quebec CEGEP diploma who have been admitted to the General Engineering program. Upon successful completion of these requirements, students will transfer into a B.Eng. program.

CHEM 110	(4 credits)	General Chemistry 1
CHEM 120	(4 credits)	General Chemistry 2
MATH 140	(3 credits)	Calculus 1
or MATH 139	(4 credits)	Calculus
MATH 141	(4 credits)	Calculus 2
MATH 133	(3 credits)	Vectors, Matrices and Geometry
PHYS 131	(4 credits)	Mechanics and Waves
PHYS 142	(4 credits)	Electromagnetism and Optics
FACC 100	(1 credit)	Introduction to the Engineering Profession
XXX XXX	(3 credits)	Humanities/Social Sciences course*

* 3 credits selected from the approved list of courses in humanities and social sciences or administrative studies and law. See section 9.3.4 "Complementary Studies".

Students who successfully complete one or more McGill Placement Exams will obtain credit(s) for the equivalent(s), i.e., CHEM 110, CHEM 120, MATH 133, MATH 140, MATH 141, PHYS 131, PHYS 142. Please see www.mcgill.ca/student-records/exam/placement for specific information on McGill Placement Exams.

9.3.2 Degrees and Requirements for Professional Registration

Non-Professional:

Bachelor of Science (Architecture)

The first professional degree in architecture is the Master of Architecture (Professional). Further information can be found in the *Graduate and Postdoctoral Studies Calendar* at www.mcgill.ca/courses.

Professional:

Bachelor of Engineering
Bachelor of Engineering (Honours)
Bachelor of Software Engineering

The B.Eng. and B.S.E. programs are accredited by the Canadian Engineering Accreditation Board (CEAB) of Engineers Canada and fulfil the academic requirements for admission to the provincial engineering professional organizations. Engineers Canada has also negotiated agreements with engineering organizations in other countries to grant Canadian license engineering the same privileges accorded to professional engineering in those countries. See the Engineers Canada website for further information (www.engineerscanada.ca). All students are expected to seek professional registration after graduation.

To become a Professional Engineer in Canada, a graduate must pass an examination on legal aspects and on the principles of professional practice, and acquire two to four years of engineering experience, depending on the province. Only persons duly registered may use the title of "engineer" and perform the professional activities reserved for engineers by the provincial laws and regulations.

In Quebec, the professional engineering body is the Ordre des ingénieurs du Québec (OIQ). In order to better prepare new graduates for the practice of their profession, McGill organizes seminars in cooperation with the OIQ on various aspects of the profession. The OIQ also has a student section. As soon as students have accumulated 60 credits in a B.Eng. or B.S.E. program, they can join the Student Section of the OIQ. Registration is free.

For more information, visit the websites of the Ordre des ingénieurs du Québec, www.oiq.qc.ca, and of Engineers Canada, www.engineerscanada.ca.

9.3.3 Prerequisites and/or Corequisites

Prerequisites and/or corequisites must be completed prior to course registration, if applicable. If a student has registered for a course and did not satisfy the prerequisites and/or corequisites, the course may be dropped from his/her record automatically by Minerva.

Those students who have received advance credits/exemptions or passed a placement exam, and are blocked from registration in a course due to a prerequisite and/or corequisite error, must go to their respective department in order to receive the appropriate override.

Further information may be obtained from the Student Affairs Office in the Engineering Student Centre.

9.3.4 Complementary Studies

Engineering students must complete 6 credits of additional complementary courses as follows:

I) Three credits on the impact of technology on society are to be chosen from the following list of courses:

CHEE 230 Environmental Aspects of Technology
CIVE 469 Infrastructure and Society
ECON 225 Economics of the Environment
ENVR 201 Society and Environment
GEOG 200 Geographical Perspectives: World Environmental Problems
GEOG 203 Environmental Systems
GEOG 205 Global Change: Past, Present and Future
GEOG 302 Environmental Management 1
MIME 308 Social Impact of Technology
PHIL 343 Biomedical Ethics
SOCI 235 Technology and Society
SOCI 312 Sociology of Work and Industry

II) Three credits in the humanities and social sciences, administrative studies and law are to be chosen from the following list of courses:

A. Humanities and Social Sciences

Any course at the 200 level or above from the departments of:

- Anthropology (Subject Code ANTH)
- Economics (any 200- or 300-level course excluding ECON 208, ECON 217, ECON 227, ECON 259 and ECON 337)
- History (Subject Code HIST)
- Philosophy (excluding PHIL 210 and PHIL 310)
- Political Science (Subject Code POLI)
- Psychology (excluding PSYC 204, PSYC 305 and PSYC 435 but including PSYC 100)
- Religious Studies (Subject Code RELG)
- School of Social Work (Subject Code SWRK)
- Sociology (excluding SOCI 350)

or ARCH 350 The Material Culture of Canada
or ENVR 203 Knowledge, Ethics and Environment
or ENVR 400 Environmental Thought
or MATH 338 History and Philosophy of Mathematics

B. Administrative Studies and Law

Faculty of Engineering

FACC 220 Law for Architects and Engineers
FACC 500 Technology Business Plan Design
FACC 501 Technology Business Plan Project

Desautels Faculty of Management

(Management courses have limited enrolment and registration dates; see section 1 “Important Dates 2009-10”.)
BUSA 465 Technological Entrepreneurship
INDR 294 Introduction to Labour-Management Relations
MGCR 222 Introduction to Organizational Behaviour
MGCR 352 Marketing Management 1
MRKT 360 Marketing of Technology
ORGB 321 Leadership
ORGB 423 Human Resources Management

C. Language Courses

Any language course that is deemed by the academic adviser to have a sufficient cultural component or, in the case of a student who was not already proficient in a specific language, 3 program credits will be given for a successfully completed, academically approved 6-credit language course.

9.3.5 Student Progress

The B.Eng. and B.S.E. programs may be completed in a minimum of eight terms. The B.Sc.(Arch.) program may be completed in six or eight terms, depending upon point of entry.

A student must successfully complete the B.Eng., B.S.E., or B.Sc.(Arch.) programs within six years of entry. Candidates admitted to a lengthened program, or to a shortened program because of advanced standing, or who are participating in the EIP: Engineering Internship Program, will have a correspondingly greater or lesser period in which to complete their program. Extensions may be granted by the Committee on Standing in cases of serious medical problems or where other similarly uncontrollable factors have affected a student's progress.

9.3.5.1 Letter Grades

In the Faculty of Engineering, letter grades are assigned according to the grading scheme adopted by the professor in charge of a particular course. They have the designations:

A, A-	Very Good	J	Unexcused Absence
B+, B, B-	Good	K	Incomplete
C+, C	Satisfactory	KF	Incomplete Failed
D	Conditional Pass	L	Deferred
F	Failed		

Grades A, B and C indicate satisfactory results. Grade D indicates marginal results which may be acceptable for peripheral courses but not for required core courses. The classification of a course as core or peripheral depends on the individual student's program and will be decided by the department concerned. Grade F is a permanent grade indicating unsatisfactory results. Grade J indicates an unexcused absence from a final examination. It is equivalent to an F grade.

9.3.5.2 Satisfactory/Unsatisfactory Option

The Satisfactory/Unsatisfactory Option (S/U) may be used for complementary studies involving a humanities and social sciences course or a course dealing with the impact of technology on society, or for elective courses taken outside the School of Architecture by architecture students. It does not apply to the "technical complementaries" or "architectural complementaries", or to any other category of the Engineering or Architecture programs.

Students must specify courses as S/U at the time of registration. The option will not be manually added or removed from a student's record after the Course Change (drop/add) deadline. Once a mark has been submitted, this option will not be reversed.

- A grade of C is considered as Satisfactory (S) under the University Satisfactory/Unsatisfactory option. (Students should note that the Faculty of Engineering accepts a D grade as a pass when courses eligible for the S/U option are taken in the conventional manner.)
- Only students in satisfactory standing will be permitted to take a course under the Satisfactory/Unsatisfactory option. Only one course (3 credits) per term, to a maximum of 10% of a student's credits taken at McGill, may be taken this way. Grades will be reported in the normal fashion by the instructor; grades of C and above will be converted to Satisfactory (S) and grades of D and F will be converted to Unsatisfactory (U).
- Courses taken under this option will be excluded from the GPA, but will be included in the number of credits.
- **Note for Faculty of Engineering Students Only:** If the S/U option is selected for a core course and not removed by the Course Change deadline, the Student Affairs Office in the

Engineering Student Centre will remove the option and notify the student of the change.

- Courses that are taken to satisfy a minor cannot be taken under the S/U option.

Note: To be considered for scholarships/renewal of awards, students must complete at least 27 credits in the regular academic session exclusive of courses completed under this option.

9.3.5.3 Course Credits

The credit assigned to a particular course reflects the amount of effort it demands of the student. One credit normally represents three hours total work per week. This is, in general, a combination of lecture hours and other contact hours such as laboratory periods, tutorials and problem periods as well as personal study hours. As a guide, the average division of time for a course is indicated in hours in the course listing after the course credit. For example, (3) (3-0-6) indicates a three-credit course consisting of three lecture hours per week, no other contact hours and six hours of personal study per week.

9.3.5.4 Extra Courses

Courses that a student elects to take which lie outside their program may be classified as "extra", provided the student chooses this option at the time of registration. Extra courses are indicated on the student's transcript and grades earned in those courses do not affect the grade point average. The option will not be added to a student's record after the Course Change (drop/add) deadline. Courses that are taken to satisfy the student's engineering program or a Minor cannot be designated as extra.

9.3.5.5 Academic Standing Decisions

In the Faculty of Engineering, a decision on the student's academic standing is based on the CGPA (Cumulative Grade Point Average) according to the criteria listed below.

- Satisfactory standing - CGPA equal to 2.00 or greater.
- Probationary standing - CGPA less than or equal to 1.99 or equal to or greater than 1.20.
- Unsatisfactory standing - CGPA less than 1.20 or failure to meet the conditions of Probationary standing as described below (if this is the student's first term, the student is normally readmitted to Probationary Standing by Faculty decision).

Note: The Faculty makes academic standing decisions after the completion of each term (Fall, Winter and Summer) based on academic results to date. Thus, if a student has been granted permission to defer one or more examinations, the standing decision will be made regardless of such deferrals.

Satisfactory Standing
Students in satisfactory standing may proceed, with the following conditions:

All core courses in which D or F grades were obtained must either be repeated successfully (grade C or better) or be replaced by an alternative approved course which is completed successfully.

All other courses in which F grades were obtained must either be repeated successfully before graduation or be replaced by an alternative approved course which is completed successfully before graduation.

Probationary Standing
Students in probationary standing may proceed with their studies under the following conditions:

Students must reduce their credit load to a maximum of 13 credits per term and must achieve at the end of the term either a CGPA of 2.00 or better, or a term GPA (TGPA) of 2.50 or better in order to continue.

If students have already registered for more than 13 credits, they are required to meet with an adviser in their department/school in order to obtain assistance in decreasing their credit load prior to the Course Change (drop/add) deadline of the subsequent term.

A student whose TGPA is 2.50 or better but whose CGPA is less than 2.00 may continue on with his/her studies, but will remain on probationary standing.

Failure to achieve either the TGPA or CGPA requirements noted above will result in the student being placed in “unsatisfactory standing” (see below). Students will remain on probationary standing until they achieve a CGPA equal to or exceeding 2.00, at which time their standing will be changed to “satisfactory”.

Students placed on probationary standing who need to reduce their credit load but are unable to drop course(s) must complete a Request for Course Drop due to Probationary Standing form and submit it to the Student Affairs Office in the Engineering Student Centre. The course(s) will be deleted from the student's record.

Unsatisfactory Standing
Students in unsatisfactory standing will be asked to withdraw from the Faculty of Engineering for a minimum of one term. Courses for which the student is currently registered will be deleted automatically from the student's record by the Faculty.

Students currently in unsatisfactory standing who wish to return to the Faculty of Engineering after a compulsory absence of a minimum of one term must apply for readmission on Minerva no later than November 1 (Winter term) and June 1 (Fall term). More information regarding readmission can be found at www.mcgill.ca/engineering/student/sao/current/faculty_transfer_readmission. Upon readmission, the student will be placed back on probationary standing (see conditions and regulations regarding probationary standing above).

Students who fail to achieve the required TGPA will be permanently withdrawn from the program with no chance of readmission. In addition, students who have returned to satisfactory standing, but whose CGPA falls below 2.00 in a subsequent term, will be required to permanently withdraw from the program with no chance of readmission.

9.3.5.6 Repeated Courses

Students who fail to achieve the required results in a course must either repeat it successfully or complete an alternative course approved by their department.

9.3.5.7 Reassessments and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

After further discussion with the instructor, a student can request a formal reread of a final exam. The student must complete a Request for a Reread of a Final Exam form and submit it to the Student Affairs Office in the Engineering Student Centre.

The following conditions apply:

- Requests for rereads in more than one course per term will not be accepted, unless permission is given by the Faculty of Engineering.
- Grades may be either raised or lowered as the result of a reread.

Rereads in courses not in the Faculty of Engineering are subject to the deadlines, rules and regulations of the relevant faculty.

The deadlines to apply for a formal reread of a final exam are:

- Fall courses - the last working day of March.
- Winter courses - the last working day of July.
- Summer courses - the last working day of November.

A $35.00 fee for each reread will be assessed directly to the student’s McGill account if the result remains the same or is lowered. If the grade is increased, no charge is made.

For further information, students may consult the Student Affairs Office in the Engineering Student Centre.

9.3.5.8 Examination Regulations

For information regarding the Faculty of Engineering examination regulations and procedures, please refer to the Engineering website at www.mcgill.ca/engineering/student/sao/policies/examinations/examination.

9.3.5.9 Supplemental Examinations

Courses administered by the Faculty of Engineering do not have supplemental examinations; however, Engineering students may be eligible to write a supplemental examination in courses administered by the Faculties of Arts and Science (some Science, Humanities and Social Sciences courses). All requests to write a supplemental exam must be submitted online through Minerva by March 1st for Fall term courses and July 15th for Winter term courses and courses spanning Fall/Winter terms. The supplemental examination period for Fall courses is during the months of April and May; for Winter courses and courses spanning Fall/Winter, the supplemental examination period is during the last week of August. It is the student's responsibility to confirm the date and time of the supplemental exam.

- Students are required to verify on Minerva the status of their supplemental exam application at any given time and for any additional information required or provided by the Student Affairs Office in the Engineering Student Centre.
- Students will receive a confirmation email once a supplemental exam application has been approved.

Eligible courses for Engineering students:

- CHEM 110, CHEM 120, CHEM 212, CHEM 234, COMP 202, MATH 133, MATH 140, MATH 141, MATH 150, MATH 152, MATH 247, MATH 248, MATH 317, PHYS 131, PHYS 142, some Science courses administered by the Faculty of Science, and Humanities and Social Sciences courses administered by the Faculty of Arts.

Rules and regulations concerning supplemental exams for the Faculty of Engineering:

- Students must be in satisfactory or probationary standing; those with an unsatisfactory standing are not permitted to write supplementals.
- Students are permitted to write a supplemental for courses in which they've received a mark of D, F, J or U.
- Students must write the supplemental exam during the next supplemental examination period.
- Only one supplemental examination is allowed in a course.
- The supplemental result may or may not include the same proportion of class work as did the original grade. The instructor will announce the arrangements to be used for the course by the end of the change course period.
- In courses in which both a supplemental examination and additional work are available, the student may choose the additional work or the examination or both; where both are written, only one supplemental mark will be submitted, reflecting marks for both the supplemental examination and the additional work.
- The format of the supplemental examination (e.g., multiple-choice or essay questions) will not necessarily be the same as the format of the final examination, so students should consult the instructor about the format of the supplemental.
- **The supplemental result will not erase the grade originally obtained; both the original mark and the supplemental result will be calculated in the CGPA.**
- Additional credit will not be given for a supplemental exam where the original grade for the course was a D and the student already received credit for the course.
- There are no supplemental examinations for Summer courses.
- No supplemental examinations are available for students who fail to achieve a satisfactory grade in a course with a deferred examination.
- A $35.00 non-refundable fee for each supplemental exam application is assessed at the time of application and charged directly to the student's McGill account.

Students should consult the Student Affairs Office in the Engineering Student Centre for more information.

9.3.5.10 Deferred Examinations

Students who have been unable to write one or more exams for serious reasons such as illness or family affliction may receive permission to defer their final exam. All requests to defer a final exam must be submitted online through Minerva no later than one week after the missed exam via the deferred exam application. Please refer to www.mcgill.ca/engineering/student/sao/policies/examinations/deferrals for further information.

- A detailed letter in support of the application must be entered in the "reason(s) for deferral" section of the application.
- Medical certificate(s) covering the date of the missed exam and the nature of the illness must be submitted to the Student Affairs Office in the Engineering Student Centre by January 15 for Fall term courses and May 15 for Winter term courses.
- Students are required to frequently verify the status of their deferred application on Minerva to determine whether any additional information is required by the Student Affairs Office.
- Students will receive a confirmation email once a deferred exam application decision has been made.

Rules and regulations concerning deferred exams for the Faculty of Engineering are as follows:

- For each deferred exam that is approved, an L (deferred) will appear on the student's record beside the course, but will not appear on official transcripts after the final grade has been determined. In calculating the mark in the course, the mark the student receives in the deferred exam will take the place of the mark the student would have received in the original final exam. An L grade will be replaced by a J, should the students miss the NEXT deferred or regular examination in the course, whichever occurs first.
- The format of the deferred exam will not necessarily be identical to the final exam of the same course. Students are responsible for contacting the professor of the course should they require information about the deferred exam format.
- Students who have already written an examination may not subsequently request that the exam be deferred.
- Students are not permitted to redo any portion of the coursework such as assignments, projects, labs, midterms, quizzes, etc. (i.e., all grades previously obtained will be calculated with the final grade of the deferred exam received in order to determine the final course grade).
- Once a deferred exam has been granted, a student may write no more than 6 final examinations per term. This will provide a student with sufficient time during the semester and the exam period to properly prepare for deferred examinations.
- Students may submit a written letter and supporting documentation in order to request a withdrawal from a deferral. Students should be aware that withdrawals from deferred examinations are granted only for compelling reasons, verified and accepted by the Student Affairs Office. Students who are not granted a withdrawal or who are not able to write a deferred exam as scheduled will receive a final grade of J, which will calculate as a failure in both the TGPA and CGPA.

Engineering Courses

Deferred exams for courses administered by the Faculty of Engineering are offered during the final examination period the next time the course is given. The final examination schedule is available at www.mcgill.ca/student-records/exam/schedules. If taking the deferred examination at this time will result in an unreasonable delay for graduation, students should indicate this in their deferral application on Minerva. The Student Affairs Office may grant an earlier deferral exam in such cases. The decision of an earlier

deferred exam will be communicated to the student via their McGill email.

Non-Engineering Courses

Deferred exams for courses administered by the following faculties are offered during the supplemental/deferred examination period:

- Faculty of Arts (Engineering: Humanities and Social Science courses)
- Faculty of Agricultural and Environmental Sciences
- Faculty of Education
- Desautels Faculty of Management
- Faculty of Religious Studies (Engineering: Humanities and Social Science courses)
- Faculty of Science (Engineering: Year 0 and faculty-specific science courses)
- School of Physical and Occupational Therapy
- School of Social Work

The supplemental/deferred examination schedule is available at www.mcgill.ca/student-records/exam/schedules.

Continuing Education Courses

Deferred exams for courses administered by Continuing Education are offered during the next term's final examination period. The final examination schedule for Continuing Education courses is available at www.mcgill.ca/conted-cms/exams.

Summer Studies

Deferred exams for courses administered by Summer Studies are to be requested no later than one week after the date of the missed final examination and are required to be written within two weeks of the date of the original exam. The date will be determined by Summer Studies and students will be notified via their McGill email. The final examination schedule for Summer Studies courses is available at www.mcgill.ca/summer/exams.

9.4 Degrees and Programs Offered

9.4.1 CO-OP Programs

Materials Engineering, page 293
Mining Engineering, page 293

9.4.2 Major Programs

Architecture (B.Sc.), page 280
Chemical Engineering (B.Eng.), page 282
Civil Engineering (B.Eng.), page 284
Computer Engineering (B.Eng.), page 288
Electrical Engineering (B.Eng.), page 286
Mechanical Engineering (B.Eng.), page 290
Software Engineering (B.S.E.), page 288

9.4.3 Honours Programs

Electrical Engineering (B.Eng.), page 286
Mechanical Engineering (B.Eng.), page 291

9.4.4 Minors

Arts, page 296
Biomedical Engineering, page 296
Biotechnology, page 297
Chemistry, page 298
Computer Science, page 298
Construction Engineering and Management, page 298
Economics, page 299
Environment Engineering, page 299
Environment, page 300
Finance, Management, Marketing, and Operations Management, page 300
Materials Engineering, page 301
Mathematics, page 301
Mining Engineering, page 301
Physics, page 301
Technological Entrepreneurship, page 302
Software Engineering, page 302

9.5 Academic Programs

The curricula described in the following pages and the courses listed under "Course Information, Regulations and Descriptions" have been approved for the 2009-10 session, but the Faculty reserves the right to introduce changes as may be deemed necessary or desirable.

9.5.1 School of Architecture

Macdonald-Harrington Building, Room 201
815 Sherbrooke Street West
Montreal, QC H3A 2K6

Fax: 514-398-7372
Website: www.mcgill.ca/architecture

Director — Michael Jemtrud

Emeritus Professors
Derek Drummond; B.Arch.(McG.), F.R.A.I.C., O.A.A. (*William C. Macdonald Emeritus Professor of Architecture*)
Radoslav Zuk; B.Arch.(McG.), M.Arch.(MIT), D.Sc. (Ukr. Acad. Art), F.R.A.I.C., F.R.S.A., F.A.R.C., O.A.Q., O.A.A.

Professors
Annmarie Adams; B.A.(McG.), M.Arch., Ph.D.(Calif., Berk.), M.R.A.I.C. (*William C. Macdonald Professor of Architecture*)
Vikram Bhatt; N.Dip.Arch.(Ahmedabad), M.Arch.(McG.), M.R.A.I.C.
Avi Friedman; B.Arch.(Technion), M.Arch.(McG.), Ph.D.(Montr.), O.A.Q., I.A.A.
Alberto Pérez-Gómez; Dipl.Eng.(Nat.Pol.Inst.Mexico), M.A., Ph.D.(Essex) (*Saidye Rosner Bronfman Professor of Architectural History*)
Adrian Sheppard; B.Arch.(McG.), M.Arch.(Yale), F.R.A.I.C., O.A.Q., A.A.P.P.Q.

Associate Professors
Martin Bressani; B.Sc.(Arch.), B.Arch.(McG.), M.Sc.Arch., Diplômes des études approfondies, Docteur de l'Université de Paris-Sorbonne(Paris IV)
Ricardo Castro; B.Arch.(Los Andes), M.Arch., M.A.(Art History) (Ore.), M.R.A.I.C.
David Covo; B.Sc.(Arch.), B.Arch.(McG.), F.R.A.I.C., O.A.Q.
Michael Jemtrud; B.Sc., B.A., B.Arch.(Penn. State), M.Arch.(McG.)
Robert Mellin; B.Arch., M.Sc.(Arch.)(Penn.State), M.Arch.(McG.), M.Sc., Ph.D.(Penn.), M.R.A.I.C., N.A.A.
Pieter Sijpkes; B.Sc.(Arch.), B.Arch.(McG.)

Assistant Professors
Nik Luka; B.A.A.(Ryerson), M.Arch.(Laval), Ph.D.(Tor.), M.C.I.P.
Aaron Sprecher; B.Arch.(Bezalel), M.Arch.(Calif.-LA)

Adjunct Professors
Robert Claiborne, Howard Davies, François Émond, Julia Gersovitz, Richard Klopp, Phyllis Lambert, Joanna Nash, Mark Poddubiuk, Conor Sampson, Jozef Zorko

Planetary Society Visiting Professor in Architecture
Torben Berns

Course Lecturers
Tom Balaban, Ewa Bieniecka, Lawrence Bird, Diana Cheng, Nancy Dunton, Maud Francoeur, Byeong Joon Kang,

Andrew King, Annie Lebel, Sybil McKenna, Carlos Rueda, Pierina Saia, Sheila Theophanides

Senior Critic
Dan Hanganu

Visiting Critics and Lecturers
Each year visitors are involved in the teaching of certain courses as critics and lecturers. These visitors change from year to year. In 2008, they were:

Gavin Affleck, Cecile Baird, Pierre-Félix Breton, Joe Carter, Henri Clienge, Georges Drolet, Leila Farah, Maxime Gagné, Benjamin Gianni, Amahl Hazelton, John Lawlor, Louis Lemay, Andrea MacElwee, Romolo Martemucci, Rafik Matta, Colin Munro, Steven Peck, Mark Pimlott, Tom Strickland, Jan Vrana, Alain Youkel.

ARCHITECTURAL CERTIFICATION IN CANADA

In Canada, all provincial associations recommend a degree from an accredited professional degree program as a prerequisite for licensure. The Canadian Architectural Certification Board (CACB), which is the sole agency authorized to accredit Canadian professional degree programs in architecture, recognizes two types of accredited degrees: the Bachelor of Architecture and the Master of Architecture. A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance, with established educational standards.

Master's degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the preprofessional degree is not, by itself, recognized as an accredited degree.

Since all provincial associations in Canada recommend any applicant for licensure to have graduated from a CACB-accredited program, obtaining such a degree is an essential aspect of preparing for the professional practice of architecture. While graduation from a CACB-accredited program does not assure registration, the accrediting process is intended to verify that each accredited program substantially meets those standards that, as a whole, comprise an appropriate education for an architect.

PROGRAMS OF STUDY

McGill's professional program in architecture is structured as a four-and-a-half-year, or nine-term, course of study divided into two parts.

The first part, for students entering with the Diploma of Collegial Studies in Pure and Applied Science or the equivalent, is a six-term design program leading to a non-professional degree, Bachelor of Science (Architecture). [Most students from outside Quebec are admitted to an eight-term B.Sc.(Arch.) program and enter a first year which includes courses outlined in section 9.3.1.3 "Architecture – Basic Science Requirements for Students Entering from Outside Quebec".

The second part, for students with the McGill B.Sc.(Arch.) degree, is a one-and-a-half-year, or three-term, program leading to the Master of Architecture (Professional) degree. The M.Arch. (Professional) degree is accredited by the Canadian Architectural Certification Board (CACB), and is recognized as accredited by the National Council of Architectural Registration Boards (NCARB) in the U.S.

Students in the B.Sc.(Arch.) program who intend to proceed to the professional degree must satisfy certain minimum requirements including:

1. complete the B.Sc.(Arch.) degree, including the series of required and complementary courses stipulated for professional studies, with a minimum CGPA of 3.00;
2. submit a portfolio of work executed in the sequence of six design studios, as well as samples of professional and personal work;
3. complete the minimum period of relevant work experience according to the current Work Experience Guidelines.

Further information on the M.Arch. (Professional) program is available at www.mcgill.ca/architecture.

Student Exchanges

A limited number of qualified students may participate in an exchange with schools of architecture at other universities which have agreements with the McGill School of Architecture, for a maximum of one term in the second year of the B.Sc.(Arch.) program. These include: Università Iuav di Venezia, Venice, Italy; Fakultät für Raumplanung und Architektur, Technische Universität Wien, Vienna, Austria; Institut Supérieur d'Architecture, Saint-Luc Bruxelles, Brussels, Belgium; École Nationale Supérieure d'architecture de Grenoble, Grenoble, France; École Nationale Supérieure d'architecture de Clermont-Ferrand, Clermont-Ferrand, France; Facoltà di Architettura Civile Politecnico di Milano (Boviso), Milan, Italy; The Royal Danish Academy of Fine Arts, School of Architecture, Copenhagen, Denmark.

ANCILLARY ACADEMIC FACILITIES

Laboratories and Workshops

Architectural Workshops – David Speller, Technician

Communications Laboratory, including Photo Lab – Carrie Henzie, Media Technician

Computers in Architecture Laboratories – Professors Robert Mellin and Aaron Sprecher

Library

Blackader-Lauterman Library of Architecture and Art, located in the Redpath Library – Marilyn Berger

Collections

Visual Resources Collection, including slides, film, video and other materials – Dr. Annmarie Adams

The John Bland Canadian Architecture Collection, housed in the Blackader-Lauterman Library – Ann Marie Holland, Preservations Librarian

Orson Wheeler Architectural Model Collection – Professor Pieter Sijpkes

Materials Resource Centre – Dr. Avi Friedman

CURRICULUM FOR THE B.Sc.(Arch.) DEGREE

Current information on program structure and courses is posted on the School of Architecture website at www.mcgill.ca/architecture.

REQUIRED COURSES		COURSE CREDIT	
Non-Departmental Subjects			
CIVE 284	Structural Engineering Basics	4	
CIVE 385*	Structural Steel and Timber Design	3	
CIVE 388*	Foundation and Concrete Design	3	
CIVE 492*	Structures	2	
FACC 220	Law for Architects and Engineers	3	**15**
* Candidates intending not to proceed to the M.Arch. (Professional) degree may substitute other courses of equal total weight for any of these.			
Architectural Subjects			
ARCH 201	Communication, Behaviour and Architecture	6	
ARCH 202	Architectural Graphics and Elements of Design	6	
ARCH 217	Freehand Drawing 1	1	
ARCH 218	Freehand Drawing 2	1	
ARCH 240	Organization of Materials in Building	3	
ARCH 241	Architectural Structures	3	
ARCH 242	Digital Representation	2	
ARCH 250	Architectural History 1	3	
ARCH 251	Architectural History 2	3	
ARCH 303	Design and Construction 1	6	
ARCH 304	Design and Construction 2	6	
ARCH 321	Freehand Drawing 3	1	
ARCH 322	Freehand Drawing 4	1	
ARCH 324	Sketching School	1	
ARCH 354	Architectural History 3	3	

ARCH 355	Architectural History 4	3	
ARCH 375	Landscape	2	
ARCH 377	Energy, Environment and Buildings	3	
ARCH 405	Design and Construction 3	6	
ARCH 406	Design and Construction 4	6	
ARCH 447	Lighting	2	
ARCH 451	Building Regulations and Safety	2	**70**

COMPLEMENTARY COURSES **9**

Students must complete 9 credits of architectural complementaries from the following list in order to qualify for the B.Sc.(Arch.) degree:

ARCH 318	Design Sketching	3	
ARCH 319	The Camera and Perception	3	
ARCH 350	The Material Culture of Canada	3	
ARCH 352	Art and Theory of House Design	3	
ARCH 363	Structure, Organization and Form	2	
ARCH 378	Site Usage	3	
ARCH 379	Summer Course Abroad	3	
ARCH 383	Geometry and Architecture	3	
ARCH 461	Freehand Drawing and Sketching	1	
ARCH 471	Computer-Aided Building Design	2	
ARCH 490	Selected Topics in Design	2	
ARCH 512	Architectural Modelling	3	
ARCH 514	Community Design Workshop	4	
ARCH 515	Sustainable Design	3	
ARCH 520	Montreal: Urban Morphology	3	
ARCH 521	Structure of Cities	3	
ARCH 522	History of Domestic Architecture in Quebec	3	
ARCH 523	Significant Texts and Buildings	3	
ARCH 524	Critical Design Strategies	3	
ARCH 525	Seminar on Analysis and Theory	3	
ARCH 526	Philosophy of Structure	3	
ARCH 527	Civic Design	3	
ARCH 528	History of Housing	3	
ARCH 529	Housing Theory	3	
ARCH 531	Architectural Intentions Vitruvius - Renaissance	3	
ARCH 532	Origins of Modern Architecture	3	
ARCH 533	New Approaches to Architectural History	3	
ARCH 534	Architectural Archives	3	
ARCH 535	History of Architecture in Canada	3	
ARCH 536	Heritage Conservation	3	
ARCH 540	Selected Topics in Architecture 1	3	
ARCH 541	Selected Topics in Architecture 2	3	
ARCH 554	Mechanical Services	2	
ARCH 555	Environmental Acoustics	2	
OCC1 442	Environments for the Disabled	2	

ELECTIVE COURSES **6**

6 credits must be completed outside the School of Architecture, subject to approval by the Student adviser.

TOTAL **100**

9.5.2 Department of Chemical Engineering

M.H. Wong Building, Room 3060
3610 University Street
Montreal, QC H3A 2B2

Chair — Dimitrios Berk

Emeritus Professors
John M. Dealy; B.S.(Kansas), M.S.E., Ph.D.(Mich.), Eng.
Musa R. Kamal; B.S.(Ill.), M.S., Ph.D.(Carn. Mell), Eng.
Martin E. Weber; B.S.E.(Prin.), Sc.D.(MIT), P.Eng.
Juan H. Vera; B.Mat.(Chile), Ing.Quim.(U.T.E.), M.S.(Calif., Berk.), Dr.Ing.(Santa Maria), Ing.

Professors
David G. Cooper; B.Sc., Ph.D.(Tor.)
Richard J. Munz; B.A.Sc., M.A.Sc.(Wat.), Ph.D.(McG.), Eng.
Alejandro D. Rey; B.Ch.Eng.(CCNY), Ph.D.(Calif., Berk.) (*James McGill Professor*)

Associate Professors
Dimitrios Berk; B.Sc.(Bosphorus), M.E.Sc.(W. Ont.), Ph.D.(Calg.), P.Eng.
Sylvain Coulombe; B.Sc., M.Sc.A.(Sherb.), Ph.D.(McG.), Ing.
Reghan James Hill; B.Eng., Ph.D.(C'nell)
Richard L. Leask; B.A.Sc., M.A.Sc.(Wat.), Ph.D.(Tor.), P.Eng.
Jean-Luc Meunier; Dipl.Ing., EPFL(Lausanne), M.Sc., Ph.D., INRS(Varennes), Ing.
Sasha Omanovic; Dipl.Ing., Ph.D.(Zagreb)
Thomas Quinn; B.Sc.(Qu.), S.M., Ph.D.(MIT)

Assistant Professors
Elizabeth Jones; B.A.Sc.(Waterloo), MS, Ph.D.(Cal. Tech.)
Milan Maric; B.Sc., B.Eng. & Mgmt(McM.), Ph.D.(Minn.), P.Eng.
Phillip Servio; B.Sc., Ph.D.(Minn.)
Nathalie Tufenkji; B.Eng.(McG.), M.Sc., Ph.D.(Yale)
Viviane Yargeau; B.Eng., M.Sc.A., Ph.D.(Sher.), Ing.

Post-Retirement
W.J. Murray Douglas; B.Sc.(Qu.), M.S.E., Ph.D.(Mich.)

PAPRICAN Adjunct Professor
George J. Kubes; B.Eng., M.Eng.(Prague), Ph.D.(Bratislava)

Adjunct Professors
T. Addona, P. Bisaillon, M. Davidovsky, M. Fokas, D.J. McKeagan, B. McNicoll, A. De Mori, M. Perrier, B.E. Sarkis, J. Simandl, B. Théorét, R.C. Urquhart

The central purpose of engineering is to pursue solutions to technological problems in order to satisfy the needs and desires of society. Chemical engineers are trained to solve the kinds of problems that are typically found in the "chemical process industries", which include the chemical manufacturing, plastics, water treatment, pulp and paper, petroleum refining, ceramics, and paint industries as well as substantial portions of the food processing, textile, nuclear energy, biochemical, biomedical and pharmaceutical industries. The technological problems and opportunities in these industries are often closely linked to social, economic and environmental concerns. For this reason, practitioners of chemical engineering often deal with these questions when they are working in management, pollution abatement, product development, marketing and equipment design.

The discipline of chemical engineering is distinctive in being based equally on physics, mathematics and chemistry. Application of these three fundamental sciences is basic to a quantitative understanding of the process industries. Those with an interest in the fourth major science, biology, will find several courses in the chemical engineering curriculum which integrate aspects of the biological sciences relevant to process industries such as food processing, fermentation, biomedical and water pollution control. Courses on the technical operations and economics of the process industries are added to this foundation. The core curriculum concludes with process design courses taught by practising design engineers. Problem-solving, experimenting, planning and communication skills are emphasized in courses throughout the core curriculum.

By means of complementary courses, students can also obtain further depth in technical areas and breadth in non-technical subjects. Some students elect to complete a minor in biotechnology, management, materials engineering, computer science, environmental engineering or chemistry.

The solution to many environmental problems requires an understanding of technological principles. A chemical engineering degree provides an ideal background. In addition to relevant material learned in the core program, a selection of environmental complementary courses and minor programs is available. The involvement of many chemical engineering staff members in environmental research provides the opportunity for undergraduate students to carry out research projects in this area.

The curriculum also provides the preparation necessary to undertake postgraduate studies leading to the M.Eng. or Ph.D.

degrees in chemical engineering. Students completing this curriculum acquire a broad, balanced education in the natural sciences with the accent on application. Thus, for those who do not continue in chemical engineering, it provides an exceptionally balanced education in applied science. For others, it will form the basis of an educational program that may continue with a variety of studies such as business administration, medicine or law. Versatility is, then, one of the most valuable characteristics of the graduate of the chemical engineering program.

ACADEMIC PROGRAM

For those who have completed the Quebec CEGEP-level program in Pure and Applied Sciences, the Chemical Engineering Program comprises 111 credits as outlined below. Certain students who take advantage of summer session courses can complete the departmental programs in three calendar years. Students who have passed Chemistry 202 or 302 at the CEGEP level may be exempt from course CHEM 212 or CHEM 234, respectively (Introductory Organic Chemistry 1 and Selected Topics in Organic Chemistry), the corresponding courses are transferred from required courses to electives.

For appropriately qualified high school graduates from outside Quebec, an extended credit program is available, as described in section 9.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec".

In some cases students from university science disciplines have sufficient credits to complete the requirements for the B.Eng. (Chemical) program in two years. Those concerned should discuss this with their adviser.

Students must obtain a grade of C or better in all core courses. For the Department of Chemical Engineering, core courses include all required courses (departmental and non-departmental) as well as complementary courses (departmental).

CURRICULUM FOR THE B.ENG. DEGREE IN CHEMICAL ENGINEERING

REQUIRED COURSES		COURSE CREDIT	
Non-Departmental Courses			
CHEM 212	Introductory Organic Chemistry 1	4	
CHEM 234	Topics in Organic Chemistry	3	
COMP 208	Computers in Engineering	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MIME 221	Engineering Professional Practice	2	
MIME 310	Engineering Economy	3	**24**
Chemical Engineering Courses			
CHEE 200	Introduction to Chemical Engineering	4	
CHEE 204	Chemical Manufacturing Processes	3	
CHEE 220	Chemical Engineering Thermodynamics	3	
CHEE 291	Instrumental Measurement Laboratory	4	
CHEE 310	Physical Chemistry for Engineers	3	
CHEE 314	Fluid Mechanics	4	
CHEE 315	Heat and Mass Transfer	4	
CHEE 340	Process Modelling	3	
CHEE 351	Separation Processes	3	
CHEE 360	Technical Paper 1	1	
CHEE 370	Elements of Biotechnology	3	
CHEE 380	Materials Science	3	
CHEE 392	Project Laboratory 1	4	
CHEE 393	Project Laboratory 2	5	
CHEE 423	Chemical Reaction Engineering	4	
CHEE 453	Process Design	4	
CHEE 455	Process Control	4	
CHEE 456	Design Project 1	1	
CHEE 457	Design Project 2	5	
CHEE 462	Technical Paper 2	1	
CHEE 474	Biochemical Engineering	3	
CHEE 484	Materials Engineering	3	**72**

COMPLEMENTARY COURSES	
Courses to be selected from those approved by the Department (see list of technical complementaries below).	**9**
Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.	**6**
Note: Out-of-province (high school) students completing the basic science requirements for students entering outside Quebec (see section 9.3.1.2) need an additional 3 credits of pre-engineering Humanities and Social Sciences (HSS) courses.	
TOTAL	**111**

For students starting their B.Eng. studies in September who have completed the Quebec Diploma of Collegial Studies, a program for the first two terms of study is given below:

Term 1		**Credits**	
CHEE 200	Introduction to Chemical Engineering	4	
CHEE 291	Instrumental Measurement Laboratory	4	
CHEM 212	Introductory Organic Chemistry 1	4	
MATH 262	Intermediate Calculus	3	
MIME 221	Engineering Professional Practice	2	**17**
Term 2			
CHEE 204	Chemical Manufacturing Processes	3	
CHEE 220	Chemical Engineering Thermodynamics	3	
CHEM 234	Topics in Organic Chemistry	3	
COMP 208	Computers in Engineering	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	**15**

Students entering their second year of study or who are starting in January must plan their program of studies in consultation with their Departmental adviser.

Additional information can be found on the Faculty website at www.mcgill.ca/engineering, as well as in section 9.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec".

TECHNICAL COMPLEMENTARIES

A minimum of 9 credits of complementary courses must be chosen from a list of technical complementaries approved by the Department. The purpose of this requirement is to provide students with an area of specialization within the broad field of chemical engineering. Alternatively, some students use the technical complementaries to increase the breadth of their chemical engineering training.

At least two (2) technical complementary courses are to be selected from those offered by the Department (list below). Permission is given to take the third complementary course from other suitable undergraduate courses in the Faculty of Engineering.

The Technical Complementary courses currently approved by the Department are as follows:

BIOT 505	Selected Topics in Biotechnology (Biotechnology Minor students only)
CHEE 363	Projects Chemical Engineering 1
CHEE 438	Engineering Principles in Pulp and Paper Processes
CHEE 452	Particulate Systems
CHEE 458	Computer Applications
CHEE 464	Projects in Chemical Engineering 2
CHEE 487	Chemical Processing: Electronics Industry
CHEE 494	Research Project and Seminar 1
or CHEE 495	Research Project and Seminar 2
or CHEE 496	Environmental Research Project
CHEE 541	Electrochemical Engineering
CHEE 543	Plasma Engineering
CHEE 561	Introduction to Soft Tissue Biophysics
CHEE 562	Engineering Principles in Physiological Systems

CHEE 563	Biofluids and Cardiovascular Mechanics
or MECH 563	Biofluids and Cardiovascular Mechanics
CHEE 571	Small Computer Applications: Chemical Engineering
CHEE 582	Polymer Science & Engineering
CHEE 584	Polymer Processing
CHEE 591	Environmental Bioremediation
CHEE 592	Industrial Air Pollution Control
or MECH 534	Air Pollution Engineering
CHEE 593	Industrial Water Pollution Control
or CIVE 430	Water Treatment and Pollution Control
CHEE 594	Biocolloids in Environmental Systems
CHEE 595	Energy Recovery, Use, & Impact

Courses CHEE 582 and CHEE 584 comprise a Polymeric Materials sequence. Additional courses in this area are available in the Chemistry Department (e.g., CHEM 455) or at the graduate level (CHEE 681 to CHEE 684). The Department has considerable expertise in the polymer area.

Courses CHEE 370 and CHEE 474 make up a sequence in Biochemical Engineering-Biotechnology. Students interested in this area may take additional courses, particularly those offered by the Department of Food Science and Agricultural Chemistry, Faculty of Agricultural and Environmental Sciences, and courses in biochemistry and microbiology. The food, beverage and pharmaceutical industries are large industries in the Montreal area and these courses are relevant to these industries and to the new high-technology applications of biotechnology.

The third area in which there is a sequence of courses is Pollution Control. The Department offers three courses in this area: CHEE 591, CHEE 592, and CHEE 593. As some water pollution control problems are solved by microbial processes, course CHEE 474 is also relevant to the pollution control area. Likewise, as the solution to pollution problems frequently involves removal of particulate matter from gaseous or liquid streams, course CHEE 452 is also relevant. Additional courses in this area are listed under section 9.6.8 “Environmental Engineering Minor”.

A Minor in Biotechnology is also offered in the Faculties of Engineering and of Science with emphasis on Molecular Biology and Chemical Engineering Processes. A full description of the program appears in section 9.6.3 “Biotechnology Minor”.

Note that many of the technical complementaries are offered only in alternate years. Students should, therefore, plan their complementaries as far ahead as possible. With the approval of the instructor and academic adviser, students may take graduate (CHEE 500-level) courses as technical complementaries.

ELECTIVE COURSES

Students who have obtained exemptions for courses, i.e., for CEGEP courses equivalent to CHEM 212 or CHEM 234, or who take more than the minimum requirements for the degree, may choose university-level courses in any field. Approval of an elective course requires only that no timetable conflicts are created and that it not be a repetition of material already covered in the curriculum or already mastered by the student.

CURRICULUM COMMITTEE

The Curriculum Committee is composed of three students, elected by their classes, and three staff members. This Committee provides a forum for all matters involving undergraduate student/staff interactions. While the primary concern is with matters of curriculum and courses (their content, evaluation, scheduling, etc.), the Committee has also taken up a number of other matters in recent years, e.g., working space, facilities (equipment and libraries), etc.

CANADIAN SOCIETY FOR CHEMICAL ENGINEERING

The Chemical Engineering Student Society has for many years been affiliated both with the CSChE (Canadian Society for Chemical Engineering) and with the AIChE (American Institute of Chemical Engineers). For a nominal fee students receive *Canadian Chemical News*, a monthly publication, and the AIChE Student Members Bulletin as well as other privileges of student membership in the two societies. The student chapter also organizes a series of local social, educational and sporting events. For example, recent events have included student-professor banquets and Christmas parties, dances, speakers, broomball games and joint meetings with the Montreal Section of the CSChE. The latter gives students a chance to mix with practising chemical engineers.

Ghyslaine McClure; B.Ing.(Montr.), S.M.C.E.(MIT), Ph.D.(Montr.), Eng., Graduate Program Director
Colin Rogers; B.A.Sc., M.A.Sc.(Wat.), Ph.D.(Syd.), P.Eng.
Yixin Shao; B.S., M.S.(Tongji), Ph.D.(N’western), P.Eng., Undergraduate Program Director

Assistant Professors

Andrew J. Boyd; B.Sc.Eng.(New Br.) M.A.Sc.(Tor.), Ph.D.(Br. Col.), P.Eng., F.A.C.I.
Dominic Frigon; B.Sc.(Agr.Sci.), M.Sc.(McG.), Ph.D.(Env.Sci.)(Ill.)
Mohamed Abdel-Meguid; B.Sc.(Cairo, Azhar), M.Sc., Ph.D.(W. Ont.), P.Eng.
Luis Miranda-Morena; B.Sc., M.Eng.(Mexico), M.Sc., Ph.D.(Wat.)

Adjunct Professors

Sofia Babarutsi, Richard Edwards, John Hadjinicolaou, Jalal Hawari, Konrad Jones, Angela Keane, Zoubir Lounis, Pierre Lundahl, Patrick Maillard, Charles Manatakos, Thanh Son Nguyen, Paul Rodrigue, Sandro Scola, William Taylor, Marc Villeneuve, Jan Vrana

Civil engineers have traditionally applied scientific and engineering knowledge to the task of providing the built environment, from its conception and planning to its design, construction, maintenance and rehabilitation. Examples include buildings, bridges, roads, railways, dams, and facilities for water supply and treatment, and waste disposal. With the aging and deterioration of an already vast

infrastructure, its maintenance and rehabilitation has become an increasingly important role of the civil engineering profession. Also, with worldwide concern about the detrimental impact of human activities on the environment, civil engineers are now in the forefront of developing and providing the means for both prevention and remediation of many aspects of environmental pollution.

The program in Civil Engineering is comprehensive in providing the fundamentals in mechanics and engineering associated with the diverse fields of the profession, in offering choices of specialization, and in fully reflecting the advances in science, mathematics, engineering and computing that have transformed all fields of engineering in recent years. The resulting knowledge and training enables graduates to not only enter the profession thoroughly well prepared, but also to adapt to further change.

The required courses ensure a sound scientific and analytical basis for professional studies through courses in solid mechanics, fluid mechanics, soil mechanics, environmental engineering, water resources management, structural analysis, systems analysis and mathematics. Fundamental concepts are applied to various fields of practice in both required and complementary courses.

By a suitable choice of complementary courses, students can attain advanced levels of technical knowledge in the specialized areas mentioned above. Alternatively, students may choose to develop their interests in a more general way by combining complementary courses within the Department with several from other departments or faculties.

Students who wish to extend their knowledge in certain areas beyond the range that the program complementary courses allow can also take a Minor program. Minors are available in fields such as Arts, Economics, Management, Environmental Engineering, and Construction Engineering and Management. These require additional credits to be taken from a specified list of topics relating to the chosen field. Further information on the various Minor programs may be found in section 9.6 “Minor Programs”. Details of how the Minors can be accommodated within the Civil Engineering program will be made available at the time of preregistration counselling.

ACADEMIC PROGRAMS

Considerable freedom exists for students to influence the nature of the program of study which they follow in the Department of Civil Engineering and Applied Mechanics. A variety of advanced complementary courses is offered in five main groupings: Environmental Engineering, Geotechnical and Geoenvironmental Engineering, Water Resources and Hydraulic Engineering, Structural Engineering, and Transportation Engineering.

Guidance on the sequence in which required core courses should be taken is provided for students in the form of a sample program which covers the entire period of study. The technical complementary courses selected, usually in the last two terms of the program, will depend upon the student's interests. All students must meet with their adviser each term to confirm the courses for which they are registered.

Courses taken in Term 3 or later will depend on a student's interests and ability. Information and advice concerning different possibilities are made available in the Department prior to registration. All programs require the approval of a staff adviser. Programs for students transferring into the Department with advanced standing will be dependent upon the academic credit previously achieved, and such a program will be established only after consultation with a staff adviser.

CURRICULUM FOR THE B.ENG. DEGREE IN CIVIL ENGINEERING

REQUIRED COURSES		COURSE CREDIT	
Non-departmental courses			
COMP 208	Computers in Engineering	3	
EDEC 206	Communication in Engineering	3	
EPSC 221	General Geology	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MECH 261	Measurement Laboratory	2	
MECH 289	Design Graphics	3	
MIME 221	Engineering Professional Practice	2	
MIME 310	Engineering Economy	3	**28**
Departmental courses			
CIVE 202	Construction Materials	4	
CIVE 205	Statics	3	
CIVE 206	Dynamics	3	
CIVE 207	Solid Mechanics	4	
CIVE 208	Civil Engineering Systems Analysis	3	
CIVE 210	Surveying	2	
CIVE 225	Environmental Engineering	4	
CIVE 290	Thermodynamics and Heat Transfer	3	
CIVE 302	Probabilistic Systems	3	
CIVE 311	Geotechnical Mechanics	4	
CIVE 317	Structural Engineering 1	3	
CIVE 318	Structural Engineering 2	3	
CIVE 319	Transportation Engineering	3	
CIVE 320	Numerical Methods	4	
CIVE 323	Hydrology and Water Resources	3	
CIVE 324	Construction Project Management	3	
CIVE 327	Fluid Mechanics and Hydraulics	4	
CIVE 418	Design Project	4	
CIVE 432	Technical Paper	1	**60**
COMPLEMENTARY COURSES			
A minimum of six credits to be selected from list (a) and the remaining nine credits to be selected from lists (a) or (b) or from other suitable undergraduate or 500-level courses.			**15**
(a) Design Technical Complementaries			
CIVE 416	(3) Geotechnical Engineering		
CIVE 421	(3) Municipal Systems		
CIVE 428	(3) Water Resources and Hydraulic Engineering		
CIVE 430	(3) Water Treatment and Pollution Control		
CIVE 462	(3) Design of Steel Structures		
CIVE 463	(3) Design of Concrete Structures		
(b) General Technical Complementaries			
CIVE 433	(3) Urban Planning		
CIVE 440	(3) Traffic Engineering		
CIVE 446	(3) Construction Engineering		
CIVE 451	(3) Geoenvironmental Engineering		
CIVE 460	(3) Matrix Structural Analysis		
CIVE 470	(3) Undergraduate Research Project		
CIVE 512	(3) Advanced Civil Engineering Materials		
CIVE 527	(3) Renovation and Preservation: Infrastructure		
CIVE 540	(3) Urban Transportation Planning		
CIVE 550	(3) Water Resources Management		
CIVE 551	(3) Environmental Transport Processes		
CIVE 553	(3) Stream Pollution and Control		
CIVE 555	(3) Environmental Data Analysis		
CIVE 572	(3) Computational Hydraulics		
CIVE 573	(3) Hydraulic Structures		
CIVE 574	(3) Fluid Mechanics of Water Pollution		
CIVE 577	(3) River Engineering		
CIVE 584	(3) Groundwater Engineering		
CIVE 587	(3) Pavement Design		
Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 “Complementary Studies” for further information.			**6**
TOTAL CREDITS			**110**

Tomas J.F. Pavlasek; B.Eng., M.Eng., Ph.D.(McG.), Eng.
Nicholas C. Rumin; B.Eng., M.Sc., Ph.D.(McG.), Eng.

Post-Retirement
Clifford H. Champness; M.Sc.(Lond.), Ph.D.(McG.)

Professors
Peter E. Caines; B.A.(Oxf.), D.I.C., Ph.D.(Lond.), F.R.S.C., F.I.E.E.E., F.C.I.A.R. (*James McGill Professor*) (*Macdonald Professor*)
James Clark; B.A.Sc., Ph.D.(Br. Col.), *Associate Dean, Academic*
Frank Ferrie; B.Eng., Ph.D.(McG.)
Francisco D. Galiana; B.Eng.(McG.), S.M., Ph.D.(MIT), F.I.E.E.E., Eng.
Vincent Hayward; Dip.Ing.(ENSM, Nantes), Doc.Ing.(Orsay), Eng.
Geza Joos; B.Sc.(C'dia), M.Eng., Ph.D.(McG.) (*CRC Chair*)
Peter Kabal; B.A.Sc., M.A.Sc., Ph.D.(Tor.)
Tho Le-Ngoc; M.Eng.(McG.), Ph.D.(Ott.), F.I.E.E.E.
Harry Leib; B.Sc.(Technion), Ph.D.(Tor.)
Martin D. Levine; B.Eng., M.Eng.(McG.), Ph.D.(Lond.), F.C.I.A.R., F.I.E.E.E., Eng.
David A. Lowther; B.Sc.(Lond.), Ph.D.(C.N.A.A.), F.C.A.E., Eng. (*James McGill Professor*)
Lorne Mason; B.Eng., Ph.D.(Sask.)
Boon-Teck Ooi; B.E.(Adel.), S.M.(MIT), Ph.D.(McG.), Eng.
David V. Plant; M.S., Ph.D.(Brown), P.Eng., F.I.E.E.E., F.O.S.A. (*James McGill Professor*)
Gordon Roberts; B.A.Sc.(Wat.), M.A.Sc., Ph.D.(Tor.), Eng., F.I.E.E.E. (*James McGill Professor*)
Jonathan Webb; B.A., Ph.D.(Cant.)

Associate Professors
Jan Bajcsy; B.Sc.(Harv.), M.Eng., Ph.D.(Prin.)
Benoit Boulet; B.Sc.(Laval), M.Eng.(McG.), Ph.D.(Tor.) (*William Dawson Scholar*)
Benoit Champagne; B.Eng., M.Eng.(Montr.), Ph.D.(Tor.)
Lawrence Chen; B.Eng.(McG.), M.A.Sc., Ph.D.(Tor.)
Jeremy R. Cooperstock; B.Ap.Sc.(Br. Col.), M.Sc., Ph.D.(Tor.)
Mark Coates; B.Eng.(Adel.), Ph.D.(Camb.)
Mourad El-Gamal; B.Sc.(Cairo), M.Sc.(Nashville), Ph.D.(McG.) (*William Dawson Scholar*)
Dennis Giannacopoulos; M.Eng., Ph.D.(McG.)
Roni Khazaka; M.Eng., Ph.D.(Car.)
Andrew Kirk; B.Sc.(Brist.), Ph.D.(Lond.), *Associate Dean, Research and Graduate Education* (*William Dawson Scholar*)
Fabrice Labeau; M.S., Ph.D.(Louvain)
Steve McFee; B.Eng., Ph.D.(McG.)
Hannah Michalska; B.Sc., M.Sc.(Warsaw), Ph.D.(Lond.)
Milica Popovich; B.Sc.(Colo.), M.Sc., Ph.D.(N'western)
Ioannis Psaromiligkos; B.Sc.(Patras), M.Sc., Ph.D.(Buffalo)
Richard Rose; B.Sc., M.S.(Ill.), Ph.D.(GIT)
Ishiang Shih; M.Eng., Ph.D.(McG.)
Zeljko Zilic; B.Eng.(Zagreb), M.Sc., Ph.D.(Tor.)

Assistant Professors
Ramesh Abhari; M.A.Sc.(Tehran), Ph.D(Tor.)
Tal Arbel; M.Eng., Ph.D.(McG.)
Vamsy Chodavarapu; B.Eng.(India), M.S., Ph.D.(NYU)
Warren Gross; B.A.Sc.(Wat.), M.A.Sc., Ph.D.(Tor.)
Anas Hamoui; M.Eng.(McG.), Ph.D.(Tor.)
Odile Liboiron-Ladouceur; M.Sc., Ph.D.(Col.)
Shie Mannor; B.A., B.Sc., Ph.D.(Haifa)
Zetian Mi; B.A.Sc.(China), M.Sc.(Iowa), PhD.(Mich.)
Sam Musallam; B.Sc., M.Sc., Ph.D.(Tor.)
Michael Rabbat; B.S.(Ill.), M.S.(Texas), Ph.D.(Wis.)
Martin Rochette; B.A., M.Eng., Ph.D.(Laval)
Thomas Szkopek; B.A.Sc., M.A.Sc.(Tor.) Ph.D.(Calif.-LA)
Mai Vu; M.S., Ph.D.(Stan.)

Lecturer
Kenneth L. Fraser; B.Eng., M.Eng.(McG.)

Associate Members
D.L. Collins; Ph.D.(McG.)
Gregory Dudek; B.Sc.(Qu.), M.Sc., Ph.D.(Tor.)
Alan C. Evans; M.Sc.(Surrey), Ph.D.(Leeds)
William R. Funnell; M.Eng., Ph.D.(McG.)
Henrietta L. Galiana; M.Eng., Ph.D.(McG.)
Jean Gotman; M.E.(Dart.), Ph.D.(McG.)
Robert E. Kearney; M.Eng., Ph.D.(McG.)
Frank Verhaegen; Ph.D.(Ghent)

Adjunct Professors
Ray Bartnikas, Eric Boisvert, Charalambos Charalambous, Robert DiRaddo, Danny Grant, Cedric Guss, Cheng K. Jen, Irene Leszkowicz, Miguel Marin, Douglas O'Shaughnessy, Farouk Rizk, Anthony Rodolakis, Robert Sabourin.

The Department of Electrical and Computer Engineering offers undergraduate degree programs in Electrical Engineering, Electrical Engineering (Honours), Computer Engineering, and Software Engineering. All programs provide students with a strong background in mathematics, basic sciences, engineering science, engineering design and complementary studies, in conformity with the requirements of the Canadian Engineering Accreditation Board (CEAB).

The program in Electrical Engineering gives students a broad understanding of the key principles that are responsible for the extraordinary advances in the technology of computers, micro-electronics, automation and robotics, telecommunications and power systems. These areas are critical to the development of our industries and, more generally, to our economy. A graduate of this program is exposed to all basic elements of electrical engineering and can function in any of our client industries. This breadth is what distinguishes an engineer from, say, a computer scientist or physicist.

The program in Electrical Engineering (Honours) is designed for students who wish to pursue postgraduate work and look to a career in advanced research and development. The technical complementaries are selected from graduate courses, facilitating the transition to postgraduate studies. Students in this curriculum benefit from smaller classes and have more contact with professorial staff and graduate students. However, the program is quite demanding. Students are expected to register for at least 14 credits per term; they may register for a smaller number only with the permission of the Chair of this Department. Students in the Honours program must maintain a minimum GPA of 3.30. Those who fail to maintain this standard are transferred to the regular program.

The program in Computer Engineering provides students with greater depth and breadth of knowledge in the hardware and software aspects of computers. Students are exposed to both theoretical and practical issues of both hardware and software in well-equipped laboratories. Although the program is designed to meet the growing demands by industry for engineers with a strong background in modern computer technology, it also provides the underlying depth for graduate studies in all fields of Computer Engineering.

The program in Software Engineering offers students the opportunity to focus their studies on the skills needed to design and develop complex software systems. This emerging field of engineering is a major component of the growing Information Technology (IT) sector of the economy, in which the demand for qualified personnel continues to outstrip supply. Graduates of this program will have a solid foundation for careers in the software industry. This program has been recently accredited by the Canadian Engineering Accreditation Board.

In addition to technical complementary courses, students in all three programs take general complementary courses in social sciences, administrative studies and humanities. These courses allow students to develop specific interests in areas such as psychology, economics, management or political science.

Entry into the Honours Program (Electrical Engineering)

The Honours program is a limited enrolment program and entry is highly competitive. There is no direct entry to the Honours program in the first year. Students may enter the Honours program in the following ways:

- Students from CEGEP will be admitted, on the basis of their grades, at the start of the third term.
- Students from outside Quebec will be admitted, on the basis of their grades, at the start of the fifth term.

Though not required to do so, students in the Honours program or wishing to enter the Honours program are encouraged to take the following advanced math and physics courses:

MATH 325	Honours Ordinary Differential Equations	instead of MATH 263
MATH 247	Honours Applied Linear Algebra	instead of MATH 271
MATH 248	Honours Advanced Calculus	instead of MATH 264
MATH 249	Honours Complex Variables	instead of MATH 381
PHYS 251	Honours Classical Mechanics 1	instead of CIVE 281

To remain in the Honours program and to be awarded the Honours degree, a student must have completed at least 14 credits in each term since entering Electrical and Computer Engineering, except for the final two terms of their degree, and maintained a CGPA of at least 3.30 since entering Electrical and Computer Engineering. In either of their final two full terms (i.e., Fall and Winter, or Winter and Fall) students may drop below 14 credits, provided the combined load for the two terms is at least 16 credits. For more information, please contact the Departmental office at 514-398-3943.

CURRICULUM FOR THE B.ENG. DEGREE IN ELECTRICAL ENGINEERING (HONOURS)

REQUIRED COURSES		COURSE CREDIT	
Non-Departmental Courses			
COMP 202	Introduction to Computing 1	3	
EDEC 206	Communication in Engineering	3	
MATH 262	Intermediate Calculus	3	
MATH 247*	Honours Applied Linear Algebra	3	
or MATH 271	Linear Algebra and Partial Differential Equations (3)		
MATH 248*	Honours Advanced Calculus	3	
or MATH 264	Advanced Calculus ENG		
MATH 249	Honours Complex Variables	3	
or MATH 381	Complex Variables and Transforms (3)		
MATH 325	Honours Ordinary Differential Equations	3	
or MATH 263	Ordinary Differential Equations and Linear Algebra (3)		
MIME 221	Engineering Professional Practice	2

ECSE 499	Honours Thesis 2	3	
ECSE 543	Numerical Methods in Electrical Engineering	3	**60**

COMPLEMENTARY COURSES **9**

Technical Complementaries

Three technical complementary courses (9 credits). Each courses must be either a 500-level ECSE course, or one of the following (no more than one 400-level course can be chosen as a technical complementary).

COMP 535	Computer Networks 1
ECSE 425	Computer Organization and Architecture
ECSE 427	Operating Systems
ECSE 451	EM Transmission and Radiation

Laboratory Complementaries **2-3**

One course must be chosen from the following list:

ECSE 426	Microprocessor Systems
ECSE 431	Introduction to VLSI CAD
ECSE 435	Mixed-Signal Test Techniques
ECSE 436	Signal Processing Hardware
ECSE 450	Electromagnetic Compatibility
ECSE 485	IC Fabrication Laboratory
ECSE 486	Power Laboratory
ECSE 487	Computer Architecture Laboratory
ECSE 488	High Frequency Laboratory
ECSE 490	Digital Signal Processing Laboratory
ECSE 491	Communication Systems Laboratory
ECSE 493	Control and Robotics Laboratory

General Complementaries **6**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 “Complementary Studies” for further information.

TOTAL CREDITS **109-110**

CURRICULUM FOR THE B.ENG. DEGREE IN ELECTRICAL ENGINEERING (REGULAR)

REQUIRED COURSES		COURSE CREDIT
Non-Departmental Courses		
CIVE 281	Analytical Mechanics	3
COMP 202	Introduction to Computing 1	3
EDEC 206	Communication in Engineering	3
MATH 262	Intermediate Calculus	3

MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MATH 271	Linear Algebra and Partial Differential Equations	3	
MATH 381	Complex Variables and Transforms	3	
MIME 221	Engineering Professional Practice	2

PHYS 271	Introduction to Quantum Physics	3	**32**

Departmental Courses

ECSE 200	Electric Circuits 1	3	
ECSE 210	Electric Circuits 2	3	
ECSE 211	Design Principles and Methods	3	
ECSE 212	Properties of Materials in Electrical Engineering	3	
or MIME 262	Properties of Materials in Electrical Engineering (3)		
ECSE 221	Introduction to Computer Engineering	3	
ECSE 291	Electrical Measurements Laboratory	2	
ECSE 303	Signals and Systems 1	3	
ECSE 304	Signals and Systems 2	3	
ECSE 305	Probability and Random Sig. 1	3	
ECSE 322	Computer Engineering	3	
ECSE 323	Digital System Design	5	
ECSE 330	Introduction to Electronics	3	
ECSE 334	Introduction to Microelectronics	3	
ECSE 351	Electromagnetic Fields	3	
ECSE 352	Electromagnetic Waves	3	
ECSE 361	Power Engineering	3	
ECSE 434	Microelectronics Laboratory	2	
ECSE 443	Introduction to Numerical Methods of Electrical Engineering	3	
ECSE 474	Design Project 1	1	
ECSE 475	Design Project 2	2	**57**

COMPLEMENTARY COURSES

Technical Complementaries **12**

Four courses must be taken from the following list:

ECSE 404	Control Systems	3
ECSE 405	Antennas	3
ECSE 411	Communications Systems 1	3
ECSE 412	Discrete Time Signal Processing	3
ECSE 413	Communications Systems 2	3
ECSE 414	Introduction to Telecommunication Networks	3
ECSE 420	Parallel Computing	3
ECSE 421	Embedded Systems	3
ECSE 422	Fault Tolerant Computing	3
ECSE 423	Fundamentals of Photonics	3
ECSE 424	Human-Computer Interaction	3
ECSE 425	Computer Organization and Architecture	3
ECSE 426	Microprocessor Systems	3
ECSE 427	Operating Systems	3
ECSE 430	Photonic Devices and Systems	3
ECSE 431	Introduction to VLSI CAD	3
ECSE 432	Physical Basis: Transistor Devices	3
ECSE 435	Mixed-Signal Test Techniques	3
ECSE 436	Signal Processing Hardware	3
ECSE 450	Electromagnetic Compatibility	3
ECSE 451	EM Transmission and Radiation	3
ECSE 460	Appareillage électrique (Electrical Power Equipment)	3
ECSE 462	Electromechanical Energy Conversion	3
ECSE 464	Power System Analysis 1	3
ECSE 465	Power Electronic Systems	3
ECSE 467	Comportement des réseaux électriques	3
ECSE 468	Electricité industrielle (Industrial Power Systems)	3
ECSE 469	Protection des réseaux électriques	3

Laboratory Complementaries **2-3**

One course must be chosen from the following list:

ECSE 426	Microprocessor Systems	3
ECSE 431	Introduction to VLSI CAD	3
ECSE 435	Mixed-Signal Test Techniques	3
ECSE 436	Signal Processing Hardware	3
ECSE 450	Electromagnetic Compatibility	3
ECSE 485	IC Fabrication Laboratory	2
ECSE 486	Power Laboratory	2
ECSE 487	Computer Architecture Laboratory	2
ECSE 488	High Frequency Laboratory	2
ECSE 489	Telecommunication Network Lab	2
ECSE 490	Digital Signal Processing Laboratory	2
ECSE 491	Communication Systems Laboratory	2
ECSE 493	Control and Robotics Laboratory	2

General Complementaries **6**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.

TOTAL CREDITS **109-110**

*** Enhanced Power Concentration**

(Students following this program must complete 15 credits of technical complementary courses.)

The Institute for Electrical Power Engineering was recently established as a province-wide centre for electrical power engineering education. It is funded by industry, mostly Hydro-Québec, and provides a comprehensive program and state-of-the-art laboratory facilities, and a point of contact between industry and universities involved in power engineering.

- This program is open to students in the regular Electrical Engineering program only.

  The benefits of the Concentration are:
  - a complete and up-to-date final-year program in electrical power engineering, with industry-sponsored and supported courses;
  - access to industry-sponsored projects, internships and new employment opportunities.

Eligibility criteria: To be considered in September 2009, the applicant must:

- be registered in the B.Eng. program (regular Electrical Engineering);
- have a cumulative GPA of at least 2.70;
- have completed or be registered in ECSE 361 (Power Engineering);
- be able to complete the degree requirements by Spring 2010;
- agree to follow the curriculum requirements set out below.

Selection criteria: The number of students selected, expected to be between 5 and 10, will be the subject of a specific agreement between the University and the Institute. Selection criteria to the Institute will be based on CGPA and on the curriculum vitae. The selection process for the scholarship may involve an interview with the committee presided by Hydro-Québec. There is a possibility of an internship with Hydro-Québec.

Curriculum requirements for selected students: Generally, unless the University has authorized specific substitutions, students must complete the degree requirements set out in the 2009-10 *Undergraduate Programs Calendar* with the following specifications:

Technical Complementaries and Laboratories:
All students must take (or have taken) five courses from the following list, for a total of 15 credits:

Required Courses **9**

ECSE 462	Electromechanical Energy Conversion	3
ECSE 464	Power System Analysis 1	3

ECSE 465	Power Electronic Systems	3	

Complementary Courses **6**

ECSE 404	Control Systems	3	
ECSE 460	Appareillage électrique (Electrical Power Equipment)	3	
ECSE 467	Comportement des réseaux électriques	3	
ECSE 468	Electricité industrielle (Industrial Power Systems)	3	
ECSE 469	Protection des réseaux électriques	3	

Courses ECSE 460, ECSE 467, ECSE 468 and ECSE 469 are taught in French. ECSE 460, ECSE 464 (Fall semester). ECSE 465, ECSE 467, ECSE 468 and ECSE 469 are courses sponsored by the Institute and taught at École Polytechnique de Montréal.

In addition, students must complete ECSE 474 and 475 (Electrical Engineering Design Projects 1 and 2) on a practical project in power engineering, preferably at the Institute or with a company sponsoring the Institute.

ECSE 353	Electromagnetic Fields and Waves	3	
ECSE 425	Computer Organization and Architecture	3	
ECSE 426	Microprocessor Systems	3	
ECSE 427	Operating Systems	3	
ECSE 474	Design Project 1	1	
ECSE 475	Design Project 2	2	
ECSE 414	Introduction to Telecommunication Networks	3	**55**

COMPLEMENTARY COURSES

Basic Science Complementary courses (for CEGEP students only). 0-3

Students from CEGEP are required to complete one approved 3-credit course, 200-level or higher, from the following science departments:

Atmospheric and Oceanic Sciences (ATOC)
Biology (BIOL)
Chemistry (CHEM)
Earth and Planetary Sciences (EPSC)
Earth System Science (ESYS)
Physics (PHYS)

Technical Complementaries **9**

One course must be chosen from List A and two courses from List B. The course chosen from List A is meant to enhance the Body of Knowledge while the courses chosen from List B are to provide breadth.

List A

ECSE 424	Human-Computer Interaction
ECSE 428	Software Engineering Practice
ECSE 431	Introduction to VLSI CAD

List B

ECSE 404	Control Systems
ECSE 411	Communications Systems 1
ECSE 412	Discrete Time Signal Processing
ECSE 420	Parallel Computing
ECSE 421	Embedded Systems
ECSE 422	Fault Tolerant Computing
ECSE 429	Software Validation
ECSE 436	Signal Processing Hardware
ECSE 443	Introduction to Numerical Methods of Electrical Engineering
ECSE 450	Electromagnetic Compatibility
ECSE 526	Artificial Intelligence
or COMP 424	Topics: Artificial Intelligence 1
ECSE 530	Logic Synthesis
ECSE 532	Computer Graphics
ECSE 548	Introduction to VLSI Systems

Laboratory Complementaries **2-3**

One course must be chosen from the following list. Note that the lab course is intended to strengthen the practical knowledge within one of the BOK core units and as such should complement one of the BOK core unit lecture courses, namely ECSE 334, ECSE 425, or COMP 535 (ECSE 414).

ECSE 434	Microelectronics Laboratory
ECSE 436	Signal Processing Hardware
ECSE 487	Computer Architecture Laboratory
ECSE 489	Telecommunication Network Lab
ECSE 490	Digital Signal Processing Laboratory
ECSE 491	Communication Systems Laboratory
ECSE 493	Control and Robotics Laboratory

General Complementaries **6**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 “Complementary Studies” for further information.

TOTAL CREDITS **107 -111**

CURRICULUM FOR THE BACHELOR OF SOFTWARE ENGINEERING (B.S.E.)

REQUIRED COURSES **COURSE CREDIT**

COMP 202	Introduction to Computing 1	3
COMP 206	Introduction to Software Systems	3
COMP 250	Introduction to Computer Science	3
COMP 251	Data Structures and Algorithms	3
COMP 302	Programming Languages and Paradigms	3
COMP 360	Algorithm Design Techniques	3
COMP 361	Systems Development Project	3
COMP 420	Secondary Storage Algorithms and Data Structures	3
ECSE 221	Introduction to Computer Engineering	3
ECSE 321	Introduction to Software Engineering	3
ECSE 322	Computer Engineering	3

ECSE 420	Parallel Computing	3	
ECSE 427	Operating Systems	3	
ECSE 428	Software Engineering Practice	3	
ECSE 429	Software Validation	3	
ECSE 476	Software Engineering Design Project 1	3	
ECSE 477	Software Engineering Design Project 2	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MATH 270	Applied Linear Algebra	3	
MATH 363	Discrete Mathematics	3	**63**

Engineering Breadth Required Courses

ECSE 200	Electric Circuits 1	3	
ECSE 210	Electric Circuits 2	3	
ECSE 291	Electrical Measurements Laboratory	2	
ECSE 305	Probability and Random Sig. 1	3	
ECSE 306	Fundamentals of Signals and Systems	3	
ECSE 330	Introduction to Electronics	3	
EDEC 206	Communication in Engineering	3	
MIME 310	Engineering Economy	3	
MIME 221	Engineering Professional Practice	2	**25**

Basic Science Complementary courses (for CEGEP students only). 0-6

Students from CEGEP are required to complete one approved 6-credit course, 200 level or higher from the following science departments:

Atmospheric and Oceanic Sciences (ATOC)
Biology (BIOL)
Chemistry (CHEM)
Earth and Planetary Sciences (EPSC)
Earth System Science (ESYS)
Physics (PHYS)

Technical Complementaries **12 - 14**

Students should take 12-14 credits of which 6 credits must be taken from group A and 6-8 credits from group B. It is possible that not all the courses listed will be offered in a given year. Please refer to the up-to-date course assignments before selecting any course. Permission will not be granted to take Technical Complementary courses that are not on this list.

Group A Technical Complementaries

COMP 330	Theoretical Aspects: Computer Science
COMP 350	Numerical Computing
COMP 409	Concurrent Programming
COMP 424	Topics: Artificial Intelligence 1
or ECSE 526	Artificial Intelligence
COMP 520	Compiler Design
COMP 566	Discrete Optimization 1
COMP 575	Fundamentals of Distributed Algorithms
ECSE 529	Image Processing and Communication

Group B Technical Complementaries

ECSE 323	Digital Systems Design
ECSE 404	Control Systems
ECSE 411	Communications Systems 1
ECSE 412	Discrete Time Signal Processing
ECSE 413	Communications Systems 2
ECSE 414	Introduction to Telecommunication Networks
or COMP 535	Computer Networks 1
ECSE 421	Embedded Systems
ECSE 422	Fault Tolerant Computing
ECSE 424	Human-Computer Interaction
ECSE 425	Computer Organization and Architecture
ECSE 426	Microprocessor Systems
ECSE 504	Sampled Data Control
ECSE 530	Logic Synthesis
ECSE 532	Computer Graphics
or COMP 557	Fundamentals of Computer Graphics

General Complementaries **6**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.

TOTAL CREDITS **106-114**

9.5.5 Department of Mechanical Engineering

Chair — Arun K. Misra

Emeritus Professors

Abdul M. Ahmed; B.Sc.(Dhaka), M.Eng., Ph.D.(McG.), Eng. *(Thomas Workman Emeritus Professor of Mechanical Engineering)*
Romuald Knystautas; B.Eng., M.Eng., Ph.D.(McG.), Eng.
Michael P. Païdoussis; B.Eng.(McG.), Ph.D.(Camb.), Eng., F.I.Mech.E., F.A.S.M.E., F.A.A.M., F.C.S.M.E., F.R.S.C., F.C.A.E. (*Thomas Workman Emeritus Professor of Mechanical Engineering*)

Post-Retirement

Glen Bach; B.Sc.(Alta.), M.Sc.(Birm.), Ph.D.(McG.)
Lucjan Kops; B.Eng., M.Eng., D.Sc.Eng.(Krakow Tech.), Eng., F.C.I.R.P., F.A.S.M.E., F.C.S.M.E., M.S.M.E.
Stuart J. Price; B.Sc., Ph.D.(Brist.), P.Eng.

Professors

Marco Amabili; B.Eng.(Ancona), Ph.D.(Bologna)
Jorge Angeles; B.Eng., M.Eng.(UNAM Mexico), Ph.D.(Stan.), Eng., F.A.S.M.E., F.C.S.M.E., F.R.S.C. (*James McGill Professor*)
Bantwal R. Baliga; B.Tech.(IIT, Kanpur), M.Sc.(Case West.), Ph.D.(Minn.)
Eliot Fried; A.B.(Calif., Berk.), M.S., Ph.D.(Cal. Tech.)
Wagdi G. Habashi; B. Eng., M. Eng.(McG.), Ph.D.(C'nell), P.Eng., F.C.A.E., F.A.S.M.E., F.R.S.C. (*NSERC-J. Armand Bombardier Industrial Research Chair in Multidisciplinary CFD*)
John H.S. Lee; B.Eng.(McG.), M.Sc.(MIT), Ph.D.(McG.), P.Eng. F.R.S.C.
Dan Mateescu; M.Eng.(Univ-Poli.Bucharest), Ph.D.(Rom. Acad. Sci.), Doctor Honoris Causa(Univ-Poli.Bucharest), F.C.A.S.I., A.F.A.I.A.A., Erskine Fellow(Cant.)
Arun K. Misra; B.Tech.(IIT, Kharagpur), Ph.D.(Br. Col.), P.Eng., F.A.A.S., A.F.A.I.A.A. (*Thomas Workman Professor of Mechanical Engineering*)
Luc Mongeau; B.S.M.E., M.S.(École Poly., Montr.), Ph.D.(Penn. St.) (*Canada Research Chair*), *Associate Dean, Academic Affairs*
Christophe Pierre; B.Eng.(École Centrale, Paris), M.Sc.(Prin.), Ph.D.(Duke), (*Tier 1 Canada Research Chair*), *Dean, Faculty of Engineering*

Associate Professors

Luca Cortelezzi; M.Sc., Ph.D.(Cal. Tech.)
David L. Frost; B.A.Sc.(Br. Col.), M.S., Ph.D.(Cal. Tech.), P.Eng., *Graduate Program Director*
Andrew J. Higgins; B.Sc.(Ill.), M.S., Ph.D.(Wash.)
Pascal Hubert; B.Eng., M.Sc.(École Poly., Montr.), Ph.D.(Br. Col.), P.Eng.(*Canada Research Chair*), *Aerospace Program Coordinator*
Tim Lee; M.S.(Port. St.), Ph.D.(Idaho)
Larry B. Lessard; B.Eng.(McG.), M.Sc., Ph.D.(Stan.), P.Eng.
R. Mongrain; B.Sc., M.Sc.(Montr.), Ph.D.(École Poly., Montr.), Eng., (*William Dawson Scholar*), *Associate Chair*
Laurent Mydlarski; B.A.Sc.(Wat.), Ph.D.(C'nell), Eng.
Meyer Nahon; B.Sc.(Qu.), M.Sc.(Tor.), Ph.D.(McG.), P.Eng., *Associate Dean, Graduate and Postdoctoral Studies*

Peter Radziszewski; B.A.Sc.(Br. Col.), M.Sc., Ph.D.(Laval), Ing.
Inna Sharf; B.A.Sc., Ph.D.(Tor.), P.Eng.
Vince Thomson; B.Sc.(Windsor), Ph.D.(McM.) (*Werner Graupe Professor of Manufacturing Automation*)
Paul J. Zsombor-Murray; B.Eng., M.Eng., Ph.D.(McG.), Eng. F.C.S.M.E.

Assistant Professors
Francois Barthelat; M.Sc.(Roch.), Ph.D.(N'western)
Jeffrey M. Bergthorson; B.Sc.(Man.), M.Sc., Ph.D.(Cal. Tech.)
József Kövecses; M.Sc.(U. Miskolc), Ph.D.(Hung. Acad. Sci.), P.Eng., *Undergraduate Program Coordinator, Honours Program Coordinator*
Siva Nadarajah; B.Sc.(Math), B.Sc.(Aero.Eng.)(Kansas), M.Sc., Ph.D.(Stan.)
Damiano Pasini; M.Sc.(Pavia), Ph.D.(Brist.), P.Ing.
Evgeny V. Timofeev; M.Sc., Ph.D.(STU, St. Peters.), Eng., A.F.A.I.A.A.
Srikar T. Vengallatore; B.Tech(BHU), Ph.D.(MIT) (*Canada Research Chair*)

Laboratory Superintendents
A. Micozzi, G. Savard, G. Tewfik

Adjunct Professors/Course Lecturers
H. Attia, K. Mackenzie, C. Marsden, C.A. Rabbath, R. Sumner, S. Tafazoli, D. Zorbas

Mechanical engineers are traditionally concerned with the conception, design, implementation and operation of mechanical systems. Typical fields of work are aerospace, energy, manufacturing, machinery, and transportation. Because of the very broad nature of the discipline there is usually a high demand for mechanical engineers.

Many mechanical engineers follow other career paths. Graduate studies are useful for the specialists working in research establishments, consulting firms, or in corporate research and development.

To prepare the mechanical engineer for a wide range of career possibilities, there is a heavy stress in our curriculum on the fundamental analytical disciplines. This is balanced by a sequence of experimental and design engineering courses which include practice in design, manufacture and experimentation. In these courses students learn how to apply their analytical groundwork to the solution of practical problems.

Specialist interests are satisfied by selecting appropriate complementary courses from among those offered with a specific subject concentration, such as management, industrial engineering, computer science, controls and robotics, bio-engineering, aeronautics, combustion, systems engineering, etc.

The Department offers an Honours Program which is particularly suitable for those with a high aptitude in mathematics and physics and which gives a thorough grounding in the basic engineering sciences. The complementary courses in this program can be utilized to take courses with applied engineering orientation, such as those offered in the regular program, or if preferred, to obtain an even more advanced education in engineering science.

Concentrations in Aeronautical Engineering, Mechatronics and Design are available for students in either the Regular or Honours program who wish to specialize in these areas.

While the program is demanding, there is time for many extracurricular activities. Students are active in such professional societies as CASI (Canadian Aeronautics and Space Institute), SAE (Society of Automotive Engineers), and ASME (American Society of Mechanical Engineers) and in various campus organizations.

Relations between faculty and students are extremely close. Social functions, at which students and professors meet to exchange views and get to know each other better, are organized frequently.

CURRICULUM FOR THE B.ENG. DEGREE IN MECHANICAL ENGINEERING (REGULAR)

REQUIRED COURSES		COURSE CREDIT	
Non-Departmental Subjects			
CIVE 207	Solid Mechanics	4	
COMP 208	Computers in Engineering	3	
ECSE 461	Electric Machinery	3	
EDEC 206	Communication in Engineering	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MATH 271	Linear Algebra and Partial Differential Equations	3	
MIME 221	Engineering Professional Practice	2	
MIME 260	Materials Science and Engineering	3	
MIME 310	Engineering Economy	3	**33**
Departmental Courses			
MECH 201	Introduction to Mechanical Engineering	2	
MECH 210	Mechanics 1	2	
MECH 220	Mechanics 2	4	
MECH 240	Thermodynamics 1	3	
MECH 260	Machine Tool Laboratory	2	
MECH 262	Statistics and Measurement Laboratory	3	
MECH 289	Design Graphics	3	
MECH 292	Conceptual Design	3	
MECH 309	Numerical Methods in Mechanical Engineering	3	
MECH 314	Dynamics of Mechanisms	3	
MECH 315	Mechanics 3	4	
MECH 321	Mechanics of Deformable Solids	3	
MECH 331	Fluid Mechanics 1	3	
MECH 341	Thermodynamics 2	3

MECH 383	Applied Electronics and Instrumentation	3	
MECH 393	Machine Element Design	3	
MECH 412	Dynamics of Systems	3	
MECH 430	Fluid Mechanics 2	3	
MECH 463D1	Mechanical Engineering Project	3	
MECH 463D2	Mechanical Engineering Project	3	**64**
COMPLEMENTARY COURSES			**15**

Two courses (6 credits) at the 300 level or higher to be selected from Mechanical Engineering courses. One of these two courses must be chosen from the following list:

MECH 497	Value Engineering
MECH 498	Interdisciplinary Design Project 1
MECH 499	Interdisciplinary Design Project 2
MECH 513	Control Systems
MECH 524	Computer Integrated Manufacturing
MECH 526	Manufacturing and the Environment
MECH 528	Product Design
MECH 541	Kinematic Synthesis
MECH 543	Design with Composite Materials
MECH 553	Design and Manufacture of Microdevices
MECH 554	Microprocessors for Mechanical Systems
MECH 557	Mechatronic Design
MECH 563	Biofluids and Cardiovascular Mechanics
or CHEE 563	Biofluids and Cardiovascular Mechanics
MECH 565	Fluid Flow and Heat Transfer Equipment
MECH 573	Mechanics of Robotic Systems
MECH 577	Optimum Design
MECH 593	Design Theory and Methodology

One course (3 credits), subject to Departmental approval, at the 300 level or higher from the Faculty of Engineering or in the Faculty of Science, including Mathematics.

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.

TOTAL CREDITS **112**

Students entering in September must plan their program of studies in accordance with the regulations posted on the Faculty website at www.mcgill.ca/engineering. After registering, students must consult with their academic adviser.

Additional information can be found in section 9.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec".

MECH 430	Fluid Mechanics 2	3	
MECH 494	Honours Design Project	3	**61**
COMPLEMENTARY COURSES			**24**

One course from the following (3 credits):
to be chosen with the approval of either the thesis supervisor or the coordinator of the Honours Program, when a thesis supervisor has not as yet been secured.

MATH 327 Matrix Numerical Analysis
MATH 381 Complex Variables and Transforms
MATH 417 Mathematical Programming

plus

Two of the following three courses (6 credits):
MECH 546 Finite Element Methods in Solid Mechanics
MECH 562 Advanced Fluid Mechanics
MECH 578 Advanced Thermodynamics

Two courses (6 credits) at the 300 level or higher to be selected from Mechanical Engineering, one of these two courses must be chosen from the following list:
MECH 497 Value Engineering
MECH 498 Interdisciplinary Design Project 1
MECH 499 Interdisciplinary Design Project 2
MECH 513 Control Systems
MECH 524 Computer Integrated Manufacturing
MECH 526 Manufacturing and the Environment
MECH 528 Product Design
MECH 541 Kinematic Synthesis
MECH 543 Design with Composite Materials
MECH 553 Design and Manufacture of Microdevices
MECH 554 Microprocessors for Mechanical Systems
MECH 557 Mechatronic Design
MECH 563 Biofluids and Cardiovascular Mechanics
or CHEE 563 Biofluids and Cardiovascular Mechanics
MECH 565 Fluid Flow and Heat Transfer Equipment
MECH 573 Mechanics of Robotic Systems
MECH 577 Optimum Design
MECH 593 Design Theory and Methodology

One course (3 credits), subject to Departmental approval, at the 300 level or higher from the Faculty of Engineering or MIME 260 or in the Faculty of Science, including Mathematics.

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.

TOTAL CREDITS **112**

Students entering in September must plan their program of studies in accordance with the regulations posted on the Faculty website at www.mcgill.ca/engineering. After registering, students must consult with their academic adviser.

Additional information can be found in section 9.3.1.2 "Basic Science Requirements for Students Entering from Outside Quebec".

LIST OF COMPLEMENTARY COURSES (DEPARTMENTAL)
(Each is 3 credits)

MECH 432 Aircraft Structures
MECH 447 Combustion
MECH 474 Selected Topics in Operations Research
MECH 497 Value Engineering
MECH 498 Interdisciplinary Design 1
MECH 499 Interdisciplinary Design Project 2
MECH 500 Selected Topics in Mechanical Engineering
MECH 501 Special Topics: Mechanical Engineering
MECH 502 Special Topics: Mechanical Engineering
MECH 513 Control Systems
MECH 515 Unsteady Gasdynamics 1
MECH 516 Computational Gasdynamics
MECH 522 Production Systems
MECH 524 Computer Integrated Manufacturing
MECH 526 Manufacturing and the Environment
MECH 528 Product Design
MECH 529 Discrete Manufacturing Systems
MECH 530 Mechanics of Composite Materials
MECH 531 Aeroelasticity
MECH 532 Aircraft Performance, Stability and Control
MECH 533 Subsonic Aerodynamics
MECH 534 Air Pollution Engineering
MECH 535 Turbomachinery and Propulsion
MECH 537 High-Speed Aerodynamics
MECH 538 Unsteady Aerodynamics
MECH 539 Computational Aerodynamics
MECH 541 Kinematic Synthesis
MECH 542 Spacecraft Dynamics
MECH 543 Design with Composite Materials
MECH 544 Processing of Composite Materials
MECH 546 Finite Element Methods in Solid Mechanics
MECH 553 Design and Manufacture of Microdevices
MECH 554 Microprocessors for Mechanical Systems
MECH 557 Mechatronic Design
MECH 561 Biomechanics of Musculoskeletal Systems
MECH 562 Advanced Fluid Mechanics
MECH 563 Biofluids and Cardiovascular Mechanics
MECH 565 Fluid Flow and Heat Transfer Equipment

MECH 566 Fluid-Structure Interactions
MECH 572 Introduction to Robotics
MECH 573 Mechanics of Robotic Systems
MECH 576 Computer Graphics and Geometrical Modelling
MECH 577 Optimum Design
MECH 578 Advanced Thermodynamics
MECH 593 Design Theory and Methodology

TYPICAL PROGRAM OF STUDIES FOR REGULAR OR HONOURS

For students starting their B.Eng. studies in September 2009 who have completed the Quebec Diploma of Collegial Studies, a program for the first two terms of study is given below. Students will be advised by the Department whether they should follow Stream A or Stream B.

STREAM A:

Term 1 (Fall)
COMP 208 Computers in Engineering
MATH 262 Intermediate Calculus
MECH 201 Introduction to Mechanical Engineering
MECH 210 Mechanics 1
MECH 260 Machine Tool Laboratory
MIME 221 Engineering Professional Practice

Term 2 (Winter)
MATH 263 Ordinary Differential Equations and Linear Algebra
MATH 264 Advanced Calculus ENG
MECH 220 Mechanics 2
MECH 262 Statistics and Measurement Laboratory
MECH 289 Design Graphics

STREAM B:

Term 3 (Fall) (Term 1 for CEGEP students)
COMP 208 Computers in Engineering
MATH 262 Intermediate Calculus
MECH 201 Introduction to Mechanical Engineering
MECH 260 Machine Tool Laboratory
MECH 289 Design Graphics

Term 4 (Winter) (Term 2 for CEGEP students)
MATH 263 Ordinary Differential Equations and Linear Algebra
MATH 264 Advanced Calculus ENG
MECH 210 Mechanics 1
MECH 262 Statistics and Measurement Laboratory
MIME 260 Materials Science and Engineering
MIME 221 Engineering Professional Practice

For non-CEGEP entry students, a program for the first two terms of study is given below. Students will be advised by the Department whether they should follow Stream A or Stream B.

STREAM B: (Option 1)

Term 1 (Fall)
CHEM 110 General Chemistry 1
MATH 133 Vectors, Matrices & Geometry
MATH 140 Calculus 1
PHYS 131 Mechanics & Waves
XXX XXX PreEng HSSA

Term 2 (Winter)
CHEM 120 General Chemistry 2
MATH 141 Calculus 2
PHYS 142 Electromagnetism & Optics
XXX XXX HSSA/Impact
MIME 310 Engineering Economy

STREAM B: (Option 2)

Term 1 (Fall)
CHEM 110 General Chemistry 1
MATH 133 Vectors, Matrices & Geometry
MATH 140 Calculus 1
PHYS 131 Mechanics & Waves

Term 2 (Winter)
CHEM 120 General Chemistry 2
MATH 141 Calculus 2
PHYS 142 Electromagnetism & Optics
XXX XXX PreEng HSSA

For all Minors and Concentrations, students should complete a special form available from the Student Affairs Office (Engineering Student Center) or from the Undergraduate Program Secretary indicating their intention to take the Minor or the Concentration.

AERONAUTICAL ENGINEERING CONCENTRATION

Students in this Concentration should take five courses in the area of Aeronautical Engineering.

Required Courses (6 credits):
MECH 532 (3) Aircraft Performance, Stability and Control
MECH 533 (3) Subsonic Aerodynamics

Complementary Courses (9 credits)
at least one of the following two courses:
MECH 432 (3) Aircraft Structures
MECH 435 (3) Turbomachinery and Propulsion

the remaining two courses may be chosen from the above or from the following courses:
MECH 531 (3) Aeroelasticity
MECH 537 (3) High-Speed Aerodynamics
MECH 538 (3) Unsteady Aerodynamics
MECH 539 (3) Computational Aerodynamics
MECH 565 (3) Fluid Flow and Heat Transfer Equipment

All courses must be passed at a grade of C or better.

Students should also discuss the matter with their adviser and complete a special form indicating their intention to take this Concentration.

DESIGN CONCENTRATION

Students in this Concentration should take five courses in the area of Design, including the completion of an interdisciplinary design project.
Of the five courses, two are required:
MECH 498 Interdisciplinary Design Project 1
MECH 499 Interdisciplinary Design Project 2

The remaining three courses are to be chosen from the list below:
ARCH 515 Sustainable Design
CHEE 453 Process Design
MECH 497 Value Engineering
MECH 526 Manufacturing and the Environment
MECH 528 Product Design
MECH 530 Mechanics of Composite Materials
MECH 541 Kinematic Synthesis
MECH 543 Design with Composite Materials
MECH 554 Microprocessors for Mechanical Systems
MECH 557 Mechatronics Design
MECH 565 Fluid Flow and Heat Transfer Equipment
MECH 576 Computer Graphics and Geometric Modeling
MECH 577 Optimum Design
MECH 593 Design Theory and Methodology

MECHATRONICS CONCENTRATION

Students in this Concentration should take six courses in the area of Control, Robotics and/or CAD/CAM. They must take the following four required courses:

MECH 513 Control Systems
MECH 554 Microprocessors for Mechanical Systems
MECH 557 Mechatronic Design
MECH 572 Introduction to Robotics

and two of the following:
MECH 528 Product Design
MECH 541 Kinematic Synthesis
MECH 573 Mechanics of Robotic Systems
MECH 576 Computer Graphics and Geometrical Modelling

Raynald Gauvin; B.Ing., Ph.D.(Montr.), Eng.
Roderick I.L. Guthrie; B.Sc., Ph.D.(Lond.), D.I.C., A.R.S.M., Eng. (*William C. Macdonald Professor*)
Faramarz (Ferri) P. Hassani; Ph.D.(Nott.), (*George Boyd Webster Professor*)
Hani S. Mitri; B.Sc.(Cairo), M.Eng., Ph.D.(McM.), Eng.
Jerzy Szpunar; B.Sc., M.Sc., Ph.D., D.Sc.(Krakow) (*Henry Birks Professor*)
Stephen Yue; B.Sc., Ph.D.(Leeds) (*James McGill Professor*)

Associate Professors
Mainul Hasan; B.Eng.(Dhaka), M.Sc.(Dhahran), Ph.D.(McG.)
Frank Mucciardi; B.Eng., M.Eng., Ph.D.(McG.), Eng.
Mihriban Pekguleryuz; B.Eng., M.Eng.(Flor.), Ph.D. (McG.)

Assistant Professors
Mathieu Brochu; B.Eng.(Laval), Ph.D.(McG.)
Richard Chromik; B.Sc.(Penn. St.), M.Sc., Ph.D.(SUNY, Binghampton)
In-Ho Jung; B.Sc.(South Korea), Ph.D.(École Poly., Montr.)
Showan Nazhat; B.Eng., M.Sc., Ph.D.(Lond.)

Faculty Lecturers
Florence Paray; B.Eng.(CSP), M.Eng., Ph.D.(McG.)

Adjunct Professors
Mostafa Benzaazoua, Marc Betournay, Martin Bureau, Robin A.L. Drew, Daryoush Emadi, Elhachmi Essadiqi, Carlton Fuerst, Bryn Harris, Ahmad Hemami, Mohammad Jahazi, Raad Jassim, Wynand Kleingeld, Louis-Philippe Lefebvre, Eric Lifshin, Martin Pugh, Abdel-Hafez Abdel Sabour Dabry, Serge Vézina

CO-OP Program Liaison Officers
Genevieve Snider (Materials)
TBA (Mining)

The Department of Mining and Materials Engineering offers programs leading to the Bachelor of Engineering degree in Materials Engineering or Mining Engineering. In addition to regular courses and laboratories, the curriculum includes seminars, colloquia and student projects reinforced by field trips to industrial operations.

Materials Engineering (CO-OP) The Materials Engineering degree is a cooperative program leading to a B.Eng. and includes formal industrial work periods. It is built on a strong background of mathematics, basic sciences, computer skills and applications, and specific engineering and design courses to provide up-to-date training in materials engineering. Students take core courses covering processing, fabrication, applications and performance of materials, namely metals, ceramics, polymers and composites. The program is fully accredited by the Canadian Engineering Accreditation Board (CEAB) and is designed to offer students exceptional training for employment in the field. The core courses are supplemented by complementary courses which provide a diverse selection of specialties for the graduating engineer. The course structure is reinforced with laboratory exercises. Graduates find employment in a wide range of industries, including the resource and manufacturing sectors. Students in the CO-OP program benefit from practical learning experience gained from work-term employment in meaningful engineering jobs, as well as non-tangible learning experiences arising from the responsibilities required to obtain and successfully complete the work terms.

Regarding CO-OP Program fees, an amount of $200 will be billed during 10 consecutive terms for a total amount of $2,000 before graduation. These fees cover expenses directly related to the operation of the CO-OP program. Students must register for each of the above-mentioned industrial training courses and pay the associated fees by the Minerva course registration deadlines or late fees will apply. Before registering for any work term course, students must contact the Materials CO-OP Liaison Officer for approval.

Mining Engineering (CO-OP) McGill is proud to be the host of the oldest mining engineering program in Canada, which started in 1871. The program is known for the excellence of its courses as well as the training it provides in mining technology, mineral economics and mine design. The minerals industry is currently going through an expansion phase that has never been seen before. This is highly beneficial to both our graduate and undergraduate students. Tremendous career opportunities are available in Canada and around the world. There have been rapid technical developments in recent years, presenting a challenge to the creative student with a strong interest in engineering and a taste for innovative solutions.

The Department offers a cooperative program leading to the accredited B.Eng. degree in Mining Engineering. It includes four paid industrial work terms. The CO-OP program is offered in collaboration with the mining engineering program at École Polytechnique in Montreal. Students registered at McGill are required to take a series of mining courses at École Polytechnique in the latter part of the program. These courses are designated in the course outline under the Subject Code MPMC.

Students must pay a two-credit course fee for each work term (MIME 290, MIME 291, MIME 392, MIME 494). In addition, a fee of $300 will be paid for each work term to cover expenses directly related to the operation of the CO-OP program. Students must register for each work term and pay associated fees by MINERVA registration deadline or else late fees will apply. Before registering for any work term course, students must contact the Mining CO-OP Liaison Officer, for approval.

Scholarships
The Department offers renewable Entrance Scholarships every year, valued at $3,000 each. A substantial number of other scholarships and bursaries are also awarded by the Department as well as by the Canadian Mineral Industry Education Foundation.

Student Advising
Students entering the Mining or Materials Engineering programs must plan their schedule of studies in consultation with one of the departmental advisers: Professor Showan Nazhat or Professor Richard Chromik (Materials); Professor Ferri Hassani or Mr. John Mossop (Mining).

CURRICULUM FOR THE B.ENG. DEGREE IN MATERIALS ENGINEERING – CO-OP PROGRAM

REQUIRED COURSES		COURSE CREDITS	
Non-Departmental Courses			
CHEM 233	Topics in Physical Chemistry	3	
CIVE 205	Statics	3	
CIVE 207	Solid Mechanics	4	
COMP 208	Computers in Engineering	3	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MECH 289	Design Graphics	3	**25**
Departmental Courses			
MIME 202	Engineering Communication Skills	2	
MIME 209	Mathematical Applications	3	
MIME 212	Engineering Thermodynamics	3	
MIME 221	Engineering Professional Practice	2	
MIME 250	Introduction to Extractive Metallurgy	3	
MIME 261	Structure of Materials	3	
MIME 280	Industrial Training 1	2	
MIME 310	Engineering Economy	3	
MIME 311	Modelling and Automatic Control	3	
MIME 317	Analytical and Characterization Techniques	3	
MIME 337	Electrotechnology	2	
or ECSE 461	Electric Machinery	3	
MIME 341	Introduction to Mineral Processing	3	
MIME 345	Applications of Polymers	3	
MIME 350	Extractive Metallurgical Engineering	3	
MIME 352	Hydrochemical Processing	3	
MIME 356	Heat, Mass and Fluid Flow	4	
MIME 360	Phase Transformations: Solids	3	
MIME 362	Mechanical Properties	3	
MIME 367	Electronic Properties of Materials	3	
MIME 380	Industrial Training 2	2	
MIME 442	Modelling and Control: Mineral Processing	3	
MIME 452	Process and Materials Design	4	
MIME 455	Advanced Process Engineering	3	
MIME 456	Steelmaking and Steel Processing	3	
MIME 465	Ceramic Engineering	3	
MIME 480	Industrial Training 3	2	**74 or 75**

COMPLEMENTARY COURSES

Technical Complementaries **12**

9 - 12 credits from the following:

CIVE 512	(3)	Advanced Civil Engineering Materials
MECH 530	(3)	Mechanics of Composite Materials
MIME 410	(3)	Research Project
MIME 457	(3)	Light Metals Extraction and Processing
MIME 470	(3)	Engineering Biomaterials
MIME 512	(3)	Corrosion and Degradation of Materials
MIME 542	(3)	Transmission Electron Microscopy
MIME 544	(3)	Analysis: Mineral Processing Systems 1
MIME 545	(3)	Analysis: Mineral Processing Systems 2
MIME 551	(3)	Electrochemical Processing
MIME 552	(3)	Environmental Controls in Metallurgical Plants
MIME 556	(3)	Sustainable Materials Processing
MIME 558	(3)	Engineering Nanomaterials
MIME 559	(3)	Aluminum Physical Metallurgy
MIME 560	(3)	Joining Processes
MIME 561	(3)	Advanced Materials Design
MIME 563	(3)	Hot Deformation of Metals
MIME 564	(3)	X-ray Diffraction Analysis of Materials
MIME 565	(3)	Aerospace Metallic-Materials and Manufacturing Processes
MIME 566	(3)	Texture, Structure & Properties of Polycrystalline Materials
MIME 568	(3)	Topics in Advanced Materials
MIME 569	(3)	Electron Beam Analysis of Materials
MIME 571	(3)	Surface Engineering
MIME 572	(3)	Computational Thermodynamics

0 - 3 credits from the following:

BMDE 504	(3)	Biomaterials and Bioperformance
CHEM 455	(3)	Introductory Polymer Chemistry
CHEM 585	(3)	Colloid Chemistry
PHYS 558	(3)	Solid State Physics

General Complementaries **6**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.

TOTAL **117 or 118**

CURRICULUM FOR THE B.ENG. DEGREE IN MINING ENGINEERING – CO-OP PROGRAM

REQUIRED COURSES		COURSE CREDITS	
Non-Departmental Courses			
CIVE 205	Statics	3	
CIVE 207	Solid Mechanics	4	
COMP 208	Computers in Engineering	3	
EPSC 221	General Geology	3	
EPSC 225	Properties of Minerals	1	
MATH 262	Intermediate Calculus	3	
MATH 263	Ordinary Differential Equations and Linear Algebra	3	
MATH 264	Advanced Calculus ENG	3	
MECH 289	Design Graphics	3	**26**
Departmental Mining Courses			
MIME 200	Introduction to the Minerals Industry	3	
MIME 202	Engineering Communication Skills	2	
MIME 203	Mine Surveying (2 weeks at beginning of summer)	2	
MIME 209	Mathematical Applications	3	
MIME 221	Engineering Professional Practice	2	
MIME 260	Materials Science and Engineering	3	
MIME 290	Industrial Work Period 1	2	
MIME 291	Industrial Work Period 2	2	
MIME 310	Engineering Economy	3	
MIME 322	Rock Fragmentation	3	
MIME 323	Rock and Soil Mass Characterization	3	
MIME 325	Mineral Industry Economics	3	
MIME 333	Materials Handling	3	
MIME 337	Electrotechnology	2	
or ECSE 461	Electric Machinery	3	
MIME 340	Applied Fluid Dynamics	3	
MIME 341	Introduction to Mineral Processing	3	
MIME 392	Industrial Work Period 3	2	
MIME 419	Surface Mining	3	
MIME 420	Feasibility Study	3	
MIME 422	Mine Ventilation	3	
MIME 426	Development and Services	3	
MIME 484	Mining Project	3	**59 or 60**

École Polytechnique Mining Courses

MPMC 321	Mécanique des roches et contrôle des terrains	3	
MPMC 326	Recherche opérationnelle I	3	
MPMC 328	Environnement et gestion des rejets miniers	3	
MPMC 329	Géologie minière	2	
MPMC 330	Géotechnique minière	3	
MPMC 421	Exploitation en souterrain	3	**17**

COMPLEMENTARY COURSES

Either Choice I or II **11 or 12**

Choice I (11 credits)

MIME 494	(2)	Industrial Work Period 4
and	(9)	three Technical Complementaries

or Choice II (12 credits)

MIME 350	(3)	Extractive Metallurgical Engineering
MIME 544	(3)	Analysis: Mineral Processing Systems 1
and	(6)	two Technical Complementaries

General Complementaries **6**

Two courses (6 credits), selected from an approved list: one course on the impact of technology on society and one in the humanities and social sciences, administrative studies and law. See section 9.3.4 "Complementary Studies" for further information.

TOTAL **119-121**

Technical Complementaries

Courses selected from those listed below or any other approved technical course(s) in Engineering, Management or Science. Note: not all courses are given annually; verification with course instructor is advised.

MIME 320	(3)	Extraction of Energy Resources
MIME 442	(3)	Modelling and Control: Mineral Processing
MIME 513	(3)	Mine Planning Optimization Under Uncertainty.
MIME 520	(3)	Stability of Rock Slopes
MIME 521	(3)	Stability of Underground Openings
MIME 525	(3)	Stochastic Orebody Modelling.
MIME 526	(3)	Mineral Economics
MIME 528	(3)	Mining Automation
MIME 544	(3)	Analysis: Mineral Processing Systems 1
MIME 545	(3)	Analysis: Mineral Processing Systems 2
MPMC 320	(3)	CAO et informatique pour les mines
MPMC 327	(3)	Hydrogéologie appliquée

9.5.7 School of Urban Planning

Macdonald-Harrington Building, Room 400
815 Sherbrooke Street West
Montreal, QC H3A 2K6

Telephone: 514-398-4075
Fax: 514-398-8376
Email: admissions.planning@mcgill.ca
Website: www.mcgill.ca/urbanplanning

Director — David F. Brown

Emerita Professor
Jeanne M. Wolfe; B.Sc.(Lond.), M.Sc.(W. Ont.), M.A.(McG.)

Associate Professors
Madhav G. Badami; B.Tech., M.S.(IIT, Madras), M.E.Des.(Calg.), Ph.D.(Br. Col.) (*joint appoint. with McGill School of Environment*)
Lisa Bornstein; B.Sc.(Calif., Berk.), M.R.P.(C'nell), Ph.D.(Calif., Berk.)
David F. Brown; B.A.(Bishop's), M.U.P.(McG.), Ph.D.(Sheffield)
Raphaël Fischler; B.Eng. (V. Tech. Eindhoven), M.S. Arch.S., M.C.P.(MIT), Ph.D.(Calif., Berk.)

Assistant Professors
Ahmed Elgeneidy; B.S., M.S.(Alexandria), Ph.D.(Port. St.)
Nik Luka; B.A.(Ryerson), M.Arch.(Laval), Ph.D.(Tor.) (*joint appoint. with Architecture*)

Instructor
Danielle Labbe; B.Arch., M.Sc.(Laval)

Adjunct Professors
David Farley; B.Arch.(McG.), M.Arch., M.C.P.(Harv.)
Mario Polèse; B.A.(CUNY), M.A., Ph.D.(Penn.)
Ray Tomalty; B.A., M.P.A..(Qu.), Ph.D.(Wat.)

Guest Lecturers
Hatem Touman Abdelhamid, Daniel Hodder, Andrew Hoffmann, Paul Le Cavalier, Marc-André Lechasseur, Brenda Lee, Tom Leest, Eric Peissel, Carlos Rueda Plata, Richard Sheamur, Larry Sherman, Alain Trudeau, Martin Wexler, Joshua Wolfe.

Modern urban planning developed into a profession in the early decades of the 20th century, largely as a response to the appalling sanitary, social and economic conditions of rapidly developing industrial cities. Initially, the disciplines of architecture, landscape architecture, civil engineering and public health provided the nucleus of concerned professionals; beautification schemes and infrastructure works marked the early stages of public intervention in the 19th century. Architects, engineers and public health specialists were joined by economists, sociologists, lawyers and geographers as the complexities of the city's problems came to be more fully understood and public pressure mounted for their solution. Contemporary urban and regional planning techniques for survey, analysis, design and implementation developed from an interdisciplinary synthesis of these various fields.

Today, urban planning can be described as the collective management of urban development. It is concerned with the welfare of communities, control of the use of land, design of the built environment, including transportation and communication networks, and protection and enhancement of the natural environment. It is at once a technical and a political process which brings together actors from the public, private and community spheres. Planners participate in that process in a variety of ways, as designers and analysts, advocates and mediators.

McGill University was the first institution in Canada to offer a full-time planning program. An interdisciplinary program was established in 1947, in which students combined a master's degree in Urban Planning with one in a related field. An autonomous program was established in 1972. It became the School of Urban Planning in 1976.

Students come to the School from diverse backgrounds, the physical sciences, the traditional professions, such as architecture and engineering, and the social sciences. Alumni of the School work as planners and designers at various levels of government, in non-profit organizations and with private consulting firms. Their expertise ranges from historic preservation to transportation planning, from housing development to computer imaging. They devote their efforts in increasing numbers to environmental planning and sustainable development.

The School is a partner in the Montreal Interuniversity Group "Urbanization and Development", a consortium recognized by CIDA as a Centre of Excellence, which is devoted to the study of urban problems and the formulation of policies in developing regions. Faculty and students collaborate actively with members of other McGill departments, notably Architecture, Geography, Civil Engineering and Law, and with colleagues at other institutions in Canada and abroad.

The objective of the School is to produce qualified professional urban planners for the public, private and not-for-profit sectors. Training is provided at the postgraduate level; the degree offered is the Master of Urban Planning (M.U.P.). Upon completion of the two-year program of studies, graduates are expected to have acquired basic planning skills, a broad understanding of urban issues, and specialized knowledge in a field of their own choice.

The program of study offered by the School is fully recognized by the Ordre des Urbanistes du Québec (O.U.Q.) and the Canadian Institute of Planners (C.I.P.). Graduates can become full members of the O.U.Q. and other provincial planning associations by meeting their respective internship and examination

requirements; this, in turn, will make them eligible for membership in the C.I.P. Admission to the American Institute of Certified Planners and other such organizations is also possible on the basis of the M.U.P. degree.

For details of the M.U.P. admission requirements and curriculum, consult the *Graduate and Postdoctoral Studies Calendar*, available at www.mcgill.ca/courses.

The following undergraduate courses are taught by the faculty of the School:

ARCH 520	Montreal: Urban Morphology
ARCH 521	Structure of Cities
ARCH 550	Urban Planning and Development
URBP 201	Planning the 21st Century City
URBP 501	Principles and Practice 1
URBP 505	Geographic Information Systems
URBP 506	Environmental Policy and Planning
URBP 507	Planning and Infrastructure
URBP 519	Sustainable Development Plans
URBP 520	Globalization: Planning and Change
URBP 530	Urban Environmental Planning

9.6 Minor Programs

Minors are coherent sequences of courses that may be taken in addition to the courses required for the B.Eng. degree. Minor programs normally consist of 18 to 24 credits, allowing 9 to 12 credits of overlap with the degree program. The real credit cost to the student is typically 9 to 15 credits, representing one term beyond the B.Eng. degree program. All courses in a Minor program must be passed with a grade of C or better.

Students of the Faculty have a considerable variety of complementary course choices that fall into the categories of technical and complementary studies. Students should refer to their respective departments for information concerning complementary course selections. Departments also publish, in this Calendar and in separate documents, information regarding the choice of courses. Students should also consult their course advisers.

General information concerning Minors that are designed for students registered in the Faculty of Engineering is listed below.

Note: In addition, students are also permitted to register for Minor Concentrations offered through the various departments in the Faculty of Arts. Students are advised to seek approval from the specific department in the Faculty of Arts as well as the Faculty of Engineering Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22, prior to embarking on these Minors.

9.6.1 Arts Minor

Engineering students may obtain a Minor in Arts as part of their B.Eng. degree by satisfying the 24-credit requirement described below. In general, complementary studies courses given in the Faculty of Arts and listed under: (i) "3 credits of studies of the Impact of Technology on Society" and (ii) "the remaining credits to be social science and humanities courses" (see section 9.3.4 "Complementary Studies") may be used to satisfy some of these requirements. In no case will more than 9 credits taken from these complementary studies requirements be credited toward the Minor in Arts.

Requirements

1. The program must consist of 24 credits as follows:
   a) at least two areas of concentration from within the Faculty of Arts must be chosen, with the minimum number of credits in any one area being 6;
   b) at least 12 credits must be at the 300 or higher level.
2. All courses in the Minor program must be passed with a grade of C or better.
3. The selection of courses for the Minor is to be done in consultation with an adviser in the Student Affairs Office, Engineering Student Centre, or Donald Sedgwick, Senior Faculty Adviser, Faculty of Arts.

9.6.2 Biomedical Engineering Minor

The Minor in Biomedical Engineering is intended to allow interdisciplinary preparation by providing access to otherwise unavailable courses in either the basic life sciences or the applied math tools required in the interdisciplinary field of Biomedical Engineering.

The Minor consists of 21 to 25 credits as outlined below.

Complementary Introductory Courses in Live Sciences
(3-7 credits)
One course from the following list (equivalents can be approved):

ANAT 212	Molecular Mechanisms of Cell Function
BIOL 200	Molecular Biology
BIOL 201	Cell Biology and Metabolism
BIOC 212	Molecular Mechanisms of Cell Function
CHEM 212	Introductory Organic Chemistry 1
PHGY 201	Human Physiology: Control Systems
PHGY 202	Human Physiology: Body Functions
PHGY 209	Mammalian Physiology 1
PHGY 210	Mammalian Physiology 2

Specialization Courses (Minimum of 12 credits)
A minimum of 6 credits must be taken from a department other than the student's department and at least one BMDE course must be selected. These BMDE courses are best taken near the end of the program, when prerequisites are satisfied.

Artificial Cells and Organs

BMDE 505	Cell and Tissue Engineering
PHGY 311	Channels, Synapses & Hormones
PHGY 312	Intermediate Physiology 2
PHGY 313	Intermediate Physiology 3
PHGY 517	Artificial Internal Organs
PHGY 518	Artificial Cells

Bioinformatics, Genomics and Proteomics

ANAT 365	Cellular Trafficking
ANAT 458	Membranes and Cellular Signaling
or BIOC 458	Membranes and Cellular Signaling
BIOC 311	Metabolic Biochemistry
BIOC 312	Biochemistry of Macromolecules
BMDE 506	Molecular Biology Techniques
COMP 302	Programming Languages and Paradigms
COMP 360	Algorithm Design Techniques
COMP 421	Database Systems
COMP 424	Topics: Artificial Intelligence 1
COMP 462	Computational Biology Methods
COMP 526	Probabilistic Reasoning and AI

Biomaterials, Biosensors & Nanotechnology

BMDE 504	Biomaterials and Bioperformance
BMDE 505	Cell and Tissue Engineering
CHEE 380	Materials Science
ECSE 424	Human-Computer Interaction
MECH 553	Design and Manufacture of Microdevices
MIME 360	Phase Transformations: Solids
MIME 362	Mechanical Properties
PHYS 534	Nanoscience and Nanotechnology

Biomechanics and Prosthetics

BMDE 503	Biomedical Instrumentation
CHEE 563	Biofluids and Cardiovascular Mechanics
or MECH 563	Biofluids and Cardiovascular Mechanics
MECH 315	Mechanics 3
MECH 321	Mechanics of Deformable Solids
MECH 530	Mechanics of Composite Materials
MECH 561	Biomechanics of Musculoskeletal Systems
MIME 360	Phase Transformations: Solids
MIME 362	Mechanical Properties

Medical Physics and Imaging

BMDE 519	Biomedical Signals and Systems
COMP 302	Programming Languages and Paradigms
COMP 360	Algorithm Design Techniques
COMP 423	Data Compression
COMP 424	Topics: Artificial Intelligence 1
COMP 558	Fundamentals of Computer Vision
ECSE 303	Signals and Systems 1
ECSE 304	Signals and Systems 2
ECSE 412	Discrete Time Signal Processing
PHYS 557	Nuclear Physics

Neural Systems and Biosignal Processing

BMDE 501	Selected Topics in Biomedical Engineering.
BMDE 502	BME Modelling and Identification
BMDE 503	Biomedical Instrumentation
BMDE 519	Biomedical Signals and Systems
ECSE 526	Artificial Intelligence
PHYS 413	Physical Basis of Physiology

Complementary Courses (Maximum of 6 credits)
Up to 6 credits in the Bachelor's program can also be credited to the Minor, where permitted by the department and to be approved by the Minor Coordinator. In particular, the 200-level and above prerequisite courses to certain Specialization Courses would be eligible. As a result, by careful selection among the complementary courses, the 21 to 25 credit Minor can be satisfied with 9 additional credits in the undergraduate program or a maximum of 12 credits overlap with the degree program.

To complete the Minor in Biomedical Engineering, students must obtain a grade of C or better in all approved courses in the Minor and satisfy the requirements of both the Bachelor's program and the Minor.

9.6.3 Biotechnology Minor

The Faculties of Engineering and of Science offer a Minor in Biotechnology for students interested in taking additional courses in this area.

For Engineering students, the Minor has been designed specifically for students within the Chemical Engineering Department; however, other Engineering students are invited to contact the Minor program supervisor, Professor Bennett, or an adviser in the Student Affairs Office, Engineering Student Centre for further information.

Students should identify an interest in the Minor to their academic adviser and the supervisor of the program during the U1 year, and at the time of registration for the U2 year. With the agreement of the academic adviser, students should submit their course list to the program supervisor, who will certify that the proposed program conforms to the requirements for the Minor.

The Biotechnology Minor Program is administered by the Faculty of Engineering Student Affairs Office, Engineering Student Centre, and by the Faculty of Science by Prof. H. Bennett, Sheldon Biotechnology Centre (Lyman Duff Building).

PROGRAM FOR STUDENTS IN THE FACULTY OF ENGINEERING*

Required Courses (12 credits)

BIOT 505	(3)	Selected Topics in Biotechnology
CHEE 200	(3)	Introduction to Chemical Engineering
CHEE 204	(3)	Chemical Manufacturing Processes
CHEE 474	(3)	Biochemical Engineering

Complementary Courses (12 credits)
selected from courses outside the department of the main program, these may be taken from those listed as required courses for Science students. Alternatively, or in addition, courses may be taken from the lists below, in which case at least three courses must be taken from one area of concentration as grouped.

* As 18 credits must be applied exclusively to the Minor, approved substitutions must be made for any of the specified courses that are part of the student's main program.

Biomedicine

ANAT 541	Cell and Molecular Biology of Aging
EXMD 504	Biology of Cancer
PATH 300	Human Disease

Chemistry

CHEM 382	Organic Chemistry: Natural Products
CHEM 502	Advanced Bio-organic Chemistry
CHEM 552	Physical Organic Chemistry

Immunology

ANAT 261	Introduction to Dynamic Histology
BIOC 503	Immunochemistry
MIMM 314	Immunology
MIMM 414	Advanced Immunology
PHGY 513	Cellular Immunology

Management**

ECON 208	Microeconomics Analysis and Applications
MGCR 211	Introduction to Financial Accounting
MGCR 341	Finance 1
MGCR 352	Marketing Management 1
MGCR 472	Operations Management

** These courses may not also be used for a Management Minor, nor for complementary, by Engineering students.

Microbiology

MIMM 323	Microbial Physiology
MIMM 324	Fundamental Virology
MIMM 413	Parasitology
MIMM 465	Bacterial Pathogenesis
MIMM 466	Viral Pathogenesis

Molecular Biology (Biology)

BIOL 300	Molecular Biology of the Gene
BIOL 314	Molecular Biology of Oncogenes
BIOL 520	Gene Activity in Development
BIOL 551	Molecular Biology: Cell Cycle
BIOL 524	Topics in Molecular Biology

Molecular Biology (Biochemistry)

BIOC 311	Metabolic Biochemistry
BIOC 312	Biochemistry of Macromolecules
BIOC 450	Protein Structure and Function
BIOC 454	Nucleic Acids
BIOC 455	Neurochemistry

Physiology

EXMD 401	Physiology and Biochemistry Endocrine Systems
EXMD 502	Advanced Endocrinology
EXMD 503	Advanced Endocrinology
PHAR 562	General Pharmacology 1
PHAR 563	General Pharmacology 2
PHGY 517	Artificial Internal Organs
PHGY 518	Artificial Cells

Pollution***

CIVE 225	Environmental Engineering
CIVE 430	Water Treatment and Pollution Control
CIVE 526	Solid Waste Management
CIVE 553	Stream Pollution and Control

*** These courses may not also be used for an Environmental Engineering Minor by Engineering students.

General

MIME 310	Engineering Economy

A Chemical Engineering student may complete the Biotechnology Minor by taking BIOL 200, BIOL 201, BIOL 202, MIMM 211, BIOT 505, plus one course from the list of additional courses not including MIME 310. The Department of Chemical Engineering permits students in the Minor program to complete BIOT 505 as one of their technical complementary requirements. The total course credit required for the Chemical Engineering student is 15 credits beyond the 111-credit B.Eng. program.

9.6.4 Chemistry Minor

The Departments of Chemistry and Chemical Engineering offer a Minor Program in Chemistry, of particular interest to Chemical Engineering students, and a Minor in Chemical Engineering, of interest to Chemistry students (described under the Faculty of Science). The Minor in Chemistry consists of 25 credits as follows:

1. Required courses, 10 credits: CHEM 212 and CHEM 234 (or CEGEP equivalent) and either CHEM 233 or CHEE 310.
2. At least 15 credits from the following list, two of which must be laboratory courses (* indicates lab). Note that CHEM 212 is a prerequisite for most of the courses listed below, as are CHEM 223 and CHEM 243 or their equivalents, for the physical chemistry courses. If students take CHEM 222* instead of CHEM 234, they will receive credit for one of the two laboratories that are required but they must have a total of 25 Chemistry credits for the Minor.

Inorganic Chemistry

CHEM 281	Inorganic Chemistry 1
CHEM 371	Inorganic Chemistry Laboratory*
CHEM 381	Inorganic Chemistry 2
CHEM 591	Bioinorganic Chemistry

Analytical Chemistry

CHEM 257D1	Introductory Analytical Chemistry*
CHEM 257D2	Introductory Analytical Chemistry*
or CHEM 277D1	Analytical Chemistry*
CHEM 277D2	Analytical Chemistry*
CHEM 307	Analytical Chemistry of Pollutants
CHEM 367	Instrumental Analysis 1
CHEM 377	Instrumental Analysis 2

Organic Chemistry

CHEM 302	Introductory Organic Chemistry 3
CHEM 352	Structural Organic Chemistry
CHEM 362	Advanced Organic Chemistry Laboratory*
CHEM 382	Organic Chemistry: Natural Products

Physical Chemistry

CHEM 345	Molecular Properties and Structure 1
CHEM 355	Molecular Properties and Structure 2
CHEM 393	Physical Chemistry Laboratory 2*
CHEM 455	Introductory Polymer Chemistry

Please consult the program coordinators for more information: Professor D. Cooper (Chemical Engineering) and Dr. G. Wilczek (Chemistry). A passing grade for courses within the Minor is a C.

9.6.5 Computer Science Courses and Minor Program

The School of Computer Science offers an extensive range of courses for Engineering students interested in computers. The course explicitly for Engineering students (COMP 208) and other courses in the core of the various Engineering programs are listed below. Descriptions of these and other Computer Science courses can be found on Class Schedule or in the Courses section.

COMP 202 Introduction to Computing 1
COMP 208 Computers in Engineering
COMP 250 Introduction to Computer Science
COMP 302 Programming Languages and Paradigms

Engineering students may obtain a Minor in Computer Science as part of their B.Eng. degree by satisfying the 24-credit requirement described below. In general, some complementary courses within Engineering departmental programs may be used to satisfy some of these requirements, but the Minor in Computer Science will require at least 12 extra credits from Computer Science (COMP) courses beyond those needed for the B.Eng. degree. Students should consult their departments about the use of complementaries, and credits that can be double counted.

Students should see the Undergraduate Secretary in the Lorne Trottier Building, Room 2060, to obtain the appropriate forms and to make an appointment to see the Minor adviser for approval of their course selection. Forms must be approved before the end of the Course Change (drop/add) period of the student's final term.

For further information, please check the School of Computer Science website, www.cs.mcgill.ca.

Minor in Computer Science for Engineering Students

The program must consist of 24 credits, from courses passed with a grade of C or better, as follows:

Required Course (6 credits)

COMP 206	(3)	Introduction to Software Systems
COMP 302	(3)	Programming Languages and Paradigms

Complementary Courses (18 credits)

3 credits – one of the following courses:

COMP 203	(3)	Introduction to Computing 2
COMP 250	(3)	Introduction to Computer Science

3 credits – one of the following courses:

COMP 273	(3)	Introduction to Computer Systems
ECSE 221	(3)	Introduction to Computer Engineering

3 credits – one of the following courses:

COMP 350	(3)	Numerical Computing
MECH 309	(3)	Numerical Methods in Mechanical Engineering

9 credits chosen from Computer Science courses numbered 251 or at the 300 level or higher. Courses from other departments making considerable use of computing and approved by the School of Computer Science may also be selected. Students should consult with their advisers about counting specific courses.

Note:

A. COMP 202 and COMP 208 (compulsory for some Engineering students) do not form part of the Minor.
B. COMP 203 and COMP 250 are considered to be equivalent from a prerequisite point of view, and cannot both be taken for credit.
C. COMP 208 may be taken before COMP 250; however, it cannot be taken for credit in the same term or afterwards.

9.6.6 Construction Engineering and Management Minor

Students in the Faculty of Engineering may obtain a Minor in Construction Engineering and Management by completing 24 to 25 credits chosen from the required and complementary courses listed below. For further information, contact Professor L. Chouinard at 514-398-6446, Room 488, Macdonald Engineering Building.

Prerequisites:

CIVE 208	Civil Engineering Systems Analysis or an equivalent course in Operations Research
CIVE 302	Probabilistic Systems or equivalent
COMP 208	Computers in Engineering or equivalent
MIME 310	Engineering Economy

Requirements:

The 24 to 25 credits listed below must be completed with a grade of C or higher in order to fulfil the requirements of the Minor.

1. Management and Law: 15 credits, as follows:

FACC 220	(3)	Law for Architects and Engineers
INDR 294	(3)	Introduction to Labour-Management Relations
MGCR 211	(3)	Introduction to Financial Accounting
MGCR 341	(3)	Finance 1

and one of:

CIVE 324	(3)	Construction Project Management
MECH 472	(3)	Case Studies in Project Mgmt

2. Either 3 or 4 credits, as follows:

a) 4 credits - Any two of the following relating to Building Structures:

ARCH 447	(2)	Lighting
ARCH 451	(2)	Building Regulations and Safety
ARCH 554	(2)	Mechanical Services
CIVE 492	(2)	Structures

or
b) 3 credits - One of the following relating to Heavy Construction:
MIME 322 (3) Rock Fragmentation
MIME 333 (3) Materials Handling

3. Other Construction-Related Complementaries: 6 credits
Any two of the following:
BUSA 462 (3) Management of New Enterprises
CIVE 446 (3) Construction Engineering
CIVE 527 (3) Renovation and Preservation: Infrastructure
CIVE 586 (3) Earthwork Engineering
ECSE 461 (3) Electric Machinery
FINE 445 (3) Real Estate Finance
MIME 520 (3) Stability of Rock Slopes
MIME 521 (3) Stability of Underground Openings
MPMC 321 (3) Mécanique des roches et contrôle des terrains

Total requirement: 24 or 25 credits

9.6.7 Economics Minor

The Minor consists of 18 credits of required and complementary courses given in the Economics Department. In addition, it is presumed that all Engineering students will have a sufficient background in statistics. Engineering Economy, MIME 310, does not form part of this Minor. Engineering students who want to complete a minor in economics are required to complete the following program rather than one of the minor concentrations offered by the Department of Economics in the Faculty of Arts section of the Calendar, unless they have obtained permission from the Faculty of Engineering. For more information see the Department of Economics, Room 443, Leacock Building.

Required Courses (9 credits)
ECON 230D1* Microeconomic Theory
ECON 230D2* Microeconomic Theory
ECON 209** Macroeconomic Analysis and Applications

Complementary Courses (9 credits) from:
ECON 225 Economics of the Environment
ECON 302D1 Money and Banking
ECON 302D2 Money and Banking
ECON 303D1 Canadian Economic Policy
ECON 303D2 Canadian Economic Policy
ECON 305 Industrial Organization
ECON 306D1 Labour Economics and Institutions
ECON 306D2 Labour Economics and Institutions
ECON 308 Governmental Policy Towards Business
ECON 311 United States Economic Development
ECON 313 Economic Development 1
ECON 314 Economic Development 2
ECON 316 The Underground Economy
ECON 321 The Quebec Economy
ECON 326 Ecological Economics
ECON 329 Economics of Confederation
ECON 330D1 Macroeconomic Theory
ECON 330D2 Macroeconomic Theory
ECON 331 Economic Development: Russia and USSR
ECON 335 The Japanese Economy
ECON 337 Introductory Econometrics 1
ECON 344 The International Economy, 1830 - 1914
ECON 345 The International Economy Since 1914
ECON 347 Economics of Climate Change
ECON 348 Urban Economics
ECON 404 Transportation
ECON 405 Natural Resource Economics
ECON 406 Topics in Economic Policy
ECON 408D1 Public Sector Economics
ECON 408D2 Public Sector Economics
ECON 411 Economic Development: A World Area
ECON 416 Topics in Economic Development 2
ECON 420 Topics in Economic Theory
ECON 423D1 International Trade and Finance
ECON 423D2 International Trade and Finance
ECON 426 Labour Economics
ECON 434 Current Economic Problems
ECON 440 Health Economics
ECON 447 Economics of Information and Uncertainty
ECON 467D1 Econometrics - Honours
ECON 467D2 Econometrics - Honours
ECON 525 Project Analysis
ECON 534 Pension Crisis
ECON 546 Game Theory

Mining Engineering students will be permitted to include Mineral Economics (MIME 526) among these 18 credits.

* Students may, with consent of instructor, take ECON 250D1/ ECON 250D2 Introduction to Economic Theory: Honours, in place of ECON 230D1/ECON 230D2.

** This requirement is waived for students who choose ECON 330D1/ECON 330D2 from the list of complementaries. Students may **not** take both ECON 209 and ECON 330D1/ ECON 330D2.

9.6.8 Environmental Engineering Minor

The Environmental Engineering Minor is offered for students in Engineering and in the Department of Bioresource Engineering wishing to pursue studies in this area.

The Minor program consists of 21 credits. A maximum of 12 credits of coursework in the student's B.Eng. program may double-count with the Minor.

To complete the Minor in Environmental Engineering, students must obtain a grade of C or better in all approved courses in the Minor, and satisfy the requirements of the Minor and of their departmental program.

The Environmental Engineering Minor Program is administered by the Department of Civil Engineering and Applied Mechanics. Further information may be obtained from Professor Gehr, Room 487, Macdonald Engineering Building.

Note: Not all courses listed are offered every year. Students should consult with the department concerned about the courses that are offered in a given year.

Minor Requirements (21 credits)
Introductory course (3 credits minimum) – one of:
CHEE 230 (3) Environmental Aspects of Technology
CIVE 225 (4) Environmental Engineering

plus a minimum of 18 credits,

EITHER

15 credits* (minimum) Engineering courses and 3 credits (minimum) Non-Engineering courses, from the course lists below

* A minimum of 6 credits must be from outside the student's department. A maximum of 6 credits of research project courses may be counted toward this category, provided the project has sufficient environmental engineering content (project proposal requires approval of project supervisor and Coordinator of the Minor).

OR

15 credits specified for the section 15.3.2 "Barbados Field Study Semester", provided the project for CIVE/AGRI/URBP 519 Sustainable Development Plans has sufficient environmental engineering content (project proposal requires approval of the Coordinator of the Minor) and

3 credits chosen from the Engineering Course List below, excluding CHEE 496

Engineering Course List
(Environmental Engineering Minor)

Agricultural Engineering (Macdonald Campus)
BREE 217 (3) Hydrology and Water Resources (not open to students who have passed CIVE 323)
BREE 322 (3) Organic Waste Management
BREE 416 (3) Engineering for Land Development
BREE 518 (3) Bio-Treatment of Wastes

Chemical Engineering
CHEE 351 (3) Separation Processes
CHEE 370 (3) Elements of Biotechnology
CHEE 430 (3) Technology Impact Assessment (not open to students who have passed WILD 437)
CHEE 452 (3) Particulate Systems (offered in alternate years)
CHEE 496 (3) Environmental Research Project
CHEE 591 (3) Environmental Bioremediation
CHEE 592 (3) Industrial Air Pollution Control
CHEE 593 (3) Industrial Water Pollution Control

Civil Engineering and Applied Mechanics
CIVE 225 (4) Environmental Engineering
CIVE 323 (3) Hydrology and Water Resources (not open to students who have passed BREE 217)
CIVE 421 (3) Municipal Systems
CIVE 428 (3) Water Resources and Hydraulic Engineering
CIVE 430 (3) Water Treatment and Pollution Control
CIVE 451 (3) Geoenvironmental Engineering
CIVE 526 (3) Solid Waste Management
CIVE 550 (3) Water Resources Management
CIVE 553 (3) Stream Pollution and Control
CIVE 555 (3) Environmental Data Analysis
CIVE 572 (3) Computational Hydraulics
CIVE 573 (3) Hydraulic Structures
CIVE 574 (3) Fluid Mechanics of Water Pollution
CIVE 577 (3) River Engineering
CIVE 585 (3) Groundwater Hydrology

Mechanical Engineering
MECH 434 (3) Turbomachinery
MECH 447 (3) Combustion
MECH 526 (3) Manufacturing and the Environment
MECH 534 (3) Air Pollution Engineering

Mining and Materials Engineering
MIME 412 (3) Corrosion and Degradation
MIME 422 (3) Mine Ventilation
MIME 451 (3) Environmental Controls: Met'l Plants
MPMC 327 (3) Hydrogéologie appliquée
MPMC 328 (3) Environnement et gestion des rejets miniers

Urban Planning
URBP 506 (3) Environmental Policy and Planning

Non-Engineering Course List
(Environmental Engineering Minor)

Agricultural Sciences (Macdonald Campus)
MICR 230 (3) Introductory Microbiology (not open to students who have passed CHEE 370)
MICR 331 (3) Microbial Ecology (not open to students who have passed CHEE 370)
MICR 341 (3) Mechanisms of Pathogenicity
SOIL 210 (3) Principles of Soil Science (not part of the Minor for Agricultural Engineering Students)
SOIL 331 (3) Soil Physics
WILD 375 (3) Issues: Environmental Sciences
WILD 415 (2) Conservation Law
WILD 437 (3) Assessing Environmental Impact (not open to students who have passed CHEE 430)
WOOD 420 (3) Environmental Issues: Forestry
ZOOL 315 (3) Science of Inland Waters

Anthropology
ANTH 206 (3) Environment and Culture

Atmospheric and Oceanic Sciences
ATOC 210 (3) Introduction to Atmospheric Science (not open to students who have passed GEOG 321)
ATOC 220 (3) Introduction to Oceanic Sciences

Biology
BIOL 205 (3) Biology of Organisms
BIOL 432 (3) Limnology

Chemistry
CHEM 307 (3) Analytical Chemistry of Pollutants

Earth and Planetary Sciences
EPSC 243 (3) Environmental Geology (not open to students who have passed or who will take EPSC 221)
EPSC 549 (3) Groundwater Hydrology

Economics
ECON 225 (3) Economics of the Environment
ECON 326 (3) Ecological Economics
ECON 347 (3) Economics of Climate Change

Geography
GEOG 200 (3) Geographical Perspectives: World Environmental Problems
GEOG 201 (3) Introductory Geo-Information Science
GEOG 203 (3) Environmental Systems
GEOG 205 (3) Global Change: Past, Present and Future
GEOG 302 (3) Environmental Management 1
GEOG 308 (3) Principles of Remote Sensing
GEOG 321 (3) Climatic Environments (not open to students who have passed ATOC 210)
GEOG 404 (3) Environmental Management 2

Law
CMPL 580 (3) Environment and the Law

Microbiology and Immunology
MIMM 211 (3) Introductory Microbiology

Religious Studies (Macdonald Campus)
RELG 270 (3) Religious Ethics and the Environment

Sociology
SOCI 328 (3) Environmental Sociology

9.6.9 Minor in Environment

Environmental studies involve the interactions between humans and their natural or technological environment. Environmental problems are frequently comprehensive and complex, and their satisfactory solutions require the synthesis of humanistic, scientific, and institutional knowledge.

The Minor in Environment is offered and administered by the McGill School of Environment (MSE). Inquiries should be directed to Ms. Kathy Roulet, MSE Program Adviser; email: kathy.roulet@mcgill.ca, or telephone: 514-398-4306.

Since the program comprises a total of 18 credits for the Minor, additional credits beyond those needed for the B.Eng. degree are required. Students wishing to receive the Minor should prepare a program and have it approved by both their regular Engineering adviser and the MSE adviser. For program details, see section 10.5 "Minor in Environment".

9.6.10 Minor Programs in Finance, Management, Marketing, and Operations Management

Prerequisite:
Engineering Economy MIME 310 introduces the concept of cost into evaluations of engineering projects and architectural proposals. The Faculty of Engineering requires that students complete MIME 310 with a grade of C or better prior to embarking on a Management minor.

Many engineers begin to assume management functions within a few years of graduation. They can, at this stage, take up the study of economics, behavioural science and other management

subjects. Students wishing to include such studies in their undergraduate program can take suitable courses from Engineering and Management.

Courses are available, subject to timetable requirements, from the core program of the Desautels Faculty of Management. Some courses from the Management core program have considerable overlap with Engineering courses and thus are not available to Engineering students. Further information is available at www.mcgill.ca/engineering/degrees/minors.

A student embarking on a Minor must be prepared to take credits additional to the normal Engineering program. Students may choose the Complementary Studies (Humanities and Social Sciences) courses(s) (maximum of 6 credits) in his/her program to count toward both the Engineering program and the Minors where applicable. For more information, see section 9.3.4 "Complementary Studies".

Students considering this Minor should consult an adviser or the Faculty of Engineering Student Affairs Office, Engineering Student Centre.

Students must have a CGPA of 3.0 or better to be considered for this minor. Students planning to take any course with statistics as a prerequisite must have completed MGCR 271 (Business Statistics) or an equivalent course approved by the BCom Student Affairs Office.

Detailed information on this minor can be found in the Desautels Faculty of Management chapter, section 11.10 "Minors for Non-Management Students".

9.6.11 Materials Engineering Minor

Engineering students may obtain a Minor in Materials Engineering by completing 24 credits chosen from the required and complementary courses listed below. By a careful selection of complementary courses, Engineering students may obtain this Minor with a minimum of 15 additional credits. For further information, please contact the coordinator, Prof. J. Szpunar, Room 2M020, Wong Building.

Required Courses (15 credits)

MIME 260	Materials Science and Engineering
or CHEE 380	Materials Science
MIME 367	Electronic Properties of Materials
MIME 465	Ceramic Engineering
CHEE 481	Polymer Engineering
CHEE 484	Materials Engineering

Complementary Courses (9 credits)

Three courses to be chosen from the following list:

CHEE 487	Chemical Processing: Electronics Industry
CHEM 455	Introductory Polymer Chemistry
ECSE 545	Microelectronics Technology
MECH 530	Mechanics of Composite Materials
MIME 360	Phase Transformations: Solids
MIME 361	Liquid State Processing of Materials
MIME 412	Corrosion and Degradation
MIME 560	Joining Processes
MIME 561	Advanced Materials Design
MIME 563	Hot Deformation of Metals
MIME 566	Texture, Structure & Properties of Polycrystalline Materials
MIME 569	Electron Beam Analysis of Materials

9.6.12 Mathematics Minor

The Minor in Mathematics for students in the Faculty of Engineering requires satisfactory passes in 24 credits of approved courses in Mathematics not including the following:

MATH 247 (and MATH 223)
MATH 262 (and MATH 222 and MATH 260)
MATH 263 (and MATH 261 and MATH 315 and MATH 325)
MATH 264 (and MATH 248 and MATH 265 and MATH 314)
MATH 270
MATH 271 (and MATH 266)
MATH 319

At least 18 credits must be chosen from the Mathematics and Statistics courses approved for the Mathematics Major or Honours program, or from MATH 249, MATH 363, MATH 381. The remaining credits may be chosen from mathematically allied courses.

In addition to an Engineering adviser, each student in the Minor program must have an adviser designated by the Department of Mathematics and Statistics, normally beginning in the U2 year. The selection of courses for the Minor is to be done in conjunction with the Minor adviser. Please consult the Department of Mathematics and Statistics for an adviser.

9.6.13 Mining Engineering Minor

Students in Engineering may obtain a minor in Mining Engineering by completing 24 credits chosen from the required and complementary courses listed below.

One of the required courses is a work term for which enrolment may be limited. Interested students should contact the coordinator, Professor Hani Mitri, Room 121, Adams Building.

Required Courses (12 credits)

MIME 200	Introduction to the Minerals Industry
MIME 291	Industrial Work Period 2
MIME 313	Mining Science and Technology Seminar
MIME 322	Rock Fragmentation
MIME 333	Materials Handling

Complementary Courses (12 credits)

Courses to be chosen from the following lists:

List A: Mining Engineering (minimum 6 credits)

MIME 320	Extraction of Energy Resources
MIME 323	Rock and Soil Mass Characterization
MIME 325	Mineral Industry Economics
MIME 341	Introduction to Mineral Processing
MIME 419	Surface Mining
MIME 422	Mine Ventilation
MIME 426	Development and Services
MIME 520	Stability of Rock Slopes
MIME 521	Stability of Underground Openings
MIME 526	Mineral Economics

List B: Mechanical Engineering (maximum 6 credits)

MECH 497	Value Engineering
MECH 554	Microprocessors for Mechanical Systems
MECH 557	Mechatronic Design
MECH 572	Introduction to Robotics
MECH 573	Mechanics of Robotic Systems
MECH 577	Optimum Design

List C: Civil Engineering (maximum 6 credits)

CIVE 416	Geotechnical Engineering
CIVE 451	Geoenvironmental Engineering
CIVE 462	Design of Steel Structures
CIVE 463	Design of Concrete Structures
CIVE 527	Renovation and Preservation: Infrastructure

List D: Chemical Engineering (maximum 6 credits)

CHEE 453	Process Design
CHEE 455	Process Control
CHEE 484	Materials Engineering

9.6.14 Physics Minor

Students in Honours Electrical Engineering may obtain a Minor in Physics as part of their B.Eng. degree by satisfying the 18-credit requirement listed below:

PHYS 253 Thermal Physics
PHYS 357 Honours Quantum Physics 1
PHYS 457 Honours Quantum Physics 2

and at least 9 credits chosen from the following:
PHYS 332 Physics of Fluids
PHYS 362 Statistical Mechanics
PHYS 451 Honours Classical Mechanics 2
PHYS 514 General Relativity

PHYS 551 Quantum Theory
PHYS 557 Nuclear Physics
PHYS 558 Solid State Physics
PHYS 559 Advanced Statistical Mechanics
PHYS 562 Electromagnetic Theory
PHYS 567 Particle Physics

Students who take PHYS 357 and PHYS 457 can omit PHYS 271 from their normal Electrical Engineering program. Please consult the Department of Physics for an adviser.

9.6.15 Technological Entrepreneurship Minor

Engineering students may obtain a Minor in Technological Entrepreneurship by completing six courses (18 credits) as listed below. Up to two courses (6 credits) may be double-counted for credit toward the Humanities and Social Sciences Complementary Courses.

This Minor is offered jointly by the Faculties of Engineering and Management. It will appeal to those students who have a concept, process or product idea in mind and who want to explore the opportunity of commercializing it. It will also be of interest to students who have a general interest in entrepreneurship and intend to pursue a career in small and medium-sized high technology/engineering companies.

Students considering the Minor should consult with a faculty adviser in the Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22.

Complementary Courses (18 credits)
any 6 courses (18 credits) from the following list:
BUSA 465 (3) Technological Entrepreneurship
FACC 500 (3) Technology Business Plan Design
FACC 501 (3) Technology Business Plan Project
MGCR 352 (3) Marketing Management 1
MGCR 423 (3) Organizational Policy
MRKT 360 (3) Marketing of Technology
ORGB 321 (3) Leadership
ORGB 423 (3) Human Resources Management

9.6.16 Software Engineering Minor

This Minor will prepare an engineering student for a career in software engineering. It will provide a foundation in basic computer science, computer programming and software engineering practice.

The Minor consists of 24 credits (8 courses). Up to four of the courses (12 credits) may be double-counted for credit towards the B. Eng. degree in Electrical Engineering or Computer Engineering. Students in other programs may double-count up to three courses (9 credits).

Students considering this Minor should consult with a faculty adviser in the Student Affairs Office, Engineering Student Centre, Frank Dawson Adams, Suite 22.

Required Courses (9 credits)
ECSE 221 (3) Introduction to Computer Engineering
ECSE 321 (3) Introduction to Software Engineering
ECSE 428 (3) Software Engineering Practice

Complementary Courses (15 credits)
one course (3 credits), either:
COMP 203 (3) Introduction to Computing 2
or COMP 250 (3) Introduction to Computer Science

At least one course (3 credits) must be selected from the following list of engineering courses:
CHEE 458 (3) Computer Applications
CHEE 571 (3) Small Computer Applications: Chemical Engineering
CIVE 460 (3) Matrix Structural Analysis
CIVE 550 (3) Water Resources Management
CIVE 572 (3) Computational Hydraulics
ECSE 322 (3) Computer Engineering
ECSE 420 (3) Parallel Computing
ECSE 421 (3) Embedded Systems
ECSE 422 (3) Fault Tolerant Computing
ECSE 424 (3) Human-Computer Interaction
ECSE 427 (3) Operating Systems
ECSE 429 (3) Software Validation
ECSE 526 (3) Artificial Intelligence
ECSE 532 (3) Computer Graphics
MECH 474 (3) Selected Topics in Operations Research
MECH 524 (3) Computer Integrated Manufacturing
MECH 539 (3) Computational Aerodynamics
MECH 545 (3) Advanced Stress Analysis
MECH 576 (3) Computer Graphics and Geometrical Modelling

No more than two courses (6 credits) can be selected from the following list of courses offered by the School of Computer Science:
COMP 302 (3) Programming Languages and Paradigms
COMP 335 (3) Software Engineering Methods
COMP 420 (3) Secondary Storage Algorithms and Data Sources
COMP 421 (3) Database Systems
COMP 424 (3) Topics: Artificial Intelligence 1
COMP 426 (3) Automated Reasoning
COMP 431 (3) Algorithms for Engineers

Martin Grant; B.Sc.(PEI), M.Sc., Ph.D.(Tor.) **Dean, Faculty of Science**

Marilyn Scott; B.Sc.(New Br.), Ph.D.(McG.) **Director**

Madhav Badami; B.Tech., M.Sc.(IIT), M.E.Des.(Calg.), Ph.D.(Br. Col.) **Associate Director, Graduate Affairs**

George McCourt; B.Sc., M.Sc.(Alta.), M.Sc.(McG.) **Associate Director, Undergraduate Affairs**

Kathryn Roulet; B.Sc.(Trent), M.Sc.(Guelph) **Program Advisor**

10.1.3 Academic Staff

Professors
Peter G. Brown; B.A.(Haver.), M.A., Ph.D.(Col.) *(joint appoint. with Geography and Natural Resource Sciences)*
Colin Chapman; B.Sc., M.A., Ph.D.(Alta.) (*joint appoint. with Anthropology*)

Associate Professors
Madhav Badami; B.Tech., M.Sc.(IIT), M.E.Des.(Calg.), Ph.D.(Br. Col.) (*joint appoint. with School of Urban Planning*)
Sylvie de Blois; B.Sc.(Agr.)(McG.), M.Sc., Ph.D.(Montr.) (*joint appoint. with Plant Science*)
Frédéric Fabry; B.Sc., M.Sc., Ph.D.(McG.) (*joint appoint. with Atmospheric and Oceanic Sciences*)
Gregory Mikkelson; B.A.(Trinity), M.S., Ph.D.(Chic.) (*joint appoint. with Philosophy*)
Anthony Ricciardi; B.Sc.(Agr.), M.Sc., Ph.D.(McG.) (*joint appoint. with Redpath Museum*)
Renée Sieber; B.Sc.(Mich. St.), M.P.A.(W. Mich.), Ph.D.(Rutg.) (*joint appoint. with Geography)*

Assistant Professors
Elena Bennett; B.A.(Oberlin), M.Sc., Ph.D.(Wis.) (*joint appoint. with Natural Resource Sciences*)
Jaye Ellis; B.A.(Calg.), LL.B., B.C.L.(McG.), LL.M.(Br. Col.) *(joint appoint. with Law)*
Iwao Hirose; Ph.D.(St. And.) (*joint appoint. with Philosophy*)
Brian Leung; B.Sc.(Br. Col.), Ph.D.(Car.) (*joint appoint. with Biology*)
Garry Peterson; B.Sc.(Wat.), M.Sc., Ph.D.(Flor.) *(joint appoint. with Geography)*
Raja Sengupta; B.Sc.(Bombay), M.Sc.(IIT), Ph.D.(S. Illinois) *(joint appoint. with Geography)*
Ismael Vaccaro; B.A.(Barcelona), D.E.A.(Paris), M.A., Ph.D.(Wash.) (*joint appoint. with Anthropology*)

Faculty Lecturers
Colin Duncan; B.A.(Qu.), M.A., Ph.D.(York)

George McCourt; B.Sc., M.Sc.(Alta.), M.Sc.(McG.)
Joan Marshall; B.A.(McG.), M.A.(Tor.), Ph.D.(McG.)

Associate Members
Animal Science: Sarah Kimmins
Anthropology: Andre Costopoulos, John Galaty, Colin H. Scott
Architecture: Avi Friedman
Atmospheric and Oceanic Sciences: Parisa Ariya
Biology: Lauren Chapman, Andrew Gonzalez, Irene Gregory-Eaves, Martin Lechowicz, Brian McGill, Catherine Potvin
Bioresource Engineering: Suzelle Barrington, Robert Bonnell, Robert Kok
Chemical Engineering: Nathalie Tufenkji, Viviane Yargeau
Civil Engineering and Applied Mechanics: Susan Gaskin, Subhasis Ghoshal, Van-Thanh-Van Nguyen, Jim Nicell
Dietetics and Human Nutrition, School of: Tim Johns
Earth and Planetary Sciences: Alfonso Mucci, Jeanne Paquette
Economics: Robert Cairns, Myron Frankman, Chris Green, Franque Grimard, Tom Naylor
Epidemiology and Biostatistics: Mark Goldberg
Geography: Gail Chmura, Oliver Coomes, Thom Meredith, Tim Moore, Wayne H. Pollard, Nigel Roulet
History: Myron Echenberg
Law, Faculty of: Jane Glenn, Richard Janda
Management, Faculty of: Steve Maguire, Vedat Verter
Medicine, Ethics, Law: Margaret Somerville
Natural Resource Sciences: Benoit Côté, Mark Curtis, Jim W. Fyles, William Hendershot, John Henning, Paul Thomassin, Terry Wheeler
Parasitology, Institute of: Marilyn Scott
Pathology: Bruce Case
Philosophy: Philip Buckley
Plant Science: Caroline Begg, Pierre Dutilleul, Don Smith, Marcia Waterway
Political Science: Philip Oxhorn
Redpath Museum: David M. Green
Urban Planning, School of: Jeanne Wolfe

10.1.4 Creation of the School

McGill's Faculties of Agricultural and Environmental Sciences, Arts, Science, and Law have forged a unique approach to the study of environment through the inter-faculty, trans-disciplinary McGill School of Environment (MSE).

The growth of technology, globalizing economies, and rapid increase in population have had dramatic and significant environmental impacts. These changes have been accompanied by an increasing awareness of the relationship between human activity and the environment. Environmental problems range from local and short-term degradation through to the perturbation observed over the entire globe and for many years. The importance of human-environment relations for environmental and social well-being, and the complexity and conflict involved in environmental analysis and decision making, requires a depth and breadth of knowledge. The MSE has developed its programs with the approach of introducing students to a broad range of ideas early in the program to provide a foundation and an openness upon which more specialized, disciplinary knowledge can be built.

10.1.5 Mission of the School

The mission of the McGill School of Environment is:

- to provide a program that will develop a broad-based environmental literacy in the undergraduate population;
- to develop opportunities for graduate students to pursue the studies of the environment at an advanced level to create future leaders and researchers; and
- to generate new ideas, new insights, new technologies, and new approaches to understanding and redressing environmental problems through academic research and outreach that draws on the University's existing strength in research and spans disciplinary boundaries.

10.2 Admission, Registration and Regulations

10.2.1 Admission

Students may be admitted to a B.A., B.A.&Sc., B.Sc.(Ag.Env.Sc.), or a B.Sc. program, offered by the MSE on the University's two campuses: the Macdonald Campus and the Downtown Campus. They register as students within their faculty of admission and are governed by all rules and regulations of that faculty.

Students who have already completed a Bachelor or an equivalent degree may be admitted to the Diploma in Environment through the Faculty of Agricultural and Environmental Sciences, the Faculty of Arts, or the Faculty of Science. They register as students within their faculty of admission and are governed by all rules and regulations of that faculty relative to the Diploma.

Please see the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad.

10.2.2 Degree Requirements

To be eligible for a B.A. degree, students must fulfil all the faculty and program requirements as indicated under Arts (see section 6.3 "Faculty Degree Requirements").

To be eligible for a B.A.&Sc. degree, students must fulfil all the faculty and program requirements as indicated under the Bachelor of Arts and Science (see section 7.3 "Degree Requirements").

To be eligible for a B.Sc.(Ag.Env.Sc.) degree, students must fulfil all the faculty and program requirements as indicated under Agricultural and Environmental Sciences (see section 5.5.15 "Degree Requirements").

To be eligible for a B.Sc. degree, students must fulfil all the faculty and program requirements as indicated under Science (see section 14.3 "Faculty Degree Requirements").

To be eligible for the Diploma in Environment, students must fulfil all program requirements as specified in section 10.11 "Diploma in Environment".

To be eligible for an Honours degree, students must fulfil all the faculty and program requirements as indicated under their home faculty. For Agricultural and Environmental Sciences, see section 5.5.18 "Honours and First Class Honours"; for Arts, see section 6.10.1 "Honours and First-Class Honours"; for Arts & Science, see section 7.10.1 "Honours and First-Class Honours"; for Science, see section 14.10.1 "Honours and First-Class Honours".

In addition to the requirements above, students must also fulfil the honours program requirements outlined in section 10.10 "Honours Program in Environment".

10.2.3 Advising in the MSE

Each Domain in the MSE has its own Mentor who is available to answer questions and offer guidance about working and learning within the particular field of the Domain. However, students with questions about program requirements or rules, transfer credits, study abroad programs, course substitutions, or any forms that need to be signed, should contact the MSE Program Advisor, Kathy Roulet at kathy.roulet@mcgill.ca.

10.2.4 Important Information about Program Selection

The MSE uses students' program selections to identify which students are in the School's major programs (and, by extension, which students are in the McGill Environmental Students' Society).

Students in U1 who are unsure of the Domain they want to pursue may register in the Major or Faculty program in Environment without picking a Domain. However, they must pick a Domain in their U2 year.

Note: Students must select a Domain in order to graduate; they cannot graduate without choosing a Domain.

(None of the above applies to students in the B.A.&Sc., Minor or Diploma Programs.)

10.2.5 Course Numbering System at McGill

The first four characters of a McGill course number refer to the unit offering the course. For example, MSE courses begin with the Subject Code ENVR.

The three numbers following the Subject Code refer to the course itself, with 200-level courses usually taken by U1 students, 300-level by U2 students, and 400-level by U3 students. Senior undergraduate students can also take some 500-level courses, but they should limit themselves to no more than one per term. See Course Information, Regulations and Descriptions for more information.

10.2.6 Examination Regulations

Regulations concerning the method of evaluation of any course (including those governing supplemental examinations) are those of the faculty that offers the course. Students should note that supplemental exams are available for courses taught in the Faculties of Arts, of Science, and of Education, but **not** for courses taught in the **Faculties of Agricultural and Environmental Sciences, of Engineering, or of Management.**

Note: All ENVR courses, regardless of where they are taught, are offered only by the Faculty of Science.

See Examinations, section 3.6, for more information on the University regulations and procedures.

10.2.7 Courses Outside the Student's Faculty

Students in the School's B.A., B.A.&Sc., B.Sc. and B.Sc.(Ag.Env.Sc.) programs may take courses outside their faculty according to the regulations of their faculty of admission. These regulations are **not identical**:

- Arts students, see Faculty of Arts, section 6.3.6.3 "Courses Outside the Faculties of Arts and of Science".
- Arts and Science students, see Bachelor of Arts and Science, section 7.3.6.2 "Courses outside the Faculties of Arts and of Science".
- Science students, see Faculty of Science, section 14.3.6.2 "Courses Outside the Faculties of Arts and Science".
- Agricultural and Environmental Sciences students, see "Minimum Credit Requirement" on page 90.
- Faculty of Science students in particular should be aware that some courses are restricted and cannot be taken for credit. See the Science Office for Undergraduate Student Advising (SOUSA) website at www.mcgill.ca/science/sousa. Check under *Bachelor of Science degree > General course requirements > Restricted courses outside the Faculty of Science > Policy concerning courses outside Faculty of Science*.
- Students in the Diploma of Environment follow the program as specified; see section 10.11 "Diploma in Environment".

10.3 Programs Offered

The McGill School of Environment has developed seven programs, which are offered on the Downtown and Macdonald campuses:

1. A **Minor in Environment** is open to all undergraduate students. For more information, see section 10.5 "Minor in Environment" on page 305.
2. A **Faculty Program in Environment leading to a B.A.** is open to students meeting the entrance requirements of the Faculty of Arts. For more information, see section 10.6 "B.A. Faculty Program in Environment" on page 306.
3. An **Interfaculty Program in Environment leading to a B.A.&Sc.** is open to students meeting the entrance requirements for the Bachelor of Arts and of Science. For more information, see section 10.7 "B.A.&Sc. Interfaculty Program in Environment" on page 310.
4. A **Major in Environment leading to a B.Sc.(Ag.Env.Sc.)** is open to students meeting the entrance requirements of the Faculty of Agricultural and Environmental Sciences. For more information, see section 10.8 "Major in Environment – B.Sc.(Ag.Env.Sc.) and B.Sc." on page 311.
5. A **Major in Environment leading to a B.Sc**. is open to students meeting the entrance requirements of the Faculty of Science. For more information, see section 10.8 "Major in Environment – B.Sc.(Ag.Env.Sc.) and B.Sc." on page 311.
6. An **Honours Program in Environment** is open to senior Environment students in the B.A., B.A.&Sc., B.Sc.(Ag.Env.Sc.) and B.Sc. degrees. For more information, see section 10.10 "Honours Program in Environment" on page 323.
7. A **Diploma in Environment** is available only to students who have already completed a Bachelor or an equivalent degree, and who wish to return to university for further undergraduate study. The Diploma is offered by the Faculty of Agricultural and Environmental Sciences, the Faculty of Arts, and the Faculty of Science. For more information, see section 10.11 "Diploma in Environment" on page 323.

These programs strive to offer the flexibility necessary to deal with the environment through a set of core courses that provide the general knowledge base of the program combined with a progressive series of courses in a trans-disciplinary area of environmental specialization, referred to as a Domain.

The programs are designed to prepare students for further study in environment or discipline-based graduate programs, and for employment in industry, government, and education.

10.4 Suggested Courses for Freshmen Students

The MSE does not recommend that students in their Freshman (U0) year take the ENVR Core courses. Instead, a list of courses that provide an introductory exposure to the concepts and issues in the natural and social environmental sciences can be found on the MSE website. Students in their U1 to U3 years are welcome to take selected ENVR courses, even if they are not in the Environment programs.

10.5 Minor in Environment

The Minor in Environment is intended to complement an expertise obtained through a Major, Major Concentration or a Faculty Program offered by an academic unit **other than** the MSE. Students taking the Minor in Environment are exposed to different approaches, perspectives, and world views that will help them gain an understanding of the complexity and conflicts that underlie environmental problems.

Students, after consulting with their advisor in their major program or concentration and the MSE Program Advisor, can declare their intention to do a Minor in Environment.

To obtain a Minor in Environment, students must:

a. register for the Minor online, using Minerva;

b. submit their program of courses already taken and to be taken for the Minor in Environment to the MSE Program Advisor for approval **(only courses at the 200-level and above will be approved)**;

c. pass all courses counted towards the Minor with **a grade of C or higher**;

d. complete 18 credits from the courses listed below not otherwise counted towards the student's Major program or concentration or a second Minor program; and

e. ensure that all the credits specified in (c) above are taken outside the discipline or field of the student's Major program or concentration.

10.5.1 Minor Concentration in Environment

This 18-credit Minor is intended for Arts students in the multi-track system and Law Students.

Advisor: Ms. Kathy Roulet, MSE Program Advisor
Email: kathy.roulet@mcgill.ca
Telephone: 514-398-4306

Advising note: Consultation with the Program Advisor for approval of course selection to meet program requirements is obligatory. Only courses at the 200-level and above will be approved.

Complementary Courses (18 credits)
12 credits selected from the MSE core courses:
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 400 (3) Environmental Thought

6 credits in environmentally related subjects selected with the approval of the Program Advisor (at least 3 credits must be in natural sciences).
A list of suggested courses is available on the MSE website in "Undergraduate Programs: Minor". Students are also encouraged to examine the course lists of the various Domains in the Environment Program on the next few pages of the Calendar for courses that interest them.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

10.5.2 Minor in Environment

This 18-credit Minor is intended for Science and Agricultural and Environmental Science students, but is open to students from other faculties as well, except Arts and Law.

Advisor: Ms. Kathy Roulet, MSE Program Advisor
Email: kathy.roulet@mcgill.ca
Telephone: 514-398-4306

Advising note: Consultation with the Program Advisor for approval of course selection to meet program requirements is obligatory. Only courses at the 200-level and above will be approved.

Complementary Courses (18 credits)
12 credits selected from the MSE core courses:
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 400 (3) Environmental Thought

6 credits in environmentally related subjects selected with the approval of the Program Advisor (at least 3 credits must be in social sciences).
A list of suggested courses is available on the MSE website in "Undergraduate Programs: Minor". Students are also encouraged to examine the course lists of the various Domains in the Environment Program on the next few pages of the Calendar for courses that interest them.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

10.6 B.A. Faculty Program in Environment

The B.A. Faculty Program has two components: Core and Domain. Students follow three steps in their degree program.

1. **Core:** The Core consists of four introductory courses and one intermediate-level course where students are exposed to the different approaches, perspectives, and world views that will help them gain an understanding of the complexity and conflicts that underlie most environmental problems. Through the Core program students go beyond the confines of their individual views of environment.
2. **Domain:** Domains provide a trans-disciplinary study of a particular theme or component of the environment.
3. **Senior Core and Research:** In the two senior courses of the Core, students will apply the general and specialized knowledge that they have gained in the program to the analysis of some specific, contemporary environmental problems.

To obtain a B.A. Faculty Program in Environment students must:

a. register in a Domain online, using Minerva;

b. satisfy the co- / prerequisites for the program (calculus and a basic science course);

c. pass all courses counted towards the Faculty Program with **a grade of C or higher**;

d. confirm that their course selection satisfies the required components of the MSE Core and their chosen Domain, and that the complementary courses are approved courses in their chosen Domain; and

e. fulfil all Faculty requirements as specified for the B.A. in the Arts, see section 6.3 "Faculty Degree Requirements", which include meeting the minimum credit requirement as specified in their letter of admission.

B.A. FACULTY PROGRAM IN ENVIRONMENT (54 credits)

The B.A. Faculty Program requires, as either a pre- or corequisite for the first year of the program:

3 credits of calculus:
MATH 139 Calculus
or MATH 140 Calculus 1
or equivalent (e.g., CEGEP objective 00UN)

3 credits of basic science chosen from:
BIOL 111 Principles: Organismal Biology (required for the Ecological Determinants of Health in Society Domain)
or CHEM 110 General Chemistry 1
or PHYS 101 Introductory Physics - Mechanics
or their equivalents (e.g., CEGEP objectives: Biology 00UK, Chemistry 00UL, Physics 00UR).

Core: Required Courses (18 credits)
The Core courses are listed below in the Domain descriptions.

Core: Complementary Course – Senior Research Project (3 credits)
The research courses are listed in the Domain descriptions.

Domain (33 credits)
one MSE Domain selected from those available to students in the B.A. Faculty program.

Currently available:
Ecological Determinants of Health in Society
Economics and the Earth's Environment
Environment and Development

Each Domain has different requirements which are listed below. Course descriptions and prerequisites can be found in the

Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

10.6.1 Ecological Determinants of Health in Society Domain

This Domain (54 credits including Core) is open only to students in the B.A. Faculty Program in Environment.

Mentor: Professor Marilyn Scott
Email: marilyn.scott@mcgill.ca
Telephone: 514-398-7559

An understanding of the interface between human health and environment depends not only on an appreciation of the biological and ecological determinants of health, but equally on an appreciation of the role of social sciences in the design, implementation, and monitoring of interventions. Demographic patterns and urbanization, economic forces, ethics, indigenous knowledge and culture, and an understanding of how social change can be effected are all critical if we are to be successful in our efforts to assure health of individuals and societies in the future. Recognizing the key role that nutritional status plays in maintaining a healthy body, and the increasing importance of infection as a health risk linked intimately with the environment, this domain prepares students to contribute to the solution of problems of nutrition and infection by tying the relevant natural sciences to the social sciences.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Prerequisite or Corequisite Courses for Program

All B.A. Environment students **must** take these courses, or their equivalents. These courses should be taken in the Freshman year if possible. Quebec students can take them in U1.

MATH 139 (4) Calculus
or MATH 140 (3) Calculus 1
or equivalent (e.g., CEGEP objective 00UN)
BIOL 111 (3) Principles: Organismal Biology
or AEBI 120 (3) General Biology *(M)*
or equivalent (e.g., CEGEP objective 00UK or equivalent)

Other suggested first year (U1) courses:

These courses are listed below in the program requirements. They are good courses to start out with.

ECON 208 (3) Microeconomic Analysis and Applications
or AGEC 200 (3) Principles of Microeconomics *(M)*
NUTR 200 (3) Contemporary Nutrition
or NUTR 207 (3) Nutrition and Health *(M)*
SOCI 234 (3) Population and Society

Statistics: GEOG 202, PSYC 204, BIOL 373 or AEMA 310 *(M)*
See section 6.3.6.2 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (54 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses, but does not include the Program prerequisites or corequisites listed above.

Core: Required Courses (18 credits)

ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)

AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)

* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Complementary Courses (33 credits)

18 credits of Fundamentals (maximum 3 credits from any one category):

Health and Environment
GEOG 221 (3) Environment and Health
NRSC 211 (3) Environment and Health *(M)*
Health and Infection
GEOG 403 (3) Global Health & Environmental Change
PARA 410 (3) Environment and Infection *(M)*
Health and Pollution
ANTH 227 (3) Medical Anthropology
NRSC 333 (3) Pollution and Bioremediation *(M)*
Economics
AGEC 200 (3) Principles of Microeconomics *(M)*
ECON 208 (3) Microeconomic Analysis and Applications
Nutrition
NUTR 200 (3) Contemporary Nutrition
NUTR 207 (3) Nutrition and Health *(M)*
Statistics
AEMA 310 (3) Statistical Methods 1 *(M)*
MATH 203 (3) Principles of Statistics 1
SOCI 350 (3) Statistics in Social Research
or equivalent

9 credits from List A (maximum 3 credits from any one category):

Health and Society
GEOG 303 (3) Health Geography
SOCI 234 (3) Population and Society
SOCI 309 (3) Health and Illness
Hydrology and Climate
BREE 217 (3) Hydrology and Water Resources *(M)*
GEOG 321 (3) Climatic Environments
GEOG 322 (3) Environmental Hydrology
NRSC 510 (3) Agricultural Micrometeorology *(M)*
Agriculture
AGRI 210 (3) Agro-Ecological History *(M)*
AGRI 340 (3) Principles of Ecological Agriculture *(M)*
AGRI 411 (3) International Agriculture *(M)*
Decision Making
AGEC 242 (3) Management Theories and Practices *(M)*
BTEC 502 (3) Biotechnology Ethics and Society
ECON 440 (3) Health Economics
PHIL 343 (3) Biomedical Ethics
URBP 520 (3) Globalization: Planning and Change (in Barbados)
Biology Fundamentals
AEBI 210 (3) Organisms 1 *(M)*
AEBI 211 (3) Organisms 2 *(M)*
BIOL 200 (3) Molecular Biology
BIOL 205 (3) Biology of Organisms
BIOL 308 (3) Ecological Dynamics
ENVB 305 (3) Population and Community Ecology *(M)*
LSCI 211 (3) Biochemistry 1 *(M)*
PHGY 202 (3) Human Physiology: Body Functions
Development and Ecology
ANTH 212 (3) Anthropology of Development
ANTH 339 (3) Ecological Anthropology
GEOG 300 (3) Human Ecology in Geography
SOCI 254 (3) Development and Underdevelopment

6 credits from List B (maximum 3 credits from any one category):

Advanced Ecology
BIOL 465 (3) Conservation Biology

BIOL 553 (3) Neotropical Environments (in Panama)
ENVB 410 (3) Ecosystem Ecology *(M)*
WILD 410 (3) Wildlife Ecology *(M)*
Pest Management
BIOL 350 (3) Insect Biology and Control
ENTO 352 (3) Control of Insect Pests *(M)*
Techniques and Management
CHEE 230 (3) Environmental Aspects of Technology
GEOG 201 (3) Introductory Geo-Information Science
GEOG 302 (3) Environmental Management 1
GEOG 380 (3) Adaptive Environmental Management
NRSC 430 (3) GIS for Natural Resource Management (*M)*
PARA 515 (3) Water, Health and Sanitation (*M)*
Social Change
EDER 461 (3) Society and Change
HIST 292 (3) History and the Environment
Immunology and Infectious Disease
MIMM 314 (3) Immunology
MIMM 324 (3) Fundamental Virology
MIMM 413 (3) Parasitology
PARA 438 (3) Immunology *(M)*
WILD 424 (3) Parasitology *(M)*
Populations and Place
CANS 407 (3) Regions of Canada
GEOG 498 (3) Humans in Tropical Environments (in Panama)
PSYC 533 (3) International Health Psychology
SOCI 520 (3) Migration and Immigrant Groups
SOCI 550 (3) Developing Societies
SOCI 565 (3) Social Change in Panama (in Panama)

10.6.2 Economics and the Earth's Environment Domain

This Domain (54 credits including Core) is open only to students in the B.A. Faculty Program in Environment.

Mentor: Professor Bruce Hart
Email: hart@eps.mcgill.ca
Telephone: 514-398-3677

Understanding Earth's geologic processes provides us with the knowledge to mitigate many of our society's environmental impacts due to resource extraction and waste disposal. This knowledge is not always enough, as economics often plays a controlling role in how we use and abuse our environment.

This Domain educates students in the fundamentals of economics and Earth sciences. The fundamentals of economics are provided, as is their application to the effects of economic choices on Earth's environment. Examples of these applications include the economic effects of public policy towards resource industries and methods of waste disposal, and the potential effects of global warming on the global economy. Students also learn of minerals, rocks, soils, and waters that define much of Earth's environment and how these materials interact with each other and with the atmosphere. Courses in specific subdisciplines of Earth sciences combined with courses presenting a global vision of how the Earth and its environment operate provide the student with the necessary knowledge of geologic processes. Examples of this knowledge include the effects of mineral and energy extraction on the environment and how industrial waste interacts with solids and liquids in the environment. The Earth science and economics studies merge in the final year when the students apply what they have learned in the Domain to current environmental issues.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Prerequisite or Corequisite Courses for Program
All B.A. Environment students **must** take these courses, or their equivalents. These courses should be taken in the Freshman year if possible. Quebec students can take them in U1.
3 credits of calculus:
MATH 139 Calculus
or MATH 140 Calculus 1
or equivalent (e.g., CEGEP objective 00UN)
3 credits of basic science chosen from:
BIOL 111 Principles: Organismal Biology
or CHEM 110 General Chemistry 1
or PHYS 101 Introductory Physics - Mechanics
or their equivalents (e.g., CEGEP objectives: Biology 00UK, Chemistry 00UL, Physics 00UR).
Other suggested first year (U1) courses:
These courses are listed below in the program requirements. They are good courses to start out with.
ECON 230D1 (3) Microeconomic Theory
ECON 230D2 (3) Microeconomic Theory
EPSC 210 (3) Introductory Mineralogy
EPSC 212 (4) Introductory Petrology

Statistics: GEOG 202, PSYC 204, BIOL 373 or AEMA 310 *(M)*
See section 6.3.6.2 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (54 credits)

NOTE: Students are required to take a maximum of 34 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses, but does not include the Domain prerequisites or co-requisites listed above.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (15 credits)
ECON 230D1 (3) Microeconomic Theory
ECON 230D2 (3) Microeconomic Theory
ECON 405 (3) Natural Resource Economics
EPSC 210 (3) Introductory Mineralogy
EPSC 212 (3) Introductory Petrology

Domain: Complementary Courses (18 credits)
3 credits of statistics:
AEMA 310 (3) Statistical Methods 1 *(M)*
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
or equivalent
6 credits of economics:
AGEC 333 (3) Resource Economics *(M)*
ECON 326 (3) Ecological Economics
ECON 347 (3) Economics of Climate Change
ECON 416 (3) Topics in Economic Development 2
ECON 525 (3) Project Analysis

9 credits of advanced courses:
AGRI 435 (3) Soil and Water Quality Management
AGRI 452 (3) Water Resources in Barbados (in Barbados)
AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
ANTH 339 (3) Ecological Anthropology

BIOL 305	(3)	Animal Diversity
BIOL 308	(3)	Ecological Dynamics
CHEE 430	(3)	Technology Impact Assessment
ECON 305	(3)	Industrial Organization
ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
ECON 408D1	(3)	Public Sector Economics
ECON 408D2	(3)	Public Sector Economics
ECON 412	(3)	Topics in Economic Development 1
ENVB 210	(3)	The Biophysical Environment *(M)*
ENVB 305	(3)	Population and Community Ecology *(M)*
EPSC 455	(3)	Sedimentary Geology
EPSC 549	(3)	Hydrogeology
GEOG 302	(3)	Environmental Management 1
GEOG 322	(3)	Environmental Hydrology
GEOG 380	(3)	Adaptive Environmental Management
GEOG 404	(3)	Environmental Management 2 (in Panama)
GEOG 498	(3)	Humans in Tropical Environments (in Panama)
NRSC 437	(3)	Assessing Environmental Impact *(M)*
URBP 520	(3)	Globalization: Planning and Change (in Barbados)
WILD 415	(2)	Conservation Law (*M*) (*if this course is taken, 1 additional credit of complementary courses must be taken.*)

10.6.3 Environment and Development Domain

This Domain (54 credits including Core) is open only to students in the B.A. Faculty Program in Environment.

Mentor: Prof. Gregory Mikkelson
Email: gregory.mikkelson@mcgill.ca
Telephone: 514-398-4583

The quest for sustainable paths to economic development requires scholars and practitioners to transcend the boundaries of traditional disciplines. This Domain offers students sufficient depth and breadth of study to acquire a strong grasp of current theories, concepts, and approaches to environment and development. It prepares them for graduate study in interdisciplinary programs (e.g., development studies or environmental studies) as well as in integrative social sciences (e.g., anthropology, geography, etc.).

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Prerequisite or Corequisite Courses for Program

All B.A. Environment students **must** take these courses, or their equivalents. These courses should be taken in the Freshman year if possible. Quebec students can take them in U1.

3 credits of calculus:
MATH 139 Calculus
or MATH 140 Calculus 1
or equivalent (e.g., CEGEP objective 00UN)

3 credits of basic science chosen from:
BIOL 111 Principles: Organismal Biology
or CHEM 110 General Chemistry 1
or PHYS 101 Introductory Physics - Mechanics
or their equivalents (e.g., CEGEP objectives: Biology 00UK, Chemistry 00UL, Physics 00UR).

Other suggested first year (U1) courses:

These courses are listed below in the program requirements. They are good courses to start out with.

ECON 208	(3)	Microeconomic Analysis and Applications
or AGEC 200	(3)	Principles of Microeconomics *(M)*
ENVB 305	(3)	Population & Community Ecology *(M)*

Statistics: GEOG 202, PSYC 204, BIOL 373 or AEMA 310 *(M)*
See section 6.3.6.2 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (54 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)

ENVR 200	(3)	The Global Environment
ENVR 201	(3)	Society and Environment
ENVR 202	(3)	The Evolving Earth
ENVR 203	(3)	Knowledge, Ethics and Environment
ENVR 301	(3)	Environmental Research Design
ENVR 400	(3)	Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)

AGRI 519	(6)	Sustainable Development Plans (in Barbados)
ENVR 401	(3)	Environmental Research
ENVR 451	(6)	Research in Panama (in Panama)

* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (12 credits)

ANTH 339	(3)	Ecological Anthropology
ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
GEOG 302	(3)	Environmental Management 1

Domain: Complementary Courses (21 credits)

3 credits of microeconomics:

AGEC 200	(3)	Principles of Microeconomics *(M)*
ECON 208	(3)	Microeconomic Analysis and Applications

3 credits of statistics:

AEMA 310	(3)	Statistical Methods 1 *(M)*
GEOG 202	(3)	Statistics and Spatial Analysis
MATH 203	(3)	Principles of Statistics 1
PSYC 204	(3)	Introduction to Psychological Statistics

or equivalent

3 credits of ecology:

BIOL 308	(3)	Ecological Dynamics
ENVB 305	(3)	Population & Community Ecology *(M)*

6 credits of advanced development courses:

AGEC 442	(3)	Economics of International Agricultural Development
ANTH 418	(3)	Environment and Development
GEOG 408	(3)	Geography of Development
GEOG 410	(3)	Geography of Underdevelopment: Current Problems

3 credits of natural sciences:

AGRI 550	(3)	Sustained Tropical Agriculture (in Panama)
BIOL 465	(3)	Conservation Biology
BIOL 553	(3)	Neotropical Environments (in Panama)
GEOG 305	(3)	Soils and Environment
GEOG 322	(3)	Environmental Hydrology
NUTR 403	(3)	Nutrition in Society *(M)*
NUTR 501	(3)	Nutrition in Developing Countries *(M)*
PARA 410	(3)	Environment and Infection *(M)*

3 credits of social sciences:

AGEC 333	(3)	Resource Economics *(M)*
AGEC 442	(3)	Economics of International Development *(M)*
AGRI 210	(3)	Agro-Ecological History *(M)*
AGRI 413	(3)	Globalization: Issues of Change (in Barbados)
AGRI 452	(3)	Water Resources in Barbados (in Barbados)
ANTH 439	(3)	Theories of Development
ANTH 445	(3)	Property and Land Tenure
CANS 407	(3)	Regions of Canada
ECON 326	(3)	Ecological Economics

ECON 405 (3) Natural Resource Economics
ENVR 465 (3) Environment and Social Change (at Bay of Fundy)
GEOG 201 (3) Introductory Geo-Information Science
GEOG 300 (3) Human Ecology in Geography
GEOG 331 (3) Urban Social Geography
GEOG 380 (3) Adaptive Environmental Management
GEOG 404 (3) Environmental Management 2 (in Panama or Africa)
GEOG 408 (3) Geography of Development
GEOG 496 (3) Regional Geographical Excursion (in Barbados)
GEOG 498 (3) Humans in Tropical Environments (in Panama)
GEOG 510 (3) Humid Tropical Environments
GEOG 551 (3) Environmental Decisions
MGPO 440 (3) Strategies for Sustainability
POLI 445 (3) International Political Economy: Monetary Relations
POLI 472 (3) Developing Areas/ Social Movements
SOCI 565 (3) Social Change in Panama (in Panama)
URBP 507 (3) Planning and Infrastructure (in Barbados)

10.7 B.A.&Sc. Interfaculty Program in Environment

To obtain a B.A.&Sc. Interfaculty Program in Environment students must:
a. register in the program online, using Minerva;
b. satisfy the co- / prerequisites for the program;
c. pass all courses counted towards the Interfaculty Program with a grade of C or higher;
d. confirm that their course selection satisfies the required components of the program;
e. fulfil all requirements specified for the B.A.&Sc. in section 7.3 "Degree Requirements", which include meeting the minimum credit requirement as specified in their letter of admission.

B.A.&Sc. INTERFACULTY PROGRAM IN ENVIRONMENT
This program (54 credits) is open only to students in the B.A.&Sc. degree.

Advisor: Ms. Kathy Roulet, MSE Program Advisor
Email: kathy.roulet@mcgill.ca
Telephone: 514-398-4306

The growth of technology, globalization of economies, and rapid increases in population and per capita consumption have all had dramatic environmental impacts. The Interfaculty Program in Environment for the Bachelor of Arts and Science is designed to provide students with a broad "Liberal Arts/Science" training. In combination with careful mentoring, this program offers a great degree of flexibility, allowing students to develop the skills and knowledge base required to face the myriad of environmental problems that currently need to be addressed.

1. Students are required to take a maximum of 21 credits at the 200-level and a minimum of 12 credits at the 400-level or higher in this program. This includes Required courses.
2. Students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their interfaculty program and their minor or minor concentration. ENVR courses are considered courses in both Arts and Science, and so the credits are split between the two faculties for the purpose of this regulation.
3. Students are also required to complete the required integrative course BASC 201 (3) Arts and Science Integrative Topics.

Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Complementary Courses (36 credits)
(3 credits) – Senior Research Project*
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

3 credits of statistics:
AEMA 310 (3) Statistical Methods 1 *(M)*
BIOL 373 (3) Biometry
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
PSYC 204 (3) Introduction to Psychological Statistics

30 credits – students must take courses from at least 3 of the following areas and at least 6 credits must be at the 400-level or higher, selected either from these lists or in consultation with the Program Advisor

Area 1: Population, Community and Ecosystem Ecology
BIOL 308 (3) Ecological Dynamics
BIOL 432 (3) Limnology
BIOL 441 (3) Biological Oceanography
ENVB 305 (3) Population & Community Ecology *(M)*
ENVB 410 (3) Ecosystem Ecology *(M)*
ENVR 540 (3) Ecology of Species Invasions
or BIOL 540 (3) Ecology of Species Invasions
GEOG 350 (3) Ecological Biogeography
PLNT 460 (3) Plant Ecology *(M)*
WILD 410 (3) Wildlife Ecology *(M)*

Area 2: Biodiversity and Conservation
BIOL 305 (3) Animal Diversity
BIOL 327 (3) Herpetology
BIOL 341 (3) History of Life
BIOL 355 (3) Trees: Ecology & Evolution
BIOL 465 (3) Conservation Biology
ENTO 440 (3) Insect Diversity *(M)*
MICR 331 (3) Microbial Ecology *(M)*
PLNT 358 (3) Flowering Plant Diversity *(M)*
WILD 307 (3) Natural History of Vertebrates *(M)*
WILD 350 (3) Mammalogy *(M)*
WILD 420 (3) Ornithology *(M)*

Area 3: Field studies in ecology and conservation
BIOL 240 (3) Monteregian Flora (at Mont St. Hilaire)
BIOL 331 (3) Ecology/Behaviour Field Course (at Mont St. Hilaire)
BIOL 334 (3) Applied Tropical Ecology (in Barbados)
BIOL 553 (3) Neotropical Environments (in Panama)
GEOG 495 (3) Field Studies - Physical Geography (in Southern Quebec)
GEOG 499 (3) Subarctic Field Studies (in Schefferville)
WILD 475 (3) Desert Ecology (in Arizona)

Area 4: Hydrology and water resources
GEOG 322 (3) Environmental Hydrology
or BREE 217 (3) Hydrology and Water Resources *(M)*
or CIVE 323 (3) Hydrology and Water Resources
EPSC 549 (3) Hydrogeology
GEOG 372 (3) Running Water Environments
GEOG 522 (3) Advanced Environmental Hydrology
GEOG 537 (3) Advanced Fluvial Geomorphology
NRSC 540 (3) Socio-Cultural Issues in Water *(M)*

Area 5: Human Health
ANSC 330 (3) Fundamentals of Nutrition *(M)*
or NUTR 307 (3) Human Nutrition *(M)*
PARA 410 (3) Environment and Infection *(M)*
PATH 300 (3) Human Disease
PHAR 303 (3) Principles of Toxicology
or NUTR 420 (3) Toxicology and Health Risks *(M)*

Area 6: Earth and soil sciences

ATOC 215	(3)	Oceans, Weather and Climate
EPSC 201	(3)	Understanding Planet Earth
GEOG 272	(3)	Earth's Changing Surface
GEOG 305	(3)	Soils and Environment
GEOG 321	(3)	Climatic Environments
SOIL 326	(3)	Soils in a Changing Environment *(M)*

Area 7: Economics

AGEC 333	(3)	Resource Economics *(M)*
ECON 208	(3)	Microeconomic Analysis and Applications
or AGEC 200	(3)	Principles of Microeconomics *(M)*
ECON 326	(3)	Ecological Economics
ECON 347	(3)	Economics of Climate Change
ECON 405	(3)	Natural Resource Economics
GEOG 216	(3)	Geography of the World Economy

Area 8: Development and Underdevelopment

ANTH 212	(3)	Anthropology of Development
ANTH 418	(3)	Environment and Development
ECON 313	(3)	Economic Development 1
ECON 314	(3)	Economic Development 2
GEOG 408	(3)	Geography of Development
GEOG 410	(3)	Geography of Underdevelopment: Current Problems
POLI 227	(3)	Developing Areas/Introduction
POLI 445	(3)	International Political Economy: Monetary Relations
SWRK 374	(3)	Community Development/Social Action

Area 9: Cultures and People

ANTH 206	(3)	Environment and Culture
ANTH 339	(3)	Ecological Anthropology
GEOG 210	(3)	Global Places and Peoples

Area 10: Human Ecology and Health

ANTH 227	(3)	Medical Anthropology
GEOG 300	(3)	Human Ecology in Geography
GEOG 303	(3)	Health Geography
PHIL 343	(3)	Biomedical Ethics
SOCI 225	(3)	Medicine and Health in Modern Society
SOCI 309	(3)	Health and Illness

Area 11: Spirituality, Philosophy, Thought

EDER 461	(3)	Society and Change
PHIL 220	(3)	Introduction to History and Philosophy of Science 1
PHIL 221	(3)	Introduction to History and Philosophy of Science 2
PHIL 237	(3)	Contemporary Moral Issues
PHIL 341	(3)	Philosophy of Science 1
PHIL 348	(3)	Philosophy of Law 1
RELG 270	(3)	Religious Ethics and the Environment
RELG 340	(3)	Religion and the Sciences
RELG 370	(3)	Human Condition

Area 12: Environmental management

AGRI 210	(3)	Agro-Ecological History *(M)*
AGRI 435	(3)	Soil and Water Quality Management *(M)*
AGRI 452	(3)	Water Resources in Barbados (in Barbados)
ENTO 336	(3)	Economic Entomology *(M)*
GEOG 302	(3)	Environmental Management 1
GEOG 380	(3)	Adaptive Environmental Management
GEOG 404	(3)	Environmental Management 2 (in Panama)
NRSC 333	(3)	Pollution and Bioremediation *(M)*
NRSC 382	(3)	Ecological Monitoring and Analysis *(M)*
NRSC 383	(3)	Land Use: Redesign and Planning *(M)*
NRSC 437	(3)	Assessing Environmental Impact *(M)*
SOIL 335	(3)	Soil Ecology and Management *(M)*
WILD 401	(4)	Fisheries and Wildlife Management *(M)*
WILD 415	(2)	Conservation Law *(M)* (if this course is taken, 1 additional credit of complementary courses must be taken)
WOOD 441	(3)	Integrated Forest Management *(M)*

10.8 Major in Environment – B.Sc.(Ag.Env.Sc.) and B.Sc.

Students in the Faculty of Agricultural and Environmental Sciences B.Sc.(Ag.Env.Sc.) program and students in the Faculty of Science B.Sc. program can register in the Major in Environment.

The Major has two components: Core and Domain. Students follow three steps in their degree program.

1. **Core:** The Core consists of four introductory courses and one intermediate-level course where students are exposed to the different approaches, perspectives, and world views that will help them gain an understanding of the complexity and conflicts that underlie most environmental problems. Through the Core program students go beyond the confines of their individual views of environment.
2. **Domain:** Domains provide a trans-disciplinary study of a particular theme or component of the environment.
3. **Senior Core and Research:** In the two senior courses of the Core, students will apply the general and specialized knowledge that they have gained in the program to the analysis of some specific, contemporary environmental problems.

To obtain a Major in Environment, students must:

a. register in a Domain online using Minerva;

b. pass all courses counted towards the Major with **a grade of C or higher**;

c. confirm that their course selection satisfies the required components of the MSE Core and their chosen Domain, and that the complementary courses are approved courses in their chosen Domain; and

d. fulfil all faculty requirements as specified by the faculty in which they are registered: for the B.Sc.(Ag.Env.Sc.) refer to Agricultural and Environmental Sciences section 5.5 "Faculty Information and Regulations"; for the B.Sc. see section 14.3 "Faculty Degree Requirements". This includes meeting the minimum credit requirement as specified in their letter of admission.

MAJOR PROGRAM IN ENVIRONMENT
(57 to 66 credits – depending upon Domain selected)

Core: Required Courses (18 credits)
The Core courses are listed below in the Domain descriptions.

Core: Complementary Course – Senior Research Project (3 credits)
The research courses are listed in the Domain descriptions.

Domain (36 to 45 credits – depending upon Domain selected)
one MSE Domain selected from those available to students in the Major.

Currently available for B.Sc.(Ag.Env.Sc.) or B.Sc.:
- Biodiversity and Conservation (42 credits)
- Ecological Determinants of Health – Population Stream or Cellular Stream (42 credits)
- Environmetrics (42 credits)
- Food Production and Environment (42 credits)
- Land Surface Processes and Environmental Change (42 credits)
- Renewable Resource Management (42 credits)
- Water Environments and Ecosystems Physical Stream or Biological Stream (36 - 39 credits)

Currently available for B.Sc. only (see section 10.9 "Major in Environment – B.Sc."):
- Atmospheric Environment and Air Quality (39 credits)
- Earth Sciences and Economics (45 credits)

Each Domain has different requirements, which are listed below. Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses

being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

10.8.1 Biodiversity and Conservation Domain

This Domain (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Professor Graham Bell
Email: graham.bell@mcgill.ca
Telephone: 514-398-6458

This Domain links the academic study of biological diversity with the applied field of conservation biology. The study of biological diversity, or "biodiversity", lies at the intersection of evolution with ecology and genetics, combining the subdisciplines of evolutionary ecology, evolutionary genetics and ecological genetics. It has two main branches, the creation of diversity and the maintenance of diversity. Both processes are governed by a general mechanism of selection acting over different scales of space and time. This gives rise to a distinctive set of principles and generalizations that regulate rates of diversification and levels of diversity, as well as the abundance or rarity of different species. Conservation biology constitutes the application of these principles in the relevant social and economic context to the management of natural systems, with the object of preventing the extinction of rare species and maintaining the diversity of communities. As the impact of industrialization and population growth on natural systems has become more severe, conservation has emerged as an important area of practical endeavour.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Suggested first year (U1) courses:

These courses are listed below in the program requirements. They are good courses to start out with.

ECON 208 (3) Microeconomic Analysis and Applications
or AGEC 200 (3) Principles of Microeconomics *(M)*

Statistics: (Although these are 300-level courses, they can be taken in U1.)

BIOL 373 (3) Biometry
or AEMA 310 (3) Statistical Methods 1 *(M)*

B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Although these are not listed in the Domain, they satisfy prerequisites for upper level biology courses:

BIOL 200 (3) Molecular Biology
or LSCI 211 (3) Biochemistry 1 *(M)*
CHEM 212 (4) Introductory Organic Chemistry 1
or FDSC 230 (4) Organic Chemistry *(M)*
BIOL 205 (3) Biology of Organisms
or AEBI 210 (3) Organisms 1 *(M)*

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)

ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)

AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)

* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Complementary Courses (42 credits)

9 credits, basic courses in the biological principles of diversity, systematics and conservation:

BIOL 304 (3) Evolution
or AEBI 212 (3) Evolution and Phylogeny *(M)*
BIOL 305 (3) Animal Diversity
or AEBI 211 (3) Organisms 2 *(M)*
BIOL 465 (3) Conservation Biology
or WILD 421 (3) Wildlife Conservation *(M)*

3 credits of ecology:

BIOL 308 (3) Ecological Dynamics
or ENVB 305 (3) Population & Community Ecology *(M)*

3 credits of statistics:

BIOL 373 (3) Biometry
or AEMA 310 (3) Statistical Methods 1 *(M)*

9 credits, interface between science, policy and management:

AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
ANTH 418 (3) Environment and Development
ECON 208 (3) Microeconomic Analysis and Applications
or AGEC 200 (3) Principles of Microeconomics *(M)*
ECON 225 (3) Economics of the Environment
GEOG 302 (3) Environmental Management 1
GEOG 370 (3) Protected Areas
GEOG 380 (3) Adaptive Environmental Management
GEOG 408 (3) Geography of Development
GEOG 410 (3) Geography of Underdevelopment: Current Problems

3 credits of field courses:

AGRI 452 (3) Water Resources in Barbados (in Barbados)
BIOL 331 (3) Ecology/Behaviour Field Course (at Mont St. Hilaire)
BIOL 334 (3) Applied Tropical Ecology (in Barbados)
BIOL 553 (3) Neotropical Environments (in Panama)
GEOG 495 (3) Field Studies - Physical Geography (at Mont St. Hilaire)
GEOG 497 (3) Ecology of Coastal Waters (at Bay of Fundy)
GEOG 499 (3) Subarctic Field Studies (in Schefferville)
WILD 475 (3) Desert Ecology (in Arizona)

6 credits of general scientific principles:

BIOL 324 (3) Ecological Genetics
BIOL 341 (3) History of Life
BIOL 342 (3) Marine Biology
BIOL 432 (3) Limnology
BIOL 441 (3) Biological Oceanography
BIOL 505 (3) Diversity and Systematics Seminar
ENVB 313 (3) Phylogeny and Biogeography *(M)*
ENVB 315 (3) Science of Inland Waters *(M)*
ENVB 410 (3) Ecosystem Ecology *(M)*
GEOG 272 (3) Earth's Changing Surface
GEOG 321 (3) Climatic Environments
GEOG 322 (3) Environmental Hydrology
GEOG 350 (3) Ecological Biogeography
MICR 331 (3) Microbial Ecology *(M)*
NRSC 430 (3) GIS for Natural Resource Management *(M)*
or GEOG 306 (3) Raster Geo-Information Science
NRSC 437 (3) Assessing Environmental Impact *(M)*
PLNT 460 (3) Plant Ecology *(M)*
WILD 311 (3) Ethology *(M)*
WILD 410 (3) Wildlife Ecology *(M)*
WOOD 420 (3) Environmental Issues: Forestry *(M)*

(A second field course from the Domain curriculum may also be taken)

3 credits of social science:
AGEC 333 (3) Resource Economics *(M)*
ANTH 339 (3) Ecological Anthropology
ANTH 416 (3) Environment/Development: Africa (in Africa)
ECON 326 (3) Ecological Economics
GEOG 404 (3) Environmental Management 2 (in Panama)
GEOG 498 (3) Humans in Tropical Environments (in Panama)
GEOG 510 (3) Humid Tropical Environments
URBP 520 (3) Globalization: Planning and Change (in Barbados)
WILD 415 (2) Conservation Law *(M)* (If this course is taken, 1 additional credit of complementary courses must be taken.)

6 credits of organisms and diversity:
AGRI 340 (3) Principles of Ecological Agriculture *(M)*
ANTH 311 (3) Primate Behaviour and Ecology
BIOL 335 (3) Marine Mammals (at Bay of Fundy)
BIOL 350 (3) Insect Biology and Control
or ENTO 350 (3) Insect Biology and Control *(M)*
BIOL 355 (3) Trees: Ecology & Evolution
BIOL 427 (3) Herpetology
ENTO 352 (3) Control of Insect Pests *(M)*
ENTO 440 (3) Insect Diversity *(M)*
ENVR 540 (3) Ecology of Species Invasions
or BIOL 540 (3) Ecology of Species Invasions
PLNT 304 (3) Biology of Fungi *(M)*
PLNT 358 (3) Flowering Plant Diversity *(M)*
PLNT 458 (3) Flowering Plant Systematics *(M)*
WILD 307 (3) Natural History of Vertebrates *(M)*
WILD 350 (3) Mammalogy *(M)*
WILD 420 (3) Ornithology *(M)*
WILD 424 (3) Parasitology *(M)*

10.8.2 Ecological Determinants of Health Domain

This Domain (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Professor Marilyn Scott
Email: marilyn.scott@mcgill.ca
Telephone: 514-398-7559

This Domain considers the interface between the environment and human well-being, with particular focus on the triad that ties human health to the environment through the elements of food and infectious agents. Each of these elements is influenced by planned and unplanned environmental disturbances.

For example, agricultural practices shift the balance between beneficial and harmful ingredients of food. Use of insecticides presents dilemmas with regard to the environment, economics and human health. The distribution of infectious diseases is influenced by the climatic conditions that permit vectors to coexist with man, by deforestation, by urbanization, and by human interventions ranging from the building of dams to provision of potable water.

In designing interventions that aim to prevent or reduce infectious contaminants in the environment, or to improve food production and nutritional quality, not only is it important to understand methods of intervention, but also to understand social forces that influence how humans respond to such interventions.

Students in the **Population Concentration** will gain a depth of understanding at an ecosystem level that looks at society, land and population health. Students in the **Cellular Concentration** will explore the interactions in more depth, at a physiological level.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Ecological Determinants of Health Domain – Cellular

The Cellular Concentration (63 credits) in this Domain is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Suggested first year (U1) courses:
Although not all of these are listed in the Domain, they satisfy prerequisites for upper level biology courses. They are good courses to start out with.
BIOL 200 (3) Molecular Biology
or LSCI 211 (3) Biochemistry 1 *(M)*
CHEM 212 (4) Introductory Organic Chemistry 1
or FDSC 230 (4) Organic Chemistry *(M)*
BIOL 202 (3) Basic Genetics
or LSCI 204 (3) Genetics *(M)*
BIOL 205 (3) Biology of Organisms
or AEBI 210 (3) Organisms 1 *(M)*
Statistics: (Although these are 300-level courses, they can be taken in U1.)
BIOL 373 (3) Biometry
or AEMA 310 (3) Statistical Methods 1 *(M)*
B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 31 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (3 credits)
PARA 410 (3) Environment and Infection *(M)*

Domain - Cellular Concentration: Complementary Courses (39 credits)
21 credits of fundamentals, maximum of 3 credits from any one category:
Health, Society and Environment
GEOG 211 (3) Environment and Health
or NRSC 221 (3) Environment and Health *(M)*
GEOG 303 (3) Health Geography
SOCI 234 (3) Population and Society
SOCI 309 (3) Health and Illness
Toxicology
ANSC 312 (3) Animal Health and Disease *(M)*
NUTR 420 (3) Toxicology and Health Risks *(M)*
PHAR 303 (3) Principles of Toxicology
Cellular Biology
ANSC 234 (3) Biochemistry 2 *(M)*
BIOL 201 (3) Cell Biology and Metabolism
LSCI 202 (3) Molecular Cell Biology *(M)*
Genetics
BIOL 202 (3) Basic Genetics
LSCI 204 (4) Genetics *(M)*
Molecular Biology
BIOL 200 (3) Molecular Biology
LSCI 211 (3) Biochemistry 1 *(M)*

Statistics
AEMA 310 (3) Statistical Methods 1 *(M)*
MATH 203 (3) Principles of Statistics 1
or equivalent
Nutrition
ANSC 330 (3) Fundamentals of Nutrition *(M)*
NUTR 307 (3) Human Nutrition (Video conference Downtown and Macdonald)

12 credits chosen from Human Health, maximum of 3 credits from any one category:
Immunology and Pathogenicity
MICR 341 (3) Mechanisms of Pathogenicity *(M)*
MIMM 314 (3) Immunology
PARA 438 (3) Immunology *(M)*
PATH 300 (3) Human Disease
Infectious Disease
ANSC 400 (3) Eukaryotic Cells and Viruses *(M)*
MIMM 324 (3) Fundamental Virology
MIMM 413 (3) Parasitology
WILD 424 (3) Parasitology *(M)*
Nutrition
NUTR 403 (3) Nutrition in Society *(M)*
NUTR 512 (3) Herbs, Foods and Phytochemicals
Drugs and Hormones
ANSC 424 (3) Metabolic Endocrinology *(M)*
PHAR 300 (3) Drug Action
Physiology
ANSC 323 (4) Mammalian Physiology *(M)*
PHGY 209 (3) Mammalian Physiology 1

6 credits chosen from the Natural Environment, maximum of 3 credits from any one category:
Hydrology and Climate
AGRI 452 (3) Water Resources in Barbados (in Barbados)
BREE 217 (3) Hydrology and Water Resources *(M)*
GEOG 321 (3) Climatic Environments
GEOG 322 (3) Environmental Hydrology
NRSC 510 (3) Agricultural Micrometeorology *(M)*
Techniques and Management
BREE 322 (3) Organic Waste Management *(M)*
CHEE 230 (3) Environmental Aspects of Technology
GEOG 302 (3) Environmental Management 1
NRSC 437 (3) Assessing Environmental Impact *(M)*
URBP 507 (3) Planning and Infrastructure (in Barbados)
Pest Management
BIOL 350 (3) Insect Biology and Control
or ENTO 350 (3) Insect Biology and Control *(M)*
ENTO 352 (3) Control of Insect Pests *(M)*
Pollution Control and Management
BREE 518 (3) Bio-Treatment of Wastes *(M)*
NRSC 333 (3) Pollution and Bioremediation *(M)*
Ecology
BIOL 432 (3) Limnology
BIOL 465 (3) Conservation Biology
BIOL 553 (3) Neotropical Environments (in Panama)
ENVB 410 (3) Ecosystem Ecology *(M)*
ENVR 540 (3) Ecology of Species Invasions
or BIOL 540 (3) Ecology of Species Invasions
MICR 331 (3) Microbial Ecology *(M)*
PLNT 304 (3) Biology of Fungi *(M)*
PLNT 460 (3) Plant Ecology *(M)*
WILD 410 (3) Wildlife Ecology *(M)*

Ecological Determinants of Health Domain – Population

The Population Concentration (63 credits) in this Domain is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Suggested first year (U1) courses:
Although not all of these are listed in the Domain, they satisfy prerequisites for upper level biology courses. They are good courses to start out with.
BIOL 200 (3) Molecular Biology
or LSCI 211 (3) Biochemistry 1 *(M)*
CHEM 212 (4) Introductory Organic Chemistry 1
or FDSC 230 (4) Organic Chemistry *(M)*
BIOL 202 (3) Basic Genetics
or LSCI 204 (3) Genetics *(M)*
BIOL 205 (3) Biology of Organisms
or AEBI 210 (3) Organisms 1 *(M)*
Statistics: (Although these are 300-level courses, they can be taken in U1.)
BIOL 373 (3) Biometry
or AEMA 310 (3) Statistical Methods 1 *(M)*
B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 31 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (3 credits)
PARA 410 (3) Environment and Infection *(M)*

Domain - Population Concentration: Complementary Courses (39 credits)
21 credits of fundamentals, maximum of 3 credits from each category:
Health and Environment
GEOG 221 (3) Environment and Health
or NRSC 221 (3) Environment and Health *(M)*
Health and Society
GEOG 303 (3) Health Geography
SOCI 234 (3) Population and Society
SOCI 309 (3) Health and Illness
Toxicology
ANSC 312 (3) Animal Health and Disease *(M)*
NUTR 420 (3) Toxicology and Health Risks *(M)*
PHAR 303 (3) Principles of Toxicology
Biology
BIOL 200 (3) Molecular Biology
BIOL 201 (3) Cell Biology and Metabolism
LSCI 211 (3) Biochemistry 1 *(M)*
Statistics
AEMA 310 (3) Statistical Methods 1 *(M)*
MATH 203 (3) Principles of Statistics 1
or equivalent
Nutrition
ANSC 330 (3) Fundamentals of Nutrition *(M)*
NUTR 207 (3) Nutrition and Health *(M)*
NUTR 307 (3) Human Nutrition (Video conference Downtown and Macdonald)

Advanced Ecology
AEMA 406 (3) Quantitative Methods: Ecology *(M)*
BIOL 465 (3) Conservation Biology
BIOL 553 (3) Neotropical Environments (in Panama)
ENVB 410 (3) Ecosystem Ecology *(M)*
ENVR 540 (3) Ecology of Species Invasions
or BIOL 540 (3) Ecology of Species Invasions
MICR 331 (3) Microbial Ecology *(M)*
PLNT 460 (3) Plant Ecology *(M)*
WILD 410 (3) Wildlife Ecology *(M)*

6 credits from the following List A categories, maximum of 3 credits from each category:
List A: Hydrology, Climate, and Agriculture
AGRI 340 (3) Principles of Ecological Agriculture *(M)*
AGRI 452 (3) Water Resources in Barbados (in Barbados)
AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
BREE 217 (3) Hydrology and Water Resources *(M)*
GEOG 321 (3) Climatic Environments
GEOG 322 (3) Environmental Hydrology
NRSC 510 (3) Agricultural Micrometeorology *(M)*
List A: Decision Making and Social Change
AGEC 200 (3) Principles of Microeconomics
or ECON 208 (3) Microeconomic Analysis and Applications
AGEC 242 (3) Management Theories and Practices *(M)*
BTEC 502 (3) Biotechnology Ethics & Society
EDER 461 (3) Society and Change
GEOG 302 (3) Environmental Management 1
GEOG 404 (3) Environmental Management 2 (in Panama)
PHIL 343 (3) Biomedical Ethics
URBP 520 (3) Globalization: Planning and Change (in Barbados)
List A: Development and History
AGRI 210 (3) Agro-Ecological History *(M)*
ANTH 212 (3) Anthropology of Development
HIST 292 (3) History and the Environment
SOCI 254 (3) Development and Underdevelopment

12 credits from the following list B categories, maximum of 3 credits from each category:
List B: Techniques and Management
CHEE 230 (3) Environmental Aspects of Technology
GEOG 201 (3) Introductory Geo-Infomation Science
NRSC 430 (3) GIS for Natural Resource Management *(M)*
NRSC 437 (3) Assessing Environmental Impact *(M)*
URBP 507 (3) Planning and Infrastructure (in Barbados)
List B: Immunology and Infectious Disease
ANSC 400 (3) Eucaryotic Cells and Viruses *(M)*
MIMM 314 (3) Immunology
MIMM 324 (3) Fundamental Virology
MIMM 413 (3) Parasitology
PARA 438 (3) Immunology *(M)*
WILD 424 (3) Parasitology *(M)*
List B: Nutrition and Agriculture
AGRI 411 (3) International Agriculture *(M)*
NUTR 403 (3) Nutrition in Society *(M)*
NUTR 501 (3) Nutrition in Developing Countries *(M)*
NUTR 512 (3) Herbs, Foods and Phytochemicals (Video conference Downtown and Macdonald)
List B: Populations and Place
CANS 407 (3) Regions of Canada
GEOG 300 (3) Human Ecology in Geography
GEOG 498 (3) Humans in Tropical Environments (in Panama)
PSYC 533 (3) International Health Psychology
List B: Pollution and Pest Management
BIOL 350 (3) Insect Biology and Control
BREE 322 (3) Organic Waste Management *(M)*
ENTO 352 (3) Control of Insect Pests *(M)*
NRSC 333 (3) Pollution and Bioremediation *(M)*
List B: Genetics
BIOL 202 (3) Basic Genetics
LSCI 204 (3) Genetics *(M)*

10.8.3 Environmetrics Domain

This Domain (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Professor Pierre Dutilleul
Email: pierre.dutilleul@mcgill.ca
Telephone: 514-398-7870

In view of the crucial need for sound study design and appropriate statistical methods for analyzing environmental changes and their impacts on humans and various life forms and their ecological relationships, this program is intended to provide students with a strong background in the use of statistical methods of data analysis in environmental sciences.

Graduates will be capable of effectively participating in the design of environmental studies and adequately analyzing data for use by the environmental community. Accordingly, the list of courses for the Environmetrics Domain is composed primarily of statistics courses and mathematically oriented courses with biological and ecological applications. The list is completed by general courses that refine the topics introduced in the MSE core courses by focusing on the ecology of living organisms, soil sciences or water resources, and impact assessment. These courses should allow the students to understand their interlocutors and be understood by them in their future job. Students can further develop their background in applied or mathematical statistics and their expertise in environmental sciences by taking complementary courses along each of two axes: statistics and mathematics, and environmental sciences. An internship is also offered to students to provide them with preliminary professional experience.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Suggested first year (U1) courses:

Prerequisites and equivalent courses are common with math courses, so check with your advisor when choosing your courses. Be especially careful with statistics courses, as you will receive no credit (and no warning!) for a course that is considered equivalent to one you have already taken. B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses and talk to Kathy Roulet, the Program Advisor.

MATH 223 (3) Linear Algebra

Statistics courses BIOL 373 OR AEMA 310 *(M)* can be taken in U1, but do not take them if you want to follow Option 1 (below), as they overlap with MATH 324.

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research

ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Course (6 credits)
AEMA 403 (3) Environmetrics Stage (internship) *(M)*
AEMA 414 (3) Temporal and Spatial Statistics *(M)*

Domain - Complementary Courses (36 credits, minimum)
12 credits of fundamentals (maximum 3 credits from any one category):
Ecology
ENVB 305 (3) Population & Community Ecology *(M)*
BIOL 308 (3) Ecological Dynamics
Impacts
MIME 308 (3) Social and Economic Impacts of Technology
NRSC 437 (3) Assessing Environmental Impact *(M)*
Modeling
AEMA 406 (3) Quantitative Methods: Ecology
BIOL 309 (3) Mathematical Models in Biology
GIS Techniques
GEOG 201 (3) Introductory Geo-Information Science
NRSC 430 (3) GIS for Natural Resource Management *(M)*
3 credits of basic environmental science:
BREE 217 (3) Hydrology and Water Resources *(M)*
CIVE 323 (3) Hydrology and Water Resources
ENVB 210 (3) The Biophysical Environment *(M)*
GEOG 305 (3) Soils and Environment
GEOG 322 (3) Environmental Hydrology
GEOG 350 (3) Ecological Biogeography
6 credits of Statistics, one of the following two options:
Note: B.Sc. students should see section 14.3.6.1 "Course Overlap" of the current Calendar for info on course overlap. Several stats courses overlap (especially with MATH 324) and cannot be taken together. These rules do not apply to B.Sc.(Ag.Env.Sc.) students.
Option 1:
MATH 323 (3) Probability
MATH 324 (3) Statistics
Option 2:
AEMA 310 (3) Statistical Methods 1 *(M)*
or BIOL 373 (3) Biometry
AEMA 411 (3) Experimental Designs
or CIVE 555 (3) Environmental Data Analysis
or GEOG 351 (3) Quantitative Methods
or SOCI 461 (3) Quantitative Data Analysis

15 credits total chosen from the following two lists:
3 credits minimum of statistics and mathematics chosen from:
BIOL 434 (3) Theoretical Ecology
BREE 252 (3) Computing for Engineers (or equivalent) *(M)*
BREE 319 (3) Engineering Mathematics (or equivalent) *(M)*
GEOG 501 (3) Modelling Environmental Systems
MATH 223 (3) Linear Algebra
MATH 326 (3) Nonlinear Dynamics and Chaos
MATH 423 (3) Regression and Analysis of Variance
MATH 447 (3) Stochastic Processes
MATH 525 (4) Sampling Theory and Applications
SOCI 504 (3) Quantitative Methods 1
SOCI 505 (3) Quantitative Methods 2
SOCI 580 (3) Social Research Design and Practice.

3 credits, minimum of environmental sciences chosen from:
AGRI 452 (3) Water Resources in Barbados (in Barbados)
AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
BIOL 331 (3) Ecology/Behavior Field Course (at Mont St. Hilaire)
BIOL 553 (3) Neotropical Environments (in Panama)
ENVB 313 (3) Phylogeny and Biogeography *(M)*
GEOG 300 (3) Human Ecology in Geography
GEOG 302 (3) Environmental Management 1
GEOG 404 (3) Environmental Management 2 (in Panama)
GEOG 494 (3) Urban Field Studies
GEOG 497 (3) Ecology of Coastal Waters (at Bay of Fundy)
GEOG 499 (3) Subarctic Field Studies (in Schefferville)
NRSC 333 (3) Pollution and Bioremediation *(M)*
PLNT 460 (3) Plant Ecology *(M)*
WILD 401 (4) Fisheries and Wildlife Management *(M)*
WOOD 300 (3) Urban Forests and Trees *(M)*
WOOD 420 (3) Environmental Issues: Forestry *(M)*

10.8.4 Food Production and Environment Domain

This Domain (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. in Environment program.

Mentor: Professor Joan Marshall
Email: joan.marshall@mcgill.ca
Telephone: 514-398-7822

The business of food production is an area of human activity with a large and intimate interaction with the environment. Modern agriculturalists must strike a delicate balance between trying to provide food for themselves, their families and urban dwellers while trying to minimize environmental damage. When negative effects due to agricultural activities do occur, they are not usually the classic point source effects that we have come to associate with industry or large cities. Rather, the effects are over extremely large land areas cumulating, perhaps, in pollution of river systems or lakes some distance away. As world populations grow, and as diets change, potentially negative interactions between agricultural systems and other facets of the environment will become more frequent. In the same way, urban sprawl will make conflicts between agriculture and urbanites more common.

With a judicious choice of courses, graduates of this Domain may be eligible to apply for membership in the Ordre des agronomes du Québec (OAQ) and the Agricultural Institute of Canada (AIC). See the MSE website for details at www.mcgill.ca/mse (B.Sc. Programs: Food Production and Environment Domain).

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Prerequisite or Corequisite Courses for Domain
LSCI 211 (3) Biochemistry 1 *(M)*
or BIOL 112 (3) Cell and Molecular Biology
or CEGEP equivalent (e.g., CEGEP objective 00XU)
FDSC 230 (4) Organic Chemistry *(M)*
or CHEM 212 (4) Introductory Organic Chemistry 1
or CEGEP equivalent (e.g., CEGEP objective 00XV)

Suggested first year (U1) courses:
These are prerequisites for many of the upper level courses, and are recommended to be taken in U1 if possible.
PLNT 211 (3) Principles of Plant Science
BIOL 202 (3) Basic Genetics
or LSCI 204 (3) Genetics
Statistics: GEOG 202, PSYC 204, BIOL 373 or AEMA 310 *(M)*
B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 34 credits at the 200 level and a minimum of 15 credits at the 400 level or higher in this program. This includes Core and Required courses, but does not include the Domain prerequisites or co-requisites listed above.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth

ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (9 credits)
AGRI 210 (3) Agro-Ecological History *(M)*
PLNT 211 (3) Principles of Plant Science *(M)*
PLNT 300 (3) Cropping Systems *(M)*

Domain: Complementary Courses (33 credits)
15 or 16 credits of Basic Sciences:
AEMA 310 (3) Statistical Methods 1 *(M)*
or MATH 203 (3) Principles of Statistics 1
or equivalent
AGRI 340 (3) Principles of Ecological Agriculture *(M)*
or ANSC 250 (3) Principles of Animal Science *(M)*
BIOL 202 (3) Basic Genetics
or LSCI 204 (4) Genetics *(M)*
GEOG 305 (3) Soils and Environment
or ENVB 210 (3) The Biophysical Environment *(M)*
ENVB 305 (3) Population & Community Ecology *(M)*
or BIOL 308 (3) Ecological Dynamics
12 credits of Applied Sciences:
BREE 217 (3) Hydrology and Water Resources *(M)*
or GEOG 322 (3) Environmental Hydrology
BREE 322 (3) Organic Waste Management *(M)*
BREE 518 (3) Bio-Treatment of Wastes *(M)*
AGRI 341 (3) Ecological Agricultural Systems *(M)*
AGRI 411 (3) International Agriculture *(M)*
AGRI 435 (3) Soil and Water Quality Management *(M)*
AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
ANSC 501 (3) Advanced Animal Production Systems *(M)*
BIOL 465 (3) Conservation Biology
BIOL 553 (3) Neotropical Environments (in Panama)
ENTO 446 (3) Apiculture
FDSC 200 (3) Introduction to Food Science *(M)*
or NUTR 207 (3) Nutrition and Health *(M)*
FDSC 535 (3) Food Biotechnology *(M)*
GEOG 302 (3) Environmental Management 1
GEOG 380 (3) Adaptive Environmental Management
MICR 331 (3) Microbial Ecology *(M)*
NRSC 333 (3) Pollution and Bioremediation *(M)*
NRSC 437 (3) Assessing Environmental Impact *(M)*
NUTR 403 (3) Nutrition in Society *(M)*
NUTR 420 (3) Toxicology and Health Risks *(M)*
PARA 410 (3) Environment and Infection *(M)*
PHAR 303 (3) Principles of Toxicology
PLNT 361 (3) Pest Management and the Environment *(M)*
PLNT 434 (3) Weed Biology and Control *(M)*
SOIL 315 (3) Soil Fertility and Fertilizer Use *(M)*
SOIL 510 (3) Environmental Soil Chemistry *(M)*
SOIL 445 (3) Agroenvironmental Fertilizer Use
SOIL 521 (3) Soil Microbiology and Biochemistry *(M)*
WILD 401 (4) Fisheries and Wildlife Management *(M)*
6 credits in Social Sciences/Humanities:
AGEC 200 (3) Principles of Microeconomics *(M)*
or ECON 208 (3) Microeconomic Analysis and Applications
AGEC 320 (3) Intermediate Microeconomic Theory *(M)*
AGEC 333 (3) Resource Economics *(M)*
or ECON 405 (3) Natural Resource Economics
AGEC 430 (3) Agriculture, Food and Resource Policy *(M)*
AGEC 442 (3) Economics of International Agricultural Development *(M)*
AGRI 413 (3) Globalization: Issues of Change (in Barbados)
ANTH 418 (3) Environment and Development
ECON 225 (3) Economics of the Environment
ENVR 465 (3) Environment and Social Change (at Bay of Fundy)
GEOG 404 (3) Environmental Management 2 (in Panama)
GEOG 410 (3) Geography of Underdevelopment: Current Problems
GEOG 498 (3) Humans in Tropical Environments (in Panama)
GEOG 510 (3) Humid Tropical Environments
SOCI 254 (3) Development and Underdevelopment
SOCI 565 (3) Social Change in Panama (in Panama)
WILD 415 (2) Conservation Law *(M)*
(if this course is taken, 1 additional credit of complementary courses must be taken)

10.8.5 Land Surface Processes and Environmental Change Domain

This Domain (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Professor Ian Strachan
Email: ian.strachan@mcgill.ca
Telephone: 514-398-7935

The thin soil layer on the planet's land surfaces controls the vital inputs of water, nutrients and energy to terrestrial and freshwater aquatic ecosystems. Widespread occurrences around the globe of desertification, soil erosion, deforestation and land submergence over water reservoirs indicate that this dynamic system is under increasing pressure from population growth and changes in climate and land uses. Production of key greenhouse gases (water vapour, CO_2 and methane) is controlled by complex processes operating at the land surface, involving climate change feedbacks that need to be fully understood, given current global warming trends.

The program introduces students to the interacting physical and biogeochemical processes at the atmosphere-lithosphere interface, which fashion land surface habitats and determine their biological productivity and response to anthropogenic or natural environmental changes. Through an appropriate selection of courses, students can prepare for graduate training in emerging research areas such as earth system sciences, environmental hydrology and landscape ecology.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Suggested first year (U1) courses:
These courses are listed below in the program requirements. They are good courses to start out with.
GEOG 203 (3) Environmental Systems
ATOC 215 (3) Oceans, Weather and Climate
or ENVB 301 (3) Meteorology *(M)*
GEOG 272 (3) Earth's Changing Surface
or SOIL 300 (3) Geosystems *(M)*
GEOG 322 (3) Environmental Hydrology
or BREE 217 (3) Hydrology and Water Resources *(M)*
GEOG 321 (3) Climatic Environments
Statistics: GEOG 202, PSYC 204, BIOL 373 or AEMA 310 (M)
B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or

higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Course (3 credits)
GEOG 203 (3) Environmental Systems

Domain: Complementary Courses (39 credits)
3 credits of statistics chosen from:
AEMA 310 (3) Statistical Methods 1 *(M)*
GEOG 202 (3) Statistics and Spatial Analysis
MATH 203 (3) Principles of Statistics 1
or equivalent

3 credits of GIS and remote sensing techniques chosen from:
GEOG 201 (3) Introductory Geo-Information Science
GEOG 308 (3) Principles of Remote Sensing
NRSC 430 (3) GIS for Natural Resource Management *(M)*

3 credits of weather and climate chosen from:
ATOC 215 (3) Oceans, Weather and Climate
ENVB 301 (3) Meteorology *(M)*

9 credits of fundamental land surface processes chosen from:
GEOG 272 (3) Earth's Changing Surface
or SOIL 300 (3) Geosystems *(M)*
GEOG 305 (3) Soils and Environment
or SOIL 326 (3) Soils in a Changing Environment *(M)*
GEOG 321 (3) Climatic Environments
GEOG 322 (3) Environmental Hydrology
or BREE 217 (3) Hydrology and Water Resources *(M)*

3 credits of environment and resource management chosen from:
AGRI 435 (3) Soil and Water Quality Management *(M)*
AGRI 452 (3) Water Resources in Barbados (in Barbados)
AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
BIOL 308 (3) Ecological Dynamics
or ENVB 305 (3) Population & Community Ecology *(M)*
BIOL 465 (3) Conservation Biology
CHEE 230 (3) Environmental Aspects of Technology
CIVE 225 (4) Environmental Engineering
ESYS 301 (3) Earth System Modelling
GEOG 302 (3) Environmental Management 1
GEOG 380 (3) Adaptive Environmental Management
GEOG 404 (3) Environmental Management 2 (in Panama)
NRSC 437 (3) Assessing Environmental Impact *(M)*
WILD 421 (3) Wildlife Conservation *(M)*
WOOD 420 (3) Environmental Issues: Forestry *(M)*
WOOD 441 (3) Integrated Forest Management *(M)*

3 credits of a field course chosen from:
BIOL 553 (3) Neotropical Environments (in Panama)
GEOG 495 (3) Field Studies - Physical Geography (at Mont St. Hilaire)
GEOG 496 (3) Geographical Excursion (in Barbados)
GEOG 499 (3) Subarctic Field Studies (in Schefferville)
NRSC 382 (3) Ecological Monitoring and Analysis *(M)*
WILD 475 (3) Desert Ecology (in Arizona)

3 credits of social science issues chosen from:
ANTH 339 (3) Ecological Anthropology
ECON 225 (3) Economics of the Environment
ECON 326 (3) Ecological Economics
ECON 405 (3) Natural Resource Economics
or AGEC 333 (3) Resource Economics *(M)*
GEOG 221 (3) Environment and Health
or NRSC 221 (3) Environment and Health *(M)*
GEOG 408 (3) Geography of Development
GEOG 498 (3) Humans in Tropical Environments (in Panama)
GEOG 508 (3) Resources, People and Power
SOCI 565 (3) Social Change in Panama (in Panama)
URBP 520 (3) Globalization: Planning and Change (in Barbados)

12 credits total of advanced studies chosen from the following two lists:
3 credits minimum of advanced study of particular environments:
BIOL 432 (3) Limnology
or ENVB 315 (3) Science of Inland Waters *(M)*
ENVB 410 (3) Ecosystem Ecology *(M)*
GEOG 350 (3) Ecological Biogeography
GEOG 372 (3) Running Water Environments
GEOG 470 (3) Wetlands
GEOG 536 (3) Geocryology
GEOG 550 (3) Historical Ecology Techniques
PLNT 358 (3) Flowering Plant Diversity *(M)*
PLNT 460 (3) Plant Ecology *(M)*
3 credits minimum of advanced study of surface processes:
ATOC 315 (3) Water in the Atmosphere
BREE 509 (2) Hydrologic Systems and Modelling *(M)*
EPSC 549 (3) Hydrogeology
EPSC 580 (3) Aqueous Geochemistry
GEOG 501 (3) Modelling Environmental Systems
GEOG 505 (3) Global Biogeochemistry
GEOG 522 (3) Advanced Environmental Hydrology
GEOG 537 (3) Advanced Fluvial Geomorphology
NRSC 333 (3) Pollution and Bioremediation *(M)*
SOIL 331 (3) Soil Physics *(M)*
SOIL 510 (3) Environmental Soil Chemistry *(M)*

10.8.6 Renewable Resource Management Domain

This Domain (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Ms. Kathy Roulet, MSE Program Advisor
Email: kathy.roulet@mcgill.ca
Telephone: 514-398-4306

Renewable resource management is an emerging field that focuses on the ecosystem structures and processes required to sustain the delivery, to humanity, of ecosystem goods and services such as food, clean water and air, essential nutrients, and the provision of beauty and inspiration. Renewable resource management recognizes humans as integral components of ecosystems and is used to develop goals that are consistent with sustainability and ecosystem maintenance.

The Renewable Resource Management domain provides students with an understanding of: 1) the interactions between physical and biological factors that determine the nature and dynamics of populations and entities in the natural environment; 2) the ways in which ecosystems can be managed to meet specific goals for the provision of goods and services; 3) the economic and social factors that determine how ecosystems are managed; 4) the ways in which management of natural resources can affect the capability of natural ecosystems to continue to supply human needs in perpetuity; and 5) the approaches and technologies required to monitor and analyze the dynamics of natural and managed ecosystems.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses

being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required Courses are offered on both campuses.)

Prerequisite or Corequisite Courses for Domain

LSCI 211 (3) Biochemistry 1 *(M)*
or BIOL 112 (3) Cell and Molecular Biology
or CEGEP equivalent (e.g., CEGEP objective 00XU)
FDSC 230 (4) Organic Chemistry *(M)*
or CHEM 212 (4) Introductory Organic Chemistry 1
or CEGEP equivalent (e.g., CEGEP objective 00XV)

Suggested first year (U1) courses

These courses are listed below in the program requirements. They are good courses to start out with.

AEBI 210 (3) Organisms 1 *(M)*
or AEBI 211 (3) Organisms 2 *(M)*
or BIOL 205 (3) Biology of Organisms
Statistics: (Although these are 300-level courses, they can be taken in U1.)
BIOL 373 (3) Biometry
or AEMA 310 (3) Statistical Methods 1 *(M)*
B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (63 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses, but does not include the Domain prerequisites or corequisites listed above.

Core: Required Courses (18 credits)

ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)

AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)

* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Complementary Courses (42 credits)

9 credits of basic principles of ecosystem processes and diversity:

BIOL 305 (3) Animal Diversity
or AEBI 210 (3) Organisms 1 *(M)*
or AEBI 211 (3) Organisms 2 *(M)*
ENVB 305 (3) Population & Community Ecology *(M)*
or BIOL 308 (3) Ecological Dynamics
GEOG 305 (3) Soils and Environment
or ENVB 210 (3) The Biophysical Environment *(M)*

6 credits statistics and GIS methods:

AEMA 310 (3) Statistical Methods 1 *(M)*
or BIOL 373 (3) Biometry
NRSC 430 (3) GIS for Natural Resource Management *(M)*
or GEOG 201 (3) Introductory Geo-Information Science

6 credits of advanced ecosystem components:

BIOL 553 (3) Neotropical Environments (in Panama)
GEOG 372 (3) Running Water Environments
PLNT 358 (3) Flowering Plant Diversity *(M)*
SOIL 326 (3) Soils in a Changing Environment *(M)*
WILD 307 (3) Natural History of Vertebrates *(M)*

6 credits of advanced ecological processes:

BIOL 432 (3) Limnology
or ENVB 315 (3) Science of Inland Waters *(M)*
BIOL 465 (3) Conservation Biology
BREE 217 (3) Hydrology and Water Resources *(M)*
or GEOG 322 (3) Environmental Hydrology
ENVB 410 (3) Ecosystem Ecology *(M)*
MICR 331 (3) Microbial Ecology *(M)*
NRSC 333 (3) Pollution and Bioremediation (M)
PLNT 460 (3) Plant Ecology *(M)*
WILD 410 (3) Wildlife Ecology *(M)*

6 credits of social processes:

AGEC 242 (3) Management Theories and Practices *(M)*
AGEC 333 (3) Resource Economics *(M)*
or ECON 405 (3) Natural Resource Economics
ANTH 339 (3) Ecological Anthropology
CANS 407 (3) Regions of Canada
GEOG 382 (3) Principles Earth Citizenship
GEOG 498 (3) Humans in Tropical Environments (in Panama)
RELG 270 (3) Religious Ethics and the Environment
SOCI 565 (3) Social Change in Panama (in Panama)
URBP 520 (3) Globalization: Planning and Change (in Barbados)
WILD 415 (2) Conservation Law *(M)*
(if this course is taken, 1 additional credit of complementary courses must be taken)

9 credits of ecosystem components or management of ecosystems:

AGRI 435 (3) Soil and Water Quality Management *(M)*
AGRI 452 (3) Water Resources in Barbados (in Barbados)
AGRI 550 (3) Sustained Tropical Agriculture (in Panama)
GEOG 302 (3) Environmental Management 1
GEOG 380 (3) Adaptive Environmental Management
GEOG 404 (3) Environmental Management 2 (in Panama)
NRSC 437 (3) Assessing Environmental Impact *(M)*
PLNT 300 (3) Cropping Systems *(M)*
SOIL 335 (3) Soil Ecology and Management *(M)*
WILD 401 (4) Fisheries and Wildlife Management *(M)*
WOOD 441 (3) Integrated Forest Management *(M)*

10.8.7 Water Environments and Ecosystems Domain

This Domain is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

To educate students in both the ecological and physical facets of the water environment, this Domain offers two concentrations, with students choosing one or the other.

Those electing the **biological** concentrations will focus on the mechanisms regulating the different forms of life in water bodies. They will acquire, as well, a good understanding of the physical mechanisms controlling water properties.

Students interested in studying the transport and transformation mechanisms of water on the planet, from rivers to the oceans and atmosphere, will select the **physical** concentrations. They will acquire, as well, a solid background in the biological processes taking place in water bodies.

Graduates of this Domain are qualified to enter the work force or to pursue advanced studies in fields such as marine biology, geography, physical oceanography and atmospheric science.

Water Environments and Ecosystems – Biological

This concentration (60 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Professor Brian Leung
Email: brian.leung2@mcgill.ca
Telephone: 514-398-6460

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required Courses are offered on both campuses.)

Suggested first year (U1) courses:

These courses are listed below in the program requirements. They are good courses to start out with.

ATOC 215 (3) Oceans, Weather and Climate

Statistics: BIOL 373 or AEMA 310 (M)

Students in this program should consider taking BIOL 373 or AEMA 310 (M) instead of MATH 203. They are more suitable for life sciences. Generally, statistics is recommended over Calculus 3 for life sciences, although if you want to take upper level oceanography courses in ATOC, you will also need Calculus 3.

B.Sc. students see section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (60 credits)

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)

ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)

AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)

* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (6 credits)

ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate

Domain: Complementary Courses (33 credits)

6 credits chosen from:

BREE 217 (3) Hydrology and Water Resources *(M)*
or GEOG 322 (3) Environmental Hydrology
ENVB 305 (3) Population & Community Ecology *(M)*
or BIOL 308 (3) Ecological Dynamics

3 credits of math and statistics from:

AEMA 202 (3) Intermediate Calculus *(M)*
AEMA 310 (3) Statistical Methods 1 (or equivalent) *(M)*
MATH 203 (3) Principles of Statistics 1
MATH 222 (3) Calculus 3

3 credits chosen from:

AGRI 452 (3) Water Resources in Barbados (in Barbados)
BIOL 331 (3) Ecology/Behaviour Field Course (at Mont St. Hilaire)
GEOG 495 (3) Field Studies - Physical Geography (at Mont St. Hilaire)

or an equivalent aquatic field course

3 credits chosen from:

AGEC 333 (3) Resource Economics *(M)*
ANTH 339 (3) Ecological Anthropology
ANTH 418 (3) Environment and Development
ECON 225 (3) Economics of the Environment
ECON 326 (3) Ecological Economics
GEOG 404 (3) Environmental Management 2 (in Panama)
GEOG 498 (3) Humans in Tropical Environments (in Panama)
POLI 345 (3) International Organizations
POLI 466 (3) Public Policy Analysis
SOCI 565 (3) Social Change in Panama (in Panama)
URBP 520 (3) Globalization: Planning and Change (in Barbados)

18 credits, minimum, from lists A and B below.

List A, 9 to 12 credits chosen from:

AGRI 435 (3) Soil and Water Quality Management *(M)*
BIOL 342 (3) Marine Biology
BIOL 432 (3) Limnology
BIOL 441 (3) Biological Oceanography
BIOL 465 (3) Conservation Biology
BIOL 553 (3) Neotropical Environments (in Panama)
BIOL 570 (3) Advanced Seminar in Evolution
ENTO 535 (3) Aquatic Entomology *(M)*
ENVB 315 (3) Science of Inland Waters *(M)*
ENVR 540 (3) Ecology of Species Invasions
or BIOL 540 (3) Ecology of Species Invasions
GEOG 305 (3) Soils and Environment
or ENVB 210 (3) The Biophysical Environment *(M)*
GEOG 350 (3) Ecological Biogeography
MICR 331 (3) Microbial Ecology *(M)*
NRSC 333 (3) Pollution and Bioremediation *(M)*
PARA 410 (3) Environment and Infection *(M)*
WILD 401 (4) Fisheries and Wildlife Management *(M)*

List B, 6 to 10 credits chosen from:

ATOC 308 (3) Principles of Remote Sensing
or GEOG 308 (3) Principles of Remote Sensing
ATOC 219 (3) Introduction to Atmospheric Chemistry
or CHEM 219 (3) Introduction to Atmospheric Chemistry
ATOC 419 (3) Advances in Chemistry of Atmosphere
or CHEM 419 (3) Advances in Chemistry of Atmosphere
CHEM 287 (2) Introductory Analytical Chemistry
CHEM 297 (1) Introductory Analytical Chemistry Laboratory
EPSC 220 (3) Principles of Geochemistry
GEOG 201 (3) Introductory Geo-Information Science
GEOG 372 (3) Running Water Environments
GEOG 522 (3) Advanced Environmental Hydrology
GEOG 537 (3) Advanced Fluvial Geomorphology
GEOG 550 (3) Historical Ecology Techniques
NRSC 430 (3) GIS for Natural Resource Management *(M)*

Water Environments and Ecosystems – Physical

This concentration (63 credits including Core) is open only to students in the B.Sc.(Ag.Env.Sc.) Major in Environment or B.Sc. Major in Environment program.

Mentor: Professor Nigel Roulet
Email: nigel.roulet@mcgill.ca
Telephone: 514-398-4306

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required Courses are offered on both campuses.)

Suggested first year (U1) courses:

These courses are listed below in the program requirements. They are good courses to start out with.

MATH 222 (3) Calculus 3
or CEGEP 201-301 or equivalent

MATH 222 is recommended over statistics for the Physical stream of this domain.

ATOC 215 (3) Oceans, Weather and Climate
BREE 217 (3) Hydrology and Water Resources *(M)*
or GEOG 322 (3) Environmental Hydrology

NOTE: Students are required to take a maximum of 30 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses, but does not include the Domain prerequisites or corequisites listed above.

Program Requirements (63 credits)

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (12 credits)
ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 315 (3) Water in the Atmosphere
GEOG 372 (3) Running Water Environments

Domain – Complementary Courses (30 credits)
6 credits chosen from:
BREE 217 (3) Hydrology and Water Resources *(M)*
or GEOG 322 (3) Environmental Hydrology
ENVB 305 (3) Population & Community Ecology *(M)*
or BIOL 308 (3) Ecological Dynamics

3 credits of statistics or calculus:
AEMA 202 (3) Intermediate Calculus *(M)*
AEMA 310 (3) Statistical Methods 1 (or equivalent) *(M)*
MATH 203 (3) Principles of Statistics 1
MATH 222 (3) Calculus 3

3 credits of field courses:
AGRI 452 (3) Water Resources in Barbados (in Barbados)
GEOG 495 (3) Field Studies - Physical Geography (at Mont St. Hilaire)
or an equivalent aquatic field course

12 credits chosen from:
AEMA 305 (3) Differential Equations *(M)*
or MATH 315 (3) Ordinary Differential Equations
AGRI 435 (3) Soil and Water Quality Management *(M)*
ATOC 308 (3) Principles of Remote Sensing
or GEOG 308 (3) Principles of Remote Sensing
ATOC 309 (3) Weather Radars and Satellites
ATOC 568 (3) Ocean Physics
BREE 416 (3) Engineering for Land Development *(M)*
BREE 506 (3) Advances in Drainage Management *(M)*
or BREE 509 (3) Hydrologic Systems and Modelling *(M)*
or GEOG 522 (3) Advanced Environmental Hydrology
CIVE 323 (3) Hydrology and Water Resources
EPSC 549 (3) Hydrogeology
GEOG 201 (3) Introductory Geo-Information Science
GEOG 305 (3) Soils and Environment
or ENVB 210 (3) The Biophysical Environment *(M)*
GEOG 537 (3) Advanced Fluvial Geomorphology
NRSC 430 (3) GIS for Natural Resource Management *(M)*
or GEOG 306 (3) Raster Geo-Information Science
NRSC 510 (3) Agricultural Micrometeorology
URBP 520 (3) Globalization: Planning and Change (in Barbados)
6 credits chosen from:
BIOL 342 (3) Marine Biology
BIOL 432 (3) Limnology
BIOL 441 (3) Biological Oceanography
BIOL 465 (3) Conservation Biology
BIOL 553 (3) Neotropical Environments (in Panama)
ENVB 315 (3) Science of Inland Waters *(M)*
GEOG 350 (3) Ecological Biogeography
GEOG 505 (3) Global Biogeochemistry
WILD 401 (4) Fisheries and Wildlife Management *(M)*

10.9 Major in Environment – B.Sc.

In addition to the selection of Domains available to students in the Major program in either the Faculty of Science or the Faculty of Agricultural and Environmental Sciences, "Major in Environment - B.Sc.", students in the Faculty of Science program can choose from one of the two Domains limited to Science students only:
Atmospheric Environment and Air Quality, or
Earth Sciences and Economics.

Refer to section 10.8 "Major in Environment – B.Sc.(Ag.Env.Sc.) and B.Sc." for the general guidelines and regulations which apply to all Domains in the Major in Environment program.

10.9.1 Atmospheric Environment and Air Quality Domain

This Domain (60 credits including Core) is open only to students in the B.Sc. Major in Environment program in the Faculty of Science.

Mentor: Professor Frédéric Fabry
Email: frederic.fabry@mcgill.ca
Telephone: 514-398-3652

The rapid expansion of industrialization has been accompanied with a host of environmental problems, many, if not most, involving the atmosphere. Some problems are of a local nature, such as air pollution in large urban centres, while others are global, or at least reach areas far removed from industrial activities.

The emphasis in this Domain is on the mechanisms of atmospheric flow and on atmospheric chemistry. Courses examine how the atmosphere transports pollution, lifting it to great heights into the stratosphere or keeping it trapped near the ground, moving it around the globe or imprisoning it locally, or how it simply cleanses itself of the pollution through rainfall. The Domain also gives students the training required to understand the important chemical reactions taking place within the atmosphere, as well as the know-how necessary to measure and analyze atmospheric constituents.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Suggested first year (U1) courses:
These courses are listed below in the program requirements. They are good courses to start out with.
ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 219 (3) Introduction to Atmospheric Chemistry
or CHEM 219 (3) Introduction to Atmospheric Chemistry
CHEM 287 (2) Introductory Analytical Chemistry
CHEM 297 (1) Introductory Analytical Chemistry Laboratory
or FDSC 213 (3) Analytical Chemistry 1 *(M)*
MATH 222 (3) Calculus *3*
or AEMA 202 (3) Intermediate Calculus *(M)*

Program Requirements (60 credits)

NOTE: Students are required to take a maximum of 31 credits at the 200 level and a minimum of 12 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment

ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (18 credits)
ATOC 214 (3) Introduction: Physics of the Atmosphere
ATOC 215 (3) Oceans, Weather and Climate
ATOC 219 (3) Introduction to Atmospheric Chemistry
or CHEM 219 (3) Introduction to Atmospheric Chemistry
ATOC 308 (3) Principles of Remote Sensing
or GEOG 308 (3) Principles of Remote Sensing
ATOC 315 (3) Water in the Atmosphere
CHEM 307 (3) Analytical Chemistry of Pollutants

Domain: Complementary Courses (21 credits)
6 credits from:
CHEM 287 (2) Introductory Analytical Chemistry
CHEM 297 (1) Introductory Analytical Chemistry Laboratory
or FDSC 213 (3) Analytical Chemistry 1 *(M)*

MATH 222 (3) Calculus 3
or AEMA 202 (3) Intermediate Calculus *(M)*

3 credits from:
MATH 203 (3) Principles of Statistics 1
or AEMA 310 (3) Statistical Methods 1 *(M)*
or equivalent

9 credits of math or physical science (at least 6 credits of which are at the 300 level or above):
ATOC 309 (3) Weather Radars and Satellites
ATOC 412 (3) Atmospheric Dynamics
ATOC 419 (3) Advances in Chemistry of Atmosphere
or CHEM 419 (3) Advances in Chemistry of Atmosphere
ATOC 540 (3) Synoptic Meteorology 1
CHEE 230 (3) Environmental Aspects of Technology
CHEM 273 (1) Chemical Kinetics
CHEM 377 (3) Instrumental Analysis 2
CIVE 225 (4) Environmental Engineering
COMP 208 (3) Computers in Engineering
GEOG 505 (3) Global Biogeochemistry
MATH 223 (3) Linear Algebra
MATH 315 (3) Ordinary Differential Equations
or AEMA 305 (3) Differential Equations *(M)*
NRSC 333 (3) Pollution and Bioremediation *(M)*
NRSC 510 (3) Agricultural Micrometeorology *(M)*

3 credits of social science:
ANTH 206 (3) Environment and Culture
ANTH 418 (3) Environment and Development
ECON 225 (3) Economics of the Environment
ECON 347 (3) Economics of Climate Change
ENVR 465 (3) Environment and Social Change (in Bay of Fundy)
GEOG 302 (3) Environmental Management 1
GEOG 380 (3) Adaptive Environmental Management
GEOG 404 (3) Environmental Management 2 (in Panama or in Africa)
GEOG 498 (3) Humans in Tropical Environments (in Panama)
POLI 466 (3) Public Policy Analysis
RELG 270 (3) Religious Ethics and the Environment

10.9.2 Earth Sciences and Economics Domain

This Domain (66 credits including Core) is open only to students in the B.Sc. Major in Environment program in the Faculty of Science.

Mentor: Professor Bruce Hart
Email: hart@eps.mcgill.ca
Telephone: 514-398-3677

The resources necessary for human society are extracted from the Earth, used as raw materials in our factories and refineries, and then returned to the Earth as waste. Geological processes produce resources humans depend on, and they also determine the fate of wastes in the environment. Understanding Earth's geologic processes provides us with the knowledge to mitigate many of our society's environmental impacts due to resource extraction and waste disposal. Additionally, economics frequently affects what energy sources power our society and how our wastes are treated. Earth sciences and economics are essential for our understanding of the many mechanisms, both physical and social, that affect Earth's environment.

This Domain includes the fundamentals of each discipline. Students learn of minerals, rocks, soils, and waters and how these materials interact with each other and with the atmosphere. Fundamental economic theory and the economic effects of public policy towards resource industries, methods of waste disposal, and the potential effects of global warming on the global economy are also explored.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

Courses offered at Macdonald Campus are marked with an *(M)*. (Core Required courses are offered on both campuses.)

Suggested first year (U1) courses:
These courses are listed below in the program requirements. They are good courses to start out with.
ECON 230D1 (3) Microeconomic Theory
ECON 230D2 (3) Microeconomic Theory
EPSC 210 (3) Introductory Mineralogy
EPSC 212 (4) Introductory Petrology
EPSC 220 (3) Principles of Geochemistry
Statistics: GEOG 202, PSYC 204, BIOL 373 or AEMA 310 *(M)*
See section 14.3.6.1 "Course Overlap" in this Calendar about statistics and restricted courses.

Program Requirements (66 credits)

NOTE: Students are required to take a maximum of 34 credits at the 200 level and a minimum of 15 credits at the 400 level or higher in this program. This includes Core and Required courses.

Core: Required Courses (18 credits)
ENVR 200 (3) The Global Environment
ENVR 201 (3) Society and Environment
ENVR 202 (3) The Evolving Earth
ENVR 203 (3) Knowledge, Ethics and Environment
ENVR 301 (3) Environmental Research Design
ENVR 400 (3) Environmental Thought

Core: Complementary Course – Senior Research Project (3 credits*)
AGRI 519 (6) Sustainable Development Plans (in Barbados)
ENVR 401 (3) Environmental Research
ENVR 451 (6) Research in Panama (in Panama)
* Only 3 credits will be applied to the program; extra credits will count as electives.

Domain: Required Courses (21 credits)
ECON 230D1 (3) Microeconomic Theory
ECON 230D2 (3) Microeconomic Theory
ECON 405 (3) Natural Resource Economics
EPSC 210 (3) Introductory Mineralogy
EPSC 212 (3) Introductory Petrology
EPSC 220 (3) Principles of Geochemistry
EPSC 455 (3) Sedimentary Geology

Domain: Complementary Courses (24 credits)
3 credits of statistics from:
AEMA 310 (3) Statistical Methods 1 *(M)*
or GEOG 202 (3) Statistics and Spatial Analysis
or MATH 203 (3) Principles of Statistics 1
or equivalent

9 credits from List A:
AGEC 333 (3) Resource Economics *(M)*
CHEE 430 (3) Technology Impact Assessment
or NRSC 437 (3) Assessing Environmental Impact *(M)*
ECON 326 (3) Ecological Economics
ECON 347 (3) Economics of Climate Change
ECON 416 (3) Topics in Economic Development 2
ECON 525 (3) Project Analysis

12 credits from List B:
AGRI 435 (3) Soil and Water Quality Management *(M)*
ANTH 339 (3) Ecological Anthropology
BIOL 305 (3) Animal Diversity
BIOL 553 (3) Neotropical Environments (in Panama)
ECON 305 (3) Industrial Organization
ECON 313 (3) Economic Development 1
ECON 314 (3) Economic Development 2
ECON 408D1 (3) Public Sector Economics
ECON 408D2 (3) Public Sector Economics
ECON 412 (3) Topics in Economic Development 1
EPSC 312 (3) Spectroscopy of Minerals
EPSC 331 (3) Field School 2
EPSC 341 (3) Field School 3
EPSC 425 (3) Sediments to Sequences
EPSC 435 (3) Applied Geophysics
EPSC 452 (3) Mineral Deposits
EPSC 519 (3) Isotope Geology
EPSC 542 (3) Chemical Oceanography
EPSC 549 (3) Hydrogeology
EPSC 580 (3) Aqueous Geochemistry
EPSC 590 (3) Applied Geochemistry Seminar
GEOG 302 (3) Environmental Management 1
GEOG 322 (3) Environmental Hydrology
SOIL 510 (3) Environmental Soil Chemistry *(M)*

10.10 Honours Program in Environment

Advisor: Ms. Kathy Roulet, MSE Program Advisor
Email: kathy.roulet@mcgill.ca
Telephone: 514-398-4306

This Program is open only to students in the B.Sc. Major in Environment, B.Sc.(Ag.Env.Sc.) Major in Environment, B.A. Faculty Program in Environment, and the B.A.&Sc. Interfaculty Program in Environment.

The Honours Program in Environment offers students the opportunity to undertake a year-long research project in close association with a professor. Honours research provides excellent preparation for graduate studies, but is not required for such studies. The Honours in Environment **adds 6 credits of research to the regular Environment program**. Since the Honours research is carried out in the final year at the same time as the regular courses, it does not add to the length (duration) of the degree. Students simply have 6 credits less of electives. If, for some reason, students cannot complete the Honours requirements, they may still graduate with the regular Environment program.

To be eligible for Honours, students must satisfy the requirements set by their degree (B.A., B.Sc., B.Sc.(Ag.Env.Sc), or B.A.&Sc.).

In addition, students must satisfy the following:

1. Students apply for the Honours program in March of their U2 year. See Kathy Roulet for details.
2. Applicants must have a minimum Program GPA (GPA of all required and complementary courses for the program in Environment taken at McGill) of 3.3 to enter the Honours program.
3. Students must earn a B grade (3.0) or higher for the Honours Research course (ENVR 495 or ENVR 496 & ENVR 497).
4. Students are required to achieve a minimum overall CGPA of 3.0 at graduation, and a minimum Program GPA of 3.3 to obtain Honours.
5. Arts (B.A.) students must complete a Minor Concentration in a program other than Environment. See section 6.11.5 "Minor Concentrations" for options open to B.A. students.
6. B.A.&Sc. students must complete at least 30 credits in the Faculty of Arts and at least 30 in the Faculty of Science as part of their Honours program and their Minor Concentration or Minor program. See section 7.11.5 "Minor Concentrations or Minors" for options open to B.A.&Sc. students.

Note that the Honours Research course number is different for the B.Sc.(Ag.Env.Sc.) degree.

B.A., B.Sc., B.A.&Sc.
Honours - Required Courses (6 credits)
ENVR 495 D1/N1 (3) Honours Research
ENVR 495 D2/N2 (3) Honours Research

Students in the B.A. or B.Sc. Honours programs complete the Core and Domain courses (54 to 66 credits) according to their chosen Domain as well as the Honours required courses.
(Note: courses vary with each Domain.)

Students in the B.A.&Sc. Honours program complete the coursework (54 credits) for the Interfaculty Program in Environment as well as the Honours required courses.

B.Sc.(Ag.Env.Sc.)
Honours - Required Courses (6 credits)
ENVR 496 (3) Honours Research Part 1
ENVR 497 (3) Honours Research Part 2

Students in the B.Sc.(Ag.Env.Sc.) Honours program complete the Core and Domain courses (57 to 63 credits) according to their chosen Domain as well as the Honours required courses. Note: courses vary with each Domain.

In addition to completing the Honours Research course, all students must present their results to the MSE at the end of the second semester. They must also give the MSE a complete, clean (after corrections) copy of their thesis.

10.11 Diploma in Environment

Advisor: Ms. Kathy Roulet, MSE Program Advisor
Email: kathy.roulet@mcgill.ca
Telephone: 514-398-4306

The Diploma is designed for students with an undergraduate degree who wish to enrich or reorient their training, supplementing their specialization with additional undergraduate-level coursework. The Diploma requires 30 credits of full-time or part-time studies at McGill; it may be started in either January or September. The Diploma is a one-year program if taken full-time.

Students holding a B.Sc. or a B.A. degree or equivalent in good standing will be permitted to register for the Diploma through the Faculty of Agricultural and Environmental Sciences, the Faculty of Arts, or the Faculty of Science, provided they are otherwise acceptable for admission to the University.

Students must have **a grade of C or higher** in all courses for the Diploma.

Advising note: Consultation with the Program Advisor for approval of course selection to meet program requirements is obligatory. Only courses at the 200-level and above will be approved.

DIPLOMA IN ENVIRONMENT (30 credits)

Required Courses (18 credits)

ENVR 200	(3)	The Global Environment
ENVR 201	(3)	Society and Environment
ENVR 202	(3)	The Evolving Earth
ENVR 203	(3)	Knowledge, Ethics and Environment
ENVR 301	(3)	Environmental Research Design
ENVR 400	(3)	Environmental Thought

Complementary Courses (12 credits)

3 credits must be taken with the approval of the Program Advisor in an area outside of the student's previous degree (e.g., those with a B.A. or equivalent degree must take 3 credits in the natural sciences; those with a B.Sc. or equivalent degree must take 3 credits in the social sciences). A list of suggested courses is available from the Program Advisor, and on the MSE website in "Undergraduate Programs: Diploma".

9 credits must be taken in an area of focus chosen by the student with the approval of the Program Advisor. At least 6 credits must be taken at the 400-level or higher.

Course descriptions and prerequisites can be found in the Courses section. The most up-to-date information on courses being offered this academic year is available on Class Schedule at www.mcgill.ca/minerva.

10.12 Field Studies

Field study semesters are available in Africa, Barbados, and Panama. See section 15.3 "Field Studies" in this Calendar for details.

11.1 Desautels Faculty of Management

11.1.1 Location

Samuel Bronfman Building
1001 Sherbrooke Street West
Montreal, QC H3A 1G5
Canada

Telephone: 514-398-4068
Faculty website: www.mcgill.ca/desautels
Degree website: www.mcgill.ca/desautels/bcom

The BCom Student Affairs Office of the Desautels Faculty of Management and the office of the Director, BCom Program are located in the Samuel Bronfman Building, room 110. The BCom Student Affairs Office serves all students taking management courses.

11.1.2 Administrative Officers

Peter Todd; B.Com.(McG.), Ph.D.(Br. Col.) **Dean**

Emine Sarigöllü; B.A., M.B.A.(Bogazici), M.A., Ph.D.(Penn.)
Associate Dean, Student Affairs

Glenn Zabowski; B.Com., M.B.A.(McG.)
Director, BCom Program

11.1.3 The Bachelor of Commerce Program

Internationally acclaimed for its high academic standards and excellence in teaching/research, and widely recognized as Canada's leading international business school, McGill University consistently attracts top students and faculty members from around the world.

The primary objective of the McGill BCom program is to prepare students for effective professional and managerial careers. This preparation includes developing in students a capacity for critical thinking, for integrating knowledge across different disciplines, and for utilizing current theory in approaching practical business problems. Students are also expected to become comfortable with taking risks, working as part of a team, and developing the necessary skills to lead others. Students will acquire the critical management competencies which will enable them to offer the expertise organizations need to respond to the ever-changing and increasingly complex global marketplace.

The BCom highly flexible curriculum offers students both breadth and depth. Breadth is achieved through a broad-based core of required courses which provide the necessary quantitative, analytical, and communication skills, while grounding students in applied theory and practice across the major management disciplines. Depth is achieved through three alternate specializations of study designed to meet the needs of a highly diverse student body with a wide range of career interests and priorities.

General Management (Concentration) students pursue focused study in two different areas. They must choose one Concentration in Management, and for their second area of study, they have two options: 1) choosing a second Concentration in Management; or 2) pursuing a Minor in another faculty. This option is ideal for students who are seeking a general business education, are interested in continuing their education in a related field such as law or industrial relations, or wish to pursue a career in a specific sector such as the arts, applied science, or public administration.

Majors and Honours programs are available for students wishing to focus their study in primarily one area in order to get maximum exposure to their chosen field. This option is for students with clearly defined career objectives or those interested in further professional training, such as a CA, CMA, CGA, or CFA designation.

In International Management, students have a chance to pursue interdisciplinary global studies. All students in the Major complete the requirements of the International Business Concentration. They choose to complete social science and humanities courses in one of the following themes: comparative global studies, global politics and economy, or global well-being and development. They are also required to complete at least two levels of a language and 3 credits of research or internship work. Exchanges are recommended

Candidates coming from the Quebec CEGEP system apply to a three-year program whereas out-of-province and international students follow a four-year program.

11.1.4 BCom Student Affairs Office

The BCom Student Affairs Office provides ongoing advice and guidance on programs and prerequisites, degree requirements, majors, minors and concentrations, registration, course change, procedures for withdrawal, deferred final examinations, rereads, academic standing, inter-faculty transfer, exchange or study abroad, transfer credits, scholarships and graduation. Student advisers offer help managing academic situations during periods of personal, financial or medical problems, by working with students to identify various possibilities and strategies for making informed decisions.

The BCom Office abides by everything in the Calendar: prerequisites, concentrations, majors, etc. The BCom Office will not make exceptions for students against the Calendar in any situation. No exceptions to the Calendar will be approved by the BCom Office or the Director, BCom Program.

For more information, please refer to the BCom website at www.mcgill.ca/desautels/bcom.

11.1.5 Summer Studies

Students wishing to make up deficiencies in their background, or to accelerate their progress to the degree, may do so by taking summer courses at McGill or some other institution.

Each summer, from early May to mid-August, many core courses and several elective courses are offered by the Desautels Faculty of Management for full credit. They are available to Management students, and to students from other faculties and universities who have the necessary course prerequisites. McGill also offers a number of summer courses in various disciplines at different levels. Information on summer courses is available from the BCom Student Affairs Office at 514-398-4068 or bcom.mgmt@mcgill.ca, or from the Summer Studies Office at 514-398-5212 or summer.studies@mcgill.ca.

Students normally will be allowed to take only 6 credits in each of the two parts of Summer session. Students who wish to follow a full-time period of study will be permitted to enrol for more than 6 credits per part only with special permission of the Director, BCom Program. In no circumstance will students be allowed to take more than 12 credits in either part of the Summer session, and may take no more than 18 credits in a single summer.

Should students wish to pursue courses at another institution, credit will be granted for such courses only if they fit into the student's overall program, and if written permission to do such courses for credit has been obtained in advance from the BCom Student Affairs Office. A course which overlaps with material already completed in the student's program, or a language course which does not substantially progress beyond corresponding language courses already taken, will not receive credit approval. Please see section 11.1.7 “Transfer Credit and Advanced Standing” for more information about transferring credits.

11.1.6 International Student Exchange Program

Students are encouraged to take advantage of opportunities to study abroad for a term or year. The international exposure and academic experience gained by taking part in student exchange are highly worthwhile. Through this program, students may study and earn academic credits at over 70 universities in countries around the world. Exchange opportunities are open to students in most specializations.

More information may be obtained from the BCom Student Affairs Office at 514-398-4068, bcom.mgmt@mcgill.ca, or on the McGill website at www.mcgill.ca/studyabroad. At least two-thirds of all departmental program requirements must be completed at McGill and there is a CGPA requirement of 3.0 to be eligible for exchange. Once accepted, students must obtain written faculty authorization for transfer credits before leaving for exchange. For more information about the International Student Exchange program please visit: www.mcgill.ca/desautels/bcom/sao/options/exchange.

11.1.7 Transfer Credit and Advanced Standing

Students are admitted to a four-year program requiring the completion of 120 credits, but advanced standing of up to 30 credits may be granted to students who obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement Tests. Students who transfer course credit from another institution may transfer up to one third of the credits required in their degree program, including the Concentration, Major or Honours requirements under the following conditions:

- Only courses passed with a grade of C or better at the host institution will be transferred. Grades of C- are not acceptable.
- Grades of P or S are acceptable only if transferred from faculties within McGill.

- The letter grades applied by the former home institution or host institution (for exchanges and study away) take precedence over the numerical grades if provided.
- For exchange or study away purposes, it is required that course and credit approval is obtained before courses are taken at the host institution.
- The four-year program will require a minimum 80-credit residency at McGill.
- The three-year program will require a minimum 60-credit residency at McGill.

11.2 BCom Degree Admission Requirements

The Desautels Faculty of Management offers programs that are highly selective and fulfilment of minimum admission requirements does not guarantee acceptance. For information about admission requirements to the BCom Program, please refer to the *Undergraduate Admissions Guide*, found at www.mcgill.ca/applying/undergrad. Students who have been asked to withdraw from a program in another Faculty/University due to poor performance are not eligible for transfer into the BCom Program. Information about inter-faculty transfers may be obtained from the BCom Student Affairs Office at 514-398-4068 or the BCom website at www.mcgill.ca/desautels/bcom.

11.3 BCom Degree Requirements

11.3.1 Academic Requirements for Graduation

Each student in the Desautels Faculty of Management must be aware of the faculty regulations as stated in this Calendar and on the McGill and BCom websites. While BCom Office advisers and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines **rests with the student**. It is the student's responsibility to seek guidance from the BCom Student Affairs Office if in any doubt; misunderstanding or misapprehension will not be accepted as cause for any exception from any regulation, deadline, program or degree requirement.

For students entering with a Quebec CEGEP Diploma, the number of credits is generally 90. Students from outside the province of Quebec who have not completed the equivalent of a CEGEP Diploma are required to complete 120 credits.

It is the student's responsibility to make sure his/her course of study conforms with the curriculum requirements as described in this Calendar. A student wishing to deviate from their program must obtain written permission from the Director, BCom Program.

A student who has transferred with advanced standing to the Desautels Faculty of Management from another university is required to complete a minimum of 60 credits while registered in the BCom program, including such required courses as are deemed necessary, to become eligible for the degree of BCom.

11.3.2 Cumulative Grade Point Average (CGPA)

A student is eligible for graduation upon satisfactory completion of the minimum credit requirement for the degree as indicated in the letter of acceptance, subject to the curriculum and CGPA of 2.00 (3.00 for Honours) requirements.

11.3.3 Course Requirements

All required and complementary courses used to fulfil program requirements, including the Freshman Program, must be completed with a grade of C or better. Students who fail to obtain a satisfactory grade in a required course (core, part of a concentration, minor, major or honours program) must repeat the course. Course substitution will be allowed only in special cases; students should consult their academic adviser. Normally students are permitted to repeat a failed course only once (failure is considered to be a grade of less than C or the administrative failures of J and KF). If a required course is failed a second time, a student must appeal in writing to the Director, BCom Program for permission to take the course a third time. If permission is denied by the Director, BCom Program, the student must withdraw from the program. If the failed course is a complementary course required by the program, a student may choose to replace it with another complementary course. If a student chooses to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If a student repeats a required course in which a D was received, credit will be given only once. In either case, both grades of D count toward the CGPA.

11.3.4 Academic Advising

Students entering the Desautels Faculty of Management for the first time are required to attend an Orientation and Advising Session during the last week of August, at which time the staff from the BCom Student Affairs Office provide information on all aspects of the BCom program. Students who have had difficulty registering for their courses have the opportunity to resolve their problems after this session. For a detailed description of advising and registration procedures, students should refer to section 11.3.5 "Registration" and section 4 of *Welcome to McGill*, which they receive upon acceptance from Enrolment Services, as well as the BCom website at www.mcgill.ca/desautels/bcom.

Academic advising for all returning students takes place in February and March for the upcoming academic year. "Drop-in" advising is available in the BCom Student Affairs Office from mid-August until the end of September. Appointments may be made as of October 1, to discuss programs of study with student advisers. In February or March, an Information Session takes place that aids the student to select a course of study for specialization. In April, students continuing in the BCom Program plan their studies for the following year using the requirements as listed in the Calendar, or in the Degree Evaluation Module available through Minerva, as a guide to their course selection. Advice is available at the BCom Student Affairs Office for students having difficulty. Students register online using Minerva at www.mcgill.ca/minerva-students.

General Management students choosing to do a Minor in another Faculty as their second area of study should meet with the appropriate department adviser to plan their courses. **It should be noted that Minors must have a minimum of 18 credits not overlapping with other program requirements.**

Students taking the Minor, Major, or Honours in Economics must see an adviser in the BCom Student Affairs Office for approval of their program and course selection.

Students in the Major Concentration or Minor in Mathematics, or Statistics, must have their Study Plan Form initially authorized by the appropriate department adviser prior to submission to the BCom Student Affairs Office.

Students requesting general information about the program, or encountering difficulties (academic or personal), should contact a student adviser as soon as possible. Students with specific career goals should consult a student adviser about their choice of program within the BCom Program.

11.3.5 Registration

- It is the student's responsibility to register on time. Failure to register for courses when the registration periods begin may delay graduation and program requirements. **Space is limited**.
- Registration for Fall and Winter courses will begin in late March and early April for BCom students. Priority registration in Management courses for Summer opens in early March. Exact dates may be obtained from the BCom website at www.mcgill.ca/desautels/bcom.

- BCom students who are unable to register for required or complementary courses that they need in order to graduate on time should submit a copy of the Closed Management Course Request Form to the BCom Student Affairs Office with a copy of their Degree Evaluation and any relevant supporting documentation. During the add/drop periods, students must meet with an adviser; Closed Management Course Request Forms will not be accepted. Exact deadlines may be obtained from the BCom website at www.mcgill.ca/desautels/bcom.
- BCom students are generally not permitted to take courses offered through the Centre for Continuing Education (CCE) for credit toward their degree. Should you wish to receive special permission to take a course through CCE (i.e., to enable you to graduate on time or take an approved elective that is only offered by CCE), you must submit a Cont Ed Request Form to the BCom Student Affairs Office with a copy of your Degree Evaluation and any relevant supporting documentation. Students cannot register for CCE courses via Minerva; if approved, the BCom Office will need to add this course to your record. Students should **not** go to nor contact the Centre for Continuing Education regarding registration for a CCE course.
- New students must select their area(s) of specialization online using Minerva **before** they are permitted to register for courses. The program options available are found in the *Change your Curriculum* module of the Student Menu.
- Full-time students must register for courses online using Minerva. Additional information for new students is distributed at the time of admission and is also available on the Faculty website at www.mcgill.ca/desautels under Degree Programs - BCom - Accepted Students and www.mcgill.ca/student-records. Information for returning students and part-time students is available in the BCom Office as of March.
- Students who wish to change the courses for which they are registered within the add/drop period must do so online using Minerva.
- Students wishing to withdraw from a course after the add/drop deadline must do so online using Minerva by the withdrawal deadline. A grade of "W" will be indicated on the transcript which does not affect GPA. Approval to withdraw after the withdrawal deadline will be granted only in exceptional circumstances. A written request for such consideration, accompanied by substantial documentation, must be submitted to the Director, BCom Program. Students whose circumstances require withdrawal from their complete program should see an adviser in the BCom Student Affairs Office.
- All courses have limited enrolment. When a student's record is verified, any courses taken that violate the degree regulations will be flagged after the end of the course change period as "not for credit towards the BCom". As a result, the student's expected date of graduation may be delayed. Students who believe they have valid reasons to take a course that may not be credited toward the BCom must obtain permission from the Director, BCom Program.

11.3.6 Course Overlap

Students will not receive credit toward their degree for any course that overlaps in content with a course taken for credit at McGill, CEGEP, another university, advanced placement exams, Advanced Level results, International Baccalaureate Diploma, or French Baccalaureate Diploma.

It is the student's responsibility to consult the BCom Student Affairs Office as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course descriptions in this Calendar. Please refer to the following website for specific information about advanced standing credits and McGill course exemptions: www.mcgill.ca/student-records/transfercredits.

Credit for statistics courses will be given with the following restrictions:

- Credit will be given for ONLY ONE of the following statistics courses: AEMA 310, BIOL 373, ECON 227D1/ECON 227D2 (max. 3 cr.), ECON 257D1/ECON 257D2, GEOG 202, GEOG 351, MATH 204, MATH 324, MATH 357, MGCR 271, MGCR 273, MIME 209, PSYC 204, SOCI 350.
- For 500-level statistics courses not listed above, students must consult a student adviser to ensure that no significant overlap exists. Where such overlap exists with a course for which the student has already received credit, credit will not be allowed.
- Credit for statistics courses offered by faculties other than Management requires the permission of the Director, BCom Program.
- PSYC 204 may not be taken if a grade of 75% or better was received in an equivalent course completed at CEGEP.

Credit for computer courses will be subject to the following restrictions:

- Credit for courses offered by the School of Computer Science is governed by rules specified in its individual course descriptions.
- Credit for computer courses offered by faculties other than Management requires the permission of the Director, BCom Program.
- No 100-level computer courses may be completed for credit.

Credit for economics courses will be subject to the following restrictions:

- A maximum of 6 credits will be granted for Freshman Economics courses.
- A maximum of 6 credits will be granted for ECON 230D1/ECON 230D2, ECON 250D1/ECON 250D2, and MGCR 293.
- A maximum of 6 credits will be granted for ECON 330D1/ECON 330D2, ECON 352D1/ECON 352D2, and ECON 295.
- ECON 208 and ECON 209 are not permitted in the 90-credit program.

11.3.7 Electives

Non-Management Electives:
Students completing two Concentrations, or Majors in Accounting, Finance, Information Systems, Labour-Management Relations, or Marketing, must take a minimum of 6 credits of Non-Management electives. This requirement does not apply to those completing a Minor, a Major in Economics, Mathematics, Statistics, or Psychology, or an Honours or Joint Honours program.

Non-Management electives may be chosen from a broad range of faculties and departments, subject to the exclusions of Course Overlap regarding statistics, computer, and economics courses, and the restrictions listed below.

Note 1:
Quantitative Methods, Statistics, and Research courses offered by any department must be approved by the Director, BCom Program, prior to registration in the course. Failure to obtain the necessary approval will result in the course being excluded (E) from the credit count.

Note 2:
A maximum of 6 credits across all Faculties may be taken in Remedial English and/or English as a Second Language. The relevant subject codes are EAPR, ESLN, EDEC, CEEN, and CEGL.

Faculty constraints:

Agriculture & Environmental Sciences
- All courses require approval by a student adviser in the BCom Student Affairs Office.

Arts
- All courses are approved, subject to Course Overlap and the above notes, with a maximum of 6 credits approved in EAPR, ESLN, EDEC, CEEN, and CEGL (combined), or SWRK (approved courses only). ECON 208 and ECON 209 may not be taken for credit within the BCom program.

Continuing Education
- A maximum of 6 credits are approved from the language courses offered; no credit will be granted for other CCE courses with subject codes beginning with a "C", such as CCTR or CMIS.

Education
- A maximum 6 credits are approved from the following subject codes (combined): EDEA 201, 204, 205, 296, 304, 305, 307, 496, 497; EDEC 200, 202, 205, 208, 236, 239, 241, 242, 247, 248, 260, 261, 305, 308, 309, 403; EDEE 325; EDEM 220; EDER 207, 209, 309, 394, 395, 461, 473, 494; EDES 366; EDKP 205, 206, 261, 292, 293, 303, 330, 391, 395, 566; EDPC 510; EDPE 377; EDPE 526.
- No courses are approved from subject codes EDET, EDFC, EDFE, EDPT or EDSL.

Engineering
- Most courses in subject codes ARCH, CHEE, CIVE, ECSE, MECH, MIME, URBP with approval of an Adviser.
- No courses are approved from subject codes FACC or MPMC.
- The following courses are not approved: CHEE 291, 360, 462; CIVE 210, 432; ECSE 443; MECH 201, 260, 262, 289; MIME 202, 221, 280, 290, 291, 310, 380, 392, 480, 481, 494.

School of Environment
- All courses are approved.

Music
- All courses are approved in subject codes MUGT, MUHL, MUMT, MUPP, MUSR, MUTH and MUAR (taught by Arts).
- A maximum of 6 credits is approved from the following (combined): MUCO, MUCT, MUEN, MUIN, MUIT, MUJZ, MUPG and MUSP.

Religious Studies
- All courses are approved.

Science
- All courses are approved, subject to Course Overlap and the above note 1, except COMP 102; MATH 111, 112, 122, 123, 133, 139, 140, 141, 150, 151, 152 and 203.
- A maximum 6 credits may be taken from the World of Chemistry courses CHEM 150, 160, 170, 180.

Free Electives:
Subject to the requirements and restrictions for Non-Management electives as outlined above, all remaining elective credits may be taken in any Faculty, Management or otherwise.

11.3.8 Course Taken Under the Satisfactory/Unsatisfactory Option

Students may select or cancel the S/U option only during registration or the add/drop period through a request to the BCom Student Affairs Office. All S/U credits will be excluded when calculating the Grade Point Average. This option may only be used for elective courses, one course per term, to a maximum of 10% of the total credits taken at McGill to fulfil the degree requirements. Careful consideration should be given before using this option as it can affect scholarship and award consideration, where a minimum of 27 graded credits are required, as well as future admission to law or graduate schools.

For more information and restrictions, please refer to section 3.3.6 “Courses Taken under the Satisfactory/ Unsatisfactory (S/U) Option”.

11.3.9 Academic Standing

Academic standing is based primarily on a student's cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing is assessed in January for the Fall term, in May for the Winter term, and in September for the Summer term. Academic standing in each term determines whether students will be allowed to continue their studies in the next term and whether any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPAs. Therefore, academic standings for the Fall term are designated as "interim". **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

A student not in Satisfactory Standing is strongly advised to consult with Naomi Neuburger or Heather McCombie in the BCom Student Affairs Office about their course selection before the withdrawal deadlines.

Satisfactory/Interim Satisfactory Standing
Students in satisfactory standing may continue in their program.

- New students are admitted to satisfactory standing.
- Students with a CGPA of 2.00 or greater are in satisfactory standing.

Probationary/Interim Probationary Standing
Students in probationary standing may continue in their program, but must carry a reduced load (maximum 14 credits per term) and raise their TGPA and CGPA to return to satisfactory standing (see above). They should see their student adviser to discuss their course selection.

Students in interim probationary standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult with their student advisor, before the withdrawal deadlines, about their course selection for the Winter term.

- Students who were previously in satisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99.
- Students who were previously in probationary standing will remain in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher (although the TGPA requirement will not apply to the Summer term).
- Students who were previously in interim unsatisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher.
- Students who were previously in unsatisfactory standing and who were readmitted to the BCom Program by the Director will be placed in probationary standing if their CGPA is lower than 2.00. To remain in the program, students must satisfy the relevant conditions specified in their letter of readmission.

Unsatisfactory Readmitted Standing
Students who were previously in unsatisfactory standing and who were readmitted to the BCom Program by the Director will have their standing changed to unsatisfactory readmitted standing. Their course load is specified in their letter of readmission, as are the conditions they must meet to be allowed to continue in their program. They should see their student adviser to discuss their course selection.

Unsatisfactory/Interim Unsatisfactory Standing
Students in interim unsatisfactory standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult a student adviser, before the withdrawal deadlines, about their course selection for the Winter term.

Students in unsatisfactory standing have failed to meet the minimum standards set by the Faculty. They may not continue in their program, and their registration will be cancelled.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Director, BCom Program, no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (i.e., medical or other documentation) along with reassurances of future improvement. Students in unsatisfactory standing for the second time must withdraw permanently.

- Students will be placed in unsatisfactory standing (Winter or Summer term) or interim unsatisfactory standing (Fall term) if their CGPA falls or remains below 1.50.
- Students who were previously in probationary, unsatisfactory readmitted, or interim unsatisfactory standing will be placed in unsatisfactory standing if their TGPA falls below 2.50 and their CGPA is below 2.00.
- Students who were previously in unsatisfactory standing and who were readmitted to the BCom Program by the Director and who have not at least satisfied the conditions to attain probationary standing that were specified in the letter of readmission will be placed in unsatisfactory standing.

Incomplete Standings
Standing awaits deferred exam.
Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the add/drop period for that term; otherwise, their registration will be cancelled. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program, and their registration will be cancelled.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Director, BCom Program, as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (i.e., medical or other documentation) along with reassurances of future improvement. Students whose standing is still incomplete by the end of course change period should immediately consult with the BCom Student Affairs Office.

11.3.10 Time and Credit Limit for Completion of the BCom Degree

Students who need 90 or fewer credits to complete their degree requirements are expected to complete their degree in no more than eight terms after their initial registration for the BCom degree. Students in the Freshman Program become subject to these regulations one year after their initial registration. Students who wish to exceed this time limit or who wish to exceed the minimum credit requirement for their degree must apply in writing to the Director, BCom Program, for permission to continue their studies. Permission for exceeding the time and/or credit limit will normally be granted only for valid academic reasons. Elective credits over the credit limit will be flagged for no credit and the grades will not count in the CGPA.

Students who are readmitted after interrupting their studies for a period of one year or more must apply in writing to the Director, BCom Program. Students who are readmitted after a period of absence are normally subject to the program and degree requirements in effect at the time of readmission.

11.4 Grading and Credit

During the first week of lectures, each instructor will provide students with a written course outline that should include:

- A description of the topics to be considered in the course.
- A list of required or recommended textbooks and reading materials.
- A grading scheme or description of the means of evaluation to be used in the course, along with due dates for assignments and dates/times of exams. All term work shall be assigned early enough in the term for students to complete the assignment(s) by the last day of class. The due date for term work shall be no later than the last day of classes. Changes in the distributed grading scheme are permitted only with the unanimous consent of all students registered in the course. In practice, therefore, the grading scheme is almost never changed during the term.
- The instructor's office hours for students, office location, telephone number for office appointments and secretarial contact information.
- Academic Integrity statement: **McGill University values academic integrity. Therefore, all students must understand the meaning and consequences of cheating, plagiarism and other academic offences under the *Code of Student Conduct and Disciplinary Procedures* (see www.mcgill.ca/integrity for more information).**

11.4.1 Examinations

Students should see section 3.6 "Examinations" for information about final examinations and deferred examinations. Final examinations are centrally administered by Enrolment Services. Around the beginning of November and March, a final examination schedule will be posted on the McGill website (www.mcgill.ca) by Enrolment Services. The seating arrangements are posted on the McGill website toward the end of the last week of classes.

BCom students and non-management students taking BCom courses must report conflicts directly to Enrolment Services — not to the instructor. Students should also refer to the BCom website at www.mcgill.ca/desautels/bcom for more information. Students are warned not to make travel arrangements to leave Montreal prior to the posting of the official final examination schedule.

BCom courses cannot have examinations scheduled during the last two weeks of term worth more than 10% of the final grade. Students must repeat any grades of D or F in core courses or courses as part of a Concentration, Minor, Major or Honours Program. However, D is a passing grade for elective courses.

Supplemental Examinations
Supplemental examinations are not offered in undergraduate courses administered by the Desautels Faculty of Management. A student required to improve his/her standing in a course must repeat the course in a subsequent term, completing all course requirements to the satisfaction of the instructor. Faculty policy does not allow students to do additional work to improve their standing in a course.

Deferred Examinations
For missed final examinations, whatever the reason may be, professors and students are not to make alternate arrangements. The student must complete an *Application for Deferred Final Exam* through his/her Minerva account as well as provide supporting documentation to the BCom Office. This online application must be completed within 5 working days of the date of the exam and the supporting documentation must be submitted to the BCom Office within this time frame as well. The BCom Office will then review the reasons for the exam having been missed and will either give the student permission to write a deferred final exam, or not. If approved, the student will write the final exam during the University's official deferred exam period — specific dates in May (Fall terms) and August (Winter and Summer terms). It is up to students to verify the deferral schedule, which the Registrar makes up and administers.

11.4.2 Verification of Grades and Rereads

In accordance with the Charter of Student Rights, and subject to the conditions stated therein, students have the right to consult any written submission for which they have received a mark and the right to discuss this submission with the examiner.

In a case where a student feels that an error has been made in arriving at the final grade, a *Verification of Grade Application* must be completed in the BCom Student Affairs Office, requesting the instructor to carry out a detailed check that all questions have been marked, and that the final grade has been computed correctly on the basis of the term work, final examination, etc. However, during the course of the term, any requests to have term work re-evaluated should initially be made directly to the instructor.

The Desautels Faculty of Management recognizes two types of rereads or reassessments:
- reread of coursework (term papers, mid-terms, assignments, quizzes, etc.);
- reread of a final exam.

In both cases, rather than recorrect the work and then grade it as they would have done themselves, reviewers assess the appropriateness of the original grade based, for example, on the application of the grading key to the student's work. If a grade is deemed unfair, it is changed, whether the new grade is higher or lower than the original, i.e. the reviewer's grade takes precedence over the original grade.

Reread of Coursework
Students may apply to the BCom Student Affairs Office for rereads of written coursework. Students are assessed a fee of $35.00 for such rereads. Requests for rereads involving group work require the consent of all members of the group, but only one reread fee will be assessed. It is strongly recommended that students consult with the instructor of the course before requesting a reread of coursework. Requests for rereads must be made within 10 working days of the date of return of the graded materials. Reassessments should normally be completed within 20 working days of the request.

Rereads of Final Exams
These rereads are administered by the BCom Student Affairs Office. Students must apply in writing to the BCom Student Affairs Office by March 31 for courses in the Fall term and by September 30 for courses in the Winter or Summer terms (these deadlines are strictly enforced, and no requests will be accepted past them). Students are assessed a fee of $35.00 for such rereads. It is strongly recommended, but not required, that students consult with the instructor of the course before requesting a reread of a final exam.

Reassessments and rereads in courses not in the Desautels Faculty of Management are subject to the deadlines, rules, and regulations of the relevant faculty.

11.4.3 Awards and Honorary Designations

11.4.3.1 Honours and First-Class Honours

Graduating students registered in an Honours program may be awarded Honours or First-Class Honours under the following conditions:
- for Honours, the CGPA at graduation must be at least 3.0 overall and in the specified courses of the program
- for First-Class Honours, the CGPA at graduation must be at least 3.5 overall and in the specified courses of the program

Students in an Honours program whose GPA or CGPA is below 3.0, or who did not satisfy certain additional program requirements, must consult their student adviser to determine whether they are eligible to graduate in a program other than Honours.

11.4.3.2 Distinction

For information on the designation of Distinction awarded at graduation, see section 3.9.1.2 “Distinction”.

11.4.3.3 Dean's Honour List

For information on the designation of Dean’s Honour List awarded at graduation, see section 3.9.1.1 “Dean's Honour List”.

11.4.3.4 Scholarships, Prizes and Medals

Various scholarships, prizes and medals are open to returning and graduating students. Full details can be found in the *Undergraduate Scholarships and Awards Calendar* available at www.mcgill.ca/courses. For information, see section 3.8 “Scholarships and Student Aid”.

Registered students are automatically considered by the Undergraduate Scholarships Committee for each award for which they are eligible, with the following exceptions for in-course scholarships: Sheila Wellington BMO Financial Group Awards, KPMG Scholarship, Commerce '55 Scholarships, Hyman Herbert Stein Award, Donald R. McRobie Award, Great-West Life & London Life Scholarship, Hugh Howson Memorial Prize, Dr. Alex Paterson Scholarship, Paul-Hervé Desrosiers Scholarship in Entrepreneurial Studies, Shirin Yeganegi Memorial Scholarship, HSBC Bank Canada Management Awards, Bruce and Jocelyn Pearson Scholarship, and RSM Richter Scholarship in Accounting. The Stephen S. Goldbloom Memorial Prize is the exception for a graduating student. For these, the Undergraduate Scholarships Committee welcomes applications and recommendations, substantiated by curriculum vitae, from individual students, student groups and clubs. Such information should be forwarded to Heather McCombie in the BCom Student Affairs Office. A minimum of 27 graded credits must have been completed in the year to be eligible; 14 credits in one term.

11.5 BCom Program Credit Structure

The Bachelor of Commerce (BCom) degree program is a three- or four-year program when taken full-time. It can also be pursued on a part-time evening basis. Although the language of instruction at McGill is English, those who plan to be part of the Quebec business environment are reminded of the importance of competence in both written and oral French. Students may submit assignments and write exams in French.

11.5.1 General Management Program (Concentrations)

2 Concentrations	90 credit	120 credit

Minors/Minor Concentrations for Management Students
Although only the Mathematics and Statistics Minors are outlined in this section, a wide variety of programs are available as listed in the sections for the Faculties of Arts and Science. Popular choices include Anthropology, Canadian Studies, Computer Science, English - Literature, Environmental Studies, Geological Sciences, German, History, International Development, Political Science, Women's Studies, etc. Students interested in the Minor in Economics must see an adviser in the BCom Student Affairs Office for Faculty approval.

It should be noted that a minimum of 18 credits of the Minor's requirements must not overlap with any other part of the student's program.

11.5.2 Major or Honours Programs

Majors in Management	90 credit	120 credit
Freshman Requirements	0	18

11.6 120-credit Program, Freshman Course Distribution

Students admitted to a program requiring 97 to120 credits (four years) register in a Freshman Year in which they must complete MATH 122 and MATH 123 (or equivalents) as well as the 12 credits of Complementary Courses specified below.

A minimum grade of C is required for all MATH and Freshman Complementary courses.

The Freshman Course Distribution is as follows:

U0 Required Courses (6 credits)

MATH 122[1] (3) Calculus for Management

MATH 123 (3) Linear Algebra and Probability

U0 Complementary Courses (12 credits)

6 credits of Humanities or Language courses, as specified below:

Freshman Humanities/Languages Course List (6 credits)

Any course at the 100 or 200 level with these subject codes:
ARTH (Art History); CANS (Canadian Studies); CLAS (Classics); EAST (Asian Languages and Literature); ENGC (English Communications); ENGL (English); FREN (French); FRSL (French as a Second Language); GERM (German); HISP (Hispanic Studies); ITAL (Italian); JWST (Jewish Studies); PHIL (Philosophy); RELG (Religious Studies); RUSS (Russian).

And the following Faculty of Education courses: EDEA 204; EDEA 205; EDEC 205; EDEE 325.

Note: Chosen courses from the subject codes above need to be approved by the offering Department. Any language courses offered through the Faculty of Arts may be taken, with approval from the appropriate department. Additional courses may be taken with approval of a Faculty Adviser.

6 credits of Social Science or Science courses, as specified below:

Freshman Social Sciences/Sciences Course List (6 credits)

Any course at the 100 or 200 level with these subject codes:
ANTH (Anthropology); ATOC (Atmospheric and Ocean Sciences); BIOL (Biology); CANS (Canadian Studies); CHEM (Chemistry) with a maximum of 3 credits from CHEM 150, CHEM 160, CHEM 170, CHEM 180; ECON (Economics) excluding ECON 208, ECON 209, ECON 217, ECON 227, ECON 230, ECON 250, ECON 257, ECON 295; EPSC (Earth and Planetary Sciences) excluding EPSC 200, EPSC 201; GEOG (Geography); HIST (History); LING (Linguistics); PHGY (Physiology); PHYS (Physics); POLI (Political Science); PSYC (Psychology) excluding PSYC 204; SOCI (Sociology) excluding SOCI 211; SSMD (Social Studies of Medicine); WMST (Women's Studies).

Any course at the 200 level with these subject codes:
COMP (Computer Science), MATH (Mathematics) excluding MATH 203, MATH 204.

Note: Chosen courses from the above-mentioned subject codes need to be approved by the offering Department. Additional courses may be taken with approval of a Faculty Adviser.

U0 Elective Courses (12 credits)

Program Footnotes:

1. Students considering a Major or Minor in Mathematics, or an Honours or Joint Honours program in Economics, replace MATH 122 and MATH 123 with three of the following courses, or demonstrate proficiency through appropriate McGill Placement tests.

MATH 133	(3)	Vectors, Matrices and Geometry
MATH 139	(4)	Calculus
or MATH 140	(3)	Calculus 1
MATH 141	(4)	Calculus 2

Six of these credits would be counted in the Freshman Year requirements, the remaining credits would be counted as Humanities or Science Complementary.

Management students cannot receive credit for ARET 150, COMP 102, ECON 208, ECON 209, ECON 217, ECON 227, ECON 230, ECON 250, ECON 257, MATH 112, MATH 203 or MATH 204 as elective courses.

11.7 Management Core

All BCom students take the 36-credit Core curriculum set out below, except where modifications are specifically required by a Major or Honours program.

A grade of C or better is required for all core courses. If a D is obtained in a core course, the course must be repeated.

11.7.1 Core Course Distribution

Required Courses (36 credits)

ECON 295[2] (3) Macroeconomic Policy

MGCR 211 (3) Introduction to Financial Accounting

MGCR 222 (3) Introduction to Organizational Behaviour

MGCR 271[1] (3) Business Statistics

MGCR 293[2] (3) Managerial Economics

MGCR 331 (3) Information Systems

MGCR 341 (3) Finance 1

MGCR 352 (3) Marketing Management 1

MGCR 360 (3) Social Context of Business

MGCR 382 (3) International Business

MGCR 423 (3) Organizational Policy

MGCR 472 (3) Operations Management

Program Footnotes:

1. Students considering a Major Concentration in Mathematics, a Major Concentration in Statistics, or a Minor in Statistics, are exempted from MGCR 271 by MATH 324. Students considering an Honours or Joint Honours Program in Economics replace MGCR 271 with ECON 257D1/ECON 257D2. Students entering the Major in Economics will only count the 3 credits of MGCR 271 in core.
2. Students entering an Economics program are exempted from MGCR 293 by either ECON 230D1/ECON 230D2 (for the Majors program) or ECON 250D1/ECON 250D2 (for the Honours Program), and are exempted from ECON 295 in U2 by either ECON 330D1/ ECON 330D2 (for the Majors program) or ECON 352D1/ ECON 352D2 (for the Honours Program) taken in U2.

Also note that:

- A maximum of 6 credits will be permitted within the BCom program for MGCR 293 and ECON 230D1/ECON 230D2 or ECON 250D1/ECON 250D2.
- A maximum of 6 credits will be permitted within the BCom program for ECON 295 and ECON 330D1/ECON 330D2 or ECON 352D1/ECON 352D2.

11.8 Concentrations (General Management Major)

In order to complete a Concentration, the student must achieve a grade of C or better in all the courses that comprise the Concentration. The student who has failed to earn 15 satisfactory credits will be required to embark on a new Concentration, repeat the course(s) in question or, where possible, to replace the course(s) with a satisfactory substitution from the Complementary courses of the Concentration.

In general, the student will begin taking courses from the chosen Concentration(s) in the U2 year.

Academic mentors are appointed for each Management Concentration to assist students in choosing a Concentration and provide additional information regarding course selection.

Second Concentration:
Students who choose to take a second Concentration will be required to complete 15 non-overlapping credits at a satisfactory level with a minimum grade of C in each course.

11.8.1 Accounting Concentration

Mentor: Professor J. Scott

This Concentration is designed to meet the needs of Management students who want to have a good basic understanding of accounting but do not intend to become professional accountants or accounting specialists. It is primarily oriented toward users of financial information and emphasizes breadth of knowledge in a coherent selection of courses.

The Accounting Concentration complements or forms part of the BCom, General Management Program. The individual courses in the Concentration also act as service courses for other areas in the Faculty for their Majors or Concentrations.

Required Courses (6 credits)
ACCT 351 (3) Intermediate Financial Accounting 1
ACCT 361 (3) Intermediate Management Accounting 1

Complementary Courses (9 credits)
ACCT 352 (3) Intermediate Financial Accounting 2
ACCT 354 (3) Financial Statement Analysis
ACCT 362 (3) Intermediate Management Accounting 2
ACCT 385 (3) Principles of Taxation
ACCT 434 (3) Topics in Accounting
ACCT 452 (3) Financial Reporting Valuation
ACCT 453 (3) Advanced Financial Accounting
ACCT 454 (3) Financial Reporting
ACCT 463 (3) Advanced Management Accounting
ACCT 475 (3) Principles of Auditing
ACCT 486 (3) Business Taxation 2

11.8.2 Entrepreneurship Concentration

Mentors: Professors A. Burlton, G. Vit

This Concentration is concerned with the genesis and development of entrepreneurial activities. It deals with the integration of marketing, finance, organization and policy in the development and expansion of business enterprise. Included are the evaluation of new business ventures, the role of acquisitions, and the strategic issues and operating problems at various stages of a firm's existence from its beginnings to maturity.

Complementary Courses (15 credits)
at least 6 credits from the following:
BUSA 462 (3) Management of New Enterprises
BUSA 464 (3) Management of Small Enterprises
BUSA 465 (3) Technological Entrepreneurship

remaining credits to be selected from:
ACCT 361 (3) Intermediate Management Accounting 1
ACCT 385 (3) Principles of Taxation
BUSA 364 (3) Business Law 1
FINE 442 (3) Capital Markets and Institutions
INSY 332 (3) Accounting Information Systems
INSY 432 (3) Information Technology in Business
INSY 454 (3) Technological Foundation for E-Commerce
MGPO 445 (3) Industry Analysis & Competitive Strategy
MGPO 450 (3) Ethics in Management
MGPO 460 (3) Managing Innovation
MRKT 438 (3) Brand Management
MRKT 452 (3) Consumer Behaviour
MRKT 453 (3) Advertising Management
MRKT 483 (3) International Marketing Management
ORGB 380 (3) Cross Cultural Management
or a 400-level course approved by the adviser

11.8.3 Finance Concentration

Mentors: Professors A. de Motta, A. Durnev, W. Xu

This Concentration has been designed to provide understanding of key concepts in finance theory, financial institutions, investment analysis, risk management, and applied techniques. Graduates find a strong demand among financial organizations, governments, and non-financial firms where they pursue careers that lead to positions such as Managing Partner, Treasurer and V.P. Finance.

Required Courses (9 credits)
FINE 342 (3) Finance 2
FINE 441 (3) Investments and Portfolio Management
FINE 443 (3) Applied Corporate Finance

Complementary Courses (6 credits)
two of:
FINE 434 (3) Topics in Finance
FINE 442 (3) Capital Markets and Institutions
FINE 445 (3) Real Estate Finance
FINE 448 (3) Derivatives and Risk Management
FINE 449 (3) Market Risk Models
FINE 451 (3) Fixed Income Analysis
FINE 480 (3) Global Investments
FINE 482 (3) International Finance 1
FINE 492 (3) International Finance 2
FINE 541 (3) Applied Investments

FINE 547 (3) Advanced Finance Seminar

11.8.4 Information Systems Concentration

Mentor: Professor L. Lapointe

This concentration prepares students for a multitude of IT and IT-related career opportunities. The IS concentration is an ideal complement to the majors and concentrations of several other areas. It employs a blend of theoretical concepts, hands-on tools, actual case studies and real-life projects to train students to identify business challenges that can benefit from information systems support and implement appropriate solutions.

Graduates completing a concentration in IS can expect to find employment as business or system analysts in the IT field or as IT specialists within their own field, including but not limited to, banking, insurance, manufacturing, retailing, and consulting.

Required Courses (9 credits)
INSY 331 (3) Managing Information Technology
INSY 333 (3) Systems Analysis and Modeling
INSY 437 (3) Managing Data & Databases

Complementary Courses (6 credits)
two of:
INSY 332 (3) Accounting Information Systems
INSY 341 (3) Developing Business Applications
INSY 342 (3) Advanced Application Development
INSY 431 (3) System Design and Implementation
INSY 432 (3) Information Technology in Business
INSY 434 (3) Advanced Topics
INSY 438 (3) Interface Design & Prototyping
INSY 440 (3) Information Technology Challenges in Electronic Business
INSY 444 (3) Managing Knowledge with Information Technology
INSY 450 (3) Information Systems Project Management
INSY 454 (3) Technological Foundation for E-Commerce

11.8.5 International Business Concentration

Mentor: Professors H. Etemad, M.S. Jo, E. Sarigöllü

The objective of this Concentration is to help the student develop conceptual and analytical skills needed to formulate feasible and effective management policies in an international setting. With economic and business activity becoming increasingly internationalized, the program provides useful preparation for careers in a variety of internationally oriented organizations, including local business firms involved in international trade, licensing or financial arrangements; headquarters or subsidiaries of multinational companies; banks and other international financial institutions; and various governmental organizations.

Required Course (3 credits)
BUSA 356 (3) Management in Global Context

Complementary Courses (12 credits)
ACCT 356 (3) International Accounting
BUSA 391 (3) International Business Law
BUSA 394 (3) Managing in Asia
BUSA 395 (3) Managing in Europe
BUSA 401 (3) Independent Studies in International Business
BUSA 433 (3) Topics in International Business 1
BUSA 481 (3) Managing in North America
BUSA 493 (3) Global Economic Competitiveness
FINE 480 (3) Global Investments
FINE 482 (3) International Finance 1
FINE 492 (3) International Finance 2
INDR 459 (3) International Labour Relations
MGPO 383 (3) International Business Policy
MGPO 469 (3) Managing Globalization
MGPO 475 (3) Strategies for Developing Countries
MRKT 451 (3) Marketing Research
MRKT 483 (3) International Marketing Management
ORGB 380 (3) Cross Cultural Management

11.8.6 Labour-Management Relations Concentration

Mentor: Professor R. Hebdon

The objective of this Concentration is to provide a general understanding of the factors affecting employer-employee relations, both at the micro-level and in relation to the socio-economic context in which they occur. Students interested in more intensive study of this area are urged to consider the Major Program in Labour-Management Relations.

Required Courses (6 credits)
INDR 294 (3) Introduction to Labour-Management Relations
INDR 496 (3) Collective Bargaining

Complementary Courses (9 credits)
three of:
INDR 434 (3) Topics: Labour-Management Relations
INDR 449 (3) Occupational Health and Safety
INDR 459 (3) International Labour Relations
INDR 492 (3) Public Policy in Industrial Relations
INDR 494 (3) Labour Law
INDR 495 (3) Labour Relations: Public Sector
INDR 497 (3) Contract Administration

11.8.7 Management Science Concentration

This Concentration is no longer being offered. For additional information about this Concentration, please refer to the 2006-2007 Undergraduate Calendar.

11.8.8 Marketing Concentration

Mentors: Professors M.S. Jo, A. Mukherjee

This Concentration prepares the student for a wide variety of career opportunities. Marketing graduates historically have found employment in the fields of product management, advertising, sales management, marketing management, pricing, marketing research, distribution and retailing. The Marketing Concentration provides a balance between courses focusing on fundamental, theoretical and "need to know" material, and courses with a strong practical and applied orientation.

Required Courses (12 credits)
MRKT 354 (3) Marketing Management 2
MRKT 357 (3) Marketing Planning 1
MRKT 451 (3) Marketing Research (to be taken in U2)
MRKT 452 (3) Consumer Behaviour

Complementary Course (3 credits)
one of:
MRKT 351 (3) Marketing in Society
MRKT 355 (3) Services Marketing
MRKT 365 (3) New Products
MRKT 434 (3) Topics in Marketing 1
MRKT 438 (3) Brand Management
MRKT 453 (3) Advertising Management
MRKT 455 (3) Sales Management
MRKT 456 (3) Business to Business Marketing
MRKT 459 (3) Retail Management
MRKT 461 (3) Advertising Practicum
MRKT 483 (3) International Marketing Management
MRKT 557 (3) Marketing Productivity

11.8.9 Operations Management Concentration

Mentors: Professors T. Boyaci, S. Li, S. Ray, M. Yalovsky

Operations Management is concerned with the design, planning, control, coordination and improvement of business process, systems and resources integral to the creation of the firm's products and services. Emphasizing quantitative analysis and cross-functional thinking, the Operations Management Concentration pro-

vides training on traditional as well as emerging operations strategies, concepts, models and techniques that are essential to any firm in today's competitive marketplace. Operations management graduates find career opportunities in a variety of industries and fields including consulting, manufacturing, distribution, retail, transportation, health care, public sector, among others.

Required Courses (6 credits)
MGSC 373 (3) Operations Research 1
MGSC 431 (3) Operations Analysis

Complementary Courses (9 credits)
three courses chosen from:
MGSC 272 (3) Advanced Business Statistics
MGSC 402 (3) Operations Strategy
MGSC 403 (3) Introduction to Logistics Management
MGSC 405 (3) Quality Management
MGSC 415 (3) Supplier Management
MGSC 434 (3) Topics in Management Science
MGSC 479 (3) Applied Optimization
MGSC 575 (3) Applied Time Series Analysis Managerial Forecasting
MGSC 578 (3) Simulation of Management Systems
and approved courses in other Areas or faculties

11.8.10 Organizational Behaviour Concentration

Mentor: Professor A. Jaeger

This Concentration provides an opportunity for students to increase their awareness of behavioural issues encountered in job and organizational settings, and prepare themselves for graduate study in the behavioural sciences or for careers in general management or human resource management.

Complementary Courses (15 credits)
five of:
ORGB 321 (3) Leadership
ORGB 325 (3) Negotiations and Conflict Resolution
ORGB 380 (3) Cross Cultural Management
ORGB 409 (3) Organizational Research Methods
ORGB 420 (3) Managing Organizational Teams
ORGB 421 (3) Managing Organizational Change
ORGB 423 (3) Human Resources Management
ORGB 429* (6) Organizational Behaviour for Course Counsellors
ORGB 434 (3) Advanced Topics in Organizational Behaviour
ORGB 435 (3) Women as Global Leaders and Managers
ORGB 525 (3) Compensation Management

* If ORGB 429 is taken, only 3 credits will count toward the Concentration; the other 3 will be counted as elective.

11.8.11 Strategic Management Concentration

Mentors: Professors L. Chauvin, P. Perez-Aleman

There are two options offered in the Strategic Management Concentration: Global Strategy and Social Context.

The Global Strategy option is intended for students who want to learn strategic management and analysis in the context of globalization. Globalization is no longer the concern of a few large enterprises and financial institutions; it has consequences that affect all kinds of businesses and the environments in which they operate — economic, social, political and ecological. Global Strategy allows students to assess the various opportunities and threats inherent in globalization, and requires them to explore the consequences and implications of business decisions for society and the environment. It also enables them to think through the requirements of doing business in different economic and political systems. Finally, it offers them the opportunity to understand and analyze industry structures and the kinds of business opportunities they either create or destroy.

The Social Context option is intended for students who want to learn strategic management and analysis with special attention to the not-for-profit, or civil sector, or who want to focus on broader or more complex social issues within the for-profit sector. The civil sector, made up of voluntary and non-governmental organizations and foundations, is the sector that has been the fastest growing employer for the past decade. Students who focus on this stream will be challenged to place a high priority on environmental issues, as well as issues of sustainability, corporate social responsibility, and social impact. They will also investigate the social tools and mechanisms necessary to employ cross-sectoral collaboration to achieve desired social outcomes.

GLOBAL STRATEGY OPTION

Complementary Courses (15 credits)
at least 9 credits from the following:
MGPO 383 (3) International Business Policy
MGPO 445 (3) Industry Analysis & Competitive Strategy
MGPO 460 (3) Managing Innovation
MGPO 469 (3) Managing Globalization
MGPO 470 (3) Strategy and Organization

the remaining credits to be chosen from:
BUSA 391 (3) International Business Law
ECON 219 (3) Current Economic Problems: Topics
ECON 305 (3) Industrial Organization
MGPO 365 (3) Business-Government Relations
MGPO 434 (3) Topics in Policy
MGPO 440 (3) Strategies for Sustainability
MGPO 450 (3) Ethics in Management
MGPO 468 (3) Managing Organizational Politics
MGPO 475 (3) Strategies for Developing Countries

SOCIAL CONTEXT OPTION

Complementary Courses (15 credits)
at least 9 credits from the following:
MGPO 365 (3) Business-Government Relations
MGPO 440 (3) Strategies for Sustainability
MGPO 450 (3) Ethics in Management
MGPO 468 (3) Managing Organizational Politics
MGPO 475 (3) Strategies for Developing Countries

the remaining credits to be chosen from:
BUSA 391 (3) International Business Law
MGPO 383 (3) International Business Policy
MGPO 434 (3) Topics in Policy
MGPO 445 (3) Industry Analysis & Competitive Strategy
MGPO 460 (3) Managing Innovation
MGPO 469 (3) Managing Globalization
MGPO 470 (3) Strategy and Organization
MGPO 567 (3) Business in Society

11.9 Minors for Management Students

The Minor programs offered in the Faculties of Arts and Science may be taken in conjunction with any BCom program.

Students doing a Minor program must have a Desautels Faculty of Management Minor Approval Form, listing the courses being applied to the Minor, signed by the Minor adviser in the relevant department.

For the Minor in Economics, students must complete 18 credits of material that does not overlap with Management course content. **A maximum of 6 credits will be permitted within the BCom program for MGCR 293 and ECON 230D1/D2 or ECON 250D1/D2, and a maximum of 6 for ECON 295 and ECON 330D1/D2 or ECON 352D1/D2.** Students interested in this Minor must obtain approval from the BCom Office.

The Minor in Mathematics and the Minor in Statistics are detailed below. For all other Minors, please refer to the Arts and Science Faculty sections. Students should begin the Minor in Mathematics or the Minor in Statistics no later than the second to last year and should immediately consult the appropriate adviser in the Department of Mathematics and Statistics.

Students planning to take the Minor in Statistics are advised to substitute MATH 324 for MGCR 271. That course will then count as 3 credits toward the Minor. If the decision to take a Minor program is made after MGCR 271 has been taken, students who wish to take MATH 324 will receive three additional credits; however MATH 324 will only count towards the 18-credit Minor requirement. Students should check for overlap between statistics courses with the BCom Student Affairs Office.

11.9.1 Minor in Mathematics

Mentor: Professor W.J. Anderson, Department of Mathematics and Statistics, Faculty of Science

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (12 credits)

MATH 222	(3)	Calculus 3
MATH 223	(3)	Linear Algebra
MATH 315	(3)	Ordinary Differential Equations
MGSC 373	(3)	Operations Research 1

Complementary Courses (6 credits)
maximum of 3 credits from:

MGSC 272	(3)	Advanced Business Statistics
MGSC 479	(3)	Applied Optimization
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting
MGSC 578	(3)	Simulation of Management Systems

the remaining credits selected from the following:

MATH 316	(3)	Complex Variables
MATH 317	(3)	Numerical Analysis
MATH 319	(3)	Partial Differential Equations
MATH 323	(3)	Probability
MATH 326	(3)	Nonlinear Dynamics and Chaos
MATH 340	(3)	Discrete Structures 2
MATH 407	(3)	Dynamic Programming
MATH 417	(3)	Mathematical Programming

11.9.2 Minor in Statistics

Mentor: Professor Kelome, Department of Mathematics and Statistics, Faculty of Science

Program prerequisites: MATH 133, MATH 140 and MATH 141 or their equivalents.

Required Courses (15 credits)

MATH 222	(3)	Calculus 3
MATH 223	(3)	Linear Algebra
MATH 323	(3)	Probability
MATH 324*	(3)	Statistics
MATH 423	(3)	Regression and Analysis of Variance

* Credits for MATH 324 are counted in the Management core, where they replace MGCR 271. MATH 324 is a required course in the program and may be double-counted for this Minor.

Complementary Courses (6 credits)
selected from:

MATH 204**	(3)	Principles of Statistics 2
MATH 447	(3)	Stochastic Processes
MATH 523	(4)	Generalized Linear Models
MATH 524	(4)	Nonparametric Statistics
MATH 525	(4)	Sampling Theory and Applications
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting
MGSC 578	(3)	Simulation of Management Systems

** Students should consult the rules for credit for statistics courses in the course overlap section of the Calendar. In particular, MATH 204 cannot be taken for credit after credit for MATH 324 has been obtained.

11.10 Minors for Non-Management Students

The Desautels Faculty of Management has introduced four Minors that allow undergraduates to develop a variety of managerial skills that will serve them throughout their chosen careers. The Minors have limited enrolment. Applicants for the Minors must have a minimum CGPA of 3.0 **although successful completion of the minimum requirements does not guarantee acceptance**. All Minors are 18 credits split between a fixed set of required courses and a choice amongst complementary courses. Students can only pursue one of the Minors offered by the Desautels Faculty of Management. All Minors for Non-Management Students require an application. The form may be found at www.mcgill.ca/desautels/bcom/minors; hard copies of application forms are also available in the BCom Student Affairs Office, Bronfman 110. Applications must be submitted to the BCom Student Affairs Office by January 30 and decisions will be made by February 15 where students will be informed via their McGill email addresses. Courses for Minors must be passed with grades of C or better. Courses for Minors cannot be taken under the Satisfactory/Unsatisfactory option.

11.10.1 Minor in Finance

The Minor in Finance is for non-management students and is currently offered to students in the Faculties of Arts, Engineering and Science. The Minor has been designed to provide students with an understanding of the key concepts in corporate finance as well as investment banking. The Minor in Finance consists of 18 credits of Management courses.

Required Courses (9 credits)

MGCR 341*	(3)	Finance 1
FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management

Complementary Courses (9 credits)

FINE 442	(3)	Capital Markets and Institutions
FINE 443	(3)	Applied Corporate Finance
FINE 444	(3)	Risk Management and Insurance
FINE 445	(3)	Real Estate Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 480	(3)	Global Investments
FINE 482	(3)	International Finance 1
FINE 492	(3)	International Finance 2
FINE 541	(3)	Applied Investments
FINE 547	(3)	Advanced Finance Seminar

or other appropriate 300- or 400-level FINE courses with the approval of the program adviser

* Prerequisite: MGCR 271 Business Statistics or another equivalent statistics course approved by the program adviser. Students should select their statistics course only after consulting "Course Overlap", section 6.3.6.2 in the Faculty of Arts, and "Course Overlap", section 14.3.6.1 in the Facuty of Science, and "Course Overlap", section 11.3.6 in the Desautels Faculty of Management to avoid overlapping statistics courses.

11.10.2 Minor in Management

The Minor in Management is for non-management students and is currently offered to students in the following Faculties: Arts, Engineering, Science, Agricultural & Environmental Sciences, Music and Religious Studies. The Minor in Management is designed to provide non-management students with the opportunity to obtain basic knowledge in various aspects of management. The Minor in Management consists of 18 credits of Management courses.

Complementary Courses (18 credits)

Category A (3 credits)
MGCR 211 (3) Introduction to Financial Accounting
MGCR 341+ (3) Finance 1

Category B (9 credits)
MGCR 222 (3) Introduction to Organizational Behaviour
MGCR 271* (3) Business Statistics
MGCR 293** (3) Managerial Economics
MGCR 331 (3) Information Systems
MGCR 352 (3) Marketing Management 1
MGCR 382 (3) International Business
MGCR 472+ (3) Operations Management

Category C (6 credits)
3-6 credits from any 300- or 400-level management courses for which prerequisites have been met.
0-3 credits may be from a specifically designated course by the student's home faculty.

+ MGCR 271 Business Statistics or equivalent is prerequisite for this course.
* 3 credits of statistics: Students who have taken an equivalent statistics course in another faculty may not count those credits towards the minor; an additional 3-credit Complementary course must be chosen from the course list above.
** Students who have taken an equivalent economics course in another faculty may not count those credits toward the Minor; an additional 3-credit Complementary course must be chosen from the course list above.
Students should select their statistics course only after consulting "Course Overlap", section 6.3.6.2 in the Faculty of Arts, and "Course Overlap", section 14.3.6.1 in the Facuty of Science, and "Course Overlap", section 11.3.6 in the Desautels Faculty of Management to avoid overlapping statistics courses.

11.10.3 Minor in Management for Economics Students

This minor is no longer available and has been replaced by the Minor in Management above.

11.10.4 Minor in Management for Engineering Students

This minor is no longer available and has been replaced by the Minor in Management above.

11.10.5 Minor in Management for Science Students

This minor is no longer available and has been replaced by the Minor in Management above.

11.10.6 Minor in Marketing

The Minor in Marketing is for non-management students and is currently offered to students in the Faculties of Arts, Engineering, Science and the Schulich School of Music. This minor is designed to provide students with an understanding of the fundamental concepts in marketing and a framework for applying marketing in a decision-making context. Students will be introduced to the basic concepts in marketing. The use of marketing theory and concepts for decision making will be covered. Marketing research methods for marketing decisions is introduced. Subsequently, students will be able to specialize by choosing from the list of complementary courses. The Minor in Marketing consists of 18 credits of Management courses.

Required Courses (9 credits)
MGCR 352 (3) Marketing Management 1
MRKT 354 (3) Marketing Management 2
MRKT 451 (3) Marketing Research

Complementary Courses (9 credits)
3 credits of statistics*:
MGCR 271 (3) Business Statistics or equivalent

6 credits from the following:
MRKT 357 (3) Marketing Planning 1
MRKT 365 (3) New Products
MRKT 438 (3) Brand Management
MRKT 452 (3) Consumer Behaviour
MRKT 453 (3) Advertising Management
MRKT 455 (3) Sales Management
MRKT 459 (3) Retail Management
MRKT 461 (3) Advertising Practicum
MRKT 483 (3) International Marketing Management
or other appropriate 300- or 400-level MRKT courses with the approval of the program adviser

* 3 credits of statistics: Students who have taken an equivalent statistics course in another faculty may not count those credits toward the minor; an additional 3-credit Complementary course must be chosen from the course list above.
Students should select their statistics course only after consulting "Course Overlap", section 6.3.6.2 in the Faculty of Arts, and "Course Overlap", section 14.3.6.1 in the Facuty of Science, and "Course Overlap", section 11.3.6 in the Desautels Faculty of Management to avoid overlapping statistics courses.

11.10.7 Minor in Operations Management

Mentor: Professor V. Verter

The Minor in Operations Management is for non-management students and is currently offered to students in the Faculties of Arts, Engineering, Science, and Agricultural & Environmental Sciences. It provides non-management students with the opportunity to pursue a career that involves decision making at the operational level. Graduates will be able to find employment in consulting, manufacturing, supply chain, distribution, retail operations, healthcare management and environmental management for profit and non-profit corporations. The minor has been designed to provide students with an understanding of the key concepts in operations management theory and practice. The Minor in Operations Management consists of 18 credits of Management courses.

Required Course (6 credits)
MGSC 373 (3) Operations Research 1
MGCR 472 (3) Operations Management

Complementary Courses (12 credits)
3 credits of statistics*
MGCR 271 (3) Business Statistics

9 credits from the following:
MGSC 272 (3) Advanced Business Statistics
MGSC 402 (3) Operations Strategy
MGSC 403 (3) Introduction to Logistics Management
MGSC 405 (3) Quality Management
MGSC 415 (3) Supplier Management
MGSC 431 (3) Operations Analysis
MGSC 434 (3) Topics in Management Science
MGSC 479 (3) Applied Optimization
MGSC 575 (3) Applied Time Series Analysis Managerial Forecasting
MGSC 578 (3) Simulation of Management Systems
or other appropriate 300- or 400-level MGSC courses with the approval of the program adviser

* 3 credits of statistics: Students who have taken an equivalent statistics course in another faculty may not count those credits toward the minor; an additional 3-credit Complementary course must be chosen from the course list above.
Students should select their statistics course only after consulting "Course Overlap", section 6.3.6.2 in the Faculty of Arts, and "Course Overlap", section 14.3.6.1 in the Faculty of Science, and "Course Overlap", section 11.3.6 in the Desautels Faculty of Management to avoid overlapping statistics courses.

11.10.8 Minor in Technological Entrepreneurship for Engineering Students

Detailed information on this minor can be found in the Faculty of Engineering; see section 9.6.15 "Technological Entrepreneurship Minor".

11.10.9 Minor in Technological Entrepreneurship for Science Students

Detailed information on this minor can be found in the Faculty of Science; see section 14.13.35 "Technological Entrepreneurship for Science Students".

11.11 Majors

Major programs are available in Accounting, Economics, Finance, Information Systems, International Management, Labour-Management Relations, Marketing, Mathematics, and Psychology.

Because of the heavier demands of Major programs, students desiring to pursue a program of this type are advised to declare their intention at the beginning of the program. Only grades of C or better may count towards the Major requirements.

11.11.1 Major in Accounting

Mentors: Professors L. Goldsman, R. Cecere

This 30-credit major is designed to meet the increased demand for accounting options within the BCom Program.

Required Courses (18 credits)

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 361	(3)	Intermediate Management Accounting 1
ACCT 362	(3)	Intermediate Management Accounting 2
ACCT 385	(3)	Principles of Taxation
ACCT 455	(3)	Development of Accounting Thought

Complementary Courses (12 credits)

ACCT 354	(3)	Financial Statement Analysis
ACCT 356	(3)	International Accounting
ACCT 434	(3)	Topics in Accounting
ACCT 452	(3)	Financial Reporting Valuation
ACCT 453	(3)	Advanced Financial Accounting
ACCT 454	(3)	Financial Reporting
ACCT 463	(3)	Advanced Management Accounting
ACCT 471	(3)	Non-Profit Accounting
ACCT 475	(3)	Principles of Auditing
ACCT 476	(3)	Internal Auditing
ACCT 477	(3)	External Auditing
ACCT 486	(3)	Business Taxation 2

11.11.2 Major in Economics for Management Students

Mentors: Professors P. Dickinson, M. Frankman, G. Grantham, and C. Green; Department of Economics, Faculty of Arts

Please consult the Economics department website at www.mcgill.ca/economics.

This Major is comprised of 36 credits of Economics courses (9 credits of which are counted as Core credits).

Required Courses (18 credits)

ECON 230D1*	(3)	Microeconomic Theory
ECON 230D2*	(3)	Microeconomic Theory
ECON 330D1**	(3)	Macroeconomic Theory
ECON 330D2**	(3)	Macroeconomic Theory
MGCR 271***	(3)	Business Statistics
MGSC 272	(3)	Advanced Business Statistics

* 3 of the 6 credits for Microeconomic Theory exempt MGCR 293 in Core.

** 3 of the 6 credits for Macroeconomic Theory exempt ECON 295 in Core.

*** 3 of the 3 credits for MGCR 271 will count in Core.

Complementary Courses (18 credits)

18 credits from other 200, 300 and 400 level courses in Economics (Subject Code ECON), excluding courses with numbers below 210. At least 6 of these 18 credits should be taken from courses with 400-level numbers. No more than 6 of the 18 credits may be taken at the 200 level.

11.11.3 Major in Finance

Mentors: Professors A. de Motta, A. Durnev, W. Xu

The 30-credit Finance Major has been designed to meet the increasing demand for expertise in this rapidly growing functional area of business. The Major is designed to provide in-depth knowledge of finance theory, financial institutions, investment analysis, risk management, and applied techniques. Employment for graduates is most often obtained in investment and commercial banking, manufacturing and service firms, non-profit organizations and governments, and non-financial firms.

Required Courses (15 credits)

FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management
FINE 443	(3)	Applied Corporate Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 482	(3)	International Finance 1

Complementary Courses (15 credits)

at least 9 credits from:

FINE 434	(3)	Topics in Finance
FINE 442	(3)	Capital Markets and Institutions
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 480	(3)	Global Investments
FINE 492	(3)	International Finance 2
FINE 541D1	(1.5)	Applied Investments
FINE 541D2	(1.5)	Applied Investments
FINE 547	(3)	Advanced Finance Seminar

the remainder, if any, from:

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 385	(3)	Principles of Taxation
FINE 445	(3)	Real Estate Finance

11.11.4 Major in Information Systems

Mentor: Professor L. Lapointe

This 30-credit major prepares students for the multitude of IT-related career opportunities available in industry. It employs a blend of theoretical concepts, hands-on tools, and actual case studies to train students to identify business problems and opportunities, analyze business processes, and develop and implement information systems to support them. The IS Major covers a variety of topics including strategic planning and investment in information technologies, analysis, design, and deployment of information systems, understanding the opportunities and challenges of web-based businesses, and managing resistance to IT-initiated changes in organizations.

Graduates of this program may expect to find employment as business or systems analysts, consultants, IS quality assurance specialists, and project managers in diverse industries, including banking, insurance, manufacturing, retailing and consulting.

Required Courses (21 credits)

INSY 331	(3)	Managing Information Technology
INSY 333	(3)	Systems Analysis and Modelling
INSY 341	(3)	Developing Business Applications
INSY 431	(3)	System Design and Implementation
INSY 432	(3)	Information Technology in Business
INSY 437	(3)	Managing Data & Databases

INSY 450 (3) Information Systems Project Management

Complementary Courses (9 credits)
9 credits chosen from the following:
INSY 332 (3) Accounting Information Systems
INSY 342 (3) Advanced Application Development
INSY 434 (3) Advanced Topics
INSY 438 (3) Interface Design & Prototyping
INSY 440 (3) Information Technology Challenges in Electronic Business
INSY 444 (3) Managing Knowledge with Information Technology
INSY 454 (3) Technological Foundation for E-Commerce
BUSA 499* (3) Case Analysis and Presentation
* Students wishing to take BUSA 499 as a complementary course must seek prior approval from the adviser.

11.11.5 Major in International Management

The Major in International Management, 39 to 48 credits, is designed for students who wish to combine business studies with regional or thematic global studies and foreign language proficiency. MIM will acquaint students with the impact of managing in one of three themes:

1) Comparative Global Studies,
2) Global Politics and Economy,
3) Global Well-Being and Development.

This major is interdisciplinary and integrative and includes a Business Component: 15-credit International Business Concentration; an Area of Study Component: 24- to 33-credit Interdisciplinary Area of Specialization that includes a 15- to18-credit Minor Concentration outside the Management Faculty, 9 to12 credits of language courses, and 3 credits of experiential learning experience in the form of either Internship or Research. At least one term of exchange is recommended. Graduates will be well-suited to manage in culturally diverse environments, to work in a specific area of the world, or in a wide range of global positions in business, government, multilateral organizations, or NGOs.

International Business Concentration Component (15 credits)

Required Course (3 credits)
BUSA 356 (3) Management in Global Context

Complementary Courses (12 credits)
ACCT 356 (3) International Accounting
BUSA 391 (3) International Business Law
BUSA 394 (3) Managing in Asia
BUSA 395 (3) Managing in Europe
BUSA 401 (3) Independent Studies in International Business
BUSA 433 (3) Topics in International Business 1
BUSA 481 (3) Managing in North America
BUSA 493 (3) Global Economic Competitiveness
FINE 480 (3) Global Investments
FINE 482 (3) International Finance 1
FINE 492 (3) International Finance 2
INDR 459 (3) International Labour Relations
MGPO 383 (3) International Business Policy
MGPO 469 (3) Managing Globalization
MGPO 475 (3) Strategies for Developing Countries
MRKT 451 (3) Marketing Research
MRKT 483 (3) International Marketing Management
ORGB 380 (3) Cross Cultural Management

Area of Study Component (15-18 credits)

Students choose either one Minor Concentration or courses from the selected list of courses from one of the three themes below:

Theme 1: Comparative Global Studies

Students can choose to study a region including Africa, East Asia, Middle East, South Asia, Europe, or the Americas or several regions from a comparative global perspective in Religious Studies, Political Science, History, or Economics. This option focuses on aspects of global society and culture from a social science perspective. This theme is suitable for students who would like to work in a specific country or region or for students who want to work for a multinational company or government organization with global interests.
B.A. Minor Concentration in African Studies (18 cr.)
B.A. Minor Concentration in Comparative Politics (18 cr.)
B.A. Minor Concentration in Economics* (18 cr.)
B.A. Minor Concentration in East Asian Cultural Studies (18 cr.)
B.A. Minor Concentration in History (18 cr.)
B.A. Minor Concentration in Middle East Studies (18 cr.)
B.A. Minor Concentration in South Asia (18 cr.)
B.A. Minor Concentration in World Religions (18 cr.)

* Students should choose economics (ECON) courses with a regional focus. Course numbers above ECON 209 (excluding ECON 295) are required, with at least 6 credits at the 300, 400, or 500 levels. Credits for the introductory sequence MGCR 293 and ECON 295 that are prerequisites for 300-level courses in economics do not count as part of this Minor Concentration. ECON 227 will not count if it is taken to meet other BCom requirements.

Theme 2: Global Politics and Economy

This theme focuses on aspects of public policy from the perspective of global transactions and finance. Students may select a minor concentration in the area of international relations and investigate policy on a global scale and its operations in the context of policy, war and peace, the economy, security, trade, human rights, and international organizations. Graduates with this option would be poised to apply their educational background to careers with world government, trade or economic organizations, NGOs, national governments, or businesses with global interests. The choices of programs include Economics, Geography, Political Science or a selected group of courses.
B.A. Minor Concentration in Economics (18 cr.)
B.A. Minor Concentration in International Relations (18 cr.)
B.A. Minor Concentration in Political Economy (18 cr.)
B.A. Minor Concentration in Political Science (18 cr.)
B.A. Minor Concentration in Politics, Law and Society (18 cr.)

OR

Global Governance, Conflict and Human Rights

18 credits of the following courses with at least 6 credits at the 300 level or above:
ANTH 214 (3) Violence, Warfare, Culture
ANTH 222 (3) Legal Anthropology
ANTH 333 (3) Class and Ethnicity
CANS 307 (3) Canada in the World
CANS 412 (3) Canada and Americas Seminar
COMS 230 (3) Communication and Democracy
COMS 320 (3) Media and Empire
HIST 302 (3) International Relations History 1: 1750-1950
HIST 304 (3) International Relations History 2: Cold War
HIST 339 (3) Arab-Israeli Conflict
HIST 371 (3) American Civil Rights 1877-1940
HIST 387 (3) The First World War
HIST 388 (3) The Second World War
HIST 438 (3) The Vietnam Wars 1945-1975
JWST 240 (3) The Holocaust
PHIL 237 (3) Contemporary Moral Issues
PHIL 334 (3) Ethics 1
POLI 212 (3) Government & Politics - Developed World
POLI 322 (3) Political Change in South Asia
POLI 345 (3) International Organizations
POLI 351 (3) The Causes of Major Wars
POLI 360 (3) Security: War and Peace
POLI 440 (3) Civil-Military Relations
POLI 450 (3) Peacebuilding
RELG 370 (3) Religion and Human Rights
RELG 371 (3) Ethics of Violence/Non-Violence
SOCI 230 (3) Sociology of Ethnic Relations
SOCI 265 (3) War, States and Social Change

SOCI 307 (3) Sociology of Globalization
SOCI 386 (3) Contemporary Social Movements
SOCI 511 (3) Movements/Collective Action

Theme 3: Global Well-Being and Development

Broad-based, interdisciplinary topics will allow students to study current issues of social importance ranging from: poverty and inequality health promotion and the environment, sustainability, and natural resource management. Students will be prepared to apply business practices to the protection of the vulnerable and the planet. Students will be poised to work for multinationals, governments, or non-governmental organizations.

B.A. Minor Concentration in Anthropology (18 cr.)
B.A. Minor Concentration in Economics* (18 cr.)
B.A. Minor Concentration in Geography (18 cr.)
B.A. Minor Concentration in International Development Studies (18 cr.)
B.A. Minor Concentration in Social Studies of Medicine (18 cr.)
B.A. Minor Concentration in Sociology (18 cr.)
B.A. Minor Concentration in Environment: McGill School of Environment (18 cr.)
B.Sc. Minor Concentration in Environment: McGill School of Environment (18 cr.)

OR

Barbados Field Study Semester (15 cr.)

* Students should choose economics (ECON) courses related to the environment, development, and health. Course numbers above ECON 209 (excluding ECON 295) are required, with at least 6 credits at the 300, 400, or 500 levels. Credits for the introductory sequence MGCR 293 and ECON 295 that are prerequisites for 300-level courses in economics do not count as part of this Minor Concentration. ECON 227 will not count if it is taken to meet other BCom requirements.

Language Component (9-12 credits)

9 credits of language in EAST (Asian Languages and Literature) at the 500 level or lower***

*** Students may choose to complete two levels of Japanese, Chinese, Korean for a total of 18 credits. Only 9 credits of EAST languages will count toward the Major and any optional additional credits will count as electives. Students may not exceed the total credits required to graduate in order to complete these additional language credits and will be left with 0 electives.

OR

12 credits of language courses, at the 500 level or lower, chosen from ONE of the following Subject Codes:

CLAS (Classics) [Modern Greek]
FREN (French)
FRSL (French as a Second Language)
GERM (German Studies) [German]
HISP (Hispanic Studies) [Spanish, Portuguese]
ISLA (Middle East Studies) [Arabic, Turkish, Urdu, Persian]
*ITAL (Italian Studies) [Italian]
JWST (Jewish Studies) [Hebrew, Yiddish]
RUSS (Russian) [Russian]

* Students wishing to register for ITAL 205 should do so in their first year as this course is open only to U0 and U1 students. ITAL 206 is open to U0, U1 and U2 students. ITAL 210, ITAL 215 and ITAL 216 can be taken by all students.

Experiential Learning Component (0-3 credits)

Internship Component

BUSA 497 (3) Internship in International Business

Students may complete a 3-credit internship as part of their experiential credit. The internship will consist of a minimum of 150 hours of work over a period of 8 to 12 weeks at an approved host institution. The institution should be located either overseas or have an international focus. Major in International Management students who are enrolled in Minor Concentrations in the Faculty of Arts may complete Internship courses in the Faculty of Arts. Please see section 6.12.2 "Faculty of Arts Internship Program" or refer to the Arts Internships website: www.mcgill.ca/arts-internships for requirements, including hours and weeks required and CGPA cut-offs.

OR

Research Component

BUSA 401 (3) Independent Studies in International Business

NOTE: Students who complete at least one term of exchange would be eligible for an exemption from the Experiential Learning Experience Requirement and would substitute 3 credits of free electives if they chose this exemption.

NOTE: There are CGPA requirements for Exchanges and Internships courses. Students without the minimum CGPA requirement must consult the Major in International Management adviser in the BCom office to arrange for an alternative.

11.11.6 Major in Labour-Management Relations

Mentor: Professor R. Hebdon

This 30-credit Major provides students with a general understanding of the factors affecting employer-employee relations, including labour unions and laws that regulate the employment relationship. It is integral to the practice of human resource management, particularly in a unionized environment.

In addition to giving students a foundation in various aspects of labour relations and labour markets, this program provides understanding of federal and provincial labour legislation, training in collective bargaining, the administration of trade union contracts, handling of grievances and preparation for participation in arbitration proceedings, a view of human resources, problems and planning on the macro level.

Required Courses (30 credits)

INDR 294 (3) Introduction to Labour-Management Relations
INDR 449 (3) Occupational Health and Safety
INDR 459 (3) International Labour Relations
INDR 492 (3) Public Policy in Industrial Relations
INDR 494 (3) Labour Law
INDR 495 (3) Labour Relations: Public Sector
INDR 496 (3) Collective Bargaining
INDR 497 (3) Contract Administration
ECON 306D1 (3) Labour Economics and Institutions
ECON 306D2 (3) Labour Economics and Institutions

11.11.7 Major in Marketing

Mentors: Professors M.S. Jo, A. Mukherjee

This 30-credit Marketing Major is designed to provide students with a strong background in marketing to prepare them for the wide variety of marketing careers available. The Major is most appropriate for those students seeking a career in brand management, small business marketing, selling and sales management and business-to-business marketing.

Required Courses (15 credits)

MRKT 354 (3) Marketing Management 2
MRKT 357 (3) Marketing Planning 1
MRKT 451 (3) Marketing Research
MRKT 452 (3) Consumer Behaviour
MRKT 453 (3) Advertising Management

Complementary Courses (15 credits)

five of:
BUSA 464 (3) Management of Small Enterprises
MRKT 351 (3) Marketing in Society
MRKT 355 (3) Services Marketing
MRKT 365 (3) New Products
MRKT 438 (3) Brand Management

MRKT 455 (3) Sales Management
MRKT 456 (3) Business to Business Marketing
MRKT 459 (3) Retail Management
MRKT 461 (3) Advertising Practicum
MRKT 483 (3) International Marketing Management
MRKT 557 (3) Marketing Productivity

11.11.8 Major in Mathematics for Management Students

The Major in Mathematics for Management Students is no longer being offered. For information on this program, please refer to the 2006-2007 Calendar.

11.11.9 Major Concentration in Mathematics for Management Students

Mentor: Professor A. Hundemer; Department of Mathematics and Statistics, Faculty of Science

This program is comprised of 39 credits.

Students entering the Major Concentration in Mathematics are normally expected to have completed MATH 133, MATH 140, and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 39 credits required by the program.

Required Courses (30 credits)
MATH 222 (3) Calculus 3
MATH 235 (3) Algebra 1
MATH 236 (3) Algebra 2
MATH 242 (3) Analysis 1
MATH 243 (3) Analysis 2
MATH 314 (3) Advanced Calculus
MATH 315 (3) Ordinary Differential Equations
MATH 323 (3) Probability
MATH 324* (3) Statistics
MGSC 373 (3) Operations Research 1

Complementary Courses (9 credits)
6 credits selected from:
MATH 204** (3) Principles of Statistics 2
MATH 316 (3) Complex Variables
MATH 317 (3) Numerical Analysis
MATH 319 (3) Partial Differential Equations
MATH 326 (3) Nonlinear Dynamics and Chaos
MATH 340 (3) Discrete Structures 2
MATH 407 (3) Dynamic Programming
MATH 410 (3) Majors Project
MATH 417 (3) Mathematical Programming
MATH 423*** (3) Regression and Analysis of Variance

3 credits selected from:
MGSC 272*** (3) Advanced Business Statistics
MGSC 479 (3) Applied Optimization
MGSC 575 (3) Applied Time Series Analysis Managerial Forecasting
MGSC 578 (3) Simulation of Management Systems

* credits for MATH 324 are counted toward Management Core, where they replace MGCR 271.
** MATH 204 cannot be taken for credit after credit for MATH 324 has been obtained. The two courses can be taken concurrently. Students should consult the rules for credit for statistics courses in the course overlap section; see section 11.3.6 "Course Overlap".
*** MGSC 272 and MATH 423 cannot both be taken for program credit.

11.11.10 Major in Psychology for Management Students

Mentor: Professor A. Jaeger

This Major is comprised of 30 to 24 credits in Psychology and 6 credits to be taken in Management.

The Desautels Faculty of Management, in collaboration with the Psychology Department, Faculty of Science, offers programs of study in organizational and consumer psychology leading to the BCom degree. These programs concentrate on providing an education in the fundamentals of experimental and social psychology. In view of rapid changes in practical methods and professional techniques employed by managers and professional consultants, broad training in such fundamentals is seen as excellent preparation for graduate school in psychology and management as well as for a successful managerial career.

Required Courses (12 credits)
PSYC 213 (3) Cognition
PSYC 215 (3) Social Psychology
PSYC 301 (3) Animal Learning & Theory
PSYC 333 (3) Personality and Social Psychology

Complementary Courses (18 credits)
12 credits chosen from:
PSYC 211 (3) Introductory Behavioural Neuroscience
PSYC 212 (3) Perception
PSYC 310 (3) Human Intelligence
PSYC 331 (3) Inter-Group Relations
PSYC 332 (3) Introduction to Personality
PSYC 340 (3) Psychology of Language
PSYC 341 (3) The Psychology of Bilingualism
PSYC 351 (3) Research Methods in Social Psychology
PSYC 352 (3) Cognitive Psychology Laboratory
PSYC 403 (3) Modern Psychology in Historical Perspective
PSYC 406 (3) Psychological Tests
PSYC 408 (3) Principles of Cognitive Behaviour Therapy
PSYC 429 (3) Health Psychology
PSYC 451 (3) Human Factors Research and Techniques
PSYC 471 (3) Human Motivation
PSYC 473 (3) Social Cognition and the Self
PSYC 474 (3) Interpersonal Relationships
PSYC 510 (3) Statistical Analysis of Tests
PSYC 534 (3) Community Psychology
PSYC 535 (3) Advanced Topics in Social Psychology

and 6 credits taken in one of the following two options:

Organizational Psychology Option
two of:
ORGB 321 (3) Leadership
ORGB 325 (3) Negotiations and Conflict Resolution
ORGB 380 (3) Cross Cultural Management
ORGB 409 (3) Organizational Research Methods
ORGB 420 (3) Managing Organizational Teams
ORGB 421 (3) Managing Organizational Change
ORGB 423 (3) Human Resources Management
ORGB 434 (3) Advanced Topics in Organizational Behaviour
ORGB 435 (3) Women as Global Leaders and Managers
INDR 294 (3) Introduction to Labour-Management Relations

Consumer Psychology Option
two of:
MRKT 451 (3) Marketing Research
MRKT 452 (3) Consumer Behaviour
MRKT 453 (3) Advertising Management

11.11.11 Major Concentration in Statistics for Management Students

Mentor: Professor R. Steele; Department of Mathematics and Statistics, Faculty of Science

This program is comprised of 39 credits.

Students entering the Major Concentration in Statistics are normally expected to have completed MATH 133, MATH 140, and MATH 141 or their equivalents. Otherwise they will be required to make up any deficiencies in these courses over and above the 39 credits required by the program.

Required Courses (27 credits)

MATH 222	(3)	Calculus 3
MATH 223	(3)	Linear Algebra
MATH 242	(3)	Analysis 1
MATH 243	(3)	Analysis 2
MATH 314	(3)	Advanced Calculus
MATH 323	(3)	Probability
MATH 324*	(3)	Statistics
MATH 423	(3)	Regression and Analysis of Variance
MGSC 373	(3)	Operations Research 1

* credits for MATH 324 are counted toward Management Core, where they replace MGCR 271.

Complementary Courses (12 credits)

maximum of 6 credits from:

MGSC 479	(3)	Applied Optimization
MGSC 575	(3)	Applied Time Series Analysis Managerial Forecasting
MGSC 578	(3)	Simulation of Management Systems

remaining credits to be taken from:

MATH 204**	(3)	Principles of Statistics 2
MATH 315	(3)	Ordinary Differential Equations
MATH 340	(3)	Discrete Structures 2
MATH 410	(3)	Majors Project
MATH 447	(3)	Stochastic Processes
MATH 523	(4)	Generalized Linear Models
MATH 524	(4)	Nonparametric Statistics
MATH 525	(4)	Sampling Theory and Applications

** MATH 204 cannot be taken for credit after credit for MATH 324 has been obtained. The two courses can be taken concurrently. Students should consult the rules for credit for statistics courses in the course overlap section; see section 11.3.6 "Course Overlap".

11.12 Honours

An Honours program is available in Economics and in Investment Management. Joint Honours programs are available in Economics and Accounting and in Economics and Finance.

The difference between the Honours and Major programs is not one of quantity but rather of quality, the Honours program involving study in greater depth. Students normally register for the Honours programs in U1 but special arrangements may be made for students wishing to enter the program at the beginning of U2.

Graduation with an Honours standing normally requires a minimum CGPA of 3.00 and an average of 3.00 in the specified courses of the Honours programs, although academic units may set higher requirements for their program GPA. The minimum grade acceptable in an Honours course is B-, although academic units may set a higher requirement for grades in their program.

11.12.1 Honours in Economics for Management Students

Mentors in Economics: Professors F. Grimard (Director), M. Sinitsyn and D. Sutthiphisal; Department of Economics, Faculty of Arts

Please consult the Economics department website at www.mcgill.ca/economics.

This program is comprised of 42 credits of Honours Economics courses (9 credits of which are counted as Core credits).

To remain in the Honours program, students must obtain a grade of at least B in ECON 250D1/ECON 250D2.

Graduation with an Honours standing requires a minimum CGPA of 3.00 and an average of 3.00 in the specified courses of the program.

Required Courses (27 credits)

ECON 250D1[1]	(3)	Introduction to Economic Theory: Honours
ECON 250D2[1]	(3)	Introduction to Economic Theory: Honours
ECON 257D1[2]	(3)	Economic Statistics - Honours
ECON 257D2[2]	(3)	Economic Statistics - Honours
ECON 352D1[3]	(3)	Macroeconomics - Honours
ECON 352D2[3]	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours
ECON 468	(3)	Econometrics 1 - Honours

Notes:

1. 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program.
2. 3 of the 6 credits for Economic Statistics exempt MGCR 271 in Core.
3. 3 of the 6 credits for Macroeconomics exempt ECON 295 in Core.

Complementary Courses (15 credits)

ECON 460	(3)	History of Thought 1 - Honours
ECON 461	(3)	History of Thought 2 - Honours
ECON 469	(3)	Econometrics 2 - Honours

plus 12 credits of other Economics courses approved by an Honours adviser.

11.12.2 Honours in Investment Management

The BCom Honours in Investment Management prepares students for a career in financial asset management, either on the buy-side working with active portfolio allocation or on the sell-side, working for brokerage firms. The program gives students a rigorous training in accounting, statistics and finance. The program enables students to analyze financial statements, perform company valuations, construct efficient portfolios with appropriate risk profiles, and manage risk using dynamic trading strategies and derivative instruments.

Students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.0. A grade of B- or better must be achieved in all courses counted towards this program. Students who do not satisfy all the requirements of the Honours program may still receive a Major in Finance.

The BCom Honours in Investment Management is a limited enrolment program and is by application only for students entering their U2 year. For admission requirements, please refer to the website at www.mcgill.ca/investment-management or contact the BCom Student Affairs Office.

Required Courses (42 credits)

ACCT 354	(3)	Financial Statement Analysis
ACCT 452	(3)	Financial Reporting Valuation
BUSA 400	(3)	Independent Studies in Management
FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management
FINE 443	(3)	Applied Corporate Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 455	(3)	Hedge Fund Investing
FINE 480	(3)	Global Investments

FINE 482	(3)	International Finance 1
FINE 541	(3)	Applied Investments
MGSC 272	(3)	Advanced Business Statistics

11.12.3 Joint Honours in Economics and Accounting

Mentor in Accounting: Professor P. Levy

Mentors in Economics: Professors F. Grimard (Director), M. Sinitsyn and D. Sutthiphisal; Department of Economics, Faculty of Arts

Please consult the Economics department website at www.mcgill.ca/economics.

The BCom Joint Honours in Economics and Accounting requires the completion of 30 specified credits of Honours courses listed in the Economics Honours Program (9 credits of which are counted as Core credits) and 24 specified credits for Accounting. This program is designed to take advantage of both McGill's Accounting and Economics course offerings to produce a student who is well trained in these two complementary areas.

Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. To earn the Honours in Economics and Accounting, students must achieve a grade of B- or better in all Economics and Accounting courses.

Economics Required Courses (24 credits)

ECON 250D1[1]	(3)	Introduction to Economic Theory: Honours
ECON 250D2[1]	(3)	Introduction to Economic Theory: Honours
ECON 257D1[2]	(3)	Economic Statistics - Honours
ECON 257D2[2]	(3)	Economic Statistics - Honours
ECON 352D1[3]	(3)	Macroeconomics - Honours
ECON 352D2[3]	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours

Notes:

1. 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program.
2. 3 of the 6 credits for Economics Statistics - Honours exempt MGCR 271 in Core.
3. 3 of the 6 credits for Macroeconomics exempt ECON 295 in Core.

Economics Complementary Courses (6 credits)
at least 6 credits from the following:

ECON 460	(3)	History of Thought 1 - Honours
and ECON 461	(3)	History of Thought 2 - Honours
or ECON 467D1	(3)	Econometrics - Honours
and ECON 467D2	(3)	Econometrics - Honours

Accounting Required Courses (12 credits)

ACCT 351	(3)	Intermediate Financial Accounting 1
ACCT 352	(3)	Intermediate Financial Accounting 2
ACCT 361	(3)	Intermediate Management Accounting 1
ACCT 455	(3)	Development of Accounting Thought

Accounting Complementary Course (12 credits)

ACCT 354	(3)	Financial Statement Analysis
ACCT 362	(3)	Intermediate Management Accounting 2
ACCT 385	(3)	Principles of Taxation
ACCT 452	(3)	Financial Reporting Valuation
ACCT 453	(3)	Advanced Financial Accounting
ACCT 463	(3)	Advanced Management Accounting
ACCT 475	(3)	Principles of Auditing
ACCT 486	(3)	Business Taxation 2

11.12.4 Joint Honours in Economics and Finance

Mentors in Economics: Professors F. Grimard (Director), M. Sinitsyn, and D. Sutthiphisal; Department of Economics, Faculty of Arts

Mentors in Finance: Professor A. de Motta, A. Durnev, W. Xu

Please consult the Economics department website at www.mcgill.ca/economics.

This Joint Honours program is comprised of 30 credits of Honours Economics courses (9 credits of which are counted as Core credits) and 24 credits in Finance.

This program is designed to take advantage of both McGill's Finance and Economics course offerings to produce a student who is well trained in these two complementary areas. It is particularly attractive to those planning careers in finance, economics or financial economics posts in both industry and government. The program is a demanding one and its potential rewards are correspondingly high.

Joint Honours students must maintain a minimum CGPA of 3.00 and maintain a minimum program GPA of 3.00. To earn the Honours in Economics and Finance, students must achieve a grade of B- or better in all Economics and Finance courses.

Economics Required Courses (24 credits)

ECON 250D1[1]	(3)	Introduction to Economic Theory: Honours
ECON 250D2[1]	(3)	Introduction to Economic Theory: Honours
ECON 257D1[2]	(3)	Economic Statistics - Honours
ECON 257D2[2]	(3)	Economic Statistics - Honours
ECON 352D1[3]	(3)	Macroeconomics - Honours
ECON 352D2[3]	(3)	Macroeconomics - Honours
ECON 450D1	(3)	Advanced Economic Theory - Honours
ECON 450D2	(3)	Advanced Economic Theory - Honours

Notes:

1. 3 of the 6 credits for Introduction to Economic Theory exempt MGCR 293 in Core. A minimum grade of B is required in this course to continue in this program.
2. 3 of the 6 credits for Economic Statistics exempt MGCR 271 in Core.
3. 3 of the 6 credits for Macroeconomics exempt ECON 295 in Core.

Economics Complementary Courses (6 credits)

ECON 460	(3)	History of Thought 1 - Honours
and ECON 461	(3)	History of Thought 2 - Honours
or ECON 467D1	(3)	Econometrics - Honours
and ECON 467D2	(3)	Econometrics - Honours

Finance Required Courses (12 credits)

FINE 342	(3)	Finance 2
FINE 441	(3)	Investments and Portfolio Management
FINE 443	(3)	Applied Corporate Finance
FINE 547	(3)	Advanced Finance Seminar

Finance Complementary Courses (12 credits)

FINE 434	(3)	Topics in Finance
FINE 448	(3)	Derivatives and Risk Management
FINE 449	(3)	Market Risk Models
FINE 451	(3)	Fixed Income Analysis
FINE 480	(3)	Global Investments
FINE 482	(3)	International Finance 1
FINE 492	(3)	International Finance 2
FINE 541D1	(1.5)	Applied Investments
FINE 541D2	(1.5)	Applied Investments

11.13 Academic Staff

Adler, Nancy J.; B.A., M.B.A., Ph.D.(Calif.-LA); Professor, Organizational Behaviour (*Samuel Bronfman Chair in Management*)
Animesh; B.A.(Delhi), M.I.S.(Carn. Mell), Ph.D.(Md.); Assistant Professor, Information Systems
Armstrong, Donald E.; B.A., B.Com.(Alta.), Ph.D.(McG.); Emeritus Professor, Managerial Economics
Barbulescu, Roxana; B.A.(Stan.), M.S., Ph.D.(INSEAD); Assistant Professor, Organizational Behaviour
Barlas, Sema; B.S.(Hacettepe U., Turkey), M.S.(Ill.-Urbana-Champaign), Ph.D.(Chic.); Assistant Professor, Marketing
Bassellier, Geneviève; B.Com., M.Sc.(HEC), Ph.D.(Br.Col.); Assistant Professor, Information Systems
Basu, Swati; B.Sc.(Calc.), M.A.(Tufts), Ph.D.(Pitt.); Faculty Lecturer, Finance
Böckenholt, Ulf; Diploma-Psych./Comp.Sc.(U. Oldenburg, Germany), Ph.D.(Chic.), Ph.D.(U. Oldenburg, Germany); Professor, Marketing (*CRC Chair - SSHRC - Tier 1*)
Boyaci, Tamer; B.S.(Middle East Tech.,Turkey), M.S., Ph.D.(Col.); Associate Professor, Operations Management
Brenner, Reuven; B.Sc., M.A., Ph.D.(Hebrew); Professor, Finance (*Repap Professor of Economics*)
Carrieri, Francesca; Laurea-Law(U. di Bari), Ph.D.(USC); Associate Professor, Finance
Cecere, Ralph; G.D.P.A., B.Com.(McG.); Faculty Lecturer, Accounting
Cha, Sandra; B.A., M.A., Ph.D.(Harv.); Assistant Professor, Organizational Behaviour
Chakrabarti, Abhirup; B.S.(Calc.), M.S.(Singapore, NUS), Ph.D.(Duke); Assistant Professor, Strategy and Organization
Chaudhury, Mohammed; B.A., M.A.(Dhaka), M.A.(Wat.), Ph.D.(S. Fraser); Faculty Lecturer, Finance
Chauvin, Louis; B.A.(Ott.), M.A., Ph.D.(C'dia); Faculty Lecturer, Strategy and Organization
Christoffersen, Peter; B.A.(Copen.), M.A., Ph.D.(Penn.); Associate Professor, Finance (*James McGill Professor*)
Christoffersen, Susan; B.A.(Qu.), M.A.(Br. Col.), Ph.D.(Penn.); Associate Professor, Finance (*William Dawson Scholar*)
Croitoru, Benjamin; DIAF(Institut de Statistique de l'Université Pierre et Marie Curie), Ph.D.(Wharton); Associate Professor, Finance
David, Robert; B. Eng., M.B.A.(McG.), Ph.D.(C'nell); Associate Professor, Strategy and Organization
De Motta, Adolfo; B.A.(Universidad De Valencia, Spain), Ph.D.(MIT); Assistant Professor, Finance
Donovan, Richard G.; B.Com.(McG.), G.D.I.T.(C'dia); Faculty Lecturer, Information Systems
Drury, Donald H.; B.Com., M.B.A.(McM.), Ph.D.(N'western), R.I.A.; Professor, Accounting
Dubé, Laurette; B.Sc.(Laval), M.B.A.(HEC), M.P.S., Ph.D.(C'nell); Professor, Marketing (*James McGill Professor*)
Durnev, Artyom; M.A. (Moscow), M.A. (Penn. St.), Ph.D.(Mich.); Assistant Professor, Finance
Ericsson, Jan; M.Sc., Ph.D.(Stockhom School of Economics); Associate Professor, Finance
Errunza, Vihang R.; B.S., B.S.(Tech)(Bom.), M.S., Ph.D.(Calif.); Professor, Finance (*Bank of Montreal Professor of Finance and Banking*)
Etemad, Hamid; M.Eng.(Tehran), M.Sc., M.B.A., Ph.D.(Calif.); Associate Professor, Marketing
Etzion, Dror; B.Sc.(Ben Gurion), M.Sc.(Tel Aviv), Ph.D.(IESE-Univ of Navarra); Assistant Professor, Strategy and Organization
Faraj, Samer; B.S.(Milwaukee), M.A.(MIT), Ph.D.(Boston); Associate Professor, Information Systems (*CRC Chair - SSHRC - Tier 2*)
Fortin, Catherine; B.Com., Grad. Deg. in Pub. Account.(McG.); Faculty Lecturer, Accounting
Fortin, Steve; Acct. Sci.(Québec à Rimouski), Ph.D.(Wat.); Associate Professor, Accounting
Gagnon, Suzanne; B.A.(Br. Col.), M.Sc.(Oxf.), Ph.D.(Lanc. - pending); Faculty Lecturer, Organizational Behaviour
Gialloreto, Louis P.; B.A.(W. Ont.), M.B.A., LL.M.(McG.); Faculty Lecturer, Marketing (*Director - Power Corp. Int'l Executive Institute*)
Goffin, Jean-Louis; B.Eng., M.Sc.(Brussels), M.Sc., Ph.D.(Calif., Berk.); Emeritus Professor, Operations Management
Goldsman, Larry; B.Comm.(C'dia), Dip-P.Acc'ting(McG.), C.A.; Faculty Lecturer, Accounting
Goyenko, Ruslan; B.S.(Donetsk-Ukraine), M.A.(C.E.U. Budapest), M.S.(Siena-Italy), M.B.A., Ph.D.(Ind.); Assistant Professor, Finance
Graham, Margaret; M.A., M.B.A., Ph.D.(Harv.); Associate Professor, Strategy and Organization
Gumus, Mehmet; B.S.(Turkey), M.S., M.A., Ph.D.(Mich.); Assistant Professor, Operations Management
Hammami, Larbi; B.Com., M.B.A.(Laval); Faculty Lecturer, Finance
Han, Kunsoo; B.S., M.S.(KAIST), Ph.D.(Ohio St.); Assistant Professor, Information Systems
Hart, Derek; B.Sc., M.B.A.(McG.), M.Sc.(C'dia); Faculty Lecturer, Operations Management
Hebdon, Robert; B.A., M.A., Ph.D.(Tor.); Associate Professor, Organizational Behaviour-Industrial Relations
Huising, Ruthanne; B.A.(Alta.), M.Sc.(LSE), Ph.D.(MIT); Assistant Professor, Organizational Behaviour
Jacobs, Kris; B.A., M.A.(Louvain), Ph.D.(Pitt.); Associate Professor, Finance (*Director - PhD Program*)
Jaeger, Alfred M.; B.Sc.(N'western), M.B.A, Ph.D.(Stan.); Associate Professor, Organizational Behaviour
Jo, Myung-Soo; B.Com.(Hankuyk U., Korea), M.B.A.(Mich.), M.S.(Ill.), Ph.D.(Colo.); Associate Professor, Marketing
Jörgensen, Jan; B.A., M.A.(N. Carolina, Chapel Hill), Ph.D.(McG.); Associate Professor, Strategy and Organization
Kanungo, Rabindra N.; B.A., M.A.(Patna), Ph.D.(McG.); Professor Emeritus, Organizational Behaviour
Lank, David; B.A.(Prin.); Faculty Lecturer, Strategy and Organization
Lapointe, Liette; B.A., M.Sc.(Montr.), Ph.D.(HEC); Associate Professor, Information Systems
Lee, Mary Dean; B.A.(Eckerd), M.Ed.(Temple), M.A.(S. Florida), Ph.D.(Yale); Professor, Organizational Behaviour
Levy, Philippe; B.Com.(C'dia), Diploma in Public Accountancy, M.B.A.(McG.); Faculty Lecturer, Accounting (*Director - CA Program*)
Li, Shanling; M.S.(Georgia), Ph.D.(Texas); Associate Professor, Operations Management
Loulou, Richard J.; M.Sc., Ph.D.(Berk.); Professor Emeritus, Operations Management
Madan, Sujata; B.S.(MIT), M.B.A.(Indian Inst. Manag.); Faculty Lecturer, Finance
Maguire, Steve; B.Sc.(Qu.), M.B.A.(Br. Col.), Ph.D.(HEC); Associate Professor, Strategy and Organization
Mintzberg, Henry; B.Eng.(McG.), B.A.(Sir G. Wms.), S.M., Ph.D.(MIT); Professor, Strategy and Organization (*John Cleghorn Professor of Management Studies*)
Mishra, Saurabhi; B.A., M.A.(Delhi), M.B.A., Ph.D.(Ind.); Assistant Professor, Marketing
Moore, Karl; B.Sc.(Ambassador University), M.B.A.(USC), Ph.D.(York (Can.)); Associate Professor (*Part-time*), Marketing, Strategy and Organization
Mukherjee, Ashesh; B.Eng.(Jadavpur-India), M.B.A.(Indian Inst. Manag.), Ph.D.(Texas); Associate Professor, Marketing
Nain, Amrita; B.A.(Delhi), M.Sc.(Warw.), Ph.D.(Mich.); Assistant Professor Finance
Oh, Wonseok; B.A.(SUNY), M.B.A.(Geo. Wash. U), M.Phil., Ph.D.(Stern); Associate Professor, Information Systems
Okhmatovskiy, Ilya; B.A. Equivalent(Moscow State), M.S.Equivalent(Acad. Of Nat. Economy), Ph.D.(USC); Assistant Professor, Strategy & Organization
Parsons, Christopher; B.S., Ph.D.(Texas); Assistant Professor, Finance
Perez-Aleman, Paola; B.Sc.(Calif., Berk.), Ph.D.(MIT); Associate Professor, Strategy and Organization

Pinsonneault, Alain; B.Comm.(C'dia), M.Sc.(HEC), Ph.D.(Calif., Irvine); Professor, Information Systems (*Chair in Management Information Systems*) (*James McGill Professor*)
Qui, Chun; B.A.(Huazhong), M.A.(S. Fraser), Ph.D.(Alta.); Assistant Professor, Finance
Ray, Saibal; B.E.(Jadavpur), M.E.(Asian IT), Ph.D.(Wat.); Associate Professor, Operations Management
Sarigöllü, Emine; B.A., M.B.A.(Bogazici), M.A., Ph.D.(Penn.); Associate Professor, Marketing (*Associate Dean - Student Affairs*)
Sarkissian, Sergei; M.S.(Calif., Berk.), Ph.D.(Wash.); Associate Professor, Finance
Singer, Zvi; B.A.(Tel Aviv), M.B.A.(Wash.), Ph.D. (Calif. - pending); Assistant Professor, Accounting
Smith, Brian E.; B.A., M.A.(Dublin), M.Sc.(Alta.), Ph.D.(Qu.); Faculty Lecturer, Operations Management
Todd, Peter A.; B.Com.(McG.), Ph.D.(Br. Col.); Dean (*James McGill Professor*)
Toulan, Omar; B.Sc.(G'town), Ph.D.(MIT); Associate Professor, Strategy and Organization (*Associate Dean - Academic*)
Tsang, Desmond; BCom, M.A.(Tor.), M.S., Ph.D.(Calif., Berk.); Assistant Professor - Accounting
Vakratsas, Demetrios; B.Sc.(Aristotle), M.Sc., Ph.D.(Texas); Associate Professor, Marketing
Verter, Vedat; B.S., M.S.(Bogazici), Ph.D.(Bilkent); Associate Professor, Operations Management
Vit, Gregory; B.Com.(McG.), M.B.A.(C'dia), Ph.D.(Brad.); Associate Professor (*Part-time*), Strategy and Organization (*Director - Dobson Centre for Entrepreneurial Studies*)
Vough, Heather; A.B.(Wash.), Ph.D.(Ill.-Urbana-Champaign); Assistant Professor, Organizational Behaviour
Westgate, Chantal; M.B.A.(McM.); Faculty Lecturer, Organizational Behaviour-Industrial Relations
Whitmore, G. Alex; B.Sc.(Manit.), M.Sc., Ph.D.(Minn.); Professor Emeritus, Operations Management (*Samuel Bronfman Professor of Management Science*)
Xu, Jianguo; B.S., M.A.(Beijing), Ph.D.(Duke); Assistant Professor, Finance
Yalovsky, Morty; B.Sc., M.Sc., Ph.D.(McG.); Associate Professor, Operations Management
Zabowski, Glenn; B.Com., M.B.A.(McG.); Faculty Lecturer, Operations Management (*Director - BCom Program*)
Zhang, Dan; B.S., M.S.(Chongquing), Ph.D.(Minn.); Assistant Professor, Operations Management
Zhang, Sanjian; B.Sc.(Shanghai Int'l), M.B.A.(Catholic Univ. of Leuven), Ph.D.(Calif., Irvine); Assistant Professor, Accounting

12.1 The Faculty

12.1.1 Location

Strathcona Music Building
555 Sherbrooke Street West
Montreal, QC H3A 1E3
Canada

Telephone: 514-398-4535
Fax: 514-398-8061
Website: www.mcgill.ca/music

12.1.2 The Faculty Then and Now

McGill's Schulich School of Music (www.mcgill.ca/music) is the largest university-based school for professional musical training and music research in Canada. Founded as the Conservatorium of Music in 1904 and incorporated as a Faculty in 1920, the school moved to its current location in the impressive and historic Strathcona Music Building (formerly the main section of Royal Victoria College) in 1972. During its 2004-05 centennial season, the Faculty added a new eight-storey building that will evolve into a world-leading facility for sound recording and music technology research. McGill Music is renowned for its orchestral, choral, opera, jazz, chamber, contemporary and early music programs and for its award-winning creative and research work in composition, music theory, musicology, music education, sound recording and music technology.

Pollack Concert Hall (capacity: 600), Redpath Hall (400, with the University Organ), Clara Lichtenstein Recital Hall (80) are among the busiest and best concert venues in Montreal. The new building adds a 200-seat hall, an opera-rehearsal room, a scoring stage/acoustic research lab, and control rooms. Three floors of the new building are dedicated to the Marvin Duchow Music Library (www.library.mcgill.ca), with its collection of well over 100,000 scores, recordings, books, and periodicals; in addition, the Performance Library has performing parts for over 6000 titles. Both old and new buildings (as well as satellite locations) house labs for numerous specialized functions: digital composition and electronic music, music education research, multi-channel sound recording, music perception and cognition, sound processing and control, computational modeling, etc. Classrooms, teaching studios, practice rooms (80+), and a student-lounge and cafeteria round out the picture.

The Faculty is also home to the Centre for Interdisciplinary Research in Music Media and Technology (CIRMMT), an inter-faculty, inter-university, international consortium that brings together researchers in music, sound recording, music technology, psychology, neuroscience, engineering, and medicine (www.cirmmt.mcgill.ca).

The current student enrolment is over 600 at the undergraduate level and over 200 at the graduate level. The teaching staff includes 55 full-time and over 140 part-time members. Students and staff play a major role in Montreal's vibrant cultural scene, presenting over 650 concert events annually, as well as master classes, lectures, and symposia, all enhanced by very active student societies, a gig office, and excellent support staff.

12.2 Faculty Administrative Officers

12.2.1 Dean's Office

Don McLean; Mus.Bac., M.A., Ph.D.(Tor.) **Dean**

Mary-Beth Campbell; B.Mus., M.Mus.(McG.) **Communications and Special Events Administrator**

Joanne Niles; B.A., M.A.(C'dia) **Assistant to the Dean and HR Adviser**

Valerie McConnell **Personnel and Administrative Coordinator**

Olga Harmazy; Cert. in Mgmt.(McG.) **Secretary**

Donna Williams; B.A.(W. Ont.) **Development Director**

Julie Raymond; B.Mus.(McG.) **Development and Alumni Relations Associate**

TBA **Faculty Research Accounts Administrator**

Catherine Healy **Secretary**

Daria Lavigueur (*on leave*) **Secretary**

12.2.2 Associate Deans' Office

Gordon Foote; B.Sc., M.A.(Minn.) **Associate Dean (Academic and Student Affairs)**

Bruce Minorgan; B.Mus.(Br. Col.), M.A.(Tor.) **Associate Dean (Administration)**

Quynh-Ly Pham; B.Sc.(McG.) **Budget Officer**

Diana Toni Dutz; B.Mus.(W. Ont.), Grad.Dip.(C'dia) **Administrative Coordinator to the Associate Deans**

Devyn Nicholson; B.Mus.(Ott.), M.Mus.(McG.) **Building Projects Coordinator**

Charles Wan; B.CompSc.(C'dia) **Accounting Clerk**

Alain Terriault **LAN Manager**

Paul Vandenberg; B.Mus.(McG.) **Gig Office/ Communications**

12.2.3 Graduate Studies

Eleanor Stubley; B.Mus.(Tor.), M.Mus.(Bran.), Ph.D.(Ill.) **Director, Graduate Studies**

Hélène Drouin **Senior Administrative and Student Affairs Coordinator**

Véronic Morin; B.A.(McG.) **Student Affairs Coordinator**

12.2.4 Academic Affairs

André Roy; B.Mus.(Curtis) **Chair, Department of Performance**

Peter Schubert; B.A., M.A., Ph.D.(Col.) **Chair, Department of Music Research**

Tracy Roach; B.Mus.(McG.) **Administrative Assistant**

TBA **Student Affairs Coordinator Performance and Music Research**

Jennifer Stephenson; B.A.(McG.) **Timetable and Scheduling Coordinator**

Cindy Shuter **Ensemble Resource Manager**

Linda Mannix; B.A.(C'dia) **Secretary (Sessional)**

Kerry Wagner; C.T.T. **Piano Maintenance Supervisor, Department of Performance**

Christopher Smythe; B.Mus., M.Mus.(McG.) **Shop Coordinator**

12.2.5 Student Affairs

Patrick O'Neill; B.A.(McG.) **Admissions Officer**

Mary Di Stefano **Admissions and Registration Clerk, Graduate**

Pia D'Amico **Admissions and Registration Clerk, Undergraduate**

Linda Mannix; B.A.(C'dia) **Admissions Secretary (Sessional)**

Reisa Lipszyc; B.Mus.(McG.) (*on leave*) **Recruitment Officer**

Janet Edwards; B.A.(C'dia) **Marketing and Web Content Administrator**

Marie Moscato **Senior Student Adviser**

Egidia De Michele **Senior Administrative and Student Affairs Coordinator**

Dana Pietrzak **Student Affairs Secretary**

12.2.6 Building Management

Peter Wightman; L.Mus., B.Mus., M.Mus.(McG.) **Building Director**

Katherine Simons; B.Mus.(W. Laur.) **Associate Building Director**

Elise Quinn; B.A.(McG.) **Assistant Building Director**

Nick Zervos **Electronics Technologist (A/V)**

12.2.7 Administrative Units

CONCERTS AND PUBLICITY
Box Office (weekdays: 12:00 to 18:00): 514-398-4547

12.3 General Information

12.3.1 Degrees and Diplomas Offered

DEGREE OF BACHELOR OF MUSIC (B.Mus.)

The degree of Bachelor of Music may be obtained in any one of the following fields:
Composition (Major, page 360, and Honours, page 360)
Faculty Program, page 363
Music Education – available only as a component of the Concurrent B.Mus./B.Ed. program, page 376
Music History (Major, page 361 and Honours, page 361)
Music Theory (Major, page 362, and Honours, page 363)
Performance (Major, page 365, and Honours, page 368)
Performance (Church Music) (Major, page 370)
Performance (Keyboard Studies) (Major, page 367)
Early Music Performance (Major, page 370, and Honours, page 371)
Jazz Performance (Major, page 372)

Designated Major
Special programs of study in music may be proposed in consultation with Faculty advisers. Such special proposals must be approved by the relevant department, the Executive Committee and by Faculty Council.

Faculty Program
This program is designed to accommodate those students who are either undecided about the area of music in which they wish to specialize, or who are interested in a pattern of specialization not provided in the established majors and honours programs, or who are interested in combining studies in music with studies in other disciplines.

All of the above B.Mus. programs normally require three years of study following completion of the Quebec Diploma of Collegial Studies or four years of study following completion of secondary school elsewhere.

B.A. Major Concentration in Music
The Faculty of Arts offers a Bachelor of Arts degree with a Major Concentration in Music. Further details on the program can be found under Music in the Faculty of Arts section.

Minor Programs
A Minor in Music History for Performers is available to all students in Performance (Major or Honours) programs. This option will take the place of music electives, as well as history, literature and performance practice complementary courses, in Performance programs.

Minors in Musical Applications of Technology and Musical Science and Technology are available to Music students who wish to graduate with a knowledge of newer technologies and the impact they are having on the field of music. (Space permitting, these minors are also available to students from other faculties.)

A Minor in Marketing and a Minor in Management are available to B.Mus. students. Further information on these minors can be found under the Desautels Faculty of Management, see section 11.10.2 “Minor in Management” and section 11.10.6 “Minor in Marketing”.

Minor programs in Music are also available to students in the Faculty of Arts and the Faculty of Science. Further information on these Minors can be found under the Faculty of Arts, see section 6.12.38 “Music (MUAR)” and the Faculty of Science, see section 14.13.23 “Music”.

M.Mus. Performance (Prerequisite courses)
Students wishing to prepare for the Master of Music in Performance should include, in their Bachelor of Music program, the courses listed under section 12.6.3.20 “Special Prerequisite Courses for M.Mus. in Performance”.

M.Mus. Sound Recording (Prerequisite courses)
Students wishing to prepare for the Master of Music in Sound Recording should include, in their Bachelor of Music program, the courses listed under section 12.6.2.9 "Special Prerequisite Courses for M.Mus. in Sound Recording".

LICENTIATE IN MUSIC (L.Mus.)
The Licentiate in Music is offered in Performance and is designed for advanced instrumentalists, singers and Jazz performers who wish to concentrate on their practical subject while limiting their theoretical studies to basic areas in Music History, Theory and Musicianship. This program normally requires three years of study. For more information, please see: section 12.6.3.14 "Licentiate in Music (L.Mus.) (Piano)"; section 12.6.3.15 "Licentiate in Music (L.Mus.) (All Instruments except Piano, Voice and Jazz)"; section 12.6.3.16 "Licentiate in Music (L.Mus.) (Voice)"; and section 12.6.3.17 "Licentiate in Music (L.Mus.) Jazz Performance".

ARTIST DIPLOMA
The Artist Diploma is available only to advanced instrumentalists and singers who demonstrate technical and musical maturity. Admission into the program requires completion of a Bachelor of Music degree in Performance, a Licentiate in Music, or the equivalent.

DEGREE OF MASTER OF ARTS (M.A.)
The Master of Arts degree (M.A.) is available as a thesis option in Music Education, Music Technology, Musicology, and Theory and as a non-thesis option in Music Education, Musicology, and Theory.

DEGREE OF MASTER OF MUSIC (M.Mus.)
The Master of Music degree (M.Mus.) is available in Composition, Performance, and Sound Recording. Within the Performance option are offered specializations in: piano, guitar, orchestral instruments, organ, conducting, chamber music, orchestral training, piano accompaniment, vocal, opera, opera coaching, vocal pedagogy, early music, church music — organ, and jazz.

DEGREE OF DOCTOR OF MUSIC (D.Mus.)
The Doctor of Music degree (D.Mus.) is available in Composition and Performance Studies.

DEGREE OF DOCTOR OF PHILOSOPHY (Ph.D.)
The Doctor of Philosophy degree (Ph.D.) is available in Music Education, Musicology, Music Technology, Sound Recording, and Theory.

For details of the Master's and Doctoral programs, please consult the *Graduate and Postdoctoral Studies Calendar*.

12.3.2 Orchestral Training

Orchestral Training at McGill includes all students in the B.Mus., L.Mus., Artist Diploma, M.Mus., and D.Mus. degrees and diplomas whose major is one of the orchestral instruments. Many of its graduates are now members of professional orchestras throughout North America, Europe, and the rest of the world. Led by full-time conductors in residence and supported by a number of full-time staff as well as many members of the top professional orchestras in and around Montreal, Orchestral Training at McGill provides for regular private practical lessons as well as performance in one or more large instrumental ensembles including a full symphonic orchestra (approximately 100 players), a contemporary music ensemble, a percussion ensemble and a variety of small chamber music groups. It also includes regular coached orchestral sectionals and orchestral repertoire classes.

12.3.3 Scholarships and Financial Aid

General information on scholarships, including McGill Entrance Scholarships, and a detailed listing of all awards is contained in the *Undergraduate Scholarships and Awards Calendar*, available on the web (www.mcgill.ca/courses).

A limited number of Music Entrance Scholarships (valued at $2,000 each) are awarded to incoming Performance students on the basis of auditions held only in February. All instruments, including voice, are eligible. In addition, outstanding string players applying to the Schulich School of Music are encouraged to audition for the Lloyd Carr-Harris String Scholarships (valued at $10,000 each). Application for admission must be submitted by January 15.

While taking into account the stipulations of the individual awards, Schulich School of Music scholarships, awards and prizes are given on the basis of a student's record for the academic session ending in April and are tenable during the next academic year beginning in September. Students must have successfully completed at least 27 credits (excluding courses completed under the satisfactory/unsatisfactory option) in the academic year preceding the award and must register for full-time studies during the subsequent year, unless fewer credits are needed to complete the program. Students whose records contain outstanding incompletes or deferrals will not be considered. No application is required.

12.3.4 Summer Studies

Summer Studies offers courses starting in May, June, and July.

Students may take a maximum of 18 credits during the Summer session. Those wishing to take more than 5 credits in any one month must obtain the permission of the Senior Student Adviser.

Information concerning course offerings and application forms may be obtained from the McGill Summer Studies Office website, www.mcgill.ca/summer, or by calling 514-398-5212.

12.3.5 Music Credit Options for Students in Other Faculties

The Schulich School of Music offers three groups of courses that may be taken for credit by students in other faculties.

The first group consists of music literature and theory courses especially designed for students from other faculties who may not have taken formal studies in music but who wish to take elective courses in the cultural, historical and theoretical aspects of music.

The second group is the sequence of courses in music theory and history which are part of the Schulich School of Music undergraduate curriculum. These courses may be taken by those having the necessary prerequisite studies in music.

The third group of courses consists of selected music ensembles open, by audition, to students in other faculties.

For further details on these courses, please see section 6.12.38 "Music (MUAR)" under the Faculty of Arts. Other music courses may be taken by qualified students from other faculties providing they obtain permission from the relevant department in the Schulich School of Music and from the Associate Dean of their own faculty.

12.3.6 Conservatory of Music

The McGill Conservatory of Music offers instruction in piano, guitar, harp, most orchestral instruments and voice, as well as Theory and Ear Training from the elementary level up to and including Collegial levels.

In addition, the Conservatory offers Suzuki method instrumental instruction, a Music for Children course based on Orff/Kodaly principles, orchestras, children's and youth choirs, chamber music ensembles, a variety of jazz combos, and a summer day camp.

Practical examinations to the Collegial II level and Theory and Ear Training examinations from the Secondary III to Secondary V levels are offered to both internal and external students. Theory and Ear Training examinations at the Elementary and Collegial I and II levels are available to internal students only.

The Conservatory also welcomes adult students (at any level) and encourages their participation not only in practical instruction but also in the orchestras, instrumental ensemble groups and Theory and Ear Training courses.

Further information is available from the McGill Conservatory of Music and on their website at www.mcgill.ca/conservatory.

12.4 Admission

12.4.1 Application Procedure

All inquiries regarding admission should be directed to the Music Admissions Office, Schulich School of Music, McGill University, 555 Sherbrooke Street West, Montreal, Quebec, H3A 1E3.

Full information, including a web-based application form, is available at www.mcgill.ca/music/prospective/undergraduate/applying.

In order to ensure proper consideration, web applications for September must be submitted by January 15. The School normally does not admit students in January. Please consult the Music Admissions Office for exceptions. Applications received after these deadlines will be considered if places are still available.

Application information should include detailed descriptions of the applicant's musical background, training and statement of intent including photocopies of diplomas, certificates and/or transcripts. An official up-to-date transcript must also be sent directly by the school attended. All applicants must arrange to have a Music Evaluation form submitted on their behalf. All supporting documents for undergraduate applications must be mailed to: McGill University, Enrolment Services Documentation Centre, 688 Sherbrooke Street West, Montreal, Quebec, H3A 3R1. All screening and audition recordings, and composition samples should be submitted directly to the Schulich School of Music: 555 Sherbrooke Street West, Montreal, Quebec, H3A 1E3.

Applicants are advised that satisfying the entrance requirements does not guarantee admission where instrumental places are limited.

12.4.2 Music Entrance Requirements

The minimum music entrance requirements are the equivalent of McGill Conservatory Collegial I Instrument or Voice (Performance applicants: Collegial II) and Secondary V Theory and Ear Training.

Approximate Equivalents to Entrance Requirements in Practical Subjects (McGill Conservatory Collegial I – Instrument/Voice)

Quebec CEGEPS	CEGEP II
Toronto Conservatory	Grade 9
Western Board	Grade 9
Mount Allison	Grade 9
Associated Board of the Royal Schools of Music	Grade 7

The above listing is intended only as a general guide. Admissibility to any program is determined by audition. Students wishing to major in Performance should be approximately two years more advanced, and be able to demonstrate potential as performers at their audition.

All applicants in piano, female voice, and in all jazz instruments will be required to submit screening material (CD, video, etc.) for preselection by January 15. Following a review of these recordings, selected applicants will be invited to attend a live audition. No live audition will be scheduled in piano, female voice, or in any jazz instrument until recordings have been received and reviewed. All applicants must perform an audition of approximately 15 minutes duration. The student should choose material that will represent different musical periods and reveal musicianship and technical proficiency to best advantage. Applicants for the Artist Diploma program must prepare an audition of recital material lasting approximately 60 minutes. For entrance audition requirements please refer to www.mcgill.ca/music/prospective/undergraduate/requirements.

The entrance audition dates for September 2009 admission are February 21 to March 1, 2009. At the time of audition, all applicants will be required to sit a rudiments/musicianship test.

The entrance audition dates for September 2010 admission are February 20 to 28, 2010.

Recorded auditions (compact disc and/or video) are acceptable when distance prevents an applicant from attending an audition in person.

Applicants for Composition are asked to submit two or three samples of their written work.

Music Education applicants are asked to outline reasons for wishing to enter the Music Education field in their statement of intent and have a letter of reference sent from someone attesting to his or her suitability for teaching.

All screening and audition recordings, and composition samples should be submitted directly to the Schulich School of Music: 555 Sherbrooke Street West, Montreal, Quebec, H3A 1E3.

12.4.3 Academic Entrance Requirements

Bachelor of Music
The applicant's entrance audition and the academic record are considered when making an admission decision. As a limit is placed upon the number of students admitted to study a particular instrument, fulfillment of the minimum entrance requirements does not guarantee acceptance. TOEFL may be required of non-Canadian students whose mother tongue is not English. It is the applicant's responsibility to make the necessary arrangements with the examining board to write the test in the country of residence.

CEGEP Applicants
Students are expected to obtain the Quebec Diploma of Collegial Studies (Diplôme d'études collégiales) in the Music Concentration or equivalent. Applicants with a DCS/DEC in a field other than Music must have the equivalent Music prerequisites. The minimum overall average required is 70%. CEGEP graduates are admitted to a three-year program.

Canadian High School (excluding Quebec) Applicants
Applicants are expected to obtain a high school graduation diploma which leads to university admission in the student's home province. Ontario high school students are normally expected to have obtained a minimum of 6 preuniversity (4U, 4M) courses, at least four of the six must have been taken at the 4U level. There are no specific non-music prerequisite courses required and the minimum overall average should be 70%. Canadian high school graduates are admitted to a four-year program.

U.S. High School Applicants
Applicants are expected to obtain a high school graduation diploma which meets the requirements for university/college admission in the U.S. The minimum overall average required is B+. There are no specific non-music prerequisite courses, or SAT and Achievement Test results required. Some credit will be granted for Advanced Placement Examinations in appropriate subjects. U.S. high school graduates are admitted to a four-year program.

International Applicants
In general, applicants must be eligible for admission to university in their country of origin and have above-average grades. Students who have completed an International Baccalaureate, a French Baccalaureate, or a minimum of three GCE "A" (Advanced) Level examinations are considered for admission into a three-year program. Normally, applicants with five GCE "O" (Ordinary) Level results, plus one year of schooling beyond the Ordinary Level, are admitted to a four-year program. Applicants with qualifications from other systems will be considered for either a three-year or a four-year program.

Transfer Students
Transfer students are considered on the basis of both their university or college work and previous studies. Normally, students are expected to complete a full year of university studies prior to applying for admission and to be in good standing as defined by the university previously attended. The minimum overall average required is a CGPA of 3.00. Transfer credits for non-music courses in which a grade of C or better has been received are granted

following an evaluation of the student's transcript. Transfer credits, with certain restrictions, are granted for music complementary or elective courses following an evaluation of the student's transcript (a higher grade may often be required). Transfer students must complete a minimum of 60 credits at McGill in order to obtain a degree.

Mature Students
Applicants who are at least 21 years of age at or before registration, who have not met the high school or CEGEP academic requirements, and who are able to demonstrate exceptional talent in their discipline may be considered for admission. Such applicants may be resident anywhere. All available academic/educational documents must be submitted. An interview may be required.

Special Students
Special Students do not need to fulfil any of the academic requirements outlined previously but are required to have the necessary music prerequisites for the courses concerned. Registration is subject to the availability of space in the course(s) concerned. Special Students are normally not entitled to lessons in an instrument or in voice. Registration is permitted for one year only, after which time the student must apply for admission to either the B.Mus. or the L.Mus. program.

Visiting Students
Individuals wishing to take courses at McGill for credit at another university may be admitted as Visiting Students provided they have the prerequisites for the course(s) concerned and have official permission from their home university.

12.4.4 Diploma Programs

L.Mus. (All Applicants)
For admission to the Licentiate program, the applicant must have completed secondary school. The applicant's music qualifications must be equivalent to McGill Conservatory Collegial II Instrument or Voice and Secondary V Theory/Ear Training. An entrance audition is required. This program is normally three years in length.

Artist Diploma (All Applicants)
For admission to the Artist Diploma program, the applicant must have a Bachelor of Music degree in Performance, the Licentiate in Music of the McGill Schulich School of Music, or the equivalent and must pass a performance audition. This program is normally two years in length.

12.4.5 Music Placement Examinations

All applicants must sit diagnostic placement examinations in Theory, Musicianship (Ear Training), Music History, Keyboard Proficiency and, for jazz majors, Jazz Materials, in order to determine their course levels. General placement/advanced standing examinations will be given during the week prior to the beginning of classes in September. Jazz Materials and Jazz Keyboard Proficiency placement exams are given on the first day of class.

Students accepted into either the Licentiate Diploma (L.Mus.) or the Artist Diploma, who have completed the degree of **Bachelor of Music** at a Canadian or American university (or the equivalent elsewhere) within the preceding three (3) years will not be required to sit the Music Placement Examinations and will be exempted from required Theory, Musicianship, and Music History, Literature or Performance Practice courses. Should such students wish to avail themselves of the diagnostic service that the Music Placement Examinations provide, they may sit them – without, however, being bound by the recommendation generated from their results. Nevertheless, should great difficulties arise in a specific class because of lack of adequate preparation, the Department Chair, upon the advice of the instructor, reserves the right to counsel the student to undertake studies at a lower level.

12.4.6 Keyboard Proficiency Test (MUSP 170)

Students entering any of the B.Mus. or L.Mus. programs should be prepared to demonstrate, in a Keyboard Proficiency Test, keyboard skills sufficient to enable them to use the piano as a tool in their studies at McGill.

Those who are unable to do so must register continuously for Keyboard Proficiency MUSP 170 until they successfully complete the course. Majors in Jazz Performance must enrol in MUJZ 170. Students in Jazz Performance who have completed MUJZ 170 and MUJZ 171, and who transfer to a Department of Music Research program, will be required to complete MUSP 172. Students who have been admitted to a degree or diploma program with keyboard as their principal instrument are exempt from the MUSP 170 Test (but not from MUSP 171 and MUSP 172).

The requirements of the Keyboard Proficiency Test are as follows:
1. Sightreading (simple two-part piece using treble, bass and alto clefs).
2. Technique (scales, triads and arpeggios). Two octaves, hands together.
3. Prepared piece (contrapuntal texture in two or three parts, or simple homophonic textures, level equivalent to McGill Conservatory Secondary III).
4. Keyboard rudiments (recognition/playing of intervals, chords, scalar patterns, etc.).

Students will not be allowed to proceed with higher-level Musicianship or Theory studies until these requirements are met. Exact test dates are determined by the Department of Music Research.

12.4.7 Readmission

Students in satisfactory standing, who have not been registered in the Schulich School of Music for one or two terms, may return to the program in which they were previously registered upon permission of the Faculty. Those who have been out for longer than two terms may be readmitted upon permission of the Faculty, subject to the student's previous record and current Faculty limitations on enrolment, but will be required to reaudition.

Students wishing to return in the Winter or Summer term must submit a request in writing to the Student Affairs Office, giving a summary of their activities during their absence. The deadline for the Winter session is November 15; for the Summer session, April 1; for the Fall session, June 1.

12.4.8 Tuition Fees

General information on Tuition and Other Fees will be found in section 3.4 “Fees”. The University reserves the right to make changes without notice in the published scale of fees.

Individual practical instruction on a main instrument or voice as indicated in the various degree and diploma programs, see section 12.3.1 “Degrees and Diplomas Offered”, is included at the per-credit rate only while the student is full-time, and for a maximum number of years according to the following table:

ENTITLEMENT

Maximum Years of Practical Instruction at the per-credit rate, 1 hour per week		
Category of Student (based on academic entrance qualifications)	B.Mus. (Perf. or Jazz Perf.)	B.Mus. (non-perf.*)
High School graduates (Gr.12) [Canadian, except Quebec; United States; Overseas]	5 years	4 years
CEGEP graduates [Holders of D.E.C. or D.C.S. in Music or a non-Music specialization]	4 years	3 years
Transfer students [from other colleges, universities or McGill faculties] or degree holders	4 years	3 years
Mature Students [without above academic qualifications but who are 21 years old as of Sept.1]	4 years	3 years

* Composition, Music Education, Music History, Theory, Faculty Program

L.Mus. students are entitled to practical instruction at the per-credit rate for a maximum of 4 years, 1 hour per week; Artist Diploma students, 2 years, 1.5 hours per week.

The maximum of 4 years of practical instruction for L.Mus. students includes instruction received while in a B.Mus. program either during or prior to registration in the L.Mus. program.

Note: Part-time students in the B.Mus. and L.Mus. programs and those who have exhausted the above-listed maxima will be charged $785 per term ($1,570 per year) for practical instruction in addition to the per-credit fees. (Artist Diploma students: $1,175 per term or $2,350 per year.)

Special or part-time **Visiting** students who are permitted to enrol for practical instruction will also be charged an extra $785 per term, in addition to the per-credit fees, as will all other students taking instruction in a **second practical subject.**

Voice Coaching (MUIN 300, MUIN 301) is available at the per-credit rate for a maximum of two terms for full-time voice students only. In all other cases, the extra fee for this course is $550 per term.

Special students in the **Opera Studio** will be charged an additional $680 per term ($1,360 per year). Degree or diploma candidates registered in Opera Studio, as well as Special students taking practical instruction at $785 per term, will be charged the per-credit fee for Opera Studio.

12.5 Academic Information

Students are required to be punctual at all classes and lessons. Grades in theoretical subjects are calculated on the basis of class work and/or examinations. Students are warned that by missing examinations or class work they risk failure in the subject concerned.

12.5.1 Ensemble Policy and Regulations

A. Preamble

The ensemble program comprises areas of activity designed to provide an enriched and cohesive curriculum in practical musicianship for every student. Much of this training is accomplished in the context of a large instrumental or choral ensemble, or specialized ensembles, over the three-year period that students normally spend on undergraduate studies.

Students are advised to check their program carefully in order to verify their basic (large) and small ensemble requirements.

Basic (large) Ensemble: All students registered as full-time or part-time students in the Department of Performance must audition for, and participate in, a basic (large) ensemble. This means that a student from the Province of Quebec must have a *minimum* of 12 credits for basic ensemble in order to graduate. A student from outside the province must have a *minimum* of 16 credits in order to graduate. In those cases where a student in the orchestral training program is registered for additional sessions, he/she must also register for basic ensemble for each additional session. (For exemptions, see section K.)

A student in the orchestral training program who is not assigned a basic ensemble following the auditions in either September or January because there is not a space available may substitute either

1. an additional small ensemble in lieu of the basic ensemble with the approval of the Chair of the Performance Department, or
2. a choral ensemble following an audition, with the permission of the Chair of the Choral Area and the Chair of the Performance Department.

Small Ensemble: With the exception of students registered in the regular Voice program, all students registered as full-time or part-time students in the Department of Performance must audition for, and participate in, a small ensemble. A student must have a *minimum* of 6 credits for small ensemble in order to graduate. With the exception of Keyboard, Guitar and Jazz students, this is an ongoing requirement.

Performance majors as well as sufficiently advanced players and singers from other programs are encouraged to participate in one or more small ensembles which meet their particular interest.

This policy and its regulations apply to all students performing in all ensembles, large or small, required, complementary, or elective. They apply also to all students who have been assigned to an ensemble for any reason, including conducting students, composers- and arrangers-in-residence, and others.

Important: This policy also applies to all students enrolled in vocal and instrumental techniques classes (MUCT 235, MUCT 335, MUIT 201, MUIT 202, MUIT 203, MUIT 204, MUIT 301, MUIT 302) and in choral and instrumental conducting classes (MUCT 315, MUCT 415, MUIT 315, MUIT 415) who are required to participate in Music Education ensemble labs. *STUDENTS IN THESE LABS MUST FILL OUT REQUEST FORMS FOR ALL ABSENCES, INCLUDING ALL FIELD TRIPS IN WHICH THEY MAY PARTICIPATE.* These forms should be returned to the Chair of the Music Education Area, *not to the Ensemble Committee;* students should consult the Chair of the Music Education Area for further details.

Note: In all cases where the term “Director” of an ensemble is used, it is understood to mean the conductor, director, stage director or coach of the ensemble.

B. Basic Ensemble Training and Assigned Small Ensembles

Basic Ensemble Training requirements vary by program and according to the student's practical concentration. For ensemble purposes, the orchestral instruments include flute, oboe, clarinet, bassoon, saxophone, french horn, trumpet, trombone, tuba, percussion, harp, violin, viola, cello and double bass. Students studying these instruments will receive their Basic Ensemble Training in the large instrumental ensembles. Students whose principal instrument is other than one of these (except voice majors) will normally receive their Basic Ensemble Training in the choral ensembles. Voice majors may choose from a group of vocal and choral ensembles appropriate to the level of their development.

In all programs which specify an assigned small ensemble, the following are considered assigned small ensembles:

MUEN 560 Chamber Music Ensemble
MUEN 578 Song Interpretation 1
MUEN 579 Song Interpretation 2
MUEN 580 Early Music Ensemble
MUEN 581 Piano Ensemble Seminar 1

MUEN 582 Piano Ensemble Seminar 2
MUEN 583 Introduction to Collaborative Piano
MUEN 584 Studio Accompanying
MUEN 585 Sonata Masterclass
MUEN 589 Woodwind Ensembles
MUEN 591 Brass Ensembles
MUEN 598 Percussion Ensembles

C. Additional Ensembles

Additional ensembles chosen by students to reflect their particular interests may, with Departmental approval, be applied as Music Elective credit. Students electing an ensemble will normally be required to audition and will be placed accordingly.

D. Assignment and Auditions

All students registered as full-time or part-time students in the Department of Performance must audition for a basic ensemble in September. A student who cannot audition for a basic ensemble at the times indicated in the calendar must give due notice to the Performance Department of their non-availability at least five days before the date of the first audition. The student must have a valid reason (i.e., illness, death in the family, career commitment, etc.). If a student misses an audition for reasons unacceptable to the Performance Department, that student will not be allowed to audition and his assignment will be left entirely to the discretion of the Performance Department. If the reason given is valid, the student will audition for whatever positions remain unassigned upon his/her arrival at the Faculty.

Assignments are posted on the Large Ensemble notice board. Reassignments may be made from time to time during a term and will also be posted. Students are reminded that auditions for major ensembles are mandatory. Students who do not take the auditions will see their assignment be left entirely to the discretion of the Performance Department.

In the case of the Jazz Ensembles, an open challenge system is used as follows:

1. At any time during a term, a student may challenge for a position in a Jazz Ensemble.
2. The challenger must speak to the band directors involved, specifying the chair being challenged.
3. The challenger will have a private audition with not less than two directors who will offer a non-binding recommendation to the student as to whether or not to proceed with the challenge.
4. Should the challenger wish to proceed, the student being challenged will be notified by the Coordinator of the Jazz Ensembles.
5. The challenge will take the form of an audition of both the regular member of the ensemble and the challenger in a full band rehearsal, following which the directors will make a decision.

E. Commitment

Ensembles are courses. Each student who has registered for an ensemble, or who has been assigned to or who is auditing an ensemble, has made a commitment to the ensemble and is required to attend all rehearsals, concerts, performances, field trips, recordings and other activities which constitute the course requirements of that ensemble. Except for reasons of ill health or in the case of an excused absence granted by the Ensemble Committee (see Section G, below), any absence may result in a failing grade for the student.

F. Failing Grade

A failing grade in any of the mandatory ensembles (Basic Ensemble, assigned small ensemble, complementary or elective ensemble) obliges the student to make up the credit at a later date. A subsequent failure in the same course may result in the student being required to withdraw from the Faculty.

G. Request to be Excused from a Rehearsal

ANY STUDENT WHO CANNOT ATTEND A REHEARSAL OR COACHING SESSION FOR ANY ENSEMBLE IS REQUIRED TO FILL OUT A ***REQUEST TO BE EXCUSED FROM ENSEMBLE*** FORM. THIS FORM IS AVAILABLE FROM THE DEPARTMENT OF PERFORMANCE OFFICE (E222).

Students are required to submit a completed copy of this form to the Department of Performance office (E222) at least eight (8) days prior to the rehearsal or coaching session which will be missed, stating the reason for the request. Students who have missed a rehearsal or coaching session due to illness must submit one of these forms within three (3) days of returning to school. **In such cases a doctor's certificate or statement from the Student Health Service must be attached to the form.**

Ensemble Committee meets weekly during the term to consider the requests, and approve or refuse each individual case. Students are welcome to appear at this meeting to explain particular circumstances affecting their request. Students should check the Performance notice board after the day the form is submitted to find out if their request has been approved.

Students may be excused from a rehearsal or coaching session of an ensemble for the following reasons:

1. Sickness, or emergency medical or dental work.
   IMPORTANT NOTE
   ANY STUDENT WHO IS EXPERIENCING PAIN WHILE PLAYING OR SINGING SHOULD INFORM THEIR PRACTICAL TEACHER AND THE DIRECTOR OF THEIR ENSEMBLE(S), AND SHOULD SEEK APPROPRIATE MEDICAL ATTENTION. Students should not be reluctant to admit to injury; *it is entirely acceptable for students to be excused from ensemble rehearsal(s) for health reasons.* The Faculty does not want students to perform with pain or with injury.
2. An audition for a permanent professional engagement
3. A master class
4. A major competition
5. A professional engagement deemed, in the opinion of the Ensemble Committee, to be very important for a student's developing career
6. Family emergency or an especially important family occasion
7. A conflict between an irregularly scheduled ensemble rehearsal or coaching session and a previous important commitment made by the student (proof required)
8. A field trip for another ensemble or class
9. An authorized McGill function
10. A religious holiday

For Nos. 2, 3, 4 and 5, the request must be accompanied by authorization from the student's practical teacher and the appropriate area Chair. This permission is given for no more than three (3) rehearsals or coaching sessions.

Note: NO PERMISSION IS GIVEN TO BE EXCUSED FROM A DRESS REHEARSAL OR FROM A CONCERT EXCEPT FOR NO. 1 AND NO. 2 ABOVE. IN THE CASE OF OPERA MCGILL, NO ONE CAN BE EXCUSED FROM REHEARSALS DURING THE THREE (3) WEEKS PRECEDING THE OPENING NIGHT PERFORMANCE.

Students are not excused from ensemble rehearsals or coaching sessions for either of the following reasons:

1. Gigs
2. Non-emergency medical or dental appointments. Students should request appointment times that do not conflict with rehearsals or coaching sessions.

H. Preparation

If the Director of an ensemble is not satisfied with the quality of preparation that a student has been making for the ensemble, the Director shall first warn the student. This warning shall be communicated by the Director to the Ensemble Committee, which shall inform the student in writing. If, in the Director's opinion, this lack

of preparation continues, the student will be required to perform the music for a committee consisting of the Director of the ensemble, the Chair of the area (Orchestral Training, Choral, Opera, Voice, etc.) and the Department Chair. If this committee decides that there has been a lack of sufficient preparation, the student will be required to appear before the Ensemble Committee to show cause why he or she should not be required to withdraw.

For any particular performance, if – after a written warning to the student(s) at least two (2) weeks prior to the performance, with a copy to the Ensemble Committee – the Director, in consultation with his/her coaches, feels that the performance of a student or group of students will not meet a certain minimum standard established by the Director, the Director may cancel the performance of the student(s).

I. Discipline

The Director of an ensemble may recommend that a student withdraw from an ensemble for disciplinary reasons. A student asked to do so will be required to appear before the Ensemble Committee to show cause why he or she should not be required to withdraw.

Students who are required to withdraw from an ensemble for reasons of lack of preparation or discipline will be given a grade of F which will be reflected in their Grade Point Average (GPA).

J. Withdrawal

Withdrawal for any reason obliges the student to make up the credit(s) at a later date.

K. Exemption from a Required Ensemble

In order to be given permission not to participate in a required ensemble for a term or part thereof, a student must:

i. be a participant in a major national or international competition, or (in the case of voice students) be given a significant role with a recognized performing arts ensemble, and (in the case of all students) have completed the minimum number of required terms of the ensemble, and have the permission of:
   1. his or her practical teacher
   2. the area Chair
   3. the Director of the ensemble
   4. Chair of the Orchestral Training, Choral, Opera or Voice Area (where appropriate)
   5. Ensemble Committee

or

ii. have completed all program requirements except the final exam on his or her instrument

or

iii. have completed all musical requirements of his or her program, having only Arts and Science electives remaining

or

iv. have a significant medical reason.

NOTE:

1. Permission not to participate in a required or complementary ensemble for a term or part thereof **is not an exemption** and does not satisfy any credit requirements for a degree.
2. Students who are given permission not to participate in Orchestra (MUEN 597) for a term or part thereof may be ineligible to hold an Orchestral Instruments Scholarship for that term and may be ineligible for consideration for an Orchestral Instruments Scholarship for the following year based on that term.

L. Substitution of an Ensemble

1. In order to be given permission to substitute another large ensemble for a required or complementary large ensemble for a term, a student must:

   I. have completed the minimum number of terms in the required or complementary large ensemble

   and

   II. have the permission as in K.i. (1-5) above, with the added condition that the Director of the required or complementary large ensemble may refuse consent for the simple reason that the student is needed in that ensemble.

2. Keyboard and Guitar Performance majors in all programs may substitute up to two (2) terms of Studio Accompanying (MUEN 584) for two (2) terms of Choral Ensemble.
3. Performance majors are not permitted to substitute Basic Ensemble credits for required or complementary assigned small ensemble credits.

M. Rotation

Whenever possible and musically satisfactory, and in order to ensure equal opportunity and experience for students in the large instrumental ensembles, the seating of students in these ensembles may be rotated periodically throughout the term or year. The Director of the ensemble will determine whether or not rotation is possible and musically satisfactory.

N. Missed Classes due to Field Trips

Situations will arise where students are required to miss classes – both in the Schulich School of Music as well as in other faculties – because of field trips. Teaching staff in the Schulich School of Music are encouraged to assist students who approach them for information about course content and assignments that have been missed. Nonetheless, *the onus remains on the student who goes on a field trip to complete class work.*

O. Transfer Credits

The previous ensemble participation of students coming to McGill from other universities will be recognized if their ensemble experience was similar to that required of McGill students. In general, transfer credit is made on a term-for-term basis (not by credits) and usually does not exceed two (2) terms. Students are normally not permitted to reduce the Basic Ensemble Training requirements of their McGill program to less than the number of terms required for them to complete the rest of their program. In such cases, transfer credit may be given as Music and/or Free Elective credit.

P. Extra Basic Ensemble Training Credits

Basic Ensemble Training credits accumulated above the minimum may be applied as Music and/or Free Elective credits.

Q. Performance Library

Students are responsible for the music which has been loaned to them for their use, and for its return in good condition to the Performance Library. Students will be required to pay for the replacement of any music which has been lost, stolen or damaged.

12.5.2 Accompanying

All Music students registered for practical instruction (including elective study) are eligible for subsidized accompaniment up to a specified maximum number of hours. Students wishing to use this program should request further details from the Department of Performance office.

12.5.3 Academic Category

All Music students are registered in one of the following categories:

Major: B.Mus. candidates may choose one or more of several majors as described under section 12.6 “Programs of Study”.

Honours: A more intensive program than a major, B.Mus. students may choose one or more honours programs as described under section 12.6 “Programs of Study”. Generally, an honours degree in the appropriate field is prerequisite to graduate study.

Faculty Program: A general B.Mus. program (section 12.6.2.8 “Faculty Program”).

L.Mus., Artist Dip.: Diploma programs are designed for advanced instrumentalists and singers who wish to concentrate on their practical subject.

Special: Those who are not proceeding towards a degree or diploma.

Visiting: Those taking courses at McGill for credit towards a degree at another university.

12.5.4 Auditing

For information on auditing, see Auditing of Courses, section 3.3.14.

12.5.5 Music/Free Electives

Unless otherwise specified, any music course numbered at the 200 level or higher which is not a required course in the student's program can be counted as a Music and/or Free Elective in the B.Mus. or Artist Diploma programs. Under certain conditions, two credits per term of practical instruction may be applied as Music and/or Free Electives only if the lessons are taken after completion of the final examination and/or completion of the number of terms designated in the student's program. Practical instruction in a second instrument at the 100 level, Jazz Materials 1 (MUJZ 160), and Jazz Materials 2 (MUJZ 161) may be taken for elective credit. Consult the Student Affairs Office for details. Basic Ensemble credits accumulated above the minimum may be applied as Music and/or Free Elective credits.

12.5.6 Non-Music Electives

In all B.Mus. programs, students are required to complete a minimum of 18 elective credits from courses offered by other faculties. Students admitted from high schools outside Quebec, not holding a DCS, must complete an additional 6 credits of non-music electives for a total of 24. Students holding a DCS in a non-Music program are exempt from 6 credits of their requirement. Students should note that certain programs have requirements in addition to the above.

The Schulich School of Music allows up to 12 credits in English as a Second Language as a non-music elective in the B.Mus. program. These credits may be taken in the Faculty of Arts at the Intermediate or Advanced level OR they may be taken at the Centre for Continuing Education at level 4 or above.

12.5.7 Distance Education (online) Courses

Students may take a maximum of six credits of non-music elective courses taught through distance education towards their B.Mus. degree at McGill. Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:

- The course is given by a government-accredited, degree-granting institution acceptable to McGill;
- The course counts for credit towards degrees granted at the institution giving the course;
- Prior approval for the course is obtained from the Music Student Affairs Office.

12.5.8 Course Changes

Students are permitted to change courses and/or sections of a course during the first two-week period of classes in each term. This is referred to as the official Course Change Period. Course and section changes are made by the student, using Minerva to access his/her record directly. Worksheets for this purpose are available at the Student Affairs Office on the 7th floor of the New Music Building. For more information, see section 3.3.7 "Course Change Period".

Late course change requests, if approved, will be processed only upon payment of a fee of $25. No charge will be made for late changes imposed by the Faculty. If students' registrations must be corrected after the Course Change Period to bring their records into conformity with the courses they are actually taking, the students will be charged the late fee.

12.5.9 Withdrawal from Course(s)

Students are permitted to withdraw from courses other than practical instruction or ensembles after the end of the Course Change Period. In such cases the student's mark in the course will be W. Course withdrawals are also processed on Minerva, within permissible dates. For more information, see section 3.3.8 "Regulations Concerning Course Withdrawal".

The final deadlines for withdrawing from Music courses are:

For a one-term course: The end of the seventh week of classes.

For a two-term course: The end of the Course Change period in the second term.

THE DEADLINE FOR WITHDRAWING FROM PRACTICAL LESSONS AND ENSEMBLES IS THE END OF THE SECOND WEEK OF CLASSES IN ANY TERM.

Music students who, in special circumstances such as illness or injury, are given permission to withdraw from practical instruction after the end of the Course Change Period will be charged $65 per week for 1-hour lessons and $97.50 per week for 1.5 hour-lessons up to a maximum equivalent to the total fees charged for the course. Full refunds for practical instruction will be given up to the end of the Course Change Period.

Note: Students who do not complete a course for which they remain registered will receive a grade of F or J.

For information on the REFUND POLICY, please see section 3.3.8 "Regulations Concerning Course Withdrawal".

12.5.10 Incompletes

At the discretion of the instructor, a mark of K (Incomplete) may be given to a student who, due to extenuating circumstances, has not finished the coursework on time. The deadline for completion and submission of the required work shall be set by the instructor but may not be later than four months after the K was given. A special form for incompletes, available from the Student Affairs Office, must be signed by the student and the instructor by the last day of lectures. If the "Incomplete" is not removed by this time, the mark will be changed to KF (Incomplete Failed), unless an extension has been granted (KE). Completion of the course will cause the K to be replaced on official transcripts by the mark earned. A mark of K not cleared by mid-May makes the student ineligible for scholarships.

In exceptional cases, when research or an assignment cannot be completed for reasons beyond the student's control, students may be given permission by their Departmental Chair or the Associate Dean (Student Affairs) to leave a course permanently incomplete (without penalty). The symbol K will be replaced by KK, in which case the student's Grade Point Average will be calculated without including this course.

12.5.11 Deferrals

Deferred examinations are permitted in the case of illness or other exceptional circumstances. Music students requesting a deferred examination in academic courses must submit the Request for a Deferred Examination form to the Senior Student Adviser. Students requesting a deferred examination in a practical music examination must submit the form to the Performance Department Chair. Supporting evidence such as an appropriate medical note is required. If the request is approved, an L (deferred) will appear in place of a grade. The grade obtained in the deferred examination will replace the grade of L (deferred) on the official transcript.

Deferred examinations in Music academic courses are given at the discretion of the instructor. A deferred examination in a Music practical examination will be held during the next examination period. Deferred examinations in non-Music courses will be held in May for the Fall term and August for the Winter term. Examinations will follow the rules of the faculty concerned. **It is the student's responsibility to check the date, time and place of the deferred examination**.

A mark of L (deferred) not cleared by mid-May makes the student ineligible for scholarships.

Students who are unable to write a deferred exam must contact the Music Student Affairs Office immediately to initiate a withdrawal from the deferred exam. Deferred examinations cannot be written at a later date. If the withdrawal is not approved, a final grade of J (absent) will be entered and will count as a zero in the TGPA/CGPA.

12.5.12 Supplementals

Supplemental examinations in Music academic courses may be given at the discretion of the instructor. A student who receives a mark below 30% in a course is not permitted to take a supplemental examination but must repeat the course.

12.5.13 Rereading of Examinations

A student wishing to have an examination paper reread should apply in writing to the Associate Dean (Student Affairs). The mark given in the rereading, whether higher or lower, will replace the mark originally given. Any request to have a term paper or other coursework reassessed must be made directly to the instructor concerned.

12.5.14 Academic Standing

Academic standing is based primarily on students' cumulative grade point average (CGPA), but may also be affected by their term grade point average (TGPA). Academic standing, which is assessed after the end of each term, determines if students will be allowed to continue their studies in the next term and if any conditions will be attached to their registration.

Decisions about academic standing in the Fall term are based only on grades that are available in January. Grades for courses in which students have deferred examinations and Fall-term grades for courses that span the Fall and Winter terms do not affect academic standing for the Fall term, even though they will ultimately affect students' Fall TGPA. Therefore, academic standings for the Fall term are designated as "interim" and should be interpreted as advisory; moreover, interim standings will not appear on external transcripts. **Interim standing decisions are mentioned below only if the rules for them differ from those for regular standing decisions.**

Satisfactory/Interim Satisfactory Standing

Students in satisfactory standing may continue in their program.

- New students are admitted to satisfactory standing.
- Students with a CGPA of 2.00 or greater are in satisfactory standing.

Probationary/Interim Probationary Standing

Students in interim probationary standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult a departmental adviser, before the withdrawal deadlines, about their course selection for the Winter term.

- Students who were previously in satisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99.
- Students who were previously in probationary standing will remain in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher, although the TGPA requirement will not apply to the Summer term.
- Students who were previously in interim unsatisfactory standing will be placed in probationary standing if their CGPA falls between 1.50 and 1.99 and their TGPA is 2.50 or higher.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean (Student Affairs) will be placed in probationary standing if their CGPA is less than 2.00, but if they satisfy relevant conditions specified in their letter of readmission.

Readmitted Unsatisfactory Standing

Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean will have their standing changed to readmitted unsatisfactory standing. Their course load is specified in their letter of readmission as are the conditions they must meet to be allowed to continue in their program. They should see the Senior Student Adviser to discuss their course selection.

Unsatisfactory/Interim Unsatisfactory Standing

Students in interim unsatisfactory standing may continue in their program, but should evaluate their course load and reduce it as appropriate. They are strongly advised to consult the Senior Student Adviser, before the withdrawal deadlines, about their course selection for the Winter term.

Students in unsatisfactory standing who have failed to meet the minimum standards set by the Faculty may not continue in their program and their registration will be cancelled.

Appeals for readmission by students in unsatisfactory standing should be addressed to the Associate Dean no later than July 15 for readmission to the Fall term and November 15 for the Winter term. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation). Students in unsatisfactory standing for the second time must withdraw permanently.

Normally, supplemental examinations are not permitted; however, students in unsatisfactory standing may appeal to the Senior Student Adviser for permission to write a supplemental examination, clearly stating the reasons for special consideration and providing proof as appropriate.

- Students will be placed in unsatisfactory standing (Winter or Summer term) or interim unsatisfactory standing (Fall term) if their CGPA falls or remains below 1.50.
- For the Fall and Winter terms, students who were previously in probationary, readmitted unsatisfactory, or interim unsatisfactory standing will be placed in unsatisfactory standing if their TGPA falls below 2.50 and their CGPA is below 2.00.
- Students who were previously in unsatisfactory standing and who were readmitted to the Faculty by the Associate Dean (Student Affairs) who have not at least satisfied the conditions to attain probationary standing that were specified in the letter of readmission will be placed in unsatisfactory standing.

Incomplete Standings

Standing awaits deferred exam.
Must clear K's, L's or Supplementals.
Standing Incomplete.

Students with incomplete standings in the Winter or Summer term may register for the Fall term, but their standing must be resolved by the end of the Course Change Period for that term. Students whose incomplete standing changes to satisfactory, probationary, or interim unsatisfactory standing may continue in the program. Students whose standing changes to unsatisfactory standing may not continue in their program.

Students whose standing changes to unsatisfactory and who wish to ask for permission to continue in their program must make a request to the Associate Dean (Student Affairs) as soon as they are placed in unsatisfactory standing. Readmission will be considered only when proof of extenuating circumstances that affected academic performance can be provided (e.g., medical or other documentation).

Students whose standing is still incomplete by the end of Course Change Period should immediately consult with the Student Affairs Office.

12.5.15 Graduation Requirements

1. Completion of all courses and proficiency requirements specified in the candidate's program. Students registered in two programs must fulfil all requirements for both programs. A minimum grade of C (or higher, depending on the program) must be achieved in all required courses, all complementary courses specified by course number, and in those courses which are prerequisites or corequisites. A grade of D (non-continuation pass) is acceptable only in terminal elective courses or complementary courses that are not specified by course number.
2. Minimum cumulative grade point average of 2.00.
3. Completion of a minimum of credits in residence at McGill University (B.Mus.: 60 credits, L.Mus.: 48 credits, Artist Dip.: 32 credits).

For more information on applying to graduate, see section 3.9 "Graduation".

12.5.16 Graduation Honours

For information on the designation of Dean's Honour List awarded at graduation, see section 3.9.1.1 "Dean's Honour List".

For information on the designation of Distinction awarded at graduation, see section 3.9.1.2 "Distinction".

Departments may recommend to the Faculty that students be awarded Outstanding Achievement in recognition of superior performance on an instrument or in an academic discipline.

Note: the designation of High Distinction is no longer awarded at graduation. Prior to 2009, High Distinction was awarded at graduation according to Faculty regulations. You can find these rules in the Schulich School of Music chapter of the 2008-2009 Undergraduate Programs Calendar or any earlier version at www.mcgill.ca/courses.

12.6 Programs of Study

12.6.1 Four-Year Program (Prerequisite Courses)

Students who hold a high school graduation diploma (minimum years of schooling: 12) from other provinces, the United States or overseas may apply for admission to any of the Major or Honours programs leading to the Bachelor of Music Degree, and may be admitted to a program of approximately 120 credits, normally requiring four years to complete. These programs will include the following prerequisite courses in addition to the requirements listed in:

- section 12.6.2 "Department of Music Research: Composition; Music History; Theory; Faculty Program"
- section 12.6.3 "Department of Performance"
- section 12.6.4 "Designated Major Program"
- or section 12.6.5 "B.Mus./B.Ed. Bachelor of Music and Bachelor of Education Concurrent Program"

All students take:		**CREDITS**
MUHL 184	History Survey Before 1750	3
MUHL 185	History Survey After 1750	3
MUSP 129	Musicianship 1	2
MUSP 131	Musicianship 2	2
MUTH 110	Melody and Counterpoint	3
MUTH 111	Elementary Harmony and Analysis	3
	Basic Ensemble Training	4
	Arts/Science Elective	6
Credits taken by all students		26

Additional courses for Non-Jazz/Non-Performance Majors:			
MUSP 170	Keyboard Proficiency	1	
MUSP 171	Keyboard Lab 1	1	
MUSP 172	Keyboard Lab 2	1	
	Practical Study	4	7
Total for students other than Jazz or Performance Majors			**33**
Additional courses for Performance Majors:			
MUPG 100	Life as a Professional Musician	1	
MUSP 170	Keyboard Proficiency	1	
MUSP 171	Keyboard Lab 1	1	
MUSP 172	Keyboard Lab 2	1	
	Practical Study	8	12
Total for Performance Majors			**38**
Additional courses for Jazz Majors:			
MUEN 570	Jazz Combo	2	
MUJZ 160	Jazz Materials 1	3	
MUJZ 161	Jazz Materials 2	3	
MUJZ 170	Jazz Keyboard Proficiency 1	1	
MUJZ 171	Jazz Keyboard Proficiency 2	1	
MUPG 100	Life as a Professional Musician	1	
	Practical Study	8	19
Total for Jazz Majors			**45**

Applicants who can demonstrate through auditions and placement tests that they have mastered the material in any of the above courses will be exempt from them and may proceed to more advanced courses.

Incoming jazz students must take 4 credits of non-jazz Basic Ensemble in the prerequisite year. They may substitute, with Performance department approval, non-jazz basic ensemble from another college or university for the extra credits required of non-Quebec applicants. Incoming jazz guitarists and pianists are automatically exempt from MUJZ 170 and MUJZ 171.

12.6.2 Department of Music Research: Composition; Music History; Theory; Faculty Program

At both the undergraduate and graduate levels, the Department embraces the disciplines of Composition, Music Education, Music History, and Theory; and at the graduate level, Music Technology and Sound Recording. The philosophy of the Department is to encourage integration of the disciplines as much as possible within the learning process in each program of study: the development of basic musicianship, the absorption of the grammar and syntax of musical discourse, and the study of the world of ideas are understood as interconnected.

Honours programs provide a high degree of specialization and are a foundation for graduate-level study leading to academic careers in each discipline. Majors programs offer the student some focus with the flexibility to pursue other areas of interest. The Faculty Program is intended to offer an option for individual and creative plans of study. All of the Department's programs give a solid grounding in analytic, synthetic, and writing skills that are useful preparation not only for the musical profession but also for professions as diverse as law, journalism, management, and librarianship.

The Music Education program combines an orientation towards a professional career in primary and secondary schools with sensitivity to broader intellectual frameworks against which teachers should understand their roles. This program is offered concurrently with the B.Ed., Music.

The Department also offers a Minor in Music History to Performance majors who seek to place their work in a larger context, and Minors in Musical Applications of Technology and Musical Science and Technology to Music students and to students from other faculties.

For each program, all courses listed are REQUIRED Courses unless otherwise indicated.

12.6.2.1 B.Mus. with a Major in Composition

For prerequisite requirements for this program, see section 12.6.1 "Four-Year Program (Prerequisite Courses)".

REQUIRED COURSES (50 Credits)

		CREDITS
COMPOSITION		**31**
