- 2a. List 1 to 3 main impacts you expect/wish your project to have on McGill structures, processes and/or systems. These must relate to the Project Vision and Project Goal you mentioned above. Specify how those impacts will positively transform peoples' behaviors/perspectives/habits on McGill campus(es).
- 2b. How will this continue after funding is spent (i.e. how will you institutionalize the project)? (1550 char. max. ~250 words)

We believe that a physically accessible, inclusive garden project will increase participation in on-campus food-production initiatives, by removing barriers and thereby increasing participants' sense of belonging and knowledge pertaining to gardening and food securty. The garden space will also serve to highlight the advantages of the principles of Universal Design, and inform community members of the values associated with them.

We have confirmation from the Midnight Kitchen or ongoing funding (\$200/year) to cover yearly operation costs of the outdoor garden (seeds, soil, tools, etc.).

- 3a. How do you intend to address social, environmental, and/or economic dimensions of sustainability in your project's objectives?
- 3b. Please also address how the project will be planned and managed/executed sustainably (e.g. material local sourcing, accessibility, etc.; see the SPF Sustainability Brief). (1045 char. max. ~165 words)

We intend to remove physical barriers to gardening/food-production, and in doing so increase availability of the associated activities and community engagement to physically disabled members of the community. Workshops will engage community members, and share knowledge associated with food production and food security. By donating the fresh produce grown in our garden to the Midnight Kitchen, we will contribute to the well-being of economically disadvantaged members of the community. We will source materials locally, where possible, and also practice seed-saving, to minimize the need for sourcing them in the future.

Beside appear the five categories in which the McGill students, faculty, and staff think the University can make a positive difference within society. The McGill Sustainability Strategy, Vision 2020, describes a specific vision and goals for each of these categories, as they were defined by the McGill direct stakeholders through a comprehensive consultation process.

- 4a. In the figure, check all the categories under which your project falls (Select only one if no other categories apply to your project).
- 4b. Among the categories that you checked, select the one that you think is most relevant to your project:

  Dominant Category: Connectivity

#### Vision 2020 Categories Exploring Sustainability · Collaborative · Finance & Investment Community-Engaged RESEARCH · Diversity & Equity · Social-Ecological Footprint Transparency Interdisciplinary $\boxtimes$ $\boxtimes$ · Inclusiveness · Applied Student Research · Accessibility **GOVERNANCE &** Experimentation ADMINISTRATION · Accountability Leadership · Citizenship · Human Resources · Leadership · Lifelong Learning **EDUCATION Experiential Learning** · Sustainability · Materials $\boxtimes$ Knowledge & Skills · Energy **OPERATIONS** · Food · Water X Transportation · Wellness & Health · Land Community Engagement · Living Lab Sense of Belonging Accessibility · Community Spaces

5. List 3 to 5 key stakeholders on/off McGill campus(es) that will be involved with and/or impacted by your project, and indicate their respective role in your project.

Stakeholder's Name(s)	Affiliation	Role in the Project	Confirmed Support
Midnight Kitchen	Garden neighbours, donees	rec produce, part. in workshops	Yes
Access Ambassadors	OSD registered students	volunteers, workshop participants	Yes
Ca Pousse	Comm group familiar w/ McGill	facilitating workshops	Yes
Office for Sexual Violence Response	Student resource/response office	volunteers, workshop participants	Yes
			Choose one.

6. List the 4 most important <u>objectives</u> of your project and at least one key related <u>activity</u> that you need to conduct to reach each of these and your project impacts. Make your objectives and activities as <u>S.M.A.R.T.</u> as possible. Also indicate at least one <u>output</u> and a key <u>success indicator</u> per activity. (read instructions below; you can also refer to the <u>Sample Project Plan <5K</u> for guidance)

Of your 4 **S.M.A.R.T. objectives**, a minimum of one should relate to "monitoring" your project's progress and effectiveness. Another objective should relate to "outreach" (e.g. raising awareness about your project's topic, promoting your project in the McGill Community and/or calling for individuals' participation), and two should be more specific to your project, i.e. "other" objectives. The nature of these "other" objectives is for you to decide and tailor to your project.

For each of your 4 objectives, you should indicate at least one key activity.

The bottom of the table is for you to list four additional activities that you think are crucial to the success of your project. As such, depending on what you think is important to having the impact(s) you envision, you may end up having three activities in total that relate to your monitoring objective (e.g. developing a survey, any other activity that will help you and other stakeholders learn through your project) or to outreach (e.g. producing and sharing a video about the project). In any case, since you have limited space, only indicate the objectives and activities that relate best to the impacts you listed under Question 2, and thus to sustainability at McGill.

For each objective/activity, specify a key **success indicator** that you think should be used to assess its degree of achievement/completion. Your indicators can be qualitative or quantitative (e.g. number of participants, participants, participant testimonials, website analytics, quantity of energy saved, etc.). See the document <u>Sample Indicators</u> for inspiration. Also indicate the **output(s)** that will be created as a result of each activity and objective, such as a deliverable (e.g. video, report), training, website, network, design plan, or any other output adding value to the project and helping reach its objectives/impacts.

	of Objective/ Activity  Main S.M.A.R.T. Objectives / Activities Output(s) (125 char. max. ~20 words)  Resulting Output(s) (initials + if paid, estimated # of hours to complete objective/activity) (35 char. max.)  Complete objective/activity) (35 char. max.) 7. Now, about the check boxes: Select a total of 3 success indicators that you wish to track and report on during your project. These 3 indicators should be the most relevant to your goal and to creating a culture of sustainability at McGill. They should also be relatively easy to monitor.

When selecting your indicators, make sure that you will have/plan the time and resources you will need to allocate to monitor them throughout the course of your project. Before you start your project, the SPF may ask you to change a chosen indicator for another that seems more pertinent to the SPF or to the University sustainability reporting. Note that, in addition to these three indicators, you will be asked to track four other generic ones that will be specified in the Award Letter.

You will be required to indicate progress towards your final 7 indicators in your progress and final reports to the SPF. Because the SPF values the experiences and learning that occurs during your project (not only results), these reports will also gather related information through open-ended questions.

We have selected the 3 Success Indicators that we wish to monitor during the project:

#### - BUDGET -

Please refer to the SPF Guide to Budgeting to complete your project's budget.

#### REVENUES

Indicate any funding you will receive or anticipate receiving to complete your project, including funds from McGill Departments and Units.

Reminder: If your project is approved, any financial contributions from McGill department/unit will need to be confirmed with a letter or email from its Financial/Budget Officer at the beginning and end of the project.

(A) Funding Source(s)	(B) Amount	(C) Status
1. Sustainability Projects Fund (SPF)	\$3,877.14	Unconfirmed
2.		Choose one.
3.		Choose one.
4.		Choose one.
REVENUES GRAND TOTAL - add all (B)	\$3,877.14	

#### **EXPENSES**

#### 1. Salaries & Wages (only if applicable)

If applicable, indicate the job position(s) under your project and the associated costs. See the SPF Guide to Budgeting for further instructions.

(A)	(B)	(C)	(D)	(E)	(F)	(G)	(H)
Position Title	~# of Hours per Week	~# of Week	Hourly Wage* (\$)	Subtotal (\$) (B x C x D)	20% Benefits	Total Cost (\$) (E x F)	Funding Sources**
	_		\$0.00	\$ 0.00	1.2	\$ 0.00	
			\$0.00	\$ 0.00	1.2	\$ 0.00

Goal:

By retrofitting planter-boxes (SPF-owned planters, formerly used by the Santropol project), we intend to create a physically accessible gardening space, to remove barriers and increase inclusivity while demonstrating principles of Universal Design. Volunteers (Access Ambassadors) will cultivate fresh produce for donation to the Midnight Kitchen, and the garden will serve as a space to host workshops (facilitated by Ca Pousse) relating to food production and food security.

### Appendix 2:

Letter of Support from Midnight Kitchen:

Letter of support:

Hi Mark,

Midnight Kitchen is interested in providing ongoing support of the OSD garden project. Our summer garden coordinators will help maintain the project and we can cover up to \$200 per year for reoccuring or maintenance costs.

Cheers,

Wade

on behalf of Midnight Kitchen

#### Midnight Kitchen

#### Appendix 3:

Hi Mark,

Following our conversation regarding the giving garden project, I would like to confirm that our office would like to participate as collaborators. We have a team of volunteers to draw on and seek to collaborate with different offices and projects on campus to enlarge the programming and possibilities for involvement for people seeking support from our office. As such, we can participate in the promotion of the project and the workshops through our website, our social media presence (Facebook and Instagram) as well as through our upcoming monthly newsletter.

I look forward to working with you and your team on this project!

Best,

#### Émilie Marcotte, M.S.W., ts

T: 514.398.4486 emilie.marcotte@mcgill.ca

McGill is situated on the traditional territory of the **Kanien'kehà:ka**/People of the Flint (Mohawk) who are a founding nation of the **Haudenosaunee**/People of the Longhouse (Iroquois) Confederacy. Do you know how many <u>Nations</u> are in Quebec?

#### Appendix 4:

Addressing general concerns:

#### The question of need/demand

We feel that the demand/need for this type of garden is exemplified by the simple fact that an accessible gardening space does not yet exist at McGill. The first principle of Universal Design is "Equitable Use", and we believe that inclusivity should be approached proactively, not reactively.

#### Workshops in following years

It is not our intention to use the services of Ca Pousse on an annual basis, but rather to have the people involved in this season's activities facilitate workshops next year, and onwards, to share knowledge and skills that they acquired during the season.

#### **Workshop Attendance**

In addition to the anticipated attendance of Access Ambassadors, the workshops will be open to members of the Midnight Kitchen collective, students and staff associated with the Office for Sexual Violence Response. If response is low from these groups, which we do not anticipate being the case, we will send open-invites to all other McGill gardening/farming groups. Additionally, we will host 4 of the 6 workshops during the winter and fall semesters (2 in winter, 2 in fall), in order to ensure higher chance of student participation.

#### **Garden Volunteers**

Due to the fairly small number of planter-boxes that we will be dealing with, we don't anticipate any problems in forming a committed group of volunteers for the season. We have approximately 2000 students registered through the OSD who will receive recruitment information from us, and the Office for Sexual Violence Response will also share recruitment information through their social media networks.

#### Approval for garden

Design specs and an estimate from an off-campus carpenter have been submitted to Lorraine Mercier and Emmanuelle Lapointe, via Paul Guenther, who advised that I submit the application specifying that approval is "pending".

(copy of correspondence from Paul Guenther to Lorraine Mercier and Emmanuelle Lapointe)

Hi Lorraine & Emmanuelle,

As briefly discussed this morning, an SPF application is being made by the OSD to modify some of the Edible Campus boxes to create a section of the installation which is accessible.

Below, you will find the material and weight information you requested. Although the infrastructure is not aligned with the design standards, neither is the rest of the Edible Campus. The Burnside Terrace offers a space for these type of informal installations and I think it is a major benefit for the campus.

Unless you specify otherwise, I will indicate that your office (and ours) is in support this initiative.

#### Thank you!
