What's included?:

- Accommodation: New Residence Hall (McGill Residence)
 - Double occupancy rooms
 - Limited availability for single rooms. If you would like to request a single room, please email summer.academy@mcgill.ca . It will be on a first come, first serve basis, but we will do our best to accommodate single room requests.
- 3 meals a day
- Academic courses and materials
- Evening and weekend activities
- 24/7 Supervision by trained McGill personnel from arrival to departure

Program Options:

(Registrants must select one of the two options)

1. Humanitarian Crisis and International Cooperation

What are humanitarian crises? Why do they occur? How has the “international community” responded to armed conflict and natural disasters? What is the impact of international law?

Humanitarian crisis and international cooperation is a noncredit course that aims to provide you with a critical outlook on the concept of humanitarian crisis, on the ideology of humanitarianism and, more concretely, on the multifaceted and effects of humanitarian assistance.

2. Understanding the Brain: An Introduction to Neuroscience

Have you ever wondered about the brain and how it works? How does it allow us to move, feel, think, and speak? Understanding the Brain: An Introduction to Neuroscience is a noncredit program that will give you a deep understanding of the brain, one of the most complex systems in the universe. This class will cover not only introductory topics like the mechanics of the brain, but will also delve into subjects like neurpharmacology, human and animal senses, memory, brain imaging techniques, and language.

Program Selection

- Humanitarian Crisis and International Cooperation
 Understanding the Brain: An Introduction to Neuroscience
