### Sites

- Jewish General Hospital
- MUHC: Glen-Royal Victoria Hospital
- MUHC: Montreal Children's Hospital
- MUHC: Montreal General Hospital
- St. Mary's Hospital

### Elective Description

Minimum 3-4 week electives or 4 consecutive weeks split between different sites (e.g., 2 weeks MCH, 2 weeks RVH). From July to Mid-December. 1-2 student per sites. Limited spots available.

### Elective Duration

3-4 weeks

### Educational Objectives

Student will have supervised experiences related to the basics of resuscitation, preoperative, intraoperative, and postoperative anesthesia care and on-call clinical apprentice sessions. Students will also be asked to demonstrate understanding of clinical applications of pharmacology and physiology. Additionally, students will acquire the basic knowledge to assess and treat acute and chronic pain.

### Scope of Work

Work hours 7:30-4:00, on-call schedule 1 call (4 pm to 10 pm) operating room, and preoperative assessments in operating room.

### Recommended Reading/Preparation

Anesthesia Primer Book - D2L
