1 About the Faculties

In September 2005, the Faculties of Arts and of Science introduced the Bachelor of Arts and Science degree. The Bachelor of Arts and Science (B.A. & Sc.) is a special and unique degree that is jointly offered by McGill's two largest faculties: the Faculty of Arts and the Faculty of Science.

The B.A. & Sc. is intended for students with well-defined interdisciplinary interests, and is not meant as a 'compromise' between a B.A. and a B.Sc. degree. If you are more interested in Arts, but would like to study some Science, you can do so within the B.A. degree. Similarly, if you are more interested in Science, but would like to study some Arts, you can do so within the B.Sc. degree.

To learn more about the Faculty of Arts, see [Faculty of Arts > The Faculty > : About the Faculty of Arts](#). To learn more about the Faculty of Science, see [Faculty of Science > The Faculty > : About the Faculty of Science](#).

2 Programs and Teaching in Arts and in Science

Programs and teaching in Arts are described in [Faculty of Arts > The Faculty > : Programs and Teaching in Arts](#). Those in Science are described in [Faculty of Science > The Faculty > : Programs and Teaching in Science](#). The two faculties jointly offer the B.A. & Sc., so students pursuing that degree are at home in both Arts and Science.

3 About the Bachelor of Arts and Science (Undergraduate)

In September 2005, the Faculties of Arts and of Science, McGill's two largest faculties, introduced the Bachelor of Arts and Science degree (B.A. & Sc.).

The programs in the B.A. & Sc. are rooted in both Arts and Science and carry roughly equal course weight in these faculties. The B.A. & Sc. is an interdisciplinary degree intended for students who want to pursue simultaneously a program offered by the Faculty of Arts and one offered by the Faculty of Science, or a program offered jointly by both faculties. In the case of some disciplines, such as Sustainability or Cognitive Science, this duality is inherent to the discipline. In other cases, the student may choose to join equal measures of an arts discipline and science discipline into a coherent interdisciplinary package. Examples might be Anthropology and Physical Geography, or Philosophy and Mathematics. The central objective of the B.A. & Sc. is to provide students with a broad education that includes study of disciplines in both faculties. This degree gives students a unique opportunity to achieve a diverse knowledge base, to gain competence in different methods of scholarship, to hone intellectual flexibility, and to integrate material across disciplines.

By choosing their programs appropriately, students who obtain a B.A. & Sc. are well prepared to pursue employment or postgraduate studies, in a wide variety of fields. The varied intellectual skills they have developed render them extremely attractive candidates for potential employers, for professional programs in fields such as business, law, and medicine, and for graduate programs in traditional and interdisciplinary departments.

This is the right degree for students who are firmly committed to such a disciplinary duality. By the same token, it is the wrong choice for students who are undecided between arts or science disciplines. Because the B.A. & Sc. is intended for students with well-defined interdisciplinary interests, it is not meant as a "compromise" between a B.A. and a B.Sc. degree. If students are more interested in [arts](#), but would like to study some science, they can do so within the B.A. degree. Similarly, if students are more interested in [science](#), but would like to study some arts, they can do so within the B.A. & Sc. degree.

She also offers help managing academic situations during periods of personal, financial, or medical problems, by working with you to identify various possibilities and strategies for making informed decisions.

Special requests can be made in writing to the Associate Dean (Student Affairs) Science, who is responsible for students pursuing a B.A. & Sc. degree.

The Committee on Student Standing (CSS) of the Faculty of Science will consider appeals of the Associate Dean (Student Affairs), Science's decisions. For information about CSS, see the assistant for Associate Dean (Student Affairs) Science.

For more information, refer to the SOUSA website: mcgill.ca/science/undergraduate/advice/sousa.

4 Degree Admission Requirements

For information about admission requirements to the B.A. & Sc., refer to the *Undergraduate Admissions Guide*, found at mcgill.ca/undergraduate-admissions/apply.

For information about interfaculty transfers, refer to [University Regulations and Resources > Undergraduate > Registration > : Interfaculty Transfer](#), as well as to the relevant information posted on the Science Office for Undergraduate Student Advising (SOUSA) website at mcgill.ca/science/undergraduate/handbook#degree-transfers.

5 Degree Requirements

Each student pursuing a B.A. & Sc. degree must be aware of the regulations as stated in this section of this publication, on the McGill website, and on the [Science Office for Undergraduate Student Advising \(SOUSA\) website](#).

While departmental and faculty advisors and staff are always available to give advice and guidance, the ultimate responsibility for completeness and correctness of course selection and registration, for compliance with, and completion of, program and degree requirements, and for the observance of regulations and deadlines rests with you. It is the student's responsibility to seek guidance from the SOUSA if in any doubt; misunderstanding or misapprehension will not be accepted as cause for dispensation from any regulation, deadline, program, or degree requirement.

To be eligible for a B.A. & Sc. degree, students must fulfil all Faculty degree and program requirements as indicated in the following sections:

- [section 5.1: Minimum Credit Requirement](#)
- [section 5.2: Residency Requirement](#)
- [University Regulations and Resources > Undergraduate > Student Records > : Grading and Grade Point Averages \(GPA\)](#)
- [section 5.3: Time and Credit Limit for Completion of the Degree](#)
- [section 6: Course Requirements](#)

5.1 Minimum Credit Requirement

You must complete the minimum credit requirement for the degree as specified in your letter of admission.

Students are normally admitted to a four-year degree requiring the completion of 120 credits, but Advanced Standing of up to 30 credits may be granted if you obtain satisfactory results in the Diploma of Collegial Studies, International Baccalaureate, French Baccalaureate, Advanced Levels, and Advanced Placement tests.

If you are readmitted after interrupting your studies for a period of five consecutive years or more, you may be required to complete a minimum of 60 credits and satisfy the requirements of a program. In this case, a new GPA will be calculated. The Associate Dean, Student Affairs, Science, in consultation with the appropriate department, may approve a lower minimum for students who had completed 60 credits or more before interrupting their studies.

If you are readmitted after a period of absence, you are normally subject to the program and degree requirements in effect at the time of readmission.

5.2 Residency Requirement

To obtain a B.A. & Sc., you must satisfy the following residency requirements: a minimum of 60 credits of courses used to satisfy the B.A. & Sc. requirements must be taken and passed at McGill, exclusive of any courses completed as part of the math and science requirements of the B.A. & Sc. Freshman/Foundation Year program. At least two-thirds of all departmental program requirements (multi-track, honours, interfaculty) must normally be completed at McGill, not including courses completed in a prior McGill degree. Exceptionally, students in major concentrations or interfaculty or honours programs who pursue an approved Study Away or Exchange program may, with prior approval from both their department and the Associate Dean, Student Affairs, Faculty of Science, be exempted from the two-thirds rule. In addition, some departments may require that their students complete specific components of their program at McGill.

5.3 Time and Credit Limit for Completion of the Degree

If a student needs 96 or fewer credits to complete their degree requirements, that student is expected to complete their degree in no more than eight terms after their initial registration. If a student is in the Freshman/Foundation Year program, they become subject to these regulations one year after the initial registration. If a student needs or wants to exceed this time limit, they must receive permission from the Associate Dean, Student Affairs, Science, to continue their studies.

If a student is registered in the B.A. & Sc., they are expected to complete the requirements of their program and degree within 120 credits. Students will receive credit for all courses (subject to degree regulations) taken up to and including the semester in which they obtain 120 credits. If a student wants to remain at McGill beyond that semester, they must also seek permission of the Associate Dean, Student Affairs, Science. Permission for exceeding the time and/or credit limits will normally be granted only for valid academic reasons, such as a change of program (subject to departmental approval) and part-time status. If permission is granted, that student will receive credit only for required and complementary courses necessary to complete program requirements.

5.4 Departmental Programs

If students are pursuing a B.A. & Sc., other than those registered in the Freshman/Foundation Year program, they are required to have an approved program (multi-track, joint honours, interfaculty, honours), and to select their courses in each term with a view to timely completion of your degree and program requirements. Students must complete one of the program streams described below.

5.4.1 Multi-Track

To recognize the diversity of student backgrounds and interests, and the multiple routes to understanding provided by a modern university, the Faculties of Arts and of Science offer a 90-credit multi-track program that includes a major concentration in one faculty complemented by a major concentration in the other faculty (see below):

Option

- Arts Major Concentration (36 credits) + Science Major Concentration (36–38 credits) (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B.A. & Sc.)
- The required integrative course BASC 201 (3 credits)

Regulations

- Programs offered by Computer Science, Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc. Exceptionally, you may take a Geography program in both Arts and Science.
- Students will include within the 36 credits of their major concentrations any university-level (200 or above) prerequisites to required courses within their programs.
- No course may fulfil the requirements for more than one program.

Definitions

- *Units*: academic departments or administrative equivalents
- *Programs*: lists of required and complementary courses (including university-level prerequisites for required courses) prepared and maintained by units
- *Major Concentration*: a program of 36–38 credits taken from a unit's course offerings

5.4.2 Joint Honours Program

If students want to study at the honours level in two disciplines, they can combine a joint honours program component from an Arts discipline with one from a Science discipline; see [section 10.4: Joint Honours Programs](#) for a list of available programs. Each joint honours component consists of a maximum of 36 required and complementary credits (not including program prerequisites). In cases where a minimum of 24 credits are in courses normally restricted to honours students, the total of required and complementary credits may be as few as 30.

To choose the joint honours option, students must meet the GPA/cGPA requirements set out in [University Regulations and Resources](#) > Undergraduate > Graduation > Graduation Honours > [Honours and First-Class Honours for Faculties of Arts and Science \(including B.A. & Sc.\)](#).

Option

- Arts Joint Honours (36 credits) + Science Joint Honours (36 credits). (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B. A. & Sc.)
- The required integrative course BASC 201 (3 credits)
- 13–15 credits of electives

Regulations

- Programs offered by Mathematics and Statistics, and Psychology are considered Science programs for the purpose of the B.A. & Sc.
- Students will include within the 36 credits of their major concentrations any university-level (200 or above) prerequisites to required courses within their programs.
- No course may fulfil the requirements for more than one program.

5.4.3 Interfaculty Program

An interfaculty program is an approved selection of courses constituting a concentration in an intellectually coherent and interfaculty field of studies. These courses must include approved selections from the Faculties of Arts and of Science and possibly other faculties. See [section 10.5: Interfaculty Programs](#) for a list of approved programs. Students in the B.A. & Sc. who complete an approved interfaculty program must also complete an approved minor concentration or a minor in the Faculties of Arts or of Science. Students must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of the interfaculty program and the minor concentration or minor program.

Option

- Interfaculty Program (54 credits) + Minor or Minor Concentration (18 to 24 credits) (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B.A. & Sc.)
- The integrative course BASC 201 (3 credits) is recommended
- 12–18 credits of electives

Regulations

- Students must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of the interfaculty program and minor concentration or minor program
- No course may fulfil the requirements for more than one program

5.4.4 Honours Program

Honours programs demand a high degree of specialization and require students to satisfy specific departmental and faculty honours requirements while maintaining good Academic Standing. They are designed to prepare students for graduate study. Students in the B.A. & Sc. who complete an approved honours program must also complete an approved minor concentration or a minor in the Faculties of Arts or of Science. Students must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of the honours program, minor concentration, or minor program. See [section 10.3: Honours Programs](#) for a list of available programs.

Option

- Honours Program (60 credits) + Minor or Minor Concentration (18 to 24 credits) (see [section 10: Overview of Programs Offered](#) for a list of programs open to students in the B.A. & Sc.)
- The integrative course BASC 201 (3 credits) is recommended
- Minimum cGPA at graduation of 3.00 (minimum cGPA at graduation of 3.50 for first-class honours)
- Some departments have additional requirements which must be met before students are recommended for honours or first-class honours
- 6–12 credits of electives

Regulations

- Students must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of the interfaculty program and minor concentration or minor program
- No course may fulfil the requirements for more than one program

To choose the honours option, students must meet the GPA/cGPA requirements set out in [University Regulations and Resources](#) > [Undergraduate](#) > [Graduation](#) > [Graduation Honours](#) > : [Honours and First-Class Honours for Faculties of Arts and Science \(including B.A. & Sc.\)](#).

6 Course Requirements

All required and complementary courses used to fulfil program requirements, including the Freshman/Foundation Year program, must be completed with a grade of C or better. If you fail to obtain a satisfactory grade in a required course, you must either pass the supplemental examination in the course or do additional work for a supplemental grade, if these options are available, or repeat the course. Course substitution will be allowed only in special cases; students should consult their academic advisor by phone number or email found at mcgill.ca/science/undergraduate/advice/sousa.

Normally, you are permitted to repeat a failed course only once. Failure is considered to be a grade of less than C or the administrative failures of J and KF. If a required course is failed a second time, you must appeal to the Associate Dean, Student Affairs, Science, for permission to take the course a third time. If permission is denied by the Associate Dean and/or by the Committee on Student Standing of the Faculty of Science, on appeal, you must withdraw from the program. If the failed course is a complementary course required by the program, you may choose to replace it with another appropriate complementary course. If you choose to substitute another complementary course for a complementary course in which a D was received, credit for the first course will still be given, but as an elective. If you repeat a required course in which a grade D was received, credit will be given only once.

In addition, if you are in the multi-track program or the joint honours program, you must complete the integrative course BASC 201 (3 credits).

For a complete list of programs available to B.A. & Sc. students, and full details of the course requirements for all programs as well as the locations of departmental advisory offices, program directors, and telephone numbers for further information, see [section 10: Overview of Programs Offered](#).

6.1 Course Overlap

You will not receive additional credit towards your degree for any course that overlaps in content with a course for which you have already received credit at McGill, CEGEP, at another university, or advanced placement exams, advanced level results, International Baccalaureate Diploma, or French Baccalaureate. It is your responsibility to consult with a faculty advisor in [Arts Academic Advising](#) (OASIS), the [Science Student Advising](#) (SOUSA), or the department offering the course as to whether or not credit can be obtained and to be aware of exclusion clauses specified in the course description in this publication. Please refer to the following website for specific information about Advanced Standing credits and McGill course exemptions: mcgill.ca/transferecredit.

Sometimes, the same course is offered by two different departments. Such courses are called 'double-prefix' courses. When such courses are offered simultaneously, you should take the course offered by the department in which you are obtaining your degree. For example, in the case of double-prefix courses CHEM XYZ and PHYS XYZ, Chemistry students take CHEM XYZ and the Physics students take PHYS XYZ. If a double-prefix course is offered by different departments in alternate years, you may take whichever course best fits your schedule.

Note for Arts students: Credit for computer courses offered by the School of Computer Science is governed by rules specified in each individual course description.

Note for Science, and Bachelor of Arts and Science students: Credit for statistics courses offered by faculties other than Arts and Science requires the permission of the Associate Dean (Student Affairs), Science, except for students in the B.Sc. Major in Environment, who may take required statistics courses in the Faculty of Agricultural and Environmental Sciences necessary to satisfy their program requirements. Credit for computer courses offered by faculties other than Science requires the permission of the Associate Dean (Student Affairs) Science, and will be granted only under exceptional circumstances.

Credit for statistics courses for **Arts, Science, and Bachelor of Arts and Science students** will be given with the following stipulations:

- Credit will be given for only **one** of the following introductory statistics courses: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EDPE 375, GEOG 202, MATH 203, MGCR 271, MGCR 273, POTH 204, SOCI 350.
- Students who have already received credit for PSYC 204 will **not** receive credit for any of the following: AEMA 310, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, EDPE 375, GEOG 202, MATH 203, MGCR 271, MGCR 273, POTH 204, SOCI 350.
- Credit will be given for only **one** of the following intermediate statistics courses: AEMA 411, ECON 227D1/D2, ECON 257D1/D2, GEOG 351, MATH 204, PSYC 305, SOCI 461, with the exception that you may receive credit for both PSYC 305 and ECON 227D1/D2 or ECON 257D1/D2.
- Students who have already received credit for MATH 324 or MATH 357 will **not** receive credit for any of the following: AEMA 310, AEMA 411, BIOL 373, ECON 227D1/D2, ECON 257D1/D2, GEOG 202, GEOG 351, MATH 203, MATH 204, MGCR 271, MGCR 273, PSYC 204, PSYC 305, SOCI 350.
- For 500-level statistics courses not listed above, students must consult a program/department advisor to ensure that no significant overlap exists. Where such overlap exists with a course for which the student has already received credit, credit for the 500-level course will not be allowed.

6.2 Courses Outside the Faculties of Arts and of Science

The following regulations apply to students in the B.A. & Sc. who want to take courses outside the Faculties of Arts and of Science:

- Regardless of your minimum credit requirement toward your B.A. & Sc., you are allowed a maximum of 12 credits in ELECTIVE and/or COMPLEMENTARY courses taken in faculties other than the Faculties of Arts and of Science.
- Students in certain designated programs that include a number of REQUIRED and COMPLEMENTARY courses in other faculties are permitted a maximum of 30 credits outside the Faculties of Arts and of Science. These programs are the Interfaculty and Honours programs in Environment, the Minor concentration in Environment, the Interfaculty and Honours programs in Sustainability, Science and Society, and the Major concentration in Geography (Urban Studies).
- Any courses taught at McGill University may be used toward the maximum allowed, except for courses taught by the School of Continuing Studies, for which you receive credits only in Continuing Studies (see the SOUSA website for a list of approved courses: mcgill.ca/science/undergraduate/handbook#bascc-continuing).
- For the purpose of this policy, courses taught in other faculties and specifically listed in [Faculty of Arts > Undergraduate](#) or [Faculty of Science > Undergraduate](#) are considered as courses taught in the Faculties of Arts and of Science.
- **The maximum number of credits allowed will be strictly enforced.**

6.3 Distance Education Courses

- A maximum of 6 credits of courses taught through distance education may be used as electives toward the B.A. & Sc. degree at McGill.
- Courses taught through distance education from institutions other than McGill will be approved as transfer credits under the following conditions:
 - the course is given by a government-accredited, degree-granting institution acceptable to McGill;
 - the course counts for credit toward degrees granted at the institution giving the course;
 - prior approval for the course is obtained from the Science Office for Undergraduate Student Advising (SOUSA).
- The combined total of regular course credits and distance education course credits may not exceed the permitted maximum number of credits per term according to the regulations for the B.A. & Sc. (see [University Regulations and Resources > Undergraduate > Registration > : Course Load](#)).
- Courses taught through distance education may not be used to complete program requirements, except on an individual basis when serious, documented circumstances warrant it. In such cases, prior approval must be obtained from your program advisor and the Associate Dean (Student Affairs), Science.

6.4 Courses in English as a Second Language (ESL)

ESL courses are only open to students whose primary language is not English and who have studied for fewer than five years in English-language secondary institutions. As a student in the B.A. & Sc., you may take a maximum of 12 credits—including academic writing courses for non-anglophones—from the list of ESL courses published at the [McGill Writing Centre](#).

6.5 Registration for First-Year Seminars

Registration for First-Year Seminars is limited to students in their first year of study at McGill, i.e., newly admitted students in U0 or U1. These courses are designed to provide a closer interaction with professors and better working relations with peers than is available in large introductory courses. These seminars endeavour to teach the latest scholarly developments and expose participants to advanced research methods. Registration is on a first-come, first-served basis. The maximum number of students in any seminar is 25, although some are limited to even fewer than that.

Students may take only one First-Year Seminar during the first year at McGill. If students register for more than one, they will be obliged to withdraw from all but one of them.

A list of First-Year Seminars is available at [Faculty of Arts > Undergraduate > Faculty of Arts Degree Requirements > Course Requirements > : First-Year Seminar Courses](#) and [Faculty of Science > Undergraduate > Faculty Degree Requirements > Course Requirements > : First-Year Seminars: Registration](#).

7 Advising

If you need 96 or fewer credits to complete your degree requirements, you must consult an academic advisor in your proposed department of study to obtain advice and approval of your course selection (please see [section 5.4: Departmental Programs](#)). To facilitate program planning, you must present your transcript(s) and letter of admission. If you have not fulfilled the B.A. & Sc. Freshman/Foundation Year program requirements, you should also seek advice from an advisor in the Science Office for Undergraduate Student Advising (SOUSA). For a detailed description of advising and registration procedures, refer to [University Regulations and Resources > Undergraduate > : Undergraduate Advising, : Registration](#), and to the [website for newly admitted undergraduate students](#), as well as the [SOUSA website](#), and finally your department's website.

If you need 97–120 credits to complete your degree requirements, you will normally be registered in a Freshman/Foundation Year program until you complete your first year. You must consult an advisor in the Science Office for Undergraduate Student Advising (SOUSA) to obtain advice and approval of your course selection. For a detailed description of advising and registration procedures, you should refer to [mcgill.ca/accepted](#), and to the information on the [SOUSA website](#).

Advising for all returning students takes place in March for the upcoming academic year. For more information, refer to [mcgill.ca/science/undergraduate/academic-advising](#).

7.1 Choosing a B.A. & Sc. Program

The B.A. & Sc. program is intended for students with well-defined interdisciplinary interests.

It should be noted that there also exists considerable flexibility within the Bachelor of Arts and Bachelor of Science programs. If you are more interested in Arts, but would like to study some Science, you can do so within the B.A. degree. Similarly, if you are more interested in Science but would like to study some Arts, you can do so within the B.Sc. degree. For example, B.Sc. students may complete minor concentrations in Arts and vice versa.

There are four ways to complete programs in the B.A. & Sc. degree:

Multi-Track System

The multi-track system is intended for students who want a program that includes significant components from both Arts and from Science.

You complete 36 credits of Arts courses, 36–38 credits of Science courses, and the required integrative course BASC 201 (3 credits). You can combine an Arts major concentration with a Science major concentration (36–38 credits each). Additional guidelines for the multi-track system can be found in [section 5.4: Departmental Programs](#). You will find the program descriptions for the major concentrations in Science, which are unique to the B.A. & Sc. within this section of this publication.

Descriptions of programs offered in Arts are located in [Faculty of Arts > Undergraduate](#).

Interfaculty Programs

Interfaculty programs are interdisciplinary in nature. There are currently three such programs: Environment; Cognitive Science; and Sustainability, Science and Society. In these programs, you complete 54 credits of the interfaculty program, a minor of 18 credits, and the recommended integrative course BASC

Interfaculty Programs

201 (3 credits). You must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of your interfaculty program and your minor concentration or program.

Environment

The growth of technology, globalization of economies, and rapid increases in population and per capita consumption have all had dramatic environmental impacts. The interfaculty program in Environment for the Bachelor of Arts and Science is designed to provide students with a broad “Liberal Arts/Science” training. In combination with careful mentoring, this program offers a great degree of flexibility, allowing students to develop the skills and knowledge base required to address the myriad of environmental problems that exist today. Further information about Environment programs and academic advising can be found at mcgill.ca/environment.

Cognitive Science

The interfaculty program in Cognitive Science offered within the B.A. & Sc. degree is the only major program currently offered at McGill for students interested in this discipline. The requirements encourage you to choose courses in two of the five subject areas in Cognitive Science (Computer Science, Linguistics, Neuroscience, Philosophy, Psychology) as the focus of your program. In addition, if you are interested in research in this field, you may include up to 12 credits of research courses within your program. Further information can be found at mcgill.ca/cogsci.

Sustainability, Science, and Society

Food security, access to clean water, poverty, climate change, biodiversity loss, sustainable energy production—a long list of challenges face human societies in the 21st century. In the face of these multiple challenges, the grand imperative of the 21st century is Sustainable Well-being—in other words, how can we provide for a world population that could stabilize at 9–10 billion, while also maintaining the Earth’s life support systems. Find out more about this interdisciplinary program at mcgill.ca/sss.

Joint Honours

The Joint Honours option is similar to the multi-track system except that you complete two joint honours components, one in Arts and one in Science. Currently, the choice of Science component is restricted to either Math or Psychology, and a required integrative course BASC 201 (3 credits). However, there is a great range of choices for the Arts component.

To choose the Joint Honours option, you must meet the GPA/CGPA requirements set out in [University Regulations and Resources > Undergraduate > Graduation > Graduation Honours > : Honours and First-Class Honours for Faculties of Arts and Science \(including B.A. & Sc.\)](#).

Honours

There are three B.A. & Sc. honours programs. The Honours programs in Environment, in Cognitive Science, and in Sustainability, Science, and Society are similar to their relevant interfaculty programs, but each has additional GPA requirements and an additional required 6-credit research course. If you are completing an honours program, you must also complete a minor concentration or program, and the recommended integrative course BASC 201 (3 credits). You must complete at least 21 credits in the Faculty of Arts and at least 21 credits in the Faculty of Science as part of your honours program and your minor concentration or program.

To choose the honours option, you must meet the GPA/CGPA requirements set out in [University Regulations and Resources > Undergraduate > Graduation > Graduation Honours > : Honours and First-Class Honours for Faculties of Arts and Science \(including B.A. & Sc.\)](#).

7.2 Preparation for Graduate School

Any choice of undergraduate degree and program constrains options for graduate school. The B.A. & Sc. program provides good preparation for graduate degrees in integrated disciplines such as Cognitive or Environmental Science as well as in the Sustainability, Science and Society program. Depending on the Arts or Science specific program you want to enter in graduate school, the B.A. & Sc. may or may not be adequate preparation. If you intend to pursue an arts or science-specific program at the graduate level, you should consult academic advisors in that discipline at McGill and at universities where you intend to apply in order to find out whether the B.A. & Sc. will prepare you adequately. If you are considering continuing on in a specific science graduate program, you should examine the difference between the preparation provided by the 36-credit major concentrations in the B.A. & Sc. program versus the significantly more specialized major and honours programs offered in the B.Sc. programs.

8 Freshman/Foundation Year Interest Groups

Freshman/Foundation Year Interest Groups (FIGs) are groups of approximately 25 newly-admitted (U0) students in the B.Sc. or B.A. & Sc., led by a Faculty of Science staff member and an upper-year undergraduate student. They meet once every two weeks in the Fall semester to discuss a wide range of topics, such as science in the news, program choices, undergraduate research opportunities, and various aspects of life in Montreal. The purpose of a FIG is to ease the transition to McGill and Montreal and to provide you an opportunity to interact with a professor and with other U0 students in a small group. FIGs carry

no credit and there is no charge. For more information and to see how to register, refer to mcgill.ca/science/undergraduate/accepted/checklist/firstyear/foundation#figs.

9 Examinations

You should see [University Regulations and Resources](#) > [Undergraduate](#) > : [Examinations: General Information](#) for information about final examinations and deferred examinations.

The exam schedules are posted on the McGill website, mcgill.ca/exams, normally one month after the start of classes for the tentative Examination Schedule, and two months after the start of classes for the final Examination Schedule.

Students are warned not to make travel arrangements to leave Montreal prior to the scheduled end of any examination period.

10.1 Minor Concentrations or Minors

10.1.1 Faculty of Arts

The Arts minor concentrations available to B.A. & Sc. students are listed here. Since the B.A. & Sc. degree requires a certain number of credits in the arts and in the sciences, there are special requirements for B.A. & Sc. students. To be counted as an arts minor or minor concentration, the program must include at least 15 credits of arts courses. Similarly, to be counted as a science minor or minor concentration, the program must include at least 15 credits of science courses.

For example, a student completing the 18-credit African Studies Minor Concentration in Arts must complete at least 15 of those credits in arts courses and at most 3 credits in science courses. As another example, a student completing a 24-credit Science Minor in Interdisciplinary Life Sciences must complete at least 15 credits in science courses and at most 9 credits in arts courses.

10.2 Major Concentrations**10.2.1 Faculty of Arts**

Since the B.A. & Sc. degree requires a certain number of credits in the Arts and in the Sciences, there are special requirements for B.A. & Sc. students. To be counted as an Arts major concentration, the program must include at least 30 credits of Arts courses. Similarly, to be counted as a Science major concentration, the program must include at least 30 credits of Science courses.

For example, a student completing the 36-credit African Studies Major concentration in Arts must complete at least 30 of those credits in Arts courses and at most 6 credits in Science courses.

The Arts major concentrations available to B.A. & Sc. students are listed here.

11 Browse Academic Units & Programs

The Bachelor of Arts and Science (B.A. & Sc.) is a special and unique degree that is jointly offered by McGill's two largest faculties: the Faculty of Arts and the Faculty of Science. The overall objective is to provide a broad, liberal education spanning substantive areas in the two faculties so that students can learn diverse content and varied methods of inquiry.

11.1 Programs in Arts or in Science

B.A. & Sc. programs include:

- B.A. & Sc. **Arts** programs
- B.A. & Sc. **Science** programs that are open to B.A. students (i.e., programs in Computer Science, Mathematics and Statistics, and Psychology as well as some in Geography)
- **Science Minors** that are open to B.A. & Sc. students
- B.A. & Sc. **Science** programs that are open only to B.A. & Sc. students

For a list of B.A. & Sc. programs, see [section 10: Overview of Programs Offered](#).

11.2 B.A. & Sc. Freshman/Foundation Year Program

Students who need to complete 97–120 credits to fulfil their degree requirements are admitted to the Freshman/Foundation Year Program. Students with specific career goals should consult an academic advisor about their choice of program within the B.A. & Sc. However, students intending to pursue further studies following the B.A. & Sc. should refer to the admission requirements of particular programs for the appropriate prerequisite courses.

In particular, students should note the following:

- The minimum Freshman/Foundation Year science requirements in the B.A. & Sc. may not satisfy the introductory science requirements of all medical/dental schools;
- The Major Concentration in Psychology may not provide a sufficiently focused background for admission to many graduate programs in psychology;
- The Major Concentration in Chemistry is not certified by the *Ordre des Chimistes du Québec*. Students interested in pursuing a career in chemistry in Quebec are advised to take an appropriate B.Sc. program in chemistry.

For further details about the B.A. & Sc. Freshman/Foundation Year Program, refer to the Faculty of Science's web page [Your first year courses > B.A. & Sc. Freshman/Foundation Year \(U0\) course selection](#).

11.2.1 Bachelor of Arts and Science (B.A. & Sc.) - Freshman/Foundation Year (30 credits)

Students who need to complete 97–120 credits to fulfil their degree requirements are admitted to the Freshman/Foundation Year. The Honours Cognitive Science, which is restricted to students in the B.A. & Sc., is an extension of the Interfaculty program and offers students an opportunity to undertake a research project in close association with professors in their main Arts and Science focus areas. Prior to selecting the Honours program, students should meet with the Cognitive Science Program Adviser <https://www.mcgill.ca/science/undergraduate/advice/sousa> and review the B.A. & Sc. academic requirements for Honours and First Class Honours, which can also be found under "University Regulations and Resources," "Graduation," and "Graduation Honours."

To receive an Honours degree, students are required to achieve a minimum overall program GPA of 3.3 at graduation, and attain a grade of B+ (3.3) or better in COGS 444. Students must complete both the 60-credit Honours program and an approved minor concentration or a minor in the Faculties of Arts or of Science.

Note: B.A. & Sc. students who take interfaculty programs, including the Honours in Cognitive Science, must take at least 21 credits in Arts and 21 credits in Science across their interfaculty program and their minor or minor concentration.

Information on this Minor Concentration and its special restrictions is in the Desautels Faculty of Management website at www.mcgill.ca/desautels/programs/bcom/academics/areas-study/economics/minor-concentration-economics. Students should consult with the advisers in both the Faculty of Management and the Department of Economics for advice on this minor concentration.

11.12.2 Bachelor of Arts (B.A.) - Major Concentration Economics (36 credits)

The Major Concentration in Economics is a planned sequence of courses designed to permit the student a degree of specialization in economics. It consists of 36 credits in courses approved by the Economics Department. Students wishing to pursue this concentration need to consult the department's rules and regulations at: www.mcgill.ca/economics/undergraduates/majorminor.

All students who wish to begin (or continue) the Major Concentration Economics should see a majors adviser in the Department of Economics in each of their university years. Further information may be obtained from the Department's website, or from any majors adviser; consult the Department website for a list of advisers and their email addresses.

Students who are registering for the first time with the Department should attend the orientation meeting in August (check the website for details) before seeing an adviser.

A student choosing the Major Concentration Economics must take 36 credits in Economics. The Economics courses will normally be taken at McGill and will be selected from the courses shown below. Major Concentration in Economics students entering University at the U1 year in September should directly proceed to ECON 230D1/ECON 230D2 without taking ECON 208 and ECON 209.

Note: Students who wish to switch from the Major Concentration to Honours Economics must complete all the requirements of the Honours program.

Mathematics: Mastery of high school mathematics is required for all economics courses.

Prerequisites: In general, 200-level courses have no prerequisites and 300-level and 400-level courses have ECON 230D1/ECON 230D2 or ECON 250D1/ECON 250D2 (or ECON 208 and ECON 209, or MGCR 293 and ECON 295) as prerequisites. In addition, 400-level courses have Calculus 1 (or its equivalent) or a course in mathematical techniques for economic analysis (or its equivalent) as a prerequisite.

Required Courses (18 credits)

All students must take 6 credits of approved statistics courses. Students should refer to the Department's document "Rules on Stats Courses for Economics Students" available at: <http://www.mcgill.ca/economics/undergraduates/courses/>.

Complementary Courses (18 credits)

18 credits in Economics selected from other 200- (with numbers above 209), 300-, 400- and 500-level courses. At least 6 of these credits must be in 400- or 500-level courses. No more than 6 credits may be at the 200 level.

11.12.3 Bachelor of Arts (B.A.) - Joint Honours Component Economics (30 credits)

Students wishing to study at the Honours level in two disciplines can combine Joint Honours program components in any two approved disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs" on the Economics Department website.

Joint Honours students should consult an adviser in each of the relevant departments to discuss their course selection and their interdisciplinary research project (if applicable) in each year of their program.

For the Economics component of this program, Joint Honours students should consult: <http://www.mcgill.ca/economics/undergraduates/honours>. For the current list of advisers in Economics and their advising times, see the website of the Department of Economics.

Continuation in the Economic component of this program from one year to the next requires a minimum grade of B- in ECON 250D1/D2, and a minimum B- average in the required and complementary Honours Economics courses. Students failing to meet these requirements must switch out of the Honours program. If they continue to register in Honours, they will not be allowed to graduate with Honours. Note that graduation with Honours has more stringent requirements (see below) than these.

For graduation with the Economics component, a student must also obtain a 3.00 GPA in the required courses, a 3.00 average in the required and complementary credits in Economics, and a CGPA of 3.00. For a First Class Honours degree, the minimum requirements are a 3.50 program GPA in the required courses, a 3.50 average in the required and complementary credits in Economics, and a CGPA of 3.50. In cases where a student takes a Supplemental Exam in an Economics course, both the original and the Supplemental Exam grades will be counted in the calculation of the GPA and CGPA averages.

Students also have to meet the requirements of the other component of this program and of the relevant Faculty for Honours and First Class Honours.

11.13.4 Bachelor of Arts (B.A.) - Major Concentration English - Cultural Studies (36 credits)

The Cultural Studies option concentrates on analysis of forms of cultural expression and symbolic interaction, and of the various media through which these may be disseminated and transformed. Such study concerns symbolic form, aesthetically based forms of analysis, and the various modes of criticism and theory relevant to media which contain both verbal and non-verbal elements. The aim is above all to hone students' analytical and interpretive skills while introducing them to specific critical approaches to cultural studies. This is not a major in journalism or communications; and while many of our graduates go on to do creative work in a variety of media, instruction in film and video production is not part of the curriculum.

11.16.3 Bachelor of Arts (B.A.) - Jt Honours Component Gender, Sexuality, Feminist, & Social Justice Studies (36 credits)

The Joint Honours program offers a significant degree of analysis and depth of study into contemporary and historical critical issues centered on gender, sexuality, feminism, and social justice beyond the Major through required and complementary course work, intensive research, and seminars. The program enables students to explore the meanings and intersections of such categories as gender, race, class, sexual identification, age, ability, citizenship, and national identity, for example, and to examine how such categories might inform and reproduce power relationships. The Joint Honours program culminates in the completion of an Honours thesis, supervised by a faculty member whose approval is sought the year prior. The Colloquium requires supplemental reading and writing assignments, training in research and thesis writing methods, presentation to the group of theses in progress, and response to the work of others. Joint Honours students must maintain a program GPA of 3.30 and a CGPA of 3.00.

Students are advised to take GSFS 200 and GSFS 250 in their first year in the program, and GSFS 300 in their second year of the program. Students must take GSFS 495D1/D2 and GSFS 497D1/D2 in their last full year of the program.

11.17.4 Bachelor of Arts (B.A.) - Minor Concentration Health Geography (18 credits)

There is increasing consensus around the idea that health is not just an expression of individual characteristics but an interaction between the characteristics of the individual and the environments, both physical and social, to which one is exposed over a lifetime of daily living and working. Health outcomes vary dramatically by physical and social characteristics of places both within and between countries and these provide a wedge for our understanding of the factors that might be modified to improve the health of large groups of people. The B.A.; Minor Concentration in Health Geography introduces students to both local and global health issues and provides a skill set in spatial and statistical analyses of diverse health outcomes in populations.

11.17.10 Bachelor of Arts (B.A.) - Joint Honours Component Geography (37 credits)

Students wishing to study at the Honours level in two disciplines can combine Joint Honours program components of Geography and another Arts discipline. As with the regular Honours program, the Geography component of Joint Honours focuses on the interactions among people, places, and the environment, and requires an Honours project, which entails independent, original research conducted over two semesters, normally in the final year of study, under the supervision of a department faculty member. The requirements for Honours programs vary considerably among units, so students interested in Joint Honours should consult an adviser in each department to discuss their course selection and research project(s).

In addition to the Faculty of Arts requirement that Joint Honours students maintain a CGPA of at least 3.00, students in a Joint Honours Component Geography program must maintain a program GPA of at least 3.30 to remain in the Honours program and receive an Honours degree. In addition to meeting these Geography requirements, students must meet the requirements set forth by the other unit.

11.26 Mathematics and Statistics

The Department of Mathematics and Statistics, the discipline, and specific courses are described in [Faculty of Science > Undergraduate > Browse Academic Units & Programs > : Mathematics and Statistics \(MATH\)](#).

11.26.1 Bachelor of Arts (B.A.) - Minor Concentration Mathematics (18 credits)

The Minor Concentration Mathematics is offered in two versions: an expandable version, for students who wish to leave open the option of expanding the program into a Major Concentration Mathematics, and a non-expandable version for students who know on entry into the Minor that they do not wish to expand it into a major concentration.

The Minor Concentration Mathematics may be taken in conjunction with a major concentration in some other discipline under option A of the Multi-track System. Students planning on taking the Major Concentration Mathematics and the Minor Concentration Mathematics as part of Multi-track option C should select the Supplementary Minor Concentration in Mathematics in place of this Minor concentration.

Under option C, it is not possible to combine the Minor Concentration Mathematics and the Minor Concentration Statistics. Students wishing to do this should instead take the Major Concentration Mathematics under option B (two major concentrations) and select a large number of statistics complementaries.

For more information about the Multi-track System options please refer to the Faculty of Arts regulations under "Faculty Degree Requirements", "About Program Requirements", and "Departmental Programs".

No overlap is permitted with other programs.

11.28 Physics

The Department of Physics, the discipline, and specific courses are described in [Faculty of Science > Undergraduate > Browse Academic Units & Programs > : Physics \(PHYS\)](#).

11.28.1 Bachelor of Science (B.Sc.) - Minor Physics (18 credits)

The 18-credit Minor permits no overlap with any other programs. It contains no Mathematics courses, although many of the courses in it have Math pre- or corequisites. It will, therefore, be particularly appropriate to students in Mathematics, but it is also available to any Science student with the appropriate mathematical background.

Students in certain programs (e.g., the Major Chemistry) will find that there are courses in the Minor that are already part of their program, or that they may not take for credit because of a substantial overlap of material with a course or courses in their program. After consultation with an adviser, such students may complete the Minor by substituting any other physics course(s) from the Major or Honours Physics programs.

The Major Concentration Physics, which is restricted to students in the B.A. & Sc. or B.Sc./B.Ed., is a planned sequence of courses designed to permit a degree of specialization in this discipline. This program is insufficient to prepare a student for professional or graduate work in physics; students interested in pursuing a career in physics are advised to take the appropriate B.Sc. program in physics.

11.29.3 Bachelor of Arts (B.A.) - Joint Honours Component Political Science (36 credits)

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours Program components from two Arts disciplines. Prior to registering for each Joint Honours component, students should consult an adviser in each department for approval of their course selection and their interdisciplinary research project (if applicable).

To enter, remain and graduate in Joint Honours, students must achieve/maintain a 3.3 average in their political science courses and more than half of the political science grades must be at the B+ level or higher. According to Faculty regulations, Joint Honours students must maintain a minimum CGPA of 3.00 in general. In addition to meeting these Political Science requirements, students must meet the requirements set forth by the other department.

To be awarded First Class Joint Honours at graduation, in addition to the Faculty requirement of a 3.50 CGPA, students must achieve a 3.6 average in their political science courses and more than half of political science grades must be at the A- level or higher. All political science courses taken at McGill are counted in determining a student's standing. (The specific criteria are given in the brochure "Major and Honours Program Guide", which may be found on the Department website <http://www.mcgill.ca/politicalscience/>.) To be awarded Joint Honours at graduation, students must be registered in the Joint Honours program in their final year. At graduation, students' Joint Honours standing will be determined by their overall record in the Joint Honours program. In addition to meeting these Political Science requirements, students must meet the requirements set forth by the other department.

Students may enter the Joint Honours program in U1.

Required Course (3 credits)

POLI 210*	(3)	Political Science Research Methods
-----------	-----	------------------------------------

* The POLI 210 requirement is waived for students admitted to McGill BEFORE Fall 2017. The POLI 210 requirement is waived for students who have taken SOCI 211.

NOTE: If the POLI 210 requirement is waived, students must still fulfill the 36-credit program requirement.

Complementary Courses (33 credits)

33 credits of complementary courses selected with the following specifications.

3 credits in methods courses at the 300 or 400 level.

No more than one-half (18 credits) of a student's political science credits may be in any one field (Canadian Politics, Comparative Politics (Developed Areas and Developing Areas), International Relations, Political Theory). However, if the field is Comparative Politics and if courses are taken in both Developed Areas and Developing Areas, the maximum is 21 credits. Refer to the lists below for course choices in each field.

One quarter (9 credits) of political science credits must be at the 400-level or above including one 500-level Honours Seminar. Refer to the lists below for course choices at the 400 and 500 levels in each field.

No more than 12 credits of political science courses (including POLI 210) may be at the 200 level. No more than 3 credits may be taken at the 200 level in each of the five groups of courses (Canadian Politics, International Relations, Comparative Politics (Developed Areas and Developing Areas), Political Theory, Methods). Students may not take 200-level political science courses in their final year.

No more than 12 POLI transfer credits can be used toward the program requirements.

11.30 Psychology

The Department of Psychology information, programs, and courses are described in:

- [Faculty of Arts > Undergraduate > Browse Academic Units & Programs > : Psychology](#)
- [Faculty of Science > Undergraduate > Browse Academic Units & Programs > : Psychology \(PSYC\)](#)

11.30.1 Bachelor of Arts (B.A.) - Minor Concentration Psychology (18 credits)

Psychology is the scientific study of the mind and behaviour. The B.A. Minor Concentration Psychology (18 credits) is intended to compliment the student's primary field of study by providing a focused introduction to specialized topics in psychology. .

Program Requirements

Students registered in a Bachelor of Arts program in another department may pursue the Minor Concentration Psychology. This minor concentration is expandable for students who may wish to transfer into the Major Concentration Psychology at a later date.

Program Prerequisites (0-3 credits)

Students planning to enter the Minor Concentration Psychology program should have completed an introductory course in general psychology in CEGEP. Otherwise, they can complete it in their first year of study at McGill University (see below).

Introduction to Psychology or General Psychology in CEGEP is equivalent to PSYC 100 at McGill. Students who have not completed either of those courses are advised to take PSYC 100 in their first year.

McGill Freshman students are recommended to complete the following course in their U0 year:

PSYC 100	(3)	Introduction to Psychology
----------	-----	----------------------------

Complementary Courses (18 credits)

6 credits selected from:

PSYC 204	(3)	Introduction to Psychological Statistics
PSYC 211	(3)	Introductory Behavioural Neuroscience
PSYC 212	(3)	Perception
PSYC 213	(3)	Cognition
PSYC 215	(3)	Social Psychology

12 credits in Psychology at the 300 level or above.

11.30.2 Bachelor of Arts (B.A.) - Major Concentration Psychology (36 credits)

Psychology is the scientific study of the mind and behavior. The B.A. Major Concentration in Psychology (36 credits) provides students with a basic overview, covering the core areas of psychological science as well as more advanced courses in specialized content areas. Students also have the option to complete a research course(s) (see Program Requirements for details). Note: this program may not provide sufficient undergraduate background preparation for certain graduate programs. Students who wish to go on to graduate training in psychology, and those who wish to complete the undergraduate credits in psychology as specified by the Ordre des Psychologues du Québec (which are required by some graduate psychology programs), are advised to take the supplementary Minor Concentration Behavioural Science. This specialization option will give students the space to take the additional courses they may need for such applications.

Program Prerequisites (0-6 credits)

Students planning to enter the Major Concentration Psychology program should have completed an introductory course in general psychology and biology in CEGEP. Otherwise, they can complete them in their first year of study at McGill University (see below).

Introduction to Psychology or General Psychology in CEGEP is equivalent to PSYC 100 at McGill. Students who have not completed either of those courses are advised to take PSYC 100 in their first year.

Students who have completed Human Biology or General Biology 1 or 2 in CEGEP would have the recommended biology background. Students who have not completed one of those courses are advised to complete BIOL 115 or BIOL 111 or BIOL 112 during their first year.

11.30.3 Bachelor of Arts (B.A.) - Joint Honours Component Psychology (36 credits)

Psychology is the scientific study of the mind and behavior. The B.A.; Joint Honours Psychology Component (36 credits) provides students with an overview of psychological science, covering the core areas as well as select advanced courses. Students are required to take a 2-term research course and seminar; students also have the option to complete an additional research course (see Program Requirements for details). This program emphasizes practice in the research techniques and statistics used in graduate school and professionally later on. However, the Joint Honours Program is not as comprehensive as the B.A. or B.Sc. Honours Program, and does not give students the space to take the additional courses they may need for certain graduate programs in psychology or to complete the undergraduate credits in psychology as specified by the Ordre des Psychologues du Québec (which are required by some graduate psychology programs). Students must apply to the Joint Honours program; admission is selective.

Program Requirements

Students who wish to study at the Honours level in two Arts disciplines may apply to combine Joint Honours program components from two Arts disciplines. For a list of available Joint Honours programs, see "Overview of Programs Offered" and "Joint Honours Programs".

Joint Honours students should consult an adviser in each department to discuss their course selection.

Admission to the B.A. Joint Honours Component Psychology is highly selective. Typically, students apply to the B.A. Joint Honours program at the end of U1; students may apply at the end of U2, although there are often fewer seats for students applying in U2 (also the B.A. Joint Honours program requirements must be completed within the remaining terms). To be eligible to apply to the B.A. Joint Honours in Psychology, students must have completed a minimum of 27 graded credits in the academic year prior to applying (fall and winter terms only). All applicants must have taken PSYC 204, PSYC 211, PSYC 212, PSYC 213, PSYC 215 and PSYC 305. Exceptional performance in these courses is a primary criterion for acceptance into the B.A. Joint Honours program. In addition to performance in these psychology courses, a minimum cumulative grade point average (CGPA) of 3.50 is required to apply. However, since enrolment is limited, the typical CGPA cut-off is ~3.75, although this varies from year to year depending on the applicant pool. Once in the B.A. Joint Honours program, students must obtain a GPA of 3.00 in the U2 year to continue in the B.A. Joint Honours program for U3. Students are also encouraged to continue to complete a minimum of 27 graded credits in their U2 and U3 academic years. This is also the minimum number of credits required to be eligible for fellowships and awards.

The application is available on the Psychology Department website at: <https://www.mcgill.ca/psychology/undergraduate/current-students/research-opportunities/research-courses>. The deadline is specified on the website. Candidates will be informed of the Department's decision via email before classes begin in September.

Awarding of the B.A. Joint Honours program will depend on both CGPA and a minimum grade of B in PSYC 380D1/PSYC 380D2 and PSYC 306. "First Class Honours" is awarded to students who obtain a minimum CGPA of 3.50 and a minimum grade of A- in PSYC 380D1/PSYC 380D2 and PSYC 306. "Joint Honours" is awarded to students with a minimum CGPA of 3.00 and a minimum grade of B in PSYC 380D1/PSYC 380D2 and PSYC 306.

In addition to the requirements of the B.A. Joint Honours Component Psychology, students must also complete all requirements of their other Joint Honours component.

Program Prerequisites (0-6 credits)

Students planning to enter the B.A. Joint Honours Psychology program, should have completed an introductory course in general psychology, biology and statistics at the CEGEP level. Otherwise, they can complete them in their first year of study at McGill University (see below).

Introduction to Psychology or General Psychology in CEGEP is equivalent to PSYC 100 at McGill. Students who have not completed either of those courses are advised to take PSYC 100 in their first year.

Students who have completed Human Biology or General 1or 2 in CEGEP would have the recommended biology background.

Student who have not completed ones of those courses are advised to complete BIOL 115 or BIOL 111 or 112 during their first year.

McGill Freshman students are recommended to complete the following courses in their U0 year:

Bachelor of Arts students exempt from PSYC 204 replace this course with 3 credits at the 300 level or above in Psychology (PSYC), Anthropology (ANTH), Linguistics (LING), or Sociology (SOCl).

**Note: Students who wish to apply to the Joint Honours program in Psychology must complete the required courses above, including PSYC 305 in their U1 year to be eligible for admission. 11.34.3 Bachelor of Arts and Science (B.A. & Sc.) - Interfaculty Program in Sustainability, Science and Society (54 credits)

The B.A. & Sc. Interfaculty Program in Sustainability, Science and Society focuses on the interdisciplinary and integrative knowledge and skills required to effectively understand and address challenges in transitioning to a sustainable future. Challenges are often defined by multiple dimensions, including scientific-technological, socio-economic, political-institutional, ethical, and human behavioural. The program is built on three pillars: 1) science and technology - to provide an in-depth understanding of the biophysical basis for current issues and challenges; 2) economics, policy, and governance - to understand how we can make the sustainability transition; 3) ethics, equity, and justice - to discuss why we need change, and the issues of equity and justice associated with taking action. This program is offered in collaboration with the Bieler School of Environment.

11.34.4 Bachelor of Arts and Science (B.A. & Sc.) - Honours in Sustainability, Science and Society (60 credits)

The grand challenge of the 21st century is sustainable well-being; that is, to improve human well-being while maintaining the Earth's life-support systems. This B.A. & Sc. program provides the interdisciplinary and integrative knowledge and skills required to effectively understand and address this challenge in its multiple dimensions—scientific-technological, socio-economic, political-institutional, ethical, and human behavioural - and to chart a transition to sustainability. It is built upon three pillars: 1) Science and Technology, to provide an in-depth understanding of the underpinnings of the problems of concern along these dimensions; 2) Economics, Policy, and Governance, to understand how we can make the sustainability transition; and 3) Ethics, Equity, and Justice, to discuss why we need change, and the issues of equity and justice associated with taking action. This program is a partnership between Geography and the Bieler School of Environment and will be administered through Geography.

The Honours program allows students to pursue a research project with the supervision of a McGill University faculty member, leading to an honours thesis. Applicants must have a minimum program GPA (GPA of all required and complementary courses taken at McGill) of 3.3 to enter the Honours program. Students must earn a B grade (3.0) or higher for the Honours Research course (ENVR 495, 6 credits). Students are required to achieve a minimum overall CGPA of 3.0 at graduation, and a minimum Program GPA of 3.3 to obtain Honours. Honours students need to identify a supervisor, an honours project, and register in ENVR 495. Honours students are encouraged to participate in 500-level seminars with graduate students.
